August 07, 2017

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
WASHINGTON, D.C. 20549

FORM 10-Q

(Mark One)

☒ QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended June 30, 2017

or

☐ TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from to .

Commission File Number: 001-31924

NELNET, INC.

(Exact name of registrant as specified in its charter)

NEBRASKA

(State or other jurisdiction of incorporation or organization)

84-0748903

(I.R.S. Employer Identification No.)

121 SOUTH 13TH STREET

SUITE 100

LINCOLN, NEBRASKA

(Address of principal executive offices)

(402) 458-2370

(Registrant's telephone number, including area code)

68508

(Zip Code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes ☒ No ☐

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes ☒ No ☐

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Edgar Filing: NELNET INC - Form 10-Q

Large accelerated filer ☒ [X]

Accelerated filer ☐ []

Non-accelerated filer ☐ [] (Do not check if a smaller reporting company) Smaller reporting company ☐ []

Emerging growth company ☐ []

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act. ☐ []

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes ☐ [] No ☒ [X]

As of July 31, 2017, there were 30,062,906 and 11,476,932 shares of Class A Common Stock and Class B Common Stock, par value \$0.01 per share, outstanding, respectively (excluding 11,317,364 shares of Class A Common Stock held by wholly owned subsidiaries).

NELNET, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in thousands, except per share amounts, unless otherwise noted)

(unaudited)

1. Basis of Financial Reporting

The accompanying unaudited consolidated financial statements of Nelnet, Inc. and subsidiaries (the "Company") as of June 30, 2017 and for the three and six months ended June 30, 2017 and 2016 have been prepared on the same basis as the audited consolidated financial statements for the year ended December 31, 2016 and, in the opinion of the Company's management, the unaudited consolidated financial statements reflect all adjustments, consisting of normal recurring adjustments, necessary for a fair presentation of results of operations for the interim periods presented. The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. Actual results could differ from those estimates. Operating results for the three and six months ended June 30, 2017 are not necessarily indicative of the results for the year ending December 31, 2017. The unaudited consolidated financial statements should be read in conjunction with the Company's Annual Report on Form 10-K for the year ended December 31, 2016 (the "2016 Annual Report").

Consolidation

The consolidated financial statements include the accounts of Nelnet, Inc. and its consolidated subsidiaries. In addition, the accounts of all variable interest entities ("VIEs") of which the Company has determined that it is the primary beneficiary are included in the consolidated financial statements. All significant intercompany balances and transactions have been eliminated in consolidation.

Variable Interest Entities

The following entities are VIEs of which the Company has determined that it is the primary beneficiary. The primary beneficiary is the entity which has both: (1) the power to direct the activities of the VIE that most significantly impact the VIE's economic performance, and (2) the obligation to absorb losses or receive benefits of the entity that could potentially be significant to the VIE.

The Company's education lending subsidiaries are engaged in the securitization of education finance assets. These education lending subsidiaries hold beneficial interests in eligible loans, subject to creditors with specific interests. The liabilities of the Company's education lending subsidiaries are not the direct obligations of Nelnet, Inc. or any of its other subsidiaries. Each education lending subsidiary is structured to be bankruptcy remote, meaning that it should not be consolidated in the event of bankruptcy of the parent company or any other subsidiary. The Company is generally the administrator and master servicer of the securitized assets held in its education lending subsidiaries and owns the residual interest of the securitization trusts. As a result, for accounting purposes, the transfers of student loans to the securitization trusts do not qualify as sales. Accordingly, all the financial activities and related assets and liabilities, including debt, of the securitizations are reflected in the Company's consolidated financial statements and are summarized as supplemental information on the balance sheet.

The Company owns 91.5 percent of the economic rights of Allo Communications LLC and has a disproportional 80 percent of the voting rights related to all operating decisions for Allo's business. Allo management, as current minority members, has the opportunity to earn an additional 11.5 percent of the total ownership interests based on the financial performance of Allo. In addition to the Company's equity investment, Nelnet, Inc. (the parent) issued a \$200.0 million line of credit to Allo on December 30, 2015. The line of credit had \$114.0 million outstanding as of June 30, 2017. Nelnet, Inc.'s maximum exposure to loss as a result of its involvement with Allo is equal to its equity investment and the balance of the line of credit. The amounts owed by Allo to Nelnet, Inc., including the interest costs incurred by Allo and interest earnings recognized by Nelnet, Inc., are not reflected in the Company's consolidated balance sheet as

they were eliminated in consolidation. All of Allo's financial activities and related assets and liabilities, excluding the line of credit, are reflected in the Company's consolidated financial statements. See note 10, "Segment Reporting," for disclosure of Allo's total assets and results of operations (included in the "Communications" operating segment), note 7, "Goodwill," for disclosure of Allo's goodwill, and note 8, "Property and Equipment," for disclosure of Allo's fixed assets. Allo's goodwill and property and equipment comprise the majority of its assets. The assets recognized as a result of consolidating Allo are the property of Allo and are not available for any other purpose, other than to Nelnet, Inc. as a secured lender under Allo's line of credit.

Noncontrolling Interest

Nelnet Servicing, LLC ("Nelnet Servicing"), a subsidiary of the Company, and Great Lakes Educational Loan Services, Inc. ("Great Lakes") created a joint venture to respond to the U.S. Department of Education's initiative to procure a contract for federal student loan servicing to acquire a single servicing platform to service all loans owned by the Department. The joint venture operates as a new legal entity called GreatNet Solutions, LLC ("GreatNet"). Nelnet Servicing and Great Lakes each own 50 percent of the ownership interests in GreatNet. See note 11 for additional information on the contract procurement process.

During the first quarter of 2017, Nelnet Servicing and Great Lakes each contributed \$12.6 million to GreatNet and GreatNet began to incur certain operating costs. For financial reporting purposes, the balance sheet and operating results of GreatNet are included in the Company's consolidated financial statements and presented in the Company's Loan Systems and Servicing operating segment. The proportionate share of membership interest (equity) and net loss of GreatNet that is attributable to Great Lakes is reflected as noncontrolling interests in the consolidated financial statements.

For a description of other entities in which the Company reflects noncontrolling interests in its consolidated financial statements, see note 2 of the notes to consolidated financial statements included in the 2016 Annual Report.

2. Student Loans Receivable and Allowance for Loan Losses

Student loans receivable consisted of the following:

	As of June 30, 2017	As of December 31, 2016
Federally insured loans:		
Stafford and other	\$4,704,409	5,186,047
Consolidation	18,442,998	19,643,937
Total	23,147,407	24,829,984
Private education loans	242,893	273,659
	23,390,300	25,103,643
Loan discount, net of unamortized loan premiums and deferred origination costs	(123,326)	(129,507)
Non-accretable discount (a)	(14,972)	(18,570)
Allowance for loan losses – federally insured loans	(35,862)	(37,268)
Allowance for loan losses – private education loans	(13,846)	(14,574)
	\$23,202,294	24,903,724

(a) For loans purchased where there is evidence of credit deterioration since the origination of the loan, the Company records a credit discount, separate from the allowance for loan losses, which is non-accretable to interest income.

The Company recognizes student loan interest income as earned, net of amortization of loan premiums and deferred origination costs and the accretion of loan discounts. Loan interest income is recognized based upon the expected yield of the loan after giving effect to interest rate reductions resulting from borrower utilization of incentives such as timely payments ("borrower benefits") and other yield adjustments. Loan premiums or discounts, deferred origination costs, and borrower benefits are amortized/accreted over the estimated life of the loans, which includes an estimate of forecasted payments in excess of contractually required payments. The Company periodically evaluates the assumptions used to estimate the life of the loans and prepayment rates. In instances where there are changes to the assumptions, amortization/accretion is adjusted on a cumulative basis to reflect the change since the acquisition of the loan.

In the third quarter of 2016, the Company revised its policy to correct for an error in its method of applying the interest method used to amortize premiums and deferred origination costs and accrete discounts on its student loan portfolio. Previously, the Company amortized premiums and deferred origination costs and accreted discounts by including in its prepayment assumption forecasted payments in excess of contractually required payments as well as forecasted defaults. The Company has determined that only payments in excess of contractually required payments (excluding forecasted defaults) should be included in the prepayment assumption. Under the Company's revised policy, as of September 30, 2016, the constant prepayment rate used by the Company to amortize/accrete student loan premiums/discounts was decreased. The constant prepayment rates under the Company's revised policy are 5 percent for Stafford loans and 3 percent for Consolidation loans. The constant prepayment rates

under the Company's prior policy in effect before this correction were 6 percent and 4 percent, respectively. During the third quarter of 2016, the Company recorded an adjustment to reflect the cumulative net impact on prior periods for the correction of this error that resulted in an \$8.2 million reduction to the Company's net loan discount balance and a corresponding pre-tax increase to interest income. The Company concluded this error had an immaterial impact on 2016 results as well as the results for prior periods.

Activity in the Allowance for Loan Losses

The provision for loan losses represents the periodic expense of maintaining an allowance sufficient to absorb losses, net of recoveries, inherent in the portfolio of student loans. Activity in the allowance for loan losses is shown below.

	Three months ended June 30,		Six months ended June 30,	
	2017	2016	2017	2016
Balance at beginning of period	\$50,526	50,084	51,842	50,498
Provision for loan losses:				
Federally insured loans	2,000	2,000	4,000	4,000
Private education loans	—	—	(1,000)	500
Total provision for loan losses	2,000	2,000	3,000	4,500
Charge-offs:				
Federally insured loans	(2,825)	(3,217)	(5,406)	(6,266)
Private education loans	(288)	(514)	(370)	(915)
Total charge-offs	(3,113)	(3,731)	(5,776)	(7,181)
Recoveries - private education loans	245	250	442	526
Purchase of private education loans	—	100	—	260
Transfer from repurchase obligation related to private education loans repurchased	50	50	200	150
Balance at end of period	\$49,708	48,753	49,708	\$48,753
Allocation of the allowance for loan losses:				
Federally insured loans	\$35,862	33,224	35,862	33,224
Private education loans	13,846	15,529	13,846	15,529
Total allowance for loan losses	\$49,708	48,753	49,708	48,753

Student Loan Status and Delinquencies

Delinquencies have the potential to adversely impact the Company's earnings through increased servicing and collection costs and account charge-offs. The table below shows the Company's loan delinquency amounts.

	As of June 30, 2017			As of December 31, 2016			As of June 30, 2016		
Federally insured loans:									
Loans in-school/grace/deferment	\$1,454,802			\$1,606,468			\$1,936,064		
Loans in forbearance	2,065,167			2,295,367			2,672,241		
Loans in repayment status:									
Loans current	17,106,921	87.2 %		18,125,768	86.6 %		18,957,457	86.7 %	
Loans delinquent 31-60 days	743,738	3.8		818,976	3.9		828,885	3.8	
Loans delinquent 61-90 days	479,552	2.4		487,647	2.3		482,379	2.2	
Loans delinquent 91-120 days	267,139	1.4		335,291	1.6		320,213	1.5	
Loans delinquent 121-270 days	772,875	3.9		854,432	4.1		918,788	4.2	
Loans delinquent 271 days or greater	257,213	1.3		306,035	1.5		350,363	1.6	
Total loans in repayment	19,627,438	100.0 %		20,928,149	100.0 %		21,858,085	100.0 %	
Total federally insured loans	\$23,147,407			\$24,829,984			\$26,466,390		
Private education loans:									
Loans in-school/grace/deferment	\$32,016			\$35,146			\$54,597		
Loans in forbearance	1,814			3,448			1,610		
Loans in repayment status:									
Loans current	202,155	96.7 %		228,612	97.2 %		225,585	97.2 %	
Loans delinquent 31-60 days	2,066	1.0		1,677	0.7		1,361	0.6	
Loans delinquent 61-90 days	1,323	0.6		1,110	0.5		929	0.4	
Loans delinquent 91 days or greater	3,519	1.7		3,666	1.6		4,088	1.8	
Total loans in repayment	209,063	100.0 %		235,065	100.0 %		231,963	100.0 %	
Total private education loans	\$242,893			\$273,659			\$288,170		

3. Bonds and Notes Payable

The following tables summarize the Company's outstanding debt obligations by type of instrument:

	As of June 30, 2017		
	Carrying amount	Interest rate range	Final maturity
Variable-rate bonds and notes issued in FFELP loan asset-backed securitizations:			
Bonds and notes based on indices	\$21,063,700	0.22% - 6.90%	8/25/21 - 9/25/65
Bonds and notes based on auction	796,140	1.82% - 2.36%	3/22/32 - 11/26/46
Total FFELP variable-rate bonds and notes	21,859,840		
FFELP warehouse facilities	1,058,413	1.08% - 1.29%	9/7/18 - 4/27/20
Variable-rate bonds and notes issued in private education loan asset-backed securitization	93,727	2.97%	12/26/40
Fixed-rate bonds and notes issued in private education loan asset-backed securitization	98,076	3.60% / 5.35%	12/26/40 / 12/28/43
Unsecured line of credit	—	—	12/12/21
Unsecured debt - Junior Subordinated Hybrid Securities	20,526	4.67%	9/15/61
Other borrowings	60,169	1.96% - 3.38%	7/17/17 - 12/15/45
	23,190,751		
Discount on bonds and notes payable and debt issuance costs	(399,971)		
Total	\$22,790,780		
	As of December 31, 2016		
	Carrying amount	Interest rate range	Final maturity
Variable-rate bonds and notes issued in FFELP loan asset-backed securitizations:			
Bonds and notes based on indices	\$22,130,063	0.24% - 6.90%	6/25/21 - 9/25/65
Bonds and notes based on auction	998,415	1.61% - 2.28%	3/22/32 - 11/26/46
Total FFELP variable-rate bonds and notes	23,128,478		
FFELP warehouse facilities	1,677,443	0.63% - 1.09%	9/7/18 - 12/13/19
Variable-rate bonds and notes issued in private education loan asset-backed securitization	112,582	2.60%	12/26/40
Fixed-rate bonds and notes issued in private education loan asset-backed securitization	113,378	3.60% / 5.35%	12/26/40 / 12/28/43
Unsecured line of credit	—	—	12/12/21
Unsecured debt - Junior Subordinated Hybrid Securities	50,184	4.37%	9/15/61
Other borrowings	18,355	3.38%	3/31/23 / 12/15/45
	25,100,420		
Discount on bonds and notes payable and debt issuance costs	(431,930)		
Total	\$24,668,490		

Asset-Backed Securitizations

On May 24, 2017, the Company completed an asset-backed securitization totaling \$535.0 million (par value). The interest rate and final maturity of these notes are 1-month LIBOR plus 0.78 percent and June 25, 2065, respectively.

FFELP Warehouse Facilities

The Company funds a portion of its FFELP loan acquisitions using its FFELP warehouse facilities. Student loan warehousing allows the Company to buy and manage student loans prior to transferring them into more permanent financing arrangements.

As of June 30, 2017, the Company had three FFELP warehouse facilities as summarized below.

	NFSLW-I (a)	NHELP-II	NHELP-III (b)	Total
Maximum financing amount	\$ 700,000	500,000	200,000	1,400,000
Amount outstanding	511,846	357,461	189,106	1,058,413
Amount available	\$ 188,154	142,539	10,894	341,587
Expiration of liquidity provisions	July 10, 2018	December 15, 2017	April 27, 2018	
Final maturity date	September 7, 2018	December 13, 2019	April 27, 2020	
Maximum advance rates	92.0 - 98.0%	85.0 - 95.0%	92.2 - 95.0%	
Minimum advance rates	84.0 - 90.0%	85.0 - 95.0%	92.2 - 95.0%	
Advanced as equity support	\$ 13,260	26,440	5,668	45,368

(a) On May 25, 2017, the Company decreased the maximum financing amount for this warehouse facility from \$875.0 million to \$700.0 million.

On April 3, 2017, the Company entered into a letter agreement for this warehouse facility to decrease the maximum financing amount from \$750.0 million to \$600.0 million. On April 28, 2017, the Company amended the agreement for this warehouse facility, which changed the expiration date for the liquidity provisions to April 27, (b)2018 and changed the final maturity date to April 27, 2020. On May 5, 2017, May 25, 2017, and June 2, 2017, the Company decreased the maximum financing amount for this warehouse facility by \$200.0 million, \$100.0 million, and \$100.0 million, respectively. As of June 30, 2017, the maximum financing amount for this warehouse facility was \$200.0 million, as reflected in this table.

Unsecured Line of Credit

The Company has a \$350.0 million unsecured line of credit that has a maturity date of December 12, 2021. As of June 30, 2017, no amounts were outstanding on the line of credit and \$350.0 million was available for future use.

Repurchase Agreement

Included in "other borrowings" as of June 30, 2017 is \$41.8 million that is subject to a repurchase agreement. Proceeds from this agreement are collateralized by FFELP asset-backed security investments.

Debt Repurchases

During the three months ended March 31, 2017, the Company initiated a cash tender offer to purchase any and all of its outstanding Hybrid Securities, including a related consent solicitation to effect certain amendments to the indenture governing the notes to eliminate a provision requiring a minimum principal amount of the notes to remain outstanding after a partial redemption. The aggregate principal amount of notes tendered to the Company was \$29.7 million. The Company paid \$25.3 million to redeem these notes and recognized a gain of \$4.4 million. In addition, the amendments described above were made to the indenture. After the completion of this tender offer, the Company has \$20.5 million of Hybrid Securities that remain outstanding. In addition, during the three and six months ended June 30, 2017, the Company recognized gains of \$0.4 million and \$1.0 million, respectively, on the repurchase of its own FFELP asset-backed securities.

4. Derivative Financial Instruments

The Company uses derivative financial instruments primarily to manage interest rate risk and foreign currency exchange risk. Derivative instruments used as part of the Company's risk management strategy are further described in note 5 of the notes to consolidated financial statements included in the 2016 Annual Report. A tabular presentation of such derivatives outstanding as of June 30, 2017 and December 31, 2016 is presented below.

Basis Swaps

The following table summarizes the Company's basis swaps outstanding in which the Company receives three-month LIBOR set discretely in advance and pays one-month LIBOR plus or minus a spread as defined in the agreements (the "1:3 Basis Swaps").

	As of June 30, 2017	As of December 31, 2016
Maturity	Notional amount	Notional amount
2018	\$4,000,000	\$—
2019	2,000,000	—
2024	250,000	—
2026	1,150,000	1,150,000
2027	375,000	—
2028	325,000	325,000
2029	100,000	—
2031	300,000	300,000
	\$8,500,000	\$1,775,000

The weighted average rate paid by the Company on the 1:3 Basis Swaps as of June 30, 2017 and December 31, 2016 was one-month LIBOR plus 13.9 basis points and 10.1 basis points, respectively.

Interest Rate Swaps – Floor Income Hedges

The following table summarizes the outstanding derivative instruments used by the Company to economically hedge loans earning fixed rate floor income.

	As of June 30, 2017			As of December 31, 2016		
Maturity	Notional amount	Weighted average fixed rate paid by the Company (a)		Notional amount	Weighted average fixed rate paid by the Company (a)	
2017	\$250,000	1.04	%	\$750,000	0.99	%
2018	1,350,000	1.07		1,350,000	1.07	
2019	3,250,000	0.97		3,250,000	0.97	
2020	1,500,000	1.01		1,500,000	1.01	
2025	100,000	2.32		100,000	2.32	
	\$6,450,000	1.02	%	\$6,950,000	1.02	%

(a) For all interest rate derivatives, the Company receives discrete three-month LIBOR.

On August 20, 2014, the Company paid \$9.1 million for an interest rate swap option to economically hedge loans earning fixed rate floor income. The interest rate swap option gives the Company the right, but not the obligation, to enter into a \$250.0 million notional interest rate swap in which the Company would pay a fixed amount of 3.30% and receive discrete one-month LIBOR. If the interest rate swap option is exercised, the swap would become effective in 2019 and mature in 2024.

Interest Rate Caps

In June 2015, in conjunction with the entry into a \$275.0 million private education loan warehouse facility, the Company paid \$2.9 million for two interest rate cap contracts with a total notional amount of \$275.0 million. The first interest rate cap had a notional amount of \$125.0 million and a one-month LIBOR strike rate of 2.50%, and the second interest rate cap had a notional amount of \$150.0 million and a one-month LIBOR strike rate of 4.99%. In the event that the one-month LIBOR rate rose above

the applicable strike rate, the Company would receive monthly payments related to the spread difference. Both interest rate cap contracts had a maturity date of July 15, 2020. The private education loan warehouse facility was terminated by the Company on December 21, 2016. During the first quarter of 2017, the Company received \$913,000 to terminate the interest rate cap contracts that were held in the private education loan warehouse legal entity and paid \$929,000 to enter into new interest rate cap contracts with identical terms at Nelnet, Inc. (the parent company). The Company currently intends to keep these derivatives outstanding to partially mitigate a rise in interest rates and its impact on earnings related to its student loan portfolio earning a fixed rate.

Interest Rate Swaps – Unsecured Debt Hedges

As of June 30, 2017 and December 31, 2016, the Company had \$20.5 million and \$50.2 million, respectively, of unsecured Hybrid Securities outstanding. The interest rate on the Hybrid Securities through September 29, 2036 is equal to three-month LIBOR plus 3.375%, payable quarterly. The Company had the following derivatives outstanding as of June 30, 2017 and December 31, 2016 that are used to effectively convert the variable interest rate on a designated notional amount with respect to the Hybrid Securities to a fixed rate of 7.66%.

Maturity	Notional amount	Weighted average fixed rate paid by the Company (a)
2036	\$25,000	4.28 %

(a) For all interest rate derivatives, the Company receives discrete three-month LIBOR.

Foreign Currency Exchange Risk

In 2006, the Company issued €352.7 million of student loan asset-backed Euro Notes (the "Euro Notes") with an interest rate based on a spread to the EURIBOR index. As a result of the Euro Notes, the Company is exposed to market risk related to fluctuations in foreign currency exchange rates between the U.S. dollar and Euro. The principal and accrued interest on these notes are re-measured at each reporting period and recorded in the Company's consolidated balance sheet in U.S. dollars based on the foreign currency exchange rate on that date. Changes in the principal and accrued interest amounts as a result of foreign currency exchange rate fluctuations are included in the Company's consolidated statements of income.

The Company entered into a cross-currency interest rate swap in connection with the issuance of the Euro Notes. Under the terms of the cross-currency interest rate swap, the Company receives from the counterparty a spread to the EURIBOR index based on a notional amount of €352.7 million and pays a spread to the LIBOR index based on a notional amount of \$450.0 million. In addition, under the terms of this agreement, all principal payments on the Euro Notes will effectively be paid at the exchange rate in effect between the U.S. dollar and Euro as of the issuance of the notes.

The following table shows the unrealized income statement impact as a result of the re-measurement of the Euro Notes and the change in the fair value of the related derivative instrument.

	Three months ended June 30,		Six months ended June 30,	
	2017	2016	2017	2016
Re-measurement of Euro Notes	\$(27,261)	9,768	(31,951)	(8,712)

Edgar Filing: NELNET INC - Form 10-Q

Change in fair value of cross-currency interest rate swap	27,639	(12,008)	28,574	20,693
Total impact to consolidated statements of income - income (expense) (a)	\$378	(2,240)	(3,377)	11,981

(a) The financial statement impact of the above items is included in "Derivative market value and foreign currency transaction adjustments and derivative settlements, net" in the Company's consolidated statements of income.

Management has structured the cross-currency interest rate swap to economically hedge the Euro Notes to effectively convert the Euro Notes to U.S. dollars and pay a spread on these notes based on the LIBOR index. However, the cross-currency interest rate swap does not qualify for hedge accounting. The re-measurement of the Euro-denominated bonds generally correlates with the change in the fair value of the corresponding cross-currency interest rate swap. However, the Company will experience unrealized gains and losses between these financial instruments due to the principal and accrued interest on the Euro Notes being re-measured to U.S. dollars at each reporting date based on the foreign currency exchange rate on that date, while the cross-currency interest rate swap is measured at fair value at each reporting date with the change in fair value recognized in the current period earnings.

Consolidated Financial Statement Impact Related to Derivatives

Effective June 10, 2013, all over-the-counter derivative contracts executed by the Company are cleared post-execution at the Chicago Mercantile Exchange ("CME"), a regulated clearinghouse. Clearing is a process by which a third-party, the clearinghouse, steps in between the original counterparties and guarantees the performance of both, by requiring that each post liquid collateral on an initial (initial margin) and mark-to-market (variation margin) basis to cover the clearinghouse's potential future exposure in the event of default.

Prior to January 3, 2017, the Company accounted for variation margin payments to the CME as collateral against its derivative position. As such, these payments were treated as a separate unit of account from the derivative instrument and reported as a liability for cash collateral received and an asset (restricted cash) for cash collateral paid. Effective January 3, 2017, the CME amended its rulebooks to legally characterize variation margin payments for over-the-counter derivatives they clear as settlements of the derivatives' exposure rather than collateral against the exposure. Based on these rulebook changes, for accounting and presentation purposes, the Company considers variation margin and the corresponding derivative instrument a single unit of account. As such, effective January 3, 2017, the variation margin received or paid is no longer accounted for separately as a liability or asset ("collateralized-to-market"). Instead, these payments are considered in determining the fair value of the centrally cleared derivative portfolio ("settled-to-market"). The principal difference for accounting and presentation purposes is that prior to January 3, 2017, the Company recorded the fair value of collateralized-to-market derivative contracts on its balance sheet as "fair value of derivative instruments" with an equal amount of variation margin collateral accounted for separately as an asset or liability. Subsequent to January 3, 2017, the Company records settled-to-market derivative contracts on its balance sheet with a fair value of zero and no collateral posted due to the payment or receipt of variation margin between the Company and the CME settling the outstanding mark-to-market exposure on such derivatives to a balance of zero on a daily basis, and records the underlying daily changes in the market value of such derivative contracts that result in such receipts or payments on its income statement as realized derivative market value adjustments in "Derivative market value and foreign currency transaction adjustments and derivative settlements, net."

The new clearinghouse requirements did not alter or affect the accounting and presentation of the Company's derivative instruments executed prior to June 10, 2013 and those derivatives that are not required to be cleared at a clearinghouse (non-centrally cleared derivatives). The Company records these derivative instruments in the consolidated balance sheets on a gross basis as either an asset or liability measured at its fair value. Certain non-centrally cleared derivatives are subject to right of offset provisions with counterparties. For these derivatives, the Company does not offset fair value amounts executed with the same counterparty under a master netting arrangement. In addition, the Company does not offset fair value amounts recognized for derivative instruments with respect to the right to reclaim cash collateral (a receivable) or the obligation to return cash collateral (a payable).

Balance Sheet

The following table summarizes the fair value of the Company's derivatives as reflected in the consolidated balance sheets:

	Fair value of asset derivatives		Fair value of liability derivatives	
	As of June 30, 2017	As of December 31, 2016	As of June 30, 2017	As of December 31, 2016
1:3 basis swaps	\$—	—	—	2,624
Interest rate swaps - floor income hedges	20	81,159	—	256
Interest rate swap option - floor income hedge	1,265	2,977	—	—

Edgar Filing: NELNET INC - Form 10-Q

Interest rate caps	334	1,152	—	—
Interest rate swaps - hybrid debt hedges	—	—	7,375	7,341
Cross-currency interest rate swap	—	—	39,031	67,605
Other	—	2,243	—	—
Total	\$1,619	87,531	46,406	77,826

During the three months ended June 30, 2017, the Company received proceeds of \$2.1 million from the termination of derivatives that were included in "other" in the preceding table.

Offsetting of Derivative Assets/Liabilities

The following tables include the gross amounts related to the Company's derivative portfolio recognized in the consolidated balance sheets, reconciled to the net amount when excluding derivatives subject to enforceable master netting arrangements and cash collateral received/pledged.

Derivative assets	Gross amounts of recognized assets presented in the consolidated balance sheets	Gross amounts not offset in the consolidated balance sheets			Net asset (liability)
		Derivatives subject to enforceable master netting arrangement	Cash collateral pledged		
Balance as of June 30, 2017	\$ 1,619	—	—		1,619
Balance as of December 31, 2016	87,531	(2,880)	475		85,126

Derivative liabilities	Gross amounts of recognized liabilities presented in the consolidated balance sheets	Gross amounts not offset in the consolidated balance sheets			Net asset (liability)
		Derivatives subject to enforceable master netting arrangement	Cash collateral received, pledged, net (a)		
Balance as of June 30, 2017	\$ (46,406)	—	(13,252)		(59,658)
Balance as of December 31, 2016	(77,826)	2,880	7,292		(67,654)

(a) As of June 30, 2017, the Company had received \$21.4 million of collateral from the counterparty on the Company's cross-currency interest rate swap.

Income Statement Impact

The following table summarizes the components of "derivative market value and foreign currency transaction adjustments and derivative settlements, net" included in the consolidated statements of income.

Three months ended June 30,	Six months ended June 30,
-----------------------------	---------------------------

5. Investments and Other Receivables

A summary of the Company's investments and other receivables follows:

	As of June 30, 2017				As of December 31, 2016			
	Amortized cost	Gross unrealized gains	Gross unrealized losses (a)	Fair value	Amortized cost	Gross unrealized gains	Gross unrealized losses	Fair value
Investments (at fair value):								
Available-for-sale investments:								
Student loan asset-backed and other debt securities (b)	\$ 109,624	5,436	(678)	114,382	98,260	6,280	(641)	103,899
Equity securities	804	2,050	(62)	2,792	720	1,930	(61)	2,589
Total available-for-sale investments	\$ 110,428	7,486	(740)	117,174	98,980	8,210	(702)	106,488
Trading investments - equity securities				—				105
Total available-for-sale and trading investments				117,174				106,593
Other Investments and Other Receivables (not measured at fair value):								
Venture capital and funds				74,413				69,789
Real estate				46,862				48,379
Notes and loans receivable				41,065				17,031
Tax liens and affordable housing				10,790				12,352
Total investments and other receivables				\$ 290,304				254,144

As of June 30, 2017, the aggregate fair value of available-for-sale investments with unrealized losses was \$30.4 million, of which \$11.0 million had been in a continuous unrealized loss position for greater than 12 months.

(a) Because the Company currently has the intent and ability to retain these investments for an anticipated recovery in fair value, as of June 30, 2017, the Company considered the decline in market value of its available-for-sale investments to be temporary in nature and did not consider any of its investments other-than-temporarily impaired.

(b) As of June 30, 2017, the stated maturities of substantially all of the Company's student loan asset-backed and other debt securities classified as available-for-sale were greater than 10 years.

6. Intangible Assets

Intangible assets consist of the following:

	Weighted average remaining useful life as of June 30, 2017 (months)	As of June 30, 2017	As of December 31, 2016
Amortizable intangible assets:			
Customer relationships (net of accumulated amortization of \$10,676 and \$8,548, respectively)	164	\$ 26,208	28,335
Trade names (net of accumulated amortization of \$2,075 and \$1,653, respectively)	183	9,497	9,919
Computer software (net of accumulated amortization of \$7,844 and \$5,675, respectively)	20	7,127	9,296
Covenants not to compete (net of accumulated amortization of \$109 and \$91, respectively)	83	245	263

Total - amortizable intangible assets	144	\$43,077 47,813
---------------------------------------	-----	-----------------

The Company recorded amortization expense on its intangible assets of \$2.4 million and \$2.7 million during the three months ended June 30, 2017 and 2016, respectively, and \$4.7 million and \$5.2 million during the six months ended June 30, 2017 and 2016, respectively. The Company will continue to amortize intangible assets over their remaining useful lives. As of June 30, 2017, the Company estimates it will record amortization expense as follows:

2017 (July 1 - December 31)	\$4,650
2018	8,605
2019	5,147
2020	4,231
2021	3,480
2022 and thereafter	16,964
	\$43,077

7. Goodwill

The carrying amount of goodwill as of December 31, 2016 and June 30, 2017 by reportable operating segment was as follows:

	Loan Systems and Servicing	Tuition Payment Processing and Campus Commerce	Communications	Asset Generation and Management	Corporate and Other Activities	Total
Goodwill balance	\$ 8,596	67,168	21,112	41,883	8,553	147,312

8. Property and Equipment

Property and equipment consisted of the following:

	Useful life	As of June 30, 2017	As of December 31, 2016
Non-communications:			
Computer equipment and software	1-5 years	\$ 104,946	97,317
Office furniture and equipment	3-7 years	12,514	12,344
Building and building improvements	5-39 years	13,383	13,363
Transportation equipment	4-10 years	3,813	3,809
Leasehold improvements	5-20 years	3,627	3,579
Land	—	1,682	1,682
Construction in progress	—	29,491	16,346
		169,456	148,440
Accumulated depreciation - non-communications		99,718	91,285
Non-communications, net property and equipment		69,738	57,155
Communications:			
Network plant and fiber	5-15 years	64,337	40,844
Central office	5-15 years	8,115	6,448
Customer located property	5-10 years	8,811	5,138
Transportation equipment	4-10 years	4,620	2,966
Computer equipment and software	1-5 years	3,048	2,026
Other	1-39 years	1,581	1,268
Land	—	70	70
Construction in progress	—	29,726	12,537
		120,308	71,297
Accumulated depreciation - communications		8,948	4,666

Edgar Filing: NELNET INC - Form 10-Q

Communications, net property and equipment	111,360	66,631
Total property and equipment, net	\$181,098	123,786

The Company recorded depreciation expense on its property and equipment of \$6.7 million and \$5.4 million during the three months ended June 30, 2017 and 2016, respectively, and \$12.9 million and \$10.6 million during the six months ended June 30, 2017 and 2016, respectively.

9. Earnings per Common Share

Presented below is a summary of the components used to calculate basic and diluted earnings per share. The Company applies the two-class method in computing both basic and diluted earnings per share, which requires the calculation of separate earnings per share amounts for common stock and unvested share-based awards. Unvested share-based awards that contain nonforfeitable rights to dividends are considered securities which participate in undistributed earnings with common stock.

	Three months ended June 30, 2017			2016		
	Common shareholders' stock	Unvested restricted stock shareholders	Total	Common shareholders' stock	Unvested restricted stock shareholders	Total
Numerator:

11. Major Customer

The Company earns loan servicing revenue from a servicing contract with the U.S. Department of Education (the "Department") that currently is set to expire on June 16, 2019. Revenue earned by the Company's Loan Systems and Servicing operating segment related to this contract was \$39.8 million and \$37.1 million for the three months ended June 30, 2017 and 2016, respectively, and \$78.8 million and \$72.3 million for the six months ended June 30, 2017 and 2016, respectively. In April 2016, the Department's Office of Federal Student Aid ("FSA") released information regarding a new contract procurement process for the Department to acquire a single servicing platform with multiple customer service providers to manage all student loans owned by the Department. The contract solicitation process was divided into two phases.

On May 6, 2016, Nelnet Servicing, a subsidiary of the Company, and Great Lakes submitted a joint response to Phase I as part of a newly created joint venture to respond to the contract solicitation process and to provide services under the new contract in the event that the Department selects it to be awarded with the contract. The joint venture operates as a new legal entity called GreatNet. Nelnet Servicing and Great Lakes each own 50 percent of the ownership interests of GreatNet. In addition to Nelnet Servicing, Great Lakes is currently one of four private sector companies (referred to as Title IV Additional Servicers, or "TIVAS") that has a student loan servicing contract with the Department to provide servicing for loans owned by the Department.

On June 30, 2016, the Department announced which entities were selected to respond to Phase II of the procurement selection process. GreatNet was one of three entities selected. Navient Corporation and FedLoan Servicing (Pennsylvania Higher Education Assistance Agency ("PHEAA")), the other two TIVAS, were also selected to respond to Phase II. On January 6, 2017, GreatNet submitted its Phase II response to the Department. On April 11, 2017, the Department announced it was withdrawing certain policy memos to FSA from the prior administration regarding factors to be considered in the procurement process. On May 19, 2017, the Department announced it had amended the contract procurement process to provide that the single servicing platform to be acquired by the Department will be utilized by a single customer service provider to be selected by the Department to manage all student loans owned by the Department. This amendment required another response by the Phase II participants, and on July 7, 2017, GreatNet submitted its response to the Department.

On August 1, 2017, the Department announced it was canceling the current procurement process for a single servicing platform and customer service provider and that it intends to develop a new contract procurement proposal. The Department indicated that its new approach is expected to require separate contract acquisitions for database housing, system processing, and customer account servicing.

12. Related Parties

The Company has entered into certain contractual arrangements with related parties as described in note 19 of the notes to consolidated financial statements included in the 2016 Annual Report. The following provides an update for related party transactions that occurred during the first six months of 2017.

Transactions with Union Bank and Trust Company

During the three months ended June 30, 2017, the Company purchased \$4.9 million (par value) of consumer loans from Union Bank and Trust Company. The Company's investment in consumer loans is included in "investments and other receivables" in the Company's consolidated balance sheet.

Transactions with Agile Sports Technologies, Inc. (doing business as "Hudl")

David Graff, who currently serves as an independent director on the Company's Board of Directors, is CEO, co-founder, and a director of Hudl. On July 7, 2017, the Company made an additional \$10.4 million preferred stock

investment in Hudl. Prior to this investment, the Company and Michael Dunlap, the Company's Executive Chairman and a principal shareholder, made separate equity investments in Hudl. The additional preferred stock investment made by the Company in July 2017 slightly increased the Company's direct and indirect equity ownership in Hudl. The Company's and Mr. Dunlap's direct and indirect equity ownership interests in Hudl consist of preferred stock with certain liquidation preferences that are considered substantive. Accordingly, for accounting purposes, the Company's and Mr. Dunlap's equity ownership interests are not considered in-substance common stock and the Company is accounting for its equity investment in Hudl under the cost method. The Company's investment in Hudl is included in "investments and other receivables" in the Company's consolidated balance sheet.

13. Fair Value

The following tables present the Company's financial assets and liabilities that are measured at fair value on a recurring basis. There were no transfers into or out of level 1, level 2, or level 3 for the six months ended June 30, 2017.

	As of June 30, 2017			As of December 31, 2016		
	Level 1	Level 2	Total	Level 1	Level 2	Total
Assets:						
Investments (available-for-sale and trading):						
Student loan and other asset-backed securities	\$—	114,267	114,267	—	103,780	103,780
Equity securities	2,793	—	2,793	2,694	—	2,694
Debt securities	114	—	114	119	—	119
Total investments (available-for-sale and trading)	2,907	114,267	117,174	2,813	103,780	106,593
Derivative instruments	—	1,619	1,619	—	87,531	87,531

Derivative instruments	77,826	77,826	—	77,826	—

The methodologies for estimating the fair value of financial assets and liabilities are described in note 20 of the notes to consolidated financial statements included in the 2016 Annual Report.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

(Management's Discussion and Analysis of Financial Condition and Results of Operations is for the three and six months ended June 30, 2017 and 2016. All dollars are in thousands, except per share amounts, unless otherwise noted.)

The following discussion and analysis provides information that the Company's management believes is relevant to an assessment and understanding of the consolidated results of operations and financial condition of the Company. The discussion should be read in conjunction with the Company's consolidated financial statements included in the 2016 Annual Report.

Forward-looking and cautionary statements

This report contains forward-looking statements and information that are based on management's current expectations as of the date of this document. Statements that are not historical facts, including statements about the Company's plans and expectations for future financial condition, results of operations or economic performance, or that address management's plans and objectives for future operations, and statements that assume or are dependent upon future events, are forward-looking statements. The words "may," "should," "could," "would," "predict," "potential," "continue," "expect," "anticipate," "future," "intend," "plan," "believe," "estimate," "assume," "forecast," "will," and similar expressions, as well as variations thereof, in future tense, are intended to identify forward-looking statements.

The forward-looking statements are based on assumptions and analyses made by management in light of management's experience and its perception of historical trends, current conditions, expected future developments, and other factors that management believes are appropriate under the circumstances. These statements are subject to known and unknown risks, uncertainties, assumptions, and other factors that may cause the actual results and performance to be materially different from any future results or performance expressed or implied by such forward-looking statements. These factors include, among others, the risks and uncertainties set forth in the "Risk Factors" section of the 2016 Annual Report and elsewhere in this report, and include such risks and uncertainties as:

student loan portfolio risks such as interest rate basis and repricing risk resulting from the fact that the interest rate characteristics of the student loan assets do not match the interest rate characteristics of the funding for those assets, the risk of loss of floor income on certain student loans originated under the Federal Family Education Loan Program (the "FFEL Program" or "FFELP"), risks related to the use of derivatives to manage exposure to interest rate fluctuations, uncertainties regarding the expected benefits from purchased securitized and unsecuritized FFELP student loans and initiatives to purchase additional FFELP, private education, and consumer loans, and risks from changes in levels of student loan prepayment or default rates;

financing and liquidity risks, including risks of changes in the general interest rate environment and in the securitization and other financing markets for student loans, including adverse changes resulting from slower than expected payments on student loans in FFELP securitization trusts, which may increase the costs or limit the availability of financings necessary to purchase, refinance, or continue to hold student loans;

risks from changes in the educational credit and services markets resulting from changes in applicable laws, regulations, and government programs and budgets, such as the expected decline over time in FFELP loan interest income and fee-based revenues due to the discontinuation of new FFELP loan originations in 2010 and potential government initiatives or legislative proposals to consolidate existing FFELP loans to the Federal Direct Loan Program or otherwise allow FFELP loans to be refinanced with Federal Direct Loan Program loans, risks related to adverse changes in the Company's volumes allocated under the Company's loan servicing contract with the U.S. Department of Education (the "Department"), which accounted for approximately 20 percent of the Company's revenue in 2016, risks related to the Department's initiative to procure new contracts for federal student loan servicing, including the risk that the Company's joint venture with Great Lakes Educational Loan Services, Inc.

("Great Lakes") may not be awarded a contract, and risks related to the Company's ability to comply with agreements with third-party customers for the servicing of FFELP, Federal Direct Loan Program, and private education and consumer loans;

risks related to a breach of or failure in the Company's operational or information systems or infrastructure, or those of third-party vendors, including cybersecurity risks related to the potential disclosure of confidential student loan borrower and other customer information;

uncertainties inherent in forecasting future cash flows from student loan assets and related asset-backed securitizations;

the uncertain nature of the expected benefits from the acquisition of Allo Communications LLC on December 31, 2015 and the ability to integrate its communications operations and successfully expand its fiber network in existing service areas and additional communities and manage related construction risks;

risks and uncertainties related to initiatives to pursue additional strategic investments and acquisitions, including investments and acquisitions that are intended to diversify the Company both within and outside of its historical core education-related businesses; and

risks and uncertainties associated with litigation matters and with maintaining compliance with the extensive regulatory requirements applicable to the Company's businesses, reputational and other risks, including the risk of increased regulatory costs, resulting from the recent politicization of student loan servicing, and uncertainties inherent in the estimates and assumptions about future events that management is required to make in the preparation of the Company's consolidated financial statements.

All forward-looking statements contained in this report are qualified by these cautionary statements and are made only as of the date of this document. Although the Company may from time to time voluntarily update or revise its prior forward-looking statements to reflect actual results or changes in the Company's expectations, the Company disclaims any commitment to do so except as required by securities laws.

OVERVIEW

The Company is a diverse company with a focus on delivering education-related products and services and student loan asset management. The largest operating businesses engage in student loan servicing, tuition payment processing and school information systems, and communications. A significant portion of the Company's revenue is net interest income earned on a portfolio of federally insured student loans. The Company also makes investments to further diversify the Company both within and outside of its historical core education-related businesses, including, but not limited to, investments in real estate and start-up ventures.

GAAP Net Income and Non-GAAP Net Income, Excluding Adjustments

The Company prepares its financial statements and presents its financial results in accordance with GAAP. However, it also provides additional non-GAAP financial information related to specific items management believes to be important in the evaluation of its operating results and performance. A reconciliation of the Company's GAAP net income to net income, excluding derivative market value and foreign currency transaction adjustments, and a discussion of why the Company believes providing this additional information is useful to investors, is provided below.

	Three months ended June 30,		Six months ended June 30,	
	2017	2016	2017	2016
GAAP net income attributable to Nelnet, Inc.	\$28,737	26,150	78,763	74,111
Realized and unrealized derivative market value adjustments	286	44,975	(951)	48,649
Unrealized foreign currency transaction adjustments	27,261	(9,768)	31,951	8,712
Net tax effect (a)	(10,468)	(13,379)	(11,780)	(21,797)
Net income, excluding derivative market value and foreign currency transaction adjustments (b)	\$45,816	47,978	97,983	109,675
Earnings per share:				
GAAP net income attributable to Nelnet, Inc.	\$0.68	0.61	1.86	1.73
Realized and unrealized derivative market value adjustments	0.01	1.05	(0.02)	1.14
Unrealized foreign currency transaction adjustments	0.64	(0.22)	0.76	0.20
Net tax effect (a)	(0.25)	(0.31)	(0.28)	(0.51)
Net income, excluding derivative market value and foreign currency transaction adjustments (b)	\$1.08	1.13	2.32	2.56

(a) The tax effects are calculated by multiplying the realized and unrealized derivative market value adjustments and unrealized foreign currency transaction adjustments by the applicable statutory income tax rate.

"Derivative market value and foreign currency transaction adjustments" include (i) both the realized portion of gains and losses (corresponding to variation margin received or paid on derivative instruments that are settled daily at a central clearinghouse under new rules effective January 3, 2017) and the unrealized portion of gains and losses that are caused by changes in fair values of derivatives which do not qualify for "hedge treatment" under GAAP; (b) and (ii) the unrealized foreign currency transaction gains or losses caused by the re-measurement of the Company's Euro-denominated bonds to U.S. dollars. "Derivative market value and foreign currency transaction adjustments" does not include "derivative settlements" that represent the cash paid or received during the current period to settle with derivative instrument counterparties the economic effect of the Company's derivative instruments based on their contractual terms.

The accounting for derivatives requires that changes in the fair value of derivative instruments be recognized currently in earnings, with no fair value adjustment of the hedged item, unless specific hedge accounting criteria is met. Management has structured all of the Company's derivative transactions with the intent that each is economically effective; however, the Company's derivative instruments do not qualify for hedge accounting. As a result, the change in fair value of derivative instruments is reported in current period earnings with no consideration for the corresponding change in fair value of the hedged item. Under GAAP, the cumulative net realized and unrealized gain or loss caused by changes in fair values of derivatives in which the Company plans to hold to maturity will equal zero over the life of the contract. However, the net realized and unrealized gain or loss during any given reporting period fluctuates significantly from period to period. In addition, the Company incurs unrealized foreign currency transaction adjustments for periodic fluctuations in currency exchange rates between the U.S. dollar and Euro in connection with its student loan asset-backed Euro-denominated bonds with an interest rate based on a spread to the EURIBOR index. The principal and accrued interest on these bonds are remeasured at each reporting period and recorded in the Company's consolidated balance sheet in U.S. dollars based on the foreign currency exchange rate on that date.

The Company believes these point-in-time estimates of asset and liability values related to its derivative instruments and Euro-denominated bonds that are subject to interest and currency rate fluctuations are subject to volatility mostly due to timing and market factors beyond the control of management, and affect the period-to-period comparability of the results of operations. Accordingly, the Company's management utilizes operating results excluding these items for comparability purposes when making decisions regarding the Company's performance and in presentations with credit rating agencies, lenders, and investors. Consequently, the Company reports this non-GAAP information because the Company believes that it provides additional information regarding operational and performance indicators that are closely assessed by management. There is no comprehensive, authoritative guidance for the presentation of such non-GAAP information, which is only meant to supplement GAAP results by providing additional information that management utilizes to assess performance.

The increase in GAAP net income for the three and six months ended June 30, 2017, as compared with the same periods in 2016, was due to a decrease in losses recognized in 2017 as compared to 2016 related to changes in fair values of derivative instruments which do not qualify for hedge accounting under GAAP. In addition, the Company recognized more gains from the repurchase of its own debt in 2017 (most of which occurred in the first quarter) as compared to 2016. These factors were partially offset by the increase in expenses to accelerate the buildout of the Company's communications network in Lincoln, Nebraska, lower net interest income earned by the Company on its student loan portfolio due to expected portfolio runoff and lower student loan spread, and an increase in losses related to foreign currency transaction adjustments caused by the re-measurement of the Company's Euro-denominated bonds to U.S. dollars.

Operating Results

The Company earns net interest income on its FFELP student loan portfolio in its Asset Generation and Management ("AGM") operating segment. This segment is expected to generate a stable net interest margin and significant amounts of cash as the FFELP portfolio amortizes. As of June 30, 2017, the Company had a \$23.2 billion student loan portfolio that management anticipates will amortize over the next approximately 25 years. The Company actively works to maximize the amount and timing of cash flows generated by its FFELP portfolio and seeks to acquire additional FFELP loan portfolios to leverage its servicing scale and expertise to generate incremental earnings and cash flow.

In addition, the Company earns fee-based revenue through the following reportable operating segments:

- Loan Systems and Servicing ("LSS") - referred to as Nelnet Diversified Solutions ("NDS")
- Tuition Payment Processing and Campus Commerce ("TPP&CC") - referred to as Nelnet Business Solutions ("NBS")
- Communications - referred to as Allo Communications ("Allo")

Other business activities and operating segments that are not reportable are combined and included in Corporate and Other Activities ("Corporate"). Corporate and Other Activities also includes income earned on certain investments and interest expense incurred on unsecured debt transactions.

The information below provides the operating results for each reportable operating segment and Corporate and Other Activities for the three and six months ended June 30, 2017 and 2016 (dollars in millions).

(a) Revenue includes intersegment revenue earned by LSS as a result of servicing loans for AGM.

Total revenue includes "net interest income after provision for loan losses" and "total other income" from the Company's segment statements of income, excluding the impact from changes in fair values of derivatives and foreign currency transaction adjustments. Net income excludes changes in fair values of derivatives and foreign currency transaction adjustments, net of tax. For information regarding the exclusion of the impact from changes in fair values of derivatives and foreign currency transaction adjustments, see "GAAP Net Income and Non-GAAP Net Income, Excluding Adjustments" above.

A summary of the results and financial highlights for each reportable operating segment and a summary of the Company's liquidity and capital resources follows. See "Results of Operations" for each reportable operating segment and "Liquidity and Capital Resources" under this Item 2 for additional detail.

Loan Systems and Servicing

As of June 30, 2017, the Company was servicing \$200.7 billion in FFELP, government owned, and private education and consumer loans, as compared with \$183.6 billion of loans as of June 30, 2016.

- Revenue increased in the three and six months ended June 30, 2017 compared to the same periods in 2016 due to an increase in revenue on the government servicing contract and from growth in private education and consumer loan servicing volume from existing and new clients. The increase was partially offset by the loss of guaranty servicing and collection revenue.

Revenue from the government servicing contract increased to \$39.8 million for the three months ended June 30, 2017 compared to \$37.1 million for the same period in 2016, and increased to \$78.8 million for the six months ended June 30, 2017, compared to \$72.3 million for the same period in 2016. This increase was due to an increase in application volume for the Company's administration of the Total and Permanent Disability and Direct Loan Consolidation programs, the transfer of borrowers to the Company from a not-for-profit servicer who exited the loan servicing business in August 2016, and the shift in the portfolio of loans serviced to a greater portion of loans in higher paying repayment statuses. As of June 30, 2017, the Company was servicing \$167.6 billion of student loans for 5.8 million borrowers under this contract.

Revenue from private education and consumer loan servicing increased to \$7.1 million for the three months ended June 30, 2017 compared to \$3.4 million for the same period in 2016, and increased to \$12.9 million for the six months ended June 30, 2017, compared to \$6.6 million for the same period in 2016. As of June 30, 2017, the Company was servicing \$10.2 billion of private education and consumer loans for approximately 454,000 borrowers, as compared to \$5.7 billion of private education and consumer loans for approximately 267,000 borrowers as of June 30, 2016.

The Company's remaining guaranty servicing and collection client exited the FFELP guaranty business at the end of their contract term on June 30, 2016. After this customer's exit from the FFELP guaranty business effective June 30, 2016, the Company has no remaining guaranty servicing and collection revenue. Guaranty servicing and collection revenue earned from this customer in the three and six months ended June 30, 2016 was \$4.6 million and \$9.6 million, respectively.

In April 2016, the Department's Office of Federal Student Aid released information regarding a new contract procurement process for the Department to acquire a single servicing platform with multiple customer service providers to manage all student loans owned by the Department. The contract solicitation process was divided into two phases.

On May 6, 2016, Nelnet Servicing, a subsidiary of the Company, and Great Lakes submitted a joint response to Phase I as part of a newly created joint venture to respond to the contract solicitation process and to provide services under the new contract in the event that the Department selects it to be awarded with the contract. The joint venture operates as a new legal entity called GreatNet. Nelnet Servicing and Great Lakes each own 50 percent of the ownership interests of GreatNet. In addition to Nelnet Servicing, Great Lakes is currently one of four private sector companies (referred to as Title IV Additional Servicers, or "TIVAS") that has a student loan servicing contract with the Department to provide servicing for loans owned by the Department.

On June 30, 2016, the Department announced which entities were selected to respond to Phase II of the procurement selection process. GreatNet was one of three entities selected. Navient Corporation and FedLoan Servicing (Pennsylvania Higher Education Assistance Agency ("PHEAA")), the other two TIVAS, were also selected to respond to Phase II. On January 6, 2017, GreatNet submitted its Phase II response to the Department. On April 11, 2017, the Department announced that it was withdrawing certain policy memos to FSA from the prior administration regarding factors to be considered in the procurement process. On May 19, 2017, the Department announced that it had amended the contract procurement process to provide that the single servicing platform to be acquired by the Department will be utilized by a single customer service provider to be selected by the Department to manage all student loans owned by the Department. This amendment required another response by the Phase II participants, and on July 7, 2017, GreatNet submitted its response to the Department.

On August 1, 2017, the Department announced it was canceling the current procurement process for a single servicing platform and customer service provider and that it intends to develop a new contract procurement proposal. The Department indicated that its new approach is expected to require separate contract acquisitions for database housing, system processing, and customer account servicing.

For financial reporting purposes, the operating results of GreatNet are included in the Company's consolidated financial statements. The proportionate share of membership interest (equity) and net loss of GreatNet that is attributable to Great Lakes is reflected as noncontrolling interests. During the first quarter of 2017, Nelnet Servicing and Great Lakes each contributed capital to GreatNet and GreatNet began to incur certain operating costs.

Tuition Payment Processing and Campus Commerce

Revenue increased in the three and six months ended June 30, 2017 compared to the same periods in 2016 due to increases in the number of managed tuition payment plans, campus commerce customer transactions and payments volume, and new school customers.

Before tax operating margin for the three months ended June 30, 2017 and 2016 was 23.3 percent and 20.2 percent, respectively, and for the six months ended June 30, 2017 and 2016 was 32.8 percent and 32.5 percent, respectively.

This segment is subject to seasonal fluctuations. Based on the timing of when revenue is recognized and when expenses are incurred, revenue and operating margin are higher in the first quarter as compared to the remainder of the year.

Communications

For the three months ended June 30, 2017 and 2016, Allo recorded net losses of \$3.6 million and \$0.7 million, respectively, and for the six months ended June 30, 2017 and 2016 recorded net losses of \$6.5 million and \$1.1 million, respectively. The Company anticipates this operating segment will be dilutive to consolidated earnings over the next several years as it continues to build its network in Lincoln, Nebraska, due to large upfront capital expenditures and associated depreciation and upfront customer acquisition costs.

Revenue from Allo for the three months ended June 30, 2017 and 2016 was \$5.7 million and \$4.5 million, respectively, and for the six months ended June 30, 2017 and 2016 revenue was \$10.8 million and \$8.8 million, respectively. The number of residential households served increased to 12,460 as of June 30, 2017 from 8,314 as of June 30, 2016.

For the three and six months ended June 30, 2017, Allo's capital expenditures were \$32.3 million and \$49.0 million, respectively. The Company anticipates total network capital expenditures of approximately \$80 million in 2017; however, such amount could change based on customer demand for Allo's services. The number of residential households passed, which represents the estimated number of single residence homes, apartments, and condominiums that Allo already serves and those in which Allo has the capacity to connect to its network distribution system without further material extensions to the transmission lines (but have not been connected) increased to 45,880 as of June 30, 2017 as compared to 30,962 as of December 31, 2016.

Asset Generation and Management

During the three months ended June 30, 2017 compared to the same period in 2016, the average balance of student loans decreased \$3.4 billion, to \$23.9 billion, due primarily to the amortization of the student loan portfolio, and limited portfolio acquisitions from third parties. The Company acquired \$52.7 million and \$104.9 million of student loans during the three and six months ended June 30, 2017, respectively.

Core student loan spread was 1.27% for the three months ended June 30, 2017, compared to 1.29% for the same period in 2016. The decrease in core student loan spread for the three months ended June 30, 2017 compared to the three months ended June 30, 2016 was due to a decrease in fixed rate floor income, offset partially by a tightening in the basis between the asset and debt indices in which the Company earns interest on its loans and funds such loans.

Due to historically low interest rates, the Company continues to earn significant fixed rate floor income. During the three months ended June 30, 2017 and 2016, and six months ended June 30, 2017 and 2016, the Company earned \$27.7 million, \$44.3 million, \$59.8 million, and \$90.2 million, respectively, of fixed rate floor income.

Liquidity and Capital Resources

As of June 30, 2017, the Company had cash and cash equivalents of \$69.2 million. In addition, the Company had a portfolio of available-for-sale investments, consisting primarily of student loan asset-backed securities, with a fair value of \$117.2 million as of June 30, 2017.

For the six months ended June 30, 2017, the Company generated \$132.1 million in net cash from operating activities.

Forecasted undiscounted future cash flows from the Company's student loan portfolio financed in asset-backed securitization transactions are estimated to be approximately \$2.0 billion as of June 30, 2017.

As of June 30, 2017, there were no amounts outstanding on the Company's unsecured line of credit and \$350.0 million was available for future use. The unsecured line of credit has a maturity date of December 12, 2021.

During the six months ended June 30, 2017, the Company repurchased a total of 415,777 shares of Class A common stock for \$18.2 million (\$43.76 per share), including a total of 384,061 shares of Class A common stock repurchased for \$16.8 million (\$43.81 per share) during the three months ended June 30, 2017. Subsequent to June 30, 2017, from July 1, 2017 through August 7, 2017, the Company has repurchased an additional 376,703 shares of Class A common stock for \$18.1 million (\$47.98 per share).

During the six months ended June 30, 2017, the Company paid cash dividends of \$11.8 million (\$0.28 per share), including \$5.9 million (\$0.14 per share) during the three months ended June 30, 2017. In addition, the Company's Board of Directors has declared a third quarter 2017 cash dividend on the Company's outstanding shares of Class A and Class B common stock of \$0.14 per share. The third quarter cash dividend will be paid on September 15, 2017 to shareholders of record at the close of business on September 1, 2017.

The Company intends to use its liquidity position to capitalize on market opportunities, including FFELP and private education and consumer loan acquisitions; strategic acquisitions and investments; expansion of Allo's telecommunications network; and capital management initiatives, including stock repurchases, debt repurchases, and dividend distributions. The timing and size of these opportunities will vary and will have a direct impact on the Company's cash and investment balances.

CONSOLIDATED RESULTS OF OPERATIONS

An analysis of the Company's operating results for the three and six months ended June 30, 2017 compared to the same periods in 2016 is provided below.

The Company's operating results are primarily driven by the performance of its existing portfolio and the revenues generated by its fee-based businesses and the costs to provide such services. The performance of the Company's portfolio is driven by net interest income (which includes financing costs) and losses related to credit quality of the assets, along with the cost to administer and service the assets and related debt.

The Company operates as distinct reportable operating segments as described above. For a reconciliation of the reportable segment operating results to the consolidated results of operations, see note 10 of the notes to consolidated financial statements included under Part I, Item 1 of this report. Since the Company monitors and assesses its operations and results based on these segments, the discussion following the consolidated results of operations is presented on a reportable segment basis.

Edgar Filing: NELNET INC - Form 10-Q

	Three months ended June 30, 2017		Six months ended June 30, 2017		Additional information
		2016	2017	2016	
Loan interest	\$189,488	184,067	370,695	374,055	Increase for the three months ended June 30, 2017 compared to the same period in 2016 was due to an increase in the gross yield earned on the student loan portfolio, partially offset by a decrease in gross fixed rate floor income and a decrease in the average balance of student loans. The decrease for the six months ended June 30, 2017 compared to the same period in 2016 was due to a decrease in the average balance of student loans and a decrease in gross fixed rate floor income, partially offset by an increase in the gross yield earned on the student loan portfolio.
Investment interest	3,589	2,185	6,206	4,214	Includes income from unrestricted interest-earning deposits and investments and funds in asset-backed securitizations.
Total interest income	193,077	186,252	376,901	378,269	
Interest expense	113,236	94,052	220,135	184,460	Increase due primarily to an increase in the Company's cost of funds, partially offset by a decrease in the average balance of debt outstanding.
Net interest income	79,841	92,200	156,766	193,809	See table below for additional analysis.
Less provision for loan losses	2,000	2,000	3,000	4,500	Represents the periodic expense of maintaining an allowance appropriate to absorb losses inherent in the portfolio of student loans. See AGM operating segment - results of operations.
Net interest income after provision for loan losses	77,841	90,200	153,766	189,309	
Other income:					
LSS revenue	56,899	54,402	111,128	106,732	See LSS operating segment - results of operations.
TPP&CC revenue	34,224	30,483	77,844	69,140	See TPP&CC operating segment - results of operations.
Communications revenue	5,719	4,478	10,826	8,824	See Communications operating segment - results of operations.
Enrollment services revenue	—	—	—	4,326	On February 1, 2016, the Company sold Sparkroom LLC. After this sale, the Company no longer earns enrollment services revenue.
Other income	12,485	9,765	25,118	23,559	See table below for the components of "other income." Gains are from the Company repurchasing its own debt. During the first quarter of 2017, the Company initiated a cash tender offer to purchase any and all of its outstanding Hybrid Securities. The Company paid \$25.3 million to redeem \$29.7 million of these notes and recognized a gain of \$4.4 million.
Gain from debt repurchases	442	—	5,421	101	
Derivative settlements, net	(363)	(5,495)	(1,741)	(12,031)	The Company maintains an overall risk management strategy that incorporates the use of derivative instruments to reduce the economic effect of interest

rate volatility. Derivative settlements for each applicable period should be evaluated with the Company's net interest income. See table below for additional analysis.

Includes (i) the realized and unrealized gains and losses that are caused by changes in fair values of derivatives which do not qualify for "hedge treatment" under GAAP; and (ii) the foreign currency transaction gains or losses caused by the re-measurement of the Company's Euro-denominated bonds to U.S. dollars.

Increase was due to an (i) increase in contract programming related to the GreatNet joint venture and an increase in personnel to support the increase in volume of loans serviced for the government entering repayment status and the increase in private education and consumer loan servicing volume in the LSS operating segment; (ii) increase in personnel to support the growth in revenue in the TPP&CC operating segment; and (iii) increase in personnel at Allo to support the Lincoln, Nebraska network expansion. See each individual operating segment results of operations discussion for additional information.

Increase is due to additional depreciation expense at Allo. Since the acquisition of Allo on December 31, 2015, there has been a significant amount of property and equipment purchases to support the Lincoln, Nebraska network expansion.

Decrease due to runoff of the Company's student loan portfolio and a transfer of loans from a third-party servicer to the Company's servicing platform. In addition, the Company pays higher third-party servicing fees on delinquent loans, and the Company's third-party serviced loan portfolio had fewer delinquent loans in 2017 compared to 2016.

Represents costs of services and products primarily associated with television programming costs in the Communications operating segment.

On February 1, 2016, the Company sold Sparkroom LLC. After this sale, the Company no longer provides enrollment services.

Decrease due primarily to the elimination of FFELP guaranty collection costs directly related to the loss of FFELP guaranty collection revenue. The Company's remaining guaranty collection client exited the FFELP guaranty business at the end of their contract term on June 30, 2016, and after this date the Company has no remaining guaranty collection revenue. Accordingly, there were no collection costs for the three and six months ended June 30, 2017, compared to \$1.7 million

Derivative market value and foreign currency transaction adjustments, net	(27,547)	(35,207)	(31,000)	(57,361)
---	-----------	-----------	-----------	-----------

Total other income	81,859	58,426	197,596	143,290
Operating expenses:				

Salaries and benefits	74,628	60,923	146,491	124,165

Derivative market value and foreign currency transaction adjustments, net	27,547	35,207	31,000	57,361	See "Overview - GAAP Net Income and Non-GAAP Net Income, Excluding Adjustments" above for additional information about non-GAAP net income, excluding derivative market value and foreign currency transaction adjustments.
Net tax effect	(10,468)	(13,379)	(11,780)	(21,797)	
Net income attributable to Nelnet, Inc., excluding derivative market value and foreign currency transaction adjustments	\$45,816	47,978	97,983	109,675	

The following table summarizes the components of "net interest income" and "derivative settlements, net."

Derivative settlements represent the cash paid or received during the current period to settle with derivative instrument counterparties the economic effect of the Company's derivative instruments based on their contractual terms. Derivative accounting requires that net settlements with respect to derivatives that do not qualify for "hedge treatment" under GAAP be recorded in a separate income statement line item below net interest income. The Company maintains an overall risk management strategy that incorporates the use of derivative instruments to reduce the economic effect of interest rate volatility. As such, management believes derivative settlements for each applicable period should be evaluated with the Company's net interest income as presented in the table below. The Company reports this non-GAAP information because the Company believes that it provides additional information regarding operational and performance indicators that are closely assessed by management. There is no comprehensive, authoritative guidance for the presentation of such non-GAAP information, which is only meant to supplement GAAP results by providing additional information that management utilizes to assess performance. See note 4 of the notes to consolidated financial statements included under Part I, Item 1 of this report for additional information on the Company's derivative instruments, including the net settlement activity recognized by the Company for each type of derivative for the periods presented in the table under the caption "Income Statement Impact" in note 4 and in the table below.

	Three months ended June 30,		Six months ended June 30,		Additional information
	2017	2016	2017	2016	
Variable student loan interest margin, net of settlements on derivatives (a)	\$47,146	47,141	89,065	100,996	Represents the yield the Company receives on its student loan portfolio less the cost of funding these loans. Variable student loan spread is also impacted by the amortization/accretion of loan premiums and discounts and the 1.05% per year consolidation loan rebate fee paid to the Department. See AGM operating segment - results of operations.
Fixed rate floor income, net of settlements on derivatives (b)	29,778	39,497	61,789	80,136	The Company has a portfolio of student loans that are earning interest at a fixed borrower rate which exceeds the statutorily defined variable lender rates, generating fixed rate floor income. See Item 3, "Quantitative and Qualitative Disclosures About Market Risk - Interest Rate Risk" for additional information.
Investment interest	3,589	2,185	6,206	4,214	
Non-portfolio related derivative	(198)	(231)	(402)	(463)	

settlements (c)

Corporate debt interest expense	(837)	(1,887)	(1,633)	(3,105)
---------------------------------	--------	----------	----------	----------

Includes interest expense on the Junior Subordinated Hybrid Securities and unsecured line of credit. During the first quarter of 2017, the Company repurchased \$29.7 million of its Hybrid Securities. In addition, the amount outstanding under the Company's unsecured line of credit was lower during 2017 as compared to 2016. These factors resulted in less corporate debt interest expense in 2017 as compared to 2016.

Net interest income (net of settlements on derivatives)	\$79,478	86,705	155,025	181,778
---	----------	--------	---------	---------

(a) Derivative settlements include the net settlements paid/received related to the Company's 1:3 basis swaps and cross-currency interest rate swap.

(b) Derivative settlements include the net settlements paid/received related to the Company's floor income interest rate swaps.

(c) Derivative settlements include the net settlements paid/received related to the Company's hybrid debt hedges.

The following table summarizes the components of "other income."

Summary and Comparison of Operating Results

	Three months ended June 30,		Six months ended June 30,		Additional information
	2017	2016	2017	2016	
Net interest income	\$ 120	22	214	43	
Loan systems and servicing revenue	56,899	54,402	111,128	106,732	See table below for additional analysis.
Intersegment servicing revenue	9,952	11,408	20,275	23,415	Represents revenue earned by the LSS operating segment as a result of servicing loans for the AGM operating segment. Decrease was due to portfolio run-off.
Total other income	66,851	65,810	131,403	130,147	
Salaries and benefits	40,506	31,380	78,497	64,346	Increase due to contract programming related to GreatNet and an increase in personnel to support the increase in volume of loans serviced for the government entering repayment status and the increase in private education and consumer loan servicing volume.
Depreciation and amortization	546	445	1,095	883	
Other expenses	8,879	11,380	18,015	22,850	Decrease due primarily to the elimination of FFELP guaranty collection costs directly related to the loss of FFELP guaranty collection revenue. There were no collection costs for the three and six months ended June 30, 2017, and \$1.7 million and \$3.5 million for the three and six months ended June 30, 2016, respectively. Excluding collection costs, other expenses were \$8.9 million and \$9.7 million for the three months ended June 30, 2017 and 2016, respectively, and \$18.0 million and \$19.3 million for the six months ended June 30, 2017 and 2016, respectively. The decrease in expenses when excluding collection costs was due to improved operational efficiencies. See additional information below regarding the loss of FFELP guaranty collection revenue.
Intersegment expenses, net	8,324	6,102	15,722	12,343	Intersegment expenses represent costs for certain corporate activities and services that are allocated to each operating segment based on estimated use of such activities and services.
Total operating expenses	58,255	49,307	113,329	100,422	
Income before income taxes	8,716	16,525	18,288	29,768	
Income tax expense	(4,918)	(6,280)	(9,473)	(11,312)	Reflects income tax expense based on 38% of income before taxes and the net loss attributable to noncontrolling interest.
Net income	3,798	10,245	8,815	18,456	
	4,226	—	6,641	—	

Net loss attributable to noncontrolling interest						Represents the net loss of GreatNet attributable to Great Lakes. See note 1, "Noncontrolling Interest," of the notes to consolidated financial statements included under Part I, Item 1 of this report.
Net income attributable to Nelnet, Inc.	\$8,024	10,245	15,456	18,456		
Before tax operating margin	13.0	% 25.1	% 13.9	% 22.9	%	Decrease in margin due to increases in salaries and benefits as described above (including costs incurred related to GreatNet) and the loss of the guaranty business which had higher margin than the remaining businesses. Before tax operating margin, excluding the net loss attributable to noncontrolling interest (Great Lakes) for the three and six months ended June 30, 2017 was 19.4% and 19.0%, respectively.

Loan systems and servicing revenue

	Three months ended June 30, 2017		Six months ended June 30, 2017		Additional information
		2016	2017	2016	
Government servicing	\$39,809	37,063	78,815	72,294	Increase due to an increase in application volume for the Company's administration of the Total and Permanent Disability and Direct Loan Consolidation programs, the transfer of borrowers from a not-for-profit servicer who exited the loan servicing business in August 2016, and the shift in the portfolio of loans serviced to a greater portion of loans in higher paying repayment statuses.
FFELP servicing	3,636	3,684	7,713	7,323	Increase for the six months ended June 30, 2017 as compared to 2016 was due to an increase in third-party servicing billable units as a result of portfolio conversions to the Company's servicing platform and a more favorable composition of billable units in 2017 as compared to 2016, offset partially by the amortization of the Company's third-party customer FFELP portfolio. Over time, FFELP servicing revenue will decrease as third-party customers' FFELP portfolios run off.
Private education and consumer loan servicing	7,121	3,427	12,938	6,573	Increase due to growth in loan servicing volume from existing and new clients.
FFELP guaranty servicing	—	1,161	—	2,345	The Company's remaining guaranty servicing client exited the FFELP guaranty business at the end of their contract term on June 30, 2016, and after this date the Company has no remaining guaranty servicing revenue.
FFELP guaranty collection	—	3,424	—	7,211	The Company's remaining guaranty collection client exited the FFELP guaranty business at the end of their contract term on June 30, 2016, and after this date the Company has no remaining guaranty collection revenue. The Company incurred collection costs that were directly related to guaranty collection revenue.
Software services	4,326	4,653	8,663	9,261	The majority of software services revenue relates to providing hosted student loan servicing. The decrease in 2017 as compared to 2016 was due to (i) a not-for-profit servicer exiting the loan servicing business in August 2016, resulting in a transfer of its servicing volume to the Company that is included in the Company's government servicing volume; (ii) a shift in the composition of loans serviced by remote hosted customers from borrowers in higher paying repayment status to in-school status; and (iii) a decrease in revenue from other software service products.
Other	2,007	990	2,999	1,725	Increase due to growth in contact center outsourcing activities.
	\$56,899	54,402	111,128	106,732

TUITION PAYMENT PROCESSING AND CAMPUS COMMERCE OPERATING SEGMENT – RESULTS OF OPERATIONS

This segment of the Company's business is subject to seasonal fluctuations which correspond, or are related to, the traditional school year. Tuition management revenue is recognized over the course of the academic term, but the peak operational activities take place in summer and early fall. Higher amounts of revenue are typically recognized during the first quarter due to fees related to grant and aid applications as well as online applications and enrollment services.

The Company's operating expenses do not follow the seasonality of the revenues. This is primarily due to generally fixed year-round personnel costs and seasonal marketing costs. Based on the timing of revenue recognition and when expenses are incurred, revenue and pre-tax operating margin are higher in the first quarter as compared to the remainder of the year.

Summary and Comparison of Operating Results

	Three months ended June 30,		Six months ended June 30,		Additional information
	2017	2016	2017	2016	
Net interest income	\$3	3	5	5	
Tuition payment processing, school information, and campus commerce revenue	34,224	30,483	77,844	69,140	Increase was due to an increase in the number of managed tuition payment plans, campus commerce customer transactions and payments volume, and new school customers.
Salaries and benefits	16,901	15,444	33,553	29,880	Increase due to additional personnel to support the increase in payment plans and campus commerce activity and continued investments in and enhancements of payment plan and campus commerce systems and products.
Depreciation and amortization	2,346	2,511	4,737	4,782	
Other expenses	4,853	4,815	9,847	8,973	Increase due to additional costs to support the increase in payment plans and campus commerce activity and continued investments in and enhancements of payment plan and campus commerce systems and products.

COMMUNICATIONS OPERATING SEGMENT – RESULTS OF OPERATIONS

Summary and Comparison of Operating Results

	Three months ended June 30,		Six months ended June 30,		Additional information
	2017	2016	2017	2016	
Net interest income (expense)	\$(1,103)	(205)	(1,815)	(352)	Allo has a line of credit with Nelnet, Inc. (parent company). The interest expense incurred by Allo and related interest income earned by Nelnet, Inc. is eliminated for the Company's consolidated financial statements. The average outstanding balance on this line of credit for the three months ended June 30, 2017 and 2016 was \$96.6 million and \$23.3 million, respectively, and \$81.8 million and \$19.0 million for the six months ended June 30, 2017 and 2016, respectively. The proceeds from debt were used by Allo for network capital expenditures and related expenses.
Communications revenue	5,719	4,478	10,826	8,824	Communications revenue is derived primarily from the sale of pure fiber optic services to residential and business customers in Nebraska, including internet, television, and telephone services. Increase was primarily due to additional residential households served. See additional financial and operating data for Allo in the tables below. Since the acquisition of Allo on December 31, 2015, there has been a significant increase in personnel to support the Lincoln, Nebraska network expansion. As of December 31, 2015, June 30, 2016, December 31, 2016, and June 30, 2017, Allo had 97, 170, 318, and 430 employees, respectively, including part-time employees. Allo also uses temporary employees in the normal course of business. Certain costs qualify for capitalization as Allo builds its network.
Salaries and benefits	3,411	1,377	6,390	2,467	Depreciation reflects the allocation of the costs of Allo's property and equipment over the period in which such assets are used. Since the acquisition of Allo on December 31, 2015, there has been a significant amount of property and equipment purchases to support the Lincoln, Nebraska network expansion. Amortization reflects the allocation of costs related to intangible assets recorded at fair value as of the date the Company acquired Allo over their estimated useful lives.
Depreciation and amortization	2,600	1,378	4,735	2,507	Cost of services is primarily composed of television programming costs.
Cost to provide communications services	2,203	1,681	4,157	3,384	Other operating expenses includes selling, general, and administrative expenses necessary for operations, such as advertising, occupancy, professional services, construction materials, personal property taxes, and provision for losses on accounts receivable. Increase was
Other expenses	1,772	813	3,144	1,566	

Edgar Filing: NELNET INC - Form 10-Q

due to expansion of the Lincoln, Nebraska network and number of households served.

Intersegment expenses represent costs for certain corporate activities and services that are allocated to each operating segment based on estimated use of such activities and services.

Intersegment expenses, net	496	187	1,002	331
Total operating expenses	10,482	5,436	19,428	10,255
Loss before income taxes	(5,866)	(1,163)	(10,417)	(1,783)
Income tax benefit	2,229	442	3,959	678

The Company anticipates this operating segment will be dilutive to consolidated earnings over the next several years as it continues to build its network in Lincoln, Nebraska, due to large upfront capital expenditures and associated depreciation and upfront customer acquisition costs.

Net loss	\$ (3,637)	(721)	(6,458)	(1,105)
----------	-------------	--------	----------	----------

Additional Information:

Earnings (loss) before interest, income taxes, depreciation, and amortization ("EBITDA") is a supplemental non-GAAP performance measure that is frequently used in capital-intensive industries such as telecommunications. Allo's management uses EBITDA to compare Allo's performance to that of its competitors and to eliminate certain non-cash and non-operating items in order to consistently measure performance from period to period. EBITDA excludes interest and income taxes because these items are associated with a company's particular capitalization and tax structures. EBITDA also excludes depreciation and amortization expense because these non-cash expenses primarily reflect the impact of historical capital investments, as opposed to the cash impacts of capital expenditures made in recent periods, which may be evaluated through cash flow measures. The Company reports EBITDA for Allo because the Company believes that it provides useful additional information for investors regarding a key metric used by management to assess Allo's performance. There are limitations to using EBITDA as a performance measure, including the difficulty associated with comparing companies that use similar performance measures whose calculations may differ from Allo's calculations. In addition, EBITDA should not be considered a substitute for other measures of financial performance, such as net income or any other performance measures derived in accordance with GAAP. A reconciliation of EBITDA from net income (loss) under GAAP is presented under "Summary and Comparison of Operating Results" in the table above.

Represents the number of single residence homes, apartments, and condominiums that Allo already serves and those in which Allo has the capacity to connect to its network distribution system without further material extensions to the transmission lines, but have not been connected.

(c)

During the first quarter of 2016, Allo announced plans to expand its network to make services available to substantially all commercial and residential premises in Lincoln, Nebraska, and currently plans to expand to additional communities in Nebraska and surrounding states over the next several years.

ASSET GENERATION AND MANAGEMENT OPERATING SEGMENT – RESULTS OF OPERATIONS

Student Loan Portfolio

As of June 30, 2017, the Company had a \$23.2 billion student loan portfolio that will amortize over the next approximately 25 years. For a summary of the Company's student loan portfolio as of June 30, 2017 and December 31, 2016, see note 2 of the notes to consolidated financial statements included under Part I, Item 1 of this report.

Loan Activity

The following table sets forth the activity of loans:

	Three months ended June 30,		Six months ended June 30,	
	2017	2016	2017	2016
Beginning balance	\$24,196,909	27,743,818	25,103,643	28,555,749
Loan acquisitions	52,680	74,969	104,854	185,928
Repayments, claims, capitalized interest, and other	(548,546)	(737,712)	(1,196,461)	(1,329,732)
Consolidation loans lost to external parties	(310,743)	(326,515)	(621,736)	(612,647)
Loans sold	—	—	—	(44,738)
Ending balance	\$23,390,300	26,754,560	23,390,300	26,754,560

Allowance for Loan Losses and Loan Delinquencies

The Company maintains an allowance appropriate to absorb losses, net of recoveries, inherent in the portfolio of student loans, which results in periodic expense provisions for loan losses. Delinquencies have the potential to adversely impact the Company's earnings through increased servicing and collection costs and account charge-offs.

For a summary of the activity in the allowance for loan losses for the three and six months ended June 30, 2017 and 2016, and a summary of the Company's student loan delinquency amounts as of June 30, 2017, December 31, 2016, and June 30, 2016, see note 2 of the notes to consolidated financial statements included under Part I, Item 1 of this report.

Provision for loan losses for federally insured loans was \$2.0 million for each of the three months ended June 30, 2017 and 2016 and \$4.0 million for each of the six months ended June 30, 2017 and 2016.

There was no provision for loan losses for private education loans recorded by the Company for each of the three months ended June 30, 2017 and 2016. Provision for loan losses for private education loans was \$0.5 million for the six months ended June 30, 2016. The provision was due primarily to the Company purchasing \$29.8 million of private education loans from CommonBond in the first quarter of 2016. The Company recorded a negative provision for private education loan losses for the six months ended June 30, 2017. The Company experienced a decrease in charge-offs related to its private education loan portfolio during the six months ended June 30, 2017 as compared to the same period in 2016 and private education loan credit performance was better than expected.

The Company currently expects the credit performance of its overall student loan portfolio to improve as loans continue to season with the length of time they are in active repayment.

Student Loan Spread Analysis

The following table analyzes the student loan spread on the Company's portfolio of student loans, which represents the spread between the yield earned on student loan assets and the costs of the liabilities and derivative instruments used to fund the assets. The spread amounts included in the following table are calculated by using the notional dollar values found in the table under the caption "Net interest income, net of settlements on derivatives" below, divided by the average balance of student loans or debt outstanding.

	Three months ended June 30,		Six months ended June 30,	
	2017	2016	2017	2016
Variable student loan yield, gross	3.49	% 2.84	% 3.36	% 2.84
Consolidation rebate fees	(0.84)) (0.83)) (0.84)) (0.83)
Discount accretion, net of premium and deferred origination costs amortization	0.07	0.06	0.07	0.06
Variable student loan yield, net	2.72	2.07	2.59	2.07
Student loan cost of funds - interest expense	(1.91)) (1.35)) (1.82)) (1.32)
Student loan cost of funds - derivative settlements (a) (b)	(0.04)) (0.01)) (0.03)) (0.01)
Variable student loan spread	0.77	0.71	0.74	0.74
Fixed rate floor income, net of settlements on derivatives (a) (c)	0.50	0.58	0.51	0.58
Core student loan spread	1.27	% 1.29	% 1.25	% 1.32
Average balance of student loans	\$23,900,296	27,314,389	24,327,874	27,773,439
Average balance of debt outstanding	23,644,793	27,240,061	24,090,788	27,669,813

Derivative settlements represent the cash paid or received during the current period to settle with derivative instrument counterparties the economic effect of the Company's derivative instruments based on their contractual terms. Derivative accounting requires that net settlements with respect to derivatives that do not qualify for "hedge treatment" under GAAP be recorded in a separate income statement line item below net interest income. The Company maintains an overall risk management strategy that incorporates the use of derivative instruments to reduce the economic effect of interest rate volatility. As such, management believes derivative settlements for each applicable period should be evaluated with the Company's net interest income (student loan spread) as presented in (a) this table. The Company reports this non-GAAP information because the Company believes that it provides additional information regarding operational and performance indicators that are closely assessed by management. There is no comprehensive, authoritative guidance for the presentation of such non-GAAP information, which is only meant to supplement GAAP results by providing additional information that management utilizes to assess performance. See note 4 of the notes to consolidated financial statements included under Part I, Item 1 of this report for additional information on the Company's derivative instruments, including the net settlement activity recognized by the Company for each type of derivative for the periods presented in the table under the caption "Income Statement Impact" in note 4 and in this table.

(b) Derivative settlements include the net settlements paid/received related to the Company's 1:3 basis swaps and cross-currency interest rate swap.

(c) Derivative settlements include the net settlements paid/received related to the Company's floor income interest rate swaps.

A trend analysis of the Company's core and variable student loan spreads is summarized below.

The interest earned on a large portion of the Company's FFELP student loan assets is indexed to the one-month LIBOR rate. The Company funds a majority of its assets with three-month LIBOR indexed floating rate securities. The relationship between the indices in which the Company earns interest on its loans and funds such loans has a (a) significant impact on student loan spread. This table (the right axis) shows the difference between the Company's liability base rate and the one-month LIBOR rate by quarter. See Item 3, "Quantitative and Qualitative Disclosures About Market Risk - Interest Rate Risk," which provides additional detail on the Company's FFELP student loan assets and related funding for those assets.

Variable student loan spread increased during the three months ended June 30, 2017 as compared to the three months ended June 30, 2016 due to a tightening in the basis between the asset and debt indices in which the Company earns interest on its loans and funds such loans (as reflected in the preceding table).

The primary difference between variable student loan spread and core student loan spread is fixed rate floor income. A summary of fixed rate floor income and its contribution to core student loan spread follows:

	Three months ended		Six months ended	
	June 30,		June 30,	
	2017	2016	2017	2016
Fixed rate floor income, gross	\$27,664	44,338	59,795	90,220
Derivative settlements (a)	2,114	(4,841)	1,994	(10,084)
Fixed rate floor income, net	\$29,778	39,497	61,789	80,136
Fixed rate floor income contribution to spread, net	0.50	% 0.58	% 0.51	% 0.58

(a) Includes settlement payments on derivatives used to hedge student loans earning fixed rate floor income.

The high levels of fixed rate floor income earned during 2017 and 2016 are due to historically low interest rates. If interest rates remain low, the Company anticipates continuing to earn significant fixed rate floor income in future periods. The decrease in fixed rate floor income for the three and six months ended June 30, 2017 compared to the same periods in 2016 is due to an increase in interest rates. See Item 3, "Quantitative and Qualitative Disclosures About Market Risk - Interest Rate Risk," which provides additional detail on the Company's portfolio earning fixed rate floor income and the derivatives used by the Company to hedge these loans.

Summary and Comparison of Operating Results

	Three months ended June 30,		Six months ended June 30,		Additional information
	2017	2016	2017	2016	
Net interest income after provision for loan losses	\$76,294	90,197	150,868	188,542	See table below for additional analysis.
Other income	3,057	3,834	6,399	8,097	The primary component of other income is borrower late fees, which were \$3.0 million and \$3.1 million for the three months ended June 30, 2017 and 2016, respectively, and \$6.4 million and \$6.8 million for the six months ended June 30, 2017 and 2016, respectively.
Gain from debt repurchases	442	—	981	101	Gains were from the Company repurchasing its own asset-backed debt securities.
Derivative settlements, net	(165)	(5,264)	(1,339)	(11,568)	The Company maintains an overall risk management strategy that incorporates the use of derivative instruments to reduce the economic effect of interest rate volatility. Derivative settlements for each applicable period should be evaluated with the Company's net interest income as reflected in the table below.
Derivative market value and foreign currency transaction adjustments, net	(27,412)	(31,411)	(30,823)	(51,308)	Includes (i) the realized and unrealized gains and losses that are caused by changes in fair values of derivatives which do not qualify for "hedge treatment" under GAAP; and (ii) the unrealized foreign currency transaction gains or losses caused by the re-measurement of the Company's Euro-denominated bonds to U.S. dollars.
Total other income (expense)	(24,078)	(32,841)	(24,782)	(54,678)	
Salaries and benefits	363	499	763	1,018	
Loan servicing fees	5,620	7,216	11,645	14,144	Decrease due to runoff of the Company's student loan portfolio and a transfer of loans in June 2016 from a third-party servicer to the Company's LSS operating segment's servicing platform. In addition, the Company pays higher third-party servicing fees on delinquent loans. The Company's third-party serviced loan portfolio had fewer delinquent loans in 2017 compared to 2016; therefore, third-party servicing fees decreased.
Other expenses	1,827	1,481	2,819	2,997	
Intersegment expenses, net	10,043	11,539	20,455	23,646	Amounts include fees paid to the LSS operating segment for the servicing of the Company's student loan portfolio. These amounts exceed the actual cost of servicing the loans. Decrease due to runoff of the portfolio serviced by LSS offset partially by a transfer of loans in June 2016 from a third-party servicer to the Company's LSS operating segment's servicing platform. In addition, intersegment expenses represent costs for certain corporate activities and services that are allocated to each

					operating segment based on estimated use of such activities and services.
					Total operating expenses were 30 basis points of the average balance of student loans for each of the three months ended June 30, 2017 and 2016, and 29 basis points and 30 basis points for the six months ended June 30, 2017 and 2016, respectively.
Total operating expenses	17,853	20,735	35,682	41,805	
Income before income taxes	34,363	36,621	90,404	92,059	
Income tax expense	(13,057)	(13,916)	(34,354)	(34,983)	
Net income	\$21,306	22,705	56,050	57,076	
Additional information:					
Net income	\$21,306	22,705	56,050	57,076	
Derivative market value and foreign currency transaction adjustments, net	27,412	31,411	30,823	51,308	See "Overview - GAAP Net Income and Non-GAAP Net Income, Excluding Adjustments" above for additional information about non-GAAP net income, excluding derivative market value and foreign currency transaction adjustments. Net income, excluding derivative market value and foreign currency transaction adjustments, decreased in 2017 as compared to 2016 due to a decrease in the Company's student loan portfolio and a decrease in core student loan spread.
Net tax effect	(10,417)	(11,936)	(11,713)	(19,497)	
Net income, excluding derivative market value and foreign currency transaction adjustments	\$38,301	42,180	75,160	88,887	

Net interest income, net of settlements on derivatives

The following table summarizes the components of "net interest income after provision for loan losses" and "derivative settlements, net."

	Three months ended June 30, 2017		Six months ended June 30, 2016		Additional information
Variable interest income, gross	\$207,983	192,225	404,690	390,412	Increase due to an increase in the gross yield earned on student loans, partially offset by a decrease in the average balance of student loans.
Consolidation rebate fees	(50,467)	(56,786)	(102,483)	(115,222)	Decrease due to a decrease in the average consolidation loan balance.
Discount accretion, net of premium and deferred origination costs amortization	4,309	4,291	8,693	8,644	Net discount accretion is due to the Company's purchases of loans at a net discount over the last several years.
Variable interest income, net	161,825	139,730	310,900	283,834	
Interest on bonds and notes payable	(112,400)	(92,166)	(218,502)	(181,354)	Increase due to an increase in cost of funds, partially offset by a decrease in the average balance of debt outstanding.
Derivative settlements, net (a)	(2,279)	(423)	(3,333)	(1,484)	Derivative settlements include the net settlements paid/received related to the Company's 1:3 basis swaps and cross-currency interest rate swap.
Variable student loan interest margin, net of settlements on derivatives (a)	47,146	47,141	89,065	100,996	
Fixed rate floor income, net of settlements on derivatives (a)	29,778	39,497	61,789	80,136	The high levels of fixed rate floor income earned are due to historically low interest rates. Fixed rate floor income has decreased due to the rising interest rate environment. Derivative settlements include the net settlements paid/received related to the Company's floor income interest rate swaps.
Core student loan interest income	76,924	86,638	150,854	181,132	
Investment interest	1,878	899	2,997	1,634

Provision for loan losses - federally insured	(2,000)	(2,000)	(4,000)	(4,000)	See "Allowance for Loan Losses and Loan Delinquencies" included above under "Asset Generation and Management Operating Segment - Results of Operations."
Negative provision (provision expense) for loan losses - private education loans	—	—	1,000	(500)	
Net interest income after provision for loan losses (net of settlements on	\$76,129	84,933	149,529	176,974	

derivatives) (a)

Derivative settlements represent the cash paid or received during the current period to settle with derivative instrument counterparties the economic effect of the Company's derivative instruments based on their contractual terms. Derivative accounting requires that net settlements on derivatives that do not qualify for "hedge treatment" under GAAP be recorded in a separate income statement line item below net interest income. The Company maintains an overall risk management strategy that incorporates the use of derivative instruments to reduce the economic effect of interest rate volatility. As such, management believes derivative settlements for each applicable period should be evaluated with the Company's net interest income as presented in this table. The Company reports (a) this non-GAAP information because the Company believes that it provides additional information regarding operational and performance indicators that are closely assessed by management. There is no comprehensive, authoritative guidance for the presentation of such non-GAAP information, which is only meant to supplement GAAP results by providing additional information that management utilizes to assess performance. See note 4 of the notes to consolidated financial statements included under Part I, Item 1 of this report for additional information on the Company's derivative instruments, including the net settlement activity recognized by the Company for each type of derivative referred to in the "Additional information" column of this table, for the periods presented in the table under the caption "Income Statement Impact" in note 4 and in this table.

LIQUIDITY AND CAPITAL RESOURCES

The Company's Loan Systems and Servicing and Tuition Payment Processing and Campus Commerce operating segments are non-capital intensive and both produce positive operating cash flows. As such, a minimal amount of debt and equity capital is allocated to these segments and any liquidity or capital needs are satisfied using cash flow from operations. Therefore, the Liquidity and Capital Resources discussion is concentrated on the Company's liquidity and capital needs to meet existing debt obligations in the Asset Generation and Management operating segment and capital needs to expand Allo's communications network in the Company's Communications operating segment.

Sources of Liquidity and Available Capacity

The Company has historically generated positive cash flow from operations. For the six months ended June 30, 2017 and the year ended December 31, 2016, the Company's net cash provided from operating activities was \$132.1 million and \$325.3 million, respectively.

As of June 30, 2017, the Company had cash and cash equivalents of \$69.2 million. The Company also had a portfolio of available-for-sale investments, consisting primarily of student loan asset-backed securities, with a fair value of \$117.2 million as of June 30, 2017.

The Company also has a \$350.0 million unsecured line of credit that matures on December 12, 2021. As of June 30, 2017, there was no amount outstanding on the unsecured line of credit and \$350.0 million was available for future use.

In addition, the Company has repurchased certain of its own asset-backed securities (bonds and notes payable) in the secondary market. For accounting purposes, these notes are eliminated in consolidation and are not included in the Company's consolidated financial statements. However, these securities remain legally outstanding at the trust level and the Company could sell these notes to third parties or redeem the notes at par as cash is generated by the trust estate. Upon a sale of these notes to third parties, the Company would obtain cash proceeds equal to the market value of the notes on the date of such sale. As of June 30, 2017, the Company holds \$69.1 million (par value) of its own asset-backed securities.

The Company intends to use its liquidity position to capitalize on market opportunities, including FFELP, private education, and consumer loan acquisitions; strategic acquisitions and investments; expansion of Allo's telecommunications network; and capital management initiatives, including stock repurchases, debt repurchases, and dividend distributions. The timing and size of these opportunities will vary and will have a direct impact on the Company's cash and investment balances.

Cash Flows

During the six months ended June 30, 2017, the Company generated \$132.1 million from operating activities, compared to \$175.2 million for the same period in 2016. The decrease in cash provided by operating activities reflects changes in the adjustments to net income for gains from debt repurchases and derivative market value adjustments and the impact of changes in accrued interest receivable, accounts receivable, and accrued interest payable during the six months ended June 30, 2017 as compared to the same period in 2016. These factors were partially offset by changes in adjustments for foreign currency transaction adjustments and net proceeds received in 2017 from the Company's clearinghouse to settle variation margin.

The primary items included in the statement of cash flows for investing activities are the purchase and repayment of student loans. The primary items included in financing activities are the proceeds from the issuance of and payments

on bonds and notes payable used to fund student loans. Cash provided by investing activities for the six months ended June 30, 2017 and 2016 was \$1.8 billion and \$1.6 billion, respectively. Cash used in financing activities was \$2.0 billion and \$1.8 billion for the six months ended June 30, 2017 and 2016, respectively. Investing and financing activities are further addressed in the discussion that follows.

Liquidity Needs and Sources of Liquidity Available to Satisfy Debt Obligations Secured by Student Loan Assets and Related Collateral

The following table shows the Company's debt obligations outstanding that are secured by student loan assets and related collateral:

	As of June 30, 2017	
	Carrying amount	Final maturity
Bonds and notes issued in asset-backed securitizations	\$22,051,643	8/25/21 - 9/25/65
FFELP warehouse facilities	1,058,413	9/7/18 - 4/27/20
	\$23,110,056	

Bonds and Notes Issued in Asset-backed Securitizations

The majority of the Company's portfolio of student loans is funded in asset-backed securitizations that are structured to substantially match the maturity of the funded assets, thereby minimizing liquidity risk. Cash generated from student loans funded in asset-backed securitizations provide the sources of liquidity to satisfy all obligations related to the outstanding bonds and notes issued in such securitizations. In addition, due to (i) the difference between the yield the Company receives on the loans and cost of financing within these transactions, and (ii) the servicing and administration fees the Company earns from these transactions, the Company has created a portfolio that will generate earnings and significant cash flow over the life of these transactions.

As of June 30, 2017, based on cash flow models developed to reflect management's current estimate of, among other factors, prepayments, defaults, deferment, forbearance, and interest rates, the Company currently expects future undiscounted cash flows from its portfolio to be approximately \$2.0 billion as detailed below. The \$2.0 billion includes approximately \$807.7 million (as of June 30, 2017) of overcollateralization included in the asset-backed securitizations. These excess net asset positions are reflected variously in the following balances in the consolidated balance sheet: "student loans receivable," "restricted cash," and "accrued interest receivable."

The forecasted cash flow presented below includes all loans funded in asset-backed securitizations as of June 30, 2017. As of June 30, 2017, the Company had \$21.7 billion of loans included in asset-backed securitizations, which represented 92.9 percent of its total FFELP and private education student loan portfolio. The forecasted cash flow does not include cash flows that the Company expects to receive related to loans funded in its warehouse facilities as of June 30, 2017, private education loans funded with cash on the balance sheet, or loans acquired subsequent to June 30, 2017.

Asset-backed Securitization Cash Flow Forecast

\$2.00 billion

(dollars in millions)

The Company uses various assumptions, including prepayments and future interest rates, when preparing its cash flow forecast. These assumptions are further discussed below.

Prepayments: The primary variable in establishing a life of loan estimate is the level and timing of prepayments. Prepayment rates equal the amount of loans that prepay annually as a percentage of the beginning of period balance, net of scheduled principal payments. A number of factors can affect estimated prepayment rates, including the level of consolidation activity, borrower default rates, and utilization of debt management options such as income-based repayment, deferments, and forbearance. Should any of these factors change, management may revise its assumptions, which in turn would impact the projected future cash flow. The Company's cash flow forecast above assumes prepayment rates that are generally consistent with those utilized in the Company's recent asset-backed securitization transactions. If management used a prepayment rate assumption two times greater than what was used to forecast the cash flow, the cash flow forecast would be reduced by approximately \$170 million to \$230 million.

Interest rates: The Company funds a majority of its student loans with three-month LIBOR indexed floating rate securities. Meanwhile, the interest earned on the Company's student loan assets is indexed primarily to a one-month LIBOR rate. The different interest rate characteristics of the Company's loan assets and liabilities funding these assets result in basis risk. The Company's cash flow forecast assumes three-month LIBOR will exceed one-month LIBOR by 12 basis points for the life of the portfolio, which approximates the historical relationship between these indices. If the forecast is computed assuming a spread of 24 basis points between three-month and one-month LIBOR for the life of the portfolio, the cash flow forecast would be reduced by approximately \$90 million to \$130 million.

The Company uses the current forward interest rate yield curve to forecast cash flows. A change in the forward interest rate curve would impact the future cash flows generated from the portfolio. An increase in future interest rates will reduce the amount of fixed rate floor income the Company is currently receiving. The Company attempts to mitigate the impact of a rise in short-term rates by hedging interest rate risks. See Item 3, "Quantitative and Qualitative Disclosures About Market Risk — Interest Rate Risk."

FFELP Warehouse Facilities

The Company funds a portion of its FFELP loan acquisitions using its FFELP warehouse facilities. Student loan warehousing allows the Company to buy and manage student loans prior to transferring them into more permanent financing arrangements. As of June 30, 2017, the Company had three FFELP warehouse facilities with an aggregate maximum financing amount available of

\$1.4 billion, of which \$1.1 billion was outstanding, and \$0.3 billion was available for additional funding. Of the three facilities, one facility provides for formula-based advance rates, depending on FFELP loan type, up to a maximum of the principal and interest of loans financed. The advance rates for collateral may increase or decrease based on market conditions. The other two FFELP warehouse facilities have static advance rates that require initial equity for loan funding, but do not require increased equity based on market movements. As of June 30, 2017, the Company had \$45.4 million advanced as equity support on these facilities. For further discussion of the Company's FFELP warehouse facilities outstanding at June 30, 2017, see note 3 of the notes to consolidated financial statements included under Part I, Item 1 of this report.

Upon termination or expiration of the warehouse facilities, the Company would expect to access the securitization market, obtain replacement warehouse facilities, use operating cash, consider the sale of assets, or transfer collateral to satisfy any remaining obligations.

Other Uses of Liquidity

Effective July 1, 2010, no new loan originations can be made under the FFEL Program and all new federal loan originations must be made through the Federal Direct Loan Program. As a result, the Company no longer originates new FFELP loans, but continues to acquire FFELP loan portfolios from third parties and believes additional loan purchase opportunities exist.

The Company plans to fund additional FFELP student loan acquisitions using current cash and investments; using its Union Bank participation agreement (as described below); using its FFELP warehouse facilities (as described above); and continuing to access the asset-backed securities market.

Union Bank Participation Agreement

The Company maintains an agreement with Union Bank, a related party, as trustee for various grantor trusts, under which Union Bank has agreed to purchase from the Company participation interests in student loans. As of June 30, 2017, \$550.7 million of loans were subject to outstanding participation interests held by Union Bank, as trustee, under this agreement. The agreement automatically renews annually and is terminable by either party upon five business days' notice. This agreement provides beneficiaries of Union Bank's grantor trusts with access to investments in interests in student loans, while providing liquidity to the Company. The Company can participate loans to Union Bank to the extent of availability under the grantor trusts, up to \$750.0 million or an amount in excess of \$750.0 million if mutually agreed to by both parties. Loans participated under this agreement have been accounted for by the Company as loan sales. Accordingly, the participation interests sold are not included on the Company's consolidated balance sheets.

Asset-Backed Securities Transactions

On May 24, 2017 and July 26, 2017, the Company completed asset-backed securitizations totaling \$535.0 million (par value) and \$399.4 million (par value), respectively. The proceeds from these transactions were used primarily to refinance student loans included in the Company's FFELP warehouse facilities.

Depending on future rating agency actions and market conditions, the Company currently anticipates continuing to access the asset-backed securitization market. Such asset-backed securitization transactions would be used to refinance student loans included in its warehouse facilities, student loans purchased from third parties, and/or student loans in its existing asset-backed securitizations.

Liquidity Impact Related to Hedging Activities

The Company utilizes derivative instruments to manage interest rate sensitivity. By using derivative instruments, the Company is exposed to market risk which could impact its liquidity. Based on the derivative portfolio outstanding as of June 30, 2017, the Company does not currently anticipate any movement in interest rates having a material impact on its capital or liquidity profile, nor does the Company expect that any movement in interest rates would have a material impact on its ability to meet potential collateral deposits with its counterparties and/or variation margin payments with its third-party clearinghouse. However, if interest rates move materially and negatively impact the fair value of the Company's derivative portfolio or if the Company enters into additional derivatives for which the fair value becomes negative, the Company could be required to deposit additional collateral with its derivative instrument counterparties and/or pay additional variation margin to a third-party clearinghouse. Derivative contracts traded through a clearinghouse requires daily movement of variation margin to be exchanged based on the net fair value of the contract. The collateral deposits or variation margin, if significant, could negatively impact the Company's liquidity and capital resources. See note 4 of the notes to consolidated financial statements included under Part I, Item 1 of this report for additional information on the Company's derivative portfolio.

Liquidity Impact Related to the Communications Operating Segment

Allo has made significant investments in its communications network and currently provides fiber directly to homes and businesses in seven Nebraska communities. In the first quarter of 2016, Allo announced plans to expand its network to make its services available to substantially all commercial and residential premises in Lincoln, Nebraska, and currently plans to expand to additional communities in Nebraska and surrounding states over the next several years. For the six months ended June 30, 2017, the Company's capital expenditures were \$49.0 million. The Company anticipates total capital expenditures of approximately \$80 million in 2017. However, such amounts could change based on customer demand for Allo's services. Allo has a \$200.0 million line of credit with Nelnet, Inc. (parent company) that Allo uses for its operating activities and capital expenditures. This note and the related interest expense incurred by Allo and the interest income recognized by Nelnet, Inc. is eliminated in the Company's consolidated financial statements. The Company currently plans to use cash from operating activities and its third-party unsecured line of credit to fund Allo's operating activities and capital expenditures.

Other Debt Facilities

As discussed above, the Company has a \$350.0 million unsecured line of credit with a maturity date of December 12, 2021. As of June 30, 2017, the unsecured line of credit had no amounts outstanding and \$350.0 million was available for future use. Upon the maturity date in 2021 there can be no assurance that the Company will be able to maintain this line of credit, increase the amount outstanding under the line, or find alternative funding if necessary.

The Company has issued Junior Subordinated Hybrid Securities (the "Hybrid Securities") that have a final maturity of September 15, 2061. The Hybrid Securities are unsecured obligations of the Company. During the first quarter of 2017, the Company initiated a cash tender offer to purchase any and all of its outstanding Hybrid Securities, including a related consent solicitation to effect certain amendments to the indenture governing the notes to eliminate a provision requiring a minimum principal amount of the notes to remain outstanding after a partial redemption. The aggregate principal amount of notes tendered to the Company was \$29.7 million. The Company paid \$25.3 million to redeem these notes, and the amendments described above were made to the indenture. As of June 30, 2017, the Company has \$20.5 million of Hybrid Securities that remain outstanding.

The Company also has two notes payable, which were each issued by TDP Phase Three, LLC ("TDP") on December 30, 2015 in connection with the development of a commercial building in Lincoln, Nebraska that is to be the new corporate headquarters for Hudl, a related party. TDP is an entity established during 2015 for the sole purpose of developing and operating this building. The Company owns 25 percent of TDP. However, because the Company plans to be a tenant in this building once the development is complete, the operating results of TDP are included in the Company's consolidated financial statements. As of June 30, 2017, one of the TDP notes has \$12.0 million outstanding with a maturity date of March 31, 2023; the other TDP note has \$6.4 million outstanding with a maturity date of December 15, 2045. Recourse to the Company on the outstanding balance of these notes is equal to its ownership percentage of TDP.

As of June 30, 2017, the Company has \$41.8 million of secured debt outstanding that is subject to a repurchase agreement. Proceeds from this agreement are collateralized by FFELP asset-backed security investments. Upon termination or expiration of the repurchase agreement, the Company would expect to obtain replacement repurchase agreements, use proceeds from its unsecured line-of-credit, use operating cash, or transfer collateral to satisfy any remaining obligations on the outstanding repurchase obligations.

Debt Repurchases

Due to the Company's positive liquidity position and opportunities in the capital markets, the Company has repurchased its own debt over the last several years, and may continue to do so in the future. See note 4 of the notes to consolidated financial statements included in the 2016 Annual Report for information on debt repurchased by the Company during the years 2014 through 2016 and note 3 of the notes to consolidated financial statements included under Part I, Item 1 of this report for debt repurchased by the Company during the six months ended June 30, 2017.

Stock Repurchases

The Board of Directors has authorized a stock repurchase program to repurchase up to a total of five million shares of the Company's Class A common stock during the three-year period ending May 25, 2019. Shares may be repurchased from time to time depending on various factors, including share prices and other potential uses of liquidity. Shares repurchased by the Company during the three months ended March 31, 2017 and June 30, 2017 are shown below. For additional information on stock repurchases during the second quarter of 2017, see "Stock Repurchases" under Part II, Item 2 of this report.

	Total shares repurchased	Purchase price (in thousands)	Average price of shares repurchased (per share)
Quarter ended March 31, 2017	31,716	\$ 1,369	43.18
Quarter ended June 30, 2017	384,061	16,826	43.81
Total	415,777	\$ 18,195	43.76

Subsequent to June 30, 2017, from July 1, 2017 through August 7, 2017, the Company has repurchased an additional 376,703 shares of Class A common stock for \$18.1 million (\$47.98 per share). These purchases were made pursuant to a trading plan adopted by the Company in accordance with Rule 10b5-1 under the Securities Exchange Act of 1934. As of August 7, 2017, 3,817,110 shares remain authorized for repurchase under the Company's stock repurchase program.

Dividends

On June 15, 2017, the Company paid a second quarter 2017 cash dividend on the Company's Class A and Class B common stock of \$0.14 per share. In addition, the Company's Board of Directors has declared a third quarter 2017 cash dividend on the Company's outstanding shares of Class A and Class B common stock of \$0.14 per share. The third quarter cash dividend will be paid on September 15, 2017 to shareholders of record at the close of business on September 1, 2017.

The Company currently plans to continue making regular quarterly dividend payments, subject to future earnings, capital requirements, financial condition, and other factors. In addition, the payment of dividends is subject to the terms of the Company's outstanding Hybrid Securities, which generally provide that if the Company defers interest payments on those securities it cannot pay dividends on its capital stock.

Off-Balance Sheet Arrangements

The Company does not have any off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on its financial condition, revenues or expenses, results of operations, liquidity, capital expenditures, or capital resources that are material to investors.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

Management's Discussion and Analysis of Financial Condition and Results of Operations addresses the Company's consolidated financial statements, which have been prepared in accordance with GAAP. A discussion of the Company's critical accounting policies, which include allowance for loan losses, revenue recognition, consolidation of Variable Interest Entities, income taxes, and accounting for derivatives can be found in the Company's 2016 Annual Report. There were no significant changes to these critical accounting policies during the first six months of 2017.

RECENT ACCOUNTING PRONOUNCEMENTS

Revenue Recognition

In May 2014, the Financial Accounting Standards Board ("FASB") issued accounting guidance regarding the recognition of revenue from contracts with customers, which requires an entity to recognize the amount of revenue to which it expects to be entitled for the transfer of promised goods or services to customers. This guidance will replace

most existing revenue recognition guidance once it becomes effective on January 1, 2018 and the standard allows the use of either the retrospective or cumulative effect transition method. The Company currently plans to use the cumulative effect transition method. The Company is evaluating the impact this pronouncement will have on its ongoing financial reporting. However, it does not currently believe the implementation will have a material impact to its financial statements. The majority of the Company's revenue earned in its Asset Generation and Management segment, including loan interest and derivative activity, is explicitly excluded from the scope of the new guidance. The Company continues to evaluate the impact to revenue earned from its fee-based operating segments and the presentation and disclosures. In regards to the Company's fee-based operating segments, the Company's implementation efforts to date include the identification of revenue and review of related contracts within these segments. Based upon this review, the Company has not yet identified nor does it anticipate material changes in the timing of revenue recognition. However, the Company's review is ongoing as it continues to evaluate both contract revenue and certain contract costs.

Classification and Measurement

In January 2016, the FASB issued accounting guidance regarding the recognition and measurement of financial assets and financial liabilities, which will change the income statement impact of equity investments, and the recognition of changes in fair value of financial liabilities when the fair value option is elected. The new guidance requires all equity investments to be measured at fair value, with changes in the fair value recognized through net income (other than those equity investments accounted for under the equity method of accounting or those that result in consolidation of the investee), and requires an entity to present separately in other comprehensive income the portion of the total change in the fair value of a liability resulting from a change in the instrument-specific credit risk when the entity has elected to measure the liability at fair value in accordance with the fair value option for financial instruments. This guidance is effective for the Company beginning January 1, 2018 and requires a cumulative effect adjustment to retained earnings as of the beginning of the reporting period of adoption. The Company is evaluating the impact this pronouncement will have on its ongoing financial reporting. However, it does not currently believe the implementation will have a material impact to its financial statements.

Leases

In February 2016, the FASB issued accounting guidance regarding the accounting for leases. The new standard will require the identification of arrangements that should be accounted for as leases by lessees and the disclosure of key information about leasing arrangements. In general, for lease arrangements exceeding a twelve-month term, these arrangements must be recognized as assets and liabilities on the balance sheet of the lessee. A right-of-use asset and lease obligation will be recorded for all leases, whether operating or financing, while the income statement will reflect lease expense for operating leases and amortization/interest expense for financing leases. The balance sheet amount recorded for existing leases at the date of adoption must be calculated using the applicable incremental borrowing rate at the date of adoption. The standard requires the use of the modified retrospective transition method, which will require adjustment to all comparative periods presented with certain practical expedients available. It will be effective for the Company as of January 1, 2019. Early adoption is permitted. The Company currently expects to adopt the new standard on its effective date and to elect all of the standard's available practical expedients on adoption. The Company is evaluating the impact this pronouncement will have on its ongoing financial reporting.

Allowance for Loan Losses

In June 2016, the FASB issued accounting guidance regarding the measurement of credit losses on financial instruments, which will change the way entities recognize impairment of many financial assets by requiring immediate recognition of estimated credit losses expected to occur over the asset's remaining life. This guidance is effective for the Company beginning January 1, 2020. Early application is permitted beginning January 1, 2019. This standard represents a significant departure from existing GAAP, and may result in significant changes to the Company's accounting for the allowance for loan losses. The Company is evaluating the impact this pronouncement will have on its ongoing financial reporting.

Statement of Cash Flows

In August 2016, the FASB issued accounting guidance regarding the presentation and classification of certain cash receipts and cash payments in the statement of cash flows. Among the cash flow matters addressed in the update are payments for costs related to debt prepayments or extinguishments, payments related to settlement of certain types of debt instruments, payments of contingent consideration made after a business combination, and distributions received from equity method investees, among others. This guidance is effective for the Company beginning January 1, 2018 with early adoption permitted. The guidance will be applied using a retrospective transition method to each period

presented, unless impracticable for specific cash flow matters, in which case the update would be applied prospectively as of the earliest date practicable. The Company believes the adoption of this guidance will not have a significant impact on its consolidated financial statements.

In November 2016, the FASB issued accounting guidance which provides amendments to current guidance to address the classifications and presentation of changes in restricted cash in the statement of cash flows. This guidance is effective for the Company beginning January 1, 2018 with early adoption permitted. The amendments will be applied using a retrospective transition method to each period presented. The Company is evaluating the impact this pronouncement will have on its ongoing financial reporting.

Goodwill

In January 2017, the FASB issued accounting guidance which eliminates the two-step process that required identification of potential impairment and a separate measure of the actual impairment. The annual assessment of goodwill impairment will be determined by using the difference between the carrying amount and the fair value of the reporting unit. The new standard will be effective for the Company as of January 1, 2020. Early adoption is permitted. The Company is evaluating the impact this pronouncement will have on its ongoing financial reporting.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

(All dollars are in thousands, except share amounts, unless otherwise noted)

Interest Rate Risk

The Company's primary market risk exposure arises from fluctuations in its borrowing and lending rates, the spread between which could impact the Company due to shifts in market interest rates.

The following table sets forth the Company's loan assets and debt instruments by rate characteristics:

	As of June 30, 2017		As of December 31, 2016	
	Dollars	Percent	Dollars	Percent
Fixed-rate loan assets	\$6,227,432	26.6 %	\$8,585,283	34.2 %
Variable-rate loan assets	17,162,868	73.4	16,518,360	65.8
Total	\$23,390,300	100.0%	\$25,103,643	100.0%
Fixed-rate debt instruments	\$116,431	0.5 %	\$131,733	0.5 %
Variable-rate debt instruments	23,074,320	99.5	24,968,687	99.5
Total	\$23,190,751	100.0%	\$25,100,420	100.0%

FFELP loans originated prior to April 1, 2006 generally earn interest at the higher of the borrower rate, which is fixed over a period of time, or a floating rate based on the special allowance payment ("SAP") formula set by the Department. The SAP rate is based on an applicable index plus a fixed spread that depends on loan type, origination date, and repayment status. The Company generally finances its student loan portfolio with variable rate debt. In low and/or declining interest rate environments, when the fixed borrower rate is higher than the SAP rate, the Company's student loans earn at a fixed rate while the interest on the variable rate debt typically continues to reflect the low and/or declining interest rates. In these interest rate environments, the Company may earn additional spread income that it refers to as floor income.

Depending on the type of loan and when it was originated, the borrower rate is either fixed to term or is reset to an annual rate each July 1. As a result, for loans where the borrower rate is fixed to term, the Company may earn floor income for an extended period of time, which the Company refers to as fixed rate floor income, and for those loans where the borrower rate is reset annually on July 1, the Company may earn floor income to the next reset date, which the Company refers to as variable rate floor income. All FFELP loans first originated on or after April 1, 2006 effectively earn at the SAP rate, since lenders are required to rebate fixed rate floor income and variable rate floor income for those loans to the Department.

No variable-rate floor income was earned by the Company during the six months ended June 30, 2017 and 2016. A summary of fixed rate floor income earned by the Company follows.

Three months	Six months
ended June 30,	ended June 30,

Edgar Filing: NELNET INC - Form 10-Q

	2017	2016	2017	2016
Fixed rate floor income, gross	\$27,664	44,338	59,795	90,220
Derivative settlements (a)	2,114	(4,841)	1,994	(10,084)
Fixed rate floor income, net	\$29,778	39,497	61,789	80,136

(a) Includes settlement payments on derivatives used to hedge student loans earning fixed rate floor income.

The high levels of fixed rate floor income earned during 2017 and 2016 are due to historically low interest rates. If interest rates remain low, the Company anticipates continuing to earn significant fixed rate floor income in future periods. Fixed rate floor income decreased for the three and six months ended June 30, 2017 as compared to the same periods in 2016 due to an increase in interest rates.

Absent the use of derivative instruments, a rise in interest rates may reduce the amount of floor income received and this may have an impact on earnings due to interest margin compression caused by increasing financing costs, until such time as the federally insured loans earn interest at a variable rate in accordance with their special allowance payment formulas. In higher interest rate environments, where the interest rate rises above the borrower rate and fixed rate loans effectively become variable rate loans, the impact of the rate fluctuations is reduced.

The following graph depicts fixed rate floor income for a borrower with a fixed rate of 6.75% and a SAP rate of 2.64%:

The following table shows the Company's federally insured student loan assets that were earning fixed rate floor income as of June 30, 2017.

Fixed interest rate range	Borrower/lender weighted average yield		Estimated variable conversion rate (a)		Loan balance
3.5 - 3.99%	3.80	%	1.16	%	\$730,527
4.0 - 4.49%	4.20	%	1.56	%	1,451,101
4.5 - 4.99%	4.72	%	2.08	%	875,396
5.0 - 5.49%	5.22	%	2.58	%	553,166
5.5 - 5.99%	5.67	%	3.03	%	390,207
6.0 - 6.49%	6.19	%	3.55	%	449,443
6.5 - 6.99%	6.70	%	4.06	%	435,922
7.0 - 7.49%	7.17	%	4.53	%	154,379
7.5 - 7.99%	7.71	%	5.07	%	260,522
8.0 - 8.99%	8.18	%	5.54	%	602,413
> 9.0%	9.05	%	6.41	%	208,797
					\$6,111,873

- (a) The estimated variable conversion rate is the estimated short-term interest rate at which loans would convert to a variable rate. As of June 30, 2017, the weighted average estimated variable conversion rate was 2.88% and the short-term interest rate was 107 basis points.

The following table summarizes the outstanding derivative instruments as of June 30, 2017 used by the Company to economically hedge loans earning fixed rate floor income.

Maturity	Notional amount	Weighted average fixed rate paid by the Company (a)	
2017	\$250,000	1.04	%
2018	1,350,000	1.07	
2019	3,250,000	0.97	
2020	1,500,000	1.01	
2025	100,000	2.32	
	\$6,450,000	1.02	%

(a) For all interest rate derivatives, the Company receives discrete three-month LIBOR.

In addition, on August 20, 2014, the Company paid \$9.1 million for an interest rate swap option to economically hedge loans earning fixed rate floor income. The interest rate swap option gives the Company the right, but not the obligation, to enter into a \$250 million notional interest rate swap in which the Company would pay a fixed amount of 3.30% and receive discrete one-month LIBOR. If the interest rate swap option is exercised, the swap would become effective in 2019 and mature in 2024.

The Company is also exposed to interest rate risk in the form of basis risk and repricing risk because the interest rate characteristics of the Company's assets do not match the interest rate characteristics of the funding for those assets. The following table presents the Company's FFELP student loan assets and related funding for those assets arranged by underlying indices as of June 30, 2017:

Index	Frequency of variable resets	Assets	Funding of student loan assets
1 month LIBOR (a)	Daily	\$21,296,584	—
3 month H15 financial commercial paper	Daily	1,181,074	—
3 month Treasury bill	Daily	669,749	—
3 month LIBOR (a) (b)	Quarterly	—	12,730,758
1 month LIBOR	Monthly	—	8,522,048
Auction-rate (c)	Varies	—	796,140
Asset-backed commercial paper (d)	Varies	—	869,307
Other (e)		1,160,613	1,389,767
		\$24,308,020	24,308,020

The Company has certain basis swaps outstanding in which the Company receives three-month LIBOR and pays one-month LIBOR plus or minus a spread as defined in the agreements (the "1:3 Basis Swaps"). The Company (a) entered into these derivative instruments to better match the interest rate characteristics on its student loan assets and the debt funding such assets. The following table summarizes the 1:3 Basis Swaps outstanding as of June 30, 2017.

Maturity	Notional amount
2018	\$4,000,000
2019	2,000,000
2024	250,000

2026	1,150,000
2027	375,000
2028	325,000
2029	100,000
2031	300,000
	\$8,500,000

The weighted average rate paid by the Company on the 1:3 Basis Swaps as of June 30, 2017 was one-month LIBOR plus 13.9 basis points.

The Company has Euro-denominated notes that reprice on the EURIBOR index. The Company has entered into a (b)cross-currency interest rate swap that converts the EURIBOR index to three-month LIBOR. As a result, these notes are reflected in the three-month LIBOR category in the above table. See “Foreign Currency Exchange Risk” below.

- The interest rates on certain of the Company's asset-backed securities are set and periodically reset via a "dutch auction" ("Auction Rate Securities"). As of June 30, 2017, the Company was sponsor for \$796.1 million of Auction Rate Securities. Since February 2008, problems in the auction rate securities market as a whole have led to failures of the auctions pursuant to which the Company's Auction Rate Securities' interest rates are set. As a result, the Auction Rate Securities generally pay interest to the holder at a maximum rate as defined by the indenture. While these rates will vary, they will generally be based on a spread to LIBOR or Treasury Securities, or the Net Loan Rate as defined in the financing documents.
- (c)
- (d) The interest rates on certain of the Company's warehouse facilities are indexed to asset-backed commercial paper rates.
- (e) Assets include accrued interest receivable and restricted cash. Funding represents overcollateralization (equity) included in FFELP asset-backed securitizations and warehouse facilities.

Sensitivity Analysis

The following tables summarize the effect on the Company's earnings, based upon a sensitivity analysis performed by the Company assuming hypothetical increases in interest rates of 100 basis points and 300 basis points while funding spreads remain constant. In addition, a sensitivity analysis was performed assuming the funding index increases 10 basis points and 30 basis points while holding the asset index constant, if the funding index is different than the asset index. The sensitivity analysis was performed on the Company's variable rate assets (including loans earning fixed rate floor income) and liabilities. The analysis includes the effects of the Company's interest rate and basis swaps in existence during these periods.

	Interest rates				Asset and funding index mismatches			
	Change from		Change from		Increase of 10		Increase of 30 basis	
	increase of 100		increase of 300		basis points		points

Foreign Currency Exchange Risk

The Company has issued €352.7 million of student loan asset-backed Euro Notes (the "Euro Notes") with an interest rate based on a spread to the EURIBOR index. As a result, the Company is exposed to market risk related to fluctuations in foreign currency exchange rates between the U.S. dollar and Euro. The Company has entered into a cross-currency interest rate swap in connection with the issuance of the Euro Notes. See note 4 of the notes to consolidated financial statements included under Part I, Item 1 of this report for additional information, including a summary of the terms of the cross-currency interest rate swap associated with the Euro Notes and the related financial statement impact.

Financial Statement Impact – Derivatives and Foreign Currency Transaction Adjustments

For a table summarizing the effect of derivative instruments in the consolidated statements of income, including the components of "derivative market value and foreign currency transaction adjustments and derivative settlements, net" included in the consolidated statements of income, see note 4 of the notes to consolidated financial statements included under Part I, Item 1 of this report.

ITEM 4. CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

Under supervision and with the participation of certain members of the Company's management, including the chief executive and chief financial officers, the Company completed an evaluation of the effectiveness of the design and operation of its disclosure controls and procedures (as defined in SEC Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934). Based on this evaluation, the Company's principal executive and principal financial officers concluded that the disclosure controls and procedures were effective as of the end of the period covered by this report to provide reasonable assurance that information required to be disclosed in reports the Company files or submits under the Securities Exchange Act of 1934 is recorded, processed, summarized, and reported, within the time periods specified in the SEC's rules and forms, and is accumulated and communicated to the Company's management, including the chief executive and chief financial officers, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Control over Financial Reporting

There was no change in the Company's internal control over financial reporting during the Company's last fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

There have been no material changes from the information set forth in the Legal Proceedings section of the Company's Annual Report on Form 10-K for the year ended December 31, 2016 under Item 3 of Part I of such Form 10-K.

ITEM 1A. RISK FACTORS

There have been no material changes from the risk factors described in the Company's Annual Report on Form 10-K for the year ended December 31, 2016 in response to Item 1A of Part I of such Form 10-K.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

Stock Repurchases

The following table summarizes the repurchases of Class A common stock during the second quarter of 2017 by the Company or any “affiliated purchaser” of the Company, as defined in Rule 10b-18(a)(3) under the Securities Exchange Act of 1934. Certain share repurchases included in the table below were made pursuant to a trading plan adopted by the Company in accordance with Rule 10b5-1 under the Securities Exchange Act of 1934.

Period	Total number of shares purchased (a)	Average price paid per share	Total number of shares purchased as part of publicly announced plans or programs (b)	Maximum number of shares that may yet be purchased under the plans or programs (b)
April 1 - April 30, 2017	2,923	\$ 45.62	—	4,571,094
May 1 - May 31, 2017	—	—	—	4,571,094
June 1 - June 30, 2017	381,138	43.79	377,281	4,193,813
Total	384,061	\$ 43.81	377,281	

(a) The total number of shares includes: (i) shares repurchased pursuant to the stock repurchase program discussed in footnote (b) below; and (ii) shares owned and tendered by employees to satisfy tax withholding obligations upon the vesting of restricted shares. Shares of Class A common stock tendered by employees to satisfy tax withholding obligations included 2,923 shares, 0 shares, and 3,857 shares in April, May, and June, respectively. Unless otherwise indicated, shares owned and tendered by employees to satisfy tax withholding obligations were purchased at the closing price of the Company’s shares on the date of vesting.

(b) On August 4, 2016, the Company announced that its Board of Directors authorized a new stock repurchase program in May 2016 to repurchase up to a total of five million shares of the Company’s Class A common stock during the three-year period ending May 25, 2019.

Working capital and dividend restrictions/limitations

The Company’s credit facilities, including its revolving line of credit which is available through December 12, 2021, impose restrictions with respect to the Company’s minimum consolidated net worth, the ratio of the Company’s adjusted EBITDA to corporate debt interest, the amount of recourse indebtedness, the amount and nature of investments and business acquisitions, and the amount of private education loans held by the Company. In addition, trust indentures and other financing agreements governing debt issued by the Company’s education lending subsidiaries may have general limitations on the amounts of funds that can be transferred to the Company by its subsidiaries through cash dividends.

The supplemental indenture for the Company’s Hybrid Securities issued in September 2006 provides that so long as any Hybrid Securities remain outstanding, if the Company gives notice of its election to defer interest payments but the related deferral period has not yet commenced or a deferral period is continuing, then the Company will not, and will not permit any of its subsidiaries to:

• declare or pay any dividends or distributions on, or redeem, purchase, acquire or make a liquidation payment regarding, any of the Company's capital stock.

• except as required in connection with the repayment of principal, and except for any partial payments of deferred interest that may be made through the alternative payment mechanism described in the Hybrid Securities indenture, make any payment of principal of, or interest or premium, if any, on, or repay, repurchase, or redeem any of the Company's debt securities that rank pari passu with or junior to the Hybrid Securities.

• make any guarantee payments regarding any guarantee by the Company of the subordinated debt securities of any of the Company's subsidiaries if the guarantee ranks pari passu with or junior in interest to the Hybrid Securities.

In addition, if any deferral period lasts longer than one year, the limitation on the Company's ability to redeem or repurchase any of its securities that rank pari passu with or junior in interest to the Hybrid Securities will continue until the first anniversary of the date on which all deferred interest has been paid or canceled.

If the Company is involved in a business combination where immediately after its consummation more than 50% of the surviving entity's voting stock is owned by the shareholders of the other party to the business combination, then the immediately preceding sentence will not apply to any deferral period that is terminated on the next interest payment date following the date of consummation of the business combination.

However, at any time, including during a deferral period, the Company will be permitted to:

pay dividends or distributions in additional shares of the Company's capital stock.

declare or pay a dividend in connection with the implementation of a shareholders' rights plan, or issue stock under such a plan, or redeem or repurchase any rights distributed pursuant to such a plan.

purchase common stock for issuance pursuant to any employee benefit plans.

ITEM 6. EXHIBITS

3.1 Articles of Amendment to Second Amended and Restated Articles of Incorporation of Nelnet, Inc., filed as Exhibit 3.1 to the registrant's Current Report on Form 8-K filed on May 25, 2017 and incorporated by reference herein.
