Reverse Stock Split and Stock Dividend

On October 24, 2013, board of directors of CatchMark Timber Trust, Inc. (the “Company”) approved a ten-to-one reverse stock split of the Company’s outstanding common stock (the “Reverse Stock Split”), which was effected on October 24, 2013, and declared a stock dividend which was paid on October 25, 2013 (the “Stock Dividend” and, together with the Reverse Stock Split, the “Recapitalization”) pursuant to which each share of common stock outstanding as of October 24, 2013, following the Reverse Stock Split, received:

• one share of Class B-1 common stock; plus

• one share of Class B-2 common stock; plus

• one share of Class B-3 common stock.

The Reverse Stock Split and the Stock Dividend were undertaken in preparation for the listing of shares of the Company’s common stock on a national securities exchange. The Class B common stock is identical to the Class A common stock except that (1) the Company does not intend to list the Class B common stock on a national securities exchange and (2) shares of the Class B common stock will convert automatically into shares of the Class A common stock, pursuant to provisions of the charter, on the following schedule: (i) six months following the listing, in the case of the Class B-1 common stock; (ii) the earlier of 12 months following the listing and such earlier date as determined by the board of directors, but not earlier than nine months following the listing, in the case of the Class B-2 common stock; and (iii) the earlier of 18 months following the listing and such earlier date as determined by the board of directors, but not earlier than 12 months following the listing, in the case of the Class B-3 common stock.

On the 18-month anniversary of the listing, all shares of the Class B common stock will have converted into the Class A common stock. If the Company has not listed the Class A common stock by December 31, 2015, all of the outstanding shares of Class B common stock will automatically convert to Class A common stock.

Amendments to the Charter

On October 24, 2013, the Company filed Articles of Amendment to the charter in order to effect the Reverse Stock Split (the “Reverse Split Articles”). The Reverse Split Articles designated the currently outstanding shares of common stock as shares of Class A common stock and combined every ten shares of the issued and outstanding Class A common stock, \$0.01 par value per share, into one share of Class A common stock, \$0.10 par value per share. On October 24, 2013, following the effectiveness of the Reverse Split Articles, CatchMark Timber Trust also filed Articles of Amendment changing the par value of the issued and outstanding shares of Class A common stock back to \$0.01 per share (the “Par Value Articles”). Following effectiveness of the Par Value Articles, CatchMark Timber Trust filed Articles Supplementary to the charter designating the terms of the Class B common stock, as described above (the “Articles Supplementary”).

The information set forth herein with respect to the Reverse Split Articles, the Par Value Articles and the Articles Supplementary does not purport to be complete and is qualified in its entirety by the full texts thereof, copies of which are filed as Exhibits 3.1, 3.2 and Exhibit 3.3 hereto and are incorporated herein by reference.
