Report to Shareowners:
June 30, 2003

In spite of some progress in the popular averages during the first six months of this year, the broad market has not performed well. For the six months, the DJIA was up 7.7% while the Standard & Poor's 500 increased 10.8%. The Net Asset Value of the Fund went from \$9.08 to \$9.60 in that period. Annualized investment returns can be found on page 6 of this report.

The one bright spot has been some positive activity in the payments of dividends since the lower tax rate was initiated in May. Companies held in the portfolio such as Citigroup, Colgate-Palmolive and AFLAC increased their dividends more than 20% when compared to the prior year's annualized rates. This is encouraging, especially with the yields on money markets and T-bills being so low. We hope this trend continues as we reported in last year's annual report that dividend increases at that time were less than in prior years.

One new company was added to the portfolio with the purchase of 2,000 Avery Dennison. Other additions made to existing holdings included 1,000 Albertsons, 2,000 Pentair, 3,000 PepsiCo, 3,000 RPM, and 2,000 Teleflex. Sales included PolyOne, a reduction in Stryker, DelMonte Foods which was a spin-off from H.J. Heinz, and Wyeth. That resulted in long-term capital gains of a little more than \$300,000 for the current year.

The Fund managers continue to look at company fundamentals closely when making buy and sell decisions. Over the short-term, stock prices do not always reflect earnings progress, but the managers feel confident that long-term price trends will eventually be tied to earnings performance.

NAIC Growth Fund, Inc.
Notes to Financial Statements (unaudited)

(1) ORGANIZATION

The NAIC Growth Fund, Inc. (the "Fund") was organized under Maryland law on April 11, 1989 as a diversified closed-end investment company under the Investment Company Act of 1940. The Fund commenced operations on July 2, 1990.

(2) SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of the significant accounting policies followed by the Fund not otherwise set forth in the notes to financial statements:

Dividends and Distributions - Dividends from the Fund's net investment income and realized net long- and short-term capital gains will be declared and distributed at least annually. Shareowners may elect to participate in the Dividend Reinvestment and Cash Purchase Plan (see Note 4).

Investments - Investments in equity securities are stated at market value, which is determined based on quoted market prices or dealer quotes. Pursuant to Rule 2a-7 of the Investment Company Act of 1940, the Fund utilizes the amortized cost method to determine the carrying value of short-term debt obligations. Under this method, investment securities are valued for both financial reporting and Federal tax purposes at amortized cost, which approximates fair value. Any discount or premium is amortized from the date of acquisition to maturity. Investment security purchases and sales are accounted for on a trade date basis. Interest income is accrued on a daily basis while dividends are included in income on the ex-dividend date.

Use of Estimates - The preparation of financial statements in conformity with generally accepted accounting principles in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Federal Income Taxes - The Fund intends to comply with the general qualification requirements of the Internal Revenue Code applicable to regulated investment companies. The Fund intends to distribute at least 90% of its taxable income, including net long-term capital gains, to its shareowners. In order to avoid imposition of the excise tax applicable to regulated investment companies, it is also the Fund's intention to declare as dividends in each calendar year at least 98% of its net investment income and 98% of its net realized capital gains plus undistributed amounts from prior years.

The following information is based upon Federal income tax cost of portfolio investments as of June 30, 2003:

Gross unrealized appreciation	\$ 8,459,811
Gross unrealized depreciation	(191,387)
Net unrealized appreciation	\$ 8,268,424

Edgar Filing: NAIC GROWTH FUND INC - Form N-CSRS

Federal income tax cost \$ 9,185,404

Expenses -The Fund's service contractors bear all expenses in connection with the performance of their services. The Fund bears all expenses incurred in connection with its operations including, but not limited to, management fees (as discussed in Note 3), legal and audit fees, taxes, insurance, shareowner reporting and other related costs. Such expenses will be charged to expense daily as a percentage of net assets. The Advisory Agreement provides that the Fund may not incur annual aggregate expenses in excess of two percent (2%) of the first Ten Million Dollars of the Fund's average net assets, one and one-half percent (1 1/2%) of the next Twenty Million Dollars of the average net assets, and one percent (1%) of the remaining average net assets for any fiscal year. Any excess expenses shall be the responsibility of the Investment Adviser, and the pro rata portion of the estimated annual excess expenses will be offset against the Investment Adviser's monthly fee. A director of the Fund provides professional services to the fund. The fees for those services amounted to \$4,000 for the six months ended June 30, 2003.

(3) MANAGEMENT ARRANGEMENTS

Investment Adviser - Growth Fund Advisor, Inc., serves as the Fund's Investment Adviser subject to the Investment Advisory Agreement, and is responsible for the management of the Fund's portfolio, subject to review by the board of directors of the Fund. For the services provided under the Investment Advisory Agreement, the Investment Adviser receives a monthly fee at an annual rate of three-quarters of one percent (0.75%) of the average weekly net asset value of the Fund, during the times when the average weekly net asset value is at least \$3,800,000. The Investment Adviser will not be entitled to any compensation for a week in which the average weekly net asset value falls below \$3,800,000.

Plan Agent - Standard Federal Bank (SFB) serves as the Fund's custodian pursuant to the Custodian Agreement. As the Fund's custodian, SFB receives fees and compensation of expenses for services provided including, but not limited to, an annual account charge, annual security fee, security transaction fee and statement of inventory fee. American Stock Transfer & Trust Company serves as the Fund's transfer agent and dividend disbursing agent pursuant to Transfer Agency and Dividend Disbursement Agreements. American Stock Transfer & Trust Company receives fees for services provided including, but not limited to, account maintenance fees, activity and transaction processing fees and reimbursement of out-of-pocket expenses such as forms and mailing costs.

(4) DIVIDEND REINVESTMENT AND CASH PURCHASE PLAN

The Fund has a Dividend Reinvestment and Cash Purchase Plan (the "Plan") which allows shareowners to reinvest dividends paid and make additional contributions. Under the Plan, if on the valuation date the net asset value per share is lower than the market price at the close of trading on that day, then the Plan Agent will elect on behalf of the shareowners who are participants of the Plan to take the dividends in newly issued shares of the Fund's common stock. If net asset value exceeds the market price on the valuation date, the Plan Agent will elect to receive cash dividends, and will promptly buy shares of the Fund's common stock on whatever market is consistent with best price and execution. The number of shares credited to each shareowner participant's account will be based upon the average purchase price for all shares purchased.

(5) DISTRIBUTIONS TO SHAREOWNERS

Edgar Filing: NAIC GROWTH FUND INC - Form N-CSRS

No distributions were made this year to date. The tax character of distributions paid during 2002 and 2001 was as follows:

Distributions paid from:	2002	2001

	1,225,329	1,451,238

As of June 30, 2003, the components of distributable earnings on a tax basis were as follows:

Undistributed ordinary income/(loss)	(\$3,585)
Unrealized appreciation	8,268,424

(6) Investment transactions

Purchases and sales of securities, other than short-term securities for the period ended June 30, 2003, were \$447,142 and \$599,760, respectively.

(7) FINANCIAL HIGHLIGHTS

The Financial Highlights present a per share analysis of how the Fund's net asset value has changed during the years presented. Additional quantitative measures expressed in ratio form analyze important relationships between certain items presented in the financial statements. The Total Investment Return based on market value assumes that shareowners bought into the Fund at the bid price and sold out of the Fund at the bid price. In reality, shareowners buy into the Fund at the ask price and sell out of the Fund at the bid price. Therefore, actual returns may differ from the amounts stated.
