Information

Investments in funds involve risk. Certain investors' income may be subject to the federal Alternative Minimum Tax (AMT), and state and local taxes may also apply. Shares of closed-end funds frequently trade at a discount to net asset value. The price of the fund's shares is determined by a number of factors, several of which are beyond the control of the fund. Therefore, the fund cannot predict whether its shares will trade at, below or above net asset value. The fund invests in individual bonds whose yields and market values fluctuate, so that your investment may be worth more or less than its original cost.

Scudder Investments is part of Deutsche Asset Management, which is the marketing name in the US for the asset management activities of Deutsche Bank AG, Deutsche Investment Management Americas Inc., Deutsche Asset Management Inc., Deutsche Asset Management Investment Services Ltd., Deutsche Bank Trust Company Americas and Scudder Trust Company.

Fund shares are not FDIC-insured and are not deposits or other obligations of, or guaranteed by, any bank. Fund shares involve investment risk, including possible loss of principal.

Performance Summary November 30, 2004

Performance is historical, assumes reinvestment of all dividends and capital gains, and does not guarantee future results. Investment return and principal value fluctuate with changing market conditions so that, when sold, shares may be worth more or less than their original cost. Current performance may be lower or higher than the performance data quoted. Please visit scudder.com for the Fund's most recent performance.

^a Total investment returns reflect changes in net asset value per share during each period and assume that dividends and capital gains distributions, if any, were reinvested. These percentages are not an indication of the performance of a shareholder's investment in the Fund based on market price.

⁺ The unmanaged Lehman Brothers Municipal Bond Index is a market-value-weighted measure of municipal bonds issued across the United States. Index issues have a credit rating of at least Baa and a maturity of at least two years. Index returns assume reinvestment of dividends and, unlike Fund returns, do not reflect any fees or expenses. It is not possible to invest directly into an index.

⁺⁺ Current annualized distribution rate is the latest monthly dividend shown as an annualized percentage of net asset value/market price on November 30, 2004. Distribution rate simply measures the level of dividends and is not a complete measure of performance. Tax equivalent distribution rate is based on the Fund's distribution rate and a marginal income tax rate of 35%. Distribution rates are historical and will fluctuate.

Philip G. Condon and Rebecca L. Wilson serve as portfolio co-managers of Scudder Strategic Municipal Income Trust. In the following interview, Scudder's municipal bond team discusses the trust's performance for the period and the market environment for municipal bonds.

Q: Will you describe the general market environment during the annual period ended November 30, 2004?

A: Municipal bonds and the broad bond market, in general, delivered strong results for the 12-month period ended November 30, 2004. The municipal bond market, as measured by the Lehman Brothers Municipal Bond Index, returned 4.07% for the annual period ended November 30, 2004.¹ The broad bond market, as measured by the Lehman Brothers Aggregate Bond Index, returned 4.44% for the same period.²

¹ *The unmanaged Lehman Brothers Municipal Bond Index is a market-value-weighted measure of municipal bonds issued across the United States. Index issues have a credit rating of at least Baa and a maturity of at least two years. Index returns assume reinvestment of dividends and, unlike Fund returns, do not reflect any fees or expenses. It is not possible to invest directly into an index.*

² *The Lehman Brothers Aggregate Bond Index is an unmanaged index representing domestic taxable investment-grade bonds, with index components for government and corporate securities, mortgage pass-through securities and asset-backed securities with average maturities of one year or more.*

Index returns assume reinvestment of dividends, and unlike fund returns, do not reflect any fees or expenses. It is not possible to invest directly into an index.

Municipal bond new issue supply was lower for the 11-month (calendar year-to-date) period ended November 30, 2004 versus the same period in 2003. Because of concerns about rising interest rates, municipal bond demand was low among mutual fund investors. However, demand from institutional investors was strong. This combination of declining supply and solid demand helped municipal bonds outperform many taxable alternatives. Supply and demand factors are important because they are one way a bond's price can be driven higher or lower. High demand or low

supply can cause a bond's price to rise, while lessened demand or a flood of supply can cause a bond's price to decline. A bond's yield moves in the opposite direction of its price.

During the period, the Federal Reserve Board increased the federal funds rate, the benchmark for market interest rates, to 2.00% in four increments of 0.25 percentage points. However, slowing economic growth and rising oil prices helped keep yields in the bond market from rising as much as investors anticipated and caused yields to decline in some maturities. (A rise in interest rates causes the price of a bond in the market to fall, which would make bonds a less attractive security to own.)

Overall, the municipal bond yield curve flattened during the period.³ Generally, municipal bond yields with shorter maturities rose, while 15- and 20-year bonds declined slightly. Bonds with maturities of 30 years rose slightly. A flattening curve means that the difference in yields between longer-term and shorter-term maturities is decreasing, and investors have less incentive to tie their money up in longer-maturity bonds, which can be more sensitive to interest rate changes. The fund's portfolio managers track the movements of the yield curve and position the fund's investments based upon their expectations for future yield curve fluctuations, while also working to keep the fund's duration similar to that of its benchmark, the Lehman Brothers Municipal Bond Index.⁴ (See the graph on the following page for municipal bond yield changes from the beginning to the end of the period.)

³ The yield curve is a graph with a left-to-right line that shows how high or low yields are, from the shortest to the longest maturities. Typically (and when the yield curve is characterized as "steep," this is especially true) the line rises from left to right as investors who are willing to tie up their money for a longer period are rewarded with higher yields.

⁴ Duration is a measure of bond price volatility. Duration can be defined as the approximate percentage change in price for a 100-basis-point (one single percentage point) change in market interest rate levels. A duration of 1.25, for example, means that the price of a bond or bond portfolio should rise by approximately 1.25% for a one-percentage-point drop in interest rates and that it should fall by 1.25% for a one-percentage-point rise in interest rates.

Q: How did Scudder Strategic Municipal Income Trust perform for the 12-month period ended November 30, 2004?

A: Scudder Strategic Municipal Income Trust delivered strong absolute and relative results. The fund's total return based on net asset value was 7.98%. The fund posted a total return based on market value of 5.58%. The fund's benchmark, the unmanaged Lehman Brothers Municipal Bond Index, returned 4.07%. (Past performance is no guarantee of future results. Please see page 3 for more complete performance information.)

Q: How was the fund positioned, and how did this positioning contribute to its performance for the annual period ended November 30, 2004?

A: High-yield municipal bonds performed strongly for the annual period because interest rates remained historically low and investors continued to seek out higher-yielding investments. This heightened demand led high-yield securities to outperform higher-quality bonds in the period. In addition, the US economy continued to show signs of improvement throughout the period, and the outlook for entities issuing high-yield bonds improved. As a result, yield spreads for high-yield bonds also tightened during the period.⁵ This strong showing by high-yield bonds aided the fund's strong results for the period. Overall, we believe municipal bond valuations relative to Treasuries and agencies are attractive throughout the yield curve.

⁵ The yield spread is the difference between the yield of a municipal bond and the yield of a AAA-rated municipal credit. A large spread indicates that investors require yields substantially above those of Treasuries in order to invest in high-yield bonds. This is generally indicative of a higher-risk environment. A smaller spread generally indicates a more positive environment, since investors are less concerned about risk and therefore willing to accept lower yields. A tightening in the yield spread is a positive.

^a As required, effective December 1, 2001, the Fund adopted the provisions of the AICPA Audit and Accounting Guide for Investment Companies and began accreting market discount on debt securities. The effect of this change for the year ended November 30, 2002 was to increase net investment income by \$.01, decrease net realized and unrealized gain (loss) per share by \$.01, and increase the ratio of net investment income to average net assets from 8.42% to 8.49%. Per share data and ratios for periods prior to December 1, 2001 have not been restated to reflect this change in presentation.

^b In 2001 the Fund changed its method of classifying preferred shares.

^c Based on average common shares outstanding during the period.

^d Total return based on net asset value reflects changes in the Fund's net asset value during the period. Total return based on market value reflects changes in market value. Each figure includes reinvestment of dividends. These figures will differ depending upon the level of any discount from or premium to net asset value at which the Fund's shares trade during the period.

* Asset coverage per share equals net assets of common shares plus the redemption value of the preferred shares divided by the total number of preferred shares outstanding at the end of the period.

Notes to Financial Statements

A. Significant Accounting Policies

Scudder Strategic Municipal Income Trust (the "Fund") is registered under the Investment Company Act of 1940, as amended (the "1940 Act"), as a closed-end, diversified management investment company organized as a Massachusetts business trust.

The Fund's financial statements are prepared in accordance with accounting principles generally accepted in the United States of America which require the use of management estimates. Actual results could differ from those estimates. The policies described below are followed consistently by the Fund in the preparation of its financial statements.

Security Valuation. Investments are stated at value determined as of the close of regular trading on the New York Stock Exchange on each day the exchange is open for trading. Debt securities are valued by independent pricing services approved by the Trustees of the Fund, whose valuations are intended to reflect the mean between the bid and asked

Edgar Filing: SCUDDER STRATEGIC MUNICIPAL INCOME TRUST - Form N-CSR

prices. If the pricing services are unable to provide valuations, the securities are valued at the most recent bid quotation or evaluated price, as applicable, obtained from a broker-dealer. Such services may use various pricing techniques which take into account appropriate factors such as yield, quality, coupon rate, maturity, type of issue, trading characteristics and other data, as well as broker quotes.

Money market instruments purchased with an original or remaining maturity of sixty days or less, maturing at par, are valued at amortized cost.

Securities and other assets for which market quotations are not readily available or for which the above valuation procedures are deemed not to reflect fair value are valued in a manner that is intended to reflect their fair value as determined in accordance with procedures approved by the Trustees.

Federal Income Taxes. The Fund's policy is to comply with the requirements of the Internal Revenue Code, as amended, which are applicable to regulated investment companies, and to distribute all of its taxable and tax-exempt income to its shareholders. Accordingly, the Fund paid no federal income taxes and no federal income tax provision was required.

At November 30, 2004, the Fund had a net tax basis capital loss carryforward of approximately \$3,780,000 which may be applied against any realized net taxable capital gains of each succeeding year until fully utilized or until November 30, 2008 (\$260,000), November 30, 2010 (\$170,000), November 30, 2011 (\$3,165,000) and November 30, 2012 (\$185,000), the respective expiration dates, whichever occurs first.

Distribution of Income and Gains. Distributions of net investment income if any, are made monthly. Net realized gains from investment transactions, in excess of available capital loss carryforwards, would be taxable to the Fund if not distributed, and, therefore, will be distributed to shareholders at least annually.

The timing and characterization of certain income and capital gains distributions are determined annually in accordance with federal tax regulations which may differ from accounting principles generally accepted in the United States of America. As a result, net investment income (loss) and net realized gain (loss) on investment transactions for a reporting period may differ significantly from distributions during such period. Accordingly, the Fund may periodically make reclassifications among certain of its capital accounts without impacting the net asset value of the Fund.

At November 30, 2004, the Fund's components of distributable earnings (accumulated losses) on a tax-basis were as follows:

Undistributed tax-exempt income	\$ 2,381,928
Undistributed net long-term capital gains	\$
Capital loss carryforwards	\$ (3,780,000)
Net unrealized appreciation (depreciation) on investments	\$ 14,282,485

In addition, the tax character of distributions paid to shareholders by the Fund are summarized as follows:

	Years Ended November 30,	
	2004	2003
Distributions from tax-exempt income	\$ 10,540,813	\$ 10,117,105

Preferred Shares. The Fund has issued and outstanding 2,800 Series T municipal auction rate cumulative preferred shares, each at a liquidation value of \$25,000 per share. The preferred shares are senior to and have certain class specific preferences over the common shares. The dividend rate on each series is set through an auction process, and the dividends are generally paid every 7 days. The auction agent will pay each broker-dealer a service charge from funds provided by the Fund (auction agent fee). The 1940 Act requires that the preferred shareholders of the Fund,

voting as a separate class, have the right to: a) elect at least two trustees at all times, and b) elect a majority of the trustees at any time when dividends on the preferred shares are unpaid for two full years. Unless otherwise required by law or under the terms of the preferred shares designation statement, each preferred share is entitled to one vote and preferred shareholders will vote together with common shareholders as a single class and have the same voting rights.

Other. Investment transactions are accounted for on a trade date plus one basis for daily net asset value calculations. However, for financial reporting purposes, investment transactions are reported on trade date. Interest income is recorded on the accrual basis. Realized gains and losses from investment transactions are recorded on an identified cost basis. All premiums and discounts are amortized/accreted for financial reporting purposes, with the exception of securities in default of principal.

B. Purchases and Sales of Securities

During the year ended November 30, 2004, purchases and sales of investment securities (excluding short-term investments) aggregated \$30,315,963 and \$30,653,260, respectively.

C. Related Parties

Management Agreement. Under the Management Agreement with Deutsche Investment Management Americas Inc. ("DeIM" or the "Advisor"), an indirect, wholly owned subsidiary of Deutsche Bank AG, the Advisor directs the investments of the Fund in accordance with its investment objectives, policies and restrictions. The Advisor determines the securities, instruments and other contracts relating to investments to be purchased, sold or entered into by the Fund. In addition to portfolio management services, the Advisor provides certain administrative services in accordance with the Management Agreement. The Fund pays a monthly investment management fee of 1/12 of the annual rate of 0.60% of the Fund's average weekly net assets, of common shares plus the value of preferred shares, at redemption value, computed and accrued daily and payable monthly.

Service Provider Fees. Scudder Investments Service Company ("SISC"), an affiliate of the Advisor, is the transfer, dividend-paying and shareholder service agent for the Fund. Pursuant to a sub-transfer agency agreement between SISC and DST systems, Inc. ("DST"), SISC has delegated certain transfer agent and dividend paying agent functions to DST. SISC compensates DST out of the shareholder servicing fee it receives from the Fund. For the year ended November 30, 2004, the amount charged to the Fund by SISC aggregated \$24,000, of which \$9,875 is unpaid at November 30, 2004.

Trustees' Fees and Expenses. The Fund pays each Trustee not affiliated with the Advisor retainer fees plus specified amounts for attended board and committee meetings.

D. Expense Reductions

For the year ended November 30, 2004, the Advisor agreed to reimburse the Fund \$1,219, which represents a portion of the fee savings expected to be realized by the Advisor related to the outsourcing by the Advisor of certain administrative services to an unaffiliated service provider.

In addition, the Fund has entered into arrangements with its custodian whereby credits realized as a result of uninvested cash balances were used to reduce a portion of the Fund's expenses. During year ended November 30, 2004, the Fund's custodian fees were reduced by \$370, under these arrangements.

E. Line of Credit

The Fund and several other affiliated funds (the "Participants") share in a \$1.25 billion revolving credit facility administered by J.P. Morgan Chase Bank for temporary or emergency purposes that otherwise might require the

untimely disposition of securities. The Participants are charged an annual commitment fee which is allocated, based upon net assets, among each of the Participants. Interest is calculated at the Federal Funds Rate plus 0.5 percent. The Fund may borrow up to a maximum of 33 percent of its net assets under the agreement.

F. Regulatory Matters and Litigation

Since at least July 2003, federal, state and industry regulators have been conducting ongoing inquiries and investigations ("inquiries") into the mutual fund industry, and have requested information from numerous mutual fund companies, including Scudder Investments. It is not possible to determine what the outcome of these inquiries will be or what the effect, if any, would be on the funds or their advisors. Publicity about mutual fund practices arising from these industry-wide inquiries serves as the general basis of a number of private lawsuits against the Scudder funds. These lawsuits, which previously have been reported in the press, involve purported class action and derivative lawsuits, making various allegations and naming as defendants various persons, including certain Scudder funds, the funds' investment advisors and their affiliates, certain individuals, including in some cases fund Trustees/Directors, officers, and other parties. Each Scudder fund's investment advisor has agreed to indemnify the applicable Scudder funds in connection with these lawsuits, or other lawsuits or regulatory actions that may be filed making allegations similar to these lawsuits regarding market timing, revenue sharing, fund valuation or other subjects arising from or related to the pending inquiries. Based on currently available information, the funds' investment advisors believe the likelihood that the pending lawsuits will have a material adverse financial impact on a Scudder fund is remote and such actions are not likely to materially affect their ability to perform under their investment management agreements with the Scudder funds.

In connection with litigation or regulatory action related to possible improper market timing or other improper trading activity or possible improper marketing and sales activity in the Fund, the Fund's investment advisor has agreed, subject to applicable law and regulation, to indemnify and hold harmless the applicable Funds against any and all loss, damage, liability and expense, arising from market timing or marketing and sales matters alleged in any enforcement actions brought by governmental authorities involving or potentially affecting the Fund or the investment advisor ("Enforcement Actions") or that are the basis for private actions brought by shareholders of the Fund against the Fund, their directors and officers, the Fund's investment advisor and/or certain other parties ("Private Litigation"), or any proceedings or actions that may be threatened or commenced in the future by any person (including governmental authorities), arising from or similar to the matters alleged in the Enforcement Actions or Private Litigation. In recognition of its undertaking to indemnify the applicable Funds and in light of the rebuttable presumption generally afforded to independent directors/trustees of investment companies that they have not engaged in disabling conduct, the Fund's investment advisor has also agreed, subject to applicable law and regulation, to indemnify the applicable Funds' Independent Trustees against certain liabilities the Independent Trustees may incur from the matters alleged in any Enforcement Actions or Private Litigation or arising from or similar to the matters alleged in the Enforcement Actions or Private Litigation, and advance expenses that may be incurred by the Independent Trustees in connection with any Enforcement Actions or Private Litigation. The applicable investment advisor is not, however, required to provide indemnification and advancement of expenses: (1) with respect to any proceeding or action with respect to which the applicable Fund's Board determines that the Independent Trustee ultimately would not be entitled to indemnification or (2) for any liability of the Independent Trustee to the Fund or their shareholders to which the Independent Trustee would otherwise be subject by reason of willful misfeasance, bad faith, gross negligence or reckless disregard of the Independent Trustee's duties as a director or trustee of the Fund as determined in a final adjudication in such action or proceeding. The estimated amount of any expenses that may be advanced to the Independent Trustees or indemnity that may be payable under the indemnity agreements is currently unknown. These agreements by the Fund's investment advisor will survive the termination of the investment management agreements between the applicable investment advisor and the Fund.

Report of Independent Registered Public Accounting Firm

**To the Board of Trustees and Shareholders of
Scudder Strategic Municipal Income Trust:**

We have audited the accompanying statement of assets and liabilities, including the investment portfolio, of Scudder Strategic Municipal Income Trust, (the "Fund"), as of November 30, 2004, and the related statement of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended. These financial statements and financial highlights are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements and financial highlights. Our procedures included confirmation of securities owned as of November 30, 2004, by correspondence with the custodian. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of the Scudder Strategic Municipal Income Trust at November 30, 2004, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended, in conformity with U.S. generally accepted accounting principles.

Dividend Reinvestment Plan

A. Participation

We invite you to review the description of the Dividend Reinvestment Plan (the "Plan") which is available to you as a shareholder of Scudder Strategic Municipal Income Trust (the "Fund"). If you wish to participate and your shares are held in your own name, simply contact Scudder Investments Service Company, whose address and phone number are provided in Paragraph E for the appropriate form. If your shares are held in the name of a brokerage firm, bank, or other nominee, you must instruct that nominee to re-register your shares in your name so that you may participate in the Plan, unless your nominee has made the Plan available on shares held by them. Shareholders who so elect will be deemed to have appointed UMB Bank, N.A. ("United Missouri Bank" or "UMB") as their agent and as agent for the Fund under the Plan.

B. Dividend Investment Account

The Fund's transfer agent and dividend disbursing agent or its delegate (the "Transfer Agent") will establish a Dividend Investment Account (the "Account") for each shareholder participating in the Plan. The Transfer Agent will credit to the Account of each participant funds it receives from the following sources: (a) cash dividends and capital gains distributions paid on shares of beneficial interest (the "Shares") of the Fund registered in the participant's name on the books of the Fund; and (b) cash dividends and capital gains distributions paid on Shares registered in the name of the Transfer Agent but credited to the participant's Account. Sources described in clauses (a) and (b) of the preceding sentence are hereinafter called "Distributions."

C. Investment of Distribution Funds held in each account

If on the record date for a Distribution (the "Record Date"), Shares are trading at a discount from net asset value per Share (according to the evaluation most recently made on Shares of the Fund), funds credited to a participant's Account will be used to purchase Shares (the "Purchase"). UMB will attempt, commencing five days prior to the Payment Date and ending at the close of business on the Payment Date ("Payment Date" as used herein shall mean the last business day of the month in which such Record Date occurs), to acquire Shares in the open market. If and to the extent that UMB is unable to acquire sufficient Shares to satisfy the Distribution by the close of business on the Payment Date, the Fund will issue to UMB Shares valued at net asset value per Share (according to the evaluation most recently made on Shares of the Fund) in the aggregate amount of the remaining value of the Distribution. If, on the Record Date, Shares are trading at a premium over net asset value per Share, the Fund will issue on the Payment Date, Shares valued at net asset value per Share on the Record Date to the Transfer Agent in the aggregate amount of the funds credited to the participants' accounts.

D. Voluntary Cash Contributions

A participant may from time to time make voluntary cash contributions to his Account by sending to Transfer Agent a check or money order, payable to Transfer Agent, in a minimum amount of \$100 with appropriate accompanying instructions. (No more than \$500 may be contributed per month.) Transfer Agent will inform UMB of the total funds available for the purchase of Shares and UMB will use the funds to purchase additional Shares for the participant's Account the earlier of: (a) when it next purchases Shares as a result of a Distribution or (b) on or shortly after the first day of each month and in no event more than 30 days after such date except when temporary curtailment or suspension of purchases is necessary to comply with applicable provisions of federal securities laws. Cash contributions received more than fifteen calendar days or less than five calendar days prior to a Payment Date will be returned uninvested. Interest will not be paid on any uninvested cash contributions. Participants making voluntary cash investments will be charged a \$.75 service fee for each such investment and will be responsible for their pro rata share of brokerage commissions.

E. Additional Information

Address all notices, correspondence, questions, or other communication regarding the Plan, or if you would like a copy of the Plan, to:

Scudder Investments Service Company
P.O. Box 219066
Kansas City, Missouri 64121-9066
1-800-294-4366

F. Adjustment of Purchase Price

The Fund will increase the price at which Shares may be issued under the Plan to 95% of the fair market value of the shares on the Record Date if the net asset value per Share of the Shares on the Record Date is less than 95% of the fair market value of the Shares on the Record Date.

G. Determination of Purchase Price

The cost of Shares and fractional Shares acquired for each participant's Account in connection with a Purchase shall be determined by the average cost per Share, including brokerage commissions as described in Paragraph H hereof, of the Shares acquired by UMB in connection with that Purchase. Shareholders will receive a confirmation showing the average cost and number of Shares acquired as soon as practicable after the Transfer Agent has received or UMB has purchased Shares. The Transfer Agent may mingle the cash in a participant's account with similar funds of other participants of the Fund for whom UMB acts as agent under the Plan.

H. Brokerage Charges

There will be no brokerage charges with respect to Shares issued directly by the Fund as a result of Distributions. However, each participant will pay a pro rata share of brokerage commissions incurred with respect to UMB's open market purchases in connection with the reinvestment of Distributions. Brokerage charges for purchasing small amounts of Shares for individual Accounts through the Plan can be expected to be less than the usual brokerage charges for such transactions, as UMB will be purchasing Shares for all participants in blocks and prorating the lower commission thus attainable.

I. Service Charges

There is no service charge by the Transfer Agent or UMB to shareholders who participate in the Plan other than service charges specified in Paragraphs D and M hereof. However, the Fund reserves the right to amend the Plan in the future to include a service charge.

J. Transfer of Shares Held by Agent

The Transfer Agent will maintain the participant's Account, hold the additional Shares acquired through the Plan in safekeeping and furnish the participant with written confirmation of all transactions in the Account. Shares in the Account are transferable upon proper written instructions to the Transfer Agent. Upon request to the Transfer Agent, a certificate for any or all full Shares in a participant's Account will be sent to the participant.

K. Shares Not Held in Shareholder's Name

Beneficial owners of Shares which are held in the name of a broker or nominee will not be automatically included in the Plan and will receive all distributions in cash. Such shareholders should contact the broker or nominee in whose name their Shares are held to determine whether and how they may participate in the Plan.

L. Amendments

Experience under the Plan may indicate that changes are desirable. Accordingly, the Fund reserves the right to amend or terminate the Plan, including provisions with respect to any Distribution paid, subsequent to notice thereof sent to participants in the Plan at least ninety days before the record date for such Distribution, except when such amendment is necessary or appropriate to comply with applicable law or the rules or policies of the Securities and Exchange Commission or any other regulatory authority, in which case such amendment shall be effective as soon as practicable. The amendment shall be deemed to be accepted by each participant unless, prior to the effective date thereof, the Transfer Agent receives notice of the termination of such participant's account under the Plan in accordance with the terms hereof. The Plan may be terminated by the Fund.

M. Withdrawal from Plan

Shareholders may withdraw from the Plan at any time by giving the Transfer Agent a written notice. If the proceeds are \$100,000 or less and the proceeds are to be payable to the shareholder of record and mailed to the address of record, a signature guarantee normally will not be required for notices by individual account owners (including joint account owners), otherwise a signature guarantee will be required. In addition, if the certificate is to be sent to anyone other than the registered owner(s) at the address of record, a signature guarantee will be required on the notice. A notice of withdrawal will be effective for the next Distribution following receipt of the notice by the Transfer Agent provided the notice is received by the Transfer Agent at least ten days prior to the Record Date for the Distribution. When a participant withdraws from the Plan, or when the Plan is terminated in accordance with Paragraph L hereof, the participant will receive a certificate for full Shares in the Account, plus a check for any fractional Shares based on market price; or if a Participant so desires, the Transfer Agent will notify UMB to sell his Shares in the Plan and send the proceeds to the participant, less brokerage commissions and a \$2.50 service fee.

N. Tax Implications

Shareholders will receive tax information annually for personal records and to assist in preparation of their Federal income tax returns. If Shares are purchased at a discount, the amount of the discount is considered taxable income and is added to the cost basis of the purchased shares.

Trustees and Officers

The following table presents certain information regarding the Trustees and Officers of the fund as of November 30, 2004. Each individual's year of birth is set forth in parentheses after his or her name. Unless otherwise noted, (i) each individual has engaged in the principal occupation(s) noted in the table for at least the most recent five years, although not necessarily in the same capacity, and (ii) the address of each individual is c/o Deutsche Asset Management, 222 South Riverside Plaza, Chicago, Illinois 60606. Each Trustee's term of office extends until the next shareholders' meeting called for the purpose of electing Trustees and until the election and qualification of a successor, or until such Trustee sooner dies, retires, resigns or is removed as provided in the governing documents of the fund.

Additional Information

Changes in Trustees and Officers

Effective December 30, 2004, the Board of Trustees increased the size of the Board and appointed William McClayton and Robert H. Wadsworth as Trustees of the fund. Fred B. Renwick retired from the Board of Trustees effective June 29, 2004 in connection with the fund's Annual Meeting of Shareholders.

On September 24, 2004, the Board of Trustees elected Julian F. Sluyters, who also serves as Chief Executive Officer of the fund, as President of the fund, replacing Brenda Lyons. The Board of Trustees also elected Paul H. Schubert as Chief Financial Officer of the fund, replacing Charles A. Rizzo who remains as Treasurer of the fund.

Certifications

The fund's chief executive officer has certified to the New York Stock Exchange that, as of August 12, 2004, he was not aware of any violation by the fund of applicable NYSE corporate governance listing standards. The fund's reports to the Securities and Exchange Commission on Forms N-CSR, N-CSR-S, and N-Q contain certifications by the fund's chief executive officer and chief financial officer that relate to the fund's disclosure in such reports and that are required by rule 30a-2(a) under the Investment Company Act.

ITEM 2. CODE OF ETHICS.

As of the end of the period, November 30, 2004, Scudder Strategic Municipal Income Trust has adopted a code of ethics, as defined in Item 2 of Form N-CSR, that applies to its Principal Executive Officer and Principal Financial Officer.

There have been no amendments to, or waivers from, a provision of the code of ethics during the period covered by this report that would require disclosure under Item 2.

A copy of the code of ethics is filed as an exhibit to this Form N-CSR.

ITEM 3. AUDIT COMMITTEE FINANCIAL EXPERT.

The Fund's Board of Directors/Trustees has determined that the Fund has at least one "audit committee financial expert" serving on its audit committee: Mr. Donald L. Dunaway. This audit committee member is "independent," meaning that he

Edgar Filing: SCUDDER STRATEGIC MUNICIPAL INCOME TRUST - Form N-CSR

is not an "interested person" of the Fund (as that term is defined in Section 2(a)(19) of the Investment Company Act of 1940) and he does not accept any consulting, advisory, or other compensatory fee from the Fund (except in the capacity as a Board or committee member).

An "audit committee financial expert" is not an "expert" for any purpose, including for purposes of Section 11 of the Securities Act of 1933, as a result of being designated as an "audit committee financial expert." Further, the designation of a person as an "audit committee financial expert" does not mean that the person has any greater duties, obligations, or liability than those imposed on the person without the "audit committee financial expert" designation. Similarly, the designation of a person as an "audit committee financial expert" does not affect the duties, obligations, or liability of any other member of the audit committee or board of directors.

ITEM 4. PRINCIPAL ACCOUNTANT FEES AND SERVICES.

SCUDDER STRATEGIC MUNICIPAL INCOME TRUST FORM N-CSR DISCLOSURE RE: AUDIT FEES

The following table shows the amount of fees that Ernst & Young, LLP ("E&Y"), the Fund's auditor, billed to the Fund during the Fund's last two fiscal years. For engagements with E&Y entered into on or after May 6, 2003, the Audit Committee approved in advance all audit services and non-audit services that E&Y provided to the Fund.

The Audit Committee has delegated certain pre-approval responsibilities to its Chairman (or, in his absence, any other member of the Audit Committee).
