**Notice to Prospective Investors in the European Economic Area**

This prospectus supplement and the accompanying prospectus has been prepared on the basis that all offers of notes will be made pursuant to an exemption under Article 3 of the Prospectus Directive (as defined below), as implemented in member states of the European Economic Area (the **EEA**), from the requirement to produce a prospectus for offers of notes. Accordingly, any person making or intending to make any offer within the EEA of the notes which are the subject of the offering should only do so in circumstances in which no obligation arises for us or any of the underwriters to produce a prospectus for such offer. Neither we nor the underwriters have authorized, nor do we or they authorize, the making of any offer of notes through any financial intermediary, other than offers made by the underwriters, which constitute the final placement of the notes contemplated in this prospectus supplement and the accompanying prospectus.

In addition to what is set out above, in relation to each member state of the EEA that has implemented the Prospectus Directive (each, a **Relevant Member State**), with effect from and including the date on which the Prospectus Directive is implemented in that Relevant Member State, no offer has been made and no offer will be made of notes which are the subject of the offering contemplated by this prospectus supplement and the accompanying prospectus to the public in that Relevant Member State other than:

- (a) to any legal entity which is a qualified investor as defined in the Prospectus Directive;
- (b) 150 natural or legal persons (other than qualified investors as defined in the Prospectus Directive), subject to obtaining the prior consent of the underwriters; or
- (c) in any other circumstances falling within Article 3(2) of the Prospectus Directive;

provided that no such offer of notes shall require us or any of the underwriters to publish a prospectus pursuant to Article 3 of the Prospectus Directive.

For the purposes of this restriction, the expression an offer of notes to the public in relation to the notes in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the notes to be offered so as to enable an investor to decide to purchase or subscribe for the notes, as the same may be varied in that Relevant Member State by any measure implementing the Prospectus Directive in that Relevant Member State, and the expression Prospectus Directive means Directive 2003/71/EC (as amended, including by Directive 2010/73/EU), and includes any relevant implementing measure in the Relevant Member State.

**Table of Contents****SUMMARY**

*The following summary highlights certain significant aspects of our business and this offering, but you should carefully read the entire prospectus supplement and the accompanying prospectus, including the documents incorporated by reference, which are described under **Incorporation of Information by Reference**, before making an investment decision. Because this is a summary, it does not contain all the information that may be important to you. Our actual results could differ materially from those anticipated in certain forward-looking statements contained in this prospectus supplement and the accompanying prospectus as a result of certain factors, including those set forth under **Forward-Looking Statements** and **Risk Factors**.*

**Brown-Forman Corporation**

Brown-Forman is one of the leading global spirits companies, producing and marketing premium branded wines and spirits that are sold in more than 160 countries. George Garvin Brown founded the Company in 1870 and descendants of the Brown family remain active in the Company to this day.

<sup>2</sup> While Korbel is not an owned brand, we sell Korbel products under contract in the United States and other select markets.

For the fiscal year ended April 30, 2016, we generated net sales of approximately \$4,011 million and net income of approximately \$1,067 million.

The most important brand in our portfolio is Jack Daniel's Tennessee Whiskey, which is the fourth-largest spirits brand of any kind and the largest selling American whiskey brand in the world, according to volume statistics published in March 2016 by Impact Databank, a well-known trade publication. In its third year on the Worldwide Impact list, Jack Daniel's Tennessee Honey is the second-largest-selling flavored whiskey on the Worldwide Impact list, selling over 1.5 million nine-liter cases in calendar year 2015, up 13% from the prior calendar year. Additionally, Jack Daniel's

Tennessee Fire was designated by Impact as a Hot Brand in its first full calendar year. Our other leading global brands on the Worldwide Impact list are Finlandia, the ninth-largest-selling vodka; Canadian Mist, the fourth-largest-selling Canadian whisky; and el Jimador, the fourth-largest-selling tequila and designated by Impact as a Hot Brand. We believe the statistics used to rank these products are reasonably accurate.

S-1

**Table of Contents**

Our strategy is to market high quality products that satisfy the preferences of consumers of legal drinking age and to support those products with extensive international, national, and regional marketing programs. These programs are intended to increase consumer brand recognition and brand loyalty.

We own numerous valuable trademarks that are essential to our business. Registrations of trademarks can generally be renewed indefinitely as long as the trademarks are in use. Through licensing arrangements, we have authorized the use of some of our trademarks on promotional items for the primary purpose of enhancing brand awareness.

**Ingredients and Other Supplies**

The principal raw materials used in manufacturing and packaging our distilled spirits are water, corn, rye, malted barley, agave, sugar, glass, cartons, PET (polyethylene terephthalate, used in non-glass containers), labels, and wood for barrels, which are used for storing whiskey and certain tequilas. The principal raw materials used in liqueurs are neutral spirits, sugar, and wine, while the principal raw materials used in our RTD products are sugar, flavorings, neutral spirits, whiskey, tequila, and malt. The principal raw materials used in producing wines are grapes, packaging materials, and wood barrels. Our grape supply comes from a combination of our California vineyards and contracts with independent growers. We believe that our relationships with our growers are good. Currently, none of these raw materials is in short supply, but shortages in some of these could occur. From time to time, our agricultural ingredients (corn, rye, malted barley, agave, and grapes) could be adversely affected by weather and other forces that might constrain supply.

Due to aging requirements, we must schedule production of whiskeys, certain tequilas, and other distilled spirits to meet demand years in the future. As a result, our inventories may be larger in relation to sales and total assets than would be normal for many other businesses.

**Distribution**

We use a variety of distribution models across the globe to deliver our products to our customers. In the United States, we sell our brands either to wholesalers or to state governments that then sell to retail customers and consumers. We own and operate distribution networks in Australia, Brazil, Canada, China, the Czech Republic, France, Germany, Hong Kong, South Korea, Mexico, Poland, Thailand, and Turkey, where we sell our products either directly to retail stores, to wholesalers or, in Canada, to provincial governments. We plan to establish a new distribution company in Spain, which we expect to begin operating in our fiscal year ended April 30, 2018. In the United Kingdom, we partner with another supplier, Bacardi, to sell a combined portfolio of our companies' brands. In many other markets, including Italy, Japan, Russia and South Africa, we rely on others to distribute our brands, generally under fixed-term distribution contracts.

**International Markets**

Our main international markets include Australia, the United Kingdom, Mexico, Germany, Poland, France, Russia, Turkey, Canada, and Japan. Our fiscal 2016 net sales by geography were as follows:

United States	46%
Europe	31%
Australia	9%
Rest of the world	14%

## **Competition**

The distilled spirits industry is highly competitive. We compete against many global, regional, and local brands in a variety of categories of beverage alcohol, but most of our brands compete primarily in the industry's premium-and-higher price categories. We compete based on taste, product quality, brand image, and price—all

S-2

**Table of Contents**

in response to consumer preferences. While the industry is highly fragmented, direct competitors include Bacardi Limited, Beam Suntory Inc., Davide Campari-Milano S.p.A., Diageo PLC, LVMH Moët Hennessy Louis Vuitton S.A., Pernod Ricard S.A., and Rémy Cointreau S.A. In addition, particularly in the United States, we increasingly compete with (a) national companies, and (b) entrepreneurs, many of whom are recent entrants to the industry typically with small-batch or craft spirit brands.

**Regulatory Environment**

In the United States, at the federal level, the Alcohol and Tobacco Tax and Trade Bureau of the United States Treasury Department regulates the wine and spirits industry with respect to production, blending, bottling, sales, advertising, and transportation of beverage alcohol products. Similar regulatory regimes exist in each state, as well as in most of the non-U.S. jurisdictions where we sell our products. In addition, distilled spirits products are subject to customs duties or excise taxation in many countries, including in the United States, at the federal, state, and local level.

Under U.S. federal regulations, bourbon and Tennessee whiskeys must be aged for at least two years in new charred oak barrels. We typically age our whiskeys between three and six years. Federal regulations also require that Canadian whiskey must be manufactured in Canada in compliance with Canadian laws. Mexican authorities regulate the production and bottling of tequilas, which among other specifications, mandate minimum aging periods for *anejo* (one year) and *reposado* (two months) tequilas. We comply with these regulations.

**Employees**

As of April 30, 2016, we employed approximately 4,600 persons. We believe our employee relations are good.

**Concurrent Sterling Notes Offering**

On June 30, 2016, we announced an offering of £300,000,000 2.600% Notes due 2028 (the *sterling notes*), in an underwritten public offering pursuant to a separate prospectus supplement (the *Concurrent Offering*). Closing of the Concurrent Offering is subject to customary conditions precedent. The consummation of this offering is not contingent upon the successful completion of the Concurrent Offering. We cannot assure you that the Concurrent Offering will be completed. This prospectus supplement and the accompanying prospectus is not, and should not be construed as, an offering of any securities other than the notes offered hereby.

**Ratio of Earnings to Fixed Charges**

The following table sets forth our historical ratio of earnings to fixed charges for the periods indicated. Earnings consist of income from continuing operations before income taxes, excluding undistributed income of equity investees, plus fixed charges excluding capitalized interest. Fixed charges consist of interest charges, whether expensed or capitalized and is inclusive of that portion of tax reserves we believe to be representative of interest and that portion of rental expense we believe to be representative of interest.

**The Offering**

Issuer	Brown-Forman Corporation.
Securities	300,000,000 aggregate principal amount of 1.200% Notes due 2026.
Maturity Date	July 7, 2026.
Interest	Interest on the notes will accrue at the rate of 1.200% per year. Interest on the notes will be payable annually in arrears on July 7 of each year, beginning July 7, 2017.
Ranking	The notes will be our unsecured senior obligations and will rank equally with all of our other existing and future unsecured senior indebtedness and senior to any existing and future subordinated indebtedness from time to time outstanding. The notes will be effectively subordinated to our secured indebtedness to the extent of the value of the assets securing such indebtedness. See Description of Notes Ranking.
Additional Amounts	We will, subject to certain exceptions and limitations, pay additional amounts as are necessary in order that the net payment of the principal of, premium, if any, and interest in respect of the notes to a holder who is not a United States person (as defined under Description of Notes Payment of Additional Amounts ), after withholding or deduction for any present or future tax, assessment, duties or other governmental charge imposed by the United States (or any political subdivisions or taxing authority thereof or therein having power to tax), will not be less than the amount provided in such notes to be then due and payable.
Redemption for Tax Reasons	We may redeem in whole, but not in part, the notes at the redemption price of 100% of their outstanding principal amount, plus accrued and unpaid interest to, but excluding, the redemption date, if certain tax events occur that would obligate us to pay additional amounts as described under Description of Notes Payment of Additional Amounts.
Currency of Payment	All payments of interest and principal, including payments made upon any redemption or repurchase of the notes, will be made in euro; provided that if the euro is unavailable to us due to the imposition of exchange controls or other circumstances beyond our control or if the

euro is no longer being used by the then member states of the European Monetary Union that have adopted the euro as their currency or for the settlement of transactions by public institutions of or within the international banking community, then all payments in respect of the notes will be made in U.S. dollars until the euro is again available to us or so used. In such circumstances, the amount payable on any date in euro will be converted into U.S. dollars at the rate mandated by the Board of Governors of the Federal Reserve System

as of the close of business on the second business day prior to the relevant payment date or, if the Board of Governors of the Federal Reserve System has not announced a rate of conversion, on the basis of the most recent U.S. dollar/euro exchange rate published in The Wall Street Journal on or prior to the second business day prior to the relevant payment date or, in the event The Wall Street Journal has not published such exchange rate, the rate will be determined in our sole discretion on the basis of the most recently available market exchange rate for the euro. Any payment in respect of the notes so made in U.S. dollars will not constitute an Event of Default (as defined in the indenture). Neither the trustee nor the paying agent shall have any responsibility for any calculation or conversion in connection with the foregoing. See Description of Notes Issuance in Euro.

Optional Redemption

We may redeem the notes at our option, in whole at any time or, from time to time, in part. We may redeem the notes before April 7, 2026 (three months prior to the maturity date) at the make-whole redemption price described in Description of Notes Optional Redemption.

On or after April 7, 2026 (three months prior to the maturity date), we may redeem the notes at a redemption price equal to 100% of the outstanding principal amount of the notes being redeemed. See Description of Notes Optional Redemption.

Certain Covenants

The indenture under which we will issue the notes contains covenants that, among other things, limit our ability under certain circumstances to create liens, enter into sale and lease-back transactions and engage in mergers, consolidations and sales of substantially all of our assets. See Description of Debt Securities in the accompanying prospectus.

Lack of a Public Market for the Notes

There is no established trading market for the notes and, although we intend to apply for listing of the notes for trading on the New York Stock Exchange, there can be no assurance that the notes will become listed, will remain listed or regarding:

any future development or liquidity of a trading market for the notes;

the prices at which you may be able to sell your notes; or

your ability to sell your notes at all.

Future trading prices of the notes will depend on many factors, including:

prevailing interest rates;

our operating results and financial condition; and

the markets for similar securities.
