## News Release / Presseinformation

### **Infineon Technologies and Rambus Conclude Broad Licensing Agreement Agreement Also Settles All Existing Claims between the Two Companies**

Munich, Germany and Los Altos, California / USA March 21, 2005 Infineon Technologies (FSE/NYSE: IFX) and Rambus (NASDAQ: RMBS) announced that they have reached an agreement settling all claims between them and licensing the Rambus patent portfolio for use in current and future Infineon products.

Rambus has granted to Infineon a worldwide license to existing and future Rambus patents and patent applications for use in Infineon memory products. In exchange, Infineon will pay a quarterly license fee of US-Dollar 5.85 million starting by November 15, 2005 through November 15, 2007. After November 15, 2007, and only if Rambus enters into additional specified licensing agreements with certain other DRAM manufacturers, Infineon will make additional quarterly payments which may accumulate up to a maximum of an additional US-Dollar 100 million.

The agreement also provides Infineon an option for acquiring certain other licenses. All licenses provide for Infineon to be treated as a most-favored customer of Rambus.

Infineon has simultaneously granted to Rambus a fully-paid perpetual license for memory interfaces.

In addition to the licenses, the two companies have agreed to the immediate dismissal of all pending litigation and have released each other from all existing legal claims.

#### **About Rambus Inc.**

Rambus is one of the world's premier technology licensing companies specializing in the invention and design of high-speed chip interfaces. Since its founding in 1990, the company's innovations, breakthrough technologies and integration expertise have helped industry-leading chip and system companies solve their most challenging and complex I/O problems and bring their products to market. Rambus's interface solutions can be found in numerous computing, consumer, and communications products and applications. Rambus is headquartered in Los Altos, Calif., with regional offices in Chapel Hill, North Carolina, Taipei, Taiwan and Tokyo, Japan. Additional information is available at [www.rambus.com](http://www.rambus.com).
