UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
WASHINGTON, D.C. 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended September 30, 2013

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

PRAXAIR, INC.

(Exact name of registrant as specified in its charter)

DELAWARE

(State or other jurisdiction of incorporation)

1-11037

(Commission File Number)

06-1249050

(IRS Employer Identification No.)

39 OLD RIDGEBURY ROAD, DANBURY, CT

(Address of principal executive offices)

(203) 837-2000

(Registrant's telephone number, including area code)

06810-5113

(Zip Code)

N/A

(Former name, former address and former fiscal year, if changed since last report)

Indicate by check mark whether the Registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the Registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See definitions of "large accelerated filer," "accelerated filer," and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer

Non-accelerated filer Smaller reporting company

Indicate by check mark whether the Registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes No

At September 30, 2013, 294,363,397 shares of common stock (\$0.01 par value) of the Registrant were outstanding.

PRAXAIR, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(UNAUDITED)

1. Summary of Significant Accounting Policies

Presentation of Condensed Consolidated Financial Statements - In the opinion of Praxair, Inc. (Praxair) management, the accompanying condensed consolidated financial statements include all adjustments necessary for a fair presentation of the results for the interim periods presented and such adjustments are of a normal recurring nature. The accompanying condensed consolidated financial statements should be read in conjunction with the notes to the consolidated financial statements of Praxair, Inc. and subsidiaries in Praxair's 2012 Annual Report on Form 10-K. There have been no material changes to the company's significant accounting policies during 2013.

Accounting Standards Implemented in 2013

The following standards were effective for Praxair in 2013 and their adoption did not have a significant impact on the condensed consolidated financial statements:

Statement of Comprehensive Income - In February 2013, the Financial Accounting Standards Board ("FASB") issued updated disclosure requirements regarding the presentation of other comprehensive income. The adoption of this guidance did not have a significant impact on the consolidated financial statements. Refer to the Consolidated Statements of Comprehensive Income (Loss) following the Consolidated Statements of Income.

Offsetting Assets and Liabilities – In December 2011, the FASB issued updated disclosure requirements related to a company's right or requirement to offset balance sheet items and the related arrangements associated with its financial instruments and derivative instruments. The new guidance requires the disclosure of the gross amounts subject to rights of setoff, amounts offset, and the related net exposure. The adoption of this guidance did not have a significant impact on the consolidated financial statements.

Accounting Standards to be Implemented

Accounting for Cumulative Translation Adjustment – In March 2013, the FASB issued updated guidance on the release of the cumulative translation adjustment into net income when a parent either sells a part or all of its investment in a foreign entity, or as a result of acquisitions achieved in stages. This guidance will be effective for Praxair beginning with the first quarter 2014. Praxair does not expect this requirement to have any impact on the consolidated financial statements.

• Presentation of Unrecognized Tax Benefits – In July 2013, the FASB issued updated guidance on the presentation of unrecognized tax benefits. The new guidance requires an entity to present certain unrecognized tax benefits, or a portion thereof, as a reduction to the related deferred tax asset, primarily for loss and tax credit carryforwards. This guidance will be effective for Praxair beginning with the first quarter 2014. Praxair does not expect this requirement to have a significant impact on the consolidated financial statements.

Reclassifications – Certain prior years' amounts have been reclassified to conform to the current year's presentation.

2. Venezuela Currency Devaluation and Other Charges

2013 and 2012 Pension Settlements

In 2012 and 2011 a number of senior managers retired. These retirees are covered by the U.S. supplemental pension plan which provides for a lump sum benefit payment option. Under certain circumstances, such lump sum payments must be accounted for as a settlement of the related pension obligation, but only when paid. Accordingly, Praxair recorded a settlement charge related to net unrecognized actuarial losses of \$9 million (\$6 million after-tax) in both the third quarter 2013 and 2012, when the cash payments were made to the retirees.

2013 Venezuela Currency Devaluation

On February 8, 2013, Venezuela announced a devaluation of the Venezuelan Bolivar from 4.30 to 6.30 (a 32% devaluation), effective on February 13, 2013. In the first quarter Praxair recorded a \$23 million pre-tax charge (\$23 million after-tax or \$0.08 per diluted share) due primarily to the remeasurement of the local Venezuelan balance sheet to reflect the new official 6.30 exchange rate. The company does not expect the impact of the devaluation on future results of operations to be significant.

Table of Contents

2012 Cost Reduction Program

In the third quarter 2012, Praxair recorded pre-tax charges totaling \$56 million (\$38 million after-tax and noncontrolling interest), relating to severance and business restructuring actions primarily in Europe within the industrial gases and surface technologies businesses. The severance costs of \$43 million are for the termination of approximately 410 employees, primarily in Europe (industrial gases and surface technologies). The costs associated with exit or disposal activities of \$13 million include asset write-downs and other costs associated with a decision to eliminate and/or restructure operations and product lines. The actions are substantially completed as of September 30, 2013 and the remaining liability associated with those actions is expected to be paid during the next twelve months. The following table summarizes the activities related to the nine months ended September 30, 2013:

| (Millions of dollars) | Severance Costs | Costs Associated with Exit or Disposal Activities | Total Cost Reduction Program |
|---------------------------------|--------------------|--|------------------------------------|
| Balance, January 1, 2013 | \$30 | \$ 4 | \$34 |
| Less: Cash payments | (13 |) (3 |) (16 |
| Less: Non-cash asset write-offs | — | — | — |
| Foreign currency translation | 1 | — | 1 |
| Balance, September 30, 2013 | \$18 | \$ 1 | \$19 |

For further details regarding the cost reduction program and other charges, refer to Note 2 to the consolidated financial statements of Praxair's 2012 Annual Report on Form 10-K.

3. 2013 Acquisitions

NuCO₂

On March 1, 2013 Praxair acquired 100% of NuCO₂ Inc. ("NuCO₂") for \$1,095 million. NuCO₂ is the leading national provider of beverage carbonation solutions in the United States to the restaurant and hospitality industries with 162,000 customer locations and 900 employees, and with 2012 sales of approximately \$230 million. The NuCO₂ micro-bulk beverage carbonation solution is the service model of choice for quick service restaurants and convenience stores offering fountain beverages and represents an extension of Praxair's core industrial gas business.

The acquisition of NuCO₂ was accounted for as a business combination. Following the acquisition date, 100% of NuCO₂'s results were consolidated in the North America business segment. For the quarter and nine months ended September 30, 2013, Praxair's consolidated income statement includes sales of \$64 million and \$145 million, respectively, related to NuCO₂. Pro forma results for the quarters and nine months ended September 30, 2013 and 2012 have not been included as the impact of the acquisition is not material to the consolidated statements of income.

The following table summarizes the fair value of identifiable assets acquired and liabilities assumed in the acquisition of NuCO₂ as of the acquisition date. The allocation of the purchase price to identifiable assets and liabilities is final except for those related to income taxes. The potential adjustments are expected to be insignificant and will be recorded when the pre-acquisition tax returns are finalized in the 2014 first quarter.

| (Millions of dollars) | March 1, 2013 |
|--------------------------------|---------------|
| Trade receivables, net | \$17 |
| Property, plant and equipment | 199 |
| Intangible assets | 374 |
| Deferred income taxes | (85 |
| Other assets and (liabilities) |) (28 |
| Goodwill |) 618 |
| Purchase price | \$1,095 |

The identifiable intangible assets primarily consist of customer relationships that will be amortized over their estimated useful life of 25 years. The deferred income taxes relate primarily to property, plant and equipment, intangibles and operating loss carryforwards. The goodwill resulting from the acquisition is attributable to (i) expected growth from market penetration into

Table of Contents

the quick service restaurants, convenience stores and themed restaurant chains in the United States and select international markets as we leverage Praxair's customer and distribution networks worldwide, and (ii) cost synergies related to the procurement of raw materials, distribution-related expenses and administrative costs as we integrate and rationalize administration tasks and leverage Praxair's purchasing scale. The goodwill is not expected to be deductible for income tax purposes.

Other Acquisitions

On May 29, 2013 Praxair acquired Dominion Technology Gases ("Dominion"), a leading global supplier of diving, welding, industrial, laboratory and calibration gases and associated equipment to the offshore oil and gas industry based in Aberdeen, Scotland. Dominion provides products and services to the expanding global offshore oil and gas market.

On June 3, 2013 Praxair acquired Volgograd Oxygen Factory ("VOF"), the largest independent industrial gas business in southern Russia, expanding Praxair's production and distribution capabilities in the Volgograd region. Additionally, during the nine-month period ended September 30, 2013, Praxair acquired several smaller independent packaged gas distributors in the United States and a customer contract with operating assets in China.

The results of operations of these acquisitions were consolidated from the respective acquisition dates, primarily in the Europe business segment, and the impact was not significant. The aggregate purchase price for these acquisitions was \$216 million and resulted in the recognition of \$186 million of intangible assets, including \$99 million of goodwill and \$87 million of other intangible assets, which will be amortized over their estimated useful life.

4. Supplemental Information**Inventories**

The following is a summary of Praxair's consolidated inventories:

| (Millions of dollars) | September 30, 2013 | December 31, 2012 |
|----------------------------|-----------------------|----------------------|
| Inventories | | |
| Raw materials and supplies | \$181 | \$164 |
| Work in process | 57 | 56 |
| Finished goods | 281 | 256 |
| Total inventories | \$519 | \$476 |

Long-term receivables

Long-term receivables are not material and are largely reserved. Such long-term receivables are included within other long-term assets in the condensed consolidated balance sheets and totaled \$46 million at September 30, 2013 and December 31, 2012. These amounts are net of reserves of \$49 million and \$43 million, respectively. The amounts in both periods relate primarily to government receivables in Brazil and other long-term notes receivable from customers. Collectability is reviewed regularly and uncollectible amounts are written-off as appropriate. The account balance changes during 2013 were primarily the result of currency fluctuations, additional receivables and reserves.

Table of Contents

5. Debt

The following is a summary of Praxair's outstanding debt at September 30, 2013 and December 31, 2012:

| (Millions of dollars) | September 30, 2013 | December 31, 2012 |
|---|-----------------------|----------------------|
| SHORT-TERM | | |
| Commercial paper and U.S. bank borrowings | \$1,002 | \$563 |
| Other bank borrowings (primarily international) | 133 | 75 |
| Total short-term debt | 1,135 | 638 |

| 3.55% Notes due 2042 (a, c) | 466 | 298 |
| Other | 5 | 5 |
| International bank borrowings | 94 | 113 |
| Obligations under capital leases | 10 | 10 |
| | 7,891 | 6,724 |
| Less: current portion of long-term debt | (8 |) (39 |
| Total long-term debt | 7,883 | 6,685 |
| Total debt | \$9,026 | \$7,362 |

(a) Amounts are net of unamortized discounts.

(b) September 30, 2013 and December 31, 2012 include a \$30 million and \$36 million fair value increase, respectively, related to hedge accounting. See Note 6 for additional information.

For the nine months ended September 30, 2013, Praxair issued the following notes totaling \$2.1 billion: \$400 million of 0.75% notes due 2016, \$500 million of 2.70% notes due 2023, \$500 million of 1.20% notes due 2018, (c) \$475 million of 1.25% notes due 2018 and \$175 million of 3.55% notes due 2042. The proceeds of all issuances were used for general corporate purposes, including acquisitions, repayment of debt and share repurchases under the Company's share repurchase program.

(d) Classified as long-term because of the Company's intent to refinance this debt on a long-term basis and the availability of such financing under the terms of an existing long-term credit facility, which was increased

from \$1.75 billion to \$2.0 billion in September 2013, per the terms of the agreement.

(e) In June 2013, Praxair repaid \$350 million of 3.95% notes and \$500 million of 2.125% notes that became due.

Table of Contents

6. Financial Instruments

In its normal operations, Praxair is exposed to market risks relating to fluctuations in interest rates, foreign currency exchange rates, energy costs and to a lesser extent precious metal prices. The objective of financial risk management at Praxair is to minimize the negative impact of such fluctuations on the company's earnings and cash flows. To manage these risks, among other strategies, Praxair routinely enters into various derivative financial instruments ("derivatives") including interest-rate swap and treasury rate lock agreements, currency-swap agreements, forward contracts, currency options, and commodity-swap agreements. These instruments are not entered into for trading purposes and Praxair only uses commonly traded and non-leveraged instruments.

There are two types of derivatives that the company enters into: (i) those relating to fair-value exposures, and (ii) those relating to cash-flow exposures. Fair-value exposures relate to recognized assets or liabilities, and firm commitments; while cash-flow exposures relate to the variability of future cash flows associated with recognized assets or liabilities, or forecasted transactions.

When a derivative is executed and hedge accounting is appropriate, it is designated as either a fair-value hedge or a cash-flow hedge. Currently, Praxair designates all interest-rate and treasury-rate locks as hedges for accounting purposes; however, currency contracts are generally not designated as hedges for accounting purposes unless they are related to forecasted transactions. Whether designated as hedges for accounting purposes or not, all derivatives are linked to an appropriate underlying exposure. On an ongoing basis, the company assesses the hedge effectiveness of all derivatives designated as hedges for accounting purposes to determine if they continue to be highly effective in offsetting changes in fair values or cash flows of the underlying hedged items. If it is determined that the hedge is not highly effective, then hedge accounting will be discontinued prospectively.

Counterparties to Praxair's derivatives are major banking institutions with credit ratings of investment grade or better and no collateral is required, and there are no significant risk concentrations. Management believes the risk of incurring losses on derivative contracts related to credit risk is remote and any losses would be immaterial.

The following table is a summary of the notional amount and fair value of derivatives outstanding at September 30, 2013 and December 31, 2012:

| (Millions of dollars) | Notional Amounts | | Fair Value | | | |
|--|--------------------|-------------------|------------------------------|-------------------|-----------------------------------|-------------------|
| | September 30, 2013 | December 31, 2012 | Assets September 30, 2013 | December 31, 2012 | Liabilities September 30, 2013 | December 31, 2012 |
| Derivatives Not Designated as Hedging Instruments: | | | | | | |
| Currency contracts: | | | | | | |
| Balance sheet items (a) | \$2,256 | \$ 2,515 | \$4 | \$ 6 | \$13 | \$ 8 |
| Derivatives Designated as Hedging Instruments: | | | | | | |
| Currency contracts: | | | | | | |
| Forecasted purchases (a) | \$5 | \$ 10 | \$— | \$ — | \$— | \$ — |
| Interest rate contracts: | | | | | | |
| Interest rate swaps (b) | 875 | 400 | 30 | 32 | — | — |
| Total | \$880 | \$ 410 | \$30 | \$ 32 | \$— | \$ — |
| Total Derivatives | \$3,136 | \$ 2,925 | \$34 | \$ 38 | \$13 | \$ 8 |

(a) Assets are recorded in prepaid and other current assets, and liabilities are recorded in other current liabilities.

(b) Assets are recorded in long term assets.

Currency Contracts

Balance Sheet Items

Foreign currency contracts related to balance sheet items consist of forward contracts entered into to manage the exposure to fluctuations in foreign-currency exchange rates on recorded balance sheet assets and liabilities denominated in currencies other than the functional currency of the related operating unit. The fair value adjustments

on these contracts are offset by the fair value adjustments recorded on the hedged assets and liabilities.

Table of Contents

Anticipated Net Income

Historically Praxair has entered into anticipated net income hedge contracts consisting of foreign currency options and forwards related primarily to anticipated net income in Brazil, Europe and Canada. Although there were no anticipated net income hedges outstanding as of September 30, 2013 and December 31, 2012, such derivatives were outstanding during the nine month period ended September 30, 2012. Over the term of the contracts, the fair value adjustments from net-income hedging contracts are largely offset by the impacts on reported net income resulting from currency translation. The accounting rules pertaining to derivatives and hedging do not allow hedges of anticipated net income to be designated as hedging instruments.

Forecasted Purchases

Foreign currency contracts related to forecasted purchases consist of forward contracts entered into to manage the exposure to fluctuations in foreign-currency exchange rates on forecasted purchases of capital-related equipment and services denominated in currencies other than the functional currency of the related operating units. These forward contracts were designated and accounted for as cash flow hedges.

Interest Rate Contracts

Outstanding Interest Rate Swaps

At September 30, 2013, Praxair had \$875 million notional amount of interest-rate swap agreements outstanding related to the \$400 million 3.25% fixed-rate notes that mature in 2015 and to the \$475 million 1.25% notes that mature 2018, which effectively convert fixed-rate interest to variable-rate interest. These swap agreements were designated as fair value hedges with the resulting fair value adjustments recognized in earnings along with an equally offsetting charge / benefit to earnings for the changes in the fair value of the underlying debt instrument. At September 30, 2013, \$30 million was recognized as an increase in the fair value of these notes (\$32 million at December 31, 2012).

Terminated Interest Rate Swaps

The following table summarizes information related to terminated interest rate swap contracts:

| | Year Terminated | Original Gain | Amount of Gain Recognized in Earnings (a) | | Amount of Gain Recognized in Earnings (a) | | Unrecognized Gain (a) | |
|--|-----------------|---------------|---|--------------------|---|--------------------|-----------------------|-------------------|
| | | | Quarter Ended September 30, 2013 | September 30, 2012 | Nine Months Ended September 30, 2013 | September 30, 2012 | September 30, 2013 | December 31, 2012 |
| (Millions of dollars) | | | | | | | | |
| Interest Rate Swaps | | | | | | | | |
| Underlying debt instrument (b): | | | | | | | | |
| \$500 million 2.125% fixed-rate notes that mature in 2013 | 2011 | \$18 | \$— | \$ 2 | \$4 | \$ 7 | \$— | \$ 4 |
| \$400 million 1.75% fixed-rate notes that mature in 2012 | 2010 | 13 | — | 1 | — | 4 | — | — |
| \$500 million 6.375% fixed-rate notes that matured in 2012 | 2002 | 47 | — | — | — | 1 | — | — |
| Total | | \$78 | \$— | \$ 3 | \$4 | \$ 12 | \$— | \$ 4 |

(a) The unrecognized gain for terminated interest rate swaps is shown as an increase to long-term debt and will be recognized on a straight line basis to interest expense - net over the term of the underlying debt agreements. Upon settlement of the underlying interest rate contract, the cash received is reflected within the Noncontrolling interest transactions and other in the financing section of the condensed consolidated statements of cash flows.

(b) The notional amounts of the interest rate contracts are equal to the underlying debt instruments.

Table of Contents

Terminated Treasury Rate Locks

The following table summarizes the unrecognized gains (losses) related to terminated treasury rate lock contracts:

| (Millions of dollars) | Year Terminated | Original Gain / (Loss) | Unrecognized Gain / (Loss) (a) | |
|--|-----------------|------------------------|--------------------------------|-------------------|
| | | | September 30, 2013 | December 31, 2012 |
| Treasury Rate Locks | | | | |
| Underlying debt instrument: | | | | |
| \$500 million 2.20% fixed-rate notes that mature in 2022 (b) 2012 | | \$ (2) | \$ (2) | \$ (2) |
| \$500 million 3.00% fixed-rate notes that mature in 2021 (b) 2011 | | (11) | (9) | (10) |
| \$600 million 4.50% fixed-rate notes that mature in 2019 (b) 2009 | | 16 | 10 | 11 |
| \$500 million 4.625% fixed-rate notes that mature in 2015 (b) 2008 | | (7) | (1) | (2) |
| Total - pre-tax | | | \$ (2) | \$ (3) |
| Less: income taxes | | | 1 | 1 |
| After- tax amounts | | | \$ (1) | \$ (2) |

The unrecognized gains / (losses) for the treasury rate locks are shown in accumulated other comprehensive income (“AOCI”) and are being recognized on a straight line basis to interest expense – net over the term of the underlying debt agreements. The cash received or paid was reflected within the noncontrolling interest transactions and other (a) in the financing section of the condensed consolidated statements of cash flows. Refer to the table below summarizing the impact on the company’s consolidated statements of income and AOCI for current period gain (loss) recognition.

The notional amount of the treasury rate lock contracts are equal to the underlying debt instrument with the (b) exception of the treasury rate lock contract entered into to hedge the \$600 million 4.50% fixed-rate notes that mature in 2019. The notional amount of this contract was \$500 million.

The following tables summarize the impacts of the company’s derivatives on the consolidated statements of income and AOCI:

| (Millions of dollars) | Amount of Pre-Tax Gain (Loss) Recognized in Earnings (a) | | | |
|--|--|--------------------|--|--------------------|
| | Quarter Ended September 30, | | Nine Months Ended September 30, | |
| | 2013 | 2012 | 2013 | 2012 |
| Derivatives Not Designated as Hedging Instruments | | | | |
| Currency contracts: | | | | |
| Balance sheet items | | | | |
| Debt-related | \$ (4) | \$ 29 | \$ (10) | \$ 47 |
| Other balance sheet items | 1 | — | (9) | (5) |
| Anticipated net income | — | — | — | (4) |
| Total | \$ (3) | \$ 29 | \$ (19) | \$ 38 |
| Quarter Ended | | | | |
| (Millions of dollars) | Amount of Gain (Loss) Recognized in AOCI (b) | | Amount of Gain (Loss) Reclassified from AOCI to the Consolidated Statement of Income (c) | |
| | September 30, 2013 | September 30, 2012 | September 30, 2013 | September 30, 2012 |
| Derivatives Designated as Hedging Instruments | | | | |
| Currency contracts: | | | | |

Edgar Filing: PRAXAIR INC - Form 10-Q

| | | | | |
|--------------------------|-----|------|-------|-----|
| Forecasted purchases (b) | \$1 | \$1 | \$— | \$— |
| Interest rate contracts: | | | | |
| Treasury rate locks (b) | — | (8 |) — | — |

16

Table of Contents

| (Millions of dollars) | Nine Months Ended | | Amount of Gain (Loss) Reclassified from AOCI to the Consolidated Statement of Income (c) | |
|--|---|-----------------------|--|-----------------------|
| | Amount of Gain (Loss) Recognized in AOCI (b) | | | |
| | September 30, 2013 | September 30, 2012 | September 30, 2013 | September 30, 2012 |
| Derivatives Designated as Hedging Instruments | | | | |
| Currency contracts: | | | | |
| Forecasted purchases (b) | \$1 | \$1 | \$— | \$— |
| Interest rate contracts: | | | | |
| Treasury rate locks (b) | — | (1 |) | — |
| Total - pre tax | \$1 | \$— | \$— | \$— |
| Less: income taxes | — | — | — | — |
| Total - Net of Taxes | \$1 | \$— | \$— | \$— |

The gains (losses) on balance sheet items are offset by gains (losses) recorded on the underlying hedged assets and liabilities. The gains (losses) for the derivatives and the underlying hedged assets and liabilities related to debt (a) items are recorded in the consolidated statements of income as interest expense-net. Other balance sheet items and anticipated net income gains (losses) are recorded in the consolidated statements of income as other income (expenses)-net.

The gains (losses) on forecasted purchases and treasury rate locks are recorded as a component of AOCI within (b) derivative instruments in the condensed consolidated balance sheets. There was no ineffectiveness for these instruments during 2013 or 2012.

The gains (losses) on forecasted purchases are reclassified to the depreciation and amortization expense on a straight-line basis consistent with the useful life of the underlying asset. The gains (losses) for interest rate (c) contracts are reclassified to earnings as interest expense –net on a straight-line basis over the remaining maturity of the underlying debt. Net losses of less than \$1 million are expected to be reclassified to earnings during the next twelve months.

7. Fair Value Disclosures

The fair value hierarchy prioritizes the input to valuation techniques used to measure fair value into three broad levels as follows:

Level 1 – quoted prices in active markets for identical assets or liabilities

Level 2 – quoted prices for similar assets and liabilities in active markets or inputs that are observable

Level 3 – inputs that are unobservable (for example cash flow modeling inputs based on assumptions)

Assets and Liabilities Measured at Fair Value on a Recurring Basis

The following table summarizes assets and liabilities measured at fair value on a recurring basis:

| (Millions of dollars) | Fair Value Measurements Using | | | | | |
|-----------------------|-------------------------------|----------------------|-----------------------|----------------------|-----------------------|----------------------|
| | Level 1 | | Level 2 | | Level 3 | |
| | September 30, 2013 | December 31, 2012 | September 30, 2013 | December 31, 2012 | September 30, 2013 | December 31, 2012 |
| Assets | | | | | | |
| Derivatives | — | — | \$34 | \$38 | — | — |
| Liabilities | | | | | | |
| Derivatives | — | — | \$13 | \$8 | — | — |

The fair values of the derivative assets and liabilities are based on market prices obtained from independent brokers or determined using quantitative models that use as their basis readily observable market parameters that are actively

quoted and can be validated through external sources, including third-party pricing services, brokers and market transactions.

The fair values of cash and cash equivalents, short-term debt, accounts receivable-net, and accounts payable approximate carrying amounts because of the short maturities of these instruments. The fair value of long-term debt is estimated based on the quoted market prices for similar issues, which is deemed a level 2 measurement. At September 30, 2013, the estimated fair value of Praxair's long-term debt portfolio was \$7,948 million versus a carrying value of \$7,891 million. At December 31, 2012, the estimated fair value of Praxair's long-term debt portfolio was \$7,131 million versus a carrying value of \$6,724 million. Differences from carrying amounts are attributable to interest-rate changes subsequent to when the debt was issued.

Table of Contents

8. Earnings Per Share – Praxair, Inc. Shareholders

Basic earnings per share is computed by dividing Net income – Praxair, Inc. for the period by the weighted average number of Praxair common shares outstanding. Diluted earnings per share is computed by dividing Net income – Praxair, Inc. for the period by the weighted average number of Praxair common shares outstanding and dilutive common stock equivalents, as follows:

| | Quarter Ended September 30, | | Nine Months Ended September 30, | |
|--|-----------------------------|---------|---------------------------------|---------|
| | 2013 | 2012 | 2013 | 2012 |
| Numerator (Millions of dollars) | | | | |
| Net income - Praxair, Inc. | \$445 | \$430 | \$1,281 | \$1,278 |
| Denominator (Thousands of shares) | | | | |
| Weighted average shares outstanding | 294,595 | 297,843 | 295,271 | 298,224 |
| Shares earned and issuable under compensation plans | 529 | 573 | 528 | 569 |
| Weighted average shares used in basic earnings per share | 295,124 | 298,416 | 295,799 | 298,793 |
| Effect of dilutive securities | | | | |
| Stock options and awards | 3,233 | 3,315 | 3,278 | 3,559 |
| Weighted average shares used in diluted earnings per share | 298,357 | 301,731 | 299,077 | 302,352 |
| Basic Earnings Per Share | \$1.51 | \$1.44 | \$4.33 | \$4.28 |
| Diluted Earnings Per Share | \$1.49 | \$1.43 | \$4.28 | \$4.23 |

There were no antidilutive shares for the quarter ended September 30, 2013. 780 stock options were antidilutive and therefore excluded in the computation of diluted earnings per share for the nine months ended September 30, 2013.

Stock options of 1,601,765 and 1,594,165 were antidilutive and therefore excluded in the computation of diluted earnings per share for the quarter and nine months ended September 30, 2012.

9. Goodwill and Other Intangible Assets

Changes in the carrying amount of goodwill for the nine months ended September 30, 2013 were as follows:

| (Millions of dollars) | North America | South America | Europe | Asia | Surface Technologies | Total | |
|------------------------------|---------------|---------------|--------|------|----------------------|---------|---|
| Balance, December 31, 2012 | \$1,499 | \$195 | \$645 | \$25 | \$143 | \$2,507 | |
| Acquisitions (Note 3) | 624 | — | 93 | — | — | 717 | |
| Purchase adjustments & other | (7 |) — | — | — | — | (7 |) |
| Foreign currency translation | (6 |) (19 |) (3 |) — | — | (28 |) |
| Balance, September 30, 2013 | \$2,110 | \$176 | \$735 | \$25 | \$143 | \$3,189 | |

Praxair has performed its goodwill impairment tests annually during the second quarter of each year, and historically has determined that the fair value of each of its reporting units was substantially in excess of its carrying value. For the 2013 test Praxair applied the FASB's updated accounting guidance (refer to Note 1 to the consolidated financial statements of Praxair's 2012 Annual Report on Form 10-K) which allows the Company to first assess qualitative factors to determine the extent of additional quantitative analysis, if any, that may be required to test goodwill for impairment. Based on the qualitative assessments performed, Praxair concluded that it was more likely than not that the fair value of each reporting unit substantially exceeded its carrying value and therefore, further quantitative analysis was not required. As a result, no impairment was recorded. There were no indicators of impairment through September 30, 2013.

Table of Contents

Changes in the carrying amounts of other intangibles for the nine months ended September 30, 2013 were as follows:

| (Millions of dollars) | Customer & License/Use Agreements | Non-compete Agreements | Patents & Other | Total |
|-----------------------------------|---|---------------------------|--------------------|----------|
| Cost: | | | | |
| Balance, December 31, 2012 | \$232 | \$37 | \$20 | \$289 |
| Additions (Note 3) | 428 | 3 | 30 | 461 |
| Foreign currency translation | 2 | — | — | 2 |
| Other * | 6 | (10 |) (7 |) (11 |
| Balance, September 30, 2013 | \$668 | \$30 | \$43 | \$741 |
| Less: Accumulated amortization | | | | |
| Balance, December 31, 2012 | \$(89 |) \$(20 |) \$(7 |) \$(116 |
| Amortization expense | (23 |) (4 |) (2 |) (29 |
| Foreign currency translation | — | — | — | — |
| Other * | 2 | 10 | 5 | 17 |
| Balance, September 30, 2013 | \$(110 |) \$(14 |) \$(4 |) \$(128 |
| Net Balance at September 30, 2013 | \$558 | \$16 | \$39 | \$613 |

* Other primarily relates to the write-off of fully amortized assets and purchase accounting adjustments.

There are no expected residual values related to these intangible assets. The remaining weighted-average amortization period for intangible assets is approximately 19 years.

Total estimated annual amortization expense is as follows:

| (Millions of dollars) | |
|-----------------------|-------|
| Remaining 2013 | \$13 |
| 2014 | 46 |
| 2015 | 46 |
| 2016 | 43 |
| 2017 | 37 |
| Thereafter | 428 |
| | \$613 |

10. Share-Based Compensation

Share-based compensation of \$18 million (\$12 million after-tax) and \$17 million (\$12 million after-tax) was recognized during the quarters ended September 30, 2013 and 2012, respectively. Share-based compensation of \$52 million (\$35 million after-tax) and \$52 million (\$36 million after-tax) was recognized for the nine months ended September 30, 2013 and 2012, respectively. The expense was recorded primarily in selling, general and administrative expenses. There was no share-based compensation cost that was capitalized. For further details regarding Praxair's share-based compensation arrangements and prior year grants, refer to Note 15 to the consolidated financial statements of Praxair's 2012 Annual Report on Form 10-K.

Stock Options

The weighted-average fair value of options granted during the nine months ended September 30, 2013 was \$16.31 (\$17.43 in 2012) based on the Black-Scholes Options-Pricing model. The decrease in grant date fair value year-over-year is primarily attributable to the impacts of volatility and dividend yield.

Table of Contents

The following weighted-average assumptions were used for grants in 2013 and 2012 :

| | Nine Months Ended September 30, | | |
|-------------------------|---------------------------------|--------|---|
| | 2013 | 2012 | |
| Dividend yield | 2.2 | % 2.0 | % |
| Volatility | 21.7 | % 22.5 | % |
| Risk-free interest rate | 0.76 | % 0.86 | % |
| Expected term years | 5 | 5 | |

The following table summarizes option activity under the plans as of September 30, 2013 and changes during the nine months period then ended (averages are calculated on a weighted basis; life in years; intrinsic value expressed in millions):

| | Number of Options (000's) | Average Exercise Price | Average Remaining Life | Aggregate Intrinsic Value |
|-----------------------------------|---------------------------------|---------------------------|------------------------------|---------------------------------|
| Outstanding at January 1, 2013 | 12,281 | \$74.05 | | |
| Granted | 1,308 | 110.58 | | |
| Exercised | (1,625) |) 58.86 | | |
| Cancelled or Expired | (48) |) 104.27 | | |
| Outstanding at September 30, 2013 | 11,916 | 80.00 | 5.6 | \$479 |
| Exercisable at September 30, 2013 | 9,056 | \$71.20 | 4.6 | \$444 |

The aggregate intrinsic value represents the difference between the company's closing stock price of \$120.21 as of September 30, 2013 and the exercise price multiplied by the number of options outstanding as of that date. The total intrinsic value of stock options exercised during the quarter and nine months ended September 30, 2013 was \$25 million and \$93 million, respectively (\$15 million and \$129 million during the same time periods in 2012, respectively).

Cash received from option exercises under all share-based payment arrangements for the quarter and nine months ended September 30, 2013 was \$29 million and \$96 million (\$15 million and \$113 million for the same time periods in 2012, respectively). The cash tax benefit realized from share-based compensation totaled \$9 million and \$44 million for the quarter and nine months ended September 30, 2013, of which \$31 million in excess tax benefits was classified as financing cash flows for the nine months ended September 30, 2013 (\$7 million and \$68 million tax benefit for the same periods in 2012 of which \$50 million represented excess tax benefit for the nine months ended September 30, 2012).

As of September 30, 2013, \$27 million of unrecognized compensation cost related to non-vested stock options is expected to be recognized over a weighted-average period of approximately 1 year.

Performance-Based and Restricted Stock Awards

During the nine months ended September 30, 2013, the company granted performance-based stock units to employees which vest on the third anniversary of their grant date. The actual number of shares issued in settlement of a vested award can range from zero to 200 percent of the target number of shares granted based upon the company's attainment of specified performance targets at the end of a three year period. Compensation expense related to these awards is recognized over the three-year performance period based on the fair value of the closing market price of the company's common stock on the date of the grant and the estimated performance that will be achieved. Compensation expense will be adjusted during the three-year performance period based upon the estimated performance levels that will be achieved.

During the nine months ended September 30, 2013, the company also granted restricted stock units to employees. The majority of the restricted stock units vest at the end of a three year service period. Compensation expense related to the restricted stock units is recognized on a straight-line basis over the vesting period.

The weighted-average fair value of performance-based stock and restricted stock units granted during the nine months ended September 30, 2013 was \$103.46 and \$105.53, respectively, (\$103.13 and \$103.81 for the same periods in 2012). This is based on the closing market price of Praxair's common stock on the grant date adjusted for dividends

that will not be paid during the vesting period.

20

Table of Contents

The following table summarizes non-vested performance-based and restricted stock award activity as of September 30, 2013 and changes during the nine months then ended (shares based on target amounts, averages are calculated on a weighted basis):

| | Performance-Based | | Restricted Stock | |
|----------------------------------|--------------------------|-------------------------------|--------------------------|-------------------------------|
| | Number of Shares (000's) | Average Grant Date Fair Value | Number of Shares (000's) | Average Grant Date Fair Value |
| Non-vested at January 1, 2013 | 840 | \$88.83 | 368 | \$89.89 |
| Granted (a) | 416 | 103.46 | 116 | 105.53 |
| Vested | (371) |) 70.91 | (131) |) 76.31 |
| Cancelled | (12) |) 101.16 | (6) |) 98.83 |
| Non-vested at September 30, 2013 | 873 | \$99.57 | 347 | \$100.22 |

(a) Performance-based stock unit grants during 2013 include 98 thousand shares relating to the actual payout of the 2010 PSU grants in 2013.

As of September 30, 2013, based on current estimates of future performance, \$38 million of unrecognized compensation cost related to performance-based awards is expected to be recognized through the first quarter of 2016 and \$17 million of unrecognized compensation cost related to the restricted stock awards is expected to be recognized primarily through the fourth quarter of 2017.

11. Retirement Programs

The components of net pension and postretirement benefits other than pensions ("OPEB") costs for the quarters and nine months ended September 30, 2013 and 2012 are shown below:

| (Millions of dollars) | Quarter Ended September 30, | | | | Nine Months Ended September 30, | | | |
|--|-----------------------------|--------|------|-------|---------------------------------|---------|------|-------|
| | Pensions | | OPEB | | Pensions | | OPEB | |
| | 2013 | 2012 | 2013 | 2012 | 2013 | 2012 | 2013 | 2012 |
| Service cost | \$14 | \$12 | \$1 | \$1 | \$42 | \$37 | \$3 | \$3 |
| Interest cost | 28 | 30 | 3 | 3 | 86 | 91 | 9 | 9 |
| Expected return on plan assets | (38) |) (38) |) — |) — | (114) |) (116) |) — |) — |
| Net amortization and deferral | 23 | 17 | (1) |) (2) |) 70 | 51 | (3) |) (5) |
| Net periodic benefit cost before pension settlement charge | 27 | 21 | 3 | 2 | 84 | 63 | 9 | 7 |
| Pension settlement charge (Note 2) | 9 | 9 | — | — | 9 | 9 | — | — |
| Net periodic benefit cost | \$36 | \$30 | \$3 | \$2 | \$93 | \$72 | \$9 | \$7 |

Praxair estimates that 2013 contributions to its pension plans will be in the area of \$50 million, of which \$48 million have been made through September 30, 2013.

12. Commitments and Contingencies

Contingent Liabilities

Praxair is subject to various lawsuits and government investigations that arise from time to time in the ordinary course of business. These actions are based upon alleged environmental, tax, antitrust and personal injury claims, among others. Praxair has strong defenses in these cases and intends to defend itself vigorously. It is possible that the company may incur losses in connection with some of these actions in excess of accrued liabilities. Management does not anticipate that in the aggregate such losses would have a material adverse effect on the company's consolidated financial position or liquidity; however, it is possible that the final outcomes could have a significant impact on the company's reported results of operations in any given period (see Note 17 to the consolidated financial statements of Praxair's 2012 Annual Report on Form 10-K).

Among such matters are:

-

Claims by the Brazilian taxing authorities against several of the company's Brazilian subsidiaries relating to non-income and income tax matters.

During May 2009, the Brazilian government published Law 11941/2009 instituting a new voluntary amnesty program ("Refis Program") which allowed Brazilian companies to settle certain federal tax disputes at reduced amounts. During the 2009 third quarter, Praxair decided that it was economically beneficial to settle many of its outstanding federal tax disputes and these disputes were enrolled in the Refis Program and settled. The final settlement related to the Refis

Table of Contents

Program is subject to final calculation and review by the Brazilian federal government and, although the timing is very difficult to estimate, it is possible that this review could be concluded during the next year. Any differences from amounts recorded will be adjusted to income at that time.

After enrollment in the amnesty programs, at September 30, 2013 the most significant remaining claims relate to state VAT tax matters associated with procedural issues and a federal income tax matter where the taxing authorities are challenging the tax rate that should be applied to income generated by a subsidiary company. The total estimated exposure relating to such claims, including interest and penalties, as appropriate, is approximately \$192 million. Praxair has not recorded any liabilities related to such claims based on management judgments, after considering judgments and opinions of outside counsel. Because litigation in Brazil historically takes many years to resolve, it is very difficult to estimate the timing of resolution of these matters; however, it is possible that certain of these matters may be resolved within the near term. The company is vigorously defending against the proceedings.

On September 1, 2010, CADE (Brazilian Administrative Council for Economic Defense) announced alleged anticompetitive activity on the part of five industrial gas companies in Brazil and imposed fines on all five companies. Originally, CADE imposed a civil fine of R\$2.2 billion Brazilian reais (US\$986 million) against White Martins, the Brazil-based subsidiary of Praxair, Inc. In response to a motion for clarification, the fine was reduced to R\$1.7 billion Brazilian reais (US\$762 million) due to a calculation error made by CADE. The amount of the fine is subject to indexation using SELIC. On September 2, 2010, Praxair issued a press release and filed a report on Form 8-K rejecting all claims and stating that the fine represents a gross and arbitrary disregard of Brazilian law.

On October 19, 2010, White Martins filed an annulment petition (“appeal”) with the Federal Court in Brasilia seeking to have the fine against White Martins entirely overturned. In order to suspend payment of the fine pending the completion of the appeal process, Brazilian law required that the company tender a form of guarantee in the amount of the fine as security. Currently, 50% of the guarantee is satisfied by letters of credit with a financial institution and 50% of the guarantee is satisfied by equity of a Brazilian subsidiary.

Praxair strongly believes that the allegations are without merit and that the fine will be entirely overturned during the appeal process. The company further believes that it has strong defenses and will vigorously defend against the allegations and related fine up to such levels of the Federal Courts in Brazil as may be necessary. Because appeals in Brazil historically take many years to resolve, it is very difficult to estimate when the appeal will be finally decided. Based on management judgments, after considering judgments and opinions of outside counsel, no reserve has been recorded for this proceeding as management does not believe that a loss is probable.

Contractual Obligations Update

The following table sets forth an update to Praxair’s material unconditional purchase obligations as of September 30, 2013:

| (Millions of dollars) | Expiring through December 31, | | | | | | Total |
|------------------------------------|-------------------------------|-------|-------|-------|-------|------------|---------|
| | 2013 Remaining | 2014 | 2015 | 2016 | 2017 | Thereafter | |
| Unconditional Purchase Obligations | \$167 | \$511 | \$435 | \$416 | \$399 | \$3,830 | \$5,758 |

Unconditional purchase obligations represent contractual commitments under various long- and short-term take-or-pay arrangements with suppliers and are not included on Praxair's balance sheet. These obligations are primarily minimum-purchase commitments for helium, electricity, natural gas, and feedstock used to produce atmospheric and process gases. A significant portion of these obligations is passed on to customers through similar take-or-pay or other contractual arrangements. Purchase obligations that are not passed along to customers through such contractual arrangements are subject to market conditions, but do not represent a material risk to Praxair.

\$3,881 million of these purchase obligations relate to power and are intended to secure the uninterrupted supply of electricity and feedstock to our plants in order for Praxair to reliably satisfy customer product supply obligations, and extend through 2030. Certain of the power contracts contain various cancellation provisions requiring supplier agreement which the company believes could reduce the reported obligation significantly, if desired, and many are subject to annual escalations based on local inflation factors. The purchase obligations also include a multi-year

contract for silane, with a total purchase obligation of \$168 million at September 30, 2013. Since this contract was signed, the market for silane has not developed as expected and prices have decreased due to lower demand from photovoltaics and consumer electronics markets, primarily in Asia. At September 30, 2013, Praxair's current selling prices and estimated future demand for silane are in excess of its contractual purchase obligations under the contract, as amended. The company is continuously monitoring market developments.

Table of Contents

13. Segments

Sales and operating profit by segment for the quarters and nine months ended September 30, 2013 and 2012 are shown below. For a description of Praxair's operating segments, refer to Note 18 to the consolidated financial statements of Praxair's 2012 Annual Report on Form 10-K.

| (Millions of dollars) | Quarter Ended September 30, | | Nine Months Ended September 30, | |
|---|-----------------------------|---------|---------------------------------|---------|
| | 2013 | 2012 | 2013 | 2012 |
| SALES ^(a) | | | | |
| North America | \$1,588 | \$1,391 | \$4,597 | \$4,182 |
| Europe | 386 | 352 | 1,138 | 1,111 |
| South America | 494 | 516 | 1,561 | 1,598 |
| Asia | 385 | 358 | 1,131 | 1,040 |
| Surface Technologies | 160 | 157 | 488 | 494 |
| Total sales | \$3,013 | \$2,774 | \$8,915 | \$8,425 |
| (Millions of dollars) | Quarter Ended September 30, | | Nine Months Ended September 30, | |
| | 2013 | 2012 | 2013 | 2012 |
| OPERATING PROFIT | | | | |
| North America | \$406 | \$374 | \$1,145 | \$1,098 |
| Europe | 64 | 60 | 195 | 196 |
| South America | 115 | 112 | 352 | 337 |
| Asia | 67 | 52 | 191 | 177 |
| Surface Technologies | 27 | 25 | 84 | 78 |
| Segment operating profit | 679 | 623 | 1,967 | 1,886 |
| Venezuela currency devaluation and other charges (Note 2) | (9 |) (65 |) (32 |) (65 |
| Total operating profit | \$670 | \$558 | \$1,935 | \$1,821 |

(a) Intersegment sales, primarily from North America to other segments, were not significant for the quarters and nine months ended September 30, 2013 and 2012.

| For employee savings and incentive plans | 92 | — | 92 | 108 | — | 108 | |
| Purchases of common stock | (458 |) — | (458 |) (459 |) — | (459 |) |
| Tax benefit from share-based compensation | 32 | — | 32 | 52 | — | 52 | |
| Share-based compensation | 52 | — | 52 | 52 | — | 52 | |
| Balance, end of period | \$6,210 | \$ 365 | \$6,575 | \$6,015 | \$ 331 | \$6,346 | |

Net income for noncontrolling interests excludes Net income related to redeemable noncontrolling interests of \$5 million and \$17 million for the quarter and nine months ended September 30, 2013 (\$5 million and \$15 million for (a) the same time periods in 2012, respectively), which is not part of total equity (see redeemable noncontrolling interests section below).

The components of AOCI are as follows:

| (Millions of dollars) | September 30, 2013 | December 31, 2012 | |
|--|-----------------------|----------------------|---|
| Cumulative translation adjustment (a) | | | |
| North America | \$(283 |) \$(178 |) |
| South America | (1,061 |) (837 |) |
| Europe | (81 |) (93 |) |
| Asia | 6 | 23 | |
| Surface Technologies | 27 | 30 | |
| | (1,392 |) (1,055 |) |
| Derivatives - net of taxes | (4 |) (5 |) |
| Pension / OPEB funded status obligation - net of taxes | (743 |) (792 |) |
| | \$(2,139 |) \$(1,852 |) |

(a) Includes \$13 million and \$11 million in 2013 and 2012, respectively, attributable to noncontrolling interests.

Redeemable Noncontrolling Interests

Noncontrolling interests with redemption features, such as put/sell options, that are not solely within the Company's control ("redeemable noncontrolling interests") are reported separately in the consolidated balance sheets at the greater of carrying value or redemption value. For redeemable noncontrolling interests that are not yet exercisable, Praxair

calculates the redemption value by accreting the carrying value to the redemption value over the period until exercisable. If the redemption value is greater than the carrying value, any increase is adjusted directly to retained earnings and does not impact net income.

Table of Contents

The following is a summary of the changes in redeemable noncontrolling interests for the nine months ended September 30, 2013 and 2012:

| (Millions of dollars) | 2013 | 2012 | |
|--|-------|-------|---|
| Balance, January 1, | \$252 | \$220 | |
| Net income | 17 | 15 | |
| Distributions to noncontrolling interest | (9 |) (8 |) |
| Redemption value adjustments/accretion | 40 | 11 | |
| Foreign currency translation and other | (10 |) 5 | |
| Balance, September 30, | \$290 | \$243 | |

Table of Contents

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Consolidated Results

Sales grew 9% in the 2013 third quarter from the prior-year period. Underlying sales growth from higher volumes and higher pricing was 7%, reflecting growth in all geographic segments. Overall volume growth was driven by new project start-ups in North America and Asia and higher volumes in South America due to stronger economic activity as compared to the prior year. Overall volumes in Europe were flat as compared to the prior-year. Acquisitions in North America and Europe contributed 3% sales growth. Reported operating profit grew 20% year-over-year primarily due to the charges in the 2012 third quarter for the cost reduction program. Excluding these charges, adjusted operating profit grew 9% year-over-year primarily from higher volumes, pricing, and acquisitions. Reported net income and diluted earnings per share ("EPS") were 3% and 4% above the prior year, respectively. This growth was lower than the growth in operating profit due to an income tax benefit in the 2012 third quarter. Excluding this benefit, adjusted net income and EPS grew 8% and 9%, in line with the growth in operating profit, as higher interest expense was offset by a lower share count.

Sales grew 6% in the nine months ended September 30, 2013. Underlying sales increased 4% driven by project start-ups primarily in North and South America and Asia, and from higher pricing. Reported operating profit grew 6% from the prior-year. Excluding \$32 million of charges for the Venezuela currency devaluation and pension settlement in the 2013 period, and \$65 million of charges for the cost reduction program and pension settlement in the 2012 nine-month period, adjusted operating profit grew 4% from the prior year from higher volumes and higher pricing, partially offset by higher depreciation and amortization expense and SG&A expense due to plant start-ups and acquisitions. Reported net income was comparable to the prior-year period and EPS grew 1%. On an adjusted basis, net income grew 3% and EPS 5%.

Table of Contents

The following table provides summary data for the quarters and nine months ended September 30, 2013 and 2012:

| (Dollar amounts in millions, except per share data) | Quarter Ended September 30, | | | Nine Months Ended September 30, | | | | |
|---|-----------------------------|---------|----------|---------------------------------|---------|----------|------|---|
| | 2013 | 2012 | Variance | 2013 | 2012 | Variance | | |
| Reported Amounts | | | | | | | | |
| Sales | \$3,013 | \$2,774 | 9 | % | \$8,915 | \$8,425 | 6 | % |
| Cost of sales, exclusive of depreciation and amortization | \$1,697 | \$1,595 | 6 | % | \$5,045 | \$4,813 | 5 | % |
| Gross margin | \$1,316 | \$1,179 | 12 | % | \$3,870 | \$3,612 | 7 | % |
| As a percent of sales | 43.7 | % 42.5 | % | | 43.4 | % 42.9 | % | |
| Selling, general and administrative | \$336 | \$306 | 10 | % | \$1,017 | \$951 | 7 | % |
| As a percent of sales | 11.2 | % 11.0 | % | | 11.4 | % 11.3 | % | |
| Depreciation and amortization | \$281 | \$248 | 13 | % | \$822 | \$747 | 10 | % |
| Venezuela currency devaluation and other charges (a) | \$9 | \$65 | | | \$32 | \$65 | | |
| Other income (expense) - net | \$4 | \$22 | | | \$8 | \$45 | | |
| Operating profit | \$670 | \$558 | 20 | % | \$1,935 | \$1,821 | 6 | % |
| As a percent of sales | 22.2 | % 20.1 | % | | 21.7 | % 21.6 | % | |
| Interest expense - net | \$41 | \$36 | 14 | % | \$122 | \$106 | 15 | % |
| Effective tax rate | 27.8 | % 17.2 | % | | 28.3 | % 24.7 | % | |
| Income from equity investments | \$8 | \$8 | — | % | \$29 | \$25 | 16 | % |
| Noncontrolling interests | \$(17) | \$(10) | 70 | % | \$(48) | \$(38) | 26 | % |
| Net income - Praxair, Inc. | \$445 | \$430 | 3 | % | \$1,281 | \$1,278 | — | % |
| Diluted earnings per share | \$1.49 | \$1.43 | 4 | % | \$4.28 | \$4.23 | 1 | % |
| Diluted shares outstanding | 298,357 | 301,731 | (1) | % | 299,077 | 302,352 | (1) | % |
| Adjusted Amounts (a) | | | | | | | | |
| Operating profit | \$679 | \$623 | 9 | % | \$1,967 | \$1,886 | 4 | % |
| As a percent of sales | 22.5 | % 22.5 | % | | 22.1 | % 22.4 | % | |
| Effective tax rate | 27.9 | % 27.9 | % | | 28.0 | % 28.0 | % | |
| Net income - Praxair, Inc. | 451 | \$419 | 8 | % | \$1,310 | \$1,267 | 3 | % |
| Diluted earnings per share | \$1.51 | \$1.39 | 9 | % | \$4.38 | \$4.19 | 5 | % |

The adjusted amounts are non-GAAP measures that supplement an understanding of the company's financial information by presenting information that investors, financial analysts and management use to help evaluate the company's performance and ongoing business trends on a comparable basis. The non-GAAP adjustments for 2013 relate to the impact of the first-quarter Venezuela currency devaluation of \$23 million (\$23 million net of tax) and (a) third-quarter pension settlement charge of \$9 million (\$6 million net of tax). The non-GAAP adjustments for 2012 relate to the third quarter cost reduction program and other charges of \$65 million (\$44 million net of tax) and a tax benefit of \$55 million related to the divestiture of the U.S. Homecare business (See Note 2 to the condensed consolidated financial statements). A reconciliation of reported amounts to adjusted amounts can be found in the "Non-GAAP Financial Measures" section of this MD&A.

Table of Contents

Results of Operations

The changes in consolidated sales and operating profit compared to the prior year is attributable to the following:

| Factors Contributing to Changes | Quarter Ended September 30, 2013 vs. 2012 | | Nine Months Ended September 30, 2013 vs. 2012 | | |
|---|--|------------------|--|------------------|----|
| | Sales | Operating Profit | Sales | Operating Profit | |

Sales grew \$239 million, or 9%, in the third quarter ended September 30, 2013 versus the respective 2012 period.

Underlying sales grew 7% from higher pricing and volume growth driven by higher on-site volumes from new project

start-ups primarily in North America and Asia, and volume growth in South America. By end-market, sales growth was strongest to energy, metals

Table of Contents

and chemicals customers, as compared to the prior-year quarter. For the nine-month period sales grew \$490 million, or 6%. Underlying sales growth of 4% came from higher pricing, and volume growth in North and South America and Asia. Acquisitions, including NuCO₂ and Dominion Technology Gases, contributed 3% and 2% to sales growth in the quarter and nine-month periods, respectively. The impacts of foreign currency translation and cost pass-through in both periods was not material.

Gross margin in 2013 increased \$137 million, or 12%, for the quarter and increased \$258 million, or 7%, for the nine months ended September 30, 2013 versus the respective 2012 periods primarily due to higher pricing and volumes. Higher pricing contributed to an increase in the gross margin as a percentage of sales for the quarter and nine-months versus the respective prior-year periods.

Selling, general and administrative expenses ("SGA") increased \$30 million, or 10%, in the quarter and \$66 million, or 7%, for the nine months ended September 30, 2013 versus the respective 2012 periods. The increase in the third quarter was due primarily to increased pension and other benefit costs of \$30 million, and \$13 million related to acquisitions, partially offset by benefits from cost reduction and currency impacts of \$13 million. The increase in the nine-month period was due primarily to increased pension and other benefit costs of \$56 million, and \$42 million related to acquisitions, partially offset by benefits from cost reduction and currency impacts of \$32 million. SGA as a percent of sales was relatively flat as compared to the prior year in both the quarter and nine-month periods.

Depreciation and amortization expense increased \$33 million, or 13%, for the third quarter and increased \$75 million, or 10%, for the nine months ended September 30, 2013 versus the respective 2012 periods. Depreciation and amortization increased \$13 million and \$34 million in the quarter and nine-month periods, respectively, due to new project start-ups in all geographic segments. Acquisitions in North America and Europe increased depreciation and amortization \$13 million and \$30 million in the quarter and nine-month periods, respectively. The remaining variances of \$7 million and \$11 million in the quarter and nine-month periods related to other items none of which were significant.

Other income (expense) – net was a \$4 million benefit in the third quarter, compared to \$22 million in the prior-year quarter. The 2012 quarter included a gain on asset sale in North America. For the year-to date period, other income was an \$8 million benefit, compared to a \$45 million benefit in the prior-year. The 2012 year-to-date period included a gain on an asset sale in Korea, and a litigation settlement in South America, partially offset by severance and business restructuring charges in South America.

Reported operating profit increased \$112 million, or 20%, for the third quarter of 2013 primarily due to the cost reduction program and other charges of \$65 million included in the 2012 third quarter. Excluding these charges, adjusted operating profit increased \$56 million, or 9%. The increase in operating profit was driven by higher pricing, volumes, acquisitions, and productivity gains, partially offset by higher depreciation and amortization and SGA expense, as discussed above. Reported operating profit increased \$114 million, or 6%, for the nine months ended September 30, 2013 versus the respective 2012 period. The nine-month period includes \$32 million of charges related to the Venezuela currency devaluation and pension settlement versus \$65 million of charges in the 2012 period primarily related to the cost reduction program (see Note 2 to the condensed consolidated financial statements). In the nine-month period, adjusted operating profit increased \$81 million, or 4%, from higher pricing, volumes, acquisitions and productivity gains, partially offset by higher costs. A discussion of operating profit by segment is included in the segment discussion that follows.

Interest expense-net increased \$5 million, or 14%, for the quarter and \$16 million, or 15%, for the nine months ended September 30, 2013 versus the respective periods in 2012. The increase in debt levels, primarily to support acquisitions and capital expenditures, increased interest expense by approximately \$13 million and \$35 million for the quarter and nine month periods ended September 30, 2013, respectively. Interest rates reduced expense by approximately \$8 million and \$17 million for the quarter and nine months ended September 30, 2013 respectively. Capitalized interest had an immaterial impact on interest expense for the quarter. For the nine-month period higher capitalized interest, due to higher capital expenditures, reduced interest expense by approximately \$3 million.

The reported effective tax rate for the quarter and nine months ended September 30, 2013 was 27.8% and 28.3%, respectively, and 17.2% and 24.7% for the 2012 periods. The 2012 periods include a tax benefit of \$55 million related

to the divestiture of the U.S. Homecare business. The adjusted effective tax rate for the quarter and nine months ended September 30, 2013 and 2012 was approximately 28%.

Praxair's significant sources of equity income are in China, Italy, and the Middle East. Income from equity investments in the quarter was comparable to the prior year and increased \$4 million for the nine months ended September 30, 2013 versus the respective 2012 periods, due primarily to higher earnings in China resulting from stronger volumes.

Table of Contents

At September 30, 2013, non-controlling interests consisted primarily of non-controlling shareholders' investments in Asia (primarily China and India), Europe (primarily Italy and Scandinavia), and North America (primarily within the US packaged gas business). Non-controlling interests increased \$7 million for the quarter and increased \$10 million for the nine months ended September 30, 2013 versus the respective periods in 2012 due to higher earnings of these entities.

Reported net income-Praxair, Inc. increased \$15 million, or 3%, for the quarter versus 2012 and Adjusted net income-Praxair, Inc. increased \$32 million, or 8%, for the quarter versus 2012. The increases in both periods are due primarily to higher operating profit partially offset by increased interest expense. Reported net income-Praxair, Inc. increased \$3 million, for the nine months ended September 30, 2013 versus the respective 2012 period and Adjusted net income-Praxair, Inc. increased \$43 million, or 3% for the nine months ended September 30, 2013 versus 2012. The increases in both periods are due to higher operating profit partially offset by increased interest expense.

Reported EPS increased \$0.06 and \$0.05 in the third quarter and nine months ended September 30, 2013, respectively, versus the respective periods in 2012. Adjusted EPS increased \$0.12 and \$0.19 in the third quarter and nine months ended September 30, 2013, respectively, versus the comparative periods in 2012. The increase in reported and adjusted EPS in both periods is attributable to higher net income - Praxair, Inc. during the quarter and the reduction in the number of diluted shares outstanding as a result of the company's net repurchases of common stock.

Other Comprehensive Income

Other comprehensive income for the third quarter of \$101 million includes positive currency translation adjustments of \$77 million, a positive adjustment of \$23 million related to the funded status of retirement obligations and a positive adjustment of \$1 million related to derivative instruments. The translation adjustments reflect the impact of translating local currency foreign subsidiary financial statements to U.S. dollars (see "Currency" section of the MD&A for exchange rates). The positive translation adjustment primarily resulted from currency movements in Europe (\$47 million), Asia (\$27 million primarily related to Korea) and Surface Technologies (\$13 million primarily related to Europe). These positive impacts were offset with a negative currency adjustment of \$17 million in South America, primarily related to Brazil and Argentina. The positive pension funded status impact is primarily related to required reclassifications of net actuarial losses to net income (see note 11 to the Condensed Consolidated Financial Statements). Other comprehensive loss for the nine months ended September 30, 2013 of \$285 million includes negative translation adjustments of \$335 million, a positive adjustment of \$49 million related to the funded status of retirement obligations and a positive adjustment of \$1 million related to derivative instruments. The negative translation adjustment primarily resulted from currency movements in North America (\$105 million primarily related to Mexico and Canada), South America (\$224 million related primarily to Brazil and Argentina), and Asia (\$17 million related primarily to India). These negative impacts were offset with a positive currency adjustment in Europe (\$12 million primarily related to Germany).

Other comprehensive income for the third quarter September 30, 2012 of \$246 million primarily related to a positive translation adjustments of \$245 million. The positive translation adjustment primarily resulted from currency movements in North America (\$153 million primarily related to Mexico and Canada), Europe (\$39 million), Asia (\$42 million primarily related to Korea and India) and Surface Technologies (\$11 million primarily related to Europe). These positive impacts were offset with a negative currency adjustment of \$7 million in South America, primarily related to Brazil. Other comprehensive loss for the nine months ended September 30, 2012 of \$9 million includes negative translation adjustments of \$31 million and a positive adjustment of \$22 million related to the funded status of retirement obligations. The negative translation adjustment primarily resulted from currency movements in South America (\$160 million related primarily to Brazil). These negative impacts were offset with a positive currency adjustment in North America (\$117 million primarily related to Mexico and Canada), Asia (\$13 million primarily related to Korea).

North America segment sales increased \$197 million, or 14%, in the quarter as compared to the prior year. Underlying sales growth was 7% driven primarily by higher on-site volumes from new project start-ups for hydrogen supply to refinery customers in the United States and merchant sales to oil well services customers and higher pricing. Strong sales growth to the energy end-market was primarily due to these project start-ups. Acquisitions, primarily NuCO₂, added 6% sales growth. Higher cost pass-through, primarily higher natural gas prices passed through to hydrogen customers, increased sales by 1%. For the year-to-date period, sales grew \$415 million, or 10%. Underlying sales growth of 3% came primarily from higher pricing and higher volumes driven by the new project start-ups.

Acquisitions added 5% growth, and cost-pass-through 2%. Packaged gas sales were higher in the quarter primarily due to growth in the U.S. business. However, primarily due to the impact of new projects on on-site sales and NuCO₂ on merchant sales, packaged gas sales have decreased as a percentage of total sales for the segment.

North America segment operating profit increased \$32 million, or 9%, for the quarter ended September 30, 2013 versus the respective 2012 period. Higher volumes from project start-ups, higher pricing, acquisitions and a contract settlement for \$23 million in the United States drove operating profit growth versus the prior year. The growth was partially offset by higher operating costs driven by acquisitions and the impact of a gain on asset sale in the prior year. Depreciation and amortization increased \$21 million for the quarter primarily due to acquisitions and the new project start-ups. Operating profit increased \$47 million, or 4%, for the nine months ended September 30, 2013 versus the respective 2012 period primarily due to higher pricing, acquisitions and the impact of the contract settlement which were partially offset by higher operating costs driven by acquisitions and the impact of a gain on asset sale in the prior year. Depreciation and amortization increased \$47 million for the nine-month period primarily due to acquisitions.

Table of Contents

Europe segment sales of \$386 million increased \$34 million, or 10%, from the prior-year quarter. Cost pass-through reduced sales in the quarter by 2%. Excluding the effects of lower cost pass-through and the positive effects of currency translation, sales grew 6%, primarily from acquisitions. Overall volumes were comparable to the prior year, as volume growth from project starts in Russia was offset by lower base business volumes, primarily packaged gases in Spain and Italy. For the nine-month period sales increased \$27 million, or 2% from the prior year, to \$1,138 million. The positive impact of currency was offset by the lower cost pass-through noted above, and lower volumes in most European countries with the exception of Russia, Germany and Scandinavia.

Europe segment operating profit increased by \$4 million, or 7%, for the third quarter. The volume impact was more than offset by higher pricing, acquisitions and currency translation. Cost reductions and productivity benefits outpaced inflation in most markets. For the nine month period, operating profit decreased 1% from prior year due to lower volumes, primarily packaged gas and refrigerants, in Spain and Italy, respectively. The impact of lower volumes was partially offset by the favorable impact of higher pricing and lower costs.

| | 100 | % 100 | % 100 | % 100 | % |

South America segment sales in the third quarter decreased \$22 million or 4% versus the prior year. Excluding unfavorable currency translation impacts, sales grew 6% from higher volumes primarily to merchant and packaged gas customers and higher overall pricing. Sales growth came from most major end-markets including metals, manufacturing, chemicals, healthcare and food and beverage. For the nine month period sales decreased \$37 million, or 2% from 2012. Underlying sales growth excluding negative currency impact and cost pass-through was 6% due to higher volumes and higher pricing.

South America segment operating profit increased \$3 million, or 3%, in the third quarter and 14% excluding currency effects from higher volumes and higher pricing. For the nine months operating profit grew 13% excluding unfavorable currency impacts. The favorable operating leverage was due to volume growth and higher pricing across the region. Depreciation and amortization was comparable to the prior year as the start up of new on-site production facilities was more than offset by currency impacts.

Asia segment sales increased \$27 million, or 8%, in the third quarter as compared to the prior year. The strong volume growth of 10% was driven by new on-site plant start-ups in China, India and Korea as well as stronger demand from existing customers in the metals, energy and chemicals markets. For the year-to-date period, sales increased \$91 million, or 9%, for the same reasons discussed above.

Asia segment operating profit increased \$15 million, or 29% for the third quarter 2013 as compared to the prior year. Strong on-site volume growth and a settlement of a prior-year receivable for \$8 million (\$3 million after-tax and noncontrolling interest) in China, partially offset by the impact of lower pricing, contributed to the growth in operating profit. Operating expenses are \$3 million higher than the prior year quarter primarily due to inflationary increases in salary and other benefit costs. Depreciation and amortization expense increased \$9 million as compared to the prior year quarter primarily due to new plant start-ups. Operating profit increased \$14 million, or 8%, for the nine months ended September 30, 2013 as compared to the prior year. Higher volumes and the impact of the China contract

settlement, resulted in a 21% increase for the nine months ended September 30, 2013. This increase was partially offset by a 3% decrease due to lower pricing, primarily liquid argon in China and electronic gas customers and the impact of inflationary increases in salary and other benefit costs and a prior year

Table of Contents

gain on land sale in Korea. In addition, Depreciation and amortization expense increased \$18 million as compared to the prior year primarily due from additional depreciation from new plant start-ups.

Surface Technologies segment sales increased \$3 million, or 2%, in the quarter versus the prior-year period. Sales increased due to 1% organic growth and 1% positive currency impact due primarily to the strong Euro partially offset by the weaker Yen versus the U.S. Dollar. For the nine month period, underlying sales, excluding currency, were comparable to the prior-year period. Lower industrial coating volumes were partially offset by aviation and energy. Surface Technologies segment operating profit increased \$2 million, or 8%, in the third quarter and \$6 million, or 8%, for the nine months ended September 30, 2013 versus the respective 2012 periods. The impact of higher pricing and lower costs primarily due to the prior year cost reduction program in Europe, offset the impact of lower overall volumes for both the quarter and year-to-date periods.

Table of Contents

Currency

The results of Praxair's non-U.S. operations are translated to the company's reporting currency, the U.S. dollar, from the functional currencies used in the countries in which the company operates. For most foreign operations, Praxair uses the local currency as its functional currency. There is inherent variability and unpredictability in the relationship of these functional currencies to the U.S. dollar and such currency movements may materially impact Praxair's results of operations in any given period.

To help understand the reported results, the following is a summary of the significant currencies underlying Praxair's consolidated results and the exchange rates used to translate the financial statements (rates of exchange expressed in units of local currency per U.S. dollar):

| Currency | Percentage of YTD 2013 Consolidated Sales (a) | Exchange Rate for Income Statement | | Exchange Rate for Balance Sheet | |
|-----------------------|--|---------------------------------------|-------|------------------------------------|----------------------|
| | | Year-To-Date Average | | September 30, 2013 | December 31, 2012 |
| | | 2013 | 2012 | | |

| Net cash (used for) provided by financing activities | \$796 | \$(226 |

(a) See Note 2 to the condensed consolidated financial statements.

Cash Flow from Operations

Cash provided by operations of \$1,953 million for the nine months ended September 30, 2013 increased \$80 million versus 2012. The increase was primarily due to lower working capital requirements and pension contributions compared to the prior-year period, partially offset by lower deferred taxes primarily due to the timing of estimated tax payments.

Praxair estimates that total 2013 contributions to its pension plans will be in the area of \$50 million, of which \$48 million have been made through September 30, 2013. At a minimum, Praxair contributes to its pension plans to comply with local regulatory requirements (e.g., ERISA in the United States). Discretionary contributions in excess of the local minimum requirements are made based on many factors, including long-term projections of the plans' funded status, the economic environment, potential risk of overfunding, pension insurance costs and alternative uses of the cash. Changes to these factors can impact the amount and timing of discretionary contributions from year to year.

Table of Contents

Investing

Net cash used for investing of \$2,750 million for the nine months ended September 30, 2013 increased \$1,124 million versus 2012 primarily due to acquisitions of NuCO₂ and Dominion Technology Gases (see Note 3 to the condensed consolidated financial statements).

Financing

Cash provided by financing activities was \$796 million for the nine-month period. Net debt increased by \$1,670 million primarily to fund acquisitions and capital expenditures. Cash dividends increased \$39 million due to an increase in dividends per share from \$1.65 to \$1.80.

In February 2013, Praxair issued \$400 million of 0.75% notes due 2016 and \$500 million of 2.70% notes due 2023. In March 2013, Praxair issued \$500 million of 1.20% notes due 2018. In April 2013, Praxair issued \$475 million of 1.25% notes due 2018 and \$175 million of 3.55% notes due 2042. In June 2013, Praxair repaid \$350 million of 3.95% notes and \$500 million of 2.125% notes that became due.

Other Financial Data

Praxair's debt to capital ratio was 56.4% at September 30, 2013 versus 51.9% at December 31, 2012. This increase is attributable to higher debt levels, primarily to fund acquisitions and capital expenditures.

After-tax return on capital ("ROC") decreased to 12.8% for the four-quarter trailing period ended September 30, 2013 versus 14.2% for the 2012 period. This decrease reflects capital expenditures for plants that have not yet started or are just beginning to ramp-up, as well as the acquisition expenditures, primarily NuCO₂ (see Note 3 to the condensed consolidated financial statements).

Return on equity ("ROE") for the four-quarter trailing period ended September 30, 2013 remained strong at 28.4%.

See the "Non-GAAP Financial Measures" section below for definitions and reconciliations of these non-GAAP measures to reported GAAP amounts.

Legal Proceedings

See Note 12 to the condensed consolidated financial statements.

Non-GAAP Financial Measures

The following non-GAAP measures are intended to supplement investors' understanding of the company's financial information by providing measures which investors, financial analysts and management use to help evaluate the company's financial leverage, return on net assets employed and operating performance. Special items which the company does not believe to be indicative of on-going business trends are excluded from these calculations so that investors can better evaluate and analyze historical and future business trends on a consistent basis. Definitions of these non-GAAP measures may not be comparable to similar definitions used by other companies and are not a substitute for similar GAAP measures.

The following are the non-GAAP measures presented in the MD&A:

| (Dollar amounts in millions, except per share data) | September 30, | | |
|---|---------------|--------|----------------|
| | 2013 | 2012 | |
| Debt-to-capital | 56.4 | % 51.9 | % ¹ |
| After-tax return on capital | 12.8 | % 14.2 | % |
| Return on equity | 28.4 | % 29.2 | % |
| Debt-to-adjusted EBITDA | 2.2 | 1.9 | |

Table of Contents

| | 2013 | 2012 | 2013 | 2012 | |
| Adjusted amounts: ² | | | | | |
| Operating profit | \$679 | 623 | \$1,967 | 1,886 | |
| As a percent of sales | 22.5 | % 22.5 | % 22.1 | % 22.4 | % |
| Effective tax rate | 27.9 | % 27.9 | % 28.0 | % 28.0 | % |
| Net income - Praxair, Inc. | \$451 | 419 | \$1,310 | 1,267 | |
| Diluted earnings per share | \$1.51 | 1.39 | \$4.38 | 4.19 | |

¹ As of December 31, 2012.

The adjusted amounts for 2013 do not include the impact of the first quarter Venezuela currency devaluation of \$23 million (\$23 million net of tax) and the third-quarter pension settlement charge of \$9 million (\$6 million net of tax).

² The non-GAAP adjustments for 2012 relate to the third-quarter cost reduction program and other charges of \$65 million (\$44 million net of tax) and a tax benefit of \$55 million related to the divestiture of the U.S. Homecare business (See Note 2 to the condensed consolidated financial statements).

Debt-to-Capital Ratio

The debt-to-capital ratio is a measure used by investors, financial analysts and management to provide a measure of financial leverage and insights into how the company is financing its operations.

| | September 30, 2013 | December 31, 2012 | |

Table of Contents

After-tax Return on Capital (ROC)

After-tax return on capital is a measure used by investors, financial analysts and management to evaluate the return on net assets employed in the business. ROC measures the after-tax operating profit that the company was able to generate with the investments made by all parties in the business (debt, noncontrolling interests and Praxair, Inc. shareholders' equity).

| After-tax ROC | 12.8 | % | | 14.2 | % | |

* Tax benefit on interest expense is computed using the effective rate. The effective tax rate used was 28% for 2013 and 2012.

Return on Praxair, Inc. Shareholders' Equity (ROE)

Return on Praxair, Inc. shareholders' equity is a measure used by investors, financial analysts and management to evaluate operating performance from a Praxair shareholder perspective. ROE measures the net income attributable to Praxair, Inc. that the company was able to generate with the money shareholders have invested.

Adjusted Amounts

Adjusted amounts for the quarter ended September 30, 2013 exclude the impact of a pension settlement charge. Additionally adjusted amounts for the nine months ended September 30, 2013 exclude the impact of the Venezuela currency devaluation in the first quarter. Adjusted amounts for the quarter and nine month period ended September 30, 2012 exclude the impact of the pension settlement charge, cost reduction program and income tax benefit. The company does not believe these items are indicative of on-going business trends and, accordingly, the impact is excluded from the reported amounts so that investors can better evaluate and analyze historical and future business trends on a consistent basis. Amounts for the fourth quarter 2012 and 2011 have been included for reference purposes and to facilitate the calculations contained herein.

Contractual Obligations Update

Refer to Note 12 to the condensed consolidated financial statements.

New Accounting Standards

Refer to Note 1 of the condensed consolidated financial statements.

Outlook

Diluted earnings per share for the fourth quarter of 2013 are expected to be in the range of \$1.52 to \$1.57.

Reported diluted earnings per share for the full year 2013 are expected to be in the range of \$5.80 to \$5.85.

Non-GAAP adjusted diluted earnings per share for the full year 2013 are expected to be in the range of \$5.90 to \$5.95 which excludes the impact of the Venezuela currency devaluation in the first quarter and the pension settlement charge recorded in the third quarter and assumes an adjusted effective tax rate of about 28%.

For the full year of 2013, Praxair expects sales in the area of \$12.0 billion. Full-year capital expenditures are expected to be approximately \$1.9 billion.

The company's core business is to build, own, and operate industrial gas plants in order to supply atmospheric and process gases to customers. As such, Praxair believes that its backlog is an indicator of future sales growth. At September 30, 2013, Praxair's backlog of 35 large projects under construction was \$2 billion. This represents the total estimated capital cost of large plants under construction. About 40% of this project backlog is in North America and another 40% is in Asia, which includes projects in China, India and Korea. The rest is in Europe, primarily Russia, and South America. The projects will serve customers in the energy, chemical, manufacturing, electronics and metals markets.

Praxair provides quarterly updates on operating results, material trends that may affect financial performance, and financial earnings guidance via quarterly earnings releases and investor teleconferences. These updates are available on the company's website, www.praxair.com, but are not incorporated herein.

Forward-looking Statements

This document contains "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. These statements are based on management's reasonable expectations and assumptions as of the date the statements are made but involve risks and uncertainties. These risks and uncertainties include, without limitation: the performance of stock markets generally; developments in worldwide and national economies and other international events and circumstances; changes in foreign currencies and in interest rates; the cost and availability of electric power, natural gas and other raw materials; the ability to achieve price increases to offset cost increases; catastrophic events including natural disasters, epidemics and acts of war and terrorism; the ability to attract, hire, and retain qualified personnel; the impact of changes in financial accounting standards; the impact of changes in pension plan liabilities; the impact of tax, environmental, healthcare and other legislation and government regulation in jurisdictions in which the company operates; the cost and outcomes of investigations, litigation and regulatory proceedings; continued timely development and market acceptance of new products and applications; the impact of competitive products and pricing; future financial and operating performance of major customers and industries served; the impact of information technology system failures, network disruptions and breaches in data security; and the effectiveness and speed of integrating new acquisitions into the business. These risks and uncertainties may cause actual future results or circumstances to differ materially from the projections or estimates contained in the forward-looking statements. The company assumes no obligation to update or provide revisions to any

forward-looking statement in response to changing circumstances. The above listed risks and uncertainties are further described in Item 1A (Risk Factors) in

47

Table of Contents

this report which should be reviewed carefully. Please consider the company's forward-looking statements in light of those risks.

48

Table of Contents

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Refer to Item 7A. to Part II of Praxair's 2012 Annual Report on Form 10-K for discussion.

Item 4. Controls and Procedures

Based on an evaluation of the effectiveness of Praxair's disclosure controls and procedures, which was made under the supervision and with the participation of management, including Praxair's principal executive officer and principal financial officer, the principal executive officer and principal financial officer have each concluded that, (a) as of the end of the quarterly period covered by this report, such disclosure controls and procedures are effective in ensuring that information required to be disclosed by Praxair in reports that it files under the Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and accumulated and communicated to management including Praxair's principal executive officer and principal financial officer, to allow timely decisions regarding required disclosure.

There were no changes in Praxair's internal control over financial reporting that occurred during the quarterly (b) period covered by this report that have materially affected, or are reasonably likely to materially affect, Praxair's internal control over financial reporting.

Table of Contents

PART II - OTHER INFORMATION

Praxair, Inc. and Subsidiaries

Item 1. Legal Proceedings

See Note 12 to the condensed consolidated financial statements for a description of current legal proceedings.

Item 1A. Risk Factors

Due to the size and geographic reach of the company's operations, a wide range of factors, many of which are outside of the company's control, could materially affect the company's future operations and financial performance.

Management believes the following risks may significantly impact the company:

General Economic Conditions - Weakening economic conditions in markets in which the company does business may adversely impact the company's financial results and/or cash flows.

Praxair serves approximately 25 diverse industries across more than 50 countries, which generally leads to financial stability through various business cycles. However, a broad decline in general economic or business conditions in the industries served by its customers could adversely affect the demand for Praxair's products and impair the ability of our customers to satisfy their obligations to the company, resulting in uncollected receivables and/or unanticipated contract terminations or project delays. In addition, many of the company's customers are in businesses that are cyclical in nature, such as the chemicals, electronics, metals and refining industries. Downturns in these industries may adversely impact the company during these cycles. Additionally, such conditions could impact the utilization of the company's manufacturing capacity which may require the company to recognize impairment losses on tangible assets such as property, plant and equipment as well as intangible assets such as intellectual property or goodwill.

Cost and Availability of Raw Materials and Energy - Increases in the cost of energy and raw materials and/or disruption in the supply of these materials could result in lost sales or reduced profitability.

Energy is the single largest cost item in the production and distribution of industrial gases. Most of Praxair's energy requirements are in the form of electricity, natural gas and diesel fuel for distribution. Praxair attempts to minimize the financial impact of variability in these costs through the management of customer contracts. Large customer contracts typically have escalation and pass-through clauses to recover energy and feedstock costs. Such attempts may not successfully mitigate cost variability which could negatively impact its financial condition or results of operations.

The supply of energy has not been a significant issue in the geographic areas where it conducts business. However, regional energy conditions are unpredictable and may pose future risk.

For carbon dioxide, carbon monoxide, helium, hydrogen, specialty gases and surface technologies, raw materials are largely purchased from outside sources. Praxair has contracts or commitments for, or readily available sources of, most of these raw materials; however, their long-term availability and prices are subject to market conditions. A disruption in supply of such raw materials could impact the company's ability to meet contractual supply commitments.

International Events and Circumstances - The company's international operations are subject to the risks of doing business abroad and international events and circumstances may adversely impact its business, financial condition or results of operations.

Praxair has substantial international operations which are subject to risks including devaluations in currency exchange rates, transportation delays and interruptions, political and economic instability and disruptions, restrictions on the transfer of funds, the imposition of duties and tariffs, import and export controls, changes in governmental policies, labor unrest, possible nationalization and/or expropriation of assets, domestic and international tax laws and compliance with governmental regulations. These events could have an adverse effect on the international operations in the future by reducing the demand for its products, decreasing the prices at which it can sell its products, reducing the U.S. dollar value of revenue from international operations or otherwise having an adverse effect on its business. In particular, due to government actions related to business and currency regulations, there is considerable risk associated with operations in Venezuela. At September 30, 2013, Praxair's sales and net assets in Venezuela were less than 1% of Praxair's consolidated amounts. Also, the Company is monitoring developments regarding the collectability of government receivables from healthcare sales to public hospitals in Spain and Italy where economic conditions remain challenging and uncertain. Historically, collection of such government receivables has extended well beyond the

contractual terms of sale; however, payment has always been received. At September 30, 2013, government receivables in Spain and Italy totaled about \$110 million.

Table of Contents

Global Financial Markets Conditions - Macroeconomic factors may impact the company's ability to obtain financing or increase the cost of obtaining financing which may adversely impact the company's financial results and/or cash flows.

Volatility and disruption in the U.S. and global credit and equity markets, from time to time, could make it more difficult for Praxair to obtain financing for its operations and/or could increase the cost of obtaining financing. In addition, the company's borrowing costs can be affected by short and long-term debt ratings assigned by independent rating agencies which are based, in significant part, on the company's performance as measured by certain criteria such as interest coverage and leverage ratios. A decrease in these debt ratings could increase the cost of borrowing or make it more difficult to obtain financing. While the impact of volatility in the global credit markets cannot be predicted with certainty, the company believes that it has sufficient operating flexibility, cash reserves, and funding sources to maintain adequate amounts of liquidity to meet its business needs around the world.

Competitor Actions - The inability to effectively compete could adversely impact results of operations.

Praxair operates within a highly competitive environment worldwide. Competition is based on price, product quality, delivery, reliability, technology and service to customers. Competitors' behavior related to these areas could potentially have significant impacts on the company's financial results.

Governmental Regulations - The company is subject to a variety of United States and foreign government regulations. Changes in these regulations could have an adverse impact on the business, financial position and results of operations.

The company is subject to regulations in the following areas, among others:

Environmental protection;

Domestic and international tax laws and currency controls;

Safety;

Securities laws (e.g., SEC and generally accepted accounting principles in the United States);

Trade and import/ export restrictions;

Antitrust matters;

Global anti-bribery laws;

Healthcare reimbursement regulations; and

Conflict minerals

Changes in these or other regulatory areas may impact the company's profitability, may require the company to spend additional resources to comply with the regulations, or may restrict the company's ability to compete effectively in the marketplace. Noncompliance with such laws and regulations could result in penalties or sanctions that could have an adverse impact on the company's financial results. Environmental protection and healthcare reimbursement legislation are discussed further below.

Praxair is subject to various environmental and occupational health and safety laws and regulations, including those governing the discharge of pollutants into the air or water, the storage, handling and disposal of chemicals, hazardous substances and wastes, the remediation of contamination, the regulation of greenhouse gas emissions, and other potential climate change initiatives. Violations of these laws could result in substantial penalties, third party claims for property damage or personal injury, or sanctions. The company may also be subject to liability for the investigation and remediation of environmental contamination at properties that it owns or operates and at other properties where Praxair or its predecessors have operated or arranged for the disposal of hazardous wastes.

Although management does not believe that any such liabilities will have a material adverse impact on its financial position and results of operations, management cannot provide assurance that such costs will not increase in the future or will not become material. See the section captioned "Management's Discussion and Analysis – Environmental Matters" in Item 7 of Praxair's 2012 Annual Report on Form 10-K.

Catastrophic Events - Catastrophic events could disrupt the operations of the company and/or its customers and suppliers and may have a significant adverse impact on the results of operations.

The occurrence of catastrophic events or natural disasters such as hurricanes, health epidemics, acts of war or terrorism, could disrupt or delay the company's ability to produce and distribute its products to customers and could potentially expose the company to third-party liability claims. In addition, such events could impact the company's

customers and suppliers resulting

51

Table of Contents

in temporary or long-term outages and/or the limitation of supply of energy and other raw materials used in normal business operations. These situations are outside the company's control and may have a significant adverse impact on the company's financial results.

Retaining Qualified Personnel - The inability to attract and retain qualified personnel may adversely impact the company's business.

If Praxair fails to attract, hire and retain qualified personnel, the company may not be able to develop, market or sell its products or successfully manage its business. Praxair is dependent upon its highly skilled, experienced and efficient workforce to be successful. Much of Praxair's competitive advantage is based on the expertise and experience of its key personnel regarding its marketing, technology, manufacturing and distribution infrastructure, systems and products. The inability to attract and hire qualified individuals or the loss of key employees in very skilled areas could have a negative effect on the company's financial results.

Technological Advances - If the company fails to keep pace with technological advances in the industry or if new technology initiatives do not become commercially accepted, customers may not continue to buy the company's products and results of operations could be adversely affected.

Praxair's research and development is directed toward developing new and improved methods for the production and distribution of industrial gases and the development of new markets and applications for the use of these gases. This results in the frequent introduction of new industrial gas applications and the development of new advanced air separation process technologies. The company also conducts research and development for its surface technologies to improve the quality and durability of coatings and the use of specialty powders for new applications and industries. As a result of these efforts, the company develops new and proprietary technologies and employs necessary measures to protect such technologies within the global geographies in which the company operates. These technologies help Praxair to create a competitive advantage and to provide a platform for the company to grow its business at greater percentages than the rate of industrial production growth in such geographies. If Praxair's research and development activities do not keep pace with competitors or if it does not create new technologies that benefit customers, future results of operations could be adversely affected.

Litigation and Governmental Investigations - The outcomes of litigation and governmental investigations may affect the company's financial results.

Praxair is subject to various lawsuits and governmental investigations arising out of the normal course of business that may result in adverse outcomes. These actions are based upon alleged environmental, tax, antitrust and personal injury claims, among others. Adverse outcomes in some or all of the claims pending may result in significant monetary damages or injunctive relief that could adversely affect its ability to conduct business. While management currently believes that resolving all of these matters, individually or in the aggregate, will not have a material adverse impact on the company's financial position or liquidity, the litigation and other claims Praxair faces are subject to inherent uncertainties and management's view of these matters may change in the future. There exists the possibility of a material adverse impact on the company's results of operations for the period in which the effect of an unfavorable final outcome becomes probable and reasonably estimable.

Tax Liabilities - Potential tax liabilities could adversely impact the company's financial position and results of operations.

Praxair is subject to income and other taxes in both the United States and numerous foreign jurisdictions. The determination of the company's worldwide provision for income taxes and other tax liabilities requires judgment and is based on diverse legislative and regulatory structures that exist in the various jurisdictions where the company operates. Although management believes its estimates are reasonable, the ultimate tax outcome may differ from the amounts recorded in its financial statements and may materially affect the company's financial results for the period when such determination is made. See Notes 5 and 17 to the consolidated financial statements of Praxair's 2012 Annual Report on Form 10-K.

Pension Liabilities - Risks related to our pension benefit plans may adversely impact our results of operations and cash flows.

Pension benefits represent significant financial obligations that will be ultimately settled in the future with employees who meet eligibility requirements. Because of the uncertainties involved in estimating the timing and amount of future

payments and asset returns, significant estimates are required to calculate pension expense and liabilities related to the company's plans. The company utilizes the services of independent actuaries, whose models are used to facilitate these calculations. Several key assumptions are used in the actuarial models to calculate pension expense and liability amounts recorded in the consolidated financial statements. In particular, significant changes in actual investment returns on pension assets, discount rates, or legislative or regulatory changes could impact future results of operations and required pension contributions. For information regarding the potential impacts regarding significant assumptions used to estimate pension expense, including discount rates and the expected long-term rates of return on plan assets. See "Critical Accounting Policies - Pension Benefits" included in

Table of Contents

“Management’s Discussion and Analysis of Financial Condition and Results of Operations” in Item 7 of Praxair’s 2012 Annual Report on Form 10-K.

Operational Risks - Operational risks may adversely impact the company’s business or results of operations.

Praxair’s operating results are dependent on the continued operation of its production facilities and its ability to meet customer contract requirements and other needs. Insufficient or excess capacity threatens the company’s ability to generate competitive profit margins and may expose the company to liabilities related to contract commitments.

Operating results are also dependent on the company’s ability to complete new construction projects on time, on budget and in accordance with performance requirements. Failure to do so may expose the business to loss of revenue, potential litigation and loss of business reputation.

Also inherent in the management of the company’s production facilities and delivery systems, including storage, vehicle transportation and pipelines, are operational risks that require continuous training, oversight and control.

Material operating failures at production, storage facilities or pipelines, including fire, toxic release and explosions, or the occurrence of vehicle transportation accidents could result in loss of life, damage to the environment, loss of production and/or extensive property damage, all of which may negatively impact the company’s financial results.

Information Technology Systems – The Company may be subject to information technology system failures, network disruptions and breaches in data security.

Praxair relies on IT systems and networks for business and operational activities, and also stores and processes sensitive business and proprietary information in these systems and networks. These systems are susceptible to outages due to fire, floods, power loss, telecommunications failures, viruses, break-ins and similar events, or breaches of security. Management has taken steps to address these risks and concerns by implementing advanced security technologies, internal controls, network and data center resiliency and recovery processes. Despite these steps, however, operational failures and breaches of security from increasingly sophisticated cyber threats could lead to the loss or disclosure of confidential information, result in regulatory actions and have a material adverse impact on Praxair's operations, reputation and financial results.

Acquisitions and Joint Ventures - The inability to effectively integrate acquisitions or collaborate joint venture partners could adversely impact the company’s financial position and results of operations.

Praxair has evaluated, and expects to continue to evaluate, a wide array of potential strategic acquisitions and joint ventures. Many of these acquisitions, if consummated, could be material to its financial condition and results of operations. In addition, the process of integrating an acquired company, business or group of assets may create unforeseen operating difficulties and expenditures. Although historically the company has been successful with its acquisition strategy and execution, the areas where the company may face risks include:

- The need to implement or remediate controls, procedures and policies appropriate for a larger public company at companies that prior to the acquisition lacked these controls, procedures and policies;
- Diversion of management time and focus from operating existing business to acquisition integration challenges;
- Cultural challenges associated with integrating employees from the acquired company into the existing organization;
- The need to integrate each company’s accounting, management information, human resource and other administrative systems to permit effective management;
- Difficulty with the assimilation of acquired operations and products;
- Failure to achieve targeted synergies; and
- Inability to retain key employees and business relationships of acquired companies.

Foreign acquisitions and joint ventures involve unique risks in addition to those mentioned above, including those related to integration of operations across different cultures and languages, currency risks and the particular economic, political and regulatory risks associated with specific countries. Also, the anticipated benefit of the company’s acquisitions may not materialize. Future acquisitions or dispositions could result in potentially dilutive issuances of equity securities, the incurrence of debt, contingent liabilities or amortization expenses, or impairments of goodwill, any of which could adversely impact the company’s financial results.

Table of Contents

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Purchases of Equity Securities- Certain information regarding purchases made by or on behalf of the company or any affiliated purchaser (as defined in Rule 10b-18(a)(3) under the Securities Exchange Act of 1934, as amended) of its common stock during the quarter ended September 30, 2013 is provided below:

| Period | Total Number of Shares Purchased (Thousands) | Average Price Paid Per Share | Total Numbers of Shares Purchased as Part of Publicly Announced Program (1) (Thousands) | Maximum Number (or approximate dollar value) of Shares that May Yet be Purchased Under the Program (2) (Millions) |
|--------------------|--|------------------------------|---|---|
| July 2013 | 221 | \$ 116.93 | 221 | \$ 621 |
| August 2013 | 550 | \$ 118.53 | 550 | \$ 556 |
| September 2013 | 204 | \$ 119.73 | 204 | \$ 532 |
| Third Quarter 2013 | 975 | \$ 118.42 | 975 | \$ 532 |

(1) On January 24, 2012, the company's board of directors approved the repurchase of an additional \$1.5 billion of its common stock (2012 program) which could take place from time to time on the open market (which could include the use of 10b5-1 trading plans) or through negotiated transactions, subject to market and business conditions. The 2012 program does not have any stated expiration date.

(2) As of September 30, 2013, the Company purchased \$968 million of its common stock pursuant to the 2012 program, leaving an additional \$532 million remaining authorized under the 2012 program.
