Date of reporting period: August 31, 2009  
-----

Form N-Q is to be used by management investment companies, other than small business investment companies registered on Form N-5 (ss.ss. 239.24 and 274.5 of this chapter), to file reports with the Commission, not later than 60 days after the close of the first and third fiscal quarters, pursuant to rule 30bl-5 under the Investment Company Act of 1940 (17 CFR 270.30bl-5). The Commission may use the information provided on Form N-Q in its regulatory, disclosure review, inspection, and policymaking roles.

A registrant is required to disclose the information specified by Form N-Q, and the Commission will make this information public. A registrant is not required to respond to the collection of information contained in Form N-Q unless the Form displays a currently valid Office of Management and Budget ("OMB") control number. Please direct comments concerning the accuracy of the information collection burden estimate and any suggestions for reducing the burden to the Secretary, Securities and Exchange Commission, 100 F Street, NE, Washington, DC 20549. The OMB has reviewed this collection of information under the clearance requirements of 44 U.S.C. ss. 3507.

Edgar Filing: FIRST TRUST FOUR CORNERS SENIOR FLOATING RATE INCOME FUND II - Form N-Q

NOTES TO QUARTERLY PORTFOLIO OF INVESTMENTS

FIRST TRUST/FOUR CORNERS SENIOR FLOATING RATE INCOME FUND II  
 AUGUST 31, 2009 (Unaudited)

1. VALUATION AND INVESTMENT PRACTICES

A. Portfolio Valuation:

The net asset value ("NAV") of the Common Shares of First Trust/Four Corners Senior Floating Rate Income Fund II (the "Fund") is determined daily as of the close of regular trading on the New York Stock Exchange ("NYSE"), normally 4:00 p.m. Eastern time, on each day the NYSE is open for trading. Domestic debt securities and foreign securities are priced using data reflecting the earlier closing of the principal markets for those securities. The NAV per Common Share is calculated by dividing the value of all assets of the Fund (including accrued interest), less all liabilities (including accrued expenses, dividends declared but unpaid and any borrowings of the Fund) and the liquidation value of any outstanding Preferred Shares, by the total number of Common Shares outstanding.

The Fund's investments are valued daily at market value or, in the absence of market value with respect to any portfolio investments, at fair value according to valuation procedures adopted by the Fund's Board of Trustees. A majority of

the Fund's assets are valued using market information supplied by third parties. In the event that market quotations are not readily available, the pricing service does not provide a valuation for a particular asset, or the valuations are deemed unreliable, the Fund's Board of Trustees has designated First Trust Advisors L.P. ("First Trust") to use a fair value method to value the Fund's investments. Additionally, if events occur after the close of the principal market for particular securities (e.g., domestic debt and foreign securities), but before the Fund values its assets, that could materially affect NAV, First Trust may use a fair value method to value the Fund's investments. The use of fair value pricing by the Fund is governed by valuation procedures adopted by the Fund's Board of Trustees, and in accordance with the provisions of the Investment Company Act of 1940, as amended ("1940 Act").

The Senior Floating-Rate Loans ("Senior Loans") in which the Fund invests are not listed on any securities exchange or board of trade. Senior Loans are typically bought and sold by institutional investors in individually negotiated private transactions that function in many respects like an over-the-counter secondary market, although typically no formal market-makers exist. This market, while having grown substantially in the past several years, generally has fewer trades and less liquidity than the secondary market for other types of securities. Some Senior Loans have few or no trades, or trade infrequently, and information regarding a specific Senior Loan may not be widely available or may be incomplete. Accordingly, determinations of the market value of Senior Loans may be based on infrequent and dated information. Because there is less reliable, objective data available, elements of judgment may play a greater role in valuation of Senior Loans than for other types of securities. Typically, Senior Loans are valued using information provided by a third party pricing service. If the pricing service cannot or does not provide a valuation for a particular Senior Loan or such valuation is deemed unreliable, First Trust may value such Senior Loan at a fair value according to valuation procedures adopted by the Fund's Board of Trustees, and in accordance with the provisions of the 1940 Act.

Portfolio investments listed on any exchange other than the NASDAQ National Market ("NASDAQ") are valued at the last sale price on the business day as of which such value is being determined. If there has been no sale on such day, the investments are valued at the mean of the most recent bid and asked prices on such day. Investments traded on the NASDAQ are valued at the NASDAQ Official Closing Price as determined by NASDAQ. Portfolio investments traded on more than one securities exchange are valued at the last sale price on the business day as of which such value is being determined at the close of the exchange representing the principal market for such investments. Portfolio investments traded in the over-the-counter market, but excluding investments traded on the NASDAQ, are valued at the closing bid prices. Short-term investments that mature in less than 60 days when purchased are valued at amortized cost.

In September 2006, the Financial Accounting Standards Board ("FASB") issued Statement of Financial Accounting Standards No. 157, "Fair Value Measurements" ("FAS 157"), effective for fiscal years beginning after November 15, 2007. This standard clarifies the definition of fair value for financial reporting, establishes a framework for measuring fair value and requires additional disclosures about the use of fair value measurements. The three levels of the fair value hierarchy under FAS 157 are as follows:

- o Level 1 - quoted prices in active markets for identical investments
- o Level 2 - other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)
- o Level 3 - significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

## NOTES TO QUARTERLY PORTFOLIO OF INVESTMENTS (Continued)

FIRST TRUST/FOUR CORNERS SENIOR FLOATING RATE INCOME FUND II  
AUGUST 31, 2009 (Unaudited)

In April 2009, the FASB issued FASB Staff Position No. 157-4, "Determining Fair Value when the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly" ("FSP 157-4"). FSP 157-4 is effective for fiscal years and interim periods ending after June 15, 2009. FSP 157-4 provides additional guidance for estimating fair value in accordance with FAS 157, when the volume and level of activity for the asset or liability have significantly decreased. FSP 157-4 also includes guidance on identifying circumstances that indicate a transaction is not orderly. FSP 157-4 requires entities to describe the inputs used in valuation techniques used to measure fair value and changes in inputs over the period. FSP 157-4 expands the three-level hierarchy disclosure and the Level 3 roll-forward disclosure for each major security type.

The inputs or methodology used for valuing investments are not necessarily an indication of the risks associated with investing in those investments. A summary of the inputs used to value the Fund's investments as of August 31, 2009 is included with the Fund's Portfolio of Investments.

**B. Credit Default Swaps:**

The Fund may enter into credit default swap contracts for hedging purposes or to gain exposure to a credit in which the Fund may otherwise invest. A credit default swap contract is an agreement between two parties to exchange the credit risk of an issuer. The Fund may be either the buyer or seller in a credit default swap transaction. The "buyer" in a credit default swap contract is obligated to pay the "seller" a periodic stream of payments over the term of the contract provided that no event of default on the underlying reference obligation has occurred. If an event of default occurs, the seller must pay the buyer the full notional value, or "par value," of the reference obligation. Credit default swap transactions are either "physical delivery" settled or "cash" settled. Physical delivery entails the actual delivery of the reference asset to the seller in exchange for payment of the full par value of the reference asset. Cash settled entails a net cash payment from the seller to the buyer based on the difference of the par value of the reference asset and the current value of the reference asset that may have, through default, lost some, most or all of its value. An event of default may be a grace period extension, obligation acceleration, repudiation/moratorium, or restructuring.

Buying a credit default swap contract involves the risk that the contract may expire worthless and the credit risk that the seller may fail to satisfy its payment obligations to the Fund in the event of default. Selling a credit default swap contract involves greater risks than if the Fund had invested in the reference obligation directly. The Fund will segregate cash or liquid assets in an amount equal to the aggregate market value of the credit default swap contracts of which it is a seller. Additionally, the Fund maintains cash or liquid assets for the full notional amount of the credit default swap contracts of which it is a seller. The Fund may only enter into such transactions with counterparties rated A- or higher.

Credit default swap contracts are marked to market daily based upon quotations from brokers or market makers and the change in value, if any, is recorded as

unrealized appreciation (depreciation). For a credit default swap contract sold by the Fund, payment of the agreed-upon amount made by the Fund in the event of default of the referenced debt obligation is recorded as the cost of the referenced debt obligation purchased/received. As of August 31, 2009, the Fund had no outstanding credit default swaps.

C. Repurchase Agreements:

The Fund engages in repurchase agreement transactions. Under the terms of a typical repurchase agreement, the Fund takes possession of an underlying debt obligation subject to an obligation of the seller to repurchase, and the Fund to resell, the obligation at an agreed-upon price and time, thereby determining the yield during the Fund's holding period.

This arrangement results in a fixed rate of return that is not subject to market fluctuations during the Fund's holding period. The value of the collateral is at all times at least equal to the total amount of the repurchase obligation, including interest. In the event of counterparty default, the Fund has the right to use the collateral to offset losses incurred. There is potential loss to the Fund in the event the Fund is delayed or prevented from exercising its rights to dispose of the collateral investments, including the risk of a possible decline in the value of the underlying investments during the period while the Fund seeks to assert its rights. The Fund reviews the value of the collateral and the creditworthiness of those banks and dealers with which the Fund enters into repurchase agreements to evaluate potential risks. As of August 31, 2009, the Fund had no open repurchase agreements.

AUGUST 31, 2009 (Unaudited)

D. Investment Transactions:

Investment transactions are recorded as of the trade date. Realized gains and losses from investment transactions are recorded on the identified cost basis.

Investments purchased or sold on a when-issued or delayed-delivery basis may be settled a month or more after the trade date; interest income on such investments is not accrued until settlement date. The Fund maintains liquid assets with a current value at least equal to the amount of its when-issued or delayed-delivery purchase commitments. As of August 31, 2009, the Fund had no when-issued or delayed-delivery purchase commitments.

E. Unfunded Loan Commitments:

The Fund may enter into certain credit agreements, all or a portion of which may be unfunded. The Fund had unfunded delayed draw loan commitments of approximately \$89,580 as of August 31, 2009. The Fund is obligated to fund these loan commitments at the borrower's discretion.

F. Restricted Investments:

The Fund invests in restricted investments, which are investments that cannot be offered for public sale without first being registered under the Securities Act

Edgar Filing: FIRST TRUST FOUR CORNERS SENIOR FLOATING RATE INCOME FUND II - Form N-Q

of 1933, as amended. Prior to registration, restricted investments may only be resold in transactions exempt from registration. The Fund held restricted investments at August 31, 2009 as shown in the following table. The Fund does not have the right to demand that such investments be registered. These investments are valued according to the valuation procedures as stated in the Portfolio Valuation footnote (Note 1A) and are not expressed as a discount to the carrying value of a comparable unrestricted investment. There are no unrestricted investments with the same maturity dates and yields for these issuers.

| Security                     | Acquisition Date | Principal Value/Shares | Value Per Share | Current Carrying Cost | Value  |

ITEM 2. CONTROLS AND PROCEDURES.

- (a) The registrant's principal executive and principal financial officers, or persons performing similar functions, have concluded that the registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940, as amended (the "1940 Act") (17 CFR 270.30a-3(c))) are effective, as of a date within 90 days of the filing date of the report that includes the disclosure required by this paragraph, based on their evaluation of these controls and procedures required by Rule 30a-3(b) under the 1940 Act (17 CFR 270.30a-3(b)) and Rules 13a-15(b) or 15d-15(b) under the Securities Exchange Act of 1934, as amended (17 CFR 240.13a-15(b) or 240.15d-15(b)).
- (b) There were no changes in the registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the 1940 Act (17 CFR 270.30a-3(d))) that occurred during the registrant's last fiscal quarter that have materially affected, or are reasonably likely to materially affect, the registrant's internal control over financial reporting.

ITEM 3. EXHIBITS.

Certifications pursuant to Rule 30a-2(a) under the 1940 Act and Section 302 of the Sarbanes-Oxley Act of 2002 are attached hereto.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934 and the Investment Company Act of 1940, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
