Table of Contents

Group, Company, Jaguar Land Rover, JLR plc and JLR refers to Jaguar Land Rover Automotive plc and its subsidiaries. Note 3 on page 15 defines a series of alternative performance measures

EBITDA margin	measured as EBITDA as a percentage of revenue.
EBIT margin	measured as EBIT as a percentage of revenue.
	<i>In this Interim Report underlying EBITDA and EBIT excludes the one-off credit relating to changes made to the Company's pension plans in Q1 FY18 and recoveries in Q1 FY18 relating to the Tianjin port explosion.</i>
PBT	profit before tax.
PAT	profit after tax.
Net debt/cash	defined by the Company as cash and cash equivalents plus short-term deposits and other investments less total balance sheet borrowings (as disclosed in note 18 to the condensed consolidated financial statements).
Q2 FY19	3 months ending 30 September 2018.
Q2 FY18	3 months ended 30 September 2017.
H2 FY19	6 months ending 30 September 2018.
H2 FY18	6 months ended 30 September 2017.
China JV	Chery Jaguar Land Rover Automotive Co., Ltd.

Table of Contents

Management's discussion and analysis of financial condition and results of operations

Q2 FY19 was a disappointing quarter with revenue of £5.6n billion, down 11% year on year and a loss before tax of £90 million. The results primarily reflect lower than expected sales (retails 129.9k down 13%) mainly due to more difficult market conditions experienced in China and continuing diesel weakness in Europe and the UK.

Key metrics for Q2 FY19 results, compared to Q2 FY18, are as follows:

Retail sales of 129.9k units (including the China JV), down 13.2%

Wholesales of 130.7k units (including the China JV), down 14.7%

Revenue of £5.6 billion, down from £6.3 billion

Loss before tax £90 million, compared to £382 million PBT

Loss after tax £101 million, compared to PAT of £306 million

EBITDA margin was 9.1% and EBIT margin was (0.7)%

Free cash flow was negative £624 million after total product and other investment spending of £1 billion and £114 million of working capital outflows

Market environment

China has seen relatively slow GDP growth of 6.5% in Q2 (lowest since financial crisis) and the auto market has deteriorated with industry sales down 7.7% (12% in Sept) primarily due to general uncertainty created by tariff changes and increasing trade tensions

The US continues to show strong GDP growth of over 3%, driven by positive consumer and business confidence, however, rising interest rates and cyclicalities are weighing on the auto market which was down 3% with continuing high incentives and there remains a risk of increased tariffs on European imports

UK GDP remains weaker (1.4%) with low consumer confidence and inflation above target from the weak pound relating to Brexit and the auto market was down 10.2%, exacerbated by continuing weak diesel demand and the new emissions testing certification requirements (WLTP)

Europe continues to see solid GDP growth and the auto market was up 4.3% although diesel sales are down and WLTP weighed on the market in September in particular

Total automotive industry car volumes (units)

	Q2 FY19	Q2 FY18	Change (%)
China	5,439,900	5,896,200	(7.7)%
Europe (excluding UK)	2,360,349	2,262,707	4.3%
UK	596,826	664,600	(10.2)%
US	4,266,075	4,399,610	(3.0)%
Other markets (excl. South Korea)	3,252,242	3,201,287	1.6%

The total industry car volume data above has been compiled using relevant data available at the time of publishing this Interim Report, compiled from national automotive associations such as the Society of Motor Manufacturers and Traders in the UK and the ACEA in Europe, according to their segment definitions, which may differ from those used by JLR.

Jaguar Land Rover Q2 FY19 sales volumes year-on-year performance

Total retail sales were 129,887 units, down 13.2%, primarily as a result of more challenging market conditions in China where retails were down 43.8% year on year. Retail sales were also down in Europe (11.9%) and in North America (4.6%). Retails were down slightly 0.6% in the UK, and up 8.2% in Overseas markets, outperforming industry volumes in each market. Sales of new models including the Velar (up 6.5k units), E-PACE (10.3k units) and I-PACE (1.1k units) were more than offset by lower sales of models later in their life cycle including Discovery Sport and Evoque (down 11.1k units and 9.9k units respectively).

Wholesales (including the China JV) totalled 130,652 units, down 14.7%. By region, wholesales were down in China (39.4%), Europe (12.6%), the UK (8.7%), North America (1.1%) and Overseas (0.8%).

Table of Contents

Jaguar Land Rover's Q2 FY19 retail sales (including the China JV) by key region and model is detailed in the following table:

	Q2 FY19	Q2 FY18	Change (%)
UK	29,679	29,860	(0.6%)
North America	30,293	31,765	(4.6%)
Europe	25,485	28,928	(11.9%)
China ¹	21,096	37,564	(43.8%)
Overseas	23,334	21,573	8.2%
Total JLR	129,887	149,690	(13.2%)
F-PACE	12,490	18,252	(31.6%)
I-PACE	1,073		n/a
E-PACE ¹	10,322		n/a
F-TYPE	2,038	2,396	(14.9%)
XE ¹	7,683	8,831	(13.0%)
XF ¹	7,419	10,256	(27.7%)

Jaguar¹	41,940	42,260	(0.8%)
Discovery Sport ¹	19,294	30,357	(36.4%)
Discovery	10,934	12,336	(11.4%)
Range Rover Evoque ¹	14,495	24,424	(40.7%)
Range Rover Velar	15,255	8,709	75.2%
Range Rover Sport	16,098	18,590	(13.4%)
Range Rover	11,871	13,013	(8.8%)
Discontinued Models		1	n/a
Land Rover¹	87,947	107,430	(18.1%)
Total JLR	129,887	149,690	(13.2%)

¹ China JV retail volume in Q2 FY19 was 12,531 units (5,310 units of Discovery Sport, 1,587 units of Evoque, 2,668 units of Jaguar XFL, 2,607 units of Jaguar XEL and 359 units of Jaguar E-PACE). China JV retail volume in Q2 FY18 was 21,728 units (11,274 units of Discovery Sport, 4,856 units of Evoque, 5,598 units of Jaguar XFL)

Q2 FY19 revenue and profits

For the quarter ended 30 September 2018, revenue was £5.6 billion, down £687 million year on year, primarily reflecting the challenging market conditions, particularly in China.

The loss before tax was £90 million, down from PBT of £382 million in Q2 FY18, reflecting:

22.6k units of lower wholesales (-£324 million), primarily in China

Warranty provision actions (-£39 million)

Higher material and new plant costs (-£102 million)

Higher depreciation and amortisation (-£74 million)

Reductions in other costs (including marketing) (£93 million)

Other (including incentives, FX and commodities) (-£26 million)

EBITDA was £511 million (9.1% margin) and the loss before interest and tax was £(38) million (-0.7% margin) in Q2 FY19, compared to EBITDA of £746 million (11.8% margin) and EBIT of £329 million (5.2% margin) in Q2 FY18. The loss after tax was £101 million in Q2 FY19, compared to the PAT of £306 million in Q2 FY18.

Revenue was £10.9 billion in H1 FY19 compared to £11.9 billion for the same period last year, generating a loss before tax of £354 million compared to PBT of £953 million in H1 FY18 (which included a £437 million one-off pension credit). EBITDA in H1 FY19 was £836 million (7.7% margin) compared to £1.2 billion (10.0% margin) in H1 FY18 and the loss before interest and tax in H1 FY19 was £232 million (-2.1% margin) compared to EBIT of £398 million (3.3% margin) in H1 FY18. The loss after tax in H1 FY19 was £311 million compared to PAT of £758 million (including the £437 million one-off pre-tax pension credit) in H1 FY18.

Table of Contents**Cash flow, liquidity and capital resources**

Free cash flow was negative £624 million after £1 billion of total product and other investment spending and £114 million of working capital outflows in Q2 FY19. In the quarter, £882 million of investment spending was capitalised and £113 million was expensed through the income statement.

Cash and financial deposits at 30 September 2018 stood at £2.6 billion (comprising £1.8 billion of cash and cash equivalents and £0.8 billion of short term deposits and other investments) after the negative free cash flow and proceeds from a 500 million 4.5% bond issued in September 2018. The cash and financial deposits include an amount of £373 million held in subsidiaries of Jaguar Land Rover outside of the United Kingdom. The cash in some of these jurisdictions is subject to impediments to remitting cash to the UK other than through annual dividends. As at 30 September 2018, the Company also had an undrawn revolving credit facility totalling £1.9 billion, maturing in July 2022, and £31 million equivalent for an unutilised short-term uncommitted receivable factoring facility.

Debt

- ** Issued by Jaguar Land Rover Automotive plc and guaranteed by Jaguar Land Rover Limited and Jaguar Land Rover Holdings Limited.
- *** \$295 million uncommitted receivables factoring facility with Jaguar Land Rover Limited as the borrower and guaranteed by Jaguar Land Rover Holdings Limited.

Table of Contents**Risks and mitigating factors**

There are a number of potential risks which could have a material impact on the Group's performance and could cause actual results to differ materially from expected and/or historical results, including those discussed on pages 80-83 of the Annual Report 2017-18 of the Group (available at www.jaguarlandrover.com) along with mitigating factors. The principal risks discussed in the Group's Annual Report 2017-18 are competitive business efficiency, global economic and geopolitical environment, brand positioning, environmental regulations and compliance, diesel uncertainty, unethical and prohibited business practices, information and cyber security, rapid technology change, exchange rate fluctuations and product liability and recalls.

Acquisitions and disposals

There were no material acquisitions or disposals in Q2 FY19.

Off-balance sheet financial arrangements

In Q2 FY19 the Company had no off-balance sheet financial arrangements (see note 23) other than to the extent disclosed in the condensed consolidated financial statements in this Interim Report, starting on page 8.

Post balance sheet items

In October, the Company signed a loan agreement with a syndicate of banks for \$1 billion and has drawn down the full amount. The loan has a final maturity on 31st January 2025, with 20% amortising on 31 October 2022.

Related party transactions

Related party transactions for Q2 FY19 are disclosed in note 26 to the condensed consolidated financial statements disclosed on page 28 of this Interim Report. There have been no material changes in the related party transactions described in the latest annual report.

Employees

At the end of Q2 FY19, Jaguar Land Rover employed 43,515 people worldwide, including agency personnel, compared to 41,906 at the end of Q2 FY18.

Board of directors

Ms Hanne Sorensen was appointed as a director of the Jaguar Land Rover Automotive plc Board, effective 15 August 2018. The following table provides information with respect to the current members of the Board of Directors of Jaguar Land Rover Automotive plc:

Name	Position	Year appointed as Director
Natarajan Chandrasekaran	Chairman	2017
Professor Dr. Ralf D. Speth	Chief Executive Officer and Director	2010

Notes (forming part of the condensed consolidated interim financial statements)

1 Accounting policies

Basis of preparation

The financial information in these interim financial statements is unaudited and does not constitute statutory accounts as defined in Section 435 of the Companies Act 2006. The condensed consolidated interim financial statements of Jaguar Land Rover Automotive plc have been prepared in accordance with International Accounting Standard 34, Interim Financial Reporting under International Financial Reporting Standards (IFRS) as adopted by the European Union (EU).

The condensed consolidated interim financial statements have been prepared on a historical cost basis except for certain financial instruments held at fair value as highlighted in note 19.

The condensed consolidated interim financial statements should be read in conjunction with the annual consolidated financial statements for the year ended 31 March 2018, which were prepared in accordance with IFRS as adopted by the EU.

The condensed consolidated interim financial statements have been prepared on the going concern basis as set out within the directors' report of the Group's Annual Report for the year ended 31 March 2018.

The accounting policies applied are consistent with those of the annual consolidated financial statements for the year ended

31 March 2018, as described in those financial statements except as described below.

Change in accounting policies

The Group has had to change its accounting policy and make retrospective adjustments as a result of adopting the following new standards:

IFRS 9 Financial Instruments

IFRS 15 Revenue from contracts with customers

The impact of the adoption of these standards and the new accounting policies are disclosed in note 2.

Estimates and judgements

The preparation of interim financial statements requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

In preparing these condensed interim financial statements, the significant judgements made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those applied to the consolidated financial statements for the year ended 31 March 2018.

2 Change in accounting policies

This note explains the impact of the adoption of *IFRS 9 Financial Instruments* and *IFRS 15 Revenue from Contracts with Customers* on the Group's financial statements which have been applied from 1 April 2018.

IFRS 9 Financial Instruments addresses the classification, measurement and recognition of financial assets and financial liabilities and introduces a new impairment model for financial assets and new rules for hedge accounting.

The Group has undertaken an assessment of classification and measurement on transition and has not identified a material impact on the financial statements given that equity investments which are not equity accounted are valued at fair value through profit or loss.

The Group has undertaken an assessment of the impairment provisions, especially with regards to trade receivables and has applied the simplified approach under the standard. For all principal markets, the Group operates with major financial institutions who take on the principal risks of sales to customers and consequently the Group receive full payment for these receivables between 0-30 days. Therefore the Group has concluded that there is no material impact under the standard for remeasurement of impairment provisions.

The Group has undertaken an assessment of its hedge relationships and has concluded that the Group's current hedge relationships qualified as continuing hedges upon the adoption of IFRS 9. The Group has identified a change with respect to the treatment of the cost of hedging, specifically the time value of the foreign exchange options and foreign currency basis included in the foreign exchange forwards and cross-currency interest rate swaps. The time value of foreign exchange options and the foreign currency basis included in the foreign exchange forwards and cross-currency interest rate swaps is now recorded in a separate component of the statement of comprehensive income. Foreign exchange gains/(losses) for non-financial items will now be recognised as an adjustment to that non-financial item (i.e. inventory) when recorded on the consolidated balance sheet and this adjustment has been made on a prospective basis from 1 April 2018. A transition adjustment has been recognised for this.

Table of Contents**Notes (forming part of the condensed consolidated interim financial statements)****2 Change in accounting policies (continued)**

As required under the transition rules of IFRS 9, comparative periods have been restated only for the retrospective application of the cost of hedging approach for the time value of the foreign exchange options and also voluntarily application for foreign currency basis included in the foreign exchange forwards and cross-currency interest rate swaps. Accordingly, the information presented for prior periods is not wholly comparable to the information presented for current year. The financial impact of this change is as follows:

Balance sheet item (£ millions)	Change as at 31 March 2018 as a result of adoption of IFRS 9	Reason for change
Retained earnings	(22)	Time value of options recognised in Cost of Hedge Reserve as per IFRS 9.
Hedge reserve	64	Basis spread adjustment recognised as a separate component of OCI.
Cost of hedge reserve	(46)	Time value of options and basis spread adjustment recognised as a separate component of OCI.

In addition, under the published change issued by the IASB in February 2018 regarding the modification of financial liabilities, an additional charge of £5 million has been recognised for the financial year ended 31 March 2018 representing the loss recognised on the modification of the Group's undrawn revolving credit facility.

The income statement impact for the adoption of IFRS 9 was a reduction in profit before tax of £27 million and a £22 million reduction in profit after tax for the 6 month period ended 30 September 2017.

IFRS 15 Revenue from Contracts with Customers replaces IAS 18 Revenue and IAS 11 Construction Contracts and related interpretations (such as IFRIC 13 Customer Loyalty Programmes).

The Group has applied the modified retrospective application approach and has not restated prior comparative financial information.

The primary impact on the Group relates to consideration payable to customers, which the standard defines as discounts, rebates, refunds or other forms of disbursement to customers (such as retailers) or end customers (as part of the overall distribution chain), where a service is not received in return and, if a service is received in return, where it cannot be fair-valued. The treatment of such items is a reclassification of marketing expenses to revenue reductions and this totalled £42 million for the 6 month period ended 30 September 2018.

Other specific impacts on the Group relates to the treatment of associated vehicle sale performance obligations, and the assessment of principal versus agent in providing or arranging for storage, freight and in-transit insurance

alongside the sale of a vehicle. These transport arrangements are made when delivering vehicles to retailers across the global network. The Group has determined that it is an agent in providing these services, and has amended the presentation of these amounts from a gross basis (i.e. revenues and costs separately) to a net basis (where consideration received will be presented net of associated costs in the income statement). The financial impact of this change is a reclassification of costs against revenue of £154 million for the 6 month period ended 30 September 2018.

The Group has reclassified royalty income and incremental income from customers from Other income to Revenue and this totalled £66 million for the 6 month period ended 30 September 2018. The result of the changes discussed above has not materially impacted profit before tax or the Group's EBIT for the 6 month period ended 30 September 2018.

Table of Contents**Notes (forming part of the condensed consolidated interim financial statements)****3 Alternative Performance Measures**

In reporting financial information, the Group presents alternative performance measures (APMs) which are not defined or specified under the requirements of IFRS. The Group believes that these APMs, which are not considered to be a substitute for or superior to IFRS measures, provide stakeholders with additional helpful information on the performance of the business.

The APMs used within this Annual Report are defined below.

Alternative Performance Measure	Definition
EBITDA	EBITDA is defined as profit before income tax expense, exceptional items, finance expense (net of capitalised interest), finance income, gains/losses on unrealised derivatives and debt, gains/losses on realised derivatives entered into for the purpose of hedging debt, share of profit/loss from equity accounted investments, depreciation and amortisation.
EBIT	EBIT is defined as for EBITDA but including share of profit/loss from equity accounted investments, depreciation and amortisation.
Free cash flow	Net cash generated from operating activities less net cash used in investing activities (excluding movements in short-term deposits) and after finance expenses and fees and payments of lease obligations. Free cash flow before financing also includes foreign exchange gains/losses on short-term deposits and cash and cash equivalents.
Total product and other investment	Cash used in the purchase of property, plant and equipment, intangible assets, investments in subsidiaries, equity accounted investments and other trading investments and expensed research and development costs.
Operating cash flow before investment	Free cash flow before financing excluding total product and other investment.
Working capital	Changes in assets and liabilities as presented in note 25. This comprises movements in assets and liabilities excluding movements relating to financing or investing cash flows or non-cash items that are not included in EBIT or EBITDA.
Retail sales	Jaguar Land Rover retail sales represent vehicle sales made by dealers to end customers and include the sale of vehicles produced by our Chinese joint venture, Chery Jaguar Land Rover Automotive Company Ltd.
Wholesale sales	Wholesales represent vehicle sales made to dealers. The Group recognises revenue on wholesales.

The Group uses EBITDA as an APM to review and measure the underlying profitability of the Group on an ongoing basis for comparability as it recognises that increased capital expenditure year-on-year will lead to a corresponding

increase in depreciation and amortisation expense recognised within the consolidated income statement.

The Group uses EBIT as an APM to review and measure the underlying profitability of the Group on an ongoing basis as this excludes volatility on unrealised foreign exchange transactions. Due to the significant level of debt and currency derivatives, unrealised foreign exchange distorts the financial performance of the Group from one period to another.

Free cash flow is considered by the Group to be a key measure in assessing and understanding the total operating performance of the Group and to identify underlying trends.

Total product and other investment is considered by the Group to be a key measure in assessing cash invested in the development of future new models and infrastructure supporting the growth of the Group.

Operating cash flow before investment is used as a measure of the operating performance and cash available to the Group before the direct cash impact of investment decisions.

Working capital is considered by the Group to be a key measure in assessing short-term assets and liabilities that are expected to be converted into cash within the next 12-month period.

Reconciliations between these alternative performance measures and statutory reported measures are shown on the next pages.

Notes (forming part of the condensed consolidated interim financial statements)

3 Alternative Performance Measures (continued)**Total product and other investment**

(£ millions)	Note	Three months ended		Six months ended	
		30 September 2018	30 September 2017	30 September 2018	30 September 2017
Purchases of property, plant and equipment		456	512	891	990
Cash paid for intangible assets		423	437	955	840
Research and development expensed	6	113	83	212	177
Purchases of other investments		1	1	1	21
Investment in associates		2		2	
Total product and other investment		995	1,033	2,061	2,028

4 Exceptional item

The exceptional item within Material and other cost of sales of £1 million for the six months ended 30 September 2017 relates to the recovery of import duties and taxes following the explosion at the port of Tianjin (China) in August 2015 which led to a reversal of the initial provision recorded in the quarter ended 30 September 2015.

5 Disaggregation of revenue

The table below provides a further breakdown of the revenue from continuing operations:

(£ millions)	Three months ended		Six months ended	
	30 September 2018	30 September 2017	30 September 2018	30 September 2017
Vehicles, parts and accessories	5,603	6,466	10,832	12,247
Other	235	239	489	487
Total revenue recognised at a point in time	5,838	6,705	11,321	12,734
Revenue recognised over time	19	8	29	16
Realised revenue hedges	(222)	(391)	(493)	(829)
Total revenue	5,635	6,322	10,857	11,921

6 Research and development

(£ millions)	Three months ended		Six months ended	
	30 September 2018	30 September 2017	30 September 2018	30 September 2017
Total research and development costs incurred	531	493	1,056	942
Research and development expensed	(113)	(83)	(212)	(177)
Development costs capitalised	418	410	844	765
Interest capitalised	26	23	50	45
Research and development expenditure credit	(27)	(26)	(56)	(48)
Total internally developed intangible additions	417	407	838	762

Research and development credit	114	114
Other		10
Total other current assets	674	630

12 Taxation**Recognised in the income statement**

The income tax for the six month period ended 30 September 2018 and 30 September 2017 is charged at the estimated effective tax rate expected to apply for the applicable financial year ends.

13 Capital expenditure

Capital expenditure in the six month period was £695 million (six month period to 30 September 2017: £1,232 million) on property, plant and equipment and £889 million (six month period to 30 September 2017: £797 million) was capitalised as intangible assets (excluding research and development expenditure credits). £18 million of heritage assets have been written down during the six month period ended 30 September 2018 (six month period to 30 September 2017: £nil). There were no material disposals or change in the use of assets.

14 Intangible assets

The Group has updated the cash flow forecast for 2018/2019 used to calculate the recoverable amount of the Group's single cash-generating unit as at 30 September 2018 and has undertaken additional sensitivities on certain key inputs into the value in use model and concluded that a full impairment test is not required.

As disclosed on page 82-83 of the Group's Annual Report for the year ended 31 March 2018, the Group considers the key assumptions in the cash flow forecasts to be sales volumes, exchange rates, commodity rates, production capacity and costs and capital expenditure. It continues to monitor on a periodic basis the impact of certain future strategic (implications of Brexit, increasing tariffs), operational (diesel uncertainty), legal and compliance (environmental regulations and compliance) and financial risks (competitive business efficiency, exchange rate fluctuations) in order to assess whether an impairment trigger has occurred.

The Group continues to assess the potential impacts of Brexit and increasing tariffs. Until the Brexit negotiations are sufficiently concluded, it is not possible to determine with certainty the full financial impact to the Group and impact

on the value in use calculation, if any.

15 Other financial liabilities

As at (£ millions)	30 September 2018	31 March 2018
Current		
Finance lease obligations	3	3
Interest accrued	43	32

Provision used during the period	(391)	(43)	(2)	(3)	(8)	(447)
Unused amounts reversed in the period		(3)	(7)	(2)	(1)	(13)
Impact of discounting	13					13
Foreign currency translation		2	2			4
Balance at 30 September 2018	1,642	141	39	26	10	1,858

* Included in Provisions made during the period is £(7) million arising in connection with warranty arrangements with suppliers that are classified in Other financial assets .

Product warranty provision

The Group offers warranty cover in respect of manufacturing defects, which become apparent one to five years after purchase, dependent on the market in which the purchase occurred and the vehicle purchased. The estimated liability for product warranty is recognised when products are sold or when new warranty programmes are initiated. These estimates are established using historical information on the nature, frequency and average cost of warranty claims and management estimates regarding possible future warranty claims, customer goodwill and recall complaints. The discount on the warranty provision is calculated using a risk-free discount rate as the risks specific to the liability, such as inflation, are included in the base calculation. The timing of outflows will vary as and when a warranty claim will arise, being typically up to five years.

Legal and product liability provision

A legal and product liability provision is maintained in respect of compliance with regulations and known litigations that impact the Group. The provision primarily relates to motor accident claims, consumer complaints, dealer terminations, employment cases, personal injury claims and compliance with regulations. The timing of outflows will vary as and when claims are received and settled, which is not known with certainty.

Residual risk provision

In certain markets, the Group is responsible for the residual risk arising on vehicles sold by dealers on leasing arrangements. The provision is based on the latest available market expectations of future residual value trends. The timing of the outflows will be at the end of the lease arrangements, being typically up to three years.

Environmental liability provision

This provision relates to various environmental remediation costs such as asbestos removal and land clean-up. The timing of when these costs will be incurred is not known with certainty.

Other employee benefits obligations

This provision relates to the LTIP scheme for certain employees.

Finance lease obligations	19	19
Total debt	4,358	3,731

19 Financial instruments

The condensed consolidated interim financial statements have been prepared on a historical cost basis except for certain financial instruments held at fair value. These financial instruments are classified as level 2 fair value measurements, as defined by IFRS 13, being those derived from inputs other than quoted prices which are observable. There have been no changes in the valuation techniques used or transfers between fair value levels from those set out in note 35 to the annual consolidated financial statements for the year ended 31 March 2018.

The following tables show the carrying amounts and fair value of each category of financial assets and liabilities, other than those with carrying amounts that are reasonable approximations of fair values.
