GOL Receives First Aircraft in Confins Maintenance Center

São Paulo, October 7, 2005 GOL Linhas Aéreas Inteligentes (NYSE: GOL and Bovespa: GOLL4), Brazil's low-fare, low-cost airline, announced the completion of the first phase of its new Aircraft Maintenance Center in Confins, in the State of Minas Gerais. The center's first hangar was certified by the DAC (Department of Civil Aviation) to begin maintenance services and received its first aircraft. The certification authorizes maintenance services for Boeing 737-300s and Boeing Next Generation 737-700 and 800s.

With planned investments of R\$ 30.5 million, GOL began construction of its Maintenance Center in July of this year, and expects completion in the second quarter of 2006. The use of the first hangar for heavy maintenance of our aircraft provides GOL with lower costs, greater flexibility and marks a milestone in the Company's history, said David Barioni, GOL's Technical Vice-President.
