This information is not complete and does not contain all of the information you should consider before investing in our notes. About Our Company

We are a real estate investment trust (REIT) that has been at the forefront of seniors housing and health care real estate since the Company was founded in 1970. We are an S&P 500 company headquartered in Toledo, Ohio. Our portfolio spans the full spectrum of seniors housing and health care real estate, including seniors housing communities, long-term/post-acute care facilities, outpatient medical buildings, and inpatient and outpatient medical centers. Our capital programs, when combined with comprehensive planning, development and property management services, make us a single-source solution for acquiring, planning, developing, managing, repositioning and monetizing real estate assets. As of June 30, 2015, our diversified portfolio consisted of 1,411 properties in 46 states, the United Kingdom and Canada.

Our principal executive offices are located at 4500 Dorr Street, Toledo, Ohio 43615, and our telephone number is (419) 247-2800. Our website address is www.welltower.com. The information on our website is not incorporated by reference in this prospectus supplement or the accompanying prospectus, and our web address is included in this prospectus supplement as an inactive textual reference only.

Our Strategy

Our primary objectives are to protect stockholder capital and enhance stockholder value. We seek to pay consistent cash dividends to stockholders and create opportunities to increase dividend payments to stockholders as a result of annual increases in net operating income and portfolio growth. To meet these objectives, we invest across the full spectrum of seniors housing and health care real estate and diversify our investment portfolio by property type, relationship and geographic location.

We invest in seniors housing and health care real estate primarily through acquisitions, developments and joint venture partnerships. We diversify our investment portfolio by property type, relationship and geographic location. In determining whether to invest in a property, we focus on the following: (1) the experience of the obligor s/partner s management team; (2) the historical and projected financial and operational performance of the property; (3) the credit of the obligor/partner; (4) the security for any lease or loan; (5) the real estate attributes of the building and its location; (6) the capital committed to the property by the obligor/partner; and (7) the operating fundamentals of the applicable industry. We conduct market research and analysis for all potential investments. In addition, we review the value of all properties, the interest rates and covenant requirements of any facility-level debt to be assumed at the time of the acquisition and the anticipated sources of repayment of any existing debt that is not to be assumed at the time of the acquisition.

We monitor our investments through a variety of methods determined by the type of property. Our proactive and comprehensive asset management process for seniors housing properties generally includes review of monthly financial statements and other operating data for each property, review of obligor/partner creditworthiness, property inspections and review of covenant compliance relating to licensure, real estate taxes, letters of credit and other collateral. Our internal property management division actively manages and monitors the outpatient medical portfolio with a comprehensive process including review of, among other things, tenant

relations, lease expirations, the mix of health service providers, hospital/health system relationships, property performance, capital improvement needs, and market conditions. In monitoring our portfolio, our personnel use a proprietary database to collect and analyze property-specific data. Additionally, we conduct extensive research to ascertain industry trends.

We evaluate the operating environment in each property's market to determine the likely trend in operating performance of the facility. When we identify unacceptable trends, we seek to mitigate, eliminate or transfer the risk. Through these efforts, we are generally able to intervene at an early stage to address any negative trends, and in so doing, support both the collectability of revenue and the value of our investment.

RISK FACTORS

An investment in our notes involves risks. You should carefully consider the risk factors described below, together with all of the other information included in this prospectus supplement and the accompanying prospectus or incorporated by reference into this prospectus supplement and the accompanying prospectus, including the section entitled Risk Factors included in our Annual Report on Form 10-K for the year ended December 31, 2014, before making an investment in our notes.

Risks Related to Our Business

Our expected results may not be achieved, and actual results may differ materially from our expectations. This may be a result of various factors, including, but not limited to:

the status of the economy;

the status of capital markets, including availability and cost of capital;

issues facing the health care industry, including compliance with, and changes to, regulations and payment policies, responding to government investigations and punitive settlements and operators /tenants difficulty in cost-effectively obtaining and maintaining adequate liability and other insurance;

changes in financing terms;

competition within the health care and seniors housing industries;

negative developments in the operating results or financial condition of operators/tenants, including, but not limited to, their ability to pay rent and repay loans;

our ability to transition or sell properties with profitable results;

the failure to make new investments or acquisitions as and when anticipated;

natural disasters and other acts of God affecting our properties;

our ability to re-lease space at similar rates as vacancies occur;

our ability to timely reinvest sale proceeds at similar rates to assets sold;

operator/tenant or joint venture partner bankruptcies or insolvencies;

Edgar Filing: WELLTOWER INC. - Form 424B5

the cooperation of joint venture partners;

government regulations affecting Medicare and Medicaid reimbursement rates and operational requirements;

liability or contract claims by or against operators/tenants;

unanticipated difficulties and/or expenditures relating to future investments or acquisitions;

environmental laws affecting our properties;

changes in rules or practices governing our financial reporting;

the movement of U.S. and foreign currency exchange rates;

our ability to maintain our qualification as a REIT;

key management personnel recruitment and retention; and

other risk factors included in the reports we file from time to time with the SEC, including, but not limited to, the risks identified in the section entitled "Risk Factors" included in our Annual Report on Form 10-K for the year ended December 31, 2014.

Table of Contents

Risks Related to Our Notes

The notes will be effectively subordinated to our secured indebtedness and subordinated to all liabilities of our subsidiaries from time to time outstanding

The notes are obligations only of Welltower Inc. and will be effectively subordinated to all liabilities of our subsidiaries and to our secured indebtedness to the extent of the assets securing such indebtedness. See Description of the Notes and Description of Other Indebtedness.

Our business operations may not generate the cash needed to service our indebtedness

We cannot assure you that our business will generate sufficient cash flow from operations or that future borrowings will enable us to pay our indebtedness, including the notes we are offering in this prospectus supplement. Our total consolidated debt as of June 30, 2015 was approximately \$11.6 billion, which represented approximately 43% of our total capitalization as of that date.

You may not be able to resell the notes because there may not be an active trading market for the notes

The notes will be a further issuance of, will be fungible with and will be consolidated and form a single series with our outstanding 4.000% notes due 2025, issued on May 26, 2015 in the amount of \$750,000,000. The notes will have the same CUSIP number and will trade interchangeably with the previously issued notes in this series immediately upon settlement. We do not intend to apply for listing of the notes on any securities exchange or for quotation of the notes on any automated dealer quotation system. Any market for the notes may not necessarily be maintained. If an active trading market is not maintained for the notes, holders may not be able to resell them at all or at prices acceptable to them. The liquidity of any trading market for, and future trading prices of, the notes will depend on many factors, including, among other things, the number of holders of the notes, our operating results, financial performance and prospects, prevailing interest rates, changes in our credit rating or outlook, the market for similar securities and the overall securities market, and may be adversely affected by unfavorable changes in these factors. Therefore, no assurance can be given as to the liquidity of any trading market for the notes.

We may be able to issue substantially more debt, a portion of which could be additional secured debt

The indenture does not limit the amount of indebtedness we may issue and we routinely incur additional indebtedness (both secured and unsecured) in order to finance existing and new properties. However, the limitation on liens provision of the indenture limits the amount of secured debt that we are able to issue. As of June 30, 2015, we would have been able to incur up to approximately \$7.90 billion of secured debt that would be senior to the notes under this test. The Credit Agreement (as defined in Description of Other Indebtedness Credit Facilities) includes a similar limitation on liens. As of June 30, 2015, we would have been able to incur up to approximately \$5.16 billion of secured debt under that test. See Description of Other Indebtedness for additional information.

An adverse rating of the notes may cause their trading price to fall

A rating agency rating the notes may lower ratings on the notes in the future. If rating agencies reduce, or indicate that they may reduce, their ratings in the future, the trading price of the notes could significantly decline.

We assume no obligation to update or revise publicly any forward-looking statements, whether because of new information, future events, or otherwise, or to update the reasons why actual results could differ from those projected in any forward-looking statements.

- (2) *On October 7, 2015, \$430 million was outstanding under our primary unsecured credit facility at an average interest rate of 1.13%.*
- (3) *Amounts reflect the outstanding amounts due under the \$250 million Canadian-denominated unsecured term credit facility due 2018 based on the Canadian dollar/U.S. dollar exchange rate in effect on June 30, 2015.*
- (4) *Amounts reflect the outstanding amount of notes in U.S. dollars based on the Sterling/U.S. dollar exchange rate in effect on June 30, 2015.*
- (5) *The amounts shown do not reflect original issue discount pursuant to ASC 470-20, Debt with Conversion and Other Options. Under ASC 470, an entity must separately account for the liability and equity components of convertible debt instruments (such as the convertible senior notes) that may be settled entirely or partially in cash upon conversion in a manner that reflects the issuer's economic interest cost. The effect of ASC 470 on the accounting for the convertible senior notes is that the equity component is included in the capital in excess of par value section of stockholders' equity on our consolidated balance sheet and the value of the equity component is treated as original issue discount for purposes of accounting for the debt component of the convertible senior notes. The original issue discount for the convertible senior notes is included in Unamortized premiums/discounts and fair value adjustments.*
- (6) *On July 17, 2015, we notified the holders of our 3.00% Convertible Senior Notes due 2029 that (i) we will redeem all outstanding 3.00% Convertible Senior Notes due 2029 on August 17, 2015 at a price payable in cash equal to 100% of the principal amount of such notes being redeemed, plus accrued and unpaid interest through and including August 16, 2015; and (ii) they are entitled to convert all or a portion of their 3.00% Convertible Senior Notes due 2029 into cash and, if applicable, shares of our common stock beginning on July 17, 2015 and ending at the close of business on August 14, 2015. All outstanding 3.00% Convertible Senior Notes due 2029 were either converted or submitted for conversion by August 14, 2015 or redeemed on August 17, 2015.*

Table of Contents**DESCRIPTION OF THE NOTES**

The following description of the particular terms of the notes supplements and, to the extent inconsistent therewith, replaces the description of the general terms and provisions of the debt securities set forth in Description of Debt Securities in the accompanying prospectus, to which reference is hereby made. The following summary is qualified in its entirety by reference to the Indenture (as defined below and as described in the accompanying prospectus) and the Supplemental Indenture (as defined below). Capitalized terms not otherwise defined herein shall have the meanings given them in the accompanying prospectus. In this section, unless specifically noted otherwise, the terms we, us, and our refer only to Welltower Inc. (formerly known as Health Care REIT, Inc.), and not its subsidiaries.

General

The \$ of notes to be issued upon completion of this offering (the new notes) will be a further issuance of, will be fungible with and will be consolidated and form a single series with our outstanding 4.000% notes due June 1, 2025, issued on May 26, 2015 in the amount of \$750,000,000 (the existing notes). The notes will be issued under the Indenture, dated as of March 15, 2010 (the Indenture), between us and The Bank of New York Mellon Trust Company, N.A. (the Trustee), as supplemented by Supplemental Indenture No. 11, dated as of May 26, 2015, as amended by Amendment No. 1 to Supplemental Indenture No. 11, to be dated October , 2015 (as amended, the Supplemental Indenture), relating to the notes. The notes will have the same CUSIP number and will trade interchangeably with the previously issued notes in this series immediately upon settlement. Upon completion of this offering, the aggregate principal amount of outstanding notes of this series will be \$. This series may be re-opened and we may from time to time issue additional notes of the same series. Unless the context otherwise requires, for all purposes of the Indenture, the Supplemental Indenture and this Description of the Notes, references to the notes include the new notes, the existing notes and any additional notes actually issued.

The notes will be issued only in fully registered form without coupons, in minimum denominations of \$2,000 and integral multiples of \$1,000. The notes will be evidenced by a global note in book-entry form, except under the limited circumstances described under Book-Entry System below. The notes will not be listed on any national securities exchange or for quotation on any automated dealer quotation system.

The notes will mature on June 1, 2025 (unless earlier redeemed as described below under Optional Redemption). The notes will bear interest from May 26, 2015 at the rate per year shown on the front cover of this prospectus supplement payable semi-annually in arrears on June 1 and December 1 of each year, commencing December 1, 2015, to the persons in whose names the notes are registered at the close of business on the May 15 or November 15, as the case may be, next preceding such interest payment date. If an interest payment date or the maturity date falls on a day that is not a business day, the related payment of principal or interest will be made on the next business day as if made on the date the payment was due and no interest will accrue on the amount payable for the period from and after that interest payment date or the maturity date.

The notes will be senior unsecured obligations of ours and will rank equally with each other and with all of our other unsecured senior indebtedness outstanding from time to time. The notes will not be guaranteed by our subsidiaries. The notes will be effectively subordinated to our secured indebtedness to the extent of the assets securing such indebtedness and to all liabilities of our subsidiaries. Accordingly, such prior indebtedness and liabilities will have to be satisfied in full before you will be able to realize any value from our encumbered or indirectly held properties. Our subsidiaries, which own approximately 90% of our real estate investments as of June 30, 2015, are separate legal entities and have no obligation to pay any amounts due pursuant to the notes. As of June 30, 2015, we and/or certain of our subsidiaries had indebtedness and other obligations in the principal amount of approximately \$10.4 billion. In addition, as of June 30, 2015, there was \$350.0 million outstanding under our primary unsecured credit facility, \$500.0 million outstanding under our unsecured term credit facility and \$200.4 million outstanding, based on the exchange rate in effect on June 30, 2015, under our unsecured Canadian-denominated term credit facility. See Description of Other Indebtedness Credit Facilities below. We and our subsidiaries may also incur additional indebtedness, including secured indebtedness, subject to the provisions described below under Certain Covenants.

Certain Covenants

The notes will not be secured by a mortgage, pledge or other lien. We covenant in the Supplemental Indenture not to pledge or otherwise subject to any Lien, any of our property or assets or those of our subsidiaries unless the notes are secured by such pledge or Lien equally and ratably with all other obligations secured thereby so long as such other obligations shall be so secured; provided, however, that such covenant does not apply to Liens securing obligations which do not in the aggregate at any one time outstanding exceed 40% of the sum of (i) the Total Assets (as defined below) of us and our consolidated subsidiaries as of the end of the calendar year or quarter covered in our most recently filed Form 10-K or Form 10-Q, as the case may be, prior to the incurrence of such additional Liens, and (ii) the purchase price of any real estate assets or mortgages receivable acquired, and the amount of any securities offering proceeds received (to the extent that such proceeds were not used to acquire real estate assets or mortgages receivable or used to reduce Indebtedness), by us or any subsidiary since the end of such calendar quarter, including those proceeds obtained in connection with the incurrence of such additional Liens. In addition, this covenant does not apply to:

- (f) Purchase money Liens on property acquired or held by us or our subsidiaries in the ordinary course of business, securing Indebtedness incurred or assumed for the purpose of financing all or any part of the cost of such property; provided, that (i) any such Lien attaches concurrently with or within 20 days after the acquisition thereof, (ii) such Lien attaches solely to the property so acquired in such transaction, (iii) the principal amount of the Indebtedness secured thereby does not exceed 100% of the cost of such property, and (iv) the aggregate amount of all such Indebtedness on a consolidated basis for us and our subsidiaries shall not at any time exceed \$1,000,000;

We also covenant in the Supplemental Indenture that we will not create, assume, incur, or otherwise become liable in respect of, any Indebtedness if the aggregate outstanding principal amount of Indebtedness of us and our consolidated subsidiaries is, at the time of such creation, assumption or incurrence and after giving effect thereto and to any concurrent transactions, greater than 60% of the sum of (i) the Total Assets of us and our consolidated subsidiaries as of the end of the calendar year or quarter covered in our most recently filed Form 10-K or Form 10-Q, as the case may be, prior to the incurrence of such additional Indebtedness and (ii) the purchase price of any real estate assets or mortgages receivable acquired, and the amount of any securities offering proceeds received (to the extent that such proceeds were not used to acquire real estate assets or mortgages receivable or used to reduce Indebtedness), by us or any subsidiary since the end of such calendar quarter, including those proceeds obtained in connection with the incurrence of such additional Indebtedness.

We also covenant in the Supplemental Indenture that we will have or maintain, on a consolidated basis, as of the last day of each fiscal quarter, Interest Coverage (as defined below) of not less than 150%.

Finally, we covenant in the Supplemental Indenture that we will maintain, at all times, Total Unencumbered Assets (as defined below) of not less than 150% of the aggregate outstanding principal amount of the Unsecured Debt (as defined below) of us and our subsidiaries on a consolidated basis.

Unsecured Debt means Funded Indebtedness less Indebtedness secured by Liens on our property or assets and those of our subsidiaries.

Defeasance and Covenant Defeasance

The notes are subject to defeasance and covenant defeasance, as described in the Indenture and the Supplemental Indenture. Specifically, we, at our option (a) will be discharged from any and all obligations in respect of the notes (except for certain obligations to issue definitive notes in exchange for temporary notes, to register the transfer or exchange of the notes, to replace destroyed, stolen, lost or mutilated notes, and to maintain an office or agency in respect of the notes and hold moneys for payment in trust) or (b) will be released from our obligations to comply with certain of the covenants provided for in the Indenture, including but not limited to those that are specified under *Certain Covenants* above with respect to the notes, and the occurrence of an event of default with respect to any such covenants and including those events of default described below under *Events of Default* shall no longer be an event of default if, in either case, we irrevocably deposit with the Trustee, in trust, money or U.S. Government obligations that through payment of interest thereon and principal thereof in accordance with their terms will provide money in an amount sufficient to pay all of the principal of (and premium, if any) and any interest on the notes on the dates such payments are due (which may include one or more redemption dates designated by us) in accordance with the terms of such notes.

Such a trust may only be established if, among other things, (a) no event of default or event which with the giving of notice or lapse of time, or both, would become an event of default under the Indenture shall have occurred and be continuing on the date of such deposit, and (b) we shall have delivered an opinion of counsel to the effect that the holders of the notes of such series will not recognize gain or loss for United States federal income tax purposes as a result of such deposit or defeasance and will be subject to United States federal income

Table of Contents

tax in the same manner as if such defeasance had not occurred. In the event we omit to comply with our remaining obligations under the Indenture after a defeasance of the Indenture with respect to the notes and the notes are declared due and payable because of the occurrence of any undefeased event of default, the amount of money and U.S. Government obligations on deposit with the Trustee may be insufficient to pay amounts due on the notes at the time of the acceleration resulting from such event of default. However, we will remain liable in respect of such payments.

Sinking Fund

The notes are not entitled to any sinking fund payments.

Optional Redemption

The notes may be redeemed at our option, at any time in whole or from time to time in part, at a redemption price, as determined by us, equal to the sum of (i) the principal amount of the notes (or portion of such notes) being redeemed plus accrued and unpaid interest thereon to but excluding the redemption date and (ii) the Make-Whole Amount, if any; *provided, however*, that if we redeem the notes 90 or fewer days prior to the maturity date, the redemption price will equal 100% of the principal amount of the notes (or portion of such notes) being redeemed plus accrued and unpaid interest thereon to but excluding the redemption date.

If notice has been given as provided in the Indenture and funds for the redemption of any notes (or any portion of the notes) called for redemption shall have been made available on the redemption date referred to in such notice, such notes (or any portion of the notes) will cease to bear interest on the redemption date specified in such notice and the only right of the holders of the notes will be to receive payment of the redemption price.

Notice of any optional redemption of any notes (or any portion of the notes) will be transmitted to holders, as shown in the security register for such notes, not more than 30 nor less than 15 days prior to the redemption date. The notice of redemption will specify, among other items, the redemption price and the principal amount of the notes held by such holder to be redeemed.

We will notify the Trustee at least 5 business days prior to giving notice of redemption (or such shorter period as is satisfactory to the Trustee) of the aggregate principal amount of such notes to be redeemed and their redemption date. If less than all of the notes are to be redeemed at our option, the Trustee shall select, in such manner as it shall deem fair and appropriate, the notes to be redeemed in whole or in part. As long as the notes are held through The Depository Trust Company (DTC), such selection shall be made by DTC in accordance with its applicable procedures.

As used herein:

Make-Whole Amount means, in connection with any optional redemption or accelerated payment of any notes, the excess, if any, of (i) the aggregate present value, as of the date of such redemption or accelerated payment, of each dollar of principal being redeemed or paid and the amount of interest (exclusive of interest accrued to the date of redemption or accelerated payment) that would have been payable in respect of each such dollar if such redemption or accelerated payment had not been made, determined by discounting, on a semi-annual basis, such principal and interest at the Reinvestment Rate (as defined below) (determined on the third business day preceding the date such notice of redemption is given or declaration of acceleration is made) from the respective dates on which such principal and interest would have been payable if such redemption or accelerated payment had not been made, to but excluding the date of such redemption or accelerated payment, over (ii) the aggregate principal amount of the notes being redeemed or paid.

Reinvestment Rate means 0.300% plus the arithmetic mean of the yields under the respective heading *Week Ending* published in the most recent Statistical Release under the caption *Treasury*

Table of Contents

Constant Maturities for the maturity (rounded to the nearest month) corresponding to the remaining life to maturity, as of the payment date of the principal being redeemed or paid. If no maturity exactly corresponds to such maturity, yields for the two published maturities most closely corresponding to such maturity shall be calculated pursuant to the immediately preceding sentence and the Reinvestment Rate shall be interpolated or extrapolated from such yields on a straight-line basis, rounding in each of such relevant periods to the nearest month. For the purpose of calculating the Reinvestment Rate, the most recent Statistical Release published prior to the date of determination of the Make-Whole Amount shall be used.

Statistical Release means that statistical release designated H.15(519) or any successor publication that is published weekly by the Federal Reserve System and that establishes yields on actively

traded United States government securities adjusted to constant maturities, or, if such statistical release is not published at the time of any determination under the Indenture, then such other reasonably comparable index that shall be designated by us.

Book-Entry System

The notes will be issued in the form of fully registered global securities (Global Securities) that will be deposited with, or on behalf of, DTC, and registered in the name of DTC's partnership nominee, Cede & Co. Except under the circumstance described below, the notes will not be issuable in definitive form. Unless and until it is exchanged in whole or in part for the individual notes it represents, a Global Security may not be transferred except as a whole by DTC to a nominee of DTC or by a nominee of DTC to DTC or another nominee of DTC or by DTC or any nominee of DTC to a successor depository or any nominee of such successor.

DTC has provided the following information to us: DTC is a limited-purpose trust company organized under the New York Banking Law, a banking organization within the meaning of the New York Banking Law, a member of the Federal Reserve System, a clearing corporation within the meaning of the New York Uniform Commercial Code, and a clearing agency registered pursuant to the provisions of Section 17A of the Securities Exchange Act of 1934, as amended (the Exchange Act).

DTC holds and provides asset servicing for over 3.5 million issues of U.S. and non-U.S. equity issues, corporate and municipal debt issues, and money market instruments that DTC's participants (Direct Participants) deposit with DTC. DTC also facilitates the post-trade settlement among Direct Participants of sales and other securities transactions in deposited securities through electronic computerized book-entry transfers and pledges between Direct Participants' accounts. This eliminates the need for physical movement of securities certificates. Direct Participants include both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, clearing corporations, and certain other organizations. DTC is a wholly-owned subsidiary of The Depository Trust & Clearing Corporation (DTCC). DTCC is the holding company for DTC, National Securities Clearing Corporation and Fixed Income Clearing Corporation, all of which are registered clearing agencies. DTCC is owned by the users of its regulated subsidiaries. Access to the DTC system is also available to others such as both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, and clearing corporations that clear through or maintain a custodial relationship with a Direct Participant, either directly or indirectly (Indirect Participants). The DTC rules applicable to its participants are on file with the SEC.

Purchases of Global Securities under the DTC system must be made by or through Direct Participants, which will receive a credit for the Global Securities on DTC's records. The ownership interest of each actual purchaser of each Global Security (Beneficial Owner) is in turn to be recorded on the Direct and Indirect Participants' records. Beneficial Owners will not receive written confirmation from DTC of their purchase. Beneficial Owners are, however, expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the Direct or Indirect Participant through which the Beneficial Owner entered into the transaction. Transfers of ownership interests in the Global Securities are to be accomplished by entries made on the books of Direct and Indirect Participants acting on behalf of Beneficial Owners. Beneficial Owners will not receive certificates representing their ownership interests in Global Securities, except in the event that use of the book-entry system for the Global Securities is discontinued.

Table of Contents

To facilitate subsequent transfers, all Global Securities deposited by Direct Participants with DTC are registered in the name of DTC's partnership nominee, Cede & Co., or such other name as may be requested by an authorized representative of DTC. The deposit of Global Securities with DTC and their registration in the name of Cede & Co. or such other DTC nominee do not effect any change in beneficial ownership. DTC has no knowledge of the actual Beneficial Owners of the Global Securities; DTC's records reflect only the identity of the Direct Participants to whose accounts such Global Securities are credited, which may or may not be the Beneficial Owners. The Direct and Indirect Participants will remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to Direct Participants, by Direct Participants to Indirect Participants, and by Direct Participants and Indirect Participants to Beneficial Owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

Neither DTC nor Cede & Co. (nor any other DTC nominee) will consent or vote with respect to the Global Securities unless authorized by a Direct Participant in accordance with DTC's procedures. Under its usual procedures, DTC mails an Omnibus Proxy to us as soon as possible after the record date. The Omnibus Proxy assigns Cede & Co.'s consenting or voting rights to those Direct Participants to whose accounts the Global Securities are credited on the record date (identified in a listing attached to the Omnibus Proxy). Principal and interest payments on the Global Securities will be made to Cede & Co., or such other nominee as may be requested by an authorized representative of DTC. DTC's practice is to credit Direct Participants' accounts, upon DTC's receipt of funds and corresponding detail information from us or the Trustee, on payable date in accordance with their respective holdings shown on DTC's records. Payments by Participants to Beneficial Owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in street name, and will be the responsibility of such Participant and not of DTC, the Trustee or us, subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of principal and interest to Cede & Co. (or such other nominee as may be requested by an authorized representative of DTC) is our responsibility or that of the Trustee, disbursement of such payments to Direct Participants will be the responsibility of DTC, and disbursement of such payments to the Beneficial Owners will be the responsibility of Direct and Indirect Participants.

DTC may discontinue providing its services as depository with respect to the Global Securities at any time by giving reasonable notice to us or the Trustee. Under such circumstances, in the event that a successor securities depository is not obtained, Global Security certificates are required to be printed and delivered.

We may decide to discontinue use of the system of book-entry-only transfers through DTC (or a successor securities depository). In that event, Global Security certificates will be printed and delivered to DTC.

Clearstream. Clearstream Banking, société anonyme (Clearstream), is incorporated under the laws of Luxembourg as a professional depository. Clearstream holds securities for its participating organizations (Clearstream Participants) and facilitates the clearance and settlement of securities transactions between Clearstream Participants through electronic book-entry changes in accounts of Clearstream Participants, thereby eliminating the need for physical movement of certificates. Clearstream provides Clearstream Participants with, among other things, services for safekeeping, administration, clearance and establishment of internationally traded securities and securities lending and borrowing. Clearstream interfaces with domestic markets in several countries. As a professional depository, Clearstream is subject to regulation by the Luxembourg Commission for the Supervision of the Financial Sector (Commission de Surveillance du Secteur Financier). Clearstream Participants are recognized financial institutions around the world, including underwriters, securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations, and may include the underwriters. Indirect access to Clearstream is also available to others, such as banks, brokers, dealers and trust companies that clear through or maintain a custodial relationship with a Clearstream Participant either directly or indirectly.

Distributions with respect to notes held beneficially through Clearstream will be credited to cash accounts of Clearstream Participants in accordance with its rules and procedures to the extent received by DTC for Clearstream.

Euroclear. Euroclear Bank S.A./N.V. (Euroclear) was created in 1968 to hold securities for participants of Euroclear (Euroclear Participants) and to clear and settle transactions between Euroclear Participants through simultaneous electronic book-entry delivery against payment, thereby eliminating the need for physical movement of certificates and any risk from lack of simultaneous transfers of securities and cash. Euroclear

includes various other services, including securities lending and borrowing and interfaces with domestic markets in several markets in several countries. Euroclear is operated by Euroclear Bank S.A./N.V. (the Euroclear Operator), under contract with Euroclear plc, a U.K. corporation. All operations are conducted by the Euroclear Operator, and all Euroclear securities clearance accounts and Euroclear cash accounts are accounts with the Euroclear Operator, not Euroclear plc. Euroclear plc establishes policy for Euroclear on behalf of Euroclear Participants. Euroclear Participants include banks (including central banks), securities brokers and dealers and other professional financial intermediaries and may include the underwriters. Indirect access to Euroclear is also available to other firms that clear through or maintain a custodial relationship with a Euroclear Participant, either directly or indirectly.

The Euroclear Operator is regulated and examined by the Belgian Banking and Finance Commission.

Links have been established among DTC, Clearstream and Euroclear to facilitate the initial issuance of the notes sold outside of the United States and cross-market transfers of the notes associated with secondary market trading.

Although DTC, Clearstream and Euroclear have agreed to the procedures provided below in order to facilitate transfers, they are under no obligation to perform these procedures, and these procedures may be modified or discontinued at any time.

The information in this section concerning DTC, Clearstream and Euroclear and DTC's book-entry system has been obtained from sources that we believe to be reliable, but we take no responsibility for the accuracy of this information.

Settlement and Payment

Settlement for the notes will be made by the underwriters in immediately available funds. All payments of principal and interest in respect of the notes will be made by us in immediately available funds.

Secondary trading in long-term notes and debentures of corporate issuers is generally settled in clearing-house or next-day funds. In contrast, the notes will trade in DTC's Same-Day Funds Settlement System until maturity or until the notes are issued in certificated form, and secondary market trading activity in the notes will therefore be required by DTC to settle in immediately available funds. No assurance can be given as to the effect, if any, of settlement in immediately available funds on trading activity in the notes.

Clearstream and Euroclear will record the ownership interests of their participants in much the same way as DTC, and DTC will record the total ownership of each of the U.S. agents of Clearstream and Euroclear, as participants in DTC. When notes are to be transferred from the account of a Direct Participant to the account of a Clearstream Participant or a Euroclear Participant, the purchaser must send instructions to Clearstream or Euroclear through a participant at least one day prior to settlement. Clearstream or Euroclear, as the case may be, will instruct its U.S. agent to receive notes against payment. After settlement, Clearstream or Euroclear will credit its participant's account. Credit for the notes will appear on the next day (European time).

Because settlement is taking place during New York business hours, Direct Participants will be able to employ their usual procedures for sending notes to the relevant U.S. agent acting for the benefit of Clearstream or

Table of Contents

Euroclear Participants. The sale proceeds will be available to the DTC seller on the settlement date. As a result, to the Direct Participant, a cross-market transaction will settle no differently than a trade between two Direct Participants.

When a Clearstream or Euroclear Participant wishes to transfer notes to a Direct Participant, the seller will be required to send instructions to Clearstream or Euroclear through a participant at least one business day prior to settlement. In these cases, Clearstream or Euroclear will instruct its U.S. agent to transfer these notes against

payment for them. The payment will then be reflected in the account of the Clearstream or Euroclear Participant the following day, with the proceeds back-valued to the value date, which would be the preceding day, when settlement occurs in New York. If settlement is not completed on the intended value date, that is, the trade fails, proceeds credited to the Clearstream or Euroclear Participant's account will instead be valued as of the actual settlement date.

You should be aware that you will only be able to make and receive deliveries, payments and other communications involving the notes through Clearstream and Euroclear on the days when those clearing systems are open for business. Those systems may not be open for business on days when banks, brokers and other institutions are open for business in the United States. In addition, because of time zone differences there may be problems with completing transactions involving Clearstream and Euroclear on the same business day as in the United States.

Events of Default

In addition to the events of default in the Indenture described in the prospectus, the following constitute events of default under the Supplemental Indenture:

We do not pay the principal or any premium on the notes at their maturity date.

We default under any of our other indebtedness in an aggregate principal amount exceeding \$10,000,000 after the expiration of any applicable grace period, which default results in the acceleration of the maturity of such indebtedness. Such default is not an event of default if the other indebtedness is discharged, or the acceleration is rescinded or annulled, within a period of 10 days after we receive notice specifying the default and requiring that we discharge the other indebtedness or cause the acceleration to be rescinded or annulled. Either the Trustee or the holders of more than 50% in principal amount of the outstanding notes may send the notice.

The entry by a court of competent jurisdiction of one or more judgments, orders or decrees against us or any of our subsidiaries in an aggregate amount (excluding amounts fully covered by insurance) in excess of \$10,000,000 and such judgments, orders or decrees remain undischarged, unstayed and unsatisfied in an aggregate amount (excluding amounts fully covered by insurance) in excess of \$10,000,000 for a period of 30 consecutive days.

ADDITIONAL U.S. FEDERAL INCOME TAX CONSIDERATIONS

General

This discussion is a summary of certain additional federal income tax considerations to U.S. holders of the notes that are not discussed in our Annual Report on Form 10-K for the fiscal year ended December 31, 2014. This discussion is for general information only and is not tax advice. This summary is only a supplement to, and should be read in conjunction with, the discussion in our Annual Report on Form 10-K for the year ended December 31, 2014 under the heading **Item 1 Business Taxation Federal Income Tax Considerations**. The tax treatment of the notes will depend on the holder's particular situation, and this summary only applies to U.S. holders that hold notes as capital assets.

This summary does not discuss all of the aspects of U.S. federal income taxation that may be relevant to you in light of your particular investment or other circumstances. In addition, this summary does not discuss any state or local income taxation or foreign income taxation or other tax consequences. You should consult your own tax advisor regarding the particular U.S. federal, state, local, foreign and other tax consequences of acquiring, owning and disposing of the notes. This summary is based on current U.S. federal income tax law. Subsequent developments in U.S. federal income tax law, including changes in law or differing interpretations, which may be applied retroactively, could have a material effect on the U.S. federal income tax consequences of acquiring, owning and disposing of the notes.

For a more detailed discussion of the federal income taxation of holders of our notes and the federal income taxation of the Company as a REIT, which includes a variety of complex requirements relating to share ownership, income, assets and distributions, please see our Annual Report on Form 10-K for the year ended December 31, 2014 under the heading **Item 1 Business Taxation Federal Income Tax Considerations**.

Qualified Reopening

The notes will be issued within six months of the original issuance of our 4.000% notes due 2025 (the **original notes**) initially issued May 26, 2015 and the notes (i) are being issued for cash to third parties for an arm's-length price and (ii) at a yield that does not exceed 110 percent of the yield on the original notes as of May 26, 2015. As such, we intend to treat the new notes as issued pursuant to a **qualified reopening** of the original notes. For U.S. federal income tax purposes, debt instruments issued in a qualified reopening are deemed to be part of the same issue as the original debt instruments. Under the treatment described in this paragraph, all of the notes issued pursuant to this prospectus supplement will be deemed to have the same issue date and the same issue price as the original notes for U.S. federal income tax purposes. The remainder of this discussion assumes that the issuance of the new notes offered hereby will be treated as a qualified reopening of the original notes.

Optional Redemption of the Notes

If we redeem or otherwise repurchase the notes, we may be obligated to pay additional amounts in excess of stated principal and interest (see **Description of the Notes Optional Redemption**). In general, when the amount or timing of any additional payments on a debt instrument is contingent, such debt instrument could be subject to special rules that apply to contingent payment debt instruments. We intend, however, to take the position for U.S. federal income tax purposes that the possibility of such payments should not cause the notes to be subject to the special rules applicable to contingent payment debt instruments and, accordingly, that any such payments should be taxable to you and included income when received or accrued, in accordance with your usual method of tax accounting. The remainder of this discussion assumes that the notes will not be treated as contingent payment debt instruments. U.S. holders are urged to consult their tax advisors regarding the potential application to the notes of the contingent payment debt instrument rules and the consequences thereof.

Table of Contents

Pre-Issuance Accrued Interest on the Notes

The purchase price of the notes includes an amount attributable to interest that accrued prior to the date the notes were purchased (referred to as pre-issuance accrued interest). In accordance with applicable Treasury Regulations, for U.S. federal income tax purposes, we believe that a portion of the first interest payment equal to the amount of such pre-issuance accrued interest should be treated as a nontaxable return of a portion of the purchase price rather than as interest income to the U.S. holder. If this position is respected, as will be assumed for purposes of the remainder of this summary, our payment of such amount would not be treated as taxable interest income to you and such amount would not be included in your adjusted tax basis in the notes. You should consult your own tax advisor concerning the tax treatment of the pre-issuance accrued interest.

Amortizable Bond Premium on the Notes

In general, if a U.S. holder purchases the notes for an amount (excluding any amount attributable to any pre-issuance accrued interest) in excess of the stated principal amount of the notes, the U.S. holder will be treated as purchasing the notes with bond premium in an amount equal to such excess. A U.S. holder generally may elect to amortize the premium over the remaining term of such notes on a constant yield method as an offset to interest when includible in income under the holder's regular method of tax accounting. In such case, the U.S. holder's tax basis in the notes will be reduced by the amortized premium. The notes may be issued at a premium, however, because the notes may be redeemed by us prior to maturity (see Description of the Notes Optional Redemption), special rules apply that may reduce or eliminate the amount of premium that a U.S. holder may amortize with respect to the notes. U.S. holders should consult their tax advisors about the decision to amortize premium and the effects of such an election, including the effect on other debt instruments held by the U.S. holder.

THE PRECEDING DISCUSSION OF CERTAIN ADDITIONAL U.S. FEDERAL INCOME TAX CONSIDERATIONS IS FOR GENERAL INFORMATION ONLY AND IS NOT TAX ADVICE AND THE COMPANY MAKES NO REPRESENTATION AS TO THE TAX CONSEQUENCES OF THE ACQUISITION, OWNERSHIP AND DISPOSITION OF THE NOTES. EACH HOLDER OF NOTES SHOULD CONSULT ITS OWN TAX ADVISOR AS TO PARTICULAR TAX CONSEQUENCES TO IT OF ACQUIRING, HOLDING AND DISPOSING OF THE NOTES, INCLUDING THE APPLICABILITY AND EFFECT OF ANY STATE, LOCAL OR FOREIGN TAX LAWS, AND OF ANY PROPOSED CHANGES IN APPLICABLE LAWS.

Table of Contents**DESCRIPTION OF OTHER INDEBTEDNESS****Credit Facilities**

In July 2014, we entered into a Credit Agreement (the "Credit Agreement") with a consortium of 28 banks; KeyBank National Association, as administrative agent, L/C issuer and a swingline lender; Bank of America, N.A. and JPMorgan Chase Bank, N.A., as co-syndication agents; Deutsche Bank Securities, Inc., as documentation agent; Merrill Lynch, Pierce, Fenner & Smith Incorporated, J.P. Morgan Securities LLC, KeyBanc Capital Markets Inc. and Deutsche Bank Securities Inc., as U.S. joint lead arrangers; Merrill Lynch, Pierce, Fenner & Smith Incorporated, J.P. Morgan Securities LLC and RBC Capital Markets, as Canadian joint lead arrangers; and Merrill Lynch, Pierce, Fenner & Smith Incorporated and J.P. Morgan Securities LLC, as joint book runners. The Credit Agreement consists of a \$2,500,000,000 unsecured revolving credit facility (our "primary unsecured credit facility"), a \$500,000,000 unsecured term credit facility (our "USD term facility") and a \$250,000,000 Canadian-denominated unsecured term credit facility (our "CAD term facility").

The maturity date for the credit facilities under the Credit Agreement is October 31, 2018, provided that, (a) the maturity date of our primary unsecured credit facility may be extended an additional year at our option if no event of default has occurred under the Credit Agreement and we pay a non-refundable fee of 0.15% of our primary unsecured credit facility then in effect, (b) the maturity date of our USD term facility may be extended for an additional year at our option if no event of default under the Credit Agreement has occurred and we pay a non-refundable fee of 0.125% of our USD term facility then in effect, and (c) the maturity date of our CAD term facility may be extended for an additional year at our option if no event of default under the Credit Agreement has occurred and we pay a non-refundable fee of 0.125% of our CAD term facility then in effect. Based on the satisfaction of certain conditions, we have the right to increase the amount available under the credit facilities up to an additional \$1,000,000,000 for our primary unsecured credit facility and our USD term facility, in the aggregate, and CAD 250,000,000 for our CAD term facility. The lenders would have the right, but not the obligation, to commit to all or a portion of such increase.

The Credit Agreement includes sublimits of (a) up to \$150,000,000 for letters of credit, (b) up to \$100,000,000 for swingline loans, (c) up to 50% of our primary unsecured credit facility commitment amount for certain negotiated rate loans, and (d) up to \$500,000,000 for borrowings (including letters of credit) under certain alternative currencies; each of these sublimits is part of, and not in addition to, the amounts available under our primary unsecured credit facility.

Revolving loans and term loans bear interest at the applicable margin plus the applicable base rate, LIBOR or CDOR interest rate, at our option. Negotiated rate loans bear interest at the rate agreed to between us and the applicable lender(s). Swingline loans bear interest at the applicable base rate plus the applicable margin. Letter of credit fees equal the applicable margin multiplied by the daily amount available to be drawn under such letters of credit. The applicable margins are based on our ratings established by certain debt rating agencies for our long-term, senior, unsecured non-credit enhanced debt (the "Debt Ratings"). Based on our current Debt Ratings, the applicable margins are as follows: (a) for a revolving loan under our primary unsecured credit facility, 0.925% for a LIBOR loan or 0.00% for a base rate loan; (b) for a term loan under our USD term facility, 0.975% for a LIBOR loan or 0.00% for a base rate loan; (c) for a term loan under our CAD term facility, 0.975% for a CDOR loan; (d) for a swingline loan, 0.925%; and (e) for letter of credit fees, 0.925%.

For our primary unsecured credit facility, we are obligated to pay an annual facility fee equal to the product of the applicable rate multiplied by our primary unsecured credit facility amount with such rate based on our Debt Ratings. The current applicable rate for the facility fee for our primary unsecured credit facility is 0.15%. For letters of credit, we are obligated to pay a fronting fee of 0.125% on the face amount and subsequent increases of such amounts of such letters of credit and customary fees and standard costs of the issuers of such letters of credit.

The Credit Agreement contains customary affirmative and restrictive covenants that, among other things, limit us with respect to indebtedness, liabilities, liens, dividends, loans, investments, purchases and fundamental

changes to the corporate structure and line of business. We also are required to maintain a minimum tangible net worth of \$8,750,000,000, a fixed charge coverage ratio of not less than 150%, a leverage ratio of not more than 0.60 to 1.00, and a ratio of unsecured indebtedness to unencumbered assets of not more than 0.60 to 1.00, all as described in the Credit Agreement.

UNDERWRITING (CONFLICTS OF INTEREST)

Merrill Lynch, Pierce, Fenner & Smith Incorporated is the sole underwriter of the offering. Subject to the terms and conditions of the underwriting agreement, the underwriter has agreed to purchase from us, and we have agreed to sell to the underwriter, the principal amount of notes at the public offering price less the underwriting discounts and commissions set forth on the cover of this prospectus supplement.

The underwriting agreement provides that the obligation of the underwriter to purchase the notes offered hereby is subject to certain conditions precedent and that the underwriter will purchase all of the notes offered by this prospectus supplement if any of the notes are purchased.

We have been advised by the underwriter that it proposes to offer the notes to the public at the public offering price set forth on the cover of this prospectus supplement. Any notes sold by the underwriter to securities dealers may be sold at a discount from the public offering price of up to % of the principal amount of the notes. Any such securities dealers may resell any notes purchased from the underwriter to certain other brokers or dealers at a discount from the public offering price of up to % of the principal amount of the notes. After the initial offering of the notes, the underwriter may change the public offering price and other selling terms. Sales of notes made outside the United States may be made by affiliates of the underwriter. The underwriting discount to be paid by us to the underwriters is % of the principal amount of the notes.

We estimate that our share of the total expenses of this offering, including registration, filing fees, printing expenses and legal and accounting expenses, but excluding the underwriting discount, will be approximately \$250,000.

We expect that delivery of the notes will be made to investors on or about , 2015, which will be the fifth business day following the date of this prospectus supplement (such settlement being referred to as T+5). Under Rule 15c6-1 under the Exchange Act, trades in the secondary market are required to settle in three business days, unless the parties to any such trade expressly agree otherwise. Accordingly, purchasers who wish to trade the notes prior to , 2015 will be required, by virtue of the fact that the notes initially settle in T+5, to specify an alternative settlement arrangement at the time of any such trade to prevent a failed settlement. Purchasers of the notes who wish to trade notes prior to their date of delivery hereunder should consult their advisors.

We have agreed to indemnify the underwriter against some specified types of liabilities, including liabilities under the Securities Act of 1933, as amended, and to contribute to payments the underwriter may be required to make in respect of any of these liabilities.

The notes will be a further issuance of, will be fungible with and will be consolidated and form a single series with our outstanding 4.000% notes due June 1, 2025, issued on May 26, 2015 in the amount of \$750,000,000. The notes will have the same CUSIP number and will trade interchangeably with the previously issued notes in this series immediately upon settlement. We do not intend to apply for listing of the notes on a national securities exchange or for quotation on any automated dealer quotation system. We have been advised by the underwriter that it intends to make a market in the notes, but the underwriter is not obligated to do so and may discontinue market-making at any time without notice. We can provide no assurance as to the liquidity of any trading market for the notes.

In connection with the offering, the underwriter may engage in activities that stabilize, maintain or otherwise affect the price of the notes. These transactions may include short sales, purchases to cover positions created by short sales and stabilizing transactions. Short sales involve the sale by the underwriter of a greater principal amount of notes than they are required to purchase in the offering. The underwriter may close out any short position by purchasing notes in the open market. Stabilizing transactions consist of various bids for or purchases of the notes made by the underwriter in the open market prior to the completion of the offering.

Table of Contents

Purchases to cover a short position and stabilizing transactions may have the effect of preventing or slowing a decline in the market price of the notes. Additionally, these purchases may stabilize, maintain or otherwise affect the market price of the notes. As a result, the price of the notes may be higher than the price that might otherwise exist in the open market. These transactions may be effected on the over-the-counter market or otherwise and may be discontinued at any time without notice.

Other Relationships

The underwriter and/or its affiliates have provided and in the future may provide investment banking, commercial banking, corporate trust and/or advisory services to us from time to time for which they have received and in the future may receive customary fees and expenses and may have entered into and in the future may enter into other transactions with us.

In addition, in the ordinary course of their business activities, the underwriter and its affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers. Such investments and securities activities may involve securities and/or instruments of ours or our affiliates. The underwriter or its affiliates that have a lending relationship with us routinely hedge their credit exposure to us consistent with their customary risk management policies. Typically, the underwriter and its affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in our securities, including potentially the notes offered hereby. Any such credit default swaps or short positions could adversely affect future trading prices of the notes offered hereby. The underwriter and its affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

Conflicts of Interest

Bank of America, N.A., an affiliate of Merrill Lynch, Pierce, Fenner & Smith Incorporated, is a lender and a co-syndication agent under our primary unsecured credit facility. Merrill Lynch, Pierce, Fenner & Smith Incorporated is a U.S. joint lead arranger and joint book runner under our primary unsecured credit facility. To the extent that any portion of the net proceeds from this offering is applied to repay borrowings under our primary unsecured credit facility (see [Use of Proceeds](#)), the underwriter and/or its affiliates will receive a portion of the net proceeds so applied through the repayment of borrowings under our primary unsecured credit facility. If some of the net proceeds of this offering are used to repay borrowings under our primary unsecured credit facility, it is possible that more than 5% of the proceeds of this offering (not including the underwriting discount) may be received by any one underwriter or its affiliates. Nonetheless, in accordance with the FINRA Rule 5121(f), the appointment of a qualified independent underwriter is not necessary in connection with this offering because we, the issuer of the securities in this offering, are a real estate investment trust.

DESCRIPTION OF DEBT SECURITIES

The debt securities sold under this prospectus will be our direct obligations, which may be secured or unsecured, and which may be senior or subordinated indebtedness. The debt securities may be guaranteed on a secured or unsecured, senior or subordinated basis, by one or more of our subsidiaries. The debt securities will be issued under one or more indentures between us and a specified trustee. Any indenture will be subject to and governed by the Trust Indenture Act of 1939, as amended. The statements made in this prospectus relating to any indentures and the debt securities to be issued under the indentures are summaries of certain provisions or anticipated provisions of the indentures.

Table of Contents

The following is a summary of the material terms of our debt securities. Because it is a summary, it does not contain all of the information that may be important to you. If you want more information, you should read the indenture, dated as of March 15, 2010, between us and The Bank of New York Mellon Trust Company, N.A., as trustee (the senior debt indenture), for senior debt securities and the forms of indentures for senior subordinated and junior subordinated debt securities which we have filed as exhibits to the registration statement of which this prospectus is a part. See Where You Can Find Additional Information. The summary set forth below does not purport to be complete and is subject to and qualified in its entirety by reference to the descriptions of the particular terms of the securities described in the applicable prospectus supplement and any related free writing prospectus.

General

We may issue debt securities that rank senior, senior subordinated or junior subordinated. The debt securities that we refer to as senior will be our direct obligations and will rank equally and ratably in right of payment with our other indebtedness not subordinated. We may issue debt securities that will be subordinated in right of payment to the prior payment in full of senior debt, as defined in the applicable prospectus supplement or any related free writing prospectus, and may rank equally and ratably with the other senior subordinated indebtedness. We refer to these as senior subordinated securities. We may also issue debt securities that may be subordinated in right of payment to the senior subordinated securities. These would be junior subordinated securities. We have filed with the registration statement, of which this prospectus is a part, the senior debt indenture and two separate forms of indenture, one for the senior subordinated securities and one for the junior subordinated securities. We refer to each of these three indentures as an indenture. We refer to senior subordinated and junior subordinated securities as subordinated.

We may issue the debt securities without limit as to aggregate principal amount, in one or more series, in each case as we establish in one or more supplemental indentures. We need not issue all debt securities of one series at the same time. Unless we otherwise provide, we may reopen a series, without the consent of the holders of the series, for issuances of additional securities of that series.

The senior debt indenture provides and we anticipate that any other indenture will provide that we may, but need not, designate more than one trustee under an indenture, each with respect to one or more series of debt securities. Any trustee under any indenture may resign or be removed with respect to one or more series of debt securities, and we may appoint a successor trustee to act with respect to that series. The applicable prospectus supplement and any related free writing prospectus will describe the specific terms relating to the series of debt securities we will offer, including, where applicable, the following:

the title and series designation and whether they are senior securities, senior subordinated securities or junior subordinated securities;

the aggregate principal amount of the securities;

the percentage of the principal amount at which we will issue the debt securities and, if other than the principal amount of the debt securities, the portion of the principal amount of the debt securities payable upon maturity of the debt securities;

if convertible, the securities into which they are convertible, the initial conversion price, the conversion period and any other terms governing such conversion;

the stated maturity date;

any fixed or variable interest rate or rates per annum;

if other than at the corporate trust office of the trustee, the place where principal, premium, if any, and interest will be payable and where the debt securities can be surrendered for transfer, exchange or conversion;

Table of Contents

the date from which interest may accrue and any interest payment dates;

any sinking fund requirements;

any provisions for redemption, including the redemption price and any remarketing arrangements;

any provisions for denomination or payment of the securities in a foreign currency or units of two or more foreign currencies;

the events of default and covenants of such securities, to the extent different from or in addition to those described in this prospectus;

whether we will issue the debt securities in certificated or book-entry form;

whether the debt securities will be in registered or bearer form and, if in registered form, the denominations if other than in even multiples of \$1,000 and, if in bearer form, the denominations and terms and conditions relating thereto;

whether we will issue any of the debt securities in permanent global form and, if so, the terms and conditions, if any, upon which interests in the global security may be exchanged, in whole or in part, for the individual debt securities represented by the global security;

the applicability, if any, of the defeasance and covenant defeasance provisions described in this prospectus or any prospectus supplement;

any provisions for payment of additional amounts on the securities in respect of any tax, assessment or governmental charge and rights for us to redeem the debt securities instead of making this payment;

the subordination provisions, if any, relating to the debt securities;

if the debt securities are to be issued upon the exercise of debt warrants, the time, manner and place for them to be authenticated and delivered;

whether any of our subsidiaries will be bound by the terms of the indenture, in particular any restrictive covenants;

the provisions relating to any security provided for the debt securities; and

the provisions relating to any guarantee of the debt securities.

We may issue debt securities at less than the principal amount payable at maturity. We refer to these securities as original issue discount securities. If material or applicable, we will describe in the applicable prospectus supplement special U.S. federal income tax, accounting and other considerations applicable to original issue discount securities.

Except as may be described in any prospectus supplement, an indenture will not contain any provisions that would limit our ability to incur indebtedness or that would afford holders of the debt securities protection in the event of a highly leveraged or similar transaction involving us or in the event of a change of control. You should review carefully the applicable prospectus supplement for information with respect to events of default and covenants applicable to the securities being offered.

Denominations, Interest, Registration and Transfer

Unless otherwise described in the applicable prospectus supplement, we will issue the debt securities of any series that are registered securities in denominations that are even multiples of \$1,000, other than global securities, which may be of any denomination.

Table of Contents

Unless otherwise specified in the applicable prospectus supplement, we will pay the interest, principal and any premium at the corporate trust office of the trustee, such other address as the trustee may designate from time to time by notice to the holders and the Company or the principal corporate trust office of any successor trustee. At our option, however, we may make payment of interest by check mailed to the address of the person entitled to the payment as it appears in the applicable register or by wire transfer of funds to that person at an account maintained within the United States.

If we do not punctually pay or otherwise provide for interest on any interest payment date, the defaulted interest will be paid either:

to the person in whose name the debt security is registered at the close of business on a special record date the trustee will fix; or

in any other lawful manner, all as the applicable indenture describes.

You may have your debt securities divided into more debt securities of smaller denominations or combined into fewer debt securities of larger denominations, as long as the total principal amount is not changed. We call this an exchange. You may exchange or transfer debt securities at the office of the applicable trustee. The trustee acts as our agent for registering debt securities in the names of holders and transferring debt securities. We may change this appointment to another entity or perform it ourselves.

The entity performing the role of maintaining the list of registered holders is called the registrar. It will also perform transfers. You will not be required to pay a service charge to transfer or exchange debt securities, but you may be required to pay for any tax or other governmental charge associated with the exchange or transfer. The registrar will make the transfer or exchange only if it is satisfied with your proof of ownership.

Merger, Consolidation or Sale of Assets

Under an indenture, we are or generally will be permitted to consolidate or merge with another company. In addition, we are or will be permitted to sell substantially all of our assets to another company, or to buy substantially all of the assets of another company. However, we may not take any of these actions unless the following conditions are met:

if we merge out of existence or sell our assets, the other company must be an entity organized under the laws of one of the states of the United States or the District of Columbia or under United States federal law and must agree to be legally responsible for our debt securities; and

immediately after the merger, sale of assets or other transaction, we may not be in default on the debt securities. A default for this purpose would include any event that would be an event of default if the requirements regarding notice of default or continuing default for a specific period of time were disregarded.

Certain Covenants

Existence. Except as permitted and described above under Merger, Consolidation or Sale of Assets, we will agree to do all things necessary to preserve and keep our existence, rights and franchises, provided that it is in our best interests

for the conduct of business.

Provisions of Financial Information. To the extent permitted by law, we will agree to file all annual, quarterly and other reports and financial statements with the SEC and the trustee on or before the applicable SEC filing dates whether or not we remain required to do so under the Exchange Act.

Additional Covenants. Any additional or different covenants or modifications to the foregoing covenants with respect to any series of debt securities will be described in the applicable prospectus supplement.

Table of Contents

Events of Default and Related Matters

Events of Default. The term “event of default” for any series of debt securities means any of the following:

We do not pay the principal or any premium on a debt security of that series within 30 days after its maturity date.

We do not pay interest on a debt security of that series within 30 days after its due date.

We do not deposit any sinking fund payment for that series within 30 days after its due date.

We remain in breach of any other term of the applicable indenture (other than a term added to the indenture solely for the benefit of another series) for 60 days after we receive a written notice of default from the trustee or holders of at least a majority in principal amount of debt securities of the affected series specifying the breach and requiring it to be remedied.

We default under any of our other indebtedness in specified amounts after the expiration of any applicable grace period, which default results in the acceleration of the maturity of such indebtedness. Such default is not an event of default if the other indebtedness is discharged, or the acceleration is rescinded or annulled, within a period of 10 days after we receive a written notice from the trustee or holders of at least a majority in principal amount of debt securities of the affected series specifying the default and requiring that we discharge the other indebtedness or cause the acceleration to be rescinded or annulled.

We or one of our “significant subsidiaries,” if any, files for bankruptcy or certain other events in bankruptcy, insolvency or reorganization occur. The term “significant subsidiary” means each of our significant subsidiaries, if any, as defined in Regulation S-X under the Securities Act of 1933, as amended (the “Securities Act”).

Any other event of default described in the applicable prospectus supplement occurs.

Remedies If an Event of Default Occurs. If an event of default has occurred and has not been cured, the trustee or the holders of at least a majority in principal amount of the debt securities of the affected series may declare the entire principal amount of all the debt securities of that series to be due and immediately payable. If an event of default occurs because of certain events in bankruptcy, insolvency or reorganization, the principal amount of all the debt securities of that series will be automatically accelerated, without any action by the trustee or any holder. At any time after the trustee or the holders have accelerated any series of debt securities, but before a judgment or decree for payment of the money due has been obtained, the holders of at least a majority in principal amount of the debt securities of the affected series may, under certain circumstances, rescind and annul such acceleration.

The trustee will be required to give notice to the holders of debt securities within 90 days after a default under the applicable indenture unless the default has been cured or waived. The trustee may withhold notice to the holders of

any series of debt securities of any default with respect to that series, except a default in the payment of the principal of or interest on any debt security of that series, if specified responsible officers of the trustee in good faith determine that withholding the notice is in the interest of the holders.

Except in cases of default, where the trustee has some special duties, the trustee is not required to take any action under the applicable indenture at the request of any holders unless the holders offer the trustee reasonable protection from expenses and liability. We refer to this as an indemnity. If reasonable indemnity satisfactory to it is provided, the holders of a majority in principal amount of the outstanding securities of the relevant series may direct the time, method and place of conducting any lawsuit or other formal legal action seeking any remedy available to the trustee. These majority holders may also direct the trustee in performing any other action under the applicable indenture, subject to certain limitations.

Table of Contents

Before you bypass the trustee and bring your own lawsuit or other formal legal action or take other steps to enforce your rights or protect your interests relating to the debt securities, the following must occur:

you must give the trustee written notice that an event of default has occurred and remains uncured;

the holders of at least a majority in principal amount of all outstanding securities of the relevant series must make a written request that the trustee take action because of the default, and must offer reasonable indemnity to the trustee against the cost and other liabilities of taking that action; and

the trustee must have not taken action for 60 days after receipt of the notice and offer of indemnity.

However, you are entitled at any time to bring a lawsuit for the payment of money due on your security after its due date.

Every year we will furnish to the trustee a written statement by certain of our officers certifying that to their knowledge we are in compliance with the applicable indenture, or else specifying any default.

Modification of an Indenture

There are three types of changes we can make to the indentures and the debt securities:

Changes Requiring Your Approval. First, there are changes we cannot make to your debt securities without your specific approval. The following is a list of those types of changes:

change the stated maturity of the principal or interest on a debt security;

reduce any amounts due on a debt security;

reduce the amount of principal payable upon acceleration of the maturity of a debt security following a default;

change the currency of payment on a debt security;

impair your right to sue for payment;

modify the subordination provisions, if any, in a manner that is adverse to you;

reduce the percentage of holders of debt securities whose consent is needed to modify or amend an indenture or to waive compliance with certain provisions of an indenture;

reduce the percentage of holders of debt securities whose consent is needed to waive past defaults or change certain provisions of the indenture relating to waivers of default; or

waive a default or event of default in the payment of principal, interest, or premium, if any, on the debt securities.

Changes Requiring a Majority Vote. The second type of change is the kind that requires the vote of holders of debt securities owning a majority of the principal amount of the particular series affected. Most changes fall into this category, except for clarifying changes and certain other changes that would not materially adversely affect holders of the debt securities. We require the same vote to obtain a waiver of a past default; however, we cannot obtain a waiver of a payment default or any other aspect of an indenture or the debt securities listed in the first category described above under **Changes Requiring Your Approval** unless we obtain your individual consent to the waiver.

Changes Not Requiring Approval. The third type of change does not require any vote by holders of debt securities. This type is limited to clarifications and certain other changes that would not materially adversely affect holders of the debt securities.

Table of Contents

Further Details Concerning Voting. Debt securities are not considered outstanding, and therefore the holders of debt securities are not eligible to vote on matters relating thereto, if we have deposited or set aside in trust for such holders money for payment or redemption of debt securities or if we own or one of our affiliates owns the debt securities. The holders of debt securities are also not eligible to vote if the debt securities have been fully defeased as described below under Discharge, Defeasance and Covenant Defeasance Full Defeasance.

Discharge, Defeasance and Covenant Defeasance

Discharge. We may discharge some obligations to holders of any series of debt securities that either have become due and payable or will become due and payable within one year, or scheduled for redemption within one year, by irrevocably depositing with the trustee, in trust, funds in the applicable currency in an amount sufficient to pay the debt securities, including any premium and interest.

Full Defeasance. We can, under particular circumstances, effect a full defeasance of your series of debt securities. By this we mean we can legally release ourselves from any payment or other obligations on the debt securities if, among other things, we put in place the arrangements described below to repay you and deliver certain certificates and opinions to the trustee:

we must deposit in trust for your benefit and the benefit of all other direct holders of the debt securities a combination of money or U.S. government or U.S. government agency notes or bonds or, in some circumstances, depositary receipts representing these notes or bonds, that will generate enough cash to make interest, principal and any other payments on the debt securities on their various due dates;

under current federal income tax law, the deposit and our legal release from the debt securities would be treated as though we redeemed your debt securities in exchange for your share of the cash and notes or bonds deposited in trust. This treatment would result in sale or exchange treatment of your notes, which would cause you to recognize gain or loss equal to the amount described in Item 1 Business Taxation Federal Income Tax Considerations U.S. Federal Income and Estate Taxation of Holders of Our Debt Securities U.S. Holders Sale, Exchange or Other Disposition of Notes included in our most recent Annual Report on Form 10-K; and

we must deliver to the trustee a legal opinion confirming the tax law change described above.

If we did accomplish full defeasance, you would have to rely solely on the trust deposit for repayment on the debt securities. You could not look to us for repayment in the unlikely event of any shortfall. Conversely, the trust deposit would most likely be protected from claims of our lenders and other creditors if we ever became bankrupt or insolvent. You would also be released from any subordination provisions.

Covenant Defeasance. We can make the same type of deposit described above and be released from some of the restrictive covenants in the debt securities. This is called covenant defeasance. In that event, you would lose the protection of those restrictive covenants but would gain the protection of having money and securities set aside in trust to repay the securities and you would be released from any subordination provisions.

If we did accomplish covenant defeasance, the following provisions of an indenture and the debt securities would no longer apply:

any covenants applicable to the series of debt securities and described in the applicable prospectus supplement;

any subordination provisions; and

certain events of default relating to breach of covenants and acceleration of the maturity of other debt set forth in any prospectus supplement.

Table of Contents

If we did accomplish covenant defeasance, you could still look to us for repayment of the debt securities if a shortfall in the trust deposit occurred. If one of the remaining events of default occurred, for example, our bankruptcy, and the debt securities became immediately due and payable, there may be a shortfall. Depending on the event causing the default, you may not be able to obtain payment of the shortfall.

Subordination

We will describe in the applicable prospectus supplement the terms and conditions, if any, upon which any series of senior subordinated securities or junior subordinated securities is subordinated to debt securities of another series or to our other indebtedness. The terms will include a description of:

the indebtedness ranking senior to the debt securities being offered;

the restrictions, if any, on payments to the holders of the debt securities being offered while a default with respect to the senior indebtedness is continuing;

the restrictions, if any, on payments to the holders of the debt securities being offered following an event of default; and

provisions requiring holders of the debt securities being offered to remit some payments to holders of senior indebtedness.

Guarantees

Our payment obligations under any series of our debt securities may be guaranteed by some or all of our subsidiaries. The guarantees may be secured or unsecured and may be senior or subordinated obligations. The guarantors will be identified and the terms of the guarantees will be described in the applicable prospectus supplement.

Global Securities

If so set forth in the applicable prospectus supplement, we may issue the debt securities of a series in whole or in part in the form of one or more global securities that will be deposited with a depository identified in the prospectus supplement. We may issue global securities in either registered or bearer form and in either temporary or permanent form. The specific terms of the depository arrangement with respect to any series of debt securities will be described in the prospectus supplement.

DESCRIPTION OF OUR CAPITAL STOCK

The following is a summary of certain terms of our common stock and preferred stock that we may issue. Because this summary is not complete, you should refer to our certificate of incorporation and by-laws, which documents provide additional information regarding our common stock and preferred stock, and the applicable provisions of the Delaware General Corporation Law (the "DGCL"). See also Description of Certain Provisions of Our Certificate of Incorporation and By-Laws below. Copies of our certificate of incorporation and by-laws, as amended, are incorporated by reference as exhibits to the registration statement of which this prospectus is a part. The summary set

forth below is subject to and qualified in its entirety by reference to the description of the particular terms of the securities described in the applicable prospectus supplement or any related free writing prospectus.

Common Stock

Common stockholders are entitled to receive dividends when declared by the board of directors and after payment of, or provision for, full cumulative dividends on and any required redemptions of shares of preferred

Table of Contents

stock then outstanding. Common stockholders have one vote per share, and there are no cumulative voting rights. If we are voluntarily or involuntarily liquidated or dissolved, common stockholders are to share ratably in our distributable assets remaining after the satisfaction of all of our debts and liabilities and the preferred stockholders prior preferential rights. Common stockholders do not have preemptive rights. The common stock will be, when issued, fully paid and nonassessable. The common stock is subject to restrictions on transfer under certain circumstances described under **Restrictions on Transfer of Securities** below. The transfer agent for our common stock is Computershare Trust Company, N.A.

The rights, preferences and privileges of holders of our common stock are subject to, and may be adversely affected by, the rights of the holders of shares of any series of our preferred stock which are outstanding or which we may designate and issue in the future. See **Preferred Stock** below.

Preferred Stock

Our board of directors or a duly authorized committee thereof will determine the designations, preferences, limitations and relative rights of our authorized and unissued preferred stock. These may include:

the distinctive designation of each series and the number of shares that will constitute the series;

the voting rights, if any, of shares of the series;

the distribution rate on the shares of the series, any restriction, limitation or condition upon the payment of the distribution, whether distributions will be cumulative, and the dates on which distributions are payable;

if the shares are redeemable, the prices at which, and the terms and conditions on which, the shares of the series may be redeemed;

the purchase or sinking fund provisions, if any, for the purchase or redemption of shares of the series;

any preferential amount payable upon shares of the series upon our liquidation or the distribution of our assets;

if the shares are convertible, the price or rates of conversion at which, and the terms and conditions on which, the shares of the series may be converted into other securities; and

whether the series can be exchanged, at our option, into debt securities, and the terms and conditions of any permitted exchange.

The issuance of shares of preferred stock, or the issuance of rights to purchase shares of preferred stock, could discourage an unsolicited acquisition proposal. In addition, the rights of holders of shares of our common stock will be

subject to, and may be adversely affected by, the rights of holders of any shares of preferred stock that we may issue in the future.

The following describes some general terms and provisions of the preferred stock to which a prospectus supplement or a related free writing prospectus may relate. The statements below describing the preferred stock do not purport to be complete and are in all respects subject to and qualified in their entirety by reference to the applicable provisions of our certificate of incorporation, including any applicable certificate of designation, and our by-laws.

The prospectus supplement or any related free writing prospectus will describe the specific terms as to each issuance of shares of preferred stock, including:

the description of the preferred stock;

the number of shares of preferred stock offered;

Table of Contents

the offering price of the shares of preferred stock;

the distribution rate, when distributions will be paid, or the method of determining the distribution rate if it is based on a formula or not otherwise fixed;

the date from which distributions on the shares of preferred stock shall accumulate;

the voting rights, if any, of the holders of the shares of preferred stock;

the provisions for any auctioning or remarketing, if any, of the shares of preferred stock;

the provision, if any, for redemption or a sinking fund;

the liquidation preference per share;

any listing of the shares of preferred stock on a securities exchange;

whether the shares of preferred stock will be convertible and, if so, the security into which they are convertible and the terms and conditions of conversion, including the conversion price or the manner of determining it;

whether interests in the shares of preferred stock will be represented by depositary shares as more fully described below under Description of Depositary Shares;

a discussion of federal income tax considerations;

the relative ranking and preferences of the shares of preferred stock as to distribution and liquidation rights;

any limitations on issuance of any shares of preferred stock ranking senior to or on a parity with the series of preferred stock being offered as to distribution and liquidation rights;

any limitations on direct or beneficial ownership and restrictions on transfer, in each case as may be appropriate to preserve our status as a REIT; and

any other specific terms, preferences, rights, limitations or restrictions of the shares of preferred stock. As described under Description of Depositary Shares, we may, at our option, elect to offer depositary shares evidenced by depositary receipts. If we elect to do this, each depositary receipt will represent a fractional interest in a share of the particular series of preferred stock issued and deposited with a depositary. The applicable prospectus supplement will describe the terms of the depositary receipts.

The shares of preferred stock are subject to restrictions on transfer under certain circumstances described under Restrictions on Transfer of Securities below.

Rank

Unless our board of directors otherwise determines and we so specify in the applicable prospectus supplement, we expect that the shares of preferred stock will, with respect to distribution rights and rights upon liquidation or dissolution, rank senior to all of our shares of common stock.

Distributions

Holders of shares of preferred stock of each series will be entitled to receive cash and/or share distributions at the rates and on the dates shown in the applicable prospectus supplement. Even though the shares of preferred stock may specify a fixed rate of distribution, our board of directors must authorize and declare those distributions and they may be paid only out of assets legally available for payment. We will pay each distribution to holders of record as they appear on our share transfer books on the record dates fixed by our board of directors. In the case of shares of preferred stock represented by depositary receipts, the records of the depositary

Table of Contents

identified in the applicable prospectus supplement, or any successor depository, will determine the persons to whom dividends are payable.

Distributions on any series of preferred stock may be cumulative or noncumulative, as provided in the applicable prospectus supplement. We refer to each particular series, for ease of reference, as the applicable series. Cumulative distributions will be cumulative from and after the date shown in the applicable prospectus supplement. If our board of directors fails to authorize a distribution on any applicable series that is noncumulative, the holders will have no right to receive, and we will have no obligation to pay, a distribution in respect of the applicable distribution period, whether or not distributions on that series are declared payable in the future. If the applicable series is entitled to a cumulative distribution, we may not declare, or pay or set aside for payment, any full distributions on any other series of preferred stock ranking, as to distributions, on a parity with or junior to the applicable series, unless we declare, and either pay or set aside for payment, full cumulative distributions on the applicable series for all past distribution periods and the then current distribution period. If the applicable series does not have a cumulative distribution, we must declare, and pay or set aside for payment, full distributions for the then current distribution period only. When distributions are not paid, or set aside for payment, in full upon any applicable series and the shares of any other series ranking on a parity as to distributions with the applicable series, we must declare, and pay or set aside for payment, all distributions upon the applicable series and any other parity series proportionately, in accordance with accrued and unpaid distributions of the several series. For these purposes, accrued and unpaid distributions do not include unpaid distribution periods on noncumulative preferred stock. No interest will be payable in respect of any distribution payment that may be in arrears.

Except as provided in the immediately preceding paragraph, unless we declare, and pay or set aside for payment, full cumulative distributions, including for the then current period, on any cumulative applicable series, we may not declare, or pay or set aside for payment, any distributions upon shares of common stock or any other equity securities ranking junior to or on a parity with the applicable series as to distributions or upon liquidation. The foregoing restriction does not apply to distributions paid in shares of common stock or other equity securities ranking junior to the applicable series as to distributions and upon liquidation. If the applicable series is noncumulative, we need only declare, and pay or set aside for payment, the distribution for the then current period, before declaring distributions on shares of common stock or junior or parity securities. In addition, under the circumstances that we could not declare a distribution, we may not redeem, purchase or otherwise acquire for any consideration any shares of common stock or other parity or junior equity securities, except upon conversion into or exchange for shares of common stock or other junior equity securities. We may, however, make purchases and redemptions otherwise prohibited pursuant to certain redemptions or pro rata offers to purchase the outstanding shares of the applicable series and any other parity series of preferred stock.

We will credit any distribution payment made on an applicable series first against the earliest accrued but unpaid distribution due with respect to the series.

Redemption

We may have the right or may be required to redeem one or more series of preferred stock, as a whole or in part, in each case upon the terms, if any, and at the times and at the redemption prices shown in the applicable prospectus supplement.

If a series of preferred stock is subject to mandatory redemption, we will specify in the applicable prospectus supplement the number of shares we are required to redeem, when those redemptions start, the redemption price, and any other terms and conditions affecting the redemption. The redemption price will include all accrued and unpaid distributions, except in the case of noncumulative preferred stock. The redemption price may be payable in cash or

other property, as specified in the applicable prospectus supplement. If the redemption price for shares of preferred stock of any series is payable only from the net proceeds of our issuance of shares of capital stock, the terms of the preferred stock may provide that, if no shares of such capital stock

Table of Contents

shall have been issued or to the extent the net proceeds from any issuance are insufficient to pay in full the aggregate redemption price then due, the shares of preferred stock will automatically and mandatorily be converted into shares of the applicable capital stock pursuant to conversion provisions specified in the applicable prospectus supplement.

Liquidation Preference

The applicable prospectus supplement will show the liquidation preference of the applicable series. Upon our voluntary or involuntary liquidation, before any distribution may be made to the holders of our shares of common stock or any other shares of capital stock ranking junior in the distribution of assets upon any liquidation to the applicable series, the holders of that series will be entitled to receive, out of our assets legally available for distribution to stockholders, liquidating distributions in the amount of the liquidation preference, plus an amount equal to all distributions accrued and unpaid. In the case of a noncumulative applicable series, accrued and unpaid distributions include only the then current distribution period. Unless otherwise provided in the applicable prospectus supplement, after payment of the full amount of the liquidating distributions to which they are entitled, the holders of shares of preferred stock will have no right or claim to any of our remaining assets. If liquidating distributions shall have been made in full to all holders of shares of preferred stock, our remaining assets will be distributed among the holders of any other shares of capital stock ranking junior to the shares of preferred stock upon liquidation, according to their rights and preferences and in each case according to their number of shares.

If, upon any voluntary or involuntary liquidation, our available assets are insufficient to pay the amount of the liquidating distributions on all outstanding shares of that series and the corresponding amounts payable on all shares of capital stock ranking on a parity in the distribution of assets with that series, then the holders of that series and all other equally ranking shares of capital stock shall share ratably in the distribution in proportion to the full liquidating distributions to which they would otherwise be entitled. For these purposes, our consolidation or merger with or into any other corporation or other entity, or the sale, lease or conveyance of all or substantially all of our property or business, shall not be deemed to constitute a liquidation.

Voting Rights

Holders of the shares of preferred stock will not have any voting rights, except as described below or as otherwise from time to time required by law or as specified in the applicable prospectus supplement. As more fully described under *Description of Depositary Shares* below, if we elect to issue depositary shares, each representing a fraction of a share of a series of preferred stock, each holder thereof will in effect be entitled to a fraction of a vote per depositary share.

Unless otherwise provided for in an applicable series, so long as any shares of preferred stock are outstanding, we may not, without the affirmative vote or consent of the holders of a majority of the shares (or such greater vote or consent as is required by the then current rules of any stock exchange or trading market on which we shall have listed the applicable series of preferred stock for trading or as otherwise provided in our organizational documents) of each series of preferred stock outstanding at that time:

authorize, create or increase the authorized or issued amount of any class or series of shares of capital stock ranking senior to that series of preferred stock with respect to distribution and liquidation rights;

reclassify any authorized shares of capital stock into a series of shares of capital stock ranking senior to that series of preferred stock with respect to distribution and liquidation rights;

create, authorize or issue any security or obligation convertible into or evidencing the right to purchase any shares of capital stock ranking senior to that series of preferred stock with respect to distribution and liquidation rights; and

amend, alter or repeal the provisions of our certificate of incorporation relating to that series of preferred stock that materially and adversely affect the series of preferred stock.

Table of Contents

The authorization, creation or increase of the authorized or issued amount of any class or series of shares of capital stock ranking on parity with or junior to a series of preferred stock with respect to distribution and liquidation rights will not be deemed to materially and adversely affect that series.

Conversion Rights

We will describe in the applicable prospectus supplement the terms and conditions, if any, upon which you may, or we may require you to, convert shares of any series of preferred stock into shares of common stock or any other class or series of shares of capital stock. The terms will include the number of shares of common stock or other capital stock into which the shares of preferred stock are convertible, the conversion price or manner of determining it, the conversion period, provisions as to whether conversion will be at the option of the holders of the series or at our option, the events requiring an adjustment of the conversion price, and provisions affecting conversion upon the redemption of shares of the series.

Our Exchange Rights

We will describe in the applicable prospectus supplement the terms and conditions, if any, upon which we can require you to exchange shares of any series of preferred stock for debt securities. If an exchange is required, you will receive debt securities with a principal amount equal to the liquidation preference of the applicable series of preferred stock. The other terms and provisions of the debt securities will not be materially less favorable to you than those of the series of preferred stock being exchanged.

DESCRIPTION OF DEPOSITARY SHARES

This section describes the general terms and provisions of shares of preferred stock represented by depositary shares. The applicable prospectus supplement and any related free writing prospectus will describe the specific terms of the depositary shares offered through that prospectus supplement and any general terms outlined in this section that will not apply to those depositary shares.

We have summarized in this section certain terms and provisions of the deposit agreement, the depositary shares and the receipts representing depositary shares. The summary is not complete. You should read the forms of deposit agreement and depositary receipt that we will file with the SEC at or before the time of the offering of the depositary shares for additional information before you buy any depositary shares.

General

We may, at our option, elect to offer fractional interests in shares of preferred stock, rather than shares of preferred stock. If we exercise this option, we will appoint a depositary to issue depositary receipts representing those fractional interests. Shares of preferred stock of each series represented by depositary shares will be deposited under a separate deposit agreement between us and the depositary. The prospectus supplement relating to a series of depositary shares will provide the name and address of the depositary. Subject to the terms of the applicable deposit agreement, each owner of depositary shares will be entitled to all of the dividend, voting, conversion, redemption, liquidation and other rights and preferences of the shares of preferred stock represented by those depositary shares.

Depositary receipts issued pursuant to the applicable deposit agreement will evidence ownership of depositary shares. Upon surrender of depositary receipts at the office of the depositary, and upon payment of the charges provided in and subject to the terms of the deposit agreement, a holder of depositary shares will be entitled to receive the shares of preferred stock underlying the surrendered depositary receipts.

Table of Contents

Distributions

A depositary will be required to distribute all dividends or other cash distributions received in respect of the applicable shares of preferred stock to the record holders of depositary receipts evidencing the related depositary shares in proportion to the number of depositary receipts owned by the holders. Fractions will be rounded down to the nearest whole cent.

If the distribution is other than in cash, a depositary will be required to distribute property received by it to the record holders of depositary receipts entitled thereto, unless the depositary determines that it is not feasible to make the distribution. In that case, the depositary may, with our approval, sell the property and distribute the net proceeds from the sale to the holders of depositary shares.

Depositary shares that represent shares of preferred stock converted or exchanged will not be entitled to distributions. The deposit agreement also will contain provisions relating to the manner in which any subscription or similar rights we offer to holders of shares of preferred stock will be made available to holders of depositary shares. All distributions will be subject to obligations of holders to file proofs, certificates and other information and to pay certain charges and expenses to the depositary.

Withdrawal of Shares of Preferred Stock

You may receive the number of whole shares of your series of preferred stock and any money or other property represented by your depositary receipts after surrendering your depositary receipts at the corporate trust office of the depositary. Partial shares of preferred stock will not be issued. If the depositary shares that you surrender exceed the number of depositary shares that represent the number of whole shares of preferred stock you wish to withdraw, then the depositary will deliver to you at the same time a new depositary receipt evidencing the excess number of depositary shares. Once you have withdrawn your shares of preferred stock, you will not be entitled to re-deposit those shares of preferred stock under the deposit agreement in order to receive depositary shares. We do not expect that there will be any public trading market for withdrawn shares of preferred stock.

Redemption of Depositary Shares

If we redeem a series of the preferred stock underlying the depositary shares, the depositary will redeem those shares from the proceeds it receives. The redemption price per depositary share will be equal to the applicable fraction of the redemption price per share payable with respect to the series of the preferred stock. The redemption date for depositary shares will be the same as that of the preferred stock. If we are redeeming less than all of the depositary shares, the depositary will select the depositary shares we are redeeming by lot or pro rata as the depositary may determine.

After the date fixed for redemption, the depositary shares called for redemption will no longer be deemed outstanding. All rights of the holders of the depositary shares and the related depositary receipts will cease at that time, except the right to receive the money or other property to which the holders of depositary shares were entitled upon redemption. Receipt of the money or other property is subject to surrender to the depositary of the depositary receipts evidencing the redeemed depositary shares.

Voting of the Underlying Shares of Preferred Stock

Upon receipt of notice of any meeting at which the holders of the preferred stock are entitled to vote, a depositary will be required to mail the information contained in the notice of meeting to the record holders of the depositary shares

representing such preferred stock. Each record holder of depositary receipts on the record date will be entitled to instruct the depositary as to how the holder's depositary shares will be voted. The record date for the depositary shares will be the same as the record date for the preferred stock. The depositary will vote the shares as you instruct. We will agree to take all reasonable action that the depositary deems necessary in order to

Table of Contents

enable it to vote the preferred stock in that manner. If you do not instruct the depositary how to vote your shares, the depositary will abstain from voting those shares. The depositary will not be responsible for any failure to carry out any voting instruction, or for the manner or effect of any vote, as long as its action or inaction is in good faith and does not result from its negligence or willful misconduct.

Liquidation Preference

Upon our liquidation, whether voluntary or involuntary, each holder of depositary shares will be entitled to the fraction of the liquidation preference accorded each share of preferred stock represented by the depositary shares, as described in the applicable prospectus supplement.

Conversion or Exchange of Shares of Preferred Stock

The depositary shares will not themselves be convertible into or exchangeable for shares of common stock or preferred stock or any of our other securities or property. Nevertheless, if so specified in the applicable prospectus supplement, the depositary receipts may be surrendered by holders to the applicable depositary with written instructions to it to instruct us to cause the conversion of the preferred stock represented by the depositary shares. Similarly, if so specified in the applicable prospectus supplement, we may require you to surrender all of your depositary receipts to the applicable depositary upon our requiring the conversion or exchange of the preferred stock represented by the depositary shares into our debt securities. We will agree that, upon receipt of the instruction and any amounts payable in connection with the conversion or exchange, we will cause the conversion or exchange using the same procedures as those provided for delivery of shares of preferred stock to effect the conversion or exchange. If you are converting only a part of the depositary shares, the depositary will issue you a new depositary receipt for any unconverted depositary shares.

Amendment and Termination of a Deposit Agreement

We and the applicable depositary are permitted to amend the provisions of the depositary receipts and the deposit agreement. However, the holders of at least a majority of the applicable depositary shares then outstanding (or such greater approval as is required by the then current rules of any stock exchange or trading market on which we shall have listed the applicable underlying series of preferred stock for trading or as otherwise provided in our organizational documents) must approve any amendment that adds or increases fees or charges or prejudices an important right of holders. Every holder of an outstanding depositary receipt at the time any amendment becomes effective, by continuing to hold the receipt, will be bound by the applicable deposit agreement, as amended.

Any deposit agreement may be terminated by us upon not less than 30 days' prior written notice to the applicable depositary if (1) the termination is necessary to preserve our status as a REIT or (2) a majority of each series of preferred stock affected by the termination consents to the termination. When either event occurs, the depositary will be required to deliver or make available to each holder of depositary receipts, upon surrender of the depositary receipts held by the holder, the number of whole or fractional shares of preferred stock as are represented by the depositary shares evidenced by the depositary receipts, together with any other property held by the depositary with respect to the depositary receipts. In addition, a deposit agreement will automatically terminate if:

all depositary shares have been redeemed;

there shall have been a final distribution in respect of the related preferred stock in connection with our liquidation and the distribution has been made to the holders of depositary receipts evidencing the depositary shares underlying the preferred stock; or

each related share of preferred stock shall have been converted or exchanged into securities not represented by depositary shares.

Charges of a Depositary

We will pay all transfer and other taxes and governmental charges arising solely from the existence of a deposit agreement. In addition, we will pay the fees and expenses of a depositary in connection with the initial deposit of the preferred stock and any redemption of preferred stock. However, holders of depositary receipts will pay any transfer or other governmental charges and the fees and expenses of a depositary for any duties the holders request to be performed that are outside of those expressly provided for in the applicable deposit agreement.

Resignation and Removal of a Depositary

A depositary may resign at any time by providing us notice of its election to resign. In addition, we may at any time remove a depositary. Any resignation or removal will take effect when we appoint a successor depositary and it accepts the appointment. We must appoint a successor depositary within 60 days after delivery of the notice of resignation or removal. A depositary must be a bank or trust company that has its principal office in the United States and a combined capital and surplus of at least \$50 million.

Miscellaneous

A depositary will be required to forward to holders of depositary receipts any reports and communications from us that it receives with respect to the related shares of preferred stock, including, without limitation, proxy solicitation materials. Holders of depositary receipts will be able to inspect the transfer books of the depositary and the list of holders of receipts upon reasonable notice. Neither we nor any depositary will be liable if either party is prevented from or delayed in performing its obligations under a deposit agreement by law or any circumstances beyond its control. Our obligations and those of the depositary under a deposit agreement will be limited to performing duties in good faith and without gross negligence or willful misconduct.

Neither we nor any depositary will be obligated to prosecute or defend any legal proceeding in respect of any depositary receipts, depositary shares or related shares of preferred stock unless satisfactory indemnity is furnished. We and each depositary will be permitted to rely on written advice of counsel or accountants, on information provided by persons presenting shares of preferred stock for deposit, by holders of depositary receipts, or by other persons believed in good faith to be competent to give the information, and on documents believed in good faith to be genuine and signed by a proper party.

If a depositary receives conflicting claims, requests or instructions from any holder of depositary receipts, on the one hand, and us, on the other hand, the depositary shall be entitled to act on the claims, requests or instructions received from us.

DESCRIPTION OF WARRANTS

This section describes the general terms and provisions of the warrants. The applicable prospectus supplement and any related free writing prospectus will describe the specific terms of the warrants offered through that prospectus supplement and any general terms outlined in this section that will not apply to those warrants.

We have summarized in this section certain terms and provisions of the warrant agreement and the warrants. The summary is not complete. You should read the forms of warrant and warrant agreement that we will file with the SEC at or before the time of the offering of the applicable series of warrants for additional information before you buy any warrants.

Table of Contents

We may issue, together with any other securities being offered or separately, warrants entitling the holder to purchase from or sell to us, or to receive from us the cash value of the right to purchase or sell, debt securities, preferred stock, depository shares or common stock. We and a warrant agent will enter into a warrant agreement pursuant to which the warrants will be issued. The warrant agent will act solely as our agent in connection with the warrants and will not assume any obligation or relationship of agency or trust for or with any holders or beneficial owners of warrants.

In the case of each series of warrants, the applicable prospectus supplement and any related free writing prospectus will describe the terms of the warrants being offered thereby. These include the following, if applicable:

the offering price;

the number of warrants offered;

the securities underlying the warrants;

the exercise price, the procedures for exercise of the warrants and the circumstances, if any, that will cause the warrants to be automatically exercised;

the date on which the warrants will expire;

federal income tax consequences;

the rights, if any, we have to redeem the warrants;

the name of the warrant agent; and

the other terms of the warrants.

Warrants may be exercised at the appropriate office of the warrant agent or any other office indicated in the applicable prospectus supplement. Before the exercise of warrants, holders will not have any of the rights of holders of the securities underlying the warrants and will not be entitled to payments made to holders of those securities.

The warrant agreements may be amended or supplemented without the consent of the holders of the warrants to which the amendment or supplement applies to effect changes that are not inconsistent with the provisions of the warrants and that do not adversely affect the interests of the holders of the warrants. However, any amendment that materially and adversely alters the rights of the holders of warrants will not be effective unless the holders of at least a majority of the applicable warrants then outstanding (or such greater approval as is required by the then current rules of any stock exchange or trading market on which we shall have listed the applicable underlying shares of capital stock for trading or as otherwise provided in our organizational documents) approve the amendment. Every holder of an

outstanding warrant at the time any amendment becomes effective, by continuing to hold the warrant, will be bound by the applicable warrant agreement, as amended. The prospectus supplement applicable to a particular series of warrants may provide that certain provisions of the warrants, including the securities for which they may be exercisable, the exercise price, and the expiration date, may not be altered without the consent of the holder of each warrant.

DESCRIPTION OF UNITS

We may, from time to time, issue units comprised of one or more of the other securities that may be offered under this prospectus, in any combination. Each unit will be issued so that the holder of the unit is also the holder of each security included in the unit. Thus, the holder of a unit will have the rights and obligations of a holder of each included security. The unit agreement under which a unit is issued may provide that the securities included in the unit may not be held or transferred separately at any time, or at any time before a specified date.

Table of Contents

Any applicable prospectus supplement and any related free writing prospectus will describe:

the material terms of the units and of the securities comprising the units, including whether and under what circumstances those securities may be held or transferred separately;

any material provisions relating to the issuance, payment, settlement, transfer or exchange of the units or of the securities comprising the units;

any special federal income tax considerations applicable to the units; and

any material provisions of the governing unit agreement that differ from those described above.

RESTRICTIONS ON TRANSFER OF SECURITIES

For us to qualify as a REIT, not more than 50% in value of our outstanding capital stock may be owned, directly or indirectly, by five or fewer individuals at any time during the last half of our taxable year. In order to ensure that this requirement is satisfied, our by-laws (with respect to our common stock and preferred stock) and our certificates of designation (for our preferred stock) provide that no person may acquire securities that would result in the direct or indirect beneficial ownership of more than 9.8% of our common stock or more than 9.8% in value of our outstanding capital stock by such person. For purposes of application of such limitations to any person, all options, warrants, convertible securities or other rights to acquire our capital stock held directly or indirectly by such person will be treated as if all such rights had been exercised. If any securities in excess of this limit are issued or transferred to any person, such issuance or transfer shall be valid only with respect to such amount of securities as does not exceed this limit, and such issuance or transfer will be void with respect to the excess. The board of directors may grant limited exemptions from the ownership restrictions set forth in the by-laws to specified persons if the board determines that each such limited exemption is in the best interests of us and our stockholders.

Our by-laws and certificates of designation further provide that, if the foregoing stock ownership limitations are determined to be invalid by virtue of any legal decision, statute, rule or regulation, then the transferee of the shares or other securities will be deemed to have acted as our agent in acquiring the shares or other securities that are in excess of the limit, and will be deemed to hold such excess shares or securities on our behalf. As the equivalent of treasury securities for such purposes, the excess securities will not be entitled to any voting rights, will not be considered to be outstanding for quorum or voting purposes, and will not be entitled to receive dividends, interest or any other distribution with respect to such securities. Any person who receives dividends, interest or any other distribution in respect of the excess securities will hold the same as our agent and for the transferee of the excess securities following a permitted transfer.

In addition, under our by-laws and certificates of designation, we may refuse to transfer any shares, passing either by voluntary transfer, by operation of law, or under the last will and testament of any stockholder, if such transfer would or might, in the opinion of our board of directors or counsel, disqualify us as a REIT.

DESCRIPTION OF CERTAIN PROVISIONS OF OUR CERTIFICATE OF

INCORPORATION AND BY-LAWS

Anti-Takeover Provisions

Our certificate of incorporation and by-laws contain provisions that may have the effect of discouraging persons from acquiring large blocks of our stock or delaying or preventing a change in our control. The material provisions that may have such an effect are:

A provision permitting our board of directors to make, amend or repeal our by-laws.

Authorization for our board of directors to issue preferred stock in series and to fix the rights and preferences of the series, including, among other things, whether and to what extent the shares of any

Table of Contents

series will have voting rights and the extent of the preferences of the shares of any series with respect to dividends and other matters (see [Description of Our Capital Stock Preferred Stock](#) above).

A prohibition on stockholders taking action by written consent in lieu of a meeting.

Advance notice procedures with respect to nominations of directors by stockholders and proposals by stockholders of business at an annual meeting.

The grant only to our board of directors of the right to call special meetings of stockholders.

Limitations on the number of shares of our capital stock that may be beneficially owned, directly or indirectly, by any one stockholder (see [Restrictions on Transfer of Securities](#) above).

Limitations on transactions that involve us and any stockholder who beneficially owns 5% or more of our voting stock (see [Limitations on Transactions Involving Us and Our Stockholders](#) below).

A provision permitting amendment by the stockholders of certain of the provisions listed above only by an affirmative vote of the holders of at least three-quarters of all of the outstanding shares of our voting stock, voting together as a single class.

Limitations on Transactions Involving Us and Our Stockholders

Under our by-laws, in addition to any vote otherwise required by law, our certificate of incorporation or our by-laws, the following transactions will require the affirmative vote of the holders of at least 75% of the voting power of our then outstanding shares of capital stock entitled to vote generally in the election of directors, voting together as a single class:

Our merger or consolidation with or into

any stockholder that owns 5% or more of our voting stock; or

any other corporation or entity which is, or after such merger or consolidation would be, an affiliate of a stockholder that owns 5% or more of our voting stock.

Any sale, lease, exchange, mortgage, pledge, transfer or other disposition of substantially all of our assets, in one transaction or a series of transactions, to or with any stockholder that owns 5% or more of our voting stock or an affiliate of any such stockholder.

Any reclassification of our securities, including any reverse stock split, or recapitalization or any other transaction that has the effect, directly or indirectly, of increasing the proportionate share of the outstanding shares of any class of our equity securities that is directly or indirectly owned by any stockholder that owns 5% or more of our voting stock or any affiliate of such a stockholder, whether or not the transaction involves such a stockholder.

The adoption of any plan or proposal for our liquidation or dissolution proposed by or on behalf of a stockholder that owns 5% or more of our voting stock or any affiliate of such a stockholder.

These provisions will not apply to any of the transactions described above if:

We are at the time of the consummation of the transaction, and at all times throughout the preceding twelve months have been, directly or indirectly, the owner of a majority of each class of the outstanding equity securities of the 5% stockholder that is a party to the transaction; or

The transaction has been approved by a majority of the members of our board of directors who, at the time such approval is given, were not affiliates or nominees of the 5% stockholder; or

Both of the following conditions have been met:

the aggregate amount of the cash and the fair market value, as determined in good faith by our board of directors, of the consideration other than cash to be received per share by holders of our

Table of Contents

voting stock in such transaction shall be at least equal to the highest per share price paid by the 5% stockholder for any shares of voting stock acquired by it:

within the two-year period immediately prior to the first public announcement of the proposal of the transaction, or

in the transaction in which it became a 5% stockholder, whichever is higher; and

the consideration to be received by holders of a particular class of outstanding voting stock shall be in cash or in the same form as the 5% stockholder previously paid for shares of such voting stock. If the 5% stockholder paid for shares of any class of voting stock with varying forms of consideration, the form of consideration to be paid by the 5% stockholder for such class of voting stock shall be either cash or the form used to acquire the largest number of shares of such class of voting stock previously acquired by the stockholder.

The foregoing summary of certain provisions of our certificate of incorporation and by-laws does not purport to be complete or to give effect to provisions of statutory or common law. The foregoing summary is subject to and qualified in its entirety by reference to the provisions of applicable law and our certificate of incorporation and by-laws, copies of which are incorporated by reference as exhibits to the registration statement of which this prospectus is a part.

SELLING SECURITY HOLDERS

Information about selling security holders and the terms of the securities offered for resale, where applicable, will be set forth in a prospectus supplement, in a post-effective amendment, or in filings we make with the SEC that are incorporated into this prospectus by reference. Selling security holders may be deemed to be underwriters in connection with the securities they resell and any profits on the resale may be deemed to be underwriting discounts and commissions under the Securities Act. The selling security holders will receive all the proceeds from the resale of our securities. We will not receive any proceeds from resales by selling security holders.

PLAN OF DISTRIBUTION

Sales by Us

We may sell the securities:

through underwriters or dealers;

through agents;

directly to purchasers; or

through a combination of any of these methods of sale.

The applicable prospectus supplement and any related free writing prospectus will (1) describe the plan of distribution of the securities, (2) describe the terms of the offering and (3) name any managing underwriter or underwriters, underwriter, dealer or agent involved in the offer and sale of the securities.

We also may, from time to time, authorize underwriters and our agents to offer and sell the securities upon the terms and conditions as are set forth in the applicable prospectus supplement. In connection with the sale of securities, underwriters may be deemed to have received compensation from us in the form of underwriting discounts, commissions or fees and may also receive commissions from purchasers of securities for whom they may act as agent. Underwriters may sell securities to or through dealers, and these dealers may receive

Table of Contents

compensation in the form of discounts, concessions or commissions from the underwriters or commissions from the purchasers for whom they may act as agent, or both. The applicable prospectus supplement will disclose:

any underwriting compensation we pay to underwriters or agents in connection with the offering of securities; and

any discounts, concessions or commissions allowed by underwriters to participating dealers.

Under the Securities Act, underwriters, dealers and agents participating in the distribution of the securities may be deemed to be underwriters and any discounts, commissions and fees received by them and any profit realized by them on resale of the securities may be deemed to be underwriting compensation, discounts and commissions. We may agree to indemnify underwriters, dealers and agents against civil liabilities, including liabilities under the Securities Act, and to make contribution to them in connection with those liabilities.

If indicated in the applicable prospectus supplement, we may also offer and sell securities through one or more firms that will remarket the securities. These firms may act as principals for their own account or as our agents. These firms may be deemed to be underwriters in connection with the securities being remarketed. We may agree to indemnify these firms against liabilities, including liabilities under the Securities Act.

Upon the terms and conditions of the applicable prospectus supplement, the underwriters may purchase and sell securities in the open market. These transactions may include short sales, purchases to cover positions created by short sales and stabilizing transactions. Short sales involve the sale by the underwriters of a greater number of securities than they are required to purchase in the offering. Stabilizing transactions consist of various bids for or purchases of the securities made by the underwriters in the open market prior to the completion of the offering. The underwriters may also impose a penalty bid. This occurs when a particular underwriter repays to the other underwriters a portion of the underwriting discount received by it because the representatives of the underwriters have repurchased securities sold by or for the account of that underwriter in stabilizing or short covering transactions. The underwriters are not required to engage in these activities and may discontinue any of these activities at any time.

If indicated in the applicable prospectus supplement, we may authorize underwriters, agents or dealers to solicit offers by institutions to purchase securities at the offering price set forth in that prospectus supplement under delayed delivery contracts providing for payment and delivery on the dates stated in the prospectus supplement. Each contract will be for an amount not less than, and the aggregate principal amount of securities sold under contracts will be not less nor more than, the respective amounts stated in the applicable prospectus supplement. Institutions with whom contracts, when authorized, may be made include commercial and savings banks, insurance companies, pension funds, investment companies, educational and charitable institutions, and other institutions, but will in all cases be subject to our approval. Contracts will not be subject to any conditions except:

the purchase by an institution of the securities covered by its contracts will not at the time of delivery be prohibited under the laws of any jurisdiction in the United States to which the institution is subject; and

if the securities are also being sold to underwriters, we will have sold to them the total principal amount of the securities less the principal amount of the securities covered by contracts.

Underwriters and agents will have no responsibility in respect of the delivery or performance of contracts.

Some of the underwriters and their affiliates may engage in transactions with or perform services for us in the ordinary course of business.

Table of Contents

Direct sales to investors or our stockholders may be accomplished through subscription offerings or through stockholder purchase rights distributed to stockholders. In connection with subscription offerings or the distribution of stockholder purchase rights to stockholders, if all of the underlying securities are not subscribed for, we may sell any unsubscribed securities to third parties directly or through underwriters or agents. In addition, whether or not all of the underlying securities are subscribed for, we may concurrently offer additional securities to third parties directly or through underwriters or agents. If securities are to be sold through stockholder purchase rights, the stockholder purchase rights will be distributed as a dividend to the stockholders for which they will pay no separate consideration. The prospectus supplement with respect to the offer of securities under stockholder purchase rights will set forth the relevant terms of the stockholder purchase rights, including:

whether common stock, preferred stock or some other type of capital stock, or warrants for those securities, will be offered under the stockholder purchase rights;

the number of those securities or warrants that will be offered under the stockholder purchase rights;

the period during which and the price at which the stockholder purchase rights will be exercisable;

the number of stockholder purchase rights then outstanding;

any provisions for changes to or adjustments in the exercise price of the stockholder purchase rights; and

any other material terms of the stockholder purchase rights.

Underwriters and our agents may offer and sell the securities at:

fixed prices, which may be changed;

prices related to the prevailing market prices at the time of sale; or

negotiated prices.

Sales by Selling Security Holders

The selling security holders may resell or redistribute the securities from time to time on any stock exchange or automated interdealer quotation system on which the securities are listed, in the over-the-counter market, in privately negotiated transactions, or in any other legal manner, at fixed prices that may be changed, at market prices prevailing at the time of sale, at prices related to prevailing market prices or at negotiated prices. Persons who are pledgees, donees, transferees, or other successors in interest of any of the named selling security holders (including, but not limited, to persons who receive securities from a named selling security holder as a gift, partnership distribution or

other non-sale-related transfer after the date of this prospectus) may also use this prospectus and are included when we refer to selling security holders in this prospectus. The selling security holders may sell the securities by one or more of the following methods, without limitation:

block trades (which may include cross trades) in which the broker or dealer so engaged will attempt to sell the securities as agent but may position and resell a portion of the block as principal to facilitate the transaction;

purchases by a broker or dealer as principal and resale by the broker or dealer for its own account;

an exchange distribution or secondary distribution in accordance with the rules of any stock exchange on which the securities may be listed;

ordinary brokerage transactions and transactions in which the broker solicits purchases;

an offering at other than a fixed price on or through the facilities of any stock exchange on which the securities are listed or to or through a market maker other than on that stock exchange;

privately negotiated transactions, directly or through agents;

Table of Contents

short sales;

through the writing of options on the securities, whether or the options are listed on an options exchange;

through the distribution of the securities by any security holder to its partners, members or stockholders;

one or more underwritten offerings;

agreements between a broker or dealer and any security holder to sell a specified number of the securities at a stipulated price per share; and

any combination of any of these methods of sale or distribution, or any other method permitted by applicable law.

The security holders may also transfer the securities by gift.

The selling security holders may engage brokers and dealers, and any brokers or dealers may arrange for other brokers or dealers to participate in effecting sales of the securities. These brokers, dealers or underwriters may act as principals, or as an agent of a selling security holder. Broker-dealers may agree with a selling security holder to sell a specified number of the securities at a stipulated price per share. If the broker-dealer is unable to sell securities acting as agent for a selling security holder, it may purchase as principal any unsold securities at the stipulated price. Broker-dealers who acquire securities as principals may thereafter resell the securities from time to time in transactions in any stock exchange or automated interdealer quotation system on which the securities are then listed, at prices and on terms then prevailing at the time of sale, at prices related to the then-current market price or in negotiated transactions. Broker-dealers may use block transactions and sales to and through broker-dealers, including transactions of the nature described above.

From time to time, one or more of the selling security holders may pledge, hypothecate or grant a security interest in some or all of the securities owned by them. The pledgees, secured parties or persons to whom the securities have been hypothecated will, upon foreclosure in the event of default, be deemed to be selling security holders. The number of a selling security holder's securities offered under this prospectus will decrease as and when it takes such actions. The plan of distribution for that selling security holder's securities will otherwise remain unchanged. In addition, a selling security holder may, from time to time, sell the securities short, and, in those instances, this prospectus may be delivered in connection with the short sales and the securities offered under this prospectus may be used to cover short sales.

The selling security holders and any underwriters, brokers, dealers or agents that participate in the distribution of the securities may be deemed to be underwriters within the meaning of the Securities Act, and any discounts, concessions, commissions or fees received by them and any profit on the resale of the securities sold by them may be deemed to be underwriting discounts and commissions.

A selling security holder may enter into hedging transactions with broker-dealers and the broker-dealers may engage in short sales of the securities in the course of hedging the positions they assume with that selling security holder, including, without limitation, in connection with distributions of the securities by those broker-dealers. A selling

security holder may enter into option or other transactions with broker-dealers that involve the delivery of the securities offered hereby to the broker-dealers, who may then resell or otherwise transfer those securities. A selling security holder may also loan or pledge the securities offered hereby to a broker-dealer and the broker-dealer may sell the securities offered hereby so loaned or upon a default may sell or otherwise transfer the pledged securities offered hereby.

The selling security holders and other persons participating in the sale or distribution of the securities will be subject to applicable provisions of the Exchange Act and the related rules and regulations adopted by the SEC, including Regulation M. This regulation may limit the timing of purchases and sales of any of the securities by

Table of Contents

the selling security holders and any other person. The anti-manipulation rules under the Exchange Act may apply to sales of securities in the market and to the activities of the selling security holders and their affiliates. Furthermore, Regulation M may restrict the ability of any person engaged in the distribution of the securities to engage in market-making activities with respect to the particular securities being distributed for a period of up to five business days before the distribution. These restrictions may affect the marketability of the securities and the ability of any person or entity to engage in market-making activities with respect to the securities.

We may agree to indemnify the selling security holders and their respective officers, directors, employees and agents, and any underwriter or other person who participates in the offering of the securities, against specified liabilities, including liabilities under the federal securities laws or to contribute to payments the underwriters may be required to make in respect of those liabilities. The selling security holders may agree to indemnify us, the other selling security holders and any underwriter or other person who participates in the offering of the securities, against specified liabilities arising from information provided by the selling security holders for use in this prospectus or any accompanying prospectus supplement, including liabilities under the federal securities laws. In each case, indemnification may include each person who is an affiliate of or controls one of these specified indemnified persons within the meaning of the federal securities laws or is required to contribute to payments the underwriters may be required to make in respect of those liabilities. The selling security holders may agree to indemnify any brokers, dealers or agents who participate in transactions involving sales of the securities against specified liabilities arising under the federal securities laws in connection with the offering and sale of the securities.

We will not receive any proceeds from sales of any securities by the selling security holders.

We cannot assure you that the selling security holders will sell all or any portion of the securities offered hereby.

We will supply the selling security holders and any stock exchange upon which the securities are listed with reasonable quantities of copies of this prospectus. To the extent required by Rule 424 under the Securities Act in connection with any resale or redistribution by a selling security holder, we will file a prospectus supplement setting forth:

the aggregate number of securities to be sold;

the purchase price;

the public offering price;

if applicable, the names of any underwriter, dealer or agent; and

any applicable commissions, discounts, concessions, fees or other items constituting compensation to underwriters, dealers or agents with respect to the particular transaction (which may exceed customary commissions or compensation).

If a selling security holder notifies us that a material arrangement has been entered into with a broker-dealer for the sale of securities through a block trade, special offering, exchange, distribution or secondary distribution or a purchase

by a broker or dealer, the prospectus supplement will include any other facts that are material to the transaction. If applicable, this may include a statement to the effect that the participating broker-dealers did not conduct any investigation to verify the information set out or incorporated by reference in this prospectus.
