----------------------	--	---------------	--	--------

TO OUR SHAREHOLDERS, CUSTOMERS AND FRIENDS,

I'm honored to be writing my first Annual Report letter as CEO and President of Citizens Financial Services, Inc. and its wholly owned subsidiary, First Citizens National Bank. I'm pleased to report that thanks to the dedication and loyalty of our employees, board members and customers, we have had another outstanding year of financial performance in 2004.

A simple philosophy can lead a company to great rewards. Treat your customers, your employees, and your communities with respect, and you will earn their loyalty. Our strategy has never been about selling a product but instead about finding ways to help make life more rewarding for our customers. This is no simple task as customer needs and service preferences are constantly changing. Our success begins and ends with creating positive experiences, one customer at a time.

Our employees remain the driving force in consistently earning the loyalty of our customers. They do what most would consider an impossible feat...they master the art of balancing the desire to satisfy the customer with the Company's need to be profitable. This balance is our strength.

As always, our Company and our employees remain committed to the prosperity of the communities we serve, supporting worthwhile causes that enhance the lives of the residents. We believe in being good citizens and good neighbors.

A Season of Looking Ahead.....

Our strategic goals for 2004 focused on preparing the Company for continued growth into 2005. In June, we completed an in-market acquisition of two offices of The Legacy Bank. Not only did this acquisition expand our presence in Towanda and Sayre, two areas we have identified as growth markets, but it also illustrates a commitment by our Board of Directors to remain an independent, community bank.

Our Investment Services division made significant strides throughout the year in integrating investment products and services into our daily delivery of financial product options. We believe that most employees and customers now see these products and services as viable solutions to meet their savings and investment goals. Bob Mosso was named Vice President, Manager of Investments and Trust in April of 2004. Bob's leadership, along with a strong commitment from our employees, pushed investment sales to their highest levels since we first introduced these services.

Regulatory requirements related to terrorist activities and organizational mismanagement as documented in well published cases, have placed increasing demands on banks to implement additional, and often costly, security measures. The Company's regulatory relationships and operating culture position us to meet the compliance requirements, while our earnings growth supports the increased regulatory costs.

Our continued focus on our customers and their success resulted in an outstanding year in terms of financial performance. Total assets increased \$35.5 million to just under \$500 million, an increase of 7.6% over last year. Total deposits grew 8.7% while total loans grew 13.2% to \$419.1 million and \$359.7 million, respectively. Stockholders' equity (excluding accumulated other comprehensive income) increased \$3.1 million, or 8.1% over the prior year.

Consolidated net income for the year was \$5.3 million compared to \$4.9 million in 2003, an increase of 8.0%. Earnings per share was \$1.85, which represents an 8.8% increase over 2003 earnings per share of \$1.70. It should be noted however that excluding our conservative decision to record an after-tax, non-cash impairment charge for our Freddie Mac preferred stock totaling \$479,000, net income for 2004 would have been \$5.7 million and earnings per share would have been \$2.02, an 18.8% increase over last year. Cash dividends paid of \$.78 per share represented an increase of 5.4% over 2003.

....Toward the Horizon of a Bright Future

In 2005, Citizens Financial Services, Inc. will face new challenges due to the changing economic environment. Our 2005 strategic objectives meet these economic challenges head on while allowing us to remain committed to our philosophy of respect for the customer, employee and community.

Our greatest challenge will be managing the impact on our margin that will occur from the rise in short-term rates and a flattening of the yield curve. As a result of the compression on margin, we must place a greater emphasis on non-interest income opportunities in order to achieve the aggressive growth goals set forth by our Board of Directors. This challenge provides us with an opportunity to focus our resources on key areas that contribute to non-interest income including investments, trust, loan growth, fee income and cost control.

Our focus on Investment services will continue to intensify. Our employees have embraced Investment services as a valuable option for helping their customers achieve financial security. The significant increase in community office referrals to our investment representatives in 2004 was a clear indication of the need for these services. In 2005, we will continue to promote the need for financial and retirement planning as a means to attaining financial security. The positive impact this has on our customers continues to motivate us.

The year 2005 will bring a renewed focus on building our Trust relationships. We are proud to welcome Trust Officer Linda Kriner to our family. The extensive knowledge and experience that Linda brings to our Investment and Trust Services Division team will help us advance our commitment to providing high-quality investment products and services to our customers. Improving employee knowledge about our Trust services will be a priority to provide our customers with yet another option for achieving financial security and peace of mind.

Loan growth will come as a result of leveraging an enhanced line of loan products and a skilled employee base with a feet-on-the-street approach to sales. In 2004, our managers, business development officers and I met with existing and future customers. Customers need to see us. They need to hear from us. In 2005, feet-on-the-street will become everyone's job to ensure the effective flow of information between the Bank and our customers.

Commitment to meeting the needs of our small business customers will continue to be strong. This is especially important in light of the changing face of the agricultural industry. We are proud to have several business development officers who have a strong farm background and who are highly skilled in the area of agricultural lending. We intend to leverage their knowledge and skills to assist our agricultural community to grow and prosper.

In 2005, we are committed to focusing on employee satisfaction like never before. We recently asked our employees to complete a survey to help us better understand their needs and their feelings about First Citizens. I'm proud to share with you that 84% of our employees would recommend First Citizens as an employer. Our goal is to ensure our employees have rewarding work environments and the skills and leadership they need to excel in their careers. We believe that great service comes from retaining great employees.

I could not end without expressing my appreciation to my partners, the executive management team. Without their dedication, leadership, knowledge, execution and willingness to support our vision and our plan, the magnitude of our successes would be diminished. I would also like to thank the Board of Directors, our employees and customers for their support in my first year as CEO and President.

I believe in the strength of our organization and its people. Our efforts in 2004 are unfolding into a bright future for 2005 and beyond.

Randall E. Black
CEO & President

To ensure our long-term survival as a highly successful independent community bank by consistently exceeding customer expectations, cultivating effective employees, delivering superior shareholder value and exhibiting social responsibility and good citizenship.

1. EXCEEDING CUSTOMER EXPECTATIONS

- *Make every customer feel significant* - Effectively execute on our core service standards.
- *Market to a Segment of One* - Segment customers and use a variety of methods to continuously identify their needs and priorities, their satisfaction with our ability to meet those needs and their loyalty to First Citizens.
- *Identify and reward loyal customers.*

2. CULTIVATE EFFECTIVE EMPLOYEES - *Great Service comes from Great Employees*

Provide employees with the knowledge, skills and motivation to perform consistently well.

- Ensure Integrity at the Top - People won't follow a person they don't trust.
- Create a fun-filled, passionate work environment.
- Consistently hire the best and the brightest.
- Train them well.
- Empower them with the authority to solve customer problems and reward customer loyalty.
- Respect Them.
- Reward Them - Understand what motivates employees, create an environment for them to motivate themselves, and reward desired positive behavior in a timely manner.

3. DELIVER SUPERIOR SHAREHOLDER VALUE

- Provide a return on equity that consistently exceeds our peers and meets shareholder expectations.
- Operate and manage the bank in a cost efficient manner which contributes to the overall financial performance without sacrificing customer service and satisfaction.
- Identify, assess and monitor all risks of the bank in such a manner that allows us to maximize returns within our accepted risk tolerance levels.

4. EXHIBIT SOCIAL RESPONSIBILITY AND GOOD CITIZENSHIP

- *Answer the Call* - Be proactive in contributing knowledge, skills, time and money to organizations within our community that impact its economic and social vitality.
- *Encourage Employee Participation* - Support and encourage employee involvement in schools, community groups, professional associations and charities.
- *Be a leader and role model for other organizations.*

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

BUSINESS AND ORGANIZATION

Citizens Financial Services, Inc. (individually and collectively, the “Company”), is headquartered in Mansfield, Pennsylvania, and provides a full range of banking and related services through its wholly owned subsidiary, First Citizens National Bank (the “Bank”), and its wholly owned subsidiary, First Citizens Insurance Agency, Inc. The Bank is a national banking association and operates fifteen full-service banking offices in Potter, Tioga and Bradford counties. The Bank also provides trust services, including the administration of trusts and estates, retirement plans, and other employee benefit plans, along with a comprehensive menu of investment services. The Bank serves individual and corporate customers and is subject to competition from other financial institutions and intermediaries with respect to these services. The Company is supervised by the Board of Governors of the Federal Reserve System, while the Bank is subject to regulation and supervision by the Office of the Comptroller of the Currency.

A summary of significant accounting and reporting policies applied in the presentation of the accompanying financial statements follows:

BASIS OF PRESENTATION

The financial statements are consolidated to include the accounts of the Company and its subsidiary, First Citizens National Bank, and its subsidiary, First Citizens Insurance Agency, Inc. These statements have been prepared in accordance with accounting principles generally accepted in the United States of America. All significant intercompany accounts and transactions have been eliminated in the consolidated financial statements.

In preparing the financial statements, management makes estimates and assumptions that affect the reported amounts of assets and liabilities as of the balance sheet date and revenues and expenses for the period. Actual results could differ significantly from those estimates.

OPERATING SEGMENTS

Statement of Financial Accounting Standards (FAS) No. 131 requires disclosures about an enterprise’s operating segments in financial reports issued to shareholders. The Statement defines an operating segment as a component of an enterprise that engages in business activities that generates revenue and incurs expense, and the operating results of which are reviewed by the chief operating decision maker in the determination of resource allocation and performance. While the Company’s chief decision makers monitor the revenue streams of the various Company’s products and services, operations are managed and financial performance is evaluated on a Company-wide basis. Consistent with our internal reporting, the Company’s business activities are reported as one segment, which is community banking.

INVESTMENT SECURITIES

Investment securities at the time of purchase are classified as one of the three following types:

Held-to-Maturity Securities - includes securities that the Company has the positive intent and ability to hold to maturity. These securities are reported at amortized cost. The Company had no held-to-maturity securities as of December 31, 2004 and 2003.

Trading Securities - includes debt and equity securities bought and held principally for the purpose of selling them in the near term. Such securities are reported at fair value with unrealized holding gains and losses included in earnings. The Company had no trading securities as of December 31, 2004 and 2003.

Available-for-Sale Securities - includes debt and equity securities not classified as held-to-maturity or trading securities. Such securities are reported at fair value, with unrealized holding gains and losses excluded from earnings and reported as a separate component of stockholders’ equity, net of estimated income tax effect.

The amortized cost of investment in debt securities is adjusted for amortization of premiums and accretion of discounts, computed by a method that results in a level yield. Gains and losses on the sale of investment securities are computed on the basis of specific identification of the adjusted cost of each security.

On a monthly basis the Company evaluates the severity and duration of impairment for its investment securities portfolio to determine if the impairment is other than temporary. Several factors are evaluated and analyzed, including the Company's positive intent and ability to hold the security for a period of time sufficient to allow a market recovery without incurring a loss.

Common stock of the Federal Reserve Bank and Federal Home Loan Bank represents ownership in institutions which are wholly owned by other financial institutions. These equity securities are accounted for at cost and are classified as other assets.

The fair value of investments, except certain state and municipal securities, is estimated based on bid prices published in financial newspapers or bid quotations received from securities dealers. The fair value of certain state and municipal securities is not readily available through market sources other than dealer quotations, so fair value estimates are based on quoted market prices of similar instruments, adjusted for differences between the quoted instruments and the instruments being valued.

LOANS

Interest on all loans is recognized on the accrual basis based upon the principal amount outstanding. The accrual of interest income on loans is discontinued when, in the opinion of management, there exists doubt as to the ability to collect such interest. Payments received on nonaccrual loans are applied to the outstanding principal balance or recorded as interest income, depending upon our assessment of our ultimate ability to collect principal and interest. Loans are returned to the accrual status when factors indicating doubtful collectibility cease to exist.

The Company recognizes nonrefundable loan origination fees and certain direct loan origination costs over the life of the related loan as an adjustment of loan yield using the interest method.

ALLOWANCE FOR LOAN LOSSES

The allowance for loan losses represents the amount which management estimates is adequate to provide for probable losses inherent in its loan portfolio. The allowance method is used in providing for loan losses. Accordingly, all loan losses are charged to the allowance and all recoveries are credited to it. The allowance for loan losses is established through a provision for loan losses which is charged to operations. The provision is based upon management's periodic evaluation of individual loans, the overall risk characteristics of the various portfolio segments, past experience with losses, the impact of economic conditions on borrowers, and other relevant factors. The estimates used in determining the adequacy of the allowance for loan losses are particularly susceptible to significant change in the near term.

Impaired loans are commercial and commercial real estate loans for which it is probable that the Company will not be able to collect all amounts due according to the contractual terms of the loan agreement. The Company individually evaluates such loans for impairment and does not aggregate loans by major risk classifications. The definition of "impaired loans" is not the same as the definition of "nonaccrual loans," although the two categories overlap. The Company may choose to place a loan on nonaccrual status due to payment delinquency or uncertain collectibility, while not classifying the loan as impaired if the loan is not a commercial or commercial real estate loan. Factors considered by management in determining impairment include payment status and collateral value. The amount of impairment for these types of impaired loans is determined by the difference between the present value of the expected cash flows related to the loan, using the original interest rate, and its recorded value; or, as a practical expedient in the case of a loan in the process of collection, the difference between the fair value of the collateral and the recorded amount of the loans.

Mortgage loans on one- to four-family properties and all consumer loans are large groups of smaller balance homogeneous loans and are measured for impairment collectively. Loans that experience insignificant payment delays, which is defined as 90 days or less, generally are not classified as impaired. Management determines the significance of payment delays on a case-by-case basis, taking into consideration all of the circumstances surrounding the loan and the borrower, including the length of the delay, the borrower's prior payment record, and the amount of shortfall in relation to the principal and interest owed.

FORECLOSED ASSETS HELD FOR SALE

Foreclosed assets acquired in settlement of foreclosed loans are carried at the lower of cost or fair value minus estimated costs to sell. Prior to foreclosure, the value of the underlying loan is written down to fair market value of the real estate or other assets to be acquired by a charge to the allowance for loan losses, if necessary. Any subsequent write-downs are charged against operating expenses. Operating expenses of such properties, net of related income and losses on disposition, are included in other expenses and gains are included in other income.

PREMISES AND EQUIPMENT

Premises and equipment are stated at cost, less accumulated depreciation. Depreciation expense is computed on straight line and accelerated methods over the estimated useful lives of the assets, which range from 3 to 15 years for furniture, fixtures and equipment and 5 to 39 1/2 years for building premises. Repair and maintenance expenditures which extend the useful life of an asset are capitalized and other repair expenditures are expensed as incurred.

When premises or equipment are retired or sold, the remaining cost and accumulated depreciation are removed from the accounts and any gain or loss is credited or charged to income.

INTANGIBLE ASSETS

Intangible assets include core deposit intangibles, which are a measure of the value of consumer demand and savings deposits acquired in business combinations accounted for as purchases. The core deposit intangibles are being amortized to expense over a 5 1/2 year life on a straight-line basis. The recoverability of the carrying value of intangible assets is evaluated on an ongoing basis, and permanent declines in value, if any, are charged to expense.

GOODWILL

The Company accounts for goodwill in accordance with Statement of Financial Accounting Standards ("FAS") No. 142, "Goodwill and Other Intangible Assets". This statement, among other things, requires a two-step process for testing the impairment of goodwill on at least an annual basis. This approach could cause more volatility in the Company's reported net income because impairment losses, if any, could occur irregularly and in varying amounts. The Company performs an annual impairment analysis of goodwill. Based on the fair value of the reporting unit, estimated using the expected present value of future cash flows, no impairment of goodwill was recognized in 2004 and 2003.

BANK OWNED LIFE INSURANCE

The Company has purchased life insurance policies on certain officers, and is the sole beneficiary on those policies. Bank owned life insurance is recorded at its cash surrender value, or the amount that can be realized. Increases in the cash surrender value are recognized as other non-interest income.

INCOME TAXES

The Company and the Bank file a consolidated federal income tax return. Deferred tax assets and liabilities are computed based on the difference between the financial statement basis, and income tax basis of assets and liabilities using the enacted marginal tax rates. Deferred income tax expenses or benefits are based on the changes in the net deferred tax asset or liability from period to period.

EMPLOYEE BENEFIT PLANS

The Company has a noncontributory defined benefit pension plan covering substantially all employees. It is the Company's policy to fund pension costs on a current basis to the extent deductible under existing tax regulations. Such contributions are intended to provide not only for benefits attributed to service to date, but also for those expected to be earned in the future.

The Company also has a profit-sharing plan which provides tax-deferred salary savings to plan participants.

MORTGAGE SERVICING RIGHTS (MSR'S)

The Company originates certain loans for the express purpose of selling such loans in the secondary market. The Company maintains all servicing rights for these loans. The loans held for sale are carried at lower of cost or market. Originated MSR's are recorded by allocating total costs incurred between the loan and servicing rights based on their relative fair values. MSR's are amortized in proportion to the estimated servicing income over the estimated life of the servicing portfolio.

COMPREHENSIVE INCOME

The Company is required to present comprehensive income in a full set of general purpose financial statements for all periods presented. Other comprehensive income is comprised exclusively of unrealized holding gains (losses) on the available-for-sale securities portfolio. The Company has elected to report the effects of other comprehensive income as part of the Consolidated Statement of Changes in Stockholders' Equity.

RECENT ACCOUNTING PRONOUNCEMENTS

In December 2004, the Financial Accounting Standards Board ("FASB") issued Statement of Financial Accounting Standards ("FAS") No. 123 (Revised 2004), "Share-Based Payment". The Statement requires that compensation cost relating to share-based payment transactions be recognized in financial statements and that this cost be measured based on the fair value of the equity or liability instruments issued. FAS No. 123 (Revised 2004) covers a wide range of share-based compensation arrangements including share options, restricted share plans, performance-based awards, share appreciation rights, and employee share purchase plans. The adoption of this statement is not expected to have a material impact on the consolidated financial statements.

In October 2003, the American Institute of Certified Public Accountants issued Statement of Position ("SOP") 03-3, "Accounting for Loans or Certain Debt Securities Acquired in a Transfer." SOP 03-3 applies to a loan that is acquired where it is probable, at acquisition, that a transferee will be unable to collect all contractually required payments receivable. SOP 03-3 requires the recognition, as accretable yield, the excess of all cash flows expected at acquisition over the investor's initial investment in the loan as interest income on a level-yield basis over the life of the loan. The amount by which the loan's contractually required payments exceed the amount of its expected cash flows at acquisition may not be recognized as an adjustment to yield, a loss accrual or a valuation allowance for credit risk. SOP 03-3 is effective for loans acquired in fiscal years beginning after December 31, 2004. Early adoption is permitted. The adoption of SOP 03-3 is not expected to have a material impact on the consolidated financial statements.

TREASURY STOCK

The purchase of the Company's common stock is recorded at cost. At the date of subsequent reissue, the treasury stock account is reduced by the cost of such stock on a last-in-first-out basis.

CASH FLOWS

The Company utilizes the net reporting of cash receipts and cash payments for deposit and lending activities. The Company considers amounts due from banks and interest-bearing deposits in banks as cash equivalents.

TRUST ASSETS AND INCOME

Assets held by the Bank in a fiduciary or agency capacity for its customers are not included in the consolidated financial statements since such items are not assets of the Bank.

EARNINGS PER SHARE

Earnings per share calculations give retroactive effect to stock dividends declared by the Company. The number of weighted average shares used in the earnings per share computations presented was 2,840,393, 2,869,303, and 2,882,358 for 2004, 2003 and 2002, respectively. The Company has no dilutive securities.

RECLASSIFICATION

Certain of the prior year amounts have been reclassified to conform with the current year presentation. Such reclassifications had no effect on net income or stockholders' equity.

2. RESTRICTIONS ON CASH AND DUE FROM BANKS

The Bank is required to maintain reserves, in the form of cash and balances with the Federal Reserve Bank, against its deposit liabilities. The amount of such reserves was \$833,000 and \$554,000 at December 31, 2004 and 2003, respectively.

Deposits with one financial institution are insured up to \$100,000. The Company maintains cash and cash equivalents with other financial institutions in excess of the insured amount.

3. INVESTMENT SECURITIES

The amortized cost and estimated fair value of investment securities at December 31, 2004 and 2003, were as follows (in thousands):

	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Estimated Fair Value
December 31, 2004				
Available-for-sale securities:				
U.S. Agency securities	\$ 5,829	\$ -	\$ (17)	\$ 5,812
Obligations of state and political subdivisions	7,203	249	-	7,452
Corporate obligations	8,523	412	-	8,935
Mortgage-backed securities	70,845	204	(600)	70,449
Equity securities	3,099	-	-	3,099
Total available-for-sale	\$ 95,499	\$ 865	\$ (617)	\$ 95,747

	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Estimated Fair Value
December 31, 2003				
Available-for-sale securities:				
U.S. Agency securities	\$ 1,005	\$ 28	\$ -	\$ 1,033
Obligations of state and political subdivisions	8,011	292	-	8,303
Corporate obligations	13,656	1,018	-	14,674
Mortgage-backed securities	78,080	671	(375)	78,376
Equity securities	4,387	35	(221)	4,201
Total available-for-sale	\$ 105,139	\$ 2,044	\$ (596)	\$ 106,587

The following table shows the Company's gross unrealized losses and fair value, aggregated by investment category and length of time, that the individual securities have been in a continuous unrealized loss position, at December 31, 2004 (in thousands):

	Less than Twelve Months		Twelve Months or Greater		Total	
	Approx Market Value	Gross Unrealized Losses	Approx Market Value	Gross Unrealized Losses	Approx Market Value	Gross Unrealized Losses
U.S. Government agencies and corporations	\$ 4,131	\$ 17	\$ -	\$ -	\$ 4,131	\$ 17
Mortgage-backed securities	47,525	472	12,006	128	59,531	600
Total	\$ 51,656	\$ 489	\$ 12,006	\$ 128	\$ 63,662	\$ 617

The Company's investment securities portfolio contains unrealized losses of mortgage-related instruments or other agency securities issued or backed by the full faith and credit of the United States government or are generally viewed as having the implied guarantee of the U.S. government.

The Company has concluded that any impairment of its investment securities portfolio outlined in the above table is not permanent, but rather, temporary, and is the result of interest rate changes, sector credit rating changes, or company-specific rating changes that are not expected to result in the non-collection of principal and interest during the period.

Proceeds from sales of securities available-for-sale during 2004, 2003, and 2002 were \$14,045,000, \$12,108,000 and \$13,927,000, respectively. Gross gains and gross losses were realized on those sales as follows (in thousands):

	2004	2003	2002
Gross gains	\$ 517	\$ 553	\$ 287
Gross losses	26	-	33
Net gains (losses)	\$ 491	\$ 553	\$ 254

Additionally in 2004, the Company recorded an other-than-temporary impairment non-cash charge of \$726,000 related to \$3,825,000 face value of perpetual preferred stock issued by Freddie Mac, a government sponsored entity. Prior to this impairment charge, the decline in value of these securities was recorded as an unrealized marked-to-market loss on securities available for sale and reflected as a reduction in stockholders' equity through other comprehensive income.

Investment securities with an approximate carrying value of \$71,899,000 and \$64,788,000 at December 31, 2004 and 2003, respectively, were pledged to secure public funds and certain other deposits as provided by law.

Expected maturities will differ from contractual maturities because borrowers may have the right to call or prepay obligations with or without call or prepayment penalties. The amortized cost and estimated carrying value of debt securities at December 31, 2004, by contractual maturity, are shown below (in thousands):

	Amortized Cost	Estimated Fair Value
Available-for-sale securities:		
Due in one year or less	\$ -	\$ -
Due after one year through five years	16,522	16,943
Due after five years through ten years	59,814	59,529
Due after ten years	16,064	16,176
Total	\$ 92,400	\$ 92,648

4. LOANS

The Company grants commercial, industrial, residential, and consumer loans primarily to customers throughout Northcentral Pennsylvania and Southern New York. Although the Company has a diversified loan portfolio at December 31, 2004 and 2003, a substantial portion of its debtors' ability to honor their contracts is dependent on the economic conditions within this region.

Major classifications of loans are as follows (in thousands):

	December 31,	
	2004	2003
Real estate loans:		
Residential	\$ 189,803	\$ 180,333
Commercial	75,228	57,370
Agricultural	11,564	7,594
Construction	7,282	5,784
Loans to individuals for household, family and other purchases	12,657	13,145
Commercial and other loans	28,069	16,219
State and political subdivision loans	35,090	37,212
	359,693	317,657
Less allowance for loan losses	3,919	3,620
Loans, net	\$ 355,774	\$ 314,037

Real estate loans serviced for Freddie Mac, which are not included in the consolidated balance sheet, totaled \$34,514,000 and \$35,643,000 at December 31, 2004 and 2003, respectively.

At December 31, 2004 and 2003, net unamortized loan fees and costs of \$829,000 and \$784,000, respectively, have been deducted from the carrying value of loans.

The Company had nonaccrual loans, inclusive of impaired loans, of \$1,783,000 and \$2,504,000 at December 31, 2004 and 2003, respectively. Interest income on loans would have increased by approximately \$44,000, \$49,000 and \$84,000 during 2004, 2003 and 2002, respectively, if these loans had performed in accordance with their original terms.

Information with respect to impaired loans as of and for the year ended December 31, is as follows (in thousands):

	2004	2003	2002
Impaired loans without related allowance for loan losses	\$ 229	\$ 1,197	\$ -
Impaired loans with related allowance for loan losses	832	729	1,916
Related allowance for loan losses	6	35	327
Average recorded balance of impaired loans	1,091	1,772	1,967
Interest income recognized on impaired loans	18	35	-

Transactions in the allowance for loan losses were as follows (in thousands):

	Year Ended December 31,		
	2004	2003	2002
Balance, beginning of year	\$ 3,620	\$ 3,621	\$ 3,250
Provision charged to income	-	435	435
Increase related to acquisition	290	-	-
Recoveries on loans previously charged against the allowance	324	116	115
	4,234	4,172	3,800
Loans charged against the allowance	(315)	(552)	(179)
Balance, end of year	\$ 3,919	\$ 3,620	\$ 3,621

The following is a summary of the past due and nonaccrual loans as of December 31, 2004 and 2003 (in thousands):

	December 31, 2004		
	Past Due 30 - 89 days	Past Due 90 days or more	Nonaccrual
Real estate loans	\$ 1,811	\$ 346	\$ 1,542
Installment loans	153	23	36
Credit cards and related loans	20	3	-
Commercial and all other loans	199	65	205
Total	\$ 2,183	\$ 437	\$ 1,783

	December 31, 2003		
	Past Due 30 - 89 days	Past Due 90 days or more	Nonaccrual
Real estate loans	\$ 1,420	\$ 170	\$ 2,491
Installment loans	167	12	13
Credit cards and related loans	27	-	-
Commercial and all other loans	38	3	-
Total	\$ 1,652	\$ 185	\$ 2,504

5. PREMISES & EQUIPMENT

Premises and equipment are summarized as follows (in thousands):

	December 31,	
	2004	2003
Land	\$ 2,767	\$ 1,867
Buildings	10,484	9,723
Furniture, fixtures and equipment	6,765	6,598
Construction in process	56	32
	20,072	18,220
Less accumulated depreciation	8,239	7,575
Premises and equipment, net	\$ 11,833	\$ 10,645

Depreciation expense amounted to \$833,000, \$836,000 and \$990,000 for 2004, 2003, and 2002, respectively.

6. DEPOSITS

Certificates of deposit of \$100,000 or more amounted to \$51,719,000 and \$41,362,000 at December 31, 2004 and 2003, respectively. Interest expense on certificates of deposit of \$100,000 or more amounted to \$1,843,000, \$1,618,000 and \$1,654,000 for the years ended December 31, 2004, 2003, and 2002, respectively.

Following are maturities of certificates of deposit as of December 31, 2004 (in thousands):

2005	\$ 95,738
2006	44,458
2007	41,147
2008	18,581
2009	12,997
Thereafter	2,856
Total certificates of deposit	\$ 215,777

7. BORROWED FUNDS

<i>(dollars in thousands)</i>	Securities Sold Under Agreements to	TT&L	FHLB	Notes	Term	Total

As of year-end	2.50%	0.69%	1.03%	3.97%	2.05%	2.05%
2002						
Balance at December 31	\$ 7,647	\$ -	\$ 7,380	\$ -	\$ 2,000	\$ 17,027
Highest balance at any month-end	14,897	-	7,380	-	2,000	24,277
Average balance	11,096	-	1,208	-	2,000	14,304
Weighted average interest rate:						
Paid during the year	2.69%	0.00%	1.59%	0.00%	3.64%	2.73%
As of year-end	2.94%	0.00%	1.31%	0.00%	3.13%	2.25%

(a) Securities sold under agreements to repurchase mature within 5 1/2 years. The carrying value of the underlying securities at December 31, 2004 and 2003 was \$15,146,000 and \$14,923,000, respectively.

(b) TT&L borrowings consist of notes issued under the U.S. Treasury Department's program of investing the treasury tax and loan account balances in interest-bearing demand notes insured by depository institutions. These notes bear interest at a rate of .25 percent less than the average Federal funds rate as computed by the Federal Reserve Bank.

(c) FHLB Advances consist of an "Open RepoPlus" agreement with the Federal Home Loan Bank of Pittsburgh. FHLB "Open RepoPlus" advances are short-term borrowings that bear interest based on the Federal Home Loan Bank discount rate or Federal Funds rate, whichever is higher. The Company has a borrowing limit of \$202,667,000, inclusive of any outstanding advances. Although no specific collateral is required to be pledged for the "Open RepoPlus" borrowings, FHLB advances are secured by a blanket security agreement that includes the Company's FHLB stock, as well as investment and mortgage-backed securities held in safekeeping at the FHLB and certain residential mortgage loans. At December 31, 2004 and 2003, the approximate carrying value of the securities collateral was \$66,651,000 and \$69,162,000, respectively.

(d) In December 2003, the Company formed a special purpose entity ("Entity") to issue \$7,500,000 of floating rate obligated mandatory redeemable securities as part of a pooled offering. The rate is determined quarterly and floats

based on the 3 month LIBOR plus 2.80%. At December 31, 2004 and 2003, the rate was 5.30% and 3.97%, respectively. The Entity may redeem them, in whole or in part, at face value after December 17, 2008. The Company borrowed the proceeds of the issuance from the Entity in December 2003 in the form of a \$7,500,000 note payable. Debt issue costs of \$75,000 have been capitalized and are being amortized through the first call date. Under current accounting rules, the Company's minority interest in the Entity was recorded at the initial investment amount and is included in the other assets section of the balance sheet. The Entity is not consolidated as part of the Company's consolidated financial statements.

(e) Term Loans consist of separate loans with a third party bank and the Federal Home Loan Bank of Pittsburgh as follows (in thousands):

Interest Rate	Maturity	December 31, 2004	December 31, 2003
Variable:			
(f)	August 31, 2005	\$ -	\$ 938
Fixed:			
2.34%	December 29, 2004	-	5,000
1.81%	June 17, 2005	3,000	3,000
2.45%	June 19, 2006	4,000	4,000
2.76%	December 18, 2006	3,000	3,000
Total term loans		\$ 10,000	\$ 15,938

(f) Interest rate floats monthly based on the 1 month LIBOR +1.75%, the interest rate was 4.07% and 2.92% at December 31, 2004 and 2003, respectively. This line of credit has a borrowing limit of \$3.0 million and is renewable on an annual basis.

Following are maturities of borrowed funds as of December 31, 2004 (in thousands):

2005	\$ 17,949
2006	8,689
2007	727
2008	7,500
2009	-
Thereafter	110
Total borrowed funds	\$ 34,975

8. EMPLOYEE BENEFIT PLANS

The Bank sponsors a trustee, noncontributory defined benefit pension plan covering substantially all employees and officers. The plan calls for benefits to be paid to eligible employees at retirement based primarily upon years of service with the Bank and compensation rates near retirement. The Bank's funding policy is to make annual contributions, if needed, based upon the funding formula developed by the plan's actuary.

Obligations and Funded Status
At December 31 (in thousands):

	Pension Benefits	
	2004	2003
Change in benefit obligation		
Benefit obligation at beginning of year	\$ 4,785	\$ 3,926
Service cost	336	340
Interest cost	295	267
Amendments	(3)	222
Assumption change	498	117
Benefits paid	(127)	(87)
Benefit obligation at end of year	5,784	4,785
Change in plan assets		
Fair value of plan assets at beginning of year	4,014	3,117
Actual return on plan assets	253	530
Employer contribution	459	454
Benefits paid	(127)	(87)
Fair value of plan assets at end of year	4,599	4,014
Funded status	(1,185)	(771)
Transition adjustment	(10)	(25)
Unrecognized prior service cost	25	23
Unrecognized net gain from past experience different from that assumed	1,540	1,007
Prepaid benefit cost	\$ 370	\$ 234

The accumulated benefit obligation for all defined benefit pension plans was \$4,466,000 and \$3,638,000 at December 31, 2004 and 2003, respectively.

Components of Net Periodic Benefit Cost (in thousands):

	Pension Benefits	
	2004	2003
Service cost	\$ 336	\$ 340
Interest cost	295	267
Return on plan assets	(332)	(530)
Net amortization and deferral	24	325
Net periodic benefit cost	\$ 323	\$ 402

Assumptions

Weighted-average assumptions used to determine benefit obligations at December 31:

	Pension Benefits	
	2004	2003
Discount rate	5.75%	6.25%
Rate of compensation increase	3.25	3.25

Weighted-average assumptions used to determine net periodic benefit cost for the year ended December 31:

	Pension Benefits	
	2004	2003
Discount rate	5.75%	6.25%
Expected long-term return on plan assets	8.00	8.00
Rate of compensation increase	3.25	3.25

The long-term rate of return on plan assets gives consideration to returns currently being earned on plan assets as well as future rates expected to be earned.

Plan Assets

The Bank's pension plan weighted-average asset allocations at December 31, 2004 and 2003, by asset category are as follows:

	Plan Assets at December 31	
	2004	2003
Equity securities	67.4%	67.4%
Debt securities	25.0	30.3
Other	7.6	2.3
Total	100.0%	100.0%

Equity securities include the Bank's common stock in the amounts of \$257,000 (5.6% of total plan assets) and \$253,000 (6.3% of total plan assets) at December 31, 2004 and 2003, respectively.

The Bank expects to contribute \$412,000 to its pension plan in 2005. Expected future benefit payments that the Bank estimates from its pension plan are as follows:

2005	\$ 115,299
2006	135,675
2007	149,299
2008	174,451
2009	176,270
Thereafter	1,203,940

9. INCOME TAXES

The provision for income taxes consists of the following (in thousands):

	Year Ended December 31,		
	2004	2003	2002
Currently payable	\$ 1,640	\$ 1,427	\$ 1,647
Deferred liability (benefit)	(166)	(141)	116
Provision for income taxes	\$ 1,474	\$ 1,286	\$ 1,763

The following temporary differences gave rise to the net deferred tax assets at December 31, 2004 and 2003 (in thousands):

	2004	2003
Deferred tax assets:		
Allowance for loan losses	\$ 1,146	\$ 1,038
Deferred compensation	556	546
Goodwill and core deposit intangibles	-	19
Merger & acquisition costs	49	24
Allowance for losses on available-for-sale securities	247	-
Foreclosed assets held for sale	7	3
Total	2,005	1,630
Deferred tax liabilities:		
Unrealized gains on available-for-sale securities	(84)	(492)
Depreciation and amortization	(315)	(301)
Bond accretion	(29)	(81)
Pension expense	(126)	(80)
Loan fees and costs	(94)	(77)
Goodwill and core deposit intangibles	(170)	-
Investment tax credits	(28)	-
Mortgage servicing rights	(75)	(88)
Total	(921)	(1,119)
Deferred tax asset, net	\$ 1,084	\$ 511

No valuation allowance was established at December 31, 2004 and 2003 in view of certain tax strategies coupled with the anticipated future taxable income as evidenced by the Company's earnings potential.

The total provision for income taxes is different from that computed at the statutory rates due to the following items (in thousands):

	Year Ended December 31,		
	2004	2003	2002
Provision at statutory rates on pre-tax income	\$ 2,287	\$ 2,096	\$ 2,502
Effect of tax-exempt income	(648)	(710)	(693)
Tax credits	(130)	(130)	(130)
Bank owned life insurance	(105)	(48)	-
Nondeductible interest	54	62	67
Other items	16	16	17
Provision for income taxes	\$ 1,474	\$ 1,286	\$ 1,763
Statutory tax rates	34%	34%	34%
Effective tax rates	21.9%	20.9%	24.0%

10. RELATED PARTY TRANSACTIONS

Certain executive officers, corporate directors or companies in which they have 10 percent or more beneficial ownership were indebted to the Bank.

A summary of loan activity with officers, directors, stockholders and associates of such persons is listed below (in thousands):

	Year Ended December 31,		
	2004	2003	2002
Balance, beginning of year	\$ 3,345	\$ 3,678	\$ 3,972
New loans	808	1,243	847
Repayments	(1,063)	(1,576)	(1,141)
Balance, end of year	\$ 3,090	\$ 3,345	\$ 3,678

Such loans were made in the ordinary course of business at the Bank's normal credit terms and do not present more than a normal risk of collection.

11. REGULATORY MATTERS

DIVIDEND RESTRICTIONS:

The approval of the Comptroller of the Currency is required for a national bank to pay dividends up to the Company if the total of all dividends declared in any calendar year exceeds the Bank's net income (as defined) for that year combined with its retained net income for the preceding two calendar years. Under this formula, the Bank can declare dividends in 2005 without approval of the Comptroller of the Currency of approximately \$2,638,000, plus the Bank's net income for 2005.

LOANS:

The Bank is subject to regulatory restrictions which limit its ability to loan funds to the Company. At December 31, 2004, the regulatory lending limit amounted to approximately \$4,424,000.

REGULATORY CAPITAL REQUIREMENTS:

Federal regulations require the Company and the Bank to maintain minimum amounts of capital. Specifically, each is required to maintain certain minimum dollar amounts and ratios of Total and Tier I capital to risk-weighted assets and of Tier I capital to average total assets.

In addition to the capital requirements, the Federal Deposit Insurance Corporation Improvement Act (FDICIA) established five capital categories ranging from “well capitalized” to “critically undercapitalized.” Should any institution fail to meet the requirements to be considered “adequately capitalized”, it would become subject to a series of increasingly restrictive regulatory actions.

As of December 31, 2004 and 2003, the Federal Reserve Board and the Office of the Comptroller of the Currency categorized the Company and the Bank as well capitalized, under the regulatory framework for prompt corrective action. To be categorized as a well capitalized financial institution, Total risk-based, Tier I risk-based and Tier I leverage capital ratios must be at least 10%, 6% and 5%, respectively.

The following table reflects the Company’s capital ratios at December 31 (in thousands):

	2004		2003	
	Amount	Ratio	Amount	Ratio
Total capital (to risk weighted assets)				
Company	\$ 42,156	12.86%	\$ 40,655	14.07%
For capital adequacy purposes	26,215	8.00%	23,115	8.00%
To be well capitalized	32,768	10.00%	28,894	10.00%
Tier I capital (to risk weighted assets)				
Company	\$ 38,236	11.67%	\$ 37,042	12.82%
For capital adequacy purposes	13,107	4.00%	11,557	4.00%
To be well capitalized	19,661	6.00%	17,336	6.00%
Tier I capital (to average assets)				
Company	\$ 38,236	7.84%	\$ 37,042	8.50%
For capital adequacy purposes	19,504	4.00%	17,437	4.00%
To be well capitalized	24,379	5.00%	21,796	5.00%

The following table reflects the Bank’s capital ratios at December 31 (in thousands):

	2004		2003	
	Amount	Ratio	Amount	Ratio
Total capital (to risk weighted assets)				
Bank	\$ 34,184	10.44%	\$ 33,862	11.73%
For capital adequacy purposes	26,190	8.00%	23,090	8.00%
To be well capitalized	32,738	10.00%	28,863	10.00%
Tier I capital (to risk weighted assets)				

Bank	\$	30,265	9.24%	\$	30,254	10.48%
For capital adequacy purposes		13,095	4.00%		11,545	4.00%
To be well capitalized		19,643	6.00%		17,318	6.00%

Tier I capital (to average assets)

Bank	\$	30,265	6.21%	\$	30,254	6.94%
For capital adequacy purposes		19,491	4.00%		17,433	4.00%
To be well capitalized		24,364	5.00%		21,792	5.00%

This annual report has not been reviewed, or confirmed for accuracy or relevance, by the Federal Deposit Insurance Corporation.

12. OFF-BALANCE-SHEET RISK

The Company is a party to financial instruments with off-balance sheet risk in the normal course of business to meet the financing needs of its customers. These financial instruments include commitments to extend credit and standby letters of credit. These instruments involve, to varying degrees, elements of credit and interest rate or liquidity risk in excess of the amount recognized in the consolidated balance sheet.

The Company's exposure to credit loss from nonperformance by the other party to the financial instruments for commitments to extend credit and standby letters of credit is represented by the contractual amount of these instruments. The Company uses the same credit policies in making commitments and conditional obligations as it does for on-balance sheet instruments.

Financial instruments whose contract amounts represent credit risk at December 31, 2004 and 2003, are as follows (in thousands):

	2004	2003
Commitments to extend credit	\$ 55,285	\$ 41,094
Standby letters of credit	\$ 1,528	\$ 1,404

Commitments to extend credit are legally binding agreements to lend to customers. Commitments generally have fixed expiration dates or other termination clauses and may require payment of fees. Since many of the commitments are expected to expire without being drawn upon, the total commitment amounts do not necessarily represent future liquidity requirements. The Company evaluates each customer's creditworthiness on a case-by-case basis. The amount of collateral obtained if deemed necessary by the Company on extension of credit is based on management's credit assessment of the counter party.

Standby letters of credit are conditional commitments issued by the Company to guarantee the performance of a customer to a third party. Performance letters of credit represent conditional commitments issued by the Bank to guarantee the performance of a customer to a third party. These instruments are issued primarily to support bid or performance related contracts. The coverage period for these instruments is typically a one-year period with an annual renewal option subject to prior approval by management. Fees earned from the issuance of these letters are recognized over the coverage period. For secured letters of credit, the collateral is typically Bank deposit instruments or customer business assets.

13. ESTIMATED FAIR VALUE OF FINANCIAL INSTRUMENTS

The estimated fair values of the Company's financial instruments are as follows (in thousands):

	December 31,			
	2004	Estimated	2003	Estimated
	Carrying	Fair Value	Carrying	Fair Value
	Amount		Amount	
Financial assets:				
Cash and due from banks	\$ 9,339	\$ 9,339	\$ 9,951	\$ 9,951
Available-for-sale securities	95,747	95,747	106,587	106,587
Net loans	355,774	362,672	314,037	322,813
Bank owned life insurance	7,449	7,449	7,142	7,142
Regulatory stock	2,769	2,769	2,540	2,540
Accrued interest receivable	1,736	1,736	1,703	1,703
Financial liabilities:				
Deposits	\$ 419,074	\$ 420,878	\$ 385,691	\$ 391,282
Borrowed funds	34,975	34,952	35,296	35,498
Accrued interest payable	1,870	1,870	1,888	1,888

Fair value estimates are made at a specific point in time, based on relevant market information and information about the financial instrument. These estimates do not reflect any premium or discount that could result from offering for sale at one time the Company's entire holdings of a particular financial instrument. Because no market exists for a significant portion of the Company's financial instruments, fair value estimates are based on judgments regarding future expected loss experience, current economic conditions, risk characteristics of various financial instruments and other factors. These estimates are subjective in nature and involve uncertainties and matters of significant judgment and therefore cannot be determined with precision. Changes in assumptions can significantly affect the estimates.

Estimated fair values have been determined by the Company using historical data, as generally provided in the Company's regulatory reports, and an estimation methodology suitable for each category of financial instruments. The Company's fair value estimates, methods and assumptions are set forth below for the Company's other financial instruments.

CASH AND DUE FROM BANKS:

The carrying amounts for cash and due from banks approximate fair value because they mature in 90 days or less and do not present unanticipated credit concerns.

ACCRUED INTEREST RECEIVABLE AND PAYABLE:

The carrying amounts for accrued interest receivable and payable approximate fair value because they are generally received or paid in 90 days or less and do not present unanticipated credit concerns.

AVAILABLE-FOR-SALE SECURITIES:

The fair values of available-for-sale securities are based on quoted market prices as of the balance sheet date. For certain instruments, fair value is estimated by obtaining quotes from independent dealers.

LOANS:

Fair values are estimated for portfolios of loans with similar financial characteristics.

The fair value of performing loans has been estimated by discounting expected future cash flows. The discount rate used in these calculations is derived from the Treasury yield curve adjusted for credit quality, operating expense and prepayment option price, and is calculated by discounting scheduled cash flows through the estimated maturity using estimated market discount rates that reflect the credit and interest rate risk inherent in the loan. The estimate of maturity is based on the Company's historical experience with repayments for each loan classification, modified as required by an estimate of the effect of current economic and lending conditions.

Fair value for significant nonperforming loans is based on recent external appraisals. If appraisals are not available, estimated cash flows are discounted using a rate commensurate with the risk associated with the estimated cash flows. Assumptions regarding credit risk, cash flows, and discount rates are judgmentally determined using available market information and specific borrower information.

BANK OWNED LIFE INSURANCE:

The carrying value of bank owned life insurance approximates fair value based on applicable redemption provisions.

REGULATORY STOCK:

The carrying value of regulatory stock approximates fair value based on applicable redemption provisions.

DEPOSITS:

The fair value of deposits with no stated maturity, such as noninterest-bearing demand deposits, savings and NOW accounts, and money market accounts, is equal to the amount payable on demand. The fair value of certificates of deposit is based on the discounted value of contractual cash flows. The discount rate is estimated using the rates currently offered for deposits of similar remaining maturities.

The deposits' fair value estimates do not include the benefit that results from the low-cost funding provided by the deposit liabilities compared to the cost of borrowing funds in the market, commonly referred to as the core deposit intangible.

BORROWED FUNDS:

Rates available to the Company for borrowed funds with similar terms and remaining maturities are used to estimate the fair value of borrowed funds.

14. GOODWILL

A summary of goodwill is as follows (in thousands):

		December 31,		
	2004	2003	2002	
Beginning carrying amount	\$ 7,685	\$ 7,685	\$ 7,685	
Add: amount related to acquisition	1,700	-	-	
Gross carrying amount	9,385	7,685	7,685	
Less: accumulated amortization	780	780	780	
Net carrying amount	\$ 8,605	\$ 6,905	\$ 6,905	

The gross carrying amount of goodwill is tested for impairment on an annual basis. Due to an increase in overall earning asset growth, operating profits and cashflows were greater than expected. Based on the fair value of the reporting unit, estimated using the expected present value of future cashflows, no goodwill impairment loss was recognized in 2004, 2003 or 2002.

15. CORE DEPOSIT INTANGIBLE ASSETS

A summary of core deposit intangible assets is as follows (in thousands):

		December 31,		
	2004	2003	2002	
Beginning carrying amount	\$ 2,763	\$ 2,763	\$ 2,763	
Add: amount related to acquisition	790	-	-	
Gross carrying amount	3,553	2,763	2,763	
Less: accumulated amortization	2,291	1,785	1,350	
Net carrying amount	\$ 1,262	\$ 978	\$ 1,413	

Amortization expense amounted to \$506,000, \$435,000 and \$457,000 for 2004, 2003 and 2002, respectively.

The estimated amortization expense of intangible assets for each of the five succeeding fiscal years is as follows (in thousands):

	Core deposit intangibles
For the year ended December 31, 2005	\$ 578
For the year ended December 31, 2006	252
For the year ended December 31, 2007	144
For the year ended December 31, 2008	144
For the year ended December 31, 2009	144

18. ACQUISITION

On June 4, 2004, the Bank acquired two leased banking facilities of The Legacy Bank located in the Towanda and Sayre areas, known hereafter as the "Acquisition". This Acquisition included loans of \$27,340,000, retail core deposits of \$20,663,000 and certain fixed assets. This transaction was accounted for under the purchase method and the Bank recorded \$2,490,000 of intangible assets. As part of the Acquisition we elected to consolidate the newly acquired Towanda Legacy office into our existing Towanda branch, thus not assuming the existing lease. We also elected to close our existing Sayre branch located on Keystone Avenue and consolidate our current customers into the new Sayre location on Elmira Street. The consolidated results include the operations of the acquired banking offices from the date of acquisition. On July 15, 2004, subsequent to the Acquisition, the Elmira Street property was purchased, which was previously leased by The Legacy Bank. This property includes space for branch operations, as well as three other units which are leased to outside parties. The lease income from these units is included in other income.

To the Stockholders and the Board of Directors of
Citizens Financial Services, Inc.

We have audited the consolidated balance sheet of Citizens Financial Services, Inc. and subsidiary as of December 31, 2004 and 2003, and the related consolidated statements of income, changes in stockholders' equity, and cash flows for each of the three years in the period ended December 31, 2004. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Citizens Financial Services, Inc. and subsidiary as of December 31, 2004 and 2003, and the consolidated results of their operations and cash flows for each of the three years in the period ended December 31, 2004, in conformity with U.S. generally accepted accounting principles.

(2) Amounts in 2004 reflect the acquisition of branches in the second quarter of 2004. Amounts in 2000 reflect the acquisition of branches in the fourth quarter of 2000.

COMMON STOCK

Common stock issued by Citizens Financial Services, Inc. is traded in the local over-the-counter market, primarily in Pennsylvania and New York. Prices presented in the table below are bid/ask prices between broker-dealers published by the National Association of Securities Dealers through the NASD OTC "Bulletin Board", its automated quotation system for non-NASDAQ quoted stocks and the National Quotation Bureau's "Pink Sheets." The prices do not include retail markups or markdowns or any commission to the broker-dealer. The bid prices do not necessarily reflect prices in actual transactions. Cash dividends are declared on a quarterly basis and the effects of stock dividends have been stated retroactively in the table below (also see dividend restrictions in Note 11).

	2004		Dividends declared per share	2003		Dividends declared per share

CAUTIONARY STATEMENT

Forward-looking statements may prove inaccurate. We have made forward-looking statements in this document, and in documents that we incorporate by reference, that are subject to risks and uncertainties. Forward-looking statements include information concerning possible or assumed future results of operations of Citizens Financial Services, Inc., First Citizens National Bank, First Citizens Insurance Agency, Inc. or the combined Company. When we use such words as “believes,” “expects,” “anticipates,” or similar expressions, we are making forward-looking statements. For a variety of reasons, actual results could differ materially from those contained in or implied by forward-looking statements:

- Interest rates could change more rapidly or more significantly than we expect.
- The economy could change significantly in an unexpected way, which would cause the demand for new loans and the ability of borrowers to repay outstanding loans to change in ways that our models do not anticipate.
- The stock and bond markets could suffer a significant disruption, which may have a negative effect on our financial condition and that of our borrowers, and on our ability to raise money by issuing new securities.
- It could take us longer than we anticipate to implement strategic initiatives designed to increase revenues or manage expenses, or we may be unable to implement those initiatives at all.
- Acquisitions and dispositions of assets could affect us in ways that management has not anticipated.
- We may become subject to new legal obligations or the resolution of litigation may have a negative effect on our financial condition.
- We may become subject to new and unanticipated accounting, tax, or regulatory practices or requirements.

INTRODUCTION

The following is management’s discussion and analysis of the significant changes in the results of operations, capital resources and liquidity presented in its accompanying consolidated financial statements for Citizens Financial Services, Inc., a bank holding company and its subsidiary (the “Company”). Our Company’s consolidated financial condition and results of operations consist almost entirely of our wholly owned subsidiary’s (First Citizens National Bank) financial conditions and results of operations. Management’s discussion and analysis should be read in conjunction with the audited consolidated financial statements and related notes. Except as noted, tabular information is presented in thousands of dollars.

Our Company currently engages in the general business of banking throughout our service area of Potter, Tioga and Bradford counties in North Central Pennsylvania and Allegany, Steuben, Chemung and Tioga counties in Southern New York. We maintain our central office in Mansfield, Pennsylvania. Presently we operate banking facilities in Mansfield, Blossburg, Ulysses, Genesee, Wellsboro, Troy, Sayre, Canton, Gillett, Millerton, LeRaysville, Towanda, the Wellsboro Weis Market store and the Mansfield Wal-Mart Super Center. Additionally, we have an automatic teller machine (ATM) located at Mansfield University. Our lending and deposit products and investment services are offered primarily within our service area.

Risk identification and management are essential elements for the successful management of the Company. In the normal course of business, the Company is subject to various types of risk, including interest rate, credit, liquidity and regulatory risk.

Interest rate risk is the sensitivity of net interest income and the market value of financial instruments to the direction and frequency of changes in interest rates. Interest rate risk results from various re-pricing frequencies and the maturity structure of the financial instruments owned by the Company. The Company uses its asset/liability and funds management policy to control and manage interest rate risk.

Credit risk represents the possibility that a customer may not perform in accordance with contractual terms. Credit risk results from loans with customers and the purchasing of securities. The Company's primary credit risk is in the loan portfolio. The Company manages credit risk by adhering to an established credit policy and through a disciplined evaluation of the adequacy of the allowance for loan losses. Also, the investment policy limits the amount of credit risk that may be taken in the investment portfolio.

Liquidity risk represents the inability to generate or otherwise obtain funds at reasonable rates to satisfy commitments to borrowers and obligations to depositors. The Company has established guidelines within its asset/liability and funds management policy to manage liquidity risk. These guidelines include contingent funding alternatives.

Regulatory risk represents the possibility that a change in law, regulations or regulatory policy may have a material effect on the business of the Company and its subsidiary. We can not predict what legislation might be enacted or what regulations might be adopted, or if adopted, the effect thereof on our operations.

Readers should carefully review the risk factors described in other documents our Company files from time to time with the Securities and Exchange Commission, including the quarterly reports on Form 10-Q and any current reports on Form 8-K filed by us.

We face strong competition in the communities we serve from other commercial banks, savings banks, and savings and loan associations, some of which are substantially larger institutions than our subsidiary. In addition, insurance companies, investment-counseling firms, and other business firms and individuals offer personal and corporate trust services. We also compete with credit unions, issuers of money market funds, securities brokerage firms, consumer finance companies, mortgage brokers and insurance companies. These entities are strong competitors for virtually all types of financial services.

In recent years, the financial services industry has experienced tremendous change to competitive barriers between bank and non-bank institutions. We must compete with traditional financial institutions, other business corporations that have begun to deliver competing financial services, and banking services that are easily accessible through the internet. Competition for banking services is based on price, nature of product, quality of service, and in the case of certain activities, convenience of location.

TRUST AND INVESTMENT SERVICES

Our Investment and Trust Services Department is committed to helping our customers meet their financial goals. The Trust Department offers professional trust administration, investment management services, estate planning and administration, and custody of securities. We also help the members of our communities prepare for retirement by providing retirement plans for local employers and by managing individual IRA accounts. Our Trust Officers have a total of 73 years of experience that enables us to deliver superior service and customer value.

Our Investment Representatives offer a full service brokerage service throughout the Bank's market area, and appointments can be made at any First Citizens National Bank branch. The Investment Representatives provide financial planning and help our customers achieve their financial goals with their choice of mutual funds, annuities and life insurance. Annuities, life and health insurance are made available through our insurance subsidiary, First Citizens Insurance Agency, Inc.

FINANCIAL CONDITION

The following table presents ending balances (dollars in millions), growth (reduction) and the percentage change during the past two years:

	2004			2003			2002
	Balance	Increase %	(Decrease) Change	Balance	Increase %	(Decrease) Change	
Total assets	\$ 499.3	\$ 35.4	7.6	\$ 463.9	\$ 31.2	7.2	\$ 432.7
Total loans, net	355.8	41.8	13.3	314.0	19.2	6.5	294.8
Total investments	95.7	(10.9)	(10.2)	106.6	5.9	5.9	100.7
Total deposits	419.1	33.4	8.7	385.7	12.6	3.4	373.1
Total stockholders' equity	40.8	2.3	6.0	38.5	0.1	0.3	38.4

CASH AND CASH EQUIVALENTS

Cash and cash equivalents totaled \$9,339,000 at December 31, 2004 compared with \$9,951,000 at December 31, 2003. Non-interest bearing cash decreased \$462,000 since December 31, 2003, while interest-bearing cash decreased \$150,000 during that same time period.

We believe the Company's liquidity needs are satisfied by the current balance of cash and cash equivalents, readily available access to traditional funding sources, Federal Home Loan Bank financing, and the portion of the investment and loan portfolios that mature within one year. These sources of funds should permit us to meet cash obligations and off-balance sheet commitments as they come due.

INVESTMENTS

Our investment portfolio decreased by \$10.9 million or 10.2% in 2004 as compared to an increase of \$5.9 million in 2003. The decrease in 2004 is primarily attributable to the sale of \$13.5 million of corporate bonds and US Agency securities. We continued to experience significant cash flow from our mortgage-backed securities monthly principal repayments, which averaged approximately \$1,732,000 per month. During 2004 new investments were made primarily in short to intermediate term mortgage-backed securities, US Agency securities and municipal bonds. Proceeds from the sales and maturities were used to fund loan growth and to purchase two branches from The Legacy Bank in June (see Footnote 18 of the consolidated financial statements for additional information). Our current investment strategy is to reinvest in short to intermediate term mortgage-backed securities and longer term municipal securities as funds become available.

The following table shows the year-end composition of the investment portfolio for the five years ending December 31:

Estimated Fair Market Value at December 31,

	2004	% of	2003	% of	2002	% of	2001	% of	2000	% of
	Amount	Total	Amount	Total	Amount	Total	Amount	Total	Amount	Total
Available-for-sale:

Other equity securities

Total	\$ 95,747	100.0	\$ 106,587	100.0	\$ 100,725	100.0	\$ 113,604	100.0	\$ 97,984	100.0
39										

The expected principal repayments (amortized cost) and average weighted yields for the investment portfolio as of December 31, 2004, are shown below. Expected maturities, which include prepayment speed assumptions for mortgage-backed securities, are significantly different than the contractual maturities detailed in Footnote 3 of the consolidated financial statements. Yields on tax-exempt securities are presented on a fully taxable equivalent basis, assuming a 34% tax rate.

	Within One Year	Yield (%)	One- Five Years	Yield (%)	Five- Ten Years	Yield (%)	After Ten Years	Yield (%)	Amortized Cost Total	Yield (%)
Available-for-sale securities:										
U.S. Agency securities	\$ -	-	\$ 5,829	3.8	\$ -	-	\$ -	-	\$ 5,829	3.8
Obligations of state & political subdivisions	1,107	6.3	4,543	6.8	1,553	6.1	-	-	7,203	6.6
Corporate obligations	-	-	8,523	5.6	-	-	-	-	8,523	5.6
Mortgage-backed securities	-	-	70,845	4.0	-	-	-	-	70,845	4.0
Equity securities	-	-	3,099	7.3	-	-	-	-	3,099	7.3
Total available-for-sale	\$ 1,107	6.3	\$ 92,839	4.4	\$ 1,553	6.1	\$ -	-	\$ 95,499	4.4

Approximately 98% of the amortized cost of debt securities is expected to mature, call or prepay within five years or less.

Our Company expects that earnings from operations, the high liquidity level of the available-for-sale securities, growth of deposits and the availability of borrowings from the Federal Home Loan Bank will be sufficient to meet future liquidity needs.

Our Company has no securities from a single issuer representing more than 10% of stockholders' equity.

LOANS

Historically, our Company's loan customers have been located in North Central Pennsylvania and the Southern Tier of New York. We originate loans primarily through direct loans to our existing customer base, with new customers generated by referrals from real estate brokers, building contractors, attorneys, accountants and existing customers. We also do a limited amount of indirect loans through new and used car dealers in our primary lending area.

All lending is governed by a lending policy that is developed and maintained by us and approved by the Board of Directors. Our Company's real estate loan lending policy generally permits the Bank to lend up to 85% of the appraised value or purchase price (whichever is lower) on owner-occupied residential property, when secured by the first mortgage on the property. Home equity lines of credit or second mortgage loans are generally originated subject to maximum mortgage liens against the property of 85% of the current appraised value. The maximum term for mortgage loans is 30 years for one-to-four family residential property and 20 years for commercial and vacation property.

As shown in the following table, total loans grew by \$42.0 million in 2004, or 13.2%. \$27.3 million of this increase is attributable to the acquisition of two branches from The Legacy Bank in June, 2004 (see Footnote 18 of the consolidated financial statements). The remaining \$14.7 million is organic growth primarily due to the continued conducive interest rate environment that existed during 2004 and our continued focus on the commercial loan portfolio. In 2004, \$3.0 million in conforming mortgage loans were originated and \$3.1 million sold in the secondary market through Freddie Mac, providing over \$54,000 of income in origination fees and premiums on loans sold, compared to \$22.4 million in loans originated and \$349,000 of income in 2003. This decrease in loans sold was primarily a result of the slowdown in residential mortgage lending and refinancing activity in 2004 compared to 2003.

Our Company continues to focus on its commercial lending activity. The addition of a business development officer (BDO) in 2004, along with our existing, experienced BDO staff, has had a positive impact on our ability to generate new commercial real estate loans and other commercial loans. Total commercial loans increased \$29.7 million, \$23.7 million of which is related to the acquisition of two branches. Agricultural loans increased \$4.0 million, primarily attributable to our strong core of BDO's and lenders.

The majority of lending activity has been, and continues to be, mortgage loans secured by one- to four-family residential property. As of December 31, 2004, residential real estate and real estate construction loans totaled \$197.1 million or 54.8% of our total loan portfolio. This compares with a total of \$186.1 million as of December 31, 2003, which was 58.6% of the total loan portfolio. While overall residential real estate loans increased by 5.3%, the decrease in the percent of the portfolio made up of residential real estate mortgages is indicative of the focus on developing the commercial loan portfolio, which should continue into 2005.

Our Company's primary goal is to be the premier mortgage lender in our market area, with a variety of mortgages available for our customers. The interest rate environment, from a historical perspective, continues to be favorable from the customer's perspective. Loan demand, particularly for residential real estate has flattened out during 2004, and we believe that it will continue to be relatively flat in 2005. However, our continued emphasis on training branch office personnel and the focus on flexibility and fast "turn around time" will continue to aid in growing our loan portfolio along with our continued review of our overall product mix (also see the discussion in Footnote 4 of the consolidated financial statements).

Overall, the local economy has remained relatively stable in 2004, with the local average unemployment rate at approximately 5.3%. This is slightly higher than the state unemployment rate of approximately 5.1%.

Five Year Breakdown of Loans by Type as December 31,

	2004		2003		2002		2001		2000

The following table shows the maturity of state and political subdivision loans, commercial and agricultural loans and commercial loans secured by real estate as of December 31, 2004, classified according to the sensitivity to changes in interest rates within various time intervals:

	Commercial, municipal, agricultural	Real estate construction	Total
Maturity of loans:			
One year or less	\$ 11,732	\$ -	\$ 11,732
Over one year but less than five years	23,328	-	23,328
Over five years	114,891	7,282	122,173
Total	\$ 149,951	\$ 7,282	\$ 157,233
Sensitivity of loans to changes in interest rates - loans due after one year:			
Predetermined interest rate	\$ 33,103	\$ 1,311	\$ 34,414
Floating or adjustable interest rate	105,116	5,971	111,087
Total	\$ 138,219	\$ 7,282	\$ 145,501

LOAN QUALITY AND PROVISION FOR LOAN LOSSES

As discussed previously, the loan portfolio contains a large portion of real estate secured loans (generally residential home mortgages, mortgages on small business properties, etc.), consumer installment loans and other commercial loans. Footnote 4 of the consolidated financial statements provides further details on the composition of the loan portfolio.

The following table indicates the level of non-performing assets over the past five years ending December 31:

	2004	2003	2002	2001	2000
Non-performing loans:					
Non-accruing loans	\$ 722	\$ 578	\$ 1,064	\$ 985	\$ 488
Impaired loans	1,061	1,926	1,916	1,077	199
Accrual loans - 90 days or more past due	437	185	39	111	39
Total non-performing loans	2,220	2,689	3,019	2,173	726
Foreclosed assets held for sale	712	305	221	408	508
Total non-performing assets	\$ 2,932	\$ 2,994	\$ 3,240	\$ 2,581	\$ 1,234
Non-performing loans as a percent of loans					
net of unearned income	0.62%	0.85%	1.01%	0.80%	0.28%
Non-performing assets as a percent of loans					
net of unearned income	0.82%	0.94%	1.09%	0.95%	0.47%

Other than those disclosed above, we do not believe there are any loans classified for regulatory purposes as loss, doubtful, substandard, special mention or otherwise, which will result in losses or have a material impact on future operations, liquidity or capital reserves. We are not aware of any other information that causes us to have serious doubts as to the ability of borrowers in general to comply with repayment terms.

The following table presents an analysis of the allowance for loan losses for the five years ending December 31:

Summary of Loan Loss Experience

	2004	2003	2002	2001	2000
Balance					
at beginning of period	\$ 3,620	\$ 3,621	\$ 3,250	\$ 2,777	\$ 2,270

Loans outstanding at end of year	\$ 359,693	\$ 317,657	\$ 298,457	\$ 271,714	\$ 262,986
Average loans outstanding, net	\$ 334,473	\$ 306,776	\$ 285,241	\$ 266,116	\$ 241,359
Net charge-offs to average loans	0.00%	0.14%	0.02%	-0.01%	0.04%
Year-end allowance to total loans	1.09%	1.14%	1.21%	1.20%	1.06%
Year-end allowance to total non-performing loans	176.53%	134.62%	119.94%	149.56%	382.51%

As detailed in Footnote 4 of the consolidated financial statements and the above tables, total past due (90 days or more) and non-performing loans decreased 17.4% from December 31, 2003 to December 31, 2004. Total loans charged-off decreased \$237,000 during 2004. This decrease is primarily attributable to a \$302,000 commercial loan charged-off during the third quarter of 2003, which was the result of a single borrower going into bankruptcy. In 2004 much of this charged off loan was recovered, accounting for most of the increase in overall loan recoveries of \$208,000. The overall improvement in loan quality and strength of our allowance for loan losses resulted in no provision being recorded in 2004 (see below for additional comments). While overall unemployment rates are consistent with last year, there have been various local employers announcing recent layoffs and shutdowns, particularly manufacturing companies. The Company does not believe that these specific events will have a significant impact on loan quality. The majority of our loan volume is well collateralized by real estate.

ALLOWANCE FOR LOAN LOSSES

The allowance is maintained at a level, which in management's judgment is adequate to absorb probable future loan losses inherent in the loan portfolio. The amount of the allowance is determined by a formal analysis of delinquencies, large problem credits, non-accrual loans, local economic conditions, trends in the loan portfolio and historic and projected losses. As part of this evaluation, the loan portfolio is divided into several categories in order to appropriately measure the risks within the portfolio. These categories are loans classified on the Watch List, residential mortgages, commercial and consumer loans.

Historical loss factors are calculated for consumer, residential mortgage, and commercial loans for the past seven years. The five year average historical loss factor for each category is applied to the performing portion of the loan category. For Watch List loans, the losses are calculated using regulatory guidelines and are based on historical losses. These historical factors, for both the Watch List and homogeneous loan pools, are adjusted based on the five following qualitative factors:

- Level of Delinquencies and Non-Accruals
- Trends in Volume and Terms of Loans
- Experience, Ability and Depth of Management
- National and Local Economic Trends and Conditions
- Concentration of Credit

While we evaluate all of this information quarterly, future adjustments to the allowance may be necessary if economic conditions differ substantially from the assumptions used in making the evaluation. In addition, various regulatory agencies, as an integral part of their examination process, review our Company's allowance for loan losses. These agencies may require us to recognize additions to the allowance based on their evaluation of information available to them. We believe that the current allowance is adequate to offset any exposure that may exist for loans that are under secured or loans that might not be collectible.

The accrual of interest income on loans is discontinued when, in the opinion of management, there exists doubt as to the ability to collect interest. Payments received on nonaccrual loans are applied to the outstanding principal balance or recorded as interest income, depending upon our assessment of our ability to collect principal and interest. Loans are returned to the accrual status when factors indicating doubtful collectibility cease to exist.

ALLOCATION OF THE ALLOWANCE FOR LOAN LOSSES

The allocation of the allowance for loan losses is our determination of the amounts necessary for concentrations and changes in mix and volume of the loan portfolio.

The unallocated portion of the allowance is based upon our assessment of general and specific economic conditions within our market. This allocation is more uncertain and considers risk factors that may not be reflected in our historical loss factors. Total charge-offs for 2005 are expected to return back to their moderate historic levels.

The following table shows the distribution of the allowance for loan losses and the percentage of loans compared to total loans by loan category:

	2004		2003		2002		2001		2000	
	Amount	%	Amount	%	Amount	%	Amount	%	Amount	%

44

BANK OWNED LIFE INSURANCE

During the third quarter of 2003 the Company elected to purchase \$7,000,000 of bank owned life insurance to offset future employee benefit costs. The bank is the sole beneficiary on the policies, and will provide the bank with an asset that will generate earnings to partially offset the current costs of benefits, and eventually (at the death of the insureds) provide partial recovery of cash outflows associated with the benefits. As of December 31, 2004 and 2003, the cash surrender value of the life insurance was \$7,449,000 and \$7,142,000, respectively. The Company evaluates annually the risks associated with the life insurance policies, including limits on the amount of coverage and an evaluation of the various carriers' credit ratings.

DEPOSITS

Traditional deposits continue to be the most significant source of funds for the Company. We are one of the only banks within our market to pay interest on a senior checking product and the only bank that does not require a minimum balance to do so. Larger deposit relationships are rewarded with higher interest rates on our Money Market Investor accounts and certificates of deposit.

The Company continues to offer competitive interest rates, and has a menu of products available to meet the needs of our customers. New products, including a Breakable and Easy Access certificate of deposit have helped us retain existing CD deposit relationships and attract new ones. These products provide added flexibility for our customers, a feature we believe is critical to growing our deposits in the future. Continuous emphasis on personal quality service also plays a large role in our ability to retain existing customers. One of our strategies for growth is to continue developing a total banking relationship with our customers through the use of our wide range of products available to serve their needs. We plan to continue our focus on existing customer growth in 2005, as well as developing strategies for attracting new customers.

The Company experienced an increase in total deposits of \$33.4 million in 2004, which is an 8.7% increase. This compares to moderate deposit growth in 2003 of \$12.6 million or 3.4%. \$20.7 million of 2004's growth is attributable to the acquisition of two branches from The Legacy Bank in June of 2004. Excluding the acquisition, deposits increased \$12.7 million, consistent with 2003's increase. The table below shows that NOW accounts increased \$17.3 million at December 31, 2004, while savings accounts increased \$2.0 million and certificates of deposit increased \$14.2 million.

We have retained and acquired deposits through new product introductions and competitive pricing, increased marketing efforts, continuous, proactive one-to-one contact from consumer and business customer contact associates, as well as expanded trust and investment management services. Our attention to building relationships with our customers is evident in the increasing level of certificates of deposit of \$100,000 or more. The percent of certificates of deposit of \$100,000 or more to the total is 23.97%, 20.52% and 17.68% as of December 31, 2004, 2003, and 2002, respectively.

Our wide range of delivery channels provides our customers with convenient options to satisfy their banking needs. This includes Saturday office hours, supermarket branches that function as full service offices, a network of 16 ATMs, which are part of the STAR network, MasterMoney Debit Card for purchases, Bank-by-Phone and Internet Banking.

BORROWED FUNDS

Borrowed funds decreased \$321,000 during the twelve months ending December 31, 2004 compared with an increase of \$10.8 million in 2003. The increase in 2003 was primarily due to a \$15 million leveraged investment strategy implemented in December 2003. The Company's daily cash requirements for short term investments are met by using the financial instruments available through the Federal Home Loan Bank.

In September 2003, the Company borrowed \$1.1 million from its line of credit with an unrelated financial institution to buy back 41,800 shares of treasury stock from an estate. This was paid off in August, 2004.

In December 2003, the Company formed a special purpose entity, Citizens Financial Statutory Trust I ("the Entity"), to issue \$7,500,000 of floating rate obligated mandatory redeemable securities as part of a pooled offering. The rate is determined quarterly and floats based on the 3 month LIBOR plus 2.80%. At December 31, 2004 and 2003, the rate was 5.30% and 3.97%, respectively. The Entity may redeem them, in whole or in part, at face value after December 17, 2008. The Company borrowed the proceeds of the issuance from the Entity in December 2003 in the form of a \$7,500,000 note payable. Debt issue costs of \$75,000 have been capitalized and are being amortized through the first call date. Under current accounting rules, the Company's minority interest in the Entity was recorded at the initial investment amount and is included in the other assets section of the balance sheet. The Entity is not consolidated as part of the Company's consolidated financial statements.

STOCKHOLDERS' EQUITY

We evaluate stockholders' equity in relation to total assets and the risk associated with those assets. The greater the capital resources, the more likely a corporation is to meet its cash obligations and absorb unforeseen losses. For these reasons, capital adequacy has been, and will continue to be, of paramount importance.

Stockholders' equity increased by 5.9% in 2004 to \$40.8 million, after increasing .3% in 2003 and increasing 15.0% in 2002. Excluding the after-tax effect of unrealized holding gains and losses on available-for-sale securities, stockholders' equity increased 8.1% in 2004 compared with an increase of 4.8% in 2003. In 2004 and 2003, equity was negatively affected by the after-tax effect of changes in unrealized gains and losses on available-for-sale securities by \$792,000 and \$1,597,000, respectively. Total equity was approximately 8.2% of total assets as of December 31, 2004, as compared to 8.3% of total assets at December 31, 2003.

Our Board of Directors determines our dividend rate after considering our Company's capital requirements, current and projected net income, and other factors. In 2004 and 2003, our Company paid out 41.9% and 43.1% of net income in dividends, respectively.

For the year ended December 31, 2004, the total number of common shares outstanding was 2,840,257. For comparative purposes, outstanding shares for prior periods were adjusted for the July, 2004 stock dividend in computing earnings and cash dividends per share.

There are currently three federal regulatory measures of capital adequacy. Our Company's ratios meet the regulatory standards for well capitalized for 2004 and 2003, as detailed in Footnote 11 of the consolidated financial statements.

RESULTS OF OPERATIONS

Net income for the twelve months ending December 31, 2004 was \$5.3 million, an increase of \$388,000 or 8.0% from the \$4.9 million for the 2003 related period. Net income for the twelve months ending December 31, 2003 decreased \$716,000 or 12.8% from the \$5.6 million for the 2002 related period. Earnings per share were \$1.85, \$1.70 and \$1.94 for the years ended 2004, 2003 and 2002, respectively. The reasons for these changes are discussed on the following pages.

The following table sets forth certain performance ratios of our Company for the periods indicated:

OVERVIEW OF THE INCOME STATEMENT

	2004	2003	2002
Return on Assets (net income to average total assets)	1.09%	1.11%	1.30%
Return on Equity (net income to average total equity)	13.40%	13.22%	16.53%
Dividend Payout Ratio (dividends declared divided by net income)	41.90%	43.10%	34.27%
Equity to Asset Ratio (average equity to average total assets)	8.15%	8.43%	7.94%

In 2004, net income was \$ 5,267,000, an increase of 8.0% compared to 2003 net income of \$4,879,000. The increase in earnings is the result of stable net interest income from the use of increased earning assets, a decrease in the provision for loan losses, and a decrease in non-interest expense. These were offset by a decreased interest rate margin and a decrease in non-interest income.

Net income is influenced by five key components: net interest income, non-interest income, non-interest expenses, provision for income taxes and the provision for loan losses. A discussion of these five components follows.

NET INTEREST INCOME

The most significant source of revenue is net interest income; the amount of interest earned on interest-earning assets exceeding interest incurred on interest-bearing liabilities. Factors that influence net interest income are changes in volume of interest-earning assets and interest-bearing liabilities as well as changes in the associated interest rates.

Net interest income for 2004, after provision for loan losses, was \$17,371,000, an increase of \$1,017,000, or 6.2% compared with a decrease of \$184,000 or 1.1% during the same period in 2003. The following tables sets forth our Company's average balances of, and the interest earned or incurred on, each principal category of assets, liabilities and stockholders' equity, the related rates, net interest income and rate "spread" created.

(1) Averages are based on daily averages.

(2) Includes loan origination and commitment fees.

(3) Tax exempt interest revenue is shown on a tax equivalent basis for proper comparison using a statutory federal income tax rate of 34%.

(4) Income on non-accrual loans is accounted for on a cash basis, and the loan balances are included in interest-earning assets.

(5) Interest rate spread represents the difference between the average rate earned on interest-earning assets and the average rate paid on interest-bearing liabilities.

Tax exempt interest revenue is shown on a tax-equivalent basis for proper comparison using a statutory, federal income tax rate of 34%. Income tax adjustments of \$239,000, \$332,000 and \$420,000 for investments and \$724,000, \$728,000 and \$605,000 for loans have been made accordingly to the previous table for the years ended December 31, 2004, 2003 and 2002, respectively.

As disclosed in the previous table, we experienced a decreasing interest margin during 2004 as compared to the same period for 2003 and 2002. The overall interest rate spread was 3.86% in 2004, which compares to 4.16% and 4.22% in 2003 and 2002, respectively. During 2004, the Federal Reserve increased short-term interest rates by 125 basis points in 25 basis point increments throughout the year, while long-term rates remained relatively unchanged. Particularly during the last six months of 2004, the yield curve has become significantly flatter. Most of the Company's investments, loans, deposits and borrowings are priced or repriced along the three month to five-year portion of the yield curve and a more normal yield curve should enable us to increase our current net interest margin. Should the flattened yield curve become more prevalent or remain in effect for an extended period, we will continue to see pressure on our margin. We continue to review various pricing and investment strategies to enhance deposit growth in order to maintain or expand the current interest margin.

The following table shows the effect of changes in volume and rates on interest income and expense. Tax-exempt interest revenue is shown on a tax-equivalent basis for proper comparison using a statutory federal income tax rate of 34%:

	2004 vs. 2003 (1)			2003 vs. 2002 (1)

(1) The change in interest due to both rate and volume has been allocated to the volume and rate in proportion to the absolute dollar amounts of each change.

49

As can be seen from the preceding tables, tax equivalent net interest income decreased from \$17,998,000 in 2002 to \$17,849,000 in 2003, and increased to \$18,334,000 in 2004. In 2004, net interest income increased \$485,000 while the overall spread decreased from 4.16% to 3.86%. The increased volume of interest-earning assets generated an increase in interest income of \$2,625,000 while increased volume of interest-bearing liabilities produced an additional \$906,000 of interest expense. The change in volume resulted in a net increase of \$1,719,000 in net interest income. The net change in rate was a negative \$1,234,000 resulting in a total positive net change of \$485,000 when combined with the change in volume. The yield on our interest-earning assets has decreased to 6.21% in 2004 from 6.63% in 2003 and 7.18% in 2002. The yield on interest-bearing liabilities has decreased slightly to 2.35%, down from 2.48% in 2003 and 2.97% in 2002. Analysis of our Company's net interest income for 2004 shows the effects of increasing short-term interest rates and the effect of a flattening of the yield curve.

NON-INTEREST INCOME

Non-interest income, as detailed below, decreased \$1,020,000 or 19.2% in 2004 compared with an increase of \$266,000 or 5.3% in 2003. Service charge income, which remained flat compared with 2003 at \$3,017,000, continues to be the primary source of non-interest income.

Most of the decrease in 2004 is attributable to recording an other-than-temporary impairment non-cash charge of \$726,000 related to \$3.8 million face value of perpetual preferred stock issued by Freddie Mac, a Government sponsored entity (see Footnote 3 of the consolidated financial statements for additional information). The perpetual preferred stock issues are investment grade securities that are held in the Company's available-for-sale securities portfolio. Prior to this charge, the decline in value of these securities were recorded as unrealized marked-to-market losses on securities available-for-sale and reflected as a reduction to stockholders' equity through other comprehensive income. Accordingly, the reclassification of the unrealized loss to an other-than-temporary impairment non-cash charge did not affect stockholders' equity. The decision to reclassify the unrealized marked-to-market losses on these securities to an other-than-temporary impairment charge was based on a very conservative interpretation of existing accounting guidance and literature and does not reflect on the expected long-term value of these investment grade securities. Net income for 2004 was impacted by approximately \$479,000 for this non-cash impairment charge.

In an effort to take advantage of current market conditions, we elected to sell approximately \$14,045,000 of investment securities in 2004, which resulted in \$491,000 of security gains, excluding the impairment charge mentioned above.

Gains on loans sold decreased \$295,000 from last year primarily due to the slowdown in residential mortgage lending and refinancing activity in 2004 compared with 2003.

The following table reflects non-interest income by major category for the periods ended December 31:

	2004	2003	2002
Service charges	\$ 3,017	\$ 3,018	\$ 3,130
Trust	434	422	467
Brokerage	185	200	95
Gains on loans sold	54	349	185
Investment securities (losses) gains, net	(235)	553	254
Earnings on bank owned life insurance	307	142	-
Other	530	628	915
Total	\$ 4,292	\$ 5,312	\$ 5,046

	2004/2003		2003/2002	
	Amount	%	Amount	%
Service charges	\$ (1)	(0.0)	\$ (112)	(3.6)
Trust	12	2.8	(45)	(9.6)
Brokerage	(15)	(7.5)	105	110.5
Gains on loans sold	(295)	(84.5)	164	88.6
Investment securities (losses) gains, net	(788)	(142.5)	299	117.7
Earnings on bank owned life insurance	165	116.2	142	N/A
Other	(98)	(15.6)	(287)	(31.4)
Total	\$ (1,020)	(19.2)	\$ 266	5.3

We continue to evaluate additional means of increasing non-interest income. Our approach is to apply service charges on business accounts by charging fees on transaction activity (reduced by earnings credit based on customers' balances) to more equitably recover costs.

NON-INTEREST EXPENSES

Total non-interest expenses for 2004 of \$14,922,000 decreased \$579,000, or 3.7%, compared with 2003 costs of \$15,501,000. These costs include, but were not limited to, salaries, supplies, insurance, occupancy, and amortization expenses. The most significant decrease was in salaries and employee benefits, which decreased \$668,000, compared to an increase of \$1,184,000 from 2002 to 2003. The large increase in salaries and employee benefits in 2003 was the result of a consulting and non-compete agreement entered into with the former President and CEO, Richard E. Wilber, which was effective upon Mr. Wilber's retirement. The financial impact of this agreement was an increase to salaries and benefits of \$824,000 for the year ended December 31, 2003. Also included in the decrease for salaries and employee benefits is a decrease of \$80,000 in pension expense as a result of current obligations and market performance, and a decrease in salaries primarily due to several unfilled positions, including the CEO position, for a period of time in 2004. Full time equivalent staffing levels for 2004 was 171 compared with 180 for 2003, reflective of improvements in operating efficiencies.

These decreases were offset by an increase of \$250,000 in the employee profit sharing plan in 2004. Amortization increased \$71,000 due to the additional core deposit intangible recorded as a result of the acquisition of two branches from The Legacy Bank in June. Merger and acquisition costs increased \$140,000 also due to the branch acquisition.

The following tables reflect the breakdown of non-interest expense and professional fees for the periods ended December 31:

	2004	2003	2002

Other professional fees	\$ (76)	(16.5)	\$ (45)	(8.9)
Legal fees	(8)	(7.3)	39	55.7
Examinations and audits	20	16.0	33	35.9
Total	\$ (64)	(9.2)	\$ 27	4.0

Total professional fees expense totaled \$630,000 in 2004, a decrease of \$64,000 or 9.2% compared with 2003. Costs for 2004 reflect costs associated with our strategic plan initiative, outside loan quality reviews and costs related to maintaining and enhancing our systems. Other professional fees decreased \$76,000 compared to 2003, and \$121,000 from 2002. Examination and audit fees have continued to increase primarily due to the decision to outsource our internal audit function during 2003. Audit fees will continue to increase in 2005 as increased regulatory oversight, including Sarbanes-Oxley requirements, are implemented.

PROVISION FOR INCOME TAXES

The provision for income taxes was \$1,474,000 during 2004 compared with \$1,286,000 during the 2003 related period. The increase is directly related to the increase in income before taxes, which increased \$576,000 in 2004 over the same period in 2003 (see Footnote 9 of the Consolidated Financial Statements for additional information).

We have entered into two limited partnership agreements to establish low-income housing projects in our market area. We expect to recognize a total of approximately \$1,296,000 of tax credits over a ten-year period. For tax purposes, we have recognized \$388,000 out of a total \$911,000 from one project and \$115,000 out of a total \$385,000 on the second project.

LIQUIDITY

Liquidity is a measure of our Company's ability to efficiently meet normal cash flow requirements of both borrowers and depositors. To maintain proper liquidity, we use funds management policies along with our investment policies to assure we can meet our financial obligations to depositors, credit customers and stockholders. Liquidity is needed to meet depositors' withdrawal demands, extend credit to meet borrowers' needs, provide funds for normal operating expenses and cash dividends, and fund future capital expenditures.

Our Company's historical activity in this area can be seen in the Consolidated Statement of Cash Flows from investing and financing activities.

Cash generated by operating activities, investing activities and financing activities influences liquidity management. The most important source of funds is the deposits that are primarily core deposits (deposits from customers with other relationships). Short-term debt from the Federal Home Loan Bank supplements our Company's availability of funds. Other sources of short-term funds include brokered CD's and the sale of loans, if needed.

Our Company's use of funds is shown in the investing activity section of the Consolidated Statement of Cash Flows, where the net loan activity is detailed. Other significant uses of funds are capital expenditures, purchase of loans and acquisition premiums. Surplus funds are then invested in investment securities.

Capital expenditures were \$2,319,000 in 2004 compared with \$490,000 in 2003, which is an increase of \$1,829,000. Approximately \$1.6 million of these expenditures is related to acquiring our Elmira Street property in Sayre as a result of the branch acquisition from The Legacy Bank. The Legacy Bank had previously leased this facility. Subsequent to the acquisition, we purchased the Elmira Street property.

Other major expenditures in 2004 included:

- The purchase of property in Wellsboro for possible future expansion totaling \$333,000.
- Upgrades to ATM's totaling approximately \$132,000.

Major capital expenditures for 2003 included:

- \$151,000 related to an AS400 upgrade and \$40,000 for profitability software.

These expenditures will allow us to support our growth over the next decade, create greater operating efficiency and provide the customer with higher quality banking services.

Our Company achieves additional liquidity primarily from temporary or short term investments in the Federal Home Loan Bank of Pittsburgh, PA, investments that mature in less than one year and expected principal repayments from mortgage backed securities. The Company also has a maximum borrowing capacity at the Federal Home Loan Bank of approximately \$203 million as an additional source of liquidity.

Apart from those matters described above, management does not currently believe that there are any current trends, events or uncertainties that would have a material impact on capital.

INTEREST RATE AND MARKET RISK MANAGEMENT

The objective of interest rate sensitivity management is to maintain an appropriate balance between the stable growth of income and the risks associated with maximizing income through interest sensitivity imbalances and the market value risk of assets and liabilities.

Because of the nature of our operations, we are not subject to foreign currency exchange or commodity price risk and, since our Company has no trading portfolio, it is not subject to trading risk.

Currently our Company has equity securities that represent approximately 3.2% of our investment portfolio and, therefore, equity risk is not significant.

The primary components of interest-sensitive assets include adjustable-rate loans and investments, loan repayments, investment maturities and money market investments. The primary components of interest-sensitive liabilities include maturing certificates of deposit, IRA certificates of deposit, repurchase agreements and short-term borrowings. Savings deposits, NOW accounts and money market investor accounts are considered core deposits and are not short-term interest sensitive (except for the top-tier money market investor accounts which are paid current market interest rates).

The following table shows the cumulative static gap (at amortized cost) for various time intervals:

Maturity or Repricing of Company Assets and Liabilities as of December 31, 2004

	Within Three Months	Four to Twelve Months	One to Two Years	Two to Three Years	Three to Five Years	Over Five Years	Total
Interest-earning assets:							
Interest-bearing deposits at banks	\$ 177	\$ -	\$ -	\$ -	\$ -	\$ -	\$ 177
Investment securities	6,089	15,122	22,058	12,135	26,043	14,052	95,499
Residential mortgage loans	20,487	22,900	35,606	34,957	41,828	41,307	197,085
Commercial and farm loans	39,532	17,834	15,112	15,989	23,672	2,722	114,861

Long-term borrowing	7,500	4,218	7,355	2,060	-	110	21,243
Total interest-bearing liabilities	\$ 123,207	\$ 67,939	\$ 51,813	\$ 43,207	\$ 31,578	\$ 89,439	\$ 407,183
Excess interest-earning assets (liabilities)	\$ (49,352)	\$ (586)	\$ 33,703	\$ 29,543	\$ 62,832	\$ (27,954)	
Cumulative interest-earning assets	73,855	141,208	226,724	299,474	393,884	455,369	
Cumulative interest-bearing liabilities	123,207	191,146	242,959	286,166	317,744	407,183	

Cumulative gap	\$ (49,352)	\$ (49,938)	\$ (16,235)	\$ 13,308	\$ 76,140	\$ 48,186
Cumulative interest rate sensitivity ratio (1)	0.60	0.74	0.93	1.05	1.24	1.12

(1) Cumulative interest-earning assets divided by interest-bearing liabilities.

The previous table and the simulation models discussed below are presented assuming money market investment accounts and NOW accounts in the top interest rate tier are repriced within the first three months. The loan amounts reflect the principal balances expected to be re-priced as a result of contractual amortization and anticipated early payoffs.

Gap analysis, one of the methods used by us to analyze interest rate risk, does not necessarily show the precise impact of specific interest rate movements on our Company's net interest income because the re-pricing of certain assets and liabilities is discretionary and is subject to competition and other pressures. In addition, assets and liabilities within the same period may, in fact, be repaid at different times and at different rate levels.

Our Company currently uses a computer simulation model to better measure the impact of interest rate changes on net interest income. We use the model as part of our risk management process that will effectively identify, measure, and monitor our Company's risk exposure.

Interest rate simulations using a variety of assumptions are used by us to evaluate our interest rate risk exposure. A shock analysis at December 31, 2004, indicated that a 200 basis point movement in interest rates in either direction would have a minor impact on our Company's anticipated net interest income and the market value of assets and liabilities over the next twenty-four months, well within our ability to manage effectively. The simulation model assumed a 200 basis point movement, however not in a parallel manner. Short-term rates were increased 200 basis points, while long-term rates were held relatively flat. This assumption, a flattening of the yield curve, utilized a more realistic interest rate scenario in order to assess risks.

GENERAL

The majority of assets and liabilities of a financial institution are monetary in nature and, therefore, differ greatly from most commercial and industrial companies that have significant investments in fixed assets or inventories. However, inflation does have an important impact on the growth of total assets and on non-interest expenses, which tend to rise during periods of general inflation. The ongoing recent action by the Federal Reserve of increasing short-term interest rates should help the level of inflation remain at a relatively low level; however, it provides significant challenges due to the flattening of the yield curve.

Various congressional bills have been passed and other proposals have been made for significant changes to the banking system, including provisions for: limitation on deposit insurance coverage; changing the timing and method financial institutions use to pay for deposit insurance; and tightening the regulation of bank derivatives' activities.

Normal examinations of our Company by the Office of Comptroller of the Currency occurred during 2004. The last Community Reinvestment Act performance evaluation by the same agency resulted in a rating of "Outstanding Record of Meeting Community Credit Needs."

Aside from those matters described above, we do not believe that there are any trends, events or uncertainties that would have a material adverse impact on future operating results, liquidity or capital resources. We are not aware of any current recommendations by the regulatory authorities which, if they were to be implemented, would have such an effect, although the general cost of compliance with numerous and multiple federal and state laws and regulations does have, and in the future may have, a negative impact on our Company's results of operations.

CRITICAL ACCOUNTING POLICIES

The Company's accounting policies are integral to understanding the results reported. The accounting policies are described in detail in Note 1 of the consolidated financial statements. Our most complex accounting policies require management's judgment to ascertain the valuation of assets, liabilities, commitments and contingencies. We have established detailed policies and control procedures that are intended to ensure valuation methods are well controlled and applied consistently from period to period. In addition, the policies and procedures are intended to ensure that the process for changing methodologies occurs in an appropriate manner. The following is a brief description of our current accounting policies involving significant management valuation judgments.

Other Than Temporary Impairment of Equity Securities

Equity securities are evaluated periodically to determine whether a decline in their value is other than temporary. Management uses criteria such as the magnitude and duration of the decline, in addition to the reasons underlying the decline, to determine whether the loss in value is other than temporary. The term “other than temporary” is not intended to indicate that the decline is permanent. It indicates that the prospects for a near term recovery of value are not necessarily favorable, or that there is a lack of evidence to support fair values equal to, or greater than, the carrying value of the investment. Once a decline in value is determined to be other than temporary, the value of the security is reduced and a corresponding charge to earnings is recognized.

Allowance for Loan Losses

Arriving at an appropriate level of allowance for loan losses involves a high degree of judgment. The Company’s allowance for loan losses provides for probable losses based upon evaluations of known, and inherent risks in the loan portfolio.

Management uses historical information to assess the adequacy of the allowance for loan losses as well as the prevailing business environment; as it is affected by changing economic conditions and various external factors, which may impact the portfolio in ways currently unforeseen. The allowance is increased by provisions for loan losses and by recoveries of loans previously charged-off and reduced by loans charged-off. For a full discussion of the Company’s methodology of assessing the adequacy of the reserve for loan losses, refer to Note 1 of the consolidated financial statements.

Goodwill and Other Intangible Assets

As discussed in Note 1 of the consolidated financial statements, the Company must assess goodwill and other intangible assets each year for impairment. This assessment involves estimating cash flows for future periods. If the future cash flows were less than the recorded goodwill and other intangible assets balances, we would be required to take a charge against earnings to write down the assets to the lower value.

Mortgage Servicing Rights

The Bank originates residential mortgages that are sold on the secondary market and it is the Bank’s normal practice to retain the servicing of these loans. This means that the customers whose loans have been sold to the secondary market still make their monthly payments to the Bank. As a result of these mortgage loan sales, the Bank capitalizes a value allocated to the servicing rights in other assets and recognizes other income from the mortgage banking activity. The capitalized servicing rights are amortized against noninterest income in proportion to, and over the periods of, the estimated net servicing income of the underlying financial assets.

Capitalized servicing rights are evaluated for impairment periodically based upon the fair value of the rights as compared to amortized cost. The rights are deemed to be impaired when the fair value of the rights is less than the amortized cost. The fair value of the servicing rights is determined using quoted prices for similar assets with similar characteristics, when available, or estimated based on projected discounted cash flows using market based assumptions. The Bank primarily uses the discounted cash flow method.

Deferred Tax Assets

We use an estimate of future earnings to support our position that the benefit of our deferred tax assets will be realized. If future income should prove non-existent or less than the amount of the deferred tax assets within the tax years to which they may be applied, the asset may not be realized and our net income will be reduced. Our deferred tax assets are described further in Note 9 of the consolidated financial statements.

CONTRACTUAL OBLIGATIONS, COMMITMENTS, AND OFF-BALANCE SHEET ARRANGEMENTS

The Company has various financial obligations, including contractual obligations and commitments, that may require future cash payments.

Contractual Obligations:

The following table presents, as of December 31, 2004, significant contractual obligations to third parties by payment date. Discussion of the obligations can be found in the notes to the consolidated financial statements.

	One Year or Less	One to Three Years	Three to Five Years	Over Five Years	Total
Deposits without a stated maturity	\$ 203,297	\$ -	\$ -	\$ -	203,297
Certificates of Deposit	95,738	85,605	31,578	2,856	215,777
Borrowed funds	17,949	9,416	7,500	110	34,975
Pension and other employee benefit obligations	912	545	545	2,194	4,196
Total	\$ 317,896	\$ 95,566	\$ 39,623	\$ 5,160	\$ 458,245

Commitments:

The following table presents, as of December 31, 2004, the amounts and expected maturities of significant commitments. Discussion of the obligations can be found in the notes to the consolidated financial statements.

	One Year or Less	One to Three Years	Three to Five Years	Over Five Years	Total
Commitments to extend credit					
Commercial	\$ 8,320	\$ 125	\$ 2,150	\$ 3,962	\$ 14,557
Residential real estate	79	64	17	11,252	11,412
Other	14,456	1,424	1,603	11,833	29,316
Standby letters of credit	575	953	-	-	1,528
Total	\$ 23,430	\$ 2,566	\$ 3,770	\$ 27,047	\$ 56,813

Commitments to extend credit, including loan commitments, standby letters of credit and commercial letters of credit do not necessarily represent future cash requirements, in that these commitments often expire without being drawn upon.

ANNUAL MEETING

The Annual Meeting and Luncheon for the shareholders of Citizens Financial Services, Inc. will be held at Tioga County Fairgrounds Youth Building in Whitneyville, PA on Tuesday, April 19, 2005 at 12:00 noon.

FORM 10-K

The Annual Report to the Securities and Exchange Commission, Form 10-K, will be made available upon request.

CONTACT

Thomas C. Lyman, Treasurer
Citizens Financial Services, Inc.
15 South Main Street
Mansfield, PA 16933

INVESTOR INFORMATION

Stock Listing:

Citizens Financial Services, Inc. common stock is listed on the over the counter bulletin board and is traded under the symbol CZFS.

For assistance regarding a change in registration of stock certificates, replacing lost certificates/dividend checks, or address changes, please contact the transfer agent listed below.

Transfer Agent:

Citizens Financial Services, Inc.
Attn: Gina Marie Boor
15 South Main Street
Mansfield, PA 16933
toll free: 1-800-326-9486
telephone: 570-662-2121
website:
www.firstcitizensbank.com
e-mail:
fcnb@firstcitizensbank.com

Dividend Reinvestment:

Citizens Financial Services, Inc. offers a Dividend Reinvestment Plan. Shareholders must enroll at least 25 shares to participate in the Plan. Cash dividends are held by our Plan Administrator and used to automatically purchase additional shares of our common stock. You may choose to have all dividends reinvested or a portion. Please contact the Transfer Agent listed above for an enrollment form.

Certificate Safekeeping:

Stock certificates can be held by our Plan Administrator for safekeeping. Any certificates sent to the Plan Administrator for safekeeping are automatically enrolled in the Dividend Reinvestment Program. Please contact the Transfer Agent listed above for an enrollment form.

Direct Deposit of Dividends:

For shareholders who do not participate in the Dividend Reinvestment Plan, direct deposit of cash dividend payments to a checking or savings account is available. Please contact the Transfer Agent listed above for an enrollment form.

Reports:

The Annual Report and other Company reports are filed electronically through the Electronic Data Gathering, Analysis, and Retrieval System ("EDGAR") which performs automated collection, validation, indexing, acceptance, and forwarding of submissions to the Securities and Exchange Commission (SEC) and is accessible by the public using the internet at:

<http://www.sec.gov/edgar.htm>
