PENDING ACQUISITION OF CARLILE BANCSHARES

On November 21, 2016, we executed an Agreement and Plan of Reorganization pursuant to which we agreed to acquire Carlile Bancshares, Inc., a Texas corporation and a registered bank holding company. Carlile Bancshares conducts its banking operations through its wholly owned subsidiary, Northstar Bank, a Texas banking association, that operates 24 full service banking locations in Texas and 18 full service banking locations in Colorado. As of September 30, 2016, Carlile Bancshares, on a consolidated basis, reported total assets of \$2.3 billion, total deposits of \$1.9 billion and total equity capital of \$383 million. On a pro forma basis as of September 30, 2016, assuming completion of the transaction as of that date, Independent Bank Group would have had total assets of approximately \$8.2 billion, total deposits of approximately \$6.3 billion and total equity capital of approximately \$1.2 billion.

Under the reorganization agreement between us and Carlile Bancshares (which is an exhibit to our Current Report on Form 8-K filed with the SEC on November 22, 2016), Carlile Bancshares would merge with and into our Company and our Company would be the surviving company in that merger. Subsequent to the merger, Northstar Bank would be merged with and into Independent Bank and Independent Bank would be the surviving bank in that merger.

Under the terms of the reorganization agreement, we will issue shares of our common stock to the shareholders of Carlile Bancshares and pay cash to the holders of the then outstanding options to acquire shares of Carlile Bancshares common stock. The number of shares of our common stock to be issued to Carlile Bancshares shareholders is based upon aggregate merger consideration of \$434 million divided by an agreed price of \$47.40 per share of our common stock, adjusted for the aggregate amount of cash to be paid to the Carlile Bancshares option holders. Based upon our closing stock price of \$60.10 per share as of November 30, 2016, we would issue approximately 8.9 million shares of our common stock and pay cash in the amount of approximately \$17.7 million to the Carlile Bancshares option holders. The \$434 million amount used to calculate the merger consideration will be reduced on a dollar-for-dollar basis if the tangible equity of Carlile Bancshares is less than \$200 million at the closing of the merger. Carlile Bancshares is permitted to distribute an aggregate amount of up to \$55,250,000 in cash to its shareholders prior to the consummation of the merger. If the transaction had been consummated on November 30, 2016, and the tangible equity of Carlile Bancshares had been at least \$200 million on that date, the shares issued in the merger would have constituted approximately 32% of our shares of common stock issued and outstanding immediately after the merger.

We have agreed to add three Carlile Bancshares representatives to our board of directors, one in each of our three existing classes of directors. If, however, the three Carlile Bancshares directors do not represent at least 25% of the number of our directors, then we must increase the number of Carlile Bancshares representatives to be added to our

board of directors to a number equal to at least 25% of our directors.

Table of Contents

We anticipate that the merger will be consummated during the second quarter of 2017 (although delays could occur in the consummation of the merger), subject to the effectiveness of a registration statement on Form S-4 registering the offer and sale of our shares of common stock to be issued in the merger, which registration statement will be filed with the SEC, the receipt of regulatory approvals, approval of the merger by our and Carlile Bancshares' respective shareholders, and the satisfaction of other customary closing conditions. The merger has been approved by our board of directors and the board of directors of Carlile Bancshares.

- (1) Prior to April 1, 2013, our Company elected to be taxed for federal income tax purposes as an S corporation under the provisions of Sections 1361 through 1379 of the Internal Revenue Code of 1986, as amended, and, as a result, our Company did not pay U.S. federal income taxes and has not been required to make any provision or recognize any liability for federal income tax in our consolidated financial statements for any period ending on or before March 31, 2013. As of April 1, 2013, our Company terminated its S corporation election and commenced being subject to federal income taxation as a C corporation. We have calculated our pro forma net income, pro forma earnings per share on a basic and diluted basis, pro forma return on average assets and pro forma return on average equity for each period presented by calculating a pro forma provision for federal income taxes using an assumed annual effective federal income tax rate of 33.9%, 30.1% and 31.7% for the years ended December 31, 2013, 2012 and 2011, respectively, and adjusting our historical net income for each period presented to give effect to the pro forma provision for federal income taxes for such period.
- (2) The per share amounts and the weighted-average shares outstanding for each of the periods shown have been adjusted to give effect to the 3.2-for-one split of the shares of our common stock that was effective as of February 22, 2013.
- (3) We calculate our diluted earnings per share for each period shown as its net income divided by the weighted-average number of its common shares outstanding during the relevant period adjusted for the dilutive effect of its outstanding warrants to purchase shares of common stock. Earnings per share on a basic and diluted basis and pro forma earnings per share on a basic and diluted basis were calculated using the following outstanding share amounts, which includes participating shares (those shares with dividend rights):

- (4) Dividends declared for the years ended December 31, 2013, 2012 and 2011 include quarterly cash distributions paid to our Company's shareholders as to the three months ended March 31, 2013 and the years ended December 31, 2012 and 2011 to provide them with funds to pay their federal income tax liabilities incurred as a result of the pass-through of our net taxable income for such periods to our shareholders as holders of shares in an S corporation for federal income tax purposes. The aggregate amounts of such cash distributions relating to the payment of tax liabilities were \$0.52 per share, \$0.85 per share and \$0.63 per share for the years ended December 31, 2013, 2012 and 2011, respectively.
- (5) Book value per share equals our Company's total common stockholders' equity (excludes preferred stock) as of the date presented divided by the number of shares of our common stock outstanding as of the date presented. The number of shares of our common stock outstanding as of September 30, 2016 and 2015, was 18,488,628 and 17,111,394, respectively, and as of December 31, 2015, 2014, 2013, 2012 and 2011 was 18,399,194 shares, 17,032,669 shares, 12,330,158 shares, 8,269,707 shares and 6,850,293 shares, respectively.

number of shares of our common stock at the end of that period. Tangible book value is a non-GAAP financial measure, and, as we calculate tangible book value, the most directly comparable GAAP financial measure is total stockholders' equity. We believe that the presentation of tangible book value per share provides useful information to investors regarding our financial condition because, as do our management, banking regulators, many financial analysts and other investors, you can use the tangible book value in conjunction with more traditional bank capital ratios to assess our capital adequacy without the effect of our goodwill and other intangible assets and compare our capital adequacy with the capital adequacy of other banking organizations with significant amounts of goodwill and/or other intangible assets, which typically stem from the use of the purchase accounting method of accounting for mergers and acquisition. A reconciliation of tangible book value to total stockholders' equity is presented below.

- (7) Each of five wholly owned, but nonconsolidated, subsidiaries of our Company holds a series of our junior subordinated debentures purchased by the subsidiary in connection with, and paid for with the proceeds of, the issuance of trust preferred securities by that subsidiary. We have guaranteed the payment of the amounts payable under each of those issues of trust preferred securities.
- (8) The values for the selected performance metrics and for the net charge-offs to average loans outstanding ratio presented for the nine months ended September 30, 2016 and 2015, other than the dividend payout ratio, are annualized.
- (9) We have calculated our return on average assets and return on average equity for a period by dividing net income for that period by our average assets and average equity, as the case may be, for that period. We have calculated our pro forma return on average assets and pro forma return on average equity for a period by calculating our pro forma net income for that period as described in note 1 above and dividing that by our average assets and average equity, as the case may be, for that period. We calculate our average assets and average equity for a period by dividing the sum of our total asset balance or total stockholders' equity balance, as the case may be, as of the close of business on each day in the relevant period and dividing by the number of days in the period. We calculate our return on average common equity by excluding the preferred stock dividends to derive our net income available to common stockholders and excluding the average balance of our Series A preferred stock from the total average equity to derive our common average equity. We calculate our return on average common equity by excluding the preferred stock dividends to derive our net income available to common stockholders and excluding the average balance of our Series A preferred stock from the total average equity to derive its common average equity.
- (10) Net interest margin for a period represents net interest income for that period divided by average interest-earning assets for that period.
- (11) Efficiency ratio for a period represents noninterest expenses for that period divided by the sum of net interest income and noninterest income for that period.
- (12) We calculate our dividend payout ratio for each period presented as the dividends paid per share for such period (excluding cash distributions made to shareholders in connection with tax liabilities as described in note (4) above) divided by our basic earnings per share for such period.
- (13) Nonperforming loans include nonaccrual loans, loans past due 90 days or more and still accruing interest, and accruing loans modified under troubled debt restructurings.
- (14) Prior to 2015, we calculated our risk-weighted assets using the standardized method of the Basel II Framework, as implemented by the Federal Reserve and the FDIC. Beginning January 1, 2015, we calculated our risk-weighted assets using the Basel III Framework. The common equity tier 1 capital to risk-weighted assets ratio was a new ratio required under the Basel III Framework, effective January 1, 2015. This ratio is not applicable for periods prior to January 1, 2015. We calculate our common equity as of the end of the period as total stockholders' equity less the preferred stock at period end.
- (15) We calculate tangible common equity as of the end of a period as total common stockholders' equity (excluding preferred stock) less goodwill and other intangible assets as of the end of the period and calculate tangible assets as of the end of a period as total assets less goodwill and other intangible assets as of the end of the period. Tangible common equity to tangible assets is a non-GAAP financial measure, and as we calculate tangible

common equity to tangible assets, the most directly comparable GAAP financial measure is total stockholders equity to total assets. We believe that the presentation of tangible common equity to tangible assets provides useful information to investors regarding our financial condition because, as do our management, banking regulators, many financial analysts and other investors, you can use the tangible common equity in conjunction with more traditional bank capital ratios to assess our capital adequacy without the effect of our goodwill and core deposit intangibles and compare our capital adequacy with the capital adequacy of other banking organizations with significant amounts of goodwill and/or core deposit intangibles. A reconciliation of the ratios of tangible common equity to tangible assets to the ratios of total stockholders equity to total assets is presented below.

The number of Carlile Bancshares common shares outstanding as of September 30, 2016 and 2015, was 35,064,719 and 34,995,044, respectively, and as of December 31, 2015, 2014, 2013, 2012 and 2011 was 34,996,044 shares, 34,995,044 shares, 26,313,997 shares, 26,313,997 shares and 5,318,953 shares, respectively.

Tangible book value is a non-GAAP financial measure, and, as Carlile Bancshares calculates tangible book value, the most directly comparable GAAP financial measure is total shareholders' equity. Carlile Bancshares calculates tangible assets as of the end of any period as total assets less goodwill and other intangible assets (net of any related deferred tax assets and liabilities) as of the end of the relevant period. Tangible assets is a non-GAAP financial measure, and, as Carlile Bancshares calculates tangible assets, the most directly comparable GAAP financial measure is tangible assets. Carlile Bancshares calculates tangible common equity as of the end of any period as total shareholders' equity less goodwill and other intangible assets (net of any related deferred tax assets and liabilities) as of the end of the relevant period divided by total assets less good will and other intangible assets (net of any related deferred tax assets and liabilities) at the end of that period. The ratio of tangible common equity to tangible assets is a non-GAAP financial measure, and, as Carlile Bancshares calculates this ratio, the most directly comparable GAAP financial measure is total shareholders' equity to total assets. Carlile Bancshares' management believes that these non-GAAP financial measures are important information to be provided to you because, as do its management, banking regulators, many financial analysts and other investors, you can use the tangible book value per common share and the ratio of tangible common equity to tangible assets in conjunction with more traditional bank capital ratios to assess Carlile Bancshares' capital adequacy without the effect of its goodwill and other intangible assets (net of any related deferred tax assets and liabilities) and compare its capital adequacy with the capital adequacy of other banking organizations with significant amounts of goodwill and/or other intangible assets, which typically stem from the use of the purchase accounting method of accounting for mergers and acquisitions.

Footnotes to Pro Forma Consolidated Income Statements

- (1) The per share amounts and the weighted average shares outstanding for each of the periods shown have been adjusted to give effect to the 400,000 shares of our common stock sold on November 29, 2016 and the assumed issuance of a total of 8,860,854 shares of our common stock to Carlile Bancshares shareholders in the merger, effective as of January 1, 2015.
- (2) The pro forma combined diluted earnings per share for each period presented are calculated as the pro forma combined net income for the relevant period divided by the weighted average number of our common shares outstanding during that period adjusted for the dilutive effect of outstanding warrants to purchase shares of our common stock, adjusted to give effect to the 400,000 shares of our common stock sold on November 29, 2016 and adjusted for the assumed issuance of a total of 8,860,854 shares of our common stock to Carlile Bancshares shareholders in the merger, effective as of January 1, 2015. See Note 1 to our consolidated financial statements appearing in our most recently filed Annual Report on Form 10-K, which is incorporated by reference in this prospectus, for more information regarding the dilutive effect of our outstanding warrants and regarding certain nonvested shares of common stock, the effect of which is anti-dilutive. - (5) As discussed above in Note 6 to the tabular presentation in Certain Financial Information Regarding Our Company and Carlisle Bancshares Selected Financial Information, of our Company on page 4, tangible book value per common share is a non-GAAP financial measure. Our management believes that such information is important information to be provided to you because, as do its management, banking regulators, many financial analysts and other investors, you can use the tangible book value per common share in conjunction with more traditional bank capital ratios to assess, on a pro forma basis, the combined companies' capital adequacy without the effect of goodwill and other intangible assets and compare that capital adequacy with the capital adequacy of other banking organizations with significant amounts of goodwill and/or other intangible assets. Book value per common share is the most directly comparable

(a) Pro forma balance sheet includes adjustments to record acquired assets and liabilities at estimated fair value as of the dates presented. These estimates of the fair values of the acquired assets and liabilities for inclusion in our consolidated financial statements as of dates on or after the effective date of the merger will be adjusted once final third party valuations are performed as of the actual effective time of the merger.

(b) The pro forma number of common shares outstanding are calculated as set forth in note (4) above.

We have prepared the unaudited pro forma consolidated balance sheet appearing below to present on a pro forma basis our consolidated balance sheet assuming that the acquisition of Carlile Bancshares was consummated on September 30, 2016, and to provide information with respect to the pro forma consolidated the financial condition that we would have had as of that date had the merger with Carlile Bancshares been consummated on such date. When preparing the unaudited pro forma consolidated balance sheet appearing below, to determine the number of shares of our common stock that would be issued to the Carlile Bancshares shareholders in the merger, we have assumed that its average daily volume-weighted stock price for the twenty trading days ending with and including the third trading day prior to the closing of the merger was our closing stock price on November 30, 2016, which was \$60.10. Based on that assumed stock price, an aggregate of 8,860,854 shares of our common stock would have been issued to the Carlile Bancshares shareholders in the merger.

The unaudited pro forma combined balance sheet information as of September 30, 2016, appearing below gives effect to the merger as if the merger was completed on September 30, 2016. You should read this information in conjunction with the other information contained in or incorporated by reference in this prospectus including Selected Financial Information of our Company, Selected Financial Information of Carlile Bancshares, appearing elsewhere in this

prospectus and the Carlile Bancshares consolidated financial statements, related notes and management's discussion and analysis of Carlile Bancshares financial condition and results of operations and our consolidated financial statements, related accompanying notes and management's discussion and analysis of our financial condition and results of operations that are, in each case, incorporated by reference in this prospectus as described above and under the caption "Incorporation of Certain Documents by Reference" below.

Comparative Historical and Unaudited Pro Forma Per Share Financial Data

The following table presents: (1) historical per share information for our Company; (2) historical per share information for Carlile Bancshares; (3) pro forma per share information of the combined company after giving effect to the merger; and (4) equivalent pro forma per share information for Carlile Bancshares.

The combined company pro forma per share information was derived by combining information from the historical financial information presented above under Selected Financial Information of our Company, Selected Financial Information of Carlile Bancshares and Selected Unaudited Pro Forma Combined Financial Information. You should read this table together with the financial information discussed under those headings and the consolidated financial statements of our Company and the consolidated financial statements of Carlile Bancshares incorporated by reference in this prospectus. You should not rely on the pro forma per share information as being necessarily indicative of actual results had the merger been effective on January 1, 2015, for purposes of net income per share data, and September 30, 2016, for purposes of book value per share data.

Table of Contents

The information appearing in the column captioned **Combined Pro Forma** in the table below was prepared assuming that 8,860,854 shares of our common stock were issued to the shareholders of Carlile Bancshares in the merger as of January 1, 2015, for purposes of net income per share data, and September 30, 2016, for purposes of book value per share data. The information appearing in the column captioned **Per Equivalent Carlile Bancshares Share** was obtained by multiplying the pro forma amounts by 0.2527, the assumed ratio at which shares of our common stock will be issued for a share of Carlile Bancshares common stock in the merger. Such assumed ratio was calculated based on the assumption that 35,064,719 shares of Carlile Bancshares common stock were outstanding on the date indicated, which is the expected number of shares to be outstanding at the effective time of the merger (assuming that none of the outstanding options to purchase shares of Carlile Bancshares common stock will be exercised for cash prior to the effective time of the merger). The exact number of shares of Carlile Bancshares common stock issued and outstanding immediately prior to the effective time of the merger cannot be determined with complete precision because Carlile Bancshares cannot predict whether the holders of options to purchase shares of Carlile Bancshares common stock will elect to exercise those options into shares of Carlile Bancshares common stock prior to the effective time of the merger and whether any to what extent there would be any tangible equity adjustment if the tangible equity of Carlile Bancshares is less than \$200 million on the effective date of the merger.

An investment in our common stock involves certain risks. Before making an investment decision, you should carefully read and consider the risk factors set forth in our most recently filed Annual Report on Form 10-K filed with the SEC, under the heading "Risk Factors" as well as any updated or additional disclosure about risk factors included in any of our Quarterly Reports on Form 10-Q, Current Reports on Form 8-K or other filings that we have made with the SEC since the date of our most recently filed Annual Report on Form 10-K that are incorporated by reference into this prospectus. Additional risks and uncertainties of which we are not aware or that we believe are not material at the time could also materially and adversely affect our business, financial condition, results of operations or liquidity. In any case, the value of the shares offered by means of this prospectus and any applicable prospectus supplement could decline and you could lose all or part of your investment in those shares. Moreover, an investment in our shares is subject to the following additional risks associated with the pending acquisition of Carlile Bancshares by our Company.

The merger of our Company and Carlile Bancshares may not be completed.

Completion of the merger of our Company and Carlile Bancshares is subject to regulatory approval, which approval may not be obtained. If we are not successful in obtaining the required regulatory approval, the merger will not be completed. Even if such regulatory approval is received, the timing of that regulatory approval and any conditions imposed by the regulatory approval could result in certain closing conditions of the merger not being satisfied.

Prospective purchasers of the shares offered hereby should bear in mind that regulatory approval reflects only the view that the merger does not contravene applicable competitive standards imposed by law, and that the merger is consistent with regulatory policies relating to safety and soundness. Further, regulatory approval is not an opinion that the proposed merger is favorable to the shareholders of either party to the merger from a financial point of view or that the regulatory authority granting such approval has considered the adequacy of the terms of the merger. Regulatory approval is not an endorsement or recommendation of the merger.

The consummation of the merger is also subject to other conditions precedent as set forth in the reorganization agreement. Those conditions precedent include the approval of the merger by our shareholders and Carlile Bancshares shareholders, Carlile Bancshares maintaining minimum tangible equity capital of \$195 million, Northstar Bank maintaining a minimum allowance for loan losses of approximately \$16 million, there being no material adverse change in the condition of Carlile Bancshares or Northstar Bank, on the one hand, or our Company, on the other hand, and the holders of not more than 5% of the outstanding shares of Carlile Bancshares common stock exercising their statutory dissenters' rights with respect to the merger. If a condition to either party's obligation to consummate the merger is not satisfied, that party may be able to terminate the reorganization agreement and, in such case, the transaction would not be consummated.

Carlile Bancshares and Northstar Bank will be subject to business uncertainties and contractual restrictions while the merger is pending.

Uncertainty about the effect of the merger on employees and customers may have an adverse effect on Carlile Bancshares and Northstar Bank and, consequently, on our Company and Independent Bank. Uncertainties surrounding the merger may impair the ability of one or more of our Company, Independent Bank, Carlile Bancshares and Northstar Bank to attract, retain and motivate key personnel until the merger is completed, and could cause customers and others that deal with either of the banks to seek to change their existing business relationships with such bank. In addition, the reorganization agreement restricts Carlile Bancshares and Northstar Bank from taking other specified actions until the merger occurs without our consent. These restrictions may prevent Carlile Bancshares or Northstar

Bank from pursuing attractive business opportunities that may arise prior to the completion of the merger.

Table of Contents

Integrating Northstar Bank into Independent Bank's operations may be more difficult, costly or time-consuming than we expect.

Independent Bank and Northstar Bank have operated and, until the merger is completed, will continue to operate, independently. Accordingly, the process of integrating Northstar Bank's operations into Independent Bank's operations could result in the disruption of operations, the loss of Northstar Bank customers and employees and make it more difficult to achieve the intended benefits of the merger. Inconsistencies between the standards, controls, procedures and policies of Independent Bank and those of Northstar Bank could adversely affect Independent Bank's ability to maintain relationships with current customers and employees of Northstar Bank if and when the merger is completed.

As with any merger of banking institutions, business disruptions may occur that may cause Independent Bank to lose customers or may cause Northstar Bank's customers to withdraw their deposits from Northstar Bank prior to the merger's consummation and from Independent Bank thereafter. The realization of the anticipated benefits of the merger may depend in large part on our ability to integrate Northstar Bank's operations into Independent Bank's operations, and to address differences in business models and cultures. If we are unable to integrate the operations of Carlile Bancshares and Northstar Bank into our and Independent Bank's operations successfully and on a timely basis, some or all of the expected benefits of the acquisition may not be realized. Difficulties encountered with respect to such matters could result in an adverse effect on the financial condition, results of operations, capital, liquidity or cash flows of Independent Bank and our Company.

We are entering the Fort Worth / Tarrant County and Colorado financial markets for the first time and our failure to achieve the post-merger results we desire in that market could materially adversely affect our operations, results of operations, liquidity or cash flows.

Upon the consummation of our merger with Carlile Bancshares and the merger of Northstar Bank into Independent Bank, we would be entering the Fort Worth / Tarrant County and Colorado financial markets for the first time. We have no experience with operations in those markets, and, as a result, we would initially rely on the management team at Northstar Bank to provide guidance regarding operating in those new geographic markets. Should we be unable to retain the services of these employees after the mergers or should those employees be unable to provide the necessary support and guidance to our Company necessary for it to operate successfully in the new markets, we may not achieve the results we desire from the mergers and may be unable to realize all planned operating efficiencies as a result of the merger of Independent Bank's and Northstar Bank's operations. Moreover, to the extent that operating in those markets presents difficulties that we have not anticipated or do not anticipate in planning for the integration of the operations of Northstar Bank into those of Independent Bank, that integration may be more difficult, costly or time-consuming than we anticipate the integration to be and could require that we devote more management time and additional resources to that integration than now expected. To the extent we are unable to successfully integrate the Northstar Bank operations in the Fort Worth / Tarrant County and Colorado markets into our operations, we may be unable to retain the current customers of Northstar Bank in those new markets, their deposits and their other banking business to the degree now expected and the anticipated benefits of the acquisition of Carlile Bancshares to our Company and its shareholders would not be as substantial as anticipated. Any unsuccessful or materially inadequate integration of those operations could materially adversely affect our financial condition, results of operations, liquidity and cash flows.

We may fail to realize the cost savings anticipated from the merger.

Although we anticipate that we would realize certain cost savings as to the operations of Carlile Bancshares and Northstar Bank and otherwise from the merger if and when the operations of Carlile Bancshares and Northstar Bank are fully integrated into our and Independent Bank's operations, it is possible that we may not realize all of the cost savings that we have estimated we can realize from the merger. For example, for a variety of reasons, we may be

required to continue to operate or maintain some facilities or support functions that are currently expected to be combined or reduced as a result of the merger. Our realization of the estimated cost

Table of Contents

savings also will depend on our ability to combine the operations of our Company and Independent Bank with the operations of Carlile Bancshares and Northstar Bank in a manner that permits those costs savings to be realized. If we are not able to integrate the operations of Carlile Bancshares and Northstar Bank into our and Independent Bank's operations successfully and to reduce the combined costs of conducting the integrated operations of the two banks, the anticipated cost savings may not be fully realized, if at all, or may take longer to realize than expected. Our failure to realize those cost savings could materially adversely affect our financial condition, results of operations, capital, liquidity or cash flows.

The completion of our merger with Carlile Bancshares would result in the immediate dilution of our existing shareholders' ownership percentages in our common stock and their voting power, which could adversely affect the market for our common stock.

The merger of Carlile Bancshares with and into our Company would result in the issuance of a substantial number of additional shares of our common stock. That issuance would result in the immediate dilution of the percentage ownership and voting power of the existing holders of our common stock. Although we believe that the merger will be accretive to all of our shareholders, factors associated with the consummation of the merger of Carlile Bancshares with and into our Company, such as those discussed above, could adversely affect the market for our common stock.

USE OF PROCEEDS

We are not selling any shares of our common stock or other securities in this offering, and we will not receive any proceeds from the sale of any of the shares by any selling shareholder. All proceeds from the sale of any of the shares by selling shareholders will be for the account of such selling shareholders.

SELLING SHAREHOLDERS

On November 21, 2016, we entered into securities purchase agreements with certain investors pursuant to which we issued and sold 400,000 shares of our common stock to such investors for aggregate net proceeds of \$19,950,000. We have used the net proceeds from the sale of the common stock under the securities purchase agreements to increase our consolidated and Independent Bank's capital primarily in anticipation of the merger of Carlile Bancshares with and into our Company and the merger of Northstar Bank with and into Independent Bank as described above under

Pending Acquisition of Carlile Bancshares. To increase Independent Bank's capital, we contributed a portion of such offering's net proceeds to Independent Bank in a manner that increased the Tier 1 capital of Independent Bank. If the merger of Carlile Bancshares and our Company is not consummated, Independent Bank will retain such contribution to its Tier 1 capital in order to support its continued growth.

The offer and sale of the shares under the securities purchase agreements did not involve a public offering of the shares offered hereby and were exempt from the registration requirements of the Securities Act under Section 4(a)(2) of the Securities Act and Regulation D of the SEC promulgated thereunder.

Pursuant to the terms of the securities purchase agreements, we were required to file the registration statement of which this prospectus is a part with the SEC and are required to maintain its effectiveness for specified periods in order to register the offers and sales by the selling shareholders of the shares offered hereby. The securities purchase agreements to which we and the selling shareholders are parties contain certain indemnity provisions under which the selling shareholders have agreed to indemnify us and our controlling persons (other than a selling shareholder) against certain liabilities, including liabilities arising under the Securities Act relating to a shareholder's untrue statement or omission of a material fact contained in this Registration Statement.

Information with respect to the beneficial ownership of all or any part of the shares appearing in this prospectus any supplement to this prospectus, any post-effective amendment to the registration statement of which this prospectus is a part or any report that we file with the SEC relating to any selling shareholder or to a particular offer of any of the shares will be based on our records, information filed with the SEC or information furnished to us by one or more of the selling shareholders.

The selling shareholders will offer and sell the shares in reliance on our effective registration statement on Form S-3 by which we have registered under the Securities Act, the offer and sale of shares of our common stock and other securities. That registration statement contemplates as a part of the plan of distribution of the shares that selling shareholders may offer and sell shares of our common stock through underwriters in reliance on that registration

statement from time to time. Those persons who purchase the shares in any offering made hereby and who are not affiliates of our Company may freely trade the shares they purchase.

Table of Contents

We have not agreed to register or otherwise qualify any of the shares for offer and sale in any country other than the United States or to seek to have the shares admitted to trading on any foreign securities exchange. Further, we have not agreed to become a party to an underwriting agreement relating to the offer and sale of the shares by the selling shareholders.

DESCRIPTION OF OUR COMMON STOCK

General

The following summarizes some of the important rights of the holders of shares of our common stock. This discussion does not purport to be a complete description of these rights. These rights can be determined in full only by reference to federal and state banking laws and regulations, the Texas Business Organizations Code, or the TBOC, and our certificate of formation and bylaws.

Authorized and Outstanding Shares of Capital Stock

Our authorized capital stock consists of 100,000,000 shares of common stock, par value \$0.01 per share, and 10,000,000 shares of preferred stock, par value \$0.01 per share. As of November 30, 2016, we had 18,869,562 outstanding shares of our common stock. All of our shares outstanding at that date were fully paid and nonassessable. As of November 30, 2016, we had 371 holders of record of common stock.

Voting Rights

Holders of our common stock are entitled to one vote per share in the election of directors and on all other matters submitted to a vote at a meeting of shareholders. No shareholder has the right of cumulative voting with respect to the election of directors.

At each meeting of the shareholders at which a quorum is present or represented, all corporate actions to be taken by vote of the shareholders shall be authorized by a majority of the votes cast by the shareholders entitled to vote thereon, present in person or represented by proxy at such meeting, and where a separate vote by class is required, a majority of the votes cast by the shareholders of such class, present in person or represented by proxy at such meeting, shall be the act of such class, unless, in each case, as otherwise required by law and except as otherwise provided in the certificate of formation or the bylaws.

In any election of directors, the persons receiving a plurality of the votes cast, up to the number of directors to be elected in such election, will be deemed elected. Our certificate of formation establishes a classified board of directors, with directors of each class serving a three-year term.

Unless otherwise agreed by two-thirds of the entire board of directors, any fundamental action, such as an amendment of our certificate of formation, a voluntary winding up under the Bankruptcy Code, a revocation of a voluntary decision to wind up, a cancellation of an event requiring winding up or a reinstatement after termination of our existence, or any fundamental business transaction, such as a merger, interest exchange, conversion or sale of all or substantially all of our assets, requires, in addition to any voting requirement of the TBOC, the vote of at least (i) two-thirds of the outstanding shares of any class entitled to vote on the fundamental action as a class by the terms of the certificate of formation and/or the bylaws and (ii) two-thirds of the outstanding shares of capital stock of all classes and series of capital stock entitled to vote generally in an election of directors. Such affirmative vote will be in lieu of any lesser vote otherwise provided by law or any agreement or contract to which we are a party, and shall be in addition to any class vote to which any class of our stock may be entitled by law.

Dividend Rights and Distributions

Holders of our common stock are entitled to dividends when, as and if declared by our board of directors out of funds legally available therefor. We currently expect to continue to pay (when, as and if declared by our board of directors out of funds legally available for that purpose and subject to regulatory restrictions) regular quarterly cash dividends on our common stock; however, there can be no assurance that we will continue to pay dividends in the future. Future dividends on our common stock will depend upon our earnings and financial condition, liquidity and capital requirements, the general economic and regulatory climate, our ability to service any equity or debt obligations senior to the common stock, and other factors deemed relevant by our board of directors.

As a holding company, we are ultimately dependent upon our subsidiaries, particularly Independent Bank, to provide funding for our operating expenses, debt service and dividends. Various banking laws applicable to Independent Bank limit the payment of dividends and other distributions by Independent Bank to us, and may therefore, limit our ability to pay dividends on our common stock. If required payments on our outstanding junior subordinated debentures held by certain trusts that are our unconsolidated subsidiaries are not made or are suspended, we would be prohibited from paying dividends on our common stock and Series A preferred stock. Regulatory authorities could impose administratively stricter limitations on the ability of Independent Bank to pay dividends to us if such limits were deemed appropriate to preserve certain capital adequacy requirements.

Liquidation Rights

In the event of the termination of our Company's existence and its related winding up, the holders of our common stock will be entitled to share ratably in any assets remaining after payment of all debts and other liabilities, including the liquidation preference of any shares of our preferred stock outstanding at the time of the termination of our existence.

Other

Our common stock has no preemptive or conversion rights and is not entitled to the benefits of any redemption or sinking fund provision.

NASDAQ Listing

Our common stock was listed on the NASDAQ Global Market through January 1, 2014, and since January 2, 2014, has been listed on the NASDAQ Global Select Market under the symbol IBTX.

Transfer Agent and Registrar

The transfer agent and registrar for our common stock is Wells Fargo Shareowner Services, whose address is P.O. Box 64945, St. Paul, Minnesota 55164-0945.

Business Combinations under Texas Law

A number of provisions of Texas law, our certificate of formation and bylaws could have an anti-takeover effect and make more difficult the acquisition of our Company by means of a tender offer, a proxy contest or otherwise and the removal of incumbent directors. These provisions are intended to discourage coercive takeover practices and inadequate takeover bids and to encourage persons seeking to acquire control of us to negotiate first with our board of directors.

We are subject to the provisions of Title 2, Chapter 21, Subchapter M of the TBOC, or the Texas Business Combination Law, which provides that a Texas corporation may not engage in specified types of business combinations, including mergers, consolidations and asset sales, with a person, or an affiliate or associate of that

Table of Contents

person, who is an affiliated shareholder. For purposes of this law, an affiliated shareholder is generally defined as the holder of 20% or more of the corporation's voting shares, for a period of three years from the date that person became an affiliated shareholder. The law's prohibitions do not apply if:

the business combination or the acquisition of shares by the affiliated shareholder was approved by the board of directors of the corporation before the affiliated shareholder became an affiliated shareholder; or

the business combination was approved by the affirmative vote of the holders of at least two-thirds of the outstanding voting shares of the corporation not beneficially owned by the affiliated shareholder, at a meeting of shareholders called for that purpose, not less than six months after the affiliated shareholder became an affiliated shareholder.

Our Company has more than 100 shareholders and is considered to be an issuing public corporation for purposes of this law. The Texas Business Combination Law does not apply to the following:

the business combination of an issuing public corporation where the corporation's original certificate of formation or bylaws contain a provision expressly electing not to be governed by the Texas Business Combination Law or that adopts an amendment to its certificate of formation or bylaws, by the affirmative vote of the holders, other than affiliated shareholders, of at least two-thirds of the outstanding voting shares of the corporation, expressly electing not to be governed by the Texas Business Combination Law and so long as the amendment does not take effect for 18 months following the date of the vote and does not apply to a business combination with an affiliated shareholder who became affiliated on or before the effective date of the amendment;

a business combination of an issuing public corporation with an affiliated shareholder that became an affiliated shareholder inadvertently, if the affiliated shareholder divests itself, as soon as possible, of enough shares to no longer be an affiliated shareholder and would not at any time within the three-year period preceding the announcement of the business combination have been an affiliated shareholder but for the inadvertent acquisition;

a business combination with an affiliated shareholder who became an affiliated shareholder through a transfer of shares by will or intestacy and continuously was an affiliated shareholder until the announcement date of the business combination; or

a business combination of a corporation with its wholly owned Texas subsidiary if the subsidiary is not an affiliate or associate of the affiliated shareholder other than by reason of the affiliated shareholder's beneficial ownership of voting shares of the corporation.

Neither our certificate of formation nor our bylaws contain any provision expressly providing that our Company will not be subject to the Texas Business Combination Law. The Texas Business Combination Law may have the effect of inhibiting a nonnegotiated merger or other business combination involving our Company, even if that event would be beneficial to our shareholders.

Certain Certificate of Formation and Bylaw Provisions Potentially Having an Anti-takeover Effect

Our certificate of formation and bylaws contain certain provisions that could have an anti-takeover effect and thus discourage potential takeover attempts and make it more difficult for our shareholders to change management or receive a premium for their shares. These provisions include:

authorization for our board of directors to issue shares of one or more series of preferred stock without shareholder approval;

the establishment of a classified board of directors, with directors of each class of directors serving a three-year term;

Table of Contents

a requirement that directors only be removed from office for cause and only upon a majority shareholder vote;

a provision that vacancies on our board of directors, including newly created directorships, may be filled only by a majority vote of directors then in office;

a prohibition of shareholder action by written consent, requiring all actions to be taken at a meeting of the shareholders;

the requirement that shareholders representing two-thirds of the outstanding shares of common stock approve all amendments to our certificate of formation or bylaws and approve mergers and similar transactions;

the requirement that any shareholders that desire to bring business before our annual meeting of shareholders or nominate candidates for election as directors at our annual meeting of shareholders must provide timely notice of their intent in writing;

the prohibition of cumulative voting in the election of directors; and

a limitation on the ability of shareholders to call special meetings to those shareholders or groups of shareholders owning at least 20% of all shares entitled to vote in the election of directors at a meeting.

Limitation of Liability and Indemnification of Officers and Directors

Our certificate of formation provides that our directors are not liable to our Company or our shareholders for monetary damages for an act or omission in their capacity as a director. A director may, however, be found liable for:

any breach of the director's duty of loyalty to our Company or our shareholders;

acts or omissions not in good faith that constitute a breach of the director's duty to our Company;

acts or omissions not in good faith that involve intentional misconduct or a knowing violation of law;

any transaction from which the director receives an improper benefit, whether or not the benefit resulted from an action taken with the scope of the director's duties;

acts or omissions for which the liability of the director is expressly provided by an applicable statute; and

acts related to an unlawful stock repurchase or payment of a dividend.

Our certificate of formation also provides that we will indemnify our directors and officers, and may indemnify our employees and agents, to the fullest extent permitted by applicable Texas law from any expenses, liabilities or other matters. Moreover, we have agreed, subject to certain conditions, to indemnify each of our directors and officers for any expenses, liabilities or obligations he or she incurs as a result of, or for any amount paid by him or her in settlement of, any proceeding to which he or she is a party or in which he or she is a witness as a result of their position with our Company or one of subsidiaries.

Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers and controlling persons of our Company pursuant to the foregoing provisions, or otherwise, we have been advised that in the opinion of the SEC such indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by us of expenses incurred or paid by a director, officer or controlling person of our Company in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, we will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issue.

U.S. FEDERAL TAX CONSIDERATIONS FOR NON-U.S. HOLDERS

The following is a summary of the material U.S. federal income tax consequences, and to the limited extent discussed below, the material U.S. federal estate tax consequences, that may be relevant to a non-U.S. holder (as defined further below) of our common stock. This summary is based upon the Internal Revenue Code of 1986, as amended (the Code), the regulations promulgated by the U.S. Treasury Department, rulings and other administrative pronouncements issued by the Internal Revenue Service (the IRS), and judicial decisions, all as currently in effect, and all of which are subject to differing interpretations or to change, possibly with retroactive effect. No assurance can be given that the IRS would not assert, or that a court would not sustain, a position contrary to any of the tax consequences described below. We have not sought and do not intend to seek an advance ruling from the IRS regarding any matter discussed in this prospectus. This summary is for your general information only and is not tax advice. This summary does not address all possible tax considerations that may be material to a non-U.S. holder of our common stock and does not constitute legal or tax advice. Moreover, this summary does not purport to discuss all aspects of U.S. federal taxation that may be important to a particular non-U.S. holder in light of its investment or tax circumstances, or to non-U.S. holders subject to special tax rules, such as:

banks or financial institutions;

insurance companies;

broker-dealers;

regulated investment companies and real estate investment trusts;

mutual funds;

partnerships or other entities treated as partnerships for U.S. federal income tax purposes and trusts;

persons who hold our securities on behalf of another person as a nominee;

persons who hold or receive our securities through the exercise of employee options or otherwise as compensation;

Edgar Filing: Independent Bank Group, Inc. - Form S-3

persons holding our securities as part of a straddle, hedge, conversion transaction, synthetic security or other integrated investment;

persons holding our securities that elect to use a mark-to-market method of accounting for their securities holdings;

persons subject to the Medicare contribution tax ;

persons subject to the alternative minimum tax;

tax-exempt organizations;

tax-qualified retirement plans; and

U.S. expatriates.

As used in this prospectus, a non-U.S. holder means a beneficial owner of our common stock that is neither a U.S. person nor a partnership for U.S. federal income tax purposes, and that will hold shares of our common stock as capital assets. For U.S. federal income tax purposes, a U.S. person is:

an individual who is a citizen or resident of the United States;

Table of Contents

a corporation (including an entity treated as a corporation for U.S. federal income tax purposes) created or organized in or under the laws of the United States, any of its states, or the District of Columbia;

an estate, the income of which is subject to U.S. federal income taxation regardless of its source; or

a trust if (1) a U.S. court is able to exercise primary supervision over the administration of such trust and one or more U.S. persons have the authority to control all substantial decisions of the trust or (2) it has a valid election to be treated as a U.S. person.

An individual is generally treated as a resident of the United States in any calendar year for U.S. federal income tax purposes if the individual is present in the United States for at least 31 days in that calendar year and for an aggregate of at least 183 days during the three-year period ending on the last day of the current calendar year. For purposes of the 183-day calculation, all of the days present in the current year, one-third of the days present in the immediately preceding year and one-sixth of the days present in the second preceding year are counted. Residents are generally taxed for U.S. federal income tax purposes as if they were United States citizens.

If a partnership or an entity or arrangement treated as a partnership for U.S. federal income tax purposes holds our common stock, the federal income tax treatment of a partner in the partnership will generally depend on the status of the partner and the activities of the partnership. If you are a partner in a partnership holding our common stock, we urge you to consult your tax advisor regarding the consequences of the purchase, ownership and disposition of our common stock by the partnership.

THE U.S. FEDERAL INCOME TAX TREATMENT OF THE ACQUISITION, OWNERSHIP AND DISPOSITION OF OUR COMMON STOCK DEPENDS IN SOME INSTANCES ON DETERMINATIONS OF FACT AND INTERPRETATIONS OF COMPLEX PROVISIONS OF U.S. FEDERAL INCOME TAX LAW FOR WHICH NO CLEAR PRECEDENT OR AUTHORITY MAY BE AVAILABLE. IN ADDITION, THE TAX CONSEQUENCES OF THE ACQUISITION, OWNERSHIP AND DISPOSITION OF OUR COMMON STOCK TO ANY PARTICULAR NON-U.S. HOLDER WILL DEPEND ON THE NON-U.S. HOLDER'S PARTICULAR TAX CIRCUMSTANCES. EACH PROSPECTIVE NON-U.S. HOLDER OF OUR COMMON STOCK IS URGED TO CONSULT ITS TAX ADVISORS REGARDING THE U.S. FEDERAL, STATE, LOCAL, AND FOREIGN INCOME AND OTHER TAX CONSEQUENCES TO SUCH NON-U.S. HOLDER OF THE ACQUISITION, OWNERSHIP AND DISPOSITION OF OUR COMMON STOCK IN LIGHT OF SUCH NON-U.S. HOLDER'S PARTICULAR INVESTMENT OR TAX CIRCUMSTANCES.

Distributions on Shares of Our Stock

If distributions are paid on shares of our common stock, the distributions will constitute dividends for U.S. federal income tax purposes to the extent paid from our current or accumulated earnings and profits, as determined under U.S. federal income tax principles. To the extent a distribution exceeds our current and accumulated earnings and profits, it will constitute a return of capital that is applied against and reduces, but not below zero, the adjusted tax basis of a non-U.S. holder's shares in our common stock. Any remainder will be treated as gain from the sale of shares of our common stock. Dividends paid to a non-U.S. holder generally will be subject to withholding of U.S. federal income tax at the rate of 30% or such lower rate as may be specified by an applicable income tax treaty, the benefits for which a non-U.S. holder is eligible. However, if the dividend is effectively connected with the non-U.S. holder's conduct of a trade or business in the United States and, where an income tax treaty applies, is attributable to a U.S. permanent establishment or fixed base maintained by such non-U.S. holder, the dividend will not be subject to any withholding tax, provided certain certification and disclosure requirements are met, as described below, but will be subject to U.S.

federal income tax imposed on net income on the same basis that applies to U.S. persons generally. A corporate non-U.S. holder under certain circumstances also may be subject to a branch profits tax equal to 30%, or such lower rate as may be specified by an applicable income tax treaty, the benefits for which a non-U.S. holder is eligible, on a portion of its effectively connected earnings and profits for the taxable year. Non-U.S. holders are urged to consult their own tax advisors regarding the potential applicability of any income tax treaty.

Table of Contents

To claim the benefit of an applicable income tax treaty or to claim exemption from withholding because the income is effectively connected with the conduct of a trade or business in the United States, a non-U.S. holder must provide to the applicable withholding agent a properly executed IRS Form W-8BEN or IRS Form W-8BEN-E (for entities) for treaty benefits or W-8ECI for effectively connected income, or such successor forms as the IRS designates, and certify under penalties of perjury that such non-U.S. holder is not a U.S. person prior to the payment of distributions on our common stock. These forms must be periodically updated. Special certification and other requirements apply to certain non-U.S. holders that are pass-through entities and non-U.S. holders whose shares of our common stock are held through certain foreign intermediaries. Non-U.S. holders may obtain a refund or credit of any excess amounts withheld by timely filing an appropriate claim with the IRS.

Gain on Disposition

A non-U.S. holder generally will not be subject to U.S. federal income tax, including by way of withholding, on gain recognized on a sale or other disposition of shares of our common stock unless any one of the following is true:

the gain is effectively connected with the non-U.S. holder's conduct of a trade or business in the United States and, where an applicable income tax treaty applies, is attributable to a U.S. permanent establishment or fixed base maintained by such non-U.S. holder;

the non-U.S. holder is a nonresident alien individual present in the United States for 183 days or more in the taxable year of the disposition and certain other requirements are met; or

our common stock constitutes a U.S. real property interest by reason of our status as a United States real property holding corporation, or USRPHC, for U.S. federal income tax purposes at any time during the shorter of (1) the period during which the non-U.S. holder held our stock and (2) the five-year period ending on the date the non-U.S. holder disposed of our common stock.

We believe that we are not currently, and will not become, a USRPHC for U.S. federal income tax purposes. However, because the determination of whether we are a USRPHC depends on the fair market value of our U.S. real property interests relative to the fair market value of our other business assets, we cannot assure you that we will not become a USRPHC in the future. As a general matter, as long as our common stock is regularly traded on an established securities market, however, it will not be treated as a U.S. real property interest with respect to any non-U.S. holder that holds no more than 5% of such regularly traded stock. If we are determined to be a USRPHC and the foregoing exception does not apply, among other things, a purchaser may be required to withhold 15% of the proceeds payable to a non-U.S. holder from a disposition of shares of our common stock, and the non-U.S. holder generally will be taxed on its net gain derived from the disposition at the graduated U.S. federal income tax rates applicable to U.S. persons.

Unless an applicable income tax treaty provides otherwise, gain described in the first bullet point above will be subject to the U.S. federal income tax imposed on net income on the same basis that applies to U.S. persons generally but will generally not be subject to withholding. Corporate non-U.S. holders also may be subject to a branch profits tax on such gain. Gain described in the second bullet point above will be subject to a flat 30% U.S. federal income tax, which may be offset by certain U.S. source capital losses. Non-U.S. holders are urged to consult their own tax advisors regarding any potentially applicable income tax treaties that may provide for different rules.

U.S. Federal Estate Taxes

Shares of our common stock owned or treated as owned by an individual who at the time of death is a non-U.S. holder are considered U.S. situs assets and will be included in the individual's estate for U.S. federal estate tax purposes, unless an applicable estate tax treaty provides otherwise.

Table of Contents

Information Reporting Requirements and Backup Withholding

Information reporting and backup withholding (currently at a 28% rate) generally will apply to dividends paid with respect to our common stock. In certain circumstances, non-U.S. holders may avoid information reporting and backup withholding if they provide to the applicable withholding agent a properly executed IRS Form W-8BEN or IRS Form W-8BEN-E (for entities) for treaty benefits or W-8ECI for effectively connected income, or such successor forms as the IRS designates, and certify under penalties of perjury as to their status as non-U.S. holders and meet certain other requirements, or otherwise establish an exemption. Copies of information returns may also be made available to the tax authorities in the country in which the non-U.S. holder resides under the provisions of an applicable income tax treaty. Non-U.S. holders are urged to consult their own tax advisors regarding the application of the information reporting and backup withholding rules to them.

The gross proceeds from the disposition of shares of our common stock may be subject to information reporting and backup withholding. If a non-U.S. holder sells shares of our stock outside the United States through a non-U.S. office of a non-U.S. broker and the sales proceeds are paid to such non-U.S. holder outside the United States, then the U.S. backup withholding and information reporting requirements generally will not apply to that payment. However, U.S. information reporting will generally apply to a payment of sale proceeds, even if that payment is made outside the United States, if a non-U.S. holder sells shares of our common stock through a non-U.S. office of a broker that:

is a U.S. person for U.S. federal tax purposes;

is a foreign person that derives 50% or more of its gross income in specific periods from the conduct of a trade or business in the United States;

is a controlled foreign corporation for U.S. tax purposes; or

is a foreign partnership, if at any time during its tax year (1) one or more of its partners are U.S. persons who in the aggregate hold more than 50% of the income or capital interests in the partnership; or (2) the foreign partnership is engaged in a U.S. trade or business,

unless the broker has documentary evidence in its files that the non-U.S. holder is not a U.S. person and certain other conditions are met, or the non-U.S. holder otherwise establishes an exemption. In such circumstances, backup withholding will not apply unless the broker has actual knowledge or reason to know that the non-U.S. holder is not a non-U.S. person.

If a non-U.S. holder receives payments of the proceeds of a sale of shares of our common stock to or through a U.S. office of a broker, the payment is subject to both backup withholding and information reporting unless such non-U.S. holder provides to the applicable withholding agent a properly executed IRS Form W-8BEN or IRS Form W-8BEN-E (for entities) (or valid substitute or successor form) certifying under penalties of perjury that such stockholder is not a U.S. person or otherwise establishes an exemption.

Backup withholding is not an additional tax. Amounts withheld under the backup withholding rules from a payment to a non-U.S. holder can be refunded or credited against the non-U.S. holder's U.S. federal income tax liability, if any, provided that an appropriate claim is timely filed with the IRS.

Additional U.S. Federal Income Tax Withholding Rules

Additional U.S. federal income tax withholding rules apply to certain payments made to foreign financial institutions and certain other non-U.S. entities. A withholding tax of 30% applies to any dividends paid on our common stock to certain foreign entities and, for dispositions of our common stock occurring after December 31, 2018, the gross proceeds paid to certain foreign entities unless, in each such case, various withholding and information reporting requirements are satisfied. For these purposes, a foreign financial institution generally is defined as any non-U.S. entity that (i) accepts deposits in the ordinary course of a banking or similar business, (ii) as a substantial portion of its business, holds financial assets for the account of others, or (iii) is engaged or

Table of Contents

holds itself out as being engaged primarily in the business of investing, reinvesting, or trading in securities, partnership interests, commodities, or any interest in such assets. Prospective investors are urged to consult their tax advisors regarding the implications of these rules with respect to their investment in our stock and debt securities as well as the status of any related federal regulations.

Broker-dealers or underwriters may receive compensation for their involvement in the sale of shares in the form of underwriting discounts or commissions and may receive commissions from purchasers of the shares being offered hereby for whom they may act as agents. If any broker-dealer purchases any of such shares as principal, it may affect resales of such shares from time to time to or through other broker-dealers, and other broker-dealers may receive compensation in the form of concessions or commissions from the purchasers of such shares for whom they may act as agents. To the extent required, the names of the specific managing underwriter or underwriters, if any, as well as other important information, such as the discounts and commissions the selling shareholders will allow or pay to the underwriters, if any, and the discounts and commissions the underwriters may allow or pay to dealers or agents, if any, will be set forth in, or may be calculated from, the prospectus supplements.

Any underwriters, brokers, dealers and agents who participate in any sale of the shares may also engage in transactions with, or perform services for, us or our affiliates in the ordinary course of their businesses.

In connection with sales of the shares under this prospectus, the selling shareholders may enter into hedging transactions with broker-dealers, who may in turn engage in short sales of the shares in the course of hedging the positions they assume. The selling shareholders also may sell shares short and deliver them to close out the short positions or loan or pledge the shares to broker-dealers that in turn may sell them.

The selling shareholders or their respective underwriters, broker-dealers or agents may make sales of the shares offered hereby that are deemed to be an at-the-market offering as defined in Rule 415 of the SEC's rules and regulations promulgated under the Securities Act, which includes sales of shares made directly on or through the stock exchange on which the shares are then listed for trading, in the over-the-counter market or otherwise.

The selling shareholders and any underwriters, broker-dealers or agents who participate in the distribution of the shares offered hereby may be deemed to be underwriters within the meaning of the Securities Act. To the extent any of the selling shareholders are, or are affiliates of, broker-dealers, they are, according to the SEC's interpretation, underwriters within the meaning of the Securities Act. Underwriters are subject to the prospectus delivery requirements under the Securities Act. If the selling shareholders are deemed to be underwriters, the selling shareholders may be subject to certain statutory liabilities under the Securities Act and the Exchange Act.

We have agreed to pay the costs and expenses of the registration of the shares offered hereby. We will not pay any underwriting fees, discounts and selling commissions or similar fees or arrangements allocable to the selling shareholders' sale of shares, which will be paid by the selling shareholders.

We have agreed to indemnify, in certain circumstances, the selling shareholders against certain liabilities to which they may become subject in connection with the sale of the shares included in this prospectus, including liabilities arising under the Securities Act. The selling shareholders have agreed to indemnify us in certain circumstances against certain liabilities to which we may become subject in connection with the sale of such shares, including liabilities arising under the Securities Act. We and the selling shareholders may agree to indemnify underwriters, brokers, dealers and agents who participate in the distribution of the shares included in this prospectus against certain liabilities to which they may become subject in connection with the sale of such shares, including liabilities arising under the

Any shares covered by this prospectus may be resold by a selling shareholder under Rule 144 or Rule 144A under the Securities Act rather than pursuant to this prospectus if the selling shareholder satisfies the conditions

to reliance on Rule 144 or Rule 144A with respect to such resale. The shares covered by this prospectus may also be sold to non-U.S. persons outside the U.S. in accordance with Regulation S under the Securities Act rather than pursuant to this prospectus. The shares may be sold in some states only through registered or licensed brokers or dealers.

The selling shareholders and other persons participating in the sale or distribution of the shares will be subject to applicable provisions of the Exchange Act, and the rules and regulations thereunder, including Regulation M. Regulation M may limit the timing of purchases and sales of any of the shares by the selling shareholders and any other person. The anti-manipulation rules under the Exchange Act may apply to sales of shares in the market and to the activities of the selling shareholders and their affiliates. Furthermore, Regulation M may restrict the ability of any person engaged in the distribution of the shares to engage in market-making activities with respect to the particular shares being distributed for a period of up to five business days before the distribution. These restrictions may affect the marketability of the shares and the ability of any person or entity to engage in market-making activities with respect to the shares .

This prospectus and any required prospectus supplement relating to this prospectus may be made available in electronic form on the websites maintained by the underwriters of a particular offering of shares. The underwriters may agree to allocate a number of shares offered hereby for sale to their online brokerage account holders. Such allocations of shares for internet distributions will be made on the same basis as other allocations. In addition, shares may be sold by the underwriters to securities dealers who resell securities to online brokerage account holders.

To the extent required, this prospectus may be amended or supplemented from time to time to describe a specific plan of distribution. The place and time of delivery for the securities in respect of which this prospectus is delivered will be set forth in the accompanying prospectus supplement.

In connection with offerings of the shareholders under the registration statement of which this prospectus forms a part and in compliance with applicable law, underwriters, brokers or dealers may engage in transactions that stabilize or maintain the market price of the securities at levels above those that might otherwise prevail in the open market. Specifically, underwriters, brokers or dealers may over-allot shares in connection with offerings, creating a short position in the securities for their own accounts. For the purpose of covering a syndicate short position or stabilizing the price of the securities, the underwriters, brokers or dealers may place bids for the securities or effect purchases of the securities in the open market. Finally, the underwriters may impose a penalty whereby selling concessions allowed to syndicate members or other brokers or dealers for distribution of the securities in offerings may be reclaimed by the syndicate if the syndicate repurchases previously distributed securities in transactions to cover short positions, in stabilization transactions or otherwise. These activities may stabilize, maintain or otherwise affect the market price of the securities, which may be higher than the price that might otherwise prevail in the open market, and, if commenced, may be discontinued at any time. These transactions may be effected on or through the stock exchange on which the shares are then listed for trading, in the over-the-counter market or otherwise.

LEGAL MATTERS

Unless otherwise stated in an applicable prospectus supplement, the validity of our securities offered pursuant to this prospectus and related prospectus supplements will be passed upon for us by Andrews Kurth Kenyon LLP, Dallas, Texas, and for any underwriters or agents by counsel named in any applicable prospectus supplement.

Item 15. Indemnification of Officers and Directors.

Article VI of our Company's Amended and Restated Certificate of Formation, as amended, and Article VI of our Company's Third Amended and Restated Bylaws provide that our Company shall indemnify any person made a party to or involved in any threatened, pending or completed action, suit or proceeding (whether civil, criminal, administrative or investigative) by reason of the fact that such person is or was a director or officer of our Company or is or was serving at the request of our Company as a director or officer of another foreign or domestic association, corporation, partnership, joint venture, trust or other entity, or employee benefit plan (whether such action, suit or proceeding is based in whole or in part on the sole or contributory gross or ordinary negligence of such person or otherwise).

Article VII of our Company's certificate of formation provides that a director of our Company shall not be liable to our Company or its shareholders for monetary damages for an act or omission in the director's capacity as a director, subject to certain limitations.

In Article VI of our Company's certificate of formation and Article VI of our Company's bylaws, our Company makes mandatory for directors and officers the indemnification provided for in Section 8.101 of the Texas Business Organizations Code (TBOC), which provides that, subject to certain limitations, a corporation may indemnify a governing person, former governing person, or delegate who was, is, or is threatened to be made a respondent in a proceeding to the extent permitted by Section 8.102 of the TBOC if it is determined in accordance with Section 8.103 of the TBOC that:

(1) the person:

(A) acted in good faith;

(B) reasonably believed:

- (i) in the case of conduct in the person's official capacity, that the person's conduct was in the corporation's best interests; and

- (C) in the case of a criminal proceeding, did not have a reasonable cause to believe the person's conduct was unlawful.

- (2) with respect to expenses, the amount of expenses other than a judgment is reasonable; and
- (3) indemnification should be paid.

Our Company has entered into indemnification agreements with the members of its board of directors (each an indemnitee). Each indemnification agreement requires our Company to indemnify each indemnitee to the fullest extent permitted by the TBOC and any successor statute thereto when such successor statute becomes applicable to our Company. Our Company will also, among other things, make the indemnitee whole for costs in any action to establish indemnitee s right to indemnification, whether or not wholly successful.

Our Company maintains directors and officers liability insurance.

The Amended and Restated Certificate of Formation, as amended, and Third Amended and Restated Bylaws of the Registrant were previously filed with the SEC and are incorporated by reference into the registration statement.

Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers and controlling persons of our Company pursuant to the foregoing provisions, or otherwise, our Company has been advised that in the opinion of the SEC such indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by our Company of expenses incurred or paid by a director, officer or controlling person of our Company in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, our Company will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issue.

Item 17. Undertakings.

(a) The undersigned Registrant hereby undertakes:

(1) To file, during any period in which offers or sales are being made, a post-effective amendment to this registration statement:

(i) to include any prospectus required by Section 10(a)(3) of the Securities Act of 1933;

(ii) to reflect in the prospectus any facts or events arising after the effective date of the registration statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the registration statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the Securities and Exchange Commission pursuant to Rule 424(b) if, in the aggregate, the changes in volume and price represent no more than 20 percent change in the maximum aggregate offering price set forth in the Calculation of Registration Fee table in the effective registration statement; and

(iii) to include any material information with respect to the plan of distribution not previously disclosed in the registration statement or any material change to such information in the registration statement;

provided, however, that paragraphs (i), (ii) and (iii) do not apply if the information required to be included in a post-effective amendment by those paragraphs is contained in reports filed with or furnished to the Securities and Exchange Commission by the Registrant pursuant to Section 13 or Section 15(d) of the Securities Exchange Act of 1934 that are incorporated by reference in the registration statement, or is contained in a form of prospectus filed pursuant to Rule 424(b) that is part of the registration statement.

(2) That, for the purpose of determining any liability under the Securities Act of 1933, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(3) To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.

(4) That, for the purpose of determining liability under the Securities Act of 1933 to any purchaser:

(i) Each prospectus filed by the Registrant pursuant to Rule 424(b)(3) shall be deemed to be part of the registration statement as of the date the filed prospectus was deemed part of and included in the registration statement; and

(ii) Each prospectus required to be filed pursuant to Rule 424(b)(2), (b)(5) or (b)(7) as part of a registration statement in reliance on Rule 430B relating to an offering made pursuant to Rule 415(a)(1)(i), (vii) or (x) for the purpose of providing the information required by Section 10(a) of the Securities Act of 1933 shall be deemed to be part of and included in the registration statement as of the earlier of the date such form of prospectus is first used after effectiveness or the date of the first contract of sale of securities in the offering described in the prospectus. As provided in Rule 430B, for liability purposes of the issuer and any person that is at that date an underwriter, such date shall be deemed to be a new effective date of the registration statement relating to the securities in the registration statement to which the prospectus relates, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof. Provided, however, that no statement made in a registration statement or prospectus that is part of the registration statement or made in a document incorporated or deemed incorporated by reference into

the registration statement or prospectus that is part of the registration statement will, as to a purchaser with a time of contract of sale prior to such effective date,

supersede or modify any statement that was made in the registration statement or prospectus that was part of the registration statement or made in any such document immediately prior to such effective date.

(5) That, for the purpose of determining liability of a Registrant under the Securities Act of 1933 to any purchaser in the initial distribution of the securities, the undersigned Registrant undertakes that in a primary offering of securities of the undersigned Registrant pursuant to this registration statement, regardless of the underwriting method used to sell the securities to the purchaser, if the securities are offered or sold to such purchaser by means of any of the following communications, the undersigned Registrant will be a seller to the purchaser and will be considered to offer or sell such securities to such purchaser:
