Exhibit 99.1**AMERISERV FINANCIAL REPORTS INCREASED EARNINGS FOR THE FIRST QUARTER OF 2008**

JOHNSTOWN, PA AmeriServ Financial, Inc. (NASDAQ: ASRV) reported first quarter 2008 net income of \$1,229,000 or \$0.06 per diluted share. This represents an increase of \$801,000 over the first quarter 2007 net income of \$428,000 or \$0.02 per diluted share. The following table highlights the Company's financial performance for the quarters ended March 31, 2008 and 2007:

	First Quarter 2008	First Quarter 2007	\$ Change	% Change
Net income	\$1,229,000	\$428,000	\$801,000	187 %
Diluted earnings per share	\$ 0.06	\$ 0.02	\$ 0.04	200 %

Allan R. Dennison, President and Chief Executive Officer, commented on the first quarter 2008 financial results, "Our conservative balance sheet positioning has allowed AmeriServ Financial to report improved financial performance during a period of turmoil within the banking industry and financial markets. Our growth in earnings was driven by increased net interest income, higher non-interest revenue and continued good asset quality. Specifically in regards to asset quality, our total level of non-performing assets amounted to \$3.1 million or only 0.48% of total loans while our allowance for loan losses provided solid 240% coverage of non-performing assets at March 31, 2008."

The Company's net interest income in the first quarter of 2008 increased by \$780,000 or 13.1% from the prior year's first quarter and the net interest margin was up by 35 basis points over the same comparative period. The Company's balance sheet positioning allowed it to benefit from the significant Federal Reserve reductions in short-term interest rates and the return to a more traditionally shaped positively sloped yield curve. This factor, combined with the benefits of solid loan growth experienced over the past 12 months, caused the increased net interest income and margin in the first quarter of 2008. Total loans averaged \$631 million in the first quarter of 2008, an increase of \$38 million or 6.3% over the first quarter of 2007. The loan growth was most evident in the commercial loan portfolio and contributed to the increased interest income. The favorable decline in interest expense was caused by the downward repricing of both deposits and Federal Home Loan Bank borrowings due to the market decline in short-term interest rates. Overall, net interest income has now increased for five consecutive quarters and the Company believes its

balance sheet is well positioned for continuation of a lower interest rate environment in 2008.

The Company recorded a \$150,000 provision for loan losses in the first quarter of 2008 compared to no loan loss provision in the first quarter of 2007. When determining the provision for loan losses, the Company considers a number of factors some of which include periodic credit reviews, delinquency trends, concentrations of credit, loan volume trends and broader local and national economic trends. The Company's net charge-offs in the first quarter of 2008 amounted to \$93,000 or 0.06% of total loans. This amount was comparable with the net charge-offs of \$82,000 or 0.06% of total loans experienced in the first quarter of 2007. Non-performing assets favorably declined by \$2.2 million from December 31, 2007 due to the successful workout during the first quarter of 2008 of the Company's largest non-performing loan with no loss to the bank. Non-performing assets totaled \$3.1 million or 0.48% of total loans at March 31, 2008 compared to \$5.3 million or 0.83% of total loans at December 31, 2007. Overall, the allowance for loan losses provided 240% coverage of non-performing assets and was 1.15% of total loans at March 31, 2008. Note also that the Company has no exposure to sub-prime mortgage loans in either the loan or investment portfolios.

The Company's non-interest income in the first quarter of 2008 increased by \$605,000 or 18.7% from the first quarter of 2007 and was driven by increases in almost all reported non-interest revenue categories. Trust fees increased by \$86,000 or 5.0% due to continued successful new business development efforts. The fair market value of trust assets totaled \$1.8 billion at March 31, 2008. Deposit service charges increased by \$149,000 due to increased overdraft fees and greater service charge revenue that resulted from a realignment of the bank's checking accounts to include more fee based products. Investment advisory fees increased by \$124,000 as West Chester Capital Advisors was included in the Company's results for the entire quarter in 2008 compared to only one month in the 2007 first quarter. The Company also recorded an increase on gains realized on residential mortgage loan sales into the secondary market that amounted to \$64,000 for the first quarter of 2008. This increase reflects improved residential mortgage production from the Company's primary market as this has been an area of emphasis in the Company's strategic plan. Finally, other income increased by \$191,000 due entirely to a gain realized on the mandatory redemption of shares of VISA stock that occurred as a result of VISA's initial public offering.

Total non-interest expense in the first quarter of 2008 increased by \$106,000 or 1.2% from the prior year's first quarter. The inclusion of West Chester Capital Advisors for the entire quarter in 2008 compared to only a partial quarter in 2007 caused non-interest expense to increase by \$164,000. Otherwise, expense decreases were recorded in several line items including salaries and employee benefits and equipment expense as a result of the Company's continuing focus on containing and reducing non-interest expenses. Total full-time equivalent employees at March 31, 2008 were down by 25 employees or 6.7% from the first quarter of 2007.

ASRV had total assets of \$918 million and shareholders' equity of \$91.6 million or a book value of \$4.19 per share at March 31, 2008. The Company's asset leverage ratio remained strong at 9.78%. During the first quarter of 2008, the Company repurchased 354,500 shares of its common stock at an average price of \$3.11 in conjunction with the terms of the Company's stock buyback program that was announced on January 22, 2008.

This news release may contain forward-looking statements that involve risks and uncertainties, as defined in the Private Securities Litigation Reform Act of 1995, including the risks detailed in the Company's Annual Report and Form 10-K to the Securities and Exchange Commission. Actual results may differ materially.
