BLOOMIN' BRANDS, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)

1. Description of the Business and Basis of Presentation

Description of the Business - Bloomin' Brands, Inc., through its subsidiaries ("Bloomin' Brands" or the "Company"), owns and operates casual, upscale casual and fine dining restaurants. The Company's restaurant portfolio has four concepts: Outback Steakhouse, Carrabba's Italian Grill, Bonefish Grill and Fleming's Prime Steakhouse & Wine Bar. Each of the Company's concepts has additional restaurants in which it has no direct investment and are operated under franchise agreements.

Basis of Presentation - The accompanying interim unaudited consolidated financial statements have been prepared by the Company pursuant to the rules and regulations of the Securities and Exchange Commission. Accordingly, they do not include all the information and footnotes required by generally accepted accounting principles in the United States ("U.S. GAAP") for complete financial statements. In the opinion of the Company, all adjustments necessary for fair financial statement presentation for the periods presented have been included and are of a normal, recurring nature. The results of operations for interim periods are not necessarily indicative of the results to be expected for the full year. These financial statements should be read in conjunction with the audited financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the year ended December 25, 2016.

Recently Adopted Financial Accounting Standards - Effective December 26, 2016, the Company adopted Accounting Standards Update ("ASU") 2016-09: "Compensation - Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting" ("ASU No. 2016-09"). ASU No. 2016-09 simplifies several aspects related to the accounting for share-based payment transactions, including the accounting for income taxes, statutory tax withholding requirements and classification on the statement of cash flows. Upon adoption, the Company made an accounting policy election to recognize forfeitures as they occur. Using the modified retrospective transition method required under the standard, the Company recorded a cumulative-effect adjustment for the adoption of ASU No. 2016-09 of \$14.4 million for previously unrecognized excess tax benefits, which increased Deferred tax assets and reduced Accumulated deficit. The recognition of excess tax benefits and tax shortfalls in the income statement and presentation of excess tax benefits on the statement of cash flows were adopted prospectively, with no adjustments made to prior periods. The remaining provisions of ASU No. 2016-09 did not have a material impact on the Company's Consolidated Financial Statements.

Recently Issued Financial Accounting Standards Not Yet Adopted - In January 2017, the Financial Accounting Standards Board ("the FASB") issued ASU No. 2017-04, "Intangibles - Goodwill and Other (Topic 350): Simplifying the Test for Goodwill Impairment," ("ASU No. 2017-04"). ASU No. 2017-04 eliminates the second step of goodwill impairment, which requires a hypothetical purchase price allocation. Under ASU No. 2017-04, goodwill impairment will be calculated as the amount a reporting unit's carrying value exceeds its calculated fair value. ASU No. 2017-04 will be applied prospectively and is effective for the Company in fiscal year 2020, with early adoption permitted. The Company does not expect the adoption of ASU No. 2017-04 to have a material impact on its Consolidated Financial Statements.

In November 2016, the FASB issued ASU No. 2016-18, "Statement of Cash Flows (Topic 230), Restricted Cash" ("ASU No. 2016-18"). ASU No. 2016-18 provides guidance on the presentation of restricted cash and restricted cash equivalents, which should now be included with cash and cash equivalents when reconciling the beginning and ending cash amounts shown on the statements of cash flows. ASU No. 2016-18 will be effective for the Company in fiscal year 2018, with early adoption permitted. Other than the change in presentation of restricted cash within the statement

of cash flows, the adoption of ASU No. 2016-18 is not expected to have an impact on the Company's Consolidated Financial Statements.

In August 2016, the FASB issued ASU No. 2016-15, Statement of Cash Flows (Topic 230): Classification of Certain Cash Receipts and Cash Payments ("ASU No. 2016-15") which provides guidance on the statement of cash flows presentation of certain transactions where diversity in practice exists. ASU No. 2016-15 will be effective for the

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED) - Continued

Company in fiscal year 2018, and early adoption is permitted. The Company does not expect ASU No. 2016-15 to have a material impact on its Consolidated Financial Statements.

In February 2016, the FASB issued ASU No. 2016-02: "Leases (Topic 842)" ("ASU No. 2016-02"). ASU No. 2016-02 requires the lease rights and obligations arising from lease contracts, including existing and new arrangements, to be recognized as assets and liabilities on the balance sheet. ASU No. 2016-02 is effective for the Company in fiscal year 2019 and must be adopted using a modified retrospective approach. The Company is currently evaluating the impact the adoption of ASU No. 2016-02 will have on its Consolidated Financial Statements.

In May 2014, the FASB issued ASU No. 2014-09 "Revenue Recognition (Topic 606), Revenue from Contracts with Customers" ("ASU No. 2014-09"). ASU No. 2014-09 provides a single source of guidance for revenue arising from contracts with customers and supersedes current revenue recognition standards. Under ASU No. 2014-09, revenue is recognized in an amount that reflects the consideration an entity expects to receive for the transfer of goods and services. The standard also requires additional disclosures about the nature, timing and uncertainty of revenue and cash flows arising from contracts with customers. ASU No. 2014-09, as amended, will be effective for the Company in fiscal year 2018 and the transition method is applied retrospectively to each period presented or as a cumulative-effect adjustment at the date of adoption.

While the Company continues to assess all potential impacts of the standard, it currently believes the most significant impact relates to accounting for gift card breakage and advertising fees charged to franchisees. Under the new standard, the Company expects to recognize gift card breakage proportional to actual gift card redemptions. Advertising fees charged to franchisees, which are currently recorded as a reduction to Other restaurant operating expenses, will be recognized as revenue. In addition, initial franchise fees will be recognized over the term of the franchise agreement, which is not expected to have a material impact on the Consolidated Financial Statements. Additionally, the Company is assessing the impacts of the disclosures required by ASU No. 2014-09. The Company has not yet determined transition methodology as it continues to evaluate materiality and industry best practice.

Recent accounting guidance not discussed above is not applicable, did not have, or is not expected to have a material impact to the Company.

Reclassifications - The Company reclassified certain items in the accompanying Consolidated Financial Statements for prior periods to be comparable with the classification for the current period. These reclassifications had no effect on previously reported net income.

2. Disposals

Refranchising - During the thirteen weeks ended June 25, 2017, the Company completed the sale of 54 of its existing U.S. Company-owned Outback Steakhouse and Carrabba's Italian Grill locations to two of its existing franchisees (the "Buyers") for aggregate cash proceeds of \$36.2 million, net of certain closing adjustments. The transactions resulted in aggregate net gain of \$7.4 million, recorded within Other income (expense), net, in the Consolidated Statements of Operations and Other Comprehensive Income, and is net of an impairment of \$1.7 million related to certain Company-owned assets leased to the Buyers. Included in the cash proceeds are initial franchise fees of \$2.2 million that are recorded within Franchise and other revenues in the Consolidated Statements of Operations and Other Comprehensive Income.

These restaurants are now operated as franchises by the Buyers and the Company remains contingently liable on certain of the real estate lease agreements assigned to the Buyers. See Note 15 - Commitments and Contingencies for additional details regarding lease guarantees.

On February 15, 2017, the Company decided to close 43 underperforming restaurants (the "2017 Closure Initiative"). Most of these restaurants were closed in 2017 to date, with the balance closing as leases and certain operating covenants expire or are amended or waived. The Company expects to substantially complete these restaurant closings through the first quarter of 2019. Expenses related to the Bonefish Restructuring are recognized within the U.S. segment.

The remaining restaurant impairment and closing charges resulted primarily from the carrying value of a restaurant's assets exceeding its estimated fair market value, primarily due to locations identified for relocation.

Assumptions:

12. Derivative Instruments and Hedging Activities

Interest Rate Risk - The Company is exposed to certain risks arising from both its business operations and economic conditions. The Company manages economic risks, including interest rate risk, primarily by managing the amount, sources and duration of its debt funding and through the use of derivative financial instruments. The Company's objectives in using interest rate derivatives, primarily interest rate swaps, are to add stability to interest expense and to manage its exposure to interest rate movements.

Currency Exchange Rate Risk - The Company is exposed to foreign currency exchange rate risk arising from transactions and balances denominated in currencies other than the U.S. dollar. The Company may use foreign currency forward contracts to manage certain foreign currency exposures.

DESIGNATED HEDGES

Cash Flow Hedges of Interest Rate Risk - On September 9, 2014, the Company entered into variable-to-fixed interest rate swap agreements with eight counterparties to hedge a portion of the cash flows of the Company's variable rate debt. The swap agreements have an aggregate notional amount of \$400.0 million, a start date of June 30, 2015, and mature on May 16, 2019. Under the terms of the swap agreements, the Company pays a weighted-average fixed rate of 2.02% on the \$400.0 million notional amount and receives payments from the counterparty based on the 30-day LIBOR rate.

The interest rate swaps, which have been designated and qualify as a cash flow hedge, are recognized on the Company's Consolidated Balance Sheets at fair value and are classified based on the instruments' maturity dates. Fair value changes in the interest rate swaps are recognized in AOCL for all effective portions. Balances in AOCL are subsequently reclassified to earnings in the same period that the hedged interest payments affect earnings. The Company estimates \$2.8 million will be reclassified to interest expense over the next twelve months.

The following table presents the fair value, accrued interest and classification of the Company's interest rate swaps:

(1) During the thirteen and twenty-six weeks ended June 25, 2017 and June 26, 2016, the Company did not recognize any gain or loss as a result of hedge ineffectiveness.

The Company records its derivatives on the Consolidated Balance Sheets on a gross balance basis. The Company's derivatives are subject to master netting arrangements. As of June 25, 2017, the Company did not have more than one derivative between the same counterparties and as such, there was no netting.

By utilizing the interest rate swaps, the Company is exposed to credit-related losses in the event that the counterparty fails to perform under the terms of the derivative contract. To mitigate this risk, the Company enters into derivative contracts with major financial institutions based upon credit ratings and other factors. The Company continually

assesses the creditworthiness of its counterparties. As of June 25, 2017, all counterparties to the interest rate swaps had performed in accordance with their contractual obligations.

The Company has agreements with each of its derivative counterparties that contain a provision where the Company could be declared in default on its derivative obligations if the repayment of the underlying indebtedness is accelerated by the lender due to the Company's default on indebtedness.

As of June 25, 2017 and December 25, 2016, the fair value of the Company's interest rate swaps in a net liability position, including accrued interest but excluding any adjustment for nonperformance risk, was \$4.8 million and \$6.4 million, respectively. As of June 25, 2017 and December 25, 2016, the Company has not posted any collateral related to these agreements. If the Company had breached any of these provisions as of June 25, 2017 and December 25, 2016, it could have been required to settle its obligations under the agreements at their termination value of \$4.8 million and \$6.4 million, respectively.

13. Fair Value Measurements

Fair value is the price that would be received for an asset or paid to transfer a liability, or the exit price, in an orderly transaction between market participants on the measurement date. Fair value is categorized into one of the following three levels based on the lowest level of significant input:

Level 1 Unadjusted quoted market prices in active markets for identical assets or liabilities

Level 2 Observable inputs available at measurement date other than quoted prices included in Level 1

Level 3 Unobservable inputs that cannot be corroborated by observable market data

Fair Value Measurements on a Recurring Basis - The following table summarizes the Company's financial assets and liabilities measured at fair value by hierarchy level on a recurring basis as of June 25, 2017 and December 25, 2016:

Fair value of each class of financial instrument is determined based on the following:

FINANCIAL INSTRUMENT METHODS AND ASSUMPTIONS

Fixed income funds

and Money market funds Carrying value approximates fair value because maturities are less than three months.

Derivative
instruments

The Company's derivative instruments include interest rate swaps and commodities. Fair value measurements are based on the contractual terms of the derivatives and use observable market-based inputs. The interest rate swaps are valued using a discounted cash flow analysis on the expected cash flows of each derivative using observable inputs including interest rate curves and credit spreads. The Company incorporates credit valuation adjustments to reflect both its own nonperformance risk and the respective counterparty's nonperformance risk in the fair value measurements. As of June 25, 2017 and December 25, 2016, the Company has determined that the credit valuation adjustments are not significant to the overall valuation of its derivatives.

Fair Value Measurements on a Nonrecurring Basis - Assets and liabilities that are measured at fair value on a nonrecurring basis relate primarily to property, fixtures and equipment, goodwill and other intangible assets, which are remeasured when carrying value exceeds fair value. The following table summarizes the Company's assets measured at fair value by hierarchy level on a nonrecurring basis:

(1) Carrying value approximates fair value with all assets measured using third-party market appraisals (Level 2).

(2) Carrying value approximates fair value with all assets measured using executed sales contracts (Level 2).

Interim Disclosures about Fair Value of Financial Instruments - The Company's non-derivative financial instruments as of June 25, 2017 and December 25, 2016 consist of cash equivalents, restricted cash, accounts receivable, accounts payable and current and long-term debt. The fair values of cash equivalents, restricted cash, accounts receivable and accounts payable approximate their carrying amounts reported in the Consolidated Balance Sheets due to their short duration.

Debt is carried at amortized cost; however, the Company estimates the fair value of debt for disclosure purposes. The following table includes the carrying value and fair value of the Company's debt by hierarchy level as of June 25, 2017 and December 25, 2016:

Fair value of debt is determined based on the following:

DEBT FACILITY METHODS AND ASSUMPTIONS

Senior Secured Credit Facility	Quoted market prices in inactive markets.
PRP Mortgage Loan	Assumptions derived from current conditions in the real estate and credit markets, changes in the underlying collateral and expectations of management.
Other notes payable	Discounted cash flow approach. Discounted cash flow inputs primarily include cost of debt rates, which are used to derive the present value factors for the determination of fair value.

14. Income Taxes

	THIRTEEN WEEKS ENDED JUNE 25, 2017	2016		TWENTY-SIX WEEKS ENDED JUNE 25, 2017	2016	
Effective income tax rate	8.3 %	366.2 %		18.4 %	44.6 %	

The effective income tax rate for the thirteen weeks ended June 25, 2017 decreased 357.9% as compared to the thirteen weeks ended June 26, 2016. Approximately 348% of this net decrease was due to the impairment and additional tax liabilities recorded in connection with the sale of Outback Steakhouse South Korea in 2016. The remaining decrease was primarily due to the impact of certain favorable discrete tax items recorded in 2017 and the change in the blend of taxable income across the Company's U.S. and international subsidiaries.

The effective income tax rate for the twenty-six weeks ended June 25, 2017 decreased 26.2% as compared to the twenty-six weeks ended June 26, 2016. Approximately 23% of this net decrease was due to the impairment and additional tax liabilities recorded in connection with the sale of Outback Steakhouse South Korea in 2016. The remaining decrease was primarily due to the impact of certain favorable discrete tax items recorded in 2017 and the change in the blend of taxable income across the Company's U.S. and international subsidiaries.

The effective income tax rate for the thirteen and twenty-six weeks ended June 25, 2017 was lower than the blended federal and state statutory rate of approximately 39%, primarily due to the benefit of employment-related tax credits and certain favorable discrete tax items recorded in 2017.

15. Commitments and Contingencies

Litigation and Other Matters - The Company had \$3.6 million and \$3.5 million of liabilities recorded for various legal matters as of June 25, 2017 and December 25, 2016, respectively.

In November 2015, David Sears and Elizabeth Thomas, two former Outback Steakhouse managers ("Manager Plaintiffs"), sent a demand letter seeking unpaid overtime compensation on behalf of all managers and kitchen managers employed at Outback Steakhouse restaurants from November 2012 to present. The Manager Plaintiffs claim that managers were not assigned sufficient management duties to qualify as exempt from overtime. In December 2016, the Company agreed to a tentative class settlement for eligible kitchen managers and accrued a settlement, inclusive of legal fees, of \$2.4 million. During the second quarter of 2017, the class period closed and the Company

made final payment to the class of \$2.3 million.

The Company is subject to legal proceedings, claims and liabilities, such as liquor liability, slip and fall cases, wage-and-hour and other employment-related litigation which arise in the ordinary course of business and are generally covered by insurance if they exceed specified retention or deductible amounts, with the exception of wage-and-hour cases which are not covered by insurance. In the opinion of management, the amount of ultimate liability with respect to those actions will not have a material adverse impact on the Company's financial position or results of operations and cash flows.

Lease Guarantees - As a result of the Company assigning its interest in obligations under real estate leases in connection with the sale of certain restaurants, the Company is contingently liable on certain lease agreements. These leases have varying terms, the latest of which expires in 2032. As of June 25, 2017, the potential amount of undiscounted payments the Company could be required to make in the event of non-payment by the primary lessees was approximately \$28.6 million. The present value of these potential payments discounted at the Company's incremental borrowing rate as of June 25, 2017 was approximately \$17.8 million. The Company believes the financial strength and operating history of the buyers significantly reduces the risk that the Company will be required to make payments under these leases. Accordingly, no liability has been recorded.

16. Segment Reporting

The Company has two reportable segments, U.S. and International, which reflects how the Company manages its business, reviews operating performance and allocates resources. The U.S. segment includes all brands operating in the U.S. while brands operating outside the U.S. are included in the International segment. Resources are allocated and performance is assessed by the Company's Chief Executive Officer ("CEO"), whom the Company has determined to be its Chief Operating Decision Maker ("CODM"). Following is a summary of reporting segments:

SEGMENT	CONCEPT	GEOGRAPHIC LOCATION
U.S.	Outback Steakhouse	United States of America
	Carrabba's Italian Grill	
	Bonefish Grill	
	Fleming's Prime Steakhouse & Wine Bar	
International	Outback Steakhouse	Brazil, Hong Kong, China
	Carrabba's Italian Grill (Abbraccio)	Brazil

Segment accounting policies are the same as those described in Note 2 - Summary of Significant Accounting Policies in the Company's Annual Report on Form 10-K for the year ended December 25, 2016. Revenues for all segments include only transactions with customers and include no intersegment revenues. Excluded from net income from operations for U.S. and International are certain legal and corporate costs not directly related to the performance of the segments, stock-based compensation expenses and certain bonus expenses.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS - Continued

Overview

We are one of the largest casual dining restaurant companies in the world with a portfolio of leading, differentiated restaurant concepts. As of June 25, 2017, we owned and operated 1,192 restaurants and franchised 296 restaurants across 48 states, Puerto Rico, Guam and 19 countries. We have four founder-inspired concepts: Outback Steakhouse, Carrabba's Italian Grill, Bonefish Grill and Fleming's Prime Steakhouse & Wine Bar.

Executive Summary

Our financial results for the thirteen weeks ended June 25, 2017 ("second quarter of 2017") include the following:

A decrease in total revenues of 4.2% to \$1.0 billion in the second quarter of 2017, as compared to the second quarter of 2016, was primarily due to refranchising internationally and domestically and the net impact of restaurant closings and new restaurant openings, partially offset by the effect of foreign currency translation and increases in franchise revenues.

Income from operations of \$42.2 million in the second quarter of 2017, as compared to \$13.3 million in the second quarter of 2016, increased primarily due to impairment related to the sale of Outback Steakhouse South Korea in 2016 and increases in franchise revenues, partially offset by a decrease in restaurant-level operating margin and the timing of our annual partner's conference which occurred in Q2 of 2017 and Q1 of 2016.

Following is a summary of significant actions we have taken and other factors that impacted our operating results and liquidity to date in 2017:

Refranchising - During the thirteen weeks ended June 25, 2017, we completed the sale of 54 of our existing U.S. Company-owned Outback Steakhouse and Carrabba's Italian Grill locations for aggregate cash proceeds of \$36.2 million, net of certain closing adjustments. The transactions resulted in aggregate net gain of \$7.4 million within Other income (expense), net, in the Consolidated Statements of Operations and Other Comprehensive Income. See Note 2 - Disposals of our Notes to Consolidated Financial Statements for additional details.

Sale-leaseback Transactions - During the twenty-six weeks ended June 25, 2017, we entered into sale-leaseback transactions with third-parties in which we sold 15 restaurant properties at fair market value for gross proceeds of \$57.5 million. Subsequent to June 25, 2017, we entered into sale-leaseback transactions with third-parties in which we sold ten restaurant properties at fair market value for gross proceeds of \$32.3 million.

2017 Closure Initiative - On February 15, 2017, we decided to close 43 underperforming restaurants. Most of these restaurants were closed in 2017 to date, with the balance closing as leases and certain operating covenants expire or are amended or waived. See Note 3 - Impairments and Exit Costs of our Notes to Consolidated Financial Statements for additional details regarding the 2017 Closure Initiative.

Credit Agreement Amendment - On May 22, 2017, OSI entered into an Amendment to its existing Credit Agreement, dated October 26, 2012. The Amendment provided an incremental Term loan A-2 in an aggregate principal amount of \$125.0 million, a portion of which was used to repay outstanding borrowings under our revolving credit facility. See Note 9 - Long-term Debt, Net of our Notes to Consolidated Financial Statements for additional details regarding the Amendment to the Credit Agreement.

Share Repurchase Programs - On April 21, 2017, the Board approved the 2017 Share Repurchase Program, a new \$250.0 million authorization which will expire on October 21, 2018. We repurchased 11.5 million shares of common stock year-to-date for a total of \$232.7 million and had \$95.0 million remaining available for repurchase under the 2017 Share Repurchase Program, through the date of this filing.

Key Performance Indicators

Key measures that we use in evaluating our restaurants and assessing our business include the following:

• Average restaurant unit volumes—average sales per restaurant to measure changes in customer traffic, pricing and development of the brand;

• Comparable restaurant sales—year-over-year comparison of sales volumes for Company-owned restaurants that are open 18 months or more in order to remove the impact of new restaurant openings in comparing the operations of existing restaurants;

• System-wide sales—total restaurant sales volume for all Company-owned and franchise restaurants, regardless of ownership, to interpret the overall health of our brands;

• Restaurant-level operating margin, Income from operations, Net income and Diluted earnings per share—financial measures utilized to evaluate our operating performance.

Restaurant-level operating margin is widely regarded in the industry as a useful metric to evaluate restaurant-level operating efficiency and performance of ongoing restaurant-level operations, and we use it for these purposes, overall and particularly within our two segments. Our restaurant-level operating margin is expressed as the percentage of our Restaurant sales that Cost of sales, Labor and other related and Other restaurant operating (including advertising expenses) represent, in each case as such items are reflected in our Consolidated Statement of Operations. The following categories of our revenue and operating expenses are not included in restaurant-level operating margin because we do not consider them reflective of operating performance at the restaurant-level within a period:

- (i) Franchise and other revenues which are earned primarily from franchise royalties and other non-food and beverage revenue streams, such as rental and sublease income.
- (ii) Depreciation and amortization which, although substantially all of which is related to restaurant-level assets, represent historical sunk costs rather than cash outlays for the restaurants.
- (iii) General and administrative expense which includes primarily non-restaurant-level costs associated with support of the restaurants and other activities at our corporate offices.
- (iv) Asset impairment charges and restaurant closing costs which are not reflective of ongoing restaurant performance in a period.

• Adjusted restaurant-level operating margin, Adjusted income from operations, Adjusted net income and Adjusted diluted earnings per share—non-GAAP financial measures utilized to evaluate our operating performance, and for which definitions, usefulness and reconciliations are described in more detail in the “Non-GAAP Financial Measures” section below; and

• Customer satisfaction scores—measurement of our customers’ experiences in a variety of key areas.

The decrease in U.S. income from operations generated in the thirteen weeks ended June 25, 2017 as compared to the thirteen weeks ended June 26, 2016, was primarily due to lower operating margin at the restaurant-level, partially offset by increases in franchise revenues.

The decrease in U.S. income from operations generated in the twenty-six weeks ended June 25, 2017 as compared to the twenty-six weeks ended June 26, 2016, was primarily due to: (i) lower operating margin at the restaurant-level and (ii) restaurant closing costs from the 2017 Closure Initiative, partially offset by increases in franchise revenues.

The decrease in Restaurant sales in the thirteen weeks ended June 25, 2017 as compared to the thirteen weeks ended June 26, 2016 was primarily attributable to the refranchising of Outback Steakhouse South Korea in 2016, partially offset by: (i) the effect of foreign currency translation of the Brazil Real relative to the U.S. dollar, (ii) the opening of 35 new restaurants not included in our comparable restaurant sales base and (iii) an increase in comparable restaurant sales.

The decrease in Restaurant sales in the twenty-six weeks ended June 25, 2017 as compare to the twenty-six weeks ended June 26, 2016 primarily attributable to the refranchising of Outback Steakhouse South Korea in 2016, partially offset by: (i) the effect of foreign currency translation of the Brazil Real relative to the U.S. dollar, (ii) the opening of 41 new restaurants not included in our comparable restaurant sales base and (iii) an increase in comparable restaurant sales.

Restaurant-level operating margin

The increase in International restaurant-level operating margin in the thirteen weeks ended June 25, 2017 as compared to the thirteen weeks ended June 26, 2016 was primarily due to: (i) increases in average check per person, (ii) the impact of the sale of Outback Steakhouse South Korea in 2016 and (iii) the impact of certain cost saving initiatives. These increases were partially offset by: (i) higher labor and commodity inflation and (ii) higher advertising expense.

partially offset by higher General administrative expense. General and administrative expense for the International segment increased primarily from the effects of foreign currency exchange.

Non-GAAP Financial Measures

In addition to the results provided in accordance with U.S. GAAP, we provide certain non-GAAP measures, which present operating results on an adjusted basis. These are supplemental measures of performance that are not required by or presented in accordance with U.S. GAAP and include the following: (i) system-wide sales, (ii) Adjusted restaurant-level operating margins, (iii) Adjusted income from operations and the corresponding margins, (iv) Adjusted net income and (v) Adjusted diluted earnings per share.

We believe that our use of non-GAAP financial measures permits investors to assess the operating performance of our business relative to our performance based on U.S. GAAP results and relative to other companies within the restaurant industry by isolating the effects of certain items that may vary from period to period without correlation to core operating performance or that vary widely among similar companies. However, our inclusion of these adjusted measures should not be construed as an indication that our future results will be unaffected by unusual or infrequent items or that the items for which we have made adjustments are unusual or infrequent or will not recur. We believe that the disclosure of these non-GAAP measures is useful to investors as they form part of the basis for how our management team and Board of Directors evaluate our operating performance, allocate resources and administer employee incentive plans.

These non-GAAP financial measures are not intended to replace U.S. GAAP financial measures, and they are not necessarily standardized or comparable to similarly titled measures used by other companies. We maintain internal guidelines with respect to the types of adjustments we include in our non-GAAP measures. These guidelines endeavor to differentiate between types of gains and expenses that are reflective of our core operations in a period, and those that may vary from period to period without correlation to our core performance in that period. However, implementation of these guidelines necessarily involves the application of judgment, and the treatment of any items not directly addressed by, or changes to, our guidelines will be considered by our disclosure committee. Refer to the reconciliations of non-GAAP measures for descriptions of the actual adjustments made in the current periods and the corresponding prior periods.

As previously announced, based on a review of our non-GAAP presentations, we determined that, commencing with our results for the first fiscal quarter of 2017, when presenting the non-GAAP measures Adjusted income from operations and the corresponding margins, Adjusted net income and Adjusted diluted earnings per share, we will no longer adjust for expenses incurred in connection with our remodel program or intangible amortization recorded as a result of the acquisition of our Brazil operations. We recast historical comparable periods to conform to the revised presentation.

System-Wide Sales

System-wide sales is a non-GAAP financial measure that includes sales of all restaurants operating under our brand names, whether we own them or not. (3) Represents expenses incurred for approved closure and restructuring initiatives.

(5) Relates to severance expense incurred primarily as a result of the relocation of our Fleming's operations center to the corporate home office in 2016.

(6) Primarily relates to the sale of 54 U.S. Company-owned restaurants to existing franchisees.

(7) Relates to modification of our Credit Agreement in 2017 and the defeasance of the 2012 CMBS loan in 2016.

Represents income tax effect of the adjustments for the thirteen and twenty-six weeks ended June 25, 2017 and (8) June 26, 2016. Adjustments include the impact of excluding \$4.6 million of discrete income tax items for the thirteen and twenty-six weeks ended June 25, 2017.

FINANCIAL CONDITION AND RESULTS OF OPERATIONS - Continued

Liquidity and Capital Resources

LIQUIDITY

Our liquidity sources consist of cash flow from our operations, cash and cash equivalents and credit capacity under our credit facilities. We expect to use cash primarily for general operating expenses, share repurchases and dividend payments, remodeling or relocating older restaurants, development of new restaurants and new markets, principal and interest payments on our debt, obligations related to our deferred compensation plans and investments in technology.

We believe that our expected liquidity sources are adequate to fund debt service requirements, operating lease obligations, capital expenditures and working capital obligations for at least the next 12 months. However, our ability to continue to meet these requirements and obligations will depend on, among other things, our ability to achieve anticipated levels of revenue and cash flow and our ability to manage costs and working capital successfully.

Cash and Cash Equivalents - As of June 25, 2017, we had \$103.5 million in cash and cash equivalents, of which \$39.2 million was held by foreign affiliates, a portion of which would be subject to additional taxes if repatriated to the United States. The international jurisdictions in which we have significant cash do not have any known restrictions that would prohibit the repatriation of cash and cash equivalents.

Refranchising - In April 2017, we completed the sale of 54 of our existing Outback Steakhouse and Carrabba's Italian Grill locations for aggregate cash proceeds of \$36.2 million, net of certain closing adjustments. After completion of the sale, these restaurant locations are operated as franchises under an agreement with the Buyers.

Sale-Leaseback Transactions - During the twenty-six weeks ended June 25, 2017, we entered into sale-leaseback transactions with third-parties in which we sold 15 restaurant properties at fair market value for gross proceeds of \$57.5 million. With a portion of the proceeds from these transactions, we repaid the remaining balance of our PRP Mortgage Loan in April 2017.

Subsequent to June 25, 2017, we entered into sale-leaseback transactions with third-parties in which we sold ten restaurant properties at fair market value for gross proceeds of \$32.3 million.

Closure Initiatives - Total aggregate future undiscounted cash expenditures of \$35.4 million to \$41.8 million for the Closure Initiatives, primarily related to lease liabilities, are expected to occur over the remaining lease terms with the final term ending in January 2029.

Capital Expenditures - We estimate that our capital expenditures will total between \$260.0 million and \$280.0 million in 2017. The amount of actual capital expenditures may be affected by general economic, financial, competitive, legislative and regulatory factors, among other things, including restrictions imposed by our borrowing arrangements.

Credit Facilities - As of June 25, 2017, we had \$1.1 billion of outstanding borrowings under our Senior Secured Credit Facility. Following is a summary of principal payments and debt issuance from December 25, 2016 to June 25, 2017:

On May 22, 2017, OSI entered into an Amendment to its Credit Agreement which provided an incremental Term (1)loan A-2 in an aggregate principal amount of \$125.0 million. A portion of the proceeds from Term loan A-2 were used to repay \$25.0 million of our outstanding revolving credit facility.

We continue to evaluate whether we will make further payments of our outstanding debt ahead of scheduled maturities. Following is a summary of our outstanding credit facilities as of June 25, 2017 and December 25, 2016:

	INTEREST			OUTSTANDING

(1) Represents the weighted-average interest rate.

Credit Agreement - On May 22, 2017, OSI entered into an Amendment to its Credit Agreement which provided an incremental Term loan A-2 in an aggregate principal amount of \$125.0 million. Proceeds from Term loan A-2 were used for general business purposes and to repay a portion of our outstanding revolving credit facility. As of June 25, 2017, we had \$198.7 million in available unused borrowing capacity under our revolving credit facility, net of letters of credit of \$27.8 million.

The Credit Agreement contains term loan mandatory prepayment requirements of 50% of our annual excess cash flow, as defined in the Credit Agreement. The amount outstanding required to be prepaid may vary based on our leverage ratio and year end results. Other than the required minimum amortization premiums of \$43.1 million, we do not anticipate any other payments will be required through July 1, 2018.

We are currently exploring options to address the 2019 maturity of our Senior Secured Credit Facility.

Debt Covenants - Our Credit Agreement contains various financial and non-financial covenants. A violation of these covenants could negatively impact our liquidity by restricting our ability to borrow under the revolving credit facility and cause an acceleration of the amounts due under the credit facilities. See Note 11 - Long-term Debt, Net in our

Annual Report on Form 10-K for the year ended December 25, 2016 for further information.

As of June 25, 2017 and December 25, 2016, we were in compliance with our debt covenants. We believe that we will remain in compliance with our debt covenants during the next 12 months.

Cash Flow Hedges of Interest Rate Risk - In September 2014, we entered into variable-to-fixed interest rate swap agreements with eight counterparties to hedge a portion of the cash flows of our variable rate debt. The swap agreements have an aggregate notional amount of \$400.0 million, a start date of June 30, 2015, and mature on May 16, 2019. Under the terms of the swap agreements, we pay a weighted-average fixed rate of 2.02% on the \$400.0 million notional amount and receive payments from the counterparty based on the 30-day LIBOR rate. We estimate \$2.8 million will be reclassified to interest expense over the next twelve months. See Note 12 - Derivative Instruments and Hedging Activities of the Notes to Consolidated Financial Statements for further information.

Working capital (deficit)	\$(471,077)	\$ (432,889)

Working capital (deficit) included Unearned revenue from unredeemed gift cards of \$269.9 million and \$388.5 million as of June 25, 2017 and December 25, 2016, respectively. We have, and in the future may continue to have, negative working capital balances (as is common for many restaurant companies). We operate successfully with negative working capital because cash collected on restaurant sales is typically received before payment is due on our current liabilities, and our inventory turnover rates require relatively low investment in inventories. Additionally, ongoing cash flows from restaurant operations and gift card sales are used to service debt obligations and to make capital expenditures.

Deferred Compensation Programs - The deferred compensation obligation due to managing and chef partners was \$101.5 million and \$113.0 million as of June 25, 2017 and December 25, 2016, respectively. We invest in various corporate-owned life insurance policies, which are held within an irrevocable grantor or "rabbi" trust account for settlement of our obligations under the deferred compensation plans. The rabbi trust is funded through our voluntary contributions. The unfunded obligation for managing and chef partners' deferred compensation was \$38.3 million as of June 25, 2017.

We use capital to fund the deferred compensation plans and currently expect annual cash funding of \$18.0 million to \$20.0 million. Actual funding of the deferred compensation obligations and future funding requirements may vary significantly depending on the actual performance compared to targets, timing of deferred payments of partner contracts, forfeiture rates, number of partner participants, growth of partner investments and our funding strategy.

DIVIDENDS AND SHARE REPURCHASES

Dividends - In July 2017, the Board declared a quarterly cash dividend of \$0.08 per share, payable on August 23, 2017. Future dividend payments are dependent on our earnings, financial condition, capital expenditure requirements, surplus and other factors that the Board considers relevant.

Share Repurchases - On April 21, 2017, the Board approved the 2017 Share Repurchase Program, a new \$250.0 million authorization which will expire on October 21, 2018. We had \$95.0 million remaining available for repurchase under the 2017 Share Repurchase Program, as of the date of this filing.

The following table presents our dividends and share repurchases from December 29, 2014 through June 25, 2017:
