Item 2.02. Results of Operations and Financial Condition.

On September 23, 2010, we reported our financial position and results of operations as of and for the twenty-six week period ended August 28, 2010 (the second quarter of fiscal 2011). The press release is attached hereto as Exhibit 99.1 and is incorporated herein by reference. The release includes a non-GAAP financial measure, "Adjusted EBITDA." We use the non-GAAP measure in assessing our performance in addition to net income determined in accordance with GAAP. We believe the non-GAAP measure serves as an appropriate measure to be used in evaluating the performance of our business. We define Adjusted EBITDA as net income (loss) from operations excluding the impact of income taxes, interest expense and securitization costs, depreciation and amortization, LIFO adjustments, charges or credits for store closing and impairment, inventory write-downs related to closed stores, stock-based compensation expense, debt modifications and retirements, sale of assets and investments, revenue deferrals related to customer loyalty programs and other items. We reference this non-GAAP financial measure frequently in our decision-making because it provides supplemental information that facilitates internal comparisons to the historical operating performance of prior periods and external comparisons to competitors' historical operating performance. In addition, incentive compensation is based on Adjusted EBITDA and we base our forward-looking estimates on Adjusted EBITDA to facilitate quantification of planned business activities and enhance subsequent follow-up with comparisons of actual to planned Adjusted EBITDA. We include this non-GAAP financial measure in our earnings announcement in order to provide transparency to our investors and enable investors to better compare our operating performance with the operating performance of our competitors. We believe that Adjusted EBITDA also facilitates comparisons of our results of operations with those of our competitors having different capital structures. Adjusted EBITDA should not be considered in isolation from, and is not intended to represent an alternative measure of, operating results or of cash flows from operating activities, as determined in accordance with GAAP. Our definition of Adjusted EBITDA may not be comparable to similarly titled measurements reported by other companies. The press release attached hereto as Exhibit 99.1 includes a reconciliation of Adjusted EBITDA to net income (loss), the most directly comparable GAAP financial measure.

Item 9.01. Financial Statements and Exhibits.
