Under the articles of incorporation of Novasoc, the distribution of its net income need not be proportional to the holding of each shareholder in the capital of the company. As from the shareholders' meeting, it was agreed that the Company would participate in 99.98% of Novasoc's results as from 2000.

On September 30, 2005, the subsidiary Novasoc had negative shareholders' equity (net capital deficiency). However, because its operating continuity and future economic feasibility are assured by the parent company, the Company recorded R\$ 48,955 (R\$ 51,124 - June 30, 2005), in Provision for net capital deficiency to recognize obligations to the creditors.

c) Investment agreement -- CBD and Sendas

In february of 2004, based on the Investment and Association Agreement, the companies CBD and Sendas S.A. constitute, by means of transfer of assets, rights and liabilities, a new company known as Sendas Distribuidora S.A., with the objective of operating in the retailing market in general, through the association of operating activities of both networks in the State of Rio de Janeiro. The shareholding of CBD in Sendas Distribuidora at September 30, 2005 corresponded to 42.57% of total capital. It is incumbent on CBD to conduct the operating and administrative management of the new company, through its Executive Board, in addition to its prevailing decision when electing or removing directors from their office. Based on the Shareholders Agreement, beginning February 1, 2007, Sendas S.A. may at its sole option exercise its right to barter its paid-in capital shares, in total or in part, for preferred shares of the capital stock of the Company.

On September 16, 2005, the Second Amendment to the Shareholders Agreement of Sendas Distribuidora was carried out by Sendas S.A., CBD and its subsidiaries, who decided to:

c) Investment agreement CBD and Sendas -- Continued

- o adopt a new proportion in the appointment of Board of Directors members, namely 7 out of the 13 members were now to be elected by CBD;
- o restrict veto right of Sendas S.A. only in relation to change in the company's business purpose;
- o extend the additional term for payment by Sendas S.A. of class A preferred shares for a period ending on February 29, 2014. Within the second additional term for class A preferred shares payment, it may be carried out only in cash, especially through use of dividends paid by the Company to Sendas S.A. If such payment does not take place the shares will be cancelled.

(i) Capital subscription by the AIG Group

With a view to reducing net indebtedness and strengthening the capital structure of the subsidiary Sendas Distribuidora, on November 30, 2004, the parent Company CBD and investment funds of the AIG Group ("AIG") entered into an agreement through which AIG invested the amount of R\$ 135,675 in Sendas Distribuidora, by means of subscription and payment of 157,082,802 Class B preferred shares, issued by Sendas Distribuidora, representing 14.86% of its capital.

As per the above agreement, CBD and AIG mutually grant reciprocal call and put options of shares acquired by AIG from Sendas Distribuidora, which may be exercised in approximately 4 years.

7. Investments -- Continued

c) Investment agreement CBD and Sendas -- Continued

Upon exercising the referred to options, the shares issued by Sendas Distribuidora will represent an AIG credit against CBD that may be used to subscribe up to 3,000,000,000 (three billion) preferred shares issued by CBD, which will be created in a future capital increase. The price of the future issuance of preferred shares issued by CBD will be set based on market value at the time of issuance, and the share amount issued will enable the subscription by AIG in the maximum amount referred to above and by other CBD shareholders.

The AIG share value is based on a formula that considers the Sendas Distribuidora EBITDA multiples, as defined in the Association Agreement. At September 30, 2005, total interest amounted to R\$ 78,888, which, translated into the average quotation of CBD shares on the São Paulo Stock Exchange (Bovespa) in the last week of September 2005, would be equivalent to a total of 1,320,708,000 Company shares, less than the minimum of 2,000,000,000 shares to be exercised.

With the above transaction, CBD and its subsidiaries now hold 42.57% of the total Sendas Distribuidora capital.

ii) CADE (Administrative Council for Economic Defense)

On March 5, 2004, Sendas Distribuidora shareholders entered into an Operation Reversibility Agreement related to the association between CBD and Sendas S.A. in the State of Rio de Janeiro, which establishes conditions to be observed until the final decision on the takeover process, such as the continuance, totally or partially, of the stores under Sendas Distribuidora responsibility, maintenance of the work posts in accordance with the average gross billing by employee of the five largest supermarket networks, non-reduction of the term of current lease agreements, among others.

Shareholders, based on the opinion of their legal advisors and on the normal procedural steps of the process, believe that the association will be approved by the CADE.

d) Investment agreement CBD and Itaú

Miravalles Empreendimentos e Participações S.A. ("Miravalles"), company set up in July 2004 and owner of exploitation rights of the Company's financial activities, received funds from Itaú related to capital subscription, and now holds the equivalent to 50% of such company. Subsequently, with capital in the amount of R\$ 150,000, Miravalles set up Financeira Itaú CBD S.A. FIC, a company which will structure and trade financial products, services and related items exclusively to CBD customers.

The subscription made by Itaú in Miravalles resulted in a gain by dilution of shareholding, in the amount of R\$ 380,444. Such gain was reduced by the disposal of certain assets related to the operation of provisions of implementation costs for start-up of operations and from the installment subject to performance goals during the next five years. the Company achieved performance goals equivalent to 37% until September 30, 2005, with a remaining balance of R\$ 112,967 in the account Other accounts payable .

On October 27, 2004, definitive operating agreements were signed, and Miravalles, by means of spin-off, transferred to Otimix Empreendimentos e Participações Ltda., wholly-owned subsidiary of Sé, which is controlled by the Company, funds totaling R\$ 309,007.

The present association will result in operating synergies and will enable the expansion and improvement of the current offer of services and products to CBD customers, including, among others, Private Label Credit Cards (Own label: restricted use within CBD stores), credit card company cards with widespread acceptance, direct credit to consumers and personal loans. The operating management of FIC is under Itaú responsibility.

The partnership will last for a term of 20 years, which may be extended.

CBD and its subsidiaries are parties to tax, civil and labor proceedings both at administrative and judicial levels, some of which are supported by judicial deposits. The estimation process used to record the provision for contingencies is developed by the Company's management based on the opinion of its legal advisors. That provision is recorded when those legal advisors state the possibility of loss is probable. The provision for contingencies is broken down as follows:

	Parent company		Consolidated	
	09.30.2005	06.30.2005	09.30.2005	06.30.2005

(i) The provision for COFINS and PIS includes disputed amounts (not paid), which are restated by SELIC (Special System for Settlement and Custody). These amounts are related to the claims that the Company is disputing to have the right to not apply law 9.718/98, instead of permitting it to determine the payment of COFINS under the terms of Complementary Law 70/91 (2% of revenue) and of PIS under Law 9.715/98 (0.65% of revenue) as from February 1, 1999.

(ii) The Company records a provision for labor contingencies in amounts deemed sufficient to cover potential losses on ongoing disputes based, among others, on historical losses incurred by the Company in similar cases.

12. Provision for Contingencies -- Continued

(iii) The Company has been tendering its defense against tax and civil claims at various court levels. The Company set up a valuation allowance in amounts deemed to be sufficient to cover any unfavorable decision handed down on the suits its external and internal legal advisors rated likelihood of loss at trial as probable.

A notice of ICMS delinquency was served on the Company regarding the purchase, industrial processing and sale for export of soybean and by-products since, in the tax authorities' view, there was no circulation of goods.

Based on the opinion of our legal advisors, the notice of delinquency served on the Company, the materialization of loss at trial is possible but no probable, amounts to R\$ 70,393, and no related provision was not set up.

d) Preferred stock option plan

The Annual / Extraordinary General Meeting, held on April 28, 1997, approved the preferred stock option plan for the Company's management and employees, first granted in 1996.

The option price from the date of granting to the date when the option is exercised by the employee is restated based on the General Market Price Index (IGPM), less dividends distributed in the period.

The option price for each lot of shares is, at least, 60% of the weighted average price of the preferred shares traded in the week the option is granted. The percentage may vary for each beneficiary or series.

The right to exercise the options is acquired in the following manner and terms: (i) 50% in the last month of the third year following the option date (1st tranche) and (ii) 50% in the last month of the fifth year following the option date (2nd tranche), with the condition that a certain number of shares will be restricted as to sale until the date the beneficiary retires.

The option exercise ensures the beneficiaries of the same rights granted to the other shareholders of the Company. The plan management was attributed to a committee appointed by the Board of Directors

16. Financial Instruments

a) General considerations

Derivative instruments and operations involving interest rates are used to protect the assets and liabilities of the Company. Transactions are carried out by the financial operations area in accordance with the strategy previously approved by the Board of Directors.

Management considers that there is no concentration of counterparties, and operations are limited to traditional, highly-rated banks and within approved limits.

With the objective of exchanging the financial charges and exchange variation of loans in foreign currency to local currency, the Company contracted swap transactions linked to the CDI variation, which reflects the market value.

b) Market value of the financial instruments

Financial investments are represented by short-term investments, stated at cost plus income earned in the period based on underlying contracts, in amounts that approximate their market value.

Other financial instruments, assets and liabilities, at September 30, 2005 and June 30, 2005, recorded in the balance sheet accounts, are adjusted at amounts that reflect and/or approximate their respective market value.

c) Credit risk

The company makes direct sales to its customers. Credit risk is mitigated due to the company's large portfolio and to the strict procedures for qualification and granting of credits currently adopted to monitor its customers' payment capacity. Advances are made to selected suppliers only. The financial condition of suppliers is constantly analyzed to limit credit risk.

16. Financial Instruments Continued

c) Credit Risks Continued

To mitigate the credit risk of investments, the Company adopts policies that restrict cash and/or investments that can be allocated to a single financial institution and that take into consideration the monetary limits and credit ratings on the financial institution.

17. Subsequent Events

On October 3, 2005, the definitive contracts for sale of 60 properties of CBD and its subsidiaries to Fundo de Investimento Imobiliário Península were entered into. CBD was assured of execution of long term contract under which these properties will be leased to the Company, as well as of periodic review of minimum lease amounts and the possibility of not leasing at its discretion any of the properties, should the Company no longer be interested in exploiting them.

08.01 COMMENTS ON THE CONSOLIDATED PERFORMANCE IN THE QUARTER

Comments on Sales Performance

Gross sales totaled R\$ 3,864.0 million in 3Q05, a 2.8% growth over the same period of 2004. Net sales amounted to R\$ 3,217.2 million, representing a 3.8% growth over the previous year. Sendas Distribuidora's gross sales reached R\$ 816.0 million in the quarter, a 2.2% growth over 2004. Net sales were R\$ 703,4 million, up 2.8% when compared to the same period of 2004.

Same store sales reported nominal growth of 0.9% in the quarter, strongly affected by:

- (i) deflation in some food product categories, especially perishables and commodities;
- (ii) strong comparison base (9% growth in the same quarter of 2004);
- (iii) heightened consumer wariness, still affected by the political instability;
- (iv) lower disposable income for food product consumption, as a result of the previous financing burden on durable good purchases (installment payments and payroll loans);

Non-food product sales in the period grew by 10.6% and food product sales dropped by 1.7% . The highlight in the quarter was Sendas business unit same store sales , whose double-digit growth was significantly higher than the Company's average. This performance resulted from investments in store refurbishment, marketing and communication efforts and a very competitive pricing policy.

Same store sales, deflated by IPCA, dropped 5.0% in real terms. When deflated by household food inflation calculated by IPCA-Alimentação, which better reflects CBD's reality, same store sales grew 1.2% in real terms.

Gross sales year-to-date totaled R\$ 11,598.9 million, a 6.2% growth. Net sales reached R\$ 9,640.4 million in the period, a 7.5% growth.

Accumulated same store sales growth totaled 4.1% . Same store sales in the 9-month period dropped by 2.8% when deflated by IPCA, but grew by 2.2% when deflated by food inflation - IPCA Alimentação.

Gross Sales Performance in Nominal Terms

Obs. Same store sales figures include only stores whose operating period is longer than 12 months.

Operating Performance

The following comments on operating performance refer to CBD's consolidated results, and, therefore, fully account for Sendas Distribuidora's operating results (the CBD joint venture with Sendas in the State of Rio de Janeiro).

Gross Margin reached 30.4% in the quarter

CBD reported gross income of R\$ 977.7 million in 3Q05, a 5.7% growth over the same period of the previous year. Gross margin in the period totaled 30.4%, 0.6 basis points higher than the margin reported in the same period of 2004. It is worth pointing out that this margin improvement occurred together with signs of market share gains for CBD, according to data recently released by our competitors.

The combination of increased profitability and competitiveness is a result of the ongoing project to review and reorganize internal processes in commercial and category management areas. Initiated at the beginning of 2005, this project has already

generated some of its expected benefits in terms of better negotiation with suppliers and more effective management of product assortment, pricing policy and promotions.

Gross margin for Sendas Distribuidora was 28.4%, compared to 30.7% in the same period of 2004. The gross margin drop for Sendas compared to the previous year, and the difference compared to CBD's consolidated margin, is a result of strong promotional efforts in the State of Rio de Janeiro throughout the third quarter.

Operating Expenses reached 21.3% of Net Sales

Operating expenses in the quarter totaled R\$ 684.3 million, a 5.3% growth over the same period of 2004, mainly as a result of inflation in some items and wage readjustments for employees in September. We highlight general and administrative expenses that, even with the impact of the aforementioned factors, remained nearly flat compared to the same period of 2004. As a percentage of net sales, total operating expenses reached 21.3%, slightly above the 21.0% registered in the same period of 2004. We draw attention to the fact that sales in 3Q05 were disappointing, which made dilution of operating expenses harder.

EBITDA increases 6.8%, with 9.1% margin

As a result of the abovementioned factors, EBITDA totaled R\$ 293.5 million in the quarter, a 6.8% growth over the same period of the previous year and a 9.1% margin (compared to 8.9% in 3Q04).

Sendas Distribuidora's margin was 5.1%, affected by the decrease in gross margin previously mentioned.

In the 9-month period, EBITDA reached R\$ 857.2 million, a 15.1% growth over the same period of 2004 and an 8.9% margin (compared to 8.3% in the same period of the previous year).

Financial Results

Financial income in the quarter totaled R\$ 125.3 million, 56.9% higher when compared to the financial income reported in the same quarter of 2004. This increase was mainly a result of higher cash position (up by 134.6%) when compared to the same quarter of the previous year. Financial income was also impacted by other two factors: (i) the increase in non-interest bearing credit card installment payments and (ii) by the transfer of financial income from financing activities to Financeira Itaú CBD (FIC - Itaú CBD Financing Company) which is now accounted as Equity Income.

Financial expenses totaled R\$ 185.7 million, up by 26.1% when compared to same quarter of 2004, reflecting the higher interest rates in the period. Net financial expenses totaled R\$ 60.4 million, compared to R\$ 67.4 million in the same period of 2004.

Net Income reaches R\$ 70.3 million

Income before taxes, minority interest and non-operating results reached R\$ 72.8 million, a 14.8% growth over the same period of 2004.

Net loss for Sendas Distribuidora reached R\$ 27.7 million in the quarter, generating a minority interest of R\$ 15.9 million for CBD.

Income before taxes totaled R\$ 74.6 million, lower than the R\$ 150.5 million reported in 2004 when income was impacted by the non-operating result of R\$ 87.1 million from the joint venture with Itaú (FIC) to exploit financial products and services . Net income in the quarter was R\$ 70.3 million, down from the R\$ 171.0 million reported in the same quarter of the previous year. The comparison is affected by the non-operating results of 3rd quarter 2004.

Working Capital

In 3Q05, inventory turnover reached 42.1 days, higher than the 40.5 days registered in the previous year. Average terms with suppliers were 44.4 days, lower than the 48.3 days registered in 3Q04. Average terms for receivables reached 8.3 days, a significant improvement compared to 12.3 days reported in 2004, as a consequence of installment sales receivables (R\$ 105.1 million) that were transferred from CBD to FIC.

Investments

In 3Q05, investments equaled R\$ 267.5 million (R\$ 109.7 million in the previous year). The main highlights were:

- Opening of one Pão de Açúcar in Campinas (State of Sao Paulo) and one CompreBem in Valinhos (State of Sao Paulo);
- Construction of four Extra hypermarkets (one already opened in October) and four Pão de Açúcar supermarkets;
- Purchasing of strategic land for future store openings, mainly Extra hypermakets.

Additionally, investments included remodeling of stores and construction of gas stations and drugstores.
