Summarized Analysis of Adjusted Income

Adjusted Net income and Profitability

In the first quarter of 2013, Bradesco posted adjusted net income of R\$2,943 million, up 0.9%, or R\$25 million, on the previous quarter, mainly driven by: (i) lower operating expenses, thanks to continuous efforts in cost control, pointing out the actions taken by our Efficiency Committee; (ii) higher insurance operating income; (iii) lower allowance for loan loss expenses; (iv) lower financial margin, as a result of reduced interest financial margin, mainly due to the new interest rate policy for the credit card segment, and non-interest financial margin; and (v) lower fee and commission income.

In the year-over-year comparison, adjusted net income increased by R\$98 million, or 3.4%, in the first quarter of 2013, for Return on Adjusted Average Shareholders' Equity (ROAE) of 19.5%.

Shareholders' Equity stood at R\$69,442 million in March 2013, up 19.6% over the same period of 2012. This increase is partially due to the surplus value of some securities reclassified from Held to Maturity to Available for Sale for adoption of CPCs 38 and 40 by the Insurance Group. The Capital Adequacy Ratio stood at 15.6%, 11.0% of which fell under Tier I Reference Shareholders' Equity.

Total Assets came to R\$894,467 million in March 2013, up 13.3% over March 2012, driven by the increase in operations and the expansion of business volume. Return on Average Assets (ROAA) came to 1.3%.

Efficiency Ratio (ER)

The “adjusted to risk” ER, which reflects the impact of risk associated with loan operations⁽²⁾, reached 52.6% in the first quarter of 2013, a 0.1 p.p. increase over the previous quarter, mainly due to the decrease of delinquency costs in the period.

The ER in the last 12 months⁽¹⁾ remained stable at 41.5% over the previous quarter.

Quarterly ER decreased from 42.5% in the fourth quarter of 2012 to 40.9% in the first quarter of 2013, mainly due to: (i) lower personnel expenses, chiefly as a result of more vacation requests in the quarter; and (ii) lower administrative expenses, mainly due to: (a) the seasonality in the previous quarter, which affected mainly marketing and advertising expenses; and (b) the continuous cost control in the quarter.

(1) $ER = (\text{Personnel Expenses} - \text{Employee Profit Sharing} + \text{Administrative Expenses}) / (\text{Financial Margin} + \text{Fee and Commission Income} + \text{Income from Insurance} + \text{Equity in the Earnings (Losses) of Unconsolidated Companies} + \text{Other Operating Income} - \text{Other Operating Expenses})$. Considering the ratio between: (i) total administrative costs (Personnel Expenses + Administrative Expenses + Other Operating Expenses + Tax Expenses not related to revenue generation + Insurance Selling Expenses) and (ii) revenue net of related taxes (not considering Claims and Selling Expenses from the Insurance Group), our ER in the first quarter of 2013 would be 44.6%; and

(2) Including ALL expenses, adjusted for granted discounts, loan recovery and sale of foreclosed assets, among others.

Financial Margin

The R\$403 million decrease between the first quarter of 2013 and the fourth quarter of 2012 was mainly due to lower gains from the: (i) non-interest margin, in the amount of R\$234 million, due to lower gains from the market arbitrage; and (ii) interest margin, in the amount of R\$169 million, due to lower gains from the “Loan” margin, mainly due to the new interest rate policy for the credit card segment.

Financial margin posted a R\$11 million improvement between the first quarter of 2013 and the same period in 2012, driven by: (i) the R\$287 million increase in income from interest-earning operations due to an increase in business volume, mainly from “Loan” and “Securities/Other;” and (ii) the lower result from the non-interest margin, in the amount of R\$276 million, due to lower gains from the market arbitrage.

Expanded Loan Portfolio⁽¹⁾

In March 2013, Bradesco's expanded loan portfolio totaled R\$391.7 billion, which was up 1.6% in the quarter, due to: (i) a 1.8% growth in Corporations; (ii) a 1.5% growth in Small and Medium-sized Entities (SMEs); and (iii) a 1.4% growth in Individuals.

In the last 12 months, the expanded loan portfolio increased 11.6%, driven by: (i) 15.6% growth in Corporations; (ii) 9.7% growth in SMEs; and (iii) 8.7% growth in Individuals.

To the Individuals segment, the products that posted the strongest growth in the last 12 months were: (i) real estate financing; and (ii) payroll-deductible loans. To the Corporate segment, the main products were: (i) export financing; and (ii) real estate financing – corporate plan.

Allowance for Loan Losses

In the first quarter of 2013, ALL expenses came to R\$3,109 million, down 3.1% from the previous quarter, even considering the 2.4% growth in the loan portfolio – as defined by Bacen in the period. This result was due to the reduction in delinquency level, despite the typical higher delinquency in the first months of the year.

In the year-over-year comparison, this expense remained practically stable, even considering the

Summarized Analysis of Adjusted Income

Due to the concentration of pension plan contributions, which historically occur in the last quarter of the year, revenue did not have the same performance as that recorded in the fourth quarter of 2012.

Net income for the first quarter of 2013 was down 3.5% over the previous quarter, mainly due to: (i) the 17.1% decrease in revenue, as mentioned above; (ii) the decrease in equity income; and partially impacted by: (iii) the 0.9% decrease in claims ratio; and (iv) the decrease in the general and administrative expenses, already considering the sector's collective bargaining agreement in January 2013.

In the year-over-year comparison, issued premiums, pension plan contributions and capitalization bond income increased by 16.3%.

driven by the performance of the "Life and Pension Plan," "Capitalization Bond" and "Health" products, that posted an over two-digit growth in the period.

Net income for the first quarter of 2013 was up 2.8% over that of the previous year, due to: (i) a 16.3% increase in revenue; (ii) a 2.3 p.p. decrease in the claims ratio; and (iii) the increase in the administrative efficiency ratio, already considering the sector's collective bargaining agreement in January 2013.

Grupo Bradesco Seguros complies with the regulatory requirements, also complying with global standards (Solvency II), with a leverage of 2.4 times its Shareholders' Equity in the period.

Fee and Commission Income

In the first quarter of 2013, fee and commission income came to R\$4,599 million, down R\$76 million over the previous quarter, mainly due to the excellent performance of underwriting / financial advisory revenues in the fourth quarter of 2012.

In the year-over-year comparison, the increase of R\$481 million, or 11.7%, in the first quarter of 2013 was mainly due to: (i) the performance of the credit card segment, driven by the growth in revenue and transactions; (ii) higher income from checking accounts, which was a result of a better business volume and an increase in the checking account holder base, which posted net growth of 459 thousand active accounts in the period; (iii) greater income from collections; (iv) greater income from fund management, whose volume of assets and portfolios under management increased by 26.2% in the period; (v) greater income from consortium management; and (vi) expansion and modernization of customer service channels, facilitating access and increasing the number of transactions.

Personnel Expenses

In the first quarter of 2013, the R\$83 million decrease from the previous quarter was mainly composed of the variation in structural expenses, due to the typical concentration of vacations in the first quarter of each year.

In the year-over-year comparison, the R\$181 million increase in the first quarter of 2013 was mainly due to:

- the R\$139 million increase in structural expenses, resulting from greater expenses with salaries, social charges and benefits, due to raise in salary levels, as per collective bargaining agreements; and
- the R\$42 million increase in non-structural expenses, mainly due to greater expenses with: (i) provision for labor claims; and (ii) management and employee profit sharing.

Note: Structural Expenses = Salaries + Social Charges + Benefits + Pension Plans.

Non-Structural Expenses = Employee and Management Profit Sharing + Training + Labor Provision + Costs with Termination of Employment Contracts.

Summarized Analysis of Adjusted Income

Administrative Expenses

In the first quarter of 2013, the 8.0% decrease in administrative expenses from the previous quarter was mainly due to: (i) the seasonality in the fourth quarter of 2012, which affected: (a) marketing and advertising expenses; and (b) businesses and services volume; and (ii) continuous efforts in cost control, pointing out the actions taken by our Efficiency Committee.

Despite the greater expenses with (i) the opening of 6,769 service points in the period, mainly the opening of 5,533 *Bradesco Expresso* points, for a total of 69,528 service points on March 31, 2013, and (ii) the increase in businesses and service volume in the period, the administrative expenses increased only 1.6% year over year and quarter over quarter, resulting from the Efficiency Committee efforts to control these expenses.

Other Operating Income and Expenses

Other operating expenses, net of other operating income, totaled R\$1,170 million in the first quarter of 2013, up R\$40 million over the previous quarter, and R\$174 million in comparison with the same period in 2012.

The abovementioned increases were mainly the result of greater expenses with: (i) operating provisions, particularly those for civil contingencies; (ii) amortization of intangible assets; and (iii) sundry losses.

Summarized Analysis of Adjusted Income

Income Tax and Social Contribution

Income tax and social contribution increased 3.4% in comparison with the previous quarter and 4.8% in the year-over-year comparison, mainly due to the increase in taxable result.

Unrealized Gains

Unrealized gains totaled R\$20,326 million in the first quarter of 2013, a R\$4,554 million decrease from the previous quarter. This was mainly due to the depreciation of fixed-income securities due to mark-to-market accounting.

Press Release

Economic Scenario

The beginning of 2013 was characterized by the significant decrease in financial rupture risks felt throughout the past year. The lower probability of occurring extreme events has a positive influence on the economic agents' expectations, contributing to the world's economic activity recovery for the coming quarters. At the same time, however, structural issues not yet definitively addressed are cause for concerns.

The euro zone remains on the spotlight. The recent difficulties to establish a new government in Italy and the banking crisis in Cyprus fueled the uncertainties about the future. In the United States, the imminent risk of recession was overcome by the partial resolution of the fiscal cliff in the beginning of the year, but the discussions on growth remain under the "budget sequestration" in a moment when the U.S. Congress is in a deep political polarization.

In China, the future performance of the real estate market is still the focus of attention to analysts, despite the calm political transition and the signs that the worst phase of the economic slowdown has passed.

In Brazil, evidence of the economic growth acceleration could be perceived in the first quarter of 2013, thanks to the domestic stimulus arising from the economic policy adopted in the last months. This evidence is even more favorable with the resumption of the productive investments, which strongly dropped in 2012.

The return to normal industrial and retail inventories should permit the resumption of manufacturing production in the coming periods, against a backdrop of strong growth in family consumption, fueled by the expansion of jobs and income. The excellent domestic agricultural and livestock prospects, especially the soybean and corn crops, are also worth emphasizing, as is their positive impact on the economies of small and medium-sized cities. The robust agricultural production tends to bring benefits in terms of balance of trade and inflation.

Brazil continues to make institutional progress, exemplified by the recent adoption of new policies addressing structural issues, such as the infrastructure concession program and production cost reduction. In the coming years, pre-salt exploration and the hosting of major sports events represent a privileged set of opportunities that are only available to a select group of nations, of which Brazil is part.

Given all these favorable prospects, it is vital to maintain the kind of healthy macroeconomic policies whose implementation over the past two decades has resulted in decreased volatility and increased growth, providing for a more equitable income distribution and unprecedented social inclusion. Regarding challenges, quality education is one of Brazil's priorities in an increasingly competitive global environment and labor shortage in several segments.

Despite the challenges faced by the domestic economy in pursue of higher sustainable growth rate, Bradesco is maintaining its positive long-term outlook for the country. With interest rates at an all-time low levels, the volume of credit is growing at rates that are both sustainable and risk-compatible, a factor that has set the national financial system apart from those in several other countries. As a result of the intense and ongoing upward social mobility of the last years, the prospects for the banking and insurance sectors remain highly favorable.

The first quarter of 2013 had a financial margin of R\$10,706 million, down 3.6%, or R\$403 million, when compared to the fourth quarter of 2012. This variation was due to: (i) lower non-interest margin, totaling R\$234 million, mainly due to lower gains from market arbitrage; and (ii) an R\$169 million decrease in interest margin, due to lower results from “Loan” margin, arising from the new interest rate policy for the credit card segment.

Year over year, financial margin for the first quarter of 2013 grew by R\$11 million, as a result of: (i) a R\$287 million increase in interest margin, of which: (a) R\$861 million corresponds to the increase in volume of operations, led by “Securities/Other;” partially minimized by: (b) R\$574 million in spread; and partially offset by: (ii) a R\$276 million decrease in non-interest financial margin, due to lower gains from market arbitrage.

In the first quarter of 2013, interest financial margin stood at R\$10,509 million, down R\$169 million over the R\$10,678 million in the fourth quarter of 2012. The business lines that most contributed to this result were: (i) Loan; and (ii) Funding.

Between the first quarter of 2013 and the same period in 2012, interest financial margin increased 2.8%, or R\$287 million. The business lines that most contributed to this increase were: (i) Loan; (ii) Insurance; and (ii) Securities/Other.

Economic and Financial Analysis**Financial Margin - Interest****Interest Financial Margin - Rates**

The annualized interest financial margin rate stood at 7.2% in the first quarter of 2013, posting a slight 0.1 p.p. decrease in relation to the previous quarter, mainly due to the decrease in the average "Loan" margin rate, which was impacted by lower interest rates, combined with the change in the loan portfolio mix.

In the first quarter of 2013, financial margin with loan operations reached R\$7,414 million, down 1.5% or R\$113 million over the fourth quarter of 2012. The variation is the result of: (i) the decrease in average spread, in the amount of R\$207 million, impacted by the new interest rate policy for the credit card segment; and partially offset by: (ii) the increase in average business volume, in the amount of R\$94 million.

Year over year, the financial margin for the first quarter of 2013 grew 3.2%, or R\$233 million, resulting from: (i) a R\$646 million increase in the volume of operations; and offset by (ii) the decrease in average spread, amounting to R\$413 million, mainly affected by: (a) the drop in interest rates used; and (b) the change in the loan portfolio mix.

Economic and Financial Analysis

Loan Financial Margin - Interest

Loan Financial Margin - Net Margin

The graph above presents a summary of loan activity. The Gross Margin line refers to interest income from loans, net of opportunity cost (a specific rate by type of operation and term).

The ALL curve shows delinquency costs, which are represented by Allowance for Loan Losses (ALL) expenses, plus discounts granted in transactions net of loan recoveries, arising from the sale of foreclosed assets, among other.

In the first quarter of 2013, the net margin curve, which refers to loan interest income net of ALL, remained virtually stable over the previous quarter. In the year-over-year comparison, the curve was up 5.3%, mainly impacted by: (i) the reduction in delinquency costs; and (ii) the increase in business volume.

(4) Letters of credit: R\$1,401 million in March 2013, R\$1,629 million in December 2012 and R\$1,556 million in March 2012.

Operations bearing credit risk for corporate customers grew by 1.7% in the quarter and 13.0% in the last 12 months. The main highlights in the quarter were: (i) export financing and (ii) overdraft account. In the last 12 months, the growth was led by: (i) export financing; and (ii) real estate financing – corporate plan.

Expanded Loan Portfolio - Consumer Financing

The graph below shows the types of credit related to Consumer Financing of individual customers (CDC/vehicle leasing, personal loans, financing of goods, revolving credit card and cash and installment purchases at merchants).

Consumer financing totaled R\$88.6 billion, up 0.4% in the quarter and 6.7% in the last 12 months. Growth was led by: (i) vehicle financing (CDC/Leasing) (R\$30.1 billion); and (ii) payroll-deductible loans (R\$22.5 billion), which together totaled R\$52.6 billion, accounting for 59.3% of the consumer financing balance. Given their guarantees and characteristics, these products provide a rather lower level of credit risk to this group of operations.

Loan Financial Margin - Interest

The charts below refer to the Loan Portfolio, as defined by Bacen.

Loan Portfolio⁽¹⁾ - By Flow of Maturities

The maturities of performing loans were slightly longer in March 2013, mainly due to the higher volume of BNDES onlending and real estate financing. Note that, due to their guarantees and characteristics, these operations are exposed to lower risk, in addition to providing favorable conditions to gain customer loyalty.

Loan Portfolio⁽¹⁾ - Delinquency over 90 days

Total delinquency ratio over 90 days had a slight reduction in the quarter and in the last 12 months, maintaining an improvement in a gradual downward trend, mainly due to the 0.2 p.p. decrease in Individuals.

As shown in the graph below, the total delinquency ratio for operations overdue from 61 to 90 days remained stable in the quarter and had a slight decrease over the last 12 months.

Allowance for Loan Losses (ALL) x Delinquency x Losses⁽¹⁾

The ALL of R\$21.4 billion, representing 7.2% of the total portfolio, comprises the generic provision (customer and/or operation rating), the specific provision (non-performing loans) and the excess provision (internal criteria).

Bradesco has appropriate provisioning levels that are also sufficient to support possible changes in scenarios, such as higher delinquency levels and/or changes in the loan portfolio profile.

It is worth mentioning the assertiveness of adopted provisioning criteria, which is proven by: (i) analyzing historical data on recorded allowances for loan losses; and (ii) effective losses in the subsequent twelve-month period, i.e., for an existing provision of 7.5% of the portfolio⁽¹⁾, in March 2012, the effective gross loss in the subsequent twelve-month period was 4.8%, meaning the existing provision exceeded the loss over the subsequent twelve-month period by more than 56%, as shown in the graph below.

Interest - due to volume				(20)	(14)
Interest - due to spread				(28)	(205)
Interest Financial Margin	949	997	1,168	(48)	(219)

Quarter over quarter, interest funding financial margin decreased 4.8%, or R\$48 million, as a result of: (i) the lower volume of funds raised that negatively affected this margin by R\$20 million; and (ii) the R\$28 million decrease in average spread, due to the interest rate decrease in the period (Selic).

In the first quarter of 2013, interest funding financial margin was R\$949 million against the R\$1,168 million in the same period of 2012, down by 18.8% or R\$219 million, mainly driven by: (i) the lower average volume of funds raised, totaling R\$14 million; and (ii) the R\$205 million decrease in average spread, due to the interest rate decrease in the period (Selic).

Economic and Financial Analysis

Funding Financial Margin - Interest

Loans vs. Funding

To analyze Loan Operations in relation to Funding, it is necessary to deduct from total customer funding (i) the amount committed to reserve requirements at Bacen, (ii) the amount of available funds held at customer service network, as well as (iii) add funds from domestic and foreign lines of credit that finance loan needs.

This is a result of: (i) the outstanding position of its service points; (ii) the extensive diversity of products offered; and (iii) the market's confidence in the Bradesco brand.

Note that the use of funds provides a comfortable margin, which proves that Bradesco is capable of meeting demand for funds for loans using its own funding.

Bradesco depends little on interbank deposits and foreign lines of credit, given its capacity to effectively obtain funding from customers.

Demand Deposits

The R\$2,698 million, or 7.0%, decrease in the first quarter of 2013, when compared to the previous quarter, was basically driven by: (i) the use of funds by our customers to pay one-time expenses at the beginning of the year (e.g., IPVA and IPTU taxes), as well as: (ii) the seasonality in the fourth quarter, which contributed to greater amount of funds, with the payment of the Christmas bonus in the period.

The R\$3,759 million, or 11.8%, increase in comparison with the first quarter of 2012 was mainly due to the improved funding and the increased account holder base.

(1) Additional installment is not included.

Savings Deposits

Savings deposits increased 1.6% in the quarter-over-quarter comparison and 17.1% in the last 12 months, mainly as a result of: (i) greater funding volume; and (ii) the remuneration of savings account reserve.

5.3 million new savings accounts over the last 12 months.

The new savings remuneration rule determines that: (i) the existing account savings up to May 3, 2012 will continue to remunerate at TR + 0.5% p.m.; and (ii) for deposits made as of May 4, 2012, the new rules are: (a) if the Selic rate is higher than 8.5% p.a., the TR + 0.5% p.m. remuneration will be maintained; and (b) when the Selic rate is equal to or lower than 8.5% p.a., the remuneration will be 70% of Selic rate + TR.

Time Deposits

In the first quarter of 2013, time deposits totaled R\$99,505 million, decreasing by 4.3% quarter over quarter and 18.1% on the same period of the previous year.

Such performance is basically due to the new business opportunities offered to customers.

Debentures

On March 31, 2013, Bradesco's debentures amounted to R\$58,203 million, a 2.7% decrease in the quarter-over-quarter comparison and a 5.0% increase over the last 12 months.

These variations are mainly due to the placement and maturity of the securities, which are also used to back purchase and sale commitments that are, in turn, impacted by the levels of economic activity.

Borrowing and Onlending

The quarter-over-quarter R\$2,023 million increase, or 4.6%, was mainly due to the R\$1,978 million increase in the volume of funds raised through loans and onlending in Brazil, especially through Finame and BNDES operations.

million increase in volume of funds raised through loans and onlending in Brazil, especially through Finame and BNDES operations.

Year over year, the balance fell R\$903 million in the first quarter of 2013, mainly due to: (i) the R\$3,227 million decrease in foreign-currency-denominated and/or indexed borrowing and onlending, from R\$11,441 million in March 2012 to R\$8,214 million in March 2013, mainly due to: (a) the settlement of operations; partially offset by: (b) the exchange

Funds for the Issuance of Securities

Funds from issuance of securities totaled R\$47,833 million, a 6.9% or R\$3,526 million decrease in the quarter, mainly due to: (i) the decreased inventory of Financial Bills, from R\$28,221 million in December 2012 to R\$25,417 million in March 2013, mainly due to the redemptions and maturities of these securities; and (ii) the lower volume of securities issued abroad, in the amount of R\$968 million.

amount of R\$3,739 million, a result of new issuances carried out in the period and exchange gains of 10.5%; (iii) the higher volume of Mortgage Bonds, in the amount of R\$1,582 million; and (iv) the higher volume of Letters of Credit for Agribusiness, in the amount of R\$1,565 million.

Between the first quarter of 2012 and 2013, there was a reduction of R\$649 million, mainly driven by: (i) the decreased inventory of Financial Bills, amounting to R\$6,988 million, mainly due to the redemptions and maturities of these securities; partially offset by: (ii) the increase in volume of securities issued abroad, in the

The non-interest financial margin in the first quarter of 2013 stood at R\$197 million, down R\$234 million over the previous quarter. Year over year, non-interest margin decreased R\$276 million. The variations in non-interest financial margin were a result of:

- “Insurance,” which is represented by gains/loss from equity securities. The variations in the periods are associated with market conditions, which enabled greater/lower gain opportunity; and
- “Securities/Other,” which had a decrease of R\$207 million and R\$188 million quarter over quarter and year over year, respectively, due to lower gains from market arbitrage.

Written Premiums, Pension Plan Contributions and Capitalization Bond Income

In the quarter-over-quarter and year-over-year comparisons, total revenue did not have the same performance, due to the concentration of pension plan contributions, which are historically paid in the last quarter of every year.

In the first quarter of 2013, written premiums, pension plan contributions and capitalization bond income increased by 16.3% in comparison with the same period of the previous year. Leading growth in the year were the "Life and Pension Plan," "Capitalization Bond" and "Health" products, which had more than a two-digit growth.

Due to its solid structure, a policy of product innovation and customer trust, Bradesco Vida e Previdência leads the segment with a 24.1% market share in terms of pension plan and VGBL income in the period.

Segment's revenue, which are historically concentrated in the last quarter of the year, did not have the same performance seen in the fourth quarter of 2012. The reduction was directly reflected in income from operations, which was partially offset by the 2.3 p.p. decrease in Life product claims ratio.

Net income for the first quarter of 2013 was 9.9% higher than the result posted in the same period of the previous year, mainly as a result of: (i) the 13.8% increase in revenue; (ii) the 6.2 p.p. decrease in "Life" product claims ratio; (iii) the increase in the financial result; and (iv) the improved administrative efficiency ratio.

Revenue grew 2.2% quarter over quarter. Net income for the first quarter of 2013 is in line with the previous quarter, mainly due to: (i) the 0.6 p.p. decrease in claims ratio; and partially offset by: (ii) the increase in general and administrative expenses.

Net income for the quarter was up 10.6% over the same period of the previous year, due to: (i) the 23.8% increase in revenue; (ii) the 1.7 p.p. decrease in claims ratio; (iii) the improved financial and equity result; and (iv) the steady administrative efficiency ratio.

In March 2013, Bradesco Saúde and Mediservice maintained strong market position in the corporate segment (source: ANS).

Approximately 63 thousand companies in Brazil have Bradesco Saúde insurance and Mediservice plans.

Of the 100 largest companies in Brazil in terms of revenue, 50 are Bradesco Saúde and Mediservice customers (source: *Exame* magazine's Best and Major Companies (*Melhores e Maiores*) ranking, July 2012).

Net income for the first quarter of 2013 grew 27.2% when comparing to the fourth quarter of 2012, mainly due to: (i) the increase in financial result; and (ii) the decrease in general and administrative expenses.

Net income for the first quarter of 2013 was up 26.0% when compared to the same period of the previous year, as a result of: (i) the 23.6% increase in capitalization bond income; and (ii) improved financial result.

Bradesco Capitalização

Bradesco Capitalização ended the first quarter of 2013 leading the capitalization bond companies ranking, due to its policy of transparency and of adjusting its products based on potential consumer demand (source: Susep).

In order to offer the capitalization bond that best fits the profile and budget of each customer, Bradesco Capitalização has developed several products that vary in accordance with payment method (lump-sum or monthly), contribution term, frequency of draws and premium amounts. This phase was mainly marked by a closer relationship with the public by consolidating *Pé Quente Bradesco* products.

Among these products, it is worth pointing out the performance of the social and environmental products, from which a part of the profit is allocated to socially responsible projects, while also allowing the customer to create a financial reserve. Bradesco Capitalização currently has partnerships with the following social and environmental institutions: (i) Fundação SOS Mata Atlântica (contributes to the conservation of biological and cultural diversity of the Atlantic Forest, stimulating social and environmental citizenship); (ii) Instituto Ayrton Senna (contributes to education and human development, reducing illiteracy rates, school failure and drop-out rates); (iii) Fundação Amazonas Sustentável (contributes to the sustainable development, environmental preservation and improvement to the quality of life of communities that benefit from the preservation centers in the state of Amazonas); (iv) the Brazilian Cancer Control Institute (contributes to the development of projects for the prevention, early diagnosis and treatment of breast cancer in Brazil); and (v) Projeto Tamar (created to save sea turtles).

Bradesco Capitalização S.A. was the first capitalization bond company in Brazil to receive the ISO 9001 of Quality Management, certification which is held to date. Since 2009, it was certified by Fundação Vanzolini with the ISO 9001 Version 2008 for Management of Bradesco Capitalization Bonds. This attests to the quality of internal processes and confirms the principle targeting good products, services and continuous growth.

The portfolio is composed of 22.0 million active bonds, of which: 37.3% are Traditional Bonds sold in the branch network and at Bradesco *Dia & Noite* service channels, up 9.1% over March 2012; and 62.7% are incentive bonds (assignment of drawing rights), such as partnerships with Bradesco Vida e Previdência and Bradesco Auto/RE, which were up 5.2% over March 2012. Given that the purpose of this type of capitalization bond is to add value to the associated company product or even encourage the performance of its customers, bonds have reduced maturity and grace terms and lower sale price.

(1) 1Q13 considers the latest data released by Susep (February 2013).

Net income for the first quarter of 2013 was up by R\$18 million from the previous quarter, due to: (i) lower operating expenses, which was affected by tax contingencies in the fourth quarter of 2012; (ii) the 5.2 p.p. decrease in claims ratio; (iii) the improved financial result; and partially offset by: (iv) lower equity result.

Net income for the first quarter of 2013 was 42.9% lower than that posted in the same period in 2012, mainly due to: (i) lower financial result; partially offset by (ii) the 6.2 p.p. decrease in claims ratio; and (iii) higher financial result.

In the Property Insurance segment, the focus on large brokers and Corporate and Middle Market customers was maintained. This results in renewal of the main accounts, whether in leadership or participation in co-insurance. Also note the excellent performance of the Engineering Risks segment: the partnership with the Real Estate Loan area has enabled new insurance contracts from its customer base.

In Aviation and Maritime Hull insurance, the increased exchange with Corporate and Middle Market segments has been drawn on extensively, taking full advantage of the stronger sales of new

The transportation segment is still the primary focus, with essential investments made to leverage new business, especially in the renewal of reinsurance agreements, which gives insurers the power to assess and cover risk, and consequently increase competitiveness in more profitable businesses such as international transportation insurance for shipping companies involved in international trade.

Despite strong competition in the Auto/RCF line, the insurer has increased its customer base, mainly due to improvements to current products and the creation of products for a specific target-public. Among them, it is worth noting the launch of the First Vehicular Protection of Bradesco Seguro (*Bradesco Seguro Primeira Proteção Veicular*), exclusive to Bradesco's account holders, which helps, through the Day and Night Support services, new vehicles and vehicles of up to fifteen years of use.

Fee and Commission Income

Card Income

In spite of the seasonal effect of the fourth quarter of 2012, characterized by intense economic activity, card income remained practically stable in the period, totaling R\$1,667 million in the first quarter of 2013.

Year over year, card service revenue was up 20.0%, or R\$278 million, in the first quarter of 2013, mainly due to an increase in revenue from purchases and services, resulting from the increase in card revenue and number of transactions.

Economic and Financial Analysis

Fee and Commission Income

Checking Account

In the first quarter of 2013, fee and commission income from checking accounts decreased 3.8% in comparison with the previous quarter, mainly due to lower volume of services in the quarter when compared to the previous quarter.

Year over year, income grew by R\$85 million, or 11.4%, mainly due to: (i) the expansion of the checking account customer base, which posted a net increase of 459 thousand active current account holders (398 thousand individual customers and 61 thousand corporate customers); and (ii) the expansion of the customer service portfolio.

Loan Operations

In the first quarter of 2013, income from loan operations remained stable in comparison with the previous quarter.

Year over year, the 3.2% increase was mainly the result of: (i) greater income from collateral, up 21.4%, mainly deriving from the 17.3% growth in the volume of Sureties and Guarantees; and (ii) an increase in volume of other operations in the period.

Fee and Commission Income**Fund Management**

In the first quarter of 2013, income from fund management remained stable in comparison with the previous quarter.

Year over year, the R\$24 million or 4.6% increase was mainly due to: (i) increases in funds and portfolios, which grew by 26.2%; partially offset by (ii) the 12.7% decrease in the Ibovespa index in the period, impacting income from managed funds and portfolios pegged to equities.

The highlight was the investments in third-party funds, which grew by 41.1% in the period, followed by the 23.6% increase in fixed-rate funds and the 16.5% increase in equity funds.

Cash Management Solutions (Payments and Collection)

In the first quarter of 2013, income from payments and collection slightly increased in comparison with the previous quarter, mainly due to new businesses and increase in the number of processed documents.

Year over year, the 8.2% or R\$32 million increase was mainly due to the greater volume of processed documents, up from 463 million in March 31, 2012 to 511 million in March 31, 2013.

Consortium Management

In the first quarter of 2013, income from consortium management increased by 3.7% over the previous quarter, mainly due to the segment expansion. On March 31, 2013, Bradesco had 780 thousand active quotas (736 thousand active quotas on December 31, 2012), ensuring a leading position in all the segments it operates (real estate, auto and trucks/tractors).

Year over year, there was a 16.0% increase, resulting from: (i) the growth in the volume of bids; (ii) the increase in average ticket; and (iii) the increase in sales of new quotas, from 643 thousand active quotas on March 31, 2012 to 780 thousand active quotas on March 31, 2013, an increase of 137 thousand net quotas.

Custody and Brokerage Services

In the first quarter of 2013, total custody and brokerage service income remained stable in relation to the previous quarter.

Year over year, the 6.0% increase in income reflected the increase in custody services, with an R\$101 billion gain in assets under custody.

Underwriting / Financial Advisory Services

The R\$77 million decrease in the quarter-over-quarter comparison mainly refers to the excellent performance of the capital market operations in the fourth quarter of 2012. Furthermore, changes in this income are often the result of capital markets' volatile performance.

Year over year, there was an increase of R\$12 million, mainly as a result of a greater business volume in the quarter.

In the first quarter of 2013, total personnel and administrative expenses came to R\$6,514 million, down 5.6% in comparison with the previous quarter.

Personnel Expenses

In the first quarter of 2013, personnel expenses came to R\$3,059 million, a 2.6% or R\$83 million decrease from the previous quarter, mainly driven by the variation in “structural” expenses, which was due to the greater concentration of holidays in the first quarter of every year, which totaled R\$71 million.

— Report on Economic and Financial Analysis – March 2013

Economic and Financial Analysis

Personnel and Administrative Expenses

Personnel Expenses

Year over year, the R\$181 million increase in the first quarter of 2013 was mainly due to: (i) the structural expenses totaling R\$139 million, related to the increase in expenses with payroll, social charges and benefits, impacted by the raise in salary levels, as determined by collective bargaining agreements; and (ii) non-structural expenses totaling R\$42 million, which was mainly a result of higher expenses with: (a) provision for labor claims, amounting to R\$21 million;

and (b) employee and management profit sharing amounting to R\$12 million.

Economic and Financial Analysis

Personnel and Administrative Expenses

Administrative Expenses

In the first quarter of 2013, administrative expenses came to R\$3,455 million, down 8.0%, or R\$300 million, from the previous quarter, mainly due to: (i) seasonality in the fourth quarter of 2012, which affected: (a) marketing and advertising expenses, totaling R\$115 million; and (b) business and service volume; and (ii) continuous efforts in cost control, pointing out the actions taken by our Efficiency Committee.

Despite the greater expenses with (i) the opening of 6,769 service points in the period, mainly the opening of 5,533 *Bradesco Espresso* points, for a total of 69,528 service points on March 31, 2013 and (ii) the increase in businesses and service volume in the period, administrative expenses increased only by 1.6% year over year, thanks to the Efficiency Committee efforts to control these expenses. Note that, in the last 12 months, the inflation rates Extended Consumer Price Index (IPCA) and General Market Price Index (IGP-M) stood at 6.6% and 8.1% respectively.

Operating Coverage Ratio ⁽¹⁾

In the quarter, the coverage ratio over the last 12 months maintained its improvement with a 1.2 p.p. growth, mainly due to an increase in fee and commission income, combined with ongoing cost control efforts, pointing out the actions of our Efficiency Committee.

It is worth noting that 67.7% is the best rate over the last 17 quarters.

Tax Expenses

The R\$25 million increase in tax expenses in comparison with the previous quarter was mainly driven by the prepayment of higher Municipal Real Estate Tax (IPTU).

Year over year, these expenses increased R\$111 million in the first quarter of 2013, mainly due to higher PIS/COFINS/ISS expenses, reflecting the higher taxable income, especially fee and commission income.

Economic and Financial Analysis

Equity in the Earnings (Losses) of Unconsolidated Companies

In the quarter-over-quarter and year-over-year comparisons, the reduction in the first quarter of 2013 was mainly due to lower results from the unconsolidated company IRB - Brasil Resseguros.

Operating Income

Operating income in the first quarter of 2013 was R\$4,547 million, up R\$98 million from the previous quarter. This result was mainly impacted by: (i) the R\$383 million decrease in administrative and personnel expenses; (ii) the R\$200 million increase in operating income from Insurance, Pension Plans and Capitalization Bonds; (iii) lower allowance for loan loss expenses, in the amount of R\$101 million; partially offset by: (iv) lower financial margin, amounting to R\$403 million; (v) decrease in fee and commission income, amounting to R\$76 million; and (vi) the reduction in equity in the earnings (losses) of unconsolidated companies, totaling R\$42 million.

Year over year, the R\$198 million or 4.6% increase is basically a result of: (i) the R\$481 million increase in fee and commission income; (ii) the R\$278 million increase in operating income from Insurance, Pension Plans and Capitalization Bonds, partially offset by: (iii) a R\$235 million increase in administrative and personnel expenses; (iv) a R\$174 million increase in other operating expenses (net of other income); and (v) a R\$111 million increase in tax expenses.

Non-Operating Income

In the first quarter of 2013, non-operating income posted a loss of R\$38 million, R\$9 million more than the previous quarter and R\$20 million more than the same period in 2012, due to greater non-operating expenses (such as losses on sale of foreclosed assets/other) in the period.

CDP Supply Chain

The CDP Supply Chain Brazil 2013 discussion round was carried out in the first quarter of 2013, in which Brazil's 2012 results were announced. CDP Supply Chain is a global program that allows organizations to implement supplier engagement strategy by analyzing risks and opportunities related to climate change and GHG emission management. This is a collaborative and innovative approach that contributes to the sustainable development of the value chain.

Bradesco, as signatory of the Carbon Disclosure Project (CDP) since 2006 and disseminator of the

Supply Chain Leadership Collaboration (SCLC) since 2008, believes that the initiative is in line with its value chain development strategy, and assists the Organization to manage indirect emissions, which, in 2012, represented 92.8% of total emissions. Additionally, engaging and motivating suppliers to manage and disclose their GHG emissions is one of Bradesco's objectives, which discuss the matter annually in an event with its suppliers and in CDP Brazil.

Bradesco remains in the Carbon Efficient Index for the fourth consecutive year

Bradesco has been designated for inclusion in the BM&FBovespa's Carbon Efficient Index (ICO2). For the fourth consecutive year, Bradesco's preferred shares (BBDC4) have been included in the list.

Launched in 2010, the initiative comprises the shares of the companies composing the IBrX-50 index, those which adopt transparent GHG emissions practices. The portfolio takes into consideration the efficiency level of GHG emissions, in addition to their free float (available-for-trade shares).

The new ICO2 portfolio is composed of 36 shares of 35 companies from different industries.

Bradesco's shares are also part of the main sustainability indexes of the Brazilian and international capital markets. Since 2006, they are included in the Dow Jones Sustainability Index World (DJSI) and, since 2005, they are among the companies' shares comprising the BM&FBovespa's Corporate Sustainability Index.

Bradesco is placed in the Bronze category of the Dow Jones Sustainability Index World

For one more year, Bradesco has been included in the bronze category of the Dow Jones Sustainability Index World, among the companies with the best corporate sustainability practices.

Among 26 banks, three of which Brazilian banks, only six institutions reached excellence to meet the criteria to come into the gold, silver and bronze

Investor Relations (IR)

In the first quarter of 2013, the Bradesco's Investor Relations area participated in 91 events. In Brazil, we met several analysts and investors through conferences and meetings in our headquarters, in Osasco. Abroad, it is worth mentioning the conferences held in Miami,

Cancun, New York and London. Moreover, the Investor Relations team frequently keeps contact with shareholders, investors and analysts via telephone, email, or in person at Bradesco's headquarters.

Corporate Governance

Bradesco's management is made up of the Board of Directors and the Board of Executive Officers. The former is composed of eight members who serve one-year terms of office and are eligible for reelection, and includes one internal member (Mr. Luiz Carlos Trabuco Cappi, current CEO), seven external members, including the Chairman (Mr. Lázaro de Mello Brandão). The Board members are elected by the Annual Shareholders' Meeting, which elect the members of the Board of Executive Officers internally.

Within its Corporate Governance structure, five Committees are subordinated to Bradesco's Board of Directors, two of which Statutory Committees (Audit and Compensation) and three Non-Statutory (Ethical Conduct, Internal Controls and Compliance, and Integrated Risk Management and Capital Allocation), in addition to 44 Executive Committees that assist the Board of Executive Officers in performing its duties.

Bradesco guarantees its shareholders, as a minimum dividend, 30% of adjusted net income, as well as 100% tag-along rights for common shares and 80% for preferred shares. Preferred shares are also entitled to dividends 10% greater than those paid to common shares.

In 2001, Bradesco voluntarily adhered to Level 1 Corporate Governance of BM&FBovespa - Securities, Commodities and Futures Exchange.

In 2011, it also voluntarily adhered to the Code of Self-Regulation and Best Practices for Publicly-Held Companies, issued by the Brazilian Association of Publicly-Held Companies (Abrasca) based on the best corporate governance practices adopted in Brazil and abroad.

Bradesco was rated AA+ (Excellent Corporate Governance Practices) by Austin Rating.

On March 11, 2013, all of the matters proposed to the Shareholders' Meetings were approved.

Investments in Infrastructure, Information Technology and Telecommunication

With a view to providing convenience, facility and security to its customers, Bradesco continuously invests in technology and, 70 years after its foundation, in addition to having Brazil's largest customer service network, is also recognized for its pioneering and innovative spirit by launching increasingly appropriate products and services to its several customer profiles.

Bradesco made available to undergraduate students the option to invest in shares using the *Bradesco Home Broker Universitário*, which provides on-line quotation services, Home Broker TV, with daily schedule, analysis, recommendations and on-line courses, in addition to permitting trading through the Bradesco Trading application for iPhone, iPad and iPod Touch. Students are also provided with videos on financial education.

Bradesco Corretora customers can trade on the stock market via mobile phone running Android operational system, through the Bradesco Trading application, which has the same functionalities of the iOS version, currently used by over 40 thousand users.

Also in March, month of Bradesco's anniversary, Bradesco launched its new Institutional Portal, which currently has 20 million visitors per month. With a contemporary language and new functionalities, the portal integrated the contents of the product and segments websites. Leading the innovations are the smart search, multiplatform websites (operating system and browser), banner for videos to increase sales and call-to-action, a centralized area for promotions, iconography, page signaling, total mouse-over and product comparison filter. Also, the Bank launched the Business Society Portal, a new relationship channel with small- and medium-sized entrepreneurs.

The Bradesco Celular website now has video resources to facilitate and customize the search for products and services available for mobile phones, providing more convenience to customers and their different mobile phone models. The website can also be accessed through a computer or iPads.

All these initiatives, in addition to its capacity to remaining in line with leading edge technology and creating innovative solutions, are responsible for making Bradesco a reference in this area. Bradesco was considered the most connected Bank by *Info 2012* award, granted by *Info Exame*

Bradesco Saúde customers have the option to check the referred network via SMS. They just have to send a message with the card number and first and last names, then a message requiring the neighborhood, city and specialization desired is received. After that, the customer receives three options on its cell phone.

Biometry, which provides the 652 thousand registered customers with convenience and security, is now available to corporate customers. Also, all customers can check their balances and withdraw money without using their cards, only by biometry and a password. In March 2013, a total of 1.8 million transactions were conducted through this technology.

magazine. Also in the first quarter of 2013, Bradesco was considered the most valuable brand in Latin America in the banking sector and was ranked 16th in the overall ranking, according to a survey conducted by *The Banker* magazine, the most renowned publication in the world's financial market and by Brand Finance, the largest international brand consulting firm. Bradesco was also ranked first in brand value in the insurance sector. Additionally, the *Exame* portal placed Bradesco among the 25 brands to follow in social networks, the only bank mentioned by *Exame*.

Investments in Infrastructure, Information Technology and Telecommunication

F.Banking, the first application in Brazil and one of the first in the world that allow customers to access their checking accounts via social network, made available an option to recharge mobile phones and require personal loan limit. The application already enables customers to check balances, investments and credit limits, transfer money among Bradesco accounts, and pay bank payment slips. All transactions are conducted with the same security available at the Internet Banking.

As a prerequisite for its continuous expansion, Bradesco invested R\$1,078 million in Infrastructure, Information Technology and Telecommunications in the first quarter of 2013. The total amount invested over recent years, including infrastructure (facilities, restorations, improvements, furniture and fixtures), can be found below:

	1Q13	2012	2011	2010	R\$ million 2009

Risk Management

Given the growing complexity of products and services and the globalization of the Organization's business, risk management has become a highly strategic activity, which must be constantly enhanced to keep pace with the dynamism of the markets and the pursuit of best practices, exemplified by the fact that Bradesco became the first and only Brazilian bank authorized by the Central Bank to use its own internally-developed market risk management models to calculate regulatory capital as of January 2013.

The Organization exercises corporate risk control in an integrated and independent manner, preserving and valuing collegiate decision-making and developing and implementing methodologies, models, and measurement and control tools. It also

The management process ensures that risks can be proactively identified, measured, mitigated, monitored and reported as required in line with the complexity of the Organization's financial products and activity profile.

Capital Management

The Capital Management structure enables the Organization to reach its strategic objectives through an appropriate capital sufficiency planning. To comply with the definitions of governance, the Statutory and Executive Committees were considered, for assistance of the Board of Directors and the Board of Executive Officers in management and decision making.

Further information on the capital management structure can be found in the Risk Management Report and the 2012 Annual Report on the Investor Relations website: <http://www.bradescori.com.br/>

In line with definitions of governance, a new area responsible for the Conglomerate's capital management was created: the Internal Capital Adequacy Assessment Process (ICAAP) and Capital Management, which acts jointly with the Integrated Risk Control Department, associated companies, business areas and the Organization's supporting areas.

Capital Adequacy Ratio

In March 2013, Bradesco's Reference Shareholders' Equity amounted to R\$96,721 million, versus a Required Reference Shareholders' Equity of R\$68,315 million, resulting in a R\$28,406 million capital margin. This figure was mostly impacted by the credit risk portion, representing 79.5% of the risk-weighted assets. The Capital Adequacy Ratio decreased by 0.5 p.p., from 16.1% in December 2012 to 15.6% in March 2013, mainly impacted by: (i) the increase in market risk and

Note that in March 2013 the Brazilian Central Bank disclosed a set of four resolutions and fifteen circular letters, which implement in Brazil the recommendations of the Basel Committee on Banking Supervision on financial institutions' capital structure, known as "Basel III." The main purposes are: (i) to improve the financial institutions' capacity of absorbing shocks arising from the financial system or other industries; (ii) to reduce the impact of the financial sector conditions on the real sector

Independent Auditors' Report

Limited assurance report from independent auditor on the supplementary accounting information

To

The Directors of

Banco Bradesco S.A.

Osasco - SP

Introduction

We were engaged to apply limited assurance procedures for the supplementary accounting information included in the Economic and Financial Analysis Report of Banco Bradesco S.A. ("Bradesco") as of and for the quarter ended March 31, 2013. Bradesco's Management is responsible for the preparation and fair presentation of this supplementary accounting information. Our responsibility is to issue a Limited Assurance Report on such supplementary accounting information.

Scope, procedures applied and limitations

The limited assurance procedures were performed in accordance with standard NBC TO 3000 – Assurance Engagements Other than Audit and Review, issued by the Brazilian Federal Accounting Council (CFC – Conselho Federal de Contabilidade) and the ISAE 3000 - International Standard on Assurance Engagements issued by the International Auditing and Assurance Standards Board - IASB, both for assurance engagements other than audits or reviews of historical financial information.

The limited assurance procedures comprised: (a) the planning of the work, considering the relevance of the supplementary financial information and the internal controls systems that served as a basis for the preparation of the Economic and Financial Analysis Report of Bradesco, (b) the understanding of the calculation methodology and the consolidation of indicators through interviews with the management responsible for the preparation of the supplementary accounting information, and (c) the comparison of the financial and accounting indicators with the interim information disclosed at this date and/or accounting

records.

The procedures that were applied do not constitute an audit or review in accordance with Brazilian and international auditing and review standards, as well as these procedures and the obtained evidence are more limited than for reasonable assurance procedures. Additionally, our report does not offer limited assurance on the scope of future information (such as goals, expectations and future plans) and descriptive information that is subject to subjective assessment.

Criteria for preparation of the supplementary accounting information

The additional supplementary accounting information disclosed in the Economic and Financial Analysis Report as of and for the quarter ended March 31, 2013 were prepared by Bradesco's Management, based on the consolidated financial information contained in the interim financial information and on the criteria described in the Economic and Financial Analysis Report, in order to provide additional analysis, but without being part of the interim financial information available in this date.

Financial Statements, Independent Auditors' Report and Fiscal Council's Report

Management Report

Dear Shareholders,

We hereby present the consolidated financial statements of Banco Bradesco S.A. for the period ended March 31, 2013, pursuant to the accounting practices adopted in Brazil and applicable to institutions authorized to operate by the Brazilian Central Bank.

In Brazil, evidence of economic growth could be perceived in the end of the first quarter of 2013, reflecting the domestic economic policy stimulus adopted in the last few months, as well as the reduction of risks related to extreme events in the global scenario. The continuance of productive investments, the excellent outlook for Brazil's agricultural harvest, the normalization of industrial inventories and the maintenance of good income and employment conditions are signs of positive banking business for the coming quarters.

At the Bradesco Organization, one of the most important facts for the quarter worth noting is that on March 10 Bradesco celebrated 70 years of activities. Led by realistic strategies, the Bank grew quickly and became a key institution for the Brazilian people. It is currently present in all regions of the Brazilian nation, promoting bank inclusion and social mobility. On such a special date, we remembered all our achievements, in a consisting trajectory, and all the things that are to come.

Based on its stock price, Bradesco's Market Capitalization came to R\$145.584 billion on March 31, equivalent to 2.1 times booked Shareholders' Equity.

Managed Shareholders' Equity was equivalent to 7.8% of Consolidated Assets, which totaled R\$894.467 billion, 13.3% more than in March 2012. Thus, the Capital Adequacy Ratio stood at 15.6% of the consolidated financial result and 15.6% of the consolidated economic and financial result, which is substantially higher than the 11% minimum established by National Monetary Council Resolution 2099/94, in conformity with the Basel Committee. At the end of the quarter, the total consolidated fixed assets to net worth ratio stood at 43.7%, and the consolidated finance fixed assets to net worth ratio stood at 16.5%, whereas the maximum limit is 50%.

In compliance with Article 8 of the Brazilian Central Bank Circular Letter 3068/01, Bradesco declares that it has both the financial capacity and intent to hold until maturity those securities classified under "held-to-maturity securities." The Bank further declares that the operations of Banco Bradesco S.A., its subsidiary, are in line with the strategic aims defined in the Business Plan, pursuant to Article 11 of the attachment I to National Monetary Council Resolution 4122/12.

On March 31, 2013, funds raised and managed by Bradesco Organization totaled R\$1.278 trillion, 17.5% more than in the previous year, and are

Bradesco's Net Income for the first quarter of 2013 was R\$2.919 billion, corresponding to Earnings per Share of R\$0.70 and a Return on Average Shareholders' Equity* of 19.3%. The Return on Average Total Assets stood at 1.3%.

Between January and March 2013, R\$1.028 billion were allocated to shareholders as Interest on Shareholders' Equity, of which R\$226.271 million were paid monthly and R\$801.431 million were provisioned.

Taxes and contributions, including social security contributions, paid or provisioned in the quarter, totaled R\$7.137 billion, of which R\$1.967 billion related to taxes withheld and collected from third parties, and R\$5.170 billion from activities developed by Bradesco Organization, equivalent to 177.1% of Net Income.

At the end of the quarter, paid-in capital came to R\$38.100 billion, including the R\$8 billion increase with a 10% stock bonus, partially through the capitalization of part of the "Profit Reserves – Statutory Reserve" account, as resolved at the Special Shareholders' Meeting held on March 11, 2013 and ratified by the Brazilian Central Bank on March 14, 2013. Together with Equity Reserves of R\$31.342 billion, Shareholders' Equity came to R\$69.442 billion, up 19.6% over the same period last year and equivalent to a book value of R\$16.54 per share.

allocated as follows:

R\$486.915 billion in demand deposits, time deposits, interbank deposits, open market and savings accounts, up by 13.8%.

R\$469.925 billion in assets under management, comprising investment funds, managed portfolios and third-party fund quotas, up by 26.2%.

R\$171.692 billion in the exchange portfolio, borrowings and onlendings, working capital, tax payments and collection and related charges, funds from the issue of securities, subordinated debt in Brazil and other funding, up by 5.6%.

R\$127.367 billion in technical reserves for insurance, pension plans and capitalization bonds, up by 19.1%; and

R\$21.817 billion in foreign funding, through public and private issues, subordinated debt and the securitization of future financial flows, equivalent to US\$10.834 billion.

Financial Statements, Independent Auditors' Report and Fiscal Council's Report

Management Report

At the end of the quarter, consolidated loan operations stood at R\$391.682 billion, 11.6% higher than in March 2012, broken down as follows:

R\$6.022 billion in advances on exchange contracts, giving a total export financing portfolio of US\$15.601 billion;

US\$3.958 billion in import financing denominated in foreign currency;

Operations are conducted within the context of the companies within the Bradesco Organization, working together in the market.

2) PRESENTATION OF THE FINANCIAL STATEMENTS

Bradesco's consolidated financial statements include the financial statements for Banco Bradesco, its foreign branches, subsidiaries and jointly-controlled entities, in Brazil and abroad, including SPEs (Special Purpose Entities). They were prepared based on accounting practices issued by Laws 4595/64 (Brazilian Financial System Law) and 6404/76 (Brazilian Corporate Law), along with amendments introduced by Laws 11638/07 and 11941/09 relating to the accounting of operations, associated with rules and instructions of the National Monetary Council (CMN) and the Brazilian Central Bank (Bacen), Brazilian Securities and Exchange Commission (CVM), where applicable, National Private Insurance Council (CNSP), Insurance Superintendence (Susep) and National Supplementary Healthcare Agency (ANS). The financial statements of leasing companies included in the consolidated information were prepared using finance leases, whereby leased fixed assets are classified as operating leases less the residual value paid in advance.

In the preparation of these consolidated financial statements, intercompany transactions, including investments, assets and liabilities, revenue, expenses and unrealized profit were eliminated and net income and shareholders' equity attributable to the non-controlling interests were accounted for on a separate line. For jointly-controlled investments with other shareholders, assets, liabilities and income and loss were proportionally consolidated in the consolidated financial statements according to the interest on shareholders' equity of each investee. Goodwill on the acquisition of investments in subsidiary/unconsolidated companies or jointly-controlled entities is included in investments and intangible assets (Note 15a). The foreign exchange variation from foreign branches or investments is presented in the income statement accounts together with changes in the value of the derivative financial instrument, borrowing or onlending operation to eliminate the effect of these investment hedge instruments.

The financial statements include estimates and assumptions, such as: the calculation of estimated loan losses; fair value estimates of certain financial instruments; civil, tax and labor provisions; impairment losses of securities classified as available-for-sale and held-to-maturity and non-financial assets; the calculation of technical reserves for insurance, pension plans and capitalization bonds; and the determination of the useful life of specific assets. Actual results may differ from those established by estimates and assumptions.

Bradesco's consolidated financial statements were approved by the Board of Directors on April 19, 2013.

Report on Economic and Financial Analysis – March 2013

Notes to the Consolidated Financial Statements

3) SIGNIFICANT ACCOUNTING PRACTICES

a) Functional and Presentation Currencies

Consolidated financial statements are presented in Brazilian reais, which is also Bradesco's functional currency. Foreign branches and subsidiaries are mainly a continuation of activities in Brazil, and, therefore, assets, liabilities and income or losses are translated into Brazilian reais using the appropriate currency exchange rate to comply with accounting practices adopted in Brazil. Foreign currency translation gains and losses arising are recognized in the period's income statement under items "Derivative Financial Instruments" and "Borrowing and Onlending."

b) Income and Expense Recognition

Income and expenses are recognized on an accrual basis together to determine the net income for the period to which they relate, regardless of receipt or payment of funds.

Fixed rate transactions are recorded at their redemption value with the income or expense relating to future periods being recorded as a deduction from the corresponding asset or liability. Finance income and costs are prorated daily and calculated based on the exponential method, except when they relate to discounted notes or to foreign transactions which are calculated using the straight-line method.

Floating rate or foreign-currency-indexed transactions are adjusted for inflation at the end of the reporting period.

Insurance and coinsurance premiums, net of premiums assigned to coinsurance and reinsurance and corresponding commissions, are recognized as income after the corresponding insurance policies and

invoices have been issued, and recognized on a straight-line basis during the policies' effective period through accrual and reversal of the unearned premium reserve and deferred selling expense (deferred acquisition costs). Revenues from premiums and the corresponding selling expense (deferred acquisition costs), relating to existing risk but with no policy issued, are recorded in the income statement at the beginning of the risk coverage, based on estimated figures.

Income and expenses arising from DPVAT insurance operations are recorded based on information provided by the Seguradora Líder dos Consórcios do Seguro DPVAT S.A.

Accepted coinsurance and retrocession operations are recorded based on the information received from other companies and IRB - Brasil Resseguros S.A., respectively. Reinsurance operations with IRB are recorded based on operating and financial transactions sent by IRB whereas operations with other reinsurance companies are recorded based on their financial records subject to analysis. Deferral of reinsurance premiums granted is consistent to the corresponding reinsurance premium and/or reinsurance contract.

Brokerage and acquisition of new insurance operations are deferred and recorded in the income statement over a 12-month period on a straight-line basis.

Pension plan contributions and life insurance premiums covering survival are recognized in the income statement as they are received. Income from management fees paid by special-purpose investment funds are recognized on the accrual basis at contractual rates.

Income from capitalization bonds is recognized when it is effectively received. Income from expired capitalization plans is recorded after the statute of limitation, under Article 206 of the Brazilian Civil Code. The expenses for placement of capitalization bonds, classified as "Acquisition Costs," are recognized when they are incurred.

c) Cash and cash equivalents

Cash and cash equivalents include: funds available in currency, investments in gold, investments in federal funds purchases and securities sold under agreements to repurchase and interest-earning deposits in other banks, maturing in 90 days or less and present an insignificant risk of change in fair value, that are used by Bradesco to manage its short-term commitments.

Cash and cash equivalents detailed balances are reflected in Note 6.

d) Interbank investments

Unrestricted purchase and sale commitments are stated at their fair value. Other investments are stated at cost, plus income earned up to the end of the reporting period, net of any devaluation allowance, if applicable.

The breakdown, terms and proceeds relating to interbank investments are presented in Note 7.

e) Securities - Classification

- Trading securities - securities acquired for the purpose of being actively and frequently traded. They are recorded at cost, plus income earned and adjusted to market value in the income statement for the period;

- Available-for-sale securities - securities that are not specifically intended for trading purposes or to be held to maturity. They are recorded at cost, plus income earned, which is recorded in profit or loss in the period and adjusted to market value within shareholders' equity, net of tax, which will be recognized in profit or loss only when effectively disposed; and
- Held-to-maturity securities - securities intended and for the financial capacity to be held in the portfolio up to maturity. They are recorded at cost, plus earnings recognized in profit or loss for the period.

Securities classified as trading or available-for-sale, as well as derivative financial instruments, are recorded at their estimated fair value in the consolidated statement of financial position. The fair value is generally based on market prices or quotations for assets or liabilities with similar characteristics. If market prices are not available, fair values are based on traders' quotations, pricing models, discounted cash flows or similar techniques to determine the fair value and may require judgment or significant estimates by Management.

Classification, breakdown and segmentation of securities are presented in Note 8 (a to d).

f) Derivative financial instruments (assets and liabilities)

Classified according to intended use by Management, on the date that the operation was entered into and considering if it was intended for hedging purposes or not.

Operations involving derivative financial instruments are designed to meet the Bank's own needs in order to manage overall exposure, as well as to meet customer requests to manage their positions. Gains and losses are recorded in income or expenses accounts of the respective financial instruments.

Derivative financial instruments used to mitigate risk deriving from exposure to variations in the market value of financial assets and liabilities are designated as hedges and are classified according to their nature:

- Market risk hedge: for financial instruments classified in this category as well as the hedge-related financial assets and liabilities, gains and losses, realized or not, are recorded in the income statement; and

Financial Statements, Independent Auditors' Report and Fiscal Council's Report**Notes to the Consolidated Financial Statements**

- Cash flow hedge: the effective portion of valuation or devaluation of financial instruments classified in this category is recorded, net of tax, in a specific account under shareholders' equity. The ineffective portion of the respective hedge is directly recognized in the income statement.

A breakdown of amounts included in derivative financial instruments, in the balance sheet and memorandum accounts, is disclosed in Note 8 (e to h).

g) Loans and leasing, advances on foreign exchange contracts, other receivables with credit characteristics and allowance for loan losses

Loans and leasing, advances on foreign exchange contracts and other receivables with credit characteristics are classified according to their corresponding levels of risk in compliance with: (i) the parameters established by CMN Resolution 2682/99, with nine levels of risk from "AA" (minimum risk) to "H" (maximum risk); and (ii) Management's level of risk assessment. This assessment, which is carried out regularly, considers current economic conditions and past experience with loan losses, as well as specific and general risks relating to operations, debtors and guarantors. Moreover, the period of late payment defined in CMN Resolution 2682/99 is also considered to rate customer risk as follows:

Past-due period (1)	Customer rating
from 15 to 30 days	B
from 31 to 60 days	C
from 61 to 90 days	D
from 91 to 120 days	E
from 121 to 150 days	F
from 151 to 180 days	G
more than 180 days	H

(1) For operations with terms of more than 36 months, past-due periods are doubled, as allowed under CMN Resolution 2682/99.

Interest and inflation adjustments on past-due transactions are only recognized up to the 59th day that they are past due. As from the 60th day, they are recognized in deferred income.

H-rated past-due operations remain at this level for six months, after which they are written-off against the existing allowance and controlled in memorandum accounts for at least five years.

Renegotiated operations are maintained at least at the same level as previously classified. Renegotiations already written-off against the allowance and that were recorded in memorandum accounts, are rated as level "H" and any possible gains derived from their renegotiation are recognized only when they are effectively received. When there is a significant repayment on the operation or when new material facts justify a change in the level of risk, the operation may be reclassified to a lower risk category.

The estimated allowance for loan losses is calculated to sufficiently cover probable losses, considering CMN and Bacen standards and instructions, together with Management assessment to determine credit risk.

Type, values, terms, levels of risk, concentration, economic sector of the activity, renegotiation and income from loans, as well as the breakdown of expenses and statement of financial position accounts for the allowance for loan losses are presented in Note 10.

h) Income tax and social contribution (assets and liabilities)

Income tax and social contribution credits, calculated on income tax losses, social contribution losses and temporary additions are recorded in "Other Receivables - Sundry" and the provisions for deferred tax liabilities on tax differences in leasing depreciation and mark-to-market adjustments on securities are recorded in "Other Liabilities - Tax and Social Security." The income tax rate only applies to tax differences in leasing depreciation.

Bradesco _____

Financial Statements, Independent Auditors' Report and Fiscal Council's Report

Notes to the Consolidated Financial Statements

Tax credits on temporary additions are used and/or reversed against the corresponding provision. Tax credits on income tax and social contribution losses are used when taxable income is generated, under the 30% limit of the taxable profit for the period. Such tax credits are recorded based on current expectations on when the deduction can be used, considering technical studies and analyses carried out by Management.

The provision for income tax is calculated at 15% of taxable income plus a 10% surcharge. Social contribution on net income is calculated at 15% for financial institutions and insurance companies and at 9% for other companies.

Provisions were recorded for other income tax and social contribution in accordance with specific applicable legislation.

Pursuant to Law 11941/09, changes in the criteria to recognize for revenue, costs and expenses included in the net income for the period, enacted by Law 11638/07 and by Articles 37 and 38 of Law 11941/09, shall not affect taxable income, and, for tax purposes, accounting methods and criteria in force on December 31, 2007 are considered. For accounting purposes, the tax effects of adopting the aforementioned laws are recorded in the corresponding deferred tax assets and liabilities.

The breakdown of income tax and social contribution, showing the calculations, the origin and expected use of tax credits, as well as unrecorded tax credits, are presented in Note 34.

i) Prepaid expenses

Prepaid expenses are represented by use of funds for future benefits or services, which are recognized in the profit or loss on an accrual basis.

Incurring costs relating to corresponding assets that will generate revenue in subsequent periods are recorded in the profit or loss according to the terms and the amount of expected benefits and directly written-off in the profit or loss when the corresponding assets or rights are no longer part of the institution's assets or expected future benefits may no longer be realized.

Prepaid expenses are shown in detail in Note 12b.

j) Investments

Investments in unconsolidated companies, with significant influence over the investee or has at least 20% of the voting rights, under the equity method of accounting.

Tax incentives and other investments are stated at cost, less allowance for losses/impairment, where applicable.

Subsidiaries' and jointly-controlled companies are consolidated, and a list of the main companies can be found in Note 2. A list of the unconsolidated companies, as well as other investments, is shown in Note 13.

k) Premises and equipment

Relates to the tangible assets used by the Bank in its activities or used for that purpose, including those transactions which transfer risks, benefits and controls of the assets to the entity.

Fixed assets are stated at cost, net of the accumulated depreciation, calculated using the straight-line method according to the estimated economic useful life of the asset, as follows: premises - 4% p.a.; furniture and fixtures, machinery and equipment - 10% p.a.; transport systems - 20% p.a.; and data processing systems - 20% to 50% p.a., and adjusted for impairment, where applicable.

Financial Statements, Independent Auditors' Report and Fiscal Council's Report

Notes to the Consolidated Financial Statements

The breakdown of asset costs and their corresponding depreciation, including those arising from operating leases, as well as the unrecorded surplus value for real estate and fixed asset ratios, is presented in Note 14.

l) Intangible assets

Relates to the right over intangible assets used by the Bank in its activities or used for that purpose.

Intangible assets comprise:

- Future profitability/customer portfolio acquired and acquiring the right to provide banking services: is recorded and amortized, as applicable, over the period in which the asset will directly and indirectly contribute to future cash flows and adjusted through impairment, where applicable; and
- Software: stated at cost less amortization calculated on a straight-line basis over the estimated useful life (20% to 50% p.a.), from the date it is available for use and adjusted through impairment, where applicable. Internal software development costs are recognized as an intangible asset when it is possible to show the intention and ability to complete such development, as well as reliably measure costs directly attributable to the software, which will be amortized during its estimated useful life, considering the future economic benefits generated.

Goodwill and other intangible assets, including their changes by class, are broken down in Note 15.

m) Impairment

Securities classified as available-for-sale and held-to-maturity, as well as non-financial assets, except other assets and tax credits are tested at least once a year for impairment. If an impairment loss is detected, it must be recognized in the profit or loss for the period when the book value of an asset exceeds its recoverable value calculated by: (i) the potential sale value or realization value less the respective expenses or (ii) the value in use calculated by the cash generating unit, whichever is highest.

A cash generating unit is the smallest identifiable group of assets that generates cash flows substantially independent from other assets and groups.

Impairment losses, when applicable, are presented in Note 15 (b and c).

n) Deposits and federal funds purchased and securities sold under agreements to repurchase

These are recognized at the value of the liabilities and include, when applicable, related charges up to the end of the reporting period, on a daily prorated basis.

A breakdown of securities recorded in deposits and federal funds purchased and securities sold under agreements to repurchase, as well as terms and amounts recognized in the statement of financial position and income statement, is presented in Note 16.

o) Technical reserves relating to insurance, pension plans and capitalization bonds

- Damage, health and group insurance lines, except life insurance covering survival:
 - The unearned premium reserve (PPNG) is calculated on a daily prorated basis, using premiums net of coinsurance assignment, but including reinsurance transfer operations, is comprised of the portion corresponding to the periods of risk not arising from insurance policies, and includes estimates for risks in effect but not issued (RVNE). This reserve also includes risks not yet effective and already issued;
 - The mathematical reserve for unvested benefits (PMBaC) is calculated by the difference between the current amount of future benefits and the current amount of future contributions, corresponding to the obligation;

Bradesco _____

Financial Statements, Independent Auditors' Report and Fiscal Council's Report

Notes to the Consolidated Financial Statements

- The reserve for unvested benefits relating to the individual health care plan portfolio covers the holder's dependents for five years upon death, and it is calculated based on the time dependants are expected to remain in the plan up to the end of this five-year period; after this, it is calculated based on costs on the five-year-period plan, excluding payment of premiums;
- The reserve for vested benefits relating to the individual health care plan portfolio comprises obligations under the terms of the contract relating to coverage of the health care plan, and premiums for the payment of insurers participating in the Bradesco Saúde— "GBS Plan" insurance, based on the present value of estimated future expenses with health care provided to dependents whose holders already deceased, as provided for in Normative Resolution 75/04 of ANS;
- The reserve for redemptions and other amounts to be settled (PVR) comprises all amounts relating to redemptions to be settled, premium refunds and portabilities requested not yet transferred to the recipient;
- The reserve for incurred but not reported (IBNR) claims is calculated based on incurred but not paid (IBNP) claims less the balance of the reserve for unsettled claims (PSL) on the calculation date. A final estimate of IBNP claims based on half-yearly run-off triangles is prepared to calculate IBNP claims. The run-off triangles consider the historical development of claims paid in the last 14 semesters to determine a future projection per occurrence period;
- For Health Insurance, the reserve for incurred but not reported (IBNR) claims is calculated based on incurred but not paid (IBNP) claims less the balance of the reserve for unsettled claims (PSL) on the calculation date. A final estimate of incurred but not paid claims based on monthly run-off triangles, which consider the claims ratio in the last 12 months, is prepared to calculate IBNP claims;
- The reserve for unsettled claims (PSL) considers all loss notices received up to the end of the reporting period and related costs, such as loss adjustment expenses, loss of suit, among others. The reserve is adjusted for inflation and includes all claims under litigation; and

- Other technical reserves are mainly recorded to cover differences between the premiums future adjustments and the ones necessary to the technical balance of healthcare plan individual portfolio, adopting the formula included in the actuarial technical note approved by ANS.

- Pension plans and life insurance covering survival:
 - The unrealized risk premiums (PPNG) is calculated on a daily prorated basis, using premiums net of coinsurance assignment, but including reinsurance transfer operations, is comprised of the portion corresponding to periods of risks not arising from insurance policies and includes an estimate for risks in effect but not issued (RVNE). This reserve also includes risks not yet effective and already issued;

 - The mathematical reserve for unvested benefits (PMBaC) refers to participants who have not yet received any benefit. In defined benefit pension plans, the reserve represents the difference between the current value of future benefits and the current value of future contributions, corresponding to obligations in the form of retirement, disability, pension and annuity plans. The reserve is calculated using methodologies and assumptions set forth in the actuarial technical notes;

 - Mathematical reserves for unvested benefits related to life insurance and unrestricted benefit pension plans (VGBL and PGBL), apart from the defined contribution plans, show the value of participant contributions, net of costs and other contractual charges, plus income from investment in Exclusive Investment Funds (FIEs);

 - The reserve for redemptions and other amounts to be settled (PVR) comprises figures related to redemptions to settle, premium refund and portability requested not yet transferred to the recipient;

Financial Statements, Independent Auditors' Report and Fiscal Council's Report

Notes to the Consolidated Financial Statements

- The mathematical reserve for vested benefits (PMBC) refers to participants already benefiting and corresponds to the present value of future obligations related to the payment of ongoing benefits;

- The complementary reserve for coverage (PCC) refers to the amount necessary to complement technical reserves, as calculated through the Liability Adequacy Test (LAT), which is prepared using statistic and actuarial methods based on realistic considerations, taking into account the biometric table BR-EMS of both genders, improvement of G Scale and forward interest rate structures (ETTJ) free from risk and authorized by Susep. The improvement rate is calculated from automatic updates of the biometric table, considering the expected increase in future life expectancy;

- The reserve for related expenses (PDR) is recorded to cover estimated benefit and claims expenses;

- The reserve for financial surplus (PEF) corresponds to the portion of income from investment of reserves that exceeds minimum returns from pension plans that have a financial surplus in the participation clause;

- The reserve for technical surplus (PET) corresponds to the difference between the expected and the actual amounts for events in the period for pension plans that have a technical surplus in the participation clause;

- The reserve for incurred but not reported (IBNR) events, relating to pension plans, is recorded in compliance with Susep Circular Letter 448/12; and

- The reserve for unsettled claims (PSL) considers all loss notices received up to the end of the reporting period and related costs, such as expenses with loss adjustment, loss of suit, among others. The reserve is adjusted for inflation and includes all claims under litigation.

- Capitalization bonds:

- The mathematical reserve for capitalization bond (PMC) is recorded for each active or suspended capitalization bond during the estimated term set forth in the general conditions of the plan, and is calculated according to the methodology set forth in the actuarial technical notes;

- The reserve for redemption (PR) is recorded from capitalization bonds overdue or not yet due where early redemption has been requested by the customer. Reserves are adjusted for inflation based on the indexes provided in each plan; and

- The reserve for draws not yet taken place (PSR) and the reserve for draws payable (PSP) are recorded to cover premiums for future draws (not yet taken place) and also for prize money from draws where customers have already been chosen (payable).

Technical reserves are shown by account, product and segment, as well as amounts and details of plan assets covering these technical reserves, and are shown in Note 21.

p) Provisions, contingent assets and liabilities and legal obligations - tax and social security

Provisions, contingent assets and liabilities, and legal obligations, as defined below, are recognized, measured and disclosed in accordance with the criteria set out in CPC 25, approved by CMN Resolution 3823/09 and CVM Resolution 594/09:

- Contingent assets: these are not recognized in the financial statements, except when Management has control over the situation or when there are real guarantees or favorable judicial decisions, to which no further appeals are applicable, classifying the gain as practically certain by confirming the expectation of receipt or compensation against another liability. Contingent assets with a chance of probable success are disclosed in the notes to the financial statements;

Bradesco _____

Financial Statements, Independent Auditors' Report and Fiscal Council's Report

Notes to the Consolidated Financial Statements

- Provisions: these are recorded taking into consideration the opinion of legal counsel, the nature of the lawsuits, similarity with previous lawsuits, complexity and positioning of the courts, whenever the loss is deemed probable which would cause a probable outflow of funds to settle the obligation and when amounts can be reliably measured;
- Contingent liabilities: according to CPC 25, the term "contingent" is used for liabilities that are not recognized because their existence will only be confirmed by the occurrence of one or more uncertain future events beyond Management's control. Contingent liabilities considered as possible losses should only be disclosed in the notes when relevant. Obligations deemed remote are not recorded as a provision nor disclosed; and
- Legal obligations - provision for tax risks: results from judicial proceedings, being contested on the grounds of legality or constitutionality, which, regardless of the assessment of the probability of success, are fully recognized in the financial statements.

Details on lawsuits, as well as segregation and changes in amounts recorded, by type, are presented in Note 18.

q) Funding expenses

Expenses related to funding transactions involving the issuance of securities are recognized in the profit or loss over the term of the transaction and reduces the corresponding liability. They are presented in Notes 16c and 19.

r) Other assets and liabilities

Assets are stated at their realizable amounts, including, when applicable, related income and monetary and exchange variations (on a daily prorated basis), less provision for losses, when deemed appropriate. Liabilities include known or measurable amounts, including related charges and monetary and exchange variations (on a daily prorated basis).

s) Subsequent events

These refer to events occurring from the end of the reporting period to the date they are authorized to be issued.

They comprise the following:

- Events resulting in adjustments: events relating to conditions already existing at the end of the reporting period; and
- Events not resulting in adjustments: events relating to conditions not existing at the end of the reporting period.

There were no subsequent events that need to be adjusted or disclosed for these consolidated financial statements as of March 31, 2013.

(1) Consistent with the criterion adopted by Bacen Circular Letter 3068/01 and due to the characteristics of the securities, we are considering the derivative financial instruments, except those considered as cash flow hedges under the category Trading Securities;

(2) These refer to investment fund resources and managed portfolios applied on purchase and sale commitments with Bradesco, whose owners are consolidated subsidiaries, included in the consolidated financial statements;

(3) The investment fund quotas were distributed according to the instruments composing their portfolios and maintaining the fund category classification;

(4) In compliance with Article 8 of Bacen Circular Letter 3068/01, Bradesco declares that it has financial capacity and intention to maintain held-to-maturity securities up to their maturity dates. This financial capacity is proven in Note 32a, which presents the maturity of asset and liability operations. On June 30, 2012, R\$28,501,990 thousand were transferred from "Held to Maturity" to "Available for Sale," due to reclassification made by the Insurance Group, as a result of adoption of CPCs 38 and 40;

(5) The number of days to maturity was based on the maturity of the instruments, regardless of their accounting classification;

(6) This column reflects book value after mark-to-market in accordance with item (7), except for held-to-maturity instruments, whose market value is higher than the original amortized cost for the amount of R\$2,418,145 thousand (R\$2,618,956 thousand on December 31, 2012 and R\$6,477,950 thousand on March 31, 2012);

(7) The market value of securities is determined based on the market price available at the end of the reporting period. If no market price quotation is available at the end of the reporting period, amounts are estimated based on the prices quoted by dealers, pricing models, quotation models or price quotations for instruments with similar characteristics; for investment funds, the original amortized cost reflects the market value of the respective quotas; and

(8) In the first quarter of 2013 and 2012, other than temporary impairments were not realized (fourth quarter of 2012 – R\$889,980 thousand) for available-for-sale securities.

e) Derivative financial instruments

Bradesco carries out transactions involving derivative financial instruments, which are recorded in the statement of financial position or in memorandum accounts, to meet its own needs in managing its global exposure, as well as to meet its customer's requests, in order to manage their exposure. These operations involve a series of derivatives, including interest rate swaps, currency swaps, futures and options. Bradesco's risk management policy is based on the utilization of derivative financial instruments mainly to mitigate the risks from operations carried out by the Bank and its subsidiaries.

Securities classified as trading and available-for-sale, as well as derivative financial instruments, are recognized in the consolidated statement of financial position at their estimated fair value. Fair value is generally based on quoted market prices or quotations for assets or liabilities with similar characteristics. Should market prices not be available, fair values are based on dealer quotations, pricing models, discounted cash flows or similar techniques for which the determination of fair value may require judgment or significant estimates by the Management.

Quoted market prices are used to determine the fair value of derivative financial instruments. The fair value of swaps is determined by using discounted cash flow modeling techniques that use yield curves, reflecting adequate risk factors. The information to build yield curves is mainly obtained from the Securities, Commodities and Futures Exchange (BM&FBOVESPA) and the domestic and international secondary market. These yield curves are used to determine the fair value of currency swaps, interest rate and other risk factors swaps. The fair value of forward and futures contracts is also determined based on market price quotations for derivatives traded at the stock exchange or using methodologies similar to those outlined for swaps. The fair values of loan derivative instruments are determined based on market price quotation or from specialized entities. The fair value of options is determined based on mathematical models, such as Black & Scholes, using yield curves, implied volatilities and the fair value of corresponding assets. Current market prices are used to calculate volatility.

Derivative financial instruments in Brazil mainly refer to swap and futures operations and are registered at the OTC Clearing House (Cetip) and BM&FBOVESPA.

Operations involving forward contracts of indexes and currencies are contracted by Management to hedge Bradesco's overall exposures and to meet customer needs.

Foreign derivative financial instruments refer to swap, forward, options, credit and futures operations and are mainly carried out at the stock exchanges of Chicago and New York, as well as the over-the-counter markets.

f) Credit Default Swaps (CDS)

In general, these represent bilateral agreements in which one of the parties purchases protection against the credit risk of a certain financial instrument (the risk is transferred). The selling counterparty receives remuneration that is usually paid linearly over the term of the agreement.

In the case of a default, the purchasing counterparty will receive a payment to offset the loss incurred on the financial instrument. In this case, the selling counterparty usually receives the underlying asset of the agreement in exchange for the payment.

Bradesco carries out operations involving credit derivatives to better manage its risk exposure and its assets. Contracts related to credit derivatives operations described above have several maturities up to 2013. The mark-to-market rates to protect counterparty risk through remuneration totaled R\$(1,018) thousand (R\$(332) thousand on December 31, 2012 and R\$(993) thousand on March 31, 2012). There were no events to trigger defaults within the contracts during the period.

Financial Statements, Independent Auditors' Report and Fiscal Council's Report**Notes to the Consolidated Financial Statements****g) Cash flow hedge**

Bradesco uses cash flow hedges to protect its cash flows from payment of interest rates on funds indexed to Bank Deposit Certificates (CDB), related to variable interest rate risk of Interbank Deposit Rate (DI Cetip), thus registering fixed cash flows.

Bradesco has traded DI Future contracts at BM&FBOVESPA since 2009, using them as cash flow hedges for funding linked to DI. The following table presents the DI Future position, where:

	R\$ thousand		
	2013	2012

The Bradesco Organization's premises and equipment shows an unrecorded surplus of R\$3,740,214 thousand (R\$3,488,153 thousand on December 31, 2012 and R\$2,974,569 thousand on March 31, 2012). This is due to an increase in their market price, based on valuations by independent experts in 2013, 2012 and 2011.

The total consolidated fixed assets to net worth ratio is 16.5% (16.9% on December 31, 2012 and 19.9% on March 31, 2012), and the consolidated finance fixed assets to net worth ratio is 43.7% (44.6% on December 31, 2012 and 47.7% on March 31, 2012), whereas the maximum limit is 50%.

The difference between the total consolidated and consolidated finance fixed assets to net worth ratios is due to non-financial subsidiaries which have high liquidity and low fixed assets to net worth ratio, with the consequent increase in the consolidated finance fixed assets to net worth ratio. Whenever necessary, we may reallocate funds to the financial companies through the payment of dividends/interest on shareholders' equity to financial companies or a corporate restructuring between the financial and non-financial companies, thus improving the ratio.

Financial Statements, Independent Auditors' Report and Fiscal Council's Report**Notes to the Consolidated Financial Statements****15) INTANGIBLE ASSETS****a) Goodwill**

Goodwill from the acquisition of investments amounted to R\$2,788,254 thousand, net of accumulated amortization, where applicable, of which:

(i) R\$579,499 thousand represents the difference between the purchase price and the market value of the net assets acquired, which is recorded in Permanent Assets - Investments (BM&FBOVESPA and Integritas/Fleury shares), amortized when disposed; and (ii) R\$2,208,755 thousand, net of accumulated amortization, for future performance/customer portfolio, which is amortized over 20 years, where applicable.

In the first quarter of 2013, goodwill amortization amounted to R\$67,358 thousand (R\$1,225,933 thousand in the fourth quarter of 2012, including R\$1,155,674 thousand of full amortization of Banco Berj S.A. goodwill; and R\$65,785 thousand in the first quarter of 2012) (Note 29).

d) Since 2003, Bradesco has used certain agreements to optimize its funding and liquidity management activities by using SPEs - Special Purpose Entities. An SPE, also known as a Diversified Payment Rights Company outside Brazil, is financed with long-term debt and settled through future cash flows from underlying assets which basically include flows from current payment orders and future remittances made by individuals and companies located abroad to beneficiaries in Brazil for which the Bank acts as a paying agent.

Long-term securities issued by the SPE and sold to investors are settled with proceeds from the payment order flows. Bradesco is obliged to redeem these securities in specific cases of delinquency or if the SPE discontinues operations.

Funds from the sale of current and future payment order flows, received by the SPE, must be maintained in a specific bank account until a minimum amount has been reached.

Below are the main features of the notes issued by SPEs:

18) PROVISIONS, CONTINGENT ASSETS AND LIABILITIES AND LEGAL LIABILITIES - TAX AND SOCIAL SECURITY**a) Contingent assets**

Contingent assets are not recognized in the financial statements, however, there are ongoing proceedings where the chance of success is considered probable, such as: a) Social Integration Program (PIS), claiming to offset PIS against Gross Operating Income, paid under Decree-Laws 2445/88 and 2449/88, regarding the payment that exceeded the amount due under Supplementary Law 07/70 (PIS Repique); and b) other taxes, the legality and/or constitutionality of which is being challenged, where the decision may lead to reimbursement of amounts paid.

b) Provisions classified as probable losses and legal obligations - tax and social security

Bradesco Organization is a party to a number of labor, civil and tax lawsuits, arising from the normal course of business.

Management recorded provisions based on their opinion and of their legal counsel, the nature of the lawsuit, similarity to previous lawsuits, complexity and the courts standing, where the loss is deemed probable.

Management considers that the provision is sufficient to cover losses generated by the respective lawsuits.

Liability related to litigation is held until the conclusion to the lawsuit, represented by judicial decisions, with no further appeals or due to the statute of limitation.

Report on Economic and Financial Analysis - March 2013

Notes to the Consolidated Financial Statements

I - Labor claims

These are claims brought by former employees and outsourced employees seeking indemnifications, especially for unpaid overtime, according to Article 224 of the Consolidation of Labor Laws (CLT). In proceedings in which a judicial deposit is used to guarantee the execution of the judgment, the labor provision is made considering the estimated loss of these deposits. For other proceedings, the provision is based on the average of payments made for claims settled over the last 12 months.

Overtime is monitored by using electronic time cards and paid regularly during the employment contract and, accordingly, the claims filed by former employees do not represent significant amounts.

II - Civil claims

These are claims for pain and suffering and property damages, mainly relating to protests, returned checks, the inclusion of information about debtors in the credit restriction registry and the replacement of inflation adjustments excluded as a result of government economic plans. These lawsuits are individually controlled using a computer-based system and provisioned whenever the loss is deemed as probable, considering the opinion of Management and their legal counsel, the nature of the lawsuits, and similarity with previous lawsuits, complexity and positioning of the courts.

Most of these lawsuits are brought to the Special Civil Court (JEC), in which the claims are limited to 40 times the minimum wage and do not cause significant impact on Bradesco Organization's financial position.

Note that a significant number of legal claims pleading the incidence of inflation rates, which were excluded from inflation adjustments on savings account balances due to economic plans, were part of federal government's economic policy to reduce inflation. Although the Bank complied with the legal requirements in force at the time, these lawsuits have been recorded as provisions, taking into consideration claims effectively notified and the evaluation of the perspective of the loss, considering the current judicial decision of the Superior Court of Justice (STJ).

Two points are worth noting regarding disputes relating to economic plans: a) the Bank does not expect any significant provisions to be recorded in excess of what has been provided for, as legal new claims cannot be made; and b) the Federal Supreme Court (STF) suspended the analysis of all appeals up until a final decision issued by the court.

III - Legal obligations - provision for tax risks

The Bradesco Organization is disputing the legality and constitutionality of certain taxes and contributions in court, for which provisions have been recorded in full, although there is good chance of a favorable outcome in the medium to long term, based on the opinion of Management and their legal counsel. The processing of these legal obligations whose risk is deemed as probable is regularly monitored in the legal court. During or after the conclusion of each case, a favorable outcome may arise for the Organization, resulting in the reversal of the related provisions.

(1) Mainly include legal liabilities.

c) Contingent liabilities classified as possible losses

The Bradesco Organization maintains a system to monitor all administrative and judicial proceedings in which the institution is plaintiff or defendant and, based on the opinion of legal counsel, classifies the lawsuits according to the expectation of loss. Case law trends are periodically analyzed and, if necessary, the related risk is reclassified. In this respect, contingent lawsuits deemed with the risk of a possible loss are not recorded as a liability in the financial statements. The main lawsuits classified as such are the following: a) leasing companies' Tax on Services of any Nature (ISSQN), total lawsuits correspond to R\$1,134,548 thousand (R\$1,132,804 thousand on December 31, 2012 and R\$584,356 thousand on March 31, 2012) which relates to the municipal tax demands other than those where the company is not located and where, under law, tax is collected; b) 2006-2009 income tax and social contribution, relating to goodwill amortization being disallowed on the acquisition of investments, for the amount of R\$813,533 thousand (R\$711,431 thousand on December 31, 2012 and R\$378,551 thousand on March 31, 2012); c) IRPJ and CSLL deficiency notice relating to disallowance of loan loss expenses, for the amount of R\$475,693 thousand (R\$469,337 thousand on December 31, 2012); and d) IRPJ and CSLL deficiency note relating to disallowance of exclusions of revenues from mark-to-market securities in 2007, amounting to R\$227,783 thousand (R\$226,145 thousand on December 31, 2012)

Financial Statements, Independent Auditors' Report and Fiscal Council's Report

Notes to the Consolidated Financial Statements

The Special Shareholders' Meeting held on March 11, 2013 deliberated on the capital increase of R\$8,000,000 thousand, from R\$30,100,000 thousand to R\$38,100,000 thousand, through the capitalization of a portion of the "Profit Reserves – Statutory Reserve" account, in compliance with Article 169 of Law 6404/76, with a 10% stock bonus, through the issue of 382,479,458 new no-par registered, book-entry shares, of which 191,239,739 are common shares and 191,239,719 are preferred shares, paid free of charge to shareholders as bonus, at the proportion of one (1) new share for every ten (10) new shares of the same type they hold, benefiting Bradesco's shareholders of record as at March 25, 2013.

Simultaneously to the operation in the Brazilian Market and at the same proportion, the ADRs – American Depositary Receipts at the U.S. Market (NYSE) and GDRs – Global Depositary Receipts at the European Market (Latibex) were granted bonus, and shareholders received one (1) new DR for every ten (10) DRs they held as at March 28, 2013.

c) Interest on shareholders' equity/dividends

Preferred shares have no voting rights, but are entitled to all other rights and advantages given to common shares and, in compliance with Bradesco's Bylaws, have priority for repayment of capital and an additional ten percent (10%) interest on shareholders' equity and/or dividends, in accordance with the provisions of Paragraph 1, item II, of Article 17 of Law 6404/76, amended by Law 10303/01.

According to Bradesco's Bylaws, shareholders are entitled to interest on shareholders' equity and/or dividends amounting to at least 30% of the net income for the year, adjusted in accordance with Brazilian Corporate Law.

Interest on shareholders' equity is calculated based on the shareholders' equity limited to the variation in the Federal Government Long-Term Interest Rates (TJLP), subject to available profits before deductions, or transfer to retained earnings or profit reserves for the amounts equivalent or greater than twice its value.

Bradesco's capital remuneration policy aims to distribute interest on shareholders' equity at the maximum amount calculated under current legislation, and this is included, net of Withholding Income Tax, in the calculation for mandatory dividends for the year under the Company's Bylaws.

The Board of Directors' Meeting held on June 20, 2012 approved the Board of Executive Officers' proposal to pay Company's shareholders monthly interest on shareholders' equity, replacing monthly dividends.

Shareholders now receive R\$0.018817992 (net of 15% withholding income tax - R\$0.015995293) per common share and R\$0.020699791 (net of 15% withholding income tax - R\$0.017594822) per preferred share, in effect from July 2012, to be paid as of August 1, 2012.

The Board of Directors' meeting held on June 27, 2012 approved the Board of Executive Officers' proposal to pay shareholders interim interest on shareholders' equity for the first half of 2012, for the amount of R\$754,300 thousand, at R\$0.188184678 (net of 15% withholding income tax - R\$0.159956976) per common share and R\$0.207003146 (net of 15% withholding income tax - R\$0.175952674) per preferred share, which was paid on July 18, 2012.

The Board of Directors' Meeting held on December 21, 2012 approved the Board of Executive Officers' proposal to pay shareholders supplementary interest on shareholders' equity for 2012, for the amount of R\$2,054,400 thousand, at R\$0.512557736 (net of 15% withholding income tax - R\$0.435674076) per common share and R\$0.563813510 (net of 15% withholding income tax - R\$0.479241484) per preferred share, which was paid on March 7, 2013.

Financial Statements, Independent Auditors' Report and Fiscal Council's Report**Notes to the Consolidated Financial Statements****b) Compensation for key Management personnel**

Each year, the Annual Shareholders' Meeting approves:

- The annual overall amount of management compensation, set forth at the Board of Directors Meetings, to be paid to board members and members of the Board of Executive Officers, as determined by the Company's Bylaws, and
- The amount allocated to finance Management pension plans, within the Employee and Management pension plan of the Bradesco Organization.

For 2013, the maximum amount of R\$329,600 thousand was set for Management compensation and R\$325,600 thousand to finance defined contribution pension plans.

The current policy on Management compensation sets forth that 50% of net variable compensation, if any, must be allocated to the acquisition of preferred shares of Banco Bradesco S.A., which must be traded in three equal, annual and successive installments, the first of which maturing in the year following the payment date. This procedure complies with CMN Resolution 3921/10, that sets forth a management compensation policy for financial institutions

Other information**l) Under current law, financial institutions are not allowed to grant loans or advances to:**

- a) Officers and members of the advisory, administrative, fiscal or similar councils, as well as to their respective spouses and family members up to the second degree;
- b) Individuals or corporations that own more than 10% of their capital; and
- c) Corporations of which the financial institution itself, any officers or administrators of the institution, as well as their spouses and respective family members up to the second degree own more than 10%.

Therefore, no loans or advances are granted by financial institutions to any subsidiary, members of the Board of Directors or Board of Executive Officers and their relatives.

Financial Statements, Independent Auditors' Report and Fiscal Council's Report**Notes to the Consolidated Financial Statements****II) Shareholding**

Together, Members of the Board of Directors and Board of Executive Officers had the following shareholding in Bradesco:

	2013	2012	
	March 31	December 31	March 31
Common shares	0.73%	0.73%	0.74%

(1) On March 31, 2013, direct and indirect shareholding of the members of Bradesco's Board of Directors and Board of Executive Officers amounted to 3.15% of common shares, 1.05% of preferred shares and 2.10% of all shares.

32) FINANCIAL INSTRUMENTS**a) Risk management**

Risk management is highly strategic due to the increasing complexity of services and products and the globalization of the Organization's business. The dynamic markets lead Bradesco to an ongoing improvement of this activity in the pursuit of best practices. For that reason, Bradesco was authorized by Bacen to use its internal market risk models, which were already in force, to calculate regulatory capital as of January 2013.

The Organization controls risk management in an integrated and independent manner, preserving and valuing the Board's decisions, developing and implementing methodologies, models, and measurement and control tools. It also provides training to employees from all Organization levels, from the business areas to the Board of Directors.

The management process allows the risks to be proactively identified, measured, mitigated, monitored and reported, which is necessary in view of the Organization's complex financial products and activity profile.

Credit risk management

Credit risk refers to the possibility of losses associated to the non-compliance by the borrower or counterparty for their respective financial obligations under agreed terms, as well as to the reduction of the value of a loan agreement resulting from a deterioration of the borrower's risk rating, reduced earnings or remuneration, the advantages in renegotiation, recovery costs and other values related to the counterparty's non-compliance with its financial obligations.

Credit risk management in the Organization is a continuous and evolving process of mapping, development, assessment and diagnosis through the use of models, instruments and procedures that require a high degree of discipline and control during the analysis of operations to preserve the integrity and autonomy of the processes.

The Organization carefully controls its exposure to credit risk, which mainly results from loans, securities and derivative financial instruments. Credit risk also stems from financial obligations related to loan commitments or financial guarantees.

Market risk management

Market risk is represented by the possibility of financial losses due to fluctuating prices and interest rates of the Organization's financial assets as its asset and liability portfolios may have mismatched maturities, currencies and indexes.

Market risk is carefully identified, measured, mitigated and controlled. The Organization has a conservative exposure profile to market risk, with the guidelines and limits monitored independently on a daily basis.

Market risk is controlled for all of the Organization's companies in a corporate and centralized manner. All activities exposed to market risk are mapped, measured and classified by probability and importance, with their respective mitigation plans duly approved by the corporate governance structure.

Sensitivity analysis

The Trading Portfolio is also monitored daily by sensitivity analyses that measure the effect of movements of market and price curves on our positions. Furthermore, a sensitivity analysis of the Organization's financial exposures (Trading and Banking Portfolio) is performed on a quarterly basis, in compliance with CVM Rule 475/08.

Note that the impact of the financial exposure on the Banking Portfolio (notably interest rates and price indexes) do not necessarily represent a potential accounting loss for the Organization because a portion of loans held in the Banking Portfolio are financed by demand and/or savings deposits, which are "natural hedges" for future variations in interest rates, moreover, interest rate variations do not represent a material impact on the Institution's result, as Loans are held to maturity. Also, due to our strong presence in the insurance and pension plan market, most of the assets are adjusted for price indexes, linked to the corresponding technical reserves.

Financial Statements, Independent Auditors' Report and Fiscal Council's Report**Notes to the Consolidated Financial Statements**

The sensitivity analysis of the Trading Portfolio, which represents exposures that may have a material impact on the Organization's results, is presented below. Note that results show the impact for each scenario on a static portfolio position. The market dynamism results in continuous changes in these positions and does not necessarily reflect the current position. Moreover, as previously mentioned, the Organization has an ongoing process of market risk management, which constantly looks for market dynamism to mitigate related risks according to the strategy determined by Senior Management. Therefore, in cases of deterioration indicators in a certain position, proactive measures are taken to minimize any potential negative impact, aimed at maximizing the risk/return ratio for the Organization.

Financial Statements, Independent Auditors' Report and Fiscal Council's Report

Notes to the Consolidated Financial Statements

Sensitivity analyses were carried out based on scenarios prepared for the respective dates, always considering market data at the time and scenarios that would adversely affect our positions, according to the examples below:

Scenario 1: Based on market information (BM&FBOVESPA, Anbima, etc.), stresses were applied for 1 basis point on the interest rate and 1% variation on prices. For example, in the scenario applied to positions on March 31, 2013, the Real/Dollar exchange rate was R\$2.04. The rate applied on the positions on March 31, 2013 was 7.94% p.a. for the 1-year fixed interest rate scenario,

Scenario 2: 25% stresses were determined based on market information. For instance, in the scenario applied to positions on March 31, 2013, the Real/Dollar exchange rate was R\$2.52. For the interest rate scenario, the 1-year fixed interest rate applied to positions on March 31, 2013 was 9.91% p.a. Scenarios for other risk factors also represented a 25% stress on the respective curves or prices, and

Scenario 3: 50% stresses were determined based on market information. For instance, in the scenario applied to positions on March 31, 2013, the Real/Dollar exchange rate was R\$3.03. For the interest rate scenario, the 1-year fixed interest rate applied to positions on March 31, 2013 was 11.89% p.a. Scenarios for other risk factors also represented a 50% stress on the respective curves or prices.

Liquidity Risk

Liquidity Risk is represented by the possibility of the institution not being able to efficiently meet its obligations, without affecting its daily operations and incurring significant losses, as well as the possibility of the institution not being able to trade a position at market price due to its high amount when compared to the usually traded volume or due to some market discontinuation.

One of the objectives of the Organization's Policy on Market and Liquidity Risk Management, approved by the Board of Directors, is to lay down the rules, criteria and procedures that guarantee the establishment of the Minimum Liquidity Reserve (RML) for the Organization, as well as the strategy and action plans for liquidity crisis situations. As part of the criteria and procedures approved, the Organization also establishes a minimum liquidity reserve to be recorded daily and the types of assets eligible for making up the resources available. Moreover, instruments for managing liquidity in a normal scenario and in a crisis

scenario and the strategies to be implemented in each case are established.

The liquidity risk is managed in a corporate and centralized manner, by daily monitoring of the composition of available resources, compliance with the minimum level of liquidity and contingency plans for stress situations.

Report on Economic and Financial Analysis – March 2013

Notes to the Consolidated Financial Statements

Operational Risk

Operational risk is represented by losses from internal processes, personnel and inadequate systems or failures and external events. This definition includes legal risk, but excludes Strategy and Reputation Risk.

Operational risk management is essential to generate added value. Risk is controlled centrally through identification, measurement, mitigation plans and monitoring, on a consolidated basis and for each of the Organization's companies.

Among plans to mitigate operational risk, the most important is business continuity management, which consists of formal plans to be adopted during moments of crisis to guarantee the recovery and continuation of business as well as preventing loss.

Capital Management

The capital management process is performed to provide the conditions necessary to meet the Organization's strategic objectives, considering the economic and commercial environment in which it operates. This process is compatible with the nature of operations, complexity of service and products and extent of the Organization's exposure to risks.

Under Bacen regulations, financial institutions are required to permanently maintain capital (Reference Shareholders' Equity) consistent with the risks of their activities, represented by Required Reference Shareholders' Equity (PRE). The PRE calculation considers, at least, the sum of credit risk, market risk and operating risk.

Adjusting to Reference Shareholders' Equity is done daily and aims to ensure that the Organization has a solid capital base to support development of activities and cope with risk, either in normal or in extreme market conditions, as well as meeting capital regulatory requirements.

Notes to the Consolidated Financial Statements

Determination of the market value of financial instruments:

- Securities and derivative financial instruments, investments, subordinated debts and treasury shares are based on the market price at the reporting date. If no quoted market price is available, estimate amounts are based on the dealer quotations, pricing models, quotation models or quotations for instruments with similar characteristics;
- Fixed rate loans were determined by discounting estimated cash flows, using interest rates applied by the Bradesco Organization for new contracts with similar features. These rates are consistent with the market at the reporting date; and
- Time deposits, funds from issuance of securities, borrowing and onlending were calculated by discounting the difference between the cash flows under the contract terms and the prevailing market rates at the reporting date.

33) EMPLOYEE BENEFITS

Bradesco and its subsidiaries sponsor a unrestricted benefit pension plan (PGBL) for employees and directors which is a private defined contribution pension plan that allows financial resources to be accumulated by participants throughout their careers by means of employee and employer contributions and invested in an Exclusive Investment Fund (FIE).

The PGBL is managed by Bradesco Vida e Previdência S.A. and BRAM - Bradesco Asset Management S.A. The Securities Dealer Company (DTVM) is responsible for the financial management of FIE.

Contributions made by employees and directors of Bradesco and its subsidiaries are for the equivalent of at least 4% of their salary, except for participants who chose to migrate from the defined benefit plan to a defined contribution plan (PGBL) in 2001, whose contributions to the PGBL were maintained at the levels that prevailed for the defined benefit plan when they migrated, always respecting the 4% minimum.

Actuarial obligations of the defined contribution plan (PGBL) are fully covered by the plan assets of the corresponding FIE.

In addition to the aforementioned plan (PGBL), participants who chose to migrate from the defined benefit plan are guaranteed a proportional deferred benefit, corresponding to their accumulated rights in the plan. For participants of the defined benefit plan, whether they migrated to the PGBL plan or not, for retirees and pensioners, the present value of the actuarial plan obligation is fully covered by the plan assets.

Banco Alvorada S.A. (successor from the of Banco Baneb S.A.) maintains defined contribution and defined benefit retirement plans, through Fundação Baneb de Seguridade Social - Bases (related to the former

employees of Baneb).

Banco Bradesco BBI S.A. (formally Banco BEM S.A.) sponsor both defined benefit and defined contribution retirement plans, through Caixa de Assistência e Aposentadoria dos Funcionários do Banco do Estado do Maranhão (Capof).

Alvorada Cartões, Crédito, Financiamento e Investimento S.A. (Alvorada CCFI) (merging company of Banco BEC S.A.) sponsors a defined benefit plan through Caixa de Previdência Privada do Banco do Estado do Ceará (Cabec).

The assets of pension plans are invested in compliance with the applicable legislation (government securities and private securities, listed company shares and real estate properties).

Report on Economic and Financial Analysis - March 2013

Financial Statements, Independent Auditors' Report and Fiscal Council's Report**Notes to the Consolidated Financial Statements**

On December 31, 2012, according to CPC 33 – Employee Benefit, as approved by CVM Resolution 600/09, Bradesco and its subsidiaries, as sponsors of these plans, taking into consideration the economic and actuarial study, recalculated their actuarial commitments using a real interest rate that reflects the new real interest rate scenario, recognizing their obligations in the financial statements.

Bradesco's foreign branches and subsidiaries provide their employees and directors with a pension plan in accordance with standards set locally by the authorities so accumulating funds throughout the participant's career.

Expenses relating to contributions made in the first quarter of 2013 totaled R\$158,043 thousand (R\$181,159 thousand in the fourth quarter of 2012 and R\$117,074 thousand in the first quarter of 2012).

In addition to this benefit, Bradesco and its subsidiaries offer their employees and management other benefits including: health insurance, dental care, life and personal accident insurance, as well as professional training, whose expenses, including the aforementioned contributions, amounted to R\$670,355 thousand in the first quarter of 2013 (R\$715,913 thousand in the fourth quarter of 2012 and R\$607,816 thousand in the first quarter of 2012).

Report on the Review of the Interim Consolidated Financial Information

To the Board of Directors and Shareholders of

Banco Bradesco S.A.

Osasco - SP

Introduction

We have reviewed the consolidated statement of financial position of Banco Bradesco S.A. (“Bradesco”) as of March 31, 2013 and the related consolidated statements of income, changes in shareholders' equity and cash flows for the quarter then ended, as well as the summary of significant accounting policies and other explanatory notes (“the consolidated interim financial statements”).

Management is responsible for the preparation and fair presentation of this interim consolidated financial information in accordance with accounting practices adopted in Brazil, applicable to financial institutions authorized to operate by the Brazilian Central Bank (BACEN). Our responsibility is to express a conclusion on this interim consolidated financial information based on our review.

Scope of review

We conducted our review in accordance with Brazilian and International Standards on Review of Interim Financial Information (NBC TR 2410 – *Revisão de Informações Intermediárias Executada pelo Auditor da Entidade* and ISRE 2410 – Review of Interim Financial Information Performed by the Independent Auditor of the Entity, respectively). A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and

accounting matters and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with auditing standards and consequently, does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Therefore, we do not express an audit opinion.

Conclusion

Based on our review, we are not aware of any facts that would lead us to believe that the interim consolidated financial information above were not prepared, in all material aspects, in accordance with accounting practices adopted in Brazil applicable to financial institutions authorized to operate by the Brazilian Central Bank.

Interim consolidated statements of Value Added

We also reviewed the interim consolidated statement of Value Added (DVA) for the quarter ended March 31, 2013, which was prepared under Bradesco's Management responsibility and which presentation is required under the rules issued by the Securities and Exchange Commission of Brazil (CVM). This statement was subject to the same review procedures described above and based on our review, we are not aware of any facts that would lead us to believe they were not prepared, in all material respects, in relation to the other interim consolidated financial information taken as a whole.
