**MEDIA RELEASE**

**Eskom Reinstates Authority for Mines to Increase  
Power Load from 80% to 90%**

**Johannesburg, Friday, February 1, 2008:** Gold Fields Limited (“Gold Fields”) (NYSE, JSE, DIFX: GFI) reports that Eskom last night reinstated the authorisation for mines to increase their power load from 80% to 90%. This follows after authorisation was withdrawn late yesterday morning.

Gold Fields operations are cautiously remobilising towards the 90% level, with due consideration for the safety implications of an erratic

and uncertain power supply.

Terence Goodlace, head of Gold Fields' South African operations said:

“While we welcome the reinstatement of the 90% power levels, we urgently need a guarantee of a sustainable level of supply. We need to have a consistent guaranteed supply to re-establish our operations safely at these levels.”
