Item 1.01. Entry into a Definitive Material Agreement.

On August 9, 2017, Luna Innovations Incorporated (“we” or the “Company”) entered into an Asset Purchase Agreement (the “Asset Purchase Agreement”) with MACOM Technology Solutions Holdings, Inc. (the “Buyer”). Pursuant to the Asset Purchase Agreement, the Company sold substantially all of its assets related to its high-speed optical receiver (“HSOR”) business to the Buyer, including all of the patents and patent applications used or useful for its HSOR operations, for total cash consideration of \$33.5 million, including \$29.5 million received at closing and \$4.0 million to be placed in escrow until December 15, 2018 (altogether, the “Transaction”). The Company had been engaged since 2015 in its HSOR business. Also as a part of the Transaction, the Buyer has agreed to extend employment offers to approximately 49 employees of the Company within 60 days after the closing, each of whom were engaged in the development, manufacture, and sale of HSOR products in addition to certain corporate administrative functions. The \$4.0 million placed in escrow is to be paid within 5 business days following December 15, 2018. The foregoing payment is subject to potential working capital adjustments to the purchase price and/or the satisfaction of any liabilities the Company may have to the Buyer for any breach of the Company’s representations or obligations under the Asset Purchase Agreement.

Also on August 9, 2017, in connection with the Transaction, the Company and the Buyer entered into a Transition Services Agreement (the “TSA”). Pursuant to the TSA, the Buyer has agreed to provide certain transitional services to the Company with respect to infrastructure and administration during the 6 month period following the closing of the Transaction. In exchange for Buyer’s services under the TSA, the Company has agreed to (i) provide specified transitional services in connection with the Transaction to the Buyer and (ii) pay the Buyer a \$1.5 million fee. Also, as a part of the Transaction, for a period of five years after closing, the Company has agreed not to compete or engage in the HSOR market. In addition, the Company received a license back to certain of its intellectual property primarily related to the Company’s Terahertz sensing systems.

The foregoing summary is not complete and is qualified in its entirety by reference to the Asset Purchase Agreement and the TSA, copies of which will be filed as exhibits to the Company’s Quarterly Report on Form 10-Q for the quarter ending September 30, 2017.
