TO THE STOCKHOLDERS

For the nine months ended September 30, 2003, the investment return to our stockholders was 15.5% (assuming reinvestment of all dividends). The net asset value per Common Share increased 15.4%. By comparison, the rate of return (including income) for our benchmark, the Standard & Poor's 500 Stock Index, was 14.7%. For the twelve months ended September 30, 2003, the return to our stockholders was 18.6% and the return on the net asset value per Common Share was 20.1%; these compare with a return of 24.3% for the S&P 500. During each period, the discount at which our shares traded fluctuated moderately and at September 30, 2003, it was 9.9%.

As set forth in the accompanying financial statements (unaudited), as of September 30, 2003, the net assets applicable to the Company's Common Stock were \$909,167,385, equal to \$30.51 per Common Share.

The increase in net assets resulting from operations for the nine months ended September 30, 2003 was \$126,543,696. During this period, the net realized loss on securities sold was \$6,981,962 and the increase in unrealized appreciation was \$141,234,927. Net investment income for the nine months was \$382,120 and distributions to preferred stockholders amounted to \$8,091,389.

During the nine months, 764,000 shares of the Company's Common Stock were repurchased for \$18,548,308 at an average discount from net asset value of 9.6%.

The economy appears to be strengthening in response to continuing monetary accommodation and fiscal stimulus. The recovery may not achieve historical norms, however, since job creation and average hourly wage gains, essential elements for sustained consumer spending, remain weak.

The market has moved broadly higher, with the biggest gains, by far, having accrued to the lowest priced, lowest quality and riskiest stocks. While speculative leadership may propel the market for some time, our record suggests that superior long-term performance generally results from holding companies of high quality with strong financials and powerful positions in their respective industries.

On September 23, 2003, the Company redeemed all of its then outstanding 6,000,000 shares of 7.20% Tax-Advantaged Cumulative Preferred Stock, Series A at a redemption price of \$25.00 per share. The Series A Preferred Shares were

Edgar Filing: GENERAL AMERICAN INVESTORS CO INC - Form N-30B-2

issued originally on June 19, 1998.

On September 24, 2003, the Company issued and sold 8,000,000 shares of its 5.95% Cumulative Preferred Stock, Series B in an underwritten offering. The Preferred Shares are noncallable for 5 years, have a liquidation preference of \$25.00 per share plus accrued dividends and are listed on the New York Stock Exchange, symbol GAM Pr B. Trading of the shares on the NYSE is expected to begin later this month. The net proceeds from the offering were \$193.2 million. The underwriting discount and other expenses associated with the offering amounted to \$6.8 million and were charged to paid-in capital.

The information about the Company, including our investment objective, operating policies and procedures, investment results, record of dividend payments, financial reports and press releases, contained at our website has been updated through September 30, 2003. It can be accessed on the Internet at www.generalamericaninvestors.com.

NOTES TO FINANCIAL STATEMENTS (Unaudited)

General American Investors

1. SIGNIFICANT ACCOUNTING POLICIES

General American Investors Company, Inc. (the "Company"), established in 1927, is registered under the Investment Company Act of 1940 as a closed-end, diversified management investment company. It is internally managed by its officers under the direction of the Board of Directors.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

a. SECURITY VALUATION Securities traded on securities exchanges or on the NASDAQ National Market System are valued at the last reported sales price on the last business day of the period. Listed and NASDAQ securities for which no sales are reported on that day and other securities traded in the over-the-counter market are valued at the last bid price (asked price for open short positions) on the valuation date. Corporate discount notes and U.S. Treasury bills are valued at amortized cost, which approximates market value. Special holdings are valued at fair value in the opinion of the directors. In determining fair value, in the case of restricted shares, consideration is given to cost, operating and other financial data and, where applicable, subsequent private offerings or market price of the issuer's unrestricted shares (to which a 30 percent discount is applied).

b. SHORT SALES The Company may make short sales of securities for either speculative or hedging purposes. When the Company makes a short sale, it borrows the securities sold short from a broker; in addition, the Company places cash with that broker and securities in a segregated account with the custodian, both as collateral for the short position. The Company may be required to pay a fee to borrow the securities and may also be obligated to pay any dividends declared on the borrowed securities. The Company will realize a gain if the security price decreases and a loss if the security price increases between the date of the short sale and the date on which the Company replaces the borrowed securities.

c. FEDERAL INCOME TAXES The Company's policy is to fulfill the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute substantially all taxable income to its stockholders. Accordingly, no provision for Federal income taxes is required.

d. OTHER As customary in the investment company industry, securities transactions are recorded as of the trade date. Dividend income and distributions to stockholders are recorded as of the ex-dividend dates. Interest income, adjusted for amortization of discount and premium on investments, is earned from settlement date and is recognized on the accrual basis. Cost of short-term investments represents amortized cost.

2. CAPITAL STOCK AND DIVIDEND DISTRIBUTIONS

Edgar Filing: GENERAL AMERICAN INVESTORS CO INC - Form N-30B-2

The authorized capital stock of the Company consists of 50,000,000 shares of Common Stock, \$1.00 par value, and 10,000,000 shares of Preferred Stock, \$1.00 par value, of which 29,797,356 shares and 8,000,000 shares, respectively, were outstanding at September 30, 2003.

On September 24, 2003, the Company issued and sold 8,000,000 shares of its 5.95% Cumulative Preferred Stock, Series B in an underwritten offering. The Preferred Shares are noncallable for 5 years and have a liquidation preference of \$25.00 per share plus an amount equal to accumulated and unpaid dividends to the date of redemption. The underwriting discount and other expenses associated with the Preferred Stock offering amounted to \$6,800,000 and were charged to paid-in capital.

On September 23, 2003, the Company redeemed all of its then outstanding 6,000,000 shares of 7.20% Tax-Advantaged Cumulative Preferred Stock, Series A, at a redemption price of \$25.00 per share. The Series A Preferred Shares were issued originally on June 19, 1998.

The Company is required to allocate distributions from long-term capital gains and other types of income proportionately among holders of shares of Common Stock and Preferred Stock. To the extent that dividends on the shares of Preferred Stock are not paid from long-term capital gains, they will be paid from ordinary income or net short-term capital gains or will represent a return of capital.

Under the Investment Company Act of 1940, the Company is required to maintain an asset coverage of at least 200% for the Preferred Stock. In addition, pursuant to the Rating Agency Guidelines, the Company is required to maintain a certain discounted asset coverage for its portfolio that equals or exceeds the Basic Maintenance Amount under the guidelines established by Moody's Investors Service, Inc. The Company has met these requirements since the issuance of the Preferred Stock. If the Company fails to meet these requirements in the future and does not cure such failure, the Company may be required to redeem in whole or in part, shares of Preferred Stock at a redemption price of \$25.00 per share plus accumulated and unpaid dividends (whether or not earned or declared). In addition, the Company's failure to meet the foregoing asset coverage requirements could restrict its ability to pay dividends on shares of Common Stock and could lead to sales of portfolio securities at inopportune times.

The holders of Preferred Stock have voting rights equivalent to those of the holders of Common Stock (one vote per share) and, generally, vote together with the holders of Common Stock as a single class.

At all times, holders of Preferred Stock will elect two members of the Company's Board of Directors and the holders of Preferred and Common Stock, voting as a single class, will elect the remaining directors. If the Company fails to pay dividends on the Preferred Stock in an amount equal to two full years' dividends, the holders of Preferred Stock will have the right to elect a majority of the directors. In addition, the Investment Company Act of 1940 requires that approval of the holders of a majority of any outstanding Preferred Shares, voting separately as a class, would be required to (a) adopt any plan of reorganization that would adversely affect the Preferred Stock and (b) take any action requiring a vote of security holders, including, among other things, changes in the Company's subclassification as a closed-end investment company or changes in its fundamental investment policies.

The Company classifies its Preferred Stock pursuant to the requirements of EITF D-98, Classification and Measurement of Redeemable Securities, which require that preferred stock for which its redemption is outside of the Company's control should be presented outside of net assets in the statement of assets and liabilities.
