Item 2.02 Results of Operations and Financial Condition.

Attached and incorporated herein by reference as Exhibit 99.1 is a copy of the press release of Kimberly-Clark Corporation (the "Corporation"), dated October 21, 2014 reporting the Corporation's results of operations for the period ended September 30, 2014.

Item 2.05 Costs Associated with Exit or Disposal Activities.

On October 20, 2014, the Corporation approved a restructuring plan in order to improve organization efficiency and offset the impact of stranded overhead costs resulting from the spin-off of the Corporation's health care business. The restructuring is intended to improve the Corporation's underlying profitability and increase its flexibility to invest in targeted growth initiatives, brand building and other capabilities critical to delivering future growth.

The restructuring is expected to be completed by the end of 2016, with total costs anticipated to be \$130 to \$160 million after tax (\$190 to \$230 million pre-tax), primarily related to workforce reductions. Cash costs are projected to be approximately 80 percent of the total charges. Workforce reductions are expected to be in the range of 1,100 to 1,300 and primarily impact salaried employees. Cumulative pre-tax savings from the restructuring are expected to be \$120 to \$140 million by the end of 2017.

The Corporation expects that \$85 to \$105 million of the after tax charges (\$125 to \$150 million pre-tax) will occur in the fourth quarter of 2014, while savings from the restructuring are not anticipated to be significant until 2015.
