 NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS  
 (In Thousands, Except Per Share Amounts)  
 (Unaudited)

## NOTE 1. NATURE OF OPERATIONS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

## Description of the company

Jack Henry & Associates, Inc. and subsidiaries (“JHA” or the “Company”) is a provider of integrated computer systems and services that has developed and acquired a number of banking and credit union software systems. The Company's revenues are predominately earned by marketing those systems to financial institutions nationwide together with computer equipment (hardware), by providing the conversion and software implementation services for financial institutions to utilize JHA software systems, and by providing other related services. JHA also provides continuing support and services to customers using in-house or outsourced systems.

## Consolidation

The consolidated financial statements include the accounts of JHA and all of its subsidiaries, which are wholly-owned, and all intercompany accounts and transactions have been eliminated.

## Fair value of financial instruments

For cash equivalents, amounts receivable or payable and short-term borrowings, fair values approximate carrying value, based on the short-term nature of the assets and liabilities. The fair value of long term debt also approximates carrying value as estimated using discounted cash flows based on the Company's current incremental borrowing rates or quoted prices in active markets.

The Company's estimates of the fair value for financial assets and financial liabilities are based on the framework established in the fair value accounting guidance. The framework is based on the inputs used in valuation, gives the highest priority to quoted prices in active markets, and requires that observable inputs be used in the valuations when available. The three levels of the hierarchy are as follows:

Level 1: inputs to the valuation are quoted prices in an active market for identical assets

Level 2: inputs to the valuation include quoted prices for similar assets in active markets that are observable either directly or indirectly

Level 3: valuation is based on significant inputs that are unobservable in the market and the Company's own estimates of assumptions that we believe market participants would use in pricing the asset

Fair value of financial assets, included in cash and cash equivalents, is as follows:

	Estimated Fair Value Measurements			Total Fair Value
	Level 1	Level 2	Level 3	
December 31, 2013				
Financial Assets:				
Money market funds	\$ 131,798	\$—	\$—	\$ 131,798
June 30, 2013				
Financial Assets:				
Money market funds	\$ 101,576	\$—	\$—	\$ 101,576

## Comprehensive income

Comprehensive income for the three and six month periods ended December 31, 2013 and 2012 equals the Company's net income.

## Interim financial statements

The accompanying condensed consolidated financial statements have been prepared in accordance with the instructions to Form 10-Q of the Securities and Exchange Commission and in accordance with accounting principles generally accepted in the United States of America applicable to interim condensed consolidated financial statements, and do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America for complete consolidated financial statements. The condensed consolidated financial statements should be read in conjunction with the Company's audited consolidated financial statements and

accompanying notes, which are included in its Annual Report on Form 10-K (“Form 10-K”) for the fiscal year ended

Table of Contents

June 30, 2013. The accounting policies followed by the Company are set forth in Note 1 to the Company's consolidated financial statements included in its Form 10-K for the fiscal year ended June 30, 2013.

In the opinion of the management of the Company, the accompanying unaudited condensed consolidated financial statements reflect all adjustments necessary (consisting of normal recurring adjustments) to present fairly the financial position of the Company as of December 31, 2013, the results of its operations for the three and six month periods ended December 31, 2013 and 2012, and its cash flows for the six month periods ended December 31, 2013 and 2012. The results of operations for the period ended December 31, 2013 are not necessarily indicative of the results to be expected for the entire year.

**NOTE 2. ADDITIONAL INTERIM FOOTNOTE INFORMATION**

The following additional information is provided to update the notes to the Company's annual consolidated financial statements for developments during the period ended December 31, 2013.

**Common stock**

The Board of Directors has authorized the Company to repurchase shares of its common stock. Under this authorization, the Company may finance its share repurchases with available cash reserves or short-term borrowings on its existing credit facilities. The share repurchase program does not include specific price targets or timetables and may be suspended at any time. At December 31, 2013, there were 16,754 shares in treasury stock and the Company had the remaining authority to repurchase up to 8,237 additional shares. The total cost of treasury shares at December 31, 2013 is \$402,082. No treasury shares were purchased in the first six months of fiscal 2014.

**Commitments and contingencies**

For fiscal 2014, the Board of Directors approved bonus plans for its executive officers and general managers. Under the plan, bonuses may be paid following the end of the current fiscal year based upon achievement of operating income and individually tailored performance targets. For general managers, one half of each manager's bonus is contingent upon meeting individual business unit objectives established by the executive officer to whom the general manager reports.

The Company has entered into agreements that provide its executive officers with compensation totaling two years' base salary and target bonus in the event the Company terminates the executive without cause within the period from 90 days before to two years after a change in control of the Company. The Company has also entered into agreements that provide its general managers with compensation totaling one year of base salary and target bonus under circumstances identical to those contained in the executive officer agreements.

**Litigation**

We are subject to various routine legal proceedings and claims, including the following:

In May 2013 a patent infringement lawsuit entitled DataTreasury Corporation v. Jack Henry & Associates, Inc. et. al. was filed against the Company, several subsidiaries and a number of customer financial institutions in the US District Court for the Eastern District of Texas. The complaint seeks damages, interest, injunctive relief, and attorneys' fees for the alleged infringement of two patents, as well as trebling of damage awards for alleged willful infringement. We believe we have strong defenses and intend to defend the lawsuit vigorously. At this early stage, we cannot make a reasonable estimate of possible loss or range of loss, if any, arising from this lawsuit.

**NOTE 3. RECENT ACCOUNTING PRONOUNCEMENTS**

In July 2013, the FASB issued ASU No. 2013-11, Income Taxes. The amendments update guidance on the financial statement presentation of an unrecognized tax benefit when a net operating loss carryforward, a similar tax loss, or a tax credit carryforward exists. The provisions in this update will be effective for the Company beginning January 1, 2014 and we do not anticipate that this update will materially impact the financial statements.

**NOTE 4. DEBT**

The Company's outstanding long and short term debt is as follows:

Table of Contents

	December 31, 2013	June 30, 2013
<b>LONG TERM DEBT</b>		
Capital leases	\$9,102	\$14,161
Other borrowings	—	120
	9,102	14,281
Less current maturities	3,413	6,915
Debt, net of current maturities	\$5,689	\$7,366
<b>SHORT TERM DEBT</b>		
Capital leases	\$534	\$1,014
Current maturities of long-term debt	3,413	6,915
Other borrowings	42	—
Notes payable and current maturities of long term debt	\$3,989	\$7,929
Capital leases		

The Company has entered into various capital lease obligations for the use of certain computer equipment. Long term capital lease obligations were entered into of which \$9,102 remains outstanding at December 31, 2013 and \$3,413 will be maturing within the next twelve months. The Company also has short term capital lease obligations totaling \$534 at December 31, 2013.

**Other lines of credit**

The long term revolving credit facility allows for borrowings of up to \$150,000, which may be increased by the Company at any time until maturity to \$250,000. Each of the above loans bear interest at a variable rate equal to (a) a rate based on LIBOR or (b) an alternate base rate (the greater of (a) the Federal Funds Rate plus 0.5%, (b) the Prime Rate or (c) LIBOR plus 1.0%), plus an applicable percentage in each case determined by the Company's leverage ratio. The credit facility is secured by pledges of capital stock of certain subsidiaries of the Company and also guaranteed by certain subsidiaries of the Company. The credit facility is subject to various financial covenants that require the Company to maintain certain financial ratios as defined in the agreement. As of December 31, 2013, the Company was in compliance with all such covenants. The revolving loan terminates June 4, 2015 and at December 31, 2013, there was no outstanding revolving loan balance.

The Company renewed an unsecured bank credit line on April 29, 2012 which provides for funding of up to \$5,000 and bears interest at the prime rate less 1% (2.25% at December 31, 2013). The credit line was renewed through April 29, 2014. At December 31, 2013, no amount was outstanding.

**NOTE 5. INCOME TAXES**

The effective tax rate of 35.2% of income before income taxes for the quarter ended December 31, 2013 is higher than 30.6% for the same quarter in fiscal 2013 primarily due to recognition of previously-unrecognized tax benefits upon completion of an IRS examination during prior year quarter.

At December 31, 2013, the Company had \$4,753 of gross unrecognized tax benefits, \$3,637 of which, if recognized, would affect our effective tax rate. Our policy is to include interest and penalties related to unrecognized tax benefits in the provision for income taxes. As of December 31, 2013, we had accrued interest and penalties of \$722 related to uncertain tax positions.

During the fiscal year ended June 30, 2012, the Internal Revenue Service initiated an examination of the Company's U.S. federal income tax returns for the fiscal years ended June 30, 2010 and 2011. The exam was completed in fiscal 2013 and did not result in a material change to the financial condition of the Company. The U.S. federal and state income tax returns for June 30, 2010 and all subsequent years remain subject to examination as of December 31, 2013 under statute of limitations rules. We anticipate potential changes could reduce the unrecognized tax benefits balance by \$100 - \$700 within twelve months of December 31, 2013.

**NOTE 6. STOCK-BASED COMPENSATION**

Edgar Filing: HENRY JACK & ASSOCIATES INC - Form 10-Q

For the three months ended December 31, 2013 and 2012, there was \$2,619 and \$2,375 of equity-based compensation costs, respectively. Pre-tax operating income for the first six months of fiscal 2014 and 2013 includes \$4,541 and \$4,109 of equity-based compensation costs respectively.

## 2005 NSOP and 1996 SOP

The Company previously issued options to employees under the 1996 Stock Option Plan (“1996 SOP”) and to outside directors under the 2005 Non-Qualified Stock Option Plan (“2005 NSOP”). No stock options were issued under the 1996 SOP or the 2005 NSOP during the six months ended December 31, 2013.

A summary of option plan activity under the plan is as follows:

	Number of Shares	Weighted Average Exercise Price	Aggregate Intrinsic Value
Outstanding July 1, 2013	144	21.79	
Granted	—	—	
Forfeited	—	—	
Exercised	(7	) 18.62	
Outstanding December 31, 2013	137	\$21.95	\$5,085
Vested December 31, 2013	137	\$21.95	\$5,085
Exercisable December 31, 2013	137	\$21.95	\$5,085

Compensation cost related to outstanding options has been fully recognized. The weighted-average remaining contractual term on options currently exercisable as of December 31, 2013 was 3.69 years.

## Restricted Stock Plan

The Company issues both unit awards and share awards under the Restricted Stock Plan. The following table summarizes non-vested unit awards as of December 31, 2013, as well as activity for the six months then ended:

Unit awards	Shares	Weighted Average Grant Date Fair Value
Outstanding July 1, 2013	814	23.08
Granted	164	48.21
Vested	(168	) 15.77
Forfeited	(101	) 15.77
Outstanding December 31, 2013	709	\$31.66

The weighted average assumptions used in this model to estimate fair value at the measurement date and resulting values are as follows:

Volatility	21.6	%
Risk free interest rate	0.91	%
Dividend yield	1.6	%
Stock Beta	0.837	

At December 31, 2013, there was \$12,166 of compensation expense that has yet to be recognized related to non-vested restricted stock unit awards, which will be recognized over a weighted-average period of 1.40 years.

The following table summarizes non-vested share awards as of December 31, 2013, as well as activity for the six months then ended:

Share awards	Shares	Weighted Average Grant Date Fair Value
Outstanding July 1, 2013	252	25.83
Granted	27	53.90
Vested	(132	) 23.49
Forfeited	(1	) 22.17
Outstanding December 31, 2013	146	\$33.14

Table of Contents

At December 31, 2013, there was \$2,461 of compensation expense that has yet to be recognized related to non-vested restricted stock share awards, which will be recognized over a weighted-average period of 1.29 years.

Diluted earnings per share	\$0.63	\$0.47	\$1.21	\$0.96

Per share information is based on the weighted average number of common shares outstanding for the three and six month periods ended December 31, 2013 and 2012. Stock options and restricted stock have been included in the calculation of earnings per share to the extent they are dilutive. There were no anti-dilutive stock options or restricted stock excluded for the three month period ended December 31, 2013 (no shares were excluded for the three month period ended December 31, 2012). There were 9 anti-dilutive stock options and restricted stock excluded from the computation of diluted earnings per share for the six month period ended December 31, 2013 (149 shares were excluded for the six month period ended December 31, 2012).

**NOTE 8. BUSINESS SEGMENT INFORMATION**

The Company is a provider of integrated computer systems that perform data processing (available for in-house installations or outsourced services) for banks and credit unions. The Company's operations are classified into two reportable segments: bank systems and services ("Bank") and credit union systems and services ("Credit Union"). The Company evaluates the performance of its segments and allocates resources to them based on various factors, including prospects for growth, return on investment, and return on revenue.

## ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

This discussion and analysis should be read in conjunction with the condensed consolidated financial statements and the accompanying notes to the condensed consolidated financial statements included in this Form 10-Q.

## RESULTS OF OPERATIONS

## Background and Overview

Jack Henry & Associates, Inc. (JHA) is a leading provider of technology solutions and payment processing services primarily for financial services organizations. Our solutions are marketed and supported through three primary brands. Jack Henry Banking® supports banks ranging from community to mid-tier, multi-billion dollar institutions with information and transaction processing solutions. Symitar® is a leading provider of information and transaction processing solutions for credit unions of all sizes. ProfitStars® provides specialized products and services that enable financial institutions of every asset size and charter, and diverse corporate entities outside the financial services industry, to mitigate and control risks, optimize revenue and growth opportunities, and contain costs. JHA's integrated solutions are available for in-house installation and outsourced and hosted delivery.

The majority of our revenue is derived from recurring outsourcing fees and transaction processing fees that predominantly have contract terms of five years or greater at inception. Support and service fees also include in-house maintenance fees on primarily annual contract terms. Less predictable software license fees and hardware sales complement our primary revenue sources. We continually seek opportunities to increase revenue while at the same time containing costs to expand margins.

In the second quarter of fiscal 2014, revenues increased 9% or \$23,831 compared to the same period in the prior year, with strong growth continuing in our support & service revenue component, particularly in our electronic payment services. In the six months ending December 31, 2013, revenues increased 9% or \$48,489 compared to the same six months last year, with strong growth continuing in all components of our support & service revenues. The growth in revenue and the Company's continued focus on cost management continued to drive up gross margins for the year-to-date period.

Operating expenses decreased 21% for the quarter and decreased 9% for the six month period ended December 31, 2013 mainly due to \$13,686 of year-to-date expenses in the prior year related to the impact of Hurricane Sandy flooding on our Lyndhurst, New Jersey item processing center. Provision for income taxes increased over both the prior quarter and year-to-date periods. The prior year was low due to the tax impact of the Lyndhurst, New Jersey expenses and the release of previously unrecognized tax benefits. The result of increased revenue and the above changes resulted in a combined 33% increase in net income for the quarter and 25% for the six months ended December 31, 2013.

We continue to focus on our objective of providing the best integrated solutions, products and customer service to our clients. We are cautiously optimistic regarding ongoing economic improvement and expect our clients to continue investing in our products and services to improve their operating efficiencies and performance. We anticipate that consolidation within the financial services industry will continue, including some reduced amount of bank failures and an increasing amount of merger and acquisition activity. Regulatory conditions and legislation such as the Dodd-Frank Wall Street Reform and Consumer Protection Act will continue to impact the financial services industry and could motivate some financial institutions to postpone discretionary spending.

A detailed discussion of the major components of the results of operations for the three and six month periods ended December 31, 2013 follows. All amounts are in thousands and discussions compare the current three and six month periods ended December 31, 2013, to the prior year three and six month periods ended December 31, 2012.

## REVENUE

License Revenue	Three Months Ended		% Change	Six Months Ended		% Change
	December 31, 2013	2012		December 31, 2013	2012	
License	\$12,893	\$13,210	(2)	\$24,671	\$26,074	(5)
Percentage of total revenue	4	% 5	%	4	% 5	%

License revenue decreased for the quarter and year-to-date periods due mainly to a decrease in license revenue from both core and complementary Credit Union products.

While license fees will fluctuate, recent trends indicate that our customers are increasingly electing to contract for our products via outsourced delivery rather than a traditional license as our outsourced delivery does not require an up-front capital investment in license fees. We expect this trend to continue in the long term.

Implementation Services	1,741	8	%	3,582	9	%		
Total Increase	\$23,966			\$48,925				

There was growth in all support and service revenue components for the current quarter and year-to-date.

In-house support and other services revenue increased for the quarter and year-to-date due to annual maintenance fee increases for both core and complementary products as our customers' assets grow and due to the maintenance fees associated with new software implemented.

Electronic payment services continue to experience the largest growth. The revenue increases are attributable to strong performance across debit/credit card transaction processing services, online bill payment services and ACH processing.

Outsourcing services for banks and credit unions continue to drive revenue growth as customers continue to show a preference for outsourced delivery of our solutions. We expect the trend towards outsourced product delivery to benefit outsourcing services revenue for the foreseeable future. Revenues from outsourcing services are typically earned under multi-year service contracts and therefore provide a long-term stream of recurring revenues.

Implementation services revenue increased for the quarter due mainly to increased implementations of our Credit Union core products. The year-to-date increase is due mainly to increased implementations of our Credit Union core and also our remote deposit capture products.

Hardware Revenue	Three Months Ended			% Change	Six Months Ended			% Change
	December 31,				December 31,			
	2013	2012		2013	2012

Percentage of total revenue	5	% 5	%		5	% 5	%	

Hardware revenue increased slightly for the quarter and year-to-date periods. Although there will be continuing quarterly fluctuations, we expect there to be an overall decreasing trend in hardware sales due to the change in sales mix towards outsourcing contracts, which typically do not include hardware, and the general deflationary trend of computer prices.

**BACKLOG**

Our backlog of \$503,761 (\$122,311 in-house and \$381,450 outsourcing) at December 31, 2013 increased 11% from \$452,239 (\$89,796 in-house and \$362,443 outsourcing) at December 31, 2012. The current quarter backlog remained consistent with September 30, 2013, when backlog was \$503,103 (\$116,852 in-house and \$386,251 outsourcing).

Gross Profit Margin	44	% 44	%	44	% 43	%		

Cost of license consists of the direct costs of third party software. For the quarter, sales of third party software products decreased compared to last quarter, leading to higher gross profit margins. For the year-to-date, sales of third party software products increased, which has led to higher related costs and slightly decreased gross profit margins. Gross profit margins in support and service have remained consistent for the quarter and increased for the year-to-date period due to economies of scale realized from increased revenues, particularly in electronic payment services. In general, changes in cost of hardware trend consistently with hardware revenue. For the quarter, margins are lower due to decreased sales of higher margin hardware upgrade products.

## OPERATING EXPENSES

Selling and Marketing	Three Months Ended		% Change	Six Months Ended		% Change		
	December 31, 2013	2012		December 31, 2013	2012			
Selling and marketing	\$21,071	\$19,937	6	%	\$42,529	\$40,126	6	%
Percentage of total revenue	7	% 7	%		7	% 7	%	

Selling and marketing expenses for the quarter and year-to-date increased mainly due to higher commission expenses and a general increase in sales headcount and related salaries. This is in line with increased sales volume of long term service contracts on which commissions are paid as a percentage of total revenue.

Research and Development	Three Months Ended		% Change	Six Months Ended		% Change		
	December 31, 2013	2012		December 31, 2013	2012

Percentage of total revenue	5	% 6	%		5	% 6	%	

Research and development expenses increased slightly for the quarter and year-to-date periods primarily due to increased headcount and related salaries.

General and Administrative	Three Months Ended		% Change	Six Months Ended		% Change		
	December 31, 2013	2012		December 31, 2013	2012

Percentage of total revenue	4	% 10	%		4	% 7	%	

General and administrative expenses decreased compared to quarter and year-to-date periods last year due mainly to expenses in the prior year related to the impact of Hurricane Sandy flooding on our Lyndhurst, New Jersey item processing center.

Excluding the Lyndhurst expenses from the prior year and the insurance recovery from the current year, non-GAAP general and administrative expenses would have been \$15,032 and \$29,282 for the quarter and year-to-date current year periods, respectively, and the non-GAAP increase would have been \$1,537, or 11% for the quarter and \$2,209, or 8%, for the year-to-date compared to the prior year.

INTEREST INCOME AND EXPENSE	Three Months Ended		% Change	Six Months Ended		% Change		
	December 31, 2013	2012		December 31, 2013	2012			
Interest Income	\$129	\$190	(32)	%	\$260	\$378	(31)	%
Interest Expense	\$(267)	\$(1,261)	(79)	%	\$(546)	\$(2,602)	(79)	%

Interest income fluctuated due to changes in invested balances and yields on invested balances. Interest expense decreased for the quarter and year-to-date due to full repayment of our term loan in the fourth quarter of fiscal 2013.

## PROVISION FOR INCOME TAXES

The provision for income taxes was \$29,353 and \$56,760 for the three and six-month periods ended December 31, 2013 compared with \$17,852 and \$41,738 for the same periods last year. As of the end of the current quarter, the effective rate of income taxes is 35.2% and 35.4% of income before income taxes for the quarter and year-to-date respectively, compared to 30.6% and 33.5% as reported in fiscal 2013. The increase in the effective tax rate was primarily due to the recognition of previously unrecognized tax benefits during the prior year quarter following the close of an Internal Revenue Service audit of fiscal years 2010 and 2011.

## NET INCOME

Net income increased 33% for the three months ended December 31, 2013. For the second quarter of fiscal 2014, it was \$53,982 or \$0.63 per diluted share compared to \$40,505, or \$0.47 per diluted share in the same period last year. Net income also increased 25% for the six month period ended December 31, 2013 to \$103,770 or \$1.21 per diluted share compared to \$82,981 or \$0.96 per diluted share, for the same six month period last year.

The Company reports its financial results in accordance with U.S. GAAP. The Company believes that the non-GAAP financial measures discussed above allows management and investors to understand and compare the Company's results in a more consistent manner. The non-GAAP measures should be considered supplemental and not a substitute for the Company's results that were recorded in accordance with GAAP for the periods presented.

**BUSINESS SEGMENT DISCUSSION**

The Company is a provider of integrated computer systems that perform data processing (available for in-house installations or outsourced services) for banks and credit unions. The Company's operations are classified into two reportable segments: bank systems and services ("Bank") and credit union systems and services ("Credit Union"). The Company evaluates the performance of its segments and allocates resources to them based on various factors, including prospects for growth, return on investment, and return on revenue.

**Bank Systems and Services**

	Three Months Ended		%	Six Months Ended		%		
	December 31,		Change	December 31,		Change		
	2013	2012		2013	2012

Gross profit margin	44	% 44	%	43	% 43	%		

Revenue in the Bank segment increased 10% compared to the equivalent quarter last fiscal year. This was primarily due to growth in all areas of support and service revenue, particularly electronic payment transaction processing services revenue which grew 17% and outsourcing services revenue which increased 11%.

Table of Contents

Year-to-date revenue increased 10% for the six month period due mainly to increased support and service revenue. Within support and service revenue, the increase was driven by 17% year-over-year growth in electronic payment services revenues from transaction processing and a 13% increase in outsourcing services revenue.

Gross profit margins remain consistent for both the quarter and year-to-date.

## Credit Union Systems and Services

	Three Months Ended		%	Change	Six Months Ended		%	Change
	December 31, 2013	December 31, 2012			December 31, 2013	December 31, 2012

Gross profit margin	45	% 45	%		46	% 44	%	

Revenue in the Credit Union segment increased 3% from the same quarter last year mainly due to support & service revenue which increased 6% due to growth in all areas of support and service revenue. Gross profit margins for the Credit Union segment for the three month period have remained consistent with the prior year.

Year-to-date revenue in the Credit Union segment increased 6% over the prior year, driven by all components of support & service revenue. In particular, electronic payment services increased due to the continuing growth of our transaction processing and debit/credit card processing services and increased implementation services. Gross profit margins for the Credit Union segment for the six month period increased mainly due to economies of scale realized from growing transaction volume in our payment processing services.

## FINANCIAL CONDITION

## Liquidity

The Company's cash and cash equivalents increased to \$155,501 at December 31, 2013 from \$127,905 at June 30, 2013. The increase from June 30, 2013 is primarily due to continued receipts from our annual maintenance billings.

The following table summarizes net cash from operating activities in the statement of cash flows:

	Six Months Ended	
	December 31, 2013	December 31, 2012
Net income	\$103,770	\$82,981
Non-cash expenses	60,479	56,202
Change in receivables	94,694	89,193
Change in deferred revenue	(104,293)	(99,881)
Change in other assets and liabilities	(23,334)	(9,327)
Net cash provided by operating activities	\$131,316	\$119,168

Cash provided by operating activities increased 10% compared to last year. Cash from operations is primarily used to repay debt, pay dividends, repurchase stock and other capital expenditures.

Cash used in investing activities for the first six months of fiscal year 2014 totaled \$55,052 and included capital expenditures on facilities and equipment of \$21,866, which included spending on our outsourcing data center infrastructure, and purchase of an aircraft and computer equipment. Other uses of cash included \$29,015 for the development of software and \$6,980 for the purchase and development of internal use software. These expenditures have been partially offset by \$2,809 proceeds received primarily from sale of an aircraft. Cash used in investing activities for the first six months of fiscal 2013 totaled \$42,704. The largest uses of cash included \$23,826 for the development of software and \$18,957 capital expenditures on facilities and equipment, which includes spending on our online bill payment data center migration. These expenditures were partially offset by proceeds of \$265 from the sale of property.

Financing activities used cash of \$48,668 during the first six months of the current fiscal year. Cash used was mainly dividends paid to stockholders of \$34,146, repayments of capital leases of \$13,630, and \$892 related to stock-based compensation. Net cash used in the first six months of last year was \$40,923, which included dividends paid to stockholders of \$19,813, repayments of long and short term borrowings on our credit facilities of \$17,336, and \$9,297

for the purchase of treasury shares. Cash used last year was partially offset by \$5,523 net proceeds from the issuance of stock and tax related to stock-based compensation.

## Table of Contents

We have not experienced any significant issues with our current collection efforts. Furthermore, we believe that any future impact to our liquidity would be minimized by our access to available lines of credit.

### Capital Requirements and Resources

The Company generally uses existing resources and funds generated from operations to meet its capital requirements. Capital expenditures totaling \$21,866 and \$18,957 for the six month periods ended December 31, 2013 and 2012, respectively, were made primarily for additional equipment and the improvement of existing facilities. These additions were funded from cash generated by operations. Total consolidated capital expenditures for the Company for fiscal year 2014 are not expected to exceed \$50,000 and will be funded from cash generated by operations.

The Board of Directors has authorized the Company to repurchase shares of its common stock. Under this authorization, the Company may finance its share repurchases with available cash reserves or short-term borrowings on its existing credit facilities. The share repurchase program does not include specific price targets or timetables and may be suspended at any time. At December 31, 2013, there were 16,754 shares in treasury stock and the Company had the remaining authority to repurchase up to 8,237 additional shares. The total cost of treasury shares at December 31, 2013 is \$402,082. No treasury shares were purchased in the first six months of fiscal 2014.

### Capital leases

The Company has entered into various capital lease obligations for the use of certain computer equipment. Long term capital lease obligations were entered into of which \$9,102 remains outstanding at December 31, 2013 of which \$3,413 will be maturing within the next twelve months. The Company also has short term capital lease obligations totaling \$534 at December 31, 2013.

### Other lines of credit

The long term revolving credit facility allows for borrowings of up to \$150,000, which may be increased by the Company at any time until maturity to \$250,000. Each of the above loans bear interest at a variable rate equal to (a) a rate based on LIBOR or (b) an alternate base rate (the greater of (a) the Federal Funds Rate plus 0.5%, (b) the Prime Rate or (c) LIBOR plus 1.0%), plus an applicable percentage in each case determined by the Company's leverage ratio. The credit facility is secured by pledges of capital stock of certain subsidiaries of the Company and also guaranteed by certain subsidiaries of the Company. The credit facility is subject to various financial covenants that require the Company to maintain certain financial ratios as defined in the agreement. As of December 31, 2013, the Company was in compliance with all such covenants. The revolving loan terminates June 4, 2015 and at December 31, 2013, there was no outstanding revolving loan balance.

The Company renewed an unsecured bank credit line on April 29, 2012 which provides for funding of up to \$5,000 and bears interest at the prime rate less 1% (2.25% at December 31, 2013). The credit line was renewed through April 29, 2014. At December 31, 2013, no amount was outstanding.

## ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Market risk refers to the risk that a change in the level of one or more market prices, interest rates, indices, volatilities, correlations or other market factors such as liquidity, will result in losses for a certain financial instrument or group of financial instruments. We are currently exposed to credit risk on credit extended to customers and interest risk on outstanding debt. We do not currently use any derivative financial instruments. We actively monitor these risks through a variety of controlled procedures involving senior management.

Based on the controls in place and the credit worthiness of the customer base, we believe the credit risk associated with the extension of credit to our customers will not have a material adverse effect on our consolidated financial position, results of operations or cash flows.

We have no outstanding debt with variable interest rates as of December 31, 2013 and are therefore not currently exposed to interest risk.

## ITEM 4. CONTROLS AND PROCEDURES

As of the end of the period covered by this Quarterly Report on Form 10-Q, an evaluation was carried out under the supervision and with the participation of our management, including our Company's Chief Executive Officer (CEO) and Chief Financial Officer (CFO), of the effectiveness of the design and operation of our disclosure controls and

procedures pursuant to Exchange Act Rules 13a-15 and 15d-15. Based upon that evaluation, the CEO and CFO concluded that our disclosure controls and procedures are effective to ensure that information we are required to disclose in reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in SEC rules and forms. For this purpose, disclosure controls and procedures include

controls and procedures designed to ensure that information that is required to be disclosed under the Exchange Act is accumulated and communicated to the Company's management, including the CEO and CFO, as appropriate to allow timely decisions regarding required disclosure.

During the fiscal quarter ending December 31, 2013, there has been no change in internal control over financial reporting that has materially affected, or is reasonably likely to affect, the Company's internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1A. RISK FACTORS

The Risk Factors in Item 1A of our Form 10-K for the year ended June 30, 2013 titled “Operational failure in our outsourcing facilities could expose us to damage claims, increase regulatory scrutiny and cause us to lose customers” and “The services we provide to our customers are subject to government regulation that could hinder the development of our business, increase costs, or impose constraints on the way we conduct our operations” are updated as follows: Operational failure in our outsourcing facilities could expose us to damage claims, increase regulatory scrutiny and cause us to lose customers. Damage or destruction that interrupts our outsourcing operations could cause delays and failures in customer processing which could hurt our relationship with customers, expose us to damage claims, and cause us to incur substantial additional expense to relocate operations and repair or replace damaged equipment. Our back-up systems and procedures may not prevent disruption, such as a prolonged interruption of our transaction processing services. In the event that an interruption extends for more than several hours, we may experience data loss or a reduction in revenues by reason of such interruption. In 2012, we experienced a disruption to our operations at our Lyndhurst, NJ processing center as a result of Super Storm Sandy. Any significant interruption of service could have a negative impact on our reputation, result in damage claims, lead our present and potential customers to choose other service providers, and lead to increased regulatory scrutiny of the critical services we provide to financial institutions, with resulting increases in compliance burdens and costs.

The services we provide to our customers are subject to government regulation that could hinder the development of our business, increase costs, or impose constraints on the way we conduct our operations. The financial services industry is subject to extensive and complex federal and state regulation. As a supplier of services to financial institutions, portions of our operations are examined by the Office of the Comptroller of the Currency, the Federal Reserve Board, the Federal Deposit Insurance Corporation, and the National Credit Union Association, among other regulatory agencies. These agencies regulate services we provide and the manner in which we operate, and we are required to comply with a broad range of applicable laws and regulations.

In December 2013 we entered into an agreement with The Comptroller of the Currency, the Federal Deposit Insurance Corporation, and the Federal Reserve Bank of St. Louis, which together regulate the Company's operations as the Federal Financial Institutions Examination Council ("FFIEC"). In 2012, operations at the Company's Lyndhurst, NJ processing center were temporarily but significantly disrupted by Super Storm Sandy, impacting the financial institutions served by that facility until the Company was able to return to normal operations. The agreement commits the Company to a process of assessing, improving and monitoring its disaster recovery and business continuity plans and the management of related risks across the Company. The Agreement also commits the Company to a process of regular reporting on corrective actions and to monitoring of its compliance with applicable regulations and guidance from the Regulators and the FFIEC. We are unable to predict what effect, if any, this agreement will have on our business. Failure to comply with the agreement could have a material adverse effect on our business.

In addition, existing laws, regulations, and policies could be amended or interpreted differently by regulators in a manner that imposes additional costs and has a negative impact on our existing operations or that limits our future growth or expansion. The Dodd-Frank Wall Street Reform and Consumer Protection Act, signed into law in 2010, significantly changed the regulation of the financial services industry, producing new regulatory agencies and voluminous new regulations, many of which are still being written. These new regulations may require additional programming or other costly changes in our processes or personnel. Our customers are also regulated entities, and actions by regulatory authorities could determine both the decisions they make concerning the purchase of data processing and other services and the timing and implementation of these decisions. Concerns are growing with respect to the use, confidentiality, and security of private customer information. Regulatory agencies, Congress and state legislatures are considering numerous regulatory and statutory proposals to protect the interests of consumers and to require compliance with standards and policies that have not been defined.
