Item 5. Other Events.

Reference is made to Note 3 to the financial statements of The Southern Company ("SOUTHERN") and Georgia Power Company ("GEORGIA") in Item 8 of the Form 10-K for the fiscal year ended December 31, 2000 of SOUTHERN and GEORGIA, respectively, for information concerning a three-year rate order approved by the Georgia Public Service Commission (the "Georgia PSC") effective January 1, 1999. The order decreased annual retail rates by \$262 million effective January 1, 1999 and by an additional \$24 million effective January 1, 2000. The order further provided for \$85 million each year, plus up to \$50 million annually of any earnings above a 12.5 percent retail return on common equity during the

second and third years, to be applied to accelerated amortization or depreciation of assets. Two-thirds of any additional earnings above the 12.5 percent return were to be applied to rate reductions and the remaining one-third was to be retained by GEORGIA.

GEORGIA was required to file a general rate case with the Georgia PSC by July 1, 2001. Accordingly, on June 29, 2001, GEORGIA filed a rate plan with the Georgia PSC. On December 20, 2001, the Georgia PSC approved a three-year rate order, effective January 2, 2002. Under the new accounting order, GEORGIA's rates are set assuming a 12.5 percent return on common equity. Future earnings are to be evaluated against a retail return on common equity range of 10 percent to 12.95 percent. Two-thirds of any earnings in excess of 12.95 percent will be applied to rate reductions and the remaining one-third retained by GEORGIA. The order will also decrease retail rates by \$118 million per year effective January 2, 2002.
