GOL Reaches Milestone: 70 Million Transported Passengers

Sao Paulo, November 6, 2007 GOL Linhas Aéreas Inteligentes S.A. (NYSE: GOL and Bovespa: GOLL4), the parent company of Brazil's low-cost airlines GOL Transportes Aéreos S.A. and VRG Linhas Aéreas S.A., announces that GOL Transportes Aéreos transported 70 million passengers, achieving the milestone two months shy of its seventh anniversary. The Company began operations on January 15, 2001, with the aim of providing safe and quality air transportation at accessible fares to a larger portion of the population.

Operating a *virtuous cycle*, lower costs allow GOL to offer cheaper fares, stimulating market demand. Consequently, load factors are higher, resulting in sustained growth. Since entering the market, GOL has changed the face of Brazil's aviation industry: average fares for domestic flights have fallen by 29 percent and approximately seven million passengers traveled by plane for the first time with GOL.

Transporting 70 million people in less than seven years is a significant accomplishment for a young airline. Our business model allows us to offer tickets at competitive fares, increasing the accessibility of air transportation and setting new performance records in the Brazilian aviation industry, says Tarcisio Gargioni, vice president of Marketing and Services at GOL.

When launching its first flight, GOL served seven destinations and had a fleet of only six aircraft. Today, the Company operates 77 Boeing 737 aircraft to 58 destinations, including eight international cities (within South America). On November 21, GOL will begin operations to its newest destination: São José dos Campos, in São Paulo State. Daily flights will connect the Vale do Paraíba area, one of Brazil's most important economic regions, to all destinations served by GOL.

About GOL Linhas Aéreas Inteligentes S.A.

GOL Linhas Aéreas Inteligentes S.A. is the parent company of low-cost airlines GOL Transportes Aéreos S.A. (GTA, which operates the GOL brand) and VRG Linhas Aéreas S.A. (VRG, which operates the VARIG brand). GTA and VRG offer daily flights to more destinations in Brazil than any other domestic airline while providing customers with the most convenient flight schedules in the country. The airlines operate a young, modern fleet of Boeing aircraft, the safest and most comfortable aircraft of its class, with low maintenance, fuel and training costs, and high aircraft utilization and efficiency ratios. In addition to safe and reliable services, which stimulate brand recognition and customer satisfaction, the Company's service is recognized as the best value proposition in the market. Growth plans include increasing frequencies in existing markets and adding service to additional markets in both Brazil and other high-traffic travel destinations. Shares are listed on the NYSE (GOL) and the Bovespa (GOLL4) stock exchanges.

GOL Transportes Aéreos S.A. offers over 630 daily flights to 58 destinations connecting the most important cities in Brazil as well as the main destinations in Argentina, Bolivia, Chile, Paraguay, Peru and Uruguay.
