Item 7.01. Regulation FD Disclosure

On November 1, 2016, Lakeland Financial Corporation (the "Company") reported that during the Company's review of third quarter results, it identified that cash held at the Federal Reserve Bank of Chicago was not included in total earning assets. Instead, the cash was reported in cash and due from banks in nonearning assets. The resulting understatement of earning assets had the effect of overstating the net interest margin for the second and third quarters of 2016, as well as the nine months ended September 30, 2016 as detailed in the Company's October 25, 2016 press release.

The balance sheet and income statement of the Company are not impacted by this change.

Net interest margin for the second and third quarters of 2016 was 3.19% and 3.08%, respectively. The year-to-date net interest margin for the nine months ended September 30, 2016 was 3.17%. The Company previously reported 3.24% and 3.20% for the second and third quarters of 2016, respectively, and year-to-date net interest margin of 3.22% for the nine months ended September 30, 2016.

The average balance of interest earning cash that was reclassified from nonearning assets is \$57.4 million and \$127.0 million for the second and third quarters of 2016, respectively. The year-to-date 2016 average balance of interest earning cash that was reclassified from nonearning assets is \$64.9 million. The net interest margin for the third quarter 2015 was not impacted by this change.

The following table discloses the components of net interest margin for the quarters ended September 30, 2016, June 30, 2016 and September 30, 2015.
