## Table of Contents

Q: What is the quorum requirement for the Annual Meeting?

The required quorum to transact business at the Annual Meeting is a majority of the shares of our common stock outstanding on the record date. Shares of common stock entitled to vote and represented at the Annual Meeting by proxy or in person, as well as shares represented by abstentions and broker non-votes (see the answer to “What is a ‘broker non-vote’ and what is its effect?” below), will be counted towards the quorum. If there is a quorum, the

A: stockholders present at the Annual Meeting may continue to do business, notwithstanding the withdrawal of enough stockholders to leave less than a quorum, if any action (other than adjournment) is approved by at least a majority of the shares required to constitute a quorum. If there is no quorum, a majority of the votes present at the meeting may adjourn the Annual Meeting to another date.

Q: What is the record date?

A: The record date for determining shares outstanding and eligible to vote at the Annual Meeting was June 7, 2018.

Q: How many shares of common stock are outstanding?

A: As of the close of business on the record date, June 7, 2018, there were 251,884,017 shares of our common stock outstanding.

### ABOUT PROXY MATERIALS AND VOTING

Q: Why did I receive a one-page notice in the mail regarding internet availability of proxy materials instead of a full set of proxy materials?

Instead of mailing a printed copy of our proxy materials to stockholders, we mailed an Important Notice Regarding the Availability of Proxy Materials for the Annual Meeting of Stockholders to be held on August 1, 2018 (Internet Notice) to all stockholders entitled to vote at the meeting, as permitted by the rules of the Securities and Exchange Commission (SEC). We believe that it is in the best interests of our stockholders to take advantage of these rules

A: and reduce the expenses associated with printing and mailing proxy materials to all of our stockholders. In addition, as a corporate citizen, we want to reduce the use of natural resources and the environmental impact of printing and mailing the proxy materials. As a result, you will not receive paper copies of the proxy materials unless you specifically request them.

The Internet Notice provides instructions on how you can (1) access the proxy materials on the internet, (2) access your proxy and (3) vote on the internet. If you would like to receive paper copies of the proxy materials, please follow the instructions on the Internet Notice. If you share an address with another stockholder and received only one Internet Notice, you may write or call us to request a separate copy of the proxy materials at no cost to you. We anticipate that the Internet Notice will be mailed on or about June 20, 2018 to all stockholders entitled to vote at the meeting.

Q: How many copies of the proxy materials will be delivered to stockholders sharing the same address?

A: Stockholders who have the same address and last name will receive only one copy of the Internet Notice (or one copy of the printed proxy materials) unless one or more of these stockholders notifies us that they wish to continue receiving individual copies. We adopted this “householding” practice, which is permitted under SEC rules, in an effort to conserve natural resources and reduce printing costs and postage fees.

If you share an address with another stockholder and received only one Internet Notice and would like to request a copy of the proxy materials, please send your request to: Xilinx, Inc., 2100 Logic Drive, San Jose, CA 95124, Attn: Investor Relations; call Investor Relations at (408) 879-6558; or visit the Company’s website at [www.investor.xilinx.com](http://www.investor.xilinx.com). We will deliver a separate copy of these materials promptly upon receipt of your written or verbal request. Similarly, you may also contact us if you received multiple copies of the proxy materials and would prefer to receive a single copy in the future.

Q: How do I vote?

A: The way in which you may vote by proxy depends on how you hold your shares.

If your shares were registered directly in your name with our transfer agent, Computershare Trust Company, N.A., then you hold your shares directly and are a registered stockholder or a stockholder of record. In this case, you may vote by proxy in one of three ways:

- Vote by telephone (instructions are on the Internet Notice and proxy card);
- Vote over the internet (instructions are on the Internet Notice and proxy card); or
-

Edgar Filing: XILINX INC - Form DEF 14A

Fill out the enclosed proxy card, date and sign it, and return it in the enclosed postage pre-paid envelope. You may request a proxy card as outlined in the Internet Notice.

## Table of Contents

If you hold your Xilinx stock through a brokerage firm, bank, broker-dealer, trust or other similar organization (that is, in street name), you are a beneficial owner of your shares and should have received an Internet Notice from the broker or other nominee holding your shares. You should follow the instructions in the Internet Notice or voting instructions provided by your broker or nominee in order to instruct your broker or other nominee on how to vote your shares. The availability of telephone and internet voting will depend on the voting process of the broker or nominee.

Regardless how you hold your Xilinx stock, you may vote in person at the Annual Meeting; however, if you hold your Xilinx stock in street name, i.e., through a brokerage firm, bank, broker-dealer, trust or other similar organization, you must obtain a legal proxy from your broker or nominee and bring that proxy to the Annual Meeting.

Q: How many votes do I have?

A: You have one vote for every share of Xilinx common stock you owned as of the close of business on the record date, which is June 7, 2018.

Q: Who will count my votes?

A: The inspector of elections appointed for the Annual Meeting will separately count “FOR” and “AGAINST” votes, abstentions and broker non-votes.

Q: How will my shares be voted and what happens if I do not give specific voting instructions?

Shares of common stock for which proxy cards are properly voted via the internet or by telephone, or are properly executed and returned, will be voted at the Annual Meeting in accordance with the directions given or, in the absence of directions, will be voted “FOR” the election of each of the nominees to the Board named herein, “FOR” the amendment to the 1990 Employee Qualified Stock Purchase Plan that increases the number of shares reserved for issuance under the Plan by 3,000,000 shares, “FOR” the amendment to the 2007 Equity Plan that increases the number of shares reserved for issuance under the Plan by 3,000,000 shares, “FOR” the approval of the advisory vote on compensation of our named executive officers, and “FOR” the ratification of the appointment of Ernst & Young as the Company’s external auditors for fiscal 2019. It is not expected that any other matters will be brought before the Annual Meeting. If, however, other matters are properly presented, the persons named as proxies on the proxy card will vote in accordance with their discretion with respect to such matters.

Any stockholder entitled to vote on any matter may vote a portion of their shares in favor of the proposal and refrain from voting the remaining shares or, except when the matter is the election of directors, may vote the remaining shares against the proposal, provided that if the stockholder fails to specify the number of shares which the stockholder is voting affirmatively, it will be conclusively presumed that the stockholder’s approving vote is with respect to all shares that the stockholder is entitled to vote.

Q: What is a “broker non-vote” and what is its effect?

A “broker non-vote” occurs when a nominee holding shares for a beneficial owner does not vote on a particular proposal because the nominee does not have discretionary voting power with respect to that proposal and has not received instructions with respect to that proposal from the beneficial owner, despite voting on at least one other proposal for which it does have discretionary authority or for which it has received instructions. Broker non-votes will not be counted towards the vote total for any non-routine proposal and will have no effect except where the affirmative votes with respect to such proposal, though a majority of the votes represented and voting, do not constitute a majority of the required quorum.

Table of Contents

Q: Which ballot measures are considered “non-routine” or “routine”?

A: Brokers that do not receive voting instructions from their clients have the discretion to vote uninstructed shares on “routine” matters but have no discretion to vote them on “non-routine matters.” Therefore, if you hold your shares through a broker or nominee, it is critical that you cast your vote if you want it to count for non-routine matters.

Proposal One (election of directors), Proposal Two (amendment to the 1990 Employee Qualified Stock Purchase Plan), Proposal Three (amendment to the 2007 Equity Plan) and Proposal Four (advisory vote on executive compensation) are non-routine matters. If you hold your shares through a broker or nominee and you do not instruct your broker or nominee how to vote on “non-routine” matters, such as Proposals One, Two, Three, or Four, no votes will be cast on your behalf.

Proposal Five (ratification of external auditors) is a routine matter. Brokers or nominees may generally vote on routine matters, and therefore no broker non-votes are expected in connection with Proposal Five.

Q: How are abstentions treated?

A: Abstentions are treated as represented and entitled to vote for purposes of determining a quorum, but have no effect on the outcome except where the affirmative votes with respect to a proposal, though a majority of the votes represented and voting, do not constitute a majority of the required quorum.

Q: How many votes are needed to approve each proposal?

A: The following table sets forth the voting requirement with respect to each of the proposals:

PROPOSAL	VOTE REQUIRED	BROKER DISCRETIONARY VOTE ALLOWED
Proposal One: Election of 11 directors	Majority of votes cast, except that in contested elections, directors will be elected by the plurality standard whereby those directors with the highest number of votes cast are elected	No
Proposal Two: Approval of amendment to the 1990 Employee Qualified Stock Purchase Plan	Majority of shares represented and voting at the meeting, so long as the shares voting affirmatively constitute a majority of a quorum	No
Proposal Three: Approval of amendment of the 2007 Equity Plan	Majority of shares represented and voting at the meeting, so long as the shares voting affirmatively constitute a majority of a quorum	No
Proposal Four: Annual advisory vote to approve the compensation of our named executive officers	Advisory vote; majority of shares represented and voting at the meeting, so long as the shares voting affirmatively constitute a majority of a quorum	No
Proposal Five: The ratification of Ernst & Young LLP as our independent registered public accounting firm for fiscal 2019	Majority of shares represented and voting at the meeting, so long as the shares voting affirmatively constitute a majority of a quorum	Yes

In the absence of instructions, shares of common stock represented by valid proxies will be voted in accordance with the recommendations of the Board as shown on the proxy.

Q: What is the advisory vote to approve the compensation of our named executive officers?

A: The non-binding advisory vote on the compensation of our named executive officers in Proposal Four will provide us insight into our stockholders’ views on our compensation practices pertaining to our named executive officers.

Table of Contents

Q: How can I change my vote or revoke my proxy?

A: A stockholder of record giving a proxy may revoke it at any time before it is voted by delivering to the Secretary of the Company at 2100 Logic Drive, San Jose, California 95124, a written notice of revocation or a duly executed proxy bearing a later date, or by appearing at the Annual Meeting and voting in person. Attendance at the Annual Meeting will not, by itself, be sufficient to revoke a proxy. Any beneficial stockholder wishing to revoke his or her voting instructions must contact the bank, brokerage firm or other custodian who holds his or her shares and obtain a legal proxy from such bank or brokerage firm to vote such shares in person at the Annual Meeting.

Q: How much did this proxy solicitation cost and who will pay for the cost?

A: We have retained the services of Alliance Advisors, LLC to assist in obtaining proxies from brokers and nominees of stockholders for the Annual Meeting. We will pay the cost of these solicitation services, which is estimated to be approximately \$9,500 plus out-of-pocket expenses. We will also pay brokers or other persons holding stock in their names or the names of their nominees for costs to forward soliciting materials to their principals. In addition, we pay the cost of preparing, assembling and delivering the notice of Annual Meeting, proxy statement and form of proxy. Proxies may also be solicited in person, by telephone or electronically by Xilinx personnel, who will not receive any additional compensation for such solicitation.

Q: May I nominate a director for inclusion in next year's proxy materials?

A: Our Bylaws permit eligible stockholders to make use of proxy access to nominate director candidates, subject to all the requirements set forth in our Bylaws, a summary of which is as follows. In order to be eligible to nominate a director candidate, the stockholder must hold at least 3% of our outstanding shares of common stock continuously for three years at the time the nomination notice is received by us and the stockholder must continue to hold those shares through the date of the annual meeting. A group of up to 20 stockholders, each of whom meets the requirements of the Bylaws, may form a group to reach the 3% ownership threshold. Eligible stockholders who meet the proxy access requirements set forth in our Bylaws may nominate up to the greater of two candidates or 20% of the directors in office as of the last date on which a nomination notice may be received by us. Such nominations must meet the notice and other requirements set forth in our Bylaws. In order for a proxy access nomination to be timely, it must be received by the Secretary of the Company at our principal executive offices not less than 120 days nor more than 150 days prior to the anniversary of the date when we first distributed our proxy statement to stockholders for the immediately preceding annual meeting of stockholders. To be considered timely for next year's annual meeting of stockholders, proxy access nominations would need to be received by the Secretary of the Company at our principal executive offices at 2100 Logic Drive, San Jose, California, no earlier than January 21, 2019 and no later than February 20, 2019.

Q: How and when may I submit proposals for consideration at next year's Annual Meeting of Stockholders?

A: Pursuant to Rule 14a-8 under the Securities Exchange Act of 1934 (Exchange Act), to be eligible for inclusion in the Company's proxy materials for the 2019 Annual Meeting of Stockholders, stockholder proposals must be received by the Secretary of the Company at our principal executive offices at 2100 Logic Drive, San Jose, California 95124 no later than February 20, 2019. Pursuant to Rule 14a-4(c) under the Exchange Act, if a stockholder proposal submitted outside of Rule 14a-8 is not received by the Secretary at our principal executive offices by the close of business on May 6, 2019, the Company may exercise discretionary voting authority under proxies it solicits to vote in accordance with its best judgment on any such stockholder proposal submitted by a stockholder. In addition, under a provision in the Company's Bylaws relating to Prior Notice For Inclusion on Agenda, stockholder proposals made outside of Rule 14a-8 under the Exchange Act and director nominations that are not intended for inclusion in our proxy materials must be submitted in accordance with the requirements of the Company's Bylaws, not later than April 3, 2019, and not earlier than March 4, 2019; provided however, that if our 2019 Annual Meeting of Stockholders is called for a date that is not within 25 days before or after the anniversary of the Annual Meeting, then to be considered timely, stockholder proposals must be received by the Secretary of the Company at our principal executive offices not later than the close of business on the tenth day following the

day on which notice of the date of our 2019 Annual Meeting of Stockholders was mailed or publicly disclosed, whichever occurs first. The full text of the Company's Prior Notice for Inclusion on Agenda Bylaw provision described above may be obtained by writing to the Secretary of the Company.

Table of Contents**Board Independence**

The Nasdaq listing standards require that a majority of the members of a listed company's board of directors must qualify as "independent" as affirmatively determined by its board of directors. The Board annually reviews information relating to the members of the Board to ensure that a majority of the Board is independent under the Nasdaq listing requirements and the rules of the SEC.

After review of all relevant transactions and relationships between each director or nominee, his or her family members and entities affiliated with each director or nominee and Xilinx, our senior management and our independent registered public accounting firm, the Board has determined that nine of our ten directors are independent directors as defined in the Nasdaq listing standards and SEC rules, and that the additional nominee, Mr. Chitkara, is also independent within the meaning of those rules. Mr. Peng, our President and CEO, is not an independent director because he is a current employee of Xilinx.

In making a determination of the independence of each director or nominee, the Board reviewed relationships and transactions occurring since the beginning of fiscal 2016 between each such individual, his or her family members and entities affiliated with each director or nominee and Xilinx, our senior management and our independent registered public accounting firm. In particular, the Board has considered Mr. Gillai's and Mr. Pimentel's status as former executives of Hewlett-Packard Enterprise and Seagate Technology PLC, respectively, each of which is a party to a commercial relationship with the Company entered into in the ordinary course of business. In making its determination, the Board applied the standards for independence adopted by Nasdaq and the SEC. In each case, the Board determined that, because of the nature of the relationship or the amount involved in the transaction, the relationship did not impair the director's independence.

**Board Meetings and Committees**

The Board held a total of six meetings during the fiscal year ended March 31, 2018. All directors are expected to attend each meeting of the Board and the Committees on which he or she serves and are also expected to attend the Annual Meeting. Eight of the nine directors then serving on the Board attended the 2017 Annual Meeting of Stockholders held in August 2017. Each incumbent director attended at least 75% of the aggregate of all meetings of the Board or its Committees on which such director served during the fiscal year. The Board holds four pre-scheduled meetings per fiscal year.

The Board has four standing committees, consisting of the Audit Committee, Compensation Committee, Nominating and Governance Committee, and Committee of Independent Directors (Committees). The Board and its Committees have authority to engage independent advisors and consultants and have used such services. The primary responsibilities of the Audit Committee, the Compensation Committee and the Nominating and Governance Committee are set forth in the respective committee charters approved by the Board, which are posted on the investor relations page of our website located at [www.investor.xilinx.com](http://www.investor.xilinx.com) under "Corporate Governance."

Set forth below are the directors currently serving on each of the Board's four standing committees as well as a description of each committee.

to the stockholders relating to the Company's financial statements and the financial reporting process, the systems of internal accounting and financial controls and the audit process. The Board has determined that each Audit Committee member meets the independence and financial knowledge requirements under the SEC rules and the corporate governance listing standards of Nasdaq. The Audit Committee operates in accordance with a written charter adopted by the Board, which complies with Nasdaq listing standards and SEC rules.

The Board has further determined that each member of the Audit Committee qualifies as an "audit committee financial expert" as defined by SEC rules. Stockholders should understand that this designation is a disclosure requirement of the SEC related to the Audit Committee members' individual experience and understanding with respect to certain accounting and auditing matters and does not impose upon any of the Audit Committee members any duties, obligations or liabilities that are greater than those generally imposed on each of them as members of the Board, nor does it alter the duties, obligations or liability of any other member of the Board.

### Compensation Committee

The current members of the Compensation Committee are J. Michael Patterson, Ronald S. Jankov, Mary Louise Krakauer and Elizabeth W. Vanderslice. The Board has determined that each member of the Compensation Committee meets the independence requirements under the SEC rules and the Nasdaq listing standards. During fiscal 2018, the Compensation Committee held ten meetings. The Compensation Committee has responsibility for establishing our compensation policies. The Compensation Committee determines the compensation for our Board members and executive officers and has exclusive authority to grant equity-based awards, including options and restricted stock units (RSUs), to our executive officers under our 2007 Equity Plan. The Compensation Committee evaluates the CEO's performance and determines CEO compensation, including base salary, incentive pay and equity awards. The CEO is not present during the Compensation Committee's deliberations or voting on CEO compensation, but may be present during voting and deliberations related to compensation of other executive officers. For further information about the processes and procedures for the consideration and determination of executive compensation, please refer to the section of this proxy statement entitled "EXECUTIVE COMPENSATION—Compensation Discussion and Analysis."

### Nominating and Governance Committee

The current members of the Nominating and Governance Committee are Elizabeth W. Vanderslice, Saar Gillai and Thomas H. Lee. Mr. Segers was also a member of the Nominating and Governance Committee during a portion of fiscal 2018. During fiscal 2018, the Nominating and Governance Committee held five meetings. The Nominating and Governance Committee has responsibility for identifying, evaluating and recommending individuals to serve as members of the Board and establishing policies affecting corporate governance. The Nominating and Governance Committee, among other things, makes suggestions regarding the size and composition of the Board and ensures that the Board reviews our management organization, including management succession plans.

### Committee of Independent Directors

All independent directors are members of the Committee of Independent Directors. This Committee met four times during fiscal 2018. The Committee's principal focus is succession planning but it also addresses other topics as deemed necessary and appropriate. The Committee of Independent Directors typically meets outside the presence of management.

### Nomination Criteria and Board Diversity

The Board believes in bringing a diversity of backgrounds and viewpoints to the Board and desires that its directors and nominees possess critical skills and experience in the areas of semiconductor design and marketing, manufacturing, software and finance. The Board also believes having directors of diverse gender, race and ethnicity, along with varied skills and experiences, contributes to a balanced and effective Board. Our Significant Corporate Governance Principles affirm our commitment to a policy of inclusiveness. To further that commitment, in any director candidate search the Nominating and Governance Committee commits to actively seek out director candidates reflecting a diversity of backgrounds, perspectives, experiences, genders, races and ethnicities.

These factors, and any other qualifications considered useful by the Board, are reviewed in the context of an assessment of the perceived needs of the Board at a particular point in time. As a result, the priorities and focus of the Nominating and Governance Committee may change from time to time to take into account changes in business and

other trends, as well as the portfolio of skills and experience of current and prospective Board members. Therefore, while focused on the achievement and the ability of potential candidates to make a positive contribution with respect to such factors, the Nominating and Governance Committee has not established any specific minimum criteria or qualifications that a director or nominee must possess.

As part of the annual evaluation of current Board members, and as otherwise deemed appropriate, the Nominating and Governance Committee considers each director's skills, experience, viewpoints previously mentioned as desirable director qualifications, independence, job changes, if any, amount of time spent on Xilinx matters and to what extent, if any, other commitments the

director may have outside of Xilinx impact the director's service to Xilinx. In connection with its evaluation of Board composition, the Nominating and Governance Committee also considers rotating directors' positions on the Committees.

Consideration of new Board candidates typically involves a series of internal discussions, review of information concerning candidates and interviews with selected candidates. The Board has engaged search firms to assist the Nominating and Governance Committee in identifying and assessing director candidates with a specific focus on potential qualified candidates who are women or from underrepresented minorities. The Nominating and Governance Committee will also consider candidates proposed by stockholders using the same process it uses for a candidate recommended by a member of the Board, an employee or a search firm. A stockholder seeking to recommend a prospective nominee for the Nominating and Governance Committee's consideration should submit the candidate's name and qualifications by mail addressed to the Corporate Secretary, Xilinx, Inc., 2100 Logic Drive, San Jose, CA 95124, by email to [corporate.secretary@xilinx.com](mailto:corporate.secretary@xilinx.com) or by fax to (408) 377-6137.

### Board's Role in Risk Oversight

The Board has overall responsibility for risk oversight at the Company and may delegate particular risk areas to the appropriate Committees of the Board. The Board's role in risk oversight builds upon management's risk management process. The Company conducts a formal annual risk assessment as well as coordinating ongoing risk management activities throughout the year to identify, analyze, respond to, monitor and report on risks. Risks reviewed by the Company include operational risks, financial risks, legal and compliance risks, IT and cybersecurity risks and strategic risks. The management team then reviews with the Board any significant risks identified during the process, together with plans to mitigate such risks. In response, the Board or the relevant Committee may request that management conduct additional review of or reporting on select enterprise risks. The process and risks are reviewed at least annually with the Board, and additional review or reporting of significant enterprise risks will be conducted as needed or as requested by the Board or any of its Committees.

### Corporate Governance Principles

The Company and the Board, through the Nominating and Governance Committee, regularly review and evaluate our corporate governance principles and practices. Our Significant Corporate Governance Principles, Code of Conduct, Directors' Code of Ethics and charters for the Audit Committee, Compensation Committee and Nominating and Governance Committee are posted on our website at [www.investor.xilinx.com](http://www.investor.xilinx.com). Printed copies of these documents are also available to stockholders upon written request addressed to the Corporate Secretary, Xilinx, Inc., 2100 Logic Drive, San Jose, CA 95124 or by email at [corporate.secretary@xilinx.com](mailto:corporate.secretary@xilinx.com).

### Board Leadership Structure and Independence

The Board believes there should be a substantial majority of independent directors on the Board. The Board also believes that it is useful and appropriate to have members of management as directors, including the CEO.

Independent directors are given an opportunity to meet outside the presence of members of management, and hold such meetings regularly.

It is the written policy of the Board that if the Chairman is not an "independent director" as defined in the Nasdaq listing standards, the Board will designate an independent director to serve as Lead Independent Director. We believe that having an independent Chairman or a Lead Independent Director, either of whom is responsible for coordinating the activities of the independent directors and chairing the meetings of the Committee of Independent Directors, among other duties, allows the Company's CEO to better focus on the day-to-day management and leadership of the Company, while better enabling the Board to advise and oversee the performance of the CEO. Our Chairman, Dennis Segers, is an independent director, so we currently do not have a Lead Independent Director.

### Majority Vote Standard

All directors are elected annually at the annual stockholder meeting. As set forth in our Bylaws, directors are elected based on the majority of votes cast for each nominee, except in the case of a contested election in which the number of nominees exceeds the number of directors to be elected. In such contested elections, directors are elected by the plurality standard, which means those directors with the highest number of votes cast are elected. For the purposes of this paragraph, the majority of votes cast means that the number of shares voted "FOR" a director must exceed the number of shares voted "AGAINST" that director. Any director who receives more "AGAINST" votes than "FOR" votes is

required to tender his or her resignation to the Board, which will announce its decision with regard to such resignation within 120 days following the certification of election results.

**Board Evaluation**

The Board conducts an annual evaluation of its performance, which is overseen by the Nominating and Governance Committee. The process varies from year-to-year, including self-evaluations and/or one-on-one meetings with each Board member and the chairperson of the Nominating and Governance Committee. Results of the evaluation are formally presented to the Board. The Board has made changes in Board procedures based on feedback from the process.

## Table of Contents

### Board Service Limits and Terms

The Board has set a limit on the number of public company boards on which a director may serve to three for our Chief Executive Officer and four for all other directors, including service on the Xilinx Board.

The Board believes that term limits on directors' service and a mandatory retirement age do not serve the best interests of the Company. While such policies could help ensure that fresh ideas and new viewpoints are addressed by the Board, such limits have the disadvantage of losing the contribution of directors who over time have developed increased insight and knowledge into the Company's operations and who remain active and contributing members of the Board. The Board evaluation process plays a significant role in determining our Nominating and Governance Committee's recommendation regarding Board tenure.

### Change of Principal Occupation or Association

When a director's principal occupation or business association changes substantially during his or her tenure as director, that director is required to tender his or her resignation for consideration by the Nominating and Governance Committee. The Nominating and Governance Committee will recommend to the Board the action, if any, to be taken with respect to the resignation.

### Director Education

The Company offers internal and external course selections for new-director orientation as well as continuing education. Directors attend director education programs and report back to the entire Board on key learnings.

### Stock Ownership Requirements

#### Directors

The Board has established minimum stock ownership guidelines for non-employee directors. Under these guidelines, non-employee directors are required to own Xilinx common stock having a value equal to at least five times the base annual cash retainer offered equally to all non-employee directors for service as a director (excluding any retainers paid for service as Chairman of the Board or on a committee). The base annual cash retainer for directors is currently \$65,000, and therefore directors are currently required to own common stock with a value of at least \$325,000. Based on \$69.60, the closing price of our common stock on May 25, 2018, \$325,000 would purchase 4,669 shares of our common stock.

Directors are required to retain half of the shares of our common stock derived from awards of RSUs until this ownership requirement is met. Half of the RSUs that are vested but are not settled pursuant to a pre-arranged deferral program will count toward the ownership requirement. Based on \$69.60, the closing price of our common stock on May 25, 2018, eight of our nine non-employee directors have met the stock ownership requirements. Ms. Krakauer, who joined the Board in fiscal 2018, has not yet met the stock ownership requirements.

#### Executive Officers

The Board has also established minimum stock ownership guidelines for executive officers. Our CEO is required to own shares of our common stock having a value of at least \$4.5 million. Any person serving as Chief Operating Officer is required to own shares of our common stock having a value of at least \$1.5 million. Executive vice presidents are required to own shares of our common stock having a value of at least \$1.0 million. Senior vice presidents who are Section 16 officers (i.e., any officer that is deemed to be an executive officer under SEC rules for purposes of Section 16 of the Exchange Act) are required to own shares of our common stock having a value of at least \$750,000, and corporate vice presidents who are Section 16 officers are required to own shares of our common stock having a value of at least \$500,000. In addition, until their stock ownership requirements are met, the CEO and all other Section 16 officers must retain half of the shares of our common stock derived from awards of time-based RSUs that were granted beginning in July 2011 and 45% of the shares of our common stock derived from awards of performance-based RSUs that were granted beginning in July 2013. Messrs. Peng, Önder and Madden have not yet met the stock ownership requirements.

### Succession Planning

The Board plans for succession to the position of the Chairman of the Board, the position of CEO and other senior management positions to help ensure continuity of leadership. To assist the Board, the CEO provides the Board with an assessment of other senior managers and their potential as a suitable successor. The CEO also provides the Board with an assessment of persons considered potential successors to certain senior management positions. In April 2017,

the non-management members of the Board took steps to implement a multi-year succession plan. Pursuant to this plan, in January 2018, Mr. Peng, previously the Company's Chief Operating Officer, succeeded Moshe Gavrielov as President and CEO.

#### Codes of Conduct and Ethics

The Board has adopted a Code of Conduct applicable to our directors, employees and contractors, including our CEO and CFO and all accounting personnel. The Code of Conduct includes a Non-Retaliation Policy that prohibits retaliation against any person for providing information in good faith or otherwise assisting in an investigation concerning conduct that may constitute a violation

## Table of Contents

of law, regulation, the Code of Conduct, or other Company policies. The Company also provides an anonymous reporting system for reports of perceived violations. Independent directors receive complaints and reports of violations regarding accounting, internal accounting controls, auditing, legal and other matters reported through the anonymous reporting process. Our Chief Compliance Officer provides a quarterly report to the Audit Committee of incident reports identified through the anonymous reporting process, or otherwise.

The Board has adopted a separate Code of Ethics that applies specifically to the Board, which covers topics including insider trading, confidentiality, conflicts of interests and compliance with other laws.

The Code of Conduct and the Code of Ethics are available on the investor relations page of our website at [www.investor.xilinx.com](http://www.investor.xilinx.com). Printed copies of these documents are also available to stockholders upon written request directed to Corporate Secretary, Xilinx, Inc., 2100 Logic Drive, San Jose, CA 95124.

A waiver of any violation of the Code of Conduct by an executive officer or director and a waiver of any violation of the Directors' Code of Ethics may only be made by the Board. The Company will post any such waivers, as well as amendments to the Code of Conduct, on our website under the Corporate Governance page at [www.investor.xilinx.com](http://www.investor.xilinx.com).

### Anonymous Reporting and Whistleblower Protection

Our Code of Conduct includes protections for employees who report violations of the Code of Conduct, other policies, laws, rules and regulations. We have implemented an internet-based anonymous reporting process for employees to report violations they do not otherwise bring directly to management. The site can be accessed from our intranet as well as from the internet.

### Stockholder Value

The Board recognizes the interests of stockholders and, accordingly, as related to the Company's equity plans:

- All employee stock plans are submitted to the stockholders for approval prior to adoption;

The 2007 Equity Plan includes a provision that prohibits repricing of options, whether through direct reduction of exercise prices, cancellation of the option or stock appreciation right (SAR) in exchange for a new option or SAR having a lower exercise price, or replacement of options or SARs with full value awards (i.e., awards of restricted stock or RSUs);

- The 2007 Equity Plan includes an annual limit on the aggregate dollar value of equity awards and cash that may be granted to non-employee directors; and

- The Company is committed to keeping dilution under its stock plans for employees below industry standards.

### Stockholder Communications to the Board

Stockholders may initiate any communication with the Board in writing sent in care of the Company's Corporate Secretary to Xilinx, Inc., 2100 Logic Drive, San Jose, CA 95124, by e-mail to [corporate.secretary@xilinx.com](mailto:corporate.secretary@xilinx.com), or by fax to the Corporate Secretary at (408) 377-6137. The name of any specific intended recipient, group, or committee should be noted in the communication. The Board has instructed the Corporate Secretary to forward such correspondence only to the intended recipients; however, the Board has also instructed the Corporate Secretary, prior to forwarding any correspondence, to review such correspondence and, in her discretion, not to forward certain items if they are deemed of a commercial or frivolous nature or otherwise inappropriate for the Board's consideration. In such cases, and as necessary for follow up at the Board's direction, correspondence may be forwarded elsewhere in the Company for review and possible response. This centralized process will assist the Board in reviewing and responding to stockholder communications in an appropriate manner.

### Compensation of Directors

Directors who are not actively employed as employees of the Company receive compensation for their service as directors. Directors who are actively employed as employees by the Company receive no additional compensation for their service as directors. Mr. Peng is currently the only employee director of the Company.

### Cash Compensation

Our non-employee directors are paid in installments on a quarterly and pro-rated basis depending on such director's service during the quarter. Following is a schedule of annual cash compensation for service on the Board:

Table of Contents

Director Position	Annual Cash Retainer
-------------------	----------------------

## Chairpersons:

Board	\$65,000
Audit Committee	\$25,000
Compensation Committee	\$20,000
Nominating and Governance Committee	\$15,000

## Members:

Board	\$65,000
Audit Committee	\$12,500
Compensation Committee	\$10,000
Nominating and Governance Committee	\$7,500

Lead Independent Director	\$10,000
---------------------------	----------

As presented in the above table, through fiscal 2018, all Board members received a base annual retainer of \$65,000 and could receive additional fees depending on their service as a chairperson of the Board or chairperson or member of a Board committee. Effective August 1, 2018, the annual cash retainer for Board members will be \$72,500, and the additional cash retainer for the Board chairperson and the Audit Committee chairperson will be \$115,000 and \$30,000, respectively. For fiscal 2018, we did not have a Lead Independent Director, because Dennis Segers, an independent director, served as Chairman of the Board.

## Equity Compensation

Non-employee directors participate in an equity compensation program under our 2007 Equity Plan. Under this program, non-employee directors are eligible to receive automatic restricted stock unit awards (RSUs). The terms of those automatic RSU grants are as follows:

## Annual Grant

Each non-employee director is eligible for an RSU award having a value of \$200,000 on the date of each annual stockholders meeting, provided the non-employee director continues in office following the meeting. To date, the number of shares subject to such RSUs has been based on the closing market price of our common stock on the date of grant. Beginning with this year's Annual Meeting, the number of shares will be based on the average of the closing prices on each of the trading days occurring during the three calendar months immediately prior to the month in which the grant occurs. The annual RSU awards vest on the day immediately preceding the subsequent annual meeting, subject to the director's continuous service on the Board through that date. On August 9, 2017, the date of the 2017 Annual Meeting of Stockholders, each non-employee director continuing in office after the meeting was automatically granted RSUs having a value of \$200,000. On that date, the closing market price of our common stock was \$62.74; accordingly, each non-employee director received a grant of 3,188 RSUs that will vest in full on July 31, 2018, the day immediately preceding the Annual Meeting.

## Initial Grant

A non-employee director joining the Board between annual meetings of stockholders, and who has not previously served as an employee director, will receive a grant of RSUs on or about the tenth day of the month following the director's initial appointment or election to the Board. The new director will receive RSUs having a value of \$200,000 on the date of grant, prorated based on the number of days from the initial appointment or election until the anniversary of the most recently-held annual meeting. The RSUs vest in full on the day immediately preceding the subsequent annual meeting of stockholders. On November 10, 2017, on which date the closing market price of our common stock was \$71.87, Ms. Krakauer received a grant of 2,165 RSUs that will vest in full on July 31, 2018.

## Limit on Non-Employee Director Compensation

Our 2007 Equity Plan limits cash and equity compensation for each non-employee director to no more than \$750,000 per fiscal year.

## Stock Ownership Guidelines

Under our stock ownership guidelines, non-employee directors are required to own shares of Xilinx common stock having a value equal to at least \$325,000, which is equal to five times their base annual cash retainer. Non-employee directors are required to retain half of the shares of common stock derived from awards of RSUs until their ownership requirements are met. Half of the RSUs that are vested but are not settled pursuant to a pre-arranged deferral program will count toward the ownership requirement.

Table of Contents

For more information about stock ownership guidelines for directors, please see “DIRECTORS AND CORPORATE GOVERNANCE—Corporate Governance Principles—Stock Ownership Requirements.”

## Deferred Compensation

We also maintain a nonqualified deferred compensation plan which allows each director as well as eligible employees to voluntarily defer receipt of a portion or all of their cash compensation until the date or dates elected by the participant, thereby allowing the participating director or employee to defer taxation on such amounts. For a discussion of this plan, please see “EXECUTIVE COMPENSATION—Nonqualified Deferred Compensation Plan.” In addition, pursuant to the 2007 Equity Plan, non-employee directors may elect to defer the receipt of shares issuable pursuant to RSUs that are automatically granted to them each year.

For fiscal 2018, our named executive officers consisted of each individual who served as our Chief Executive Officer at any time during the fiscal year, our Chief Financial Officer, our three other most highly-compensated executive officers serving at the end of fiscal 2018 and one additional individual who would have been included among that group of most highly-compensated executive officers had he continued to serve as an executive officer through the end of fiscal 2018. These named executive officers are as follows:

Victor Peng, President and Chief Executive Officer;  
 Lorenzo A. Flores, Executive Vice President and Chief Financial Officer;  
 Vincent L. Tong, Executive Vice President, Global Operations and Quality;

Also on January 4, 2018, Mr. Flores was promoted from Senior Vice President to Executive Vice President, effective February 1, 2018, while retaining the position of Chief Financial Officer.

Effective January 5, 2018, Mr. Glaser resigned as Senior Vice President, Corporate Strategy and Marketing.

On August 21, 2017, Mr. Önder joined the Company as Senior Vice President, Product and Vertical Marketing.

#### Executive Summary

##### Fiscal 2018 Business Highlights

We achieved success on many fronts during fiscal 2018, including increased net revenues over the prior fiscal year.

Our key financial and product highlights from fiscal 2018 were as follows:

Overall net revenues were \$2.54 billion, up 8% from the prior fiscal year.

Revenues from our Advanced Products reached \$1.38 billion, a 28% increase over the prior fiscal year.

We established significant momentum in our data center end market, both developing the foundation for and building out a vibrant ecosystem. We demonstrated significant developer engagement on the AWS F1 instance and have trained a total of more than 400 developers. We also continue to invest in SDAccel environment and middleware libraries to make it easier for software programmers to program Xilinx FPGAs in higher level languages using industry standard APIs and frameworks.

We announced a new breakthrough product category called Adaptive Compute Acceleration Platform (ACAP) that extends far beyond the capabilities of an FPGA. An ACAP is a highly-integrated multi-core heterogeneous compute platform that can be changed at the hardware level to adapt to the needs of a wide range of applications and workloads, including Artificial Intelligence, and workloads resulting from explosive growth of unstructured data such as database acceleration and video transcoding.

We returned \$475 million to our stockholders through our stock buyback programs.

We paid our stockholders a record \$353 million in dividends.

##### Fiscal 2018 Compensation Highlights

Fiscal 2018 was a significant year for us with respect to compensation actions and decisions:

##### Focal Review Decisions

During our focal review period in May 2017, the Compensation Committee took the following compensation actions with respect to our named executive officers:

## Table of Contents

Base salaries - Increased their base salaries by percentages ranging from 1.3% to 10%, including increases relating to promotions. Neither Mr. Gavrielov, our then-Chief Executive Officer, nor Mr. Önder, who joined the Company after May 2017, nor Mr. Glaser received a base salary increase in fiscal 2018.

Target annual cash incentives - Increased the target annual cash incentive compensation for Mr. Peng to 115% of base salary in connection with his promotion to Chief Operating Officer to maintain the competitiveness of his target total cash compensation level. None of our other then-named executive officers received an increase in their target annual cash incentive compensation at that time.

Long-term equity incentive compensation - Granted them performance-based restricted stock unit (RSU) awards with values ranging from \$900,000 to \$5,400,000.

### Management Changes

During fiscal 2018, the Board implemented a multi-year succession plan with respect to the Chief Executive Officer position, which culminated in the retirement of Mr. Gavrielov in January 2018 and the appointment of Mr. Peng as Chief Executive Officer. Also during fiscal 2018, Mr. Önder was appointed Senior Vice President, Product and Vertical Marketing, Mr. Flores was promoted to Executive Vice President, and Mr. Glaser resigned as Senior Vice President, Corporate Strategy and Marketing. In connection with their promotions, Mr. Peng's annual base salary was increased to \$700,000 and his target annual cash incentive compensation was increased to 150% of base salary, effective January 29, 2018, and Mr. Flores's annual base salary was increased to \$440,000, effective February 1, 2018.

### Annual Cash Incentive Payment

In light of the performance outcomes with respect to revenue growth, operating profit and individual performance during fiscal 2018, we made cash incentive payments to Mr. Peng equal to 120% of his target annual cash incentive compensation and to our other named executive officers (other than Mr. Glaser) equal to an average of 119% of their average target annual cash incentive compensation.

### Pay for Performance Analysis

Our executive compensation program is designed to motivate, engage and retain a talented leadership team and to appropriately reward them for their contributions to our business. Our performance measurement framework consists of a combination of financial, operational and strategic/individual performance measures that provide a balance between short-term results and drivers of long-term value.

We provide our executive officers with three primary elements of pay: base salary, a cash incentive compensation opportunity and long-term equity incentive compensation. The performance-based incentives, consisting of an annual cash incentive and annual equity awards, together constitute the largest portion of the target total direct compensation for our executive officers. The following charts show the pay mix for (i) Mr. Peng, our Chief Executive Officer as of March 31, 2018, and (ii) our other named executive officers who were employed by us at the end of fiscal 2018:

Table of Contents

The foregoing percentages were calculated using annual base salary, target annual cash incentive compensation, the grant date fair value of equity awards and all other compensation as reported for fiscal 2018 in the Summary Compensation Table below. We use target annual cash incentive compensation rather than the actual amounts earned because the target amount better reflects the way in which we intended to compensate Mr. Peng as Chief Executive Officer, since he did not become Chief Executive Officer until January 29, 2018 and since he earned significantly less in annual base salary and incentive compensation prior to becoming CEO. Although Mr. Peng's annual base salary and annual cash incentive compensation as CEO were pro-rated for the portion of the fiscal year during which he served as CEO, for purposes of the above chart, we have annualized Mr. Peng's base salary and annual target cash incentive compensation as if he had served as CEO during the entire fiscal year. In addition, the chart relating to other named executive officers excludes the compensation earned by two former executive officers, Moshe Gavrielov and Steven Glaser, as their mix of compensation for fiscal 2018 is not representative of how we generally compensate our executive officers.

**Fiscal 2018 Performance-Based Incentive Compensation Framework**

Our annual cash and long-term equity incentives together provide a balanced and comprehensive view of performance. The annual cash incentive components of our executive compensation program consist of annual revenue growth (the Growth Component), operating profit (the Operating Profit Component) and individual performance of each executive officer, based on a variety of performance objectives (the Individual Performance Component). For these purposes, revenues and operating profit are each determined in accordance with generally accepted accounting principles, except that, for purposes of calculating operating profit for the fiscal year, we disregard the estimated cash incentive compensation that is accrued for that fiscal year. The way these components factor into incentive compensation is illustrated in the chart below and more fully discussed throughout this Compensation Discussion and Analysis:

**Fiscal 2018 Annual Incentive Cash Compensation Framework**

The Growth Component, which is weighted at 40%, is determined and paid annually. The Operating Profit Component, which is weighted at 35%, is determined and paid semi-annually. The Individual Performance Component is determined and paid semi-annually for all executive officers, except for our Chief Executive Officer, for whom it is determined and paid annually. The Individual Performance Component is weighted at 25%, but the weighting of specific performance objectives varies among our executive officers.

The long-term equity incentive compensation is awarded to our executive officers in the form of performance-based RSU awards. The shares subject to the performance-based RSU awards are earned based on our achievement of pre-established financial and operational goals at the end of a one-year performance period corresponding with our fiscal year.

The four performance components applicable to the fiscal 2018 performance-based RSU awards were:

- 28nm revenue, combined with total revenue, weighted at 40% (the 28nm Revenue Component);
- 20nm and 16nm revenue, combined with total revenue, weighted at 30% (the 20nm/16nm Revenue Component);
- technology leadership, weighted at 20% (the Technology Component); and
- quality leadership, weighted at 10% (the Quality Component).

The way these components factor into long-term incentive compensation is illustrated in the chart below and more fully discussed throughout this Compensation Discussion and Analysis:

At-Risk Compensation. A significant portion of compensation for our executives is based on the performance of both the Company and the individual executive.

Performance-Based Equity Awards. Our executive officers mainly receive only performance-based RSU awards.

Robust Stock Ownership Guidelines. We have executive stock ownership guidelines and holding requirements that cover our executive officers.

Clawback Policy. We have a clawback, or recoupment, policy that covers all elements of our incentive compensation program.

### 2017 Stockholder Advisory Vote on Named Executive Officer Compensation

We have held an annual non-binding advisory vote on the compensation of our named executives in our proxy statements since our 2011 annual meeting of stockholders. The following chart shows the percentage of stockholder approval for the compensation of our named executive officers for the past five years:

As shown in this chart, at our 2017 annual meeting of stockholders, the most recent non-binding stockholder vote on the compensation of our named executive officers, 98.2% of the votes cast by our stockholders were voted in favor of the compensation of our named executive officers.

The Compensation Committee was mindful of this strong stockholder support of our compensation philosophy and objectives when evaluating our executive compensation policies and practices throughout fiscal 2018. Accordingly, and as a result of the favorable say-on-pay vote, the Compensation Committee continued its general approach to executive compensation, emphasizing performance-based compensation.

The Board has adopted a policy providing for an annual advisory vote on the compensation of our named executive officers. This policy is consistent with our stockholders' preference as expressed at our 2017 annual meeting of stockholders in August 2017 on the frequency of future advisory votes on the compensation of our named executive officers.

### Key Management Changes During Fiscal 2018

#### Execution of Succession Plan

During fiscal 2018, the Board took steps to implement a multi-year succession plan with respect to the Chief Executive Officer position. Among other things, this plan involved the following actions:

**Promotion of Mr. Peng to Chief Operating Officer** - On April 10, 2017, the Board appointed Mr. Peng as Chief Operating Officer, increased his annual base salary to \$550,000, effective as of the beginning of the fiscal year, and increased his target annual cash incentive compensation to 115% of his annual base salary.

**Amendment of Mr. Gavriellov's Employment Agreement** - We entered into an amended employment agreement with Mr. Gavriellov providing for his continued employment through August 1, 2020, followed by a one-year consulting period to assist in the orderly transition to a successor Chief Executive Officer. Mr. Gavriellov's unique knowledge and experience were considered essential to ensuring alignment with our strategic plans during the succession period. As an incentive for Mr. Gavriellov to remain with the Company during the full succession period, the amended employment agreement provided for the grant of a time-based RSU award with a value of \$10 million, with half the shares vesting in three annual installments, the first of which will occur on the second anniversary of the grant date, and the other half vesting in three annual installments, the first of which will occur on the third anniversary of the grant date. Mr. Gavriellov was also eligible to receive a performance-based RSU award as determined by the Compensation Committee in connection with our annual grant process for fiscal 2018. In addition, Mr. Gavriellov's post-employment compensation arrangements were amended as described below under "Potential Payments Upon Termination or Change in Control." Prior to the end of fiscal 2018, the Board decided to accelerate the transition to Mr. Peng as CEO in order to align our leadership with our evolving business strategy; in connection with this transition, pursuant to his employment agreement, Mr. Gavriellov

## Table of Contents

received certain severance benefits, including acceleration of all time-based vesting under his RSU awards, as described below under “Potential Payments Upon Termination or Change in Control.”

Promotion of Mr. Peng to Chief Executive Officer - On January 4, 2018, Mr. Peng was appointed President and Chief Executive Officer, effective January 29, 2018. In connection with this appointment, we entered into an employment agreement with Mr. Peng providing for the following compensation arrangements:

An annual base salary of \$700,000, effective January 29, 2018;

A target annual cash incentive compensation equal to 150% of his annual base salary, beginning with our fiscal year ending March 30, 2019, based on the achievement of performance objectives as determined by the Compensation Committee, as well as a corresponding increase in target annual cash incentive compensation to 150% of base salary from January 29, 2018 through March 31, 2018;

The grant of a time-based RSU award with a value of \$1 million, which vests in four substantially equal annual installments beginning on the first anniversary of the date of grant; and

The grant of a performance-based RSU award with a value of \$4,500,000 with respect to fiscal 2019.

In establishing the compensation arrangements for Mr. Peng, we took into consideration several factors, including the requisite experience and skills that a qualified chief executive officer candidate would need to lead and manage a growing business in a dynamic and ever-changing environment, the competitive market for similar candidates at other comparable companies based on a review of competitive market data, including data drawn from the companies in our compensation peer group and selected compensation surveys, his then-current compensation arrangements, the need to balance both competitive and internal parity considerations and information provided by the Compensation Committee’s compensation consultant.

The terms and conditions of Mr. Peng’s employment agreement are described below under “Potential Payments Upon Termination or Change in Control.”

Consulting Arrangement with Mr. Gavriellov - Concurrent with his retirement as President and Chief Executive Officer, as provided in his employment agreement, we entered into a consulting agreement with Mr. Gavriellov, effective February 2, 2018, whereby he agreed to provide consulting and transition services for a one-year period following termination of his employment (the Consulting Period) in return for consulting fees at an annual rate of \$2 million. If we terminate Mr. Gavriellov’s service without cause during the Consulting Period or elect not to continue his service following the completion of the Consulting Period, the vesting of his outstanding equity awards will be accelerated (to the extent he receives any awards in addition to those which were accelerated upon the termination of his employment) as if he had continued to perform services for an additional 12 months following the Consulting Period.

### Additional Management Changes

Mr. Önder joined the Company on August 21, 2017 as Senior Vice President, Product and Vertical Marketing. In connection with his appointment, we entered into an employment agreement with him providing for an annual base salary of \$345,000, a target annual cash incentive compensation equal to 80% of his annual base salary, a time-based RSU award with a value of \$1,250,000 (based on the average market price of our common stock during the previous three months), vesting in four annual installments, a cash “sign-on” bonus of \$150,000 and reimbursement of expenses associated with relocation from Minnesota to San Jose, California.

Effective February 1, 2018, Mr. Flores was promoted to Executive Vice President, in connection with which his annual base salary was increased to \$440,000 effective on that date and his target annual cash incentive compensation was increased to 100% of his annual base salary beginning with the fiscal year ending March 30, 2019.

### Compensation Objectives and Decision-Making Process

#### Role of the Compensation Committee

The Compensation Committee, in consultation with our CEO for our executive officers other than the CEO, is responsible for establishing our compensation and benefits philosophy and strategy. The Compensation Committee also oversees our general compensation policies and sets specific compensation levels for our executive officers. The Compensation Committee, together with the independent members of the Board, evaluates our CEO’s performance and determines his compensation. In determining our compensation strategy, the Compensation Committee reviews competitive market data to ensure that we are able to attract, motivate, reward and retain quality executive officers and

other employees. The Compensation Committee has the authority to engage its own independent advisors to assist in carrying out its responsibility and has done so, but may not delegate its authority to such advisors.

## Table of Contents

The primary objectives of the Compensation Committee with respect to determining executive compensation are to attract, motivate and retain talented employees and to align the interests of our executive officers with those of our stockholders, with the ultimate objective of enhancing stockholder value. It is the philosophy of the Compensation Committee that the best way to achieve this is to provide our executive officers with compensation that is based on their level of performance against specific goals, which are aligned with our overall strategy, thereby compensating executives on a “pay-for-performance” basis.

To achieve these objectives, the Compensation Committee has implemented compensation plans that tie a significant portion of our executive officers’ overall compensation to our financial and product-related performance, including operating profit, revenue growth, product revenue, technology leadership and quality leadership. Overall, the total compensation opportunity of our executive officers is intended to create an executive compensation program that is competitive with comparable companies.

### Role of the Compensation Consultant

In fiscal 2018, the Compensation Committee retained Compensia, a national compensation consulting firm, to act as its compensation consultant. Compensia reported directly to the Compensation Committee. Compensia provided the Compensation Committee with general advice on compensation matters, including reviewing the composition of the compensation peer group, providing compensation data related to executives at the selected companies in the peer group and providing advice on our executive officers’ compensation generally.

Compensia did not provide any additional services to us other than the services for which it was retained by the Compensation Committee, and the Compensation Committee is not aware of any conflict of interest that exists that would otherwise prevent Compensia from having been independent during fiscal 2018. We pay the costs for Compensia’s services. Based on the above and its review of the factors set forth under Exchange Act Rule 10C-1 and in the Nasdaq listing requirements, the Compensation Committee assessed the independence of Compensia and concluded that no conflict of interest exists that would prevent Compensia from independently advising the Compensation Committee during fiscal 2018.

In fiscal 2018, the Compensation Committee met regularly in executive session with Compensia without management present.

### Use of Compensation Peer Group

Each year, the Compensation Committee directs its compensation consultant to develop a group of peer companies for purposes of examining, determining and setting compensation for our executive officers. The criteria for determining which companies to include in the peer group include some or all of the following criteria: (i) they operate in a similar industry to ours; (ii) they are of roughly similar size (as measured by revenues and aggregate market capitalization); (iii) they have profitability and price-to-sales ratio similar to ours; and (iv) they are companies with whom we compete for executive talent.

After receiving and discussing the compensation consultant’s report, the Compensation Committee approved the peer group companies for fiscal 2018 in the third quarter of fiscal 2017. The Compensation Committee removed Atmel Corporation, Fairchild Semiconductor International, Inc. and SanDisk Corporation from the peer group for fiscal 2018 because they had been acquired. Although Broadcom Corporation was acquired by Avago Technologies Limited, it was retained in the peer group as Broadcom Limited because of its relevancy as a principal business competitor. Qorvo, Inc. was added to the peer group based on its comparability with respect to revenues and market capitalization and because it is in the semiconductor sector.

The compensation peer group for fiscal 2018 consisted of the following companies:

- Advanced Micro Devices, Inc.
- Analog Devices, Inc.
- Autodesk, Inc.
- Broadcom Limited
- Brocade Communications Systems Inc.
- Cadence Design Systems, Inc.
- Cypress Semiconductor Corporation
- KLA-Tencor Corporation
- LAM Research Corporation
- Linear Technology Corporation
- Marvell Technology Group Ltd.
- Maxim Integrated Products Inc.
- Microchip Technology Inc.
- Microsemi Corporation
- Nvidia Corporation
- ON Semiconductor Corporation
- Qorvo, Inc.
- Skyworks Solutions, Inc.
- Synopsys, Inc.

This compensation peer group was used by the Compensation Committee during fiscal 2018 as a reference for understanding the competitive market for executive positions in our industry sector.

A summary of the four-quarter trailing revenue by quartile and market capitalization of the peer companies at the time the Compensation Committee approved the compensation peer group for use in fiscal 2018 is as follows:

Table of ContentsPeer Group Four-Quarter Revenue and Market Capitalization for  
Fiscal Year 2018 Compensation Decisions

Quartile	Peer Group Financials (1)	
	Four Quarter Trailing Revenue (\$ in millions)	Market Capitalization (\$ in millions)
75th Percentile	3,418	14,596
50th Percentile	2,458	10,960
25th Percentile	2,236	5,906
Xilinx, Inc.	2,240	13,501

(1) Data is based on available market information as of October 2016.

Based on the foregoing, our revenue approximated the 25<sup>th</sup> percentile of the peer group companies and our market capitalization approximated the 63<sup>rd</sup> percentile of the peer group companies at the time the peer group was approved. Data on the compensation practices of the compensation peer group was generally gathered through searches of publicly available information, including publicly available databases. In preparing its report, the compensation consultant reviewed data from Radford Surveys + Consulting (Radford), specifically the Radford Global Technology Survey, as well as the definitive proxy statements for each of the peer group companies. Peer group data was gathered with respect to base salary, bonus targets and equity awards. Where this approach yielded an insufficient number of data points with respect to an executive position, the compensation consultant reviewed additional data from its own proprietary database.

In determining adjustments to executive compensation, the Compensation Committee not only reviews and considers the compensation advice and analysis provided by its compensation consultant and publicly available information of compensation offered by the applicable comparative market data, but also reviews the Radford survey and takes into consideration other relevant factors as described in this Compensation Discussion and Analysis. While the Compensation Committee looks at the external market data (both the Radford survey data and peer company data), it does not target any specific pay percentile within those companies for purposes of setting cash and equity compensation levels. Rather, the Compensation Committee uses the peer group information merely as a guide to determine whether we are generally competitive in the market.

Compensation Determination for Chief Executive Officer

The Compensation Committee annually reviews the performance of our Chief Executive Officer in light of the goals and objectives of our executive compensation program, and approves his compensation. The review of the performance and compensation of our Chief Executive Officer and all other executive officers is conducted annually during the period commencing approximately mid-May, which we call our Focal Review Period. The Compensation Committee uses both objective data from peer group companies, including comparisons of the compensation paid to chief executive officers at the companies in the compensation peer group, and subjective policies and practices, including an assessment of our Chief Executive Officer's achievements and contribution, to determine his compensation. In determining the long-term equity incentive component of our Chief Executive Officer's compensation, the Compensation Committee considers a number of relevant factors, including our performance and relative stockholder return, the value of similar awards to chief executive officers at the companies in the compensation peer group, the equity awards granted to our Chief Executive Officer in prior years and formal feedback from the independent members of the Board.

To provide further assurance of independence, the Compensation Committee's compensation consultant provides its recommendation for Chief Executive Officer compensation. The compensation consultant prepares an analysis showing competitive chief executive officer compensation at the companies in the compensation peer group for the individual elements of compensation and total direct compensation. Next the compensation consultant provides the Compensation Committee with a range of recommendations for any change in our Chief Executive Officer's base salary, target annual cash incentive compensation opportunity and equity award value. These recommendations take into account the peer group competitive pay analysis, expected future pay trends and, importantly, the position of our Chief Executive Officer in relation to other senior executives and proposed pay actions for all our other key employees. The range allows the Compensation Committee to exercise its discretion based on our Chief Executive

Officer's individual performance and other factors.

**Compensation Determination for Other Executive Officers**

Our Chief Executive Officer works with the Compensation Committee in establishing the compensation and benefits philosophy and strategy for our executive officers and also makes specific recommendations to the Compensation Committee with respect to the individual compensation for each of our executive officers other than himself. With respect to our executive officers, the

Table of Contents

Compensation Committee annually reviews with our Chief Executive Officer each executive officer's performance in light of our goals and objectives and approves their compensation. The Compensation Committee also considers other relevant factors in approving the level of such compensation, including each executive officer's performance during the year, specifically his or her accomplishments, areas of strength and areas of development, his or her scope of responsibility and contributions and his or her experience and tenure in the position. During the Focal Review Period, our Chief Executive Officer and members of our human resources department evaluate each executive officer's performance during the year based on our Chief Executive Officer's knowledge of his or her performance, an individual self-assessment and feedback provided by his or her peers and direct reports. Our Chief Executive Officer also reviews compensation data gathered from Radford as well as from publicly available information and identifies trends and competitive factors to consider in adjusting compensation levels of our executive officers. Our Chief Executive Officer then makes a recommendation to the Compensation Committee as to each element of each executive officer's compensation.

Compensation Elements

Our executive compensation program consists of three principal elements: base salary, cash incentive compensation and long-term equity compensation. The following table summarizes these elements of compensation:

Table of Contents

## Base Salary

In May 2017, the Compensation Committee reviewed the base salaries of our then-current executive officers focusing on the competitiveness of their salaries. After comparing their current salaries to the base salary levels at the companies in our compensation peer group, as well as considering the roles and responsibilities and potential performance of our named executive officers and the recommendations of our Chief Executive Officer (except with respect to his own base salary), the Compensation Committee increased the base salaries of our executive officers (other than Messrs. Gavrielov and Glaser) for fiscal 2018. The fiscal 2018 base salaries of our named executive officers were as follows:

## Named Executive Officer Fiscal 2018 Base Salaries

Named Executive Officer	Fiscal Year 2017 Base Salary (\$)	Fiscal Year	
		2018 Base Salary (\$)	Percentage Adjustment
Victor Peng	500,000	700,000(1)	40.0%
Lorenzo A. Flores	400,000	440,000(2)	10.0%
Vincent L. Tong	425,000	440,000	3.5%
Emre Önder	—	345,000(3)	N/A
William Madden	395,000	400,000	1.3%
Moshe N. Gavrielov (4)	800,000	800,000	N/A
Steven L. Glaser (5)	345,000	345,000	N/A

(1) The Compensation Committee initially increased Mr. Peng's annual base salary to \$550,000, representing a 10% increase, in April 2017 in connection with his promotion to Chief Operating Officer and subsequently increased his annual base salary to \$700,000 effective January 29, 2018 in connection with his appointment as President and Chief Executive Officer.

(2) The annual base salary of Mr. Flores was increased to \$415,000 as part of the Compensation Committee's annual review of our executive compensation program and subsequently increased to \$440,000 in connection with his promotion to Executive Vice President, effective February 1, 2018.

(3) Mr. Önder's annual base salary was approved by the Compensation Committee when he was appointed our Senior Vice President, Product and Vertical Marketing, effective August 21, 2017.

(4) Mr. Gavrielov retired as President and Chief Executive Officer effective January 28, 2018, and his employment with the Company ended on February 1, 2018.

(5) Mr. Glaser resigned as Senior Vice President, Corporate Strategy and Marketing effective January 5, 2018.

Except as noted, these base salary adjustments were effective July 1, 2018.

## Annual Cash Incentive Compensation

In May 2017, the Board approved the Xilinx, Inc. Executive Incentive Plan for fiscal 2018 (the 2018 Incentive Plan). The 2018 Incentive Plan was designed to link the annual cash incentives of our executive officers to the company-wide achievement of pre-established financial objectives and their achievement of individual performance goals.

## Target Annual Cash Incentives

In connection with the adoption of the 2018 Incentive Plan, the Compensation Committee reviewed the target annual cash incentives of our executive officers, focusing on the competitiveness of their target total cash compensation opportunities. After comparing their current target annual cash incentives to the target cash incentive levels at the companies in our compensation peer group, as well as considering the roles and responsibilities and potential performance of our executive officers and the recommendations of our Chief Executive Officer (except with respect to his own target annual cash incentive), the Compensation Committee determined to maintain the target annual cash incentives of our executive officers for fiscal 2018 at their fiscal 2017 levels. Subsequently, however, the Compensation Committee increased Mr. Peng's target cash incentive to 115% of base salary in connection with his promotion to Chief Operating Officer, retroactive to the beginning of fiscal 2018, and later to 150% of base salary in connection with his promotion to President and Chief Executive Officer effective January 29, 2018.

Table of Contents

The fiscal 2017 and 2018 target annual cash incentives of our named executive officer were as follows:

(2) The target annual cash incentive for Mr. Flores was increased to 100% in connection with his promotion to Executive Vice President, effective April 1, 2018, after the end of fiscal 2018.

(3) Mr. Önder's target annual cash incentive was approved by the Compensation Committee when he was appointed our Senior Vice President, Product and Vertical Marketing, effective August 21, 2017.

(4) Mr. Gavrielov retired as President and Chief Executive Officer effective January 28, 2018, and his employment with the Company ended on February 1, 2018.

(5) Mr. Glaser resigned as Senior Vice President, Corporate Strategy and Marketing effective January 5, 2018.

Performance Components

Under the 2018 Incentive Plan, annual cash incentive payments for our executive officers were determined using three different components, each with a different weighting. These components were:

annual revenue growth (Growth Component), weighted at 40%;

operating profit, determined in accordance with generally accepted accounting principles, excluding accrued compensation expense for estimated incentive compensation (Operating Profit Component), weighted at 35%; and individual performance, based on the achievement of performance goals pertaining to each executive officer's position and responsibilities (Individual Performance Component), weighted at 25%.

These components were the same as those used for fiscal 2017, except that the weighting for the Operating Profit Component increased to 35% from 30% and the weighting for the Individual Performance Component decreased to 25% from 30%. These changes in weightings were intended to focus our executive officers more on achieving our financial objectives for fiscal 2018.

For each of our named executive officers other than Mr. Gavrielov, the Operating Profit Component and the Individual Performance Component were to be paid on a semi-annual basis and the Growth Component was to be paid on an annual basis. For Mr. Gavrielov, the Operating Profit Component was to be paid on a semi-annual basis and the Growth Component and the Individual Performance Component were to be paid on an annual basis. In the discretion of the Compensation Committee, any extraordinary or one-time charges could be excluded for purposes of calculating the annual cash incentive payments under the 2018 Incentive Plan.

For purposes of the 2018 Incentive Plan, the Growth Component, Operating Profit Component and Individual Performance Component were designed as follows:

Growth Component. The Growth Component was designed to reward our year-over-year revenue growth. To emphasize the continued importance of achieving our revenue goal for fiscal 2018, the weighting of the Growth Component was maintained at 40%. The Growth Component was subject to a minimum threshold for any payout and a multiplier that increased the target payout depending on our performance. In fiscal 2018, the minimum increase in year-over-year revenue growth was 1.0% and the target increase was 6.0%. The Growth Component multiplier was 10% if the minimum revenue growth percentage was met and 100% if the target revenue growth percentage was met. If the target revenue growth percentage was met, the multiplier increased by

increments of 20% for each percentage increase in revenue growth, and was capped at an annual maximum of 200%.

The Growth Component was measured and paid on an annual basis.

The following table summarizes the general progression of the Growth Component multiplier for fiscal 2018:

## Growth Component Scale

7	120.0
8	140.0
9	160.0
10	180.0
0.11 or greater	200.0

In fiscal 2018, we achieved 8% revenue growth, which exceeded our 6% target for the Growth Component threshold, resulting in a Growth Component multiplier of 140%.

**Operating Profit Component.** The Operating Profit Component was determined by a formula that measured and rewarded improvements in our operating profit. For purposes of the 2018 Incentive Plan, the Operating Profit Component was calculated on a semi-annual basis using the financial results for the fiscal six-month period, and was weighted 35%. The Operating Profit Component was designed to emphasize the importance of continually managing costs, increasing efficiencies and enhancing profitability. The Operating Profit Component was subject to a minimum threshold performance level for any payout and a multiplier that increased the payout depending on our performance. For the Operating Profit Component, achievement of the minimum threshold performance level resulted in a multiplier of 10%, and the multiplier increased to 100% when the target range of operating profit percentage was met. Thereafter, the multiplier increased until it was capped at a maximum of 200% for each semi-annual measurement period.

The following table summarizes the general progression of the Operating Profit Component multiplier for fiscal 2018:

## Table of Contents

In fiscal 2018, we met our Operating Profit Component target of 32% in the first half of the year, resulting in a multiplier of 100%, while in the second half of the year we achieved operating profit of 34%, exceeding our Operating Profit Component target of 32%, resulting in a multiplier of 110%.

**Individual Performance Component.** Under the Individual Performance Component, each of our executive officers received up to a maximum of ten individual performance goals, measured over the full annual performance period in the case of Mr. Gavrielov and over two semi-annual performance periods in the case of each other executive officer. Each goal was assigned a weighting depending on the value of the goal as recommended by each executive officer and approved by the CEO. For each of our executive officers, achievement of each goal was measured on a scale of 0% achievement to 150% achievement. The threshold performance level for any payout of the Individual Performance Component was 50% for overall achievement, and the maximum performance was capped at 150%.

Each individual goal under the Individual Performance Component was directly related to our business objectives and corresponded to each executive officer's position and responsibilities. The goals for our executive officers related to the broader corporate goals within the following categories:

**Operational excellence and quality of results.** This category consisted of goals related to adherence to product development plans and schedules, product delivery timeliness, product sales and gross margin achievement and sales achievement by geographic region.

**Strategic initiatives and performance.** This category consisted of goals related to product and portfolio assessment, including customer and end market sub-segment identification.

**Leadership effectiveness.** This category consisted of goals related to strategic leadership, responding to changes in the market and economic environment, organizational effectiveness and managing our relationship with stockholders. For each executive officer (other than Mr. Gavrielov, our Chief Executive Officer at the time), our Chief Executive Officer, in consultation with the individual, assigned a weight to each goal that was measured in proportion to how that goal corresponded to the importance of the business objective involved. These goals and assigned weightings were submitted to the Compensation Committee for its review at the beginning of each semi-annual period. At the end of each semi-annual period, each executive officer prepared a self-assessment of his or her level of achievement of each goal on a scale of 0% to 150%. Our Chief Executive Officer then reviewed with such executive officer his or her performance for the period and then determined his or her level of achievement for each goal on the same scale. Based on our Chief Executive Officer's determination of the level of goal achievement, he then recommended to the Compensation Committee an Individual Performance multiplier, on a scale of 0% to 150%, for each executive officer. After reviewing our Chief Executive Officer's semi-annual assessment and recommendation, the Compensation Committee determined and approved the multiplier and semi-annual payout for each executive officer.

For our Chief Executive Officer, the Compensation Committee, in consultation with him, determined each of his goals, which were measured in proportion to the importance of that goal to our business. At the end of the annual period, the Chief Executive Officer prepared a self-assessment of his level of achievement of each goal on the same 0%-to-150% scale and submit this self-assessment to the Compensation Committee. After reviewing the self-assessment and making its own evaluation of the Chief Executive Officer's performance, the Compensation Committee discussed its recommendation for the Chief Executive Officer's multiplier and annual payout with the independent members of the Board outside the presence of the Chief Executive Officer. The Compensation Committee then determined and approved the Chief Executive Officer's payout amount. In assessing the Chief Executive Officer's achievements and approving his compensation, the Compensation Committee and independent members of the Board considered his achievements within a broader set of expectations including strategic leadership, organizational quality and effectiveness, management abilities and responsiveness to economic conditions.

The Individual Performance Component, which was weighted 25%, was paid annually for Mr. Gavrielov and semi-annually for each of our other executive officers in fiscal 2018. A summary of each named executive officer's individual performance goals is set forth in the footnotes to the table below titled "Named Executive Officer Annual Cash Incentive Payment for Fiscal 2018."

### **Payment Calculations for Executive Officers**

Under the 2018 Incentive Plan, annual cash incentive payments were calculated slightly differently for our Chief Executive Officer compared to our other executive officers, given that the Individual Performance Component was

determined on an annual basis for the Chief Executive Officer and on a semi-annual basis for all other executive officers.

Named Executive Officer (Other than CEO) Cash Incentive Calculation

Annual Cash Incentive Payments for Fiscal 2018

We met the operating profit objective in the first half of the year, resulting in a 100% payment for the first half of the fiscal year under the Operating Profit Component, and we exceeded the operating profit objective in the second half of the year, resulting in a 110% payment for the second half of the fiscal year under the Operating Profit Component. Payouts to our named executive officers (other than Messrs. Peng and Gavrielov) under the Individual Performance Component for the first half of the fiscal year ranged from 100% to 114% of target. In the second half of the fiscal year, the payouts to our named executive officers (other than Messrs. Peng and Gavrielov) under the Individual Performance Component ranged from 98% to 113% of target.

Table of Contents

Mr. Peng, who became Chief Executive Officer during fiscal 2018, received a payment that was 110% of target for the first half of the year in his capacity as our Chief Operating Officer and a payment that was 120% of target for the second half of the year both in his capacity as Chief Operating Officer and, commencing January 29, 2018, as Chief Executive Officer. The payment to Mr. Gavrielov under the Individual Performance Component was 117% of target. We exceeded the revenue growth objective for fiscal 2018, resulting in a 140% payment for the fiscal year under the Growth Component.

The target and actual annual cash incentive payments for fiscal 2018 for our named executive officers, based on their achievement against our financial goals and their individual performance goals, were as follows:

For purposes of this table, only his first half salary and target incentive payment are shown.

The first-half financial metric included only the Operating Profit Component, which was scored at 32% and resulted in a multiplier of 100%. For more information on the Operating Profit Component, see the section above (2) titled “Performance Components—Operating Profit Component,” and for more information on the calculation of the annual cash incentive payments for the first half of fiscal 2018, see the section above titled “Payment Calculations for Executive Officers.”

The Operating Profit Component for the second half was scored at 34% and resulted in a multiplier of 110%. The Growth Component multiplier was 140%, as we exceeded our target year-over-year revenue growth in fiscal 2018.

### Long-Term Equity Incentive Compensation

The Compensation Committee regularly monitors the environment in which we operate and reviews and makes changes to our long-term equity incentive compensation program as necessary to help us meet our goals, including generating long-term stockholder value and attracting, motivating and retaining talent. In fiscal 2018, the Compensation Committee granted long-term equity incentive compensation to our executive officers primarily in the form of performance-based RSU awards, while granting additional time-based RSUs to certain executive officers to address specific compensation requirements, as discussed below.

### Fiscal 2018 Performance-Based RSU Awards

The Compensation Committee believes that performance-based RSU awards focus our executive officers' attention on the key drivers of long-term value creation and serve as a retention tool through a three-year vesting schedule. In addition, because they represent outright stock grants rather than options that require payment for the underlying stock, RSU awards allow us to issue fewer shares of common stock, thereby reducing dilution to our stockholders. The target value of each performance-based RSU award granted to our executive officers during the Focal Review Period was determined by the Compensation Committee based on performance, internal parity for executive officers at certain levels, a review of compensation peer group data, the pay mix between cash and equity compensation, the Compensation Committee's assessment of the retention value of existing and new equity awards and the recommendations of Mr. Gavrielov, our then-Chief Executive Officer (except with respect to his own equity award). Mr. Gavrielov received the largest performance-based RSU award based on his overall responsibility for our performance and success. In addition, further differentiation was made among our executive officers based on the Compensation Committee's review of the competitive market data for the compensation peer group for their respective positions and its assessment of each individual's potential future contributions to Xilinx.

The shares subject to the performance-based RSU awards were to be earned based on our achievement of pre-established financial and operational goals over a one-year performance period corresponding with our fiscal year. The number of earned shares could increase with over-achievement of the applicable performance goals, to an aggregate maximum of 185% of the target number of shares subject to the awards, or could decrease for under-achievement of the performance goals, with the possibility of no shares being earned. Once the number of earned shares is determined, they vest in three equal annual installments, commencing on the first anniversary of the date of grant.

The four performance components applicable to the fiscal 2018 performance-based RSU awards were:

- 28nm revenue, combined with total revenue, weighted at 40% (the 28nm Revenue Component);
- 20nm and 16nm revenue, combined with total revenue, weighted at 30% (the 20nm/16nm Revenue Component);
- technology leadership, weighted at 20% (the Technology Component); and
- quality leadership, weighted at 10% (the Quality Component).

The 28nm Revenue Component and the 20nm/16nm Revenue Component each involved performance levels that required attainment of both a specific amount of revenue associated with the product line and a specific amount of overall total revenue for fiscal 2018. The incentive payout level attributable to each product was the highest level for which both the product revenue and the total revenue associated with that percentage were achieved; if, for example, we achieved product revenue associated with a certain payout level and total revenue associated with a lower level, the lower level would apply.

The four performance components operated as follows:

28nm Revenue Component. The 28nm Revenue Component was designed to measure and reward achievement of certain revenue levels for our 28nm products identified by the Compensation Committee. The 28nm Revenue Component was selected

Table of Contents

as a metric because of its importance to our technology and product strategy. The 28nm Revenue Component was weighted at 40%.

The 28nm Revenue Component was subject to a revenue threshold requirement and a multiplier that increased to up to 200% depending on the revenue attainment for our 28nm products and our overall total revenue for fiscal 2018. In fiscal 2018, the 28nm Revenue Component threshold was \$870 million, and any product revenue level below this threshold would result in a payout multiplier of 0%. At the target product revenue level of \$910 million and total revenue of \$2.505 million, the 28nm Revenue Component payout multiplier was 100%. Then, at product revenue of \$1,060 million and total revenue of \$2.550 million, the 28nm Revenue Component multiplier was 200%. For fiscal 2018, we achieved \$890 million in product revenue for the 28nm Revenue Component, and thus the multiplier for this component was 60%.

**20nm/16nm Revenue Component.** The 20nm/16nm Revenue Component was designed to measure and reward achievement of certain combined revenue levels for our 20nm and 16nm products identified by the Compensation Committee. The 20nm/16nm Revenue Component was selected as a metric because of its importance to our technology and product strategy. The 20nm/16nm Revenue Component was weighted at 30%.

The 20nm/16nm Revenue Component was subject to a revenue threshold requirement and a multiplier that increased to up to 200% depending on the revenue attainment for our 20nm and 16nm products and our overall total revenue for fiscal 2018. In fiscal 2018, the 20nm/16nm Revenue Component threshold was \$330 million, and any product revenue level below this threshold resulted in no shares being earned. At the target product revenue level of \$410 million and total revenue of \$2.505 million, the 20nm/16nm Revenue Component payout multiplier was 100%. Then, at product revenue of \$560 million and total revenue of \$2.550 million, the 20nm/16nm Revenue Component multiplier was 200%. For fiscal 2018, we achieved \$486 million in product revenue for the 20nm/16nm Revenue Component, and thus the multiplier for this component was 150%.

**Technology Component.** The Technology Component was designed to measure and reward significant achievements in our technology roadmap. The Technology Component measured a number of factors in assessing our competitiveness and status of leadership across our entire portfolio of products. Such factors included use of power, process node achievements, integration, product cost efficiency, performance of high speed transceiver technology and ease of use of software. We evaluated the Company's performance according to a scale that reflected the targeted outcome and the range of outcomes we considered achievable and assigned a numeric score based on this evaluation. The Technology Component score was subject to a minimum threshold, at which the multiplier was 20%, up to a maximum multiplier of 150% of the target number of shares. If the performance score was below the minimum, no shares would be earned. The Technology Component was weighted at 20%. In fiscal 2018, we exceeded our target for the Technology Component by an amount that resulted in a multiplier of 150%.

**Quality Component.** The Quality Component was designed to measure and reward significant achievements in the quality of our products. The Quality Component was measured by both customer experience and internal quality systems monitoring. We evaluated the Company's performance according to a scale that reflected the targeted outcome and the range of outcomes we considered achievable and assigned a numeric score based on this evaluation. The Quality Component score was subject to a minimum threshold, at which the multiplier was 20%, up to a maximum multiplier of 150% of the target number of shares. If the performance score was below the minimum, no shares would be earned. The Quality Component was weighted at 10%. For fiscal 2018, we exceeded our target for the Quality Component by an amount that resulted in a multiplier of 150%.

In May 2017, the Compensation Committee determined the target award value of the performance-based RSUs granted to each our executive officers for fiscal 2018. The target share amount subject to each award was subsequently determined based on the target award value divided by the average closing price of our common stock during the three-month period from April 3, 2017 to June 30, 2017, and then rounded up to the nearest 500 units. For fiscal 2018, the tentative total award value of the performance-based RSU awards granted effective July 3, 2017 for each of our named executive officers was as follows:

Table of ContentsNamed Executive Officer Fiscal 2018  
Tentative Total Award Values

Named Executive Officer	Tentative Total Award Value (\$)
Victor Peng	1,600,000
Lorenzo A. Flores	900,000
Vincent L. Tong	1,250,000
Emre Önder (1)	—
William Madden	900,000
Moshe N. Gavrielov	5,400,000
Steven L. Glaser	900,000

(1) Mr. Önder joined the Company in August 2017 and thus was not eligible to receive a performance-based RSU during fiscal 2018.

The average closing price of our common stock from April 3, 2017 to June 30, 2017, was \$63.11 per share.

In May 2018, the Compensation Committee reviewed and analyzed the data on achievement of the four performance components for fiscal 2018 and determined the total number of shares of our common stock earned and to be issued pursuant to each award. The number of shares earned under each performance-based RSU award will vest in three equal annual installments, beginning on the anniversary of the date of grant, which is July 3 of each of 2018, 2019 and 2020.

The following table sets forth the long-term incentive compensation performance goals, their percentage weightings and achievements, as well as the total multiplier for fiscal 2018:

Long-Term Equity Incentive Performance Goals for

The following table sets forth the target and actual number of shares of our common stock awarded to each of our named executive officers in fiscal 2018 with respect to their performance-based RSU awards, based on the considerations described above:

## Table of Contents

Mr. Glaser resigned as Senior Vice President, Corporate Strategy and Marketing effective January 5, 2018, and, (3) therefore, was not eligible to earn any shares of our common stock pursuant to his performance-based RSU award for fiscal 2018.

### Fiscal 2018 Time-Based RSU Awards

During fiscal 2018, the Compensation Committee granted time-based RSU awards to Mr. Peng in the amount of 14,500 shares (based on an award value of \$1 million) in connection with his appointment as President and Chief Executive Officer, to Mr. Gavrielov in the amount of 159,000 shares (based on an award value of \$10 million) in connection with the amendment and restatement of his employment agreement and to Mr. Önder in the amount of 19,286 shares (based on an award value of \$1.25 million) in connection with his appointment as our Senior Vice President, Product and Vertical Marketing. The awards granted to Messrs. Peng and Önder vest in four equal annual installments. Half of the award granted to Mr. Gavrielov was to vest in three equal annual installments, beginning on the second anniversary of the date of grant, and the other half was to vest in three equal annual installments, beginning on the third anniversary of the date of grant. Mr. Gavrielov's award was granted in connection with the adoption of a multi-year succession plan and was intended to provide an incentive for Mr. Gavrielov to remain with the Company during the full succession period. The vesting of Mr. Gavrielov's award was accelerated in connection with the transition to Mr. Peng as Chief Executive Officer. For more information, see the section above titled "Key Management Changes During Fiscal 2018."

### Generally Available Benefit Plans

We maintain generally available benefit programs in which our executive officers may participate. Under our employee stock purchase plan, generally all employees are able to purchase shares of our common stock through payroll deductions at a discounted price. We also maintain a tax-qualified 401(k) Plan for employees in the U.S., which provides for broad-based employee participation. Under the 401(k) Plan, we match up to 50% of an employee's first 8% of compensation that the employee contributes to his or her 401(k) account, up to a maximum per calendar year of \$4,500 per employee. We also provide a "true-up" for participants who did not receive their maximum matching contribution during a 401(k) plan year as a result of meeting their contribution limits early in the year. We make matching contributions to help attract and retain employees, and to provide an additional incentive for our employees to save for their retirement in a tax-favored manner. We do not maintain any guaranteed pension plan or other defined benefit plan.

We also offer a number of other benefits to our executive officers pursuant to benefits programs that provide for broad-based employee participation which includes medical, dental and vision insurance, disability insurance, various other insurance programs, health and dependent care flexible spending accounts, educational assistance, employee assistance and certain other benefits. The terms of these benefits are essentially the same for all eligible employees.

### Deferred Compensation Plan

We maintain an unfunded, nonqualified deferred compensation plan which allows eligible participants, including our executive officers and members of the Board, to voluntarily defer receipt of a portion or all of their base salary, annual cash incentive payment or director fees, as the case may be, until the date or dates elected by the participants, thereby allowing the participating employees and directors to defer taxation on such amounts. We do not maintain a "SERP" or similar defined benefit deferred compensation plan for any of our employees. For more information about this plan, see the section below entitled "Nonqualified Deferred Compensation Plan."

### Perquisites and Other Personal Benefits

We generally do not provide perquisites or other personal benefits to our executive officers except in situations where we believe it is appropriate to assist an individual in the performance of his or her duties, to make him or her more efficient and effective and for recruitment and retention purposes. For example, we provide Mr. Tong certain benefits in connection with his role as the executive leader for the Asia Pacific region, as described in footnote 8 to the Summary Compensation Table.

Consistent with our compensation philosophy, we intend to continue to maintain market-competitive benefits for all employees, including our executive officers, provided that the Compensation Committee may revise, amend or augment an executive officer's benefits or perquisites if it deems it advisable in order to remain competitive with comparable companies or retain an individual whose services are critical to us. We believe the benefits we offer are

currently at competitive levels with comparable companies.

**Employment and Severance Arrangements**

We have entered into an employment agreement with Mr. Peng, our Chief Executive Officer. This agreement governs the terms of his compensation and, in addition, provides for certain payments and benefits in the event of certain qualifying terminations of employment, including a termination of employment in connection with a change in control of the Company. The terms of Mr. Peng's employment agreement are discussed in greater detail below under "Potential Payments Upon Termination or Change in Control."

## Table of Contents

In filling each of our executive positions, we have recognized the need to develop competitive compensation packages to attract qualified candidates in a dynamic labor market. At the same time, in formulating these compensation packages, we have been sensitive to the need to integrate new executive officers into the executive compensation structure that we were seeking to develop, balancing both competitive and internal equity considerations. Each of these arrangements provides for “at will” employment.

We have approved post-employment compensation arrangements for each of our executive officers. We believe that having in place reasonable and competitive post-employment compensation arrangements are essential to attracting and retaining highly-qualified executive officers. These arrangements are designed to provide reasonable compensation to executive officers who leave our employ under certain circumstances to facilitate their transition to new employment. Further, in some instances we seek to mitigate any potential employer liability and avoid future disputes or litigation by requiring a departing executive officer to sign a separation and release agreement acceptable to us as a condition to receiving post-employment compensation payments or benefits.

The Compensation Committee does not consider the specific amounts payable under our post-employment compensation arrangements when establishing annual compensation. We do believe, however, that these arrangements are necessary to offer compensation packages that are competitive.

We believe that these arrangements are designed to align the interests of our executive officers and our stockholders when considering our long-term future. The primary purpose of these arrangements is to keep our most senior executive officers focused on pursuing all corporate transaction activity that is in the best interests of our stockholders regardless of whether those transactions may result in their own job loss. Reasonable post-acquisition payments and benefits should serve the interests of both the executive officer and our stockholders.

All payments and benefits in the event of a change in control of the Company are payable only if there is a subsequent qualifying loss of employment by a named executive officer (commonly referred to as a “double-trigger” arrangement). In the case of the acceleration of vesting of outstanding equity awards, we use this double-trigger arrangement to protect against the loss of retention value following a change in control of the Company and to avoid windfalls, both of which could occur if vesting of either equity or cash-based awards accelerated automatically as a result of the transaction.

Historically, we have avoided the use of excise tax payments (or “gross-ups”) relating to a change in control of the Company and have no such obligations in place with respect to any of our named executive officers. Consistent with our historical practice, we intend to continue to refrain from providing excise tax payments relating to a change in control of the Company.

For detailed descriptions of the post-employment compensation arrangements we maintained with our named executive officers for fiscal 2018, as well as an estimate of the potential payments and benefits payable under these arrangements, see the section below titled “Potential Payments Upon Termination or Change in Control.”

### Equity Award Grant Guidelines

We have adopted written procedures for the grant of equity awards. With respect to grants to executive officers and other employees, the Compensation Committee reserves the authority to make grants at such time and with such terms as it deems appropriate in its discretion, subject to the terms of our 2007 Equity Plan. The 2007 Equity Plan requires that all awards be subject to either time-based vesting (with no portion of the award vesting earlier than one year after the date of grant) or performance-based vesting. Generally, grants of equity awards are made to our executive officers based on and in connection with the annual review during the Focal Review Period.

The Compensation Committee determines individual grants to each executive officer based on a variety of factors that it determines to be relevant and appropriate at the time of grant. These factors typically have included the size and value of unvested equity awards held by the executive officer, his or her job performance, skill set, prior experience and time in the position, as well as external market data, internal equity, pressures to attract and retain talent, dilutive effect of grant size and business conditions. The Compensation Committee also periodically grants equity awards at its scheduled meetings or by unanimous written consent for new hires and promotions. Grants approved during scheduled meetings become effective and are priced as of the date of approval or a pre-determined future date. Grants approved by unanimous written consent become effective and are priced as of the date the last signature is obtained or a predetermined future date.

We have not granted, nor do we intend in the future to grant, equity awards to executive officers in anticipation of the release of material nonpublic information that is likely to result in changes to the price of our common stock, such as a significant positive or negative earnings announcement. Similarly, the Compensation Committee has not timed, nor does it intend in the future to time, the release of material non-public information based on equity grant dates. In any event, because equity compensation awards typically vest over three or four-year periods, the effect of any immediate increase in the price of our common stock following grant is minimal.

The Board has delegated to our Chief Executive Officer and Chief Financial Officer limited authority to approve equity award grants to non-officer employees pursuant to the terms of our 2007 Equity Plan, and subject to the provisions of pre-determined

## Table of Contents

guidelines. Specifically, with respect to non-officer employees, our annual focal awards will be granted on or about the first business day of our second fiscal quarter of each year, and other equity awards will generally be granted on the 10th day of the month, or if our stock is not traded on such date, the first business day thereafter when our stock is traded. The Compensation Committee is responsible for determining and granting all equity awards to executive officers.

Under our 2007 Equity Plan, the exercise price of options and stock appreciation rights may not be less than 100% of the closing price of the shares of our common stock underlying such options and stock appreciation rights on the date of grant.

### Other Compensation Policies

#### Stock Ownership Guidelines

We have adopted stock ownership guidelines for our executive officers to align more closely their interests with those of our stockholders. Under these guidelines:

our Chief Executive Officer is required to own shares of our stock having a value of at least \$4.5 million; executive vice presidents are required to own shares of our common stock having a value of at least \$1.0 million; senior vice presidents who are executive officers for purposes of Section 16 of the Exchange Act are required to own shares of our common stock having a value of at least \$750,000; and corporate vice presidents who are executive officers for purposes of Section 16 are required to own shares of our common stock having a value of at least \$500,000.

In addition, all such executive officers must retain the following shares until their respective stock ownership requirements are met:

50% of the shares delivered from time-based RSU awards granted beginning in July 2011; and  
45% of the shares delivered from performance-based RSU awards granted beginning in July 2013 (prior to fiscal 2014, we did not have any holding requirements on performance-based RSU awards; we only had holding requirements on time-based RSU awards that vested 100% after three years).

#### Clawback Policy

The Board has adopted a policy for seeking the return (“clawback”) from our executive officers of compensation to the extent such amounts were paid due to financial results that later had to be restated, subject to the terms described below. The policy provides that to the extent the Board, or any committee thereof, and the Company determine appropriate, we may require reimbursement of all or a portion of any bonus, incentive payment, commission, equity-based award or other compensation granted to and received by or for an executive officer beginning in fiscal 2009, where:

the compensation was predicated upon achieving certain financial results that were subsequently the subject of a substantial restatement of financial statements filed with the SEC;  
the Board (or a committee thereof) determines that the executive officer engaged in intentional misconduct that was directly responsible for the substantial restatement; and  
a reduced amount of compensation would have been paid to the executive officer based upon the restated financial results.

We intend for such policy to comply with the requirements of Section 954 of the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010 pertaining to the recovery of executive compensation once the SEC adopts final rules implementing this provision.

#### Policy Against Hedging and Pledging Transactions

All employees, including our executive officers, are subject to our Insider Trading Policy. Our Insider Trading Policy prohibits any employee from hedging, engaging in short sales or entering into any transaction, investment or arrangement that is intended or may be expected to increase in value if the market value of our common stock falls (such as buying “put” options). In addition, our Insider Trading Policy prohibits any employee, including any executive officer, from holding shares of our common stock in a margin account or pledging shares of our common stock.

#### Trading Plans

We have a corporate policy regarding Exchange Act Rule 10b5-1 trading plans, pursuant to which key terms of the 10b5-1 trading plans adopted by any of our executive officers or members of the Board are disclosed on our website at

[www.investor.xilinx.com](http://www.investor.xilinx.com).

### Tax and Accounting Treatment of Compensation

In designing and approving our executive compensation program, the Compensation Committee considers, but does not place great emphasis on, the anticipated accounting and tax treatment of our compensation arrangements. Among other factors that receive greater consideration are the net costs to us and our ability to effectively administer our executive compensation program in the short-term and long-term interests of our stockholders. The Compensation Committee seeks to maintain flexibility and judgment in compensating our executive officers in a manner designed to promote varying corporate goals and therefore has not adopted a policy with respect to the accounting or tax treatment of compensation.

#### Deduction Limit

Generally, Section 162(m) of the Internal Revenue Code disallows a federal income tax deduction for public corporations with respect to remuneration in excess of \$1 million paid in any fiscal year to certain specified executive officers. For taxable years beginning before January 1, 2018, (i) these executive officers consisted of a public corporation's chief executive officer and up to three other executive officers (other than the chief financial officer) whose compensation is required to be disclosed to stockholders under the Exchange Act because they are our most highly-compensated executive officers, and (ii) qualifying "performance-based compensation" was not subject to this deduction limit if specified requirements were met.

Pursuant to the Tax Cuts and Jobs Act of 2017, which was signed into law on December 22, 2017 (the Tax Act), for taxable years beginning after December 31, 2017, the remuneration of a public corporation's chief financial officer is also subject to the deduction limit. In addition, subject to certain transition rules (which apply to remuneration provided pursuant to written binding contracts that were in effect on November 2, 2017 and are not subsequently modified in any material respect), for taxable years beginning after December 31, 2017, the exemption from the deduction limit for "performance-based compensation" is no longer available. Consequently, for fiscal years beginning after December 31, 2017, no remuneration in excess of \$1 million paid to a specified executive will be deductible (unless paid pursuant to an arrangement in effect on November 2, 2017).

In designing our executive compensation program and determining the compensation of our executive officers, the Compensation Committee considers a variety of factors, including the potential impact of the Section 162(m) deduction limit. However, the Compensation Committee will not necessarily limit executive compensation to that which is or may be deductible under Section 162(m). The deductibility of some types of compensation depends upon the timing of an executive officer's vesting or exercise of previously granted rights. Further, interpretations of and changes in the tax law and other factors beyond the Compensation Committee's control also affect the deductibility of compensation.

To maintain flexibility to compensate our executive officers in a manner designed to promote our short-term and long-term corporate goals, the Compensation Committee has not adopted a policy that all compensation must be deductible. The Compensation Committee believes that our stockholders' interests are best served if its discretion and flexibility in awarding compensation is not restricted, even though some compensation awards may result in non-deductible compensation expense. From time to time, the Compensation Committee may approve compensation for our named executive officers that is not deductible when it believes that such compensation is consistent with the goals of our executive compensation program and is in the best interests of the Company and our stockholders.

#### Accounting Considerations

We account for the equity awards granted to our employees, including executive officers, and the non-employee members of the Board in accordance with FASB ASC Topic 718, which requires us to estimate and record expense for each award of equity compensation over the service period of the award.

#### Compensation-Related Risks

The Compensation Committee considers potential risks when reviewing and approving our executive and general employee compensation programs. The Compensation Committee, in cooperation with management, has reviewed our existing compensation programs and believes that the mix and design of the elements of such programs does not encourage management to assume excessive risks and accordingly are not reasonably likely to have a material adverse effect on the Company. Our programs have been balanced to focus on both short-term and long-term financial and operational performance through prudent business judgment and appropriate, measured risk-taking.

Our annual cash incentive plans are designed to reward financial and operational performance in areas we consider critical to our short-term and long-term success. The annual cash incentive plan for our executive officers is based on a combination of corporate financial performance and individualized strategic and operational goals. The financial performance component is based on multiple financial metrics that counterbalance each other, decreasing the likelihood that our executive officers will pursue any one metric to the detriment of overall financial performance. The Operating Profit Component is designed to reward improvements in our operating profit, and the Growth Component is designed to measure and reward increases in our revenue growth year over year. These metrics limit the likelihood that an executive officer may be rewarded for taking excessive risk on our behalf by, for example, seeking revenue-enhancing opportunities at the expense of profitability. In addition, there are caps on annual cash

## Table of Contents

incentive payments in all the components of the annual cash incentive plan; for fiscal 2018, the Operating Profit Component and Growth Component multipliers were each capped at 200%, and the Individual Performance Component multiplier was capped at 150%. These limitations and caps eliminate the risk of compensation windfalls resulting from uncapped annual cash incentives.

The individual strategic and operational goals established at the beginning of the fiscal year for our Chief Executive Officer are reviewed and discussed with the Board and approved by the Compensation Committee, and the individual strategic and operational goals established at the beginning of the fiscal year for each of our other executive officers are reviewed and discussed with the Compensation Committee and approved by our Chief Executive Officer. Further, annual cash incentive payments for our executive officers are approved by the Compensation Committee. This multi-layer approval process in the goal-setting and payment approval process reduces the risk of improper awards. The annual cash incentive plan for employees other than executive officers is based on our corporate financial performance using operating profit margin as the sole performance measure to fund the plan, and is comprised of two six-month performance periods. This measure is intended to align the interests of participating employees with enhancement of profitability. For each period, participating employees establish individual goals that support key company objectives and are assigned a bonus multiplier. They earn cash awards from the available incentive pool based on the extent of their goal achievement and the applicable multiplier. Individual bonus award opportunities are expressed as a percentage of an employee's eligible earnings (ranging from 8% up to 30% of eligible earnings), and payments are capped at 150% of the employee's bonus target for the applicable performance period. The modest size of the potential bonuses, the fact that bonuses are funded solely by actual financial performance, and the overall cap eliminate the risk of compensation windfalls resulting from uncapped annual cash incentives.

Our equity incentive program is designed to promote long-term performance. During fiscal 2018, our equity incentive program contained a mix of time-based RSU awards and performance-based RSU awards. Time-based RSU awards vest annually over a four-year vesting period. Performance-based RSU awards granted to our executive officers are earned over a one-year performance period, and the earned shares then vest in three equal annual installments, beginning on the first anniversary of the grant date.

As previously discussed, we have also adopted stock ownership guidelines that further align the interests of our executive officers and stockholders and promote long-term focus on our growth since these guidelines ensure that our executive officers retain the downside risk of stock ownership for an extended period of time. Therefore, the Compensation Committee believes that our equity incentive program does not encourage unnecessary or excessive risk taking by our executive officers since their equity awards are subject to long-term vesting schedules and the ultimate value of the awards is tied to the changes in value of our common stock. The stock ownership guidelines combined with our long-term vesting schedules help to ensure that our executive officers and other employees have significant value tied to long-term stock price performance.

The Board has also adopted a clawback policy (as described above) whereby we may seek a return from our executive officers of compensation to the extent such compensation was paid due to financial results that later had to be restated. We have also adopted corporate policies to encourage diligence, prudent decision-making and oversight during the goal-setting and review process. The processes that are in place to manage and control risk include the following: The Compensation Committee approves the payment scale for the Operating Profit Component and Growth Component.

The Compensation Committee sets the financial metrics at reasonable levels in light of past performance and market conditions.

Payments under the annual cash incentive plan for our executive officers are subject to approval of the Compensation Committee.

The Compensation Committee retains discretion in administering all awards and in determining performance achievement.

We have implemented a number of controls such as our Code of Conduct, our clawback policy and quarterly sub-certification process for all executive officers in order to mitigate the risk of unethical behavior.

Actual payouts have been made under the 2018 Incentive Plan, as disclosed in the Summary Compensation Table in the column entitled “Non-Equity Incentive Plan Compensation.” The amount shown for Mr. Gavrielov is based on his base salary earned through February 1, 2018, the date when he left the Company. The amount shown for Mr. (1) Glaser is based on his salary earned during the first half of fiscal 2018. Mr. Glaser resigned from the Company prior to the end of fiscal 2018 and, accordingly, was not eligible to receive a cash incentive payment based on performance during the second half of fiscal 2018.

Represents performance-based RSU awards granted in fiscal 2018, which became earned based on performance in fiscal 2018. These columns show the number of performance-based RSU awards that may become earned at threshold, target, and maximum levels of performance. In May 2018, the Compensation Committee determined the actual number of RSUs earned based on performance for fiscal 2018 was 114% of the number of target RSU shares (2) listed for each named executive officer. These RSUs are subject to further time-based vesting, as described above under “EXECUTIVE COMPENSATION—Compensation Discussion and Analysis—Compensation Elements—Long-Term Equity Incentive Compensation—Performance-Based RSUs.” The awards were granted under our 2007 Equity Plan.

Amounts in this column represent the grant date fair value of RSUs granted in fiscal 2018 calculated in accordance with FASB ASC Topic 718. The assumptions used to calculate the value of the awards are set forth in Note 6 of (3) the Notes to Consolidated Financial Statements included in our Annual Report on Form 10-K for fiscal 2018 filed with the SEC on May 15, 2018.

Market value is computed by multiplying the closing price of the Company's stock on the last trading day of the fiscal year by the number of shares reported in the adjacent column. The closing price of the Company's stock on March 29, 2018 (the last trading day of our fiscal year) was \$72.24.

(3) The award is a time-based RSU that vests over a four-year period from the grant date in equal annual installments.

- (4) The award is a time-based RSU that vests in three equal annual installments, the first of which occurs two years following the date of grant.
- (5) The award is a time-based RSU that vests in three equal annual installments, the first of which occurs three years following the date of grant.
- (6) Mr. Glaser was awarded a performance-based RSU on July 3, 2017 but resigned from the Company before the award was earned or any portion had vested.

(2) The value realized upon vesting is equal to the number of shares of stock multiplied by the market value of a share of common stock on the vesting date.

Mr. Gavrielov retired as President and Chief Executive Officer in January 2018, and his employment with the (3) Company terminated in February 2018. In connection with his retirement, the vesting of all of his stock awards was accelerated in full in accordance with his employment agreement.

Table of Contents**Nonqualified Deferred Compensation Plan**

The Company maintains an unfunded, nonqualified deferred compensation plan which allows our employees in positions of director-level or above, including executive officers, as well as our non-employee directors, to voluntarily defer receipt of a portion or all of their salary, cash bonus payment, sales incentive payment or director fees, as the case may be, until the earliest “distribution event” (e.g., specific date, termination of employment, death or change of control) elected by the participants or provided for by the plan, thereby allowing participating employees and directors to defer taxation on such amounts. Distributions may be made in a lump sum payment or in installments (not to exceed 15 years). This deferred compensation plan is offered to allow participants to defer more compensation than they would otherwise be permitted to defer under a tax-qualified retirement plan, such as our 401(k) Plan. Further, we offer the deferred compensation plan as a competitive practice to enable us to attract and retain top talent by providing employees with an opportunity to save in a tax efficient manner.

Amounts credited to the deferred compensation plan consist only of cash compensation that has been earned and payment of which has been timely and properly deferred by the participant. Under the deferred compensation plan, the Company is obligated to deliver on a future date the deferred compensation credited to the relevant participant’s account, adjusted for any positive or negative notional investment results from hypothetical investment alternatives selected by the participant under the deferred compensation plan (Obligations). The Obligations are unsecured general obligations of the Company and rank in parity with other unsecured and subordinated indebtedness of the Company. In addition, the Company, acting through the Board, may make discretionary contributions to the accounts of one or more deferred compensation plan participants. There were no such discretionary contributions in fiscal 2018. We do not guarantee minimum returns to any participant in the deferred compensation plan. We incur only limited administration expenses to maintain the deferred compensation plan. The deferred compensation plan is evaluated for competitiveness in the marketplace from time to time, but the level of benefits provided is not typically taken into account in determining an executive officer’s overall compensation package for a particular year.

(1) The contributions reported for Mr. Peng include \$167,967 that was earned in fiscal 2018 and reported as compensation in the Summary Compensation Table above.

(2) Amounts included in this column are not reported as compensation in the Summary Compensation Table.

**Potential Payments Upon Termination or Change in Control**

We maintain an employment agreement with Mr. Peng that we entered into as part of an arm’s length negotiation with the Compensation Committee when he became Chief Executive Officer in January 2018. The terms of Mr. Peng’s employment agreement are summarized below.

In January 2016, after reviewing market data, including change in control arrangements provided by some of the Company’s competitors in connection with the recent consolidation in the semiconductor industry, the Compensation

Committee approved change of control agreements for our officers. The change of control agreements with Messrs. Flores, Tong, Önder, Madden and Glaser provide certain benefits if the executive's employment is terminated in connection with a change of control of the Company, as more fully described below. Mr. Glaser resigned in January 2018 and did not receive any benefits under his change of control

## Table of Contents

agreement but instead received benefits under a Separation Agreement that we entered into with him at the time of his resignation, as discussed below under “Separation Agreement with Steven L. Glaser.”

The 2007 Equity Plan does not provide for automatic acceleration of vesting of stock awards upon termination or a change of control; however, the agreement with Mr. Peng and the change of control agreements with the other named executive officers provides for acceleration under certain conditions. The narrative and tables that follow describe potential payments and benefits to the named executive officers under their existing agreements, including payments and benefits that would be due to them in connection with the occurrence of a change of control, assuming their employment terminated on March 31, 2018, the last day of the Company’s fiscal year.

### Employment Agreement with Victor Peng

Effective January 29, 2018, we entered into an Employment Agreement with Mr. Peng providing for Mr. Peng’s employment with the Company as President and Chief Executive Officer.

Under the employment agreement, if the Company terminates Mr. Peng’s employment at any time due to disability or other than for Cause or if Mr. Peng voluntarily terminates his employment for Good Reason (in each case, as defined in his agreement and described below in the section entitled “Definitions of Good Reason, Cause, Constructive Termination, and Change of Control”) then, subject to Mr. Peng’s execution of a release of claims in favor of the Company, he will be eligible for: (i) a pro rata portion of his bonus for the fiscal year during which his employment was terminated based on (a) his termination date, (b) the determination by the Compensation Committee whether Company performance objectives have been met and (c) an assumption that any individual performance objectives have been achieved at target; (ii) a lump sum payment equal to one year of his base salary; (iii) a lump sum payment equal to one year of his target bonus; (iv) at the Company’s election, a lump sum payment equal to, or payment of, one year of COBRA premiums for medical and dental insurance; and (v) 24 months accelerated vesting of all equity grants received from the Company prior to his termination of employment (provided that (a) in the case of performance-based RSUs for which the number of earned RSUs has not been determined as of the date of termination, the number of accelerated shares will be the actual number of RSUs earned for actual performance achievement as determined by the Compensation Committee that would have vested in the 24 months following termination of employment, had the original vesting schedule been based on a monthly rather than an annual basis, and (b) in the case of any outstanding awards of RSUs that are not subject to performance metrics and that are subject to “cliff” vesting on one or more anniversaries of the date of grant, such RSUs will be treated as instead being subject to monthly vesting in equal installments from the applicable date of grant, and Mr. Peng will become vested in that number of RSUs which would have vested during the period commencing from the date of grant and continuing up to Mr. Peng’s termination date and during an additional 24 month period following Mr. Peng’s termination date).

Notwithstanding the foregoing, if Mr. Peng’s employment is terminated at any time within 90 days prior to or two years following a Change of Control and he executes a release of claims in favor of the Company, he will be eligible for: (i) a pro rata portion of his bonus for the fiscal year during which his employment was terminated based on (a) his termination date, (b) the determination by the Compensation Committee whether Company performance objectives have been met and (c) an assumption that any individual performance objectives have been achieved at target; (ii) a lump sum payment equal to 24 months of base salary; (iii) a lump sum payment equal to two years of his target bonus; (iv) a lump sum payment equal to, or payment of, one year of COBRA premiums for medical and dental insurance; (v) 100% accelerated vesting of all non-performance-based equity awards; and (vi) accelerated vesting of performance-based RSUs at 100% of target. In addition, if Mr. Peng’s initial RSU awards are not assumed, continued or substituted in the Change of Control, then their vesting will accelerate in full.

Table of Contents

## Potential Payments upon Termination of Mr. Peng's Employment

The following table sets forth all payments that would have been made to Mr. Peng assuming his employment was terminated without Cause or Good Reason on March 31, 2018, and Mr. Peng signed a release in favor of the Company:

Severance Payment	Fiscal 2018 Bonus	Medical and Dental Insurance	Value of RSUs (1)	Total (2)
\$1,406,901	\$643,927	\$19,670	\$4,449,117	\$6,519,615

(1) Includes 24 months' acceleration of performance-based RSUs (based on actual performance of the applicable performance metrics), and assuming monthly vesting from the date of grant. In May 2018, the Compensation Committee determined that Mr. Peng had earned 29,070 shares under his fiscal 2018 performance-based RSUs based on actual performance achievement, of which 25,840 shares would have accelerated upon his termination of employment.

(2) If Mr. Peng's employment had been terminated within 90 days before or two years after a Change of Control, then Mr. Peng would have received the following: \$643,927, consisting of a pro rata portion of his bonus for fiscal 2018; \$1,400,000, equal to 24 months of base salary; \$1,413,802, equal to two years of his target bonus; \$19,670, consisting of one year of COBRA premiums for medical and dental insurance; and \$5,414,966, representing 100% accelerated vesting of equity awards, including 100% accelerated vesting of performance-based RSUs at target, increasing the total in the chart above by approximately \$1,240,336.

## Change of Control Agreements with the Other Named Executive Officers

Under the change of control agreements entered into with Messrs. Flores, Tong, Önder, and Madden, if the employment of the executive is terminated without Cause or the executive resigns pursuant to a Constructive Termination at any time within 90 days prior to or two years following a Change of Control of the Company (in each case, as defined in his agreement and described below under "Definitions of Good Reason, Cause, Constructive Termination, and Change of Control"), and subject to his execution of a release of claims in favor of the Company, the executive will be eligible for: (i) a lump sum payment equal to 150% of his base salary; (ii) a lump sum payment equal to 150% of his annual target bonus; (iii) a lump sum payment equal to, or payment of, one year of COBRA premiums for medical and dental insurance, if the executive elects continuation coverage under COBRA; (iv) 100% accelerated vesting of all non-performance-based equity awards; and (v) 100% accelerated vesting of performance-based RSUs at 100% of target.

## Potential Payments upon Change of Control and Termination of Messrs. Flores, Tong, Önder, and Madden

The following table sets forth all payments that would have been made to Messrs. Flores, Tong, Önder and Madden assuming the employment of Messrs. Flores, Tong, Önder and Madden had each been terminated without Cause or as a result of a Constructive Termination during the period from 90 days before to two years following a Change of Control on March 31, 2018, and each executive signed a release in favor of the Company:

	150% Annual Base Salary	150% Annual Target Bonus	Medical and Dental Insurance	Value of RSUs	Total
Lorenzo A. Flores	\$660,000	\$498,300	\$26,919	\$3,228,044	\$4,413,263
Vincent L. Tong	\$660,000	\$654,375	\$26,919	\$3,779,958	\$5,121,252
Emre Önder	\$517,500	\$255,830	\$30,299	\$1,393,221	\$2,196,850
William Madden	\$600,000	\$478,500	\$30,500	\$2,637,049	\$3,746,049

## Definitions of Good Reason, Cause, Constructive Termination, and Change of Control

Under Mr. Peng's employment agreement, the following events would constitute "Good Reason": (i) a reduction of \$50,000 or more in his base compensation or target cash incentive or guaranteed bonus; (ii) a material reduction in his

authority, duties or responsibilities; (iii) his no longer being Chief Executive Officer of the Company reporting to the Board; or (iv) a relocation of the Company's headquarters outside of the San Francisco Bay Area, provided that Mr. Peng has given written notice to the Board of the first to occur of any of the foregoing events within 90 days following the first occurrence of such event and the Company has failed to remedy the event within 30 days of such notice. Under Mr. Peng's employment agreement, "Cause" consists of: (i) continued neglect of or willful failure in the performance of his duties, which, if curable, continues for a period of 20 days following written notice by the Company; (ii) a material breach of the Company's Proprietary Information and Inventions Agreement; (iii) a material breach of the Company's Code of Conduct or other Company policies, which, if curable, continues for a period of 20 days following written notice by the Company; (iv) fraud

against or embezzlement or material misappropriation from the Company or its affiliates; (v) conviction of, or entering a plea of no contest or nolo contendere to a charge of, a crime constituting a felony; (vi) willful malfeasance or willful misconduct in connection with his duties, which, if curable, continues for a period of 20 days following written notice by the Company; or (vii) any willful and wrongful act or omission which is materially injurious to the financial condition or business reputation of the Company and its subsidiaries, which, if curable, continues for a period of 20 days following written notice by the Company.

Under the agreements with Messrs. Flores, Tong, Önder and Madden, “Constructive Termination” means the executive’s resignation following any of the following events, without the executive’s approval: (i) a material reduction in the executive’s base salary, target bonus or benefits, other than a reduction that is applied across-the-board to all employees at the executive’s level; (ii) a material reduction in the executive’s title, authority or responsibilities; (iii) the requirement that the executive relocate to a place of employment more than 50 miles from the executive’s primary work location; provided, however, the executive must provide written notice of a condition described in (i), (ii) or (iii) within 90 days of the initial occurrence of the condition and the Company does not remedy such condition within 30 days of such notice (or, if later, the executive’s actual termination of employment).

Under Mr. Peng’s employment agreement and the change of control agreements with Messrs. Flores, Tong, Önder and Madden, a “Change of Control” will generally be deemed to have occurred in the event of any of the following: (i) the acquisition by any person or group (other than the Company, a subsidiary of the Company or a Company employee benefit plan) of more than 50% of the voting power of the Company’s outstanding securities; (ii) the closing of (a) a sale of all or substantially all of the Company’s assets if the holders of all voting power for election of directors before the transaction hold less than a majority of the total voting power for election of directors of all entities which acquire the assets or (b) the merger of the Company with or into another corporation if the holders of Company securities representing all voting power for the election of directors before the transaction hold less than a majority of the total voting power for the election of directors of the surviving entity; (iii) any issuance of securities that would give a person or group beneficial ownership of Company securities representing 50% or more of all voting power for election of directors; or (iv) a change in the board of directors over a period of 24 months such that the incumbent directors as of the beginning of any such 24-month period and nominees of the incumbent directors are no longer a majority of the total number of directors.

None of the employment and change of control agreements described above provide any named executive officer with a gross-up or other reimbursement for tax amounts the named executive officer might be required to pay pursuant to Section 280G of the Internal Revenue Code. The agreements described above are intended to comply, to the extent applicable, with Section 409A of the Internal Revenue Code.

### Separation Agreement with Steven L. Glaser

In January 2018, we entered into a Separation Agreement with Mr. Glaser in connection with his resignation from the Company. Pursuant to the Separation Agreement, we paid Mr. Glaser a lump sum severance payment of \$900,069 and agreed to pay his COBRA premiums over a nine-month period starting on February 1, 2018, at an aggregate cost of \$22,875. All RSUs and options held by Mr. Glaser that were unvested as of his termination date were cancelled.

### Separation and Consulting Agreement with Moshe N. Gavrielov

Mr. Gavrielov retired as our Chief Executive Officer in January 2018, and his employment with the Company ended in February 2018. In connection with his resignation, in accordance with the terms of his employment agreement, we entered into a Separation and Consulting Agreement with Mr. Gavrielov. Under this agreement:

We agreed to make severance payments to Mr. Gavrielov of consisting of (1) a lump sum of \$2 million, payable in August 2018 and (2) an aggregate of \$3 million payable in bi-weekly installments between August 2018 and August 2020.

All vesting of stock awards held by Mr. Gavrielov as of the date when his employment terminated was accelerated through August 1, 2022, subject to the Compensation Committee’s determination of the final number of performance-based RSUs associated with the award that had been granted in July 2017 that will become earned for purposes of vesting will be based on actual performance of the applicable performance metrics. Based on this determination, Mr. Gavrielov was entitled to receive 98,040 shares pursuant to his performance-based RSUs, in addition to 284,114 time-based RSUs that were accelerated, for an aggregate of 382,154 number of shares subject to

acceleration. The value of these shares as of February 2, 2018 was \$26,995,359, based on the closing price of our common stock of \$70.64 on February 2, 2018, the date when the awards vested.

• We agreed to pay Mr. Gavrielov's COBRA premiums during the 12-month period beginning on March 1, 2018. The estimated aggregate cost of these premiums is \$26,883, based on the rates in effect during 2018.

• We entered into a one-year consulting agreement with Mr. Gavrielov commencing on February 2, 2018, pursuant to which we will pay Mr. Gavrielov an aggregate of \$2 million during the consulting period, payable bi-weekly.

## Table of Contents

Mr. Gavrielov remained eligible to receive a cash incentive payment based on performance during the second half of fiscal 2018. Based on this performance, this cash incentive payment amounted to \$969,516.

### Pay Ratio

Under rules adopted pursuant to the Dodd-Frank Wall Street Reform and Consumer Protection Act and Item 402(u) of Regulation S-K, we are required to calculate and disclose the annual total compensation paid to our median employee, as well as the ratio of the annual total compensation paid to our median employee as compared to the annual total compensation paid to our Chief Executive Officer, Mr. Peng.

For fiscal 2018:

the median of the annual total compensation of all our employees (other than our CEO) was \$165,762; and the annual total compensation of our CEO for purposes of this calculation was \$4,652,905.

Based on this information, for fiscal 2018 the ratio of the annual total compensation of our CEO to the annual total compensation of our median employee (other than our CEO) was 28 to 1.

This ratio represents our reasonable estimate calculated in a manner consistent with Item 402(u). This rule, which addresses the identification of the “median employee” and the calculation of the pay ratio based on that employee’s annual total compensation, allows companies to adopt a variety of methodologies, apply certain exclusions and make reasonable estimates and assumptions that reflect their compensation practices. Accordingly, the pay ratio reported by other companies may not be comparable to the pay ratio reported by us, as other companies may have different employment and compensation practices and may use different methodologies, exclusions, estimates and assumptions in calculating their pay ratios.

To identify the median of the annual total compensation of all our employees and the annual total compensation of our median employee, we used the following methodology and material assumptions, adjustments and estimates:

In determining our employee population, we considered the individuals, excluding our CEO, who were employed by us and our consolidated subsidiaries on March 31, 2018 (the last day of fiscal 2018), whether employed on a full-time, part-time or temporary basis. We did not include any contractors or other non-employee workers in our employee population.

As of March 31, 2018, our employee population consisted of approximately 4,100 individuals, including approximately 2,100 individuals located outside of the United States.

To identify the “median employee,” we compared the annual base salary or wages, as applicable, of each employee as of March 31, 2018, the target annual incentive compensation award of each employee for fiscal 2018 and the grant date fair value of each employee’s equity award (if any) granted in fiscal 2018 as the most appropriate measure of compensation. Target incentive compensation represents a fixed measure of each employee’s compensation arrangements that is not subject to fluctuation as a result of financial or operational performance in a given year.

For employees paid other than in U.S. dollars, we converted their compensation to U.S. dollars using the applicable exchange rates in effect on March 1, 2018. For permanent employees hired during fiscal 2018, we annualized their compensation as if they had been employed for the entire measurement period.

Mr. Peng succeeded Mr. Gavrielov as our President and Chief Executive Officer on January 29, 2018. As permitted by Item 402(u) of Regulation S-K, we chose to use the annual total compensation of Mr. Peng, who was serving as our Chief Executive Officer on March 31, 2018, to calculate our pay ratio. Because we have annualized his compensation for purposes of this disclosure, based on his base salary and cash incentive compensation levels after he became CEO, Mr. Peng’s annual total compensation for purposes of the pay ratio calculation is greater than the total compensation as reported for him in our Fiscal 2018 Summary Compensation Table.

As described above in our Compensation Discussion and Analysis under “Key Management Changes During Fiscal 2018—Execution of Succession Plan” and “Compensation Elements—Long-Term Equity Incentive Compensation,” in addition to his cash compensation, during fiscal 2018 Mr. Peng was granted a performance-based RSU award with an award value of \$1.6 million in May 2017 and a time-based RSU with an award value of \$1 million in January 2018 in connection with his promotion to President and Chief Executive Officer.

At the time of his promotion to President and Chief Executive Officer, we agreed to grant Mr. Peng a performance-based RSU award with a value of at least \$4.5 million during fiscal 2019. This agreement represented a commitment to grant Mr. Peng a future award and did not result in an additional equity award being granted to him in

fiscal 2018. Had Mr. Peng's performance-based RSU award for fiscal 2018 been granted at a value of \$4.5 million rather than \$1.6 million, his total compensation for fiscal 2018 would have been \$7,576,703 (assuming the grant date fair value of his RSU award was the same in relation to the nominal value of the award as was the case with his \$1.6 million award), and the ratio of the annual total compensation of our CEO to the annual total compensation of our median employee (other than our CEO) would have been 46 to 1.

**AUDIT COMMITTEE REPORT**

The Audit Committee oversees the Company's financial reporting process on behalf of the Board. It assists the Board in fulfilling its oversight responsibilities to the stockholders relating to the Company's financial statements and the financial reporting process, the systems of internal accounting and financial controls, and the audit process. While the Audit Committee sets the overall corporate tone for quality financial reporting, management has the primary responsibility for the preparation, presentation and integrity of the Company's financial statements and implementation of the reporting process including the systems of internal controls and procedures designed to reasonably assure compliance with accounting standards, applicable laws and regulations. In accordance with the law, the Audit Committee has ultimate authority and responsibility to select, compensate, evaluate, and, when appropriate, replace the Company's independent auditors. The Charter of the Audit Committee can be found at [www.investor.xilinx.com](http://www.investor.xilinx.com) under "Corporate Governance."

The Company's external auditors, Ernst & Young LLP (EY) are responsible for performing an independent audit of the Company's consolidated financial statements in accordance with generally accepted auditing standards and expressing opinions on the conformity of the Company's audited financial statements to generally accepted accounting principles in the United States and the effectiveness of the Company's internal control over financial reporting. In carrying out its responsibilities, the Audit Committee has the power to retain outside counsel or other experts and is empowered to investigate any matter with full access to all books, records, facilities, and personnel of the Company. The Audit Committee members are not currently practicing accountants or auditors, and their functions are not intended to duplicate or certify the activities of management and the independent auditors. The Audit Committee also provides oversight of the performance of the internal audit function.

In fulfilling its oversight responsibilities, the Audit Committee reviewed the audited consolidated financial statements for the fiscal year ended March 31, 2018, with management and EY, including a discussion of the quality, not just the acceptability, of the accounting principles, the reasonableness of significant judgments, and the clarity of disclosures in the financial statements. The Audit Committee also discussed with EY, matters required to be discussed under standards published by the Public Company Accounting Oversight Board (PCAOB), including, among other things, matters related to the conduct of the audit of the Company's consolidated financial statements and other required communications with audit committees. In addition, the Audit Committee has received and reviewed the written disclosures and the letter from EY required by applicable requirements of the PCAOB regarding the independent accountant's communications with the audit committee concerning independence. The Audit Committee also discussed EY's independence with EY and management and considered whether the provision of certain non-audit services by EY is compatible with EY's independence.

The Audit Committee reviewed and discussed with management its assessment and report on the effectiveness of the Company's internal control over financial reporting as of March 31, 2018. The Audit Committee has also reviewed and discussed with EY its audit of and report on the Company's internal control over financial reporting. The Company published these reports in its Annual Report on Form 10-K for the fiscal year ended March 31, 2018.

Based on the reviews and discussions referred to above, the Audit Committee recommended to the Board that the audited consolidated financial statements be included in the Company's Annual Report on Form 10-K for the fiscal year ended March 31, 2018 for filing with the Securities and Exchange Commission.

### PROPOSAL TWO

#### AMENDMENT TO THE 1990 EMPLOYEE QUALIFIED STOCK PURCHASE PLAN

The Company's 1990 Employee Qualified Stock Purchase Plan (ESPP) provides eligible employees of the Company and its participating subsidiaries with the opportunity to purchase shares of common stock at a discounted price through payroll deductions. During fiscal 2018, the Company issued 917,910 shares of common stock under the ESPP. As of March 31, 2018, a total of 9,315,163 shares remained available for issuance under the ESPP, not including the 3,000,000 additional shares of common stock that would be authorized if the amendment described below is approved.

#### Proposal

At the Annual Meeting, the stockholders will be asked to approve an amendment to the ESPP to increase by 3,000,000 the maximum number of shares of common stock that may be issued under the ESPP.

Unless a sufficient number of shares is authorized and reserved under the ESPP at the beginning of each offering period (August 1 and February 1) to cover the number of shares purchased throughout its entire 24-month term, the Company may incur additional compensation expense for financial statement purposes for each period in which the sale of shares is dependent on obtaining stockholder approval of an additional share authorization. The Board believes it would be advisable to authorize an additional 3,000,000 shares to provide for offering periods commencing before the next annual meeting of stockholders.

On June 13, 2018, subject to stockholder approval, the Board adopted an amendment to the ESPP to increase the number of shares authorized for issuance under the plan by 3,000,000. If the amendment is approved by the stockholders, the total number of shares cumulatively authorized for issuance under the ESPP since its inception will be 57,540,000. Over fiscal 2016, fiscal 2017 and fiscal 2018, we have issued an average of 1,075,100 shares per fiscal year under the ESPP, with an average burn rate of 0.42%.

The Board believes that participation by the Company's employees in the ESPP promotes the success of the Company's business through broad-based equity ownership among the employees. The Board further believes that the ESPP is an integral component of the Company's benefits program that is intended to provide employees with an incentive to exert maximum effort for the success of the Company and to participate in that success through acquisition of the Company's common stock.

As long as the ESPP remains in effect and the employee participation stays at the current level, the Company anticipates that it will ask the stockholders each year for the number of additional shares required to meet the Company's projected share commitments for offering periods beginning before the next annual meeting of stockholders.

Subject to the eligibility requirements described below, as of March 31, 2018, approximately 3,900 of the Company's approximately 4,100 employees were eligible to participate in the ESPP, including eight executive officers. As of March 31, 2018, approximately 3,400 of the Company's employees were participating in the ESPP.

#### Summary of the 1990 Employee Qualified Stock Purchase Plan, as Amended

A summary of the material terms of the ESPP, as amended, is set forth below and is qualified, in its entirety, by the full text of the plan set forth in Appendix A to our 2018 proxy statement as filed with the SEC and available for viewing without charge at its website at [www.sec.gov](http://www.sec.gov). A copy of the ESPP can be obtained from us at no charge upon request.

#### Purpose

The purpose of the ESPP is to provide employees of the Company and its designated subsidiaries with an opportunity to purchase common stock of the Company through accumulated payroll deductions.

#### Administration

The ESPP may be administered by the Board or a committee appointed by the Board. All questions of interpretation of the ESPP are determined by the Board or its committee, whose decisions are final and binding upon all participants. Currently, the Compensation Committee administers the ESPP.

#### Authorized Shares

As of March 31, 2018, a maximum of 54,540,000 shares of our common stock were authorized for issuance under the ESPP, of which 9,315,163 shares of our common stock remained available for future issuance, subject to appropriate

adjustments in the event of any stock dividend, stock split, reverse stock split, recapitalization or similar change in the capital structure of the Company, or in the event of any merger, sale of assets or other reorganization of the Company. The Board has amended the ESPP, subject to stockholder approval, to authorize an additional 3,000,000 shares for issuance under the ESPP, which would result in a total of 57,540,000 shares cumulatively authorized for issuance under the ESPP since its inception, of which 12,315,163 shares of our common stock would be available for future purchases.

## Table of Contents

### Eligibility

Subject to certain limitations imposed by Section 423(b) of the U.S. Internal Revenue Code, any person who is employed by the Company (or any designated subsidiary) as of the commencement of an offering period under the ESPP and is customarily employed for at least 20 hours per week and more than five months in a calendar year is eligible to participate in the offering period. Eligible employees may become participants in the ESPP by delivering to the Company a subscription agreement authorizing payroll deductions on or before the first day of the applicable offering period. As of March 31, 2018, approximately 3,900 of the Company's approximately 4,100 employees, including eight executive officers, were eligible to participate in the ESPP.

### Offering Periods

The ESPP is implemented by consecutive and overlapping 24-month offering periods, with a new offering period commencing on or about the first day of February and August of each year. The Board may generally change the duration of any offering period without stockholder approval, provided that no offering period may exceed 27 months in duration. In addition, the Board may establish separate, simultaneous, or overlapping offering periods applicable to one or more subsidiaries of the Company and having different terms and conditions, for example, to comply with the laws of the applicable jurisdiction.

### Purchase Price

Each 24-month offering period consists of four exercise periods of six months' duration. The last day of each exercise period, which occurs on or about January 31 and July 31 of each year, is an exercise date on which each participant in the offering period acquires shares. The purchase price of the shares offered under the ESPP in a given exercise period is the lower of 85% of the fair market value of the common stock on the first date of the offering period containing that exercise period or 85% of the fair market value of the common stock on the exercise date. The fair market value of the common stock on a given date is the closing sale price of the common stock on such date as reported by Nasdaq. On May 25, 2018, the closing price of our common stock as reported on Nasdaq was \$69.60 per share.

### Payroll Deductions

The purchase price for the shares is accumulated through payroll deductions during each offering period. Payroll deductions commence on the first payday following the commencement of an offering period and end on the last exercise date of the offering period, unless sooner terminated as provided in the ESPP. A participant may not authorize deductions of more than 15% or less than 2% of the participant's eligible compensation, which is defined by the ESPP to include all regular straight time earnings and any payments for overtime, shift premiums, incentive compensation, bonuses, commissions or other compensation for a given offering period. The Company may limit a participant's payroll deductions in any calendar year as necessary to avoid accumulating an amount in excess of the maximum amount the Internal Revenue Code permits to be applied toward the purchase of shares in any offering under the ESPP. A participant may discontinue participation in the ESPP, or may decrease the rate of payroll deductions during the offering period. Upon withdrawal from the ESPP, the Company will refund, without interest, the participant's accumulated payroll deductions not previously applied to the purchase of shares.

### Grant and Exercise of Purchase Right

In general, the maximum number of shares subject to purchase by a participant in an exercise period is that number determined by dividing the amount of the participant's total payroll deductions accumulated prior to the relevant exercise date by 85% of the lower of the fair market value of the common stock at the beginning of the offering period or on the exercise date. However, the maximum number of shares a participant may purchase in any offering period is a number determined by dividing \$50,000 by the fair market value of a share of common stock on the first day of the offering period. Unless a participant withdraws from the ESPP, the participant's right to purchase shares is exercised automatically on each exercise date for the maximum number of whole shares that may be purchased at the applicable price.

No employee will be permitted to subscribe for shares under the ESPP if, immediately after the grant of a purchase right, the employee would own and/or hold purchase rights to acquire 5% or more of the voting securities of the Company. Further, no employee may be granted a purchase right which would permit the employee to accrue a right to purchase more than \$25,000 worth of stock (determined by the fair market value of the shares at the time the purchase right is granted) for each calendar year in which the purchase right is outstanding at any time.

Automatic Transfer to Low Price Offering Period

In the event that the fair market value of the Company's common stock on any exercise date (other than the last exercise date of an offering period) is less than on the first day of the offering period, all participants will be withdrawn from the offering period after the exercise of their purchase right on such exercise date and enrolled as participants in a new offering period commencing on or about the day following such exercise date. A participant may elect to remain in the previous offering period by filing a written statement declaring such election prior to the time of the automatic change to the new offering period.

## Table of Contents

### Withdrawal; Termination of Employment

A participant may withdraw all, but not less than all, payroll deductions credited to his or her account but not yet used to exercise a purchase right under the ESPP at any time by signing and delivering to the Company a notice of withdrawal from the ESPP. Any withdrawal by the participant of accumulated payroll deductions for a given offering period automatically terminates the participant's interest in that offering period. The failure of a participant to remain in the continuous employment of the Company for at least 20 hours per week during an offering period will be deemed to be a withdrawal from that offering period and accumulated payroll deductions will be returned to the participant, without interest.

### Transferability

No rights or accumulated payroll deductions of a participant under the ESPP may be assigned, transferred, pledged or otherwise disposed of in any way (other than by will, the laws of descent and distribution or pursuant to the ESPP), and any attempt to so assign or transfer may be treated by the Company as an election to withdraw from the ESPP.

### Adjustments upon Changes in Capitalization

In the event any change is made in the Company's capitalization pursuant to a stock split or any other increase or decrease in the number of shares of common stock effected without receipt of consideration by the Company, proportionate adjustments will be made by the Board to the number of shares authorized for issuance under the ESPP and subject to each outstanding purchase right and in the purchase price per share.

In the event of a sale of all or substantially all of the assets of the Company or a merger of the Company with another corporation, the acquiring or successor corporation or its parent may assume the purchase rights outstanding under the ESPP or substitute equivalent purchase rights for the acquirer's stock, provided that the Board may instead shorten an offering period and accelerate the exercise date of all offering periods then in progress to a date prior to the transaction.

### Amendment or Termination

The Board may at any time and for any reason amend or terminate the ESPP, except that (other than in limited circumstances set forth in the ESPP) termination will not affect purchase rights previously granted, and no amendment may make any change in any purchase right previously granted that adversely affects the participant's rights.

Stockholder approval must be obtained for any amendment to the extent necessary to comply with applicable law.

Under its current terms, the ESPP will expire on January 26, 2030.

### United States Federal Tax Information

The following discussion of certain of the United States federal income tax consequences of awards under the ESPP is based on current United States federal tax laws and regulations and does not purport to be a complete discussion. This description may differ from the actual tax consequences incurred by any individual recipient of an award. Moreover, existing law is subject to change by new legislation, new regulations, administrative pronouncements or court decisions or by new or clarified interpretations or applications of existing laws, regulations, administrative pronouncements or court decisions. Any such change may affect the income tax consequences described below. The following summary of the income tax consequences in respect of the ESPP is for general information only. Interested parties should consult their own tax advisors as to specific tax consequences, including the application and effect of foreign, state, and local laws.

The ESPP, and the right of participants to make purchases thereunder, is intended to qualify under the provisions of Sections 421 and 423 of the Internal Revenue Code. Under these provisions, no income will be taxable to a participant at the time of grant of the purchase right or purchase of shares. Upon disposition of the shares, the participant will generally be subject to tax, and the amount of the tax will depend upon the length of time the shares have been held by the participant. If the shares have been held by the participant for more than two years after the date of grant of the purchase right and more than one year after the date on which the shares were purchased, then the purchaser will recognize ordinary income equal to the lesser of (a) the excess of the fair market value of the shares at the time of such disposition over the purchase price of such shares or (b) 15% of the fair market value of the shares on the first day of the offering period. Any further gain upon such disposition will be treated as long-term capital gain. If the shares are disposed of before the expiration of these holding periods, the participant will recognize ordinary income generally equal to the excess of the fair market value of the purchased shares on the date of the purchase over the purchase

price. Any additional gain or loss on the sale will be a capital gain or loss, which will be either long-term or short-term depending on the actual period for which the shares were held. The Company is entitled to a deduction for amounts taxed as ordinary income reported by participants upon disposition of shares within two years from date of grant or one year from the date of acquisition.

#### New Plan Benefits

The number of shares that may be purchased under the ESPP will depend on each participant's voluntary election to participate and on the fair market value of the common stock of the Company on future purchase dates, and therefore the actual number of shares that may be purchased by any individual is not determinable. No purchase rights have been granted, and no shares of

Table of Contents

common stock of the Company have been issued with respect to the 3,000,000 additional shares for which stockholder approval is being sought.

#### Number of Shares Purchased by Certain Individuals and Groups

The following table sets forth for each of the listed persons and groups (i) the aggregate number of shares of common stock of the Company purchased under the ESPP during fiscal 2018 and (ii) the market value of those shares on the date of such purchase, minus the purchase price of such shares:

PROPOSAL THREE

AMENDMENT TO THE 2007 EQUITY INCENTIVE PLAN

The Board believes that participation in the 2007 Equity Incentive Plan (“2007 Equity Plan”) by our employees, consultants, and non-employee directors promotes the success of the Company’s business by providing them with an incentive to exert their maximum effort toward achieving that success. We have long recognized that having an ownership interest in the company is critical to aligning the financial interests of our employees with the interests of our stockholders. In addition, the Board believes it prudent to establish a reasonable limit on the value of awards that may be granted to non-employee directors under the 2007 Equity Plan. Therefore, the Board unanimously adopted on June 13, 2018, subject to stockholder approval, an amendment to increase the maximum number of shares of common stock authorized under the 2007 Equity Plan by 3,000,000 to ensure that the Company will continue to have available a reasonable number of shares for its equity award program.

Proposal

At the Annual Meeting, the stockholders are requested to approve an amendment to our 2007 Equity Plan to increase by 3,000,000 the number of shares of common stock authorized for issuance under the 2007 Equity Plan.

We generally grant equity incentive awards to newly hired or promoted employees and in connection with our annual “Focal Review,” in which we evaluate the performance of each employee and make appropriate compensation adjustments. These compensation adjustments are typically made in July of each year and include additional equity incentive awards. We will have completed two Focal Review cycles, with associated equity incentive grants, before having the opportunity at our next annual meeting to request stockholder approval of an additional share authorization under the 2007 Equity Plan. Accordingly, the Board has determined it appropriate to request stockholder approval of an increase in the 2007 Equity Plan’s share authorization at this time.

The 2007 Equity Plan was adopted by the Board on May 3, 2006, approved by stockholders at their annual meeting in July 2006, and became effective on January 1, 2007. At the annual meeting in August 2014, our stockholders approved an extension of the 2007 Equity Plan’s initial seven-year term until December 31, 2023. Summaries of the key terms and metrics of the 2007 Equity Plan follow.

Non-Employee Director Award Limit: No non-employee director may receive in any fiscal year awards having an aggregate grant date fair value that, when taken together with any cash fees paid to the director in the same fiscal year, exceeds \$750,000.

Award Term: Stock options and SARs must expire no more than seven years from the date of grant.

Exercise Price: The per share exercise price of stock options or SARs may not be less than 100% of the fair market value of a share of our common stock on the date of grant.

Repricing Restricted: Repricing of out-of-the-money options or SARs, whether by directly lowering the exercise price, by canceling an option or SAR in exchange for a new option or SAR having a lower exercise price, or by substituting a full value award in place of the option or SAR is not permitted without stockholder approval.

Minimum Vesting: Awards must have service-based or performance-based vesting. Service-vesting awards may not vest earlier than one year after grant, and performance-vesting awards must have a performance period of at least one year. Exceptions are provided for up to 5% of the maximum number of shares issuable under the 2007 Equity Plan or in the case of a participant's death or disability or a change of control of the Company.

Dividend Payment Restriction: Dividends otherwise payable on shares subject to vesting conditions may not be paid until the vesting conditions are satisfied.

#### Key 2007 Equity Plan Metrics

##### Share Usage

We have granted equity incentive awards for an average of 3.4 million shares in each of the last three fiscal years. As of March 31, 2018, approximately 11,342,436 shares remained available for grant under the 2007 Equity Plan. We are seeking stockholder approval for authorization of an additional 3,000,000 shares. Had these shares been authorized on March 31, 2018, we would have had available for future grant under the 2007 Equity Plan a total of 14,342,436 shares. We believe this number of shares would be sufficient to permit the continuation of a reasonable equity incentive program, including the equity awards that will have been authorized prior to the Annual Meeting in connection with our Focal Review awards made in July 2018.

Table of Contents**Dilution**

We are committed to effectively managing the Company's equity compensation program while minimizing stockholder dilution. For this reason, we carefully manage the Company's use of shares of common stock available for equity-based compensation each year and aim to keep dilution from our stock plans for employees below industry standards. The requested share increase represents approximately 1.2% of the weighted average outstanding shares of the Company as of March 31, 2018. Because this share reserve increase does not contemplate the amount or timing of specific equity awards in the future, it is not possible to calculate with certainty the amount of subsequent dilution that may ultimately result from such awards. In evaluating the share reserve increase, the Company also considered the guidelines of a leading proxy advisory firm, as well as the guidelines of our major institutional shareholders.

**Equity Utilization Rate**

Over the past three fiscal years, our average annual equity utilization rate determined under the methodology prescribed by Institutional Shareholder Services Inc. (ISS), a proxy advisory firm, sometimes also referred to as a "burn rate," has been approximately 3.61%. This three-year average burn rate is well below the burn rate benchmark established by ISS for our industry.

The following table shows key equity award metrics:

Our 2007 Equity Plan, which is the sole equity compensation plan under which we currently grant equity awards, has 45,900,000 shares authorized for issuance, with approximately 11,342,436 shares available for grant as of March 31, 2018. On May 25, 2018, the closing price of our common stock as reported on Nasdaq was \$69.60 per share. All of our employees, consultants, and directors are eligible to participate in the 2007 Equity Plan, and we intend to grant awards with respect to approximately 6.5 million to 8 million during the remainder of this fiscal year and the period thereafter leading up to our annual meeting in August 2019. If stockholders do not approve the amendment of the 2007 Equity Plan, the shares available for equity awards may be quickly depleted, and we may lose our ability to use equity awards for our compensation programs and as a retention tool. We consider awards of shares of our common stock a major part of long-term incentive program for our employees, consultants, and directors. The Board anticipates that the additional shares requested will enable us to fund our current equity compensation program through at least the next year, accommodating anticipated grants related to the hiring, retention, and promotion of employees. In its determination to approve the amendment of the 2007 Equity Plan, the Board reviewed the burn rates, potential dilution, and other metrics as disclosed in the table titled “Key Metrics” above. In addition, the Compensation Committee sought the advice of Compensia, its independent compensation consultant, in relation to the proposed increase in the share reserve by 3.0 million shares, and Compensia advised the committee that the amount of the proposed increase is reasonable.

## Table of Contents

We believe strongly that the approval of the amendment of the 2007 Equity Plan is essential to our success. Awards such as those provided under the 2007 Equity Plan constitute an important incentive for our key employees and other service providers and help us to attract, retain, and motivate people whose skills and performance are critical to our success. Our employees are our most valuable asset. We strongly believe that the amendment of the 2007 Equity Plan is essential for us to compete for talent in the challenging labor markets in which we operate.

### Summary of the 2007 Equity Plan, as Amended

A summary of the material terms of the 2007 Equity Plan, as amended, is set forth below and is qualified, in its entirety, by the full text of the 2007 Equity Plan set forth in Appendix B to our 2017 proxy statement as filed with the SEC and available for viewing without charge at its website at [www.sec.gov](http://www.sec.gov). A copy of the 2007 Equity Plan can be obtained from us at no charge upon request.

### Purpose

The purposes of the 2007 Equity Plan are to attract and retain the services of employees, consultants and non-employee directors of the Company and its subsidiaries and to provide them with a proprietary interest in the Company.

### Administration

The Compensation Committee administers the 2007 Equity Plan, unless otherwise determined by the Board. The Compensation Committee interprets the 2007 Equity Plan and prescribes any rules necessary or appropriate for its administration, including the creation of sub-plans to take advantage of favorable tax-treatment, comply with local law or reduce administrative burdens for grants of awards in non-U.S. jurisdictions.

### Eligibility

The Compensation Committee determines the employees, consultants and non-employee directors of the Company or a subsidiary who are eligible to receive awards under the 2007 Equity Plan. As of March 31, 2018, there were approximately 4,100 employees, including eight executive officers, eligible to participate in the 2007 Equity Plan, as well as 118 consultants and nine non-employee directors.

### Authorized Shares

Subject to adjustment in the event of certain corporate events (as described below), the maximum number of shares of the Company's common stock currently authorized under the 2007 Equity Plan is 45,900,000, of which approximately 11,342,436 remained available for future issuance as of March 31, 2018, all of which may be granted under the terms of the 2007 Equity Plan as incentive stock options. The Board has amended the 2007 Equity Plan, subject to stockholder approval, to authorize an additional 3,000,000 shares, which would result in a cumulative total of 48,900,000 authorized shares, of which approximately 14,342,436 shares would remain available for future grants as of March 31, 2018 had this increased authorization been in effect on that date. If any award granted under the 2007 Equity Plan expires or otherwise terminates for any reason, or if shares issued pursuant to an award are forfeited or otherwise reacquired by the Company, any such shares subject to a terminated award or reacquired by the Company will again become available for issuance under the 2007 Equity Plan. Shares will not be treated as having been issued under the 2007 Equity Plan to the extent an award is settled in cash. The Compensation Committee is authorized to adopt such procedures for counting shares against the maximum number authorized as it deems appropriate.

### Types of Awards

The 2007 Equity Plan allows the Compensation Committee to grant incentive stock options, non-qualified stock options, RSUs, restricted stock and SARs. Subject to the limits set forth in the 2007 Equity Plan, the Compensation Committee has the discretionary authority to determine the amount and terms of awards granted under the 2007 Equity Plan.

### Automatic Non-Employee Director Awards

The 2007 Equity Plan provides for the periodic automatic grant of RSU awards on the date of each annual meeting of stockholders to non-employee directors continuing in office. On the date of the 2018 Annual Meeting, the award will be determined by dividing \$200,000 by the average of the closing prices of the Company's common stock on each of the trading days occurring during the three calendar months ending immediately prior to the month in which the grant date occurs. These awards vest in full on the day immediately preceding the subsequent annual meeting. A non-employee director joining the Board between annual meetings of stockholders will receive a prorated RSU award

on or about the tenth day of the month following the director's initial appointment or election to the Board. The Compensation Committee may change the terms of this automatic grant program from time to time, subject to the annual limit on the value of equity awards that may be granted to non-employee directors described below and approved by our stockholders at the 2016 annual meeting.

## Table of Contents

### Limitations on Awards

The exercise price per share subject to an option or a SAR cannot be less than 100% of the fair market value of share of our common stock on the date of grant of the award.

The 2007 Equity Plan limits awards granted to an individual participant in any calendar year. The aggregate awards granted under the 2007 Equity Plan to any participant during any calendar year may not exceed (i) 4,000,000 shares of common stock subject to stock options or SARs and (ii) 2,000,000 shares of common stock subject to awards other than stock options and SARs. In addition, no participant may receive during any calendar year an award under the 2007 Equity Plan settled in cash exceeding \$6,000,000 in the aggregate.

No non-employee director may be granted in any fiscal year awards under the 2007 Equity Plan having an aggregate grant date fair value that, when taken together with any cash fees paid to the director in the same fiscal year, exceeds \$750,000. Grant date fair value will be determined for this purpose in accordance with applicable financial accounting rules.

Without stockholder approval, the Company cannot reprice options or SARs, whether by directly lowering the exercise price, through cancellation of the option or SAR in exchange for a new option or SAR having a lower exercise price, or by the replacement of the option or SAR with a full value award (e.g., an award of restricted stock or RSUs).

Awards granted under the 2007 Equity Plan must vest based on the participant's continued service or the attainment of performance goals. No more than 5% of the aggregate number of shares authorized under the 2007 Equity Plan may be issued pursuant to awards that provide for service based vesting over a period of less than one year or performance-based vesting over a performance period of less than one year. However, this limitation will not preclude accelerated vesting upon a participant's death or disability or in connection with a change of control of the Company. Participants who are issued shares under the 2007 Equity Plan that remain subject to vesting conditions will become entitled to receive any dividends declared by the Company on those shares only when the vesting conditions have been satisfied.

### Performance Goals

Under federal tax legislation enacted on December 22, 2017 and effective for taxable years beginning on or after January 1, 2018, the exemption from the \$1 million deduction limit under Section 162(m) of the Internal Revenue Code for performance-based compensation has been repealed. Accordingly, awards granted under the 2007 Equity Plan commencing with our fiscal year beginning on April 1, 2018 cannot be designed to be exempt from the Section 162(m) deduction limit through the use of stockholder-approved performance goals and adherence to certain procedural mandates specified by the prior law. The Board has therefore amended the 2007 Equity Plan to provide the Compensation Committee with the sole discretion to condition the vesting of awards on the attainment of performance goals based on such objective or subjective metrics as it determines. Because the prior Section 162(m) provisions exempting qualified performance-based compensation will continue to apply to remuneration paid pursuant to binding written contracts in effect on November 2, 2017 that are not materially modified after that date, these amendments to the 2007 Equity Plan will only apply to new awards granted on or after April 1, 2018.

### Transferability

Awards granted under the 2007 Equity Plan may not be transferred other than by will or the laws of descent and distribution, and may be exercised during the lifetime of a participant only by the participant or the participant's legally authorized representative. However, the Compensation Committee may allow for the transfer or assignment of a U.S. resident participant's award pursuant to a divorce decree or domestic relations order.

### Adjustments upon Changes in Capitalization

If any change is made in the Company's capitalization pursuant to a stock split, stock dividend, recapitalization or any other increase or decrease in the Company's shares effected without receipt of consideration by the Company, equitable adjustments will be made to the number of shares of common stock available for grant under the 2007 Equity Plan, the exercise price of options and SARs and the number of shares underlying outstanding awards.

### Merger or Change of Control

In the event of a merger, consolidation or share exchange pursuant to which the Company is not the surviving or resulting corporation, (i) the shares or equivalent cash or property of the surviving or resulting corporation may be

substituted for any unexercised portions of outstanding awards under the 2007 Equity Plan or (ii) all or any portions of awards may be canceled by the Company immediately prior to the effective date of such event and each award holder may be permitted to purchase all or any portion of the shares of common stock underlying his or her vested and unvested award(s) within 30 days before such effective date. In the event of a change of control of the Company, among other actions, the Compensation Committee may provide that the vesting and exercisability of all or any portion of the outstanding awards will be accelerated.

## Table of Contents

### Amendment or Termination

The Board may at any time amend, alter, revise, suspend or terminate the 2007 Equity Plan, subject to the written consent of any participant whose rights would be adversely affected. Unless sooner terminated by the Board, the 2007 Equity Plan will terminate on December 31, 2023. Without stockholder approval, the Board may not amend the 2007 Equity Plan in any manner that would require stockholder approval under applicable law.

### United States Federal Tax Information

The following summary of the effect of United States federal income taxation upon participation in the 2007 Equity Plan does not purport to be complete and reference should be made to the applicable provisions of the Internal Revenue Code. This summary may differ from the actual tax consequences incurred by any individual recipient of an award. In addition, this summary does not discuss the provisions of the income tax laws of any municipality, state or foreign country in which the participant may reside. Moreover, existing law is subject to change by new legislation, by new regulations, by administrative pronouncements, and by court decisions or by new or clarified interpretations or applications of existing laws, regulations, administrative pronouncements, and court decisions. Any such change may affect the federal income tax consequences described below.

### Incentive Stock Options

An individual granted an incentive stock option is not taxed on the date of grant or vesting of the option. If the shares underlying the option are held for at least two years from the date of grant and at least one year from the date of exercise of the option (the “holding periods”), then upon the sale of the shares the individual will generally recognize a long-term capital gain or loss equal to the difference between the exercise price of the option and the fair market value of the common stock underlying the option on the date of sale. If either of the holding periods is not satisfied, the individual will generally recognize as ordinary income on the date of the disposition (a “disqualifying disposition”) of the shares an amount equal to the difference between the option’s exercise price and the fair market value of the common stock underlying the option determined as of the date of exercise (not to exceed the gain realized upon the disposition if the disposition is a transaction with respect to which a loss, if sustained, would be recognized). Any further gain or loss upon the disqualifying disposition of the shares constitutes a capital gain or loss.

In general, the difference between the option exercise price and the fair market value of the shares on the date of exercise of an incentive stock option is treated as an adjustment in computing the participant’s alternative minimum taxable income and may be subject to an alternative minimum tax which is paid if such tax exceeds the regular tax for the year. Special rules may apply with respect to certain subsequent sales of the shares in a disqualifying disposition, certain basis adjustments for purposes of computing the alternative minimum taxable income on a subsequent sale of the shares and certain tax credits which may arise with respect to participants subject to the alternative minimum tax.

### Non-Qualified Stock Options

An individual granted a non-qualified stock option generally is not taxed on the date of grant or vesting of the option. Rather, the individual will generally recognize as ordinary income on the date of option exercise an amount equal to the difference between the option’s exercise price and the fair market value of the stock underlying the option on the date of exercise. Any further gain or loss upon the subsequent sale or disposition of the shares underlying the option constitutes a capital gain or loss.

### Stock Appreciation Rights

An individual granted a SAR will generally recognize ordinary income on the date the SAR is exercised in an amount equal to the difference between the SAR’s exercise price and the fair market value of the shares underlying the SAR on the date of exercise.

### Restricted Stock

Following a grant of restricted stock, unless the recipient makes a timely election under Section 83(b) of the Internal Revenue Code, he or she will recognize ordinary income in an amount equal to the excess of the fair market value of the restricted stock on the date of vesting of the shares over the purchase price, if any, paid for the shares. Any further gain or loss from the subsequent sale of such restricted stock constitutes capital gain or loss. If the recipient makes a timely election under Section 83(b), the individual is taxed, at ordinary income rates, on the excess of the fair market value of the restricted stock on the date of grant over the purchase price, if any, paid for the shares, and any further gain or loss on the subsequent sale of the stock constitutes a capital gain or loss.

#### Restricted Stock Units

An individual generally will recognize no income upon the receipt of an award of RSUs. Upon the settlement of RSUs, the participant generally will recognize ordinary income in the year of receipt in an amount equal to the cash received and/or the fair market value of any substantially vested shares received in respect of vested RSUs. If the participant receives shares of restricted stock, the participant generally will be taxed in the same manner as described above under “Restricted Stock.” Any further gain or loss on a subsequent sale of any shares received will be taxed as capital gain or loss.

Table of Contents

In general, the Company is entitled to a deduction in an amount equal to the ordinary income recognized by the individual.

## Section 409A

Section 409A of the Internal Revenue Code (which we refer to as Section 409A) provides certain requirements for non-qualified deferred compensation arrangements with respect to an individual's deferral and distribution elections and permissible distribution events. Awards granted under the 2007 Equity Plan having a deferral feature are subject to the requirements of Section 409A. If an award is subject to and fails to satisfy the requirements of Section 409A, the recipient of that award may recognize ordinary income on the amounts deferred under the award, to the extent vested, which may be prior to the time the compensation is actually or constructively received. Also, if an award that is subject to Section 409A fails to comply with Section 409A's provisions, Section 409A imposes an additional 20% federal income tax penalty on compensation recognized as ordinary income, as well as interest on such deferred compensation.

## Plan Benefits

With the exception of the RSUs to be granted automatically to non-employee directors (see "Automatic Non-Employee Director Awards" above), awards under the 2007 Equity Plan will be granted at the discretion of the Compensation Committee or the Board of Directors, and accordingly cannot be determined at this time.

The table below sets forth the RSU awards that will be granted under the "Automatic Non-Employee Director Awards" component of the 2007 Equity Plan on the date of the Annual Meeting to certain individuals and groups.

#### Certain Interests of Directors

In considering the recommendation of the Board with respect to the approval of the amendment to the 2007 Equity Plan, stockholders should be aware that members of the Board have certain interests that may present them with conflicts of interest in connection with this proposal. As discussed above, directors are eligible to receive awards under the 2007 Equity Plan, subject to the maximum annual value approved by our stockholders at their annual meeting in 2016. For more information about the compensation we pay to our directors, see “DIRECTORS AND CORPORATE GOVERNANCE—Compensation of Directors.” The Board recognizes that approval of this proposal may benefit our directors and their successors.

#### Required Vote

Affirmative votes constituting a majority of the shares present or represented by proxy and voting at the meeting (which shares voting affirmatively also constitute a majority of the required quorum) will be required to approve this proposal.

THE BOARD RECOMMENDS A VOTE “FOR” THE APPROVAL OF THE AMENDMENT TO THE COMPANY’S 2007 EQUITY INCENTIVE PLAN TO INCREASE THE NUMBER OF SHARES OF COMMON STOCK RESERVED FOR ISSUANCE THEREUNDER BY 3,000,000 SHARES.

PROPOSAL FOUR

ADVISORY VOTE ON EXECUTIVE COMPENSATION

Section 14A of the Securities Exchange Act of 1934 and the related rules of the SEC enables our stockholders to vote to approve, on an advisory (non-binding) basis, the compensation of our named executive officers as disclosed in this proxy statement.

Our executive compensation program is designed to attract and retain talented and qualified senior executives to manage and lead our Company and to motivate them to pursue and meet our corporate objectives. Under this program, our named executive officers are rewarded for individual and collective contributions to our success consistent with our “pay for performance” orientation. Furthermore, the executive officer total compensation program is aligned with the nature and dynamics of our business, which focuses management on achieving the Company’s annual and long-term business strategies and objectives. Additional details about our executive compensation programs are described under the section titled “EXECUTIVE COMPENSATION—Compensation Discussion and Analysis.” Our Compensation Committee regularly reviews the executive compensation program to ensure that it achieves the desired goals of emphasizing long-term value creation and aligning the interests of management and stockholders through the use of equity-based awards.

We are asking our stockholders to indicate their support for our named executive officer compensation as described in this proxy statement. This proposal, commonly known as a “say-on-pay” proposal, gives our stockholders the opportunity to express their views on our named executive officers’ compensation. This vote is not intended to address any specific item of compensation, but rather the overall compensation of our named executive officers and the philosophy, policies, and practices described in this proxy statement. Accordingly, we ask our stockholders to vote “FOR” the following resolution at the Annual Meeting:

“RESOLVED, that the Company’s stockholders approve, on an advisory basis, the compensation of the named executive officers, as disclosed in the Company’s proxy statement for the 2018 Annual Meeting of Stockholders pursuant to the compensation disclosure rules of the SEC, including the Compensation Discussion and Analysis, the Summary Compensation Table and the other related tables and disclosure.”

Required Vote

The “say-on-pay” vote is advisory, and therefore not binding on the Company, the Compensation Committee or the Board. The affirmative vote a majority of the shares present or represented by proxy and voting at the meeting (which shares voting affirmatively also constitute a majority of the required quorum) would indicate stockholder approval of the resolution. The Board and the Compensation Committee value the opinions of our stockholders, and, to the extent there is any significant vote against the named executive officer compensation as disclosed in this proxy statement, we will consider our stockholders’ concerns, and the Compensation Committee will evaluate whether any actions are necessary to address those concerns.

THE BOARD RECOMMENDS A VOTE “FOR” THE APPROVAL OF THE COMPENSATION OF OUR NAMED EXECUTIVE OFFICERS, AS DESCRIBED IN THIS PROXY STATEMENT PURSUANT TO THE COMPENSATION DISCLOSURE RULES OF THE SEC.

## PROPOSAL FIVE

## RATIFICATION OF APPOINTMENT OF EXTERNAL AUDITORS

The Audit Committee has selected Ernst & Young LLP, an independent registered public accounting firm, to audit the consolidated financial statements of Xilinx for the fiscal year ending March 30, 2019 and recommends that stockholders vote for ratification of such appointment. Although we are not required to submit to a vote of the stockholders the ratification of the appointment of Ernst & Young, the Company, the Board and the Audit Committee, as a matter of good corporate governance, have determined to ask the stockholders to ratify the appointment. If the appointment of Ernst & Young is not ratified, the Audit Committee will take the vote under advisement in evaluating whether to retain Ernst & Young.

Representatives of Ernst & Young attend meetings of the Audit Committee, including executive sessions of the Audit Committee at which no members of Xilinx management are present. Ernst & Young has audited the Company's financial statements for each fiscal year since the fiscal year ended March 31, 1984. 1. Purpose. The purpose of the Plan is to provide employees of the Company and its Designated Subsidiaries with an opportunity to purchase Common Stock of the Company through accumulated payroll deductions. It is the intention of the Company to have the Plan qualify as an “Employee Stock Purchase Plan” under Section 423 of the Internal Revenue Code of 1986, as amended. The provisions of the Plan shall, accordingly, be construed so as to extend and limit participation in a manner consistent with the requirements of that section of the Code.

2. Definitions.

(b) “Code” shall mean the Internal Revenue Code of 1986, as amended.

(c) “Common Stock” shall mean the Common Stock, \$0.01 par value per share, of the Company.

Where the period of leave exceeds ninety (90) days and the individual’s right to reemployment is not guaranteed either by statute or by contract, the employment relationship will be deemed to have terminated on the ninety-first (91st) day of such leave.

(h) “Exercise Date” shall mean the date one day prior to the date six (6) months, twelve (12) months, eighteen (18) months or twenty-four (24) months after the Offering Date of each Offering Period, provided that for the Offering Period which began on July 1, 1998 and the Offering Period which will begin on January 1, 1999, all Exercise Dates occurring after January 1, 1999 shall mean one (1) day prior to the date seven (7) months, thirteen (13) months, nineteen (19) months and twenty-five (25) months after the respective commencement dates of such Offering Periods, and provided further that if an Exercise Date would otherwise occur on a day which is not a Trading Day, such Exercise Date shall be the last Trading Day occurring prior to such day.

(i) “Exercise Period” shall mean a period commencing on an Offering Date or on the day after an Exercise Date and terminating one (1) day prior to the date six (6) months later, provided that the Exercise Period which begins January 1, 1999 shall terminate on July 31, 1999.

3. Eligibility.

- (a) Any Employee as defined in Section 2 who shall be employed by the Company on the Offering Date of an Offering Period shall be eligible to participate in the Plan, subject to limitations imposed by Section 423(b) of the Code.
- (b) Any provisions of the Plan to the contrary notwithstanding, no Employee shall be granted an option under the Plan (i) if, immediately after the grant, such Employee (or any other person whose stock would be attributed to such Employee pursuant to Section 424(d) of the Code) would own stock and/or hold outstanding options to purchase stock possessing five percent (5%) or more of the total combined voting power or value of all classes of stock of the Company or of any subsidiary of the Company, or (ii) which permits his or her rights to purchase stock under all employee stock purchase plans of the Company and its subsidiaries to accrue at a rate which exceeds Twenty-Five Thousand Dollars (\$25,000) of fair market value of such stock (determined at the time such option is granted) for each calendar year in which such option is outstanding at any time.

4. Offering Periods.

- (a) The plan shall be implemented by consecutive, overlapping twenty-four (24) month Offering Periods with a new Offering Period commencing on the first Trading Day occurring on or after the first day of February and August of each year. Subject to the requirements of Section 20, the Board of Directors of the Company shall have the power to change the duration of Offering Periods with respect to future offerings without stockholder approval if such change is announced at least fifteen (15) days prior to the scheduled beginning of the first Offering Period to be affected; provided, however, that no Offering Period shall have a duration of more than twenty-seven (27) months.
- (b) The Board shall have the power, in its discretion, to establish separate, simultaneous or overlapping Offering Periods having different terms and conditions and to designate the Subsidiary(ies) that may participate in a particular Offering Period, provided that each Offering Period shall individually comply with the terms of the Plan and the requirements of Section 423(b)(5) of the Code that all participants granted an option pursuant to such Offering Period shall have the same rights and privileges within the meaning of such section. Alternatively and in order to comply with the laws of a foreign jurisdiction, the Board shall have the power, in its discretion, to grant options in an Offering Period to citizens or residents of a non-U.S. jurisdiction (without regard to whether they are also citizens of the United States or resident aliens) that provide terms which are less favorable than the terms of options granted under the same Offering Period to Employees resident in the United States.

5. Participation.

- (a) An eligible Employee may become a participant in the Plan by completing a subscription agreement authorizing payroll deductions on a form provided by the Company and filing it with the Company’s payroll office on or before the Offering Date of the applicable Offering Period, unless an earlier time for filing the subscription agreement is set by the Board for all eligible Employees with respect to a given offering.
- (b) Payroll deductions for a participant shall commence on the first payroll following the Offering Date and shall end on the last Exercise Date of the Offering Period to which such authorization is applicable, unless sooner terminated as provided in Section 11.

6. Payroll Deductions.

- (a) At the time a participant files his or her subscription agreement, he or she shall elect to have payroll deductions made on each payday during the Offering Period in an amount not exceeding fifteen percent (15%) or less than two

percent (2%) of his or her Compensation. The aggregate of such payroll deductions during any Offering Period shall not exceed fifteen percent (15%) of his or her aggregate Compensation during said Offering Period.

(b) All payroll deductions made by a participant shall be credited to his or her account under the Plan and will be withheld in whole percentages only. A participant may not make any additional payments into such account.

(c) A participant may discontinue his or her participation in the Plan as provided in Section 11, or may decrease the rate or amount of his or her payroll deductions during the Offering Period (within the limitations of Section 6(a)) by completing and filing with the Company a new subscription agreement authorizing a change in the rate or amount of payroll deductions; provided, however, that a participant may not decrease the rate or amount of his or her payroll deductions more than once in any month in any Exercise Period. The change in rate shall be effective fifteen (15) days following the Company's receipt of the new authorization or after such shorter period as may be permitted by the Company. Subject to the limitations of Section 6(a), a participant's subscription agreement shall remain in effect for successive Offering Periods unless revised as provided herein or terminated as provided in Section 11.

(d) Notwithstanding the foregoing, to the extent necessary to comply with Section 423(b)(8) of the Code and Section 3(b) herein, a participant's payroll deductions may be decreased to 0% at such time during any Exercise Period which is scheduled to end during the current calendar year that the aggregate of all payroll deductions accumulated with respect to such Exercise Period and any other Exercise Period ending within the same calendar year equal \$21,250. Payroll deductions shall recommence at the rate provided in such participant's subscription agreement at the beginning of the first Exercise Period which is scheduled to end in the following calendar year, unless terminated by the participant as provided in Section 11.

(e) At the time the option is exercised, in whole or in part, or at the time some or all of the Company's Common Stock issued under the Plan is disposed of, the participant must make adequate provision for the Company's federal, state, or other tax withholding obligations, if any, which arise upon the exercise of the option or the disposition of the Common Stock. At any time, the Company may, but will not be obligated to, withhold from the participant's compensation the amount necessary for the Company to meet applicable withholding obligations, including any withholding required to make available to the Company any tax deductions or benefits attributable to sale or early disposition of Common Stock by the Employee.

### 7. Grant of Option.

(a) On the Offering Date of each Offering Period, each eligible Employee participating in such Offering Period shall be granted an option to purchase on each Exercise Date during such Offering Period (at the per share option price) up to a number of shares of the Company's Common Stock determined by dividing such Employee's payroll deductions accumulated prior to such Exercise Date and retained in the Participant's account as of the Exercise Date by the lower of (i) eighty-five percent (85%) of the fair market value of a share of the Company's Common Stock on the Offering Date or (ii) eighty-five percent (85%) of the fair market value of a share of the Company's Common Stock on the Exercise Date; provided, however, that the maximum number of Shares an Employee may purchase during each Offering Period shall be determined at the Offering Date by dividing \$50,000 by the fair market value of a share of the Company's Common Stock on the Offering Date, and provided further that such purchase shall be subject to the limitations set forth in Section 3(b) and 13 hereof. Exercise of each option during the Offering Period shall occur as provided in Section 8, unless the participant has withdrawn pursuant to Section 11, and each option shall expire at midnight on the last day of the applicable Exercise Period. Fair market value of a share of the Company's Common Stock shall be determined as provided in Section 7(b) herein. Notwithstanding anything to the contrary contained in this Plan, however, the Offering Date for the Offering Period which began on July 1, 1998 shall be deemed (for tax purposes) to be October 8, 1998.

(b) The option price per share of the shares offered in a given Exercise Period shall be the lower of: (i) 85% of the fair market value of a share of the Common Stock of the Company on the Offering Date; or (ii) 85% of the fair market value of a share of the Common Stock of the Company on the Exercise Date. The fair market value of the Company's Common Stock on a given date shall be determined by the Board in its discretion; provided, however, that where there is a public market for the Common Stock, the fair market value per share shall be the closing price of the Common Stock for such date, as reported by the NASDAQ Stock Market, or, in the event the Common Stock is listed on another stock exchange constituting the primary market for the Common Stock, the fair market value per share shall

be the closing price on such exchange on such date, as reported in The Wall Street Journal. In the event the applicable date occurs on a day which is not a Trading Day, the fair market value shall be based on the closing price on the preceding Trading Day.

8. Exercise of Option. During a participant's lifetime, a participant's option to purchase shares hereunder is exercisable only by him or her. Unless a participant withdraws from the Plan as provided in Section 11, hereof, his or her

option for the purchase of shares shall be exercised automatically on the Exercise Date, and the maximum number of full shares subject to option shall be purchased for such participant at the applicable Purchase Price with the accumulated payroll deductions in his or her account. No fractional shares shall be purchased. Any payroll deductions which remain in a participant's account after the individual has purchased during an Offering Period the maximum number of shares allowable under Section 7 hereof, shall be returned to the participant. Notwithstanding the foregoing, if the payroll deductions remaining in a participant's account following an Exercise Date are in an amount which was not sufficient to purchase an additional full share, then such amount shall be retained in the participant's account to be applied during the same or the subsequent Offering Period.

9. **Delivery.** As promptly as practicable after the Exercise Date of each Exercise Period, the Company shall arrange the delivery to each participant, as appropriate, of a certificate representing the shares purchased upon exercise of his or her option.

10. **Automatic Transfer to Low Price Offering Period.** In the event that the fair market value of the Company's Common Stock is lower on an Exercise Date of an Offering Period (other than the last Exercise Date thereof) than it was on the Offering Date for that Offering Period, all Employees participating in such Offering Period on the Exercise Date shall be deemed to have withdrawn from the Offering Period immediately after the exercise of their option on such Exercise Date and to have enrolled as participants in a new Offering Period which begins on or about the day following such Exercise Date. A participant may elect to remain in the previous short Offering Period by filing a written statement declaring such election with the Company prior to the time of the automatic change to the new Offering Period.

11. **Withdrawal; Termination of Employment.**

(a) A participant may withdraw all but not less than all the payroll deductions credited to his or her account and not yet used to exercise his or her option under the Plan at any time by giving written notice to the Company pursuant to a form to be provided by the Company. All of the participant's payroll deductions credited to his or her account will be paid to such participant as promptly as practicable after receipt of notice of withdrawal and such participant's remaining option or options for the Offering Period will be automatically terminated, and no further payroll deductions for the purchase of shares will be made during the Offering Period. If a participant withdraws from an Offering Period, payroll deductions will not resume at the beginning of the succeeding Offering Period unless the participant delivers to the Company a new subscription agreement.

(b) Upon a participant's ceasing to be an Employee prior to an Exercise Date for any reason, including retirement or death, or upon termination of a participant's employment relationship (as described in Section 2(g)), the payroll deductions credited to such participant's account during the Exercise Period but not yet used to exercise the option will be returned to such participant or, in the case of his or her death, to the person or persons entitled thereto under Section 15, and such participant's remaining option or options will be automatically terminated.

The preceding sentence notwithstanding, a participant who receives payment in lieu of notice of termination of employment shall be treated as continuing to be an Employee for the participant's customary number of hours per week of employment during the period in which the participant is subject to such payment in lieu of notice.

(c) In the event an Employee fails to remain an Employee of the Company for at least twenty (20) hours per week during an Offering Period in which the Employee is a participant, he or she will be deemed to have elected to withdraw from the Plan and the payroll deductions credited to his or her account will be returned to such participant and such participant's remaining option or options terminated.

(d) A participant's withdrawal from an Offering Period will not have any effect upon his or her eligibility to participate in any similar plan which may hereafter be adopted by the Company or in succeeding Offering Periods which commence after the termination of the Offering Period from which the participant withdraws.

12. **Interest.** No interest shall accrue on the payroll deductions of a participant in the Plan.

13. **Stock.**

(a) The maximum number of shares of the Company's Common Stock which shall be made available for sale under the Plan shall be 57,540,000 shares, subject to adjustment upon changes in capitalization of the Company as provided in Section 19. If on a given Exercise Date the number of shares with respect to which options are to be exercised exceeds the number of shares then available under the Plan (after deduction of all shares for which options have

previously

been exercised), the Company shall make a pro rata allocation to the participants on such Exercise Date of the shares remaining available in as uniform a manner as shall be practicable and as it shall determine to be equitable. In such event, the Company shall give written notice of such reduction of the number of shares subject to the option to each Employee affected thereby and shall similarly reduce the rate of payroll deductions, if necessary.

(b) The participant will have no interest or voting right in shares covered by his or her option until such option has been exercised.

(c) Shares to be delivered to a participant under the Plan will be registered in the name of the participant or in the name of the participant and his or her spouse.

### 14. Administration.

(a) Administrative Body. The Plan shall be administered by the Board or a committee of members of the Board appointed by the Board. The Board or its committee shall have full and exclusive discretionary authority to construe, interpret and apply the terms of the Plan, to determine eligibility and to adjudicate all disputed claims filed under the Plan. Every finding, decision and determination made by the Board or its committee shall, to the full extent permitted by law, be final and binding upon all parties.

(b) Rule 16b-3 Limitations. Notwithstanding the provisions of Subsection (a) of this Section 14, in the event that Rule 16b-3 promulgated under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), or any successor provision ("Rule 16b-3") provides specific requirements for the administrators of plans of this type, the Plan shall be only administered by such a body and in such a manner as shall comply with the applicable requirements of Rule 16b-3.

### 15. Designation of Beneficiary.

(a) Subject to compliance with local law and procedures, a participant may file a written designation of a beneficiary who is to receive any shares and cash, if any, from the participant's account under the Plan in the event of such participant's death subsequent to the end of an Exercise Period but prior to delivery to him of such shares and cash. In addition, a participant may file a written designation of a beneficiary who is to receive any cash from the participant's account under the Plan in the event of such participant's death prior to an Exercise Date.

(b) Such designation of beneficiary may be changed by the participant at any time by written notice. In the event of the death of a participant and in the absence of a beneficiary validly designated under the Plan who is living at the time of such participant's death, the Company shall deliver such shares and/or cash to the executor or administrator of the estate of the participant or as otherwise required by applicable law.

16. Transferability. Neither payroll deductions credited to a participant's account nor any rights with regard to the exercise of an option or to receive shares under the Plan may be assigned, transferred, pledged or otherwise disposed of in any way (other than by will, the laws of descent and distribution or as provided in Section 15 hereof) by the participant. Any such attempt at assignment, transfer, pledge or other disposition shall be without effect, except that the Company may treat such act as an election to withdraw funds from an Offering Period in accordance with Section 11.

17. Use of Funds. All payroll deductions received or held by the Company under the Plan may be used by the Company for any corporate purpose, and the Company shall not be obligated to segregate such payroll deductions.

18. Reports. Individual bookkeeping accounts will be maintained for each participant in the Plan. Statements of account will be given to participating Employees annually, which statements will set forth the amounts of payroll deductions, the per share purchase price, the number of shares purchased and the remaining cash balance, if any.

19. Adjustments Upon Changes in Capitalization. Subject to any required action by the stockholders of the Company, the number of shares of Common Stock covered by each option under the Plan which has not yet been exercised and the number of shares of Common Stock which have been authorized for issuance under the Plan but have not yet been placed under option (collectively, the "Reserves") as well as the price per share of Common Stock covered by each option under the Plan which has not yet been exercised, shall be proportionately adjusted for any increase or decrease in the number of issued shares of Common Stock resulting from a stock split, reverse stock split, stock dividend, combination or reclassification of the Common Stock, or any other increase or decrease in the number of shares of Common Stock effected without receipt of consideration by the Company; provided, however, that conversion of any convertible securities of the Company shall not be deemed to have been "effected without receipt of

consideration”. Such adjustment shall be made by the Board, whose

A-5

---

determination in that respect shall be final, binding and conclusive. Except as expressly provided herein, no issue by the Company of shares of stock of any class, or securities convertible into shares of stock of any class, shall affect, and no adjustment by reason thereof shall be made with respect to, the number or price of shares of Common Stock subject to an option.

In the event of the proposed dissolution or liquidation of the Company, the Offering Period will terminate immediately prior to the consummation of such proposed action, unless otherwise provided by the Board. In the event of a proposed sale of all or substantially all of the assets of the Company, or the merger of the Company with or into another corporation, each option under the Plan shall be assumed or an equivalent option shall be substituted by such successor corporation or a parent or subsidiary of such successor corporation, unless the Board determines, in the exercise of its sole discretion and in lieu of such assumption or substitution, to shorten the Offering Period then in progress by setting a new Exercise Date (the "New Exercise Date"). If the Board shortens the Offering Period then in progress in lieu of assumption or substitution in the event of a merger or sale of assets, the Board shall notify each participant in writing, at least ten (10) days prior to the New Exercise Date, that the Exercise Date for his or her option has been changed to the New Exercise Date and that his or her option will be exercised automatically on the New Exercise Date, unless prior to such date he or she has withdrawn from the Offering Period as provided in Section 11. For purposes of this Section, an option granted under the Plan shall be deemed to be assumed if, following the sale of assets or merger the option confers the right to purchase, for each share of option stock subject to the option immediately prior to the sale of assets or merger the consideration (whether stock, cash or other securities or property) received in the sale of assets or merger by holders of Common Stock for each share of Common Stock held on the effective date of the transaction (and if such holders were offered a choice of consideration, the type of consideration chosen by the holders of a majority of the outstanding shares of Common Stock); provided, however, that if such consideration received in the sale of assets or merger was not solely common stock of the successor corporation or its parent (as defined in Section 424(e) of the Code), the Board may, with the consent of the successor corporation, provide for the consideration to be received upon exercise of the option to be solely common stock of the successor corporation or its parent equal in fair market value to the per share consideration received by holders of Common Stock in the sale of assets or merger.

The Board may, if it so determines in the exercise of its sole discretion, also make provision for adjusting the Reserves, as well as the price per share of Common Stock covered by each outstanding option, in the event that the Company effects one or more reorganizations, recapitalizations, rights offerings or other increases or reductions of shares of its outstanding Common Stock, and in the event of the Company being consolidated with or merged into any other corporation.

### 20. Amendment or Termination.

(a) The Board of Directors of the Company may at any time and for any reason terminate or amend the Plan. Except as provided in Section 19, no such termination can affect options previously granted, provided that an Offering Period may be terminated by the Board of Directors on any Exercise Date if the Board determines that the termination of the Plan is in the best interests of the Company and its stockholders. Except as provided in Section 19, no amendment may make any change in any option theretofore granted which adversely affects the rights of any participant. To the extent necessary to comply with Rule 16b-3 under the Securities Exchange Act of 1934, as amended, or under Section 423 of the Code (or any successor rule or provision or any other applicable law or regulation), the Company shall obtain stockholder approval in such a manner and to such a degree as required.

(b) Without stockholder consent and without regard to whether any participant rights may be considered to have been adversely affected, the Board (or its committee) shall be entitled to change the Offering Periods, limit the frequency and/or number of changes in the amount withheld during an Offering Period, establish the exchange ratio applicable to amounts withheld in a currency other than U.S. dollars, permit payroll withholding in excess of the amount designated by a participant in order to adjust for delays or mistakes in the Company's processing of properly completed withholding elections, establish reasonable waiting and adjustment periods and/or accounting and crediting procedures to ensure that amounts applied toward the purchase of Common Stock for each participant properly correspond with amounts withheld from the participant's Compensation, and establish such other limitations or procedures as the Board (or its committee) determines in its sole discretion advisable which are consistent with the

Plan.

21. Notices. All notices or other communications by a participant to the Company under or in connection with the Plan shall be deemed to have been duly given when received in the form specified by the Company at the location, or by the person, designated by the Company for the receipt thereof.

22. Conditions Upon Issuance of Shares. Shares shall not be issued with respect to an option unless the exercise of such option and the issuance and delivery of such shares pursuant thereto shall comply with all applicable provisions of law, domestic or foreign, including, without limitation, the Securities Act of 1933, as amended, the Securities Exchange Act of

1934, as amended, the rules and regulations promulgated thereunder, and the requirements of any stock exchange upon which the shares may then be listed, and shall be further subject to the approval of counsel for the Company with respect to such compliance.

As a condition to the exercise of an option, the Company may require the person exercising such option to represent and warrant at the time of any such exercise that the shares are being purchased only for investment and without any present intention to sell or distribute such shares if, in the opinion of counsel for the Company, such a representation is required by any of the aforementioned applicable provisions of law.

23. Term of Plan. The Plan shall continue in effect until January 26, 2030 unless sooner terminated under Section 20.

## ARTICLE 3

### ADMINISTRATION

3.1 The Committee shall administer the Plan unless otherwise determined by the Board. However, any Awards granted to members of the Committee (other than pursuant to the automatic grant program under Article 11) must be authorized by a disinterested majority of the Board. The Board may, in its discretion and in accordance with applicable law, delegate authority to one or more elected officers of the Company to grant Awards to Participants who are not Section 16 Insiders. In that event, the applicable provisions of the Plan will be interpreted to permit such officers to take the actions otherwise conferred on the Committee to the extent necessary or appropriate to implement such delegation.

3.2 Members of the Committee shall serve for such period of time as the Board may determine and may be removed by the Board at any time. The Board may also at any time terminate the functions delegated to any officer pursuant to Section 3.1, and reassume all powers and authority previously delegated to such officer.

3.3 The Committee shall determine and designate from time to time the eligible persons to whom Awards will be granted and shall set forth in each related Award Agreement the Award Period, the Date of Grant, and such other terms, provisions, limitations, and Performance Goals, as are approved by the Committee, but not inconsistent with the Plan, including, but not limited to, any rights of the Committee to cancel or rescind any such Award.

3.4 The Committee, in its discretion, shall (i) interpret the Plan, (ii) prescribe, amend, and rescind any rules and regulations necessary or appropriate for the administration of the Plan, and (iii) make such other determinations and take such other action as it deems necessary or advisable in the administration of the Plan, including, but not limited to, creating sub-plans to take advantage of favorable tax-treatment, or otherwise provide for grants of Awards to Employees, Consultants, or Non-Employee Directors of the Company and/or any Subsidiary residing in non-U.S. jurisdictions. Any interpretation, determination, or other action made or taken by the Committee shall be final, binding and conclusive on all interested parties.

3.5 With respect to restrictions in the Plan that are based on the requirements of Section 422 of the Code, the rules of any exchange or inter-dealer quotation system upon which the Company’s securities are listed or quoted, or any other applicable law, rule or restriction (collectively, “applicable law”), to the extent that any such restrictions are no longer required by applicable law, the Committee shall have the sole discretion and authority to grant Awards that are not subject to such mandated restrictions and/or to waive any such mandated restrictions with respect to outstanding Awards.

ARTICLE 4  
ELIGIBILITY

The Committee, upon its own action, may grant, but shall not be required to grant, an Award to any Employee, Consultant, or Non-Employee Director. Awards may be granted by the Committee at any time and from time to time to new Participants, or to

B-3

then Participants, or to a greater or lesser number of Participants, and may include or exclude previous Participants, as the Committee shall determine. Except as required by this Plan, different Awards need not contain similar provisions. The Committee's determinations under the Plan (including, without limitation, the determination of the individual who is to receive an Award, the form, amount and timing of such Award, and the terms and provisions of such Award and the agreements evidencing the same) need not be uniform and may be made by it selectively among Employees, Consultants, or Non-Employee Directors who receive, or are eligible to receive, Awards under the Plan.

### ARTICLE 5

#### SHARES SUBJECT TO PLAN

5.1 Total Shares Available. Subject to adjustment as provided in Articles 14 and 15, the maximum number of Shares that may be delivered pursuant to Awards granted under the Plan is 48,900,000, all of which may be granted as Incentive Stock Options.

5.2 Source of Shares. Shares to be issued may be made available from authorized but unissued Shares, Shares held by the Company in its treasury, or Shares purchased by the Company on the open market or otherwise. During the term of this Plan, the Company will at all times reserve and keep available a number of Shares that shall be sufficient to satisfy the requirements of this Plan.

5.3 Restoration and Retention of Shares. If any Shares subject to an Award shall not be issued or transferred to a Participant and shall cease to be issuable or transferable to a Participant because of the forfeiture, termination, expiration or cancellation, in whole or in part, of such Award or for any other reason, or if any such Shares shall, after issuance or transfer, be reacquired by the Company because of the Participant's failure to comply with the terms and conditions of an Award or for any other reason, the Shares not so issued or transferred, or the Shares so reacquired by the Company, as the case may be, shall no longer be charged against the limitation provided for in Section 5.1 and may be used thereafter for additional Awards under the Plan. To the extent an Award under the Plan is settled or paid in cash, Shares subject to such Award will not be considered to have been issued and will not be applied against the maximum number of Shares provided for in Section 5.1. If an Award may be settled in Shares or cash, such Shares shall be deemed issued only when and to the extent that settlement or payment is actually made in Shares. To the extent an Award is settled or paid in cash, and not Shares, any Shares previously reserved for issuance or transfer pursuant to such Award will again be deemed available for issuance or transfer under the Plan, and the maximum number of Shares that may be issued or transferred under the Plan shall be reduced only by the number of Shares actually issued and transferred to the Participant. The Committee may, from time to time, adopt and observe such procedures concerning the counting of Shares against the Plan maximum as it may deem appropriate.

### ARTICLE 6

#### GRANT OF AWARDS

6.1 Award Agreement. The grant of an Award shall be authorized by the Committee and may be evidenced by an Award Agreement setting forth the term of the Award, including the total number of Shares subject to the Award, the Option Price (if applicable), the Award Period, the Date of Grant, and such other terms, provisions, limitations, and Performance Goals, as are approved by the Committee, but not inconsistent with the Plan. The Company may execute an Award Agreement with a Participant after the Committee approves the issuance of an Award. The grant of an Award to a Participant shall not be deemed either to entitle the Participant to, or to disqualify the Participant from, the receipt of any other Award under the Plan.

6.2 Limitations on Awards. The Plan is subject to the following limitations:

(a) Options. The Option Price cannot be less than 100% of the Fair Market Value of the Share(s) underlying the Option on the Date of Grant of such Option.

(b) SARs. The SAR Price of a SAR cannot be less than 100% of the Fair Market Value of the Share(s) underlying the SAR on the Date of Grant of such SAR.

(c) Calendar Year Share Limit. Subject to the adjustments as provided in Articles 14 and 15, the aggregate Awards granted under the Plan to any Participant during any calendar year shall not exceed:

- (i) 4,000,000 Shares subject to Options, SARs or a combination of the foregoing; and
- (ii) 2,000,000 Shares subject to Awards other than Options or SARs.

(d) **Calendar Year Cash Limit.** No Participant may receive during any calendar year Awards under the Plan that are to be settled in cash covering an aggregate of more than \$6,000,000.

(e) **Non-Employee Director Annual Award Limit.** Notwithstanding any other provision of the Plan to the contrary, the aggregate grant date fair value (computed as of the Date of Grant in accordance with applicable financial accounting rules) of all Awards granted to any Non-Employee Director during any single fiscal year, taken together with any cash fees paid to such Non-Employee Director during such fiscal year, shall not exceed \$750,000.

B-4

## Table of Contents

(f) Term. The term of Awards may not exceed seven (7) years.

(g) Repricing. The Committee shall not reprice an Option or SAR, whether by directly lowering the exercise price, through the cancellation of an Option or SAR in exchange for a new Option or SAR having a lower exercise price, or by substituting Restricted Stock or RSU awards in place of the Option or SAR, without stockholder approval.

(h) Minimum Vesting. Except with respect to five percent (5%) of the maximum number of Shares that may be issued under the Plan, as provided in Section 5.1, each Award shall vest on the basis of the Participant's continued Service or the attainment of Performance Goals. No Award which vests on the basis of the Participant's continued Service shall vest earlier than one year following the date of grant of such Award and no Award which vests on the basis of attainment of Performance Goals shall provide for a Performance Period of less than one year; provided, however, that such limitations shall not preclude the acceleration of vesting of such Award upon the death or disability of the Participant, or in connection with a Change of Control.

6.3 Rights as Stockholder. Until the issuance of the Shares (as evidenced by the appropriate entry on the books of the Company or any authorized transfer agent of the Company), no right to vote or receive dividends or any other rights as a stockholder of the Company shall exist with respect to such Shares, notwithstanding the exercise of any Award. No adjustment will be made for a dividend or other rights for which the record date is prior to the date Shares are issued. Notwithstanding any other provision of the Plan, dividends otherwise payable with respect to issued Shares that remain subject to vesting conditions pursuant to the terms of the applicable Award shall be made subject to the same vesting conditions and shall be accumulated and paid if and when such vesting conditions are satisfied.

### 6.4 Options.

(a) In General. The Committee may grant Options under the Plan. ISOs may be granted only to Employees. NQSOs may be granted to Employees, Consultants, and Non-Employee Directors. With respect to each Option, the Committee shall determine the number of Shares subject to the Option, the Option Price, the term of the Option, the time or times at which the Option may be exercised and whether the Option is an ISO or an NQSO.

(b) Vesting. Subject to Article 15 of the Plan, Options shall vest upon satisfaction of the conditions set forth in the Award Agreement. Such conditions may provide for vesting based on (i) length of continuous service, (ii) achievement of specific business objectives, (iii) increases in specified indices, (iv) attainment of specified growth rates, or (v) other Performance Goals, as may be determined by the Committee in its sole discretion.

(c) Special Rule for ISOs. If the aggregate Fair Market Value of Shares (determined as of the Date of Grant) underlying ISOs that first become exercisable during any calendar year exceeds \$100,000, the portion of the Option or Options not exceeding \$100,000, to the extent of whole Shares, will be treated as an ISO and the remaining portion of the Option or Options will be treated as an NQSO. The preceding sentence will be applied by taking Options into account in the order in which they were granted.

6.5 Restricted Stock/Restricted Stock Units. If Restricted Stock and/or Restricted Stock Units are granted to a Participant under an Award, the Committee shall establish: (i) the number of Shares of Restricted Stock and/or the number of Restricted Stock Units awarded, (ii) the price, if any, to be paid by the Participant for such Restricted Stock and/or Restricted Stock Units, (iii) the time or times within which such Award may be subject to forfeiture, (iv) Performance Goals of the Company, a Subsidiary, any division thereof or any group of Employees of the Company, or other criteria, if any, which the Committee determines must be met in order to remove any restrictions (including vesting) on such Award, and (v) all other terms, limitations, restrictions, and conditions of the Restricted Stock and/or Restricted Stock Units, which shall be consistent with this Plan. The provisions of Restricted Stock and/or Restricted Stock Units need not be the same with respect to each Participant.

(a) Legend on Shares. Each Participant who is awarded Restricted Stock shall be issued the number of Shares specified in the Award Agreement for such Restricted Stock, and such Shares shall be recorded in the Share transfer records of the Company and ownership of such Shares shall be evidenced by a certificate or book entry notation in the Share transfer records of the Company. Such Shares shall be registered in the name of the Participant, and shall bear or be subject to an appropriate legend referring to the terms, conditions and restrictions applicable to such Restricted Stock. The Committee may require that the Share certificates or other evidence of ownership of the Shares of Restricted Stock be held in custody by the Company until the restrictions thereon shall have lapsed, and that the Participant deliver to the Committee a share power or share powers, endorsed in blank, relating to the Shares of

Restricted Stock.

(b) Restrictions and Conditions. Shares of Restricted Stock and Restricted Stock Units shall be subject to the following restrictions and conditions:

(i) Subject to the other provisions of this Plan and the terms of the particular Award Agreements, during such period as may be determined by the Committee commencing on the Date of Grant (the

B-5

---

## Table of Contents

“Restriction Period”), the Participant shall not be permitted to sell, transfer, pledge or assign Shares of Restricted Stock and/or Restricted Stock Units.

(ii) Except as provided in subparagraph (i) above and subject to the terms of a Participant’s Award Agreement, the Participant shall have, with respect to his or her Restricted Stock, all of the rights of a stockholder of the Company, including the right to vote the Shares, and the right to receive any dividends thereon, subject to Section 6.3. Certificates or evidence of ownership of Shares free of restriction under this Plan shall be delivered to the Participant promptly after, and only after, the Restriction Period shall expire without forfeiture in respect of such Shares. Certificates for the Shares forfeited under the provisions of the Plan shall be promptly returned to the Company by the forfeiting Participant. Each Participant, by his or her acceptance of Restricted Stock, shall irrevocably grant to the Company a power of attorney to transfer any Shares so forfeited to the Company and agrees to execute any documents requested by the Company in connection with such forfeiture and transfer.

(iii) The Restriction Period of Restricted Stock and/or Restricted Stock Units shall commence on the Date of Grant and, subject to Article 15 of the Plan, shall expire upon satisfaction of the conditions set forth in the Award Agreement; such conditions may provide for vesting based on (i) length of continuous service, (ii) achievement of specific business objectives, (iii) increases in specified indices, (iv) attainment of specified growth rates, or (v) other Performance Goals, as may be determined by the Committee in its sole discretion.

### 6.6 SARs.

(a) In General. A SAR shall entitle the Participant to surrender to the Company the SAR, or a portion thereof, as the Participant shall choose, and to receive from the Company in exchange therefore cash or Shares in an amount equal to the excess (if any) of the Fair Market Value (as of the date of the exercise of the SAR) per Share over the SAR Price per Share specified in such SAR, multiplied by the total number of Shares of the SAR being surrendered. In the discretion of the Committee, the Company may satisfy its obligation upon exercise of a SAR by the distribution of that number of Shares having an aggregate Fair Market Value (as of the date of the exercise of the SAR) equal to the amount of cash otherwise payable to the Participant, with a cash settlement to be made for any fractional Shares, or the Company may settle such obligation in part with Shares and in part with cash.

(b) Vesting. Subject to Article 15 of the Plan, SARs shall vest upon satisfaction of the conditions set forth in the Award Agreement; such conditions may provide for vesting based on (i) length of continuous service, (ii) achievement of specific business objectives, (iii) increases in specified indices, (iv) attainment of specified growth rates, or (v) other Performance Goals, as may be determined by the Committee in its sole discretion.

## ARTICLE 7

### AWARD PERIOD; VESTING

Subject to the provisions of Section 6.2(h), the Committee, in its sole discretion, may determine that an Award will be immediately exercisable or vested, in whole or in part, or that all or any portion may not be exercised or vest until a date, or dates, subsequent to its Date of Grant, or until the occurrence of one or more specified events, subject in any case to the terms of the Plan. If the Committee imposes conditions upon exercise or vesting, then subsequent to the Date of Grant, the Committee may, in its sole discretion, accelerate the date on which all or any portion of the Award may be exercised or vested.

## ARTICLE 8

### TERMINATION OF SERVICE

The provisions of this Article 8 shall apply to each Award granted under the Plan other than an Outside Director RSU Award granted pursuant to Article 11, unless otherwise provided in an applicable Award Agreement.

8.1 In General. If a Participant’s Service is terminated or ceases, other than for Good Reason, Cause, or by reason of death or Disability, then the portion of any Award that is not vested as of the date of such termination or cessation shall automatically lapse and be forfeited. The portion, if any, of any Option or SAR that is vested as of the date of such termination or cessation shall automatically lapse and be forfeited at the close of business on the 30th day following the date of such Participant’s termination or cessation (or if earlier, upon the expiration of the term of the Option or SAR), subject to Section 8.6 and 8.7 below, to the extent applicable.

8.2 Death or Disability. If a Participant's employment as an Employee, or service as a Consultant or Non-Employee Director is terminated by reason of Disability, then the portion of any Award that is not vested as of the date of such termination shall automatically lapse and be forfeited. The portion, if any, of any Option or SAR that is vested as of the date of such termination shall automatically lapse and be forfeited at the close of business on the 12-month anniversary of the date of such

Participant's termination (or if earlier, upon the expiration of the option term). If a Participant's employment as an Employee, or service as a Consultant or Non-Employee Director is terminated by reason of death, vesting of the unvested portion of any Award shall be accelerated on the date of such termination so that the Participant's Award shall vest with respect to an additional number of Shares in which the Participant would have vested if the Participant had remained in employment or service for a period of 12 months following such termination. Any such vested Award shall automatically lapse and be forfeited at the close of business on the 12-month anniversary of the date of such Participant's death (or if earlier, upon the expiration of the term of the Option or SAR).

8.3 Suspension or Termination for Cause. If at any time (including after a notice of exercise has been delivered) the Committee reasonably believes that a Participant has committed an act of misconduct as described in Section 2.5, the Committee or an officer of the Company authorized by the Committee may suspend the Participant's right to receive the benefit of any Award pending a determination by the Committee of whether an act of misconduct amounting to Cause has been committed. If at any time a Participant's employment as an Employee, or service as a Consultant or Non-Employee Director is terminated by the Company for Cause, the Participant's entire Award, whether vested or unvested, shall automatically lapse and be forfeited on the date of such termination. Any determination by the Committee with regard to the foregoing shall be final, conclusive and binding on all interested parties. For any Participant who is an "executive officer" for purposes of Section 16 of the Exchange Act, the determination of the Committee shall be subject to the approval of the Board of Directors.

8.4 Termination for Good Reason. If a Participant's employment as an Employee, or service as a Consultant or Non-Employee Director is terminated for Good Reason, the portion of any Award that is not vested as of the date of such termination shall automatically lapse and be forfeited. The portion, if any, of any Option or SAR that is vested as of the date of such termination shall automatically lapse and be forfeited at the close of business on the 12-month anniversary of the date of such Participant's termination (or if earlier, upon the expiration of the term of the Option or SAR).

8.5 Leave of Absence; Transfer. For purposes of this Plan, a Participant shall not be deemed to have a termination of employment or a cessation of services, if the Participant is either on a leave of absence approved by the Company or any Subsidiary, or the Participant transfers between locations of the Company or any Subsidiary. Notwithstanding the above, vesting of Awards shall cease while a Participant is on a leave of absence unless the Committee or applicable laws and regulations determine(s) otherwise.

8.6 Extension if Exercise is Prevented by Law. Notwithstanding the foregoing, if the exercise of an Option or SAR within the applicable periods set forth in this Article 8 is prevented by the provisions of Section 18.6, the Option or SAR shall remain exercisable until 30 days after the date the Participant is notified by the Company that the Option or SAR is exercisable, but in any event, no later than the expiration of the term of the Option or SAR.

8.7 Extension if Participant is a Section 16 Insider. Notwithstanding the foregoing, other than termination for Good Reason, Cause or by reason of death or Disability, if the Participant is a Section 16 Insider at the time of termination or cessation of Service, then the portion of any Award that is not vested as of the date of such termination or cessation shall automatically lapse and be forfeited. The portion, if any, of any Option or SAR that is vested as of the date of such termination or cessation of Service shall automatically lapse and be forfeited at the close of business on the last business day of the seventh month following the date of Participant's termination or cessation of Service (or if earlier, upon the expiration of the term of the Option or SAR).

## ARTICLE 9

### EXERCISE OF AWARD

#### 9.1 In General.

(a) A vested Award may be exercised at such times and in such amounts as provided in this Plan and the applicable Award Agreement, subject to the terms, conditions and restrictions of the Plan.

(b) In no event may an Award be exercised or Shares be issued pursuant to an Award if a necessary listing or quotation of the Shares on a stock exchange or inter-dealer quotation system or any registration under, or compliance with, any laws required under the circumstances has not been accomplished. No Award may be exercised for a fractional Share.

#### 9.2 Stock Options.

(a) Subject to such administrative regulations as the Committee may from time to time adopt, an Option may be exercised by the delivery of the Exercise Notice to the Company (or designated broker, as agent for the Company). On the Exercise Date, the Participant shall deliver to the Company (or designated broker, as agent for the Company) consideration with a value equal to the total Option Price of the Shares to be purchased. The acceptable form(s) of consideration for the total Option Price shall be specified in the Award Agreement. Such consideration may include the following: (i) cash, check, bank draft, or money order payable to the order of the Company, (ii) Shares owned by the

Participant on the Exercise Date, valued at their Fair Market Value on the Exercise Date, (iii) by delivery (including by fax) to the Company (or designated broker, as agent for the Company) of an executed irrevocable option exercise form together with irrevocable instructions from the Participant to a broker or dealer, reasonably acceptable to the Company, to sell certain of the Shares purchased upon exercise of the Option and promptly deliver to the Company the amount of sale proceeds necessary to pay such purchase price, (iv) a “cashless exercise” mechanism approved by the Committee, and/or (v) in any other form of valid consideration that is acceptable to the Company in its sole discretion.

(b) Upon payment of all amounts due from the Participant, the Company shall cause Shares then being purchased to be delivered as directed by the Participant (or the person exercising the Participant’s Option in the event of his death) at its principal business office promptly after the Exercise Date; provided that if the Participant has exercised an ISO, the Company may, at its option, retain possession of the Shares acquired upon exercise until the expiration of the holding periods described in Section 422(a)(1) of the Code. The obligation of the Company to deliver Shares shall, however, be subject to the condition that if at any time the Committee shall determine in its discretion that the listing, registration, or qualification of the Option or the Shares upon any securities exchange or inter-dealer quotation system or under any state or federal law, or the consent or approval of any governmental regulatory body, is necessary or desirable as a condition of, or in connection with, the Option or the issuance or purchase of Shares thereunder, the Option may not be exercised in whole or in part unless such listing, registration, qualification, consent, or approval shall have been effected or obtained free of any conditions not acceptable to the Committee.

(c) If the Participant fails to pay for any of the Shares specified in such notice or fails to accept delivery thereof, the Participant’s right to purchase such Shares may be terminated by the Company.

9.3 SARs. Subject to the conditions of this Section and such administrative regulations as the Committee may, from time to time, adopt, a SAR may be exercised by the delivery of the Exercise Notice to the Company (or designated broker, as agent for the Company). On the Exercise Date, the Participant shall receive from the Company in exchange for cash in an amount equal to the excess (if any) of the Fair Market Value (as of the date of the exercise of the SAR) per Share over the SAR Price per Share specified in such SAR, multiplied by the total number of Shares of the SAR being surrendered. In the discretion of the Committee, the Company may satisfy its obligation upon exercise of a SAR by the distribution of that number of Shares having an aggregate Fair Market Value (as of the date of the exercise of the SAR) equal to the amount of cash otherwise payable to the Participant, with a cash settlement to be made for any fractional Shares, or the Company may settle such obligation in part with Shares and in part with cash.

9.4 Tax Withholding. The Company or any Subsidiary (as applicable) is hereby authorized to withhold from any Award, from any payment due or transfer made under any Award or under the Plan or from any compensation or other amount owing to a Participant the amount (in cash, Shares, other securities, other Awards or other property) of any applicable withholding taxes with respect to an Award, its exercise, the lapse of restrictions thereon, payment or transfer under an Award or under the Plan, and to take any other action necessary in the opinion of the Company to satisfy all obligations for the payment of the taxes. Such payments shall be required to be made prior to the delivery of any Shares. Such payment may be made in cash, by check, or through the delivery of Shares owned by the Participant (which may be effected by the actual delivery of Shares by the Participant or by the Company’s withholding a number of Shares to be issued upon the exercise of a Share, if applicable), or any combination thereof.

### AUTOMATIC OUTSIDE DIRECTOR RESTRICTED STOCK UNIT AWARDS

The Committee may from time to time establish an automatic grant program for Non-Employee Directors who are members of the Board (each an “Outside Director”). Unless and until otherwise determined by the Committee, Awards of Restricted Stock Units (each an “Outside Director RSU Award”) shall be granted automatically without any further action of the Committee and without payment of any monetary consideration by an Outside Director as follows:

11.1 Initial Grants. Each individual who is first elected or appointed as an Outside Director at any time on or after August 1, 2018 and who has not previously been an employee member of the Board shall be granted automatically, on the first trading day occurring on or after the 10th day of the month next following the date of such

initial election or appointment, an Outside Director RSU Award consisting of a whole number of Restricted Stock Units (rounded up to the next whole number multiple of 100 units) determined by multiplying (a) the quotient of \$200,000.00 and the average of the Fair Market Values of a Share on each of the trading days occurring during the three-calendar month period ending immediately prior to the calendar month in which the grant date occurs (the “Average Price”) by (b) the ratio of (i) the difference between 365 and the number of days elapsed between the date of the most recent annual meeting of the stockholders of the Company and the date of such initial election or appointment, to (ii) 365. Notwithstanding the foregoing, an individual who is first elected or appointed as an

Outside Director on the date of an annual meeting of the stockholders of the Company shall be granted an initial Outside Director RSU Award in the manner described in Section 11.2.

11.2 Annual Grants. On the date of the 2018 annual meeting of the stockholders of the Company and on the date of each subsequent annual meeting of the stockholders of the Company, each Outside Director continuing in office following such meeting shall be granted automatically an Outside Director RSU Award consisting of a whole number of Restricted Stock Units (rounded up to the next whole number multiple of 100 units) determined by the quotient of \$200,000.00 and the Average Price.

11.3 Terms of Outside Director RSU Awards. The terms of the Outside Director RSU Awards shall be as follows:

(a) Vesting; Termination of Service. Subject to Section 15.4, each Outside Director RSU Award granted on or after May 12, 2010 shall vest in full and the Restriction Period shall lapse on the day immediately preceding the day of the next annual meeting of the stockholders of the Company following the grant date, provided that the Outside Director's Service has continued through such vesting date. In the event of an Outside Director's death, the vesting of such individual's Outside Director RSU Awards shall be accelerated on the date of death so that such Awards shall be vested to the extent they would have vested if the Outside Director had remained in Service for a period of 12 months following death. Any portion of an Outside Director RSU Award which remains unvested following the Outside Director's termination of Service shall automatically lapse and be forfeited.

(b) Settlement. Outside Director RSU Awards shall be settled by the issuance to the Participant of Shares on the date which is the later of (i) the date on which such Award vests or (ii) a deferred settlement date elected in accordance with Section 11.3(c).

(c) Deferred Settlement Election. On or before the last day of each calendar year, each Outside Director who is then in office shall be entitled to make a deferred settlement election that will apply to each Outside Director RSU Award granted to such Outside Director in the following calendar year. Each such deferred settlement election shall be subject to such conditions and shall be made in accordance with such procedures as shall be established from time to time by the Committee, and shall in all respects comply with the applicable requirements of Section 18.1 of the Plan and Section 409A of the Code and the regulations thereunder.

### AMENDMENT OR DISCONTINUANCE

Subject to the limitations set forth in this Article 12, the Board may, at any time and from time to time, without the consent of the Participants, alter, amend, revise, suspend, or discontinue the Plan, in whole or in part; provided, however, that no amendment which requires stockholder approval under the rules of the national exchange on which Shares are listed (or in order for the Plan and Awards awarded under the Plan to comply with Section 422 of the Code, including any successors to such section), shall be effective unless such amendment shall be approved by the requisite vote of the stockholders of the Company entitled to vote thereon; and, provided further, that, subject to Section 18.1, no amendment shall adversely affect any rights of Participants or obligations of the Company to Participants with respect to any Award theretofore granted under the Plan without the written consent of the affected Participant.

## ARTICLE 13

### EFFECTIVE DATE AND TERM

The Plan was effective as of January 1, 2007 and had an initial term of seven (7) years from its effective date until December 31, 2013. At the 2013 Annual Meeting of Stockholders, the stockholders approved an extension of the term of the Plan for an addition ten (10) years from December 31, 2013. Accordingly, subject to earlier termination pursuant to Article 11, the Plan shall have an additional term of ten (10) years from December 31, 2013 and will terminate on December 31, 2023. After termination of the Plan, no future Awards may be made. However, any Awards granted before that date will continue to be effective in accordance with their terms and conditions. The Plan was amended by the Board, effective June 2018 (the "2018 Amendment"), to eliminate certain restrictions on awards granted to a "covered employee" as defined in Section 162(m)(3) of the Code and the regulations promulgated thereunder, intended to result in qualified performance-based compensation for the purposes of Section 162(m) as applicable to the Company before its first taxable year beginning after December 31, 2017 ("Prior 162(m)"). Any award granted before April 1, 2018 to a covered employee and intended to result in qualified performance-based

compensation under Prior 162(m) will continue to be subject to the terms of the Plan as in effect before the 2018 Amendment.

ARTICLE 14

(2) any recapitalization resulting in a stock split-up, combination, or exchange of Shares, or (3) other increase or decrease in such Shares effected without receipt of consideration by the Company, then:

(a) An equitable adjustment shall be made in the maximum number of Shares then subject to being awarded under the Plan and in the maximum number of Shares that may be awarded to a Participant to the extent that the same proportion of the Company's issued and outstanding Shares shall continue to be subject to being so awarded.

(b) Equitable adjustments shall be made in the number of Shares and the Option Price thereof then subject to purchase pursuant to each such Option previously granted and unexercised, to the extent that the same proportion of the Company's issued and outstanding Shares in each such instance shall remain subject to purchase at the same aggregate Option Price.

(c) Equitable adjustments shall be made in the number of SARs and the SAR Price thereof then subject to exercise pursuant to each such SAR previously granted and unexercised, to the extent that the same proportion of the Company's issued and outstanding Shares in each instance shall remain subject to exercise at the same aggregate SAR Price.

(d) Equitable adjustments shall be made in the number of outstanding Shares of Restricted Stock and the number of Restricted Stock Units with respect to which restrictions have not yet lapsed prior to any such change.

14.2 Issuance of Shares or Other Convertible Securities. Except as otherwise expressly provided herein, the issuance by the Company of Shares of any class, or securities convertible into Shares of any class, either in connection with direct sale or upon the exercise of rights or warrants to subscribe therefor, or upon conversion of Shares or obligations of the Company convertible into such Shares or other securities, shall not affect, and no adjustment by reason thereof shall be made with respect to (i) the number of or Option Price of Shares then subject to outstanding Options granted under the Plan, (ii) the number of or SAR Price or SARs then subject to outstanding SARs granted under the Plan, (iii) the number of outstanding Shares of Restricted Stock, or (iv) the number of outstanding Restricted Stock Units.

14.3 Notification. Upon the occurrence of each event requiring an adjustment with respect to any Award, the Company shall notify each affected Participant of its computation of such adjustment, which shall be conclusive and shall be binding upon each such Participant.

## ARTICLE 15

### RECAPITALIZATION; CHANGE OF CONTROL

15.1 Adjustments, Recapitalizations, Reorganizations, or Other Adjustments. The existence of this Plan and Awards granted hereunder shall not affect in any way the right or power of the Company or its stockholders to make or authorize any or all adjustments, recapitalizations, reorganizations, or other changes in the Company's capital structure and its business, or any merger or consolidation of the Company, or any issue of bonds, debentures, preferred or preference stocks ranking prior to or otherwise affecting the Shares or the rights thereof (or any rights, options, or warrants to purchase same), or the dissolution or liquidation of the Company, or any sale or transfer of all or any part of its assets or business, or any other corporate act or proceeding, whether of a similar character or otherwise.

15.2 Acquiring Entity. Subject to any required action by the stockholders, if the Company shall be the surviving or resulting corporation in any merger, consolidation or Share exchange, any Award granted hereunder shall pertain to and apply to the securities or rights (including cash, property, or assets) to which a Participant would have been entitled had the Participant been a stockholder of the Company immediately prior to such transaction.

15.3 Acquired Entity. In the event of any merger, consolidation or Share exchange pursuant to which the Company is not the surviving or resulting corporation, there shall be substituted for each or any Share subject to the unexercised portions of such outstanding Award, that number of Shares of each class of stock or other securities or that amount of cash, property, or assets of the surviving, resulting or consolidated company which were distributed or distributable to the stockholders of the Company in respect to each or any Share held by them, such outstanding Awards to be thereafter exercisable or settled for such stock, securities, cash, or property in accordance with their terms. Notwithstanding the foregoing, however, all or any portion of Awards may be canceled by the Company immediately prior to the effective date of any such reorganization, merger, consolidation, Share exchange or any dissolution or liquidation of the Company by giving notice to each holder thereof or his or her personal representative

of its intention to do so and by permitting the purchase during the 30 day period next preceding such effective date of all or any portion of the Shares subject to such outstanding Awards whether or not such Awards are then vested or exercisable.

15.4 Change of Control. In the event of a Change of Control, notwithstanding any other provision in this Plan to the contrary, the Committee may, in its sole discretion, and to such extent, if any, as it shall determine, provide that the vesting and exercisability of all or any portion of Awards outstanding and not otherwise canceled in accordance with Section 15.3 above shall be accelerated and all or any Restriction Periods applicable to Restricted Stock and/or Restricted Stock Units shall lapse and expire.

ARTICLE 16

LIQUIDATION OR DISSOLUTION

In case the Company sells all or substantially all of its property, or dissolves, liquidates, or winds up its affairs (each, a “Dissolution Event”), the Participant shall receive, to the extent the participant is vested in an Award, the same kind and amount of any securities or assets as may be issuable, distributable, or payable upon any such sale, dissolution, liquidation, or winding up with respect to each Share of the Company.

ARTICLE 17

ADDITIONAL AUTHORITY OF COMMITTEE

In addition to the Committee’s authority set forth elsewhere, in order to maintain a Participant’s rights in the event of any Change of Control or Dissolution Event described under Articles 15 and 16, the Committee, as constituted before the Change of Control or Dissolution Event, is hereby authorized, and has sole discretion, as to any Award, either at the time the Award is made hereunder or any time thereafter, to take any one or more of the following actions:

- (a) provide for the acceleration of any time periods relating to the vesting, exercise or realization of the Award so that the Award may be exercised or realized in full on or before a date fixed by the Committee;
- (b) provide for the purchase of any Award, upon the Participant’s request, for an amount of cash equal to the amount that could have been attained upon the exercise of the Award or realization of the Participant’s rights in the Award had the Award been currently exercisable or payable;
- (c) adjust any outstanding Award as the Committee deems appropriate to reflect the Change of Control or Dissolution Event;
- (d) cause any outstanding Award to be assumed, or new rights substituted therefor, by the acquiring or surviving corporation after a Change of Control or successor following a Dissolution Event; or
- (e) the Committee may, in its discretion, include other provisions and limitations in any Award Agreement as it may deem equitable and in the best interests of the Company.

ARTICLE 18

MISCELLANEOUS PROVISIONS

18.1 Code Section 409A. The Company intends that Awards granted pursuant to the Plan shall either be exempt from or comply with Code Section 409A and related regulations and U.S. Treasury pronouncements (“Section 409A”), and the Plan shall be so construed. Any Award or portion thereof that constitutes or provides for payment of deferred compensation subject to and not exempted from the requirements of Section 409A (“Section 409A Deferred Compensation”) shall comply with the following:

- (a) Each compensation deferral election (and subsequent deferral election, if any) and each payment election with respect to Section 409A Deferred Compensation shall be made in writing and shall comply in all respects with the requirements of Section 409A and such conditions and procedures as established from time to time by the Committee.
- (b) Each payment of Section 409A Deferred Compensation shall be made only upon the occurrence of one or more of the permissible payment events or times complying with the requirements of Section 409A.
- (c) Notwithstanding any provision of the Plan or an Award Agreement to the contrary, except as otherwise permitted by Section 409A, no payment of Section 409A Deferred Compensation may be made to a Participant who is a “specified employee” (as defined by Section 409A) as of the date of the Participant’s “separation from service” (as defined by Section 409A) before the date (the “Delayed Payment Date”) that is six (6) months after the date of such Participant’s separation from service, or, if earlier, the date of the Participant’s death. All such amounts that would, but for this paragraph, become payable prior to the Delayed Payment Date shall be accumulated and paid on the Delayed Payment Date.

Notwithstanding anything in this Plan to the contrary, if any Plan provision or Award under the Plan would result in the imposition of an applicable tax under Section 409A, that Plan provision or Award may be reformed to avoid imposition of the applicable tax and no action taken to comply with Section 409A shall be deemed to adversely affect the Participant’s rights to an Award.

18.2 Investment Intent. The Company may require that there be presented to and filed with it by any Participant under the Plan, such evidence as it may deem necessary to establish that the Awards granted or the Shares

to be purchased or transferred are being acquired for investment and not with a view to their distribution.

## Table of Contents

18.3 No Right to Continued Employment. Neither the Plan nor any Award granted under the Plan shall confer upon any Participant any right with respect to continuance of employment or service with the Company or any Subsidiary.

18.4 Indemnification of Board and Committee. No member of the Board of Directors of the Company or the Committee, nor any officer or employee of the Company acting on behalf of the Board of Directors of the Company or the Committee, shall be personally liable for any action, determination, or interpretation taken or made in good faith with respect to the Plan, and all members of the Board of Directors of the Company or the Committee and each and any officer or employee of the Company acting on their behalf shall, to the fullest extent permitted by law, be fully indemnified and protected by the Company in respect of any such action, determination, or interpretation.

18.5 Effect of the Plan. Neither the adoption of this Plan nor any action of the Board or the Committee shall be deemed to give any person any right to be granted an Award or any other rights except as may be evidenced by an Award Agreement, or any amendment thereto, duly authorized by the Committee and executed on behalf of the Company, and then only to the extent and upon the terms and conditions expressly set forth therein.

18.6 Compliance with Laws and Regulations. Notwithstanding anything contained herein to the contrary, the Company shall not be required to sell or issue Shares under any Award if the issuance thereof would constitute a violation by the Participant or the Company of any provisions of any law or regulation of any governmental authority or any national securities exchange or inter-dealer quotation system or other forum in which Shares are quoted or traded (including, without limitation, Sections 409A or 422 of the Code), and, as a condition of any sale or issuance of Shares under an Award, the Committee may require such agreements or undertakings, if any, as the Committee may deem necessary or advisable to assure compliance with any such law or regulation. The Plan, the grant and exercise of Awards hereunder, and the obligation of the Company to sell and deliver Shares, shall be subject to all applicable laws, rules and regulations and to such approvals by any government or regulatory agency as may be required.

18.7 Severability. If any provision of the Plan or any Award is or becomes or is deemed to be invalid, illegal, or unenforceable in any jurisdiction as to any Person or Award, or would disqualify the Plan or any Award under any law deemed applicable by the Committee, such provision shall be construed or deemed amended to conform to applicable laws, or if it cannot be construed or deemed amended without, in the determination of the Committee, materially altering the intent of the Plan or the Award, such provision shall be stricken as to such jurisdiction, Person or Award and the remainder of the Plan and any such Award shall remain in full force and effect.

18.8 Assignability. Awards may not be transferred or assigned other than by will or the laws of descent and distribution and may be exercised during the lifetime of the Participant only by the Participant or the Participant's legally authorized representative, and each Award Agreement in respect of an Award shall so provide. Notwithstanding the previous sentence, the Committee, in its sole discretion, may allow for the transfer or assignment of a Participant's Award pursuant to a divorce decree or a domestic relations order, but only if such Participant is a U.S. resident.

18.9 No Trust or Fund Created. Neither the Plan nor any Award shall create or be construed to create a trust or separate fund of any kind or any fiduciary relationship between the Company or any affiliate and a Participant or any other Person. To the extent that any Person acquires a right to receive payments from the Company or any affiliate pursuant to an Award, such right shall be no greater than the right of any unsecured general creditor of the Company or any affiliate.

18.10 Use of Proceeds. Proceeds from the sale of Shares pursuant to Awards granted under this Plan shall constitute general funds of the Company.

18.11 Governing Law. The validity, construction and effect of the Plan and any actions taken or relating to the Plan shall be determined in accordance with the laws of Delaware without giving effect to its choice of law provisions.

18.12 No Fractional Shares. No fractional Shares shall be issued or delivered pursuant to the Plan or any Award, and the Committee shall determine whether cash, other securities, or other property shall be paid or transferred in lieu of any fractional Shares or whether fractional Shares or any rights thereto shall be canceled, terminated, or otherwise eliminated.

18.13 Headings. Headings are given to the sections and subsections of the Plan solely as a convenience to facilitate reference. The headings shall not be deemed in any way material or relevant to the construction or interpretation of the Plan or any provision thereof.

18.14 Construction. Use of the term “including” in this Plan shall be construed to mean “including, but not limited to.”
