(2) It includes restricted cash of USD 80 and USD 84 as of September 30, 2017 and 2016, respectively. In addition, the Company had other investments with a maturity of more than three months for USD 157,151 and USD 196,729 as of September 30, 2017 and 2016, respectively.

The accompanying notes are an integral part of these consolidated condensed interim financial statements. These consolidated condensed interim financial statements should be read in conjunction with our audited Consolidated Financial Statements and notes for the year ended December 31, 2016.

TERNIUM S.A.

Consolidated Condensed Interim Financial Statements as of September 30, 2017

and for the nine-month periods ended September 30, 2017 and 2016

Notes to the Consolidated Condensed Interim Financial Statements

1. GENERAL INFORMATION AND BASIS OF PRESENTATION

a) General information and basis of presentation

Ternium S.A. (the “Company” or “Ternium”), was incorporated on December 22, 2003 to hold investments in flat and long steel manufacturing and distributing companies. The Company has an authorized share capital of a single class of 3.5 billion shares having a nominal value of USD 1.00 per share. As of September 30, 2017, there were 2,004,743,442 shares issued. All issued shares are fully paid.

Following a corporate reorganization carried out during fiscal year 2005, in January 2006 the Company successfully completed its registration process with the United States Securities and Exchange Commission (“SEC”). Ternium’s ADSs began trading on the New York Stock Exchange under the symbol “TX” on February 1, 2006. The Company’s initial public offering was settled on February 6, 2006.

The Company was initially established as a public limited liability company (société anonyme) under Luxembourg’s 1929 holding company regime. Until termination of such regime on December 31, 2010, holding companies incorporated under the 1929 regime (including the Company) were exempt from Luxembourg corporate and withholding tax over dividends distributed to shareholders.

On January 1, 2011, the Company became an ordinary public limited liability company (société anonyme) and, effective as from that date, the Company is subject to all applicable Luxembourg taxes (including, among others, corporate income tax on its worldwide income) and its dividend distributions will generally be subject to Luxembourg withholding tax. However, dividends received by the Company from subsidiaries in high income tax jurisdictions, as defined under Luxembourg law, will continue to be exempt from corporate income tax in Luxembourg under Luxembourg’s participation exemption.

As part of the Company's corporate reorganization in connection with the termination of Luxembourg's 1929 holding company regime, on December 6, 2010, the Company contributed its equity holdings in all its subsidiaries and all its financial assets to its Luxembourg wholly-owned subsidiary Ternium Investments S.à r.l., or Ternium Investments, in exchange for newly issued corporate units of Ternium Investments. As the assets contributed were recorded at their historical carrying amount in accordance with Luxembourg GAAP, the Company's December 2010 contribution of such assets to Ternium Investments resulted in a non-taxable revaluation of the accounting value of the Company's assets under Luxembourg GAAP. The amount of the December 2010 revaluation was equal to the difference between the historical carrying amounts of the assets contributed and the value at which such assets were contributed and amounted to USD 4.0 billion. However, for the purpose of these consolidated condensed interim financial statements, the assets contributed by Ternium to its wholly-owned subsidiary Ternium Investments were recorded based on their historical carrying amounts in accordance with IFRS, with no impact on the financial statements.

TERNIUM S.A.

Consolidated Condensed Interim Financial Statements as of September 30, 2017

and for the nine-month periods ended September 30, 2017 and 2016

1. GENERAL INFORMATION AND BASIS OF PRESENTATION (continued)

Following the completion of the corporate reorganization, and upon its conversion into an ordinary Luxembourg holding company, the Company voluntarily recorded a special reserve exclusively for tax-basis purposes. As of December 31, 2016 and 2015, this special reserve amounted to USD 6.9 billion and USD 7.1 billion, respectively. The Company expects that, as a result of its corporate reorganization, its current overall tax burden will not increase, as all or substantially all of its dividend income will come from high income tax jurisdictions. In addition, the Company expects that dividend distributions for the foreseeable future will be imputed to the special reserve and therefore should be exempt from Luxembourg withholding tax under current Luxembourg law.

The name and percentage of ownership of subsidiaries that have been included in consolidation in these Consolidated Condensed Interim Financial Statements is disclosed in Note 2 to the audited Consolidated Financial Statements for the year ended December 31, 2016.

Certain comparative amounts have been reclassified to conform to changes in presentation in the current period. These reclassifications do not have a material effect on the Company's condensed interim consolidated financial statements.

The preparation of Consolidated Condensed Interim Financial Statements requires management to make estimates and assumptions that might affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities as of the date of the statement of financial position, and also the reported amounts of revenues and expenses for the reported periods. Actual results may differ from these estimates. The main assumptions and estimates were disclosed in the Consolidated Financial Statements for the year ended December 31, 2016, without significant changes since its publication, except for the assumptions and estimates in connection with the acquisition of business (see note 13).

Material intercompany transactions and balances have been eliminated in consolidation. However, the fact that the functional currency of the Company's subsidiaries differs, results in the generation of foreign exchange gains and losses that are included in the Consolidated Condensed Interim Income Statement under "Other financial income (expenses), net".

These Consolidated Condensed Interim Financial Statements have been approved for issue by the Board of Directors of Ternium on October 31, 2017.

2. ACCOUNTING POLICIES

These Consolidated Condensed Interim Financial Statements have been prepared in accordance with IAS 34, “Interim Financial Reporting” and are unaudited. These Consolidated Condensed Interim Financial Statements should be read in conjunction with the audited Consolidated Financial Statements for the year ended December 31, 2016, which have been prepared in accordance with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”) and in conformity with International Financial Reporting Standards as adopted by the European Union (“EU”). Recently issued accounting pronouncements were applied by the Company as from their respective dates.

TERNIUM S.A.

Consolidated Condensed Interim Financial Statements as of September 30, 2017

and for the nine-month periods ended September 30, 2017 and 2016

2. ACCOUNTING POLICIES (continued)

These Consolidated Condensed Interim Financial Statements have been prepared following the same accounting policies used in the preparation of the audited Consolidated Financial Statements for the year ended December 31, 2016. Given that the Company has entered into a new leasing agreement that qualifies as finance leasing (see note 10), and the related accounting policy was not disclosed in the Consolidated Financial Statements as of December 31, 2016, as the Company did not have any financial leasing at such date, the accounting policy is detailed below:

Finance leases

Leases of property, plant and equipment where the Company, as lessee, has substantially all the risks and rewards of ownership are classified as finance leases. Finance leases are capitalized at the lease's inception at the fair value of the leased property or, if lower, the present value of the minimum lease payments. The corresponding rental obligations, net of finance charges, are included in other short-term and long-term payables. Each lease payment is allocated between the liability and finance cost. The finance cost is charged to the profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period. The property, plant and equipment acquired under finance leases is depreciated over the asset's useful life or over the shorter of the asset's useful life and the lease term if there is no reasonable certainty that the Company will obtain ownership at the end of the lease term.

None of the accounting pronouncements issued after December 31, 2016, and as of the date of these Consolidated Condensed Interim Financial Statements have a material effect on the Company's financial condition or result or operations.

International Financial Reporting Standard 9, "Financial instruments"

In July 2014, the IASB issued IFRS 9, "Financial instruments", which replaces the guidance in IAS 39. It includes requirements on the classification and measurement of financial assets and liabilities, as well as an expected credit losses model that replaces the current incurred loss impairment model. IFRS 9 must be applied on annual periods beginning on or after January 1, 2018. The Company's management does not anticipate that this standard will have a significant impact on the classification and measurement of its financial assets, liabilities and hedge accounting.

International Financial Reporting Standard 15, "Revenue from contracts with customers"

In May 2014, the IASB issued IFRS 15, "Revenue from contracts with customers", which sets out the requirements in accounting for revenue arising from contracts with customers and which is based on the principle that revenue is recognized when control of a good or service is transferred to the customer. IFRS 15 must be applied on annual periods beginning on or after January 1, 2018. The Company's management is currently finalizing the potential impact that the application of this standard may have on the Company's financial condition or results of operations.

TERNIUM S.A.

Consolidated Condensed Interim Financial Statements as of September 30, 2017

and for the nine-month periods ended September 30, 2017 and 2016

3. SEGMENT INFORMATION

REPORTABLE OPERATING SEGMENTS

The Company is organized in two reportable segments: Steel and Mining.

The Steel segment includes the sales of steel products, which comprises slabs, hot rolled coils and sheets, cold rolled coils and sheets, tin plate, welded pipes, hot dipped galvanized and electro-galvanized sheets, pre-painted sheets, billets (steel in its basic, semi-finished state), wire rod and bars and other tailor-made products to serve its customers' requirements.

The Steel segment comprises three operating segments: Mexico, Southern Region and Other markets. These three segments have been aggregated considering the economic characteristics and financial effects of each business activity in which the entity engages; the related economic environment in which it operates; the type or class of customer for the products; the nature of the products; and the production processes. The Mexico operating segment comprises the Company's businesses in Mexico. The Southern region operating segment manages the businesses in Argentina, Paraguay, Chile, Bolivia and Uruguay. The Other markets operating segment includes businesses mainly in Brazil, United States, Colombia, Guatemala, Costa Rica, El Salvador, Nicaragua and Honduras.

The Mining segment includes the sales of mining products, mainly iron ore and pellets, and comprises the mining activities of Las Encinas, an iron ore mining company in which Ternium holds a 100% equity interest and the 50% of the operations and results performed by Peña Colorada, another iron ore mining company in which Ternium maintains that same percentage over its equity interest. Both mining operations are located in Mexico.

Ternium's Chief Operating Decision Maker (CEO) holds monthly meetings with senior management, in which operating and financial performance information is reviewed, including financial information that differs from IFRS principally as follows:

Edgar Filing: Ternium S.A. - Form 6-K

- The use of direct cost methodology to calculate the inventories, while under IFRS is at full cost, including absorption of production overheads and depreciation.
- The use of costs based on previously internally defined cost estimates, while, under IFRS, costs are calculated at historical cost (with the FIFO method).
- Other timing and non-significant differences.

Most information on segment assets is not disclosed as it is not reviewed by the CODM (CEO).

(1) It includes the investments held in Techgen S.A. de C.V., Finma S.A.I.F., Arhsa S.A., Techinst S.A., Recrotek S.R.L. de C.V. and Gas Industrial de Monterrey S.A. de C.V.

(a) *Usinas Siderurgicas de Minas Gerais S.A. - USIMINAS*

On January 16, 2012, the Company's wholly-owned Luxembourg subsidiary Ternium Investments S.à r.l. ("Ternium Investments"), together with the Company's Argentine majority-owned subsidiary Siderar S.A.I.C. ("Siderar"), Siderar's wholly-owned Uruguayan subsidiary Prosid Investments S.A. ("Prosid"), and Confab Industrial S.A., a Brazilian subsidiary of Tenaris S.A. ("TenarisConfab"), joined Usiminas' existing control group through the acquisition of 84.7, 30.0, and 25.0 million ordinary shares, respectively. The rights and obligations of the control group members are governed by a shareholders' agreement. As a result of these transactions, the control group, which holds ordinary shares representing the majority of Usiminas' voting rights, is formed as follows: Nippon Steel & Sumitomo Metal Corporation Group ("NSSMC", formerly Nippon Group), with 46.1% of the voting rights within the control group; T/T Group (comprising TenarisConfab, Prosid, Siderar and Ternium Investments), with 43.3%; and Previdência Usiminas (Usiminas' employee pension fund), with the remainder 10.6%.

On October 2, 2014, Ternium Investments entered into a purchase agreement with Caixa de Previdência dos Funcionários do Banco do Brasil – PREVI for the acquisition of 51.4 million ordinary shares of Usiminas at a price of BRL 12 per share, for a total amount of BRL 616.7 million. On October 30, 2014, Ternium Investments completed the acquisition. These additional shares are not subject to the Usiminas shareholders agreement, but must be voted in accordance with the control group decisions.

On April 20, 2016, Ternium (through Ternium Investments, Siderar and Prosid) subscribed, in the aggregate, to 8.5 million preferred shares for a total subscription price of BRL 10.9 million (approximately USD 3.1 million). These preferred shares were issued on June 3, 2016.

TERNIUM S.A.

Consolidated Condensed Interim Financial Statements as of September 30, 2017

and for the nine-month periods ended September 30, 2017 and 2016

9. INVESTMENTS IN NON-CONSOLIDATED COMPANIES (continued)

On April 18, 2016, Usiminas' extraordinary general shareholders' meeting approved an issuance of 200 million ordinary shares for an aggregate amount of BRL 1 billion and Usiminas launched a multi-round subscription process. On July 19, 2016, following the completion of the subscription process, Usiminas' extraordinary general shareholders' meeting homologated the capital increase, and Ternium (through Ternium Investments, Siderar and Prosid) was issued, in the aggregate, 76.4 million ordinary shares for a total subscription price of BRL 382.2 million (approximately USD 110.9 million). Following the issuance of these ordinary shares, Ternium (through Ternium Investments, Siderar and Prosid) owns a total of 242.6 million ordinary shares and 8.5 million preferred shares, representing 20.5% of Usiminas' capital, and the T/T Group owns 39.6% of Usiminas' ordinary shares and 1.8% of Usiminas' preferred shares. Ternium continues to hold 35.6% of Usiminas' voting rights within the control group and has a participation in Usiminas' results of 20.5%.

As of September 30, 2017, the closing price of the Usiminas ordinary and preferred shares, as quoted on the BM&F Bovespa Stock Exchange, was BRL 10.05 (approximately USD 3.17) per ordinary share and BRL 7.78 (approximately USD 2.46) per preferred share, respectively. Accordingly, as of September 30, 2017, Ternium's ownership stake had a market value of approximately USD 790.5 million and a carrying value of USD 483.0 million.

The Company reviews periodically the recoverability of its investment in Usiminas. To determine the recoverable value, the Company estimates the value in use of the investment by calculating the present value of the expected cash flows or its fair value less costs of disposal.

Usiminas financial restructuring process (that started in April 2016 with the capital increase) was completed by the end of August 2017. The completion of this process together with the increase in the share price since June 2016 and the improvement in business conditions may lead to an increase in the value of the investment in Usiminas in future periods.

As of September 30, 2017, the value of the investment in Usiminas is comprised as follows:

Value of investment

USIMINAS

As of January 1, 2017	411,134
Share of results (1)	54,386
Other comprehensive income	17,458
As of September 30, 2017	482,978

(1) It includes the adjustment of the values associated to the purchase price allocation.

The investment in Usiminas is based in the following calculation:

Usiminas' shareholders' equity	4,388,615
Percentage of interest of the Company over shareholders' equity	20.47%
Interest of the Company over shareholders' equity	898,056
Purchase price allocation	82,102
Goodwill	328,104
Impairment	(825,284)

(b) *Techgen S.A. de C.V.*

Techgen is a Mexican natural gas-fired combined cycle electric power plant in the Pesquería area of the State of Nuevo León, Mexico. The company started producing energy on December 1st, 2016 and is fully operational. As of February 2017, Ternium, Tenaris, and Tecpetrol International S.A. (a wholly-owned subsidiary of San Faustin S.A., the controlling shareholder of both Ternium and Tenaris) completed their investments in Techgen. Techgen is currently owned 48% by Ternium, 30% by Tecpetrol and 22% by Tenaris. Ternium and Tenaris also agreed to enter into power supply and transportation agreements with Techgen, pursuant to which Ternium and Tenaris will contract 78% and 22%, respectively, of Techgen's power capacity of 900 megawatts. During 2016 and 2017, Techgen's shareholders made additional investments in Techgen, in the form of subordinated loans, which in the case of Ternium amounted to USD 129.0 million as of September 30, 2017, and which are due in June 2020.

For commitments from Ternium in connection with Techgen, see note 12.

TERNIUM S.A.

Consolidated Condensed Interim Financial Statements as of September 30, 2017

and for the nine-month periods ended September 30, 2017 and 2016

10. FINANCE LEASES

As of September 30, 2017, the Company is part to a contract that qualifies as financial lease agreement with Air Liquide Argentina S.A., being the object of the lease a plant for the provision of industrial gas located in the Company's plant in San Nicolas, Argentina. This contract does not consider a purchase option of the related asset on its expiry date. The total commitment generated a current finance lease liability of USD 11.7 million and a non-current finance lease liability of USD 65.8 million. The total finance lease liability to be paid on expiry of the lease contract amounts to USD 77.4 million.

The reconciliation of the minimum future payments and the present value of the contract are as follows:

	As of September 30, 2017
Commitments in relation to finance leases are payable as follows:	
Within one year	11,951
Later than one year but not later than five years	31,870
Later than five years	75,691
Minimum lease payments	119,512
Future finance charges	(42,076)
Total Financial lease liabilities	77,436
The present value of finance lease liabilities is as follows:	
Within one year	11,666
Later than one year but not later than five years	26,030
Later than five years	39,740
Total minimum lease payments	77,436

Property, plant and equipment include a net book value of USD 65.9 million in connection with assets leased to the Company under this finance lease. The lease term is 15 years and the amortization period of the related asset is 15 years as well.

11. DISTRIBUTION OF DIVIDENDS

During the annual shareholders' meeting held on May 3, 2017, the shareholders approved a distribution of dividends of USD 0.10 per share (USD 1.00 per ADS), or approximately USD 196.3 million in the aggregate. The dividend was paid on May 12, 2017.

12. CONTINGENCIES, COMMITMENTS AND RESTRICTIONS ON THE DISTRIBUTION OF PROFITS

This note should be read in conjunction with Note 24 to the Company's audited Consolidated Financial Statements for the year ended December 31, 2016. The main contingencies and commitments are as follows:

TERNIUM S.A.

Consolidated Condensed Interim Financial Statements as of September 30, 2017

and for the nine-month periods ended September 30, 2017 and 2016

**12. CONTINGENCIES, COMMITMENTS AND RESTRICTIONS ON THE DISTRIBUTION OF PROFITS
(continued)**

(i) Tax claims and other contingencies

(a) Companhia Siderúrgica Nacional (CSN) – Tender offer litigation

Following a January 2012 acquisition of a significant participation in Usinas Siderúrgicas de Minas Gerais S.A. – USIMINAS (Usiminas) by Ternium Investments S.à r.l. (Ternium Investments), its subsidiary Siderar, and Confab Industrial S.A. --a Brazilian subsidiary of Tenaris S.A.--, Companhia Siderúrgica Nacional (CSN) and various entities affiliated with CSN initiated a lawsuit against the acquirers. The CSN lawsuit alleges that, under applicable Brazilian laws and rules, the acquirers were required to launch a tag-along tender offer to all non-controlling holders of Usiminas ordinary shares for a price per share equal to 80% of the price per share paid in such acquisition, or BRL 28.8, and seeks an order to compel the acquirers to launch an offer at that price plus interest. If so ordered, the offer would need to be made to 182,609,851 ordinary shares of Usiminas not belonging to Usiminas' control group; Ternium Investments and Siderar's respective shares in the offer would be of 60.6% and 21.5%. On September 23, 2013, the first instance court dismissed the CSN lawsuit, and on February 8, 2017, the court of appeals maintained the understanding of the first instance court. On March 6, 2017, CSN filed a motion for clarification against the decision of the court of appeals, which was rejected on July 19, 2017. On August 18, 2017, CSN filed a special appeal seeking the review and reversal of the court of appeal's decision by the Superior Court of Justice. The court of appeals has not yet ruled on the appeal's admissibility. If declared admissible, CSN's special appeal will be submitted to the Superior Court of Justice for a decision on its merits. For further information on the CSN lawsuit, see note 24 to the Ternium's Consolidated Financial Statements for the year ended December 31, 2016.

Ternium continues to believe that all of CSN's claims and allegations are groundless and without merit, as confirmed by several opinions of Brazilian legal counsel, two decisions issued by the Brazilian securities regulator (the Comissão de Valores Mobiliários, or CVM) in February 2012 and December 2016 in connection with the acquisition, and the first and second instance court decisions referred to above. Accordingly, no provision was recorded in these Consolidated Condensed Interim Financial Statements.

(b) Shareholder claims relating to the October 2014 acquisition of Usiminas shares

On April 14, 2015, the staff of the CVM determined that a second acquisition of ordinary shares of Usiminas by Ternium Investments, completed in October 2014, triggered a requirement under applicable Brazilian laws and regulations for Usiminas' controlling shareholders to launch a tender offer to all non-controlling holders of Usiminas ordinary shares. The CVM staff's determination was made further to a request by Nippon Steel & Sumitomo Metal Corporation (NSSMC) and its affiliates, who alleged that Ternium's 2014 acquisition had exceeded a threshold that triggers the tender offer requirement. In the CVM staff's view, the 2014 acquisition exceeded the applicable threshold by 5.2 million shares. On April 29, 2015, Ternium filed an appeal to be submitted to the CVM's Board of Commissioners. On May 5, 2015, the CVM staff confirmed that the appeal would be submitted to the Board of Commissioners and that the effects of the staff's decision would be stayed until such Board rules on the matter. On June 15, 2015, upon an appeal filed by NSSMC, the CVM staff changed its earlier decision and stated that the obligation to launch a tender offer would fall exclusively on Ternium. Ternium's appeal has been submitted to the CVM's Board of Commissioners and it is currently expected that such Board will rule on the appeal in the second half of 2017. In the event the appeal is not successful, under applicable CVM rules Ternium may elect to sell to third parties the 5.2 million shares allegedly acquired in excess of the threshold, in which case no tender offer would be required.

and for the nine-month periods ended September 30, 2017 and 2016

**12. CONTINGENCIES, COMMITMENTS AND RESTRICTIONS ON THE DISTRIBUTION OF PROFITS
(continued)**

(c) Potential Mexican income tax adjustment

In March 2015, the Mexican tax authorities, as part of a tax audit to Ternium Mexico with respect to fiscal year 2008, challenged the deduction by Ternium Mexico's predecessor IMSA Acero of a tax loss arising from an intercompany sale of shares in December 2008. Although the tax authorities have not yet determined the amount of their claim, they have indicated in a preliminary report that they have observations that may result in an income tax adjustment currently estimated at approximately USD 61.9 million, including interest and fines.

Ternium Mexico requested an injunction from the Mexican courts against the audit observations, and also filed its defense and supporting documents with the Mexican tax authorities. The Company, based on the advice of counsel, believes that an unfavorable outcome in connection with this matter is not probable and, accordingly, no provision has been recorded in its financial statements.

(d) Tax claim on Argentine personal assets tax for 2008, 2009 and 2010

On June 28, 2016, Siderar was notified of a tax assessment by the Argentine tax authorities (AFIP) for allegedly omitted taxes in its capacity as substitute obligor for the personal assets tax for 2008, 2009 and 2010 over the investment held by its shareholder Ternium España S.L.U. In its assessment, AFIP challenged the availability of the benefits contemplated under the double taxation treaty between Argentina and Spain then in effect and required Siderar to pay taxes and related interest for approximately USD 15.9 million as of such date. On August 4, 2016, Siderar appealed AFIP's assessment before the National Tax Court.

In March 2017, Ternium decided to include this tax assessment in an official fiscal plan, which condoned part of the related interest and the whole amount in connection with fines. The total payment, which also included the principal and interest for the fiscal periods 2011 and 2012, amounted to USD 12.8 million, extinguishing all the liabilities related to this tax claim.

(ii) Commitments

(a) Siderar entered into a contract with Tenaris, a related company of Ternium, for the supply of steam generated at the power generation facility that Tenaris owns in the compound of the Ramallo facility of Siderar. Under this contract, Tenaris has to provide 250 tn/hour of steam, and Siderar has the obligation to take or pay this volume. The amount of this outsourcing agreement totals USD 14.9 million and is due to terminate in 2018.

Siderar also signed various contracts for the provision of natural gas, assuming firm commitments for a total of USD 34.1 million payable during the 2018 financial year.

(b) Siderar signed an agreement with Air Liquide Argentina S.A. for the supply of oxygen, nitrogen and argon until 2021, for an aggregate amount of USD 27.9 million, which is due to terminate in 2021.

TERNIUM S.A.

Consolidated Condensed Interim Financial Statements as of September 30, 2017

and for the nine-month periods ended September 30, 2017 and 2016

**12. CONTINGENCIES, COMMITMENTS AND RESTRICTIONS ON THE DISTRIBUTION OF PROFITS
(continued)**

(c) On April 24, 2017, Ternium Mexico entered into a 25-year contract (effective as of December 1, 2016, through December 1, 2041) with Techgen, S.A. de C.V. for the supply of 699 MW (which represents 78% of Techgen's capacity) and covers most of Ternium Mexico's facilities electricity needs. Monthly payments are determined on the basis of capacity charges, operation costs, back-up power charges, and transmission charges. As of the seventh contract year (as long as Techgen's existing or replacing bank facility has been repaid in full), Ternium Mexico has the right to suspend or early terminate the contract if the rate payable under the agreement is higher than the rate charged by Comisión Federal de Electricidad ("CFE") or its successors. Ternium Mexico may instruct Techgen to sell to any affiliate of Ternium Mexico, to CFE, or to any other third party all or any part of unused contracted energy under the agreement and Ternium Mexico will benefit from the proceeds of such sale.

(d) On December 20, 2000, Hylsa (Ternium Mexico's predecessor) entered into a 25-year contract with Iberdrola Energía Monterrey, S.A. de C.V. ("Iberdrola"), a Mexican subsidiary of Iberdrola Energía, S.A., for the supply of energy to four of Ternium Mexico's plants. On March 31, 2008, two of those plants were terminated by Iberdrola. The contracted electrical demand as of September 30, 2017, is 96.7 MW. Iberdrola currently supplies approximately 22.5% of Ternium Mexico's electricity needs under this contract. Although the contract was to be effective through 2027, on April 28, 2014, Ternium Mexico and Iberdrola entered into a new supply contract and terminated the previous one. In consideration of the termination of the previous contract, Iberdrola has granted Ternium Mexico a credit of USD 750 thousand per MW of the 111.2 MW originally contracted capacity, resulting over time in a total value of USD 83.4 million. In addition, Iberdrola agreed to recognize to Ternium México USD 15.0 million through discounted rates. As a result of the above mentioned credit and discount, the company expects to incur in electricity rates comparable to those obtained in the past under the previous contract's terms for a period that is estimated to be approximately 1 year. Following such period, Ternium Mexico's rates under the contract will increase to market rates with a 2.5% discount; however, Ternium Mexico will be entitled to terminate the contract without penalty.

(e) Several Ternium Mexico's subsidiaries which have facilities throughout the Mexican territory are parties to a long term energy purchase agreement for purchased capacity of electricity with Tractebel Energía de Monterrey, S. de R.L. de C.V., and is committed to pay Tractebel for the contracted capacity and for the consumed energy. The monthly payments are calculated considering the capacity charges, operation costs, back-up power charges, and transmission charges, less any steam credits. The contracted amount is of USD 17.4 million and the contract will terminate in April 2018.

(f) Following the expiration of a previously existing railroad freight services agreement during 2013, in April 2014, Ternium México and Ferrocarril Mexicano, S. A. de C. V. (“Ferromex”) entered into a new railroad freight services agreement pursuant to which Ferromex will transport Ternium Mexico’s products through railroads operated by Ferromex for a term of five years through 2019. Subject to Ternium’s board approval, both Ternium Mexico and Ferromex would be required to make (within a period of 36 months) certain investments to improve the loading and unloading of gondolas. The total investment commitment of Ternium México and Ferromex was already invested as of September 30, 2017. Under the agreement, Ternium Mexico has guaranteed to Ferromex a minimum average transport load of 200,000 metric tons per month in any six-month period. In the event that the actual per-month average transport loads in any six-month period were lower than such guaranteed minimum, Ternium Mexico would be required to compensate Ferromex for the shortfall so that Ferromex receives a rate equivalent to a total transport load of 1,200,000 metric tons for such six-month period. However, any such compensation will not be payable if the lower transport loads were due to adverse market conditions, or to adverse operating conditions at Ternium Mexico’s facilities.

**12. CONTINGENCIES, COMMITMENTS AND RESTRICTIONS ON THE DISTRIBUTION OF PROFITS
(continued)**

(g) Techgen is a party to gas transportation capacity agreements with Kinder Morgan Gas Natural de Mexico, S. de R.L. de C.V., Kinder Morgan Texas Pipeline LLC and Kinder Morgan Tejas Pipeline LLC for the whole transportation capacity starting on August 1, 2016 and ending during the second half of 2036. As of September 30, 2017, the outstanding value of this commitment was approximately USD 268 million. Ternium's exposure under the guarantee in connection with these agreements amounts to USD 129 million, corresponding to the 48% of the agreements' outstanding value as of September 30, 2017.

(h) Ternium issued a Corporate Guarantee covering 48% of the obligations of Techgen under a syndicated loan agreement between Techgen and several banks led by Citigroup Global Markets Inc., Credit Agricole Corporate and Investment Bank, and Natixis, New York Branch acting as joint bookrunners. The loan agreement amounted to USD 800 million and the proceeds were used by Techgen in the construction of the facility. As of September 30, 2017, the outstanding amount under the loan agreement was USD 720 million, as a result the amount guaranteed by Ternium was approximately USD 346 million. The main covenants under the Corporate Guarantee are limitations to the sale of certain assets and compliance with financial ratios (e.g. leverage ratio). As of September 30, 2017, Techgen and Ternium, as guarantor, were in compliance with all of their covenants.

(iii) Restrictions on the distribution of profits

Under Luxembourg law, at least 5% of net income per year calculated in accordance with Luxembourg law and regulations must be allocated to a reserve until such reserve equals 10% of the share capital. At December 31, 2013, this reserve reached the above-mentioned threshold.

As of December 31, 2016, Ternium may pay dividends up to USD 3.4 billion in accordance with Luxembourg law and regulations.

Shareholders' equity under Luxembourg law and regulations comprises the following captions:

As of December 31, 2016

Share capital	2,004,743
Legal reserve	200,474
Non distributable reserves	1,414,122
Reserve for own shares	59,600
Accumulated profit at January 1, 2016	3,353,166
Loss for the year	(20,990)
Total shareholders' equity under Luxembourg GAAP	7,011,115

and for the nine-month periods ended September 30, 2017 and 2016

13. ACQUISITION OF BUSINESS

Acquisition of CSA Siderúrgica do Atlântico Ltda. (now Ternium Brasil Ltda.) and thyssenkrupp Slab International B.V. (now Ternium Staal B.V.)

(a) The acquisition

On September 7, 2017, Ternium completed the acquisition from thyssenkrupp AG (“tkAG”) of a 100% ownership interest in thyssenkrupp Slab International B.V. (“tkSI”) and its wholly-owned subsidiary CSA Siderúrgica do Atlântico Ltda. (“CSA”). CSA is a steel slab producer with a steelmaking facility located in the state of Rio de Janeiro, Brazil, and has an annual production capacity of 5 million tons of high-end steel slabs, a deep-water harbor and a 490 MW combined cycle power plant. The acquisition is expected to substantially increase Ternium’s steelmaking capacity and strengthen its business in strategic industrial sectors across Latin America.

As part of the transaction, tkAG assigned to Ternium a slab commitment agreement providing for an arrangement relating to the purchase of CSA-manufactured carbon steel slabs under the terms of a slab frame supply agreement and related annual slab off-take agreements between tkSI and the entity that acquired thyssenkrupp’s former Calvert re-rolling facility in Alabama, United States of America. Such slab commitment agreement provides for a commitment by such entity to purchase from tkSI approximately 2.0 million tons of CSA-manufactured carbon steel slabs per year until September 30, 2019, at the price resulting from the pricing formula set forth therein.

The purchase price paid by Ternium in the acquisition totaled approximately USD 1,891 million.

Ternium began consolidating the balance sheets and results of operations of tkSI and CSA as from the date of their acquisition. Following completion of such transaction, CSA changed its name to Ternium Brasil Ltda. and tkSI was renamed Ternium Staal B.V.

For the month of September, 2017, the newly-acquired business acquired contributed revenues of USD 270.4 million and a net gain of USD 9.1 million.

Consolidated Condensed Interim Financial Statements as of September 30, 2017

and for the nine-month periods ended September 30, 2017 and 2016

13. ACQUISITION OF BUSINESS (continued)

(b) Fair value of net assets acquired

The fair values provisionally determined for the assets and liabilities arising from the acquisition are as follows:

Fair value of acquired assets and liabilities (Preliminary):	USD
Property, plant and equipment and Intangible assets	1,209,765
Inventories	400,047
Cash and cash equivalents	278,162
Trade receivables	63,710
Other receivables	386,632
Deferred tax assets	9,698
Provisions	(114,967)
Trade payables	(219,604)
Other assets and liabilities, net	(122,454)
Net assets acquired	1,890,989

Ternium entered into several derivative contracts to partially hedge the currency volatility risk associated with the Euro-denominated transaction price. As of the date of the closing of the acquisition, the fair value of those contracts amounted to USD 75.9 million. Such value was deducted from the purchase consideration.

The preliminary purchase price allocation disclosed above is currently under analysis with the assistance of a third party expert. According to the preliminary allocation, no goodwill was recorded. Following IFRS 3, the Company will continue reviewing the allocation and make any necessary adjustments (mainly over Property, plant and equipment, Intangible assets and Provisions) in the next twelve months.

(c) Main contingencies associated with the acquired business

Contrary to the recognition principles in IAS 37 Provisions, Contingent Liabilities and Contingent Assets, IFRS 3 Business Combinations requires an acquirer of a business to recognize contingent liabilities assumed in a business acquisition at the acquisition date even if it is not probable that an outflow of resources will be required to settle the obligation.

The main contingencies recognized in the Company's financial statements pursuant to IFRS 3 Business Combinations in connection with the acquisition of tkSI and CSA include the following:

- (i) Fishermen associations' claims

Civil contingencies include lawsuits brought by a number of fishermen associations on behalf of their associates, alleging that the dredge of Ternium Brasil's deep-water port has had a negative impact on fish farming and exploitation activities in the Sepetiba Bay area in Rio de Janeiro and that, as a result, fishermen in that area had suffered damages. A provision in the amount of USD 24.3 million was recorded in the Company's financial statements as of September 30, 2017 in connection with this matter.

TERNIUM S.A.

Consolidated Condensed Interim Financial Statements as of September 30, 2017

and for the nine-month periods ended September 30, 2017 and 2016

13. ACQUISITION OF BUSINESS (continued)

(ii) Tax assessments relating to the use of certain ICMS tax credits

The Imposto Sobre Operações Relativas à Circulação de Mercadorias e Serviços, or ICMS, is a Brazilian value-added tax on the inter-state transfer of goods and services in Brazil. Payment of ICMS generates tax credits that, subject to applicable law, rules and regulations, may be either used to offset ICMS payment obligations generated in connection with domestic sales of products and services, or sold and transferred to third parties.

The Rio de Janeiro State Treasury Office is challenging the use by Ternium Brasil of ICMS tax credits generated in connection with purchases of refractory materials in the period from December 2010 through December 2015, and intends to assess taxes and impose fines on Ternium Brasil on the argument that such materials may not be qualified as “raw materials” or “intermediary products” but as “goods for consumption” and, accordingly, ICMS tax credits generated in connection with their purchase are not available and may not be used to offset ICMS payment obligations generated in connection with Ternium Brasil’s domestic sales of carbon steel slabs. Ternium Brasil has appealed against the Rio de Janeiro State Treasury Office tax assessments and fines.

A provision in the amount of USD 57.8 million was recorded in the Company’s financial statements as of September 30, 2017 in connection with this matter.

(d) Acquisition financing

The acquisition was mainly financed through an unsecured 5-year syndicated facility in the principal amount of USD 1.5 billion granted to the Company’s subsidiary, Ternium Investments S.à.r.l., by a syndicate of banks.

The facility will be repaid in eight consecutive and equal semi-annual installments, commencing on March 5, 2019, and has been guaranteed by the Company’s subsidiary, Ternium México, S.A. de C.V. The borrower and the guarantor are subject to certain covenants customary for transactions of this type, including limitations on liens and encumbrances, transactions with affiliates, consolidations and mergers and restrictions on investments. The guarantor

is additionally subject to limitations on the sale of certain assets and compliance with a leverage ratio. There are no limitations to the payment of dividends applicable to the borrower or the guarantor, except, with respect to the borrower, upon an event of default under the facility.

14. RELATED PARTY TRANSACTIONS

As of September 30, 2017, Techint Holdings S.à r.l. (“Techint”) owned 62.02% of the Company’s share capital and Tenaris Investments S.à r.l. (“Tenaris”) held 11.46% of the Company’s share capital. Each of Techint and Tenaris were controlled by San Faustin S.A., a Luxembourg company (“San Faustin”). Rocca & Partners Stichting Administratiekantoor Aandelen San Faustin (“RP STAK”), a Dutch private foundation (Stichting), held voting shares in San Faustin sufficient in number to control San Faustin. No person or group of persons controls RP STAK.

and for the nine-month periods ended September 30, 2017 and 2016

15. FAIR VALUE MEASUREMENT

IFRS 13 requires for financial instruments that are measured at fair value, a disclosure of fair value measurements by level. See note 28 of the Consolidated Financial Statements as of December 31, 2016 for definitions of levels of fair values and figures at that date.

The following table presents the assets and liabilities that are measured at fair value:

Description	Fair value measurement as of September 30, 2017 (in USD thousands):		
	Total	Level 1	Level 2
Financial assets at fair value through profit or loss			
Cash and cash equivalents	232,835	232,835	-
Other investments	112,314	112,314	-
Derivative financial instruments	6,308	-	6,308
Total assets	351,457	345,149	6,308
Financial liabilities at fair value through profit or loss			
Derivative financial instruments	112	-	112
Total liabilities	112	-	112
Description	Fair value measurement as of December 31, 2016 (in USD thousands):		
	Total	Level 1	Level 2
Financial assets at fair value through profit or loss			
Cash and cash equivalents	100,026	100,026	-
Other investments	83,117	78,105	5,012
Derivative financial instruments	316	-	316
Total assets	183,459	178,131	5,328

**Financial liabilities at fair value
through profit or loss**

Derivative financial instruments	287	-	287
Total liabilities	287	-	287

There were no significant transfers between Level 1 and Level 2 of the fair value hierarchy and there were no financial assets and liabilities considered as Level 3.

Pablo Brizzio

Chief Financial Officer
