Notable Achievements in Fiscal 2018

• In June 2018, we paid off our \$484 million senior secured term loan through the issuance of \$450 million aggregate principal amount of 5.50% Senior Notes due 2026.

• We launched our new Mueller brand identity in September 2018 to more closely align our family of brands in support of our ongoing efforts to drive revenue growth.

• In accordance with the strategic reorganization we announced last year, we re-configured our divisional structure around products, with five business teams that have line and cross-functional responsibility for managing specific

product portfolios. Under the new organizational structure, engineering, operations, sales & marketing and other functions have been centralized to better align with business needs and generate greater efficiency. The changes we have made over the past year have led to improved execution of our key initiatives across the organization.

In fiscal 2018, we improved our operating performance and executed initiatives to return value to our stockholders.

Strong Operating Results

We increased net sales 10.9% over the prior year to \$916.0 million. Our operating income and net income in fiscal 2018 were \$121.7 million and \$105.6 million, respectively. Adjusted operating income improved 11.4% to \$137.3 million, from \$123.3 million in fiscal 2017.

Increased dividend

We increased our quarterly dividend per share to \$0.05 from \$0.04. We paid \$30.1 million of dividends in fiscal 2018.

Repurchased Shares

We repurchased \$30.0 million of our outstanding Common Stock during fiscal 2018.

Highlights of
2018
Executive
Compensation

We design our executive compensation programs to target total compensation for executives at or about the 50th percentile (plus or minus 15%) of our customized peer group. The principal elements of these compensation programs are base salary, annual performance-based cash bonus, long-term incentive and performance-based equity compensation, as well as broad-based employee benefit plans.

We structure a significant portion of our executives’ overall compensation as incentive compensation. For fiscal 2018, incentive compensation, which includes performance-based compensation, represented approximately 81% of the total target compensation of Scott Hall, our CEO, and an average of 71% of the total target compensation of our other continuing named executive officers’, excluding Mr. Heinrichs.

We structure performance-based compensation to pay for performance. Performance-based incentive compensation represented 52% of our CEO’s total target compensation for fiscal 2018. We set clear and measurable financial goals for Company performance. In evaluating individual performance, we assess progress toward strategic priorities.

• We paid performance-based compensation for fiscal 2018 that reflects Company performance.

Our named executive officers’ compensation was positively affected by Company performance in relation to targets set for fiscal 2018.

Annual cash bonuses earned by our continuing named executive officers’ were 132% of target.

Long-term compensation was achieved at 135.7% of target for fiscal 2018 based on our return on net assets.

• We continue to maintain best practices for executive compensation.

We design our compensation programs to mitigate risk.

Our equity incentive plan prohibits the repricing or exchange of equity-based awards.

We prohibit hedging and pledging of our Common Stock by executives or directors.

Our executives and directors are subject to stock ownership guidelines.

We can “clawback” cash- or equity-based compensation paid to executives under certain circumstances.

We do not provide excise tax gross-up benefits.

See “Compensation Discussion and Analysis — Executive Compensation Program Overview”, “— Other Factors Considered by the Compensation Committee” and “— Other Compensation Practices and Policies” for more information regarding our compensation philosophy, structure and developments.

MATTERS TO BE VOTED ON

PROPOSAL ONE:

ELECTION OF DIRECTORS

The Nominating and Corporate Governance Committee (the “Governance Committee”) is responsible for identifying qualified candidates to serve on the Board and recommending nominees to be submitted to our stockholders for election at each annual meeting of stockholders. After the Governance Committee completes its evaluation of candidates, it presents its recommendation to the Board for consideration and approval.

We strive to maintain a well-rounded and diverse Board that balances industry expertise with independence and the institutional knowledge of longer-tenured directors with the fresh perspectives brought by new directors. Focusing on our current and anticipated strategic and operating requirements and as part of our continued efforts to broaden our skill and gender diversity, the Board, per the recommendation of the Governance Committee, has nominated Dr. Christine Ortiz for election at the Annual Meeting. With the anticipated election of Dr. Ortiz, the size of the Board will increase from eight members to nine.

The Governance Committee uses a matrix of key skills and experiences to evaluate candidates. The Governance Committee carefully reviews all directors and director candidates in light of these factors based on the context of the current and anticipated composition of the Board and our current and anticipated strategic and operating requirements. In reviewing a director candidate, the Governance Committee considers the following elements as qualifications required of all directors: ü

- Personal ethics and integrity • Collaborative skills • Commitment
- Independence • Interpersonal skills • Business acumen

The Governance Committee does not expect or intend each director to have the same background, skills and experiences; instead, it expects the Board to be comprised of directors with diverse backgrounds, skills and experiences. Although the Board does not have a formal policy regarding diversity, diversity is among the criteria considered by the Board when evaluating candidates. Diversity may include gender, race, ethnicity, geographic origin/foreign citizenship or personal, educational and professional experience. The Governance Committee further believes the backgrounds and qualifications of the directors, considered as a group, should provide an appropriate mix of experience, knowledge and abilities that will enhance the Board’s oversight role.

Set forth below is a summary of the key areas of skills and experience reflected in our director nominees.

PROPOSAL TWO:

ADVISORY VOTE TO APPROVE EXECUTIVE COMPENSATION

We provide our stockholders with the annual opportunity to cast an advisory vote to approve the compensation of our named executive officers. The vote on this proposal represents an additional means by which we obtain feedback from our stockholders about executive compensation. Our Compensation and Human Resources Committee (the “Compensation Committee”) sets executive compensation.

The overall objective of our executive compensation program is to encourage and reward the creation of sustainable, long-term stockholder value. To meet this objective, the Compensation Committee has designed compensation plans for our executive officers that target total compensation at or about the 50th percentile (plus or minus 15%) of our customized peer group. A significant portion of our executives’ overall compensation is structured as incentive compensation. For fiscal 2018, incentive compensation represented approximately 81% of our current CEO’s total target compensation, and an average of 71% of the total target compensation of the other continuing named executive officers. We believe an emphasis on both short-term and long-term incentive compensation aligns executives’ and stockholders’ interests.

We encourage our stockholders to read the Compensation Discussion and Analysis section of this Proxy Statement, which discusses how our compensation policies and procedures implement our compensation philosophy. The Board and the Compensation Committee believe these policies and procedures are strongly aligned with the long-term interests of our stockholders and are effective in implementing our compensation philosophy and in achieving our strategic goals.

Accordingly, we ask for stockholder approval of the following resolution:

RESOLVED, that the stockholders of Mueller Water Products, Inc. approve, on an advisory basis, the compensation paid to the Company’s named executive officers, as disclosed in the Compensation Discussion and Analysis, the accompanying compensation tables and the related narrative disclosure in the Company’s proxy statement for the 2019 annual meeting of stockholders.

At last year’s annual meeting of stockholders, approximately 94% of votes cast were in support of the compensation of our named executive officers. The Compensation Committee will once again consider the result of this year’s vote, as well as other communications from stockholders relating to our compensation practices, and take them into account in future determinations concerning our executive compensation program. See “Compensation Discussion and Analysis — Highlights of 2018 Executive Compensation”.

The Board recommends a vote FOR Proposal Two.

Table of Contents**PROPOSAL THREE:****RATIFICATION OF THE APPOINTMENT OF THE
INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM**

The Audit Committee has authority to retain and terminate the services of our independent registered public accounting firm. The Audit Committee has appointed Ernst & Young LLP as the independent registered public accounting firm to audit our consolidated financial statements and internal control over financial reporting for the fiscal year ending September 30, 2019, subject to negotiation of definitive fee arrangements. Although stockholder ratification of Ernst & Young's appointment is not required, the Board believes submitting the appointment to our stockholders for ratification is a matter of good corporate governance. See below for a description of the fees Ernst & Young billed us for fiscal 2018 and fiscal 2017.

A representative of Ernst & Young is expected to be present at the Annual Meeting. The representative will have an opportunity to make a statement and will be available to respond to stockholder questions.

The Board recommends a vote FOR Proposal Three.

Pre-Approval of Services Performed by the Independent Registered Public Accounting Firm

The Audit Committee has adopted procedures for pre-approving all audit and non-audit services provided by the independent registered public accounting firm. For both types of pre-approval, the Audit Committee considers whether the services are consistent with the Securities and Exchange Commission ("SEC") rules on auditor independence and whether the independent registered public accounting firm is able to provide the most effective service. Non-audit fees to be incurred by the independent registered public accounting firm for services permitted by the Sarbanes-Oxley Act of 2002 to be performed by such firm must be approved in advance by the Audit Committee Chairman (for individual projects in amounts up to \$100,000) or the Audit Committee. The Audit Committee periodically monitors the services rendered and actual fees paid to the independent registered public accounting firm to ensure the services are within the parameters approved by the Audit Committee.

REPORT OF THE AUDIT COMMITTEE

Committee Composition and Skills

The Audit Committee is comprised of three independent directors meeting the requirements of applicable SEC and The New York Stock Exchange (“NYSE”) rules. The Board has determined all Audit Committee members are “financially literate” for purposes of the NYSE Listed Company Manual (the “NYSE Manual”) and qualify as audit committee “financial experts” within the meaning of the rules and regulations of the SEC. See “Matters to be Voted On — Proposal One” for a description of the business background of each member. No member of the Audit Committee serves on the audit committee of more than three public companies.

Meetings

The Audit Committee met 14 times during fiscal 2018, including eight times by teleconference. Meetings include periodic executive sessions with the independent registered public accounting firm, our internal auditors and our management.

Responsibilities of the Audit Committee, Management and the Independent Auditor

The Audit Committee’s key responsibilities are set forth in its charter, which was approved by the Board and is available on our website at www.muellerwaterproducts.com. See “Corporate Governance — Board Operations — Board Committee Information” for more information concerning the Audit Committee and its responsibilities. For the audit of our consolidated financial statements for fiscal 2018 and our internal control over financial reporting:

Management was primarily responsible for preparing our financial statements and establishing and maintaining effective internal control over financial reporting. The Audit Committee was responsible for monitoring and overseeing our financial reporting and audit functions, as well as our internal control over financial reporting and disclosure.

Ernst & Young, our independent registered public accounting firm for fiscal 2018, was responsible for performing an independent audit of our consolidated financial statements and expressing an opinion on the conformity of those financial statements with accounting principles generally accepted in the United States and was also responsible for performing an independent audit of, and expressing an opinion on, our internal control over financial reporting.

The Audit Committee reviewed and discussed with management and Ernst & Young the audited consolidated financial statements for the year ended September 30, 2018, our quarterly consolidated financial statements and operating results for each quarter in the fiscal year and the related significant accounting and disclosure issues, and the effectiveness of our internal control over financial reporting.

The Audit Committee reviewed management’s report contained in our annual report on Form 10-K for the year ended September 30, 2018 (“Annual Report”), as well as Ernst & Young’s Reports of Independent Registered Public Accounting Firm included in the Annual Report related to its audits of the consolidated financial statements and internal control over financial reporting.

The Audit Committee discussed with Ernst & Young matters required to be discussed by Statement on Auditing Standards No. 16, as amended, “Communication with Audit Committees.” In addition, Ernst & Young provided the Audit Committee with the written disclosures and the letter required by the applicable requirements of the Public Company Accounting Oversight Board regarding the independent accountant’s communications with the Audit Committee concerning independence and the Audit Committee has discussed with Ernst & Young the firm’s independence.

Audited Consolidated Financial Statements

Based on the foregoing discussions with and reports of management and our independent registered public accounting firm and the Audit Committee’s review of the representations of management, the Audit Committee recommended to the Board the inclusion of our consolidated financial statements in the Annual Report.

CORPORATE GOVERNANCE

Overview

Our Board is committed to establishing and maintaining strong corporate governance practices that reflect high standards of ethics and integrity and promote long-term stockholder value.

To that end, in 2017 we amended our Bylaws regarding director elections to provide that our directors must be elected by the affirmative vote of a majority of the votes cast at the Annual Meeting. In connection with this change, we also amended our Corporate Governance Guidelines (the “Guidelines”) to provide that an incumbent director who fails to receive a majority of the votes cast must tender an irrevocable offer of resignation to the Board. The Board will then consider a number of factors in determining whether to accept or reject the resignation, including the director’s contributions to the Company and the reasons he or she did not obtain the requisite stockholder vote.

Our corporate governance structure and processes are set forth in our key governance documents, including the Guidelines. The Guidelines govern the operation of the Board and its committees and guide the Board and its committees in the execution of their respective responsibilities. The Governance Committee reviews the Guidelines at least annually and the Board updates the Guidelines periodically in response to changing regulatory requirements, evolving practices and otherwise as circumstances warrant.

In October 2018, a group of leading executives and institutional investors published a statement of “Commonsense Principles of Corporate Governance 2.0”, which updated the original Commonsense Principles published in July 2016. These Commonsense Principles set forth a number of recommendations and guidelines about the roles and responsibilities of boards, public companies and stockholders, and are intended to provide guidance on corporate governance that “works in the real world.”

Because we believe an important aspect of achieving a strong and effective corporate governance structure is to encourage an open dialog with our stockholders, we have reviewed our policies and procedures in light of the suggestions set forth in the Commonsense Principles. Accordingly, highlighted below are the key areas of our corporate governance practices that we believe align with the Commonsense Principles.

Board Composition

Board Size

The Board is currently composed of eight directors (and will be expanded to nine directors if Dr. Ortiz is elected at the Annual Meeting). Each of our director nominees is independent, except Mr. Hall, our President and CEO. The Board held 10 meetings in fiscal 2018 and each director attended at least 95% of the total number of meetings of the Board and committees of which he or she was a member.

Table of Contents

Director Independence

The Governance Committee and the Board annually assess the outside affiliations of each director to determine if these affiliations could cause a potential conflict of interest or interfere with the director's independence. The Guidelines set forth the categorical standards of independence for the Board. To be considered "independent" for purposes of the director qualification standards:

• The director must meet bright-line independence standards under NYSE listing standards; and

• The Board must affirmatively determine the director otherwise has no material relationship with us directly or as an officer, stockholder or partner of an organization that has a relationship with us. See the Guidelines on our website www.muellerwaterproducts.com for more detail.

Each of our directors, other than our CEO, is independent pursuant to our director qualification standards and each member of the Audit Committee, the Compensation Committee and the Governance Committee is independent in accordance with NYSE listing standards.

• No member of those committees receives compensation from us other than directors' fees and no member is an affiliated person of ours (other than by virtue of his or her directorship).

• All members of the Audit Committee meet the additional standards for audit committee members of publicly traded companies required by the Sarbanes-Oxley Act of 2002.

All members of the Compensation Committee qualify as "non-employee directors" as defined in Rule 16b-3 under the Exchange Act and meet the independence requirements of NYSE listing standards and additional standards applicable to "outside directors" under Section 162(m) of the Internal Revenue Code.

Director Nomination Process

In discharging its responsibility related to director nominations, the Governance Committee receives input from other directors and, if applicable, an independent professional search firm. It also considers and evaluates candidates recommended by stockholders, as described below. The Governance Committee utilizes the same criteria to evaluate all candidates, regardless of who recommends the candidate.

The Governance Committee's evaluation includes a reference and background check, as well as interviews and discussions about the candidate's qualifications, availability and commitment. The Chair of the Governance Committee interviews each qualified candidate and selects candidates to be interviewed by other members of the Governance Committee. The Governance Committee reviews the results of all interviews and makes a recommendation to the full Board with respect to nominating a candidate for election to the Board. The Board expects all candidates recommended to the full Board to have received the approval of all members of the Governance Committee.

In evaluating candidates, the Governance Committee considers a variety of qualifications, experience, attributes and skills, and recognizes that a diversity of knowledge, viewpoints and experience can enhance the Board's effectiveness. Accordingly, as part of its candidate evaluation, the Governance Committee considers how the candidate's background, qualifications, experience, attributes and skills may enhance the quality of the Board's deliberations and decisions.

Director Candidate Recommendations

See "Stockholder Information — Procedures for Business Matters and Director Nominations for Consideration at Next Year's Annual Meeting of Stockholders".

Board Operations

Board Leadership Structure

Our governance documents provide the Board with the flexibility to select the appropriate leadership structure for us. While the Board does not have a formal policy as to whether the roles of Chairman and Chief Executive Officer should be separate or whether the Chairman should be an employee or a non-employee director, at this time, the Board believes separating these positions is in the best interest of the Company and its stockholders. Mr. O'Brien serves as our Non-Executive Chairman and Mr. Hall serves as our President and Chief Executive Officer.

Under our Bylaws, the Chairman presides over meetings of the Board and of stockholders, while the Chief Executive Officer has general and active management of our property, business and affairs, subject to the supervision and oversight of the Board.

The Board believes this structure facilitates decisive and effective leadership and, when combined with our other governance policies and procedures, provides appropriate opportunities for oversight, discussion and evaluation of decisions and direction by the Board.

Board Committee Information

The Board has four standing committees: the Audit Committee, the Compensation Committee, the Governance Committee and the Environment, Health and Safety Committee ("EHS Committee"). An additional committee, the Executive Committee, meets only as needed. Each standing committee member satisfies both the NYSE's and our definitions of an independent director, and the Board has determined that all Audit Committee members are "financially literate" under NYSE listing standards and qualify as "audit committee financial experts" within the meaning of the rules and regulations of the SEC.

Each standing committee meets periodically throughout the year, reports its actions and recommendations to the Board, receives reports from management and annually evaluates its performance. Additional information about the committees is provided below. See the committee charters on our website at www.muellerwaterproducts.com for more detail.

Executive Sessions

Our non-employee directors meet at least quarterly in executive sessions at which only non-employee directors are present. Our Non-Executive Chairman presides at these sessions.

Director, Board and Committee Evaluations

Each year, the Guidelines require the Board to conduct an evaluation of its own performance. Additionally, our committee charters require each of our committees to conduct an annual performance evaluation. The Governance Committee is responsible for overseeing the annual self-assessment process on behalf of the Board and its committees. Throughout the self-assessment process, the Governance Committee solicits comments from directors to ensure that the Board and its committees are functioning effectively. The Governance Committee reviews comments from each director to assess directors' contributions to the Board, evaluate the Board's contributions to the Company and identify areas for improvement in the Board's performance. The Governance Committee submits its findings to the Board in an annual report discussing ways in which the Board and its committees can improve their key functions.

Board Risk Oversight

The Board maintains oversight responsibility for our management of risk and charges management with assessing and managing risk. Our internal control environment is designed to identify and manage risks and to facilitate communication with the Board. Our internal audit department, which reports to the Audit Committee, facilitates our enterprise risk assessment and ongoing enterprise risk management processes, in coordination with our legal and compliance functions, and regularly reports on risk-related issues, including the Company's cyber security programs, to the Board and its committees to complement our strategic planning process. Management is responsible for the development, implementation and maintenance of the risk management processes and cyber security program. The Audit Committee consults with the Company's Senior Vice President, Engineering and Information Technology regarding ongoing cyber security initiatives, and requests such individual, together with senior management, to report to the Audit Committee or the full Board regularly on their assessment of operational, financial and accounting, competitive, reputational, cyber security and legal risks to the Company. The Board also considers specific risk topics and receives regular reports from the heads of our principal businesses and corporate functions that include discussions of the risks and exposures involved in their respective areas of responsibility.

Table of Contents

The Board executes its risk oversight function both as a whole and through delegation to committees. In particular:

Audit Committee

- Oversees the internal audit function
- Monitors legal and compliance issues and active matters

Related Person Transactions

The Governance Committee administers a written Related Person Transaction Policy that applies to any transaction or series of transactions in which we are a participant, the amount involved exceeds or may be expected to exceed \$120,000 and a related person has a direct or indirect material interest. Under the policy, our General Counsel determines whether a transaction meets the requirements of a related person transaction requiring review by the Governance Committee. Transactions that fall within this definition will be referred to the Governance Committee for approval, ratification or other action. Based on its consideration of all of the relevant facts and circumstances, the Governance Committee will decide whether or not to approve the transaction and will approve only those transactions that are in our best interests. In addition, the Board has delegated to the Chair of the Governance Committee the authority to pre-approve or ratify any transaction with a related person in which the aggregate amount involved is expected to be less than \$500,000.

Following his retirement, Mr. Hart entered into a consulting agreement with the Company, pursuant to which he agreed to provide consulting services to the Company for a period of six months. As a result, in January 2018 Mr. Hart began receiving an aggregate amount of \$200,000. Other than Mr. Hart's consulting agreement, we did not engage in any transaction during fiscal 2018, and have no currently proposed transaction, in which the amount involved exceeds \$120,000 and a related person had or will have a direct or indirect material interest.

Compensation Committee Interlocks and Insider Participation

During fiscal 2018, none of the members of the Compensation Committee (comprised of Shirley C. Franklin, Jerry W. Kolb and Michael T. Tokarz) was a former or current officer or employee of Mueller Water Products, Inc. or any of its subsidiaries or had any relationships requiring disclosure as a related person transaction. DIRECTOR COMPENSATION

The Compensation Committee is responsible for reviewing and considering any revisions to director compensation. With the assistance of its independent compensation consultant, the Compensation Committee reviews director compensation and compares it to director compensation paid by other companies in the peer group described under “Compensation Discussion and Analysis — Executive Compensation Program Overview — Peer Group Benchmarking and Total Compensation.”

The Board reviews the Compensation Committee’s recommendations and determines the final structure and amounts of director compensation. The Board has determined compensation for non-employee directors should comprise a mix of cash and equity-based awards consistent with the mix and form of payment implemented by other companies in the peer group. In addition to utilizing an overall compensation structure consistent with market practice, the Board believes the interests of directors are aligned with the interests of other stockholders by linking a significant portion of director compensation to Common Stock performance. Under our stock ownership guidelines, directors are required to hold at least 50% of the Common Stock acquired through equity-based awards until they own Common Stock equal in market value to at least five times their annual retainer. See “Compensation Discussion and Analysis — Other Compensation Practices and Policies — Stock Ownership Guidelines” for more information.

Annual Retainer

Each non-employee director received an annual retainer of \$55,000 for fiscal 2018. Annual retainers are paid quarterly. In addition, the Chairs of the Audit Committee and Compensation Committee each received \$15,000, while the Chairs of the Governance Committee and EHS Committee each received \$7,500. Our Non-Executive Chairman received \$68,750 for serving in this capacity.

Meeting Fees

Each non-employee director received \$1,500 for each Board or committee meeting attended during fiscal 2018, except that our Non-Executive Chairman, who is an ex officio member of each standing committee of the Board, receives no Committee meeting fees. Meeting fees are paid monthly.

Equity-Based Awards

Our Second Amended and Restated 2006 Stock Incentive Plan (the “2006 Stock Plan”) provides that, on the date of each annual meeting of stockholders, we will grant equity-based awards with an economic value determined by the Compensation Committee to each non-employee director who is re-elected to the Board and has served as a director for at least six months. In addition, the 2006 Stock Plan provides that each director will receive an initial equity-based grant on the date on which he or she commences service as a director, the economic value and terms of which will be as determined by the Compensation Committee. The number of units equivalent to the economic value of those awards is calculated by the Compensation Committee’s compensation consultant. See “Compensation Discussion and Analysis — Other Compensation Practices and Policies — Role of Compensation Consultant in Compensation Decisions”. On January 24, 2018, each non-employee director received equity-based awards in the form of 7,627 restricted stock units (“RSUs”). These RSUs will vest for directors remaining in continuing service through the first anniversary of the grant date, although the Compensation Committee may waive this minimum service requirement.

Travel Expenses

We reimburse directors for their travel and related expenses in connection with attending Board and committee meetings and related activities.

Highlights of 2018 Performance Related to Executive Compensation

The Compensation Committee used several financial and performance elements (including those set forth below) to assess and determine incentive plan compensation earned during fiscal 2018. See Exhibit A for a reconciliation of the following non-GAAP financial measures used in determining executive compensation to GAAP financial results.

Net Sales	Performance Evaluation Basis Adjusted Operating Income ⁽¹⁾	Performance Evaluation Basis Adjusted Cash Flow from Operations ⁽²⁾	Performance Evaluation Basis Return on Net Assets ⁽³⁾
(\$ in millions)			(%)
2018 \$916.0	\$132.2	\$143.8	48.5%

(1) Defined for this purpose as operating income adjusted to exclude significant unusual charges.

(2) Defined for this purpose as cash flow from operations excluding cash paid for income taxes, net of refunds.

Defined for this purpose as the quotient obtained by dividing performance evaluation basis adjusted operating

(3) income plus amortization of capitalized software and intangible assets by the quarterly average of the sum of working capital, excluding cash, debt and accrued interest and other items plus property, plant and equipment.

Highlights of 2018 Executive Compensation

We design our executive officer compensation programs to target total compensation at or about the 50th percentile (plus or minus 15%) for comparable executive positions at companies in our peer group. The principal elements of our compensation program for executives are base salary, annual performance-based cash bonus, long-term incentive equity compensation and broad-based benefit programs.

We consider stockholder feedback on executive compensation. At our 2017 and 2018 annual meetings of stockholders, approximately 98% and 94%, respectively, of the votes cast supported the advisory vote on executive compensation. We carefully consider feedback from our stockholders regarding executive compensation.

Based on strong stockholder support expressed for our executive compensation programs, the Compensation Committee applied a consistent pay-for-performance philosophy in structuring executive compensation for fiscal 2018.

Stockholders are invited to express their views or concerns on executive compensation directly to the Chair of the Compensation Committee in the manner described under “Corporate Governance — Communicating with the Board.”

We structure performance-based compensation to pay for performance. We set clear and measurable financial goals for Company performance. In evaluating individual performance, we assess progress toward strategic priorities.

We have performance-based compensation earned by our named executive officers. For fiscal 2018, 52% of our CEO’s total target compensation, and an average of 49% of the total target compensation of our other continuing NEOs (excluding Mr. Heinrichs), could only be earned by meeting performance goals.

Our NEOs’ compensation was positively affected by Company performance in relation to targets set for fiscal 2018. Annual cash bonuses earned by our continuing NEOs (excluding Messrs. Hall and Heinrichs) ranged from \$338,173 to \$450,401 (compared with \$255,929 to \$282,075 last year).

Long-term, performance-based compensation was paid or credited at 135.7% of target for fiscal 2018 because Company performance on the “return on net assets” financial measure was above the target level.

Executive Compensation Program Overview

Guiding Principles

The Compensation Committee has identified the following guiding principles in overseeing the compensation program for our executives:

Competitiveness

Compensation programs should be designed to target at the 50th percentile, plus or minus 15%, of total compensation for comparable executive positions at a customized peer group.

Pay for Performance

Where compensation for an executive is tied to the achievement of financial and strategic goals, actual results that exceed target levels should provide above-target payouts, and results that do not exceed threshold levels should not provide payouts.

Responsibility

A significant portion of an executive’s overall compensation should be tied to the achievement of financial performance goals. The portion of an executive’s target total compensation that is incentive based should increase as an executive’s responsibilities increase.

Stockholder Alignment

Executives’ interests are more directly aligned with stockholders’ interests when compensation programs:

- Emphasize both short- and long-term financial performance;
- Are significantly impacted by the value of Common Stock; and
- Require meaningful Common Stock ownership.

Peer Group Benchmarking and Total Compensation

Each year, the Compensation Committee’s compensation consultant collects peer group compensation data and prepares an executive benchmarking study using a market regression analysis to size-adjust the market data for our net sales size as a whole. The Compensation Committee, with input from its independent compensation consultant, reviews the prior year peer group. This review focuses on companies that have a primary manufacturing component to their businesses, have similar organizational structures and are publicly traded or otherwise file financial statements with the SEC. In light of our recent strategic and business changes, the Compensation Committee updated the peer group for fiscal 2018 (the “Peer Group”) to the 18 companies listed below.

Fiscal 2018 Peer Group

Armstrong World Industries, Inc.	Hillenbrand, Inc.
Badger Meter, Inc.	IDEX Corporation
Chart Industries	Itron, Inc.
Circor International Inc.	Mueller Industries, Inc.
Crane Co.	Quanex Building Products Corporation
EnPro Industries, Inc.	Rexnord Corp.
Franklin Electric Co.	SPX Flow
Graco Inc.	Valmont Industries, Inc.
Harsco Corp.	Watts Water Technologies, Inc.

The Compensation Committee regularly reviews the target total compensation of each executive and compares it to the total compensation for comparable executive positions in the Peer Group. The Compensation Committee targets total compensation at the regressed 50th percentile of the Peer Group, plus or minus 15% (“targeted 50th percentile range”), subject to individual adjustments based on experience, length of service, individual performance and other factors deemed appropriate by the Compensation Committee.

Salary

The Compensation Committee regularly compares the salary of each executive to the regressed 50th percentile of comparable executives in the Peer Group and uses that benchmark as a guide. Salaries for the NEOs are adjusted, as appropriate, annually on February 1. In February 2018, Messrs. Hall and Rogowski each received a salary increase of 3.0%. Ms. Zakas received an initial salary increase of 5.0% in January 2018 due to her new role as Chief Financial Officer and an additional salary increase of 6.7% in May 2018 in connection with her mid-year review and assessment of her performance by the Compensation Committee.

Evan L. Hart	N/A	418,000

Annual Cash Incentive Awards

The Compensation Committee targets annual cash incentive compensation for each executive at the regressed 50th percentile of comparable executives in the Peer Group. Based on actual achieved performance against performance goals, each NEO may earn between 0% and 200% of his or her annual cash target opportunity. For fiscal 2018, each NEO could earn an annual cash incentive award based on achievement against financial performance goals (weighted

90%) and EHS-related operational goals (weighted 10%). For financial performance goals, the Compensation Committee determined several goals for the NEOs relevant to increasing the Company's growth and enhancing shareholder value.

Table of Contents

All financial performance goals were set with minimum (or threshold), target and maximum objectives for each goal as described in the “Performance Targets and Results” table below. The Compensation Committee selected these metrics to encourage focus on generating income from continuing operations and enhancing long-term stockholder value. Additionally, the Compensation Committee established operational environmental, health and safety (“EHS”) objectives applicable to each NEO that were tied to reductions in total recordable incidence rates and key performance indicators for sustainability and specific activities identified as leading indicators. The Compensation Committee believes the EHS objectives serve as a valuable tool to enhance the Company’s EHS initiatives and performance. The EHS objectives for each NEO were based on Company-wide performance.

The following table shows the fiscal 2018 performance targets and actual results applicable to each NEO.

Long-Term Equity-Based Compensation

For fiscal 2018, our long-term incentive program included a 50 / 50 mix of awards of performance-based restricted stock units ("PRSUs") and time-vested RSUs. For fiscal 2019, the Compensation Committee determined that the mix of PRSUs versus RSUs should be more heavily weighted to performance-based units and, as a result, has granted 70% of the target long-term incentive compensation value in performance-based PRSUs and 30% in time-based RSUs. The Compensation Committee targets long-term compensation value for each NEO at the 50th (plus or minus 15%) percentile of comparable executives in the Peer Group.

Performance-Based Restricted Stock Units

For fiscal 2018, 50% of target long-term incentive compensation value was awarded in the form of PRSUs. The key terms of the PRSUs are as follows:

Each PRSU award reflects a target number of shares (based on the fair market value of Common Stock on the award date) that may be issued to the recipient at the end of a three-year award cycle based on the achievement of performance targets.

PRSUs are divided into three equal tranches and each tranche is earned based on the level of achievement against the applicable annual performance target.

Each performance period target is established by the Compensation Committee on an annual basis coinciding with our fiscal year.

At the end of each fiscal year, the Compensation Committee confirms performance against the applicable performance target, and PRSUs representing the level of achievement during that performance period are "banked" for potential payout following the end of the three-year award cycle.

Earned PRSUs are settled in shares of Common Stock. The actual number of shares a participant may receive ranges from zero to two times the target number of shares, depending solely on the level of achievement during each performance period within the award cycle.

PRSUs do not convey voting rights or earn dividends.

Performance Measure and Result for Fiscal 2018

The applicable performance target for the fiscal 2018 performance period for PRSU awards made in fiscal 2016, fiscal 2017 and fiscal 2018 was based on return on net assets, or “RONA.” For these purposes, the term “RONA” has the meaning described in footnote 3 to the table under “— Highlights of 2018 Performance Related to Executive Compensation”. The Compensation Committee determined the RONA target using benchmark data from the Peer Group and assistance from the Company’s independent compensation consultant. As a result of uncertainty arising from changes in tax legislation for fiscal 2018, the RONA target was set at an absolute percentage on a pre-tax basis, whereas in prior years the RONA target was based on the after-tax percentage year-over-year improvement in RONA. For fiscal 2018, the performance necessary to earn 100% of target payout required RONA of 46.0%, and the performance necessary to earn the maximum 200% of target payout required RONA of at least 53.0%. Actual RONA performance for fiscal 2018 was 48.5%. Therefore, the recipients of PRSU awards were each credited with 135.7% of the awards attributable to the fiscal 2018 performance period. See “Executive Compensation — Grants of Plan-Based Awards Table”.

PRSU Award Issuances

Common Stock to be issued related to PRSUs awarded in fiscal 2017 (for the three-year award cycle from fiscal 2017 through fiscal 2019) and fiscal 2018 (for the three-year award cycle from fiscal 2018 through fiscal 2020) will not be issued until the Compensation Committee certifies performance results for the fiscal 2019 and fiscal 2020 performance periods. Shares of Common Stock issued to NEOs for the PRSUs awarded in fiscal 2016 (for the three-year award cycle from fiscal 2016 through fiscal 2018) and vested in fiscal 2018 are set forth in the following table:

PRSU Settlements

Name	Shares Earned ⁽¹⁾			Total (#)
	Fiscal 2016 (#)	Fiscal 2017 (#)	Fiscal 2018 (#)	
Marietta Edmunds Zakas	5,079	4,975	6,751	16,805
Gregory E. Rogowski	9,978	9,772	13,260	33,010

See the definitive proxy statements we filed with the SEC on December 15, 2016 and December 14, 2017, for (1) information concerning target RONA performance and actual RONA performance for the 2016, and 2017 performance periods, respectively.

Time-Based Restricted Stock Units

As described above, a portion of an executive’s long-term incentive award value has historically been awarded in the form of time-based RSUs. For fiscal 2018, 50% of each NEO’s target long-term incentive compensation value was awarded in RSUs. The number of RSUs granted was equal to that value, divided by the grant date stock price. Typically, one-third of the RSUs granted vest on each anniversary of the grant date. See “Executive Compensation — Grants of Plan-Based Awards Table”.

Timing of Equity Awards

While the Compensation Committee may grant equity-based awards at any of its scheduled meetings or by unanimous written consent, it generally grants awards for executives at its November or December meeting each year, except for awards related to promotions or new hires. Grants approved during scheduled meetings become effective and are priced as of the date of approval or as of a pre-determined future date based on a date of hire. Grants approved by unanimous written consent become effective and are priced as of a pre-determined future date. All stock options have a per-share exercise price equal to the closing stock price on the NYSE on the effective date of the grant.

Other Cash and Equity Awards

In order to provide a competitive compensation package in connection with his hiring, Mr. Heinrichs’ employment agreement provided for an equity grant of RSUs with a grant date fair value equal to approximately \$500,000, which will vest upon the second anniversary of Mr. Heinrichs’ employment. Mr. Heinrichs’ employment agreement also provides for a sign-on bonus of \$275,000 to be paid at the same time as his prorated annual bonus for fiscal 2018.

In order to ensure a smooth transition, Mr. Hart agreed to remain with the Company until December 31, 2017, and in connection therewith, received a bonus payment of \$90,000. Mr. Hart's ultimate retirement from the Company on December 31, 2017 was treated under his employment agreement as a termination without cause. As a result, Mr.

Table of Contents

Hart will receive an aggregate \$1,113,860 of severance payments, payable in 18 monthly installments beginning February 2018. During fiscal 2018, severance payments to Mr. Hart totaled \$495,050. Following his retirement, Mr. Hart entered into a consulting agreement with the Company, pursuant to which he agreed to provide consulting services to the Company for a period of six months. As a result, in January 2018, Mr. Hart began receiving an aggregate amount of \$200,000.

Retirement Benefits

We offer retirement benefits to our NEOs and other employees to provide a competitive source of retirement income. These retirement benefits are provided through the vehicles described below.

Retirement Savings Plan Applicable to Employees Generally

The Mueller Group LLC Retirement Savings Plan is a 401(k) plan that provides retirement benefits for our non-union employees and those of our participating subsidiaries. Each of our NEOs participated in the plan in fiscal 2018 on the same basis as our other eligible employees.

Other Benefits

Perquisites

We provide certain perquisites to our NEOs that the Compensation Committee believes are reasonable and consistent with its overall compensation program. In fiscal 2018, the Compensation Committee offered the NEOs limited perquisites, including a car allowance, life insurance, supplemental long-term disability insurance and reimbursement for certain financial planning and annual physical examination expenses. See “Executive Compensation — Summary Compensation Table — All Other Compensation”.

Severance Benefits

Each NEO is entitled to severance benefits. See “Executive Compensation — Potential Payments Upon Termination or Change-in-Control”.

Change-in-Control Agreements

Change-in-control agreements are used to create incentives for executives to build stockholder value and to seek the highest value possible for stockholders should we be acquired, despite the risk of losing employment. Our change-in-control agreements for executives provide for vesting of outstanding equity-based awards upon a change-in-control and operate with a “double trigger” for severance payments, meaning severance payments do not occur unless the executive’s employment is involuntarily terminated (other than for cause or for termination for good reason) within 24 months following a change-in-control. The agreements also contain a “best-of-net” provision, so that, in the event excise taxes would be imposed on payments under the agreements, the NEO will either (1) pay the excise tax without assistance from the Company or (2) have the payments reduced to an amount at which an excise tax would no longer be payable, based on which result is more favorable to the NEO on an after-tax basis.

Employee Stock Purchase Plan

Our Employee Stock Purchase Plan (“ESPP”) provides all of our employees an opportunity to purchase Common Stock, subject to certain restrictions, through regular payroll deductions.

Health and Welfare Benefits

We generally offer group medical, dental, vision, life and long-term disability insurance in a flexible benefits package to all active U.S. employees, except as otherwise required by collective bargaining agreements. Employees are provided life insurance up to one times their base salaries at no charge, other than related income taxes, to the employee. For an additional charge, employees may obtain coverage of up to four times their base salary up to a maximum life insurance benefit of \$1,250,000. NEOs participate on the same basis as other eligible employees.

Other Factors Considered by the Compensation Committee

Risk and Incentive Compensation

The Compensation Committee has conducted an assessment of our compensation policies and practices and does not believe these policies and practices are reasonably likely to have a material adverse effect on us. This assessment included a review of the risk profile of our compensation policies and practices for all employees. To facilitate its review, the Compensation Committee engaged its compensation consultant to review our compensation structure to identify design elements that might encourage excessive risk taking. The compensation consultant discussed its review and conclusions with the Compensation Committee. In conducting its review, the Compensation Committee noted several policies and practices that mitigate risk, including:

- Using multiple performance measures in annual incentive awards and capping payout levels;
- Maintaining the ability to reduce annual incentive awards, based on its independent judgment;
- Using multiple long-term incentive vehicles;
- Using overlapping multi-year award cycles in connection with performance shares and capping payout levels; and
- Maintaining stock ownership guidelines, an anti-hedging policy and a clawback policy.

Tally Sheets

The Compensation Committee regularly reviews “tally sheets” for each executive. The tally sheets contain information concerning prior years’ compensation, proposed compensation for the current year, outstanding equity-based awards (both vested and unvested) and various termination-of-employment scenarios. The tally sheets assist the Compensation Committee in evaluating the many facets of executive compensation, understanding the magnitude of potential payouts as a result of termination-of-employment scenarios and considering changes to our compensation programs, arrangements and plans in light of emerging trends.

Other Compensation Practices and Policies

Role of Compensation Consultant in Compensation Decisions

The Compensation Committee has sole authority to select and retain a compensation consultant, including authority to approve fees and retention terms. For fiscal 2018, the Compensation Committee retained Meridian Compensation Partners, LLC as its compensation consultant. The Compensation Committee reviews the performance of its compensation consultant annually.

In fiscal 2018, the compensation consultant’s responsibilities included, but were not limited to:

- Providing recommendations regarding the composition of our Peer Group;
- Preparing and analyzing Peer Group compensation and plan design data;
- Reviewing and advising on the performance measures to be used in incentive awards;
- Valuing equity-based awards; and
- Reviewing and advising on principal aspects of executive and non-employee director compensation, including base salaries, bonuses and equity-based awards for executives, and cash compensation and equity-based awards for non-employee directors.

The Compensation Committee considered the independence of its compensation consultant in light of standards under NYSE listing standards. The Compensation Committee requested and received a letter from the compensation consultant addressing its independence, including the factors described below:

- Other services provided to us by the consultant;
- Fees paid by us as a percentage of the consultant’s total revenue;
- Policies or procedures maintained by the consultant that are designed to prevent a conflict of interest;
- Any business or personal relationships between the individual consultants involved in the engagement and a member of the Compensation Committee;

Table of Contents

• Any Common Stock owned by the individual consultants involved in the engagement; and
• Any business or personal relationships between our executives and the consultant or the individual consultants involved in the engagement.

The Compensation Committee took into account these considerations, along with other factors relevant to the compensation consultant's independence from management, and concluded the compensation consultant is independent and the engagement of the compensation consultant and the services rendered by the compensation consultant did not raise any conflict of interest.

Role of Management in Compensation Decisions

The Compensation Committee reviews information provided by its compensation consultant and uses that information as a reference point for the components of compensation. The Compensation Committee and the Chief Executive Officer discuss the financial metrics and operational goals intended to closely align performance targets of the business units and the Company as a whole with our strategic goals. The Chief Executive Officer makes recommendations to the Compensation Committee for executives other than himself with respect to annual salary adjustments, annual incentive adjustments and grants of equity-based awards under our incentive plans. The Compensation Committee makes the final decision with respect to the compensation of these executives, taking into consideration the Chief Executive Officer's recommendations.

The Compensation Committee annually receives input from the entire Board with respect to the Chief Executive Officer's performance and recommends his compensation level to the Board. The Board discusses and approves the annual salary of the Chief Executive Officer. The Chair of the Compensation Committee and Non-Executive Chairman of the Board meet with the Chief Executive Officer to discuss the Chief Executive Officer's performance and compensation based on evaluations received from the Board. These discussions are considered by the Compensation Committee in setting all elements of compensation for the Chief Executive Officer.

In fiscal 2018, the Chief Executive Officer was present at all of the Compensation Committee meetings but was excused from the executive sessions of the Compensation Committee and did not participate in meetings or deliberations during which his compensation was discussed.

Income Tax Consequences of Executive Compensation

Our compensation programs were designed to permit us to deduct compensation expense under Section 162(m) of the Internal Revenue Code, which historically limited the tax deductibility of annual compensation paid to executives to \$1 million, unless the compensation qualified as "performance-based". The exemption from Section 162(m)'s deduction limit for performance-based compensation has been repealed, effective for taxable years beginning after December 31, 2017, such that compensation paid to our NEOs in excess of \$1 million is generally not deductible. As a result, we may no longer take a deduction for any compensation paid to our NEOs in excess of \$1 million. The Compensation Committee believes stockholder interests are best served by not restricting its discretion and flexibility in structuring compensation programs. In fiscal 2018 and in plans for fiscal 2019, the Compensation Committee continued to design compensation programs and make grants that it believes are performance-based and well aligned with the interests of our stockholders.

Previous grants made under the 2006 Stock Plan, and the PRSUs granted thereunder, as well as the annual cash incentive award, were structured and were intended to permit such awards to qualify as "performance-based" compensation to maximize the tax deductibility of these awards under Section 162(m). Those awards may not be fully deductible under all circumstances, as a number of additional requirements must be met for the awards to qualify as "performance-based" compensation.

Compensation Recovery (Clawback) Policy

Our employment agreements contain a provision requiring the employee, to the extent required by law, to reimburse us following the publication of a restatement of our financial statements due to material noncompliance with any financial reporting requirement under the securities laws as a result of misconduct for (a) incentive-based or equity-based compensation received and (b) any profits realized from the sale of our securities, in each case during the 12 months prior to discovery of the noncompliance. The Compensation Committee has exclusive authority to interpret

and enforce this provision.

32

Table of Contents

The Compensation Committee has adopted a “Clawback Policy” to recover pay that is determined to have been wrongfully earned by managerial or executive employees, including our NEOs. As a result, all RSUs granted after November 30, 2009 include a clause that reduces the number of equity-based awards upon the occurrence of certain events. The Compensation Committee has the exclusive authority to interpret the Clawback Policy, and may offset compensation as necessary to recover amounts due under the Clawback Policy.

Prohibition on Hedging and Pledging

We do not allow directors or employees to hedge the value of our equity securities held directly or indirectly by them. Our policy prohibits the purchase or sale of puts, calls, options or other derivative securities based on our securities, as well as hedging or monetization transactions, purchases of our equity securities on margin and borrowing against any account in which our securities are held. We prohibit pledging of Common Stock by executives or directors.

Stock Ownership Guidelines

The Compensation Committee has adopted stock ownership guidelines to promote a high level of stock retention among executives and non-employee directors. The guidelines require that the total value of the executive’s or non-employee director’s holdings of Common Stock must equal or exceed the specified target value shown below.

Position/Title	Target Ownership
Chief Executive Officer and President	6 x base salary
Executive Vice Presidents	3 x base salary
Senior Vice Presidents	2 x base salary
Non-Employee Directors	5 x annual retainer

All NEOs and directors are in compliance with our stock ownership requirements. Our stock ownership guidelines are available on our website at www.muellerwaterproducts.com. See the Guidelines for more detail.

REPORT OF THE COMPENSATION AND HUMAN RESOURCES COMMITTEE

The Compensation Committee participated in the preparation of the Compensation Discussion and Analysis. Based on its review and discussions with management, the Compensation Committee recommended to the Board that the Compensation Discussion and Analysis be included in this Proxy Statement.

Pension Plan

None of our NEOs participate in a defined benefit pension plan. Each NEO participates in our 401(k) plan, under which we make matching contributions in accordance with the terms of that plan.

Table of Contents

CEO Pay Ratio Disclosure

As required by the Dodd-Frank Wall Street Reform and Consumer Protection Act and SEC rules, we are providing the following information:

For fiscal 2018, (i) the annual total compensation of our median employee (excluding our CEO) was \$58,992; and (ii) the annual total compensation of our CEO was \$3,195,398. Based on this information, the ratio of the annual total compensation of our CEO to that of the median employee is approximately 54 to 1. Our employee population consists of approximately 2,600 employees located throughout the world, with approximately 88% in the United States, 5% in Canada, 6% in China and 1% elsewhere.

To identify the median employee for fiscal 2018, we included all part-time and full-time employees that were employed for any portion of fiscal 2018 so long as they were still actively employed on September 30, 2018. Earnings types used included regular pay (base salary for exempt population and hourly wages for non-exempt population), bonuses, overtime, shift pay and paid time off. Commissions and executive perquisites were omitted from the median employee selection calculation. Using this methodology, we determined the “median employee” was a full-time, hourly employee located in the United States.

Employment, Severance and Change-in-Control Arrangements

At September 30, 2018, we maintained employment agreements with each NEO. Each agreement provides for an annual equity opportunity, which is subject to the discretion of the Compensation Committee, and commensurate with their executive-level position. Each agreement also entitles the employee to receive reimbursement for financial planning services and the cost of an annual physical exam. The following table sets forth certain information with respect to these agreements.

Name	Base Salary Rate ⁽¹⁾ (\$)	Annual Target Bonus as Percent of Base Salary ⁽²⁾ (%)	Monthly Car Allowance (\$)	Annual Vacation	Severance Benefits as Percent of Salary ⁽³⁾ (%)
Scott Hall	772,500	100.0	2,000	4 weeks	300.0
Marietta Edmunds Zakas	400,000	70.0	1,500	4 weeks	262.5
Steven S. Heinrichs	415,000	60.0	1,500	4 weeks	262.5
Gregory S. Rogowski	459,400	75.0	1,500	4 weeks	262.5

(1) Salaries are reviewed annually. Amounts shown represent annual salary rates as of September 30, 2018.

(2) Payout can range from zero to up to twice the amount of the target based on the satisfaction of predetermined financial and operational performance objectives.

(3) Other severance benefits are paid in monthly installments over 24 months, in the case of Mr. Hall, and over 18 months in the case of each other NEO, together with a lump sum payment of unpaid salary and other benefits.

At September 30, 2018, we also maintained change-in-control agreements with each NEO. Under these agreements, upon a change-in-control (as defined in the agreement) of Mueller Water Products, Inc., all outstanding options and RSUs would immediately vest. The value of PRSUs reflects the pro rata portion of shares earned during the performance period and payout at target for future performance periods within the award cycle. In addition, if the executive’s employment is terminated other than for Cause or for Good Reason (each as defined in the agreement) within 24 months following a change-in-control, the executive would be entitled to a lump-sum severance payment equivalent to 2.0x base salary and annual incentive bonus (generally calculated as the average of actual annual incentive bonuses over the preceding three years) and continuation of certain benefits, such as group life and medical insurance coverage for a period of 24 months. The agreements also contain a “best-of-net” provision, so that, in the event excise taxes would be imposed on payments under the agreements, the NEO will either (1) pay the excise tax without assistance from the Company or (2) have the payments reduced to an amount at which an excise tax would no longer be payable, based on which result is more favorable to him or her on an after-tax basis.

Table of Contents

Potential Payments Upon Termination or Change-in-Control

The following table sets forth the potential benefits each NEO would be entitled to receive upon termination of employment in the situations outlined below. The NEO would not be entitled to the severance benefits described below if he or she terminates employment without Good Reason or is terminated for Cause. The amounts shown are estimates and do not necessarily reflect the actual amounts that would be paid to the NEOs, which would only be known at the time they become eligible for payment. The amounts shown are the amounts that could be payable under existing plans and arrangements if the NEO's employment had terminated on September 30, 2018.

The termination events pursuant to which the NEOs are entitled to potential payments are as follows:

A - Severance arrangement for termination without cause or for good reason

B - Termination without cause after a change-in-control or, if applicable, sale of segment

C - Death, disability or retirement

Each is entitled to a pro rata share of the current fiscal year bonus in the event of termination without Cause or after (1) a change-in-control. Amounts in this table assume a termination date of September 30, 2018 and represent the actual bonus paid for fiscal 2018 since this amount would not have otherwise been paid at that date.

(2) The value of RSUs is the closing price of Common Stock on September 30, 2018 multiplied by the number of RSUs. The value of PRSUs reflects the pro rata portion of shares earned during the performance period and payout at target for future performance periods within the award cycle. The closing price of our Common Stock on September 30, 2018 on the NYSE was \$11.46.

(3) For all NEOs, excluding Mr. Heinrichs, welfare benefits are continued for up to 24 months from the separation date based on the current elections and plan premiums.

Services in Case A (without cause termination) will be reasonable in our sole discretion. Services in Case B (change-in-control termination) will be provided for up to two years, but will not exceed 35% of the NEO's base salary at the time of termination.

Cash severance in Case A (without cause termination) is equal to a percentage of current annual base salary plus accrued vacation. The percentage applicable to Mr. Hall is 300%. The percentage applicable to Messrs. Heinrichs (5) and Rogowski and Ms. Zakas is 262.5%. Other severance benefits are paid in monthly installments over 24 months in the case of Mr. Hall and over 18 months in the case of each other NEO, together with a lump sum payment of unpaid salary and other benefits.

(6) Cash severance in Case B (change-in-control termination) for Messrs. Hall, Heinrichs and Rogowski and Ms. Zakas is equal to two times annual base salary plus two times the average bonus over the last three years, plus

accrued vacation. Accrued vacation assumes no vacation has been taken.

- (7) In accordance with Mr. Heinrichs' employment agreement, RSUs shall vest, and all restrictions shall lapse, upon termination.

Unless otherwise noted, voting power and investment power in Common Stock are exercisable solely by the named person.

At December 6, 2018, there were 158,064,614 shares of Common Stock outstanding.

- (2) Beneficial ownership as reported in the table has been determined in accordance with the rules of the SEC. Under those rules, a person is deemed to be a "beneficial owner" of a security if that person has or shares "voting power," which includes the power to vote or to direct the voting of such security, or "investment power," which includes the power to dispose of, or to direct the disposition of, such security. The person is also deemed to be a beneficial owner of any security of which that person has a right to acquire beneficial ownership within 60 days. Under such rules, more than one person may be deemed to be a beneficial owner of the same securities, and a person may be deemed to be a beneficial owner of securities as to which he or she may disclaim any beneficial interest. See "Executive Compensation — Outstanding Equity Awards at Fiscal Year-End Table" for more information concerning outstanding equity awards to our NEOs

and “Director Compensation — Director Compensation Summary” for more information concerning outstanding equity awards to our directors.

Each non-employee director is “retirement-eligible” under and for purposes of the 2006 Stock Plan. Accordingly, for purposes of this table, all outstanding equity-based awards are deemed vested. Beginning with the equity-based awards granted to directors in January 2014, all such awards to directors require a grantee who is or becomes

(3) retirement-eligible prior to an initial vesting date to remain in continuous service from the grant date through at least the first anniversary thereof to receive accelerated vesting upon retirement. The beneficial ownership reported in the table assumes each grantee of an award on January 24, 2018 will remain in continuous service through January 24, 2019.

(4) Includes 19,011 RSUs that will vest within 60 days.

QUESTIONS ABOUT VOTING AND THE ANNUAL MEETING

When and where is the Annual Meeting?

Our Annual Meeting will be held on Wednesday, January 23, 2019 at 10:00 A.M., Eastern Time, in the Peachtree Dunwoody Room on the 3rd Floor of Building 500 at Northpark Town Center, located at 1100 Abernathy Road, N.E., in Atlanta, Georgia.

What is the purpose of the Annual Meeting?

At the Annual Meeting, stockholders will vote on matters summarized in this Proxy Statement. This Proxy Statement contains important information for you to consider when deciding how to vote.

Who is entitled to vote?

You may vote at the Annual Meeting, and any adjournment or postponement thereof, if you were a holder of record of our Common Stock at the close of business on December 6, 2018, the record date. On the record date, there were 158,064,614 shares of Common Stock outstanding. Each share of Common Stock represented at the Annual Meeting is entitled to one vote.

Who is soliciting my vote?

The Board is soliciting your proxy to vote your shares at the Annual Meeting. We made our proxy solicitation materials available to you on the Internet or, upon your request, we have delivered printed versions of these materials to you by mail, in connection with our solicitation of proxies.

What is included in the proxy materials?

The proxy materials for the Annual Meeting include the Notice of Internet Availability of Proxy Materials, this Proxy Statement and the Annual Report. If you requested printed versions by mail, these proxy materials also include the proxy card or voting instruction form for the Annual Meeting. These materials were first sent or made available to stockholders on or about December 13, 2018.

What proposals require my vote, what vote is required to approve each proposal, how will abstentions and broker non-votes be treated and how does the Board recommend I vote?

Voting Item	Voting Standard	Treatment of Abstentions & Broker Non-Votes	Board Recommendation
Elect Directors	Majority of votes cast	Not counted as votes cast and, therefore, no effect	FOR each director nominee
Approve executive compensation	Majority of votes cast	Not counted as votes cast and, therefore, no effect	FOR
Ratify Auditor	Majority of votes cast	N/A	FOR

Will any other business be conducted at the Annual Meeting?

Management is not aware of any items, other than those referred to in this Proxy Statement, that may properly come before the Annual Meeting.

How are proxies voted?

Shares represented by all valid proxies received on time will be voted as specified. If a valid proxy form is received and does not indicate specific choices, the shares will be voted in accordance with the Board's recommendations. The Board has designated each of Scott Hall, Steven S. Heinrichs and Kristi O. Crawford as proxies for the Annual Meeting.

How may I vote?

If your shares are registered directly in your name with our transfer agent, you are a “registered stockholder.” Registered stockholders may vote by:

- Internet at the web address noted in the Notice of Internet Availability of Proxy Materials, proxy materials email or proxy card that you received (we encourage you to vote in this manner);
- Telephone through the number noted in the proxy card that you received (if you received a proxy card);
- Signing and dating your proxy card (if you received a proxy card) and mailing it to the indicated address; or
- Attending the Annual Meeting and voting in person.

If your shares are held in a bank or brokerage account, you are a “beneficial stockholder” and you should refer to the instructions provided by your bank, brokerage or other nominee regarding how to vote your shares.

If you plan to vote other than by attending the Annual Meeting and voting in person, your vote must be received by 11:59 P.M., Eastern Time on January 22, 2019.

How can I change my vote?

You can revoke a proxy prior to the completion of voting at the Annual Meeting by:

- Voting again using the Internet or by telephone prior to the Annual Meeting;
- Delivering a later-dated proxy card; or
- Voting in person at the meeting (if you are a beneficial stockholder).

What constitutes a quorum for the Annual Meeting?

The holders of a majority of the voting power of the outstanding shares of Common Stock at the close of business on the record date must be present, either in person or represented by proxy, to constitute a quorum necessary to conduct the Annual Meeting. Shares represented by proxies received but marked as abstentions or as withholding voting authority for any or all director nominees, and shares represented by proxies received but reflecting broker non-votes, will be counted as present at the Annual Meeting for purposes of establishing a quorum.

Why did I receive a Notice of Internet Availability of Proxy Materials in the mail instead of a printed set of proxy materials?

We are permitted by SEC rules to furnish proxy materials to stockholders by providing access to those documents on the Internet. Stockholders will not receive printed copies of the proxy materials unless they request them. The Notice provides instructions on how to access and review the Proxy Statement and the Annual Report over the Internet at www.proxyvote.com (for beneficial stockholders) and www.edocumentview.com/mwa (for registered stockholders), and how to submit a proxy over the Internet. If you would like to receive a paper or email copy of the proxy materials, please follow the instructions in the Notice.

What does it mean if I receive more than one Notice, proxy materials email or proxy card?

It means you have multiple accounts holding Common Stock with brokers and/or our transfer agent. You will need to vote separately with respect to each Notice, proxy materials email or proxy card you receive.

What do I need to do if I want to attend the Annual Meeting?

Attendance at the Annual Meeting is limited to our stockholders, members of their immediate families or their representatives. To gain admittance to the Annual Meeting, you may be required to show evidence that you were a holder of Common Stock on the record date. We reserve the right to limit the number of representatives who may attend the Annual Meeting.

How are proxies solicited and what is the cost?

We bear all expenses incurred in connection with the solicitation of proxies. We have engaged Alliance Advisors LLC to assist with the solicitation of proxies for an estimated fee of \$11,000, plus expenses. We will reimburse brokers, fiduciaries and custodians for their costs in forwarding proxy materials to beneficial holders of Common Stock. Our directors, officers and employees also may solicit proxies in return for no additional compensation.

GENERAL INFORMATION

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Exchange Act requires executive officers and directors and persons who beneficially own more than 10% of a company's common stock (together, "Reporting Persons") to file initial reports of ownership and reports of changes in ownership with the SEC. Reporting Persons are required by SEC rules to furnish companies with copies of all Section 16(a) forms they file. Based solely on a review of copies of such forms furnished to us and written representations from the executive officers and directors, we believe our Reporting Persons complied with all Section 16 filing requirements during fiscal 2018.

Should any other matter or business requiring a vote of stockholders arise, the persons named in the enclosed proxy intend to exercise the authority conferred by the proxy and vote the shares represented thereby in respect of any such other matter or business in accordance with their best judgment in the interest of Mueller Water Products, Inc.
