Cautionary Note Regarding Forward-Looking Statements

Certain statements in this report are “forward-looking statements” within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended, and are subject to the safe harbor created thereby. These statements relate to future events or the Company’s future financial performance and involve known and unknown risks, uncertainties and other factors that may cause the actual results, levels of activity, performance or achievements of the Company or its industry to be materially different from those expressed or implied by any forward-looking statements. In particular, statements about the Company’s expectations, beliefs, plans, objectives, assumptions, future events or future performance contained in this report, including certain statements contained in “Management’s Discussion and Analysis of Financial Condition and Results of Operations” are forward-looking statements. In some cases, forward-looking statements can be identified by terminology such as “may,” “will,” “could,” “would,” “should,” “expect,” “plan,” “anticipate,” “believe,” “estimate,” “predict,” “potential” or the negative of those terms or other comparable terminology.

Please see Item 1A of the Company’s Form 10-K for the year ended June 28, 2014 and Part II, Item 1A of this Form 10-Q for a discussion of certain important risk factors that relate to forward-looking statements contained in this report. The Company has based these forward-looking statements on its current expectations, assumptions, estimates and projections. While the Company believes these expectations, assumptions, estimates and projections are reasonable, such forward-looking statements are only predictions and involve known and unknown risks and uncertainties, many of which are beyond the Company’s control. These and other important factors may cause actual results, performance or achievements to differ materially from those expressed or implied by these forward-looking statements. The forward-looking statements in this report are made only as of the date hereof, and unless otherwise required by applicable securities laws, the Company disclaims any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

Table of Contents

PERRIGO COMPANY PLC
NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
December 27, 2014

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Company

Perrigo Company plc (formerly known as Perrigo Company Limited, and prior thereto, Blisfont Limited) ("Perrigo" or "the Company"), was incorporated under the laws of Ireland on June 28, 2013, and became the successor registrant of Perrigo Company on December 18, 2013 in connection with the consummation of the acquisition of Elan Corporation, plc ("Elan"), which is discussed further in Note 2. From its beginnings as a packager of home remedies in 1887, Perrigo has grown to become a leading global healthcare supplier. Perrigo develops, manufactures, and distributes over-the-counter ("OTC") and generic prescription ("Rx") pharmaceuticals, nutritional products, and active pharmaceutical ingredients ("API"), and has a specialty sciences business comprised of assets focused predominantly on the treatment of Multiple Sclerosis (Tysabri®). The Company is the world's largest manufacturer of OTC healthcare products for the store brand market. Perrigo's mission is to offer uncompromised "Quality Affordable Healthcare Products®", and it does so across a wide variety of product categories primarily in the United States, United Kingdom, Mexico, Israel, and Australia, as well as many other key markets worldwide, including Canada, China, and Latin America.

Basis of Presentation

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with U.S. generally accepted accounting principles ("GAAP") for interim financial information and with the instructions to Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements. The unaudited condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and footnotes included in Perrigo Company plc's Annual Report on Form 10-K for the year ended June 28, 2014. In the opinion of management, all adjustments (consisting of normal recurring accruals and other adjustments) considered necessary for a fair presentation have been included.

The Company's sales of OTC pharmaceutical products are subject to the seasonal demands for cough/cold/flu and allergy products and consumer dynamics in the retail environments in which our customers operate. In addition, the Company's animal health products are subject to the seasonal demand for flea and tick products, which typically peaks during the warmer weather months. Accordingly, operating results for the three and six months ended December 27, 2014 are not necessarily indicative of the results that may be expected for a full fiscal year.

Change in Fiscal Year

On December 18, 2014, the Board of Directors of the Company determined that the Company's fiscal year-end shall begin on January 1 and end on December 31 of each year, starting on January 1, 2016. The Company's current fiscal year will end on June 27, 2015, followed by a transition period from June 28, 2015 to December 31, 2015. The Company plans to disclose the results of the transition period on a Form 10-KT transition report.

Principles of Consolidation

The condensed consolidated financial statements include the accounts of the Company and all majority-owned subsidiaries. All intercompany transactions and balances have been eliminated in consolidation.

Table of Contents

Recently Adopted Accounting Standards

In July 2013, the Financial Accounting Standards Board issued Accounting Standards Update 2013-11, "Presentation of an Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists" ("ASU 2013-11"). The amendments in ASU 2013-11 provide guidance on the financial statement presentation of an unrecognized tax benefit when a net operating loss carryforward, a similar tax loss, or a tax credit carryforward exists. The Company prospectively adopted this guidance in fiscal 2015, and presented \$90.2 million as a reclassification from Non-current deferred income taxes to Other non-current liabilities upon adoption.

NOTE 2 – ACQUISITIONS

Pending Acquisition

Omega Pharma Invest NV

On November 6, 2014, the Company entered into an Agreement for the Sale and Purchase of 685,348,257 Shares (the "Shares") of Omega Pharma Invest NV ("Omega") (the "Share Purchase Agreement") with Alychlo NV ("Alychlo") and Holdco I BE NV ("Holdco" and, together with Alychlo, the "Sellers"), limited liability companies incorporated under the laws of Belgium, pursuant to which the Company will purchase (the "Acquisition") from the Sellers the Shares of Omega, a limited liability company incorporated under the laws of Belgium, representing 95.77% of the issued and outstanding share capital of Omega. The remaining shares of Omega (30,243,983 shares) will be held by Omega as treasury shares.

The Company agreed to acquire Omega for a total value of €3.6 billion in equity and cash, which includes the assumption of €1.1 billion in debt. The consideration will consist of cash of €1.8 billion (the "Cash Consideration") and 5,397,711 shares of the Company issued to Alychlo (the "Non-Cash Consideration" and, together with the Cash Consideration, the "Acquisition Consideration"). The Acquisition Consideration will be increased by interest from September 30, 2014 until the completion date on an amount of €2.48 billion starting at a rate of 5% subject to monthly increases as set forth in the Share Purchase Agreement.

The Cash Consideration will be financed by a combination of equity that was issued by the Company on November 26, 2014 and debt that was issued by the Company's finance subsidiary on December 2, 2014, as further described in Notes 8 and 9.

The Sellers have agreed to indemnify the Company for certain potential future losses. The Sellers' indemnification and other obligations to the Company under the Share Purchase Agreement will be secured up to €248.0 million.

In connection with the Acquisition, the Company will assume or repay/redeem all outstanding indebtedness of Omega and its subsidiaries, which includes:

- i. €135.0 million of 5.1045% senior notes due 2023 and \$20.0 million (after hedging arrangements, €16.2 million) of 6.19% senior notes due 2016;
- ii. €300.0 million of 5.125% retail bonds due 2017, €180.0 million of 4.500% retail bonds due 2017, and €120.0 million of 5.000% retail bonds due 2019;
- iii. approximately €390.0 million outstanding (with additional amounts available to be drawn) under certain credit and overdraft facilities; and
- iv. amounts incurred under various cash pooling and overdraft arrangements.

The Acquisition is conditioned upon customary closing conditions, including antitrust approval, accuracy of representations and warranties, compliance with covenants, and no material adverse effect. The Company is obligated to use its best efforts to satisfy the antitrust approval condition, including making any required divestitures. Subject to the closing conditions, the Acquisition is expected to be completed during the second half of fiscal 2015.

Under the terms of the Share Purchase Agreement, Alychlo and its affiliates will be subject to a three-year non-compete in Europe, and the Sellers will be subject to a two-year non-solicit, in each case subject to certain exceptions. The Share Purchase Agreement contains other customary representations, warranties, and covenants of the parties thereto.

Table of Contents

As of December 27, 2014, the Company incurred and expensed acquisition-related costs in connection with the pending acquisition. These costs were recorded in unallocated expenses and related to general transaction costs (legal, banking and other professional fees), financing fees, and debt extinguishment. The table below details these transaction costs and where they were recorded (in millions):

Line item	Fiscal 2015
Administration	\$ 11.6
Interest expense, net	5.0
Other expense, net	65.8
Loss on extinguishment of debt	9.6
Total acquisition-related costs	\$92.0

See Note 7 for further details on losses on Omega-related hedging activities shown above in Other expense, net, and Note 8 for details on the Loss on extinguishment of debt.

Completed Acquisitions

All of the below acquisitions, with the exception of the Vedants transaction, have been accounted for under the acquisition method of accounting, and the related assets acquired and liabilities assumed were recorded at fair value as of the acquisition date. Fair value estimates are based on a complex series of judgments about future events and rely heavily on estimates and assumptions. The judgments used to determine the estimated fair value assigned to each class of assets and liabilities assumed, as well as asset lives, can materially impact the Company's results of operations.

The effects of all acquisitions described below were included in the Condensed Consolidated Financial Statements prospectively from the date of acquisition. Unless otherwise indicated, acquisition costs incurred were immaterial and were recorded in Administration expense.

Fiscal 2015 Acquisitions

Lumara Health, Inc.

On October 31, 2014, the Company acquired a portfolio of women's healthcare products from Lumara Health, Inc., a privately-held, Chesterfield, Missouri-based specialty pharmaceutical company for cash consideration of \$83.0 million. The acquisition of this portfolio further expanded the Company's women's healthcare product offerings. Operating results attributable to the acquired Lumara products are included in the Rx Pharmaceuticals segment.

The intangible assets acquired consisted of three product formulations with useful lives ranging from 8 to 12 years. Management is still in the process of verifying data and finalizing information related to the valuation of the assets acquired and liabilities assumed. The Company expects to finalize these matters by the end of fiscal 2015. The goodwill recorded is not deductible for tax purposes.

Table of Contents

The below table indicates the preliminary purchase price allocation based on valuation information, estimates, and assumptions available at December 27, 2014 (in millions).

	Lumara
Total purchase consideration	\$83.0
Assets acquired:	
Accounts receivable, net	2.0
Inventories	1.4
Prepaid expenses and other current assets	0.5
Property and equipment, net	0.1
Goodwill	0.9
Intangible assets - formulations	82.0
Total assets	86.9
Liabilities assumed:	
Accrued liabilities	3.9
Net assets acquired	\$83.0

Fiscal 2014 Acquisitions

Aspen Global Inc.

On February 28, 2014, the Company acquired a basket of OTC products sold in Australia and New Zealand from Aspen Global Inc. ("Aspen"). The acquisition of this product portfolio broadened the Company's product offering in Australia and New Zealand and furthered the Company's strategy to expand the Consumer Healthcare portfolio internationally. Operating results attributable to the acquired Aspen products are included in the Consumer Healthcare segment.

The intangible assets acquired consisted of trademarks and trade names, customer relationships, and non-compete agreements. Customer relationships were assigned a 15-year useful life. Trademarks and trade names were assigned a 25-year useful life and non-compete agreements were assigned a 5-year useful life. The goodwill that was recorded is deductible for tax purposes.

Fera Pharmaceuticals, LLC

On February 18, 2014, the Company acquired a distribution and license agreement for the marketing and sale of methazolamide from Fera Pharmaceuticals, LLC ("Fera"), a privately-held specialty pharmaceutical company. The acquisition of this agreement further expanded the Company's ophthalmic offerings. Operating results attributable to this agreement are included in the Rx Pharmaceuticals segment. The intangible asset acquired was assigned a 15-year useful life.

Table of Contents

Elan Corporation, plc

On December 18, 2013, the Company acquired Elan in a cash and stock transaction as follows (in millions, except per share data):

Elan shares outstanding as of December 18, 2013	515.7
Exchange ratio per share	0.07636
Total Perrigo shares issued to Elan shareholders	39.4
Perrigo per share value at transaction close on December 18, 2013	\$155.34
Total value of Perrigo shares issued to Elan shareholders	6,117.2
Cash consideration paid at \$6.25 per Elan share	3,223.2
Cash consideration paid for vested Elan stock options and share awards	111.5
Total consideration	\$9,451.9

In addition, the Company paid cash consideration of \$16.1 million to the Elan stock option and share award holders for the unvested portion of their awards, which was charged to earnings during fiscal 2014.

At the completion of the transaction, the holder of each Elan ordinary share and each Elan American Depositary Share received from Perrigo \$6.25 in cash and 0.07636 of a Perrigo ordinary share. As a result of the transaction, based on the number of outstanding shares of Perrigo and Elan as of December 18, 2013, former Perrigo and Elan shareholders held approximately 71% and 29%, respectively, of Perrigo's ordinary shares immediately after giving effect to the acquisition.

Elan, headquartered in Dublin, Ireland, provided the Company with assets focused on the treatment of Multiple Sclerosis (Tysabri®). The Company's management believed the acquisition of Elan would provide recurring annual operational synergies, related cost reductions, and tax savings. Certain of these synergies resulted from the elimination of redundant public company costs while optimizing back-office support. The jurisdictional mix of income and the new corporate structure have, and will continue to, result in a lower worldwide effective tax rate.

The operating results for Elan are included in the Specialty Sciences segment. During fiscal 2014, the Company incurred and expensed acquisition-related costs which were recorded in unallocated expenses. The costs related primarily to general transaction costs (legal, banking and other professional fees), financing fees, and debt extinguishment. See Note 8 for further details on the Loss on extinguishment of debt. The table below details these transaction costs and where they were recorded (in millions):

Line item	Fiscal 2014
Administration	\$108.9
Interest expense, net	10.0
Other expense, net	0.2
Loss on extinguishment of debt	165.8
Total acquisition-related costs	\$284.9

The Company acquired two definite-lived intangible assets in the acquisition, both of which are exclusive technology agreements:

Tysabri®: The Company is entitled to royalty payments from Biogen Idec Inc. ("Biogen") based on its Tysabri® revenues in all indications and geographies. The royalty was 12% for the 12-month period ended May 1, 2014. Subsequent to May 1, 2014, the Company is entitled to 18% royalty payments on annual sales up to \$2.0 billion and 25% royalty payments on annual sales above \$2.0 billion. The asset's value is \$5.8 billion, which is being amortized over a useful life of 20 years.

Prialt: The Company is also entitled to royalty payments based on Prialt revenues. The royalty rates range from 7% to 17.5% based on specific levels of annual U.S. sales. The asset's value is \$11.0 million, which is being amortized over a useful life of 10 years.

Table of Contents

Additionally, the Company recorded \$2.3 billion of goodwill, which is not deductible for tax purposes, that represents the expected synergies of the combined company, as described above. The following table reflects the allocation by reportable segment (in millions):

Segment	Goodwill
Consumer Healthcare	\$1,110.0
Rx Pharmaceuticals	845.1
Nutritionals	177.4
Specialty Sciences	200.6
Total	\$2,333.1

Purchase Price Allocation of Fiscal 2014 Acquisitions

The purchase price allocation for Elan was finalized during the first quarter of fiscal 2015. Since June 28, 2014, revisions included a \$13.0 million decrease in net tax-related liabilities, resulting in a corresponding decrease in goodwill.

The below table indicates the purchase price allocation for fiscal 2014 acquisitions (in millions):

	Aspen	Fera	Elan
Purchase price paid	\$53.7	\$17.3	\$9,451.9
Contingent consideration	—	0.8	—
Total purchase consideration	\$53.7	\$18.1	\$9,451.9
Assets acquired:			
Cash and cash equivalents	\$—	\$—	\$1,807.3
Investment securities	—	—	100.0
Accounts receivable	—	—	44.2
Inventories	2.7	0.3	—
Prepaid expenses and other current assets	—	—	27.1
Property and equipment	—	—	9.2
Goodwill	4.6	—	2,333.1
Intangible assets:

Table of Contents

Vedants Drug & Fine Chemicals Private Limited

To further improve the long-term cost position of its API business, on August 6, 2009, the Company acquired an 85% stake in Vedants Drug & Fine Chemicals Private Limited ("Vedants"), an API manufacturing facility in India, for \$11.5 million in cash. The Company purchased the remaining 15% stake in Vedants during the second quarter of fiscal 2014 for \$7.2 million in cash. The transaction was accounted for as an equity transaction and resulted in the elimination of the noncontrolling interest.

NOTE 3 – GOODWILL AND OTHER INTANGIBLE ASSETS

Goodwill

Changes in the carrying amount of goodwill, by reportable segment, were as follows (in millions):

Reporting Segments:	Balance at June 28, 2014	Business acquisitions	Purchase accounting adjustments	Currency translation adjustment	Balance at December 27, 2014
Consumer Healthcare	\$ 1,406.3	\$—	\$(6.2) \$(9.1) \$ 1,391.0
Nutritionals	510.1	—	(1.0) —	509.1
Rx Pharmaceuticals	1,258.3	0.9	(4.7) (24.2) 1,230.3
API	97.6	—	—	(12.1) 85.5
Specialty Sciences	201.8	—	(1.1) —	200.7
Total goodwill	\$3,474.1	\$0.9	\$(13.0) \$(45.4) \$3,416.6

Intangible Assets

Other intangible assets and related accumulated amortization consisted of the following (in millions):

	December 27, 2014		June 28, 2014	
	Gross	Accumulated Amortization	Gross	Accumulated Amortization
Amortizable intangibles:				
Distribution and license agreements	\$6,107.8	\$348.0	\$6,027.3	\$192.1
Developed product technology/formulation and product rights	902.4	330.9	931.7	302.5
Customer relationships	366.7	106.3	372.0	97.5
Trade names and trademarks	47.2	6.0	47.8	5.6
Non-compete agreements	14.8	10.5	15.3	9.4
Total	\$7,438.9	\$801.7	\$7,394.1	\$607.1
Non-amortizable intangibles:				
Trade names and trademarks	\$57.4	\$—	\$59.5	\$—
In-process research and development	7.3	—	10.2	—
Total	64.7	—	69.7	—
Total other intangible assets	\$7,503.6	\$801.7	\$7,463.8	\$607.1

Certain intangible assets are denominated in currencies other than the U.S. dollar; therefore, their gross and net carrying values are subject to foreign currency movements.

The Company recorded amortization expense of \$214.2 million and \$73.6 million for the six months ended December 27, 2014 and December 28, 2013, respectively. The increase in amortization expense was due primarily to the incremental amortization expense incurred on the amortizable intangible assets acquired as part of the Elan

acquisition.

NOTE 4 – INVENTORIES

Major components of inventory at December 27, 2014 and June 28, 2014, were as follows (in millions):

	December 27, 2014	June 28, 2014
Finished goods	\$306.1	\$307.0
Work in process	158.1	146.7
Raw materials	177.6	177.9
Total inventories	\$641.8	\$631.6

NOTE 5 – FAIR VALUE MEASUREMENTS

Fair value is the price that would be received upon sale of an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The following fair value hierarchy is used in selecting inputs, with the highest priority given to Level 1, as these are the most transparent or reliable.

Level 1: Quoted prices for identical instruments in active markets.

Level 2: Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations in which all significant inputs are observable in active markets.

Level 3: Valuations derived from valuation techniques in which one or more significant inputs are not observable.

The following tables summarize the valuation of the Company's financial instruments carried at fair value by the above pricing categories at December 27, 2014 and June 28, 2014 (in millions):

	December 27, 2014			Total
	Level 1	Level 2	Level 3	
Assets:				
Investment securities	\$20.0	\$—	\$—	\$20.0
Foreign currency forward contracts	—	2.4	—	2.4
Funds associated with Israeli post employment benefits	—	17.2	—	17.2
Total assets	\$20.0	\$19.6	\$—	\$39.6
Liabilities:				
Contingent consideration	\$—	\$—	\$12.4	\$12.4
Interest rate swap agreements	—	5.8	—	5.8
Foreign currency forward contracts	—	45.3	—	45.3
Total liabilities	\$—	\$51.1	\$12.4	\$63.5

Table of Contents

The table below presents changes in the liability measured at fair value on a recurring basis using significant unobservable inputs (Level 3) for the three and six months ended December 27, 2014 and December 28, 2013 (in millions):

	Three Months Ended		Six Months Ended	
	December 27, 2014	December 28, 2013	December 27, 2014	December 28, 2013
Contingent Consideration				
Beginning balance:	\$12.4	\$22.2	\$17.4	\$22.2
Net realized investment gains (losses) and net change in unrealized appreciation (depreciation)—		(4.9) —	(4.9
included in net income (loss))
Settlements	—	—	(5.0) —
Ending balance:	\$12.4	\$17.3	\$12.4	\$17.3

Net realized gains (losses) in the table above were recorded in Administration expense. During the three and six months ended December 27, 2014 there were no transfers between Levels 1, 2, and 3. The Company's policy regarding the recording of transfers between levels is to record any such transfers at the end of the reporting period. See [Note 6](#) for information on the Company's investment securities. See [Note 7](#) for a discussion of derivatives.

Israeli post-employment benefits represent amounts the Company has deposited in funds managed by financial institutions that are designated by management to cover post-employment benefits for its Israeli employees that are required by Israeli law. The funds are recorded in Other non-current assets and values are determined using prices for recently traded financial instruments with similar underlying terms, as well as directly or indirectly observable inputs, such as interest rates and yield curves, that are observable at commonly quoted intervals.

Contingent consideration represents milestone payment obligations obtained through product acquisitions and is valued using estimates that utilize probability-weighted outcomes, sensitivity analysis, and discount rates reflective of the risk involved. The estimates are updated quarterly and the liabilities are adjusted to fair value depending on a number of assumptions, including the competitive landscape and regulatory approvals that may impact the future sales of a product.

As of December 27, 2014, the Company's fixed rate long-term debt consisted of public bonds with a carrying value of \$3.9 billion and a fair value of \$4.0 billion. The fair value was based on quoted market prices (Level 1). As of June 28, 2014, the Company's fixed rate long-term debt consisted of private placement senior notes with registration rights with a carrying value of \$2.3 billion and a fair value of \$2.4 billion. The fair value was determined by discounting the future cash flows of the financial instruments to their present value, using interest rates currently offered for borrowings and deposits of similar nature and remaining maturities (Level 2).

The carrying amounts of the Company's other financial instruments, consisting of cash and cash equivalents, accounts receivable, accounts payable, short-term debt, and variable rate long-term debt approximate their fair value.

Table of Contents

NOTE 6 – INVESTMENTS

Available for Sale Securities

The Company's available for sale securities totaled \$20.0 million at December 27, 2014 and are reported in Investment securities. At June 28, 2014, available for sale securities totaled \$20.7 million, of which \$5.9 million are reported in Investment securities and \$14.8 million are reported in Other non-current assets.

Net unrealized investment gains (losses) on available for sale securities were as follows (in millions):

	December 27, 2014	June 28, 2014
Equity securities, at cost less impairments	\$17.1	\$17.1
Gross unrealized gains	3.4	3.8
Gross unrealized losses	(0.5) (0.2
Estimated fair value of equity securities	\$20.0	\$20.7

The factors affecting the assessment of impairments include both general financial market conditions and factors specific to a particular company. The equity securities in a gross unrealized loss position at December 27, 2014 were in that position for less than 12 months.

Cost Method Investments

The Company's cost method investments totaled \$8.4 million and \$9.0 million at December 27, 2014 and June 28, 2014, respectively, and are included in Other non-current assets.

Equity Method Investments

The Company's equity method investments totaled \$52.5 million and \$57.4 million at December 27, 2014 and June 28, 2014, respectively, and are included in Other non-current assets. The Company recorded net losses of \$3.1 million and \$6.3 million during the three and six months ended December 27, 2014, respectively, and a net loss of \$1.3 million during the three and six months ended December 28, 2013 for the Company's proportionate share of the equity method investment earnings or losses. The amounts are recorded in Other expense, net.

NOTE 7 – DERIVATIVE INSTRUMENTS AND HEDGING ACTIVITIES

The Company enters into certain derivative financial instruments, when available on a cost-effective basis, to mitigate its risk associated with changes in interest rates and foreign currency exchange rates as follows:

Interest rate risk management - The Company is exposed to the impact of interest rate changes. The Company's objective is to manage the impact of interest rate changes on cash flows and the market value of the Company's borrowings. The Company utilizes a mix of debt maturities along with both fixed-rate and variable-rate debt to manage changes in interest rates. In addition, the Company may enter into treasury-lock agreements and interest rate swap agreements on certain investing and borrowing transactions to manage its interest rate changes and to reduce its overall cost of borrowing.

Foreign currency exchange risk management - The Company conducts business in several major international currencies and is subject to risks associated with changing foreign exchange rates. The Company's objective is to reduce cash flow volatility associated with foreign exchange rate changes on a consolidated basis to allow management to focus its attention on business operations. Accordingly, the Company enters into various contracts that

change in value as foreign exchange rates change to protect the value of existing foreign currency assets and liabilities, commitments, and anticipated foreign currency revenue and expenses.

All derivative instruments are managed on a consolidated basis to efficiently net exposures and thus take advantage of any natural offsets. Gains and losses related to the derivative instruments are expected to be offset largely by gains and losses on the original underlying asset or liability. The Company does not use derivative financial instruments for speculative purposes.

Table of Contents

At December 27, 2014 and June 28, 2014, all of the Company's designated derivatives were classified as cash flow hedges. Designated derivatives meet hedge accounting criteria, which means that the fair value of the hedge is recorded in shareholders' equity as a component of Other comprehensive income ("OCI"), net of tax. The deferred gains and losses are recognized in income in the period in which the hedged item affects earnings. Any ineffective portion of the change in fair value of the derivative is immediately recognized in earnings. All of the Company's designated derivatives are assessed for hedge effectiveness quarterly.

The Company also has economic non-designated derivatives that do not meet hedge accounting criteria. These derivative instruments are adjusted to current market value at the end of each period through earnings. Gains or losses on these instruments are offset substantially by the remeasurement adjustment on the hedged item.

Interest Rate Swaps and Treasury Locks

Interest rate swap agreements are contracts to exchange floating rate for fixed rate payments (or vice versa) over the life of the agreement without the exchange of the underlying notional amounts. The notional amounts of the interest rate swap agreements are used to measure interest to be paid or received and do not represent the amount of exposure to credit loss. The differential paid or received on the interest rate swap agreements is recognized as an adjustment to interest expense. All of the Company's interest rate swaps qualify for hedge accounting.

The Company has term loans with floating interest rates priced off the LIBOR yield curve, as described in Note 8. To hedge the change in the LIBOR rate, the Company has outstanding forward interest rate swap agreements with a notional amount totaling \$240.0 million. The effective portion of the hedge remains in accumulated other comprehensive income ("AOCI") and is being amortized to earnings over the life of the debt.

During the second quarter of fiscal 2015, the Company entered into forward interest rate swaps and treasury locks (together "Rate Locks") to hedge against changes in the interest rates between the date the Rate Locks were entered into and the date of the issuance of the Company's 2014 Bonds (discussed in Note 8). These Rate Locks were designated as cash flow hedges of expected future debt issuances with a notional amount totaling \$750.0 million. The Rate Locks were settled upon the issuance of an aggregate of \$1.6 billion principal amount on December 2, 2014 for a cumulative after-tax loss of \$5.8 million after recording \$1.1 million of ineffectiveness.

During the first quarter of fiscal 2014, the Company entered into forward interest rate swap agreements to hedge against changes in the benchmark interest rate between the date the swap agreements were entered into and the date of the issuance of the 2013 Bonds (discussed in Note 8). These swaps were designated as cash flow hedges of expected future debt issuances with a notional amount totaling \$725.0 million. The interest rate swaps were settled upon the issuance of an aggregate of \$2.3 billion principal amount on December 18, 2013 for a cumulative after-tax loss of \$12.8 million after recording \$0.5 million of ineffectiveness.

In addition, due to the retirement of the underlying private placement senior notes (described in Note 8 as "the Notes") on December 23, 2013, the Company wrote-off the amounts remaining in OCI associated with the cash flow hedges related to the Notes, resulting in a loss of \$2.6 million recorded against earnings.

Foreign Currency Derivatives

The Company enters into foreign currency forward contracts, both designated and non-designated, in order to manage the impact of fluctuations of foreign exchange on expected future purchases and related payables denominated in a foreign currency and to hedge the impact of fluctuations of foreign exchange on expected future sales and related receivables denominated in a foreign currency. Both types of forward contracts have a maximum maturity date of 15 months. The total notional amount for these contracts was \$442.4 million and \$228.5 million as of December 27, 2014

and June 28, 2014, respectively.

In November 2014, in order to economically hedge the foreign currency exposure associated with the planned payment of the euro-denominated purchase price for Omega, the Company entered into non-designated option contracts with a total notional amount of €2.0 billion. The contracts settled in December 2014, resulting in a loss of \$26.4 million recorded in Other expense, net. The option contracts were replaced with non-designated forward contracts with a total notional amount of €2.0 billion that will mature in the third quarter of fiscal 2015. The Company recorded a loss of \$38.3 million for the change in fair value of the forward contracts during the three

Table of Contents

months ended December 27, 2014 in Other expense, net. Gains or losses on the derivatives due to changes in the EUR/USD exchange rate prior to the close of the acquisition will be economically offset at closing in the final settlement of the euro-denominated Omega purchase price. Because these derivatives are economically hedging a future acquisition, the cash outflow associated with their settlement is shown as an investing activity on the Condensed Consolidated Statements of Cash Flows.

Fair Value Hedges

During the first quarter of 2014, the Company entered into three pay-floating interest rate swaps with a total notional amount of \$425.0 million to hedge changes in the fair value of the Company's senior notes from fluctuations in interest rates. These swaps were designated and qualified as fair value hedges of the Company's fixed rate debt. Accordingly, the gain or loss recorded on the pay-floating interest rate swaps was directly offset by the change in fair value of the underlying debt. Both the derivative instrument and the underlying debt were adjusted to market value at the end of each period with any resulting gain or loss recorded in Other expense, net. The hedge was terminated in the second quarter of fiscal year 2014 due to the retirement of the underlying senior notes.

Effects of Derivatives on the Financial Statements

The below tables indicate the effects of all derivative instruments on the Company's consolidated financial statements. All amounts exclude income tax effects and are presented in millions.

The balance sheet location and gross fair value of the Company's outstanding derivative instruments at December 27, 2014 and June 28, 2014 were as follows:

	Asset Derivatives	Fair Value	
	Balance Sheet Location	December 27, 2014	June 28, 2014
Designated derivatives:			
Foreign currency forward contracts	Other current assets	\$1.4	\$2.8
Total designated derivatives		\$1.4	\$2.8
Non-designated derivatives:			
Foreign currency forward contracts	Other current assets	\$1.0	\$0.3
Total non-designated derivatives		\$1.0	\$0.3
	Liability Derivatives	Fair Value	
	Balance Sheet Location	December 27, 2014	June 28, 2014
Designated derivatives:			
Foreign currency forward contracts	Accrued liabilities	\$4.8	\$0.7
Interest rate swap agreements	Other non-current liabilities	5.8	8.3
Total designated derivatives		\$10.6	\$9.0
Non-designated derivatives:			
Foreign currency forward contracts	Accrued liabilities	\$40.5	\$0.1
Total non-designated derivatives		\$40.5	\$0.1

Table of Contents

The gains (losses) recognized in OCI for the effective portion of the Company's designated cash flow hedges were as follows:

Designated Cash Flow Hedges	Amount of Gain/(Loss) Recorded in OCI (Effective Portion)			
	Three Months Ended		Six Months Ended	
	December 27, 2014	December 28, 2013	December 27, 2014	December 28, 2013
Treasury locks	\$ (2.7) \$ —	\$ (2.7) \$ —
Interest rate swap agreements	(0.8) 1.6	1.9	(14.1)
Foreign currency forward contracts	(2.0) 2.9	(6.6) 5.6
	\$ (5.5) \$ 4.5	\$ (7.4) \$ (8.5)

The gains (losses) reclassified from AOCI into income for the effective portion of the Company's designated cash flow hedges were as follows:

Designated Cash Flow Hedges	Income Statement Location	Amount of Gain/(Loss) Reclassified from AOCI to Income (Effective Portion)			
		Three Months Ended		Six Months Ended	
		December 27, 2014	December 28, 2013	December 27, 2014	December 28, 2013
Treasury locks	Interest expense, net	\$ —	\$ 0.1	\$ —	\$ 0.2
Interest rate swap agreements	Interest expense, net	0.9	(1.5)	1.8	(2.8)
Foreign currency forward contracts	Net sales	(0.5)	0.5	0.1	1.2
	Cost of sales	(0.1)	3.8	0.4	2.8
	Interest expense, net	—	0.1	—	0.1
	Other expense, net	(3.2)	0.6	(4.0)	1.7
		\$ (2.9)	\$ 3.6	\$ (1.7)	\$ 3.2

The gross amount expected to be reclassified out of AOCI into income during the next 12 months is a gain of \$1.5 million.

The gains (losses) recognized in income for the ineffective portion of the Company's designated cash flow hedges were as follows:

Designated Cash Flow Hedges	Income Statement Location	Amount of Gain/(Loss) Recognized in Income (Ineffective Portion)			
		Three Months Ended		Six Months Ended	
		December 27, 2014	December 28, 2013	December 27, 2014	December 28, 2013

4.00% Unsecured Senior Notes due November 15, 2023, including unamortized discount of \$3.0 million ⁽²⁾	797.0	796.8
5.30% Unsecured Senior Notes due November 15, 2043, including unamortized discount of \$1.6 million ⁽²⁾	398.4	398.3
	3,890.0	2,294.0
Other financing	2.8	8.1
Total borrowings outstanding	4,801.7	3,234.2
Less short-term debt and current portion of long-term debt	(362.3) (143.7
Total long-term debt, less current portion	\$4,439.4	\$3,090.5

⁽¹⁾ Public bonds issued on December 2, 2014, discussed below collectively as the "2014 Bonds".

⁽²⁾ Private placement unsecured senior notes with registration rights as of June 28, 2014 and public bonds as of October 1, 2014, discussed below collectively as the "2013 Bonds."

Unamortized deferred financing fees totaled \$43.9 million at December 27, 2014 and \$27.4 million at June 28, 2014.

Omega Financing

Bridge agreement

In connection with the pending Omega acquisition, on November 6, 2014, the Company entered into a €1.75 billion senior unsecured 364-day bridge loan facility (the "Bridge Loan Facility"). Upon issuance of the Company's permanent debt financing described below, the Bridge Loan Facility was terminated on December 3, 2014. At no time did the Company draw under the Bridge Loan Facility.

Table of Contents

Debt issuance

On December 5, 2014, Perrigo Finance plc, a 100% owned finance subsidiary of the Company ("Perrigo Finance") entered into a term loan agreement consisting of two tranches: a \$300.0 million tranche maturing December 18, 2015 and a €500.0 million tranche maturing December 5, 2019, as well as a \$600.0 million Revolving Credit Agreement (the "2014 Revolver") (together, the "2014 Credit Agreements"). The 2014 Credit Agreements allow for the issuance of an additional €300.0 million term loan tranche and an increase in the borrowing capacity under the 2014 Revolver to \$1.0 billion upon closing the Omega acquisition. There were no borrowings outstanding under the 2014 Revolver as of December 27, 2014.

On December 2, 2014, Perrigo Finance issued \$500.0 million aggregate principal amount of 3.50% senior notes due 2021 (the "2021 Notes"), \$700.0 million aggregate principal amount of 3.90% senior notes due 2024 (the "2024 Notes") and \$400.0 million aggregate principal amount of 4.90% senior notes due 2044 (the "2044 Notes" and, together with the 2021 Notes and the 2024 Notes, the "2014 Bonds"). Interest on the 2014 Bonds is payable semiannually in arrears in June and December of each year, beginning in June 2015. The 2014 Bonds are governed by a base indenture and a first supplemental indenture (collectively the "2014 Indenture"). The 2014 Bonds are fully and unconditionally guaranteed on a senior unsecured basis by the Company, and no other subsidiary of the Company guarantees the 2014 Bonds. There are no restrictions under the 2014 Bonds on the Company's ability to obtain funds from its subsidiaries. The Company received net proceeds of approximately \$1.6 billion from issuance of the 2014 Bonds after fees and market discount. The 2014 Bonds are subject to a mandatory redemption if the Company does not consummate the Omega acquisition by, or if the Share Purchase Agreement is terminated at any time prior to, August 6, 2015. The Company may redeem the 2014 Bonds in whole or in part at any time for cash at the redemption prices described in the 2014 Indenture.

Debt extinguishment

On December 5, 2014, the Company repaid the remaining \$895.0 million outstanding under its 2013 Term Loan, then terminated both the 2013 Term Loan and 2013 Revolver described below in "Elan financing". The Company recorded a \$9.6 million loss on extinguishment of debt during the second quarter of fiscal 2015, which consisted largely of the interest on the Bridge Loan Facility.

Elan Financing

Bridge agreement

In connection with the Elan acquisition, on July 28, 2013, the Company entered into a \$2.65 billion debt bridge credit agreement (the "Debt Bridge") and a \$1.7 billion cash bridge credit agreement (the "Cash Bridge") (together, the "Bridge Credit Agreements"). The commitments under the Debt Bridge and the Cash Bridge agreements were terminated on November 8, 2013 and December 24, 2013, respectively. At no time did the Company draw under the Bridge Credit Agreements.

Debt issuance

On September 6, 2013, the Company entered into a \$1.0 billion term loan agreement (the "2013 Term Loan") and a \$600.0 million revolving credit agreement (the "2013 Revolver") (together, the "2013 Credit Agreements"). The 2013 Term Loan consisted of a \$300.0 million tranche maturing December 18, 2015 and a \$700.0 million tranche maturing December 18, 2018. Both tranches were drawn in full on December 18, 2013. Amounts outstanding under the 2013 Credit Agreements bore interest at the Company's option (a) at the alternative base rate or (b) the eurodollar rate plus, in either case, applicable margins as set forth in the 2013 Credit Agreements. Obligations of the Company under the

2013 Credit Agreements were guaranteed by Perrigo Company plc, certain U.S. subsidiaries of Perrigo Company plc, Elan, and certain Irish subsidiaries of Elan until November 21, 2014, at which time the terms of the 2013 Credit Agreements were amended to remove all guarantors.

On November 8, 2013, the Company issued \$500.0 million aggregate principal amount of its 1.30% senior notes due 2016 (the "2016 Notes"), \$600.0 million aggregate principal amount of its 2.30% senior notes due 2018 (the "2018 Notes"), \$800.0 million aggregate principal amount of its 4.00% senior notes due 2023 (the "2023 Notes") and \$400.0 million aggregate principal amount of its 5.30% senior notes due 2043 (the "2043 Notes" and, together with the 2016 Notes, the 2018 Notes and the 2023 Notes, the "2013 Bonds") in a private placement with registration rights. Interest on the 2013 Bonds is payable semiannually in arrears in May and November of each

Table of Contents

year, beginning in May 2014. The 2013 Bonds are governed by a base indenture and a first supplemental indenture (collectively the "2013 Indenture"). The 2013 Bonds are the Company's unsecured and unsubordinated obligations, ranking equally in right of payment to all of the Company's existing and future unsecured and unsubordinated indebtedness. The Company received net proceeds of \$2.3 billion from issuance of the 2013 Bonds after fees and market discount. The 2013 Bonds are not entitled to mandatory redemption or sinking fund payments. The Company may redeem the 2013 Bonds in whole or in part at any time for cash at the redemption prices described in the 2013 Indenture. The 2013 Bonds were guaranteed on an unsubordinated, unsecured basis by the same entities that guaranteed the 2013 Credit Agreement until November 21, 2014, at which time the 2013 Indenture was amended to remove all guarantors.

On September 2, 2014, the Company offered to exchange its private placement senior notes with public bonds (the "Exchange Offer"). The Exchange Offer expired on October 1, 2014, at which time substantially all of the private placement notes had been exchanged for bonds registered with the Securities and Exchange Commission. As a result of the changes in the guarantor structure noted above, the Company is no longer required to present guarantor financial statements.

Debt extinguishment

On December 18, 2013, the Company repaid the remaining principal balance with accrued interest and fees of \$360.0 million outstanding under its credit agreement dated as of October 26, 2011, then terminated the agreement in its entirety.

On November 20, 2013, the Company priced a tender offer and consent solicitation in regard to the 2.95% Notes which were issued pursuant to the indenture dated as of May 16, 2013. The total tender consideration was \$578.3 million. On December 26, 2013 notice was given to holders that the remaining notes not duly tendered would be redeemed on December 27, 2013 at a redemption price of par plus accrued interest. On December 27, 2013, the redemption was completed for a total payment of \$28.5 million. Upon completion of the redemption, the indenture was terminated.

On December 23, 2013, the Company completed the prepayment of all obligations under its private placement senior notes (the "Notes"). All of the Notes were outstanding under the master note purchase agreement dated May 29, 2008 with various institutional investors (the "Note Agreement"). The terms of the Note Agreement provided for prepayment at any time at the Company's option together with applicable make-whole premiums and accrued interest, which totaled \$1.1 billion. Upon completion of the prepayment, the Note Agreement was terminated.

As a result of the debt retirements, the Company recorded a loss of \$165.8 million during the second quarter of fiscal 2014 as follows (in millions):

Make-whole payments	\$ 133.5
Write-off of financing fees on Bridge Credit Agreements	19.0
Write-off of deferred financing fees	10.5
Write-off of unamortized discount	2.8
Total loss on extinguishment of debt	\$ 165.8

Accounts Receivable Securitization

The Company has a \$200.0 million accounts receivable securitization program, which expires in June 2015. Under the terms of the securitization program, subsidiaries can sell certain eligible trade accounts receivables to a wholly owned bankruptcy-remote special purpose entity, Perrigo Receivables, LLC. There were no borrowings outstanding under the securitization program at December 27, 2014 or June 28, 2014.

Table of Contents

NOTE 9 – EARNINGS PER SHARE AND SHAREHOLDERS' EQUITY

Earnings per Share

A reconciliation of the numerators and denominators used in the basic and diluted earnings per share ("EPS") calculation is as follows (in millions):

	Three Months Ended		Six Months Ended	
	December 27, 2014	December 28, 2013	December 27, 2014	December 28, 2013
Numerator:				
Net income (loss)	\$70.2	\$(86.0) \$166.5	\$25.3
Denominator:				
Weighted average shares outstanding for basic EPS	136.3	98.7	135.1	96.4
Dilutive effect of share-based awards	0.5	—	0.5	0.5
Weighted average shares outstanding for diluted EPS	136.8	98.7	135.6	96.9
Anti-dilutive share-based awards excluded from computation of diluted EPS	0.2	0.2	0.1	0.1

Shareholders' Equity

Perrigo Company plc (formerly known as Perrigo Company Limited, and prior thereto, Blisfont Limited) was incorporated under the laws of Ireland on June 28, 2013 and became the successor registrant to Perrigo Company on December 18, 2013 in connection with the consummation of the Elan acquisition. Perrigo Company shares were canceled and exchanged for Perrigo Company plc shares on a one-for-one basis (together with the payment of \$0.01 in cash per Perrigo Company share). All the remaining unsold shares of Perrigo Company were deregistered. Perrigo Company plc began trading on the New York Stock Exchange on December 19, 2013 and the Tel Aviv Stock Exchange on December 22, 2013 under the same symbol used by Perrigo Company ("PRGO") prior to December 18, 2013.

The Company issued 40 thousand and 70 thousand shares related to the exercise and vesting of share-based compensation during the three months ended December 27, 2014 and December 28, 2013, respectively. The Company issued 226 thousand and 334 thousand shares related to the exercise and vesting of share-based compensation during six months ended December 27, 2014 and December 28, 2013, respectively.

In addition, to partially finance the pending Omega acquisition, the Company issued 6,809,210 ordinary shares at \$152.00 per share in a public offering that closed on November 26, 2014. The offering raised approximately \$1.0 billion, offset by \$35.7 million of issuance costs.

The Company does not currently have an ordinary share repurchase program.

Table of Contents

NOTE 10 – ACCUMULATED OTHER COMPREHENSIVE INCOME

Changes in the Company's AOCI balances, net of tax, for the six months ended December 27, 2014 were as follows (in millions):

	Foreign currency translation adjustments	Fair value of derivative financial instruments, net of tax	Fair value of investment securities, net of tax	Post- retirement and pension liability adjustments, net of tax	Total AOCI
Balance at June 28, 2014	\$164.4	\$(16.1) \$2.4	\$(11.1) \$139.6
OCI before reclassifications	(124.2) (7.3) (0.5) (1.7) (133.7
Amounts reclassified from AOCI	—	1.5	—	—	1.5
Other comprehensive income	(124.2) (5.8) (0.5) (1.7) (132.2
Balance at December 27, 2014	\$40.2	\$(21.9) \$1.9	\$(12.8) \$7.4

NOTE 11 – INCOME TAXES

The effective tax rate for the three months ended December 27, 2014 was 17.1% on income compared to a benefit of 23.9% on a net loss for the three months ended December 28, 2013. The effective tax rates on income for the six months ended December 27, 2014 and December 28, 2013 were 13.9% and 42.7%, respectively. The effective tax rates for the three and six months ended December 27, 2014 were impacted by changes to the estimated jurisdictional mix of income. Additionally, the effective tax rate for the six months ended December 28, 2013 was unfavorably impacted by Israel tax rate changes in the amount of \$1.8 million and favorably impacted by United Kingdom tax rate changes in the amount of \$4.7 million as discussed further below.

In fiscal 2011, Israel enacted new tax legislation that reduced the effective tax rate to 10% for 2011 and 2012, 7% for 2013 and 2014, and 6% thereafter for certain qualifying entities that elect to be taxed under the new legislation. This legislation was rescinded as announced in the Official Gazette on August 5, 2013. The new legislation enacted a 9% rate for certain qualifying entities that elect to be taxed under the new legislation. The Company has two entities that had previously elected the new tax legislation for years after fiscal 2011. For all other entities that do not qualify for this reduced rate, the tax rate has been increased from 25% to 26.5%. These rates were applicable to Perrigo as of the first quarter of fiscal 2014 and unfavorably impacted the effective tax rate in the amount of \$1.8 million.

In July 2013, the United Kingdom passed legislation reducing the statutory rate to 21% and 20% effective April 1, 2014 and April 1, 2015, respectively. These rates were applicable to Perrigo as of the first quarter of fiscal 2014 and favorably impacted the effective tax rate in the amount of \$4.7 million.

In December 2013, Mexico enacted legislation to rescind the scheduled rate reductions and maintain the 30% corporate tax rate for 2014 and future years. This rate was applicable to Perrigo as of June 30, 2013.

The Company's tax rate is subject to adjustment over the balance of the fiscal year due to, among other things, income tax rate changes by governments; the jurisdictions in which the Company's profits are determined to be earned and taxed, and the relative amounts of income in these jurisdictions; changes in the valuation of the Company's deferred tax assets and liabilities; adjustments to estimated taxes upon finalization of various tax returns; the resolution of any pending or future tax audit, examination or challenge; adjustments to the Company's interpretation of transfer pricing standards, changes in available tax credits, grants and other incentives; changes in stock-based compensation expense; changes in tax laws or the interpretation of such tax laws (for example, proposals for fundamental U.S. international tax reform); changes in U.S. generally accepted accounting principles; expiration or the inability to renew tax rulings

or tax holiday incentives; and the repatriation of earnings with respect to which the Company has not previously provided for taxes.

The total liability for uncertain tax positions was \$301.6 million and \$205.4 million as of December 27, 2014 and June 28, 2014, respectively, before considering the federal tax benefit of certain state and local items. This increase is due primarily to the adoption of ASU 2013-11 concerning the offset of applicable deferred tax assets for net operating loss, tax credit or other similar carryforwards. See Note 1 for additional information regarding the adoption.

Table of Contents

The Company recognizes interest and penalties related to uncertain tax positions as a component of income tax expense. The total amount accrued for interest and penalties in the liability for uncertain tax positions was \$44.8 million and \$45.3 million as of December 27, 2014 and June 28, 2014, respectively.

The Company's primary income tax jurisdictions are Ireland, the U.S. and Israel. Because the Company files income tax returns in Ireland, the U.S. (including various state and local jurisdictions), Israel and numerous other jurisdictions, it is subject to audits by tax authorities from several jurisdictions.

Although the Company believes that its tax estimates are reasonable and that the Company's tax filings are prepared in accordance with all applicable tax laws, the final determination with respect to any tax audit, and any related litigation, could be materially different from the Company's estimates or from the Company's historical income tax provisions and accruals. The results of an audit or litigation could have a material effect on operating results or cash flows in the periods for which that determination is made. In addition, future period earnings may be adversely impacted by litigation costs, settlements, penalties, or interest assessments.

The Company is currently under audit by the Israel Tax Authority for fiscal 2011 and 2012. In December 2014, the IRS notified the Company that it will conduct an audit of fiscal 2011 and 2012. The IRS audit of fiscal 2009 and 2010 had previously concluded with the issuance of a statutory notice of deficiency on August 27, 2014. While the Company had previously agreed on certain adjustments and made associated payments of \$8.0 million inclusive of interest in November 2014 the statutory notice of deficiency asserted various additional positions, including transfer pricing, relative to the same fiscal 2009 and 2010 audit. The statutory notice asserted an incremental tax obligation of approximately \$69.2 million, inclusive of interest and penalties. The Company disagrees with the IRS's positions asserted in the notice of deficiency and plans to contest them in U.S. Federal court. In January 2015, the Company paid this amount, a prerequisite to being able to contest the IRS's positions in U.S. Federal court. The payment was recorded in the third fiscal quarter as a deferred charge on the balance sheet given the Company's anticipated action to recover this amount. An unfavorable resolution of this matter could have a material impact on the Company's consolidated financial statements in future periods. There are numerous other income tax jurisdictions for which tax returns are not yet settled, none of which are individually significant. At this time, the Company cannot predict the outcome of any audit or related litigation.

NOTE 12 – COMMITMENTS AND CONTINGENCIES

In addition to the discussions below, the Company has pending certain other legal actions and claims incurred in the normal course of business. The Company records accruals for such contingencies when it is probable that a liability will be incurred and the amount of the loss can be reasonably estimated. As of December 27, 2014, the Company has determined that the liabilities associated with certain litigation matters are probable and can be reasonably estimated. The Company has accrued for these matters and will continue to monitor each related legal issue and adjust accruals for new information and further development. Other than the items disclosed below, the Company considers the remainder of litigation matters to be immaterial individually and in the aggregate.

Texas Medicaid

In June 2013, the Company received notices from the Office of the Attorney General for the State of Texas, of civil investigative demands to two of the Company's affiliates, Perrigo Pharmaceuticals Company and Paddock Laboratories, LLC, for information under the Texas Medicaid Fraud Prevention Act relating to the submission of prices to Texas Medicaid in claims for reimbursement for drugs. The Company has cooperated with requests for information and is in the process of evaluating this and other information. While the Company does not know the full extent of its potential liability at this time and intends to vigorously defend against any claims, the Company could be subject to material penalties and damages. The Company has established a contingency loss accrual of \$15.0 million

to cover potential settlement or other outcomes. The Company cannot predict whether settlement on terms acceptable to it will occur, or that a settlement or potential liability for these claims will not be higher than the amount recorded.

Table of Contents

Eltroxin

During October and November 2011, nine applications to certify a class action lawsuit were filed in various courts in Israel related to Eltroxin, a prescription thyroid medication manufactured by a third party and distributed in Israel by Perrigo Israel Agencies Ltd. The respondents include Perrigo Israel Pharmaceuticals Ltd. and/or Perrigo Israel Agencies Ltd., the manufacturers of the product, and various health care providers who provide health care services as part of the compulsory health care system in Israel.

The nine applications arose from the 2011 launch of a reformulated version of Eltroxin in Israel. The applications generally alleged that the respondents (a) failed to timely inform patients, pharmacists and physicians about the change in the formulation; and (b) failed to inform physicians about the need to monitor patients taking the new formulation in order to confirm patients were receiving the appropriate dose of the drug. As a result, claimants allege they incurred the following damages: (a) purchases of product that otherwise would not have been made by patients had they been aware of the reformulation; (b) adverse events to some patients resulting from an imbalance of thyroid functions that could have been avoided; and (c) harm resulting from the patients' lack of informed consent prior to the use of the reformulation.

All nine applications were transferred to one court in order to determine whether to consolidate any of the nine applications. On July 19, 2012, the court dismissed one of the applications and ordered that the remaining eight applications be consolidated into one application. On September 19, 2012, a consolidated motion to certify the eight individual motions was filed by lead counsel for the claimants. Generally, the allegations in the consolidated motion are the same as those set forth in the individual motions; however, the consolidated motion excluded the manufacturer of the reformulated Eltroxin as a respondent. Several hearings on whether or not to certify the consolidated application took place in December 2013 and January 2014. As this matter is in its early stages, the Company cannot reasonably predict at this time the outcome or the liability, if any, associated with these claims.

Tysabri® Product Liability Lawsuits

The Company and collaborator Biogen are co-defendants in product liability lawsuits arising out of the occurrence of Progressive Multifocal Leukoencephalopathy ("PML"), a serious brain infection, and serious adverse events, including deaths, which occurred in patients taking Tysabri®. The Company and Biogen will each be responsible for 50% of losses and expenses arising out of any Tysabri® product liability claims. While these lawsuits will be vigorously defended, management cannot predict how these cases will be resolved. Adverse results in one or more of these lawsuits could result in substantial judgments against the Company.

Neot Hovav

In March and June of 2007, lawsuits were filed by three separate groups against both the State of Israel and the Council of Neot Hovav in connection with waste disposal and pollution from several companies, including the Company, that have operations in the Neot Hovav region of Israel. These lawsuits were subsequently consolidated into a single proceeding in the District Court of Beer-Sheva. The Council of Neot Hovav, in June 2008, and the State of Israel, in November 2008, asserted third-party claims against several companies, including the Company. The pleadings allege a variety of personal injuries arising out of the alleged environmental pollution. Neither the plaintiffs nor the third-party claimants were required to specify a maximum amount of damages, but the pleadings allege damages in excess of \$72.5 million, subject to foreign currency fluctuations between the Israeli shekel and the U.S. dollar. On January 9, 2013, the District Court of Beer-Sheva ruled in favor of the Company. On September 29, 2014, the Supreme Court of Israel affirmed the ruling of the District Court in favor of the Company and as a result, the matter is now closed.

Table of Contents

NOTE 13 – RESTRUCTURING CHARGES

The Company periodically takes actions to reduce redundant expenses and improve operating efficiencies, typically in connection with its business acquisitions. The following summarizes the Company's restructuring activity for the three and six months ended December 27, 2014 and December 28, 2013 (in millions):

	Three Months Ended		Six Months Ended	
	December 27, 2014	December 28, 2013	December 27, 2014	December 28, 2013
Beginning balance	\$3.9	\$3.6	\$16.4	\$2.9
Additional charges	2.4	14.9	4.2	17.0
Payments	(2.5) (4.2) (16.0) (5.6
Non-cash adjustments	(0.6) —	(1.4) —
Ending balance	\$3.2	\$14.3	\$3.2	\$14.3

Restructuring activity includes severance, lease exit costs, and asset impairments. Charges are reported in Restructuring expense. The charges during the three and six months ended December 28, 2013 were due primarily to Elan. Substantially all of the liability remaining at December 27, 2014 is expected to be paid within the fiscal year.

NOTE 14 – SEGMENT INFORMATION

The Company has five reportable segments, aligned primarily by type of product: Consumer Healthcare, Nutritionals, Rx Pharmaceuticals, API, and Specialty Sciences, along with an Other category. In conjunction with the Elan acquisition on December 18, 2013, the Company expanded its operating segments to include the Specialty Sciences segment, which is comprised of assets focused on the treatment of Multiple Sclerosis (Tysabri®). The majority of corporate expenses, which generally represent shared services, are charged to operating segments as part of a corporate allocation. Unallocated expenses relate to certain corporate services that are not allocated to the segments.

	Three Months Ended December 27, 2014			Balance at December 27, 2014
	Net Sales	Operating Income (Loss)	Amortization of Intangibles	Total Assets

NOTE 15 – COLLABORATIVE ARRANGEMENTS

In December 2014, the Company entered into a collaboration agreement with a clinical stage biotechnology company, pursuant to which the parties will collaborate in the ongoing development of a topical OTC drug product. The Company will provide assistance including non-clinical, clinical, and manufacturing activities in support of an NDA submission to the FDA. As part of the agreement, the Company paid \$10.0 million for an exclusive option to purchase and license certain assets as specified in separate asset purchase and license agreements. The \$10.0 million fee is reported in Research and development expense. If the product is successful in Phase 3 clinical trials, the Company is required to make an additional option payment of \$5.0 million. If the Company exercises its purchase option, it will be required to pay a purchase price of \$10.0 million as well as certain contingent milestone payments, which could total \$50.0 million in aggregate.

Table of Contents

Item 2.

MANAGEMENT'S DISCUSSION AND ANALYSIS
OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS
SECOND QUARTER AND YEAR-TO-DATE FOR FISCAL YEARS 2015 AND 2014

EXECUTIVE OVERVIEW

Perrigo Company plc (formerly known as Perrigo Company Limited, and prior thereto, Blisfont Limited) ("Perrigo" or "the Company"), was incorporated under the laws of Ireland on June 28, 2013, and became the successor registrant of Perrigo Company on December 18, 2013 in connection with the consummation of the acquisition of Elan Corporation, plc ("Elan"), which is discussed further in Note 2 to the Condensed Consolidated Statements. From its beginnings in 1887 as a small local proprietor selling medicinals to regional grocers, Perrigo has evolved into a leading global pharmaceutical company that manufactures and distributes more than 47 billion oral solid doses and more than 2 billion liquid doses, as well as dozens of other product dosage forms, each year. The Company's mission is to offer "Quality Affordable Healthcare Products®", and it does so across a wide variety of product categories primarily in the United States, United Kingdom, Mexico, Israel, and Australia, as well as many other key markets worldwide, including Canada, China, and Latin America.

Segments

The Company has five reportable segments, aligned primarily by type of product: Consumer Healthcare, Nutritionals, Rx Pharmaceuticals, API, and Specialty Sciences. In addition, the Company has an Other category that consists of the Israel Pharmaceutical and Diagnostic Products operating segment, which does not individually meet the quantitative thresholds required to be a separately reportable segment.

The Consumer Healthcare ("CHC") segment is the world's largest store brand marketer and manufacturer of over-the-counter ("OTC") pharmaceutical products. Major product categories include analgesics, cough/cold/allergy/sinus, gastrointestinal, smoking cessation, animal health, and secondary product categories include feminine hygiene, diabetes care and dermatological care.

The CHC business markets products that are comparable in quality and effectiveness to national brand products. The cost to the retailer of a store brand product is significantly lower than that of a comparable nationally advertised brand-name product. Generally, the retailers' dollar profit per unit of store brand product is greater than the dollar profit per unit of the comparable national brand product. The retailer, therefore, can price a store brand product below the competing national brand product and realize a greater profit margin. The consumer benefits by receiving a high quality product at a price below the comparable national brand product. Therefore, the Company's business model saves consumers on their healthcare spending. The Company, one of the original architects of private label pharmaceuticals, is the market leader for consumer healthcare products in many of the geographies where it currently competes – the U.S., U.K., and Mexico – and is developing its position in Australia. The Company's market share of OTC store brand products has grown in recent years as new products, retailer efforts to increase consumer education and awareness, and economic conditions have directed consumers to the value of store brand product offerings.

¶The Nutritionals segment develops, manufactures, markets and distributes store brand infant and toddler formula products, infant and toddler foods, and vitamin, mineral and dietary supplement ("VMS") products to retailers, distributors and consumers primarily in the U.S., Canada, Mexico, and China. Similar to the Consumer Healthcare segment, this business markets store brand products that are comparable in quality and formulation to the national brand products. The cost to the retailer of a store brand product is significantly lower than that of a comparable nationally advertised brand-name product. The retailer, therefore, can price a store brand product below the competing national brand product yet realize a greater profit margin. All infant formulas sold in the U.S. are subject to the same

regulations governing manufacturing and ingredients under the Infant Formula Act of 1980, as amended. Store brands, which offer substantial savings to consumers, must meet the same U.S. Food and Drug Administration ("FDA") requirements as the national brands. Substantially all products are developed using ingredients and formulas comparable to those of national brand products. In most instances, packaging is designed to increase visibility of store brand products and to invite and reinforce comparison to national brand products in order to communicate store brand value to the consumer.

Table of Contents

The Rx Pharmaceuticals segment develops, manufactures and markets a portfolio of prescription ("Rx") drugs primarily for the U.S. market. The Company defines this portfolio as predominantly "extended topical" and "specialty" as it encompasses a broad array of topical dosage forms such as creams, ointments, lotions, gels, shampoos, foams, suppositories, sprays, liquids, suspensions, solutions and powders. The portfolio also includes select controlled substances, injectables, hormones, oral solid dosage forms and oral liquid formulations. The strategy in the Rx Pharmaceuticals segment is to be the first to market with those new products that are exposed to less competition because they have formulations that are more difficult and costly to develop and launch (e.g., extended topicals, specialty solutions or products containing controlled substances). In addition, the Rx Pharmaceuticals segment offers OTC products through the prescription channel (referred to as "OR[®]" marketing). OR[®] products are OTC products available for pharmacy fulfillment and healthcare reimbursement when prescribed by a physician. The Company offers over 100 OR[®] products that are reimbursable through many health plans and Medicaid and Medicare programs.

The API segment develops, manufactures and markets active pharmaceutical ingredients ("API") used worldwide by the generic drug industry and branded pharmaceutical companies. The API business identifies APIs critical to its pharmaceutical customers' future product launches and then works closely with these customers on the development processes. API development is focused on the synthesis of less common molecules for the U.S., European and other international markets. The Company is also focusing development activities on the synthesis of molecules for use in its own OTC and Rx pipeline products. This segment is undergoing a strategic platform transformation, moving certain production from Israel to the acquired API manufacturing facility in India to allow for lower cost production and to create space for other, more complex production in Israel.

As a result of the Elan acquisition on December 18, 2013, the Company expanded its operating segments to include the Specialty Sciences segment, which is comprised of assets focused on the treatment of Multiple Sclerosis (Tysabri[®]).

In addition to general management and strategic leadership, each business segment has its own sales and marketing teams focused on servicing the specific requirements of its customer base. Each of these business segments share Research & Development, Supply Chain, Information Technology, Finance, Human Resources, Legal, and Quality services.

Seasonality

The Company historically has been impacted by seasonal demand and consumer dynamics in the retail environment in which our customers operate. Accordingly, operating results for the three and six months ended December 27, 2014 are not necessarily indicative of the results that may be expected for a full fiscal year. The Company's sales of OTC pharmaceutical products typically are subject to seasonal demands for cough/cold/flu products in its second and third fiscal quarters and allergy products in its first and fourth fiscal quarters. In addition, the Company's animal health products are subject to seasonal demand for flea and tick products, which typically peaks during the warmer weather months.

For fiscal 2015, the Company's Consumer Healthcare segment has been unfavorably impacted in the first half of the fiscal year as a result of category decreases, driven primarily by timing differences related to seasonal promotions and lower contract sales. In addition, the Company's Nutritionals segment has been impacted by competitive market dynamics in the VMS and infant foods categories. These factors have resulted in lower sales in these segments for the first half of fiscal 2015 as compared to fiscal 2014. Other than the market dynamics in the VMS and infant foods categories, the Company does not expect these trends to continue. The Company anticipates that the absence of these trends, combined with expected higher new product sales in the second half of fiscal 2015, will result in atypically

stronger second half results compared to historical fiscal year comparisons.

Income tax expense (benefit)	\$14.5	\$(27.0)) \$ 41.5	154	%
Net income (loss)	\$70.2	\$(86.0)) \$ 156.2	182	%

The increase in net sales of \$92.7 million for the second quarter of fiscal 2015 was driven primarily by \$79.2 million of incremental net sales attributable to the Elan acquisition and by new product sales of \$53.9 million. This increase was offset partially by lower sales volumes on certain products in the CHC and Nutritional segments, as well as \$6.7 million of unfavorable changes in foreign currency exchange rates. Second quarter fiscal 2015 gross profit increased due mainly to increased sales in the Rx segment. The gross profit percentage decreased due primarily to increased intangible asset amortization and changes in product mix. Operating expenses decreased due largely to the absence of acquisition costs related to Elan. The decrease in Interest and other, net, was due primarily to the decreased loss on extinguishment of debt, offset partially by losses the Company incurred in the current year related to the Company's derivative activities in connection with the pending Omega acquisition.

Year-to-date

(\$ in millions)	Six Months Ended		Increase/(Decrease)% Change

Net income (loss)	\$166.5	\$25.3	\$ 141.2	558	%

The year-to-date increase in net sales of \$110.7 million was driven primarily by \$171.0 million of incremental net sales attributable to the Elan acquisition and by new product sales of \$77.4 million. This increase was offset partially by lower sales volumes on certain products in the CHC and Nutritional segments, as well as lower U.S. sales of temozolomide due to the expiration of a 180-day exclusivity period that was in effect during the first half of fiscal 2014, and \$3.2 million of unfavorable changes in foreign currency exchange rates. Gross profit for fiscal 2015 decreased due primarily to lower sales in the CHC segment, as well as the loss of the exclusivity rights on the product mentioned above, offset partially by the incremental net sales attributable to the Elan acquisition. The gross profit

percentage decreased due primarily to increased intangible asset amortization and changes in product mix. Operating expenses decreased due largely to the absence of acquisition costs related to Elan. The

decrease in Interest and other, net, was due primarily to the decreased loss on extinguishment of debt, offset partially by losses the Company incurred in the current year related to the Company's derivative activities in connection with the pending Omega acquisition.

Further details related to current year results, including results by segment, are included below under "Results of Operations".

Events Impacting Future Results

Pending Omega acquisition

On November 6, 2014, the Company entered into a Share Purchase Agreement, pursuant to which the Company will purchase 685,348,257 shares of Omega, representing 95.77% of the issued and outstanding share capital of Omega. The remaining 30,243,983 shares of Omega will be held by Omega as treasury shares.

The Company agreed to acquire Omega for a total value of €3.6 billion in equity and cash, which includes the assumption of €1.1 billion in debt. The consideration will consist of cash of €1.8 billion and 5,397,711 shares of the Company issued to Alychlo. The Acquisition Consideration will be increased by interest from September 30, 2014 until the completion date on an amount of €2.48 billion, starting at a rate of 5%, subject to monthly increases as set forth in the Share Purchase Agreement.

The completion of the Acquisition is conditioned upon customary closing conditions, including antitrust approval, accuracy of representations and warranties, compliance with covenants, and no material adverse effect. For additional details on the Share Purchase Agreement, the acquisition, and related financing, see Notes 2, 7, 8 and 9 to the Condensed Consolidated Financial Statements.

The Acquisition is expected to provide the Company with a larger product portfolio, broader global reach, and enhanced scale. The Acquisition is expected to be completed during the second half of fiscal 2015. In connection with the Acquisition, the Company plans to reevaluate its reporting segments so that they align with the combined Company's operations.

Competitors

Beginning in the third quarter of fiscal 2010, a branded competitor in the OTC market began to experience periodic interruptions of distribution of certain of its products in the adult and pediatric analgesic categories. These interruptions have included periods of time where supply of certain products has been suspended altogether. Due to this situation, which continued through fiscal 2013, the Company experienced an increase in demand for certain adult and pediatric analgesic products. This increased demand generally had a positive impact on the Consumer Healthcare segment's net sales over that period of time. The branded competitor re-entered the market in fiscal 2014 and continues to gain market position. The Company believes that this re-entry is largely complete at this point. The Company cannot predict the extent of consumers' re-acceptance of the branded products, the extent of the branded competitor's marketing activities, or the ultimate market share this competitor can be expected to achieve.

The Company has filed breach of contract litigation against a third party as it believes the third party has wrongfully enabled a competitor against the Company on a new product line in the animal health category. The Company has an intangible asset with a net book value of \$110.1 million as of December 27, 2014 related to the market exclusivity of the new product line recorded in Intangibles, net. The Company also had a supply agreement with this third party that expired at the end of calendar year 2014 and has not been renewed.

Table of Contents

RESULTS OF OPERATIONS

Consumer Healthcare

Quarter-to-date

(\$ in millions)	Three Months Ended		Increase/(Decrease)	% Change
	December 27, 2014	December 28, 2013		
Net sales	\$529.6	\$536.3	\$ (6.7) (1)%
Gross profit	\$168.8	\$171.7	\$ (2.9) (2)%
Gross profit %	31.9	% 32.0		%
Operating expenses	\$93.9	\$82.2	\$ 11.7	14 %
Operating expenses %	17.7	% 15.3		%
Operating income	\$74.9	\$89.5	\$ (14.6) (16)%
Operating income %	14.1	% 16.7		%

Second quarter fiscal 2015 net sales decreased \$6.7 million compared to the prior year. An increase of \$13.2 million in the smoking cessation category due, in part, to certain national brand products not being available to consumers due to manufacturing and supply issues, as well as a \$13.4 million increase in new product sales and sales attributed to the Aspen acquisition, was offset by a \$29.8 million decrease primarily in the contract manufacturing, analgesics, and animal health categories, and \$3.0 million in discontinued products. The contract manufacturing and analgesics categories decreased due to a branded customer's return to the market. The animal health category decreased due primarily to the failure to renew a supply agreement with a third party as previously mentioned. Second quarter fiscal 2015 gross profit decreased in line with the decrease in sales. Second quarter fiscal 2015 operating expenses increased \$11.7 million compared to the prior year due primarily to a \$10.0 million option payment related to a collaboration agreement (refer to Note 15 to the Condensed Consolidated Financial Statements for additional information).

Year-to-date

(\$ in millions)	Six Months Ended		Increase/(Decrease)	% Change
	December 27, 2014	December 28, 2013		
Net sales	\$1,022.9	\$1,074.8	\$ (51.9) (5)%
Gross profit	\$321.6	\$348.7	\$ (27.1) (8)%
Gross profit %	31.4	% 32.4		%
Operating expenses	\$181.4	\$169.2	\$ 12.2	7 %
Operating expenses %	17.7	% 15.7		%
Operating income	\$140.2	\$179.5	\$ (39.3) (22)%
Operating income %	13.7	% 16.7		%

Year-to-date fiscal 2015 net sales decreased \$51.9 million compared to the prior year. An increase of \$32.6 million in the smoking cessation category due, in part, to certain national brand products not being available to consumers due to manufacturing and supply issues, as well as a \$26.9 million increase from new product sales and sales attributable to the Aspen acquisition, was offset by a \$106.2 million decrease primarily in the contract manufacturing, cough/cold, analgesics, gastrointestinal, and animal health categories, and \$5.4 million in discontinued products. The contract manufacturing and analgesics categories decreased due to a branded customer's return to the market. The year-to-date fiscal 2015 gross profit decrease was due primarily to lower sales and incremental amortization expense attributable to the Aspen acquisition, which also impacted the gross profit percentage compared to the prior year. Year-to-date fiscal 2015 operating expenses increased \$12.2 million compared to the prior year due primarily to a \$10.0 million option payment related to a collaboration agreement made in fiscal 2015 (refer to Note 15 to the Condensed Consolidated Financial Statements for additional information).

	December 27, 2014	December 28, 2013			
Net sales	\$130.6	\$139.7	\$ (9.1) (7)%
Gross profit	\$31.8	\$38.7	\$ (6.9) (18)%
Gross profit %	24.4	% 27.7			
Operating expenses	\$24.7	\$25.4	\$ (0.7) (3)%
Operating expenses %	18.9	% 18.2			
Operating income	\$7.2	\$13.3	\$ (6.1) (46)%
Operating income %	5.5	% 9.6			

Second quarter fiscal 2015 net sales decreased \$9.1 million compared to the prior year. An increase of \$11.7 million in new product sales was offset primarily by \$8.2 million in discontinued products and by a \$12.0 million decrease in the infant food and VMS categories. The decrease in the VMS category was due primarily to increased competition in the marketplace and pricing pressures. Infant food category sales were lower due primarily to decreased customer promotional activity. Second quarter fiscal 2015 gross profit and gross profit percentage decreased compared to prior year due primarily to pricing pressure in the VMS category as well as a \$2.5 million charge related to a specific, isolated inventory loss, which the Company expects to recover in the future through an insurance claim. Second quarter fiscal 2015 operating expenses were in line with second quarter fiscal 2014.

Year-to-date

(\$ in millions)	Six Months Ended		Increase/(Decrease)% Change		
	December 27, 2014	December 28, 2013			
Net sales	\$255.8	\$268.7	\$ (12.9) (5)%
Gross profit	\$65.3	\$69.6	\$ (4.3) (6)%
Gross profit %	25.5	% 25.9			
Operating expenses	\$49.6	\$48.5	\$ 1.1	2	%
Operating expenses %	19.4	% 18.1			
Operating income	\$15.7	\$21.0	\$ (5.3) (25)%
Operating income %	6.1	% 7.8			

Year-to-date fiscal 2015 net sales decreased \$12.9 million compared to the prior year. An increase of \$19.1 million in new product sales was offset primarily by \$12.8 million in discontinued products and by a \$19.6 million decrease in the infant food and VMS categories. The decrease in the VMS category was due primarily to increased competition in the marketplace and pricing pressures. Infant food category sales were lower due primarily to decreased customer promotional activity. Year-to-date fiscal 2015 gross profit and gross profit percentage decreased compared to prior year due to a \$2.5 million charge related to a specific, isolated inventory loss, which the Company expects to recover in the future through an insurance claim. Year-to-date fiscal 2015 operating expenses were comparable to year-to-date fiscal 2014.

Rx Pharmaceuticals

Quarter-to-date

(\$ in millions)	Three Months Ended		Increase/(Decrease)	% Change	
	December 27, 2014	December 28, 2013			
Net sales	\$276.6	\$246.6	\$ 30.0	12	%
Gross profit	\$149.5	\$128.8	\$ 20.7	16	%
Gross profit %	54.0	% 52.2	%		
Operating expenses	\$39.8	\$28.4	\$ 11.4	40	%
Operating expenses %	14.4	% 11.5	%		
Operating income	\$109.7	\$100.4	\$ 9.3	9	%
Operating income %	39.6	% 40.7	%		

Second quarter fiscal 2015 net sales increased by \$30.0 million compared to prior year. Increased volumes and an increase of \$33.0 million in new product launches were offset partially by discontinued products of \$14.2 million. Second quarter fiscal 2015 gross profit increased due to the higher sales in the quarter while the gross profit percentage increased due primarily to lower amortization expense compared to the prior year. Second quarter fiscal 2015 operating expenses increased due to higher research and development expenses resulting from planned higher spending on new product development and increased selling and administration expense related to the specialty pharmaceuticals sales force.

Year-to-date

(\$ in millions)	Six Months Ended		Increase/(Decrease)	% Change	
	December 27, 2014	December 28, 2013			
Net sales	\$471.2	\$450.2	\$ 21.0	5	%
Gross profit	\$245.9	\$241.3	\$ 4.6	2	%
Gross profit %	52.2	% 53.6	%		
Operating expenses	\$71.5	\$57.8	\$ 13.7	24	%
Operating expenses %	15.2	% 12.8	%		
Operating income	\$174.4	\$183.5	\$ (9.1)	(5))%
Operating income %	37.0	% 40.8	%		

Year-to-date fiscal 2015 net sales increased by \$21.0 million compared to prior year. Increased volumes and \$41.0 million of new product launches were offset partially by discontinued products of \$25.2 million and planned contractual wholesaler chargebacks and stock adjustments associated with pricing programs implemented in the first quarter of 2015. These pricing programs began producing benefits in the second quarter of fiscal 2015. Year-to-date fiscal 2015 gross profit increased due to increased sales, while the gross profit percentage decreased due to the planned contractual adjustments made during the first quarter of fiscal 2015, offset partially by lower amortization expense compared to the prior year. Year-to-date fiscal 2015 operating expenses increased due primarily to higher research and development expenses resulting from planned higher spending on new product development and increased selling and administration expense related to the specialty pharmaceuticals sales force.

Table of Contents

API

Quarter-to-date

(\$ in millions)	Three Months Ended		Increase/(Decrease)% Change		
	December 27, 2014	December 28, 2013			
Net sales	\$30.0	\$30.0	\$ —	—	%
Gross profit	\$13.2	\$16.5	\$ (3.3) (20)%
Gross profit %	43.9	% 55.2			
Operating expenses	\$5.8	\$8.3	\$ (2.5) (31)%
Operating expenses %	19.2	% 27.8			
Operating income	\$7.4	\$8.2	\$ (0.8) (10)%
Operating income %	24.7	% 27.4			

Second quarter fiscal 2015 net sales were flat with the second quarter of fiscal 2014 due to a slight increase in sales of existing products offset by unfavorable changes in foreign currency exchange rates. The U.S. sales of temozolomide had a 180-day exclusivity period that was in effect during the first half of fiscal 2014. Sales of API are highly dependent on the level of competition in the marketplace for a specific material and the ordering patterns of customers. Second quarter fiscal 2015 gross profit and gross profit percentage decreased due to the loss of exclusivity rights on the product mentioned above. Second quarter fiscal 2015 operating expenses decreased as a result of headcount reduction.

Year-to-date

(\$ in millions)	Six Months Ended		Increase/(Decrease)% Change		
	December 27, 2014	December 28, 2013			
Net sales	\$54.8	\$73.2	\$ (18.4) (25)%
Gross profit	\$26.2	\$46.4	\$ (20.2) (44)%
Gross profit %	47.7	% 63.4			
Operating expenses	\$11.8	\$15.7	\$ (3.9) (26)%
Operating expenses %	21.3	% 21.5			
Operating income	\$14.4	\$30.6	\$ (16.2) (53)%
Operating income %	26.4	% 41.9			

Year-to-date fiscal 2015 net sales decreased \$18.4 million compared to the prior year due primarily to a decrease in the U.S. sales of temozolomide due to the expiration of the 180-day exclusivity period that was in effect during the first half of fiscal 2014, as well as competition on certain products. Sales of API are highly dependent on the level of competition in the marketplace for a specific material and the ordering patterns of customers. Year-to-date fiscal 2015 gross profit and gross profit percentage decreased due to the loss of exclusivity rights on the product mentioned above. Year-to-date fiscal 2015 operating expenses decreased as a result of headcount reduction.

Table of Contents

Specialty Sciences

The Specialty Sciences segment was created during the second quarter of fiscal 2014 as a result of the Elan acquisition.

Quarter-to-date

Operating income (loss) %	13.7	% (256.2))%		

(1) Includes activity from December 18, 2013, the date the Company acquired Elan, through December 28, 2013.

Year-to-date fiscal 2015 net sales resulted from royalties received from global sales of Tysabri®. Year-to-date fiscal 2015 gross profit consisted primarily of net sales less intangible asset amortization of \$145.0 million. The decrease in operating expenses was due primarily to the absence of \$14.6 million of restructuring expense recorded in fiscal 2014.

Table of Contents

Other

The Other category consists of the Company's Israel Pharmaceutical and Diagnostic Products operating segment, which does not individually meet the quantitative thresholds required to be a reportable segment.

Quarter-to-date

(\$ in millions)	Three Months Ended		Increase/(Decrease)% Change		
	December 27, 2014	December 28, 2013			
Net sales	\$18.3	\$19.0	\$ (0.7) (3)%
Gross profit	\$6.4	\$6.1	\$ 0.3	5	%
Gross profit %	35.1	% 32.3			
Operating expenses	\$5.3	\$5.5	\$ (0.2) (5)%
Operating expenses %	28.7	% 29.1			
Operating income	\$1.1	\$0.6	\$ 0.5	91	%
Operating income %	6.4	% 3.2			

Second quarter fiscal 2015 net sales decreased \$0.7 million compared to prior year due primarily to unfavorable changes in foreign currency exchange rates. Gross profit and gross profit percentage increased due to higher sales volume in the OTC and Diagnostics product categories, which yield a higher profit margin. Operating expenses decreased due to unfavorable changes in foreign currency exchange rates.

Year-to-date

(\$ in millions)	Six Months Ended		Increase/(Decrease)% Change		
	December 27, 2014	December 28, 2013			
Net sales	\$40.0	\$38.1	\$ 1.9	5	%
Gross profit	\$13.1	\$12.3	\$ 0.8	7	%
Gross profit %	32.8	% 32.3			
Operating expenses	\$11.1	\$10.5	\$ 0.6	5	%
Operating expenses %	27.7	% 27.6			
Operating income	\$2.0	\$1.8	\$ 0.2	14	%
Operating income %	5.1	% 4.7			

Year-to-date fiscal 2015 net sales increased \$1.9 million compared fiscal 2014. An increase in sales of \$3.0 million was offset by unfavorable changes in foreign currency exchange rates. Gross profit and gross profit percentage increased due to higher sales volume in the OTC and Diagnostics product categories, which yield a higher profit margin. Operating expenses increased due to higher administrative costs offset partially by unfavorable changes in foreign currency exchange rates.

Table of Contents

Unallocated Expenses

Unallocated expenses are comprised of certain corporate services that are not allocated to the segments and are recorded above Operating income on the Condensed Consolidated Statements of Operations. Unallocated expenses decreased to \$25.3 million during the second quarter of fiscal 2015 from \$106.4 million in the comparable prior year period. This decrease was due to a reduction in acquisition-related costs such as legal, banking and other professional fees. During the second quarter of fiscal 2015 these amounts totaled \$11.6 million and related to the pending Omega acquisition. During the second quarter of fiscal 2014 these amounts totaled \$93.7 million and related to the Elan acquisition. Year-to-date unallocated expenses decreased to \$49.6 million during fiscal 2015 from \$131.2 million in the prior year, also due to the reduction in acquisition-related costs. These costs totaled \$11.6 million for year-to-date fiscal 2015 and related to the pending Omega acquisition, and \$105.7 million for year-to-date fiscal 2014 and related to the Elan acquisition.

Interest and Other (Consolidated)

Interest expense for the second quarter was \$31.1 million for fiscal 2015 and \$30.3 million for fiscal 2014. Year-to-date interest expense was \$57.1 million for fiscal 2015 and \$52.4 million for fiscal 2014. Interest income for the second quarter was \$0.3 million for fiscal 2015 and \$0.6 million for fiscal 2014. Year-to-date interest income was \$0.4 million for fiscal 2015 and \$1.3 million for fiscal 2014.

Other expense, net, increased \$55.2 million during the second quarter of fiscal 2015 and \$56.8 million during year-to-date fiscal 2015 from the comparable prior year periods. These increases were due primarily to the Company's derivative activity to economically hedge fluctuations in the euro-denominated purchase price of the pending Omega acquisition, which resulted in a loss of \$64.7 million during the second quarter of fiscal 2015. Gains or losses on the derivatives due to changes in the EUR/USD exchange rate prior to the close of the acquisition will be economically offset at closing in the final settlement of the euro-denominated Omega purchase price. For further details on the derivative activities, refer to Note 7 to the Condensed Consolidated Financial Statements. The loss from derivative activity was offset partially by a gain of \$12.5 million from the transfer of a rights agreement during the second quarter of fiscal 2015.

As a result of the debt retirements and modifications further described in Note 8 to the Condensed Consolidated Financial Statements, the Company recorded a loss on extinguishment of debt of \$9.6 million during the second quarter of fiscal 2015 and \$165.8 million during the second quarter of fiscal 2014.

Income Taxes (Consolidated)

The effective tax rate for the three months ended December 27, 2014 was 17.1% on income compared to a benefit of 23.9% on a net loss for the three months ended December 28, 2013. The effective tax rates on income for the six months ended December 27, 2014 and December 28, 2013 were 13.9% and 42.7%, respectively. The effective tax rates for the three and six months ended December 27, 2014 were impacted by changes to the estimated jurisdictional mix of income. Additionally, the effective tax rate for the six months ended December 28, 2013 was unfavorably impacted by Israel tax rate changes in the amount of \$1.8 million and favorably impacted by United Kingdom tax rate changes in the amount of \$4.7 million as discussed further below.

Although the Company believes that its tax estimates are reasonable and that the Company's tax filings are prepared in accordance with all applicable tax laws, the final determination with respect to any tax audit, and any related litigation, could be materially different from the Company's estimates or from the Company's historical income tax provisions and accruals. The results of an audit or litigation could have a material effect on operating results or cash flows in the periods for which that determination is made. In addition, future period earnings may be adversely impacted by litigation costs, settlements, penalties, or interest assessments.

The Company is currently under audit by the Israel Tax Authority for fiscal 2011 and 2012. In December 2014, the IRS notified the Company that it will conduct an audit of fiscal 2011 and 2012. The IRS audit of fiscal 2009 and 2010 had previously concluded with the issuance of a statutory notice of deficiency on August 27, 2014. While the Company had previously agreed on certain adjustments and made associated payments of \$8.0 million inclusive of interest in November 2014, the statutory notice of deficiency asserted various additional positions, including transfer pricing, relative to the same fiscal 2009 and 2010 audit. The statutory notice asserted an incremental tax obligation of approximately \$69.2 million, inclusive of interest and penalties. The Company disagrees with the IRS's positions asserted in the notice of deficiency and plans to contest them in U.S. Federal

Table of Contents

court. In January 2015, the Company paid this amount, a prerequisite to being able to contest the IRS's positions in U.S. Federal court. The payment was recorded in the third fiscal quarter as a deferred charge on the balance sheet given the Company's anticipated action to recover this amount. An unfavorable resolution of this matter could have a material impact on the Company's consolidated financial statements in future periods. There are numerous other income tax jurisdictions for which tax returns are not yet settled, none of which are individually significant. At this time, the Company cannot predict the outcome of any audit or related litigation.

Financial Condition, Liquidity and Capital Resources

The Company finances its operations with internally-generated funds, supplemented by credit arrangements with third parties and capital market financing. The Company routinely monitors current and expected operational requirements and financial market conditions to evaluate accessing other available financing sources, including revolving bank credit facilities and securities offerings. Based on the Company's current financial condition and credit relationships, management believes that the Company's operations and borrowing resources are sufficient to provide for the Company's current and foreseeable capital requirements. However, the Company continues to evaluate the impact of commercial and capital market conditions on liquidity and may determine that modifications to the Company's capital structure are appropriate if market conditions deteriorate or if favorable capital market opportunities become available.

Cash

At December 27, 2014, the Company had cash and cash equivalents of \$3.6 billion, an increase of \$2.8 billion from June 28, 2014, and working capital, including cash, of \$4.0 billion, an increase of \$2.6 billion from June 28, 2014. A significant portion of this increase was due to financing activities the Company undertook related to the pending Omega acquisition, as further described below under "Financing activities". The cash will be used both to fund the cash consideration of the purchase price of Omega and to repay a significant portion of Omega's outstanding debt, which the Company will assume upon completion of the acquisition.

Cash, cash equivalents, cash flows from operations, and borrowings available under the Company's credit facilities are expected to be sufficient to finance the known and/or foreseeable liquidity, capital expenditures, dividends, and acquisitions. Although the Company's lenders have made commitments to make funds available to it in a timely fashion, if economic conditions worsen or new information becomes publicly available impacting the institutions' credit rating or capital ratios, these lenders may be unable or unwilling to lend money pursuant to the Company's existing credit facilities.

(in millions)	Six Months Ended	
	December 27, 2014	December 28, 2013
Net cash from (for) operating activities	\$467.7	\$220.3
Net cash from (for) investing activities	\$(156.6) \$(1,599.5
Net cash from (for) financing activities	\$2,509.0	\$1,122.4

Operating activities

The Company generated \$467.7 million from operating activities during the first six months of fiscal 2015, a \$247.4 million increase over the comparable period in fiscal 2014. A significant portion of the increase in cash from operating activities was due to changes in working capital. Cash received from payments on accounts receivable increased \$60.6 million due to higher sales in fiscal 2015 compared to fiscal 2014. Cash also increased \$95.8 million due to an increase in liabilities due to the timing of payments, as well as inclusion of a \$38.3 million derivative

liability related to the non-designated foreign currency forward contracts used to economically hedge the euro-denominated purchase price of Omega that will settle in the third quarter. These increases were offset partially by a \$28.2 million decrease due to increased inventory levels. The remaining increase in operating cash flow was due to increased net earnings after adjusting for non-cash items such as depreciation and amortization, which resulted in an increase of \$119.8 million during the first six months of fiscal 2015 as compared to the first six months of fiscal 2014.

Table of Contents

Investing activities

Cash used for investing activities totaled \$156.6 million for the first six months of fiscal 2015, a decrease of \$1.4 billion over the comparable period in fiscal 2014. The decrease was due mainly to decreased acquisition activity year-over-year. During fiscal 2015, the Company acquired Lumara for \$83.0 million, while in fiscal 2014, the Company acquired Elan for \$1.5 billion net of cash received. Fiscal 2015 investing activities also included a \$26.4 million cash settlement of non-designated foreign currency option contracts related to the pending Omega acquisition. A decrease in capital expenditures from \$77.8 million during the first six months of fiscal 2014 to \$48.0 million during the first six months of fiscal 2015 accounted for substantially all of the remaining decrease.

Capital expenditures for fiscal 2015 are anticipated to be between \$140 million and \$170 million, related primarily to manufacturing productivity and capacity projects and investments at newly acquired entities. The Company expects to fund these estimated capital expenditures with funds from operational cash flows or revolving credit facilities.

Financing activities

Cash generated from financing activities totaled \$2.5 billion for the first six months of fiscal 2015, an increase of \$1.4 billion over the comparable period in fiscal 2014. The increase was due primarily to the Company's financing activities to fund the pending Omega acquisition, which raised \$1.4 billion more than the Company's financing activities in connection with the Elan acquisition in fiscal 2014. Financing for the pending Omega acquisition during fiscal 2015 included a public bond offering and refinancing of the Company's term loans, which together raised \$2.5 billion net of discounts and fees, and a public equity offering, which raised \$999.3 million net of issuance costs. The Company then used \$895.0 million of the proceeds to repay its previous term loans. For more information on these transactions, see Notes 8 and 9 to the Condensed Consolidated Financial Statements.

Cash dividends used for financing activities increased \$11.0 million versus the prior year. The declaration and payment of dividends, if any, is subject to the discretion of the Board of Directors and will depend on the earnings, financial condition, availability of distributable reserves and capital and surplus requirements of the Company and other factors the Board of Directors may consider relevant.

Debt and other borrowings

The Company had \$3.9 billion of senior notes and \$908.9 million of term loans outstanding at December 27, 2014. Other sources of liquidity include a \$600.0 million revolving credit agreement and a \$200.0 million accounts receivable securitization program. There were no borrowings outstanding under the revolving credit agreement or securitization program as of December 27, 2014.

Credit ratings

The Company's credit ratings on December 27, 2014 were Baa3 (stable) and BBB (negative) by Moody's Investors Service and Standard and Poor's Rating Services, respectively. These ratings include the impact of the Company's Omega financing activities described above.

Credit rating agencies review their ratings periodically and, therefore, the credit rating assigned to the Company by each agency may be subject to revision at any time. Accordingly, the Company is not able to predict whether current credit ratings will remain as disclosed above. Factors that can affect the Company's credit ratings include changes in operating performance, the economic environment, the Company's financial position, and changes in business strategy. If changes in the Company's credit ratings were to occur, they could impact, among other things, future borrowing costs, access to capital markets, and vendor financing terms.

Table of Contents

Contractual obligations

Other than the changes to the Company's debt structure in relation to the pending Omega transaction as discussed in Note 8 to the Condensed Consolidated Financial Statements, there were no material changes in contractual obligations during the second quarter of fiscal 2015 from those provided in the Company's Annual Report on Form 10-K for the year ended June 28, 2014. See below for a revised schedule of the Company's enforceable and legally binding obligations as of December 27, 2014 related to its short and long-term debt arrangements.

	Payment Due by Period (in millions)				Total
	2015 ⁽¹⁾	2016 - 2017	2018 - 2019	After 2019	
Short and long-term debt ⁽²⁾	\$ 149.5	\$ 1,210.5	\$ 1,017.4	\$ 4,451.9	\$ 6,829.3

⁽¹⁾ Reflects remaining six months of fiscal 2015.

⁽²⁾ Short and long-term debt includes interest payments, which were calculated using the effective interest rate at December 27, 2014, as well as capital lease obligations.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

There have been no material changes to the Company's quantitative or qualitative disclosures found in Item 7A, "Quantitative and Qualitative Disclosures about Market Risk", of the Company's Annual Report on Form 10-K for the year ended June 28, 2014.

Item 4. Controls and Procedures

Conclusion Regarding the Effectiveness of Disclosure Controls and Procedures

As of December 27, 2014, the Company's management, including its Chief Executive Officer and its Chief Financial Officer, carried out an evaluation of the effectiveness of the Company's disclosure controls and procedures pursuant to Rule 13a-15(b) of the Securities Exchange Act of 1934. Based on that evaluation, the Chief Executive Officer and the Chief Financial Officer concluded that the Company's disclosure controls and procedures are effective in ensuring that all material information relating to the Company and its consolidated subsidiaries required to be included in the Company's periodic SEC filings would be made known to them by others within those entities in a timely manner and that no changes are required at this time.

Management's Annual Report on Internal Control over Financial Reporting

In connection with the evaluation by the Company's management, including its Chief Executive Officer and Chief Financial Officer, of the Company's internal control over financial reporting pursuant to Rule 13a-15(d) of the Securities Exchange Act of 1934, no changes during the quarter ended December 27, 2014, were identified that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting except as noted below.

Changes in Internal Control over Financial Reporting

The Company acquired Elan Corporation plc during the the second quarter of fiscal 2014 (see Note 2 to the Condensed Consolidated Financial Statements). As permitted by Securities and Exchange Commission Staff interpretive guidance for newly acquired businesses, management excluded Elan from its evaluation of internal control over financial reporting as of December 27, 2014. The Company is in the process of documenting and testing Elan's internal controls over financial reporting. The Company will incorporate Elan into its annual report on internal control over financial reporting for its fiscal year ending June 27, 2015. As of December 27, 2014, assets excluded

from management's assessment totaled \$2.7 billion and contributed \$178.4 million of net sales and \$11.1 million of operating income to the Company's consolidated financial statements for the six months ended December 27, 2014.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

Refer to Note 12 to the Condensed Consolidated Financial Statements.

Item 1A. Risk Factors

The Company's Annual Report on Form 10-K for the fiscal year ended June 28, 2014 includes a detailed discussion of the Company's risk factors. Other than the item noted below, there have been no material changes during fiscal 2015 to the risk factors that were included in the Form 10-K.

Risks Related to the Pending Omega Acquisition (the "Acquisition")

The Company and Omega must obtain required approvals and governmental and regulatory consents to consummate the Acquisition, which, if delayed, not granted or granted with unacceptable conditions, could delay or jeopardize the consummation of the Acquisition, result in additional expenditures of money and resources and/or reduce the anticipated benefits.

The Acquisition is subject to customary closing conditions. These closing conditions include, among others, the receipt of the relevant approvals under the antitrust laws of certain foreign countries under which filings or approvals are or may be required. The Share Purchase Agreement contemplates applicable approvals, including from the competition authorities of Germany, Poland, the United Kingdom (unless the Acquisition is referred to the European Commission in accordance with Article 4(5) of Council Regulation (EC) No. 139/2004 on the control of concentrations between undertakings (the "EUMR") or Article 22 of the EUMR), as well as the competition authorities of Russia and Ukraine. In addition, the Share Purchase Agreement requires the Company to accept all conditions, obligations or other requirements imposed or contained in any final decision of these competition authorities with a view to removing any impediment to the related condition in the Share Purchase Agreement. The Company cannot predict whether these competition authorities will approve the Acquisition or whether they may impose any conditions to approval. There can be no assurance the Acquisition will be consummated.

The Share Purchase Agreement contains provisions that could require the Company to pay Omega a termination fee.

Under the Share Purchase Agreement, if the Company is unable to satisfy certain closing conditions in connection with the Acquisition, Omega has the right to terminate the Share Purchase Agreement, and the Company could be required to pay Omega a termination fee equal to approximately €100 million.

While the Acquisition is pending, the Company and Omega will be subject to business uncertainties that could adversely affect their businesses.

Uncertainty about the effect of the Acquisition on employees, customers and suppliers may have a material adverse effect on the Company and Omega. These uncertainties may impair the Company's and Omega's ability to attract, retain and motivate key personnel until the Acquisition is consummated and for a period of time thereafter, and could cause customers, suppliers and others who deal with the Company and Omega to seek to change existing business relationships with the Company and Omega. Employee retention may be particularly challenging during the pendency of the Acquisition because employees may experience uncertainty about their future roles with the Company. If, despite the Company's and Omega's retention efforts, key employees depart because of issues relating to the uncertainty and difficulty of integration or a desire not to remain with Perrigo, the business could be seriously harmed.

The Company might not realize all of the anticipated benefits of the Acquisition or those benefits could take longer to realize than expected. The Company may also encounter significant unexpected difficulties in integrating the two businesses.

The Company's ability to realize the anticipated benefits of the Acquisition will depend, to a large extent, on its ability to integrate the Perrigo and Omega businesses. The combination of two independent businesses is a complex, costly and time-consuming process. As a result, the Company has been, and will be required to

Table of Contents

devote significant management attention and resources to integrating the business practices and operations of Perrigo and Omega. The integration process could disrupt the businesses and, if implemented ineffectively, could preclude realization of the full benefits expected by the Company. The failure to meet the challenges involved in the integration process could interrupt, or cause a loss of momentum in, the Company's business and could adversely affect its financial condition and results of operations.

In addition, the overall integration of the businesses could result in material unanticipated problems, expenses, liabilities, competitive responses, loss of customer relationships, and diversion of management's attention. The difficulties of combining the operations of the companies include, among others:

- difficulties in achieving anticipated cost savings, synergies, business opportunities and growth prospects;
- difficulties in the integration of operations and systems; and
- difficulties in managing the expanded operations of a significantly larger and more complex company.

Many of these factors will be outside of the Company's control, and any one of them could result in increased costs, decreases in the amount of expected revenues and diversion of management's time and energy, which could materially impact the Company's business, financial condition and results of operations. In addition, even if the business operations of Perrigo and Omega are integrated successfully, the Company might not realize the full benefits of the Acquisition, including the synergies, cost savings or sales or growth opportunities that is expected. These benefits may not be achieved within the anticipated time frame, or at all. Or, additional unanticipated costs could be incurred in the integration of the businesses. All of these factors could cause dilution to the Company's earnings per ordinary share, decrease or delay the expected accretive effect of the Acquisition, and negatively impact the price of the Company's ordinary shares. As a result, the combination of Perrigo's businesses with Omega's businesses may not result in the realization of the full benefits anticipated from the Acquisition.

The Company's leverage and debt service obligations could adversely affect the business.

The Company's long-term indebtedness as of December 27, 2014 was \$4.4 billion, which includes \$2.5 billion raised to finance the Acquisition. In connection with the Acquisition, the Company will assume €1.1 billion principal amount of existing Omega debt, which the Company plans to repay or redeem following the closing of the Acquisition. The degree to which the Company will be leveraged following the Acquisition could have important consequences for the Company, including, but not limited to:

- increasing the Company's vulnerability to, and reducing its flexibility to respond to, general adverse economic and industry conditions;
- requiring the dedication of a substantial portion of the Company's cash flow from operations to the payment of principal of, and interest on, indebtedness, thereby reducing cash flow available to fund working capital, capital expenditures, acquisitions, joint ventures, product research and development or other general corporate purposes;
- limiting the Company's flexibility in planning for, or reacting to, changes in the business and the competitive environment and the industry in which the Company operates;
- placing the Company at a competitive disadvantage to the extent that its competitors are not as highly leveraged; and
- limiting the Company's ability to borrow additional funds and increasing the cost of any such borrowing.

The closing of the Acquisition may trigger early repayment rights under some or all of the outstanding Omega indebtedness.

Certain agreements governing the Omega indebtedness contain change of control and cross-default provisions that may be triggered in connection with the Acquisition. If the Acquisition triggers the change of control provision or

cross-default provision under such agreements, these agreements provide (i) an early redemption put right to the note holders requiring the applicable issuer to redeem certain of the notes at 100% of the principal amount thereof and certain of the notes at a premium to the principal amount of up to 101% in each case, plus accrued and unpaid interest, and/ or (ii) lenders with the right to terminate their commitments under Omega's credit facilities and accelerate repayment of all indebtedness incurred thereunder.

Table of Contents

The Company cannot predict whether Omega's lenders and/or note holders will exercise these acceleration and cross-default rights. In addition, certain agreements governing the Omega indebtedness do not provide the applicable issuer with prepayment rights in the event of a change of control. If the note holders party to such agreements refuse to allow early prepayment, the Company may not be able to extinguish that indebtedness in connection with the Acquisition.

Risks Related to the Business

The Company has direct interactions with health care professionals, which is often referred to as physician detailing. Failure to comply with applicable laws, rules and regulations may result in governmental investigation, regulatory action, and legal proceedings.

The Company has expanded its pharmaceutical marketing to include direct interactions with health care professionals, which is known as "detailing." This activity is subject to extensive regulation under a variety of U.S. laws and regulations, including anti-kickback, anti-bribery and false claims laws; the U.S. Federal Food, Drug and Cosmetic Act with respect to claims and off-label promotions; and similar laws in non-U.S. jurisdictions. If any of these activities are found to be improper, the Company could be subject to civil and governmental actions and penalties. These risks may increase as non-U.S. jurisdictions adopt new anti-bribery laws and regulations.

Our increasing role in the global marketplace may place us at greater risk of cyber events or other security incidents adversely affecting our Company's manufacturing, supply chain, operations and financial position.

The Company's manufacturing operations are concentrated in Michigan, Minnesota, South Carolina, New York, Vermont, Ohio, Nebraska, and Israel. Approximately 80% of the Company's fiscal 2014 revenues were related to these worldwide manufacturing facilities. Company systems, information, operations as well as our independent vendor relationships (where they support information technology and manufacturing infrastructure) are vulnerable to disruption or damage from, but not limited to, security breaches, hacking, data theft, denial of service attacks, human error, natural disasters, power loss, fire, sabotage, industrial espionage, computer viruses, intentional acts of vandalism, insufficient quality, or pandemic at any of the Company's facilities. These and other similar events could impair the Company's ability to develop, meet regulatory approval efforts, produce and/or ship products on a timely basis. This would have a material adverse effect on the Company's manufacturing, supply chain, operations and financial position. Given the Company's position in the pharmaceutical industry, it may be more likely to be a direct target, or an indirect casualty, of such events.

While the Company continues to employ resources to monitor its systems and protect its infrastructure, these measures may prove insufficient depending upon the attack or threat posed. Any system issue, whether as a result of an intentional breach or a natural disaster, could damage the Company's reputation and cause it to lose customers, experience lower sales volume, incur significant liabilities or otherwise have a negative impact on the business, financial condition and operating results. The Company also could incur significant expense in addressing any of these problems and in addressing related data security and privacy concerns.

Tax-related risks

Changes in tax laws or income tax rates could have a material adverse effect on the Company's results of operations and the ability to utilize cash in a tax efficient manner.

The Company believes that under current law, it should be treated as a foreign corporation for U.S. federal tax purposes. However, changes to the inversion rules in section 7874 of the Code, or the IRS Treasury regulations promulgated thereunder, or other IRS guidance, could adversely affect the Company's status as a foreign corporation

for U.S. federal tax purposes, and any such changes could have prospective or retroactive application to the Company, Perrigo Company, and/or their respective stockholders, shareholders and affiliates. In addition, recent legislative proposals have aimed to expand the scope of U.S. corporate tax residence, and such legislation, if passed, could have an adverse effect on the Company.

Moreover, the Office of the Revenue Commissioners, U.S. Congress, the Organization for Economic Co-operation and Development and other Government agencies in jurisdictions where the Company and its

Table of Contents

affiliates do business have had an extended focus on issues related to the taxation of multinational corporations. One example is in the area of "base erosion and profit shifting", where payments are made between affiliates from a jurisdiction with high tax rates to a jurisdiction with lower tax rates. As a result, the tax laws in the U.S. and other countries in which the Company and its affiliates do business could change on a prospective or retroactive basis, and any such changes could adversely affect the Company.

A number of factors may adversely impact the Company's future effective tax rates, such as income tax rate changes by governments; the jurisdictions in which the Company's profits are determined to be earned and taxed; changes in the valuation of the Company's deferred tax assets and liabilities; adjustments to estimated taxes upon finalization of various tax returns; adjustments to the Company's interpretation of transfer pricing standards, changes in available tax credits, grants and other incentives; changes in stock-based compensation expense; changes in tax laws or the interpretation of such tax laws (e.g., proposals for fundamental U.S. international tax reform); changes in U.S. generally accepted accounting principles; expiration or the inability to renew tax rulings or tax holiday incentives; and the repatriation of non-U.S. earnings with respect to which the Company has not previously provided for U.S. taxes. A change in the Company's effective tax rate due to any of these factors may adversely impact the Company's future results from operations. Also, changes in tax laws could have a material adverse effect on the Company's ability to utilize cash in a tax efficient manner.

Although the Company believes that its tax estimates are reasonable and that the Company's tax filings are prepared in accordance with all applicable tax laws, the final determination with respect to any tax audit, and any related litigation, could be materially different from the Company's estimates or from the Company's historical income tax provisions and accruals. The results of an audit or litigation could have a material effect on operating results or cash flows in the periods for which that determination is made. In addition, future period earnings may be adversely impacted by litigation costs, settlements, penalties, or interest assessments.

The Company is currently under audit by the Israel Tax Authority for fiscal 2011 and 2012. In December 2014, the IRS notified the Company that it will conduct an audit of fiscal 2011 and 2012. The IRS audit of fiscal 2009 and 2010 had previously concluded with the issuance of a statutory notice of deficiency on August 27, 2014. While the Company had previously agreed on certain adjustments and made associated payments of \$8.0 million inclusive of interest in November 2014, the statutory notice of deficiency asserted various additional positions, including transfer pricing, relative to the same fiscal 2009 and 2010 audit. The statutory notice asserted an incremental tax obligation of approximately \$69.2 million, inclusive of interest and penalties. The Company disagrees with the IRS's positions asserted in the notice of deficiency and plans to contest them in U.S. Federal court. In January 2015, the Company paid this amount, a prerequisite to being able to contest the IRS's positions in U.S. Federal court. The payment was recorded in the third fiscal quarter as a deferred charge on the balance sheet given the Company's anticipated action to recover this amount. An unfavorable resolution of this matter could have a material impact on the Company's consolidated financial statements in future periods. There are numerous other income tax jurisdictions for which tax returns are not yet settled, none of which are individually significant. At this time, the Company cannot predict the outcome of any audit or related litigation.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

The Company does not currently have an ordinary share repurchase program.
