INDUSTRIAL SERVICES OF AMERICA, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with U. S. generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by U. S. generally accepted accounting principles ("GAAP") for complete consolidated financial statements. The Accounting Standards Codification ("ASC") as produced by the Financial Accounting Standards Board ("FASB") is the sole source of authoritative GAAP for non-governmental entities. The information furnished includes all adjustments, which are, in the opinion of management, necessary to present fairly our financial position as of March 31, 2012 and the results of our operations and changes in our cash flow for the periods ended March 31, 2012 and 2011. Results of operations for the period ended March 31, 2012 are not necessarily indicative of the results that may be expected for the entire year. Additional information, including the audited December 31, 2011 consolidated financial statements and the Summary of Significant Accounting Policies, is included in our Annual Report on Form 10-K for the year ended December 31, 2011 on file with the Securities and Exchange Commission.

Reclassifications

We have reclassified certain income statement items within the accompanying Condensed Consolidated Financial Statements and Notes to Condensed Consolidated Financial Statements for the prior year in order to be comparable with the current presentation. These reclassifications had no effect on previously reported income.

Fair Value

We carry certain of our financial assets and liabilities at fair value on a recurring basis. These financial assets and liabilities are composed of cash and cash equivalents, long-term debt, and derivative instruments. In addition, we measure certain assets, such as goodwill and other long-lived assets, at fair value on a non-recurring basis to evaluate those assets for potential impairment. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

In accordance with the accounting standard, we categorize our financial assets and liabilities into the following fair value hierarchy:

Level 1 – Financial assets and liabilities with values based on unadjusted quoted prices for identical assets or liabilities in an active market. Examples of level 1 financial instruments include active exchange-traded equity securities and certain U.S. government securities.

Level 2 – Financial assets and liabilities with values based on quoted prices for similar assets and liabilities in active markets, and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the asset or liability. Examples of level 2 financial instruments include commercial paper purchased from the State Street-administered asset-backed commercial paper conduits, various types of interest-rate derivative instruments, and various types of fixed-income investment securities. Pricing models are utilized to estimate fair value for certain financial assets and liabilities categorized in level 2.

Level 3 – Financial assets and liabilities with values based on prices or valuation techniques that require inputs that are both unobservable in the market and significant to the overall fair value measurement. These inputs reflect management's judgment about the assumptions that a market participant would use in pricing the asset or liability, and are based on the best available information, some of which is internally developed. Examples of level 3 financial instruments include certain corporate debt with little or no market activity and a resulting lack of price transparency. When determining the fair value measurements for financial assets and liabilities carried at fair value on a recurring basis, we consider the principal or most advantageous market in which we would transact and consider assumptions that market participants would use when pricing the asset or liability. When possible, we look to active and observable markets to price identical assets or liabilities. When identical assets and liabilities are not traded in active markets, we look to market observable data for similar assets and liabilities. Nevertheless, certain assets and liabilities are not

actively traded in observable markets, and we use alternative valuation techniques to derive fair value measurements.

We use the fair value methodology outlined in the related accounting standard to value the assets and liabilities for cash, debt and derivatives. All of our cash is defined as Level 1 and all our debt and derivative contracts are defined as Level 2. In accordance with this guidance, the following table represents our fair value hierarchy for Level 1 and Level 2 financial instruments at March 31, 2012 (in thousands):

Assets	Level 1	Level 2	Total
Cash and cash equivalents	\$1,747	\$—	\$1,747
Liabilities			
Long-term debt	\$—	\$(27,580) \$(27,580
Derivative contract	—	(434) (434

We have had no transfers in or out of Levels 1 or 2 fair value measurements, and no activity in Level 3 fair value measurements for the quarter ending March 31, 2012. For Level 3 assets, goodwill is subject to impairment analysis each year end under Phase I of the ASC guidance. We hired an independent third party to evaluate Level 3 assets for impairment as of December 31, 2011. No impairment adjustment was necessary.

Factoring fees

We have included factoring fees with interest expense. These fees were previously recorded as discounts taken and totaled \$87.9 thousand and \$214.2 thousand for the periods ending March 31, 2012 and 2011, respectively.

Subsequent Events

We have evaluated the period from March 31, 2012 through the date the financial statements herein were issued for subsequent events requiring recognition or disclosure in the financial statements and no events were identified.

NOTE 2 – ESTIMATES

In preparing the condensed consolidated financial statements in accordance with U. S. generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X, management must make estimates and assumptions. These estimates and assumptions affect the amounts reported for assets, liabilities, revenues and expenses, as well as affecting the disclosures provided. Examples of estimates include the allowance for doubtful accounts, estimates associated with annual goodwill impairment tests, and estimates of deferred income tax and liabilities. The Company also uses estimates when assessing fair values of assets and liabilities acquired in business acquisitions as well as any fair value and any related impairment charges related to the carrying value of machinery and equipment, and other long-lived assets. Despite the Company's intention to establish accurate estimates and use reasonable assumptions, actual results may differ from these estimates.

NOTE 3 – INTANGIBLE ASSETS

Purchased intangible assets are initially recorded at cost and finite life intangible assets are amortized over their useful economic lives on a straight line basis. Intangible assets having indefinite lives and intangible assets that are not yet ready for use are not amortized and are reviewed annually for impairment in accordance with Note 1 – "Summary of Significant Accounting Policies – Fair Value."

Intangible assets are considered to have indefinite lives when, based on an analysis of all of the relevant factors, there is no foreseeable limit to the period over which the asset is expected to generate cash flows for the Company. The factors considered in making this determination include the existence of contractual rights for unlimited terms and the life cycles of the products and processes that depend on the asset.

We have the following intangible assets as of March 31, 2012:

	Gross Carrying Value	Accumulated Amortization (in thousands)	Net Carrying Value
Amortized intangible assets			
Venture Metals, LLC trade name	\$730	\$(255)) \$475
Non-compete agreements	620	(217)) 403
Venture Metals, LLC customer list	4,800	(840)) 3,960
Total intangible assets	\$6,150	\$(1,312)) \$4,838

We amortize the trade name and non-compete agreements using a method that reflects the pattern in which the economic benefits are consumed or otherwise used over a 5-year life as stated in the agreements. We amortize the customer list on a straight-line basis over a 10-year life as estimated by management. We incurred amortization expense related to these assets of \$187.5 thousand for the three month periods ending March 31, 2012 and 2011. As of March 31, 2012, we expect amortization expense for these assets for the next five fiscal years and thereafter to be as follows:

Year	Balance - Beginning of Year (in thousands)	Amortization	Balance - End of Year
2012	\$5,025	\$(750)) \$4,275
2013	4,275	(750)) 3,525
2014	3,525	(750)) 2,775
2015	2,775	(615)) 2,160
2016	2,160	(480)) 1,680
Thereafter	1,680	(1,680)) —

NOTE 4 – LONG TERM DEBT AND NOTES PAYABLE TO BANK

On March 2, 2012, Industrial Services of America, Inc. and ISA Indiana, Inc. (the “Companies”) entered into a Third Amendment to Credit Agreement (the “Third Amendment”) with Fifth Third Bank (the “Bank”) which amended the July 30, 2010 Credit Agreement (the “Credit Agreement”), including the First Amendment to Credit Agreement dated as of April 14, 2011 (the “April Amendment”) and the Second Amendment to Credit Agreement dated as of November 16, 2011 (the “November Amendment”), as follows. The Third Amendment redefines the calculation period for the purpose of measuring compliance with our covenant to maintain a ratio of debt to adjusted EBITDA (the “Senior Leverage Ratio”) and a ratio of adjusted EBITDA to aggregate cash payments of interest expense and scheduled payment of principal of not more than 1.20 to 1 (the “Fixed Charge Coverage Ratio”) such that each ratio will be calculated quarterly for the period beginning January 1, 2012 through the end of each quarter of 2012. Prior to the Third Amendment, the ratios were calculated on a rolling 12 month basis. The Third Amendment also changed the Senior Leverage Ratio from 3.5 to 1 in the original Credit Agreement to (i) 4.25 to 1 in the first quarter of 2012, (ii) 3.50 to 1 in the second and third quarter of 2012, and (iii) 3.25 to 1 in the fourth quarter of 2012 and thereafter. The Third Amendment also increased the unused line fee by 0.25% to 0.75% and provided a waiver of the Senior Leverage Ratio and Fixed Charge Coverage Ratio covenant defaults for the quarter ending December 31, 2011. In addition, the Companies also agreed to perform other customary commitments and pay a fee of \$10.0 thousand to the Bank.

On April 14, 2011, we entered into the April Amendment with the Bank which amended the Credit Agreement as follows: The April Amendment (i) increased the maximum revolving commitment and the maximum amount of eligible inventory advances in the calculation of the borrowing base, (ii) changed the due date of the first excess cash flow payment to April 30, 2012, and (iii) amended certain other provisions of the Credit Agreement and certain of the other loan documents.

On December 6, 2011, we entered into the November Amendment with the Bank which amended the Credit Agreement, as amended by the April Amendment described above. Under the April Amendment, the Company was permitted to borrow the lesser of \$45.0 million (the "Maximum Revolving Commitment") or the borrowing base, consisting of the sum of 85% of eligible accounts plus 60% of eligible inventory up to \$18.0 million. Under the November Amendment, the Maximum Revolving Commitment was reduced to \$40.0 million. In addition, the Company agreed to perform other customary commitments.

Under the original Credit Agreement, we were permitted to borrow via a revolving credit facility the lesser of \$40.0 million or the borrowing base, consisting of the sum of 85% of eligible accounts plus 60% of eligible inventory up to \$17.0 million. Eligible accounts are generally those receivables that are less than 90 days from the invoice date. As security for the revolving credit facility, we provided the Bank a first priority security interest in the accounts receivable from most of our customers and in our inventory. We also cross collateralized the revolving line of credit with an \$8.8 million term loan, entered into to replace several notes payable with another bank. Proceeds of the original revolving credit facility in the amount of \$33.4 million were used to repay the outstanding principal balance of the prior obligations with another bank. We used additional proceeds of the revolving credit facility to pay closing costs and for funding temporary fluctuations in accounts receivable of most of our customers and inventory.

With respect to the revolving credit facility, the interest rate is one month LIBOR plus two hundred fifty basis points (2.50%) per annum, adjusted monthly on the first day of each month. As of March 31, 2012, the interest rate was 3.00%. We also paid a fee of 0.75% on the unused portion. The revolving credit facility expires on July 31, 2013. As of March 31, 2012, the outstanding balance on the revolving line of credit was \$19.6 million.

The \$8.8 million term loan provides for an interest rate that is twenty-five basis points (0.25%) higher than the interest rate for the revolving credit facility, which is 3.25% as of March 31, 2012. Principal and interest is payable monthly in consecutive equal installments of \$105.0 thousand. The first such payment commenced September 1, 2010 and the final payment of the then-unpaid balance becomes due and payable in full on July 31, 2013. In addition, we will make an annual payment equal to 25% of (i) our adjusted earnings before interest, taxes, depreciation and amortization ("EBITDA"), minus (ii) our aggregate cash payments of interest expense and scheduled payments of principal (including any prepayments of the term loan), minus (iii) any non-financed capital expenditures, in each case for the Company's prior fiscal year. Based on 2011 operating results, no annual payment was required in 2012 for the 2011 fiscal year. The next annual payment will be due on April 30, 2013 (or earlier, upon completion of the Company's financial statements for the fiscal year ending December 31, 2012). Any such payments will be applied to remaining installments of principal under the term loan in the inverse order of maturity, and to accrued but unpaid interest thereon. As security for the term loan, we provided the Bank a first priority security interest in all equipment other than the rental fleet that we own. As of March 31, 2012, the outstanding balance on the term loan was \$6.7 million.

In addition, we provided a first mortgage on the property at the following locations: 3409 Campground Road, 6709, 7023, 7025, 7101, 7103, 7110, 7124, 7200 and 7210 Grade Lane, Louisville Kentucky, 1565 East Fourth Street, Seymour, Indiana and 1617 State Road 111, New Albany, Indiana. The Company also cross collateralized the term loan with the revolving credit facility and all other existing debt the Company owes to the Bank.

In our Credit Agreement with the Bank, we agreed to certain covenants, including (i) maintenance of a ratio of debt to adjusted EBITDA for the preceding 12 months of not more than 3.5 to 1 (or, if measured as of December 31 of any fiscal year, 4.0 to 1), (ii) maintenance of a ratio of adjusted EBITDA for the preceding twelve months to aggregate cash payments of interest expense and scheduled payment of principal in the preceding 12 months of not less than 1.20 to 1, and (iii) a limitation on capital expenditures of \$4.0 million in any fiscal year. Pursuant to the Third Amendment, the Senior Leverage Ratio increased to 4.25 to 1 for the period ending March 31, 2012. The Senior Leverage Ratio will then decrease to 3.5 to 1 for the periods ending June 30 and September 30, 2012 and decrease to 3.25 to 1 for the period ending December 31, 2012 and thereafter. The Senior Leverage Ratio will, in each quarter, be calculated using a measurement period beginning January 1, 2012 and ending at the end of the quarterly measurement period. The other covenants will remain the same going forward. As of March 31, 2012, we were in compliance with all debt covenants. As of March 31, 2012, our ratio of debt to adjusted EBITDA was 3.52; our ratio of adjusted EBITDA to aggregate cash payments of interest expense and scheduled principal payments was 1.8, and our capital expenditures totaled \$164.4 thousand. As of March 31, 2012, we have \$20.4 million available to us under our existing credit facilities.

On April 12, 2011, we entered into a Loan and Security Agreement with the Bank pursuant to which the Bank agreed to provide the Company with a Promissory Note (the "April Note") in the amount of \$226.9 thousand for the purpose of purchasing operating equipment. The interest rate is five and 68/100 percent (5.68%). Principal and interest is payable in 48 equal monthly installments of \$5.3 thousand, each due on the 20th day of each calendar month. Payment commenced on the 20th day of May, 2011, and the entire unpaid principal amount, together with all accrued and unpaid interest, charges, fees or other advances, if any, comes due on or before April 20, 2015. As security for the Note, we have granted the Bank a first priority security interest in the equipment purchased with the proceeds of the April Note. As of March 31, 2012, the outstanding balance of this loan was \$173.8 thousand.

On August 9, 2011, we entered into a Loan and Security Agreement (the "August Agreement") with the Bank pursuant to which the Bank agreed to loan the Company funds pursuant to a Promissory Note (the "August Note") in the amount of \$115.0 thousand for the purpose of purchasing operating equipment. The interest rate is 5.95%. Principal and interest is payable in 48 equal monthly installments of \$2.7 thousand. The first such payment commenced on September 12, 2011, and the entire unpaid principal amount, together with all accrued and unpaid interest, charges, fees or other advances, if any, becomes due no later than August 12, 2015. As security for the August Note, we have granted the Bank a first priority security interest in the equipment purchased

with the proceeds of the Note. As of March 31, 2012, the outstanding balance of this loan was \$99.9 thousand.

On October 19, 2010, we entered into a Promissory Note (the "October Note") with the Bank in the amount of \$1.3 million for the purpose of purchasing equipment. The interest rate is equal to five and 20/100 percent (5.20%) per annum. Principal and interest is payable monthly in consecutive equal installments of \$30.5 thousand with the first such payment commencing November 15, 2010, and the final unpaid principal amount due, together with all accrued and unpaid interest, charges, fees, or other advances, if any, to be paid on October 15, 2014. As security for the October Note, we provided Fifth Third Bank a first priority security interest in the equipment purchased with the proceeds. As of March 31, 2012, the outstanding balance on the October Note was \$882.9 thousand.

On August 2, 2007, we entered into an asset purchase agreement for \$1.3 million funded primarily by a note payable to ILS, the sole member of which is Brian Donaghy, our president and chief operating officer, whereby we pay \$20.0 thousand per month for 60 months for various assets including tractor trailers, trucks and containers. The note payable reflects a seven percent (7.0%) interest payment on the outstanding balance plus principal amortization. We also paid ILS \$100.0 thousand cash as a portion of the purchase price at the time of execution of the asset purchase agreement. We recorded a note payable of \$1.0 million with an outstanding balance at March 31, 2012 of \$98.3 thousand.

We entered into three interest rate swap agreements swapping variable rates for fixed rates. The first swap agreement covers approximately \$4.6 million in debt, commenced April 7, 2009, and matures on April 7, 2014. The second swap agreement covers approximately \$2.0 million in debt, commenced October 15, 2008, and matures on May 7, 2013. The third swap agreement covers approximately \$443.7 thousand in debt, commenced October 22, 2008, and matures on October 22, 2013. The three swap agreements fix our interest rate at approximately 5.8%. At March 31, 2012, we recorded the estimated fair value of the liability related to the three swaps at approximately \$434.1 thousand. We entered into the swap agreements for the purpose of hedging the interest rate market risk for the respective notional amounts. We maintain a cash account on deposit with BB&T which serves as collateral for the swap agreements. As of March 31, 2012, the balance in this account was \$488.0 thousand.

Our long term debt as of March 31, 2012 and December 31, 2011 consisted of the following:

	2012 (Unaudited) (in thousands)	2011
Revolving credit facility of \$40.0 million with Fifth Third Bank. See above description for additional details.	\$19,625	\$20,083
Note payable to Fifth Third Bank in the amount of \$8.8 million secured by our rental fleet equipment, our shredder system assets, and a crane. See above description for additional details.	6,700	7,015
Note payable to Fifth Third Bank in the amount of \$1.3 million secured by equipment purchased with the proceeds. See above description for additional details.	883	962
Loan and Security Agreement payable to Fifth Third Bank in the amount of \$226.9 thousand secured by the equipment purchased with the proceeds. See above description for additional details.	174	187
Note payable to Fifth Third Bank in the amount of \$115.0 thousand secured by the equipment purchased with the proceeds. See above description for additional details.	100	106
Note payable to ILS for various assets including tractor trailers, trucks and containers. The repayment terms are \$20.0 thousand per month for 60 months at a seven percent (7.0%) interest rate. The maturity date under this agreement is August 2012.	98	156
	27,580	28,509
Less current maturities	1,769	1,821
	\$25,811	\$26,688

The annual maturities of long term debt (in thousands) as of March 31, 2012 are as follows:

2012	\$1,769
2013	25,498
2014	300
2015	13
Thereafter	—
Total	\$27,580

NOTE 5 – SEGMENT INFORMATION

Our operations include two primary segments: Recycling and Waste Services.

The Company's two reportable segments are determined by the products and services that each offers. The Recycling segment generates its revenues based on buying and selling of ferrous, non-ferrous, including stainless steel, and fiber scrap. Waste Services' revenues consist of charges to customers for waste disposal services and equipment sales and lease income. The components of the column labeled "other" are selling, general and administrative expenses that are not directly related to the two primary segments.

We evaluate segment performance based on gross profit or loss and the evaluation process for each segment includes only direct expenses and selling, general and administrative costs, omitting any other income and expense and income taxes.

FOR THE THREE MONTHS ENDED	RECYCLING	WASTE SERVICES	OTHER	SEGMENT TOTALS
March 31, 2012	(in thousands)			
Recycling revenues	\$59,883	\$—	\$—	\$59,883
Equipment sales, service and leasing revenues	—	510	—	510
Management fees	—	1,285	—	1,285

Segment assets	\$99,094	\$2,430	\$8,199	\$109,723

NOTE 6 – INVENTORIES

Our inventories primarily consist of ferrous and non-ferrous, including stainless steel, scrap metals and are valued at the lower of average purchased cost or market using the specific identification method. Quantities of inventories are determined based on our inventory systems and are subject to periodic physical verification using estimation techniques including observation, weighing and other industry methods. We recognize inventory impairment when the market value, based upon current market pricing, falls below recorded value or when the estimated volume is less than the recorded volume of the inventory. We record the loss in cost of goods sold in the period during which we

identified the loss.

14

Some commodities are in saleable condition at acquisition. We purchase these commodities in small amounts until we have a truckload of material available for shipment. Some commodities are not in saleable condition at acquisition. These commodities must be shredded, torched, sheared or baled. We do not have work-in-process inventory that needs to be manufactured to become finished goods. We include processing costs in inventory for all commodities. Inventory also includes all types of industrial waste handling equipment and machinery held for resale such as compactors, balers, and containers. Replacement parts included in inventory are depreciated over a one-year life. Other inventory includes fuel, cardboard and baling wire. Inventories as of March 31, 2012 and December 31, 2011 consist of the following:

	March 31, 2012				December 31, 2011			
	Raw Materials (in thousands)	Finished Goods	Processing Costs	Total (unaudited)	Raw Materials	Finished Goods	Processing Costs	Total
Stainless steel, ferrous and non-ferrous materials	\$20,433	\$1,102	\$1,052	\$22,587	\$14,633	\$1,409	\$777	\$16,819

Replacement parts	1,654	—	—	1,654	1,623	—	—	1,623
Total inventories	\$22,087	\$1,237	\$1,052	\$24,376	\$16,256	\$1,511	\$777	\$18,544

NOTE 7 - LEASE COMMITMENTS

Operating Leases:

We lease our Louisville, Kentucky facility from a related party under an operating lease expiring December 2012. The rent was adjusted in December 2007 per the Company's agreement to make monthly payments of \$48.5 thousand through December 2012. In addition, we are also responsible for real estate taxes, insurance, utilities and maintenance expense.

We lease office space in Dallas, Texas for which monthly payments of \$1.0 thousand are due through September 2012.

We lease equipment from a related party under operating leases expiring in November 2015 and May 2016 for a monthly payment totaling \$10.5 thousand.

We leased a facility in Lexington, Kentucky for \$4.5 thousand per month; the lease terminated February 10, 2012. We subleased this property for a term commencing March 1, 2007 and ending January 31, 2012 for \$4.5 thousand per month.

Future minimum lease payments for operating leases in thousands as of March 31, 2012 are as follows:

2012	\$568
2013	126
2014	126
2015	115
2016	5
Thereafter	—

Future minimum lease payments	\$940
-------------------------------	-------

Total rent expense for the three months ended March 31, 2012 and 2011 was \$236.0 thousand and \$279.4 thousand, respectively.

15

NOTE 8 - PROVISION FOR EMPLOYEE TERMINATIONS AND SEVERANCES

In the first quarter of 2012, the Company accrued \$211.3 thousand for expenses related to employee terminations and severances.

NOTE 9 – PER SHARE DATA

The computation for basic and diluted earnings per share is as follows:

Three months ended March 31, 2012 compared to three months ended March 31, 2011:

	2012	2011
	(in thousands, except per share information)	
Basic earnings per share		
Net income	\$9	\$2,167
Weighted average shares outstanding	6,941	6,885
Basic earnings per share	\$—	\$0.31
Diluted earnings per share		
Net income	\$9	\$2,167
Weighted average shares outstanding	6,941	6,885
Add dilutive effect of assumed exercising of stock options	23	43
Diluted weighted average shares outstanding	6,964	6,928
Diluted earnings per share	\$—	\$0.31

NOTE 10 – LONG TERM INCENTIVE PLAN

The Company's long term incentive plan makes available up to 2.4 million shares of our common stock for performance-based awards under the plan. We may grant any of these types of awards: non-qualified and incentive stock options, stock appreciation rights, and other stock awards including stock units, restricted stock units, performance shares, performance units, and restricted stock. The performance goals that we may use for such awards will be based on any one or more of the following performance measures: cash flow, earnings, earnings per share, market value added or economic value added, profits, return on assets, return on equity, return on investment, revenues, or total shareholder return.

The plan is administered by a committee selected by the Board, initially our Compensation Committee, and consisting of two or more outside members of the Board. The Committee may grant one or more awards to our employees, including our officers, our directors and consultants, and will determine the specific employees who will receive awards under the plan and the type and amount of any such awards. A participant who receives shares of stock awarded under the plan must hold those shares for six months before the participant may dispose of such shares. The Committee may settle an award under the plan in cash rather than stock.

As of July 1, 2009, we awarded options to purchase 30.0 thousand shares of our stock each to our three independent directors for a total of 90.0 thousand shares at a per share exercise price of \$4.23. We recorded expense related to these stock options of \$95.1 thousand in 2009. These options are outstanding as of March 31, 2012.

In January 2011, we issued 60.0 thousand shares of our stock to management. These shares were granted pursuant to performance based stock plans authorized on April 1, 2010, at a grant date fair value of \$11.93 per share. We also issued non-performance based stock awards of 0.6 thousand shares to consultants at \$12.28 per share in January 2011. On April 9, 2012, we issued 3.8 thousand shares of our stock to a previous executive. These shares were granted pursuant to a performance based stock plan authorized on August 13, 2010, at a grant date fair value of \$15.98 per share with performance requirements met on August 15, 2011.

NOTE 11 – LEGAL PROCEEDINGS

We have litigation from time to time, including employment-related claims, none of which we currently believe to be material.

ITEM 2: MANagements DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

The following discussion and analysis should be read in conjunction with our unaudited condensed consolidated financial statements and the accompanying notes thereto included elsewhere in this report.

The following discussion and analysis contains certain financial predictions, forecasts and projections which constitute “forward-looking statements” within the meaning of the federal securities laws. Actual results could differ materially from those financial predictions, forecasts and projections and there can be no assurance that we will achieve such financial predictions, forecasts and projections. Factors that could affect financial predictions, forecasts and projections include the fluctuations in the commodity price index and any conditions internal to our major customers, including loss of their accounts and other factors as listed in our Form 10-K for the year ended December 31, 2011, as filed with the Securities and Exchange Commission.

General

We are primarily focusing our attention now and in the future towards our recycling business. We sell processed ferrous and non-ferrous scrap material to end-users such as steel mini-mills, integrated steel makers, foundries and refineries. We deliver all scrap ourselves or through third parties via truck, rail car, and/or barge. Some customers choose to send their own delivery trucks, which are weighed and loaded at one of our sites based on the sales order. We purchase ferrous and non-ferrous scrap material primarily from industrial and commercial generators of steel, iron, aluminum, copper, stainless steel and other metals as well as from other scrap dealers who deliver these materials directly to our facilities. We process these materials by shredding, sorting, shearing, cutting and/or baling. We will also continue to focus on initiating growth in our waste services business segment, which includes management services and waste and recycling equipment sales, service and leasing.

We continue to pursue a growth strategy in the waste management services arena by adding new locations of existing customers as well as marketing our services to potential customers. Currently, we service approximately 900 customer locations throughout the United States and we utilize an active database of over 7,000 vendors to provide timely, thorough and cost-effective service to our customers. Along with positioning ourselves to efficiently service our customers, our management services division methods of competition include offering our clients competitive pricing, superior customer service and industry expertise.

Although our focus is on the recycling industry, our goal is to remain dedicated to the management services and equipment industries as well, while sustaining steady growth at an acceptable profit, adding to our net worth, and providing positive returns for stockholders. We intend to increase efficiencies and productivity in our core business while remaining alert for possible acquisitions, strategic partnerships, mergers and joint-ventures that would enhance our profitability.

We have operating locations in Louisville, Kentucky, Seymour and New Albany, Indiana. We do not have operating locations outside the United States.

Liquidity and Capital Resources

As of March 31, 2012 we held cash and cash equivalents of \$1.7 million. Included in the \$1.7 million is a cash account on deposit with BB&T which serves as collateral for our swap agreements. As of March 31, 2012, the balance in this account was \$488.0 thousand. Other than this balance, our cash accounts are available to us without restriction. On March 2, 2012, Industrial Services of America, Inc. and ISA Indiana, Inc. (the “Companies”) entered into a Third Amendment to Credit Agreement (the “Third Amendment”) with Fifth Third Bank (the “Bank”) which amended the July 30, 2010 Credit Agreement (the “Credit Agreement”), including the First Amendment to Credit Agreement dated as of April 14, 2011 (the “April Amendment”) and the Second Amendment to Credit Agreement dated as of November 16, 2011 (the “November Amendment”), as follows. The Third Amendment redefines the calculation period for the purpose of measuring compliance with our covenant to maintain a ratio of debt to adjusted EBITDA (the “Senior Leverage Ratio”) and a ratio of adjusted EBITDA to aggregate cash payments of interest expense and scheduled payment of principal of not more than 1.20 to 1 (the “Fixed Charge Coverage Ratio”) such that each ratio will be calculated quarterly for the period beginning January 1, 2012 through the end of each quarter of 2012. Prior to the Third Amendment, the ratios were calculated on a rolling 12 month basis. The Third Amendment also changed the Senior Leverage Ratio from 3.5 to 1 in the original Credit Agreement to (i) 4.25 to 1 in the first quarter of 2012, (ii) 3.50 to 1

in the second and third quarter of 2012, and (iii) 3.25 to 1 in the fourth quarter of 2012 and thereafter. The Third Amendment also increased the unused line fee by 0.25% to 0.75% and provided a waiver of the Senior Leverage Ratio and Fixed Charge Coverage Ratio covenant defaults for the quarter ending December 31, 2011. In addition, the Companies also agreed to perform other customary commitments and pay a fee of \$10.0 thousand to the Bank.

In our Credit Agreement with the Bank, we agreed to certain covenants, including (i) maintenance of a ratio of debt to adjusted EBITDA for the preceding 12 months of not more than 3.5 to 1 (or, if measured as of December 31 of any fiscal year, 4.0 to 1), (ii) maintenance of a ratio of adjusted EBITDA for the preceding twelve months to aggregate cash payments of interest expense

and scheduled payment of principal in the preceding 12 months of not less than 1.20 to 1, and (iii) a limitation on capital expenditures of \$4.0 million in any fiscal year. Pursuant to the Third Amendment, the Senior Leverage Ratio will increase to 4.25 to 1 for the period ending March 31, 2012. The Senior Leverage Ratio will then decrease to 3.5 to 1 for the periods ending June 30 and September 30, 2012 and decrease to 3.25 to 1 for the period ending December 31, 2012 and thereafter. The Senior Leverage Ratio will, in each quarter, be calculated using a measurement period beginning January 1, 2012 and ending at the end of the quarterly measurement period. The other covenants will remain the same going forward. As of March 31, 2012, we were in compliance with all debt covenants. As of March 31, 2012, our ratio of debt to adjusted EBITDA was 3.52; our ratio of adjusted EBITDA to aggregate cash payments of interest expense and scheduled principal payments was 1.8, and our capital expenditures totaled \$164.4 thousand. As of March 31, 2012, we have \$20.4 million available to us under our existing credit facilities.

We have long term debt comprised of the following:

	March 31, 2012 (Unaudited) (in thousands)	December 31, 2011
Revolving line of credit	19,625	20,083
Notes payable	7,955	8,426
	\$27,580	\$28,509

We expect that existing cash flow from operations and available credit under our existing credit facilities will be sufficient to meet our cash needs for the next year and beyond, assuming compliance with the covenants in our Credit Agreement or continued waivers thereof. As of March 31, 2012, we do not have any material commitments for capital expenditures.

Results of Operations

The following table presents, for the years indicated, the percentage relationship that certain captioned items in our Consolidated Statements of Operations bear to total revenues:

Statements of Operations Data:	Three months ended			
	March 31, 2012	2011		
Total Revenue	100.0	% 100.0		%
Cost of goods sold	94.0	% 92.3		%
Selling, general and administrative expenses	5.2	% 3.7		%
Income before other expenses	0.8	% 4.0		%

Three months ended March 31, 2012 compared to three months ended March 31, 2011

Total revenue decreased \$44.7 million or 42.0% to \$61.7 million in the first quarter of 2012 compared to \$106.4 million in the same period in 2011. Recycling revenue decreased \$44.6 million or 42.7% to \$59.9 million in 2012 compared to \$104.5 million in 2011. This is primarily due to a decrease of 30.4 million pounds, or 54.8%, in the volume of stainless steel materials shipments due to a decrease in worldwide stainless steel demand beginning in the second quarter of 2011. Substantially all of our stainless steel sales are to one customer. In response to the overall decrease in demand for stainless steel, this customer decreased our sales orders received in both the second and third quarters of 2011. As demand began to recover, this customer increased sales orders in the fourth quarter of 2011 and again in the first quarter of 2012, but not to the levels seen in the first quarter of 2011. The volume of ferrous materials shipments also decreased by 14.3 thousand gross tons, or 25.0%, as compared to the same period in 2011. In 2012, sales to existing Recycling dealers decreased by approximately \$42.7 million, or 43.7%, compared to the same period in 2011. New dealer sales in 2012 totaled approximately \$5.0 million, while lost dealer sales totaled \$5.9 million in the first quarter of 2011. In addition to the reduction in volume, total revenue was also affected by the decrease in overall average price for all commodities shipped by \$209.00 per gross ton, or 19.6%. Specifically, average nickel prices on the London Metal Exchange decreased \$3.31 per pound, or 27.1%, in the first quarter of 2012 as compared to the first quarter of 2011. Nickel is a key commodity used in stainless steel blends. These decreases were partially

offset by an increase of 918.3 thousand pounds, or 11.8%, in the volume of nonferrous materials shipments.

Waste Services revenue decreased \$154.0 thousand or 7.9% to \$1,795.0 thousand in 2012 compared to \$1,949.0 thousand in 2011 primarily due to lower cardboard prices in January and February of 2012 as compared to the same period in 2011, which lowered cardboard recycling revenue by \$92.8 thousand. In general, the timing of services provided or equipment installed will cause fluctuations in this revenue between periods.

Total cost of goods sold decreased \$40.2 million or 40.9% to \$58.0 million in the first quarter of 2012 compared to \$98.2 million for the same period in 2011. Recycling cost of goods sold decreased \$40.1 million or 41.5% to \$56.6 million in 2012 compared to \$96.7 million for the same period in 2011. This decrease is primarily due to the decrease in the volume of stainless steel and ferrous materials shipments along with a decrease in the volume of stainless steel materials purchases of 19.0 million pounds, or 36.7%, and a decrease in the volume of ferrous materials purchases of 14.6 thousand gross tons, or 21.3%. Overall average price for all commodities purchased decreased \$156.76, or 16.1%. Direct labor costs also decreased by \$345.3 thousand, and repair and maintenance expenses decreased by \$155.9 thousand. These decreases are partially offset by the increase in the volume of nonferrous materials shipments as noted above and an increase in the volume of nonferrous materials purchases of 3.8 million pounds, or 48.0%. Processing costs increased \$89.4 thousand in 2012 as compared to 2011.

Waste Services cost of goods sold decreased \$134.0 thousand or 9.0% to \$1,356.0 thousand in 2012 compared to \$1,490.0 thousand in 2011 primarily due to the timing of third party haulers' services provided and their invoices received along with the decrease in cardboard prices mentioned above.

Selling, general and administrative expenses decreased \$0.7 million or 17.9% to \$3.2 million in the first quarter of 2012 compared to \$3.9 million in the same period in 2011. As a percentage of revenue, selling, general and administrative expenses were 5.2% in 2012 compared to 3.7% in 2011. The primary driver of the decrease in total expenses was a decrease in bonus expense of \$513.4 thousand.

Additional decreases include the following:

- ▲ decrease in management fees, directors' fees, and consulting fees of \$152.8 thousand;
- ▲ decrease in property taxes, license taxes and fees of \$84.6 thousand;
- ▲ decrease in legal expenses of \$69.6 thousand;
- ▲ decrease in fuel, lubricant, and hauling expenses of \$69.4 thousand;
- ▲ decrease in repair and maintenance expenses of \$62.5 thousand; and
- ▲ decrease in operating supplies expenses of \$59.4 thousand.

These decreases were partially offset by an increase in labor expenses of \$277.3 thousand, of which \$211.3 thousand relates to a provision for termination and severance expenses in the first quarter of 2012.

Other expense decreased \$367.9 thousand to other expense of \$462.6 thousand in the first quarter of 2012 compared to other expense of \$830.5 thousand in the same period in 2011. This was primarily due to a decrease in interest expense of \$401.7 thousand due to lower debt levels in 2012, partially offset by a decrease in the gain on sale of assets of \$30.6 thousand.

The income tax provision decreased \$1.3 million to \$5.7 thousand in the first quarter of 2012 compared to \$1.3 million in the same period in 2011 due to the decreased net income reported in 2012. The effective tax rates in 2012 and 2011 were 40.7% and 37.0%, respectively, based on federal and state statutory rates. Beginning in the first quarter of 2011, we were able to take advantage of the Domestic Production Activities Deduction available to US-based manufacturing companies.

Financial condition at March 31, 2012 compared to December 31, 2011

Cash and cash equivalents decreased \$520.4 thousand to \$1,746.7 thousand as of March 31, 2012 compared to \$2,267.1 thousand as of December 31, 2011.

Net cash from operating activities was \$542.3 thousand for the three month period ended March 31, 2012. The net cash from operating activities is primarily due to an increase in accounts payable of \$4,699.6 thousand and a decrease in income tax receivable of \$1,521.0 thousand, partially offset by increases in inventories of \$5,831.8 thousand and accounts receivable of \$302.7 thousand and a decrease of \$515.3 thousand in deferred income taxes. The increases in inventory, accounts receivable and accounts payable relate to the increase in demand for stainless steel and other nickel-based scrap metal since year end, which increased overall sales and purchasing activity in the first quarter. Accounts receivable and payable balances are also affected by the timing of shipments, receipts, and payments

throughout the quarter.

We used net cash from investing activities of \$133.3 thousand for the three month period ended March 31, 2012. In the first quarter of 2012, we used \$18.2 thousand for building improvements. We purchased recycling and rental fleet equipment and office equipment of \$146.2 thousand. The rental fleet equipment consists of solid waste handling and recycling equipment such as compactors, waste edge monitors, and balers. It is our intention to continue to pursue this market. We received \$20.0 thousand from sales of our rental fleet compactors.

Net cash used in financing activities was \$929.4 thousand for the three month period ended March 31, 2012. In the first quarter of 2012, we made payments on debt obligations of \$1,799.4 thousand, and received \$870.0 thousand in proceeds from debt.

Accounts receivable trade increased \$0.3 million or 1.7% to \$17.5 million as of March 31, 2012 compared to \$17.2 million as of December 31, 2011. The volume of stainless steel materials shipments increased 5.7 million pounds, or 29.7%, and the volume nonferrous materials shipments increased 505.2 thousand pounds, or 6.1%, in the first quarter of 2012 as compared to the fourth quarter of 2011. The volume of ferrous materials shipments decreased by 112.0 gross tons, or 0.3% in this same period. In general, the accounts receivable balance fluctuates due to the timing of shipments and receipt of customer payments.

Inventories consist principally of stainless steel, ferrous and nonferrous scrap materials and waste equipment machinery held for resale. We value inventory at the lower of cost or market. Inventory increased \$5.9 million or 31.9% to \$24.4 million as of March 31, 2012 compared to \$18.5 million as of December 31, 2011. The increase in shipments in the first quarter of 2012 required an increase in purchasing activity to supply the sales demand. The volume of stainless steel materials, ferrous materials, and nonferrous materials purchases increased by 16.9 million pounds, or 107.4%, 8.6 thousand gross tons, or 18.9%, and 439.2 thousand pounds, or 3.9%, respectively, in the first quarter of 2012 as compared to the fourth quarter of 2011. Increased demand also put pressure on metal prices as well causing the overall average price of all commodities purchased to increase by \$107.39, or 15.2%, during this time period.

Inventory aging for the period ended March 31, 2012 (Days Outstanding):

Description	(in thousands)				Total
	1 - 30	31 - 60	61 - 90	Over 90

Total	\$18,544	\$1,800	\$446	\$3,586	\$24,376

Inventory aging for the period ended December 31, 2011 (Days Outstanding):

Description	(in thousands)				Total
	1 - 30	31 - 60	61 - 90	Over 90	
Stainless steel, ferrous and non-ferrous materials	\$11,160	\$1,475	\$424	\$3,760	\$16,819
Replacement parts	1,623	—	—	—	1,623
Waste equipment machinery	—	—	—	39	39
Other	63	—	—	—	63
Total	\$12,846	\$1,475	\$424	\$3,799	\$18,544

Inventory in the "Over 90 days" category as of March 31, 2012 and December 31, 2011 includes several materials that were bought in bulk that had intrinsic values for stainless steel blends. We purchased these materials in anticipation of continued high demand for stainless steel shipments as well as other specialty metal shipments. These materials are low value items that can only be used in limited quantities. If demand increases, these items will be slowly worked out of the system. Inventory controls have been put into place to assure proper turnover ratios.

Accounts payable trade increased \$4.7 million or 43.9% to \$15.4 million as of March 31, 2012 compared to \$10.7 million as of December 31, 2011, primarily due to increased purchasing activity in the first quarter of 2012 as compared to the fourth quarter of 2011, noted above, and the timing of payments made to our vendors.

Working capital decreased \$0.6 million to \$28.8 million as of March 31, 2012 compared to \$29.4 million as of December 31, 2011. The decrease was primarily driven by the \$4.7 million increase in accounts payable, along with a \$1.5 million decrease in income tax receivable and a \$0.5 million decrease in cash. These decreases were partially offset by the \$5.8 million increase in inventories and the \$0.3 million increase in accounts receivable.

Contractual Obligations

The following table provides information with respect to our known contractual obligations for the quarter ended March 31, 2012.

Obligation Description ⁽²⁾	Payments due by period (in thousands)				
	Total	Less than 1 year	1 - 3 years	3 - 5 years	More than 5 years
Long-term debt obligations	\$27,580	\$1,769	\$25,798	\$13	\$—
Operating lease obligations ⁽¹⁾	940	568	252	120	—
Total	\$28,520	\$2,337	\$26,050	\$133	\$—

We lease the Louisville, Kentucky facility from K&R, LLC, the sole member of which is Harry Kletter, our chief executive officer, under an operating lease expiring December 2012. We have monthly rental payments of \$48.5 thousand through December 2012. In the event of a change of control, the monthly payments become \$62.5 thousand.

We also lease equipment from K&R, LLC for which monthly payments of \$5.5 thousand are due through October 2015 and monthly payments of \$5.0 thousand are due through April 2016.

We subleased the Lexington property to an unaffiliated third party for a term commencing on March 1, 2007 and ending January 31, 2012 for \$4.5 thousand per month. We leased this property from an unrelated party for \$4.5 thousand per month. The lease terminated February 10, 2012.

We also lease office space in Dallas, Texas for which monthly payments of \$1.0 thousand are due through September 2012.

⁽²⁾ All interest commitments under interest-bearing debt are included in this table, excluding the interest rate swaps, for which changes in value are accounted for in other comprehensive income.

Long-term debt, including the current portions thereof, decreased \$0.9 million to \$27.6 million as of March 31, 2012 compared to \$28.5 million as of December 31, 2011.

Impact of Recently Issued Accounting Standards

In September 2011, the Financial Accounting Standards Board ("FASB") issued ASU 2011-08, an amendment to Topic 350, Intangibles—Goodwill and Other, which simplifies how entities test goodwill for impairment. Previous guidance under Topic 350 required an entity to test goodwill for impairment using a two-step process on at least an annual basis. First, the fair value of a reporting unit was calculated and compared to its carrying amount, including goodwill. Second, if the fair value of a reporting unit was less than its carrying amount, the amount of impairment loss, if any, was required to be measured. Under the amendments in this update, an entity has the option to first assess qualitative factors to determine whether the existence of events or circumstances leads the entity to determine that it is more likely than not that its fair value is less than its carrying amount. If after assessing the totality of events or circumstances, an entity determines that it is not more likely than not that the fair value of the reporting unit is less than its carrying amount, then the two-step impairment test is unnecessary. If the entity concludes otherwise, then it is required to test goodwill for impairment under the two-step process as described under paragraphs 350-20-35-4 and 350-20-35-9 under Topic 350. The amendments are effective for annual and interim goodwill impairment tests performed for fiscal years beginning after December 15, 2011, the quarter ending March 31, 2012 for us, and early adoption was permitted. The adoption of ASU 2011-08 did not have a material impact on our Condensed

Consolidated Financial Statements.

In June 2011, the FASB issued ASU 2011-05, which is an update to Topic 220, "Comprehensive Income." This update eliminates the option of presenting the components of other comprehensive income as part of the statement of changes in stockholders' equity, requires consecutive presentation of the statement of net income and other comprehensive income and requires reclassification adjustments from other comprehensive income to net income to be shown on the financial statements. ASU 2011-05 is effective for all interim and annual reporting periods beginning after December 15, 2011, the quarter ending March 31, 2012 for us. However, in December 2011, the FASB issued ASU 2011-12, which has deferred the specific requirement within ASU 2011-05 to present

on the face of the financial statements items that are reclassified from accumulated other comprehensive income to net income separately with their respective components of net income and other comprehensive income. Entities should continue to report reclassifications out of accumulated comprehensive income consistent with the presentation requirements in effect before ASU 2011-05. As ASU 2011-05 relates only to the presentation of Comprehensive Income, the adoption of such did not have a material impact on our Condensed Consolidated Financial Statements. In May 2011, the FASB issued ASU 2011-04, which is an update to Topic 820, "Fair Value Measurement: Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and International Financial Reporting Standards ("IFRS"). The amendments in this ASU generally represent clarification of Topic 820, but also include instances where a particular principle or requirement for measuring fair value or disclosing information about fair value measurements has changed. This update results in common principles and requirements for measuring fair value and for disclosing information about fair value measurements in accordance with GAAP and IFRS. The amendments are effective for interim and annual periods beginning after December 15, 2011, the quarter ending March 31, 2012 for us, and are to be applied prospectively. Early application was not permitted. The adoption of ASU 2011-04 did not have a material impact on our Condensed Consolidated Financial Statements.

ITEM 3: QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

Fluctuating commodity prices affect market risk in our recycling segment. We mitigate this risk by selling our product on a monthly contract basis. Each month we negotiate selling prices for all commodities. Based on these monthly agreements, we determine purchase prices based on a margin needed to cover processing and administrative expenses. We are exposed to commodity price risk, mainly associated with variations in the market price for ferrous and nonferrous metal, and other commodities. The timing and magnitude of industry cycles are difficult to predict and are impacted by general economic conditions. We respond to changes in recycled metal selling prices by adjusting purchase prices on a timely basis and by turning rather than holding inventory in expectation of higher prices. However, financial results may be negatively impacted where selling prices fall more quickly than purchase price adjustments can be made or when levels of inventory have an anticipated net realizable value that is below average cost.

We are exposed to interest rate risk on our floating rate borrowings.

Based on our average anticipated borrowings under our credit agreements in fiscal 2012, a hypothetical increase or decrease in the LIBOR rate by 1% would increase or decrease interest expense on our variable borrowings by 1% of the outstanding balance, with a corresponding change in cash flows.

We entered into three interest rate swap agreements with BB&T swapping variable rates for fixed rates in a previous year. The first swap agreement covers \$4.6 million in debt, commenced April 7, 2009, and matures on April 7, 2014. The second swap agreement covers approximately \$2.0 million in debt, commenced October 15, 2008, and matures on May 7, 2013. The third swap agreement covers approximately \$443.7 thousand in debt, commenced October 22, 2008, and matures on October 22, 2013. The three swap agreements fix our interest rate at approximately 5.8%. At March 31, 2012, we recorded the estimated fair value of the liability related to the three swaps as approximately \$434.1 thousand. We entered into the swap agreements for the purpose of hedging the interest rate market risk for the respective notional amounts. We maintain a cash account on deposit with BB&T which serves as collateral for the swap agreements. As of March 31, 2012, the balance in this account was \$488.0 thousand.

We are exposed to market risk from changes in interest rates in the normal course of business. Our interest income and expense are most sensitive to changes in the general level of U.S. interest rates and the LIBOR rate. In order to manage this exposure, we use a combination of debt instruments, including the use of derivatives in the form of interest rate swap agreements. We do not enter into any derivatives for trading purposes. The use of the interest rate swap agreement is intended to convert the variable rate to a fixed rate.

ITEM 4: CONTROLS AND PROCEDURES

(a) Disclosure controls and procedures.

ISA's management, including ISA's principal executive officer and principal financial officer, have evaluated the effectiveness of our "disclosure controls and procedures," as such term is defined in Rule 13a-15(e) promulgated under the Securities Exchange Act of 1934. Based upon their evaluation, our principal executive officer and principal

financial officer concluded that, as of March 31, 2012, ISA's disclosure controls and procedures were effective for the purpose of ensuring that the information required to be disclosed in the reports that ISA files under the Exchange Act with the Securities and Exchange Commission (1) is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and (2) is accumulated and communicated to ISA's management, including our principal executive and principal financial officers, as appropriate to allow timely decisions regarding the required disclosure.

(b) Changes to internal control over financial reporting

There were no changes in ISA's internal control over financial reporting during the three months ended March 31, 2012 that have materially affected, or are reasonably likely to materially affect ISA's internal control over financial reporting.

PART II – OTHER INFORMATION

Item 1. Legal Proceedings.

We have litigation from time to time, including employment-related claims, none of which we currently believe to be material.

Item 1A. Risk Factors.

We have had no material changes from the risk factors reported in our Form 10-K for the year ended December 31, 2011, as filed with the Securities and Exchange Commission on March 7, 2012.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

On January 3, 2011, we issued 45.0 thousand shares of our common stock to Brian Donaghy, our President and COO. These shares were granted pursuant to a performance based stock plan authorized on April 1, 2010, at a grant date fair value of \$11.93 per share with performance requirements met on December 31, 2010. The issuance of shares to Mr. Donaghy was a private offering exempt from registration under Section 4(2) of the Securities Act of 1933, as amended.

On January 3, 2011, we issued 15.0 thousand shares of our common stock to Terry Hancock, our former General Manager. These shares were granted pursuant to a performance based stock plan authorized on April 1, 2010, at a grant date fair value of \$11.93 per share with performance requirements met on December 31, 2010. The issuance of shares to Mr. Hancock was a private offering exempt from registration under Section 4(2) of the Securities Act of 1933, as amended.

On January 3, 2011, we issued 300 shares of our common stock to Liam Randall, our IT consultant, at a grant date fair value of \$12.98 per share. These shares were non-performance based awards. The issuance of shares to Mr. Randall was a private offering exempt from registration under Section 4(2) of the Securities Act of 1933, as amended.

On January 3, 2011, we issued 300 shares of our common stock to Karin Jackson, our accounting consultant, at a grant date fair value of \$12.98 per share. These shares were non-performance based awards. The issuance of shares to Ms. Jackson was a private offering exempt from registration under Section 4(2) of the Securities Act of 1933, as amended.

On April 9, 2012, we issued 3.8 thousand shares of our common stock to Daniel Gascoyne, our former Executive Vice-President of Recycling. These shares were granted pursuant to a performance based stock plan authorized on August 13, 2010, at a grant date fair value of \$15.98 per share with performance requirements met on August 15, 2011. The issuance of shares to Mr. Gascoyne was a private offering exempt from registration under Section 4(2) of the Securities Act of 1933, as amended.

Beginning November 17, 2005, our Board of Directors authorized a program to repurchase up to 300,000 shares of our common stock at current market prices. This program has no termination date. No shares were repurchased in 2012, 2011, 2010 or 2009. In 2008, we repurchased 83,411 shares. Prior to 2008, we repurchased 83,264 shares.

Issuer Purchases of Equity Securities

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as part of Publicly Announced Plans or Programs	Maximum Number of Shares that may yet be Purchased Under the Plans or Programs
Mar-08	29,630	\$5.5215	112,893	187,107
Jun-08	14,781	\$7.6113	127,674	172,326
Sept-08	39,000	\$6.5268	166,674	133,326

Item 3. Defaults upon Senior Securities.

None.

23

Item 4. Mine Safety Disclosures.

Not applicable.

Item 5. Other Information.

None.

Item 6. Exhibits.
