PART I

ITEM 1 - BUSINESS

GENERAL

The Great Atlantic & Pacific Tea Company, Inc. ("A&P", "we", "our", "us" or "our Company") is engaged in the retail food business. We operated 405 stores averaging approximately 40,700 square feet per store as of February 25, 2006.

Operating under the trade names A&P(R), Super Fresh(R), Sav-A-Center(R), Farmer Jack(R), Waldbaum's(TM), Super Foodmart, Food Basics(R), and The Food Emporium(R), we sell groceries, meats, fresh produce and other items commonly offered in supermarkets. In addition, many stores have bakery,

Edgar Filing: GREAT ATLANTIC & PACIFIC TEA CO INC - Form 10-K

delicatessen, pharmacy, floral, fresh fish and cheese departments and on-site banking. National, regional and local brands are sold as well as private label merchandise. In support of our retail operations, we sell other private label products in our stores under other brand names of our Company which include without limitation, America's Choice(R), Master Choice(R), Health Pride(R), and Savings Plus.

Building upon a broad base of A&P supermarkets, our Company has historically expanded and diversified within the retail food business through the acquisition of other supermarket chains and the development of several alternative store types. We now operate our stores with merchandise, pricing and identities tailored to appeal to different segments of the market, including buyers seeking gourmet and ethnic foods, a wide variety of premium quality private label goods and health and beauty aids along with the array of traditional grocery products.

The Company's Securities and Exchange Commission ("SEC") filings are promptly posted to its website at www.aptea.com after they are filed with the SEC and can be accessed free of charge through a link on the "Investors" page.

MODERNIZATION OF FACILITIES

During fiscal 2005, we expended approximately \$191 million for capital projects, which included 3 new supermarkets and 41 major remodels or enlargements. Our Company has planned capital expenditures of approximately \$175 to \$200 million in fiscal 2006. These expenditures relate primarily to opening 2 to 5 new supermarkets, converting 5 to 10 stores to new formats, and enlarging or remodeling 40 - 60 supermarkets. In addition, we plan to continue with at least similar levels of capital expenditures in fiscal 2007 and several years thereafter.

SOURCES OF SUPPLY

Our Company currently acquires a significant amount of our saleable inventory from one supplier, C&S Wholesale Grocers, Inc. Although there are a limited number of distributors that can supply our stores, we believe that other suppliers could provide similar product on comparable terms.

2

EMPLOYEES

As of February 25, 2006, we had approximately 38,000 employees, of which 66% were employed on a part-time basis. Approximately 87% of our employees are covered by union contracts.

COMPETITION

The supermarket business is highly competitive throughout the marketing areas served by our Company and is generally characterized by low profit margins on sales with earnings primarily dependent upon rapid inventory turnover, effective cost controls and the ability to achieve high sales volume. We compete for sales and store locations with a number of national and regional chains, as well as with many independent and cooperative stores and markets.

ITEM 1A - RISK FACTORS

Set forth below is a summary of the material risks to an investment in our securities.

- o Actions of competitors could adversely affect our sales and future profits. The grocery retailing industry continues to experience fierce competition from other food retailers, super-centers, mass merchandisers, warehouse clubs, drug stores, dollar stores and restaurants. Our continued success is dependent upon our ability to effectively compete in this industry and to reduce operating expenses, including managing health care and pension costs contained in our collective bargaining agreements. The competitive practices and pricing in the food industry generally and particularly in our principal markets may cause us to reduce our prices in order to gain or maintain share of sales, thus reducing margins.
 - o Changes in the general business and economic conditions in our operating regions, including the rate of inflation, population growth, the rising prices of oil and gas, the nature and extent of continued consolidation in the food industry and employment and job growth in the markets in which we operate, may affect our ability to hire and train qualified employees to operate our stores. This would negatively affect earnings and sales growth. General economic changes may also affect the shopping habits and buying patterns of our customers, which could affect sales and earnings. We have assumed economic and competitive situations will not worsen in fiscal 2006 and 2007. However, we cannot fully foresee the effects of changes in economic conditions, inflation, population growth, the rising prices of oil and gas, customer shopping habits and the consolidation of the food industry on our business.
- 3
- o Our capital expenditures could differ from our estimate if we are unsuccessful in acquiring suitable sites for new stores, or if development and remodel costs vary from those budgeted.
 - o Our ability to achieve our profit goals will be affected by (i.) our success in executing category management and purchasing programs that we have underway, which are designed to improve our gross margins and reduce product costs while making our product selection more attractive to consumers, (ii.) our ability to achieve productivity improvements and shrink reduction in our stores, (iii.) our success in generating efficiencies in our supporting activities, and (iv.) our ability to eliminate or maintain a minimum level of supply and/or quality control problems with our vendors.

Edgar Filing: GREAT ATLANTIC & PACIFIC TEA CO INC - Form 10-K

- o The vast majority of our employees are members of labor unions. While we believe that our relationships with union leaderships and our employees are satisfactory, we operate under collective bargaining agreements which periodically must be renegotiated. In the coming year, we have several contracts expiring and under negotiation. In each of these negotiations rising health care and pension costs will be an important issue, as will the nature and structure of work rules. We are hopeful, but cannot be certain, that we can reach satisfactory agreements without work stoppages in these markets. However, the actual terms of the renegotiated collective bargaining agreements, our future relationships with our employees and/or a prolonged work stoppage affecting a substantial number of stores could have a material effect on our results.
- o The amount of contributions made to our pension and multi-employer plans will be affected by the performance of investments made by the plans and the extent to which trustees of the plans reduce the costs of future service benefits.
- o Our Company currently acquires a significant amount of our saleable inventory from one supplier, C&S Wholesale Grocers, Inc. Although there are a limited number of distributors that can supply our stores, we believe that other suppliers could provide similar product on comparable terms. However, a change in suppliers could cause a delay in distribution and a possible loss of sales, which would affect operating results adversely.
- o We have estimated our exposure to claims, administrative proceedings and litigation and believe we have made adequate provisions for them, where appropriate. Unexpected outcomes in both the costs and effects of these matters could result in an adverse effect on our earnings.

Other factors and assumptions not identified above could also cause actual results to differ materially from those set forth in the forward-looking information. Accordingly, actual events and results may vary significantly from those included in or contemplated or implied by forward-looking statements made by us or our representatives.

ITEM 9 - CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

There were no changes in or disagreements with accountants on accounting and financial disclosure during the fiscal year ended February 25, 2006.

ITEM 9A - CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

We have established and maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our

Edgar Filing: GREAT ATLANTIC & PACIFIC TEA CO INC - Form 10-K

Company's Exchange Act reports is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our Company's management, including our President and Chief Executive Officer and Senior Vice President, Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

We carried out an evaluation, under the supervision and with the participation of our Company's management, including our Company's President and Chief Executive Officer along with our Company's Senior Vice President, Chief Financial Officer, of the effectiveness of the design and operation of our Company's disclosure controls and procedures pursuant to Exchange Act Rule 13a-15(b). Based upon the foregoing, as of February 25, 2006, our Company's President and Chief Executive Officer along with our Company's Senior Vice President, Chief Financial Officer, concluded that our Company's disclosure controls and procedures were effective as of February 25, 2006.

The Company's management does not expect that its disclosure controls and procedures or its internal control over financial reporting will prevent all errors and all fraud. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty, and breakdowns can occur because of simple errors or mistakes. Additionally, controls can be circumvented by the individual acts of some person or by collusion of two or more people. The design of any system of controls also is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions; over time, controls may become inadequate because of changes in conditions, or the degree of compliance with the policies or procedures may deteriorate. Because of the inherent limitations in a cost-effective control system, misstatements due to error or fraud may occur and not be detected. Accordingly, the Company's disclosure controls and procedures are designed to provide reasonable, not absolute, assurance that the objectives of our disclosure control system are met and, as set forth above, the Company's management has concluded, based on their evaluation as of the end of the period, that our disclosure controls and procedures were sufficiently effective to provide reasonable assurance that the objectives of our disclosure control system were met.

Edgar Filing: GREAT ATLANTIC & PACIFIC TEA CO INC - Form 10-K

In the fourth quarter of fiscal 2005, our Company completed the sale of our U.S. distribution operations and the majority of our warehouse facilities and related assets to C&S Wholesale Grocers, Inc. In connection with the sale of these operations, our Company no longer maintains internal controls over financial reporting relating to these warehouse physical inventories and related reconciliations.
