Company Overview

We produce digital video imaging and storage products for use in law enforcement, security and commercial applications. Our current products are an in-car digital video/audio recorder contained in a rear-view mirror for use in law enforcement and commercial fleets, a system that provides our law enforcement customers with audio/video surveillance from multiple vantage points and hands-free automatic activation of body-worn cameras and in-car video systems; a miniature digital video system designed to be worn on an individual’s body; and cloud storage solutions including cloud-based fleet management and driver monitoring/training applications. We have active research and development programs to adapt our technologies to other applications. We have the ability to integrate electronic, radio, computer, mechanical, and multi-media technologies to create unique solutions to address needs in a variety of other industries and markets, including mass transit, school bus, taxi cab and the military. We sell our products to law enforcement agencies and other security organizations, and consumer and commercial fleet operators through direct sales domestically and third-party distributors internationally. We have several new and derivative products in research and development that we anticipate will begin commercial production during the remainder of 2018 and 2019.

Our Products

We produce and sell digital audio/video recording, storage and other products in law enforcement and commercial applications. These product series have been used primarily in law enforcement and private security applications, both of which use the core competency of our technology in digital video compression, recording and storage. In 2011, we introduced several derivative products as “event recorders” that can be used in taxi cab, limousine, ambulance and other commercial fleet vehicle applications which served to greatly diversify our addressable market. Our commercial products have also been utilized by off-airport parking service providers, cruise lines, education and NASCAR races among a diverse group of other commercial applications. We also intend to produce and sell other digital video products in the future that will continue to expand our reach beyond the traditional law enforcement, private security and commercial fleet applications. We have developed and continue to develop both local server and cloud-based

storage, archiving and search capabilities that provide customers with innovative, useful and secure methods to store and maintain their audio/video data. These products incorporate our standards-based digital compression capability that allows the recording of significant time periods on a chip and circuit board which can be designed into small forms and stored.

Corporate History

We were incorporated in Nevada on December 13, 2000 as Vegas Petra, Inc. From that date until November 30, 2004, when we entered into a Plan of Merger with Digital Ally, Inc., a Nevada corporation which was formerly known as Trophy Tech Corporation (the “Acquired Company”), we had not conducted any operations and were a closely-held company. In conjunction with the merger, we were renamed Digital Ally, Inc.

The Acquired Company, which was incorporated on May 16, 2003, engaged in the design, development, marketing and sale of bow hunting-related products. Its principal product was a digital video recording system for use in the bow hunting industry. It changed its business plan in 2004 to adapt its digital video recording system for use in the law enforcement and security markets. We began shipments of our in-car digital video rear view mirror in March 2006.

On January 2, 2008, we commenced trading on NASDAQ under the symbol “DGLY”. We conduct our business from 9705 Loiret Boulevard, Lenexa, Kansas 66219.

Recent Developments

Strategic Review and Subsequent Financing

The Company’s board of directors (the “Board of Directors”) has initiated a review of strategic alternatives to best position the Company for the future, including, but not limited to, monetizing its patent portfolio and related patent infringement litigation against Axon Enterprises, Inc. (formerly known as Taser International, Inc.) (“Axon”) and Enforcement Video, LLC dba WatchGuard Video (“Watchguard”), the sale of all or certain assets, properties or groups of properties or individual businesses or merger or combination with another company. The result of the strategic review may also include the continued implementation of the Company’s business plan with additional debt or equity financing. The Company retained Roth to assist in this review and process. Thus, the Company is considering alternatives to address its near-term and long-term liquidity and operational issues. There can be no assurance that a transaction or financing will result from this process. As part of this strategic alternatives process, the Board of Directors approved the July 2018 Proceeds Investment Agreement, described below. Management believes this financing will address the Company’s near-term liquidity needs, which primarily included the repayment of principal and interest on the senior convertible debentures and subordinated notes payable.

On July 31, 2018, the Company entered into a Proceeds Investment Agreement (the “July 2018 Proceeds Investment Agreement”) with Brickell Key Investments LP (“BKI”), pursuant to which BKI funded an aggregate of \$500,000 (the “First Tranche”) to be used (i) to fund the Company’s litigation proceedings relating to the infringement of certain patent assets listed in the July 2018 Proceeds Investment Agreement and (ii) to repay the Company’s existing debt obligations and for certain working capital purposes set forth in the July 2018 Proceeds Investment Agreement. Pursuant to the July 2018 Proceeds Investment Agreement, BKI was granted an option to provide the Company with an additional \$9.5 million, at BKI’s sole discretion (the “Second Tranche”). On August 21, 2018, BKI exercised such option to fund the Second Tranche.

On September 28, 2018, the Company announced that it had completed a firm commitment underwritten public offering (the “Offering”) for an aggregate of 2,400,000 shares of Common Stock at a public price of \$3.05 per share. The Company granted the underwriters for the Offering a forty-five (45)-day option to purchase up to an additional 360,000 shares of Common Stock to cover over-allotments, if any. We expect the gross proceeds from the Offering to be approximately \$7.32 million without any consideration of the 360,000 shares of Common Stock to cover over-allotments, if any. The Company expects additional gross proceeds of \$1.098 million should the over-allotment option be exercised in full by such underwriters. The Company intends to use the net proceeds for working capital and general corporate purposes.

Furthermore, on September 28, 2018, the underwriters for the Offering exercised the over-allotment option to acquire an additional 200,000 shares of Common Stock at \$3.05 per share. The partial exercise of the over-allotment option resulted in additional gross proceeds of \$610,000, which the Company intends to use for working capital and general corporate purposes.

Market symbol and trading Our Common Stock is listed on NASDAQ under the symbol “DGLY”. There is no established trading market for the Warrants and we do not expect a trading market to develop. We do not intend to list the Warrants on any securities exchange or other trading market. Without a trading market, the liquidity of the Warrants will be extremely limited.

Risk factors Investing in our securities involves a high degree of risk. You should read the “Risk Factors” section on page 5 of this prospectus for a discussion of factors to consider before deciding to invest in the units.

RISK FACTORS

An investment in our securities involves a high degree of risk. Before making an investment decision, you should carefully consider the risks described below and under “Risk Factors” in any applicable prospectus supplement and in our most recent Annual Report on Form 10-K, and in our updates to those Risk Factors in our most recent Prospectus Supplement filed pursuant to Rule 424(b)(5) of the Securities Act, Quarterly Reports on Form 10-Q or Current Reports on Form 8-K following the most recent Form 10-K, and in all other information appearing in this prospectus or incorporated by reference into this prospectus and any applicable prospectus supplement. The material risks and uncertainties that management believes affect us will be described in those documents. In addition to those risk factors, there may be additional risks and uncertainties of which management is not aware or focused on or that management deems immaterial. Our business, financial condition or results of operations could be materially adversely affected by any of these risks. The trading price of our securities could decline due to any of these risks, and you may lose all or part of your investment. This prospectus is qualified in its entirety by these risk factors herein.

Risks Relating to our Common Stock and this Offering

The possible issuance of Common Stock subject to options, notes, and warrants may dilute the interest of stockholders.

We had granted options to purchase a total of 434,637 shares of Common Stock under our stock option and restricted stock plans and issued Common Stock purchase warrants for the purchase of 4,699,645 shares of Common Stock, which are outstanding and unexercised as of October 9, 2018. The foregoing figures include the Warrants, which in the aggregate, permit the holders of such securities the right to exercise such Warrants to purchase 1,175,712 shares of Common Stock. To the extent that outstanding stock options and our warrants are exercised, dilution to the interests of our stockholders may occur. Moreover, the terms upon which we will be able to obtain additional equity capital may be adversely affected since the holders of the outstanding options can be expected to exercise them at a time when we would, in all likelihood, be able to obtain any needed capital on terms more favorable to us than those provided in such outstanding options.

We have never paid dividends and have no plans to in the future.

Holders of shares of Common Stock are entitled to receive dividends as may be declared by our Board of Directors. To date, we have paid no cash dividends on the issued and outstanding Common Stock and we do not expect to pay cash dividends in the foreseeable future. We intend to retain future earnings, if any, to provide funds for operation of our business. Therefore, any return investors in our Common Stock will have to be in the form of appreciation, if any, in the market value of their shares of Common Stock.

We have additional securities available for issuance, which, if issued, could adversely affect the rights of the holders of our Common Stock.

Our amended and restated articles of incorporation (“Articles of Incorporation”) authorize the issuance of 50,000,000 shares of capital stock, which all are classified as Common Stock. The Common Stock can be issued by our Board of Directors without stockholder approval. Any future issuances of equity would further dilute the percentage ownership of us held by our stockholders.

Our stock price is likely to be highly volatile because of several factors, including a limited public float.

The market price of our Common Stock is likely to be highly volatile because there has been a relatively thin trading market for our stock, which causes trades of small blocks of stock to have a significant impact on our stock price. You may not be able to resell shares of our Common Stock following periods of volatility because of the market’s adverse reaction to volatility.

Other factors that could cause such volatility may include, among other things:

digital video in-car recording products not being accepted by the law enforcement industry or digital video recording not being accepted as evidence in criminal proceedings;
acceptance of our new products in the marketplace and, in particular, in the commercial market;
actual or anticipated fluctuations in our operating results;
the potential absence of securities analysts covering us and distributing research and recommendations about us;
overall stock market fluctuations;
economic conditions generally and in the law enforcement and security industries in particular;
announcements concerning our business or those of our competitors or customers;
our ability to raise capital when we require it, and to raise such capital on favorable terms;
we have no institutional line-of-credit available to fund our operations and we may be unable to obtain a line of credit under terms that are mutually agreeable;
changes in financial estimates by securities analysts or our failure to perform as anticipated by the analysts;
announcements of technological innovations;
conditions or trends in the industry;
litigation;
changes in market valuations of other similar companies;
announcements by us or our competitors of new products or of significant technical innovations, contracts, acquisitions, strategic partnerships or joint ventures;
future sales of Common Stock;
actions initiated by the SEC or other regulatory bodies;
existence or lack of patents or proprietary rights;
changes in accounting standards, policies, guidance, interpretations or principles;
statements or changes in opinions, ratings or earnings estimates made by brokerage firms or industry analysts relating to the markets in which we operate or expect to operate;
departure of key personnel or failure to hire key personnel; and
general market conditions.

Any of these factors could have a significant and adverse impact on the market price of our Common stock. In addition, the stock market in general has at times experienced extreme volatility and rapid decline that has often been unrelated or disproportionate to the operating performance of particular companies. These broad market fluctuations may adversely affect the trading price of our Common Stock, regardless of our actual operating performance.

The market for our Common Stock is sometimes limited and may not provide adequate liquidity.

At times our Common Stock has been thinly traded on NASDAQ. On many days, the trading volume can be relatively small, which meant there was limited liquidity in our shares of Common Stock. Selling our shares during such periods is more difficult because smaller quantities of shares are bought and sold and news media coverage about us can be limited. These factors have at times resulted in a limited trading market for our Common Stock and therefore holders

of our stock may have been unable to sell shares purchased, if they desired to do so.

If we are not able to comply with the applicable continued listing requirements or standards of NASDAQ, NASDAQ could delist our common stock.

Our common stock is currently listed on NASDAQ. In order to maintain that listing, we must satisfy minimum financial and other continued listing requirements and standards, including those regarding director independence and independent committee requirements, minimum stockholders' equity, minimum share price, and certain corporate governance requirements. There can be no assurances that we will be able to comply with the applicable listing standards.

In the event that our common stock is delisted from NASDAQ and is not eligible for quotation on another market or exchange, trading of our common stock could be conducted in the over-the-counter market or on an electronic bulletin board established for unlisted securities such as the Pink Sheets or the OTC Bulletin Board. In such event, it could become more difficult to dispose of, or obtain accurate price quotations for, our common stock, and there would likely also be a reduction in our coverage by securities analysts and the news media, which could cause the price of our common stock to decline further. Also, it may be difficult for us to raise additional capital if we are not listed on a major exchange. On April 17, 2018, the Company was officially notified by Nasdaq that it that it did not comply with Listing Rule 5550(b) (the "Rule"), which requires a minimum \$2,500,000 stockholders' equity, among other continued listing criteria. The Company has been granted an extension necessary to demonstrate compliance no later than the filing of its Quarterly Report on Form 10-Q as of September 30, 2018. If the Company fails to achieve compliance with the Rule, the Company may be delisted from Nasdaq. In the event we are delisted from Nasdaq, our common stock may lose liquidity, increase volatility, and lose market maker support.

The sale of a substantial amount of our Common Stock, including resale of the shares of Common Stock issuable upon the exercise of Warrants being offered hereunder could adversely affect the prevailing market price of our Common Stock and cause stockholders to experience dilution.

We have outstanding an aggregate of 10,361,234 shares of our Common Stock as of October 9, 2018. The Warrants being registered under this prospectus are exercisable for an aggregate of 1,175,712 shares of Common Stock, subject to adjustment as provided in the Warrants. The Warrants are exercisable at any time. Upon such registration, these registered shares will become generally available for immediate resale. Sales of substantial amounts of shares of our Common Stock in the public market, or the perception that such sales might occur, could adversely affect the market price of our Common Stock, and the market value of our other securities, and could result in dilution to shareholders who hold our Common Stock. A substantial number of shares of Common Stock are being offered by this prospectus, and we cannot predict if and when the Selling Stockholders may sell such shares in the public markets. In addition, certain holders of shares of our Common Stock have additional rights, subject to some conditions, to require us to file registration statements covering the sale of their shares or to include their shares in registration statements that we may file for ourselves or other stockholders. As a result, the additional sale of shares into the market may result in additional volatility and downward pressure on the price of our Common Stock.

Factors that could cause or contribute to our actual results differing materially from those discussed herein or for our stock price to be adversely affected include, but are not limited to: (1) our losses in recent years, including fiscal 2017 and 2016, and our ability to pay certain senior secured convertible debt issued in April 2017 and in connection with the June 2017 Purchase Agreement and the December 2017 Purchase Agreement, when due; (2) macro-economic risks from the effects of the decrease in budgets for the law-enforcement community; (3) our ability to increase revenues, increase our margins and return to consistent profitability in the current economic and competitive environment, including whether deliveries will resume under our contract with American Medical Response; (4) our operation in developing markets and uncertainty as to market acceptance of our technology and new products; (5) the availability of funding from federal, state and local governments to facilitate the budgets of law enforcement agencies, including the timing, amount and restrictions on such funding; (6) our ability to deliver our new product offerings as scheduled in 2018 and have such new products perform as planned or advertised; (7) whether we will be able to

The shares of common stock offered by the Selling Stockholders pursuant to this prospectus were issued, or will be issuable, in connection with the following transactions described below:

July 2018 Proceeds Investment Agreement

On July 31, 2018, the Company entered into a Proceeds Investment Agreement (the “July 2018 Proceeds Investment Agreement”) with Brickell Key Investments LP (“BKI”), pursuant to which BKI funded an aggregate of \$500,000 (the “First Tranche”) to be used (i) to fund the Company’s litigation proceedings relating to the infringement of certain patent assets listed in the July 2018 Proceeds Investment Agreement and (ii) to repay the Company’s existing debt obligations and for certain working capital purposes set forth in the July 2018 Proceeds Investment Agreement. Pursuant to the July 2018 Proceeds Investment Agreement, BKI was granted an option to provide the Company with an additional \$9.5 million, at BKI’s sole discretion (the “Second Tranche”). On August 21, 2018, BKI exercised such option to fund the Second Tranche. Pursuant to the July 2018 Proceeds Investment Agreement, the Company issued BKI a warrant to purchase up to 465,712 shares of Common Stock (the “July 2018 Warrant”), at an exercise price equal to the higher of (i) \$2.60 per share or (ii) the closing market price as quoted on the Trading Market (as defined in the July 2018 Warrant) on the day prior to the issuance date of the July 2018 Warrant, provided that the holder of the July 2018 Warrant will be prohibited from exercising the July 2018 Warrant if, as a result of such exercise, such holder, together with its affiliates, would own more than 4.99% of the total number of shares of Common Stock outstanding immediately after giving effect to such exercise. However, such holder may increase or decrease such percentage to any other percentage not in excess of 9.99%, provided that any increase in such percentage shall not be effective until 61 days after such notice to the Company. The July 2018 Warrant is exercisable for five years from the date of issuance and is exercisable on a cashless exercise basis if there is no effective registration statement. No contractual registration rights were given.

June 2017 Private Placement

On June 30, 2017, the Company borrowed an aggregate of \$700,000 under two unsecured promissory notes (the “June 2017 Notes”) with two private, third-party lenders. The June 2017 Notes bore interest of 8% per annum with all principal and accrued interest due on or before their September 30, 2017 maturity date and may be prepaid without penalty at any time. The June 2017 Notes are unsecured and subordinated to all existing and future senior indebtedness, as such term is defined in the June 2017 Notes. In connection with the issuance of the June 2017 Notes, the Company issued such lenders warrants exercisable to purchase a total of 200,000 shares of Common Stock at an exercise of \$3.65 per share and an expiration date of June 29, 2022. On September 30, 2017, the Company negotiated an extension of the maturity date of one of the June 2017 Notes to December 31, 2017 and then a second extension to March 31, 2018. In connection with the first extension, the Company issued warrants to purchase 100,000 shares of common stock at \$2.60 per share until November 15, 2022 (the “November 2017 Warrants”). On March 16, 2018, the

Company issued warrants to purchase 60,000 shares of stock at \$3.25 per share until March 15, 2029 for the subsequent extension. On November 15, 2017, in connection with the extension of the second June 2017 Note, the Company issued a warrant to purchase 100,000 shares of stock at \$2.60 per share and on March 16, 2018 in connection with a second extension of the second June 2017 Note, the Company issued warrants to purchase 60,000 shares at \$3.25 per share. On April 3, 2018, the Company retired the second June 2017 Note, which had a principal balance of \$350,000.

August 2017 Private Placement

The Company entered into a Securities Purchase Agreement, dated August 21, 2017, with institutional investors (the “August 2017 Purchase Agreement”) pursuant to which the Company agreed to issue and sell, in registered direct offering, an aggregate of 940,000 shares of Common Stock at an offering price of \$3.00 and Series B warrants to purchase shares of Common Stock (the “Series B Warrants”), for gross proceeds of \$3 million, before the deduction of the placement agent fee and offering expenses. For each share of Common Stock purchased, such investors received two registered warrants, each with an exercise price of \$3.36 per share (the “Series A-1 Warrants” and the “Series A-2 Warrants”). The Series A-1 Warrants are exercisable to purchase up to an aggregate of 680,000 shares of Common Stock (or 0.68 warrant shares per share of Common Stock purchased) and have a term of five (5) years commencing six (6) months following the closing date. The Series A-2 Warrants are exercisable to purchase an aggregate of 200,000 shares of Common Stock (or 0.20 warrant shares per share of Common Stock purchased) and have a term of five (5) years. Additionally, the Company issued to certain of the investors, in lieu of shares of Common Stock at closing, the Series B Warrants that are immediately exercisable to purchase 60,000 shares of Common Stock for which the investors paid \$2.99 per share at the closing and will pay \$0.01 per share upon exercise of the Series B Warrants so that such investors’ beneficial interest would not exceed 9.9% of the issued and outstanding shares of Common Stock. The Series B Warrants terminate upon their exercise in full. In addition, in connection with the August 2017 Purchase Agreement, the placement agents for such offering received warrants to purchase an aggregate of 94,000 shares of Common Stock, which warrants are exercisable at a price of \$3.75 per share, have an initial exercise date of February 23, 2018 and are exercisable until August 21, 2022. Other than as described, such warrants have substantially the same terms as the Series A-1 Warrants and the Series A-2 Warrants.

September 2017 Private Placement

On September 29, 2017, the Company borrowed \$300,000 under an unsecured note payable with a private, third party lender (the “September 2017 Note”). The September 2017 Note bore interest at 8% per annum and was due and payable in full on November 30, 2017 and could be prepaid without penalty. The September 2017 Note was unsecured and subordinated to all existing and future senior indebtedness other than on intellectual property, as such term is defined in the June September 2017 Note. In connection with the issuance of the September 2017 Note, the Company issued such lender warrants which were immediately exercisable to purchase an aggregate of 100,000 shares of Common Stock at an exercise of \$2.75 per share and which expire on September 30, 2022. On April 3, 2018, the Company retired the September 2017 Note, which had a principal balance of \$300,000.

December 2017 Private Placement

On December 29, 2017, the Company borrowed \$350,000 with the same private, third party lender that was issued the September 2017 Note and combined such note into a new secured promissory note (the “December 2017 Note”) with a principal balance of \$658,500 as of such date that was due and payable in full on March 1, 2018 and may be prepaid without penalty. The December 2017 Note is secured by the Company’s intellectual property portfolio, as such term is defined in the related security agreement entered into in connection with the issuance of such note. In connection with issuance of the December 2017 Note, the Company issued such lender additional warrants which were immediately exercisable to purchase an aggregate of 120,000 shares of common stock at an exercise price of \$3.25 per share and which expire on December 28, 2022. On April 3, 2018, the Company retired the December 2017 Note.

March 2018 Private Placements

On March 7, 2018, the Company borrowed \$250,000 under a secured promissory note payable with a private, third party lender (the “March 2018 Note”). The March 2018 Note bears interest at 12% per annum and is due and payable in full on June 7, 2018. The March 2018 Note is secured by the inventory of the Company and junior to senior liens held by the holders of the certain 8% Secured Convertible Debentures issued by the Company in December 2016 and subordinated to all existing and future senior indebtedness, as such term was defined in the March 2018 Note. The March 2018 Note is convertible at any time after its date of issue at the option of the holder into shares of the Common Stock at \$3.25 per share and matures on June 7, 2018. In connection with the issuance of the March 2018 Note, the Company issued warrants to such lender exercisable to purchase 36,000 shares of Common Stock at \$3.50 per share until March 7, 2019. On September 20, 2018, the Company retired the March 2018 Note.

SELLING STOCKHOLDERS

The table below lists the Selling Stockholders and other information regarding the “beneficial ownership” of the shares of Common Stock by the Selling Stockholders. In accordance with Rule 13d-3 of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), “beneficial ownership” includes any shares of Common Stock as to which the Selling Stockholders have sole or shared voting power or investment power and any shares of Common Stock the Selling Stockholders have the right to acquire within sixty (60) days (including shares of Common Stock issuable upon exercise of the Warrants currently exercisable or exercisable within sixty (60) days).

The second column indicates the number of shares of Common Stock beneficially owned by the Selling Stockholders, based on their respective ownership as of October 9, 2018. The second column also assumes the exercise of all Warrants held by the Selling Stockholders on October 9, 2018, without regard to any limitations on exercise described in this prospectus or in such Warrants.

The third column lists the shares of Common Stock being offered by this prospectus by the Selling Stockholders. Such aggregate amount of Common Stock does not take into account any applicable limitations on exercise of the Warrants.

This prospectus covers the resale of (i) all of the shares of Common Stock issued and issuable upon exercise of the Warrants, (ii) any additional shares of Common Stock issued and issuable in connection with the Warrants (in each case without giving effect to any limitations on exercise) and (iii) any securities issued or then issuable upon any stock split, dividend or other distribution, recapitalization or similar event with respect to the Warrants.

Because the exercise price of the Warrants may be adjusted, the number of shares of Common Stock that will actually be issued upon exercise of the Warrants may be more or less than the number of shares of Common Stock being offered by this prospectus. The Selling Stockholders can offer all, some or none of its shares of Common Stock, thus we have no way of determining the number of shares of Common Stock it will hold after this offering. Therefore, the fourth and fifth columns assume that the Selling Stockholders will sell all shares of Common Stock covered by this prospectus. See “Plan of Distribution.”

Material Relationships with Selling Stockholders

In addition to the transactions described above in “Issuance of Warrants”, we have had the following material relationships with the Selling Stockholders in the last three (3) years: The Company has been party to various investment banking and similar arrangements with WestPark Capital, LLC pursuant to which WestPark Capital, LLC

has been paid banking fees and expenses.

USE OF PROCEEDS

The Selling Stockholders will receive all of the proceeds from the sale of shares of Common Stock under this prospectus. We will not receive any proceeds from these sales. However, to the extent the Warrants are exercised for cash, we will receive up to \$3,539,351. The Selling Stockholders will pay any agent's commissions and expenses they incur for brokerage, accounting, tax or legal services or any other expenses they incur in disposing of the shares of Common Stock. We will bear all other costs, fees and expenses incurred in effecting the registration of the shares of Common Stock covered by this prospectus and any prospectus supplement. These may include, without limitation, all registration and filing fees, SEC filing fees and expenses of compliance with state securities or "blue sky" laws.

PLAN OF DISTRIBUTION

The Selling Stockholders and any of their respective pledgees, assignees and successors-in-interest may, from time to time, sell any or all of their securities covered hereby on any trading market, stock exchange or other trading facility on which the securities are traded or in private transactions. These sales may be at fixed or negotiated prices. The Selling Stockholders may use any one or more of the following methods when selling securities:

ordinary brokerage transactions and transactions in which the broker-dealer solicits purchasers;

block trades in which the broker-dealer will attempt to sell the securities as agent but may position and resell a portion of the block as principal to facilitate the transaction;

purchases by a broker-dealer as principal and resale by the broker-dealer for its account;

an exchange distribution in accordance with the rules of the applicable exchange;

privately negotiated transactions;

settlement of short sales;

in transactions through broker-dealers that agree with the Selling Stockholders to sell a specified number of such securities at a stipulated price per security;

through the writing or settlement of options or other hedging transactions, whether through an options exchange or otherwise;

a combination of any such methods of sale; or

any other method permitted pursuant to applicable law.

The Selling Stockholders may also sell securities under Rule 144 under the Securities Act, if available, rather than under this prospectus.

Broker-dealers engaged by the Selling Stockholders may arrange for other brokers-dealers to participate in sales. Broker-dealers may receive commissions or discounts from the Selling Stockholders (or, if any broker-dealer acts as agent for the purchaser of securities, from the purchaser) in amounts to be negotiated, but, except as set forth in a supplement to this prospectus, in the case of an agency transaction not in excess of a customary brokerage commission in compliance with FINRA Rule 2440; and in the case of a principal transaction a markup or markdown in compliance with FINRA IM-2440.

In connection with the sale of the securities covered hereby, the Selling Stockholders may enter into hedging transactions with broker-dealers or other financial institutions, which may in turn engage in short sales of the securities in the course of hedging the positions they assume. The Selling Stockholders may also sell securities short and deliver these securities to close out their short positions, or loan or pledge the securities to broker-dealers that in turn may sell these securities. The Selling Stockholders may also enter into option or other transactions with broker-dealers or other financial institutions or create one or more derivative securities which require the delivery to such broker-dealer or other financial institution of securities offered by this prospectus, which securities such broker-dealer or other financial institution may resell pursuant to this prospectus (as supplemented or amended to reflect such transaction).

The Selling Stockholders and any broker-dealers or agents that are involved in selling the securities may be deemed to be “underwriters” within the meaning of the Securities Act in connection with such sales. In such event, any commissions received by such broker-dealers or agents and any profit on the resale of the securities purchased by them may be deemed to be underwriting commissions or discounts under the Securities Act. Each Selling Stockholder has informed us that it does not have any written or oral agreement or understanding, directly or indirectly, with any person to distribute the securities.

We are required to pay certain fees and expenses incurred by us incident to the registration of the securities. We have agreed to indemnify the Selling Stockholders against certain losses, claims, damages and liabilities, including liabilities under the Securities Act.

Because the Selling Stockholders may be deemed to be an “underwriter” within the meaning of the Securities Act, it will be subject to the prospectus delivery requirements of the Securities Act, including Rule 172 thereunder. In addition, any securities covered by this prospectus which qualify for sale pursuant to Rule 144 under the Securities Act may be sold under Rule 144 rather than under this prospectus. Each Selling Stockholder has advised us that there is no underwriter or coordinating broker acting in connection with the proposed sale of the resale securities by the Selling Stockholder.

We agreed to keep this prospectus effective until the earlier of (i) the date on which the securities may be resold by the Selling Stockholders without registration and without regard to any volume or manner-of-sale limitations by reason of Rule 144, without the requirement for us to be in compliance with the current public information requirement under Rule 144 under the Securities Act or any other rule of similar effect or (ii) all of the securities have been sold pursuant to this prospectus or Rule 144 under the Securities Act or any other rule of similar effect. The resale securities will be sold only through registered or licensed brokers or dealers if required under applicable state securities laws. In addition, in certain states, the resale securities covered hereby may not be sold unless they have been registered or qualified for sale in the applicable state or an exemption from the registration or qualification requirement is available and is complied with.

Under applicable rules and regulations under the Exchange Act, any person engaged in the distribution of the resale securities may not simultaneously engage in market making activities with respect to the Common Stock for the applicable restricted period, as defined in Regulation M, prior to the commencement of the distribution. In addition, the Selling Stockholders will be subject to applicable provisions of the Exchange Act and the rules and regulations thereunder, including Regulation M, which may limit the timing of purchases and sales of the Common Stock by the Selling Stockholders or any other person. We will make copies of this prospectus available to the Selling Stockholders and have informed the Selling Stockholders of the need to deliver a copy of this prospectus to each purchaser at or prior to the time of the sale (including by compliance with Rule 172 under the Securities Act).
