Report of Independent Registered Public Accounting Firm

To the Participants, Plan Administrator,  
and Benefit Funds Committee of  
Progress Rail Services Corporation 401(k) Plan

In our opinion, the accompanying statements of net assets available for benefits and the related statements of changes in net assets available for benefits present fairly, in all material respects, the net assets available for benefits of Progress Rail Services Corporation 401(k) Plan (the "Plan") at December 31, 2013 and 2012, and the changes in net assets available for benefits for the year ended December 31, 2013 in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of Schedule H, Line 4i - Schedule of Assets (Held at End of Year) is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

As discussed in Note 1, effective December 31, 2013, the Plan's assets were merged into the Caterpillar 401(k) Savings Plan.

Progress Rail Services Corporation 401(k) Plan  
Notes to Financial Statements  
December 31, 2013 and 2012

1. Description of Plan

The following description of the Progress Rail Services Corporation 401(k) Plan (the "Plan") provides only general information. For a more complete description of the Plan's provisions, refer to the Plan agreement.

General

The Plan was established September 1, 2002, and is a defined contribution plan covering substantially all nonunion employees of Progress Rail Services Corporation (the "Company") and its subsidiaries. The Company is a 100 percent-owned subsidiary of Caterpillar Inc. The Plan replaced the benefits provided by Electric Fuels Corporation 401(k) Plan, Chemetron Railway Products, Inc. Savings and Investment Program and United Industries Corporation Employees Savings Trust (the "Prior Plans"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Plan is administered by the Company, which is responsible for nonfinancial matters, and the Benefit Funds Committee of the Company, which is responsible for all financial aspects of the Plan. The Company and the Benefit Funds Committee have entered into a trust agreement with Reliance Trust Company (the "Trustee") and an agreement for recordkeeping and custodial services with Great West Retirement Services (the "Custodian") to receive contributions, administer the assets of the Plan and distribute withdrawals pursuant to the Plan.

Plan Merger

Effective December 31, 2013, the Plan's net assets totaling \$164,139,655 (including notes receivable of \$6,449,438) were transferred into the Caterpillar 401(k) Savings Plan (the "Savings Plan"). This is reflected on the Statement of Changes in Net Assets Available for Benefits in "Transfer to Savings Plan". The Statement of Net Assets Available for Benefits reflects a payable to the Savings Plan. However, Form 5500 assumes the merger occurred at the close of business on December 31, 2013.

Contributions

Each year, participants may contribute up to 30% of their pre-tax annual compensation, as defined in the Plan. Participants may also contribute amounts representing rollovers from other qualified defined benefit or defined contribution plans. The Company makes a matching contribution to participant accounts in an amount equal to 100% of the participant's elective deferral that does not exceed 6% of the participant's eligible compensation. The Company may also make a discretionary profit sharing contribution and qualified nonelective contributions, as defined in the Plan, to participants who are actively employed at the end of the Plan year. There were no discretionary profit sharing contributions or qualified nonelective contributions made during the 2013 or 2012 plan years. Participants direct the investment of their contributions into various investment options offered by the Plan. Contributions are subject to certain limitations. The amount deferred by employees cannot exceed the limits set forth by Internal Revenue Code Section 415. The maximum amount allowed for the years ended December 31, 2013 and 2012 was \$17,500 and \$17,000, respectively.

Participant Accounts

Each participant's account is credited with the participant's elective deferrals, Company matching contributions, earnings from the participant-directed investments and allocations of the Company's discretionary profit sharing and discretionary nonelective contributions. Allocations are based on participant earnings, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions and employer matching contributions plus actual earnings thereon. Vesting in the Company's discretionary profit sharing contributions and qualified nonelective contributions is based on years of service. A participant is 100% vested after five years of credited service.

#### Payment of Benefits

The entire vested balance of a participant's account may be distributed at the date of the participant's retirement from the Company, termination from service from the Company, death or permanent and total disability. Participants may request a hardship withdrawal of their account balance, excluding the Company's matching contributions, in cases of financial hardship. The normal retirement age, as defined by the Plan, is the date at which participants reach the age of 65. In-service distributions are permitted from a participant's vested account balance, provided the participant has attained the age of 59 1/2.

On termination of service, benefits may be paid as a lump-sum distribution or in substantially equal installments to the participant.

#### Notes Receivable From Participants

Notes receivable from participants represent participant loans and are valued at the unpaid principal balance plus any accrued but unpaid interest. Participants may borrow from their participant accounts a minimum of \$500 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. A participant may not have more than one loan outstanding at a time. The loans are secured by the balance in the participant's account and bear interest at rates which are commensurate with local prevailing rates as determined by the Plan Administrator. Principal and interest are paid ratably through monthly payroll deductions within a specific period of time. Participant loans are reflected as Notes receivable from participants in the accompanying statements of Net Assets Available for Benefits.

#### Forfeitures

Forfeitures of terminated participants' nonvested accounts were \$0 and \$883 at December 31, 2013 and 2012, respectively. These amounts can be used to reduce future Company matching contributions. No forfeitures were used to reduce company contributions during 2013 or 2012.

#### Investment Options

The Plan provides for separate investment programs which allow participants to direct their investing among the different investment options. The Plan offers twenty-one mutual funds, one group annuity contract, one collective trust fund and Caterpillar Inc. stock as investment options for participants.

## 2. Summary of Significant Accounting Policies

#### Basis of Presentation

The financial statements of the Plan have been prepared under the accrual method of accounting and have been prepared in conformity with accounting principles generally accepted in the United States of America ("GAAP").

#### Recent Accounting Pronouncements

In May 2011, the FASB issued Accounting Standards Update No. 2011-04, Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRS (ASU 2011-04). ASU 2011-04 is intended to improve the comparability of fair value measurements presented and disclosed in financial statements prepared in accordance with U.S. GAAP and IFRS. The amendments are of two types: (i) those that clarify the FASB's intent about the application of existing fair value measurement and disclosure requirements and (ii) those that change a particular principle or requirement for measuring fair value or for disclosing information about fair value measurements. The update is effective for annual periods beginning after December 15, 2011. This update was adopted in 2012 and did not have a material impact on the Plan's financial statements.

#### Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

#### Payment of Benefits

Benefits are recorded when paid.

### Administrative Expenses

The Company provides certain administrative and accounting services to the Plan at no cost. Administrative expenses including audit fees and legal fees are paid directly by the Company. Other administrative expenses directly incurred by the Plan include investment management fees and loan and distribution fees charged directly to the participant's accounts. These administrative expenses are presented as a deduction to net assets on the Statements of Changes in Net Assets Available for Benefits.

### Risk and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

### Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Benefit Funds Committee determines the Plan's valuation policies utilizing information provided by the investment advisors and insurance company. See Note 5 for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade date basis. Dividend income is recorded on the ex-dividend date. Interest income is recorded on the accrual basis.

The Plan presents in the statements of changes in net assets available for benefits, the net appreciation (depreciation) in the fair value of its investments which consists of the realized gains or losses and the unrealized appreciation (depreciation) on those investments.

### 3. Investments

Investments at December 31, 2013 and 2012 consist of the following:

|                         | Fair Value<br>2013 | 2012          |
|-------------------------|--------------------|---------------|
| Caterpillar Inc. stock  | \$14,768,315       | \$13,718,933  |
| Mutual funds            | 109,198,860        | 87,151,123    |
| Common collective trust | 5,108,147          | 5,563,402     |
| Group annuity contract  | 27,636,784         | 24,966,846    |
|                         | \$156,712,106      | \$131,400,304 |

During 2013 and 2012, the Plan's investments, including gains and losses on investments bought and sold, as well as held during the year, appreciated in value by \$15,924,501 and \$9,392,888, respectively, as follows:

|  | 2013         | 2012        |
|--|--------------|-------------|
| Mutual funds   | \$14,135,948 | \$7,782,878 |
| Common collective trust                                      | 1,483,185    | 1,680,818   |
| Caterpillar Inc. stock                                       | 305,368      | (70,808 )   |
| Net appreciation (depreciation) in fair value of investments | \$15,924,501 | \$9,392,888 |

The fair values of individual investments that represent 5% or more of the Plan's net assets as of December 31 are as follows:

|                                    | 2013         | 2012         |
|------------------------------------|--------------|--------------|
| Key Guaranteed Portfolio Fund      | \$27,636,784 | \$24,966,846 |
| MFS Value Fund - R4                | 16,086,028   | 10,265,217   |
| Caterpillar Inc. Common Stock      | 14,768,315   | 13,718,933   |
| PIMCO Total Return Instl Fund      | 14,635,008   | 12,373,416   |
| Thornburg International Value Fund | 14,217,218   | 15,728,573   |
| Goldman Sachs Mid Cap Value Fund   | 8,591,392    | 7,205,067    |
| Munder Mid-Cap Core Growth Y Fund  | *            | 7,030,530    |

\* Investment holdings did not meet the 5% threshold.

#### 4. Group Annuity Contract

The Plan has a group annuity contract with Great-West Life & Annuity Insurance Company ("Great-West") that invests contributions in the Key Guaranteed Portfolio Fund. The Key Guaranteed Portfolio Fund is a general account product. The methodology for calculating the interest crediting rate is based on the earnings of the underlying assets in the entire medium-long term new portfolio compared to the minimum interest crediting rate, as stated in the contract, and prevailing market conditions. The interest crediting rate is reset quarterly.

Contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the group annuity contract since the contract was determined to be fully benefit-responsive. The contract is included in the financial statements at fair value which approximates contract value. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. As the significant inputs, including the crediting interest rates, are provided by the issuer of the contract and are based upon factors determined by the issuer, the inputs are considered to be unobservable and, therefore, the investment is classified as a Level 3 investment. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2013 and 2012 was \$27,636,784 and \$24,966,846, respectively. The crediting interest is based on a formula agreed upon with the issuer but may not be less than 0%. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following:

- (a) amendments to the Plan document (including complete or partial Plan termination or merger with another plan),
- (b) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions,
- (c) bankruptcy of the Plan sponsor or other Plan sponsor events that cause a significant withdrawal from the Plan or
- (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

| Average yields                                  | 2013  | 2012  |
|---|-------|-------|
| Based on actual earnings                        | 1.26% | 1.45% |
| Based on interest rate credited to participants | 1.26% | 1.45% |

## 5. Fair Value Measurements

The guidance on fair value measurements defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants. The guidance also specifies a fair value hierarchy based upon the observability of inputs used in valuation techniques. Observable inputs (highest level) reflect market data obtained from independent sources, while unobservable inputs (lowest level) reflect internally-developed market assumptions. In accordance with this guidance, fair value measurements are classified under the following hierarchy:

Level 1 Quoted prices for identical instruments in active markets.

Level 2 Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations in which all significant inputs or significant value-drivers are observable in active markets.

Level 3 Model-derived valuations in which one or more significant inputs or significant value drivers are unobservable.

When available, quoted market prices are used to determine fair value and such measurements are classified within Level 1. In some cases where market prices are not available, observable market based inputs are used to calculate fair value, in which case the measurements are classified within Level 2. If quoted or observable market prices are not available, fair value is based upon internally developed models that use, where possible, current market-based parameters such as interest rates, yield curves and currency rates. These measurements are classified within Level 3. Fair value measurements are classified according to the lowest level input or value-driver that is significant to the valuation. A measurement may therefore be classified within Level 3 even though there may be significant inputs that are readily observable.

Investments are stated at fair value. Investments in common stock (Caterpillar Inc. stock) are valued at quoted market prices. Collective trust fund investments are stated at unit value, which represents the fair value of the underlying investments. Registered investment companies are valued at quoted market prices that represent the net asset value of shares held by the Plan at year-end. There have been no changes in the methodologies used at December 31, 2013 and 2012.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The collective trust fund is valued at the unit value, as reported by the custodian of the collective trust fund on each valuation date, based on the fair value of the underlying investments. The fund objective is to match the performance of the S&P 500 Index by investing in stocks that make up the index. The fund does not have any unfunded commitments. It has daily liquidity with trades settling between one and three days and is fully benefit responsive to participant transactions at the measurement date.

The Plan's assets and liabilities recorded at fair value have been categorized based upon a fair value hierarchy. The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013:

|   | Fair Value Measurements as of December 31, 2013 |             |              | Total         |
|---|---|-------------|--------------|---------------|
|   | Level 1   | Level 2     | Level 3      |               |
| Mutual funds  |   |             |              |               |
| Balanced funds  | \$8,880,319                                     | \$—         | \$—          | \$8,880,319   |

| Caterpillar Inc. stock  | 13,718,933                                      | —           | —            | 13,718,933    |
| Collective trust fund - Blackrock Equity Index - Collective F | —   | 5,563,402   | —            | 5,563,402     |
| Group annuity contract  | —   | —           | 24,966,846   | 24,966,846    |
| Total investments   | \$100,870,056                                   | \$5,563,402 | \$24,966,846 | \$131,400,304 |

Unobservable (Level 3) Inputs

The following table presents quantitative information about unobservable inputs used in recurring Level 3 fair value investments.

| Fund Name              | Fair Value<br>12/31/2013 | Valuation<br>Technique | Unobservable<br>Inputs       | Range<br>(Weighted<br>Average) |
|------------------------|--------------------------|------------------------|------------------------------|--------------------------------|
| Group annuity contract | \$27,636,784             | Contract Value         | Contractual interest<br>rate | 1.26 %                         |

## Sensitivity of Significant Unobservable Inputs

The following is a discussion of the sensitivity of significant unobservable inputs, the interrelationships between those inputs and other unobservable inputs used in recurring fair value measurement and of how those inputs might magnify or mitigate the effect of changes in the unobservable inputs on the fair value measurement.

The significant unobservable input used in the fair value measurement of the Plan's investment contract with an insurance company is the interest rate of the investment contract. Changes in the contractual interest rate would result in a significant change in fair value to the extent the change deviates from changes in market interest rates. Generally, an increase (decrease) in the difference between the contractual interest rate and the market interest rate is accompanied by a directionally opposed change in the fair value.

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2013:

|                                      |              |   |
|--------------------------------------|--------------|---|
| Beginning balance at January 1, 2013 | \$24,966,846 |   |
| Interest                             | 324,979      |   |
| Purchases                            | 41,773,829   |   |
| Sales                                | (39,428,780  | ) |
| Ending balance at December 31, 2013  | \$27,636,874 |   |

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2012:

|                                      |              |   |
|--------------------------------------|--------------|---|
| Beginning balance at January 1, 2012 | \$21,259,767 |   |
| Interest                             | 345,044      |   |
| Purchases                            | 11,815,122   |   |
| Sales                                | (8,453,087   | ) |
| Ending balance at December 31, 2012  | \$24,966,846 |   |

## Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

We evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the years ended December 31, 2013 and 2012, there were no significant transfers in or out of Levels 1, 2 or 3, other than the transfer of assets out of the Plan at December 31, 2013 in connection with the merger of the Plan into the Caterpillar 401(k) Savings Plan.

The following table summarizes investments measured at fair value based on NAV per share as of December 31, 2013 and 2012, respectively.

|  |             | As of December 31, 2013 |                      |                          |
|--|-------------|-------------------------|----------------------|--------------------------|
| Fund Name                                | Fair Value  | Unfunded Commitments    | Redemption Frequency | Redemption Notice Period |
| Blackrock Equity Index - Collective Fund | \$5,108,147 | N/A                     | Daily                | 1-5 Days                 |
|  |             | As of December 31, 2012 |                      |                          |
| Fund Name                                | Fair Value  | Unfunded Commitments    | Redemption Frequency | Redemption Notice Period |
| Blackrock Equity Index - Collective Fund | \$5,563,402 | N/A                     | Daily                | 1-5 Days                 |

#### 6. Income Tax Status

The Plan has adopted a prototype nonstandardized profit sharing plan which received an opinion letter from the Internal Revenue Service dated March 31, 2008, stating that the prototype was designed in accordance with the applicable sections of the Internal Revenue Code ("IRC"). The Plan has not received a determination letter specific to the Plan itself, and the Plan has been amended from the original prototype. However, the Plan Administrator believes that the Plan currently is designed and being operated in compliance with the applicable requirements of the IRC and that, therefore, the Plan continues to qualify under Section 401(a), and the related trust continues to be tax-exempt as of December 31, 2013.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability or asset if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2013 and 2012, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability or asset or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes the Plan is no longer subject to income tax examinations for years prior to 2010.

#### 7. Related Party Transactions

The Plan includes a mutual fund, group annuity contract and participant loans issued and managed by Great-West Life and Annuity Insurance Company and its subsidiaries. Certain subsidiaries provide administration and recordkeeping services to the Plan while another serves as Plan custodian. These specific investments issued by or managed by Great-West Life and Annuity Insurance Company qualify as party-in-interest transactions. Fees paid by the Plan to the related party for investment management services related to these investments totaled approximately \$31,316 and \$26,984 for the years ended December 31, 2013 and 2012, respectively.

The Plan holds an employer common stock investment which is comprised of Caterpillar Inc. common stock and cash. During the year ended December 31, 2013, the Plan purchased 62,368 shares of employer common stock for \$5,326,308, disposed of 218,813 shares for \$19,630,694 and received \$280,302 in dividend payments. During the year ended December 31, 2012, the Plan purchased 50,577 shares of employer common stock for \$4,648,919, disposed of 51,001 shares for \$4,778,710 and received \$372,214 in dividend payments. These transactions qualify as party-in-interest transactions.
