1. OPERATIONS

Companhia de Saneamento Básico do Estado de São Paulo - Sabesp (the Sabesp or Company) is a mixed-capital company headquartered in São Paulo, controlled by the São Paulo State Government. The Company is engaged in the provision of basic and environmental sanitation services, and supplies treated water on a bulk basis and provides sewage treatment services for another six municipalities of the Greater São Paulo Metropolitan Area.

In addition to providing basic sanitation services in the State of São Paulo, SABESP may perform these activities in other states and countries, and can operate in drainage, urban cleaning, solid waste handling and energy markets. The new Sabesp vision sets forth as objective to be recognized as the company that has universalized the Sanitation services in its area of operation, focused on the customer, in a sustainable and competitive way, with excellence in environmental solutions.

The Company operates water and sewage services in 366 municipalities in the State of São Paulo, having temporarily discontinued operations in two of these municipalities due to court orders under ongoing lawsuits. In most of these municipalities operations are based on 30-year concession agreements. As of March 31, 2010, 88 concessions have expired and are being negotiated. From 2010 to 2030, 74 concessions will expire, and the remaining concessions have an indefinite term. By March 31, 2010, 175 program contracts had been signed.

Management expects that the referred concessions will be renewed or extended, thus there will not be a discontinuity of the water supply and sewage collection in these municipalities. On March 31, 2010 the net book value of the property, plant and equipment used in the 88 municipalities where the concessions are under negotiation totals R\$2,275 million and the net revenues for the period ended on March 31, 2010 totals R\$259 million.

In the municipality of Santos, in the coastal region, which has a significant population, the Company operates supported by a public authorization deed, a similar situation in other municipalities in that region and in the Ribeira valley, where the Company started to operate after the merger of the companies that formed it.

The important changes in regulation of the sanitation sector occurred in 2007 generated new challenges and opportunities for Sabesp. 06.01 - EXPLANATORY NOTES

On March 31, 2010 and December 31, 2009, 2,584 and 2,597 retirees, respectively, received supplemental pension payment, being that in the quarters ended on March 31, 2010 and December 31, 2009, the Company paid R\$26,415 and R\$36,764, respectively. There were 39 active employees on March 31, 2010 that will justify these benefits on occasion of their retirement, as compared with 91 employees in December 31, 2009.

In January, 2004, the supplemental pension and retirement pension payments were transferred to the Secretary of Treasury, and they would be made in accordance to calculation criteria defined by the PGE. Due to a judicial decision, the responsibility for the payments returned to Sabesp, under the original form.

(iii) Gesp Agreement

On December 11, 2001 the Company, Gesp (by means of the State Secretary of Treasury Affairs, currently the Secretary of Treasury) and the Departamento of Água e Energia Eletrica - DAEE, with the intermediation of the Secretary of Hydro Resources, Sanitation and Works, currently the Secretary of Sanitation and Energy, entered into the Term of Acknowledgement and Consolidation of Obligations, Payment Commitment and Other Covenants (the Gesp Agreement) with the purpose to resolve the outstanding issues existing between the Gesp and the Company related to the services of water and sewage as to the Benefits.

The total agreement was R\$678,830, at cost value, being (i) R\$320,623 referring to the Benefits paid by the Company and not reimbursed by the State during the period from March, 1986 to November, 2001, and (ii) R\$358,207 arising from the provision of water supply and sewage collection services, invoiced and past due from 1985 to December 01, 2001, but not paid by the Gesp.

Having in view the strategic importance of the reservoirs of Taiacupeba, Jundiai, Biritiba, Paraitinga and Ponte Nova (Reservoirs), to guarantee the maintenance of the water volume of Alto Tiete, the Company agreed to received them as part of the reimbursement referring to the Benefits. The Reservoirs would be transferred to it by the DAEE, which, on its turn, would subrogate itself in credit of the same amount before the Gesp.

However, the State of Sao Paulo s Attorney s Office questioned the legal validity of this agreement, by means of public civil action, which main argument is the lack of specific legislative authorization for disposal of the DAEE s assets. The Company s legal counsels assess the risk of loss in this lawsuit as probable, if the mentioned legislative authorization is not obtained, thus would hinder the transfer of the related reservoirs as a partial settlement of the balance receivable.

The balances of services of water supply and sewage collection were included into the First and Second Amendments as described on items (iv) and (v). The balances referring to the reimbursement of the supplement of retirement and pension plan were included into the Term of Commitment between the State of Sao Paulo and Sabesp, as described on items (vi) and (vii).

(iv) First Amendment to the Gesp Agreement

On March 22, 2004, the Company and the State Government amended the terms of the original GESP Agreement, thereby (1) consolidating and acknowledging amounts due from the State Government for water and sewage services, monetarily adjusted through February 2004; (2) formally providing for the offset of amounts due from the State Government against interest on shareholder s equity declared by the Company and any other debt owed to the State Government at December 31, 2003, which were monetarily adjusted through February 2004; and (3) defining the payment terms of the remaining obligations of the State Government for water and sewage services.

06.01 - EXPLANATORY NOTES

Pursuant to the Amendment, the State Government recognized the amounts due to the Company for water supply and sewage collection services provided until February 2004 in the amount of R\$581,779, including monetary adjustment based on the Benchmark interest Rate (TR) at the end of each year until February 2004. The Company recognized amounts payable to the State Government related to interest on capital in the amount of R\$518,732, including (1) amounts declared and paid related to years previous to 2003 (R\$126,967), (2) monetary adjustment of these amounts based on the annual variation of the Consumer Price Index (IPC/Fipe) until February 2004 (R\$31,098); and (3) amounts declared and due related to 2003 (R\$360,667).

The remaining obligation will be payable in monthly installments from May 2005 through April 2009, which will be subject to monthly monetary adjustment at the Expanded Consumer Price Index (IPCA/IBGE), plus 0.5% p.m.

The Amendment to the GESP Agreement does not provide for amounts owed by the State Government for supplementary retirement and pension plan benefits, paid by the Company on behalf of the State Government. Such amounts continue to be subject to the terms of the original GESP Agreement.

(v) Second Amendment to the Gesp Agreement

On December 28, 2007, the Company and the State of São Paulo, by means of the Secretary of Treasury signed the second amendment to the terms of the original Gesp agreement, (1) agreeing with the payment is installments of the remaining balance of the First Amendment, in the amount of R\$133,709 (amount in November 30, 2007) to be paid in 60 equal, monthly and consecutive installments, the first one fell due on January 02, 2008. The amount of the installments is monetarily adjusted according to the variation of the IPCA-IBGE, added by simple interests of 0.5% per month. In the balance of this agreement, which installments have been paid monthly, there is an amount of R\$46,244 that the State does not recognize as due. Sabesp has an understanding different from the State regarding this

amount, not admitting the review of these previously agreed upon values, without the demonstration, in a grounded and unmistakable way, of the lack of correspondence between the amounts presented by Sabesp and the services effectively provided. (2) with regards to the past due and unpaid accounts in the period from March, 2004 to October, 2007, resulting from the provision of water and collection of sewage services in the total of R\$256,608, R\$236,126 have been received and R\$8,093 were transferred to other debtor and R\$12,389, object of discrepancies about the validation were submitted to ARSESP and are under analysis. Up to the moment, divergences as to the debtor have been identified, although not regarding the amount of the debt. In case of reclassification of the person responsible for paying the bill, Sabesp transferred the collection to the corresponding Entity. (3) the interests on shareholders' equity due by Sabesp to the State, referring to the period from March, 2004 to December, 2006, in the amount of R\$400,823, restated from June, 2007 to November, 2007 by the Selic rate, were paid in the period from January to March, 2008, (4) the State and Sabesp agreed upon resuming the fulfillment of their reciprocal obligations, timely, under the new premises: (a) implementation of the accounts electronic management system to facilitate and speed up the follow-up of the payment processes and the procures of budgeting management; (b) structuring of the Programa de Uso Racional de Agua - PURA, to rationalize the consumption of water and the amount of the water and sewage bills of the responsibility of the State; (c) the establishment, by the State, of criteria in the budgeting of a way to avoid the displacement of amounts in the specific line of water and sewage bills as of 2008; (d) possibility of registration of state entities and bodies in a default system or master file; (e) possibility of interruption of the supply of water to the state entities in case of default in the payment of water and sewage bills.

06.01 - EXPLANATORY NOTES

Out of the invoicing of the months of November, 2007 to March, 2010, approximately 96% of the accounts have already been paid by the State Government.

(vi) Third Amendment to Gesp Agreement

Gesp, Sabesp and DAEE, on November 17, 2008, entered into the Third Amendment to the Term of Agreement of Payment Commitment, and Other Agreements, where the State confesses to owe Sabesp the amount of R\$915,251, monetarily adjusted until September, 2008 by the IPCA-IBGE, corresponding to the Uncontroversial Amount, calculated by FIPECAFI. Sabesp accepts temporarily the Reservoirs as part of the payment of the Uncontroversial Amount and offers to the State a temporary settlement, constituting a financial credit of R\$696,283, corresponding to the value of the Reservoirs. The definitive settlement will only occur with the effective transfer of property in the relevant real estate notary. The remaining balance of R\$218,967 is being paid in 114 monthly and consecutive installments, in the amount of R\$1,920 each, restated annually by the IPCA/FIPE, added by interests of 0.5% p.m., the first of which fell due on November 25, 2008.

Sabesp and the State are working together on obtaining a legislative authorization in order to make viable the transfer of the Reservoirs to Sabesp, thus overcoming the juridical uncertainty caused by the Public Civil Action, mentioned in item (iii). After publication of the legislative authorization, the transfer of the Reservoirs to Sabesp will occur.

The Third Amendment also provides for the regularization of the monthly flow of benefits. While Sabesp is responsible for the monthly payments, by judicial decision, the State reimburses the Company based on criteria identical to those applied to the Uncontroversial Amount. In the absence of a impeditive judicial decision, the State will directly assume the flow of the portion of monthly payments of the part considered uncontroversial.

(vii) As mentioned above, on November 17, 2008 the Company and the State executed the 3rd Amendment to GESP Agreement, in such occasion that the amounts called controversial and uncontroversial have been quantified. In such Amendment, efforts have been set in order to resolve what was called as Controversial Amount of Benefits. According to the fourth clause of this instrument, the Controversial Amount is represented by the difference between the Uncontroversial Amount and the amount effectively paid by the Company as supplemental retirement and pension benefits provided for Law 4819/58, under the original responsibility of the State of Sao Paulo, in the Company's understanding, although paid by Sabesp until May, 2008, due to judicial order.

In executing the Third Amendment, an appreciation of the divergences that gave rise to the controversial amount of the benefits provided by Law 4819/58 has been provided. Such expectation was, at that time, based on the State's Legal Representative (PGE) will to reanalyze the matter and also, in the Company's understanding, to the reimbursement based on external legal opinions.

However, recent opinions issued by PGE and received on September 4th and 22nd, 2009 and on January 4th, 2010, once again denied the reimbursement of the larger portion of this amount. As a consequence, the management's understanding has been changed about receiving the Controversial Amount upon a direct negotiation with the State.

06.01 - EXPLANATORY NOTES

Although the negotiations with the State are still underway, it is no longer possible to ensure that the Company will recover, in an entirely amicable way, the credits related to the Controversial Amount.

Sabesp will not waiver to the credits that the Company considers being legitimate holder against the State. In this sense, it shall exhaust all possibilities to resolve the question in the technical and legal levels. If the divergence persists, the Company shall adopt all necessary measures to safeguard the Company's interests.

In this context, the Company's management decided to recognize net income for 2008 an allowance for the impairment of the disputed reimbursement. As of March 31, 2010, this allowance totals R\$483,800. As a consequence of the recognition of this allowance, it was also recognized the obligation related to the actuarial commitment maintained with the beneficiaries, which right has been denied by the State, under the way it is paid by Sabesp. As of 31, 2010, the obligation totals R\$520,055 (December 31, 2009 - R\$518,027). For detailed information on the actuarial obligation refer to note 13.

(b) Cash and cash equivalents

The Company's balance of banks and short-term investments accounts with financial institutions controlled by the State Government was R\$ 813,594 and R\$ 722,170 on March 31, 2010 and December 31, 2009, respectively. The financial income from such investments was R\$ 17,704 and R\$ 25,157 in the first quarter of 2010 and 2009, respectively. 6. INDEMNIFICATIONS RECEIVABLE

Indemnities receivable are a non-current asset that represents amounts receivable from the Municipalities of Diadema and Mauá as an indemnity for their unilateral termination of the concessions for water supply and sewage collection services of the Company in 1995. As of March 31, 2010 and December 31, 2009, this asset amounted to R\$ 146.213 (nominal amounts).

Due to these concession agreements, the Company invested in the construction of water and sewage systems in those municipalities in order to meet its concession service commitments. For the unilateral termination of the Diadema and Mauá concessions, the municipalities assumed the responsibility of supplying water and sewage services in those regions. At that time, the Company reclassified the balances of property, plant and equipment related to the assets used in those municipalities to non-current assets (indemnities receivable).

The net book value of the items of property, plant and equipment related to the Municipality of Diadema, reclassified in December, 1996, was R\$75,231, and the balance of the indemnifications receivable from the Municipality was R\$60,295.

The net book value of the items of property, plant and equipment related to the Municipality of Maua, reclassified in December, 1999, was R\$103,763, and the balance of the indemnifications receivable from the Municipality was R\$85,918.

The Company's rights to the recovery of these amounts are being judicially discussed by the municipalities.

Sabesp filed lawsuits to collect the amounts due by the municipalities. With regards to Diadema, the execution of the agreement entered with Diadema's Mayor Office and the Companhia de Saneamento de Diadema - Saned, has started for the payment of the indemnification, the judge of first level accepted the appeals of the Mayor's Office and extinguished the execution. Sabesp filed an appeal against such sentence and, in December, 2005, partial approval to this appeal was granted to declare the validity of the agreement and determine that the appeals to the execution were once again judged in first level. On December 2007, the decision that accepted the execution of the Saned was rendered, ordering this company to be summoned to pay the full amount of the debt within 15 days under the penalty of fine. The realization of the pledge in cash was approved on Saned's bank accounts and financial investments (online pledge) up to 10% of the restated amount of the debit, being blocked and withdrawn the amount of R\$2,919 in March 3rd, 2009. Later, the Court of Justice determined that the pledge be made upon weekly deposit by Saned of the amount corresponding to 20% on all it receives in its bank accounts and financial investments, such decision still being subject of appeal. Regarding Diadema Mayor's Office, a new sentence was given to the appeals to the execution, on October, 2009, recognizing the existence of the right to claim the debt, and affirming that the execution against the Municipality shall be made upon precatory notes (and not by pledge). Sabesp and the Mayor's Office have appealed against such judgment.

On December 29, 2008, Saned and the municipality of Diadema entered into, with the State of Sao Paulo and Sabesp, a Memorandum of Intent with the purpose to prepare studies and conduct negotiations to instruct decisions of Diadema and Sabesp, aiming at the exclusive provision of water and sewage services in the municipality of Diadema.

06.01 - EXPLANATORY NOTES

The parties agreed that the search for a negotiated solution for the currently existing conflicts among the companies is fundamental so that the public service of water supply, sewage collection and treatment have their proper development in Diadema.

On January, 2009 the parties presented joint petition requesting the suspension of new pledges for the period of three months in order to try to make an agreement viable. The suspension was granted by the Judge of Public Treasury and, successively renewed, being the last renewal occurred on April, 2010 in face of negotiations for agreement.

With regards to Mauá, a first level decision was given determining that the Municipality pays the amount of R\$153.2 million as compensation for the damages caused and for loss of profits. The Maua's City Hall appealed against this decision. On July 2006, the decision was converted in diligence consisting of an expert clarification on the amount of the indemnity for loss of profits and the expert confirmed the amount of the loss of profits determined by the lower court. In August, 2008, the appeal was judged, having fully maintained the conviction imposed in the first level. The Maua Mayor's Office filed special and extraordinary appeals against the sentence that confirmed its conviction to indemnify Sabesp. Both appeals were not accepted by the Court of Justice, causing the filing of appeals to the Superior Court of Justice and to the Supreme Court.

Based on the opinion of the legal counsels, Management continues to affirm that the Company has legal right to receive the amounts corresponding the indemnification and it continues to monitor the situation of the lawsuits.

In order to obtain the market values of Financial Instruments, the following criteria have been adopted:

(i) Debentures are financings considered by the nominal amount restated up to the maturity date, discounted to present value at the forward interest market rates, disclosed by Anbima in the secondary market, having as basis March 31, 2010 and the Company's security traded in the domestic market.

(ii) Financings - BNDES, those are instruments considered by the nominal amount restated up to the maturity date, that have as characteristics the indexation to the TJLP, which is a specific modality, not being compared to no other market rate.

Therefore, the Company's choice was to publish as market value the amount accounted as of March 31, 2010.

(iii) Other financings in national currency are considered by the nominal amount restated up to the maturity date, discounted to present value at the forward interest market rates. The forward rates used were obtained at the BM&F website.

Additionally, the Company has an instrument indexed to the YEN [JICA (Note 10)], which, in addition of the premises above, was considered in the conversion to present value the parity of the original currency of the instrument related to the dollar.

(b) Market risks

(i) Foreign exchange rate risk

This risk results from the possibility of the Company in incur losses on account of fluctuations in the foreign exchange rates that impact the balances of loans and financings in foreign currency funded in the market and, consequently, the financial expenses. The Company does not maintain hedge or swap operations, however, the company performs an active management of the debt, seeking to reduce the exposure in foreign currency, taking advantage of the windows of opportunity, to exchange expensive debts to cheaper debts, reducing the cost by means of anticipation of the maturity dates.

A significant portion of the Company's financial debt was linked to the US dollar and to the Yen, in the total amount of R\$1,777,499 (Note 10). The table below summarizes the Company's exposure to exchange rates at March 31, 2010.

	In thousands	
	US\$	Japanese Yen
Loans and financing	757,680	21,316,000

(ii) Interest rate risk

This risk arises from the possibility that the Company may incur losses due to interest rate fluctuations and indices that increase their interest expenses on loans and financing. The Company has not entered into any derivative contract to hedge against this risk; however, it continually monitors market interest rates, in order to evaluate the possible need to replace its debt. As of March 31, 2010, the Company had R\$1,717,209 in loans and financing which were obtained at variable interest rates (CDI and TJLP).

Another risk faced by the Company is the lack of correlation between the monetary adjustment indices of its debt and those of its receivables. Water supply and sewage treatment tariffs do not necessarily follow the increases in the interest rates affecting the Company's debt.

(iii) Credit risk

Credit risk is mitigated by selling to a geographically dispersed customer base.

(c) Sensitivity analysis

Following is presented the table demonstrating the sensitivity analysis of the financial instruments that may generate significant impacts to the Company.

Under the terms of CVM instruction 475/08, in order to demonstrate the amounts of the main financial liabilities converted at a projected rate for final settlement of each contract, converted to fair value (Scenario I) with 25% appreciation (Scenario II) and 50% appreciation (Scenario III).

In the 1Q10, the net operating revenue totaled R\$1.8 billion, 6.0% growth in relation to 1Q09. Costs and expenses, in the amount of R\$1.0 billion suffered a 13.3% in relation to the previous quarter. EBITDA was R\$862.4 million in the 1Q10 and R\$623.6 million in the 1Q09, with a decrease of 38.3%.

EBIT presented 55.5% decrease, going from R\$462.0 million in the 1Q09 to R\$718.5 million in the 1Q10.

The result of the 1Q09 was particularly affected by the accounting record of R\$146.6 million corresponding to the amounts that will be paid as severance payments to the retirees that will leave the company between 2009 and 2011, in obedience to the Conduct Adjustment Term (TAC). If discounted the TAC effect in the 1Q09, the EBITDA would go from R\$623.6 million to R\$770.2 million with the margin going from 37.7% to 46.6%. Even discounting such effect, the EBITDA margin of the 1Q10 exceeds the margin achieved in the 1Q09.

2. Gross operating revenue

In the 1Q10, the gross operating revenue presented a decrease of R\$106.2 million, or 6.0%, going from R\$1.8 billion in the 1Q09 to R\$1.9 billion in the 1Q10. The main factors responsible for this growth were the 4.43% tariff adjustment applied since September/09 and the growth of the volume billed in the company's total of 3.8%, being the variance of 3.3% in water and 4.6% in sewage.

3. Volume invoiced

In the following charts are demonstrated the volumes invoiced of water and sewage, according to the category of use and region, in the 1Q09 and 1Q10.

07.01 - COMMENTS ON THE COMPANY'S PERFORMANCE IN THE QUARTER

4.1. Salaries and payroll charges

In the 1Q10 occurred an increase of R\$165.8 million or 34.0% in salaries and payroll charges, going from R\$488.0 million to R\$322.2 million as a result of the following factors:

- Decrease of R\$ 163.1 million referring to TAC in the 1Q09 (non recurring), comprised by previous notice, FGTS (unemployment fund) penalty and payroll charges.
- Decrease of R\$ 5.0 million in salaries, as a consequence of the layoffs occurred in the 1Q09.

4.2. Treatment materials

The expenses in the 1Q10 were lower than those of 1Q09 by R\$2.7 million or 7.0%, going from R\$38.8 million in the 1Q09 to R\$36.1 million in the 1Q10. The main reasons were the lower consumption of ferrous sulfate and reduction of the consumption of aluminum polychloride in the producing systems of Cantareira, Alto Tiete and Alto Cotia in function of the improvement in the quality of the water.

4.3. Services

In the 1Q10 this item presented increase of R\$33.7 million or 18.5%, going from R\$181.7 million to R\$215.4 million. The main factors that contributed to this variation were:

- Expenses related to the Public Private Partnership PPP Taiacupeba in the amount of R\$ 10.1 million;
