NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(in millions, unaudited)

This report is a combined report of Spectrum Brands Holdings, Inc. (SBH) and SB/RH Holdings, LLC (SB/RH) (collectively, the Company). The notes to the condensed consolidated financial statements that follow include both consolidated SBH and SB/RH notes, unless otherwise indicated below.

NOTE 1 - BASIS OF PRESENTATION

The accompanying unaudited condensed consolidated financial statements have been prepared by the Company and its majority owned subsidiaries in accordance with accounting principles for interim financial information generally accepted in the United States and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all the information and notes necessary for a comprehensive presentation of financial position and results of operations. It is management s opinion, however, that all material adjustments have been made which are necessary for a fair financial statement presentation. For further information, refer to the consolidated financial statements and notes included in the Company s Annual Report on Form 10-K for the year ended September 30, 2015.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES

In March 2016, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2016-09, *Compensation-Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting*. The ASU provides for changes to the accounting for share-based payment awards issued to employees; primarily income taxes upon award vest or settlement, cash flow presentations of excess tax benefits and employee withheld taxes paid, as well as an entity forfeiture policy election. The ASU is effective for annual periods beginning after December 15, 2016, and interim period within those annual periods. Early adoption is permitted for any interim or annual period. The Company has elected to early adopt for the three month period ended July 3, 2016, effective as if adopted the first day of the fiscal year, October 1, 2015.

Under the new guidance, all excess tax benefits (windfalls) and deficiencies (shortfalls) related to employee stock compensation will be recognized within income tax expense. Under prior guidance, windfalls were recognized to additional paid-in capital and shortfalls were only recognized in the extent they exceed the pool of windfall tax benefits. As of September 30, 2015, there was \$22.2 million of unrecognized deferred tax assets attributable to excess tax benefits that were not previously recognized as they did not reduce income taxes payable. The cumulative adjustment for the adoption did not have an impact on net equity as the incremental deferred tax assets are fully reserved by an incremental valuation allowance as of September 30, 2015. The adoption of the new standard impacted our previously reported quarterly results for the recognition of excess tax benefits in our provision for income taxes rather than paid in capital. Due to the valuation allowance on deferred taxes, there was no impact to our quarterly results for the three month period ended January 3, 2016. The following summarizes the impact to the three and six months periods ended April 3, 2016:

| Net income attributable to controlling interest | 72.1 | 10.4 | 82.5 | 147.5 | 10.4 | 157.9 |

Further, as part of the adoption, the Company elected to account for forfeitures in compensation cost as they occur. The cumulative impact for the change in election was not material and was recognized in the three month period ended July 3, 2016.

Table of Contents

In April 2015, the FASB issued ASU No. 2015-03, *Interest Imputation of Interest (Subtopic 835-30): Simplifying the Presentation of Debt Issuance Costs*. This ASU requires debt issuance costs related to a recognized debt liability to be presented on a balance sheet as a direct deduction from the debt liability, similar to the presentation of debt discounts. Current guidance generally requires entities to capitalize costs paid to third parties that are directly related to issuing debt and that otherwise wouldn't be incurred, and present those amounts separately as deferred charges. During the three month period ended January 3, 2016, the Company retrospectively applied the adoption of this ASU, resulting in a reclassification of \$65.1 million of debt issuance costs as of September 30, 2015.

In November 2015, the FASB issued ASU No. 2015-17, *Income Taxes (Topic 740) Balance Sheet Classification of Deferred Taxes*. The ASU simplifies the presentation of deferred tax assets and liabilities to be classified as noncurrent on a balance sheet. Current guidance requires an entity to separate deferred income tax assets and liabilities into current and noncurrent amounts. The new guidance requires all deferred tax assets and liabilities to be presented as noncurrent as the separate current classification results in little to no benefit to users of the financial statements because the classification does not generally align with the time period in which the recognized deferred tax amounts are expected to be recovered or settled. During the three month period ended January 3, 2016, the Company retrospectively applied the adoption of this ASU, resulting in a reclassification of \$44.7 million of current deferred tax assets and \$4.6 million of current deferred tax liabilities as of September 30, 2015.

The following is a summary of the reclassifications from the retrospective adoption of ASU 2015-03 and ASU 2015-17 discussed above, as of September 30, 2015 for SBH and SB/RH, respectively:

| Statement of Financial Position (in millions) | Spectrum Brands Holdings, Inc. | | | SB/RH Holdings, LLC | | |

| Deferred taxes (noncurrent liability) | (607.0) | 34.5 | (572.5) | (607.0) | 34.5 | (572.5) |

In September 2015, the FASB issued ASU No. 2015-16, *Business Combinations (Topic 805): Simplifying the Accounting for Measurement-Period Adjustments*. The ASU simplifies the presentation of provisional amounts recognized in a business combination during the measurement period (one year from the date of acquisition). Current guidance requires retrospective adjustment of prior periods; the new guidance eliminates this requirement. The Company applied the adoption of this ASU effective the first day of the year ending September 30, 2016 and all subsequent measurement period adjustments are recorded in the period identified, resulting in the recognition of adjustments to goodwill from the Armored AutoGroup (AAG) acquisition. See Note 8 Goodwill and Intangible Assets , for adjustments to goodwill.

NOTE 10 - DERIVATIVES***Cash Flow Hedges***

Interest Rate Swaps. The Company uses interest rate swaps to manage its interest rate risk. The swaps are designated as cash flow hedges with the changes in fair value recorded in Accumulated Other Comprehensive Income (AOCI) and as a derivative hedge asset or liability, as applicable. The swaps settle periodically in arrears with the related amounts for the current settlement period payable to, or receivable from, the counterparties included in accrued liabilities or receivables, respectively, and recognized in earnings as an adjustment to interest from the underlying debt to which the swap is designated. At July 3, 2016 and September 30, 2015, the Company had a series of U.S. dollar denominated interest rate swaps outstanding which effectively fix the interest on floating rate debt, exclusive of lender spreads, at 1.36% for a notional principal amount of \$300.0 million through April 2017. The derivative net losses estimated to be reclassified from AOCI into earnings over the next 12 months is \$1.3 million, net of tax. The Company's interest rate swap derivative financial instruments at July 3, 2016 and September 30, 2015 are as follows:

| (in millions) | July 3, 2016 | | September 30, 2015 | |

Table of Contents

Commodity Swaps. The Company is exposed to risk from fluctuating prices for raw materials, specifically zinc and brass used in its manufacturing processes. The Company hedges a portion of the risk associated with the purchase of these materials through the use of commodity swaps. The hedge contracts are designated as cash flow hedges with the fair value changes recorded in AOCI and as a hedge asset or liability, as applicable. The unrecognized changes in fair value of the hedge contracts are reclassified from AOCI into earnings when the hedged purchase of raw materials also affects earnings. The swaps effectively fix the floating price on a specified quantity of raw materials through a specified date. At July 3, 2016, the Company had a series of zinc and brass swap contracts outstanding through September 2017. The derivative net gains estimated to be reclassified from AOCI into earnings over the next 12 months is \$0.6 million, net of tax. The Company had the following commodity swap contracts outstanding as of July 3, 2016 and September 30, 2015.

| (in millions, except notional) | July 3, 2016 | | September 30, 2015 | |
|--------------------------------|--------------|----------------|--------------------|----------------|
| | Notional | Contract Value | Notional | Contract Value |
| Zinc swap contracts | 7.2 Tons | \$ 13.6 | 10.8 Tons | \$ 22.2 |
| Brass swap contracts | 1.0 Tons | \$ 4.3 | 1.8 Tons | \$ 8.5 |

Foreign exchange contracts. The Company periodically enters into forward foreign exchange contracts to hedge the risk from forecasted foreign currency denominated third party and intercompany sales or payments. These obligations generally require the Company to exchange foreign currencies for U.S. Dollars, Euros, Pounds Sterling, Australian Dollars, Brazilian Reals, Mexican Pesos, Canadian Dollars or Japanese Yen. These foreign exchange contracts are cash flow hedges of fluctuating foreign exchange related to sales of product or raw material purchases. Until the sale or purchase is recognized, the fair value of the related hedge is recorded in AOCI and as a derivative hedge asset or liability, as applicable. At the time the sale or purchase is recognized, the fair value of the related hedge is reclassified as an adjustment to Net Sales or purchase price variance in Cost of Goods Sold on the Condensed Consolidated Statements of Operations. At July 3, 2016, the Company had a series of foreign exchange derivative contracts outstanding through September 2017. The derivative net gains estimated to be reclassified from AOCI into earnings over the next 12 months is \$4.1 million, net of tax. At July 3, 2016 and September 30, 2015, the Company had foreign exchange derivative contracts designated as cash flow hedges with a notional value of \$224.7 million and \$300.6 million, respectively.

Derivative Contracts Not Designated as Hedges for Accounting Purposes

Foreign exchange contracts. The Company periodically enters into forward and swap foreign exchange contracts to economically hedge the risk from third party and intercompany payments resulting from existing obligations. These obligations generally require the Company to exchange foreign currencies for U.S. Dollars, Canadian Dollars, Euros or Australian Dollars. These foreign exchange contracts are fair value hedges of a related liability or asset recorded in the accompanying Condensed Consolidated Statements of Financial Position. The gain or loss on the derivative hedge contracts is recorded in earnings as an offset to the change in value of the related liability or asset at each period end. At July 3, 2016, the Company had a series of forward exchange contracts outstanding through August 2016. At July 3, 2016 and September 30, 2015, the Company had \$197.1 million and \$126.8 million, respectively, of notional value of such foreign exchange derivative contracts outstanding.

Commodity Swaps. The Company periodically enters into commodity swap contracts to economically hedge the risk from fluctuating prices for raw materials, specifically the pass-through of market prices for silver used in manufacturing purchased watch batteries. The Company hedges a portion of the risk associated with these materials through the use of commodity swaps. The swap contracts are designated as economic hedges with the unrealized gain or loss recorded in earnings and as an asset or liability at each period end. The unrecognized changes in the fair value

of the hedge contracts are adjusted through earnings when the realized gains or losses affect earnings upon settlement of the hedges. The swaps effectively fix the floating price on a specified quantity of silver through a specified date. At July 3, 2016, the Company had a series of commodity swaps outstanding through August 2016. The Company had the following commodity swaps outstanding as of July 3, 2016 and September 30, 2015:

| (in millions, except notional) | July 3, 2016 | | September 30, 2015 | |

The Company is exposed to the risk of default by the counterparties with which it transacts and generally does not require collateral or other security to support financial instruments subject to credit risk. The Company monitors counterparty credit risk on an individual basis by periodically assessing each such counterparty's credit rating exposure. The maximum loss due to credit risk equals the fair value of the gross asset derivatives that are concentrated with certain domestic and foreign financial institution counterparties. The Company considers these exposures when measuring its credit reserve on its derivative assets, which was less than \$0.1 million as of July 3, 2016 and September 30, 2015.

The Company's standard contracts do not contain credit risk related contingent features whereby the Company would be required to post additional cash collateral as a result of a credit event. However, the Company is typically required to post collateral in the normal course of business to offset its liability positions. As of September 30, 2015, there was \$3.5 million of posted cash collateral related to such liability positions. As of July 3, 2016, there was no cash

collateral outstanding. In addition, as of July 3, 2016 and September 30, 2015, the Company had no posted standby letters of credit related to such liability positions. The cash collateral is included in Other Receivables in the Condensed Consolidated Statements of Financial Position.

The effective tax rate for the three month period ended July 3, 2016 was increased due to \$25.5 million of income tax expense recognized for a tax contingency reserve for a tax exposure in Germany. SBH effective tax rate also includes \$5.3 million of tax benefits from the adoption of ASU No. 2016-09. SBRH effective tax rate includes \$9.4 million of tax benefits from the adoption of ASU No. 2016-09. In December 2015, the Company received a ruling from the Internal Revenue Service which resulted in approximately \$88 million of U.S. net operating losses being restored. The ruling created additional U.S. deferred tax assets and valuation allowance during the nine month period ended July 3, 2016.

Table of Contents

The Company has projected to release approximately \$109 million of valuation allowance during the year ending September 30, 2016 based on estimates of taxable income. The following recent financing activity has a significant impact on the comparability of financial results on the condensed consolidated financial statements.

During the year ended September 30, 2015, we refinanced a portion of our debt to extend maturities and reduce borrowing costs. On May 20, 2015, in connection with the acquisition of *AAG*, we issued \$1,000 million aggregate principal amount of 5.75% unsecured notes due July 15, 2025 (the *5.75% Notes*). On June 23, 2015, we entered into term loan facilities pursuant to a Senior Credit Agreement consisting of: (i) a \$1,450 million USD Term Loan due June 23, 2022, (ii) a \$75 million CAD Term Loan due June 23, 2022 and (iii) a 300 million Euro Term Loan due June 23, 2022, (collectively, *Term Loans*) and (iv) entered into a \$500 million Revolver Facility due June 23, 2020. Table of Contents

Gross Profit. For the three month period ended July 3, 2016, gross profit increased \$72.6 million compared to the three month period ended June 28, 2016, primarily attributable to an increase in net sales and increase in gross profit margin. Gross profit margin increased from 36.7% to 39.0% primarily due to higher profit margins contributed by the AAG acquisition, a shift towards higher margin sales and continuing cost improvements across segments. For the nine month period ended July 3, 2016, gross profit increased \$231.2 million compared to the nine month period ended June 28, 2016, attributable to increase in net sales and increase in gross profit margin. Gross profit margin increased from 35.6% to 37.8% due to margins contributed by the AAG acquisition, a shift towards higher margin sales and continuing cost improvements across segments.

Operating Expenses. Operating expenses for the three month period ended July 3, 2016 increased \$1.6 million compared to the three month period ended June 28, 2015, primarily attributable to an increase in selling and general and administrative expenses of \$21.2 million from acquisitions previously discussed; offset by a decrease in acquisition & integration related charges of \$16.2 million from lower acquisition activity and decreased restructuring and related charges of \$5.1 million. Operating expenses for the nine month period ended July 3, 2016 increased \$73.2 million compared to the nine month period ended June 28, 2015, primarily attributable to increase in selling and general and administrative expenses of \$94.3 million from acquisitions previously discussed and increased share based compensation of \$11.1 million; offset by decreased acquisition & integration related charges of \$13.0 million from lower acquisition activity, and decreased restructuring and related charges of \$14.1 million. See Note 3 to the Condensed Consolidated Financial Statements, *Acquisitions*, included elsewhere within this quarterly report, for additional detail on acquisition activity and acquisition and integration costs; and Note 4 to the Condensed Consolidated Financial Statements, *Restructuring and Related Charges*, included elsewhere within this Quarterly Report, for additional detail on restructuring activity and related costs.

Interest Expense. Interest expense for the three month period ended July 3, 2016 decreased \$53.0 million, or 46.9%, from the three month period ended June 28, 2015, directly attributable to the refinancing activity previously discussed coupled with scheduled and discretionary payments on outstanding debt balances. Interest expense for the nine month period ended July 3, 2016 decreased \$30.7 million, or 14.9%, compared to nine month period ended June 28, 2015 directly attributable to the refinancing activity coupled with scheduled and discretionary payments on outstanding debt balances. See Note 9 to the Condensed Consolidated Financial Statements, *Debt*, included elsewhere within this Quarterly Report, for additional information regarding our outstanding debt.

Income Taxes. Our effective tax rate was 29.4% for the three month period ended July 3, 2016 compared to (112.8%) for the three month period ended June 28, 2015. Our effective tax rate was 14.8% for the nine month period ended July 3, 2016 compared to 3.8% for the nine month period ended June 28, 2015. Our estimated annual effective tax rate applied to these periods differs from the U.S. federal statutory rate of 35% primarily due to income earned outside the U.S. that is subject to statutory rates lower than 35% and the release of valuation allowances on U.S. net operating losses deferred tax assets offsetting tax expense on U.S. pretax income. For the three and nine month periods ended June 28, 2015, we also recorded U.S. deferred income tax expense related to the change in book versus tax basis of indefinite-lived intangibles, which are amortized for tax purposes but not for book purposes.

Our effective tax rate for the three month period ended July 3, 2016 includes a \$25.5 million expense to record a tax contingency reserve for a tax exposure in Germany. During the quarter, a local court ruled against our characterization of certain assets as amortizable under Germany tax law. We have appealed this ruling to the German Federal Court. While we continue to believe that our tax treatment was correct under the applicable German law, we have concluded that sufficient uncertainty on the ruling from the German Federal Court exists to record a full tax contingency for this exposure.

Our effective tax rate for the three and nine month periods ended July 3, 2016 also includes \$5.3 million and \$22.7 million of tax benefits, respectively, resulting from the adoption of ASU 2016-09. See Note 2 to the Condensed Consolidated Financial Statements, Significant Accounting Policies, included elsewhere in this Quarterly Report, for additional discussion and detail over the adoption of ASU 2016-09. For the nine month period ended July 3, 2016, the effective tax rate was also reduced due to \$5.9 million for non-recurring items related to the impact of tax law changes and changes in state deferred tax rates on the Company's net deferred tax liabilities.

Non-GAAP Measurements

Adjusted EBITDA. Our consolidated and segment results include financial information regarding Adjusted EBITDA (Earnings Before Interest, Taxes, Depreciation, Amortization), which are non-GAAP earnings. Adjusted EBITDA is a metric used by management and we believe this non-GAAP measure provides useful information to investors because it reflects ongoing operating performance and trends of our segments, excluding certain non-cash based expenses and/or non-recurring items during each of the comparable periods and facilitates comparisons between peer companies since interest, taxes, depreciation and amortization can differ greatly between organizations as a result of differing capital structures and tax strategies. Further, Adjusted EBITDA is a useful measure of a company's ability to service debt and is one measure used for determining the Company's debt covenant. EBITDA is calculated by excluding the Company's income tax expense, interest expense, depreciation expense and amortization expense (from intangible assets) from net income. Adjusted EBITDA further excludes: (1) stock based compensation expense as it is a non-cash based compensation cost; (2) acquisition and integration costs that consist of transaction costs from acquisition transactions during the period or subsequent integration related project costs directly associated with the acquired business; (3) restructuring and related costs, which consist of project costs associated with restructuring initiatives across the segments; (4) non-cash purchase accounting inventory adjustments recognized in earnings subsequent to an acquisition; (5) non-cash asset impairments or write-offs realized; (6) and other. During the nine month period ended July 3, 2016, other adjustments consisted of costs associated with the onboarding a key executive and the involuntary transfer of inventory. During the three and nine month periods ended June 28, 2015, other consisted of costs associated with the exiting of a key executive, coupled with onboarding a key executive.

Organic Sales. Our consolidated and segment results contain financial information regarding organic net sales, which we define as net sales excluding the effect of changes in foreign currency exchange rates and impact from acquisitions. We believe this non-GAAP measure provides useful information to investors because it reflects regional and operating segment performance from our activities without the effect of changes in currency exchange rate and/or acquisitions. We use organic net sales as one measure to monitor and evaluate our regional and segment performance. Organic growth is calculated by comparing organic net sales to net sales in the prior year. The effect of changes in currency exchange rates is determined by translating the period's net sales using the currency exchange rates that were in effect during the prior comparative period. Net sales are attributed to the geographic regions based on the country of destination. We exclude net sales from acquired businesses in the current year for which there are no comparable sales in the prior period. The following is a reconciliation of reported sales to organic sales for the three and nine month periods ended July 3, 2016 compared to net sales for the three and nine month periods ended June 28, 2015, respectively:

The \$1,181.6 million decrease in cash used by investing activities from SB/RH Holdings, LLC for the nine month period ended July 3, 2016, was primarily attributable to the Spectrum Brands Holdings, Inc. factors discussed above.

Table of Contents

Net cash provided by financing activities

Net cash used by financing activities of \$173.3 million for the nine month period ended July 3, 2016 consisted of (i) \$198.5 million net proceeds from the Revolver Facility and \$5.4 million from other debt financing; (ii) \$13.9 million net proceeds from an intercompany loan; (iii) \$311.7 million of payments on debt; (iv) payment of debt issuance costs of \$1.6 million; (v) cash dividends to parent of \$74.6 million and (vi) payment of contingent consideration associated with acquisitions in prior periods of \$3.2 million.

Net cash provided by financing activities of \$1,333.2 million for the nine month period ended June 28, 2015 consisted of (i) proceeds related to the issuance of debt of \$1,444.8 USD Term Loan, \$60.9 million CAD Term Loan, \$340.2 million Euro Term Loan, \$250.0 million of 6.375% unsecured notes, \$1,000 million of 5.75% unsecured notes, \$185.4 million of Euro Term Loan Tranche B, and \$47.5 million of other debt financing; (ii) \$38.9 net proceeds from an intercompany loan; (iii) \$2,472.6 million of payments on debt; (iv) payment of debt issuance costs of \$37.3 million; (v) capital contributions of \$528.3 million from parent; (vi) cash dividends to parent of \$51.0 million; and (vii) a use to pay share-based tax withholdings of employees for vested stock awards of \$1.9 million, net of proceeds upon vesting.

Capital Expenditures

Capital expenditures for the Company totaled \$59.6 million and \$49.5 million for the nine month periods ended July 3, 2016, and June 28, 2015, respectively. We expect to make investments in capital projects similar to historical levels, as well as incremental investments in high return innovation and cost reduction projects slightly above historical levels.

Depreciation and Amortization

Depreciation and amortization for the Company totaled \$136.7 million and \$122.7 million for the nine months ended July 3, 2016, and June 28, 2015, respectively. The increase in depreciation and amortization of \$14.0 million for the nine month period ended July 3, 2016 was due to the recognition of property, plant and equipment and definite lived intangible assets from the AAG, European IAMS and Eukanuba, and Salix acquisitions during the fiscal year ended September 30, 2015.

Indebtedness

Refer to Note 9 to the Condensed Consolidated Financial Statements, *Debt*, included elsewhere in this Quarterly Report for additional information. At July 3, 2016, we were in compliance with all covenants under the Senior Credit Agreement, the indenture governing both the 6.375% Notes and the 6.625% Notes, the indenture governing the 6.125% Notes, and the indenture governing the 5.75% Notes.

Credit Ratings

The Company's access to the capital markets and financing costs may depend on the credit ratings of the Company when it is accessing the capital markets. None of the Company's current borrowings are subject to default or acceleration as a result of a downgrading of credit ratings, although a downgrade of the Company's credit ratings could increase fees and interest charges on future borrowings.

Equity

During the nine month period ended July 3, 2016, SBH granted 0.6 million restricted stock units to our employees and our directors. All vesting dates are subject to the recipient's continued employment, except as otherwise permitted by our Compensation Committee or Board of Directors or in certain cases if the employee is terminated without cause or as otherwise provided in an applicable employment agreement. The total market value of the RSUs on the date of grant was \$55.7 million, which represented unearned share based compensation. Such unearned compensation is amortized to expense over the appropriate vesting period. See Note 13, Share Based Compensation of Notes to Condensed Consolidated Financial Statements included elsewhere in this Quarterly Report for additional information.

From time to time we may repurchase outstanding shares of SBH common stock in the open market or otherwise. On July 28, 2015, the Board of Directors approved a \$300 million common stock repurchase program. The authorization is effective for 36 months. During the nine month period ended July 3, 2016, SBH repurchased 0.4 million shares.

Liquidity Outlook

The Company's ability to make principal and interest payment on borrowings under its U.S. and foreign credit facilities and its ability to fund planned capital expenditures will depend on its ability to generate cash in the future, which, to a certain extent, is subject to general economic, financial, competitive, regulatory and other conditions. Based on its current level of operations, the Company believes that its existing cash balances and expected cash flows from operations will be sufficient to meet its operating requirements for at least the next 12 months. However, the Company may request borrowings under its credit facilities and seek alternative forms of financing or additional investments to achieve its longer-term strategic plans.

Off-Balance Sheet Arrangements

We do not have any off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that are material to investors.

Critical Accounting Policies and Estimates

Our Condensed Consolidated Financial Statements included in this Quarterly Report on Form 10-Q have been prepared in accordance with generally accepted accounting principles in the United States of America and fairly present our financial position and results of operations. There have been no material changes to our critical accounting policies or critical accounting estimates as discussed in our Annual Report on Form 10-K for the year ended September 30, 2015.

New Accounting Pronouncements

In May 2014, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2014-09, *Revenue from Contracts with Customers (Topic 606)*, which supersedes the revenue recognition requirements in ASC 605, *Revenue Recognition*. This ASU requires revenue recognition to depict the transfer of goods and services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The new revenue recognition model requires identifying the contract and performance obligations, determining the transaction price, allocating the transaction price to performance obligations and recognizing the revenue upon satisfaction of performance obligations. This ASU also requires additional disclosure about the nature, amount, timing and uncertainty of revenue and cash flows arising from customer contracts, including significant judgments and changes in judgements, and assets recognized from costs incurred to obtain or fulfill a contract. This ASU can be applied either retrospectively to each prior reporting period presented or retrospectively with the cumulative effect of initially applying the updates recognized at the date of the initial application along with additional disclosures. In August 2015, the FASB issued ASU No. 2015-14, *Revenue from Contracts with Customers (Topic 606) Deferral of the Effective Date*, which amends the previously issued ASU to provide for a one year deferral from the original effective date. As a result, the ASU will become effective for us beginning in the first quarter of our fiscal year ending September 30, 2019, with early application available to us beginning in the first quarter of our fiscal year ending September 30, 2018. We are currently assessing the impact this pronouncement will have on the consolidated financial statements of the Company.

In February 2016, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2016-02, *Leases (Topic 842)*, which supersedes the lease requirements in ASC 840, *Leases*. This ASU requires lessees to recognize lease assets and liabilities on the balance sheet, as well as disclosing key information about leasing arrangements. Although the new ASU requires both operating and finance leases to be disclosed on the balance sheet,

a distinction between the two types still exists as the economics of leases can vary. The ASU can be applied using a modified retrospective approach, with a number of optional practical expedients relating to the identification and classification of leases that commenced before the effective date, along with the ability to use hindsight in the evaluation of lease decisions, that entities may elect to apply. As a result, the ASU will become effective for us beginning in the first quarter of our fiscal year ending September 30, 2020, with early adoption applicable. We are currently assessing the impact this pronouncement will have on the consolidated financial statements of the Company.

**Item 3. Quantitative and Qualitative Disclosures About Market Risk
Market Risk Factors**

There has been no material changes in the Company's market risk during the nine month period ended July 3, 2016. The announcement of the Referendum of the United Kingdom's (UK) Membership of the European Union (EU) on June 23, 2016 (referred to as Brexit), advising for the exit of the UK from the EU, adversely impacted global markets and foreign currencies. In particular, the value of the Pound Sterling has sharply declined as compared to the US Dollar and other currencies. The market changes in foreign currency as a result of the Brexit vote did not have a material impact on or foreign currency risk for the period and no changes were made to our ongoing hedging strategies used to manage such risk.

For additional information, refer to Note 9 Debt , and Note 10 Derivatives , to the Condensed Consolidated Financial Statements included elsewhere in the Quarterly Report and to Part II, Item 7A of the Company's Annual Report on Form 10-K for the year ended September 30, 2015.

**Item 4. Controls and Procedures
Spectrum Brands Holdings, Inc.**

Evaluation of Disclosure Controls and Procedures. Our management, with the participation of our principal executive officer and principal financial officer, has evaluated the effectiveness of our disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) pursuant to Rule 13a-15(b) under the Exchange Act as of the end of the period covered by this Quarterly Report on Form 10-Q. Based on this evaluation, the Company's management, including our Chief Executive Officer and Chief Financial Officer have concluded that, as of such date, our disclosure controls and procedures are effective to ensure that information required to be disclosed by us in reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in applicable SEC rules and forms, and is accumulated and communicated to the Company's management, including the Company's Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Control Over Financial Reporting. There was no change in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Securities Exchange Act of 1934, as amended) that occurred during the three month period ended July 3, 2016 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Limitations on the Effectiveness of Controls. The Company's management, including our Chief Executive Officer and Chief Financial Officer, does not expect that the Company's disclosure controls and procedures or the Company's internal controls over financial reporting will prevent all errors and all fraud. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been detected.

PART II. OTHER INFORMATION

**Item 1. Legal Proceedings
Litigation**

We are a defendant in various matters of litigation generally arising out of the ordinary course of business. We do not believe that any matters or proceedings presently pending will have a material adverse effect on our results of operations, financial condition, liquidity or cash flows.

Item 1A. Risk Factors

Information about our risk factors is contained in Item 1A of our Annual Report on Form 10-K for the fiscal year ended September 30, 2015. With the exception of additional risk factors discussed below, we believe that at July 3, 2016, there have been no material changes in our risk factors from those contained in Item 1A of our Annual Report on Form 10-K.

Risk Relating to the Referendum of the United Kingdom's Membership of the European Union.

The announcement of the Referendum of the United Kingdom's (UK) Membership of the European Union (EU) on June 23, 2016 (referred to as Brexit), advising for the exit of the UK from the EU, has adversely impacted global markets and foreign currencies. In particular, the value of the Pound Sterling has sharply declined as compared to the US Dollar and other currencies. This volatility in foreign currencies is expected to continue as the UK negotiates and executes its exit from the EU, but it is uncertain over what time period this will occur. A significantly weaker Pound Sterling compared to the US Dollar could have a significant negative effect on the Company's business, financial condition and results of operations. The decrease in value to the Pound Sterling and impacts across global markets and foreign currencies may influence trends in consumer confidence and discretionary spending habits, but given the lack of precedent and uncertainty, it is unclear how the implications will affect us.

For now, the UK remains a member of the EU and there will not be any immediate change in either EU or UK law as a consequence of the leave vote. Negotiations will commence to determine the future terms of the UK relationship with the EU, including the terms of trade between the UK and the EU. The effects of Brexit will depend on any agreements the UK makes to retain access to EU markets either during a transitional period or more permanently. Brexit could lead to legal uncertainty and potentially divergent national laws and regulations as the UK determines which EU laws to replace or replicate. Any of these effects of Brexit and others we cannot anticipate, could adversely affect our business, business opportunities, results of operations, financial condition and cash flows.
