FOR IMMEDIATE RELEASE:

TrustCo Announces Third Quarter 2007 Results

Glenville, New York - October 16, 2007

TrustCo Bank Corp NY (TrustCo, Nasdaq: TRST) today announced that net income for the third quarter of 2007 was \$10.6 million compared to \$11.2 million for the comparable 2006 quarter. Diluted earnings per share were \$0.141 for the third quarter of 2007, compared to \$0.149 for the same period in 2006. Return on average equity and return on average assets were 18.45% and 1.26%, respectively for the third quarter of 2007 compared to 18.15% and 1.48% for the third quarter of 2006.

For the first nine months of 2007 net income was \$31.1 million and resulted in diluted earnings per share of \$0.413, as compared to the first nine months of 2006 which resulted in net income of \$36.0 million and diluted earnings per share of \$0.479. Return on average equity and return on average assets were 18.07% and 1.27%, respectively, for the first nine months of 2007, and 19.81% and 1.63% for the comparable period in 2006.

Compared to prior year results, the decline in net income in both the 2007 quarter and year-to-date periods is primarily a result of a decline in the Company's net interest margin, brought about by the inverted yield curve, and higher costs related to the expansion of the branch network. Also, for the nine month periods, the Company recognized a credit to the provision for loan losses of \$3.6 million for 2006 and zero in 2007. This decline was another contributing factor in the reduction in year-to-date net

income for 2007 compared to 2006.

TrustCo continued to report impressive growth in both deposits and loans. For the quarter ended September 30, 2007, average deposits were up \$361.7 million or 13.7% compared to the third quarter of 2006. Average loans showed similar results, rising \$235.2 million or 14.3% compared to the same period in 2006. Much of the growth can be attributed to the Company's branch expansion initiative. During the third quarter of 2007, TrustCo opened four offices to bring the total to 105. Current plans call for the expansion program to continue into 2008 with new branches planned in the markets currently served. Robert J. McCormick, President and Chief Executive Officer noted that, "We are pleased with the early results of our expansion program but are mindful that achieving our profit goals will take time and continued hard work."

Mr. McCormick also noted "Press reports continue to cover the fallout related to the subprime mortgage lending area. Subprime loans are mortgage loans to borrowers who do not qualify for conventional loans due to poor credit, employment issues, etc. TrustCo has never been involved in this type of lending. We have always believed that mortgage loans are our most important asset and growth is never an excuse to sacrifice credit quality. While the news continues to report stories of mortgage lenders closing down or having to dramatically restructure their businesses, TrustCo continues to make mortgages

to credit worthy applicants. In fact, the declining number of competitors in the mortgage business may possibly create opportunities for our Company."

Nonperforming loans continue at low levels and reserve coverage of those loans remains strong. At the end of the third quarter, nonperforming loans were equal to 0.46% of total loans, while the allowance for loan losses was 3.9 times nonperforming loans. At June 30, 2007, nonperforming loans were equal to 0.50% of total loans and the allowance was 3.8 times nonperforming loans. Both figures compare favorably to the industry. Looking at the most recent data available, as of June 30, 2007, the average ratio of nonperforming loans to total loans was 0.68% and the average of the allowance of loan losses to nonperforming loans was 2.3 times for all publically traded thrifts as reported by SNL Financial.

On August 21st the Board of Directors declared a quarterly cash dividend of \$0.16 per share, which shareholders received in early October. This dividend equates to an annualized yield of 5.86% based on the closing stock price for the third quarter.
