UNAUDITED NOTES TO FINANCIAL STATEMENTS
June 30, 2003

Note 1 - Basis of Presentation

The accompanying unaudited condensed financial statements have been prepared by management in accordance with the instructions in Form 10-QSB and, therefore, do not include all information and footnotes required by U.S. generally accepted accounting principles and should, therefore, be read in conjunction with the Company's Form 10-KSB for the year ended December 31, 2002, filed with the Securities and Exchange Commission. These statements do include all normal recurring adjustments which the Company believes necessary for a fair presentation of the statements. The interim operations are not necessarily indicative of the results to be expected for the full year ended December 31, 2003. Cumulative amounts include amounts since inception of development stage on January 1, 2002

Note 2 - Additional Footnotes Included By Reference

Except as indicated in Notes above, there have been no other material changes in the information disclosed in the notes to the financial statements included in the Company's Form 10-KSB for the year ended December 31, 2002, filed with the Securities and Exchange Commission. Therefore, those footnotes are included herein by reference.

Note 3 - Going Concern

At June 30, 2003 the Company had a working capital deficit, an accumulated deficit, and has incurred losses since inception as well as negative cash flows from operations and the termination of its licensing agreement for its breast implants. These conditions raise substantial doubt about the ability of the

Edgar Filing: NOVAMED INC - Form 10QSB

Company to continue as a going concern. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

The Company's ability to continue as a going concern is subject to obtaining necessary funding from outside sources. The Company intends to begin seeking a potential merger partner and cash infusion through a reverse acquisition transaction. There can be no assurance that the Company will be successful in these efforts.

ITEM 2.

MANAGEMENT'S PLAN OF OPERATION

When used in this discussion, the words "believes", "anticipates", "expects", and similar expressions are intended to identify forward-looking statements. Such statements are subject to certain risks and uncertainties, which could cause actual results to differ materially from those projected. Readers are cautioned not to place undue reliance on these forward-looking statements, that speak only as of the date hereof. The Company undertakes no obligation to republish revised forward-looking statements to reflect events or circumstances after the date hereof or to reflect the occurrence of unanticipated events. Readers are also urged to carefully review and consider the various disclosures made by the Company that attempt to advise interested parties of the factors which affect the Company's business, in this report, as well as the Company's periodic reports on Forms 10-KSB, 10-QSB and 8-K filed with the Securities and Exchange Commission.

Plan of Operation

The Company's plan of operation for the coming year, as discussed above, is to identify and acquire a favorable business opportunity. The Company does not plan to limit its options to any particular industry, but will evaluate each opportunity on its merits. Management believes that the Company has sufficient resources to meet the anticipated needs of the Company's operations through at least the calendar year ending December 31, 2003. However, there can be no assurances to that effect, as the Company has no revenues and the Company's need for capital may change dramatically if it acquires an interest in a business opportunity during that period. Further, the Company has no plans to raise additional capital until a merger or acquisition candidate is identified.

The Company projects that if no acquisition candidate is found for the Company within the next twelve months that its operating requirements will not exceed \$10,000. Further, the Company's president, Ruairidh Campbell will provide his expertise in preparing the necessary documentation to keep the Company current with its reporting requirements with the SEC and those costs will accrue on the Company's balance sheet.

The Company has not yet entered into any agreement, nor does it have any commitment or understanding to enter into or become engaged in any transaction,

Edgar Filing: NOVAMED INC - Form 10QSB

as of the date of this filing, except that letter of intent, disclosed on June 3, 2003, that anticipates the acquisition of WWA World Wide Auctioneers, Inc. ("Worldwide"), an international heavy equipment auction company based in Dubai. The Company is in the process of completing a due diligence inquiry and expects to make a decision as to whether to proceed with the acquisition during the next quarterly reporting period.

ITEM 3. CONTROLS AND PROCEDURES

The Company's president acts both as the Company's chief executive officer and chief financial officer ("Certifying Officer") and is responsible for establishing and maintaining disclosure controls and procedures for the Company. The Certifying Officer has concluded (based on his evaluation of these controls and procedures as of a date within 90 days of the filing of this report) that the design and operation of the Company's disclosure controls and procedures (as defined in Rule 13a-14(c) under the Securities Exchange Act of 1934) are effective. No significant changes were made in the Company's internal controls or in other factors that could significantly affect those controls subsequent to the date of the evaluation, including any corrective actions with regard to slight deficiencies and material weaknesses. Due to the Certifying Officer's dual role as chief executive officer and chief financial officer, the Company has no segregation of duties related to internal controls.

ITEM 6. EXHIBITS AND REPORTS ON FORM 8-K

- (a) Exhibits Exhibits required to be attached by Item 601 of Regulation S-B are listed in the Index to Exhibits on page 12 of this Form 10-QSB, and are incorporated herein by this reference.
- (b) Reports on Form 8-K.No reports on Form 8-K were filed during the period covered by this report.

SIGNATURES

In accordance with the requirements of the Securities Exchange Act, the registrant caused this report to be signed on its behalf by the undersigned, hereunto duly authorized, this 23rd day of July, 2003.

procedures (as defined in Exchange Act Rules 13a-14 and 15d-14) for the registrant and have:

a) Designed such disclosure controls and procedures to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to me by others within those entities, particularly during the period in which this quarterly report is being prepared;

b) Evaluated the effectiveness of the registrant's disclosure controls and procedures as of a date within 90 days prior to the filing date of this quarterly report (the "Evaluation Date"); and

c) Presented in this quarterly report my conclusions about the effectiveness of the disclosure controls and procedures based on our evaluation as of the Evaluation Date;

5. I have disclosed, based on my most recent evaluation, to the registrant's auditors and the audit committee of registrant's board of directors (or persons performing the equivalent functions):

a) All significant deficiencies in the design or operation of internal controls which could adversely affect the registrant's ability to record, process, summarize and report financial data and have identified for the registrant's auditors any material weaknesses in internal controls; and

b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal controls; and

6. I have indicated in this quarterly report whether or not there were significant changes in internal controls or in other factors that could significantly affect internal controls subsequent to the date of my most recent evaluation, including any corrective actions with regard to significant deficiencies and material weaknesses.
