**Item 2.02 RESULTS OF OPERATIONS AND FINANCIAL CONDITION**

On October 28, 2005, SCANA Corporation (the Company) issued the press release attached hereto as Exhibit 99.1. The press release discloses a non-GAAP measure, GAAP-adjusted net earnings from operations, which in 2005 excludes from net income the effect of sales of certain investments and in 2004 excludes the effect of an impairment charge and a change related to pending litigation. The Company's management believes that GAAP-adjusted net earnings from operations provides a meaningful representation of the Company's fundamental earnings power and can aid in performing period-over-period financial analysis and comparison with peer group data. In management's opinion, GAAP-adjusted net earnings from operations is a useful indicator of the financial results of the Company's primary businesses. This measure is also a basis for management's provision of earnings guidance and growth projections, and it is used by management in making resource allocation and other budgetary and operational decisions. This non-GAAP performance measure is not intended to replace the GAAP measure of net earnings, but is offered as a supplement to it.
