## 2. BASIS OF PREPARATION

### 2.1 Statement of compliance

These condensed consolidated interim financial statements are unaudited and have been prepared in accordance with IAS 34 ‘Interim Financial Reporting’ (“IAS 34”) using accounting policies consistent with the International Financial Reporting Standards (“IFRS”) issued by the International Accounting Standards Board (“IASB”) and Interpretations of the International Financial Reporting Interpretations Committee (“IFRIC”).

These condensed consolidated interim financial statements have been prepared on a going concern basis, which contemplates the realization of assets and settlement of liabilities in the normal course of business. The Company has incurred significant losses recurring over the years. This raises the doubt about the Company's ability to continue as a going concern. The ability of the Company to continue as a going concern is dependent upon raising additional financing through share issuance or debt borrowing or through cash flow generated from sales contracts and distribution agreements. There are no assurances that the Company will be successful in achieving these goals.

The condensed consolidated interim financial statements for the period ended September 30, 2018 were approved and authorized by the Board of Directors on November 29, 2018.

## **2.2 Basis of measurement**

These condensed consolidated interim financial statements have been prepared on the historical cost basis except as provided in note 4. The comparative figures presented in these consolidated financial statements are in accordance with the same accounting policies.

## **2.3 Basis of consolidation**

The consolidated financial statements comprise the financial statements of the Company and its wholly owned subsidiaries controlled by the Company (the "Group") as at September 30, 2018. ## 2. BASIS OF PREPARATION (Cont'd)

### 2.3 Basis of consolidation (Cont'd)

Subsidiaries are fully consolidated from the date of acquisition, being the date on which the Group obtains control, and continue to be consolidated until the date when such control ceases. The financial statements of the subsidiaries are prepared for the same reporting period as the parent company, using consistent accounting policies. All inter-group balances, transactions, unrealized gains and losses resulting from inter-group transactions and dividends are eliminated in full.

### 2.4 Functional and presentation currency

The functional currency is the currency of the primary economic environment in which the entity operates and has been determined for each entity within the Group. These consolidated financial statements are presented in Canadian Dollars, which is the Company's functional currency. The functional currency of ELL Technologies Limited and Lingo Group Limited are United States Dollar ("USD"). All other subsidiaries' functional currency is Canadian Dollar ("CAD").

The functional currency determinations were conducted through an analysis of the consideration factors identified in IAS 21, "The Effects of Changes in Foreign Exchange Rates".

## 3. SIGNIFICANT ACCOUNTING JUDGEMENTS, ESTIMATES AND ASSUMPTIONS

The preparation of  
the Company's

condensed consolidated interim financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the application of accounting policies, reported amounts of assets, liabilities and contingent liabilities, revenues and expenses at the date of the consolidated financial statements and during the reporting period.

Estimates and assumptions are continuously evaluated and are based on management's historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. However, actual outcomes can differ from these estimates. Revisions to accounting estimates are

recognized in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and further periods if the review affects both current and future periods.

Information about critical judgements in applying accounting policies that have the most significant effect on the amounts recognized in the consolidated financial statements is included in the following notes:

Determination of functional currency  
Determination of allowance for doubtful accounts  
Determination of the recoverability of the carrying value of intangibles and goodwill  
Recognition of internally developed intangibles  
Determination and recognition of long-term revenue contracts

Recognition of deferred tax assets

#### 4.SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies applied by the Company in these Condensed Consolidated Interim Financial Statements are the same as those applied by the Company in its Consolidated Financial Statements for the year ended December 31, 2017, except the following:

##### *New Standards Adopted in Current Year*

IFRS 2 'Share-based Payment' was issued by the IASB in June 2016. These amendments provide clarification on how to account for certain types of share-based transaction. The amendments are effective for the annual period beginning on or after January 1, 2018. The adoption of this amendment did not have a material impact on the Company's condensed interim consolidated financial statements.

IFRS 9 'Financial Instruments: Classification and Measurement', introduces new requirements for the classification and measurement of financial instruments, a single forward-looking expected loss impairment model and a substantially reformed approach to hedge accounting. IFRS 9 is effective for annual periods beginning on or after January 1, 2018. The adoption of this amendment did not have a material impact on the Company's condensed interim consolidated financial statements.

IFRS 15 'Revenue from Contracts with Customers' was issued by the IASB in June 2014. The objective of IFRS 15 is to provide a single, comprehensive revenue recognition model for all contracts with customers. The underlying principle is that an entity will recognize revenue to depict the transfer of goods or services to customers at an amount that the entity expects to be entitled to in exchange for those goods or services. It also contains new disclosure requirements. Under IFRS 15, revenue from the sale of licenses would be recognized at a point in time when control over the products has been transferred to the customer. The Company transfers control and satisfied its performance obligation upon delivery and acceptance by the customer, which is consistent with the Company's current revenue recognition policy under IAS 18. IFRS 15 is effective for the Company on January 1, 2018. The adoption of this amendment did not have a material impact on the Company's condensed interim consolidated financial statements. The

disaggregated revenue has been disclosed in Note 15.
