NOTE 1 – HISTORY AND ORGRANIZATION

Giggles N' Hugs, Inc. ("GIGL Inc") was originally organized September 17, 2004 (Date of Inception) under the laws of the State of Nevada, as Teacher's Pet, Inc. GIGL Inc was organized to sell teaching supplies and learning tools. On August 20, 2010, GIGL Inc filed an amendment to its articles of incorporation to change its name to Giggles N' Hugs, Inc. The Company is authorized to issue 1,125,000,000 shares of its \$0.001 par value common stock.

On December 30, 2011, GIGL Inc completed the acquisition of all the issued and outstanding shares of GNH, Inc. ("GNH"), a Nevada corporation, pursuant to a Stock Exchange Agreement (the "SEA"). Under the SEA, GIGL Inc issued 18,289,716 shares of its common stock to in exchange for a 100% interest in GNH, Inc. Additionally under the SEA, the former officer, director and shareholders of GIGL Inc agreed to cancel a total of 47,607,500 shares of its common stock.

For accounting purposes, the acquisition of GNH by GIGL Inc has been recorded as a reverse merger of a public company, with the exception that no goodwill is generated, and followed up with a recapitalization of GNH based on the factors demonstrating that GNH represents the accounting acquirer. As part of closing of the merger between GNH and GIGL Inc, GNH obtained 100% of the restaurant operations of Giggles N Hugs in Westfield mall in Century City, California. The restaurant operations of Giggles N Hugs in Westfield mall in Century City, California was originally formed April 30, 2010 and opened for operation December 3, 2010. Consequently, the historical financial information in the accompanying consolidated financial statements is that of GNH and the restaurant operations of Giggles N Hugs located in Century City, California. As a result of the Merger, GIGL Inc now owns all of the assets, liabilities and operations of a kid friendly restaurant named Giggles N Hugs in Westfield mall in Century City, California. Additionally, GIGL Inc obtained ownership to all intellectual property rights for Giggles N Hugs facilities in the future.

On December 30, 2011, the transactions were completed and resulted in a change in control of the Company. Pursuant to the terms of the Agreement, the Company accepted the resignation of its prior officer and director, Tracie Hadama and appointed Mr. Joey Parsi as President, Chief Executive Officer, Treasurer, and Secretary

of the Company.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with US generally accepted accounting principles have been condensed or omitted pursuant to such rules and regulations, although the Company believes that the disclosures are adequate to make the information presented not misleading.

The Company follows the same accounting policies in the preparation of interim reports.

Results of operations for the interim periods are not indicative of annual results.

NOTE 3 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Principles of consolidation

For the period ended September 30, 2012 and 2011, the consolidated financial statements include the accounts of Giggles N' Hugs, Inc., GNH, Inc., GNH Topanga, Inc. and restaurant operations of Giggles N Hugs in Westfield mall in Century City, California. All significant intercompany balances and transactions have been eliminated. Giggles N' Hugs, Inc., GNH, Inc., GNH Topanga, Inc. and restaurant operations of Giggles N Hugs in Westfield mall in Century City, California will be collectively referred herein to as the "Company".

Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ significantly from those estimates.

Cash and cash equivalents

For the purpose of the statements of cash flows, all highly liquid investments with an original maturity of three months or less are considered to be cash equivalents. The carrying value of these investments approximates fair value.

Inventories

Inventories are stated at the lower of cost or market on a first-in, first-out basis and consist of restaurant food and other supplies.

Property and equipment

The Company records all property and equipment at cost less accumulated depreciation. Improvements are capitalized while repairs and maintenance costs are expensed as incurred. Depreciation is calculated using the straight-line method over the estimated useful life of the assets or the lease term, whichever is shorter. Leasehold improvements include the cost of the Company's internal development and construction department. Depreciation periods are as follows:

Leasehold improvements	10 years
Restaurant fixtures and equipment	10 years
Computer software and equipment	3 to 5 years

Leases

The Company currently leases its restaurant location. The Company evaluates the lease to determine its appropriate classification as an operating or capital lease for financial reporting purposes.

Minimum base rent for the Company's operating leases, which generally have escalating rentals over the term of the lease, is recorded on a straight-line basis over the lease term. The initial rent term includes the build-out, or rent

holiday period, for the Company's leases, where no rent payments are typically due under the terms of the lease. Deferred rent expense, which is based on a percentage of revenue, is also recorded to the extent it exceeds minimum base rent per the lease agreement.

The Company disburses cash for leasehold improvements and furniture, fixtures and equipment to build out and equip its leased premises. The Company also expends cash for structural additions that it makes to leased premises of which \$590,000 were reimbursed to the Century City location by its landlords as construction contributions pursuant to agreed-upon terms in the lease agreements. Landlord construction contributions usually take the form of up-front cash. Depending on the specifics of the leased space and the lease agreement, amounts paid for structural components are recorded during the construction period as leasehold improvements or the landlord construction contributions are recorded as an incentive from lessor.

NOTE 3 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Impairment of long-lived assets

The Company assesses potential impairment of our long-lived assets whenever events or changes in circumstances indicate that the carrying value of the assets or asset group may not be recoverable. Factors considered include, but are not limited to, significant underperformance relative to historical or projected future operating results; significant changes in the manner of use of the acquired assets or the strategy for the overall business; and significant negative industry or economic trends. The Company regularly reviews the restaurant if it is cash flow negative for the previous four quarters to determine if impairment testing is warranted. At any given time, the Company may monitor its operations, and impairment charges could be triggered in the future if the restaurant performance does not improve.

The Company has identified leasehold improvements as the primary asset because it is the most significant component of our restaurant assets, it is the principal asset from which the Company derives cash flow generating capacity and has the longest remaining useful life. The recoverability is assessed in most cases by comparing the carrying value of the assets to the undiscounted cash flows expected to be generated by these assets. Impairment losses are measured as the amount by which the carrying values of the assets exceed their fair values.

During the nine months ended September 30, 2012 and 2011 we did not record an impairment charge against the carrying value of the restaurant located in Century City, California.

Stock-based compensation

The Company records stock based compensation in accordance with the guidance in ASC Topic 505 and 718 which requires the Company to recognize expenses related to the fair value of its employee stock option awards. This

eliminates accounting for share-based compensation transactions using the intrinsic value and requires instead that such transactions be accounted for using a fair-value-based method. The Company recognizes the cost of all share-based awards on a graded vesting basis over the vesting period of the award.

The Company accounts for equity instruments issued in exchange for the receipt of goods or services from other than employees in accordance with FASB ASC 718-10 and the conclusions reached by the FASB ASC 505-50. Costs are measured at the estimated fair market value of the consideration received or the estimated fair value of the equity instruments issued, whichever is more reliably measurable. The value of equity instruments issued for consideration other than employee services is determined on the earliest of a performance commitment or completion of performance by the provider of goods or services as defined by FASB ASC 505-50.

NOTE 3 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Loss per common share

Net loss per share is provided in accordance with ASC Subtopic 260-10. We present basic loss per share (“EPS”) and diluted EPS on the face of statements of operations. Basic EPS is computed by dividing reported losses by the weighted average shares outstanding. Except where the result would be anti-dilutive to income from continuing operations, diluted earnings per share has been computed assuming the conversion of the convertible long-term debt and the elimination of the related interest expense, and the exercise of stock warrants. Loss per common share has been computed using the weighted average number of common shares outstanding during the year.

Fair Value of Financial Instruments

The carrying amounts reflected in the balance sheets for cash, accounts payable and accrued expenses approximate the respective fair values due to the short maturities of these items. The Company does not hold any investments that are available-for-sale.

As required by the Fair Value Measurements and Disclosures Topic of the FASB ASC, fair value is measured based on a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value as follows: (Level 1) observable inputs such as quoted prices in active markets; (Level 2) inputs, other than the quoted prices in active markets, that are observable either directly or indirectly; and (Level 3) unobservable inputs in which there is little or no market data, which require the reporting entity to develop its own assumptions.

The three levels of the fair value hierarchy are described below:

Edgar Filing: Giggles N' Hugs, Inc. - Form 10-Q

Level 1: Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;

Level 2: Quoted prices in markets that are not active, or inputs that are observable, either directly or indirectly, for substantially the full term of the asset or liability;

Level 3: Prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable (supported by little or no market activity).

NOTE 3 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Revenue recognition

Our revenues consist of sales from our restaurant operations and sales of memberships entitling members unlimited access to our play areas for the duration of their membership. As a general principle, revenue is recognized when the following criteria are met: (i) persuasive evidence of an arrangement exists, (ii) delivery has occurred and services have been rendered, (iii) the price to the buyer is fixed or determinable, and (iv) collectability is reasonably assured.

With respect to memberships, access to our play area extends throughout the term of membership. The vast majority of memberships sold are for one month terms. Revenue is recognized on a straight line basis over the membership period. Century City receives payment from its customers at the start of the subscription period and Century City records deferred revenue for the unearned portion of the subscription period.

Revenues from restaurant sales are recognized when payment is tendered at the point of sale. Revenues are presented net of sales taxes. The obligation is included in other accrued expenses until the taxes are remitted to the appropriate taxing authorities.

We recognize a liability upon the sale of our gift cards and recognize revenue when these gift cards are redeemed in our restaurants.

For party rental agreements, we rely upon a signed contract between us and the customer as the persuasive evidence of a sales arrangement. Party rental deposits are recorded as deferred revenue upon receipt and recognized as revenue when the service has been rendered.

Additionally, revenues are recognized net of any discounts, returns, allowances and sales incentives, including coupon redemptions and complimentary meals.

Recent pronouncements

The Company has evaluated the recent accounting pronouncements through August 2012 and believes that none of them will have a material effect on the company's financial position, results of operations or cash flows.

NOTE 4 – RECLASSIFICATION OF PRIOR YEAR PRESENTATION

Certain prior year amounts have been reclassified for consistency with the current period presentation. These reclassifications had no effect on the reported results of operations. In second quarter of fiscal 2012, the Company concluded that it was appropriate to classify its incentive from lessor as a long-term liability. Previously, the incentive from lessor had been classified as a current liability. Accordingly, the Company had revised the classification to report the incentive from lessor under the long-term liabilities caption, with the current portion thereof remaining in the current liabilities section. This change in classification does not materially affect the Company's previously reported balance sheet, cash flows from operations or from financing activities in the Condensed Statement of Cash Flows, and had no effect on the previously reported Condensed Statement of Operations for any period.

As of September 30, 2012 and December 31, 2011, \$498,862 and \$490,059 of the incentive from lessor previously classified as current liabilities were reclassified as long-term liabilities.

NOTE 5 – GOING CONCERN

The accompanying financial statements have been prepared in conformity with generally accepted accounting principles in the United States of America, which contemplate continuation of the Company as a going concern. The Company has recently sustained operating losses and has an accumulated deficit of \$2,063,422 at September 30, 2012. In addition, the Company has negative working capital of \$138,161, excluding non-cash prepaid stock compensation of \$328,400, at September 30, 2012.

The Company has and will continue to use significant capital to grow and acquire market share. These factors raise substantial doubt about the ability of the Company to continue as a going concern. In this regard, management is proposing to raise any necessary additional funds not provided by operations through loans or through sales of their common stock. There is no assurance that the Company will be successful in raising this additional capital or in

achieving profitable operations. The financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts or amounts and classification of liabilities that might result from this uncertainty.

NOTE 6 – INVENTORY

	September 30, 2012	December 31, 2011
Restaurant food and supplies	\$ 15,055	\$ 14,297

Depreciation expenses for the three and nine months ended September 30, 2012 were \$26,101 and \$77,633, respectively, and for the three and nine months ended September 30, 2011 were \$25,449 and \$76,062, respectively.

NOTE 9 – INCENTIVE FROM LESSOR

Landlord construction contributions usually take the form of up-front cash. Depending on the specifics of the leased space and the lease agreement, amounts paid for structural components are recorded during the construction period as leasehold improvements or the landlord construction contributions are recorded as an incentive from lessor. The incentive from lessor is amortized over the life of the lease which is 10 years.

The Company received \$590,000 from the Company's landlords as construction contributions pursuant to agreed-upon terms in its lease agreement with Westfield Century City.

The Company is currently building out its Topanga location. As of September 30, 2012, the Company received a total of \$47,500 from the landlords as construction contributions related to the Topanga lease.

NOTE 10 – STOCKHOLDERS' EQUITY

On July 15, 2010, the Company amended its articles of incorporation to increase the authorized capital from 75,000,000 common shares to 1,125,000,000 common shares. The Company has only one class of stock. All rights and privileges normally associated with stock ownership are vested in that single class of stock.

During the three months ended March 31, 2012, the Company authorized the issuance of 50,000 shares of common stock to Sean Richards related to his appointment as Chief Operating Officer of the Company. The fair value of the shares of common stock was \$209,500 which is recorded to common stock payable. As of the date of this filing, the shares have not been issued.

On June 11, 2012, the Company authorized the issuance of 25,000 shares of common stock to a third party entity in exchange for consulting services. The fair value of the shares of common stock was \$41,000, based upon the closing market price of the Company's common stock at the date the service was rendered.

RESULTS OF OPERATIONS*Results of Operations for the Three Months Ended September 30, 2012 and September 30, 2011:***REVENUE**

	Three Months Ended		Increase	
	September 30, 2012	2011	(Decrease) \$	%
Revenue:				
Food and beverage sales	\$ 199,075	\$ 175,242	\$ 23,833	13.60 %
Private party rentals	70,875	81,791	(10,916)	(13.35)%
Other sales	79,828	62,843	16,985	27.03 %
Allowances, returns and discounts	(16,741)	(28,686)	(11,945)	(41.64)%
Net sales	\$ 333,037	\$ 291,190	\$ 41,243	14.37 %

Our food and beverage sales for the three months ended September 30, 2012 were \$199,075 compared to \$175,242 in the three months ended September 30, 2011. This resulted in an increase in food and beverage sales of \$23,833, or 13.60%, from the same period a year ago. We offer a healthy alternative to typical child friendly restaurants, offering appetizing menu options that incorporate nutritious ingredients some children would normally shy away from. We are continuously evaluating and modifying our menu to accommodate guest requests. During July 2011, we obtained our liquor license and began to offer alcoholic beverages. To date, we have realized modest sales volumes related to the purchases of alcoholic beverages by our customers.

Our private party rentals for the three months ended September 30, 2012 were \$70,875 compared to \$81,791 in the three months ended September 30, 2011. This resulted in a decrease in private party rentals of \$10,916, or 13.35%, from the same period a year ago. Party rentals range from as few as 15 guests up to 200 and contribute significantly to our revenues. Private party rentals accounted for over 21% of net sales during the three months ended September 30, 2012 and over 28% in the three months ended September 30, 2011. We believe that party revenue will continue to be a significant contributor to net sales and we plan to work diligently to advertise the availability of and attract future parties. Management believes that party revenue will tend to be cyclical; the first fiscal quarter of the year is a typically slower period for parties, as there are fewer major holidays compared to the fourth quarter, for example. As a result, management expects revenues from parties to increase during the summer months and winter, while the first and third quarters may experience some weakness.

Sales from other sources include the fee we charge for guests to access our over 2,000 square-foot children's play area, sales of our one-, three- or six-month membership cards entitling entrance to the play area at a discounted price and

sales from Giggles N Hugs-branded merchandise. Other sales for the three months ended September 30, 2012 were \$79,828 compared to \$62,843 in the three months ended September 30, 2011. This resulted in an increase in sales of \$16,985, or 27.03%, from the same period a year ago. Management attributes this to our own internal marketing efforts, as well as the Westfield Century City Mall holding periodic events to boost traffic to the mall, in general.

Allowances, returns and discounts for the three months ended September 30, 2012 were \$16,741 compared to \$28,686 in the three months ended September 30, 2011. This resulted in an decrease in allowances, returns and discounts of \$11,945, or (41.64)%, from the same period a year ago. We believe 2011 allowances were higher primarily because we offered a greater number of coupons and discounts to attract customers to our location, which had only opened its doors in December 2010. We hope to reduce our reliance on the use of coupons and discounts to attract customers in future periods.

Labor. Labor expenses for the three months ended September 30, 2012 was \$97,109, a decrease of 25.86%, from the three months ended September 30, 2011. As a result, labor costs comprised 36.8% of our total expenses during the three months ended September 30, 2012, compared to 46.5% in the comparable period ended September 30, 2011. Labor costs are constantly fluctuating and any changes to minimum wages payable could adversely impact our operations.

Depreciation. Depreciation for the three months ended September 30, 2012 was \$26,101, an increase of 2.56%, from the three months ended September 30, 2011. We depreciate and amortize purchases of our ongoing capital investments and the construction and leasehold improvements related to the development of our Century City store. On March 23, 2012, we entered into a lease to develop a new location in Topanga, California, for which we expect to incur further construction costs that will be depreciated and amortized in future periods.

Executive Compensation. During the three months ended September 30, 2012, executive compensation increased \$108,783 from \$0 for the three months ended September 30, 2011.

Our management expects consulting fees to continue to decline during the fiscal year 2012. Unfortunately, there can be no assurance we will experience any such decline in consulting expenses.

Professional Expenses. Professional fees for the three months ended September 30, 2012 was \$80,320, an increase of 12.47%, from the three months ended September 30, 2011, in which we incurred \$71,412 in professional fees. These fees primarily include accounting fees, fees related to the audit of our financial statements, legal fees and fees incurred from other professional service firms. We expect to continue to incur professional fees in relation to maintaining our public reporting status with the Securities and Exchange Commission.

General and Administrative. In the normal course of our operations, we incur various expenses, including, but not limited to, legal fees, accounting fees, advertising and promotion, utilities, office supplies and postage and shipping expenses. During the three months ended September 30, 2012, general and administrative expenses were \$19,753, compared to \$109,745 in the three months ended September 30, 2011.

Our net loss before tax for the nine months ended September 30, 2012 was \$887,071, a decrease of \$12,661, or 1.41%, from \$899,732 for the nine months ended September 30, 2011. We continue to have a net loss and believe the loss will be reduced and profitability will be attained in future quarters as the popularity of our restaurants increase.

Investing activities

Net cash used in investing activities for acquisition of fixed assets was \$162,645 for the nine months ended September 30, 2012, as compared to \$40,324 used in investing activities for the same period in 2011.

Financing activities

Net cash provided by financing activities for the nine months ended September 30, 2012 was \$75,000, as compared to \$1,980,433 for the same period of 2011.

We expect to use our cash to invest in our core businesses, including new product innovations, advertising and marketing, as well as the construction and build-out of additional restaurant locations. Other than normal operating expenses, cash requirements for fiscal 2012 are expected to consist primarily of capital expenditures for the build out of our Topanga, California stores and additional investments in advertising and marketing efforts.

Off-Balance Sheet Arrangements

We did not have any off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that is material to investors.

Operation Plan

Our overall business plan is to expand and grow our restaurants and increase revenues. Subject to availability of sufficient capital, our business and strategy will be directed toward the following approaches.

Company-Owned Restaurants. One near term strategy is to explore opening company-owned and/or managed restaurants within the next twelve months. Currently, we are in discussions with The Westfield Group to potentially open new Giggles N Hugs restaurants in suitable markets within their West Coast locations. In March 2012, we signed a 10-year commercial lease for 5,900 square feet of space at The Westfield Topanga Shopping Center in the San Fernando Valley. We anticipate each location costing a total of \$1.1 million to open.

Franchising. In addition to, or in lieu of our company-owned restaurants, we believe we can efficiently grow our operations by franchising our stores to a well-qualified and financed franchising group for large scale development. Currently, we have no plans to franchise our stores unless we get an experienced franchisor to do multiple locations and that will maintain the quality, atmosphere, and reputation of our brand.

Existing Services. We plan to further market and promote our existing products and designs directly to consumers. In addition, we plan to constantly refine and improve our food products. This is ongoing. This initiative includes new menu items, new activities, and expanding our marketing through social networks like Facebook and Twitter.

New Products and Services. We are currently expanding, and intend to further expand, our product and service offerings. Some of the new products and services include:

Curb-side take-out. As with many restaurants with no drive-thru, we have established a curb-side, take-out service for our customers. Since the majority of our patrons are parents, convenient take-out is a significant factor. The ease of not having to remove kids from their car-seats when purchasing food is a significant factor for return patronage. This

service is now available at our Century City location.

Drop-off service. We offer “drop-off” service where parents can drop off their kids at our unique restaurant to play while they go shopping in the mall. Parents must agree to remain on the premises of the mall, while we supervise their children. Our play aides supervise and interact with up to four children at a time and the service costs \$14.00 per hour. This service is now available at our Century City location.

Beer/Wine license. Parents have enquired about beer and/or wine to accompany their meals. Since margins from alcoholic beverages are often high, we believe this would increase our revenues without a proportional increase in costs. We recently acquired our beer and wine license for the Century City location. This service is now available at out Century City location.

Furniture and Equipment Referrals. Parents frequently ask us where to purchase various furniture, fixtures, toys, and equipment inside our play area. We are in discussions with a baby products supplier to potentially receive commissions for each referral. We have been in active discussions with manufacturers but have not come to any definitive agreement.

Baby food. As part of our branding, we may add Giggles N Hugs baby foods for toddlers too young for solid foods. We already offer mashed bananas, and pureed butternut squash. Currently, we are not planning on the branding initiative at this time.

Merchandising. We intend to sell books, stuffed animals, toys, cups, t-shirts, and balls all with the Giggles N Hugs logo. We are in active discussions with potential manufacturers and licensing agencies but we are 6 to 12 months away from any products.

Gift Certificates. We offer gift certificates of different denominations for people of all ages.

Without sufficient cash flow from operations we will require additional cash resources, including the sale of equity or debt securities, to meet our planned capital expenditures and working capital requirements for the next 12 months. We will require additional cash resources due to changed business conditions, implementation of our strategy to successfully expand our operations. If our own financial resources and then current cash-flows from operations are insufficient to satisfy our capital requirements, we may seek to sell additional equity or debt securities or obtain additional credit facilities. The sale of additional equity securities will result in dilution to our stockholders. The incurrence of indebtedness will result in increased debt service obligations and could require us to agree to operating and financial covenants that could restrict our operations or modify our plans to grow the business. Financing may not be available in amounts or on terms acceptable to us, if at all. Any failure by us to raise additional funds on terms favorable to us, or at all, will limit our ability to expand our business operations and could harm our overall business prospects.

Item 3. Quantitative and Qualitative Disclosure About Market Risk

This item is not applicable as we are currently considered a smaller reporting company.

Item 4T. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Our Principal Executive Officer and Principal Financial Officer, Joey Parsi, has evaluated the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended) as of the end of the period covered by this Report. Based on his evaluation, he concluded that our disclosure controls and procedures are not designed at a reasonable assurance level and are not effective to provide reasonable assurance that information we are required to disclose in the reports that we file or submit under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management, including our principal executive officer and principal financial officer, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Control Over Financial Reporting

There were no changes in our internal control over financial reporting that occurred during our most recent fiscal quarter that have materially affected, or reasonably likely to materially affect, our internal control over financial reporting.

Limitations on Effectiveness of Controls and Procedures

In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives. In addition, the design of disclosure controls and procedures must reflect the fact that there are resource constraints and that management is required to apply its judgment in evaluating the benefits of possible controls and procedures relative to their costs.

PART II—OTHER INFORMATION

Item 1. Legal Proceedings.

The Company, the Company's CEO, Joey Parsi, and a third party, were named in a complaint filed on July 19, 2012 in the Los Angeles Superior Court by Alex Nerush and Preferred Scan, Inc., that alleges fraud, negligent misrepresentation, sale of securities by unlicensed broker, sale of securities by means of false and misleading statements, and money had and received.

The Company does not believe there is any merit to the allegations and will vigorously defend this action. Furthermore, on September 24, 2012 the Company and the Company's CEO, Joey Parsi counter-sued Richard Steele, Jr., Donald Stoecklein, Anthony Risas for breach of fiduciary duty, breach of contract, negligence and negligent misrepresentation, fraud and indemnity.

As of the date of this Report, the Company was not subject to any other material legal proceedings. From time to time, however, the Company is named as a defendant in legal actions arising from normal business activities. Although the Company cannot accurately predict the amount of its liability, if any, that could arise with respect to currently pending legal actions, it is not expected that any such liability will have a material adverse effect on the Company's financial

position, operating results or cash flows.

Item 1A. Risk Factors

Our significant business risks are described in Item 1A to Form 10-K for the year ended December 31, 2011 to which reference is made herein.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

Stock Issuances

On August 22, 2012, we authorized the issuance of 75,000 shares of common stock to an investor in conjunction with a \$75,000 private placement. As of the date of this filing, the shares have not been issued.

We believe that the issuance and sale of the above securities was exempt from the registration and prospectus delivery requirements of the *Securities Act of 1933* by virtue of Section 4(2) and Regulation D Rule. The securities were sold directly by us and did not involve a public offering or general solicitation. The recipients of the securities were afforded an opportunity for effective access to files and records of the Company that contained the relevant information needed to make their investment decision, including the financial statements and *34 Act reports*. We reasonably believed that the recipients, immediately prior to the sale of the securities, were accredited investors and had such knowledge and experience in our financial and business matters that they were capable of evaluating the merits and risks of their investment. The management of the recipients had the opportunity to speak with our management on several occasions prior to their investment decision. There were no commissions paid on the issuance and sale of the securities.

Issuer Purchases of Equity Securities

We did not repurchase any of our equity securities from the time of our inception through the period ended September 30, 2012.
