EXPLANATORY NOTE

This Amendment No. 1 hereby amends our Quarterly Report on Form 10-Q (Form 10-Q/A) for the period ended March 31, 2012, which was originally filed with the Securities and Exchange Commission on May 15, 2012 (the Original 10-Q). This Amendment is being filed mainly to include restated financial statements as described in Note 2, Restatement of Previously Issued Financial Statements of the Notes to the condensed consolidated financial statements. The condensed consolidated financial statements are being restated to reflect the following:

On August 26, 2013, after consulting with the Company s Audit Committee and with the Company s newly appointed Independent Registered Public Accounting Firm, Marcum LLP, management changed its accounting for certain of the Company s warrants previously issued in connection with preferred stock and common stock and conversion features related to previously issued convertible notes which were recorded in periods prior to the engagement of Marcum LLP in order to comply with US GAAP. Such warrants and the embedded conversion options should have been reflected as liabilities on the consolidated balance sheets included in the Original 10-Q, rather than as a component of equity.

Specifically, the change in treatment of the warrants and the conversion feature embedded in certain convertible notes resulted in a change to the equity, and liability portions of the consolidated balance sheets as of March 31, 2012 and resulted in a loss on the fair value of the derivative liabilities which impacted our results of operations and earnings (loss) per share as reported in our Original 10-Q.

In addition, the Company has concluded that these accounting changes constitute an additional deficiency in the Company s internal control over financial reporting as of March 31, 2012 and that its disclosure controls and procedures were not effective as of March 31, 2012.

The following sections of this Form 10-Q/A have been amended to reflect the restatement:

- Part I Item 1 Financial Statements and Notes to the Condensed Consolidated Financial Statements;
- Part I Item 2 Management s Discussion and Analysis of Financial Condition and Results of Operations; and
- Part I Item 4 Controls and Procedures.

For the convenience of the reader, this Form 10-Q/A sets forth the Original 10-Q in its entirety, as amended by, and to reflect the restatements, as described above. Except as described above, the Company has not modified or updated

Edgar Filing: BLUE CALYPSO, INC. - Form 10-Q/A

disclosures presented in this Amendment No. 1. Accordingly, this Amendment No. 1 does not reflect events occurring after the Original 10-Q or modify or update those disclosures affected by subsequent events, except as specifically referenced herein. Information not affected by the restatements is unchanged and reflects the disclosures made at the time of filing of the Original 10-Q.

This Form 10-Q/A has been signed as of a current date and all certifications of the Company's Chief Executive Officer/Principal Executive Officer and Chief Financial Officer/Chief Accounting Officer and Principal Financial Officer are given as of a current date. Accordingly, this Form 10-Q/A should be read in conjunction with the Company's filings with the Securities and Exchange Commission subsequent to the filing of the Original 10-Q, including any amendments to those filings.

BLUE CALYPSO, INC. AND SUBSIDIARY

(A DEVELOPMENT STAGE COMPANY)

NOTES TO FINANCIAL STATEMENTS

MARCH 31, 2012

(unaudited) (restated)

1. Organization and Nature of Business

Blue Calypso Holdings, Inc. (a development stage company) a Texas corporation (BCHI), was formed in February 2010 as an investment entity to hold a 100% single-member ownership interest in Blue Calypso, LLC, a Texas Limited Liability Company formed on September 11, 2009. The companies are under common control.

On September 1, 2011, BCHI executed a share exchange agreement and merged with a public shell company Blue Calypso Acquisition, Corp., a wholly-owned subsidiary of Blue Calypso, Inc. (formerly known as JJ&R Ventures, Inc.). The Merger was accounted for as a reverse-merger and recapitalization in accordance with the generally accepted accounting principles in the United States. BCHI is the acquirer for financial reporting purposes and Blue Calypso, Inc. is the acquired company. Consequently, the assets and liabilities and the operations that will be reflected in the historical financial statements prior to the Merger will be those of BCHI and will be recorded at its historical cost basis. The operations after completion of the Merger include those of BCHI and Blue Calypso Inc. Common stock and corresponding capital amounts of BCHI pre-merger have been retroactively restated as capital stock shares reflecting the exchange ratio in the Merger. On December 16, 2011 Blue Calypso Holdings, Inc. was merged into its 100% sole-owner, Blue Calypso, Inc.

The Company is a mobile and social media marketing company that activates and measures branded word of mouth campaigns through consumers personal texts, posts and tweets between friends. The Company activates a friend to friend distribution of branded marketing campaigns by motivating brand loyalists to personally endorse and share these campaigns with their digital social streams. The Company compensates them for their reach with cash, prizes and VIP perks. Marketers enjoy the power of measured personal endorsements that generate buzz, ignite conversation, drive purchase intent, increase loyalty and attract new customers by leveraging the power of social influence.

2. Restatement of Previously Issued Financial Statements

On August 26, 2013, after consulting with the Company's Audit Committee, management changed its accounting for certain of the Company's warrants previously issued in connection with preferred stock and common stock and conversion features related to previously issued convertible notes which were recorded in periods prior to the engagement of Marcum LLP in order to comply with US GAAP. Such warrants and the embedded conversion options should have been reflected as liabilities on the consolidated balance sheets included in the Original 10-Q, rather than as a component of equity.

Specifically, the change in treatment of the warrants and the conversion feature embedded in certain convertible notes resulted in a change to the equity and liability portions of the consolidated balance sheets as of March 31, 2012 and resulted in a loss on the fair value of the derivative liabilities which impacted our results of operations and earnings (loss) per share as reported in our Original 10-Q.

The effects of the revision on the accompanying balance sheet as of December 31, 2011 and March 31, 2012 is summarized below.

Condensed Consolidated Balance Sheet December 31, 2011

Weighted average shares outstanding - basic and diluted	127,003,882	

3. Summary of Significant Accounting Policies*Development Stage Company*

The Company is a development stage company as defined by ASC 915 Development Stage Entities and is still devoting substantial efforts on establishing the business. Its principal operations have commenced but there has been no significant revenue thus far. All losses accumulated since inception, have been considered as part of the Company's development stage activities.

Basis of Presentation

The financial statements are stated in U.S. dollars and include the accounts of Blue Calypso, Inc. and BCHI which were merged effective December 16, 2011. The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America.

Segments

The Company operates in a single segment.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Significant estimates include the realization of capitalized software and the realization of deferred tax assets. Actual results may differ from these estimates.

Revenue Recognition

The Company recognizes revenue in accordance with Accounting Standards Codification (ASC) 605 Revenue Recognition , when persuasive evidence of an arrangement exists, the fee is fixed or determinable, delivery of the product has occurred or services have been rendered and collectability is reasonably assured. Revenue includes fees received from customers for advertising and marketing services provided by the Company and is recognized as earned when brand loyalists personally endorse and share the advertising campaigns with others in their digital social stream.

Cash and Cash Equivalents

Cash and cash equivalents consist of cash held in bank demand deposits. The Company considers all highly liquid debt instruments with original maturities of three months or less to be cash equivalents.

Property and Equipment and Long-Lived Assets

Property and equipment consists of office equipment and is recorded at cost, less accumulated depreciation and amortization. Depreciation is computed using the straight-line method over the estimated useful lives of the related assets, which for office equipment is three to five years. Expenditures for major renewals and betterments that extend the useful lives of the property and equipment are capitalized. Expenditures for maintenance and repairs are charged to expense as incurred.

3. Summary of Significant Accounting Policies, continued

Intangible Assets

Software development costs are accounted for in accordance with FASB ASC 350-40, Intangibles – Goodwill and Other: Internal Use Software. According to ASC 350-40 capitalization of costs shall begin when both of the following occur: a) preliminary project stage is completed, b) management, with the relevant authority, implicitly or explicitly authorizes and commits to funding a computer software project and it is probable that the project will be completed and the software will be used to perform the function intended. The costs capitalized include fees paid to third parties for services provided to develop the software during the application development stage, payroll and payroll-related costs such as costs of employee benefits for employees who are directly associated with and who devote time to the internal-use computer software project on activities that include coding and testing during the application development stage and interest costs incurred while developing internal-use computer software (in accordance with ASC 835-20). Once the software is ready for its intended use, the costs are amortized using straight-line method over the estimated useful life of up to five years. The unamortized capitalized cost of the software is compared annually to the net realizable value. The amount by which the unamortized capitalized costs of the internal use software exceed the net realizable value of that asset is written off.

Impairment of Long-lived Tangible Assets and Definite-Lived Intangible Assets

Long-lived tangible assets and definite lived intangible assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of the assets might not be recoverable. Recoverability of assets held and used is generally measured by a comparison of the carrying amount of an asset to undiscounted future net cash flows expected to be generated by that asset. If it is determined that the carrying amount of an asset may not

be recoverable, an impairment loss is recognized for the amount by which the carrying amount of the asset exceeds the fair value of the asset.

(A DEVELOPMENT STAGE COMPANY)

NOTES TO FINANCIAL STATEMENTS

MARCH 31, 2012

(unaudited) (restated)

3. Summary of Significant Accounting Policies, continued

Income Taxes

Income taxes are accounted for using the asset and liability method pursuant to the authoritative guidance on Accounting for Income Taxes. Deferred taxes are recognized for the tax consequences of temporary differences by applying enacted statutory tax rates applicable to future years to differences between the financial statement and carrying amounts and the tax bases of existing assets and liabilities. The effect on deferred taxes for a change in tax rates is recognized in income in the period that includes the enactment date. The Company recognizes future tax benefits to the extent that realization of such benefits is more likely than not.

The Company follows the authoritative guidance prescribing comprehensive model for how a company should recognize, measure, present, and disclose in its financial statements uncertain tax positions that it has taken or expects to take on a tax return. This guidance requires that a company recognize in its financial statements the impact of tax positions that meet a more likely than not threshold, based on the technical merits of the position. The tax benefits recognized in the financial statements from such a position should be measured based on the largest benefit that has a greater than fifty percent likelihood of being realized upon ultimate settlement.

Loss per Share

We have presented basic loss per share, computed on the basis of the weighted average number of common shares outstanding during the year, and diluted loss per share, computed on the basis of the weighted average number of

common shares and all potentially dilutive common shares outstanding during the year. Potential common shares result from stock options, vesting of restricted stock grants and convertible notes. However, for the years presented, all outstanding stock options, restricted stock grants and convertible notes are anti-dilutive due to the losses incurred. Anti-dilutive common stock equivalents of 57,059,903 were excluded from the loss per share computation for the three months ended March 31, 2012.

Preferred Stock

Preferred shares subject to mandatory redemption (if any) are classified as liability instruments and are measured at fair value. The Company classifies conditionally redeemable preferred shares, which includes preferred shares that feature redemption rights that are either within the control of the holder or subject to redemption upon the occurrence of uncertain events not solely within the Company's control, as temporary equity. At all other times, the Company classifies its preferred shares in stockholders' deficiency. As of March 31, 2012, the Company does not have any preferred shares subject to mandatory redemption outstanding.

Convertible Instruments

GAAP requires companies to bifurcate conversion options from their host instruments and account for them as free standing derivative financial instruments according to certain criteria. The criteria include circumstances in which (a) the economic characteristics and risks of the embedded derivative instrument are not clearly and closely related to the economic characteristics and risks of the host contract, (b) the hybrid instrument that embodies both the embedded derivative instrument and the host contract is not re-measured at fair value under otherwise applicable generally accepted accounting principles with changes in fair value reported in earnings as they occur and (c) a separate instrument with the same terms as the embedded derivative instrument would be considered a derivative instrument. An exception to this rule is when the host instrument is deemed to be conventional, as that term is described under applicable GAAP.

When the Company has determined that the embedded conversion options should not be bifurcated from their host instruments, the Company records, when necessary, discounts to convertible notes for the intrinsic value of conversion options embedded in debt instruments based upon the differences between the fair value of the underlying common stock at the commitment date of the note transaction and the effective conversion price embedded in the note. Debt discounts under these arrangements are amortized over the term of the related debt to their stated date of redemption. The Company also records, when necessary, deemed dividends for the intrinsic value of conversion options embedded in preferred shares based upon the differences between the fair value of the underlying common stock at the commitment date of the transaction and the effective conversion price embedded in the preferred shares.

Common Stock Warrants and Other Derivative Financial Instruments

The Company classifies as equity any contracts that (i) require physical settlement or net-share settlement or (ii) provide the Company with a choice of net-cash settlement or settlement in its own shares (physical settlement or net-share settlement) providing that such contracts are indexed to the Company's own stock. The Company classifies as assets or liabilities any contracts that (i) require net-cash settlement (including a requirement to net cash settle the contract if an event occurs and if that event is outside the Company's control) or (ii) gives the counterparty a choice of net-cash settlement or settlement in shares (physical settlement or net-share settlement). The Company assesses classification of its common stock purchase warrants and other free standing derivatives at each reporting date to determine whether a change in classification between assets and liabilities is required.

The Company's free standing derivatives consist of warrants to purchase common stock that were issued in connection with its private placement transactions (see Note 7) and embedded conversion options with convertible notes. The Company evaluated these derivatives to assess their proper classification in the condensed consolidated balance sheets as of March 31, 2012 and December 31, 2011 using the applicable classification criteria enumerated under GAAP. The Company determined that certain common stock purchase warrants and the embedded conversion features do not contain fixed settlement provisions. The exercise price of such warrants is subject to adjustment in the event that the Company subsequently issues equity securities or equity linked securities with exercise prices lower than the exercise price in these warrants. The convertible notes contained a conversion feature such that the Company could not ensure it would have adequate authorized shares to meet all possible conversion demands.

As such, the Company was required to record the warrants and debt derivative which do not have fixed settlement provisions as liabilities and mark to market all such derivatives to fair value at the end of each reporting period.

The Company has adopted a sequencing policy that reclassifies contracts (from equity to assets or liabilities) with the most recent inception date first. Thus any available shares are allocated first to contracts with the most recent inception dates.

Stock-Based Compensation

The Company granted stock options and restricted stock as compensation to employees and directors. Compensation expense is measured in accordance with FASB ASC 718 (formerly SFAS No. 123R), Compensation - Stock Compensation. Compensation expense is recognized over the requisite service period for awards of equity instruments to employees based on the grant date fair value of those awards expected to ultimately vest. Forfeitures are estimated on the date of grant and revised if actual or expected forfeiture activity differs materially from original estimates.

Concentrations of Credit Risk

Significant concentrations of credit risk may arise from the Company's cash maintained in the bank. The Company maintains cash in quality financial institution, however, at times, cash balance may exceed the federal deposit insurance limits (FDIC limits). As of March 31, 2012 the cash balance with the bank exceeded the \$250,000 FDIC limit, but is covered under the temporary unlimited deposit insurance coverage for non-interest bearing transaction accounts through March 31, 2012, and so there was no significant credit risk.

3. Summary of Significant Accounting Policies, continued

Advertising and Marketing

The Company's advertising and marketing costs, which consist primarily of marketing and trade show costs, business development and printed promotional and sales presentation materials, are charged to expense when incurred. The advertising and marketing expense was \$4,535 and \$32,892 for the three month periods ended March 31, 2012 and 2011, respectively.

Recent Accounting Pronouncements

In July 2011, the Financial Accounting Standards Board (FASB) issued ASU 2011-06-Other Expenses (Topic 720): Fees Paid to the Federal Government by Health Insurers (a consensus of the FASB Emerging Issues Task Force). This ASU is effective for periods ending after December 31, 2013. We do not expect this ASU 2011-06 to apply to the Company or to have a material effect on the financial position, results of operations or cash flows.

In December 2011, the Financial Accounting Standards Board (FASB) issued ASU 2011-10-Property, Plant, and Equipment (Topic 360): De-recognition of in Substance Real Estate - a Scope Clarification (a consensus of the FASB Emerging Issues Task Force). This ASU is effective for periods after June 15, 2012. We do not expect this ASU

2011-10 to apply to the Company or to have a material effect on the financial position, results of operations or cash flows.

4. Fair Value of Financial Instruments

The Company measures the fair value of financial assets and liabilities based on the guidance of ASC 820 Fair Value Measurements and Disclosures which defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements. ASC 820 defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. ASC 820 also establishes a fair value hierarchy, which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value.

ASC 820 describes three levels of inputs that may be used to measure fair value:

Level 1 quoted prices in active markets for identical assets or liabilities

Level 2 quoted prices for similar assets and liabilities in active markets or inputs that are observable

Level 3 inputs that are unobservable based on an entity's own assumptions, as there is little, if any, related market activity. (for example, cash flow modeling inputs based on assumptions)

Table of Contents

Financial liabilities as of March 31, 2012 and December 31, 2011 measured at fair value on a recurring basis are summarized below:

	March 31, 2012	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Derivative liabilities (as restated - see note 2)	\$12,370,189	\$ --	\$ --	\$12,370,189

	December 31, 2011	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Derivative liabilities (as restated - see note 2)	\$10,997,560	\$ --	\$ --	\$10,997,560

The Company determined that the warrants issued in connection with certain financing transactions and certain conversion options related to convertible notes did not have fixed settlement provisions and are deemed to be derivative financial instruments, since the exercise prices were subject to adjustment based on certain subsequent equity issuances. Accordingly, the Company was required to record the warrants and conversion option as liabilities and mark all such derivatives to fair value each reporting period. Such instruments were classified within Level 3 of the valuation hierarchy.

The fair value of the warrants and the conversion options was calculated using a binomial lattice formula with the following weighted average assumptions during the three months ended March 31, 2012.

Dividend Yield	0.00%
Volatility	93.17% to 95.63%
Risk-free Interest Rate	0.83%-1.04%
Term	4.4 5.0 years

The risk-free interest rate is the United States Treasury rate on the measurement date having a term equal to the remaining contractual life of the warrant. The volatility is a measure of the amount by which the Company's share price has fluctuated or is expected to fluctuate. Since the Company's common stock has not been publicly traded for a long period of time, an average of the historical volatility of comparative companies was used. The dividend yield is 0% as the Company has not made any dividend payment and has no plans to pay dividends in the foreseeable future.

Table of Contents

Level 3 liabilities are valued using unobservable inputs to the valuation methodology that are significant to the measurement of the fair value of the warrant liabilities. For fair value measurements categorized within Level 3 of the fair value hierarchy, the Company's Chief Financial Officer, who reports to the Chief Executive Officer, determine its valuation policies and procedures.

The development and determination of the unobservable inputs for Level 3 fair value measurements and fair value calculations are the responsibility of the Company's Chief Financial Officer and are approved by the Chief Executive Officer.

Level 3 financial liabilities consist of the warrant liabilities for which there is no current market for these securities such that the determination of fair value requires significant judgment or estimation. Changes in fair value measurements categorized within Level 3 of the fair value hierarchy are analyzed each period based on changes in estimates or assumptions and recorded as appropriate.

Significant observable and unobservable inputs include stock price, exercise price, annual risk free rate, term, and expected volatility, and are classified within Level 3 of the valuation hierarchy. An increase or decrease in volatility or interest free rate, in isolation, can significantly increase or decrease the fair value of the warrant. Changes in the values of the derivative liabilities are recorded as a component of other income (expense) on the Company's condensed consolidated statements of operations.

The following table sets forth a summary of the changes in the fair value of the Company's Level 3 financial liabilities that are measured at fair value on a recurring basis for the three months ended March 31, 2012:

Balance - Beginning of period (as restated - see note 3)	\$ 10,997,560
Aggregate fair value of derivative instruments issued	946,049
Change in fair value of derivative liabilities	426,580
Balance - End of period	\$ 12,370,189

5. Property and Equipment

Property and equipment consist of the following at March 31, 2012 and December 31, 2011:

	3/31/2012	12/31/2011
Office Equipment	23,781	23,781
Less: Accumulated depreciation	(3,586)	(2,397)
Net property and equipment	\$ 20,195	\$ 21,384

Depreciation expense was \$1,189 for the three months March 31, 2012.

6. Intangibles

Intangible assets consist of the following at March 31, 2012 and December 31, 2011:

	3/31/2012	12/31/2011
Capitalized Software Development Costs	1,125,125	948,153
Less: Accumulated amortization	(187,431)	(133,279)
Net capitalized development costs	937,694	\$ 814,874

Table of Contents

BLUE CALYPSO, INC. AND SUBSIDIARY

(A DEVELOPMENT STAGE COMPANY)

NOTES TO FINANCIAL STATEMENTS

MARCH 31, 2012

(unaudited) (restated)

6. Intangibles, continued

The amortization expense relating to the capitalized development costs was \$54,152 and \$23,999 for the three months ended March 31, 2012 and 2011, respectively. Amortization expense for the next five years is estimated to be as follows:

Capitalized Development Cost Amortization

2012	162,972
2013	225,973
2014	225,973
2015	202,788
2016	110,139
2017	8,849
	937,694

7. Income Tax Provision

The company's income taxes are recorded in accordance with ASC 740 Income Taxes. The tax effects of the Company's temporary differences that give rise to significant portions of the deferred tax assets as of March 31, 2012 and 2011 consisted primarily of net operating losses totaling \$1,785,795 and \$174,767 which were fully reserved.

Deferred tax assets and liabilities are computed by applying the effective U.S. federal and state income tax rate to the gross amounts of temporary differences and other tax attributes.

In assessing the realizability of deferred tax assets, management considers whether it is more likely than not that some portion or all of the deferred tax assets will not be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income during the periods in which those temporary differences become deductible. Management considers the scheduled reversal of deferred tax liabilities, projected future taxable income, and tax planning strategies in making this assessment. At March 31, 2012, the Company believed it was more likely than not that future tax benefits from net operating loss carry-forwards and other deferred tax assets would not be realizable through generation of future taxable income and accordingly deferred tax assets are fully reserved.

8. Long Term Debt - Notes Payable

At August 31, 2011, the company had convertible subordinated notes payable issued to eleven entities/individuals. The notes accrued simple interest at the rate of 8% per annum. The principal amount of the notes, along with all accrued interest thereon was subject to automatic conversion upon the next financing transaction in which the Company sells shares of its capital stock to an outside vendor in an arm's length transaction. The principal balance of \$1,475,000 (including notes payable to affiliate of \$200,000) and accrued interest thereon of \$90,088 were converted into 28,135,234 common shares as of September 1, 2011.

9. Warrant Derivative Liabilities

The Company issued warrants in conjunction with the issuance of convertible debentures and the sale of Series A Convertible Preferred and Common Stock. These warrants contain certain reset provisions. Therefore, in accordance with ASC 815-40, the Company classified the fair value of the warrant liability at the date of issuance. Subsequent to the initial issuance date, the Company is required to adjust the warrant to fair value as an adjustment to current period operations.

The Company recorded a gain (loss) on change in fair value of derivative liabilities of (\$426,850) and \$0 for three months ended March 31, 2012 and 2011, respectively.

NOTES TO FINANCIAL STATEMENTS

MARCH 31, 2012

(unaudited) (restated)

10. Stockholders' Equity (Deficit)

On September 1, 2011 and as part of the reverse merger, the Company issued convertible promissory notes (the "Promissory Notes") to two accredited investors in a private placement transaction (the "Private Placement") pursuant to a Securities Purchase Agreement (the "Securities Purchase Agreement") in the aggregate principal amount of One Million Five Hundred Thousand Dollars (\$1,500,000) and five-year warrants (the "Warrants") to purchase up to 22,091,311 shares of the Company's common stock at an exercise price of \$0.10 per share. The notes are due December 1, 2011 and accrue no interest. The Promissory Notes are automatically convertible at \$1 into One Million Five Hundred Thousand (1,500,000) shares of the Company's Series A Convertible Preferred Stock ("Series A Preferred") immediately upon the creation of the Series A Preferred by the Company. The Series A Preferred stock was approved October 17, 2011 and the notes were immediately converted into 1,500,000 preferred shares. The Series A Preferred shares are convertible into shares of the Company's common stock at a conversion rate of \$0.0679 per share or 22,091,311 common shares. During the three months ended March 31, 2012, one of the two accredited investors purchased an additional 200,000 shares of Series A Preferred share that are convertible into the Company's common stock at the conversion rate of \$0.0679 per share or 2,945,508 shares. This increased the total convertible warrants to 25,036,818 shares. The conversion of preferred into common stock is limited to the extent that the beneficial owners own greater than 4.99% of the Company's common stock.

Blue Calypso, Inc. is authorized to issue 685,000,000 shares of capital stock: 680,000,000 shares of common stock with voting rights at a par value of \$.0001 and 5,000,000 shares of Series A Convertible Preferred Stock, also at \$.0001 par value per share. There were 127,045,641 shares of common stock issued and outstanding as of March 31, 2012. There were 1,700,000 shares of preferred stock were issued and outstanding as of March 31, 2012. The Company did not make or declare any distributions to shareholders during the quarter ended March 31, 2012 or March 31, 2011.

Long-Term Incentive Plan

The stockholders approved the Blue Calypso, Inc. 2011 Long-Term Incentive Plan (the Plan) on September 9, 2011. The Plan provides for the granting of incentive stock options, nonqualified stock options, stock appreciation rights, restricted stock, restricted stock units, performance awards, dividend equivalent rights, and other awards which may be granted singly, in combination, or in tandem, and which may be paid in cash or shares of common stock. Subject to certain adjustments, the maximum number of shares of common stock that may be delivered pursuant to awards under the Plan is 35,000,000 shares.

NOTES TO FINANCIAL STATEMENTS

MARCH 31, 2012

(unaudited) (restated)

10. Stockholders Equity (Deficit), continued

Stock Options

During 2011 the Company granted options to purchase 2,420,000 shares of the Company's common stock to non-employee board members and other consultants under the Plan. The options vest pro rata quarterly over two years. During the first three months ended March 31, 2012, the Company granted options to purchase 2,495,325 shares of the Company's common stock to employees and a nonemployee advisory board member. These options were granted at a range of strike prices and vesting schedules. The fair value for the Company's options were estimated at the date of grant using the Black-Scholes option pricing model with the weighted average assumptions as noted in the following table. The Black-Scholes option valuation model incorporate ranges of assumptions for inputs, and those ranges are disclosed below. Expected volatilities are based on similar industry-sector indices. The expected life of options granted is derived from the output of the option valuation model and represents the period of time that options granted are expected to be outstanding. The risk-free interest rate assumption is based on market yield on U.S. Treasury securities at 2-year constant maturity, quoted on investment basis determined at the date of grant.

Assumptions used for employee stock options:

Risk-free interest rate	0.25%
Stock price volatility	20% - 37%
Expected life	5.75 years

Using the valuation assumptions noted above, the Company estimated the value of stock options granted to be \$1,953,072 and \$0 for the three months ended March 31, 2012 and March 31, 2011, respectively. All the 2,420,000 options were granted on September 8, 2011 when the stock price was estimated to be .0679 per share so there was no intrinsic value for any options granted. The value of these options is being amortized to stock-based compensation expense consistently with the vesting events. The stock-based compensation expense recorded was \$763,480 and \$0

during quarter ended March 31, 2012 and March 31, 2011, respectively. The following table summarizes the stock option activity as of March 31, 2012

Stock Option Activity for the three months ended 3/31/2012:

	Outstanding Options	Weighted Average Exercise Price
Balance, December 31, 2011	2,420,000	0.0679
Granted - Q1, 2012	2,495,325	0.3292
Balance, March 31, 2012	4,915,325	\$ 0.2005
Exercisable at 3/31/12	1,806,108	\$ 0.4025
Non-vested at 3/31/12	3,109,217	\$ 0.0832

Restricted Stock

The restricted stock granted prior to the reverse merger transaction, have been retroactively restated as capital stock shares reflecting the exchange ratio in the Merger.

The following table summarizes the restricted stock activity for the period ended March 31, 2012:

Restricted Shares activity:

Restricted shares issued as of December 31, 2011	1,870,940
Granted during three months ended March 31, 2012	200,000
Vested	(80,206)
Unvested restricted shares as of March 31, 2012	1,990,734

A total of 200,000 shares were granted on January 20, 2012 and vest on the second anniversary date. The share based compensation expense is \$0 and \$0 for quarter ended March 31, 2012 and March 31, 2011, respectively.

11. Related Party Transactions

Aztec Systems, Inc. is an affiliate of the Company that provides administrative and technical support services to the Company. The majority owner of Aztec Systems, Inc. is also the majority stockholder of the Company. The Company incurred management fees of \$ 9,064 and \$13,161 and software development fees of \$176,775 and \$70,570 relating to Aztec Systems for quarter ended March 31, 2012 and March 31, 2011, respectively. The Company had accounts payable to Aztec Systems of \$58,143 and \$176,775 as of March 31, 2012 and March 31, 2011, respectively.

The Company signed an agreement with Aztec Systems, Inc. under January 5, 2012, whereby the outstanding Accounts Payable balance due to Aztec was converted to a Note Payable to Aztec. The terms of the note provides for Aztec to loan additional monies to the Company up to \$30,000 per month until March, 2012. The note has an interest rate of 8% per annum and is payable in full by September 30, 2012.

(A DEVELOPMENT STAGE COMPANY)

NOTES TO FINANCIAL STATEMENTS

MARCH 31, 2012

(unaudited) (restated)

12. Liquidity-Going Concern

These financial statements have been prepared assuming that the Company is a going concern. The Company incurred a net loss in the years ended March 31, 2012 and 2011 and for the period from September 11, 2009 (inception) to March 31, 2012.

Management believes that the current cash and revenue should fund the Company's expected burn rate into early in the third quarter of 2012. The Company will require additional funds to continue operations. Management is currently attempting to secure additional equity investment monies. There is a high level of uncertainty as to whether these efforts will be successful.

13. Subsequent Events

The Company evaluated events or transactions occurring after March 31, 2012, the balance sheet date, through May 8, 2012, and October 9, 2013 as to Note 2, the date the financial statements were available to be issued, and determined any events or transactions which could impact the financial statements as of and for the quarter ended March 31, 2012.

On April 19, 2012 the Company entered into a Private Placement with an existing stockholder. This Private Placement resulted in a Securities Purchase Agreement whereby the Company issued (i) a senior secured convertible debenture in the original aggregate principal amount of \$35,000 and (ii) a warrant to purchase 6,500,000 shares of common stock, \$0.001 par value per share, of the Company, and the Buyer covenanted to purchase up to an additional \$465,000 of senior secured convertible debentures in a series of four closing at such times as may be designated by the

Company in its sole discretion through October 19, 2012

In connection with this Private Placement, the Company also entered into a Security Agreement, an Intellectual Property Security Agreement, Amendment No. 1 to the Common Stock Purchase Warrant, a Stockholder s Agreement and various ancillary certificates, disclosure schedules and exhibits in support thereof, each dated April 19, 2012. In addition, the subsidiary of the Company, Blue Calypso, LLC, entered into a Subsidiary Guarantee in favor of the Buyer, dated April 19, 2012.

Table of Contents

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion and analysis of our financial condition and results of operations for the fiscal quarters ended March 31, 2012 and March 31, 2011 should be read in conjunction with Selected Consolidated Financial Data and our audited consolidated financial statements for the fiscal quarter ended March 31, 2011 and the notes to those statements filed as Exhibit 99.1 to our current report on Form 8-K filed with the Securities and Exchange Commission on September 8, 2011. Our discussion contains forward-looking statements based upon current expectations that involve risks and uncertainties, such as our plans, objectives, expectations and intentions. Actual results and the timing of events could differ materially from those anticipated in these forward-looking statements as a result of a number of factors, including those set forth under Cautionary Note Regarding Forward-Looking Statements below and elsewhere in this Quarterly Report.

Unless the context requires otherwise, references in this Form 10-Q to the Company, we, our and us for periods prior to the closing of the reverse merger on September 1, 2011 refer to Blue Calypso Holdings, Inc., a privately held Texas corporation that was merged into Blue Calypso, Inc. on December 16, 2011, and, references to the Company, we, our and us for periods subsequent to the closing of the reverse merger on September 1, 2011 and before October 19, 2011, refer to Blue Calypso, Inc., a Nevada corporation, and its subsidiaries, and references to the Company, we, our and us for periods subsequent to October 19, 2011, refer to Blue Calypso, Inc., a Delaware corporation, and its subsidiaries.

Cautionary Statement Regarding Forward-Looking Statements

We caution that any forward-looking statements contained or incorporated by reference in this Form 10-Q or made by our management involve risks and uncertainties and are subject to change based on various important factors, many of which may be beyond our control. Accordingly, our future performance and financial results may differ materially from those expressed or implied in any such forward-looking statements. Any such forward-looking statements are subject to risks and uncertainties. If any of these risks or uncertainties actually occurs, our business, financial condition or operating results could be materially and adversely affected, and the trading price of our common stock could decline. We do not undertake to publicly update or revise our forward-looking statements even if our future changes make it clear that any projected results expressed or implied therein will not be realized.

Listed below are just some of the factors that would impact our forward looking statements:

- our ability to raise additional capital;
- the absence of any operating history or revenue;
- our ability to attract and retain qualified personnel;
- market acceptance of our platform;
- our limited experience in a relatively new industry;
- regulatory and competitive developments;
- intense competition with larger companies;
- general economic conditions
- failure to adequately protect our intellectual property;
- technological obsolescence of our products and services;
- technical problems with our products and services; and
- loss or retirement of key executives.

Table of Contents

Recent Events

Prior to September 1, 2011, we were a public shell company without material assets or liabilities. On September 1, 2011, Blue Calypso Holdings, Inc. completed a reverse merger with us, pursuant to which Blue Calypso Holdings, Inc. became our wholly-owned subsidiary and we succeeded to the business of Blue Calypso Holdings, Inc. as our sole line of business and the former security holders of Blue Calypso Holdings, Inc. became our controlling stockholders. For financial reporting purposes, Blue Calypso Holdings, Inc. was the accounting acquirer in the reverse merger and the former public shell company is considered the acquired company. On December 16, 2011 Blue Calypso Holdings, Inc. was merged into its sole-owner, Blue Calypso, Inc. Accordingly, the historical financial statements presented and the discussion of financial condition and results of operations herein are those of Blue Calypso, Inc., and do not include the historical financial results of our former business. The accumulated earnings of Blue Calypso, Inc. were also carried forward after the reverse merger for all periods presented. Operations reported for periods prior to the reverse merger are those of Blue Calypso Holdings, Inc.

Business Overview

We offer a patented social mobile advertising platform through which advertisers offer advertising content to our subscribers, who publicly endorse the products and services of these advertisers using their mobile smartphones. Endorsers receive cash and other rewards for each endorsement they make.

Critical Accounting Policies

Development Stage Company

We are a development stage company as defined by Accounting Standards Codification (ASC) 915, Development Stage Entities and are still devoting substantial efforts to establishing our business. Our principal operations have commenced but there has been no significant revenue thus far. All losses accumulated since inception have been considered part of our development stage activities.

Principles of Consolidation and Basis of Presentation

The consolidated financial statements are stated in U.S. dollars and include the accounts of Blue Calypso, Inc. and its subsidiary Blue Calypso, LLC, which is wholly owned. All intercompany balances and transactions have been eliminated in consolidation. The consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Significant estimates include: the useful lives of intangible assets and the recoverability or impairment of tangible and intangible asset values; deferred revenues; legal and other contingencies that are recorded when it is probable that a loss has been incurred and the amount is reasonably estimable; and our effective income tax rate and the valuation allowance applied against deferred tax assets, which are based upon the expectations of future taxable income, allowable deductions, and projected tax credits. Actual results may differ from these estimates.

Revenue Recognition

We recognize revenue in accordance with ASC 605, *Revenue Recognition* when persuasive evidence of an arrangement exists, the fee is fixed or determinable, delivery of the product has occurred or services have been rendered and collectability is reasonably assured. Revenue is comprised primarily of fees received from customers for advertising and marketing services provided by us, which is generally earned when brand loyalists personally endorse and share the advertising campaigns with others in their digital social stream or when we provide services related to customer advertising campaigns. Recognition timing is based on the specific services delivered to our customer and the terms of our agreements with each customer. Agreements may be based on campaigns delivered, monthly billings or campaign activity. If the customer agreement provides, customers may pay or be invoiced for services prior to final service delivery, leading to unearned revenues being recorded.

Table of Contents

Each endorsement event is tracked by the Blue Calypso system and any activity by the endorsers' network of contacts is tracked and credited to the endorser. Customers receive weekly reports providing a detailed history of all initial endorser posts and subsequent activities generated by the initial endorsements, which allow them to verify that brand loyalists have personally endorsed their products. Reports can include geographic and demographic information related to the endorser. We believe that our tracking system, as well as the fact that endorsers must provide certain identifying information, including their name, address and social security number, in order to be issued a loyalty reward card and become eligible to receive payments for any endorsements, helps reduce opportunities for fraudulent endorsements. Making fraudulent endorsements is a violation of the terms and conditions that our endorsers agree to and any endorser discovered engaging in fraudulent or other activities violating our terms and conditions will have his or her account closed and endorser registration terminated.

Cost of Revenue

Cost of revenue is accrued and recorded as earned by the endorser under the defined reward programs. Expense related to our payments to endorsers is recognized when we recognize revenue for such payments, in the case of endorsements related to our customers, and when the endorsement is made, in the case of endorsements of advertisers who are endorsed through our participation in one of the affiliate programs in which we participate. This is in accordance with the terms and conditions agreed to by the endorsers.

Rewards are delivered periodically to the endorser by loading loyalty cards. Endorsers are required to provide certain information before loyalty cards can be issued and loaded. Endorsers retain rights to any unpaid rewards until they have been inactive for three months or the applicable time frame specified in the endorser terms and conditions, if such time frame is changed. There is no additional expense to us associated with compensating endorsers through cash that is reloaded on a personal Visa debit card rather than compensating endorsers through cash sent directly to them.

Cash and Cash Equivalents

Cash and cash equivalents consist of cash held in bank demand deposits. We consider all highly liquid debt instruments with original maturities of three months or less to be cash equivalents.

Property and Equipment and Long-Lived Assets

Property and equipment consists of office equipment and is recorded at cost, less accumulated depreciation and amortization. Depreciation is computed using the straight-line method over the estimated useful lives of the related assets, which for office equipment is three to five years. Expenditures for major renewals and betterments that extend the useful lives of the property and equipment are capitalized. Expenditures for maintenance and repairs are charged to expense as incurred.

Intangible Assets

Software development costs are accounted for in accordance with ASC 350-40, Intangibles—Goodwill and Other: Internal Use Software. According to ASC 350-40, capitalization of costs related to a computer software project should begin when both of the following occur: (a) the preliminary project stage is complete; and (b) management, with relevant authority, implicitly or explicitly authorizes and commits to funding the project and it is probable that the project will be completed and the software will be used to perform the function intended. The costs capitalized include: fees paid to third parties for services provided to develop the software during the application development stage; payroll and payroll-related costs, such as costs of employee benefits for employees who are directly associated with and who devote time to the software project on activities that include coding and testing during the application development stage; and interest costs incurred while developing the software (in accordance with ASC 835-20). The costs are amortized using straight-line amortization over the estimated useful life of up to five years, once the software is ready for its intended use. The unamortized capitalized cost of the software is compared annually to the net realizable value. The amount by which the unamortized capitalized costs of the internal use software exceed the net realizable value of that asset is written off.

Impairment of Long-Lived Tangible Assets and Definite-Lived Intangible Assets

Long-lived tangible assets and definite lived intangible assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of the assets might not be recoverable. Recoverability of assets held and used is generally measured by a comparison of the carrying amount of an asset to undiscounted future net cash flows expected to be generated by that asset. If it is determined that the carrying amount of an asset may not be recoverable, an impairment loss is recognized for the amount by which the carrying amount of the asset exceeds the fair value of the asset.

Table of Contents

Fair Value Measurements

We have adopted ASC Topic 820, Fair Value Measurements and Disclosures, which defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles, and expands disclosures about fair value measurements. ASC 820 establishes a hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available. Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date. Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. Level 3 inputs are unobservable inputs for the asset or liability.

Income Taxes

Income taxes are recorded in accordance with ASC 740, Income Taxes. Deferred income taxes are recognized for the future tax consequences attributable to temporary differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. An allowance is provided when it is more likely than not that tax benefits will not be utilized, which is the case as of the March 31, 2012 financial statements.

Stock-Based Compensation

We grant stock options and restricted stock as compensation to employees, directors and consultants. Compensation expense is measured in accordance with FASB ASC 718 (formerly Statement of Financial Accounting Standards No. 123R), Compensation Stock Compensation. Compensation expense is recognized over the requisite service period for awards of equity instruments based on the grant date fair value of those awards expected to ultimately vest. Forfeitures are estimated on the date of grant and revised if actual or expected forfeiture activity differs materially from original estimates.

Concentrations of Credit Risk

Significant concentrations of credit risk may arise from our cash maintained in the bank. We maintain cash in quality financial institutions; however, at times, cash balances may exceed the federal deposit insurance limits.

Advertising and Marketing

Our advertising and marketing costs, which consist primarily of marketing and trade show costs, business development and printed promotional and sales presentation materials, are charged to expense when incurred.

Restatement of Previously Issued Financial Statements

This quarterly report contains the restated condensed consolidated balance sheet as of December 31, 2011 and the effects of the restated condensed consolidated statements of operations for the three months ended March 31, 2012 and from September 11, 2009 (date of inception) through March 31, 2012. Refer to Note 2 of the Notes to the accompanying Condensed Consolidated Financial Statements in this Quarterly Report on Form 10-Q for further detail.

On August 26, 2013, after consulting with the Company's Audit Committee and with the Company's newly appointed Independent Registered Public Accounting Firm, Marcum LLP, management changed its accounting for certain of the Company's warrants previously issued in connection with preferred stock and common stock and conversion features related to previously issued convertible notes which were recorded in periods prior to the engagement of Marcum LLP in order to comply with US GAAP. Such warrants and the embedded conversion options should have been reflected as liabilities on the consolidated balance sheets included in the Original 10-Q, rather than as a component of equity.

Specifically, the change in treatment of the warrants and the conversion feature embedded in certain convertible notes resulted in a change to the equity, and liability portions of the consolidated balance sheets as of March 31, 2012 and resulted in a loss on the fair value of the derivative liabilities which impacted our results of operations and earnings (loss) per share as reported in our Original 10-Q.

Results of Operations

Comparison of Three Months Ended March 31, 2012 and 2011

Net Loss. For the three months ended March 31, 2012, we had a net loss of \$1,785,795, as compared to a net loss of \$174,766 for the three months ended March 31, 2011. The increase in net loss was due to three factors. The first was

related to an increase in expenses related to increased investment in sales, marketing, operations, development and administration in comparison to the three months ended March 31, 2011. The second was related to the recording of a deferred compensation expense of \$763,480 related to options vested during the three months ended March 31, 2012. The third factor was the loss associated with the change in the fair value of derivative liabilities reflected in three months ended March 31, 2012 of \$426,580.

Revenue. Revenue for the three months ended March 31, 2012 was \$584, as compared to \$4,758 in revenues for the same period in 2011. We are a development stage company and have had modest revenue to date.

Table of Contents

Cost of Revenue. Cost of revenue is primarily comprised of payments to endorsers for promoting advertiser content. Our cost of revenue was \$92,707 for the three months ended March 31, 2012, as compared to \$72 for the same period in 2011. The increase was due to company-sponsored advertising activity intended to attract an endorser base.

Sales and Marketing. For the three months ended March 31, 2012 sales and marketing expenses increased by \$169,994 to \$243,425 compared to the same period in 2011. The increase was due primarily to increased advertising expenses, increased costs related to trade show attendance and increased costs related to additional sales and marketing staff.

General and Administrative. For the three months ended March 31, 2012, general and administrative expense were \$962,626, as compared to \$68,713 for the three months ended March 31, 2011. The increase was primarily due to increased deferred compensation expense related to stock options that vested in the current quarter totaling \$763,480. Also contributing to the increase were legal and professional expenses related to statutory filing process, patent legal and legal and accounting related to continued fund raising activities.

Depreciation and Amortization. Depreciation and amortization expenses relate primarily to the amortization of capitalized software development. The increase from \$24,256 for the three months ended March 31, 2011 to \$55,341 for the three months ended March 31, 2012 was due to our ongoing software development initiative and implementation of improvements and new services related to our network.

Interest Expense. Interest expense was \$5,700 for the three months ended March 31, 2012 in comparison to \$13,052 for the three months ended March 31, 2011. The current period interest expense related to a notes payable to related party, Aztec Systems, Inc. The note was a result of a conversion of open accounts payable to a note that occurred in the current quarter. The note has per annum interest rate of 8%. The balance at March 31, 2012 was \$344,993.

Comparison of Quarter ended March 31, 2012 Versus the Quarter ended March 31, 2011

During the quarter ended March 31, 2012, we incurred sales and marketing expenses of \$243,425, general and administrative expenses of \$184,525 and other operating expenses of \$778,101. We hired one new sales staff member during the quarter. Sales and marketing expense included the compensation and benefit expense of the five sales and marketing staff members as well as travel, entertainment and advertising expense directly attributable to the sales and marketing function. General and administrative expenses primarily consisted of contract labor, outside services and

professional fees. Other operating expenses primarily consisted of supplies, travel and entertainment expenses as well as deferred compensation on stock options vested during the quarter totaling \$763,480.

Our development activities are outsourced to Aztec Systems, Inc., a company that is majority owned by Mr. Levi, our chairman and chief executive officer. For the quarter ended March 31, 2012, we incurred \$176,775 of software development costs. We began to recognize amortization of this amount during the quarter ended March 31, 2011, and recognized amortization expense related to capitalized software development costs of \$54,152 and \$23,999 for the years ended March 31, 2012 and 2011 respectively.

Cash Flows

Comparison of Three Months Ended March 31, 2012 and 2011

Cash used in operating activities during the three months ended March 31, 2012 was \$718,258, as compared to \$92,692 for the three months ended March 31, 2011. The change was due to an \$1,611,028 increase in net loss, offset by the non-cash expense for deferred stock option compensation of \$763,480 and a non-cash loss associated with the change in the fair value of derivative liabilities of \$426,580. The other significant factor was the conversion of the accounts payable balance owed to Aztec Systems Inc. in the aggregate amount of \$254,993, to a promissory note on January 1, 2012.

Cash used in investing activities during the three months ended March 31, 2012 was \$176,973, as compared to \$52,679 for the three months ended March 31, 2011. This was due to continued development of the underlying software technology.

Table of Contents

During the three months ended March 31, 2012, cash provided by financing was \$554,993, as compared to 100,022 for the same period in 2011. The increase was due to the issuance of additional preferred stock of \$200,000 and the conversion of accounts payable owed to Aztec Systems to a promissory note totaling \$344,993 as of March 31, 2011. The promissory note made to Aztec Systems, Inc. is the combination of the initial transfer of indebtedness on January 1, 2012 of \$254, 993 combined with additional advances during the quarter.

Going Concern Consideration

Our registered independent auditors have issued an opinion on our financial statements for the year ended December 31, 2011 which includes a statement describing our going concern status. This means that there is substantial doubt that we can continue as an on-going business for the next 12 months unless we obtain additional capital to pay our bills and meet our other financial obligations. Our ability to continue as a going concern is dependent upon our ability to obtain additional equity or debt financing, attain further operating efficiencies, reduce expenditures, dispose of selective assets, and ultimately, generate additional revenue. The going concern opinion may also limit our ability to access certain types of financing, prevent us from obtaining financing on acceptable terms, and limit our ability to obtain new business due to potential customers' concern about our ability to deliver products or services. We must raise capital to implement our project and stay in business.

Liquidity and Capital Resources

We are a development stage company and have incurred cumulative losses of \$14,318,115 since beginning operations on September 11, 2009. At March 31, 2012, we had a cash balance of \$21,155 and negative working capital of \$12,528,598. On October 17, 2011, \$1,500,000 of our convertible promissory notes converted into 1,500,000 shares of our Series A Convertible Preferred Stock. On September 1, 2011, \$1,475,000 of notes payable converted to 28,135,234 shares of common stock as part of the reverse merger. Funding for our operations has been primarily dependent upon the proceeds from the issuance of debt and equity securities.

As a development stage company, we have been and continue to be dependent upon outside sources of cash to pay operating expenses. We have had only nominal revenue and we expect operating losses to continue through the foreseeable future. Until we develop a consistent source of revenue to achieve a profitable level of operations that generates sufficient cash flow, we will need additional capital resources to fund growth and operations. We are continuing our efforts to raise capital through equity and/or debt offerings. However, there can be no assurance that we will be able to raise equity or debt capital on terms we consider reasonable and prudent, or at all. The availability of capital to us may be subject to the volatility in the financial markets, our future financial condition and credit rating,

and whether sufficient assets are available to be used as debt collateral in connection with any future debt financing, among other factors. Future financings through equity investments are likely to be dilutive to the existing stockholders. Also, the terms of securities we issue in future capital transactions may be more favorable for our new investors. Newly issued securities may include preferences, superior voting rights, and the issuance of warrants or other derivative securities, which may have additional dilutive effects. Further, we may incur substantial costs in pursuing future capital and/or financing, including investment banking fees, legal fees, accounting fees, securities law compliance fees, printing and distribution expenses and other costs. We may also be required to recognize non-cash expenses in connection with certain securities we may issue, such as convertible notes and warrants, which may adversely impact our financial condition.

We have no assurance that future financing will be made available to us, and if made available to us, in amounts or on terms acceptable to us. If we are unable to raise any additional funding, we will either have to suspend operations until we do raise capital or cease operations entirely.

Contractual Obligations

During 2011, the Company had a significant contractual obligation consisting of convertible promissory notes payable of \$1,500,000 that would have been due on December 1, 2011. These promissory notes automatically converted into 1,500,000 shares of Series A Convertible Preferred Stock on October 17, 2011. During the three months ended March 31, 2012, an additional 200,000 shares of preferred stock was issued that provided \$200,000 of funding in the quarter. As indicated in footnote 11 of the financial statements, Blue Calypso has engaged the services of the related party, Aztec Systems, Inc., for software development, use of network operating center, and accounting. We have warrants outstanding for a total of 25,036,818 shares at a price of \$0.10 per share. As is indicated in the legal proceedings section of this document, Blue Calypso has retained the services of two law firms to protect Blue Calypso patents from infringement.

Table of Contents

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

Since we are a smaller reporting company, as defined by SEC regulation, we are not required to provide the information required by this Item.

ITEM 4 CONTROLS AND PROCEDURES.

Evaluation of Disclosure Controls and Procedures

(a) *Evaluation of disclosure controls and procedures.* Our management, with the participation of our Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15 under the Securities Exchange Act of 1934 (the Exchange Act)) as of the end of the period covered by this Quarterly Report on Form 10-Q/A. In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives. In addition, the design of disclosure controls and procedures must reflect the fact that there are resource constraints and that management is required to apply its judgment in evaluating the benefits of possible controls and procedures relative to their costs.

Our disclosure controls and procedures are designed to provide reasonable, not absolute, assurance that the objectives of our disclosure control system are met. Because of inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues, if any, within a company have been detected. Our Chief Executive Officer and Chief Financial Officer have concluded, based on their evaluation as of the end of the period covered by this report, that our disclosure controls and procedures were not effective.

Restatement of Previously Issued Financial Statements. On August 26, 2013, after consulting with the Company's Audit Committee and with the Company's newly appointed Independent Registered Public Accounting Firm, Marcum LLP, management changed its accounting for certain of the Company's warrants previously issued in connection with preferred stock and common stock and conversion features related to previously issued convertible notes which were recorded in periods prior to the engagement of Marcum LLP in order to comply with US GAAP. Such warrants and

the embedded conversion options should have been reflected as liabilities on the consolidated balance sheets included in the Original 10-Q, rather than as a component of equity.

Specifically, the change in treatment of the warrants and the conversion feature embedded in certain convertible notes resulted in a change to the equity, and liability portions of the consolidated balance sheets as of March 31, 2012 and resulted in a loss on the fair value of the derivative liabilities which impacted our results of operations and earnings (loss) per share as reported in our Original 10-Q.

Remediation plan. Since the determination regarding this deficiency, we have devoted significant effort and resources to remediation and improvement of our internal control over financial reporting. While we had processes in place to identify and apply developments in accounting standards, we enhanced these processes to better evaluate our research of the nuances of complex accounting standards and engaged a third party financial reporting consulting firm to assist the Company in its financial reporting compliance. Our enhancements included retaining a third party consultant, who is a technical accounting professional, to assist us in the interpretation and application of new and complex accounting guidance. The firm has been engaged to assist in the analysis of complex financial instruments. Management will continue to review and make necessary changes to the overall design of our internal control environment.

(b) *Changes in internal control over financial reporting.* There have been no changes in our internal control over financial reporting that occurred during the quarter ended March 31, 2012, that have materially affected or are reasonably likely to materially affect our internal control over financial reporting.

PART II OTHER INFORMATION

There are no further disclosures. All information that was required to be disclosed in a Form 8-K during the fourth quarter 2011 has been disclosed.

ITEM 1. LEGAL PROCEEDINGS.

We are not the subject of any pending legal proceedings; and to the knowledge of management, no proceedings are presently contemplated against us by any federal, state or local governmental agency.

There may be entities that are infringing Blue Calypso's patents. As such, we have retained the legal services of Fish & Richardson and Dickstein Shapiro. There are no formal actions that have occurred as of the date of this report.

Further, to the knowledge of management, no director or executive officer is party to any action in which any has an interest adverse to us.

ITEM 1A. RISK FACTORS.

Since we are a smaller reporting company, as defined by SEC regulation, we are not required to provide the information required by this Item.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS.

None.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES.

None.

ITEM 4. MINE SAFETY DISCLOSURES.

None.

ITEM 5. OTHER INFORMATION.

None.

Table of Contents**ITEM 6. EXHIBITS AND REPORTS ON FORM 8-K.**

Copies of the following documents are included as exhibits to this report pursuant to Item 601 of Regulation S-K.

Exhibit Number	Description
2.1	Agreement and Plan of Merger and Reorganization, dated as of September 1, 2011, by and among Blue Calypso, Inc., Blue Calypso Acquisition Corp., and Blue Calypso Holdings, Inc. (incorporated by reference to Exhibit 2.1 to Current Report on Form 8-K filed with the Securities and Exchange Commission on September 8, 2011)
2.2	Agreement and Plan of Merger, dated September 9, 2011, by and between Blue Calypso, Inc., a Nevada corporation, and Blue Calypso, Inc., a Delaware corporation (incorporated by reference to Exhibit 10.1 to Current Report on Form 8-K filed with the Securities and Exchange Commission on September 15, 2011)
3.1	Certificate of Incorporation (incorporated by reference to Exhibit 3.1 to Current Report on Form 8-K filed with the Securities and Exchange Commission on October 19, 2011)
3.2	Certificate of Designation of Series A Convertible Preferred Stock (incorporated by reference to Exhibit 3.2 to Current Report on Form 8-K filed with the Securities and Exchange Commission on October 19, 2011)
