CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

This annual report, as well as information included in, or incorporated by reference from, future filings by the Company with the Securities and Exchange Commission and information contained in written material, press releases and oral statements issued by or on behalf of the Company contains or may contain "forward-looking statements" within the meaning of the federal securities laws, including statements concerning anticipated future events and expectations that are not historical facts. These forward-looking statements are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. The forward-looking statements in this document reflect management's best judgment at the time they are made, but all such statements are subject to numerous risks and uncertainties, which could cause actual results to differ materially from those expressed in or implied by the statements herein. Such forward-looking statements are often identified herein by use of words including, but not limited to, "may," "believe," "project," "forecast," "expect," "estimate," "anticipate," and "plan." In addition, the following factors could affect the Company's actual results and cause such results to differ materially from those expressed in forward-looking statements. These factors include the continued ability of the Company to execute on our strategy and build on the foundational initiatives that we have implemented; the success of our stylists and our ability to attract, train and retain talented stylists; changes in regulatory and statutory laws; changes in tax rates; the effect of changes to healthcare laws; our ability to manage cyber threats and protect the security of sensitive information about our guests, employees, vendors or Company information; reliance on management information systems; reliance on external vendors; changes in distribution channels of manufacturers; financial performance of our franchisees; internal control over the accounting for leases; competition within the personal hair care industry; changes in interest rates and foreign currency exchange rates; failure to standardize operating processes across brands; the ability of the Company to maintain satisfactory relationships with certain companies and suppliers; the continued ability of the Company to implement cost reduction initiatives; compliance with debt covenants; changes in economic conditions; financial performance of our investment with Empire Education Group; changes in consumer tastes and fashion trends; or other factors not listed above. Additional information concerning potential factors that could affect future financial results is set forth under Item 1A of this Form 10-K. We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. However, your attention is directed to any further disclosures made in our subsequent annual and periodic reports filed or furnished with the SEC on Forms 10-Q and 8-K and Proxy Statements on Schedule 14A.

PART I

Item 1. Business

General:

Regis Corporation owns, franchises and operates beauty salons. The Company is listed on the NYSE under the ticker symbol "RGS." Unless the context otherwise provides, when we refer to the "Company," "we," "our," or "us," we are referring to Regis Corporation, the Registrant, together with its subsidiaries.

As of June 30, 2015, the Company owned, franchised or held ownership interests in 9,556 locations worldwide. The Company's locations consist of 9,349 company-owned and franchised salons and 207 locations in which we maintain a non-controlling ownership interest of less than 100%. Each of the Company's salon concepts generally offer similar salon products and services and serve the mass marketplace.

The major services supplied by the Company's salons are haircutting and styling (including shampooing and conditioning), hair coloring and other services. The percentage of company-owned service revenues in each fiscal year 2015, 2014, and 2013 attributable to haircutting and styling, hair coloring and other services were 72%, 19% and 9%, respectively.

During the second quarter of fiscal year 2014, the Company redefined its operating segments to reflect how the chief operating decision maker evaluates the business as a result of restructuring the Company's North American field organization. The Company now reports its operations in three operating segments: North American Value, North American Premium and International. Prior to this change in organizational structure, the Company had two reportable operating segments: North American salons and International salons.

The Company's North American Value salon operations are comprised of 5,923 company-owned salons and 2,324 franchised salons operating in the United States, Canada, and Puerto Rico. The Company's North American Premium salon operations are comprised of 746 company-owned salons operating in the United States, Canada, and Puerto Rico. The Company's International operations are comprised of 356 company-owned salons in the United Kingdom. The Company's salons operate primarily under the trade names of SmartStyle, Supercuts, MasterCuts, Regis Salons, and Cost Cutters, and they generally serve two categories within the industry, value and premium. SmartStyle, Supercuts, MasterCuts, Cost Cutters, and other regional trade names are generally within the value category, offering high quality, convenience, and affordably priced hair care and beauty services and retail products. Regis Salons, among other trade names, are in the premium category offering upscale hair care and beauty services and retail products. The Company's North American Value business is located mainly in strip center locations and Walmart Supercenters and the North American Premium business is primarily in mall based locations. During fiscal years 2015 and 2014, the number of guest visits at the Company's company-owned salons approximated 76 and 79 million, respectively. Concurrent with the change in reportable operating segments, the Company revised its prior period financial information to conform comparable financial information to the new segment structure. Historical financial information presented herein reflects this change.

Financial information about our segments and geographic areas for fiscal years 2015, 2014, and 2013 are included in Note 14 to the Consolidated Financial Statements in Part II, Item 8, of this Form 10-K.

Since fiscal year 2012, the Company has been evaluating its portfolio of assets, investments, and businesses, with the strategic objective of simplifying our business model, focusing on our core business of operating beauty salons, improving our long-term profitability and maximizing shareholder value. This evaluation led to several sales during fiscal year 2013. In April 2013, the Company sold Hair Club for Men and Women (Hair Club) for \$164.8 million. See Note 2 to the Consolidated Financial Statements. In September 2012, the Company sold its 46.7 percent equity interest in Provalliance for \$103.4 million. See Note 5 to the Consolidated Financial Statements. Future sales of non-core assets could impact our operations by decreasing total revenues, operating expenses, and income or loss from equity method investments.

Industry Overview:

The hair salon market is highly fragmented, with the vast majority of locations independently owned and operated. However, the influence of salon chains, both franchised and company-owned, continues to grow within this market. Management believes salon chains will continue to have significant influence on this market and will continue to

increase their presence.

In every area in which the Company has a salon, there are competitors offering similar hair care services and products at similar prices. The Company faces competition from smaller chains of salons such as Great Clips, Fantastic Sams, and Sport Clips, independently owned salons and department store salons located within malls.

4

Table of Contents

At the individual salon level, barriers to entry are low; however, barriers exist for chains to expand nationally due to the need to establish systems and infrastructure, to recruit experienced field and salon management and stylists, and to lease quality sites. The principal factors of competition in the hair care category are quality, consistency and convenience. The Company continually strives to improve its performance in each of these areas and to create additional points of differentiation versus the competition.

Mission and Strategies:

The Company's long-term mission is to create guests for life. To successfully achieve our mission and build a winning organization, we must be the place where stylists can have successful and satisfying careers, which will drive great guest experiences and in turn, guests for life. Our key strategies and priorities remain the same and are well aligned, focusing on people, processes and metrics to drive execution and performance. Our key strategies follow:

1. Earn the Hearts and Minds of Our Team
2. Develop High Performing Leaders
3. Drive Guest Loyalty through Experience
4. Operational Excellence through Simplicity

Our stylists' ability to serve our guests in a professional, courteous, and friendly manner is the most critical element of our service model in cultivating strong guest relationships. Great stylists, coupled with high quality service, convenience, affordability, an inviting salon appearance and atmosphere, and comprehensive retail assortments create guests for life. We are committed to providing an outstanding guest experience that drives guest loyalty and repeat business. To that end, we are investing in a number of areas focused on delivering that promise and helping our stylists have successful careers, including investments in organization, training and technology.

Stylists

Creating an organization where stylists can have successful and satisfying careers leads to improved execution, and in turn, great guest experiences.

Field Leadership. In fiscal year 2014, we completed the reorganization of our field organization to enable localized mentoring and decision making, improve geographic proximity and increase local market efficiency. Development of our field leaders is a high priority because stylists depend on their salon and field leaders for coaching, mentoring and motivation. Our training curriculum serves as the foundation for ongoing leadership development. Role clarity and talent assessments help us identify ways to develop and upgrade field leadership. Execution disciplines are used to drive accountability, execution and business performance. Incentives are designed to align field interests with those of the Company's shareholders by rewarding behaviors focused on profitable revenue growth. This organization structure also provides a clear career path for our people who desire to ascend within the Company.

Technical Education. Our technical education program is becoming a key point of difference in attracting and retaining stylists. Stylists place a tremendous amount of importance in ongoing development of their craft. They deliver a superior experience for our guests when they are well trained technically and experientially. We employ technical trainers who provide new hire training for stylists joining the Company from beauty schools and training for all stylists in current beauty care and styling trends. We supplement internal training with targeted vendor training and external trainers who bring specialized expertise to our stylists. We utilize training materials to help all levels of field employees navigate the running of a salon and essential elements of guest service training within the context of brand positions.

Recruiting. Ensuring we keep our salons fully staffed with great stylists is critical to our success. To that end, we are enhancing our recruiting efforts across all levels within our organization. We are in the process of proactively cultivating a pipeline of field leaders through succession planning and recruitment venues from within and outside the salon industry. We are also leveraging beauty school relationships and participating in job fairs and industry events.

Technology. The installation of new point-of-sale (POS) systems and salon workstations throughout North America enables communication with salons and stylists, delivery of online and digital training to stylists, real-time salon level analytics on guest retention, wait times, stylist productivity, and salon performance. We also use technology to provide asset protection dashboards and analytics to help prioritize efforts against our most compelling opportunities to reduce loss in our salons.

Guests

Great stylists, coupled with high quality service, convenience, affordability, an inviting salon appearance and atmosphere, and comprehensive retail assortments, create guests for life.

Table of Contents

Convenience. Our different salon concepts enable our guests to select different service scheduling options based upon their preference. In the value category, the ability to serve walk-in appointments and minimize guest wait times is an essential element in delivering upon convenience. We continue to focus on staffing and retention and have begun to optimize schedules and leverage our POS systems to help us balance stylist hours with guest traffic and manage guest wait times. In the premium category, our salons generally schedule appointments in advance of service. Our salons are located in high-traffic strip centers, Walmart Supercenters and shopping malls, with guest parking and easy access, and are generally open seven days per week, offering guests a variety of convenient ways to fulfill their beauty needs.

Affordability. The Company strives to offer an exceptional value for its services. In the value category, our guests expect outstanding service at affordable prices. These expectations are met with average service transactions ranging from \$16 to \$21. In the premium category, our guests expect upscale, full service beauty services at reasonable prices. Average service transactions approximate \$45 in this category. Pricing decisions are considered on a market-by-market basis and established based on local conditions.

Salon Appearance and Atmosphere. The Company's salons range from 500 to 5,000 square feet, with the typical salon approximating 1,200 square feet. Our salon repairs and maintenance program is designed to ensure we invest annually in salon cleanliness and safety, as well as in maintaining the normal operation of our salons. Our annual capital expenditures include funds to refresh the appeal and comfort of our salons.

Retail Assortments. The Company's salons sell nationally recognized hair care and beauty products, as well as a complete assortment of owned-brand products. Retail products offered by the Company are intended to be sold only through professional salons, and complement its salon services business. The Company's stylists are compensated and regularly trained to sell hair care and beauty products to their guests. Additionally, guests are encouraged to purchase products after stylists demonstrate their efficacy by using them in the styling of our guests' hair. The top selling brands within the Company's retail assortment include Biolage, Paul Mitchell, Regis designLINE, Redken, Nioxin, Tigi, It's a 10, Sexy Hair Concepts, Kenra, and Moroccanoil.

Technology. Our POS systems have the ability to collect guest and transactional data and enable the Company to invest in Guest Relationship Management, gaining insights into guest behavior, communicating with guests and incenting return visits. Leveraging this technology allows us to monitor guest retention and to survey our guests for feedback on improving the guest experience, and allows guests to use mobile apps to schedule appointments, view wait times and interact in other ways with salons.

Marketing. We are focused on driving local traffic at the most efficient cost. This includes leveraging media, guest relationship management programs, digital channels, and local tactical efforts (e.g., couponing), among other programs. Traffic driving efforts are targeted vs. a one-size-fits all approach. Annual marketing plans are based on seasonality, consumer mindset, competitive positioning and return on investment. We continually reallocate marketing investments into vehicles with known, strong returns.

Salon Support

Our corporate headquarters is referred to as Salon Support. This acknowledges that creating guests for life mandates a service-oriented, stylist and guest-focused mentality in supporting our field organization to grow our business profitably.

Organization. Salon Support and our associated priorities are aligned to our field structure to enhance the effectiveness and efficiency of the service provided to our field organization. During fiscal year 2014, we created a human resources organization to help transform the Company into the place where stylists can have successful and satisfying careers and enhanced our asset protection capabilities by building a strong asset protection team and establishing standard operating procedures to support field and salon leaders.

Simplification. In fiscal year 2013, we sold our Hair Club and Provalliance businesses in order to simplify our business model, focus on our core business of operating beauty salons, improve our long-term profitability and maximize shareholder value. We also standardized retail plan-o-grams and eliminated products in an effort to simplify and manage our ongoing retail inventory assortment. Simplification and standardization reduces inventory management time in our salons and throughout our supply chain and enables distribution efficiencies.

Ongoing simplification focuses on improving the way we plan and execute across our many brands. Standardizing processes and procedures around scheduling, day-to-day salon execution and reporting makes it easier to lead and execute in a multi-unit organization.

Our organization also remains focused on identifying and driving cost saving and profit enhancing initiatives.

Table of Contents

Salon Concepts:

The Company's salon concepts focus on providing high quality hair care services and professional products, primarily to the mass market. A description of the Company's salon concepts are listed below:

SmartStyle. SmartStyle salons offer a full range of custom styling, cutting, and hair coloring, as well as professional hair care products and are located exclusively in Walmart Supercenters. SmartStyle has a walk-in guest base with value pricing. Service revenues represent approximately 69% of total company-owned SmartStyle revenues.

Additionally, the Company has 127 franchised Cost Cutters salons located in Walmart Supercenters.

Supercuts. Supercuts salons provide consistent, high quality hair care services and professional products to its guests at convenient times and locations at value prices. This concept appeals to men, women, and children. Service revenues represent approximately 90% of total company-owned Supercuts revenues. Additionally, the Company has 1,393 franchised Supercuts locations.

MasterCuts. MasterCuts salons are a full service, mall based salon group which focuses on the walk-in consumer who demands moderately priced hair care services. MasterCuts salons emphasize quality hair care services, affordable prices, and time saving services for the entire family. These salons offer a full range of custom styling, cutting and hair coloring services, as well as professional hair care products. Service revenues comprise approximately 82% of the concept's total revenues.

Other Value. Other Value salons are made up of acquired regional company-owned salon groups operating under the primary concepts of Hair Masters, Cool Cuts for Kids, Style America, First Choice Haircutters, Famous Hair, Cost Cutters, BoRics, Magicuts, Holiday Hair, Head Start, Fiesta Salons, and TGF, as well as other concept names. Most concepts offer a full range of custom hairstyling, cutting and coloring services, as well as hair care products. Hair Masters offers moderately-priced services, while the other concepts primarily cater to time-pressed, value-oriented families. Service revenues represent approximately 89% of total company-owned Other Value salons revenues.

Additionally, the Company has 804 franchised locations of Other Value salons. Other Value salons were previously referred to as Promenade salons.

Regis Salons. Regis Salons are primarily mall based, full service salons providing complete hair care and beauty services aimed at moderate to upscale, fashion conscious consumers. At Regis Salons both appointments and walk-in guests are common. These salons offer a full range of custom styling, cutting and hair coloring services, as well as professional hair care products. Service revenues represent approximately 82% of the concept's total revenues. Regis Salons compete in their existing markets primarily by providing high quality services. Included within the Regis Salon concept are various other trade names, including Carlton Hair, Sassoon, Hair by Stewarts, Hair Excitement, and Renee Beauty.

International Salons. International salons are comprised of company-owned salons operating in the United Kingdom primarily under the Supercuts, Regis, and Sassoon concepts. These salons offer similar levels of service as our North American salons. Sassoon is one of the world's most recognized names in hair fashion and appeals to women and men looking for a prestigious full service hair salon. Salons are usually located in prominent high-traffic locations and offer a full range of custom hairstyling, cutting and coloring services, as well as professional hair care products.

Service revenues comprise approximately 75% of total company-owned international locations.

The tables on the following pages set forth the number of system wide locations (company-owned and franchised) and activity within the various salon concepts.

The North American Value operating segment is comprised primarily of the SmartStyle, Supercuts, MasterCuts (1) and Other Value salon brands. The North American Premium operating segment is comprised primarily of the Regis salon brands.

(2) Canadian and Puerto Rican salons are included in the North American salon totals.

Table of Contents

During fiscal years 2015, 2014, and 2013, the Company acquired zero, two, and zero salon locations, respectively, (3) from franchisees. During fiscal years 2015, 2014, and 2013, the Company sold 77, 28, and 17 salon locations, respectively, to franchisees.

Salon Franchising Program:

General. We have various franchising programs supporting its 2,324 franchised salons as of June 30, 2015, consisting mainly of Supercuts, Cost Cutters, First Choice Haircutters, and Magicuts. These salons have been included in the discussions regarding salon counts and concepts.

We provide our franchisees with a comprehensive system of business training, stylist education, site approval and lease negotiation, construction management services, professional marketing, promotion, and advertising programs, and other forms of support designed to help the franchisee build a successful business.

Standards of Operations. The Company does not control the day to day operations of its franchisees, including employment, benefits and wage determination, establishing prices to charge for products and services, business hours, personnel management, and capital expenditure decisions. However, the franchise agreements afford certain rights to the Company, such as the right to approve locations, suppliers and the sale of a franchise. Additionally, franchisees are required to conform to the Company's established operational policies and procedures relating to quality of service, training, salon design and decor, and trademark usage. The Company's field personnel make periodic visits to franchised salons to ensure that they are operating in conformity with the standards for each franchising program. All of the rights afforded to the Company with regard to franchised operations allow the Company to protect its brands, but do not allow the Company to control the franchise operations or make decisions that have a significant impact on the success of the franchised salons. The Company's franchise agreements do not give the Company any right, ability or potential to determine or otherwise influence any terms and/or conditions of employment of franchisees' employees (except for those, if any, that are specifically related to quality of service, training, salon design, decor, and trademark usage), including, but not limited to, franchisees' employees' wages, employee benefits, hours of work, scheduling, leave programs, seniority rights, promotional or transfer opportunities, layoff/recall arrangements, grievance and dispute resolution procedures, uniforms, and/or discipline and discharge.

Franchise Terms. Pursuant to a franchise agreement with the Company, each franchisee pays an initial fee for each store and ongoing royalties to the Company. In addition, for most franchise concepts, the Company collects advertising funds from franchisees and administers the funds on behalf of the concepts. Franchisees are responsible for the costs of leasehold improvements, furniture, fixtures, equipment, supplies, inventory, payroll costs and certain other items, including initial working capital. The majority of franchise agreements provide the Company a right of first refusal if the store is to be sold and the franchisee must obtain the Company's approval in all instances where there is a sale of a franchise location.

Additional information regarding each of the major franchised brands is listed below:

Supercuts

Supercuts franchise agreements have a perpetual term, subject to termination of the underlying lease agreement or termination of the franchise agreement by either the Company or the franchisee. All new franchisees enter into development agreements, which give them the right to enter into a defined number of franchise agreements. These franchise agreements are site specific. The development agreement provides limited territorial protection for the stores developed under those franchise agreements. Older franchisees have grandfathered expansion rights which allow them to develop stores outside of development agreements and provide them with greater territorial protections in their markets. The Company has a comprehensive impact policy that resolves potential conflicts among Supercuts franchisees and/or the Company's Supercuts locations regarding proposed store sites.

Cost Cutters, First Choice Haircutters, and Magicuts

The majority of existing Cost Cutters franchise agreements have a 15 year term with a 15 year option to renew (at the option of the franchisee), while the majority of First Choice Haircutters franchise agreements have a ten year term with a five year option to renew. The majority of Magicuts franchise agreements have a term equal to the greater of five years or the current initial term of the lease agreement with an option to renew for two additional five year periods. The current franchise agreement is site specific. Franchisees may enter into development agreements with the Company which provide limited territorial protection.

Franchisee Training. The Company provides new franchisees with training, focusing on the various aspects of store management, including operations, personnel management, marketing fundamentals, and financial controls. Existing franchisees receive training, counseling and information from the Company on a continuous basis. The Company provides store managers and stylists with extensive technical training for Supercuts franchises.

Table of Contents

Salon Markets and Marketing:

Company-Owned Salons

The Company utilizes various marketing vehicles for its salons, including traditional advertising, guest relationship management, digital channels and promotional/pricing based programs. A predetermined allocation of revenue is used for such programs. Most marketing vehicles including radio, print, online and television advertising are developed and supervised at the Company's Salon Support headquarters; however, the majority of advertising is created for our local markets. The Company reviews its brand strategy with the intent to create more clear communication platforms, identities and differentiation points for our brands to drive consumer preference.

Franchised Salons

Most franchise concepts maintain separate advertising funds that provide comprehensive marketing and sales support for each system. The Supercuts advertising fund is the Company's largest advertising fund and is administered by a council consisting of primarily franchisee representatives. The council has overall control of the advertising fund's expenditures and operates in accordance with terms of the franchise operating and other agreements. All stores, company-owned and franchised, contribute to the advertising funds, the majority of which are allocated to the contributing market for media placement and local marketing activities. The remainder is allocated for the creation of national advertising and system-wide activities.

Affiliated Ownership Interests:

The Company maintains ownership interests in beauty schools and salons. The primary ownership interest is a 54.6% interest in Empire Education Group, Inc. (EEG), which is accounted for as an equity method investment. See Note 1 to the Consolidated Financial Statements. EEG operates accredited cosmetology schools. Contributing the Company's beauty schools in fiscal year 2008 to EEG leveraged EEG's management expertise, while enabling the Company to maintain a vested interest in the beauty school industry. Additionally, we utilize our EEG relationship to recruit stylists straight from beauty school.

In addition, the Company has a 27.1% ownership interest in MY Style, which is accounted for as a cost method investment. MY Style operates salons in Japan.

Corporate Trademarks:

The Company holds numerous trademarks, both in the United States and in many foreign countries. The most recognized trademarks are "SmartStyle," "Supercuts," "MasterCuts," "Regis Salons," "Cost Cutters," "Hair Masters," "First Choice Haircutters," and "Magicuts."

"Sassoon" is a registered trademark of Procter & Gamble. The Company has a license agreement to use the Sassoon name for existing salons and academies and new salon development.

Corporate Employees:

During fiscal year 2015, the Company had approximately 47,000 full and part-time employees worldwide, of which approximately 40,000 employees were located in the United States. None of the Company's employees is subject to a collective bargaining agreement and the Company believes that its employee relations are amicable.

Table of Contents

Executive Officers:

Information relating to the Executive Officers of the Company follows:

Name	Age	Position
Daniel Hanrahan	58	President and Chief Executive Officer
Steven Spiegel	53	Executive Vice President and Chief Financial Officer
Eric Bakken	48	Executive Vice President, Chief Administrative Officer, Corporate Secretary and General Counsel
Jim Lain	51	Executive Vice President and Chief Operating Officer
Andrew Dulka	41	Senior Vice President and Chief Information Officer
Annette Miller	53	Senior Vice President and Chief Merchandising Officer
Heather Passe	44	Senior Vice President and Chief Marketing Officer
Carmen Thiede	48	Senior Vice President and Chief Human Resources Officer
Ken Warfield	44	Senior Vice President of Premium and Asset Protection

Daniel Hanrahan has served as President and Chief Executive Officer since August 2012. He most recently served as President of Celebrity Cruises, a subsidiary of Royal Caribbean Cruises Ltd., from February 2005 to July 2012, and as its President and Chief Executive Officer since September 2007. Mr. Hanrahan has served on the Board of Directors of Cedar Fair, L.P., an amusement-resort operator, since 2012 and is a member of its Audit and Compensation Committees.

Steven Spiegel has served as Executive Vice President and Chief Financial Officer since December 2012. He most recently served as Vice President of Finance at Unilever (formerly Alberto Culver) from May 2005 to May 2012.

Eric Bakken has served as Executive Vice President, Chief Administrative Officer, Corporate Secretary and General Counsel since April 2013. He served as Executive Vice President, General Counsel and Business Development and Interim Corporate Chief Operating Officer from 2012 to April 2013, and performed the function of interim principal executive officer between July 2012 and August 2012. Mr. Bakken joined the Company in 1994 as a lawyer and became General Counsel in 2004.

Jim Lain has served as Executive Vice President and Chief Operating Officer since November 2013. Previously Mr. Lain served as Vice President at Gap, Inc. from August 2006 to November 2013.

Andrew Dulka was promoted to Senior Vice President and Chief Information Officer in May 2015 and previously served as Vice President, Retail Systems and Enterprise Architecture from July 2012 to April 2015. Before joining Regis Corporation, he served as Vice President, Infrastructure and Application Maintenance at Allianz Life from December 2009 to July 2012.

Annette Miller has served as Senior Vice President and Chief Merchandising Officer since December 2014. Before joining Regis Corporation, she served as Senior Vice President of Merchandising, Grocery at Target from 2010 to 2014.

Heather Passe has served as Senior Vice President and Chief Marketing Officer since July 2012. Before joining Regis Corporation, she served as Vice President Marketing, Customer Relationship Marketing (CRM) and E-Commerce at Carlson from February 2009 to July 2012.

Carmen Thiede has served as Senior Vice President and Chief Human Resources Officer since October 2013. Before joining Regis Corporation, Ms. Thiede served as Senior Vice President of Human Resources at Ameriprise Financial from October 2006 to October 2013.

Ken Warfield has served as Senior Vice President of Premium and Asset Protection since February 2015 and was Vice President of Asset Protection from February 2014 to February 2015. Before joining Regis Corporation, he served as Corporate Director of Loss Prevention and Security at Price Chopper Supermarkets from May 2013 to February 2014 and Director of Loss Prevention at CVS Health Corporation from January 2010 to January 2013.

Governmental Regulations:

The Company is subject to various federal, state, local and provincial laws affecting its business as well as a variety of regulatory provisions relating to the conduct of its beauty related business, including health and safety.

In the United States, the Company's franchise operations are subject to the Federal Trade Commission's Trade Regulation Rule on Franchising (the FTC Rule) and by state laws and administrative regulations that regulate various

aspects of franchise

12

Table of Contents

operations and sales. The Company's franchises are offered to franchisees by means of an offering circular/disclosure document containing specified disclosures in accordance with the FTC Rule and the laws and regulations of certain states. The Company has registered its offering of franchises with the regulatory authorities of those states in which it offers franchises and in which such registration is required. State laws that regulate the franchisor-franchisee relationship presently exist in a substantial number of states and, in certain cases, apply substantive standards to this relationship. Such laws may, for example, require that the franchisor deal with the franchisee in good faith, may prohibit interference with the right of free association among franchisees and may limit termination of franchisees without payment of reasonable compensation. The Company believes that the current trend is for government regulation of franchising to increase over time. However, such laws have not had, and the Company does not expect such laws to have, a significant effect on the Company's operations.

In Canada, the Company's franchise operations are subject to franchise laws and regulations in the provinces of Ontario, Alberta, Manitoba, New Brunswick and Prince Edward Island. The offering of franchises in Canada occurs by way of a disclosure document, which contains certain disclosures required by the applicable provincial laws. The provincial franchise laws and regulations primarily focus on disclosure requirements, although each requires certain relationship requirements such as a duty of fair dealing and the right of franchisees to associate and organize with other franchisees.

The Company believes it is operating in substantial compliance with applicable laws and regulations governing all of its operations.

The Company maintains an ownership interest in EEG. Beauty schools derive a significant portion of their revenue from student financial assistance originating from the U.S. Department of Education's Title IV Higher Education Act of 1965. For the students to receive financial assistance at the school, the beauty schools must maintain eligibility requirements established by the U.S. Department of Education.

Financial Information about Foreign and North American Operations

Financial information about foreign and North American markets is incorporated herein by reference to Management's Discussion and Analysis of Financial Condition and Results of Operations in Part II, Item 7 and segment information in Note 14 to the Consolidated Financial Statements in Part II, Item 8 of this Form 10-K.

Available Information

The Company is subject to the informational requirements of the Securities and Exchange Act of 1934 (Exchange Act). The Company therefore files periodic reports, proxy statements and other information with the Securities and Exchange Commission (SEC). Such reports may be obtained by visiting the Public Reference Room of the SEC at 100 F Street NE, Washington, DC 20549, or by calling the SEC at 1-800-SEC-0330. In addition, the SEC maintains an internet site (<http://www.sec.gov>) that contains reports, proxy and information statements and other information. Financial and other information can be accessed in the Investor Information section of the Company's website at www.regiscorp.com. The Company makes available, free of charge, copies of its annual report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K and amendments to those reports filed or furnished pursuant to Section 13(a) or 15(d) of the Exchange Act as soon as reasonably practicable after filing such material electronically or otherwise furnishing it to the SEC.

Item 1A. Risk Factors

An inability to continue to execute on our strategy and build on foundational initiatives we've implemented could adversely impact our same-store sales and operating results.

Our success depends, in part, on our ability to improve sales, as well as both cost of service and product and operating margins. Same-store sales are affected by average ticket and same-store guest visits. A variety of factors affect same-store guest visits, including the guest experience, staffing and retention of stylists and salon leaders, fashion trends, competition, current economic conditions, product assortment, marketing programs and weather conditions. These factors may cause our same-store sales to differ materially from prior periods and from our expectations. Since fiscal year 2013, we have gone through significant change as we executed upon a number of foundational initiatives to support and focus on our business strategies to return the Company to sustainable long-term growth and profitability.

These foundational changes were disruptive to our business. In fiscal 2014, same-store sales declined 4.8% compared to the prior year. While fiscal 2015 same-store sales declines of 0.3% represent improved trends, there can be no assurance we will be able to successfully execute on our business strategy in fiscal 2016 and beyond to achieve long-term growth, profitability and a broader scale turn. Such impairment charges could be material to our consolidated balance sheet and results

Table of Contents

of operations. If negative same-store sales continue and we are unable to offset the impact with operational savings, our results of operations will be negatively impacted affected and we may be required to take impairment charges. In addition, the unexpected loss of any of our executive leadership team members could adversely affect the momentum we have achieved in executing on our business strategies and could adversely affect our business. Our business is based on the success of our stylists. It is important for us to attract, train and retain talented stylists and salon leaders.

Guest loyalty is highly dependent upon the stylists who serve our guests. In order to profitably grow our business, it is important for us to attract, train and retain talented stylists and salon leaders and to adequately staff our salons. Because the salon industry is highly-fragmented and comprised of many independent operators, the market for stylists is highly competitive. Offering competitive wages, benefits, education and training programs are important elements to attracting and retaining great stylists. If we are not successful in attracting, training and retaining stylists or in staffing our salons, our same-store sales could continue to decline and our results of operations could be adversely affected.

Changes in regulatory and statutory laws, such as increases in the minimum wage and changes that make collective bargaining easier, proposed changes to overtime requirements, and the costs of compliance and non-compliance with such laws, may result in increased costs to our business.

With 9,556 locations and approximately 47,000 employees worldwide, our financial results can be adversely impacted by regulatory or statutory changes in laws. Due to the number of people we employ, laws that increase minimum wage rates, employment taxes, overtime requirements or costs to provide employee benefits may result in additional costs to our Company.

A number of states and cities in which we do business have recently increased or are considering increasing the minimum wage, with increases generally phased over several years depending upon the size of the employer. The Department of Labor is also proposing changes to the technical requirements for classification of employees deemed to be exempt from the overtime requirements of the Fair Labor Standards Act that could increase the number of employees eligible to receive overtime pay. Increases in minimum wages and overtime pay could significantly increase our costs, and our ability to offset these increases through price increases is limited. In addition, changes in labor laws could increase the likelihood of some or all of our employees being subjected to greater organized labor influence. If a significant portion of our employees were to become unionized, it could have an adverse effect on our business and financial results.

Increases in minimum wages, overtime requirements and unionization could also have an adverse effect on the performance of our franchisees, especially if our franchisees are treated as a "joint employer" with us by the National Labor Relations Board (NLRB) or as a large employer under minimum wage statutes because of their affiliation with us. With respect to the NLRB, it is anticipated that its current standard for joint employer relationships may become more lenient and, as such, we may face an increased risk of being alleged to be a joint employer with our franchisees. In addition, we must comply with state employment laws, including the California Labor Code, which has stringent requirements and penalties for non-compliance.

In addition to employment laws, we are also subject to a wide range of federal, state, provincial and local laws and regulations, including those affecting public companies, product manufacture and sale, and governing the franchisor-franchisee relationship, in the jurisdictions in which we operate. Compliance with new, complex and changing laws may cause our expenses to increase. In addition, any non-compliance with laws or regulations could result in penalties, fines, product recalls and enforcement actions or otherwise restrict our ability to market certain products or attract or retain employees, which could adversely affect our business, financial condition and results of operations.

We could be subject to changes in tax rates, the adoption of new U.S. or international tax legislation or exposure to additional tax liabilities.

We are subject to income taxes in the U.S. and other foreign jurisdictions. Significant judgment is required in determining our tax provision for income taxes. In the ordinary course of our business, there are many transactions and calculations where the ultimate tax determination is uncertain. We are subject to the examination of our income

tax returns, payroll taxes and other tax matters by the Internal Revenue Service and other tax authorities and governmental bodies. The Company regularly assesses the likelihood of an adverse outcome resulting from these examinations to determine the adequacy of its provision for income taxes and payroll tax accruals. There can be no assurances as to the outcome of these examinations. Although we believe our tax estimates are reasonable, the final determination of tax audits and any related litigation could be materially different from our historical tax provisions and payroll accruals. The results of an audit or litigation could have a material effect on our consolidated financial statements in the period or periods for which that determination is made.

Table of Contents

Our effective income tax rate in the future could be adversely affected by a number of factors, including changes in the mix of earnings in countries with different statutory tax rates, changes in tax laws, the outcome of income tax audits, and any repatriation of non-U.S. earnings for which we have not previously provided for U.S. taxes.

Changes to healthcare laws in the U.S. may increase the number of employees who participate in our healthcare plans, which may significantly increase our healthcare costs and negatively impact our operating results.

We offer comprehensive healthcare coverage to eligible employees in the United States. Historically, a majority of our eligible employees do not participate in our healthcare plans. Due to recent changes to healthcare laws in the United States pursuant to the Affordable Care Act (ACA), it is possible that enrollment in the Company's healthcare plans may increase as employees continue to assess their healthcare alternatives and if provisions regarding automatic enrollment of new eligible employees become effective in the future. Furthermore, potential fees and or penalties may be assessed as a result of individuals either not being offered healthcare coverage within a limited timeframe or if coverage offered does not meet minimum care and affordability standards. An increase in the number of employees who elect to participate in our healthcare plans, new ACA requirements or if the Company fails to comply with one or more provisions of ACA may significantly increase our healthcare-related costs and negatively impact our operating results.

If we fail to manage cyber threats and protect the security of sensitive information about our guests, employees, vendors or company, we could be subject to business disruption, negative publicity, costly government enforcement actions or private litigation and our reputation could suffer.

The nature of our business involves processing, transmission and storage of personal information about our guests as well as employees, vendors and our Company. Cyber-attacks designed to gain access to sensitive information by breaching mission critical systems of large organizations are constantly evolving, and high profile electronic security breaches leading to unauthorized release of sensitive guest information have occurred recently at a number of large U.S. companies. Our efforts to protect sensitive guest and employee information may not be successful in preventing a breach in our systems, or detecting and responding to a breach on a timely basis. As a result of a security incident or breach in our systems, our systems could be interrupted or damaged, or sensitive information could be accessed by third parties. If that happened, our guests could lose confidence in our ability to protect their personal information, which could cause them to stop visiting our salons altogether. Such events could lead to lost future sales and adversely affect our results of operations. In addition, as the regulatory environment relating to retailers and other companies' obligations to protect sensitive data becomes stricter, a material failure on our part to comply with applicable regulations could subject us to fines or other regulatory sanctions and potentially to lawsuits. These laws are changing rapidly and vary among jurisdictions. Furthermore, while our franchisees are independently responsible for data security at franchised locations, a breach of guest or vendor data at a franchised location could also negatively affect public perception of our brands. More broadly, our incident response preparedness and disaster recovery planning efforts may be inadequate or ill-suited for a security incident and we could suffer disruption of operations or adverse effects to our operating results.

We rely heavily on our management information systems. If our systems fail to perform adequately or if we experience an interruption in their operation, our results of operations may be affected.

The efficient operation of our business is dependent on our management information systems. We rely heavily on our management information systems to collect daily sales information and guest demographics, generate payroll information, monitor salon performance, manage salon staffing and payroll costs, inventory control and other functions. Certain of our management information systems are developed and maintained by external vendors, including our POS system. In addition, certain of our systems are outdated or of limited functionality. The failure of our management information systems to perform as we anticipate, or to meet the continuously evolving needs of our business, could disrupt our business and may adversely affect our operating results.

We rely on external vendors for products and services critical to our operations.

Our dependence on vendors exposes us to operational, reputational, financial, and compliance risk. Our vendors are also responsible for the security of certain Company data. In the event that one of our key vendors becomes unable to continue to provide products and services, or their systems fail, are compromised or the quality of their systems deteriorate, we may suffer operational difficulties and financial loss.

Table of Contents

Changes in manufacturers' choice of distribution channels may negatively affect our revenues.

The retail products we sell are licensed to be carried exclusively by professional salons. The products we purchase for sale in our salons are purchased pursuant to purchase orders, as opposed to long-term contracts and generally can be terminated by the producer without much advance notice. Should our product manufacturers decide to utilize other distribution channels, such as large discount retailers, or to utilize such distribution channels to a larger extent than they have in the past, it could negatively impact product sales revenue. In addition as e-commerce evolves and expands, our product sales could negatively be impacted if we are unable to sell retail products in a similar fashion. Our continued success depends in part on the success of our franchisees, who operate independently.

As of June 30, 2015, approximately 24% of our salons are franchised locations. We derive revenues associated with our franchised locations from royalties, service fees and product sales to franchised locations. Our financial results are therefore dependent in part upon the operational and financial success of our franchisees. As we increase our focus on our franchise business, our dependence on our franchisees grows.

We have limited control over how our franchisees' businesses are run. Though we have established operational standards and guidelines, they own, operate and oversee the daily operations of their salon locations. If franchisees do not successfully operate their salons in compliance with our standards, our brand reputation and image could be harmed and our financial results could be affected.

In addition, our franchisees are subject to the same general economic risks as our Company, and their results are influenced by competition, market trends, and disruptions in their markets due to severe weather and other external events. They may also be limited in their ability to open new locations by an inability to secure adequate financing, especially since many of them are small businesses with much more limited access to financing than our Company, or by the limited supply of favorable real estate for new salon locations. A deterioration in the financial results of our franchisees, or a failure of our franchisees to renew their franchise agreements, could adversely affect our operating results through decreased royalty payments, fees and product revenues.

We have identified a material weakness in our internal control over the accounting for leases which could reduce investor confidence and adversely affect the value of our common stock.

In fiscal year 2015, we identified a material weakness in our internal controls related to our accounting for leases. We are in the process of remediating this weakness, which will require us to devote financial and management resources. While we believe we will remediate this weakness over time, no assurances can be made that our remediation will be effective, and our remedial controls may need to operate for a period of time before we can conclude that they are effective. Until the material weakness is fully remediated, the Company could have material misstatements to the non-cash deferred rent account, and related accounts and disclosures.

If we are not able to successfully compete in our business markets, our financial results may be affected.

Competition on a market by market basis remains challenging as many smaller chain competitors are franchise systems with local operating strength in certain markets and the hair salon industry as a whole is fragmented and highly competitive for customers, stylists and prime locations. Therefore, our ability to attract guests, raise prices and secure suitable locations in certain markets can be adversely impacted by this competition. If we are not able to successfully compete, our ability to grow same-store sales and increase our revenue and earnings may be impaired.

Changes to interest rates and foreign currency exchange rates may impact our results from operations.

Changes in interest rates and foreign currency exchange rates will have an impact on our expected results from operations. Historically, we have managed the risk related to fluctuations in these rates through the use of fixed rate debt instruments and other financial instruments.

Failure to simplify and standardize our operating processes across our brands could have a negative impact on our financial results.

Standardization of operating processes across our brands, marketing and products will enable us to simplify our operating model and decrease our costs. Failure to do so could adversely impact our ability to grow revenue and realize further efficiencies within our results of operations.

Table of Contents

Changes in our key relationships may adversely affect our operating results.

We maintain key relationships with certain companies, including Walmart. In particular, we have 2,766 SmartStyle/Cost Cutters salons within Walmart locations, including 69 salons opened during fiscal year 2015. The continued operation and growth of this business is dependent on our relationship with Walmart. In addition, our company-owned locations are concentrated with leases with certain major regional and national landlords. Termination, modification or mismanagement, of any of these relationships could significantly reduce our revenues and have a material and adverse impact on our business, our operating results and our ability to grow.

Failure to control costs may adversely affect our operating results.

We must continue to control our expense structure. Failure to manage our cost of product, labor and benefit rates, advertising and marketing expenses, operating lease costs, other store expenses or indirect spending could delay or prevent us from achieving increased profitability or otherwise adversely affect our operating results.

If we fail to comply with any of the covenants in our financing arrangements, we may not be able to access our existing revolving credit facility, and we may face an accelerated obligation to repay our indebtedness.

We have several financing arrangements that contain financial and other covenants. If we fail to comply with any of the covenants, it may cause a default under one or more of our financing arrangements, which could limit our ability to obtain additional financing under our existing credit facility, require us to pay higher levels of interest or accelerate our obligations to repay our indebtedness.

Changes in the general economic environment may impact our business and results of operations.

Changes to the U.S., Canadian and United Kingdom economies have an impact on our business. General economic factors that are beyond our control, such as interest rates, exchange rates, recession, inflation, deflation, tax rates and policy, energy costs, unemployment trends, extreme weather patterns, other casualty events and other matters that influence consumer confidence and spending, may impact our business. In particular, visitation patterns to our salons can be adversely impacted by increases in unemployment rates and decreases in discretionary income levels.

If our investment with Empire Education Group is unsuccessful, our financial results may be affected.

We have a joint venture arrangement with Empire Education Group (EEG), an operator of accredited cosmetology schools. If EEG is unwilling or unable to devote their financial resources or marketing and operational capabilities to our joint venture, or if our joint venture is terminated, we may not be able to realize anticipated profits and our business could be materially adversely affected. In addition, regulatory changes in the for-profit secondary educational market have had negative business impacts including declines in enrollment, revenues and profitability. If our joint venture arrangement with EEG is not successful, we may have a limited ability to terminate or modify this arrangement. If our joint venture with EEG is terminated, there can be no assurance that we will be able to attract new joint venture partners to continue the activities or to operate that business independently.

During fiscal years 2015 and 2013, we recorded non-cash impairments of \$4.7 million and \$17.9 million, respectively, related to our investment in EEG. Due to economic, regulatory and other factors, including declines in enrollment, revenue and profitability in the for-profit secondary educational market, we may be required to take additional non-cash impairment charges related to our investments and such non-cash impairments could be material to our consolidated balance sheet and results of operations. During fiscal year 2015, we recorded our share of a non-cash deferred tax asset valuation allowance recorded by EEG of \$6.9 million. During fiscal years 2014 and 2013, we recorded our share of pre-tax non-cash impairment charges recorded by EEG for goodwill and fixed and intangible assets of \$21.2 and \$2.1 million, respectively. EEG may be required to take additional non-cash impairment charges related to long-lived assets and our share of such non-cash impairment charges could be material to our consolidated balance sheet and results of operations. The exposure to loss related to our involvement with EEG is the \$14.8 million carrying value of the investment at June 30, 2015.

Changes in fashion trends may impact our revenue.

Changes in consumer tastes, hair product innovation, and fashion trends can have an impact on our financial performance.

Item 1B. Unresolved Staff Comments

None.

Table of Contents

Item 2. Properties

The Company's corporate offices are headquartered in a 170,000 square foot, three building complex in Edina, Minnesota that is owned by the Company.

The Company also operates offices in Edina, Minnesota; Toronto, Canada; and Coventry and London, England. These offices are occupied under long-term leases.

The Company owns distribution centers located in Chattanooga, Tennessee and Salt Lake City, Utah. The Chattanooga facility currently utilizes 230,000 square feet while the Salt Lake City facility utilizes 210,000 square feet. The Salt Lake City facility can be expanded to 290,000 square feet to accommodate future growth.

The Company operates all of its salon locations under leases or license agreements. Substantially all of its North American locations in regional malls are operating under leases with an original term of at least ten years. Salons operating within strip centers and Walmart Supercenters have leases with original terms of at least five years, generally with the ability to renew, at the Company's option, for one or more additional five year periods. Salons operating within department stores in Canada and Europe operate under license agreements, while freestanding or shopping center locations in those countries have real property leases comparable to the Company's North American locations.

The Company also leases the premises in which approximately 85% of our franchisees operate and has entered into corresponding sublease arrangements with the franchisees. These leases have a five year initial term and one or more five year renewal options. All lease costs are passed through to the franchisees. Remaining franchisees who do not enter into sublease arrangements with the Company negotiate and enter into leases on their own behalf.

None of the Company's salon leases are individually material to the operations of the Company and the Company expects that it will be able to renew its leases on satisfactory terms as they expire or identify and secure other suitable locations. See Note 8 to the Consolidated Financial Statements.

Item 3. Legal Proceedings

The Company is a defendant in various lawsuits and claims arising out of the normal course of business. Like certain other large retail employers, the Company has been faced with allegations of purported class-wide consumer and wage and hour violations. Litigation is inherently unpredictable and the outcome of these matters cannot presently be determined. Although the actions are being vigorously defended, the Company could in the future incur judgments or enter into settlements of claims that could have a material adverse effect on its results of operations in any particular period.

In addition, the Company was a nominal defendant, and nine current and former directors and officers of the Company were named defendants, in a shareholder derivative action in Minnesota state court. The derivative shareholder action alleged that the individual defendants breached their fiduciary duties to the Company in connection with their approval of certain executive compensation arrangements and certain related party transactions. The Board of Directors appointed a Special Litigation Committee to investigate the claims and allegations made in the derivative action, and to decide on behalf of the Company whether the claims and allegations should be pursued. In April 2014, the Special Litigation Committee issued a report and concluded the claims and allegations should not be pursued, and in September 2014 the case was dismissed by court order. In a collateral proceeding, the plaintiff filed a motion for an award of fees in November 2014. The Company has opposed the motion and this collateral proceeding is pending.

Item 4. Mine Safety Disclosures

Not applicable.

PART II

Item 5. Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Repurchase of Equity Securities

Regis common stock is listed and traded on the New York Stock Exchange under the symbol "RGS."

The accompanying table sets forth the high and low closing bid quotations for each quarter during fiscal years 2015 and 2014 as reported by the New York Stock Exchange (under the symbol "RGS"). The quotations reflect inter-dealer prices, without retail mark-up, mark-down or commission, and may not necessarily represent actual transactions.

Table of Contents

As of August 17, 2015, Regis shares were owned by approximately 15,000 shareholders based on the number of record holders and an estimate of individual participants in security position listings. The closing stock price was \$14.40 per share on August 17, 2015.

Fiscal Quarter	Fiscal Years			
	2015		2014	
	High	Low	High	Low
1st Quarter	\$17.51	\$13.50	\$17.97	\$14.50
2nd Quarter	17.76	14.58	16.15	13.99
3rd Quarter	17.41	14.70	14.64	11.48
4th Quarter	17.91	15.76	14.20	12.62

The Company paid dividends of \$0.06 per share per quarter during the first and second quarters of fiscal year 2014. In December 2013, the Company announced a new capital allocation policy. As a result of this policy, the Board of Directors elected to discontinue declaring regular quarterly dividends.

The following graph compares the cumulative total shareholder return on the Company's stock for the last five years with the cumulative total return of the Standard and Poor's 500 Stock Index and the cumulative total return of a peer group index (the Peer Group) constructed by the Company. In addition, the Company has included the Standard and Poor's 400 Midcap Index and the Dow Jones Consumer Services Index in this analysis because the Company believes these two indices provide a comparative correlation to the cumulative total return of an investment in shares of Regis Corporation.

The Peer Group consists of the following companies: Advance Auto Parts, Inc., Boyd Gaming Corp., Brinker International, Inc., Outerwall, Inc. (formerly Coinstar, Inc.), Cracker Barrel Old Country Store, DineEquity, Inc., Fossil Group, Inc., Fred's, Inc., Keurig Green Mountain, Inc., H&R Block, Inc., Jack in the Box, Inc., Panera Bread Co., Penn National Gaming, Inc., Revlon, Inc., Sally Beauty Holdings, Inc., Service Corporation International, The Cheesecake Factory, Inc. and Ulta Salon, Cosmetics & Fragrance Inc. The Peer Group is a self-constructed peer group of companies that have comparable annual revenues, the guest service element is a critical component to the business and a target of moderate guests in terms of income and style, excluding apparel companies. The Peer Group is the same group of companies the Company utilized as its peer group for executive compensation purposes in fiscal years 2015, 2014 and 2013. Information regarding executive compensation will be set forth in the 2015 Proxy statement. The comparison assumes the initial investment of \$100 in the Company's Common Stock, the S&P 500 Index, the Peer Group, the S&P 400 Midcap Index and the Dow Jones Consumer Services Index on June 30, 2010 and that dividends, if any, were reinvested.

In May 2000, the Company's Board of Directors (Board) approved a stock repurchase program. Originally, the program authorized up to \$50.0 million to be expended for the repurchase of the Company's stock. The Board elected to increase this maximum to \$100.0 million in August 2003, to \$200.0 million on May 3, 2005, to \$300.0 million on April 26, 2007 and to \$350.0 million on April 21, 2015. The timing and amounts of any repurchases will depend on many factors, including the market price of the common stock and overall market conditions. Historically, repurchases to date have been made primarily to eliminate the dilutive effect of shares issued in conjunction with acquisitions, restricted stock grants and stock option exercises. In fiscal year 2015, repurchases were made in accordance with the Company's capital allocation policy issued in 2013. All repurchased shares become authorized but unissued shares of the Company. This repurchase program has no stated expiration date. As of June 30, 2015, a total accumulated 10.7 million shares have been repurchased for \$289.1 million. As of June 30, 2015, \$60.9 million remained outstanding under the approved stock repurchase program.

Table of Contents

The Company repurchased the following common stock through its share repurchase program:

	Fiscal Years		
	2015	2014	2013
Repurchased Shares	3,054,387	—	909,175
Average Price (per share)	\$15.64	\$—	\$16.32
Price range (per share)	\$13.72 - \$17.32	\$—	\$15.99 - \$16.84
Total	\$47.9 million	\$—	\$14.9 million

The following table shows the stock repurchase activity by the Company or any "affiliated purchaser" of the Company, as defined in Rule 10b-18(a)(3) under the Exchange Act, by month for the quarter ended June 30, 2015:

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Approximate Dollar Value of Shares that May Yet Be Purchased under the Plans or Programs (in thousands)
4/1/15 - 4/30/15	—	\$—	9,841,708	\$75,865
5/1/15 - 5/31/15	489,252	16.57	10,330,960	67,760
6/1/15 - 6/30/15	417,391	16.43	10,748,351	60,903
Total	906,643	\$16.50	10,748,351	\$60,903

Item 6. Selected Financial Data

Beginning with the period ended September 30, 2012 the Hair Restoration Centers operations were accounted for as discontinued operations. All periods presented reflect the Hair Restoration Centers as discontinued operations. Amounts for fiscal years 2014, 2013, 2012 and 2011 have been revised. See Note 1 to the Consolidated Financial Statements.

The following table sets forth selected financial data derived from the Company's Consolidated Financial Statements in Part II, Item 8. The table should be read in conjunction with Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations", and Item 8, "Financial Statements and Supplementary Data", of this Report on Form 10-K.

	Fiscal Years				
	2015	2014	2013	2012	2011
	(Dollars in thousands, except per share data)

Total assets, including discontinued operations	\$1,162,015	\$1,415,949	\$1,391,399	\$1,572,725	\$1,806,460
Long-term debt and capital lease obligations, including current portion	120,002	293,503	174,770	287,674	313,411

(a) The following significant items affected operating income (loss) and (loss) income from continuing operations:

Table of Contents

During fiscal year 2015, the Company recorded its share of a non-cash deferred tax asset valuation allowance recorded by EEG of \$6.9 million, other than temporary impairment charges of its investment in EEG of \$4.7 million, \$14.6 million of fixed asset impairment charges and established a \$2.1 million valuation allowance against its Canadian deferred tax assets.

During fiscal year 2014, the Company experienced significant disruption as result of foundational initiatives implemented at the end of fiscal year 2013 to turn around our business. As a result, the Company's financial performance during fiscal year 2014 was negatively impacted. During fiscal year 2014, the Company recorded a goodwill impairment charge of \$34.9 million associated with Company's Regis salon concept, fixed asset impairment charges of \$18.3 million, \$15.9 million, net of tax for the Company's share of goodwill and fixed asset impairment charges recorded by EEG and established an \$86.6 million valuation allowance against the U.S. and U.K. deferred tax assets.

During fiscal year 2013, the Company made significant investments in strategies to turn around our business and drive improved long-term sustainable growth and profitability. These included investing in stylist hours, rolling out a new POS system and salon workstations in our North American salons, restructuring our North American Value field organization and standardizing plan-o-grams and eliminating retail products. As a result, during fiscal year 2013, the Company recorded \$7.4 million in restructuring charges and a \$12.6 million inventory write-down. In addition, the Company recognized a net \$33.8 million foreign currency translation gain in connection with the sale of Provalliance, recorded net other than temporary impairment charges of \$17.9 million associated with the Company's investment in EEG and incurred a \$10.6 million make-whole payment in connection with the prepayment of \$89.3 million of senior term notes in June 2013.

During fiscal year 2012, the Company recorded a goodwill impairment charge of \$67.7 million associated with the Company's Regis salon concept, incremental amortization expense of \$16.2 million associated with an adjustment to the useful life of the Company's previously internally developed POS system, \$14.4 million for senior management and other restructuring charges, \$8.9 million for the Company's share of intangible and fixed asset impairments recorded by EEG and \$36.6 million of other than temporary impairment charges associated with the Company's investments in affiliated companies.

During fiscal year 2011, the Company recorded a goodwill impairment charge of \$74.1 million associated with the Company's former Promenade salon concept, a \$31.2 million valuation reserve related to a note receivable with the purchaser of Trade Secret and \$9.2 million of other than temporary impairment charges associated with the Company's investment in MY Style.

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations

Management's Discussion and Analysis of Financial Condition and Results of Operations (MD&A) is designed to provide a reader of our financial statements with a narrative from the perspective of our management on our financial condition, results of operations, liquidity and certain other factors that may affect our future results.

BUSINESS DESCRIPTION

Regis Corporation owns, franchises and operates beauty salons. As of June 30, 2015, the Company owned, franchised or held ownership interests in 9,556 locations worldwide. The Company's locations consist of 9,349 company-owned and franchised salons and 207 locations in which we maintain a non-controlling ownership interest of less than 100%. Each of the Company's salon concepts generally offer similar salon products and services and serve the mass market. See discussion within Part I, Item 1.

RESULTS OF OPERATIONS

Beginning with the period ended September 30, 2012, the Hair Restoration Centers reportable segment was accounted for as a discontinued operation. See Note 2 to the Consolidated Financial Statements. All comparable periods reflect Hair Restoration Centers as a discontinued operation. Explanations are primarily for North American Value, unless

otherwise noted. Discontinued operations are discussed at the end of this section.

Beginning in fiscal year 2014, costs associated with certain field leaders, excluding salons within the North American Premium segment, that were previously recorded within General and Administrative expense are now categorized within Cost of Service and Site Operating expense as a result of the field reorganization that took place in the fourth quarter of fiscal year 2013. Previously, these field leaders did not work on the salon floor daily. As reorganized, these field leaders now spend most of their time on the salon floor leading and mentoring stylists, and serving guests. As a result, district and senior district leader labor costs are now reported within Cost of Service rather than General and Administrative expenses, and their travel costs are reported within Site Operating expenses rather than General and Administrative expenses.

Table of Contents

Beginning in the second quarter of fiscal year 2014, the Company redefined its operating segments to reflect how the chief operating decision maker evaluates the business subsequent to the restructuring of its North American field organization that took place in the fourth quarter of fiscal year 2013 and was completed during the second quarter of fiscal year 2014. See Notes 1 and 14 to the Consolidated Financial Statements.

Prior year amounts for fiscal years 2014, 2013 and 2012 have been revised. The following is a summary of the impact of revisions on (loss) income from continuing operations for fiscal years 2014 and 2013. See Note 1 to the Consolidated Financial Statements for further details regarding these revisions:

	Fiscal Years	
	2014	2013
	(Dollars in thousands)	
(Loss) income from continuing operations, as reported	\$(137,080)	\$4,166
Revisions:		
Deferred rent, pre-tax (1)	(157)	(471)
Previous out of period items, pre-tax (2)	(811)	2,154
Tax impact	(1,826)	(371)
Total revision impact	(2,794)	1,312
(Loss) income from continuing operations, as revised	\$(139,874)	\$5,478

The Company recognizes rental expense on a straight-line basis at the time the leased space becomes available to the Company. During the fourth quarter of fiscal year 2015, the Company determined its deferred rent balance was understated by \$5.3 million. Accordingly, the Consolidated Financial Statements have been revised to correctly state its deferred rent balances and rent expense. The revisions resulted in an increase in net loss from continuing (1) operations of \$0.2 million for fiscal year 2014 and a decrease in net income from continuing operations of \$0.5 million for fiscal year 2013. Accrued expenses and other noncurrent liabilities increased \$1.0 and \$4.2 million, respectively, at June 30, 2014 and retained earnings at June 30, 2014 decreased \$5.2 million as a result of the cumulative adjustment for prior periods. This revision had no impact on cash provided by operations or net increase (decrease) in cash and cash equivalents for any year.

Also in the fourth quarter of fiscal year 2015, the Company revised certain prior year amounts in the Consolidated Balance Sheet and Statement of Operations to correctly recognize understatements of self-insurance accruals, interest expense, uncertain tax positions and cash and overstatements of inventory. The impact of these revisions (2) resulted in an increase in net loss from continuing operations of \$0.8 million for fiscal year 2014 and an increase in net income from continuing operations of \$2.2 million for fiscal year 2013. Accrued expenses and other noncurrent liabilities increased \$0.8 and \$0.8 million, respectively, at June 30, 2014 and retained earnings at June 30, 2014 decreased by \$1.6 million as a result of the cumulative adjustment for prior periods. In addition, cash and cash equivalents at June 30, 2013 increased by \$0.6 million due to the revisions.

Table of Contents

Consolidated Results of Operations

The following table sets forth, for the periods indicated, certain information derived from our Consolidated Statement of Operations. The percentages are computed as a percent of total revenues, except as otherwise indicated.

	Fiscal Years								
	2015	2014	2013	2015	2014	2013	2015	2014	2013
	(Dollars in millions)			% of Total Revenues			Basis Point Increase (Decrease)		
Service revenues	\$1,429.4	\$1,480.1	\$1,563.9	77.8	% 78.2	% 77.5	% (40)	70	—
Product revenues	363.2	371.5	415.7	19.8	19.6	20.6	20	(100)	(10)
Franchise royalties and fees	44.6	40.9	39.1	2.4	2.2	1.9	20	30	10
Cost of service(1)	882.7	907.3	930.7	61.8	61.3	59.5	50	180	220
Cost of product(2)	180.6	186.9	228.9	49.7	50.3	55.1	(60)	(480)	470
Site operating expenses	192.4	203.5	202.1	10.5	10.8	10.0	(30)	80	20
General and administrative	186.1	172.8	226.7	10.1	9.1	11.2	100	(210)	(60)
Rent	309.1	322.3	325.2	16.8	17.0	16.1	(20)	90	50
Depreciation and amortization	82.9	99.7	91.8	4.5	5.3	4.5	(80)	80	(40)
Goodwill impairment	—	34.9	—	—	1.8	—	(180)	180	(320)
Interest expense	10.2	22.3	36.9	0.6	1.2	1.8	(60)	(60)	50
Interest income and other, net	1.7	2.0	35.4	0.1	0.1	1.8	—	(170)	160
Income tax (provision) benefit(3)	(14.6)	(73.0)	9.7	(293.4)	(131.9)	81.9	N/A	N/A	N/A
Equity in loss of affiliated companies, net of income taxes	(13.6)	(11.6)	(16.0)	(0.7)	(0.6)	(0.8)	(10)	20	70
(Loss) income from discontinued operations, net of income taxes	(0.6)	1.4	25.0	—	0.1	1.2	(10)	(110)	410

(1) Computed as a percent of service revenues and excludes depreciation and amortization expense.

(2) Computed as a percent of product revenues and excludes depreciation and amortization expense.

(3) Computed as a percent of (loss) income from continuing operations before income taxes and equity in loss of affiliated companies. The income tax (provision) benefit basis point change is noted as not applicable (N/A) as the discussion below is related to the effective income tax rate.

Table of Contents

Consolidated Revenues

Consolidated revenues primarily include revenues of company-owned salons, product and equipment sales to franchisees and franchise royalties and fees. The following tables summarize revenues and same-store sales by concept, as well as the reasons for the percentage change:

	Fiscal Years					
	2015	2014	2013			
	(Dollars in thousands)					
North American Value salons:						
SmartStyle	\$500,562	\$487,722	\$509,537			
Supercuts	343,299	343,372	343,464			
MasterCuts	117,246	127,758	146,506			
Other Value	442,312	471,231	516,074			
Total North American Value salons	1,403,419	1,430,083	1,515,581			
North American Premium salons	309,600	333,858	373,820			
International salons	124,268	128,496	129,312			
Consolidated revenues	\$1,837,287	\$1,892,437	\$2,018,713			
Percent change from prior year	(2.9)%	(6.3)%	(4.9)%
Salon same-store sales decrease(1)	(0.3)%	(4.8)%	(2.4)%

(1) Same-store sales are calculated on a daily basis as the total change in sales for company-owned locations which were open on a specific day of the week during the current period and the corresponding prior period. Quarterly and fiscal year same-store sales are the sum of the same-store sales computed on a daily basis. Locations relocated within a one mile radius are included in same-store sales as they are considered to have been open in the prior period. International same-store sales are calculated in local currencies to remove foreign currency fluctuations from the calculation.

Decreases in consolidated revenues were driven by the following:

Factor	Fiscal Years					
	2015	2014	2013			
Same-store sales	(0.3)%	(4.8)%	(2.4)%
Closed salons	(2.7)	(2.6)	(3.3)
New stores and conversions	0.6		0.8		1.3	
Other	(0.5)	0.3		(0.5)
	(2.9)%	(6.3)%	(4.9)%

Same-store sales by concept by fiscal year are detailed in the table below:

	Fiscal Years					
	2015	2014	2013			
SmartStyle	1.6	% (5.4)%	(1.1)%	
Supercuts	1.3	% 0.5	% (0.7)%		
MasterCuts	(4.0)%	(9.4)%	(5.1)%
Other Value	(0.7)%	(5.4)%	(2.8)%
Total North American Value salons	0.3	% (4.5)%	(2.0)%	
North American Premium salons	(3.0)%	(6.7)%	(3.1)%
International salons	0.6	% (1.5)%	(4.3)%	
Consolidated same-store sales	(0.3)%	(4.8)%	(2.4)%

Table of Contents

The same-store sales decrease of 0.3% during fiscal year 2015 was due to a 1.9% decrease in guest visits, partly offset by a 1.6% increase in average ticket. We closed 338 and 322 salons (including 72 and 63 franchised salons) during fiscal years 2015 and 2014, respectively. The Company constructed (net of relocations) 91 company-owned salons during fiscal year 2015. We did not acquire any company-owned locations during fiscal year 2015. During fiscal year 2014, we acquired two company-owned salons via franchise buybacks.

The same-store sales decrease of 4.8% during fiscal year 2014 was due to a 6.1% decrease in guest visits, partly offset by a 1.3% increase in average ticket. We closed 322 and 492 salons (including 63 and 69 franchised salons) during fiscal years 2014 and 2013, respectively. The Company constructed (net of relocations) 127 company-owned salons during fiscal year 2014. During fiscal year 2014, we acquired two company-owned salons via franchise buybacks. We did not acquire any company-owned locations during fiscal year 2013.

The same-store sales decrease of 2.4% during fiscal year 2013 was due to a 3.0% decrease in guest visits, partly offset by a 0.6% increase in average ticket. We closed 492 and 384 salons (including 69 and 51 franchised salons) during fiscal years 2013 and 2012, respectively. The Company constructed (net of relocations) 153 company-owned salons during fiscal year 2013. We did not acquire any company-owned salons during fiscal year 2013 compared to 13 company-owned salons (including 11 franchise buybacks) during fiscal year 2012.

Consolidated revenues are primarily comprised of service and product revenues, as well as franchise royalties and fees. Fluctuations in these three major revenue categories, operating expenses and other income and expense were as follows:

Service Revenues

The \$50.7 million decrease in service revenues during fiscal year 2015 was primarily due to the 0.4% decrease in same-store services sales, the closure of 266 company-owned salons and impacts of foreign exchange rate fluctuations. The decrease in same-store services sales was primarily a result of a 1.2% decrease in same-store guest visits, partly offset by a 0.8% increase in average ticket. Partly offsetting the decrease was growth from construction (net of relocations) of 91 company-owned salons during fiscal year 2015.

The \$83.8 million decrease in service revenues during fiscal year 2014 was primarily due to the 3.4% decrease in same-store services sales and the closure of 259 company-owned salons. The decrease in same-store services sales was primarily a result of a 4.9% decrease in same-store guest visits, partly offset by a 1.5% increase in average ticket. Partly offsetting the decrease was growth from construction (net of relocations) of 127 company-owned salons during fiscal year 2014.

The \$80.0 million decrease in service revenues during fiscal year 2013 was primarily due to the closure of 423 company-owned salons, same-store service sales decreasing 2.0% and the comparable prior period including an additional day from leap year. The decrease in same-store services sales was primarily a result of a 2.3% decrease in same-store guest visits, partly offset by a 0.3% increase in average ticket. Partly offsetting the decrease was growth from construction (net of relocations) of 153 company-owned salons during fiscal year 2013.

Product Revenues

The \$8.2 million decrease in product revenues during fiscal year 2015 was primarily due to the closure of 266 company-owned salons, partly offset by an increase in product sales to 145 additional franchisee locations and 91 newly constructed company-owned salons (net of relocations) during fiscal year 2015. Same-store product sales were flat primarily a result of a 1.7% increase in same-store guest visits, partly offset by a 1.7% decrease in average ticket. The \$44.3 million decrease in product revenues during fiscal year 2014 was primarily due to same-store product sales decreasing 10.3% and the closure of 259 company-owned salons. This was partly offset by an increase in product sales to franchisees primarily due to 97 additional franchisee locations and 127 newly constructed company-owned salons (net of relocations) during fiscal year 2014. The decrease in same-store product sales was primarily a result of a 14.7% decrease in same-store guest visits, partly offset by a 4.4% increase in average ticket.

The \$24.3 million decrease in product revenues during fiscal year 2013 was primarily due to same-store product sales decreasing 3.9%, the closure of 423 company-owned salons and the comparable prior period including an additional day from leap year, partly offset by an increase in product sales to franchisees primarily due to increases in franchised locations and product sales from 153 newly constructed company-owned salons (net of relocations) during fiscal year 2013. The decrease in same-store product sales was primarily a result of a 6.5% decrease in same-store guest visits,

partly offset by a 2.6% increase in average ticket.

26

Table of Contents

Royalties and Fees

Total franchised locations open at June 30, 2015 and 2014 were 2,324 and 2,179, respectively. The \$3.8 million increase in royalties and fees was due to increased franchised locations during fiscal year 2015 and same-store sales increases at franchised locations.

Total franchised locations open at June 30, 2014 and 2013 were 2,179 and 2,082, respectively. The \$1.8 million increase in royalties and fees was due to increased franchised locations during fiscal year 2014 and same-store sales increases at franchised locations.

Total franchised locations open at June 30, 2013 and 2012 were 2,082 and 2,016, respectively. The \$0.8 million increase in royalties and fees was due to increased franchised locations during fiscal year 2013 and same-store sales increases at franchised locations.

Cost of Service

The 50 basis point increase in cost of service as a percent of service revenues during fiscal year 2015 was primarily due to state minimum wage increases, higher field incentives as the Company anniversaries an incentive-lite year and the lapping of a prior year rebate, partly offset by improved stylist productivity and a decrease in healthcare costs. The 180 basis point increase in cost of service as a percent of service revenues during fiscal year 2014 was primarily due to the change in expense categorization as a result of the field reorganization that took place during the fourth quarter of fiscal year 2013. The change in the expense categorization accounted for 140 basis points of the increase for fiscal year 2014. The remaining increase of 40 basis points for fiscal year 2014 was primarily the result of negative leverage from stylist hours caused by a decline in same-store service sales, increased stylists wages and an increase in healthcare costs, partly offset by cost reductions due to the field reorganization and lower levels of bonuses and the lapping of a full commission coupon event that was not repeated.

The 220 basis point increase in cost of service as a percent of service revenues during fiscal year 2013 was primarily due to increased labor costs in our North American Value salons, a result of the Company's strategy to increase stylist hours in order to reduce guest wait times and improve the overall guest experience, and the negative leverage this created with same-store service sales declines. Also contributing to the basis point increase was the Company's decision earlier in the year to compensate stylists on the gross sales amount during certain coupon events and an increase in health insurance expense due to higher claims.

Cost of Product

The 60 basis point decrease in cost of product as a percent of product revenues during fiscal year 2015 was primarily the result of improved salon-level inventory management and compliance, closure of salons with higher product costs as a percent of product revenues and lapping of an inventory write-down in the prior year. These were partly offset by increased promotional activity and lapping of vendor rebates in the prior year.

The 480 basis point decrease in cost of product as a percent of product revenues during fiscal year 2014 was primarily the result of lapping a \$12.6 million non-cash impairment charge recorded in the prior year. Prior year clearance sales in connection with standardizing plan-o-grams and reducing retail product assortments and reduced sales commissions in fiscal year 2014 further contributed to the decrease in cost of product as a percent of product revenues.

The 470 basis point increase in cost of product as a percent of product revenues during fiscal year 2013 was mainly attributed to our inventory simplification program, which standardized retail plan-o-grams, eliminated retail products and consolidated from four owned-brand product lines to one. In connection with these activities, the Company sold through clearance approximately \$8.0 million of product and liquidated \$12.6 million of remaining inventory into non Regis distribution channels within the parameters of existing supply agreements. While negatively impacting cost of product as a percent of product revenues, clearance sales and liquidation of inventories generated higher cash returns than past practices of repackaging and returning products to distribution centers for restocking, disposal or return to vendors. Further impacting cost of product as a percent of product sales were Hurricane Sandy product donations, partly offset by reductions to commissions paid on retail sales.

Site Operating Expenses

Site operating expenses decreased \$11.0 million, or 30 basis points as a percent of consolidated revenues during fiscal year 2015 primarily due to store closures, mainly within our North American Value and Premium segments, lower self-insurance reserves, reduced marketing expenses, a sales and use tax refund and cost savings. The change in basis

points during fiscal year 2015 was negatively impacted from negative leverage as a result of a decline in same-store sales.

27

Table of Contents

Site operating expenses increased \$1.3 million, or 80 basis points as a percent of consolidated revenues during fiscal year 2014. After considering the prior year change in expense categorization as a result of the field reorganization that took place during the fourth quarter of fiscal year 2013, site operating expense decreased \$7.3 million during fiscal year 2014, primarily from increased salon connectivity costs to support the Company's POS system and salon workstations and increased marketing costs. These were partly offset by cost savings initiatives to lower utilities, janitorial and repairs and maintenance expenses, lower travel expense due to the field reorganization and reduced incentive compensation from lower same-store sales, lower self-insurance reserves and reduced freight. The change in basis points during fiscal year 2014 was negatively impacted by negative leverage as a result of a decline in same-store sales.

The 20 basis point increase in site operating expenses as a percent of consolidated revenues during fiscal year 2013 was primarily due to negative leverage from the decrease in same-store sales. Site operating expenses declined \$5.4 million primarily within our North American Value and Premium segments due to a decrease in advertising costs, utilities and janitorial expense, partly offset by increases in salon connectivity costs to support the Company's new POS system and salon workstations and higher salon repairs and maintenance expense.

General and Administrative

General and administrative expense (G&A) increased \$13.3 million, or 100 basis points as a percent of consolidated revenues, during fiscal year 2015. This increase was primarily driven by higher incentive compensation levels as the Company anniversaries an incentive-lite year, planned strategic investments in Asset Protection and Human Resource initiatives and the lapping of a favorable deferred compensation adjustment within our Unallocated corporate segment. These items were partly offset by cost savings and reduced legal and professional fees. The change in basis points during fiscal year 2015 was also negatively impacted by negative leverage as a result of a decline in same-store sales.

G&A declined \$53.9 million, or 210 basis points as a percent of consolidated revenues, during fiscal year 2014. This improvement was primarily due to the change in expense categorization as a result of the field reorganization. The change in expense categorization accounted for \$29.6 million of the decrease for fiscal year 2014. The remaining decrease of \$24.3 million during fiscal year 2015 was primarily due to reduced levels of incentive compensation in our North American Value and Unallocated Corporate segments, cost savings from various initiatives and the field reorganization, reduced health insurance costs and a favorable deferred compensation adjustment within our Unallocated Corporate segment, partly offset by legal and professional fees.

G&A declined \$22.9 million, or 60 basis points as a percent of consolidated revenues, during fiscal year 2013. This improvement was primarily due to reductions in salaries and benefits from our corporate reorganization executed in the prior year, certain cost savings initiatives in fiscal year 2013 and reduced levels of incentive pay in fiscal year 2013, partly offset by costs associated with rolling out our new POS system.

Rent

Rent expense decreased by \$13.1 million, or 20 basis points as a percent of consolidated revenues, during fiscal year 2015 primarily due to salon closures, mainly within our North American Value and Premium segments. The change in basis points during fiscal year 2015 was also impacted by negative leverage associated with this fixed cost category.

Rent expense decreased by \$2.9 million during fiscal year 2014 primarily due to salon closures, mainly within our North American Value and Premium segments. The 90 basis point increase in rent expense as a percent of consolidated revenues during fiscal year 2014 was primarily due to negative leverage associated with this fixed asset category.

Rent expense decreased by \$6.2 million during fiscal year 2013 primarily due to salon closures, mainly within our North American Value and Premium segments. The 50 basis point increase during fiscal year 2013 was primarily due to negative leverage associated with this fixed cost category.

Depreciation and Amortization

Depreciation and amortization expense (D&A) decreased \$16.9 million, or 80 basis points as a percent of consolidated revenues, during fiscal year 2015. This decrease was primarily driven by lower depreciation expense on a reduced salon base and reduced fixed asset impairment charges.

D&A increased \$8.0 million, or 80 basis points as a percent of consolidated revenues during fiscal year 2014. This increase was primarily due to increased fixed asset impairment charges recorded in our North American Premium and

Value segments, partly offset by declines in depreciation expense on a reduced salon base.

D&A decreased \$13.2 million, or 40 basis points as a percent of consolidated revenues during fiscal year 2013. This decrease was primarily due to our lapping \$16.2 million of accelerated amortization associated with the adjustment to the

28

Table of Contents

useful life of the Company's previously internally developed POS system. Partly offsetting the 40 basis point improvement was \$1.9 million (\$1.2 million net of tax or \$0.02 per diluted share) of accelerated depreciation expense in fiscal year 2013 associated with exiting a leased building in conjunction with consolidating the Company's headquarters.

Goodwill Impairment

The Company did not record a goodwill impairment charge in fiscal year 2015 and 2013.

The Company recorded a goodwill impairment charge of \$34.9 million related to the Regis salon concept during fiscal year 2014. The Company redefined its operating segments during the second quarter of fiscal year 2014. In addition, overall performance trends were down. For these reasons, the Company was required to perform this goodwill assessment in the second quarter of fiscal year 2014. As a result of this non-cash charge, the Company has no further goodwill on its balance sheet associated with the Regis salon concept (North American Premium). The Company remains focused on improving the performance of this business as it stabilizes and turns around the business. See Notes 1 and 4 to the Consolidated Financial Statements.

Interest Expense

Interest expense decreased by \$12.1 million, or 60 basis points as a percent of consolidated revenues during fiscal year 2015 primarily due the settlement of the \$172.5 million convertible senior notes in July 2014, partly offset by interest on the \$120.0 million Senior Term Notes issued in November 2013.

Interest expense decreased by \$14.7 million, or 60 basis points as a percent of consolidated revenues during fiscal year 2014 primarily due to a \$10.6 million make-whole payment associated with the prepayment of private placement debt in June 2013 and decreased average outstanding debt and related interest rates compared to the prior year.

Interest expense increased by \$8.7 million, or 50 basis points as a percent of consolidated revenues during fiscal year 2013 primarily due to a \$10.6 million make-whole payment associated with the prepayment of private placement debt in June 2013, partly offset by decreased debt levels as compared to fiscal year 2012.

Interest Income and Other, net

Interest income and other, net was flat during fiscal year 2015 compared to the prior year period.

Interest income and other, net decreased \$33.4 million, or 170 basis points as a percent of consolidated revenues, during fiscal year 2014. This decrease was primarily due to the recognition of a \$33.8 million foreign currency translation gain in connection with the sale of Provalliance during fiscal year 2013.

Interest income and other, net increased \$30.3 million, or 160 basis points as a percent of consolidated revenues, during fiscal year 2013. This increase was primarily due to the recognition of a \$33.8 million foreign currency translation gain in connection with the sale of Provalliance, partly offset by fiscal year 2012 including a favorable legal settlement and the foreign currency impact on the Company's investment in MY Style.

Income Taxes

During fiscal year 2015, the Company recognized income tax expense of \$14.6 million on \$5.0 million of loss from continuing operations before income taxes and equity in loss of affiliated companies, for an effective tax rate of (293.4)%. The recorded tax expense and effective tax rate for fiscal year 2015 are higher than would be expected primarily due to the establishment of a \$2.1 million valuation allowance against the majority of the Canadian deferred tax assets and \$8.9 million non-cash tax expense relating to tax benefits on certain indefinite-lived assets that the Company cannot recognize for reporting purposes. This non-cash tax expense will continue as long as we have a valuation allowance in place and will cause our effective tax rate to fluctuate from quarter to quarter.

During fiscal year 2014, the Company recognized income tax expense of \$73.0 million on \$55.3 million of loss from continuing operations before income taxes and equity in loss of affiliated companies, for an effective tax rate of (131.9)%. The recorded tax expense and effective tax rate for fiscal year 2014 are higher than would be expected as a result of the \$86.6 million non-cash valuation allowance established against the Company's U.S. and U.K. deferred tax assets and the tax effect of the \$34.9 million goodwill impairment charge, which was partly non-deductible for tax purposes.

During fiscal year 2013, the Company recognized an income tax benefit of \$9.7 million on \$11.8 million of income from continuing operations before income taxes and equity in loss of affiliated companies, for an effective tax rate of 81.9%. The larger than expected effective tax rate benefit was because the \$33.8 million foreign currency translation

gain recognized at the time of the sale of Provalliance was primarily non-taxable, along with a benefit from Work Opportunity Tax Credits.

Table of Contents

Equity in Loss of Affiliated Companies, Net of Income Taxes

The loss in affiliated companies, net of income taxes, of \$13.6 million for fiscal year 2015 was primarily due to the Company recording its portion of EEG's non-cash deferred tax asset valuation allowance (\$6.9 million) and EEG's net loss (\$2.0 million), plus other than temporary non-cash impairment charges (\$4.7 million). See Note 5 to the Consolidated Financial Statements.

The loss in affiliated companies, net of income taxes for fiscal year 2014, was primarily due to the Company recording its portion of EEG's goodwill impairment charge (\$12.6 million, net of income taxes) and fixed asset impairment charges (\$3.3 million, net of income taxes), partly offset by the recovery of \$3.1 million on previously impaired investments in Yamano Holding Corporation. See Note 5 to the Consolidated Financial Statements.

The loss in affiliated companies, net of income taxes for fiscal year 2013 was primarily due to the Company's \$17.9 million other than temporary impairment charge recorded on its investment in EEG, partly offset by the Company's share of EEG's net income and a \$0.6 million gain on the Provalliance Equity Put that automatically terminated as a result of the sale of the Company's investment in Provalliance. See Note 5 to the Consolidated Financial Statements.

(Loss) Income from Discontinued Operations, Net of Income Taxes

During fiscal year 2015, the Company recognized \$0.6 million of tax expense related to a legal settlement associated with the Trade Secret salon concept. See Note 2 to the Consolidated Financial Statements.

During fiscal year 2014, the Company recognized \$1.4 million of tax benefit from discontinued operations for the release of tax reserves associated with the disposition of our Trade Secret salon concept. See Note 2 to the Consolidated Financial Statements.

During fiscal year 2013, the Company recognized \$25.0 million of income, net of income taxes from discontinued operations, primarily from an after-tax gain of \$17.8 million realized upon the sale of Hair Club and \$12.6 million of income from Hair Club operations, net of income taxes, partly offset by \$5.4 million of expense, net of income taxes, associated with professional and transaction fees.

Recent Accounting Pronouncements

Recent accounting pronouncements are discussed in Note 1 to the Consolidated Financial Statements.

LIQUIDITY AND CAPITAL RESOURCES

Sources of Liquidity

Funds generated by operating activities, available cash and cash equivalents, and our revolving credit facility are our most significant sources of liquidity. We believe our sources of liquidity will be sufficient to sustain operations and to finance strategic initiatives for at least the next twelve months. We also anticipate having access to long-term financing. However, in the event our liquidity is insufficient and we are not able to access long-term financing, we may be required to limit or delay our strategic initiatives. There can be no assurance that we will continue to generate cash flows at or above current levels.

As of June 30, 2015, cash and cash equivalents were \$212.3 million, with \$198.0, \$4.2 and \$10.1 million in the U.S., Canada and Europe, respectively. During fiscal year 2015, \$16.4 million of cash was returned to the U.S. through the repayment of intercompany notes.

We have a \$400.0 million five-year senior unsecured revolving credit facility with a syndicate of banks that expires in June 2018. As of June 30, 2015, the Company had no outstanding borrowings under the facility and had outstanding standby letters of credit under the facility of \$2.1 million, primarily related to its self-insurance program. Accordingly, unused available credit under the facility at June 30, 2015 was \$397.9 million. Refer to additional discussion under Financing Arrangements.

Our ability to access our revolving credit facility is subject to our compliance with the terms and conditions of such facility, including a maximum leverage ratio, a minimum fixed charge ratio and other covenants and requirements. At June 30, 2015, we were in compliance with all covenants and other requirements of our credit agreement and senior notes.

Uses of Cash

The Company has a capital allocation policy that focuses on three key principles. These principles focus on preserving a strong balance sheet and enhancing operating flexibility, preventing unnecessary dilution so the benefits of future value accrue to shareholders and deploying capital to the highest and best use by optimizing the tradeoff between risk and after-tax returns.

Table of Contents

During fiscal year 2015, the Company settled the \$172.5 million convertible notes at par value with cash and repurchased approximately 3.1 million shares for \$47.9 million.

Cash Flows

Cash Flows from Operating Activities

Fiscal year 2015 cash provided by operating activities of \$94.0 million decreased by \$22.8 million compared to the previous fiscal year, primarily as a result of a \$12.0 million decrease in working capital primarily due to lapping fiscal year 2014 income tax refunds and lower earnings.

Fiscal year 2014 cash provided by operating activities of \$116.8 million increased by \$47.0 million compared to the previous fiscal year, primarily as a result of increased cash provided by working capital partly offset by the operating loss. The \$77.2 million working capital improvement over the previous year was primarily the result of cash received in fiscal year 2014 for income tax refunds and the collection of weekend credit card receivables outstanding at the end of the previous fiscal year. Fiscal year 2013 working capital included cash used for increased deferred compensation payments and build of the outstanding income tax receivable collected in fiscal year 2014.

Fiscal year 2013 cash provided by operating activities of \$69.8 million declined by \$83.9 million compared to the previous fiscal year. Despite higher earnings in the fiscal year 2013, the decrease was attributable to decreases in revenues and increased cost of service and product resulting in changes in working capital. Cash payments of deferred compensation and income taxes also contributed to declines in cash provided by operating activities.

Cash Flows from Investing Activities

Cash used in investing activities during fiscal year 2015 of \$35.6 million was less than the \$44.4 million used in fiscal year 2014. In fiscal year 2015, we used \$38.3 million for capital expenditures, partly offset by cash proceeds from sale of salon assets of \$3.0 million.

Cash used in investing activities during fiscal year 2014 of \$44.4 million was less than the \$165.1 million cash provided in fiscal year 2013. In fiscal year 2014, we used \$49.4 million for capital expenditures and received \$3.1 million from the recovery of the Company's previously impaired investment in Yamano and the receipt of \$2.0 million for the final working capital adjustment on the sale of Hair Club.

Cash provided by investing activities during fiscal year 2013 of \$165.1 million was greater than the \$90.9 million use of cash in fiscal year 2012. In fiscal year 2013, we received \$266.2 million from sales of Hair Club and Provalliance and \$26.4 million from EEG related to principal payments on the outstanding note receivable and revolving line of credit. These were partly offset by the Company placing \$24.5 million into restricted cash to collateralize its self-insurance program, enabling the Company to reduce fees associated with previously utilized standby letters of credit and increased capital expenditures primarily related to the Company's POS system implementation.

Cash Flows from Financing Activities

During fiscal years 2015, 2014 and 2013, cash (used in) provided by financing activities were for net (repayments) borrowings of long-term debt of \$(173.8), \$111.0 and \$(118.2) million, respectively and dividend payments of \$0.0, \$6.8 and \$13.7 million, respectively. During fiscal years 2015 and 2013, the Company repurchased \$47.9 and \$14.9 million of common stock, respectively. During fiscal year 2014, the Company issued \$120.0 million aggregate principal amount of senior unsecured notes due December 2017.

Financing Arrangements

Financing activities are discussed in Note 7 to the Consolidated Financial Statements. Derivative activities are discussed in Part II, Item 7A, "Quantitative and Qualitative Disclosures about Market Risk."

Management believes cash generated from operations and amounts available under existing debt facilities will be sufficient to fund its anticipated capital expenditures and required debt repayments for the foreseeable future. As of June 30, 2015, we have \$397.9 million available under our existing revolving credit facility. We were in compliance with all covenants and other requirements of our credit agreement and senior notes as of June 30, 2015.

Table of Contents

The Company's financing arrangements consists of the following:

	Maturity Dates (fiscal year)	Interest rate %		June 30,	
		2015	2014	2015	2014
				(Dollars in thousands)	
Convertible senior notes	2015	5.0%	5.0%	\$—	\$172,246
Senior term notes	2018	5.75	5.75	120,000	120,000
Revolving credit facility	2018	—	—	—	—
Equipment and leasehold notes payable	2015 - 2016	4.90 - 8.75	4.90 - 8.75	2	1,257
				120,002	293,503
Less current portion				(2) (173,501
Long-term portion				\$120,000	\$120,002

In November 2013, the Company issued \$120.0 million aggregate principal amount of 5.75% unsecured senior notes due December 2017. Net proceeds from the issuance of the Senior Term Notes were \$118.1 million. Interest on the Senior Term Notes is payable semi-annually in arrears on June 1 and December 1 of each year, beginning on June 1, 2014. The entire outstanding principal is due at maturity.

The Company has a \$400.0 million unsecured five-year revolving credit facility that expires in June 2018 and includes, among other things, a maximum leverage ratio covenant, a minimum fixed charge coverage ratio covenant and certain restrictions on liens, liquidity and other indebtedness. The Company may request an increase in revolving credit commitments under the facility of up to \$200.0 million under certain circumstances. Events of default under the Credit Agreement include a change of control of the Company.

During June 2013, the Company prepaid \$89.3 million of unsecured, fixed rate, senior term notes outstanding under a private shelf agreement.

Our debt to capitalization ratio, calculated as total debt as a percentage of total debt and shareholders' equity at fiscal year-end, was as follows:

As of June 30,	Debt to Capitalization	Basis Point Increase (Decrease)(1)
2015	16.1	% (1,300)
2014	29.1	1,210
2013	17.0	(760)

(1) Represents the basis point change in debt to capitalization as compared to prior fiscal year-end (June 30).

The basis point improvement in the debt to capitalization ratio as of June 30, 2015 compared to June 30, 2014 was primarily due to the \$173.8 million repayment of long-term debt, which included \$172.5 million for the repayment of the convertible notes. This was partly offset by the repurchase of 3.1 million shares of common stock for \$47.9 million.

The basis point increase in the debt to capitalization ratio as of June 30, 2014 compared to June 30, 2013 was primarily due to the issuance of the \$120.0 million Senior Term Notes, the \$34.9 million non-cash goodwill impairment charge for the Regis salon concept, the \$86.6 million non-cash valuation allowance established against the United States and United Kingdom deferred tax assets and the \$12.6 million (net of tax) charge recorded by the Company for its share of the non-cash goodwill impairment charge recorded by EEG.

The basis point improvement in the debt to capitalization ratio as of June 30, 2013 compared to June 30, 2012 was primarily due to the prepayment of \$89.3 million in private placement debt.

Table of Contents

Contractual Obligations and Commercial Commitments

The following table reflects a summary of obligations and commitments outstanding by payment date as of June 30, 2015:

Contractual Obligations	Total	Payments due by period			
		Within 1 year (Dollars in thousands)	1 - 3 years	3 - 5 years	More than 5 years
On-balance sheet:					
Debt obligations	\$ 120,000	\$—	\$—	\$ 120,000	\$—
Capital lease obligations	2	2	—	—	—
Other long-term liabilities	15,308	2,652	3,889	1,690	7,077
Total on-balance sheet	135,310	2,654	3,889	121,690	7,077
Off-balance sheet(a):					
Operating lease obligations	937,509	294,540	404,968	183,777	54,224
Interest on long-term debt and capital lease obligations	24,246	6,900	13,800	3,546	—
Total off-balance sheet	961,755	301,440	418,768	187,323	54,224
Total	\$ 1,097,065	\$ 304,094	\$ 422,657	\$ 309,013	\$ 61,301

(a) In accordance with accounting principles generally accepted in the United States of America, these obligations are not reflected in the Consolidated Balance Sheet.

On-Balance Sheet Obligations

Our long-term obligations are composed primarily of senior term notes. There were no outstanding borrowings under our revolving credit facility at June 30, 2015. Interest payments on long-term debt and capital lease obligations are estimated based on each debt obligation's agreed upon rate as of June 30, 2015 and scheduled contractual repayments. Other long-term liabilities of \$15.3 million include \$11.8 million related to a Nonqualified Deferred Salary Plan and a salary deferral program of \$3.6 million related to established contractual payment obligations under retirement and severance payment agreements for a small number of retired employees.

This table excludes short-term liabilities, other than the current portion of long-term debt, disclosed on our balance sheet as the amounts recorded for these items will be paid in the next year. We have no unconditional purchase obligations. Also excluded from the contractual obligations table are payment estimates associated with employee health and workers' compensation claims for which we are self-insured. The majority of our recorded liability for self-insured employee health and workers' compensation losses represents estimated reserves for incurred claims that have yet to be filed or settled.

The Company has unfunded deferred compensation contracts covering certain management and executive personnel. The deferred compensation contracts are offered to key executives based on their level within the Company. Because we cannot predict the timing or amount of future payments related to these contracts, such amounts were not included in the table above. Related obligations totaled \$2.8 and \$5.9 million and are included in accrued liabilities and other noncurrent liabilities, respectively, in the Consolidated Balance Sheet at June 30, 2015. See Note 10 to the Consolidated Financial Statements.

As of June 30, 2015, we have liabilities for uncertain tax positions. We are not able to reasonably estimate the amount by which the liabilities will increase or decrease over time; however, at this time, we do not expect a significant payment related to these obligations within the next fiscal year. See Note 9 to the Consolidated Financial Statements.

Off-Balance Sheet Arrangements

Operating leases primarily represent long-term obligations for the rental of salons, including leases for company-owned locations, as well as future salon franchisee lease payments of approximately \$207.4 million, which are reimbursed to the Company by franchisees. Regarding franchisee subleases, we generally retain the right to the related salon assets, net of any outstanding obligations, in the event of a default by a franchise owner. Management has not experienced and does not expect any material loss to result from these arrangements.

Table of Contents

We are a party to a variety of contractual agreements under which we may be obligated to indemnify the other party for certain matters, which indemnities may be secured by operation of law or otherwise, in the ordinary course of business. These contracts primarily relate to our commercial contracts, operating leases and other real estate contracts, financial agreements, agreements to provide services and agreements to indemnify officers, directors and employees in the performance of their work. While our aggregate indemnification obligation could result in a material liability, we are not aware of any current matter that we expect to result in a material liability.

We do not have other unconditional purchase obligations or significant other commercial commitments such as commitments under lines of credit and standby repurchase obligations or other commercial commitments.

We continue to negotiate and enter into leases and commitments for the acquisition of equipment and leasehold improvements related to future salon locations.

We do not have any relationships with unconsolidated entities or financial partnerships, such as entities often referred to as structured finance or special purpose entities, which would have been established for the purpose of facilitating off-balance sheet financial arrangements or other contractually narrow or limited purposes at June 30, 2015. As such, we are not materially exposed to any financing, liquidity, market or credit risk that could arise if we had engaged in such relationships.

Dividends

We paid dividends of \$0.12 and \$0.24 per share during fiscal years 2014 and 2013, respectively. In December 2013, the Company announced a new capital allocation policy. As a result of this policy, the Board of Directors elected to discontinue declaring regular quarterly dividends.

Share Repurchase Program

In May 2000, the Company's Board of Directors (Board) approved a stock repurchase program. Originally, the program authorized up to \$50.0 million to be expended for the repurchase of the Company's stock. The Board elected to increase this maximum to \$100.0 million in August 2003, to \$200.0 million on May 3, 2005, to \$300.0 million on April 26, 2007 and to \$350.0 million on April 21, 2015. The timing and amounts of any repurchases will depend on many factors, including the market price of the common stock and overall market conditions. Historically, the repurchases to date have been made primarily to eliminate the dilutive effect of shares issued in conjunction with acquisitions, restricted stock grants and stock option exercises. In fiscal year 2015, repurchases were made in accordance with the Company's capital allocation policy issued in 2013. All repurchased shares become authorized but unissued shares of the Company. This repurchase program has no stated expiration date. The Company repurchased 3,054,387 shares for \$47.9 million and 909,175 shares for \$14.9 million through its share repurchase program during fiscal years 2015 and 2013, respectively. The Company did not repurchase any shares during fiscal year 2014. As of June 30, 2015, a total accumulated 10.7 million shares have been repurchased for \$289.1 million. As of June 30, 2015, \$60.9 million remained outstanding under the approved stock repurchase program.

CRITICAL ACCOUNTING POLICIES

The Consolidated Financial Statements are prepared in conformity with accounting principles generally accepted in the United States of America. In preparing the Consolidated Financial Statements, we are required to make various judgments, estimates and assumptions that could have a significant impact on the results reported in the Consolidated Financial Statements. We base these estimates on historical experience and other assumptions believed to be reasonable under the circumstances. Estimates are considered to be critical if they meet both of the following criteria: (1) the estimate requires assumptions about material matters that are uncertain at the time the accounting estimates are made, and (2) other materially different estimates could have been reasonably made or material changes in the estimates are reasonably likely to occur from period to period. Changes in these estimates could have a material effect on our Consolidated Financial Statements.

Our significant accounting policies can be found in Note 1 to the Consolidated Financial Statements. We believe the following accounting policies are most critical to aid in fully understanding and evaluating our reported financial condition and results of operations.

Investments In Affiliates

The Company has equity investments in securities of certain privately held entities. The Company accounts for these investments under the equity or cost method of accounting. Investments accounted for under the equity method are recorded at the amount of the Company's investment and adjusted each period for the Company's share of the investee's income or loss. Investments are reviewed for changes in circumstance or the occurrence of events that suggest the Company's investment may not be recoverable.

Table of Contents

During fiscal years 2015 and 2013, the Company recorded non-cash impairments of \$4.7 and \$17.9 million, respectively, related to its investment in EEG. Due to economic, regulatory and other factors, including declines in enrollment, revenue and profitability in the for-profit secondary educational market, the Company may be required to take additional non-cash impairment charges related to its investments and such non-cash impairments could be material to its consolidated balance sheet and results of operations. During fiscal year 2015, the Company recorded its share, \$6.9 million, of a non-cash deferred tax valuation allowance recorded directly by EEG. During fiscal years 2014 and 2013, the Company recorded its share, \$21.2 and \$2.1 million, respectively, of non-cash impairment charges recorded directly by EEG for goodwill and long-lived and intangible assets. EEG has no remaining goodwill. As of June 30, 2015, the exposure to loss related to the Company's involvement with EEG is the \$14.8 million carrying value of the investment. See Note 5 to the Consolidated Financial Statements.

Goodwill

As of June 30, 2015 and 2014, the North American Value reporting unit had \$419.0 and \$425.3 million of goodwill, respectively and the North American Premium and International reporting units had no goodwill. See Note 4 to the Consolidated Financial Statements. The Company tests goodwill impairment on an annual basis, during the Company's fourth fiscal quarter, and between annual tests if an event occurs, or circumstances changes, that would more likely than not reduce the fair value of a reporting unit below its carrying amount.

Goodwill impairment test is performed at the reporting unit level, which are the same as the Company's operating segments. The goodwill test involves a two-step process. The first step is a comparison of the reporting unit's fair value to its carrying value, including goodwill. If the reporting unit's fair value exceeds its carrying value, no further procedures are required. However, if the reporting unit's fair value is less than the carrying value, an impairment of goodwill may exist, requiring a second step to measure the amount of impairment loss. If the implied fair value of goodwill is less than the recorded goodwill, an impairment charge is recorded for the difference.

In applying the goodwill impairment test, the Company may assess qualitative factors to determine whether it is more likely than not that the fair value of the reporting units is less than its carrying value ("Step 0"). Qualitative factors may include, but are not limited to, economic, market and industry condition, cost factors, and overall financial performance of the reporting unit. If after assessing these qualitative factors, the Company determines it is "more-likely-than-not" that the carrying value is less than the fair value, then performing the two-step impairment test is unnecessary.

The carrying value of each reporting unit is based on the assets and liabilities associated with the operations of the reporting unit, including allocation of shared or corporate balances among reporting units. Allocations are generally based on the number of salons in each reporting unit as a percent of total company-owned salons.

For the two-step impairment test, the Company calculates estimated fair values of the reporting units based on discounted future cash flows utilizing estimates in annual revenue, service and product margins, fixed expense rates, allocated corporate overhead, and long-term growth rates for determining terminal value. Where available and as appropriate, comparative market multiples are used in conjunction with the results of the discounted cash flows. The Company periodically engages third-party valuation consultants to assist in evaluating the Company's estimated fair value calculations.

Following is a description of the goodwill impairment analyses for each of the fiscal years:

Fiscal Year 2015

During the Company's annual impairment test, the Company assessed qualitative factors to determine whether it is more likely than not that the fair value of the reporting units is less than its carrying value ("Step 0"). The Company determined it is "more-likely-than-not" that the carrying value is less than the fair value. Accordingly, the Company did not perform a two-step quantitative analysis.

Fiscal Year 2014

During the second quarter of fiscal year 2014, the Company experienced two triggering events that resulted in the Company testing its goodwill for impairment. First, the Company redefined its operating segments to reflect how the chief operating decision maker evaluates the business as a result of restructuring the Company's North American field organization. Based on the changes to the Company's operating segment structure, goodwill has been reallocated to the new reporting units at June 30, 2014. See Note 14 to the Consolidated Financial Statements.

Second, the Regis and Promenade reporting units reported lower than projected same-store sales that were unfavorable compared to the Company's projections used in the fiscal year 2013 annual goodwill impairment test.

Table of Contents

Accordingly, during the second quarter of fiscal year 2014, the Company performed interim goodwill impairment tests on its former Regis and Promenade reporting units. The impairment tests resulted in a \$34.9 million non-cash goodwill impairment charge on the former Regis reporting unit and no impairment on the former Promenade reporting unit, as its estimated fair value exceeded its carrying value by approximately 12.0%. See Note 9 to the Consolidated Financial Statements.

Fiscal Year 2013

During the Company's annual impairment test, the Company performed the first step of the quantitative goodwill impairment test and determined that the fair value exceeded the carrying value for each of the Company's reporting units. Accordingly, the Company did not perform any further analysis.

As of June 30, 2015, the Company's estimated fair value, as determined by the sum of our reporting units' fair value, reconciled within a reasonable range of our market capitalization, which included an assumed control premium of 25.0%.

Long-Lived Assets, Excluding Goodwill

The Company assesses the impairment of long-lived assets at the individual salon level, as this is the lowest level for which identifiable cash flows are largely independent of other groups of assets and liabilities, when events or changes in circumstances indicate the carrying value of the assets or the asset grouping may not be recoverable. Factors considered in deciding when to perform an impairment review include significant under-performance of an individual salon in relation to expectations, significant economic or geographic trends, and significant changes or planned changes in our use of the assets. Impairment is evaluated based on the sum of undiscounted estimated future cash flows expected to result from use of the long-lived assets that do not recover the carrying values. If the undiscounted estimated cash flows are less than the carrying value of the assets, the Company calculates an impairment charge based on the assets' estimated fair value. The fair value of the long-lived assets is estimated using a discounted cash flow model based on the best information available, including market data and salon level revenues and expenses. Long-lived asset impairment charges are recorded within depreciation and amortization in the Consolidated Statement of Operations.

Judgments made by management related to the expected useful lives of long-lived assets and the ability to realize undiscounted cash flows in excess of the carrying amounts of such assets are affected by factors such as the ongoing maintenance and improvement of the assets, changes in economic conditions and changes in operating performance. As the ongoing expected cash flows and carrying amounts of long-lived assets are assessed, these factors could cause the Company to realize material impairment charges.

A summary of long-lived asset impairment charges follows:

	Fiscal Years		
	2015	2014	2013
	(Dollars in thousands)		
North American Value	\$9,612	\$11,714	\$5,031
North American Premium	4,804	5,014	3,042
International	188	1,599	151
Total	\$14,604	\$18,327	\$8,224

Income Taxes

Deferred income tax assets and liabilities are recognized for the expected future tax consequences of events that have been included in the Consolidated Financial Statements or income tax returns. Deferred income tax assets and liabilities are determined based on the differences between the financial statement and tax basis of assets and liabilities using currently enacted tax rates in effect for the years in which the differences are expected to reverse. A valuation allowance is established for any portion of deferred tax assets that are not considered more likely than not to be realized. The Company evaluates all evidence, including recent financial performance, the existence of cumulative year losses and our forecast of future taxable income, to assess the need for a valuation allowance against our deferred tax assets. While the determination of whether or not to record a valuation allowance is not fully governed by a specific objective test, accounting guidance places significant weight on recent financial performance.

During fiscal year 2015, the Company was no longer able to conclude that it was more likely than not that the majority of its Canadian deferred tax assets would be fully realized and established a \$2.1 million valuation allowance on these deferred tax assets. The primary cause for the Canadian valuation allowance was due to the recent negative financial performance in Canada and cumulative losses incurred in recent years. During fiscal year 2014, the Company established an \$86.6 million valuation allowance on its U.S. and U.K. deferred tax assets.

Table of Contents

The Company will continue to assess its ability to realize its deferred tax assets on a quarterly basis and will reverse the valuation allowance and record a tax benefit when the Company generates sufficient sustainable pretax earnings to make the realizability of the deferred tax assets more likely than not.

The Company reserves for unrecognized tax benefits, interest and penalties related to anticipated tax audit issues in the U.S. and other tax jurisdictions based on an estimate of whether additional taxes will be due. If payment of these amounts ultimately proves to be unnecessary, the reversal of these liabilities would result in tax benefits being recognized in the period in which it is determined that the liabilities are no longer necessary. If the estimate of unrecognized tax benefits, interest and penalties proves to be less than the ultimate assessment, additional expenses would result. Inherent in the measurement of deferred balances are certain judgments and interpretations of tax laws and published guidance with respect to the Company's operations. Income tax expense is primarily the current tax payable for the period and the change during the period in certain deferred tax assets and liabilities.

Contingencies

The Company is a defendant in various lawsuits and claims arising out of the normal course of business. Like certain other large retail employers, the Company has been faced with allegations of purported class-wide consumer and wage and hour violations. Litigation is inherently unpredictable and the outcome of these matters cannot presently be determined. Although the actions are being vigorously defended, the Company could in the future incur judgments or enter into settlements of claims that could have a material adverse effect on its results of operations in any particular period.

In addition, the Company was a nominal defendant, and nine current and former directors and officers of the Company were named defendants, in a shareholder derivative action in Minnesota state court. The derivative shareholder action alleged that the individual defendants breached their fiduciary duties to the Company in connection with their approval of certain executive compensation arrangements and certain related party transactions. The Board of Directors appointed a Special Litigation Committee to investigate the claims and allegations made in the derivative action, and to decide on behalf of the Company whether the claims and allegations should be pursued. In April 2014, the Special Litigation Committee issued a report and concluded the claims and allegations should not be pursued, and in September 2014 the case was dismissed by court order. In a collateral proceeding, the plaintiff filed a motion for an award of fees in November 2014. The Company has opposed the motion and this collateral proceeding is pending. During fiscal years 2015, 2014 and 2013, the Company incurred \$0.7, \$3.3 and \$1.2 million of expense in conjunction with the derivative shareholder action. During fiscal year 2015, the Company received insurance reimbursement of \$1.0 million for legal fees previously paid in conjunction with the derivative shareholder action.

See Note 9 for discussion regarding certain issues that have resulted from the IRS' audit of fiscal year 2010 and 2011. In addition, the Company is currently under payroll tax examination by the IRS for calendar years 2012 and 2013. Final resolution of these issues is not expected to have a material impact on the Company's financial position.

Item 7A. Quantitative and Qualitative Disclosures About Market Risk

The primary market risk exposure of the Company relates to changes in interest rates in connection with its debt, specifically the revolving credit facility which bears interest at variable rates based on LIBOR plus an applicable borrowing margin. Additionally, the Company is exposed to foreign currency translation risk related changes in the Canadian dollar and British Pound. The Company has established policies and procedures that govern the management of these exposures through the use of derivative financial instrument contracts. By policy, the Company does not enter into such contracts for the purpose of speculation. The following details the Company's policies and use of financial instruments.

Interest Rate Risk:

The Company has established an interest rate management policy that attempts to minimize its overall cost of debt, while taking into consideration earnings implications associated with volatility in short-term interest rates. On occasion, the Company uses interest rate swaps to further mitigate the risk associated with changing interest rates and to maintain its desired balances of fixed and floating rate debt. In addition, access to variable rate debt is available through the Company's revolving credit facility. The Company reviews its policy and interest rate risk management

quarterly and makes adjustments in accordance with market conditions and the Company's short and long-term borrowing needs. As of June 30, 2015, the Company did not have any outstanding variable rate debt as there were no amounts outstanding on the revolving credit facility. The Company had outstanding fixed rate debt balances of \$120.0 and \$293.5 million at June 30, 2015 and 2014, respectively.

Table of Contents

Foreign Currency Exchange Risk:

Over 85% of the Company's revenue, expense and capital purchasing activities are transacted in United States dollars. However, because a portion of the Company's operations consists of activities outside of the United States, the Company has transactions in other currencies, primarily the Canadian dollar and British pound. In preparing the Consolidated Financial Statements, the Company is required to translate the financial statements of its foreign subsidiaries from the currency in which they keep their accounting records, generally the local currency, into United States dollars. Different exchange rates from period to period impact the amounts of reported income and the amount of foreign currency translation recorded in accumulated other comprehensive income (AOCI). As part of its risk management strategy, the Company frequently evaluates its foreign currency exchange risk by monitoring market data and external factors that may influence exchange rate fluctuations. As a result, the Company may engage in transactions involving various derivative instruments to hedge assets, liabilities and purchases denominated in foreign currencies. As of June 30, 2015, the Company did not have any derivative instruments to manage its foreign currency risk.

During fiscal years 2015, 2014 and 2013, the foreign currency (loss) gain included in net income was \$(1.3), \$0.1 and \$33.4 million, respectively. During fiscal year 2013, Company recognized a \$33.8 million foreign currency translation gain in connection with the sale of Provalliance.

Report of Independent Registered Public Accounting Firm

To the Board of Directors and Shareholders of Regis Corporation:

In our opinion, the accompanying consolidated balance sheets and the related consolidated statements of operations, comprehensive loss, shareholders' equity and cash flows present fairly, in all material respects, the financial position of Regis Corporation and its subsidiaries at June 30, 2015 and June 30, 2014, and the results of their operations and their cash flows for each of the three years in the period ended June 30, 2015 in conformity with accounting principles generally accepted in the United States of America. Also in our opinion, the Company did not maintain, in all material respects, effective internal control over financial reporting as of June 30, 2015, based on criteria established in Internal Control - Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) because a material weakness in internal control over financial reporting related to the accounting for leases existed as of that date. A material weakness is a deficiency, or a combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of the annual or interim financial statements will not be prevented or detected on a timely basis. The material weakness referred to above is described in Management's Report on Internal Control over Financial Reporting appearing under Item 9A. We considered this material weakness in determining the nature, timing, and extent of audit tests applied in our audit of the 2015 consolidated financial statements, and our opinion regarding the effectiveness of the Company's internal control over financial reporting does not affect our opinion on those consolidated financial statements. The Company's management is responsible for these financial statements, for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting included in management's report referred to above. Our responsibility is to express opinions on these financial statements and on the Company's internal control over financial reporting based on our integrated audits. We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement and whether effective internal control over financial reporting was maintained in all material respects. Our audits of the financial statements included examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audits also included performing such other procedures as we considered necessary in the circumstances. We believe that our audits provide a reasonable basis for our opinions.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. BUSINESS DESCRIPTION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Business Description:

Regis Corporation (the Company) owns, operates and franchises hairstyling and hair care salons throughout the United States (U.S.), the United Kingdom (U.K.), Canada and Puerto Rico. Substantially all of the hairstyling and hair care salons owned and operated by the Company in the U.S., Canada and Puerto Rico are located in leased space in enclosed mall shopping centers, strip shopping centers or Walmart Supercenters. Franchised salons throughout the U.S. are primarily located in strip shopping centers. Company-owned salons in the U.K. are owned and operated in malls, leading department stores, mass merchants and high-street locations.

During the second quarter of fiscal year 2014, the Company redefined its operating segments to reflect how the chief operating decision maker evaluates the business as a result of restructuring the Company's North American field organization. Based on the way the Company now manages its business, it has three reportable segments: North American Value, North American Premium and International salons. Prior to this change, the Company had two reportable operating segments: North American salons and International salons. See Note 14 to the Consolidated Statement of Operations. Concurrent with the change in reportable operating segments, the Company revised its prior period financial information to conform to the new segment structure. Historical financial information presented herein reflects this change.

Consolidation:

The Consolidated Financial Statements include the accounts of the Company and its subsidiaries after the elimination of intercompany accounts and transactions. All material subsidiaries are wholly owned. The Company consolidated variable interest entities where it has determined it is the primary beneficiary of those entities' operations.

Revisions:

The following is a summary of the impact of revisions on (loss) income from continuing operations for fiscal years 2014 and 2013:

	Fiscal Years	
	2014	2013
	(Dollars in thousands)	
(Loss) income from continuing operations, as reported	\$ (137,080)	\$ 4,166
Revisions:		
Deferred rent, pre-tax (1)	(157)	(471)
Previous out of period items, pre-tax (2)	(811)	2,154
Tax impact	(1,826)	(371)
Total revision impact	(2,794)	1,312
(Loss) income from continuing operations, as revised	\$ (139,874)	\$ 5,478

The Company recognizes rental expense on a straight-line basis at the time the leased space becomes available to the Company. During the fourth quarter of fiscal year 2015, the Company determined its deferred rent balance was understated by \$5.3 million. Accordingly, the Consolidated Financial Statements have been revised to correctly state its deferred rent balances and rent expense. The revisions resulted in an increase in net loss from continuing (1) operations of \$0.2 million for fiscal year 2014 and a decrease in net income from continuing operations of \$0.5 million for fiscal year 2013. Accrued expenses and other noncurrent liabilities increased \$1.0 and \$4.2 million, respectively, at June 30, 2014 and retained earnings at June 30, 2014 decreased \$5.2 million as a result of the cumulative adjustment for prior periods. This revision had no impact on cash provided by operations or net increase (decrease) in cash and cash equivalents for any year.

(2) Also in the fourth quarter of fiscal year 2015, the Company revised certain prior year amounts in the Consolidated Balance Sheet and Statement of Operations to correctly recognize understatements of self-insurance accruals, interest expense, uncertain tax positions and cash and overstatements of inventory. The impact of these revisions

resulted in an increase in net loss from continuing operations of \$0.8 million for fiscal year 2014 and an increase in net income from

Table of Contents

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

1. BUSINESS DESCRIPTION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

continuing operations of \$2.2 million for fiscal year 2013. Accrued expenses and other noncurrent liabilities increased \$0.8 and \$0.8 million, respectively, at June 30, 2014 and retained earnings at June 30, 2014 decreased by \$1.6 million as a result of the cumulative adjustment for prior periods. In addition, cash and cash equivalents at June 30, 2013 increased by \$0.6 million due to the revisions.

The Company assessed the materiality of these misstatements on prior periods' financial statements in accordance with SEC Staff Accounting Bulletin ("SAB") No. 99, Materiality, codified in ASC 250 ("ASC 250"), Presentation of Financial Statements, and concluded these misstatements were not material to any prior annual or interim periods. Accordingly, in accordance with ASC 250 (SAB No. 108, Considering the Effects of Prior Year Misstatements when Quantifying Misstatements in Current Year Financial Statements), the Consolidated Financial Statements as of June 30, 2014 and 2013, and the years then ended, which are presented herein, have been revised. The following are selected line items from the Company's Consolidated Financial Statements illustrating the effect of these revisions:

Variable Interest Entities:

The Company has or has had interests in certain privately held entities through arrangements that do not involve voting interests. Such entities, known as a variable interest entity (VIE), are required to be consolidated by its primary beneficiary. The Company evaluates whether or not it is the primary beneficiary for each VIE using a qualitative assessment that considers the VIE's purpose and design, the involvement of each of the interest holders and the risk and benefits of the VIE.

As of June 30, 2015, the Company has one VIE, Roosters MGC International LLC (Roosters), where the Company is the primary beneficiary. The Company owns a 60.0% ownership interest in Roosters. As of June 30, 2015, total assets, total liabilities and total shareholders' equity of Roosters were \$6.6, \$1.5 and \$5.1 million, respectively. Net income attributable to the non-controlling interest in Roosters was immaterial for fiscal years 2015, 2014 and 2013.

Shareholders' equity attributable to the non-controlling interest in Roosters was \$1.9 million and \$1.8 million as of June 30, 2015 and 2014 and recorded within retained earnings on the Consolidated Balance Sheet.

Table of Contents

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

1. BUSINESS DESCRIPTION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The Company utilized consolidation of variable interest entities guidance to determine whether or not its investment in Empire Education Group, Inc. (EEG) was a VIE, and if so, whether the Company was the primary beneficiary of the VIE. The Company concluded that EEG was not a VIE based on the fact that EEG had sufficient equity at risk. The Company accounts for EEG as an equity investment under the voting interest model, as the Company has granted the other shareholder of EEG an irrevocable proxy to vote a certain number of the Company's shares such that the other shareholder of EEG has voting control of 51.0% of EEG's common stock, as well as the right to appoint four of the five members of EEG's Board of Directors.

Use of Estimates:

The preparation of Consolidated Financial Statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents:

Cash equivalents consist of investments in short-term, highly liquid securities having original maturities of three months or less, which are made as a part of the Company's cash management activity. The carrying values of these assets approximate their fair market values. The Company primarily utilizes a cash management system with a series of separate accounts consisting of lockbox accounts for receiving cash, concentration accounts that funds are moved to, and several "zero balance" disbursement accounts for funding of payroll and accounts payable. As a result of the Company's cash management system, checks issued, but not presented to the banks for payment, may create negative book cash balances. There were no checks outstanding in excess of related book cash balances at June 30, 2015 and 2014.

The Company has restricted cash primarily related to contractual obligations to collateralize its self-insurance program. The restricted cash arrangement can be canceled by the Company at any time if substituted with letters of credit. The restricted cash balance is classified within other current assets on the Consolidated Balance Sheet.

Receivables and Allowance for Doubtful Accounts:

The receivable balance on the Company's Consolidated Balance Sheet primarily includes credit card receivables and accounts and notes receivable from franchisees. The balance is presented net of an allowance for expected losses (i.e., doubtful accounts), primarily related to receivables from the Company's franchisees. The Company monitors the financial condition of its franchisees and records provisions for estimated losses on receivables when it believes franchisees are unable to make their required payments based on factors such as delinquencies and aging trends. The allowance for doubtful accounts is the Company's best estimate of the amount of probable credit losses related to existing accounts and notes receivables. As of June 30, 2015 and 2014, the allowance for doubtful accounts was \$1.3 and \$0.9 million, respectively.

Inventories:

Inventories of finished goods consist principally of hair care products for retail product sales. A portion of inventories are also used for salon services consisting of hair color, hair care products including shampoo and conditioner and hair care treatments including permanents, neutralizers and relaxers. Inventories are stated at the lower of cost or market, with cost determined on a weighted average cost basis.

Physical inventory counts are performed annually in the fourth quarter of the fiscal year. Product and service inventories are adjusted based on the physical inventory counts. During the fiscal year, cost of retail product sold to salon guests is determined based on the weighted average cost of product sold, adjusted for an estimated shrinkage factor and the cost of product used in salon services is determined by applying estimated percentage of total cost of service and product to service revenues. The estimated percentage related to service inventories is updated quarterly based on cycle count results and other factors that could impact the Company's margin rate estimates such as service sales mix, discounting and special promotions.

The Company has inventory valuation reserves for excess and obsolete inventories, or other factors that may render inventories unmarketable at their historical costs. Estimates of the future demand for the Company's inventory and anticipated changes in formulas and packaging are some of the other factors used by management in assessing the net realizable value of inventories. During fiscal years 2014 and 2013, the Company recorded inventory write-downs of \$0.9 and \$12.6 million, respectively, associated with standardizing plan-o-grams, eliminating retail products and consolidating from four owned-brand product lines to one.

Table of Contents

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

1. BUSINESS DESCRIPTION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Property and Equipment:

Property and equipment are carried at cost, less accumulated depreciation and amortization. Depreciation of property and equipment is computed using the straight-line method over their estimated useful asset lives (30 to 39 years for buildings, 10 years for improvements and three to ten years for equipment, furniture and software). Depreciation expense was \$66.6, \$79.7 and \$81.8 million in fiscal years 2015, 2014 and 2013, respectively.

The Company capitalizes both internal and external costs of developing or obtaining computer software for internal use. Costs incurred to develop internal-use software during the application development stage are capitalized, while data conversion, training and maintenance costs associated with internal-use software are expensed as incurred.

Estimated useful lives range from five to seven years.

Expenditures for maintenance and repairs and minor renewals and betterments, which do not improve or extend the life of the respective assets, are expensed. All other expenditures for renewals and betterments are capitalized. The assets and related depreciation and amortization accounts are adjusted for property retirements and disposals with the resulting gain or loss included in operating income. Fully depreciated or amortized assets remain in the accounts until retired from service.

Long-Lived Asset Impairment Assessments, Excluding Goodwill:

The Company assesses the impairment of long-lived assets at the individual salon level, as this is the lowest level for which identifiable cash flows are largely independent of other groups of assets and liabilities, when events or changes in circumstances indicate the carrying value of the assets or the asset grouping may not be recoverable. Factors considered in deciding when to perform an impairment review include significant under-performance of an individual salon in relation to expectations, significant economic or geographic trends, and significant changes or planned changes in our use of the assets. Impairment is evaluated based on the sum of undiscounted estimated future cash flows expected to result from use of the long-lived assets that do not recover the carrying values. If the undiscounted estimated cash flows are less than the carrying value of the assets, the Company calculates an impairment charge based on the assets' estimated fair value. The fair value of the long-lived assets is estimated using a discounted cash flow model based on the best information available, including salon level revenues and expenses. Long-lived asset impairment charges are recorded within depreciation and amortization in the Consolidated Statement of Operations. Judgments made by management related to the expected useful lives of long-lived assets and the ability to realize undiscounted cash flows in excess of the carrying amounts of such assets are affected by factors such as the ongoing maintenance and improvement of the assets, changes in economic conditions and changes in operating performance. As the ongoing expected cash flows and carrying amounts of long-lived assets are assessed, these factors could cause the Company to realize material impairment charges.

A summary of long-lived asset impairment charges follows:

	Fiscal Years		
	2015	2014	2013
	(Dollars in thousands)		
North American Value	\$9,612	\$11,714	\$5,031
North American Premium	4,804	5,014	3,042
International	188	1,599	151
Total	\$14,604	\$18,327	\$8,224

Goodwill:

As of June 30, 2015 and 2014, the North American Value reporting unit had \$419.0 and \$425.3 million of goodwill, respectively and the North American Premium and International reporting units had no goodwill. See Note 4 to the Consolidated Financial Statements. The Company tests goodwill impairment on an annual basis, during the Company's fourth fiscal quarter, and between annual tests if an event occurs, or circumstances changes, that would more likely than not reduce the fair value of a reporting unit below its carrying amount.

Goodwill impairment test is performed at the reporting unit level, which are the same as the Company's operating segments. The goodwill test involves a two-step process. The first step is a comparison of the reporting unit's fair value to its carrying value, including goodwill. If the reporting unit's fair value exceeds its carrying value, no further procedures are

Table of Contents

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

1. BUSINESS DESCRIPTION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

required. However, if the reporting unit's fair value is less than the carrying value, an impairment of goodwill may exist, requiring a second step to measure the amount of impairment loss. If the implied fair value of goodwill is less than the recorded goodwill, an impairment charge is recorded for the difference.

In applying the goodwill impairment test, the Company may assess qualitative factors to determine whether it is more likely than not that the fair value of the reporting units is less than its carrying value ("Step 0"). Qualitative factors may include, but are not limited to, economic, market and industry condition, cost factors, and overall financial performance of the reporting unit. If after assessing these qualitative factors, the Company determines it is "more-likely-than-not" that the carrying value is less than the fair value, then performing the two-step impairment test is unnecessary.

The carrying value of each reporting unit is based on the assets and liabilities associated with the operations of the reporting unit, including allocation of shared or corporate balances among reporting units. Allocations are generally based on the number of salons in each reporting unit as a percent of total company-owned salons.

For the two-step impairment test, the Company calculates estimated fair values of the reporting units based on discounted future cash flows utilizing estimates in annual revenue, service and product margins, fixed expense rates, allocated corporate overhead, and long-term growth rates for determining terminal value. Where available and as appropriate, comparative market multiples are used in conjunction with the results of the discounted cash flows. The Company periodically engages third-party valuation consultants to assist in evaluating the Company's estimated fair value calculations.

Following is a description of the goodwill impairment analyses for each of the fiscal years:

Fiscal Year 2015

During the Company's annual impairment test, the Company assessed qualitative factors to determine whether it is more likely than not that the fair value of the reporting units is less than its carrying value ("Step 0"). The Company determined it is "more-likely-than-not" that the carrying value is less than the fair value. Accordingly, the Company did not perform a two-step quantitative analysis.

Fiscal Year 2014

During the second quarter of fiscal year 2014, the Company experienced two triggering events that resulted in the Company testing its goodwill for impairment. First, the Company redefined its operating segments to reflect how the chief operating decision maker evaluates the business as a result of restructuring the Company's North American field organization. Based on the changes to the Company's operating segment structure, goodwill has been reallocated to the new reporting units at June 30, 2014. See Note 14 to the Consolidated Financial Statements.

Second, the Regis and Promenade reporting units reported lower than projected same-store sales that were unfavorable compared to the Company's projections used in the fiscal year 2013 annual goodwill impairment test.

Accordingly, during the second quarter of fiscal year 2014, the Company performed interim goodwill impairment tests on its former Regis and Promenade reporting units. The impairment tests resulted in a \$34.9 million non-cash goodwill impairment charge on the former Regis reporting unit and no impairment on the former Promenade reporting unit, as its estimated fair value exceeded its carrying value by approximately 12.0%. See Note 9 to the Consolidated Financial Statements.

Fiscal Year 2013

During the Company's annual impairment test, the Company performed the first step of the quantitative goodwill impairment test and determined that the fair value exceeded the carrying value for each of the Company's reporting units. Accordingly, the Company did not perform any further analysis.

As of June 30, 2015, the Company's estimated fair value, as determined by the sum of our reporting units' fair value, reconciled within a reasonable range of our market capitalization, which included an assumed control premium of 25.0%.

Investments In Affiliates:

The Company has equity investments in securities of certain privately held entities. The Company accounts for these investments under the equity or cost method of accounting. Investments accounted for under the equity method are recorded at the amount of the Company's investment and adjusted each period for the Company's share of the investee's income or loss.

Table of Contents

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

1. BUSINESS DESCRIPTION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investments are reviewed for changes in circumstance or the occurrence of events that suggest the Company's investment may not be recoverable.

During fiscal years 2015 and 2013, the Company recorded non-cash impairments of \$4.7 and \$17.9 million, respectively, related to its investment in EEG. Due to economic, regulatory and other factors, the Company may be required to take additional non-cash impairment charges related to its investments and such non-cash impairments could be material to its consolidated balance sheet and results of operations. Additionally, the Company recorded its share, \$6.9 million, of a non-cash deferred tax asset valuation allowance recorded by EEG during fiscal year 2015. During fiscal years 2014 and 2013, the Company recorded its share, \$21.2 and \$2.1 million, respectively, of non-cash impairment charges recorded directly by EEG for goodwill and long-lived and intangible assets. EEG has no remaining goodwill. The exposure to loss related to the Company's involvement with EEG is the \$14.8 million carrying value of the investment. See Note 5 to the Consolidated Financial Statements.

Self-Insurance Accruals:

The Company uses a combination of third party insurance and self-insurance for a number of risks including workers' compensation, health insurance, employment practice liability and general liability claims. The liability represents the Company's estimate of the undiscounted ultimate cost of uninsured claims incurred as of the balance sheet date. The Company estimates self-insurance liabilities using a number of factors, primarily based on independent third-party actuarially-determined amounts, historical claims experience, estimates of incurred but not reported claims, demographic factors and severity factors.

Although the Company does not expect the amounts ultimately paid to differ significantly from the estimates, self-insurance accruals could be affected if future claims experience differs significantly from historical trends and actuarial assumptions. For fiscal years 2015, 2014 and 2013, the Company recorded increases (decreases) in expense from changes in estimates related to prior year open policy periods of \$0.1, \$(2.0) and \$(1.1) million, respectively. A 10.0% change in the self-insurance reserve would affect (loss) income from continuing operations before income taxes and equity in loss of affiliated companies by approximately \$4.8 million for fiscal year 2015, 2014 and 2013. The Company updates loss projections quarterly and adjusts its recorded liability to reflect updated projections. The updated loss projections consider new claims and developments associated with existing claims for each open policy period. As certain claims can take years to settle, the Company has multiple policy periods open at any point in time. As of June 30, 2015, the Company had \$18.3 and \$29.9 million recorded in current liabilities and noncurrent liabilities, respectively, related to the Company's self-insurance accruals. As of June 30, 2014, the Company had \$14.9 and \$32.7 million recorded in current liabilities and noncurrent liabilities, respectively, related to the Company's self-insurance accruals.

Deferred Rent and Rent Expense:

The Company leases most salon locations under operating leases. Rent expense is recognized on a straight-line basis over the lease term. Tenant improvement allowances funded by landlord incentives, rent holidays and rent escalation clauses which provide for scheduled rent increases during the lease term or for rental payments commencing at a date other than the date of initial occupancy are recorded in the Consolidated Statements of Operations on a straight-line basis over the lease term (including one renewal period if renewal is reasonably assured based on the imposition of an economic penalty for failure to exercise the renewal option). The difference between the rent due under the stated periods of the lease and the straight-line basis is recorded as deferred rent within accrued expenses and other noncurrent liabilities in the Consolidated Balance Sheet.

For purposes of recognizing incentives and minimum rental expenses on a straight-line basis, the Company uses the date it obtains the legal right to use and control the leased space to begin amortization, which is generally when the Company enters the space and begins to make improvements in preparation of its intended use.

Certain leases provide for contingent rents, which are determined as a percentage of revenues in excess of specified levels. The Company records a contingent rent liability in accrued expenses on the Consolidated Balance Sheet, along with the corresponding rent expense in the Consolidated Statement of Operations, when specified levels have been

achieved or when management determines that achieving the specified levels during the fiscal year is probable. See earlier discussion in Note 1 to the Consolidated Financial Statements for the discussion of revision.

Table of Contents

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

1. BUSINESS DESCRIPTION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Revenue Recognition and Deferred Revenue:

Company-owned salon revenues are recognized at the time when the services are provided. Product revenues are recognized when the guest receives and pays for the merchandise. Revenues from purchases made with gift cards are also recorded when the guest takes possession of the merchandise or services are provided. Gift cards issued by the Company are recorded as a liability (deferred revenue) until they are redeemed.

Product sales by the Company to its franchisees are included within product revenues on the Consolidated Statement of Operations and recorded at the time product is shipped to franchise locations.

Franchise revenues primarily include royalties, initial franchise fees and net rental income. Royalties are recognized as revenue in the month in which franchisee services are rendered. The Company recognizes revenue from initial franchise fees at the time franchise locations are opened, as this is generally when the Company has performed all initial services required under the franchise agreement.

Classification of Expenses:

The following discussion provides the primary costs classified in each major expense category:

Beginning in fiscal year 2014, costs associated with field leaders, excluding salons within the North American Premium segment, that were previously recorded within General and Administrative expense are now categorized within Cost of Service and Site Operating expense as a result of the field reorganization that took place in the fourth quarter of fiscal year 2013. Previously, field leaders did not work on the salon floor daily. As reorganized, field leaders now spend most of their time on the salon floor leading and mentoring stylists and serving guests. As a result, district and senior district leader labor costs are now reported within Cost of Service rather than General and Administrative expenses and their travel costs are reported within Site Operating expenses rather than General and Administrative expenses.

Cost of service— labor costs related to salon employees, costs associated with our field supervision (fiscal years 2015 and 2014) and the cost of product used in providing service.

Cost of product— cost of product sold to guests, labor costs related to selling retail product and the cost of product sold to franchisees.

Site operating— direct costs incurred by the Company's salons, such as advertising, workers' compensation, insurance, utilities, travel costs associated with our field supervision (fiscal years 2015 and 2014) and janitorial costs.

General and administrative— costs associated with our field supervision (fiscal year 2013), salon training and promotions, distribution centers and corporate offices (such as salaries and professional fees), including cost incurred to support franchise operations.

Consideration Received from Vendors:

The Company receives consideration for a variety of vendor-sponsored programs. These programs primarily include volume rebates and promotion and advertising reimbursements.

With respect to volume rebates, the Company estimates the amount of rebate it will receive and accrues it as a reduction to the cost of inventory over the period in which the rebate is earned based upon historical purchasing patterns and the terms of the volume rebate program. A quarterly analysis is performed in order to ensure the estimated rebate accrued is reasonable and any necessary adjustments are recorded.

Shipping and Handling Costs:

Shipping and handling costs are incurred to store, move and ship product from the Company's distribution centers to company-owned and franchise locations and include an allocation of internal overhead. Such shipping and handling costs related to product shipped to company-owned locations are included in site operating expenses in the Consolidated Statement of Operations. Shipping and handling costs related to shipping product to franchise locations totaled \$3.6, \$3.2 and \$3.6 million during fiscal years 2015, 2014 and 2013, respectively and are included within general and administrative expenses on the Consolidated Statement of Operations. Any amounts billed to franchisees for shipping and handling are included in product revenues within the Consolidated Statement of Operations.

Table of Contents

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

1. BUSINESS DESCRIPTION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Advertising:

Advertising costs, including salon collateral material, are expensed as incurred. Advertising costs expensed and included in continuing operations in fiscal years 2015, 2014 and 2013 was \$38.7, \$40.6 and \$39.2 million, respectively.

Advertising Funds:

The Company has various franchising programs supporting certain of its franchise salon concepts. Most maintain advertising funds that provide comprehensive advertising and sales promotion support. The Company is required to participate in the advertising funds for company-owned locations under the same salon concept. The Company assists in the administration of the advertising funds. However, a group of individuals consisting of franchisee representatives has control over all of the expenditures and operates the funds in accordance with franchise operating and other agreements.

The Company records advertising expense in the period the company-owned salon makes contributions to the respective advertising fund. During fiscal years 2015, 2014 and 2013, total contributions to the franchise advertising funds totaled \$18.0, \$18.6 and \$19.0 million, respectively.

The Company records all advertising funds as assets and liabilities within the Company's Consolidated Balance Sheet. As of June 30, 2015 and 2014, approximately \$24.1 and \$26.8 million, respectively, representing the advertising funds' assets and liabilities were recorded within total assets and total liabilities in the Company's Consolidated Balance Sheet.

Stock-Based Employee Compensation Plans:

The Company recognizes stock-based compensation expense based on the fair value of the awards at the grant date. Compensation expense is recognized on a straight-line basis over the requisite service period of the award (or to the date a participant becomes eligible for retirement, if earlier). The Company uses option pricing methods that require the input of subjective assumptions, including the expected term, expected volatility, dividend yield and risk-free interest rate.

The Company estimates the likelihood and the rate of achievement for performance sensitive stock-based awards at the end of each reporting period. Changes in the estimated rate of achievement can have a significant effect on the recorded stock-based compensation expense as the effect of a change in the estimated achievement level is recognized in the period the change occurs.

Preopening Expenses:

Non-capital expenditures such as payroll, training costs and promotion incurred prior to the opening of a new location are expensed as incurred.

Sales Taxes:

Sales taxes are recorded on a net basis (rather than as both revenue and an expense) within the Company's Consolidated Statement of Operations.

Income Taxes:

Deferred income tax assets and liabilities are recognized for the expected future tax consequences of events that have been included in the Consolidated Financial Statements or income tax returns. Deferred income tax assets and liabilities are determined based on the differences between the financial statement and tax basis of assets and liabilities using currently enacted tax rates in effect for the years in which the differences are expected to reverse. A valuation allowance is established for any portion of deferred tax assets that are not considered more likely than not to be realized. The Company evaluates all evidence, including recent financial performance, the existence of cumulative year losses and our forecast of future taxable income, to assess the need for a valuation allowance against our deferred tax assets. While the determination of whether or not to record a valuation allowance is not fully governed by a specific objective test, accounting guidance places significant weight on recent financial performance.

During fiscal year 2015, the Company was no longer able to conclude that it was more likely than not that the majority of its Canadian deferred tax assets would be fully realized and established a \$2.1 million valuation allowance

on these deferred tax assets. The primary cause for the Canadian valuation allowance was due to the recent negative financial performance in Canada and cumulative losses incurred in recent years. During fiscal year 2014, the Company established an \$86.6 million valuation allowance on its U.S. and U.K. deferred tax assets.

Table of Contents

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

1. BUSINESS DESCRIPTION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The Company will continue to assess its ability to realize its deferred tax assets on a quarterly basis and will reverse the valuation allowance and record a tax benefit when the Company generates sufficient sustainable pretax earnings to make the realizability of the deferred tax assets more likely than not.

The Company reserves for unrecognized tax benefits, interest and penalties related to anticipated tax audit issues in the U.S. and other tax jurisdictions based on an estimate of whether additional taxes will be due. If payment of these amounts ultimately proves to be unnecessary, the reversal of these liabilities would result in tax benefits being recognized in the period in which it is determined that the liabilities are no longer necessary. If the estimate of unrecognized tax benefits, interest and penalties proves to be less than the ultimate assessment, additional expenses would result. Inherent in the measurement of deferred balances are certain judgments and interpretations of tax laws and published guidance with respect to the Company's operations. Income tax expense is primarily the current tax payable for the period and the change during the period in certain deferred tax assets and liabilities.

Net (Loss) Income Per Share:

The Company's basic earnings per share is calculated as net (loss) income divided by weighted average common shares outstanding, excluding unvested outstanding restricted stock awards and restricted stock units. The Company's dilutive earnings per share is calculated as net (loss) income divided by weighted average common shares and common share equivalents outstanding, which includes shares issuable under the Company's stock option plan and long-term incentive plan and dilutive securities. Stock-based awards with exercise prices greater than the average market value of the Company's common stock are excluded from the computation of diluted earnings per share. The Company's diluted earnings per share will also reflect the assumed conversion under the Company's convertible debt if the impact is dilutive, along with the exclusion of related interest expense, net of taxes. The impact of the convertible debt is excluded from the computation of diluted earnings per share when interest expense per common share obtainable upon conversion is greater than basic earnings per share.

Comprehensive (Loss) Income:

Components of comprehensive (loss) income include net (loss) income, foreign currency translation adjustments, changes in fair value of derivative instruments, recognition of deferred compensation and reclassification adjustments, net of tax within shareholders' equity.

Foreign Currency Translation:

Financial position, results of operations and cash flows of the Company's international subsidiaries are measured using local currency as the functional currency. Assets and liabilities of these subsidiaries are translated at the exchange rates in effect at each fiscal year end. Translation adjustments arising from the use of differing exchange rates from period to period are included in accumulated other comprehensive income within shareholders' equity. Statement of Operations accounts are translated at the average rates of exchange prevailing during the year. During fiscal years 2015, 2014 and 2013, the foreign currency (loss) gain recorded within interest income and other, net in the Consolidated Statement of Operations was \$(1.3), \$0.1 and \$33.4 million, respectively. During fiscal year 2013, the Company recognized a \$33.8 million foreign currency translation gain in connection with the sale of Provalliance and subsequent liquidation of all foreign entities with Euro denominated operations within interest income and other, net in the Consolidated Statement of Operations.

Accounting Standards Recently Issued But Not Yet Adopted by the Company:

Revenue from Contracts with Customers

In May 2014, the Financial Accounting Standards Board ("FASB") issued updated guidance for revenue recognition. The updated accounting guidance provides a comprehensive new revenue recognition model that requires a Company to recognize revenue to depict the exchange for goods or services to a customer at an amount that reflects the consideration it expects to receive for those goods or services. The guidance also requires additional disclosure about the nature, amount, timing and uncertainty of revenue and cash flows arising from customer contracts. The guidance was effective for the Company beginning in the first quarter of fiscal year 2018. In July 2015, the FASB deferred the

effective date one year and is now effective for the Company in the first quarter of fiscal year 2019. Early adoption as of the original effective date will be permitted. The standard allows for either “full retrospective” adoption, meaning the standard is applied to all of the periods presented, or “modified retrospective” adoption, meaning the standard is applied only to the most current period presented in the financial statements. The Company does not expect the adoption of this update to have a material impact on the Company's consolidated financial statements and is evaluating the effect this guidance will have on its related disclosures.

Table of Contents

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

1. BUSINESS DESCRIPTION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity

In April 2014, the FASB updated the accounting guidance related to the definition of a discontinued operation and related disclosures. The updated accounting guidance defines a discontinued operation as a disposal of a component or a group of components that is to be disposed of or is classified as held for sale and represents a strategic shift that has or will have a major effect on an entity's operations and financial results. The updated guidance is effective for the Company beginning in the first quarter of fiscal year 2016 with early adoption permitted. The Company does not expect the adoption of this update to have a material impact on the Company's consolidated financial statements.

2. DISCONTINUED OPERATIONS

Hair Restoration Centers

On April 9, 2013, the Company sold its Hair Club for Men and Women business (Hair Club), a provider of hair restoration services. The sale included the Company's 50.0% interest in Hair Club for Men, Ltd., which was previously accounted for under the equity method. At the closing of the sale, the Company received \$162.8 million, which represented the purchase price of \$163.5 million adjusted for the preliminary working capital provision. During fiscal year 2014, the Company collected \$3.0 million of cash recorded as receivable as of June 30, 2013, of which \$2.0 million was a result of the final working capital provision, resulting in a final purchase price of \$164.8 million and \$1.0 million was excess cash from the transaction completion date. The Company recorded an after-tax gain of \$17.8 million upon the sale of Hair Club and incurred \$5.4 million in professional and transaction fees during fiscal year 2013 associated with the sale.

The Company classified the results of operations of Hair Club as discontinued operations for all periods presented in the Consolidated Statement of Operations. There was no significant continuing involvement by the Company in the operations of Hair Club after the disposal.

The following summarizes the results of operations of our discontinued Hair Club operations for the periods presented:

	Fiscal Year 2013 (Dollars in thousands)
Revenues	\$ 115,734
Income from discontinued operations, before income taxes	\$ 28,643
Income tax provision on discontinued operations	(4,242)
Equity in income of affiliated companies, net of tax	627
Income from discontinued operations, net of income taxes	\$ 25,028

Income taxes have been allocated to continuing and discontinued operations based on the methodology required by accounting for income taxes guidance. Depreciation and amortization ceased during fiscal year 2013 in accordance with accounting for discontinued operations.

Trade Secret

On February 16, 2009, the Company sold its Trade Secret salon concept (Trade Secret). The Company reported Trade Secret as a discontinued operation. During fiscal year 2015, the Company recorded expenses of \$0.6 million in discontinued operations related to Trade Secret legal fees. During fiscal year 2014, the Company recorded tax benefits of \$1.4 million in discontinued operations related to the release of tax reserves associated with the disposition of Trade Secret.

Net (loss) income	(16,738)	(26,699)	2,359

(1) Represents the summarized financial information of EEG. As EEG is a significant subsidiary for the fiscal year 2015 financial statements, the separate financial statements of EEG are included subsequent to the Company's financial statements. Gross profit includes depreciation and amortization expense of \$4.1, \$5.8, and \$7.4 million for fiscal years 2015, 2014 and 2013, respectively.

Investment in Empire Education Group, Inc.

As of June 30, 2015 and 2014, the Company's ownership interest in Empire Education Group, Inc. (EEG) was 54.6% and 54.5%, respectively, and the carrying amount of the investment in EEG as of June 30, 2015 was \$14.8 million. EEG operates accredited cosmetology schools and is managed by the Empire Beauty School executive team. The Company accounts for EEG as an equity investment under the voting interest model.

During fiscal year 2015 the Company recorded its share of a non-cash deferred tax asset valuation allowance recorded by EEG of \$6.9 million. During fiscal years 2014 and 2013 the Company recorded its share of pretax non-cash impairment charges recorded by EEG for goodwill and fixed and intangible asset impairments of \$21.2 and \$2.1 million, respectively. In addition, during fiscal years 2015 and 2013, the Company recorded other than temporary impairment charges of its investment in EEG of \$4.7 and \$17.9 million, respectively, to account for the negative business impacts resulting from regulatory changes including declines in enrollment, revenue and profitability in the for-profit secondary educational market. The Company did not receive a tax benefit on these impairment charges. Due to economic, regulatory and other factors, including declines in enrollment, revenue and profitability in the for-profit secondary educational market, the Company may be required to record additional non-cash impairment charges related to its investment in EEG and such non-cash impairments could be material to the Company's consolidated balance sheet and results of operations. EEG does not have any goodwill recorded as of June 30, 2015. The exposure to loss related to the Company's involvement with EEG is the carrying value of the investment. During fiscal years 2015, 2014 and 2013, the Company recorded \$(2.0), \$(14.5) and \$1.3 million, respectively, of equity (loss) earnings related to its investment in EEG.

The Company previously provided EEG with a \$15.0 million revolving credit facility and outstanding loan for which the Company received payments of \$26.4 million during fiscal year 2013.

Table of Contents

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

5. INVESTMENTS IN AFFILIATES (Continued)

Investment in Provalliance

On September 27, 2012, the Company sold its 46.7% equity interest in Provalliance for \$103.4 million. The Company previously had a right (Provalliance Equity Put), which if exercised, would require the Company to purchase an additional ownership interest in Provalliance between specified dates in 2010 to 2018. The Provalliance Equity Put was classified as a Level 3 fair value measurement as the fair value was determined based on unobservable inputs that could not be corroborated by observable market data. During fiscal year 2013, the Company recorded a \$0.6 million decrease in the fair value of the Provalliance Equity Put that automatically terminated upon the sale.

Due to the sale of the Company's investment in Provalliance, the Company liquidated its foreign entities with Euro denominated operations. Amounts previously classified within accumulated other comprehensive income that were recognized in earnings were foreign currency translation rate gain adjustments of \$43.4 million, a cumulative tax-effected net loss of \$7.9 million associated with a cross-currency swap that was settled in fiscal year 2007 that hedged the Company's European operations, and a \$1.7 million net loss associated with cash repatriation, which netted to \$33.8 million for fiscal year 2013, recorded within interest income and other, net on the Consolidated Statement of Operations.

Investment in MY Style

The Company accounts for its 27.1% ownership interest in MY Style as a cost method investment. The Company previously had an outstanding note with MY Style, which matured during fiscal year 2013. The Company recorded less than \$0.1 million in interest income related to the note during fiscal year 2013.

During fiscal year 2014, MY Style's parent company, Yamano Holdings Corporation (Yamano), redeemed its Class A and Class B Preferred Stock for \$3.1 million. The Company had previously estimated the fair values of the Yamano Class A and Class B Preferred Stock to be negligible and recorded an other than temporary non-cash impairment. The Company reported the gain associated with Yamano's redemption within equity in loss of affiliated companies on the Consolidated Statement of Operations.

6. FAIR VALUE MEASUREMENTS

Fair value measurements are categorized into one of three levels based on the lowest level of significant input used: Level 1 (unadjusted quoted prices in active markets); Level 2 (observable market inputs available at the measurement date, other than quoted prices included in Level 1); and Level 3 (unobservable inputs that cannot be corroborated by observable market data).

Assets and Liabilities Measured at Fair Value on a Recurring Basis

The Company's financial instruments include cash, cash equivalents, receivables, accounts payable and debt. The fair values of cash and cash equivalents, receivables and accounts payable approximated the carrying values as of June 30, 2015. As of June 30, 2015 and 2014, the estimated fair value of the Company's debt was \$119.7 and \$292.5 million, respectively, and the carrying value was \$120.0 and \$293.5 million, respectively. The estimated fair value of the Company's debt is based on Level 2 inputs.

Assets and Liabilities Measured at Fair Value on a Nonrecurring Basis

We measure certain assets, including the Company's equity method investments, tangible fixed and other assets and goodwill, at fair value on a nonrecurring basis when they are deemed to be other than temporarily impaired. The fair values of the Company's investments are determined based on valuation techniques using the best information available, and may include quoted market prices, market comparables, and discounted cash flow projections.

During fiscal years 2015, 2014 and 2013, the Company recorded \$14.6, \$18.3 and \$8.2 million of long-lived asset impairment charges, respectively. See Note 1 to the Consolidated Financial Statements.

During fiscal year 2014, the Company recorded a non-cash impairment charge of \$34.9 million to write down the remaining carrying value of its goodwill of the Regis salon concept reporting unit. See Notes 1 and 4 to the

Consolidated Financial Statements.

During fiscal years 2015 and 2013, the Company's recorded a non-cash impairment charge on its investment in EEG of \$4.7 and \$17.9 million, respectively. See Note 5 to the Consolidated Financial Statements.

Less current portion				(2) (173,501
Long-term portion				\$120,000	\$120,002

The debt agreements contain covenants, including limitations on incurrence of debt, granting of liens, investments, merger or consolidation, certain restricted payments and transactions with affiliates. In addition, the Company must adhere to specified fixed charge coverage and leverage ratios. The Company was in compliance with all covenants and other requirements of our financing arrangements as of June 30, 2015.

Aggregate maturities of long-term debt at June 30, 2015 are as follows:

Fiscal year	(Dollars in thousands)
2016	\$2
2017	—
2018	120,000
2019	—
2020	—
Thereafter	—
	\$120,002

Convertible Senior Notes

In July 2009, the Company issued \$172.5 million aggregate principal amount of 5.0% convertible senior notes which were settled in July 2014. The notes were unsecured, senior obligations of the Company and interest was payable semi-annually in arrears on January 15 and July 15 of each year.

At the time of issuance, the Company had the choice of net-cash settlement, settlement in its own shares or a combination thereof and concluded the conversion option was indexed to its own stock. As a result, the Company allocated \$24.7 million of the \$172.5 million principal amount of the convertible senior notes to equity, resulting in a debt discount. The debt discount was amortized as additional non-cash interest expense over the period the convertible senior notes were outstanding. At June 30, 2014, the remaining unamortized discount was \$0.3 million. The combined debt discount amortization and the contractual interest coupon resulted in an effective interest rate on the convertible debt of 8.9%.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

7. FINANCING ARRANGEMENTS (Continued)

The following table provides interest rate and interest expense amounts related to the convertible senior notes:

	Fiscal Years	
	2015	2014
	(Dollars in thousands)	
Interest cost related to contractual interest coupon—5.0%	\$358	\$8,625
Interest cost related to amortization of the discount	254	5,792
Total interest cost	\$612	\$14,417

Senior Term Notes

In November 2013, the Company issued \$120.0 million aggregate principal amount of 5.75% senior unsecured notes due December 2017 (Senior Term Notes). Net proceeds from the issuance of the Senior Term Notes were \$118.1 million. Interest on the Senior Term Notes is payable semi-annually in arrears on June 1 and December 1 of each year, beginning on June 1, 2014. The Senior Term Notes rank equally with the Company's existing senior unsecured debt. The Senior Term Notes are unsecured and not guaranteed by any of the Company's subsidiaries or any third party. The Senior Term Notes contain maintenance covenants, including limitations on incurrence of debt, granting of liens, investments, merger or consolidation, certain restricted payments and transactions with affiliates, none of which are more restrictive than those under the Company's revolving credit facility.

Revolving Credit Facility

The Company has a \$400.0 million unsecured revolving credit facility that expires in June 2018. The revolving credit facility has rates tied to a LIBOR credit spread and a quarterly facility fee on the average daily amount of the facility (whether used or unused). Both the LIBOR credit spread and the facility fee are based on the Company's debt to EBITDA ratio at the end of each fiscal quarter. In addition, the Company may request an increase in revolving credit commitments under the facility of up to \$200.0 million under certain circumstances. Events of default under the credit agreement include change of control of the Company and the Company's default with respect to other debt exceeding \$10.0 million. As of June 30, 2015 and 2014, the Company had no outstanding borrowings under this revolving credit facility. Additionally, the Company had outstanding standby letters of credit under the revolving credit facility of \$2.1 and \$2.2 million at June 30, 2015 and 2014, respectively, primarily related to its self-insurance program. Unused available credit under the facility at June 30, 2015 and 2014 was \$397.9 and \$397.8 million, respectively.

Equipment and Leasehold Notes Payable

The equipment and leasehold notes payable are primarily comprised of capital lease obligations. As of June 30, 2015 and 2014, the capital lease balance was \$0.0 and \$1.3 million.

8. COMMITMENTS AND CONTINGENCIES

Operating Leases:

The Company leases most of its company-owned salons and some of its corporate facilities and distribution centers under operating leases. The original terms of the salon leases range from one to 20 years, with many leases renewable for additional five to ten year terms at the option of the Company. For most leases, the Company is required to pay real estate taxes and other occupancy expenses. Rent expense for the Company's international department store salons is based primarily on a percentage of sales.

The Company also leases the premises in which the majority of its franchisees operate and has entered into corresponding sublease arrangements with franchisees. These leases, generally with terms of approximately five years, are expected to be renewed on expiration. All additional lease costs are passed through to the franchisees.

Sublease income was \$30.9, \$29.5 and \$29.1 million in fiscal years 2015, 2014 and 2013, respectively. Rent expense on premises subleased was \$30.5, \$29.1 and \$28.7 million in fiscal years 2015, 2014 and 2013, respectively. Rent expense and related rental income on sublease arrangements with franchisees is netted within the rent expense line item on the Consolidated Statement of Operations. In most cases, the amount of rental income related to sublease arrangements with franchisees approximates the amount of rent expense from the primary lease, thereby having no net impact on rent expense or net (loss) income. However, in limited cases, the Company charges a 10.0% mark-up in its

sublease arrangements. The net rental income resulting from such arrangements totaled \$0.4 million for each fiscal year 2015, 2014 and 2013 and was classified in the royalties and fees caption of the Consolidated Statement of Operations.

The Company has a sublease arrangement for a leased building the Company previously occupied. The aggregate amount of lease payments to be made over the remaining lease term are approximately \$7.1 million.

Total rent expense, excluding rent expense on premises subleased to franchisees, includes the following:

8. COMMITMENTS AND CONTINGENCIES (Continued)

	Fiscal Years		
	2015	2014(1)	2013(1)
	(Dollars in thousands)		
Minimum rent	\$236,137	\$246,844	\$247,258
Percentage rent based on sales	8,238	7,164	7,566
Real estate taxes and other expenses	64,750	68,254	70,363
	\$309,125	\$322,262	\$325,187

(1)Fiscal years 2014 and 2013 have been revised. See Note 1 to the Consolidated Financial Statements.

As of June 30, 2015, future minimum lease payments (excluding percentage rents based on sales) due under existing noncancelable operating leases with remaining terms of greater than one year are as follows:

Fiscal Year	Corporate	Franchisee
	leases	leases
	(Dollars in thousands)	
2016	\$235,404	\$58,789
2017	184,069	49,575
2018	131,968	39,132
2019	88,495	28,747
2020	50,403	16,132
Thereafter	39,159	15,065
Total minimum lease payments	\$729,498	\$207,440

The Company continues to negotiate and enter into leases and commitments for the acquisition of equipment and leasehold improvements related to future salon locations.

Contingencies:

The Company is self-insured for most workers' compensation, employment practice liability and general liability. Workers' compensation and general liability losses are subject to per occurrence and aggregate annual liability limitations. The Company is insured for losses in excess of these limitations. The Company is also self-insured for health care claims for eligible participating employees subject to certain deductibles and limitations. The Company determines its liability for claims incurred but not reported on an actuarial basis.

Litigation and Settlements:

The Company is a defendant in various lawsuits and claims arising out of the normal course of business. Like certain other large retail employers, the Company has been faced with allegations of purported class-wide consumer and wage and hour violations. Litigation is inherently unpredictable and the outcome of these matters cannot presently be determined. Although the actions are being vigorously defended, the Company could in the future incur judgments or enter into settlements of claims that could have a material adverse effect on its results of operations in any particular period.

In addition, the Company was a nominal defendant, and nine current and former directors and officers of the Company were named defendants, in a shareholder derivative action in Minnesota state court. The derivative shareholder action alleged that the individual defendants breached their fiduciary duties to the Company in connection with their approval of certain executive compensation arrangements and certain related party transactions. The Board of Directors appointed a Special Litigation Committee to investigate the claims and allegations made in the derivative action, and to decide on behalf of the Company whether the claims and allegations should be pursued. In April 2014, the Special Litigation Committee issued a report and concluded the claims and allegations should not be pursued, and in September 2014 the case was dismissed by court order. In a collateral proceeding, the plaintiff filed a motion for an award of fees in November 2014. The Company has opposed the motion and this collateral proceeding is pending. During fiscal years 2015, 2014 and 2013, the Company incurred \$0.7, \$3.3 and \$1.2 million of expense in conjunction

with the derivative shareholder action. During fiscal year 2015, the Company

65

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

8. COMMITMENTS AND CONTINGENCIES (Continued)

received insurance reimbursement of \$1.0 million for legal fees previously paid in conjunction with the derivative shareholder action.

See Note 9 for discussion regarding certain issues that have resulted from the IRS' audit of fiscal year 2010 and 2011.

In addition, the Company is currently under payroll tax examination by the IRS for calendar years 2012 and 2013.

Final resolution of these issues is not expected to have a material impact on the Company's financial position.

9. INCOME TAXES

The components of (loss) income before income taxes are as follows:

	Fiscal Years		
	2015	2014	2013
	(Dollars in thousands)		
(Loss) income before income taxes:			
U.S.	\$ (6,630)	\$ (52,815)	\$ (23,526)
International	1,652	(2,481)	35,307
	\$ (4,978)	\$ (55,296)	\$ 11,781

The provision (benefit) for income taxes consists of:

	Fiscal Years		
	2015	2014	2013
	(Dollars in thousands)		
Current:			
U.S.	\$ 1,670	\$ 1,430	\$ (21,264)
International	1,781	890	710
Deferred:			
U.S.	9,439	69,854	10,996
International	1,715	781	(95)
	\$ 14,605	\$ 72,955	\$ (9,653)

The provision for income taxes differs from the amount of income tax determined by applying the applicable U.S. statutory rate to earnings (loss) before income taxes, as a result of the following:

	Fiscal Years		
	2015	2014	2013
U.S. statutory rate (benefit)	(35.0)%	(35.0)%	35.0 %
State income taxes, net of federal income tax benefit	3.7	(0.3)	3.6
Valuation allowance (1)	362.8	161.9	—
Tax effect of goodwill impairment	—	11.3	—
Foreign income taxes at other than U.S. rates	5.3	1.4	3.5
Tax effect of foreign currency translation gain	—	—	(91.8)
Work Opportunity and Welfare-to-Work Tax Credits	(53.3)	(5.2)	(36.7)
Expiration of capital loss carryforward	9.5	—	—
Other, net	0.4	(2.2)	4.5
	293.4 %	131.9 %	(81.9)%

(1) See Note 1 to the Consolidated Financial Statements.

The 0.4% of Other, net in fiscal year 2015 includes the rate impact of meals and entertainment expense disallowance, officer's life insurance and miscellaneous items of 6.0%, (9.6)% and 4.0%, respectively.

The (2.2)% of Other, net in fiscal year 2014 does not include the rate impact of any items in excess of 5% of computed tax.

The 4.5% of Other, net in fiscal year 2013 includes the rate impact of meals and entertainment expense disallowance, donated inventory, unrecognized tax benefits and miscellaneous items of 4.2%, (2.9)%, 2.3% and 0.9%, respectively. The components of the net deferred tax assets and liabilities are as follows:

	June 30,	
	2015	2014
	(Dollars in thousands)	
Deferred tax assets:		
Deferred rent	\$ 14,561	\$ 14,507
Payroll and payroll related costs	27,646	24,857
Net operating loss carryforwards	17,946	16,977
Tax credit carryforwards	25,296	20,134
Inventories	2,684	2,926
Accrued advertising	4,853	2,707
Insurance	6,779	6,801
Other	6,329	6,323
Subtotal	\$ 106,094	\$ 95,232
Valuation allowance	(103,240) (86,119
Total deferred tax assets	\$ 2,854	\$ 9,113
Deferred tax liabilities:		
Fixed assets	\$ (2,372) \$(8,086
Goodwill and intangibles	(87,383) (77,650
Other	(6,309) (5,690
Total deferred tax liabilities	\$ (96,064) \$(91,426
Net deferred tax liability	\$ (93,210) \$(82,313

At June 30, 2015, the Company has tax effected federal, state, Canada and U.K. net operating loss carryforwards of approximately \$12.4, \$4.7, \$0.5 and \$0.3 million, respectively. The federal loss carryforward will expire from fiscal years 2034 to 2035. The state loss carryforwards will expire from fiscal years 2016 to 2035. The Canada loss carryforward will expire in fiscal year 2035. The U.K. loss carryforward has no expiration.

The Company's tax credit carryforward of \$25.3 million consists of \$23.3 million that will expire from fiscal years 2028 to 2035, \$0.5 million that will expire from fiscal years 2020 to 2025 and \$1.5 million of carryforward that has no expiration date.

As of June 30, 2015, undistributed earnings of international subsidiaries of approximately \$21.8 million were considered to have been reinvested indefinitely and, accordingly, the Company has not provided for U.S. income taxes on such earnings. It is not practicable for the Company to determine the amount of unrecognized deferred tax liabilities on these indefinitely reinvested earnings.

The Company files tax returns and pays tax primarily in the U.S., Canada, the U.K. and Luxembourg as well as states, cities, and provinces within these jurisdictions. The Company's U.S. federal income tax returns for fiscal year 2010 through 2014 are currently under audit by the Internal Revenue Service (IRS). All earlier tax years are closed to examination. The Company has outstanding audit issues with the IRS for fiscal years 2010 and 2011 for which the IRS has proposed additional adjustments. The Company believes its income tax positions and deductions will be sustained and intends to vigorously defend its position on these issues and, accordingly, has appealed to the IRS Appeals Division. Final resolution of these issues is not

Table of Contents

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

9. INCOME TAXES (Continued)

expected to have a material impact on the Company's financial position. For state tax audits, the statute of limitations generally spans three to four years, resulting in a number of states remaining open for tax audits dating back to fiscal year 2011. The Company is currently under audit in a number of states in which the statute of limitations has been extended back for fiscal years 2007 and forward. Internationally, including Canada, the statute of limitations for tax audits varies by jurisdiction, but generally ranges from three to five years.

A rollforward of the unrecognized tax benefits is as follows:

Fiscal Years		
2015	2014	2013
