#### RAYONIER INC. AND SUBSIDIARIES NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited) (Dollar amounts in thousands unless otherwise stated)

#### **1.BASIS OF PRESENTATION**

#### **Basis of Presentation**

The unaudited condensed consolidated financial statements and notes thereto of Rayonier Inc. and its subsidiaries ("Rayonier" or the "Company") have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and in accordance with the rules and regulations of the Securities and Exchange Commission ("SEC"). In the opinion of management, these financial statements and notes reflect all adjustments (all of which are normal recurring adjustments) necessary for a fair presentation of the results of operations, financial position and cash flows for the periods presented. These statements and notes should be read in conjunction with the financial statements and supplementary data included in the Company's Annual Report on Form 10-K for the year ended December 31, 2011, as filed with the SEC.

Subsequent Events

The Company evaluated events and transactions that occurred after the balance sheet date but before financial statements were issued, and one subsequent event was identified that warranted recognition or disclosure. On July 20, 2012, the Board of Directors approved an increase in the quarterly dividend per share from \$0.40 per share to \$0.44 per share effective for the third quarter 2012 distribution.

#### 2. EARNINGS PER COMMON SHARE

The impact of the August 24, 2011 three-for-two stock split is reflected for all periods presented in the following table which provides details of the calculations of basic and diluted earnings per common share:

(a) Upon maturity of the Senior Exchangeable Notes (the "Notes"), Rayonier will not issue additional shares for the full difference between the strike price and the market price due to the offsetting exchangeable note hedges (the "hedges"). However, Accounting Standards Codification 260, Earnings Per Share requires the assumed conversion of the Notes to be included in dilutive shares if the average stock price for the period exceeds the strike prices, while the assumed conversion of the hedges are excluded since they are anti-dilutive. Rayonier will distribute additional shares upon maturity of the warrants if the stock price exceeds the strike prices of \$41.59 for the Notes due 2012 and \$39.67 for the Notes due 2015. For additional information on the potential dilutive impact of the Senior Exchangeable Notes, warrants and exchangeable note hedges, see Note 11 — Debt in the 2011 Annual Report on Form 10-K and Note 13 — Debt of this Form 10-Q.

(b) The higher shares used for determining earnings per common share were primarily due to an increase in the average stock

price from \$42.77 for the three months ended June 30, 2011 to \$43.74 for the three months ended June 30, 2012 and from \$41.25 for the six months ended June 30, 2011 to \$44.40 for the six months ended June 30, 2012.

## **3.INCOME TAXES**

Rayonier is a real estate investment trust ("REIT"). In general, only the taxable REIT subsidiaries, whose businesses include the Company's non-REIT qualified activities, are subject to corporate income taxes. However, the Company is subject to U.S. federal corporate income tax on built-in gains (the excess of fair market value over tax basis for property held upon REIT election at January 1, 2004) on taxable sales of such property during calendar years 2004 through 2010 and 2012 through 2013. In 2011, the law provided a built-in-gains tax holiday. Accordingly, the provision for corporate income taxes relates principally to current and deferred taxes on taxable REIT subsidiaries' income and certain property sales.

The Company's effective tax rate is below the 35 percent U.S. statutory tax rate primarily due to tax benefits associated with being a REIT. Effective tax rates for the quarter and year-to-date were 16.4 percent and 20.8 percent compared to 15.4 percent and 18.7 percent in 2011, respectively. The higher tax rate in 2012 was due to proportionately higher expected earnings from our taxable REIT subsidiaries, which was partially offset by the tax credit exchange discussed below.

The U.S. Internal Revenue Code allowed two credits for taxpayers that produced and used an alternative fuel in the operation of their business through December 31, 2009. The alternative fuel mixture credit ("AFMC") was a \$.50 per gallon refundable, non-taxable excise tax credit, while the cellulosic biofuel producer credit ("CBPC") was a \$1.01 per gallon credit that is nonrefundable, taxable and has limitations based on an entity's tax liability. Rayonier produces and uses an alternative fuel ("black liquor") at its Jesup, Georgia and Fernandina Beach, Florida Performance Fibers mills, which qualified for both credits. The Company claimed the AFMC on its 2009 tax return.

In the second quarters of 2012 and 2011, management approved the exchange of approximately 60 million gallons and 30 million gallons, respectively, of black liquor previously claimed for the AFMC for the CBPC. In order to complete the exchange, Rayonier is required to pay the IRS interest related to funds received for the AFMC in 2010. The net impact of the exchanges was \$5.7 million and \$4.1 million for the three months ended June 30, 2012 and 2011, respectively. The 2012 net benefit is recorded separately as a tax benefit of \$9.1 million and interest expense of \$3.4 million. There was minimal interest expense in 2011 related to the exchange. For additional information on the AFMC and CBPC, see Note 8 — Income Taxes in the Company's Annual Report on Form 10-K for the year ended December 31, 2011.

### **4. RESTRICTED DEPOSITS**

In order to qualify for like-kind exchange ("LKE") treatment, the proceeds from real estate sales must be deposited with a third-party intermediary. These proceeds are accounted for as restricted cash until a suitable replacement property is acquired. In the event that the LKE purchases are not completed, the proceeds are returned to the Company after 180 days and reclassified as available cash. As of June 30, 2012 and December 31, 2011, the Company had \$14.4 million and \$0 million, respectively, of proceeds from real estate sales classified as restricted cash in Other Assets, which were deposited with an LKE intermediary.

### 5. JOINT VENTURE INVESTMENT

The Company holds a 26 percent interest in Matariki Forestry Group ("Matariki"), a joint venture ("JV") that owns or leases approximately 0.3 million acres of New Zealand timberlands. In addition to the investment, Rayonier New Zealand Limited ("RNZ"), a wholly-owned subsidiary of Rayonier Inc., serves as the manager of the JV forests and operates a log trading business.

Rayonier's investment in the JV is accounted for using the equity method of accounting. Income from the JV is reported in the Forest Resources segment as operating income since the Company manages the forests, and its JV interest is an extension of the Company's operations. A portion of Rayonier's equity method investment is recorded at historical cost which generates a difference between the book value of the Company's investment and its proportionate share of the JV's net assets. The difference represents the Company's unrecognized gain from RNZ's sale of timberlands to the JV in 2005. The deferred gain is recognized on a straight-line basis over the estimated number of years the JV expects to harvest the timberlands.

#### 7. SEGMENT AND GEOGRAPHICAL INFORMATION

Rayonier operates in four reportable business segments: Forest Resources, Real Estate, Performance Fibers and Wood Products. Forest Resources sales include all activities that relate to the harvesting of timber. Real Estate sales include all property sales, including those designated for higher and better use ("HBU"). The assets of the Real Estate segment include HBU property held by the Company's real estate subsidiary, TerraPointe LLC. The Performance Fibers segment includes two major product lines, cellulose specialties and absorbent materials. The Wood Products segment is comprised of lumber operations. The Company's remaining operations include harvesting and selling timber acquired from third parties (log trading). These operations are reported in "Other Operations." Sales between operating segments are made based on estimated fair market value, and intercompany sales, purchases and profits (losses) are eliminated in consolidation. The Company evaluates financial performance based on the operating income

of the segments.

Operating income (loss) as presented in the Condensed Consolidated Statements of Income and Comprehensive Income is equal to segment income (loss). Certain income (loss) items in the Condensed Consolidated Statements of Income and Comprehensive Income are not allocated to segments. These items, which include gains (losses) from certain asset dispositions, interest income (expense), miscellaneous income (expense) and income tax (expense) benefit, are not considered by management to be part of segment operations.

#### 8. FAIR VALUE MEASUREMENTS

Fair Value of Financial Instruments

A three-level hierarchy that prioritizes the inputs used to measure fair value was established in the Accounting Standards Codification as follows:

Level 1 — Quoted prices in active markets for identical assets or liabilities.

Level 2 — Observable inputs other than quoted prices included in Level 1.

Level 3 — Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The following table presents the carrying amount, estimated fair values and categorization under the fair value hierarchy of financial instruments held by the Company at June 30, 2012 and December 31, 2011, using market information and what the Company believes to be appropriate valuation methodologies under generally accepted accounting principles:

|                                      | June 30, 2012      | 2          |             | December 3         | 31, 2011   |           |   |

| Long-term debt                       | (1,018,093)        |            | (1,185,347) | (819,229)          |            | (994,851) | ) |

Long-term debt (1,018,093) — (1,185,347) (819,229) — (994,851)Rayonier uses the following methods and assumptions in estimating the fair value of its financial instruments:

Cash and cash equivalents and Restricted cash — The carrying amount is equal to fair market value.

Debt — The fair value of fixed rate debt is based upon quoted market prices for debt with similar terms and maturities. Variable Interest Entity

Rayonier holds a variable interest in a bankruptcy-remote, limited liability subsidiary ("special-purpose entity") which was created in 2004 when Rayonier monetized a \$25.0 million installment note and letter of credit received in connection with a timberland sale. The Company contributed the note and a letter of credit to the special-purpose entity and using the installment note and letter of credit as collateral, the special-purpose entity issued \$22.6 million of 15-year Senior Secured Notes and remitted cash of \$22.6 million to the Company. There are no restrictions that relate to the transferred financial assets. Rayonier maintains a \$2.6 million interest in the entity and receives immaterial cash payments equal to the excess of interest received on the installment note over the interest paid on the Senior Secured Notes. The Company's interest is recorded at fair value and is included in "Other Assets" in the Condensed Consolidated Balance Sheets. In addition, the Company calculated and recorded a de minimus guarantee liability to reflect its obligation of up to \$2.6 million under a make-whole agreement pursuant to which it guaranteed certain obligations of the entity. This guarantee obligation is also collateralized by the letter of credit. The Company's interest in the entity, together with the make-whole agreement, represents the maximum exposure to loss as a result of the Company's involvement with the special-purpose entity. Upon maturity of the Senior Secured Notes in 2019 and termination of the special-purpose entity, Rayonier will receive the remaining \$2.6 million of cash. The Company determined, based upon an analysis under the variable interest entity guidance, that it does not have the power to direct activities that most significantly impact the entity's economic success. Therefore, Rayonier is not the primary beneficiary and is not required to consolidate the entity.

Assets measured at fair value on a recurring basis are summarized below:

|                                      | June 30, 2012 |         | December 31, 2011 |         |
|--------------------------------------|---------------|---------|-------------------|---------|
| Investment in special-purpose entity | \$2,690       | \$2,690 | \$2,690           | \$2,690 |

The fair value of the investment in the special-purpose entity is determined by summing the discounted value of future principal and interest payments that Rayonier will receive from the special-purpose entity. The interest rate of a similar instrument is used

to determine the discounted value of the payments.

#### 9. GUARANTEES

The Company provides financial guarantees as required by creditors, insurance programs, and state and foreign governmental agencies. As of June 30, 2012, the following financial guarantees were outstanding:

| Financial                     | Maximum Potential | Carrying Amount |
|-------------------------------|-------------------|-----------------|
| Commitments                   | Payment           | of Liability    |
| Standby letters of credit (a) | \$20,046          | \$15,000        |
| Guarantees (b)                | 2,555             | 43              |
| Surety bonds (c)              | 7,159             | 1,389           |
| Total financial commitments   | \$29,760          | \$16,432        |
|                               |                   |                 |

Approximately \$15 million of the standby letters of credit serve as credit support for industrial revenue bonds. The (a) remaining letters of credit support various insurance related agreements, primarily workers' compensation and

pollution liability policy requirements. These letters of credit will expire at various dates during 2012 and 2013 and will be renewed as required.

In conjunction with a timberland sale and note monetization in the first quarter of 2004, the Company issued a

(b) make-whole agreement pursuant to which it guaranteed \$2.6 million of obligations of a special-purpose entity that was established to complete the monetization. At June 30, 2012, the Company has a de minimus liability to reflect the fair market value of its obligation to perform under the make-whole agreement.

Rayonier issues surety bonds primarily to secure timber harvesting obligations in the State of Washington and to provide collateral for the Company's workers' compensation self-insurance program in that state.

(c) These surety bonds expire at various dates between 2012 and 2014 and are expected to be renewed as required.

#### 10. LIABILITIES FOR DISPOSITIONS AND DISCONTINUED OPERATIONS

An analysis of the liabilities for dispositions and discontinued operations follows:

|                                     | June 30, | December 3 | 51, |
|-------------------------------------|----------|------------|-----|
|                                     | 2012     | 2011       |     |
| Balance, beginning of period        | \$90,824 | \$93,160   |     |
| Expenditures charged to liabilities | (4,803   | ) (9,209   | )   |
| Increase to liabilities             | 418      | 6,873      |     |
| Balance, end of period              | 86,439   | 90,824     |     |
| Less: Current portion               | (9,843   | ) (9,931   | )   |
| Non-current portion                 | \$76,596 | \$80,893   |     |
|                                     |          |            |     |

The Company is exposed to the risk of reasonably possible additional losses in excess of the established liabilities. As of June 30, 2012, this amount could range up to \$29 million, allocable over several of the applicable sites, and arises from uncertainty over the availability, feasibility or effectiveness of certain remediation technologies, additional or different contamination that may be discovered, development of new or more effective environmental remediation technologies and the exercise of discretion in interpretation of applicable law and regulations by governmental agencies.

The Company believes established liabilities are sufficient for probable costs expected to be incurred over the next 20 years with respect to its dispositions and discontinued operations. Remedial actions for these sites vary, but include on-site (and in certain cases off-site) removal or treatment of contaminated soils and sediments, recovery and treatment/remediation of groundwater, and source remediation and/or control.

## 11. CONTINGENCIES

Rayonier is engaged in various legal actions, including certain environmental proceedings, and has been named as a defendant in various other lawsuits and claims arising in the normal course of business. While the Company has procured reasonable and customary insurance covering risks normally occurring in connection with its businesses, it has in certain cases retained some risk through the operation of self-insurance, primarily in the areas of workers' compensation, property insurance and general liability. These other lawsuits and claims, either individually or in the aggregate, are not expected to have a material adverse effect on the Company's financial position, results of operations, or cash flow.

#### **12. EMPLOYEE BENEFIT PLANS**

The Company has four qualified non-contributory defined benefit pension plans covering a significant majority of its employees and an unfunded plan that provides benefits in excess of amounts allowable under current tax law in the qualified plans. Currently, all qualified plans are closed to new participants. Employee benefit plan liabilities are calculated using actuarial estimates and management assumptions. These estimates are based on historical information, along with certain assumptions about future events. Changes in assumptions, as well as changes in actual experience, could cause the estimates to change.

The net pension and postretirement benefit costs that have been recognized during the stated periods are shown in the following tables:

In 2012, the Company has no mandatory pension contribution requirements and does not expect to make any discretionary contributions.

#### 13.DEBT

In March 2012, Rayonier issued \$325 million of 3.75% Senior Notes due 2022. Approximately \$150 million of the proceeds from these notes were used to repay borrowings outstanding under the Company's revolving credit facility. The Company had \$430 million of available borrowing capacity under the revolving credit facility at June 30, 2012. The \$300 million Senior Exchangeable Notes, which became exchangeable on July 15, 2012 and will remain so through maturity on October 15, 2012, are included in long-term debt due to the ability and intent of the Company to refinance them on a long-term basis.

As of March 31, 2012, the \$172.5 million 4.50% Senior Exchangeable Notes due 2015 became exchangeable at the option of the holders for the calendar quarter ending June 30, 2012. Per the indenture, in order for the notes to become exchangeable, the Company's stock price must exceed 130 percent of the exchange price for 20 trading days during a

period of 30 consecutive trading days as of the last day of the quarter. During the quarter ending June 30, 2012, the note holders did not elect to exercise the exchange option. Based upon the average stock price for the 30 trading days ending June 30, 2012, these notes are not exchangeable in third quarter 2012.

An asset sales covenant in the Rayonier Forest Resources ("RFR") \$112.5 million installment note agreement requires the

Company, subject to certain exceptions, to either reinvest cumulative timberland sale proceeds for individual sales greater than \$10 million (the "excess proceeds") in timberland-related investments or, once the amount of excess proceeds not reinvested exceeds \$50 million, to offer the note holders prepayment of the notes ratably in the amount of the excess proceeds. During April 2012, the excess proceeds exceeded the \$50 million limit and as a result, repayment of \$59.9 million was offered to the note holders through May 15, 2012, at which time they declined and the excess proceeds were reset to zero.

There were no other significant changes to the Company's outstanding debt as reported in Note 11 — Debt of the Company's 2011 Annual Report on Form 10-K.

#### 15. CONSOLIDATING FINANCIAL STATEMENTS

The consolidating financial information below follows the same accounting policies as described in the consolidated financial statements, except for the use of the equity method of accounting to reflect ownership interests in wholly-owned subsidiaries, which are eliminated upon consolidation, and the allocation of certain expenses of Rayonier Inc. incurred for the benefit of its subsidiaries.

In October 2007, Rayonier TRS Holdings Inc. ("TRS") issued \$300 million of 3.75% Senior Exchangeable Notes due 2012, and in August 2009 TRS issued \$172.5 million of 4.50% Senior Exchangeable Notes due 2015. The notes for both transactions are fully and unconditionally guaranteed by Rayonier Inc. as the Parent Guarantor and Rayonier Operating Company LLC ("ROC") as the Subsidiary Guarantor. In connection with these exchangeable notes, the Company provides the following condensed consolidating financial information in accordance with SEC Regulation S-X Rule 3-10, Financial Statements of Guarantors and Issuers of Guaranteed Securities Registered or Being Registered.
