Forward-Looking Statements

This Annual Report on Form 10-K contains forward looking statements. The words or phrases “would be,” “will allow,” “intends to,” “will likely result,” “are expected to,” “will continue,” “is anticipated,” “estimate,” “project,” or similar expressions are intended to identify “forward-looking statements.” Actual results could differ materially from those projected in the forward looking statements as a result of a number of risks and uncertainties, including the risk factors set forth below and elsewhere in this Report. See “Risk Factors” and “Management's Discussion and Analysis of Financial Condition and Results of Operations.” Statements made herein are as of the date of the filing of this Form 10-K with the Securities and Exchange Commission and should not be relied upon as of any subsequent date. Unless otherwise required by applicable law, we do not undertake, and specifically disclaims any obligation, to update any forward-looking statements to reflect occurrences, developments, unanticipated events or circumstances after the date of such statement.

PART I

ITEM 1. BUSINESS

Summary of Business

Park City Group, Inc. (the “Company”) is incorporated in the state of Nevada. The Company’s 98.76% and 100% owned subsidiaries, Park City Group, Inc. and Prescient Applied Intelligence, Inc. (“Prescient”), respectively, are incorporated in the state of Delaware.

The Company designs, develops, markets and supports proprietary software products. These products are designed to be used in businesses having multiple locations to assist in the management of business operations on a daily basis and communicate results of operations in a timely manner. In addition, the Company has built a consulting practice for business improvement that centers on the Company’s proprietary software products. The principal markets for the Company's products are multi-store retail and convenience store chains, branded food manufacturers, suppliers and distributors, and manufacturing companies which have operations in North America, Europe, Asia and the Pacific Rim.

Acquisition of Prescient Applied Intelligence, Inc.

On January 13, 2009, the Company consummated a merger of PAII Transitory Sub, Inc., a wholly-owned subsidiary of the Company, with and into Prescient (the “Prescient Merger”). As a result of the Prescient Merger, the Company now owns 100% of Prescient.

Prescient is a leading provider of on-demand solutions for the retail marketplace, including both retailers and suppliers. Its solutions capture information at the point of sale, provide greater visibility into real-time demand and turn data into actionable information across the entire supply chain. As a result of the Prescient Merger, the Company’s solutions now include:

- Supply Chain Profit Link - a service that provides the analysis and additional resources to improve in-stock positions, reduce shrink and out-of-stocks, execute more efficient and effective promotions, resolve service-level issues, improve assortment planning, and increase sales and profit opportunities.
- Scan Based Trading (SBT) - provides visibility into store-level product movement, allows suppliers to spend more time merchandising product, and removes time-consuming operational drudgery from the retailer-supplier relationship.

Table of Contents

- Store Level Replenishment – a store ordering solution that optimizes store level demand forecasting to help determine when items are in need of re-ordering at a particular store.
- Vendor Managed Inventory – enables suppliers to analyze retailer-supplied demand information to optimize inventory and determine the most cost-effective replenishment.
- Fresh Market Manager – a fully integrated, end-to-end suite of software applications that manage perishable items in retail environments.
- ActionManager – a suite of operations management solutions that replace costly manual processes with automated systems. The seamless integration of this time-management solution provides advanced capabilities.
- Visibility & Analytics – a web-based business intelligence solution to improving performance at store level, allowing retailers more time to focus on driving strategic decisions.
- Enterprise Demand / Distribution Planning – analyzes point-of-sale data and other demand signals to gain insight into consumer demand to enhance forecast, planning and execution processes.

The accompanying audited consolidated financial statements of the Company as of and for the year ended June 30, 2009 contain the results of operations of Prescient from January 13, 2009, as well as the impact on the Company's financial position resulting from consummation of the Prescient Merger as of such period.

Background

The Company began operations utilizing patented computer software and profit optimization consulting services that help its retail clients reduce their inventory and labor cost; the two largest controllable expenses in the retail industry. The technology has its genesis in the operations of Mrs. Fields Cookies co-founded by Randall K. Fields, CEO of the Company. Industry leading customers such as The Home Depot, Anheuser Busch Entertainment, Perdue, Monterey Mushrooms, Pacific Sunwear, Wawa and Tesco Lotus benefit from the Company's software. Because the product concepts originated in the environment of actual multi-unit retail chain ownership, the products are strongly oriented to an operation's bottom line results.

The Company was incorporated in the State of Delaware on December 8, 1964 as Infotec, Inc. From June 20, 1999 to approximately June 12, 2001, it was known as Amerinet Group.com, Inc. In 2001, the name was changed from Amerinet Group.com to Fields Technologies, Inc. On June 13, 2001, the Company entered into a "Reorganization Agreement" with Randall K. Fields and Riverview Financial Corporation whereby it acquired substantially all of the outstanding stock of Park City Group, Inc., a Delaware corporation, which became a 98.67% owned subsidiary. Operations are conducted through this subsidiary which was incorporated in the State of Delaware in May 1990.

On August 7, 2002, Fields Technologies, Inc. changed its name from Fields Technologies, Inc. to Park City Group, Inc., and reincorporated in Nevada. Therefore, both the parent-holding company (Nevada) and its operating subsidiary (Delaware) are named Park City Group, Inc. Park City Group, Inc. (Nevada) has no other business operations other than in connection with its subsidiaries, including Prescient.

Table of Contents

In this Annual Report on Form 10-K, unless otherwise stated, or the context otherwise requires, reference to the terms “we”, the “Company”, “Park City Group” or “Prescient” refer to the Park City Group, Inc., a Delaware corporation, as well as to Fields Technologies, Inc., the Delaware Corporation, which was reincorporated in Nevada under the name of the Park City Group, Inc. The stock trades under the symbol PCYG.OB.

The principal executive offices of the Company are located at 3160 Pinebrook Road, Park City, Utah 84098. The telephone number is (435) 645-2000. The website address is <http://www.parkcitygroup.com>.

General

The Company develops and licenses its software applications identified as “Fresh Market Manager”, “Supply Chain Profit Link”, and “ActionManager®” to supermarkets, convenience stores and other retailers. As a result of the acquisition of Prescient, we have expanded our offerings to include supply chain solutions focused on large manufacturers, distributors, and suppliers in the consumer products industry. The Company also provides professional consulting services targeting implementation, assessments, profit optimization and support functions for its application and related products.

Supermarket

The supermarket industry is under increased competitive pressure from value retailers such as Wal-Mart, Costco, Target, and others. One of the strategies that traditional supermarkets are implementing is to increase the quantity and quality of their perishable offerings. Perishable departments, such as bakery, meat and seafood, dairy, and deli have historically been loosely managed but now have been forced to become a focus for profitability improvement. The Company’s software and consulting services and change management resources are designed to address this specific business problem, increasing the profitability of perishable products at the department and store level.

Convenience Store

For convenience stores, recent trends of contracting gasoline sales margins and declining tobacco sales further increases the need for improved cost controls, focus on product mix, and better decision support. To intensify the focus on these issues, other industry segments such as value retailers and grocery stores have begun cutting into the convenience store stronghold by offering gasoline, a product that once was almost solely offered by convenience store retailers. In response to declining gasoline sales and profits, the C-Store industry is pushing into Fresh Food as an avenue of increased sales and profitability. Only the most progressive convenience store operations have automated systems to help store managers, leaving the majority of the operators without any technology to ease their administrative and operations burdens.

Supplier

As stated above, supermarkets and convenience stores are increasingly dependent upon perishable departments and optimized inventory for increased profitability. Suppliers are increasingly pressured by retailers to provide economic incentives or assistance. Park City Group has developed Supply Chain Profit link to enable suppliers to provide that assistance.

Table of Contents

Specialty Retail

Specialty retailers are faced with strong competition for qualified managers and staff. Managers are time-constrained due to increased labor and inventory demands, margins are increasingly tight due to higher labor and lease costs, and customer satisfaction demands are higher than ever before. Park City Group has developed a range of applications that enable managers in specialty retail to improve their labor scheduling efficiency and reduce their total paperwork and administrative workload.

Solutions

The Company's primary solutions are Fresh Market Manager, Action Manager and Supply Chain Profit Link, which are designed to aid the retailer to manage inventory, labor and suppliers. As a result of the Prescient Merger, the Company has added solutions complementing the Company's existing products and services, including solutions targeting manufacturers, suppliers and distributors, principally in the consumer products industry.

Fresh Market Manager. Addressing the inventory issues that plague today's retailers, Fresh Market Manager is a suite of software product applications designed to help manage perishable food departments including bakery, deli, seafood, produce, meat, home meal replacement, dairy, frozen food, and floral. Although the supermarket and convenience store industries have invested substantial sums on Point-of-Sale, scanning systems, etc., those systems are, almost without exception, limited to proving price look-up functions rather than decision support functions. These industries are a classic representation of "data rich" and "information poor". Park City Group is capitalizing on that environment to bring together information from disparate legacy applications and databases to provide an end-to-end integrated merchandising, production planning, demand forecasting and perpetual inventory system to address the industry's perishable department needs.

Fresh Market Manager helps identify true cost of goods and provides accurate and actionable profitability data on a corporate, regional, store-by-store, and/or item-by-item basis. Fresh Market Manager also produces hour-by-hour forecasts, production plans, perpetual inventory, and places/receives orders. Fresh Market Manager automates the majority of the planning, forecasting, ordering, and administrative functions associated with fresh merchandise or products.

ActionManager®. The second most important cost element typically facing today's retailers is labor. ActionManager® addresses labor needs by providing a suite of solutions that forecast labor demand, schedules staff resources, and provides store managers with the necessary tools to keep labor costs under control while improving customer service, satisfaction, and sales. ActionManager applications provide an automated method for managers to plan, schedule, and administer many of the administrative tasks including new hire paperwork and time and attendance. In addition to automating most administrative processes, ActionManager provides the local manager with a "dashboard" view of the business. ActionManager also has extensive reporting capabilities for corporate, field, and store-level management to enable improved decision support.

Supply Chain Profit Link. Supply Chain Profit Link ("SCPL") allows suppliers an opportunity to work with their retail partners on optimizing profits, while reducing stock outs and minimizing shrink (or waste). SCPL provides hourly, daily, or weekly store-by-store item-level movement and profitability information to suppliers and retailers to facilitate decision support. SCPL allows suppliers and retailers opportunities to customize assortment plans, promotions, and pricing strategies on a store-by-store basis.

Table of Contents

Scan Based Trading (SBT). Our SBT solution eliminates supply chain inefficiencies and helps retailers and suppliers get product to the store shelves more quickly, efficiently, and profitably. SBT is an advanced commerce practice where the supplier retains ownership of the inventory until it scans at the cash register. Once the retailer and supplier have agreed to begin an SBT relationship, the first step is item and price authorization. This process matches retailer and supplier product data to eliminate invoice discrepancies at the point of sale. Our SBT system receives the scan sales data and maintains it in a repository to ensure that product movement data is available to all members of the trading community. Implementation creates increased demand visibility and improved forecast accuracy. Our SBT solution is offered as a hosted service, so implementation is immediate and always available.

Store Level Replenishment (SLR). Many retailers are placing the responsibility of replenishing product at the store shelf onto the suppliers who bring that product into the store. Avoiding overstocks and understocks, particularly with highly promoted products such as ice cream or bread, has been a challenge for DSD suppliers. Our on-demand SLR solution provides these suppliers visibility into store level movement and activity, and generates replenishment orders based on point of sale data. Suppliers using this solution are able to optimize store-level demand forecasting and replenishment, resulting in fewer out of stocks and lost sales. Retailers benefit by having product on the shelf.

Vendor-Managed Inventory (VMI). VMI programs are gaining in popularity because suppliers have come to realize that VMI offers the opportunity to better align themselves with their trading partners and add value to those relationships. Our VMI solution provides collaboration tools that increase supply chain efficiencies, lower inventory, and enhance trading partner relationships. The solution is pre-mapped to the specific requirements of each trading partner for the transfer of electronic data directly into our system. This enables suppliers to analyze retailer-supplied demand information, automatically generate orders for each customer, set inventory policy at the retailer's distribution center and monitor on-going inventory levels, determine which items need to be replenished, and how to ship them most cost-effectively. Our VMI suite has the flexibility and functionality to scale to accommodate new trading partners. Our solution delivers real value for suppliers through fewer out-of-stocks, increased inventory turns, and increased customer satisfaction and loyalty.

Visibility & Analytics (V&A). Our V&A solution gives retailers a clear view into critical aspects of their supply chain operations so that they can better serve the consumer. Our solution provides analysis of scan sales data by store, by day, by category, and by supplier so that retailers understand what is selling, the velocity at which a product is moving, and how profitable it is. In addition, our solution helps retailers analyze shrink, which suppliers are better at managing, and how to use that information to prevent out of stocks.

Enterprise Supply Chain Planning Suite (ESCP). Our ESCP suite includes a solution to help users analyze POS data and other demand signals to gain insight into customer demand. Suppliers have visibility into historical data – seasonal events, promotions, and buying trends – to facilitate accurate forecasting. Our software assesses how inventory will be impacted, then calculates recommended stocking levels, considers service level goals, and develops a time-phased replenishment plan. The solution brings demand data into one place, and will determine whether orders should come from existing inventory or if new production or procurement is necessary. And it is extremely flexible, so it can be configured to meet the needs of any company's supply chain processes.

Our ESCP suite includes modules designed to help customers achieve balance between inventory investment and optimal customer service levels. In addition, it synchronizes all the elements affecting inventory to ensure product is available for timely distribution to customers. Users can easily manage the complex sets of data and parameters that impact their businesses, including seasonal builds, desired service levels, and manufacturing constraints. The solution considers consumption rates and inventory levels, and automatically calculates time-phase safety stocks and replenishment quantities for each item and each location.

Table of Contents

Our ESCP suite also includes a module that facilitates new product introductions, conduct promotion analysis, and manage the product lifecycle. By providing a detailed analysis of past demand patterns and applying that data to similar products, these modules help customers understand what makes a product launch successful, how a promotion will impact demand forecasts and revenue streams, and how long a product is likely to be profitable. They also create seasonality profiles and help manage inventory pipeline fill requirements through increased visibility into consumer demand.

Production line sequencing rounds out the ESCP suite. The production line sequencing module is a robust software application that enables more effective use of resources to meet customer demand and corporate goals. Production line sequencing works with existing enterprise resource planning (ERP) systems, combining master data with the latest forecasts, customer orders, on-hand inventories, and planned receipts to generate production plans and master production schedules.

Services

Business Analytics. Park City Group's Business Analytics Group offers business consulting services to suppliers and retailers in the grocery, convenience store and specialty retail industries. The Business Analytics Group mines store-level scan data to develop item-specific recommendations to improve customer satisfaction and profitability.

Professional Services. Our Professional Services Group provides consulting services to ensure that our solutions are seamlessly integrated into our customers' business processes as quickly and efficiently as possible. In addition to implementation of our solutions, we have developed a portfolio of service offerings designed to deliver unparalleled performance throughout the lifecycle of the customer's solution. Specific services are tailored to each customer and include the following: implementation, business optimization, technical services, education, business process outsourcing, and advisory services. The intent of such services is to support our clients' business operations by enabling them to maximize the speed, effectiveness, and overall value of our offerings. We believe that the ability to create value for our customers is critical to our long-term success.

Sales and Marketing

Through a focused and dedicated sales effort designed to address the requirements of each of its software and service solutions, Park City Group believes its sales force is positioned to understand its customers' businesses, trends in the marketplace, competitive products and opportunities for new product development. The Company's deep industry knowledge enables it to take a consultative approach in working with its prospects and customers. Park City Group's sales personnel focus on selling its technology solutions to major customers, both domestically and internationally.

To date, Park City Group's primary marketing objectives have been to increase awareness of Park City Group's technology solutions and generate sales leads. To this end, Park City Group attends industry trade shows, conducts direct marketing programs, publishes industry trade articles and white papers, participates in interviews, and selectively advertises in industry publications.

Customers

Our customers include some of the most notable names in retailing, including: Supervalu, Pathmark, Tesco-Lotus, Circle K Midwest/Great Lakes, The Home Depot, Wawa, Williams-Sonoma, Ahold, CVS, Meijer, Rite-Aid, Schnuck Markets, Sunoco, SUPERVALU, WinCo Foods, Win-Dixie, and others.

Table of Contents

Our supplier customers include Allen's Canning, Attends Health Care Products, Bimbo Bakeries, BIC Corporation, Boar's Head, Bush Brothers, Churchill China, Cliffstar, Coors Brewing Company, Crayola, Dean Foods, Domino's Pizza, Dreyer's/ Edy's Grand Ice Cream, Flowers Foods, General Nutrition Corporation, George Weston Bakeries, Hallmark, I & K Distributors, Interstate Brands, J.M. Smucker Co., NutriSystem, Pepperidge Farm, Perfection Bakeries, Ranir, Riviana Foods, Rhodes International, Russell Stover Candies, Sara Lee Bakery Group, Schwan's Consumer Brands, Snyder's of Berlin, Well's Dairy, Wyeth, and Zondervan.

Competition

The market for Park City Group's products and services is very competitive. Park City Group believes the principal competitive factors include product quality, reliability, performance, price, vendor and product reputation, financial stability, features and functions, ease of use, quality of support and degree of integration effort required with other systems. While our competitors are often considerably larger companies in size with larger sales forces and marketing budgets, we believe that our deep industry knowledge and the breadth and depth of our offerings give us a competitive advantage. Park City Group's ability to continually improve its products, processes and services, as well as its ability to develop new products, enables the Company to meet evolving customer requirements. Park City Group competes with large enterprise-wide software vendors, developers and integrators, such as Oracle, SAP and EDS; B2B exchanges such as ISYNC and Agentrics; consulting firms such as Capgemini; focused solution providers such as Workbrain, Radiant Systems, Kronos, Tomax; and business intelligence technology platforms such as Microsoft, MicroStrategy, SAS and Cognos; and others. Our supply chain solution competitors include supply chain vendors such as Logility/Demand Solutions; major enterprise resource planning (ERP) software vendors such as SAP, Oracle, and JDA; mid-market ERP vendors such as Ross Systems and Infor; and niche players for VMI and SLR, such as IBM and Market6.

Product Development

The products sold by the Company are subject to rapid and continual technological change. Products available from the Company, as well as from its competitors, have increasingly offered a wider range of features and capabilities. The Company believes that in order to compete effectively in its selected markets, it must provide compatible systems incorporating new technologies at competitive prices. In order to achieve this, the Company has made a substantial ongoing commitment to research and development.

Park City Group's product development strategy is focused on creating common technology elements that can be leveraged in applications across its core markets. Except for its supply chain application, which is based on a proprietary architecture, the Company's software architecture is based on open platforms and is modular, thereby allowing it to be phased into a customer's operations. In order to remain competitive, Park City Group is currently designing, coding and testing a number of new products and developing expanded functionality of its current products.

Patents and Proprietary Rights

The Company has been awarded nine U.S. patents, eight U.S. trademarks and 37 U.S. copyrights relating to its software technology that are approved and issued. In addition, the Company has two patents currently pending. The Company has 14 international patents and patent applications pending. The patents referred to above are continuously reviewed and renewed as their expiration dates come due. From time to time, the Company may review its portfolio of intellectual property including its patents and either lease or sell its intellectual property.

Company policy is to seek patent protection for all developments, inventions and improvements that are patentable and have potential value to the Company and to protect its trade secrets other confidential and proprietary

information. The Company intends to vigorously defend its intellectual property rights to the extent its resources permit.

-7-

Table of Contents

Future success may depend upon the strength of the Company's intellectual property. Although management believes that the scope of patents/patent applications are sufficiently broad to prevent competitors from introducing devices of similar novelty and design to compete with the Company's current products and that such patents and patent applications are or will be valid and enforceable, there are no assurances that if such patents are challenged, this belief will prove correct. The Company has, however, successfully defended one of these patents in three separate instances and as such, has some level of confidence in the Company's ability to maintain its patents. In addition, patent applications filed in foreign countries and patents granted in such countries are subject to laws, rules and procedures, which differ from those in the U.S. Patent protection in such countries may be different from patent protection provided by U.S. laws and may not be as favorable.

The Company is not aware of any patent infringement claims against it; however, there are no assurances that litigation to enforce patents issued to the Company to protect proprietary information, or to defend against the Company's alleged infringement of the rights of others will not occur. Should any such litigation occur, the Company may incur significant litigation costs, the Company's resources may be diverted from other planned activities, and result in a materially adverse effect on the Company's operations and financial condition.

The Company relies on a combination of patent, copyright, trademark, and other laws to protect its proprietary rights. There are no assurances that the Company's attempted compliance with patent, copyrights, trademark or other laws will adequately protect its proprietary rights or that there will be adequate remedies for any breach of our trade secrets. In addition, should the Company fail to adequately comply with laws pertaining to its proprietary protection, the Company may incur additional regulatory compliance costs.

Government Regulation and Approval

Like all businesses, the Company is subject to numerous federal, state and local laws and regulations, including regulations relating to patent, copyright, and trademark law matters.

Cost of Compliance with Environmental Laws

The Company currently has no costs associated with compliance with environmental regulations, and does not anticipate any future costs associated with environmental compliance; however, there can be no assurance that it will not incur such costs in the future.

Reports to Security Holders

The Company is subject to the informational requirements of the Securities Exchange Act of 1934. Accordingly, it files annual, quarterly and other reports and information with the Securities and Exchange Commission. You may read and copy these reports and other information at the Securities and Exchange Commission's public reference rooms in Washington, D.C. and Chicago, Illinois. The Company's filings are also available to the public from commercial document retrieval services and the Internet world wide website maintained by the Securities and Exchange Commission at www.sec.gov.

Table of Contents

Employees

As of September 24, 2009, the Company had 52 employees, including 13 software developers and programmers, 22 sales, marketing and account management employees, 4 software service and support employees and 12 accounting and administrative employees. During 2009, the Company contracted with 4 programmers and 3 business analysts in India. The Company is planning to continue to expand its Indian workforce to augment its analytics services offerings, expand its professional services, and to provide additional programming resources. All of these employees and contractors work for the Company on a full time basis. The employees are not represented by any labor union.

ITEM 1A. RISK FACTORS

An investment in our common stock is subject to many risks. You should carefully consider the risks described below, together with all of the other information included in this Annual Report on Form 10-K, including the financial statements and the related notes, before you decide whether to invest in our common stock. Our business, operating results and financial condition could be harmed by any of the following risks. The trading price of our common stock could decline due to any of these risks, and you could lose all or part of your investment.

Risks Related to the Prescient Merger

The Company may not be able to fully realize the benefits of the Prescient Merger.

The Company may not be able to realize the anticipated benefits of the Prescient Merger. The Prescient Merger combined two companies that historically operated as independent companies. The combined company is devoting significant management attention and resources to integrating its business practices and operations, and realizing the benefits of the Prescient Merger. Potential difficulties the combined company may encounter include:

The inability of the combined company to achieve the cost savings and operating synergies anticipated with the Prescient Merger;

Lost sales and clients as a result of certain clients of either of the two companies who decide not to do business with the combined company;

Complexities associated with managing the combined businesses;

Integrating personnel from different corporate cultures while maintaining focus on providing consistent, high quality products and services;

Potential unknown liabilities and increased costs associated with the Prescient Merger; and

Loss of key personnel, many of whom have proprietary information.

The Company has incurred substantial indebtedness in connection with the Prescient Merger, and there can be no assurance that the Company will be able to pay such indebtedness when it comes due.

As a result of consummation of the Prescient Merger, the Company's total liabilities have increased to approximately \$12.5 million at June 30, 2009, from approximately \$3.6 million at June 30, 2008. Approximately \$2.9 million of such indebtedness is due and payable on or before June 30, 2010 plus applicable interest. No assurances can be given that the Company will be able to satisfy such additional liabilities when the same become due and payable.

Table of Contents

Risks Related to the Company

The Company has incurred losses in the past and there can be no assurance that the Company will achieve profitability in the future.

The Company's marketing strategy emphasizes sales to clients acquired as a result of the Prescient Merger, as well as sales of subscription based services instead of annual licenses. If this marketing strategy fails, revenues and operations will be negatively affected. A reduction in revenues will result in increases in operational losses.

For the fiscal years ended June 30, 2009 and June 30, 2008, the Company had a net loss of \$4,041,377 and \$2,868,179 respectively. There can be no assurance that the Company will reliably or consistently operate profitably during future fiscal years. If the Company does not operate profitably in the future the Company's current cash resources will be used to fund the Company's operating losses. If this were to continue, in order to continue with the Company's operations, the Company would need to raise additional capital. Continued losses would have an adverse effect on the long term value of the Company's common stock and an investment in the Company. The Company cannot give any assurance that the Company will ever generate significant revenue or have sustainable profits.

The Company liquidity and capital requirements will be difficult to predict, which may adversely affect the Company's cash position in the future.

Historically, the Company has been successful in raising capital when necessary which includes stock issuances, securing loans from its officers, directors, including the CEO and majority stockholder in order to fund its operations in addition to proceeds collected from sales; however, there can be no assurances that it will be able to do so in the future. The Company anticipates that it will have adequate cash resources to fund its operations for at least the next 12 months. Thereafter, its liquidity and capital requirements will depend upon numerous other factors, including the following:

- The Company's ability to realize the anticipated benefits from the Prescient Merger;
- The extent to which the Company's products and services gain market acceptance;
 - The progress and scope of product evaluations;
- The timing and costs of acquisitions and product and services introductions;
- The extent of the Company's ongoing research and development programs; and
 - The costs of developing marketing and distribution capabilities.

If in the future, the Company is required to seek additional financing in order to fund its operations and carry out its business plan, there can be no assurance that such financing will be available on acceptable terms, or at all, and there can be no assurance that any such arrangement, if required or otherwise sought, would be available on terms deemed to be commercially acceptable and in the Company's best interests.

Table of Contents

Operating results may fluctuate, which makes it difficult to predict future performance.

Management expects a portion of the Company's revenue stream to come from the sale of subscriptions, license sales, maintenance and services charged to new customers, which will fluctuate in amounts because predicting future sales is difficult and involves speculation. In addition, the Company may potentially experience significant fluctuations in future operating results caused by a variety of factors, many of which are outside of its control, including:

- Demand for and market acceptance of new products;
- Introduction or enhancement of products and services by the Company or its competitors;
 - Capacity utilization;
 - Technical difficulties, system downtime;
- Fluctuations in data communications and telecommunications costs;
 - Maintenance subscriber retention;
- The timing and magnitude of capital expenditures and requirements;
- Costs relating to the expansion or upgrading of operations, facilities, and infrastructure;
 - Changes in pricing policies and those of competitors;
- Composition and duration of product mix including license sales, consulting fees, and the timing of software rollouts;
 - Changes in regulatory laws and policies, and;
- General economic conditions, particularly those related to the information technology industry.

Because of the foregoing factors, future operating results may fluctuate. As a result of such fluctuations, it is difficult to predict operating results. Period-to-period comparisons of operating results are not necessarily meaningful and should not be relied upon as an indicator of future performance. In addition, a relatively large portion of the Company's expenses will be fixed in the short-term, particularly with respect to facilities and personnel. Therefore, future operating results will be particularly sensitive to fluctuations in revenues because of these and other short-term fixed costs.

Table of Contents

The Company will need to effectively manage its growth in order to achieve and sustain profitability. The Company's failure to manage growth effectively could reduce its sales growth and result in continued net losses.

To achieve continual and consistent profitable operations on a fiscal year on-going basis, the Company must have significant growth in its revenues from the sale of its products and services. If the Company is able to achieve significant growth in future sales and to expand the scope of the Company's operations, and its management, financial, and other capabilities and existing procedures and controls could be strained. The Company cannot be certain that its existing or any additional capabilities, procedures, systems, or controls will be adequate to support the Company's operations. The Company may not be able to design, implement, or improve its capabilities, procedures, systems, or controls in a timely and cost-effective manner. Failure to implement, improve and expand the Company's capabilities, procedures, systems, or controls in an efficient and timely manner could reduce the Company's sales growth and result in a reduction of profitability or increase of net losses.

The Company's officers and directors have significant control over it, which may lead to conflicts with other stockholders over corporate governance.

The Company's officers and directors, other than the Chief Executive Officer, control approximately 4.8% of the Company's common stock. The Company's Chief Executive Officer, Randall K. Fields, individually, controls 43.64% of the Company's common stock.

Consequently, Mr. Fields, individually, and the Company's officers and directors, as stockholders acting together, will be able to significantly influence all matters requiring approval by the Company's stockholders, including the election of directors and significant corporate transactions, such as mergers or other business combination transactions.

The Company's corporate charter contains authorized, unissued "blank check" preferred stock that can be issued without stockholder approval with the effect of diluting then current stockholder interests.

The Company's certificate of incorporation currently authorizes the issuance of up to 30,000,000 shares of "blank check" preferred stock with designations, rights, and preferences as may be determined from time to time by the Company's board of directors. In June 2007, the Company completed the sale of 584,000 shares of its Series A Convertible Preferred Stock. The Company's board of directors is empowered, without stockholder approval, to issue one or more additional series of preferred stock with dividend, liquidation, conversion, voting, or other rights that could dilute the interest of, or impair the voting power of, the Company's common stockholders. The issuance of an additional series of preferred stock could be used as a method of discouraging, delaying, or preventing a change in control.

Because the Company has never paid dividends on its Common Stock, you should exercise caution before making an investment in the Company.

The Company has never paid dividends on its common stock and does not anticipate the declaration of any dividends pertaining to its common stock in the foreseeable future. The Company intends to retain earnings, if any, to finance the development and expansion of the Company's business. The Company's board of directors will determine future dividend policy at their sole discretion and future dividends will be contingent upon future earnings, if any, obligations of the stock issued, The Company's financial condition, capital requirements, general business conditions and other factors. Future dividends may also be affected by covenants contained in loan or other financing documents, which may be executed by the Company in the future. Therefore, there can be no assurance that dividends will ever be paid on its common stock.

Table of Contents

The Company's business is dependent upon the continued services of the Company's founder and Chief Executive Officer, Randall K. Fields; should the Company lose the services of Mr. Fields, the Company's operations will be negatively impacted.

The Company's business is dependent upon the expertise of its founder and Chief Executive Officer, Randall K. Fields. Mr. Fields is essential to the Company's operations. Accordingly, an investor must rely on Mr. Fields' management decisions that will continue to control the Company's business affairs after the offering. The Company currently maintains key man insurance on Mr. Fields' life in the amount of \$10,000,000; however, that coverage would be inadequate to compensate for the loss of his services. The loss of the services of Mr. Fields would have a materially adverse effect upon the Company's business.

If the Company is unable to attract and retain qualified personnel, the Company may be unable to develop, retain or expand the staff necessary to support its operational business needs.

The Company's current and future success depends on its ability to identify, attract, hire, train, retain and motivate various employees, including skilled software development, technical, managerial, sales, marketing and customer service personnel. Competition for such employees is intense and the Company may be unable to attract or retain such professionals. If the Company fails to attract and retain these professionals, the Company's revenues and expansion plans may be negatively impacted.

The Company's officers and directors have limited liability and indemnification rights under the Company's organizational documents, which may impact its results.

The Company's officers and directors are required to exercise good faith and high integrity in the management of the Company's affairs. The Company's certificate of incorporation and bylaws, however, provide, that the officers and directors shall have no liability to the stockholders for losses sustained or liabilities incurred which arise from any transaction in their respective managerial capacities unless they violated their duty of loyalty, did not act in good faith, engaged in intentional misconduct or knowingly violated the law, approved an improper dividend or stock repurchase, or derived an improper benefit from the transaction. As a result, an investor may have a more limited right to action than he would have had if such a provision were not present. The Company's certificate of incorporation and bylaws also require it to indemnify the Company's officers and directors against any losses or liabilities they may incur as a result of the manner in which they operate the Company's business or conduct the Company's internal affairs, provided that the officers and directors reasonably believe such actions to be in, or not opposed to, the Company's best interests, and their conduct does not constitute gross negligence, misconduct or breach of fiduciary obligations.

Business Operations Risks

If the Company's marketing strategy fails, its revenues and operations will be negatively affected.

The Company plans to concentrate its future sales efforts towards marketing the Company's applications and services. These applications and services are designed to be highly flexible so that they can work in multiple retail and supplier environments such as grocery stores, convenience stores, quick service restaurants, and route-based delivery environments. There is no assurance that the public will accept the Company's applications and services in proportion to the Company's increased marketing of this product line. The Company may face significant competition that may negatively affect demand for its applications and services, including the public's preference for the Company's competitors' new product releases or updates over the Company's releases or updates. If the Company's applications and services marketing strategy fails, the Company will need to refocus its marketing strategy to the Company's other product offerings, which could lead to increased marketing costs, delayed revenue streams, and otherwise negatively affect the Company's operations.

Table of Contents

Because the Company's emphasis is on the sale of subscription based services rather than annual license fees, the Company's revenues may be negatively affected.

Historically, the Company offered applications and related maintenance contracts to new customers for a one-time, non-recurring up front license fee and provided an option for annually renewing their maintenance agreements. As a result of the Prescient Merger, and Prescient's reliance on subscription based revenue, and the Company's shift away from offering its solutions for a one-time licensing fee, the Company is now principally offering prospective customers monthly subscription based licensing of its products. As a result, the Company's customers may now choose to acquire a license to use the software on an Application Solution Provider basis (also referred to as ASP) resulting in monthly charges for use of the Company's software products and maintenance fees. The Company's conversion from a strategy of one-time, non-recurring licensing based model to a monthly-based recurring fees based approach is subject to the following risks:

- The Company's customers may prefer one-time fees rather than monthly fees;
- Because public awareness pertaining to the Company's Application Solution Provider services will be delayed until the Company begins its marketing campaign to promote those services, the Company's revenues may decrease over the short term; and
- There may be a threshold level (number of locations) at which the monthly based fee structure may not be economical to the customer, and a request to convert from monthly fees to an annual fee could occur.

The Company faces competition from competing and emerging technologies that may affect its profitability.

The markets for the Company's type of software products and that of its competitors are characterized by:

- Development of new software, software solutions, or enhancements that are subject to constant change;
 - Rapidly evolving technological change; and
 - Unanticipated changes in customer needs.

Because these markets are subject to such rapid change, the life cycle of the Company's products is difficult to predict; accordingly, the Company is subject to the following risks:

- Whether or how the Company will respond to technological changes in a timely or cost-effective manner;
- Whether the products or technologies developed by the Company's competitors will render the Company's products and services obsolete or shorten the life cycle of the Company's products and services; and
 - Whether the Company's products and services will achieve market acceptance.

If the Company is unable to adapt to constantly changing markets and to continue to develop new products and technologies to meet the Company's customers' needs, the Company's revenues and profitability will be negatively affected.

The Company's future revenues are dependent upon the successful and timely development and licensing of new and enhanced versions of its products and potential product offerings suitable to the Company's customer's needs. If the Company fails to successfully upgrade existing products and develop new products, and those new products do not

achieve market acceptance, the Company's revenues will be negatively impacted.

-14-

Table of Contents

The Company faces risks associated with the loss of maintenance and other revenue.

The Company has historically experienced the loss of long term maintenance customers as a result of the reliability of some of its products. Some customers may not see the value in continuing to pay for maintenance that they do not need or use, and in some cases, customers have decided to replace the Company's applications or maintain the system on their own. The Company continues to focus on these maintenance clients by providing new functionality and applications to meet their business needs. The Company also may lose some maintenance revenue due to consolidation of industries, macroeconomic conditions, or customer operational difficulties that lead to their reduction of size. In addition, future revenues will be negatively impacted if the Company fails to add new maintenance customers that will make additional purchases of the Company's products and services.

The Company faces risks associated with its Supply Chain Profit Link product.

Because our Supply Chain Profit Link product was only recently introduced, there are risks associated with it, such as:

- It may be difficult for the Company to predict the amount of service and technological resources that will be needed by new SCPL customers, and if the Company underestimates the necessary resources, the quality of its service will be negatively impacted thereby undermining the value of the product to the customer.
- The Company lacks the experience with this new product and its market acceptance to accurately predict if it will be a profitable product.
- Technological issues between the Company and the customer may be experienced in capturing data, and these technological issues may result in unforeseen conflicts or technological setbacks when implementing the software. This may result in material delays and even result in a termination of the engagement with the customer.
- The customer's experience with SCPL, if negative, may prevent the Company from having an opportunity to sell additional products and services to that customer.
- If the customer does not use the product as the Company recommends and fails to implement any needed corrective action(s), it is unlikely that the customer will experience the business benefits from the software and may therefore be hesitant to continue the engagement as well as acquire any additional software products from the Company.
- Delays in proceeding with the implementation of the SCPL product by a new customer will negatively affect the Company's cash flow and its ability to predict cash flow.

The Company faces risks associated with proprietary protection of the Company's software.

The Company's success depends on the Company's ability to develop and protect existing and new proprietary technology and intellectual property rights. The Company seeks to protect the Company's software, documentation and other written materials primarily through a combination of patents, trademarks, and copyright laws, trade secret laws, confidentiality procedures and contractual provisions. While the Company has attempted to safeguard and maintain the Company's proprietary rights, there are no assurances that the Company will be successful in doing so. The Company's competitors may independently develop or patent technologies that are substantially equivalent or superior to the Company's.

Table of Contents

Despite the Company's efforts to protect its proprietary rights, unauthorized parties may attempt to copy aspects of the Company's products or obtain and use information that the Company regards as proprietary. In some types of situations, the Company may rely in part on "shrink wrap" or "point and click" licenses that are not signed by the end user and, therefore, may be unenforceable under the laws of certain jurisdictions. Policing unauthorized use of the Company's products is difficult. While the Company is unable to determine the extent to which piracy of the Company's software exists, software piracy can be expected to be a persistent problem, particularly in foreign countries where the laws may not protect proprietary rights as fully as the United States. The Company can offer no assurance that the Company's means of protecting its proprietary rights will be adequate or that the Company's competitors will not reverse engineer or independently develop similar technology.

The Company incorporates a number of third party software providers' licensed technologies into its products, the loss of which could prevent sales of the Company's products or increase the Company's costs due to more costly substitute products.

The Company licenses technologies from third party software providers, and such technologies are incorporated into the Company's products. The Company anticipates that it will continue to license technologies from third parties in the future. The loss of these technologies or other third-party technologies could prevent sales of the Company's products and increase the Company's costs until substitute technologies, if available, are developed or identified, licensed and successfully integrated into the Company's products. Even if substitute technologies are available, there can be no guarantee that the Company will be able to license these technologies on commercially reasonable terms, if at all.

The Company may discover software errors in its products that may result in a loss of revenues or injury to the Company's reputation in the software industry.

Non-conformities or bugs ("errors") may be found from time to time in the Company's existing, new or enhanced products after commencement of commercial shipments, resulting in loss of revenues or injury to the Company's reputation. In the past, the Company has discovered errors in its products and as a result, has experienced delays in the shipment of products. Errors in the Company's products may be caused by defects in third-party software incorporated into the Company's products. If so, the Company may not be able to fix these defects without the cooperation of these software providers. Since these defects may not be as significant to the software provider as they are to us, the Company may not receive the rapid cooperation that may be required. The Company may not have the contractual right to access the source code of third-party software, and even if the Company does have access to the code, the Company may not be able to fix the defect. Since the Company's customers use the Company's products for critical business applications, any errors, defects or other performance problems could result in damage to the Company's customers' business. These customers could seek significant compensation from us for their losses. Even if unsuccessful, a product liability claim brought against us would likely be time consuming and costly.

Table of Contents

Some competitors are larger and have greater financial and operational resources that may give them an advantage in the market.

Many of the Company's competitors are larger and have greater financial and operational resources. This may allow them to offer better pricing terms to customers in the industry, which could result in a loss of potential or current customers or could force us to lower prices. Any of these actions could have a significant effect on revenues. In addition, the competitors may have the ability to devote more financial and operational resources to the development of new technologies that provide improved operating functionality and features to their product and service offerings. If successful, their development efforts could render the Company's product and service offerings less desirable to customers, again resulting in the loss of customers or a reduction in the price the Company can demand for the Company's offerings.

Risks Relating To The Company's Common Stock

If the Company fails to remain current on its reporting requirements, the Company could be removed from the OTC Bulletin Board, which would limit the ability of broker-dealers to sell the Company's securities and the ability of stockholders to sell their securities in the secondary market.

Companies trading on the OTC Bulletin Board, like us, must be reporting issuers under Section 12 of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), and must be current in reports required under Section 13 to maintain price quotation privileges on the OTC Bulletin Board. If the Company fails to remain current on its reporting requirements, the Company could be removed from the OTC Bulletin Board. As a result, the market liquidity for the Company's securities could be severely and adversely affected by limiting the ability of broker-dealers to sell the Company's securities and the ability of stockholders to sell their securities in the secondary market.

The Company's common stock is subject to the "penny stock" rules of the SEC and the trading market in the Company's securities is limited, which makes transactions in the Company's stock cumbersome and may reduce the value of an investment in the Company.

The Securities and Exchange Commission has adopted Rule 15g-9 under the Exchange Act, which establishes the definition of a "penny stock," for the purposes relevant to the Company, as any equity security that has a market price of less than \$5.00 per share or an exercise price of less than \$5.00 per share, subject to certain exceptions. For any transaction involving a penny stock, unless exempt, the rules require:

- that a broker or dealer approve a person's account for transactions in penny stocks; and
- the broker or dealer receives from the investor a written agreement to the transaction, setting forth the identity and quantity of the penny stock to be purchased.

In order to approve a person's account for transactions in penny stocks, the broker or dealer must:

- obtain financial information and investment experience objectives of the person; and
- make a reasonable determination that the transactions in penny stocks are suitable for that person and the person has sufficient knowledge and experience in financial matters to be capable of valuating the risks of transactions in penny stocks.

Table of Contents

The broker or dealer must also deliver, prior to any transaction in a penny stock, a disclosure schedule prescribed by the Commission relating to the penny stock market, which, in highlight form:

- sets forth the basis on which the broker or dealer made the suitability determination; and
- that the broker or dealer received a signed, written agreement from the investor prior to the transaction.

Generally, brokers may be less willing to execute transactions in securities subject to the “penny stock” rules. This may make it more difficult for investors to dispose of the Company’s common stock and cause a decline in the market value of the Company’s stock.

Disclosure also has to be made about the risks of investing in penny stocks in both public offerings and in secondary trading and about the commissions payable to both the broker-dealer and the registered representative, current quotations for the securities, and the rights and remedies available to an investor in cases of fraud in penny stock transactions. Finally, monthly statements have to be sent disclosing recent price information for the penny stock held in the account and information on the limited market in penny stocks.

The limited public market for the Company’s securities may adversely affect an investor’s ability to liquidate an investment in the Company.

Although the Company’s common stock is currently quoted on the OTC Bulletin Board (OTCBB), there is limited trading activity. The Company can give no assurance that an active market will develop, or if developed, that it will be sustained. If you acquire shares of the Company’s common stock, you may not be able to liquidate the Company’s shares should you need or desire to do so.

Future issuances of the Company’s shares may lead to future dilution in the value of the Company’s common stock, will lead to a reduction in shareholder voting power, and may prevent a change in Company control.

The shares may be substantially diluted due to the following:

- Issuance of common stock in connection with funding agreements with third parties and future issuances of common and preferred stock by the Board of Directors; and
- The Board of Directors has the power to issue additional shares of common stock and preferred stock and the right to determine the voting, dividend, conversion, liquidation, preferences and other conditions of the shares without shareholder approval.

Stock issuances may result in reduction of the book value or market price of outstanding shares of common stock. If the Company issues any additional shares of common or preferred stock, proportionate ownership of common stock and voting power will be reduced. Further, any new issuance of common or preferred shares may prevent a change in control or management.

Table of Contents

Compliance with the rules established by the SEC pursuant to Section 404 of the Sarbanes-Oxley Act of 2002 will be complex. Failure to comply in a timely manner could adversely affect investor confidence and the Company's stock price.

Rules adopted by the SEC pursuant to Section 404 of the Sarbanes-Oxley Act of 2002 require the Company to perform an annual assessment of its internal controls over financial reporting, certify the effectiveness of those controls and secure an attestation of the Company's assessment by its independent registered public accountants. The standards that must be met for management to assess the internal controls and secure an attestation from its independent registered public accountant over financial reporting as now in effect are new and complex, and require significant documentation, testing and possible remediation to meet the detailed standards. The Company may encounter problems or delays in completing activities necessary to make an assessment of the Company's internal controls over financial reporting and secure an attestation from its independent registered public accountant. Due to the Company's limited personnel resources and lack of experience, it may encounter problems or delays in completing the implementation of any requested improvements and receiving an attestation of the assessment by its independent registered public accountants. If the Company cannot perform the assessment or certify that its internal controls over financial reporting are effective, and if the Company's independent registered public accountants are unable to provide an unqualified attestation on such assessment, investor confidence and share value may be negatively impacted.

ITEM 2. PROPERTIES

The Company's principal place of business operations is located at 3160 Pinebrook Road, Park City, Utah 84098. The Company leases approximately 10,000 square feet at this corporate office location, consisting primarily of office space, conference rooms and storage areas. The telephone number is (435) 645-2000. The website address is <http://www.parkcitygroup.com>.

ITEM 3. LEGAL PROCEEDINGS

On June 29, 2007, the Company was served with a complaint from two previous employees titled James D. Horton and Aaron Prevo v. Park City Group, Inc. and Randy Fields, individually, Case No. 070700333, which has been filed in the Second Judicial District Court, Davis County, Utah. The plaintiffs' complaint alleges that certain provisions of their employment agreements were not honored including breach of employer obligations, fraud, unjust enrichment, and breach of contract. The plaintiffs are seeking combined damages for alleged unpaid compensation and punitive damages of \$520,650 and \$2,603,250, respectively. The case is currently in the discovery phase and the Company will continue to vigorously defend this matter. The Company believes that there is no validity to the complaint and that the possibility of any adverse outcome to the Company is remote.

We are from time to time involved in various additional legal proceedings incidental to the conduct of our business. We believe that the outcome of all such pending legal proceedings will not in the aggregate have a material adverse effect on our business, financial condition, results of operations or liquidity.

5. OF EQUITY SECURITIES

Dividend Policy

To date, the Company has not paid dividends on common stock. The Series A Convertible Preferred Stock issued in the June 2007 offering has the right to a 5% cumulative dividend. Prior to June 1, 2010, preferred dividends can be paid in cash or Series A Convertible Preferred Stock at the option of the Company. After June 1, 2010, the holders of the Series A Convertible Preferred Stock may elect to have future dividends paid in cash in the event that during any sixty (60) trading day period commencing on or after June 1, 2010, the average closing price shall be less than or equal to the Series A Convertible Preferred stock conversion price. Our present policy is to retain future earnings (if any) for use in our operations and the expansion of our business.

Share Price History

Our common stock is traded in the over-the-counter market in what is commonly referred to as the “Electronic” or “OTC Bulletin Board” or the “OTCBB” under the trading symbol “PCYG.” The following table sets forth the high and low bid information of the common stock’s closing price for the periods indicated. The price information contained in the table was obtained from internet sources considered reliable. Note that such over-the-counter market quotations reflect inter-dealer prices, without retail mark-up, markdown or commission and the quotations may not necessarily represent actual transactions in the common stock.

Fiscal Quarter	Quarterly Common Stock Price Ranges			
	2009		2008	
	High	Low	High	Low
September 30	\$ 3.20	\$ 2.25	\$ 3.30	\$ 2.60
December 31	2.60	0.55	3.40	2.80
March 31	1.70	1.10	3.39	2.00
June 30	1.55	1.05	3.39	2.20

Holders of Record

At September 24, 2009 there were 663 holders of record of Common Stock and common shares issued and outstanding of 10,614,008. The number of holders of record and shares issued and outstanding was calculated by reference to the stock transfer agent's books.

Issuance of Securities

We issued shares of our common and preferred stock in unregistered transactions during fiscal year 2009 and subsequently. All of the shares of common and preferred stock issued were issued in non registered transactions in reliance on Section 4(2) of the Securities Act of 1933, as amended (the “Securities Act”), and were reported in our Quarterly Reports on Form 10-Q and in our Current Reports on Form 8-K filed with the Commission during the fiscal year ended June 30, 2009. No shares of common or preferred stock were issued subsequent to June 30, 2009, that has not been previously reported.

Table of Contents

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL
CONDITION AND RESULTS OF OPERATIONS

Forward Looking Statements

The following Management's Discussion and Analysis is intended to assist the reader in understanding our results of operations and financial condition. Management's Discussion and Analysis is provided as a supplement to, and should be read in conjunction with, our audited consolidated financial statements beginning on page F-1 of this Annual Report. This Form 10-K includes certain statements that may be deemed to be "forward-looking statements" within the meaning of Section 27A of the Securities Act. All statements, other than statements of historical fact, included in this Form 10-K that address activities, events or developments that we expect, project, believe, or anticipate will or may occur in the future, including matters having to do with expected and future revenues, our ability to fund our operations and repay debt, business strategies, expansion and growth of operations and other such matters, are forward-looking statements. These statements are based on certain assumptions and analyses made by our management in light of its experience and its perception of historical trends, current conditions, expected future developments, and other factors it believes are appropriate in the circumstances. These statements are subject to a number of assumptions, risks and uncertainties, including general economic and business conditions, the business opportunities (or lack thereof) that may be presented to and pursued by us, our performance on our current contracts and our success in obtaining new contracts, our ability to attract and retain qualified employees, and other factors, many of which are beyond our control. You are cautioned that these forward-looking statements are not guarantees of future performance and those actual results or developments may differ materially from those projected in such statements.

Quantitative and Qualitative Disclosures About Market Risk

Our business is currently principally in the United States. As a result, our financial results are not affected by factors such as changes in foreign currency exchange rates or economic conditions in foreign markets. We do not engage in hedging transactions to reduce our exposure to changes in currency exchange rates, although if the geographical scope of our business broadens, we may do so in the future.

Our exposure to risk for changes in interest rates relates primarily to our investments in short-term financial instruments. Investments in both fixed rate and floating rate interest earning instruments carry some interest rate risk. The fair value of fixed rate securities may fall due to a rise in interest rates, while floating rate securities may produce less income than expected if interest rates fall. Partly as a result of this, our future interest income may fall short of expectations due to changes in interest rates or we may suffer losses in principal if we are forced to sell securities that have fallen in estimated fair value due to changes in interest rates. However, as substantially all of our cash equivalents consist of bank deposits and short-term money market instruments, we do not expect any material change with respect to our net income as a result of an interest rate change.

Our exposure to interest rate changes related to borrowing has been limited by the use of fixed rate borrowings, and we believe the effect, if any, or reasonably possible near-term changes in interest rates on our financial position, results of operations and cash flows should not be material.

Table of Contents

Results of Operations – Fiscal Years Ended June 30, 2009 and 2008

Total Revenue

During the fiscal year ended June 30, 2009, the Company had total revenues of \$5,964,767 when compared to \$3,344,973 for the year ended June 30, 2008, a 78% increase. This \$2,619,794 increase in total revenues for the year ended June 30, 2009 when compared with the year ended June 30, 2008 is principally due to the consummation of the Prescient Merger, which contributed \$4,210,036 to total revenue during the year ended June 30, 2009. The increase in revenue attributable to consummation of the Prescient Merger was partially offset by a decrease of \$700,000 resulting from a one-time license sale which occurred during the fourth quarter of 2008. While no assurances can be given, management believes that as the Company benefits from the product synergies resulting from the Prescient Merger, and as the Company continues its focus on marketing the Company's combined products and services on a subscription basis, total revenue will continue to be positively impacted.

License Revenue

License fees were \$253,998 and \$1,101,940 for the fiscal years ended June 30, 2009 and 2008, respectively, a 77% decrease. This \$847,942 decrease in license revenue for the year ended June 30, 2009 when compared with the same period June 30, 2008 was primarily attributable to a large license sale that occurred during the fourth quarter in 2008 that did not occur in the comparable period in 2009. The consummation of the Prescient Merger partially offset this decrease, which contributed \$185,000 in new license revenue during the year ended June 30, 2009. The Company will continue to focus its resources on recurring subscription based revenues. The Company has not eliminated the sale of its suite of products on a license basis. It is difficult to predict and forecast future software license sales.

Maintenance and Support Revenue

Maintenance and support revenues increased by 32% to \$1,927,773 in fiscal 2009 from \$1,455,344 in fiscal 2008. The increase is principally due to the consummation of the Prescient Merger, which contributed \$752,233 in maintenance revenue during the year ended June 30, 2009. The increase in maintenance revenue was offset by a \$279,804 decrease in maintenance revenue attributable to the Company's continuing operations, which was primarily due to the loss of certain customer maintenance agreements during the fiscal year. Due to the macroeconomic environment and the historical reliability of the Company's suite of products, from time to time, customers may not perceive the ongoing value of paying for maintenance when the frequency of maintenance activities needed by a customer becomes infrequent.

Subscription Revenue

Subscription revenues were \$2,883,196 and \$203,028 in 2009 and 2008 respectively, an increase of 1,320%. This \$2,680,168 increase in the year ended June 30, 2009 when compared with the year ended June 30, 2008 was principally due to the consummation of the Prescient Merger, which contributed \$2,672,285 in subscription revenue during the year ended June 30, 2009. In addition, \$7,883 of the increase in subscription revenue was the result of new subscription contracts and an increased emphasis on the Company's subscription based revenue model. In this regard, the Company continues to focus its strategic initiatives on increasing the number of retailers, suppliers and manufacturers that use its software on a subscription basis using an introductory trial to illustrate results to its prospects. However, while management believes that marketing its suite of software products and services as a renewable and recurring subscription is an effective strategy, it cannot be assured that subscribers will renew the service at the same level in future years, propagate services to new categories, or recognize the need for expanding the service offering to the Company's suite of actionable products and services.

Table of Contents

Professional Services Revenue

Professional services revenue increased by 54% to \$899,800 in the year ended June 30, 2009 when compared to \$584,661 in the year ended June 30, 2008. This \$315,139 increase in professional services revenue for the year ended June 30, 2009 when compared to the same period ended June 30, 2008 was principally due to the consummation of the Prescient Merger, which contributed \$614,406 in professional services revenue during the fiscal year ended June 30, 2009 which was partially offset by a \$289,011 decrease in professional services that was the result of a professional services engagement for a one time software enhancement that occurred in the fourth quarter of 2008 that did not occur in 2009. Management believes that professional services may experience periodic fluctuations as the need for its analytics offerings and change-management services becomes a natural addition to its software as a service (SaaS) offerings.

Cost of Revenues and Product Support Expense

Cost of services and product support expenditures were \$3,580,567 and \$2,419,227 for the years ended June 30, 2009 and 2008, respectively; a 48% increase. This increase of \$1,161,340 for the year ended June 30, 2009 when compared with the same period ended June 30, 2008 is principally due to the consummation of the Prescient Merger, which resulted in an additional \$1,544,616 in services and product support expense that was not incurred in the comparable period in 2008. The increase in expenses is primarily due to an increase in data center costs, additional personnel, travel and other communications costs and maintenance expenses. The increase is primarily offset by a decrease of (i) \$38,536 in reliance on outside service consultants; (ii) \$119,960 decrease resulting from recruiting expenses; and (iii) \$279,381 decrease in salary and payroll related expenses. The Company has continued to decrease staff while pursuing integration of operations with Prescient, and its business strategy to automate certain IT data gathering and processing functions which has resulted in a reduction of its expenditures related to ongoing product support and IT services. [

Sales and Marketing Expense

Sales and marketing expenses were \$1,347,705 and \$1,843,912 for the fiscal years ended June 30, 2009 and 2008, respectively, a 27% decrease. This \$496,207 decrease over the previous year was principally the result of (i) a \$204,624 decrease in reliance on outside service consultants, (ii) a \$541,777 decrease in salary, commission and payroll related expenses as a result of reduction of staff, (iii) a \$62,046 decrease in sales related travel costs as a result of contacting prospects and customers through web-conferencing and other telecom methods, (iv) a decrease of \$63,238 in advertising and public relations expenses, and (v) a \$40,334 decrease in tradeshow and related costs. The decrease was offset by the consummation of the Prescient Merger, which resulted in a \$392,686 increase in sales and marketing expense (primarily payroll) that was not incurred in the comparable period in 2008

General and Administrative Expense

General and administrative expenses were \$2,225,960 and \$2,073,214 for the years ended June 30, 2009 and 2008, respectively, a 7% increase. This \$152,746 increase when comparing expenditures for the year ended June 30, 2009 with the same period ended June 30, 2008 is primarily due to (i) \$181,471 increase in payroll and related expenses, (ii) a \$84,018 increase in computer hardware / software maintenance and supports as a result of the acquisition of additional third party applications, (iii) a \$76,855 increase in investor relation and shareholder costs, (iv) a \$18,142 increase in travel, (v) a \$53,721 increase in franchise taxes, bank, membership, and other professional fees, and (vi) a \$297,357 decrease in legal fees incurred during the year ended June 30, 2009 as compared to the year ended June 30, 2008 associated with the Company's defense of its patents

Table of Contents

Depreciation and Amortization Expense

Depreciation and amortization expenses were \$726,067 and \$505,539 for the year ended June 30, 2009 and 2008, respectively, an increase of 44%. This increase of \$220,528 for the year ended June 30, 2009 when compared to the year ended June 30, 2008 is partially due to the consummation of the Prescient Merger, which resulted in an additional \$236,435 in depreciation and amortization expense that was not incurred in the comparable period in 2008. This increase was offset by a decrease in amortization over the prior year. This was attributable to impairment of software costs capitalized in prior years. The resulting amortization is due to the completion of the significant enhancements and the release of the developed product during the year ended June 30, 2008.

Impairment of Capitalized Software Costs

Impairment of capitalized software costs were \$1,457,383 and zero for the year ended June 30, 2009 and 2008, respectively. During the three months ended March 31, 2009, the Company evaluated its intangible assets including the software technology platform acquired in the acquisition of Prescient. In conducting the assessment, Management determined that \$310,517 of capitalized development costs were unlikely to be recovered, and such costs should be adjusted for impairment when evaluating its post-merger software offerings. In addition \$1,146,866 of the acquired software technology through the Prescient Merger has been determined by management to be impaired. Although the SmallTalk software platform it acquired from Prescient has high functionality, given the development limitations of the technology, it was determined that the software code base has a significantly lower value and reduced expected life. Management determined that the software carrying value exceeded the fair value and was impaired by \$1,457,383. No further impairment was required at June 30, 2009.

Other Income and Expense

Net interest expense was \$505,146 compared to net interest income of \$29,035 for 2009 and 2008, respectively. This \$534,181 difference is principally due to the consummation of the Prescient Merger. The increase is primarily from (i) \$60,211 of interest expense for a note payable acquired in the course of the merger, (ii) \$320,826 in interest expense on short term notes payable with directors and officers issued in connection with financing arrangements associated with the consummation of the Prescient Merger, and (iii) \$129,413 resulting from an increase of \$3,575,701 in lines of credit.

In addition, the Company did not receive income from patent activities during the year ended June 30, 2009 when compared with \$600,000 that was received during the year ended June 30, 2008. The Company evaluates its intellectual property portfolio that it has developed and from time to time it may otherwise sell, license, or collect royalties from interested parties who may wish to utilize this uniquely patented technology.

Financial Position, Liquidity and Capital Resources

Net Cash Flows from Operating Activities

Net cash used in operations for the year ended June 30, 2009, was \$821,395 compared to \$2,870,775 for the year ended June 30, 2008. The \$2,049,380 decrease in net cash used in operations for the year ended June 30, 2009 when compared to the year ended June 30, 2008 was primarily the result of (i) a decrease in trade receivables from collecting outstanding accounts, (ii) no gain on sale of patents in the year ended June 30, 2009, (iii) an increase in the change of deferred revenue due to customer maintenance cancelations, (iv) an increase in stock issued for services due to the Prescient Merger and (v) an impairment of capitalized software costs that was not applicable in the same period 2008.

Table of Contents

Net Cash Flows from Investing Activities

Net cash flows provided by investing activities for the year ended June 30, 2009 was \$193,407 compared to net cash flows provided by investing activities of \$490,157 for the year ended June 30, 2008. This \$296,750 comparable decrease in cash flows from investing activities June 30, 2009 when compared to the same period in 2008 was the result of (i) net cash paid in connection with the Prescient Merger which was offset by the release of restricted cash, and (ii) proceeds from sale of patents in 2008 which was not applicable in the comparable period in 2009.

Net Cash Flows from Financing Activities

Net cash provided by financing activities totaled \$418,704 for the year ended June 30, 2009 when compared to cash flows used in financing activities of \$27,243 for the year ended June 30, 2008. The change in net cash provided by financing activities is attributable to draws from a line of credit with the Company's bank and proceeds raised through the placement of certain notes payable to the Company's officers and directors in connection with financing the Prescient Merger that closed on January 13, 2009.

Cash, Cash Equivalents & Restricted Cash

Cash, cash equivalents and restricted cash was \$656,279 and \$2,805,563 at June 30, 2009, and June 30, 2008, respectively. This relative decrease from June 30, 2008 to June 30, 2009 is primarily the result of restricted cash held at June 30, 2008 that was released and utilized to retire a note payable in the amount of \$1.94 million, and cash used to fund operations.

Liquidity and Capital Resources

Current assets at June 30, 2009 totaled \$2,131,223, a decrease of \$1,851,955 when compared to June 30, 2008. The Company had \$656,279 of cash and cash equivalents at June 30, 2009. At June 30, 2008, the Company had \$2,805,563 in cash, cash equivalents and restricted cash.

The \$1,851,955 decrease in current assets is primarily the result of restricted cash held at June 30, 2008 that was released and utilized to retire a note payable in the amount of \$1.94 million.

Current liabilities totaled \$6,647,837 and \$3,401,779 as of June 30, 2009 and 2008, respectively. The \$3,246,058 comparative increase in current liabilities is due to (i) the assumption of a note payable resulting from the consummation of the Prescient Merger, (ii) the Company's use of a line of credit to finance the Prescient Merger, (iii) an increase in deferred revenue associated with acquisition of Prescient maintenance customers, (iv) an increase in accrued liabilities assumed as part of the Prescient Merger, and, (v) an increase in accrued interest and dividends as a result of the financing arrangements associated with the Prescient Merger.

Negative working capital at June 30, 2009 was \$4,516,614 when compared to positive working capital of \$581,399 at June 30, 2008. The decrease in working capital is principally a result of funding operations in fiscal year 2009 and the additional current indebtedness incurred to finance the Prescient Merger, including additional accrued liabilities, primarily due to an increase in accrued compensation and dividends.

Historically, the Company has financed its operations through operating revenues, loans from directors, officers, stockholders, loans from the CEO and majority shareholder, and private placements of equity securities. The Company believes that anticipated revenue growth in combination with strict cost control will allow the Company to meet its minimum operating cash requirements for the next 12 months.

Table of Contents

On August 28, 2008, the Company, PAII Transitory Sub, Inc., a Delaware corporation (“Merger Sub”), a wholly-owned subsidiary of the Company, and Prescient entered into an Agreement and Plan of Merger (the “Merger Agreement”). The Prescient Merger was consummated on January 13, 2009.

The required funds necessary to consummate the Prescient Merger were obtained through a series of private transactions using bank debt, Company cash, and other debt instruments convertible into the Company’s common stock.

While no assurances can be given, the Company believes that anticipated revenue growth resulting from consummation of the Prescient Merger, and further cost reductions resulting from integration efforts, will allow the Company to meet its minimum operating cash requirements for the next twelve months. The financial statements do not reflect any adjustments should the operational objectives of the Prescient Merger not be achieved. Although the Company anticipates that available cash resources will be sufficient to meet its working capital requirements, no assurances can be given. Should the Company need to raise additional equity or debt financing, there are no assurances that the Company could do so on acceptable terms.

Inflation

The impact of inflation may cause retailers to slow spending in the technology area, which could have an impact on the company’s sales.

Critical Accounting Policies

This Management’s Discussion and Analysis of Financial Condition and Results of Operations discuss the Company’s Financial Statements, which have been prepared in accordance with accounting principles generally accepted in the United States.

We commenced operations in the software development and professional services business during 1990. The preparation of our financial statements requires management to make estimates and assumptions that affect reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. On an ongoing basis, management evaluates its estimates and assumptions, including those related to income taxes, revenue recognition and restructuring initiatives. Management bases its estimates and judgments on historical experience of operations and on various other factors that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying value of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

Management believes the following critical accounting policies, among others, will affect its more significant judgments and estimates used in the preparation of our Consolidated Financial Statements.

Income Taxes

In determining the carrying value of the Company’s net deferred income tax assets, the Company must assess the likelihood of sufficient future taxable income in certain tax jurisdictions, based on estimates and assumptions, to realize the benefit of these assets. If these estimates and assumptions change in the future, the Company may record a reduction in the valuation allowance, resulting in an income tax benefit in the Company’s Statements of Operations. Management evaluates the realizability of the deferred income tax assets and assesses the valuation allowance quarterly.

Table of Contents

Goodwill and Other Long-Lived Asset Valuations

Goodwill and intangible assets deemed to have indefinite lives are subject to annual impairment tests. Other intangible assets are amortized over their useful lives.

Revenue Recognition

The Company derives revenues from four primary sources: software licenses, maintenance and support services, professional services and software subscription. New software licenses include the sale of software runtime license fees associated with deployment of the Company's software products. Software license maintenance updates and product support are typically annual contracts with customers that are paid in advance or specified as terms in the contract. This provides the customer access to new software releases, maintenance releases, patches and technical support personnel. Professional service sales are derived from the sale of services to design, develop and implement custom software applications.

License fees revenue from the sale of software licenses is recognized upon delivery of the software unless specific delivery terms provide otherwise. If not recognized upon delivery, revenue is recognized upon meeting specified conditions, such as, meeting customer acceptance criteria. In no event is revenue recognized if significant Company obligations remain outstanding. Customer payments are typically received in part upon signing of license agreements, with the remaining payments received in installments pursuant to the agreements. Until revenue recognition requirements are met, the cash payments received are treated as deferred revenue.

Maintenance and support services that are sold with the initial license fee are recorded as deferred revenue and recognized ratably over the initial service period. Revenues from maintenance and other support services provided after the initial period are generally paid in advance and are recorded as deferred revenue and recognized on a straight-line basis over the term of the agreements.

Professional services revenues are recognized in the period that the service is provided or in the period such services are accepted by the customer if acceptance is required by agreement.

Subscription revenues are recognized on a contractual basis, for one or more years. These fees are generally collected in advance of the services being performed and the revenue is recognized ratably over the respective months, as services are provided.

Before the Company recognizes revenue, the following criteria must be met:

- 1) Evidence of a financial arrangement or agreement must exist between the Company and its customer. Purchase orders, signed contracts, or electronic confirmation are three examples of items accepted by the Company to meet this criterion.
- 2) Delivery of the products or services must have occurred. The Company treats either physical or electronic delivery as having met this requirement. The Company offers a 60-day free trial on beginning a subscription engagement and revenue is not recognized during this time. After the free trial ends the Company recognizes revenue ratably over the subscription period.
- 3) The price of the products or services is fixed and measurable.

Table of Contents

- 4) Collectability of the sale is reasonably assured and receipt is probable. Collectability of a sale is determined on a customer-by-customer basis. Typically the Company sells to large corporations which have demonstrated an ability to pay. If it is determined that a customer may not have the ability to pay, revenue is deferred until the payment is collected.

Stock-Based Compensation

The Company recognizes the cost of employee services received in exchange for awards of equity instruments based on the grant-date fair value of those awards. The Company records compensation expense on a straight-line basis. The fair value of options granted are estimated at the date of grant using a Black-Scholes option pricing model with assumptions for the risk-free interest rate, expected life, volatility, dividend yield and forfeiture rate.

Capitalization of Software Development Costs

The Company accounts for research costs of computer software to be sold, leased, or otherwise marketed as expense until technological feasibility has been established for the product. Once technological feasibility is established, all software costs are capitalized until the product is available for general release to customers. Judgment is required in determining when technological feasibility of a product is established. We have determined that technological feasibility for our software products is reached shortly after a working prototype is complete and meets or exceeds design specifications including functions, features, and technical performance requirements. Costs incurred after technological feasibility is established have been and will continue to be capitalized until such time as when the product or enhancement is available for general release to customers.

Off-Balance Sheet Arrangements

None

ITEM 8. FINANCIAL STATEMENTS

The information required hereunder in this Annual Report on Form 10-K is set forth in the financial statements and the notes thereto beginning on Page F-1.

Table of Contents

ITEM 9A(T) CONTROLS AND PROCEDURES

(a) Evaluation of disclosure controls and procedures.

Under the supervision and with the participation of our Management, including our principal executive officer and principal financial officer, we conducted an evaluation of the effectiveness of the design and operations of our disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as of June 30, 2009. Based on this evaluation, the Company's Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures are effective to ensure that information required to be disclosed in the reports submitted under the Securities and Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission ("SEC") rules and forms, including to ensure that information required to be disclosed by the Company is accumulated and communicated to management, including the principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosure.

(b) Management's Annual Report on Internal Control over Financial Reporting.

We are responsible for establishing and maintaining adequate internal control over financial reporting (as defined in Rule 13a-15(f) under the Exchange Act). Our internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes of accounting principles generally accepted in the United States.

This Report does not include an attestation report of our registered public accounting firm regarding internal control over financial reporting. Management's report was not subject to attestation by our registered public accounting firm pursuant to temporary rules of the SEC that permit us to provide only management's report in this Report.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Therefore, even those systems determined to be effective can provide only reasonable assurance of achieving their control objectives.

Our Chief Executive Officer and Chief Financial Officer evaluated the effectiveness of our internal control over financial reporting as of June 30, 2009. In making this assessment, we used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) in Internal Control—Integrated Framework. Based on this evaluation, our Chief Executive Officer and Chief Financial Officer concluded that, as of June 30, 2009, our internal control over financial reporting was effective.

(c) Changes in internal controls over financial reporting.

The Company's Chief Executive Officer and Chief Financial Officer have determined that there have been no changes in the Company's internal control over financial reporting during the period covered by this Report identified in connection with the evaluation described in the above paragraph that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

ITEM 9B. OTHER INFORMATION

None.

PART III

ITEM 10. DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE

The Board of Directors and executive officers consist of the persons named in the table below. Vacancies in the Board of Directors may only be filled by the Board of Directors by majority vote at a Board of Director's meeting of which stockholders holding a majority of the issued and outstanding shares of capital stock are present. The directors are elected annually by the stockholders at the annual meeting. Each director shall be elected for the term of one year, and until his or her successor is elected and qualified, or until earlier resignation or removal. The bylaws provide for at least one director. The directors and executive officers are as follows:

Name	Age	Position – Committee
Randall K. Fields	63	Chief Executive Officer Chairman of the Board and Director
Robert P. Hermanns (1)	64	Director, Senior Vice-President Sales
John R. Merrill (2)	39	Chief Financial Officer and Treasurer
Robert W. Allen (3)	67	Director and Compensation Committee Chairman
Richard S. Krause (4)	48	Director, Audit Committee Chairman and Nominating / Governance Committee Chairman
James R. Gillis (5)	57	Director
Peter T. Brennan (6)	61	Director

(1) Appointed Director and Senior Vice-President, Sales on 3/15/07

(2) Appointed CFO and Treasurer on 9/10/07

(3) Appointed Director on 10/01/07

(4) Appointed Director on
1/04/08

(5) Appointed Director on
2/05/08

(6) Appointed Director on
1/21/09

Randall K. Fields has been the Chief Executive Officer, and Chairman of the Board of Directors since June, 2001. Mr. Fields founded Park City Group, Inc., a software development company based in Park City, Utah, in 1990 and has been its President, Chief Executive Officer, and Chairman of the Board since its inception in 1990. Mr. Fields has been responsible for the strategic direction of Park City Group, Inc. since its inception. Mr. Fields co-founded Mrs. Fields Cookies with his then wife, Debbi Fields. He served as Chairman of the Board of Mrs. Fields Cookies from 1978 to 1990. In the early 1970's Mr. Fields established a financial and economic consulting firm called Fields Investment Group. Mr. Fields received a Bachelor of Arts degree in 1968 and a Masters of Arts degree in 1970 from Stanford University, where he was Phi Beta Kappa, Danforth Fellow and National Science Foundation Fellow.

Table of Contents

Robert P. Hermanns joined the Company in March of 2007 as Senior Vice President. Mr. Hermanns is responsible for U.S. customer relations and corporate development and also is an acting member of the Park City Group Board of Directors. Mr. Hermanns has over 40 years experience in all phases of retail and wholesale grocery operations. Mr. Hermanns was President and Chief Executive Officer and Vice Chairman of the Board of Directors of Associated Grocers, Inc. from 2002 through 2005. He is also the former Chief Operating Officer of Weis Markets, a \$2 billion NYSE company operating 163 retail food markets in the Mid-Atlantic States. Prior to joining AG and Weis Markets, Mr. Hermanns enjoyed a 30-year career with American Stores Company, an \$18 billion food and drug retailer, where he held a number of executive management positions including Chief Operating Officer for Procurement and Logistics. A graduate of Western Michigan University with a BS degree in Food Marketing, Mr. Hermanns also holds an MBA from the University of Southern California.

John R. Merrill joined Park City Group in August of 2006 as it's' Director of Finance, Accounting & Administration. On September 10, 2007 he was promoted and appointed to Chief Financial Officer and Treasurer. He has over 18 years experience in both the public and private sectors of finance and accounting. Prior to joining Park City Group, he was most recently Chief Financial Officer for Peak Solutions Group a consulting firm focused on providing business solutions for growth oriented small business. From 1998 to 2003, Mr. Merrill was Controller for Clear Channel Communications, Inc., a \$19 billion publicly traded broadcasting and outdoor advertising company operating 1,200 radio stations in the United States. Prior to joining Clear Channel, Mr. Merrill was the Controller of the Academies Division of IMG, a \$2 billion global leader in professional athlete management whose clients included Tiger Woods, Venus Williams, Pete Sampras and Anna Kournikova. Throughout his career, Mr. Merrill has had significant exposure to various sectors of both sporting goods retail and service industries. Mr. Merrill began his career with KPMG and holds a Bachelors and a Masters degree in Accounting from the University of South Florida.

Robert W. Allen joined the Board of Directors in October, 2007. Mr. Allen is a seasoned executive with many years experience as Chairman, President and Chief Executive Officer of businesses ranging in size from \$200 million to \$2.5 billion. Mr. Allen has over thirty years experience in the dairy industry, most notably as a catalyst for developing companies and a turn-around agent for troubled companies or divisions. Mr. Allen was most recently Chief Executive Officer of Southern Belle Dairy where he established a leadership team to reposition the company and developed a position in the market place for the branding of its products. Prior to this, he was Executive Vice President of Borden, Inc. where he was recruited to turn around the largest and most trouble division of the Company. He is also the immediate past Chair of Kid Peace International, a \$160 million non- profit agency assisting children in crises.

Richard S. Krause joined the Board of Directors in January, 2008. Mr. Krause is a seasoned executive with many years of experience in senior leadership roles with consumer packaged goods manufacturers and marketers such as Procter & Gamble, Newell Rubbermaid and ConAgra Foods. Mr. Krause has over twenty years of experience in leading organizations through significant milestones and inflection points by creating motivated, highly competitive, and winning cultures. Mr. Krause is currently President and Chief Executive Officer of Élan Nutrition, Inc. (an affiliate of Sun Capital Partners, Inc.) a major manufacturer and formulator of sports-performance, weight management and healthy lifestyle nutrition bars. Prior to this, he was President of Cannon Solutions, Inc., a global operating group with businesses in the merchandising systems, automated distribution and retail technologies sectors serving major brand marketers and retailers. Throughout his career, Mr. Krause has consistently developed and instituted share increasing, cost saving, and revenue building programs for several well-known consumer packaged goods brands.

Table of Contents

James R. Gillis joined the Board of Directors in February, 2008 joined its Board of Directors. Mr. Gillis is President, Chief Operating Officer and Co-CEO of Source Interlink Companies, Inc., a premier marketing, merchandising and fulfillment company of entertainment products where he has been instrumental in developing annual revenues in excess of \$1.9 billion and over 95 business units in the US. While at Source Interlink, Mr. Gillis has also developed and maintained relationships with public equity investors, hedge funds, stock analysts, investment banks and private equity firms, both domestically and internationally, while creating a marketing infrastructure to provide a portfolio of fully integrated products and services in 110,000 locations for more than 1,000 retail chains. Prior to his tenure with Source, he was President, CEO, and Owner of Brand Manufacturing Corporation, a leading designer and manufacturer of retail display systems. Previously, he was Managing Partner of Aders, Wilcox, Gillis Group, a global developer of trade relationships serving major brand marketers and retailers worldwide.

Peter T. Brennan joined the Board of Directors on January 21, 2009. Mr. Brennan is the former President and Vice Chairman of Daymon Worldwide, Inc. Daymon Worldwide specializes in the sales and marketing of private label consumer products, working with some of the leading retail, wholesale and foodservice companies in the U.S. and in more than 20 other countries. Mr. Brennan earned a Bachelor of Arts degree from Michigan State University, and is active in a number of professional organizations, including the Agribusiness program at Harvard Business School, and is a member of the Private and Public Scientific Academic and consumer Food Policy Group.

Our Executive Officers are elected by the Board on an annual basis and serve at the discretion of the Board.

Compliance with Section 16(a)

Section 16(a) of the Securities Exchange Act of 1934, as amended, requires the Company's directors and executive officers, and persons who beneficially own more than 10% of a registered class of the Company's equity securities, to file reports of beneficial ownership and changes in beneficial ownership of the Company's securities with the SEC on Forms 3 (Initial Statement of Beneficial Ownership), 4 (Statement of Changes of Beneficial Ownership of Securities) and 5 (Annual Statement of Beneficial Ownership of Securities). Directors, executive officers and beneficial owners of more than 10% of the Company's Common Stock are required by SEC regulations to furnish the Company with copies of all Section 16(a) forms that they file.

To our knowledge, based solely on a review of the copies of such reports furnished to us and written representations that no other reports were required, during the fiscal year ended June 30, 2009, each of our directors failed to report the issuance of shares to them in consideration for the payment of director fees owed to them during such fiscal year, and one of our directors, Peter Brennan, failed to file a Form 3 upon appointment to our Board of Directors. In addition, we had one late filing for Mr. Fields relating to the acquisition of shares of Series A Preferred Stock. Otherwise, all Section 16(a) filing requirements applicable to its officers, directors and greater than ten percent beneficial owners were complied with.

Code of Ethics and Business Conduct

In August 2008, the Company and its Board of Directors unanimously adopted a new Code of Ethics and Business Conduct. This has replaced the 2005 adopted Code of Ethics and is included by reference herein in Item 13, Exhibit 14.

Committees of the Board of Directors

Our board of directors has an audit committee, a compensation committee and a nominating and corporate governance committee, each of which has the composition and responsibilities described below.

Table of Contents

Audit Committee

The audit committee provides assistance to the board of directors in fulfilling its legal and fiduciary obligations in matters involving our accounting, auditing, financial reporting, internal control and legal compliance functions by approving the services performed by our independent accountants and reviewing their reports regarding our accounting practices and systems of internal accounting controls. The audit committee also oversees the audit efforts of our independent accountants and takes those actions as it deems necessary to satisfy it that the accountants are independent of management. The audit committee currently consists of Richard S. Krause (Chairman), Robert W. Allen, and Peter T. Brennan, each of whom is a non-management member of our board of directors. Richard S. Krause is also our audit committee financial expert as currently defined under Securities and Exchange Commission rules. We believe that the composition of our audit committee meets the criteria for independence under, and the functioning of our audit committee complies with the applicable requirements of, the Sarbanes-Oxley Act of 2002, the current rules of the Over-the-Counter Bulletin Board Stock Market and Securities and Exchange Commission rules and regulations. We intend to comply with future audit committee requirements as they become applicable to us.

Compensation Committee

The compensation committee determines our general compensation policies and the compensation provided to our directors and officers. The compensation committee also reviews and determines bonuses for our officers and other employees. In addition, the compensation committee reviews and determines equity-based compensation for our directors, officers, employees and consultants and administers our stock option plans and employee stock purchase plan. The compensation committee currently consists of Robert W. Allen (Chairman), and James R. Gillis, each of whom is a non-management member of our board of directors. We believe that the composition of our compensation committee meets the criteria for independence under, and the functioning of our compensation committee complies with the applicable requirements of, the Sarbanes-Oxley Act of 2002, the current rules of the Over-the-Counter Bulletin Board Stock Market and Securities and Exchange Commission rules and regulations. We intend to comply with future compensation committee requirements as they become applicable to us.

Nominating and Corporate Governance Committee

The nominating and corporate governance committee is responsible for making recommendations to the board of directors regarding candidates for directorships and the size and composition of the board. In addition, the nominating and corporate governance committee is responsible for overseeing our corporate governance guidelines and reporting and making recommendations to the board concerning corporate governance matters. The current members of the nominating and governance committee are Peter T. Brennan (Chairman), James R. Gillis, and Richard S. Krause. We believe that the composition of our nominating and governance committee meets the criteria for independence under, and the functioning of our nominating and corporate governance committee complies with the applicable requirements of, the Sarbanes-Oxley Act of 2002, the current rules of the Over-the-Counter Bulletin Board Stock Market and Securities and Exchange Commission rules and regulations. We intend to comply with future nominating and corporate governance committee requirements as they become applicable to us.

Table of Contents

ITEM 11. EXECUTIVE COMPENSATION

The following table sets forth information concerning the compensation paid to the Company's Chief Executive Officer, and the Company's two most highly compensated executive officers other than its chief executive officer, who were serving as executive officers as of June 30, 2009 and whose annual compensation exceeded \$100,000 during such year (collectively the "Named Executive Officers").

Name and Principal Position	Year	Salary (\$)	Stock Awards (\$) (1)	All Other Compensation (\$)	Total (\$)
Randall K. Fields					
Chief Executive Officer and Chairman of the Board					
	2009	356,250 (2)	-	54,790 (3)	411,040
	2008	350,000 (2)	-	52,167 (3)	402,167
John R. Merrill					
Chief Financial Officer					
	2009	162,938	25,000	-	187,938
	2008	165,000	-	-	165,000
Robert P. Hermanns					
Senior Vice-President Sales					
	2009	213,750	-	1,667 (4)	215,417
	2008	225,000	-	55,855 (4)	280,855

(1) Stock awards consist solely of shares of restricted common stock. Amounts shown do not reflect compensation actually received by the named executive officer. Instead, the amounts shown are the compensation costs recognized by the Company during the fiscal year for stock awards as determined pursuant to FAS 123R.

(2) A significant part of Mr. Fields compensation is paid to a management company wholly owned by Mr. Fields.

(3) These amounts include premiums paid on Life Insurance policies of \$25,344 for 2009 and 2008; computer related expenses of \$6,000 for 2009 and 2009; Company car related expenses of \$16,810 and \$21,476 for 2009 and 2008, respectively; and medical premiums of \$6,636 and \$5,346 for 2009 and 2008, respectively.

(4) Commissions paid to Mr. Hermanns.

Table of Contents

Employment Agreements

Park City Group has an Employment Agreement with its chief executive officer, Randall K. Fields, dated April 1, 2009, pursuant to which Mr. Fields is to be employed by the Company in the position of Sales Department Manager through June 20, 2013 for annual compensation of \$50,000. In addition, on April 9, 2009, the Company entered into a Services Agreement with Fields Management, Inc. ("FMI"), to provide certain executive management services to the Company, including designating Mr. Fields to perform the functions of President and Chief Executive Officer for the Company ("Executive"). The Services Agreement amends and replaces the Services Agreement between FMI and the Company, dated July 1, 2005. FMI is controlled by Randall K. Fields, FMI's designated Executive, who currently serves as the Company's Chairman of the Board, President and Chief Executive Officer. Under the terms of the Services Agreement, which continues through June 30, 2013, FMI is paid an annual base fee of \$325,000, payable in equal semi-monthly installments. In addition, FMI is entitled to the following:

- an incentive bonus based upon the Company's achievement of performance goals determined each year by the Compensation Committee of the Company's Board of Directors;
- up to \$1,200 per month for reimbursement of a vehicle of Executive's choice;
- an annual allowance of up to \$6,000 for computer equipment; and
- 600,000 shares of Common Stock of the Company, subject to a pro-rata (10) ten-year vesting schedule.

Park City Group is also obligated to maintain two term life insurance policies in the name of the Executive for \$10.0 million each, with the beneficiary of one to be designated by the Executive, and the other to be designated by the Company.

Park City Group has an employment agreement with its Senior Vice-President of Sales, Robert Hermanns, dated March 15, 2007. This agreement provides Mr. Hermanns with the following compensation:

- Annual base compensation of \$220,000;
- Employee benefits that are generally provided to Park City Group, Inc. employees;
- A bonus equal to 1% of annual salary for every 2% increase in gross revenues over the previous year's actual revenue with additional terms set forth in Exhibit 10.16 attached hereto; and
 - Stock options equal to 2 to 1 for each share of stock purchased.

Park City Group has an employment agreement with its Chief Financial Officer and Treasurer, John Merrill, dated effective September 10, 2007. This agreement provides Mr. Merrill with the following compensation:

- Annual base compensation of \$165,000;
- Employee benefits that are generally provided to Park City Group, Inc. employees; and
 - Stock grants equal to 2 for 1 for each share of stock purchased.

Table of Contents

The following table sets forth information with respect to the value of all outstanding equity awards held by our named executive officers at the end of fiscal 2009:

Name	Number of Securities Underlying Unexercised Options # Exercisable	Stock Awards			Number of Shares or Units of Stock That Have Not Vested (#)	Market Value of Units of Stock That Have Not Vested (\$)
		Option Exercise Price (\$)	Option Expiration Date			
Randall K. Fields	—	—	—	—	—	
John R. Merrill	—	—	—	23,292	75,000	
Robert Hermanns	74,000	2.76	6/29/10	—	—	

Director Compensation

The outside directors of the Company, James R. Gillis, Richard S. Krause, Robert W. Allen and Peter Brennan receive the following compensation:

- Annual cash compensation of \$10,000 payable at the rate of \$2,500 per quarter. The Company has the right to pay this amount in the form of shares of Company Stock; and
- Annual options to purchase \$20,000 of the Company restricted common stock at the market value of the shares on the date of the grant, which is to be the first day the stock market is open in January of each year.

The following table sets forth information concerning the compensation earned during fiscal 2009 by our current directors:

Name	Stock Awards (\$)	
	(1)	Total (\$)
James R. Gillis	10,000	10,000
Richard S. Krause	10,000	10,000
Robert W. Allen	10,000	10,000
Peter Brennan	5,000	5,000

- (1) Stock awards consist solely of stock grants of fully vested Company common stock. Amounts shown do not reflect compensation actually received by the director. Instead, the amounts shown are the compensation costs recognized by the Company during the fiscal year for stock awards as determined pursuant to FAS 123R.

Table of Contents

401(k) Retirement Plan

The Company offers an employee benefit plan under Benefit Plan Section 401(k) of the Internal Revenue Code. The Company utilizes Fidelity Investments as its administrator and trustee of the Company's 401(k) plan. Employees who have attained the age of 18 are immediately eligible to participate. The Company, at its discretion, may match employee's contributions at a percentage determined annually by the board of directors. The Company does not currently match contributions.

Indemnification for Securities Act Liabilities

Nevada law authorizes, and the Company's Bylaws and Indemnity Agreements provide for, indemnification of the Company's directors and officers against claims, liabilities, and amounts paid in settlement, and expenses in a variety of circumstances. Indemnification for liabilities arising under the Act may be permitted for directors, officers and controlling persons of the Company pursuant to the foregoing or otherwise. However, the Company has been advised that, in the opinion of the Securities and Exchange Commission, such indemnification is against public policy as expressed in the Act and is, therefore, unenforceable.

Stock Options and Warrants

The Company has stock option plans that enable it to issue to officers, directors, consultants and employees nonqualified and incentive options to purchase common stock. At June 30, 2009, a total of 90,040 of such options were outstanding with exercise prices ranging from \$1.50 to \$2.76 per share.

At June 30, 2009 a total of 972,193 warrants to purchase shares of common stock were outstanding. Of those warrants, 128,571 were issued in connection with an equity investment by an officer; 426,485 were issued as a commission for placement of equity securities; and 417,137 were issued in connection with an equity placement. These warrants have exercise prices ranging from \$1.80 to \$4.00 per share and expire between August 26, 2009 and January 12, 2014.

Compensation Committee Interlocks and Insider Participation

No executive officers of the Company serve on the Compensation Committee (or in a like capacity) for the Company or any other entity.

Table of Contents

- (1) For purposes of this table “beneficial ownership” is determined in accordance with Rule 13d-3 of the Securities Exchange Act of 1934, pursuant to which a person or group of persons is deemed to have “beneficial ownership” of any common shares that such person or group has the right to acquire within 60 days after September 26, 2009. For purposes of computing the percentage of outstanding common shares held by each person or group of persons named above, any shares that such person or group has the right to acquire within 60 days after September 24, 2009, are deemed outstanding but are not deemed to be outstanding for purposes of computing the percentage ownership of any other person or group. As of September 24, 2009, there were 10,614,008 shares of our common stock issued and outstanding. There were also outstanding options, and warrants entitling the holders to purchase 91,857 shares of our common stock owned by officers and/or directors of Park City Group.
- (2) Includes 4,033,890 shares of common stock held in the name of Riverview Financial Corp., 30,667 held in the name of Julie Fields and 2,688 shares of common stock held in the name of Fields Management, Inc. of which Randall K Fields is the beneficial owner.
- (3) Includes 19,123 shares issuable upon conversion of 5,737 shares of Series A Convertible Preferred Stock.
- (4) Includes 545,206 shares of common stock held in the name of Randall K. Fields. Riverview Financial Corp., 30,667 held in the name of Julie Fields and 2,688 shares of common stock held in the name of Fields Management, Inc. which is beneficially controlled by Randall K. Fields.
 - (5) These are the officers and directors of Park City Group.
- (6) Includes 13,000 shares held in the name of Carolynn Hermanns, which is Mr. Hermanns spouse.
- (7) Includes 37,314 shares of common stock held in trust, in which Mr. Allen is the trustee. Includes 49,003 and 49,007 shares issuable upon conversion of 14,701 and 14,702 shares of Series A Convertible Preferred Stock for Mr. and Mrs. Allen, respectively.
- (8) Includes 8.929 warrants held in the name of Susan M. Allen, Mr. Allen's spouse.

Change in Control

The Company is not currently engaged in any activities or arrangements that it anticipates will result in a change in control of the Company.

Table of ContentsITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS, AND
DIRECTOR INDEPENDENCE

On September 2, 2008, the Company executed and delivered three promissory notes in an aggregate amount of \$2,200,000. Each of such notes was unsecured, was due on or before December 1, 2008 and accrued interest at the rate of 10% per annum. The lenders and the amount of each note were as follows:

Lender	Principal Amount
Riverview Financial Corp*	\$1,500,000
Robert K. Allen (Director of Company)	500,000
Robert Hermanns (Director and Senior Vice President)	200,000
Total	\$2,200,000

* Riverview Financial Corp (“Riverview”) is an affiliate of Randal Fields, the CEO and a director of the Company.

The loan proceeds were used by the Company to fund a portion of the purchase price of shares of Series E Preferred Stock of Prescient Applied Intelligence, Inc., a Delaware corporation (“Prescient”) purchased by the Company. The purchase transaction was the first step in a plan to acquire Prescient in a merger transaction. The purchase transaction and the merger transaction are described in a Form 8-K filed by the Company on September 3, 2008 and a Schedule 13D filed by the Company with the Securities and Exchange Commission on September 15, 2008.

On January 12, 2009, the Company entered into a Purchase Agreement with Robert W. Allen, pursuant to which the Company issued a Subordinated Promissory Note to Mr. Allen in the principal amount of \$523,013.70 (the “Allen Note”). The Allen Note was issued by the Company to replace the promissory note issued to Mr. Allen on September 2, 2008 in the principal amount of \$500,000. The Company and Mr. Allen extended the maturity date of the original Note to January 12, 2009, from its original maturity date, December 1, 2008. The principal amount of the Allen Note reflects the principal amount of the original note issued to Mr. Allen, plus accrued interest of \$23,013.70. The Allen Note bears interest computed at a rate of twelve percent (12%) per annum, and is due and payable on the earlier to occur of July 12, 2011 or upon an event of default. In addition to the Allen Note, Mr. Allen was issued 116,667 shares of the Company’s Common Stock in consideration for the exchange of the original note.

On April 1, 2009, the Company issued a Subordinated Promissory Note to Riverview in the principal amount of \$620,558.53 (“New Note”). The New Note was issued in consideration for the cancellation of the promissory note, dated September 2, 2008, issued by the Company to Riverview in the original principal amount of \$1,500,000 (the “Old Note”), which principal amount was reduced by \$1.0 million as a result of a payment made to Riverview by the Company on February 3, 2009. The New Note includes accrued but unpaid interest under the Old Note of \$80,171.84, certain fees owed to Riverview by the Company in the amount of \$35,123.68 for guaranteeing amounts owed by the Company under a line of credit with a bank, and \$5,263.01 representing certain late fees owed Riverview by the Company resulting from the failure by the Company to pay certain amounts to Riverview under the terms of a Services Agreement between the Company and Riverview, dated July 1, 2005, described above. The New Note, which bears interest computed at a rate of twelve percent (12%) per annum, is due on the earlier of September 30, 2011 or upon an event of default.

Table of Contents

Director Independence

Our Board of Directors currently consists of Randall K. Fields, Robert P. Hermanns, Robert W. Allen, Richard S. Krause, James R. Gillis and Peter T. Brennan. The Board has determined that Robert W. Allen, Richard S. Krause and Peter Brennan qualify as independent directors.

We maintain separately designated audit, compensation and nominating committees. In applying the independence standards applicable to audit, compensation and nominating committee members, each of the members of such committees are considered independent.

ITEM 14. PRINCIPAL ACCOUNTANT FEES AND SERVICES

Audit Fees

We incurred approximately \$77,500 and \$56,500 in audit fees during the years ended June 30, 2009 and 2008, respectively, to HJ & Associates, LLC (“HJ”).

Audit Related Fees

There were no fees billed for audit-related services not disclosed in “Audit Fees” above.

All Other Fees

We incurred approximately \$13,000 and \$0 in tax preparation fees during the years ended June 30, 2009 and 2008. No other fees were billed for services rendered by our principal accountants for the year ended June 30, 2008.

Compatibility of Certain Fees with Independent Accountants’ Independence

The Audit Committee has established its pre-approval policies and procedures, pursuant to which the Audit Committee approved the foregoing audit and permissible non-audit services provided by HJ in fiscal 2009 and 2008. Such procedures govern the ways in which the Audit Committee pre-approves audit and various categories of non-audit services that the auditor provides to the Company. Services which have not received pre-approval must receive specific approval of the Audit Committee. The Audit Committee is to be informed of each such engagement in a timely manner, and such procedures do not include delegation of the Audit Committee’s responsibilities to management.

Reports of the Audit Committee

On an annual basis the Audit Committee will review and discuss our most recent audited financial statements with management, and will discuss with our independent registered public accounting firm the matters required to be discussed by SAS 114, as modified or supplemented, and will receive the written disclosures and letters as required by Independence Standards Board Standard No. 1, as modified or supplemented, and will discuss with our independent registered public accounting firm its independence. Based on these reviews and discussions, the Audit Committee will then make its recommendation to the Board of Directors related to the inclusion of the audited financial statements in our Annual Report on Form 10-K for each fiscal year for filing with the Securities and Exchange Commission.

Report of Independent Registered Public Accounting Firm

Board of Directors and Shareholders of
Park City Group, Inc. and Subsidiaries
Park City, Utah

We have audited the accompanying consolidated balance sheets of Park City Group, Inc. and Subsidiaries as of June 30, 2009 and 2008, and the related consolidated statements of operations, stockholders' equity and cash flows for the years then ended. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the consolidated financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall consolidated financial statement presentation. We believe that our audits provide a reasonable basis for our opinions.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of Park City Group, Inc. and Subsidiaries as of June 30, 2009 and 2008, and the results of their operations and their cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

We were not engaged to examine management's assertion about the effectiveness of Park City Group, Inc. and Subsidiaries' internal control over financial reporting as of June 30, 2009 included in the accompanying Form 10-K and, accordingly, we do not express an opinion thereon.
