To Our Shareholders,

I am pleased to be writing to you as Chairman, President and Chief Executive Officer of John Hancock Funds.

As you may know, John Hancock Financial Services, Inc. -- the parent company of John Hancock Funds -- was acquired by Manulife Financial Corporation on April 28, 2004. The merger combines two exceptionally strong companies into a single, integrated, global market leader whose scale and capital will create an industry pacesetter strengthening our company's leadership in markets around the world.

Although this change has no impact on the mutual funds you have invested in, it did bring with it some changes in the executive-level management of John Hancock Funds. Specifically, Maureen Ford Goldfarb has decided to step down as chairman, president and chief executive officer in order to pursue personal interests. Since her appointment in January 2000, Maureen has provided John Hancock Funds with strong leadership and steady guidance through several years of extremely turbulent market and industry conditions.

Effective May 12, 2004, I have been appointed by your Board of Trustees to the roles of Trustee, President and Chief Executive Officer of your fund. I have been in the investment business for over 25 years, most recently as President of Retirement Services at John Hancock Financial Services. In that role, my responsibilities included developing and directing the sale of John Hancock's variable and fixed annuity businesses through a diverse distribution network of banks and broker/dealers -- including wirehouses, regional brokerage houses and financial planners.

Prior to joining John Hancock, I served as Co-Chief Executive Officer of MetLife Investors Group, a subsidiary of MetLife, Inc. In that capacity my responsibilities included the design, manufacture and distribution of MetLife's annuity and life insurance products sold through third-party channels.

Although there has been a change in executive-level management, the one thing that never waivers is John Hancock Funds' commitment to placing the needs of our shareholders above all else. We are all dedicated to the task of working with you and your financial advisors to help you reach your long-term financial goals. It is the foundation of our relationship with you.

Sincerely,

/S/ JAMES A. SHEPHERDSON

YOUR FUND AT A GLANCE

The Fund seeks to provide high current income, consistent with modest growth of capital, for holders of its common shares by investing at least 80% of its assets in dividend-paying securities.

Over the last six months

- * A dividend tax cut and bond rally helped buoy demand for preferred and utility common stocks.
- * The Fund benefited from advantageous security selection among preferred stocks.
- * A significant stake in utility common stocks also aided performance.

MANAGERS'
REPORT

JOHN HANCOCK
Patriot Premium Dividend Fund I

Preferred stocks -- which are the primary emphasis of John Hancock Patriot Premium Dividend Fund I -- posted strong returns during the six-month period ended March 31, 2004, fueled in large part by favorable supply and demand conditions. An increasing number of companies that issued preferred stocks in years when interest rates were higher redeemed those older preferred stocks to take advantage of the lower interest rates that prevailed during much of the period. Those redemptions resulted in a reduced net supply of preferred stocks. At the same time, demand burgeoned as individual and institutional investors increasingly sought out higher yielding alternatives to most fixed-income securities and common stocks. Demand got an added boost from the passage of President Bush's dividend tax-cut package, which greatly reduced the taxes individuals pay on most stock dividends. The preferred market was also helped by a Treasury market rally in early March, which was sparked by a string of weak monthly employment reports that showed job creation was well below expectations.

"Preferred stocks...posted strong returns during the six-month period ended March 31, 2004..."

Utility common stocks -- the Fund's other area of focus -- also staged a significant rally during the period. Part of investors' renewed optimism was in reaction to efforts by utilities to reduce debt, improve their financing and shed money-losing unregulated subsidiaries. Like preferreds, utility common stocks also benefited from strong demand in response to dividend tax relief. Utilities have traditionally offered consistently high dividends over the years.

PERFORMANCE

For the six months ended March 31, 2004, John Hancock Patriot Premium Dividend Fund I returned 13.75% at net asset value.

2

By comparison, the average income and preferred stock closed-end fund returned 11.49%, according to Lipper, Inc. In the same six-month period, the Dow Jones Utility Average -- which tracks the performance of 15 electric and natural gas utilities -- returned 14.34%, and the broader stock market, as measured by the Standard & Poor's 500 Index, returned 14.07%.

LEADERS AND LAGGARDS

Within the preferred-stock category, some of our best-performing holdings

Edgar Filing: HANCOCK JOHN PATRIOT PREMIUM DIVIDEND FUND I - Form N-CSR

were those issued by financial services companies. Lehman Brothers, for example, performed quite well, fueled by strength in bond trading and underwriting, stock sales and mergers. Merrill Lynch also performed well, thanks to its strong credit rating compared with its brokerage services group peers and enhanced earnings consistency, resulting from what the company termed "a diversity of revenues from multiple asset classes, client segments and geographic regions." Bear Stearns benefited from increased revenues and cost controls, which resulted in substantial improvement in the company's profitability.

ENERGY STRONG

Preferred stocks issued by oil and natural gas companies also posted strong returns during the period. In the post-September 11 era, energy prices stayed high and, late in the period, began to climb, in part because of a so-called "risk premium" for potential attacks, both here and abroad. Those high energy prices, in turn, helped boost the fortunes of holdings such as Anadarko Petroleum, Apache, Devon Energy and Nexen.

"Preferred stocks issued
by oil and natural gas com
panies also posted strong
returns..."

High energy prices also helped some of our utility common stocks, particularly Dominion Resources, which has significant oil and gas operations. It also enjoyed strong results from its regulated electric operation. The common stock of electric utility Alliant Energy also performed well, boosted in large part by investors' enthusiasm over the company's back-to-basics approach.

3

A disappointment during the period was Kansas City-based Aquila, a multi-national energy provider that has been trying to regain financial stability after retreating from the wholesale energy-trading markets that caused so many utilities pain in 2002. Despite these problems, we continued to hold onto our stake in Aquila because we believe the company is making positive steps toward reducing its debt, strengthening its balance sheet and putting its energy-trading problems behind it.

[Table at top left-hand side of page entitled "Top five industry groups 1." The first listing is Utilities 70%, the second is Broker services 8%, the third is Oil & gas 8%, the fourth is Media 4% and the fifth is Banks--United States 3%.]

OUTLOOK

In our view, the first half of 2004 likely will continue to favor preferred and utility stocks. First off, we believe that both sectors will keep on benefiting from the favorable supply and demand conditions that boosted their prospects over the past six months. Our interest-rate forecast -- which calls for continued low interest rates over the near term -- also should help preferreds because they pay dividends at a fixed rate like the interest on a bond and, as such, tend to perform best when rates decline or stabilize at relatively low levels, just as bonds do.

[Pie chart in middle of page with heading "Portfolio diversification 1."]

Edgar Filing: HANCOCK JOHN PATRIOT PREMIUM DIVIDEND FUND I - Form N-CSR

The chart is divided into three segments (from top to left): Preferred stocks 65%, Common stocks 33% and Short-term investments 2%.]

Although the economy has heated up, we don't think that the Federal Reserve Board will raise interest rates until the current recovery deepens and sustains itself for a longer period of time. Granted, longer-term bond yields could rise as investors worry about the prospects of future inflation, but the expected lack of a near-term interest-rate hike would keep short-term interest rates low, thereby making preferred stocks an attractive alternative to shorter-term, lower yielding money market and Treasury securities. Furthermore, we believe that investors'

4

appetite for preferred stocks and utility common stocks -- many of which benefit from the new lower federal tax on dividends -- could remain strong. In addition to robust demand, utility common stocks appear to have other factors working in their favor. Chief among them are the potential for more stable credit ratings and dividend payments.

[Table at top of page entitled "SCORECARD." The header for the left column is "INVESTMENT," and the header for the right column is "PERIOD'S PERFORMANCE...AND WHAT'S BEHIND THE NUMBERS." The first listing is Lehman Brothers followed by an up arrow with the phrase "Stock rallies amid strong earnings growth." The second listing is Dominion Resources followed by an up arrow with the phrase "High energy prices help boost profits." The third listing is Aquila followed by a down arrow with the phrase "Lingering problems with energy trading causes concern."]

"In our view, the first half of 2004 likely will continue to favor preferred and utility stocks."

This commentary reflects the views of the portfolio management team through the end of the Fund's period discussed in this report. The team's statements reflect their own opinions. As such, they are in no way guarantees of future events, and are not intended to be used as investment advice or a recommendation regarding any specific security. They are also subject to change at any time as market and other conditions warrant.

The Fund normally will invest more than 65% of its managed assets in securities of companies in the utilities industry. Such an investment concentration makes the Fund more susceptible than a broader diversified fund to factors adversely affecting the utilities industry. Sector investing is subject to greater risks than the market as a whole.

Securities in the Fund's portfolio are valued on the basis of market quotations, valuations provided by independent pricing services or at fair value as determined in good faith in accordance with procedures approved by the Trustees. Short-term debt investments maturing within 60 days are valued at amortized cost, which approximates market value. The Fund determines the net asset value of the common shares each business day.

Investment transactions

Investment transactions are recorded as of the date of purchase, sale or maturity. Net realized gains and losses on sales of investments are determined on the identified cost basis.

Expenses

The majority of expenses are directly identifiable to an individual fund. Expenses that are not readily identifiable to a specific fund are allocated in such a manner as deemed equitable, taking into consideration, among other things, the nature and type of expense and the relative sizes of the funds.

Federal income taxes

The Fund qualifies as a "regulated investment company" by complying with the applicable provisions of the Internal Revenue Code and will not be subject to federal income tax on taxable income that is distributed to shareholders. Therefore, no federal income tax provision is required. For federal income tax purposes, the Fund has \$55,954 of a capital loss carryforward available, to the extent provided by regulations, to offset future net realized capital gains. To the extent that such carryforward is used by the Fund, no capital gain distributions will be made. The entire amount of the loss carryforward expires September 30, 2010.

Dividends, interest and distributions

Dividend income on investment securities is recorded on the ex-dividend date or, in the case of some foreign securities, on the date thereafter when the Fund identifies the dividend. Interest income on investment securities is recorded on the accrual basis. Foreign income may be subject to foreign withholding taxes, which are accrued as applicable.

The Fund records distributions to common and preferred shareholders from net investment income and net realized gains on the ex-dividend date. Such distributions, on a tax basis, are determined in conformity with income tax regulations, which may differ from accounting principles generally accepted in the

Edgar Filing: HANCOCK JOHN PATRIOT PREMIUM DIVIDEND FUND I - Form N-CSR

profits, if any, are reported in the Fund's financial statements as a return of capital.

Use of estimates

The preparation of these financial statements, in accordance with accounting principles generally accepted in the United States of America, incorporates estimates made by management in determining the reported amount of assets, liabilities, revenues and expenses of the Fund. Actual results could differ from these estimates.

NOTE B

Management fee and transactions with affiliates and others

The Fund has an investment management contract with John Hancock Advisers, LLC (the "Adviser"), a wholly owned subsidiary of The Berkeley Financial Group, LLC. Under the investment management contract, the Fund pays a monthly management fee to the Adviser at an annual rate of 0.50% of the Fund's average weekly net asset value attributable to the DARTS, plus 5.00% of the Fund's weekly gross income. The Adviser's total fee is limited to a maximum amount equal to 1.00% annually of the Fund's average weekly net asset value and the value attributable to the preferred shares. For the period ended March 31, 2004, the advisory fee incurred did not exceed the maximum advisory fee allowed.

The Fund has an administrative agreement with the Adviser under which the Adviser oversees the custodial, auditing, valuation, accounting, legal, stock transfer and dividend disbursing services and maintains Fund communications with shareholders. The Fund pays the Adviser a monthly administration fee at an annual rate of 0.10% of the Fund's average weekly net asset value plus the value attributable to the preferred shares.

Mr. James A. Shepherdson is a director and/or officer of the Adviser and/or its affiliates, as well as Trustee of the Fund. The compensation of unaffiliated Trustees is borne by the Fund. The unaffiliated Trustees may elect to defer, for tax purposes, their receipt of this compensation under the John Hancock Group of Funds Deferred Compensation Plan. The Fund makes investments into other John Hancock funds, as applicable, to cover its liability for the deferred compensation. Investments to cover the Fund's deferred compensation liability are recorded on the Fund's books as an other asset. The deferred compensation liability and the related other asset are always equal and are marked to market on a periodic basis to reflect any income earned by the investments, as well as any unrealized gains or losses. The Deferred Compensation Plan investments had no impact on the operations of the Fund.

Dutch Auction Rate
Transferable Securities
preferred shares Series A

The Fund issued 685 shares of Dutch Auction Rate Transferable Securities preferred shares Series A ("DARTS") in a public offering. The underwriting discount was recorded as a reduction of the capital of common shares.

Dividends on the DARTS, which accrue daily, are cumulative at a rate that was established at the offering of the DARTS and has been reset every 49 days thereafter by an auction. Dividend rates on DARTS ranged from 1.04% to 1.14% during the period ended March 31, 2004. Accrued dividends on DARTS are included in the value of DARTS on the Fund's Statement of Assets and Liabilities.

The DARTS are redeemable at the option of the Fund, at a redemption price equal to \$100,000 per share, plus accumulated and unpaid dividends on any dividend payment date. The DARTS are also subject to mandatory redemption at a redemption price equal to \$100,000 per share, plus accumulated and unpaid dividends, if the Fund is in default on its asset coverage requirements with respect to the DARTS, as defined in the Fund's by-laws. If the dividends on the DARTS shall remain unpaid in an amount equal to two full years' dividends, the holders of the DARTS, as a class, have the right to elect a majority of the Board of Trustees. In general, the holders of the DARTS and the common shareholders have equal voting rights of one vote per share, except that the holders of the DARTS, as a class, vote to elect two members of the Board of Trustees, and separate class votes are required on certain matters that affect the respective interests of the DARTS and common shareholders.

NOTE D
Investment
transactions

Purchases and proceeds from sales or maturities of securities, other than short-term securities and obligations of the U.S. government, during the period ended March 31, 2004, aggregated \$31,372,938 and \$23,045,485, respectively.

The cost of investments owned on March 31, 2004, including short-term investments, for federal income tax purposes, was \$212,865,785. Gross unrealized appreciation and depreciation of investments aggregated \$20,829,474 and \$19,081,688, respectively, resulting in net unrealized appreciation of \$1,747,786. The difference between book basis and tax basis net unrealized appreciation of investments is attributable primarily to the tax deferral of losses on certain sales of securities.

16

INVESTMENT
OBJECTIVE
AND POLICY

The Fund's investment objective is to provide a high current income consistent with modest growth of capital for holders of its common shares of beneficial interest. The Fund will pursue its objective by investing in a diversified portfolio of dividend-paying preferred and common stocks.

The Fund's non-fundamental investment policy with respect to the quality of ratings of its portfolio investments, which was changed by a vote of the Fund's Trustees on September 13, 1994 and became effective October 15, 1994, stipulates that preferred stocks and debt obligations in which the Fund will invest will be rated investment-grade (at least "BBB" by S&P or "Baa" by Moody's) at the time of investment or will be preferred stocks of issuers of investment-grade senior debt, some of which may have speculative characteristics, or, if not rated, will be of comparable quality as determined by the Adviser. The Fund will invest in common stocks of issuers whose senior debt is rated investment-grade or, in the case of issuers that have no rated senior debt outstanding, whose senior debt is considered by the Adviser to be of comparable quality.

This revised policy supersedes the requirement that at least 80% of the Fund's total assets consist of preferred stocks and debt obligations rated "A" or higher and dividend-paying common stocks whose issuers have senior debt rated "A" or higher.

On November 20, 2001, the Fund's Trustees approved the following investment policy investment restriction change, effective December 15, 2001. Under normal circumstances, the Fund will invest at least 80% of its assets in dividend-paying securities. The "Assets" are defined as net assets including the liquidation preference amount of the DARTS plus borrowings for investment purposes. The Fund will notify shareholders at least 60 days prior to any change in this 80% investment policy.

BY-LAWS

In November 2002, the Board of Trustees adopted several amendments to the Fund's by-laws, including provisions relating to the calling of a special meeting and requiring advance notice of shareholder proposals or nominees for Trustee. The advance notice provisions in the by-laws require shareholders to notify the Fund in writing of any proposal that they intend to present at an annual meeting of shareholders, including any nominations for Trustee, between 90 and 120 days prior to the first anniversary of the mailing date of the notice from the prior year's annual meeting of shareholders. The notification must be in the form prescribed by the by-laws. The advance notice provisions provide the Fund and its Trustees with the opportunity to thoughtfully consider and address the matters proposed before the Fund prepares and mails its proxy statement to shareholders. Other amendments set forth the procedures that must be followed in order for a shareholder to call a special meeting of shareholders. Please contact the Secretary of the Fund for additional information about the advance notice requirements or the other amendments to the by-laws.

Effective December 16, 2003, the Trustees approved additional changes to

Edgar Filing: HANCOCK JOHN PATRIOT PREMIUM DIVIDEND FUND I - Form N-CSR

the Fund's by-laws. The changes included updating the leveraged rating agency requirements, in keeping with recent changes to the agencies' basic maintenance reporting requirements for leveraged closed-end funds. In addition, changes were made to reflect recent updates that Moody's made to some of their eligible asset and discount factors. These revisions bring the Fund's by-laws in line with current rating agency requirements.

DIVIDEND REINVESTMENT PLAN

The Fund offers its shareholders a Dividend Reinvestment Plan (the "Plan"), which offers the

17

opportunity to earn compounded yields. Each holder of common shares will automatically have all distributions of dividends and capital gains reinvested by Mellon Investor Services, as Plan agent for the common shareholders (the "Plan Agent"), unless an election is made to receive cash. Holders of common shares who elect not to participate in the Plan will receive all distributions in cash, paid by check mailed directly to the shareholder of record (or if the common shares are held in street or other nominee name, then to the nominee) by the Plan Agent, as dividend-disbursing agent. Shareholders whose shares are held in the name of a broker or a nominee should contact the broker or nominee to determine whether and how they may participate in the Plan.

If the Fund declares a dividend payable either in common shares or in cash, non-participants will receive cash and participants in the Plan will receive the equivalent in common shares. If the market price of the common shares on the payment date of the dividend is equal to or exceeds their net asset value as determined on the payment date, participants will be issued common shares (out of authorized but unissued shares) at a value equal to the higher of net asset value or 95% of the market price. If the net asset value exceeds the market price of the common shares at such time, or if the Board of Trustees declares a dividend payable only in cash, the Plan Agent will, as agent for Plan participants, buy shares in the open market, on the New York Stock Exchange or elsewhere, for the participant's accounts. Such purchases will be made promptly after the payable date for such dividend and, in any event, prior to the next ex-dividend date after such date, except where necessary to comply with federal securities laws. If, before the Plan Agent has completed its purchases, the market price exceeds the net asset value of the common shares, the average per share purchase price paid by the Plan Agent may exceed the net asset value of the common shares, resulting in the acquisition of fewer shares than if the dividend had been paid in shares issued by the Fund.

Each participant will pay a pro rata share of brokerage commissions incurred with respect to the Plan Agent's open market purchases in connection with the reinvestment of dividends and distributions. The cost per share of the shares purchased for each participant's account will be the average cost, including brokerage commissions, of any shares purchased on the open market plus the cost of any shares issued by the Fund. There will be no brokerage charges with respect to common shares issued directly by the Fund. There are no other charges to participants for reinvesting dividends or capital gain distributions.

Participants in the Plan may withdraw from the Plan at any time by contacting the Plan Agent by telephone, in writing or by visiting the Plan

Edgar Filing: HANCOCK JOHN PATRIOT PREMIUM DIVIDEND FUND I - Form N-CSR

Agent's Web site at www.melloninvestor.com. Such withdrawal will be effective immediately if received prior to a dividend record date; otherwise, it will be effective for all subsequent dividend record dates. When a participant withdraws from the Plan or upon termination of the Plan, as provided below, certificates for whole common shares credited to his or her account under the Plan will be issued and a cash payment will be made for any fraction of a share credited to such account.

The Plan Agent maintains each shareholder's account in the Plan and furnishes monthly written confirmations of all transactions in the accounts, including information needed by the shareholders for personal and tax records. The Plan Agent will hold common shares in the account of each Plan participant in non-certificated form in the name of the participant. Proxy material relating to the shareholders' meetings of the Fund will include

18

those shares purchased, as well as shares held pursuant to the Plan.

The reinvestment of dividends and distributions will not relieve participants of any federal income tax that may be payable or required to be withheld on such dividends or distributions. Participants under the Plan will receive tax information annually. The amount of dividend to be reported on 1099-DIV should be: (1) in the case of shares issued by the Fund, the fair market value of such shares on the dividend payment date and (2) in the case of shares purchased by the Plan Agent in the open market, the amount of cash used by the Plan Agent to purchase shares in the open market, including the amount of cash allocated to brokerage commissions paid on such purchases.

Experience under the Plan may indicate that changes are desirable. Accordingly, the Fund reserves the right to amend or terminate the Plan as applied to any dividend or distribution paid subsequent to written notice of the change sent to all shareholders of the Fund at least 90 days before the record date for the dividend or distribution. The Plan may be amended or terminated by the Plan Agent after at least 90 days' written notice to all shareholders of the Fund. All correspondence or additional information concerning the Plan should be directed to the Plan Agent, Mellon Bank, N.A., c/o Mellon Investor Services, P.O. Box 3338, South Hackensack, NJ 07606-1938 (telephone 1-800-852-0218).
