COLONIAL INTERMEDIATE HIGH INCOME FUND

ANNUAL REPORT

OCTOBER 31, 2002

[photo of calculator and newspaper]

President's Message

DEAR SHAREHOLDER:

The high-yield bond market was vulnerable to the same economic, accounting and management concerns that undermined confidence in the stock market during the 12-month period that ended October 31, 2002. Although high-yield bonds staged a modest comeback in the fourth quarter of 2001, a string of high-profile bankruptcies and the highest rate of bankruptcies in more than a decade cut the group's rally short. Continued uncertainty about the economy and the prospects for war in Iraq added to investor fears. As investors sought the safety of the highest quality bonds, high-yield bonds continued to lose ground and the lowest-quality high-yield bonds were the hardest hit.

We were disappointed in the returns generated by high-yield bonds during the year. However, based on their yields in comparison to US Treasury bond yields, we believe these bonds represented attractive relative values by the end of the fund's fiscal year.

The following report will provide you with detailed information about the fund's performance and the strategies used by portfolio managers Scott Richards and Greg Smalley. As always, we thank you for investing in Colonial Intermediate High Income Fund and for giving us the opportunity to help you build a strong financial future.

Sincerely,

/s/ Keith T. Banks

Keith T. Banks
President

PORTFOLIO MANAGERS' REPORT

ANOTHER CHALLENGING YEAR

Colonial Intermediate High Income Fund returned negative 10.94% at net asset value (NAV) for the fiscal year ended October 31, 2002. The fund's results were in line with its high-yield closed-end fund peers. The Lipper High Current Yield Funds (Leveraged) Category Average returned negative 10.58%.1

Edgar Filing: COLONIAL INTERMEDIATE HIGH INCOME FUND - Form N-30D

For the past year, high-yield investors have borne the brunt of continued concerns about economic weakness, the quality of reported earnings, fraudulent accounting practices and downgrades of investment-grade bonds by credit rating agencies. These factors created a volatile investment climate that sharply reduced your fund's potential earning power. Nevertheless, the fund performed in line with its peer group, despite having the majority of its assets in the credit-sensitive B-rated sector. During most of the year, B-rated issues did not perform as well as higher quality BB securities.

As a closed-end mutual fund, Colonial Intermediate High Income Fund remained fully invested and leveraged during the fiscal year. In a rising market, this strategy has had the potential to outperform open-end, high-yield mutual funds. However, in a declining market it was a drag on performance. As the price of high-yield bonds declined, we were required to repay borrowed funds in order to keep the required 3-to-1 ratio of assets versus leverage. At the end of the period, the fund's dividend yield of 11.61%, was in line with its closed-end fund peers.

FUNDAMENTAL CREDIT ANALYSIS HELPED MINIMIZE LOSSES

Maintaining a disciplined approach to fundamental credit analysis played a key role in our investment process, especially during the difficult environment faced this year. We entered the year overweight in B-rated securities and underweight in BB-rated bonds, which was consistent with our long-standing strategy. As economic recovery remained elusive in early 2002, we continued to sell lower-quality issues and replace them with higher-quality bonds. Higher-quality bonds held up better as a result of greater cash flow stability and better liquidity as investor demand for these securities remained high.

PORTFOLIO MANAGERS' REPORT (CONTINUED)

We also shifted the fund's assets out of the depressed cable sector and into more stable industries when it became apparent that this sector would generate sub-par results in 2002. Notable among our dispositions was Adelphia, whose securities we began selling aggressively upon initial indications that the company's financial position had been misrepresented. We managed to sell Adelphia securities at significantly higher values than where they were trading at the end of the period. We added higher-rated credits such as FMC, American Greetings and Yum! Brands (0.7%, 0.5% and 1.3% of net assets, respectively)² to the portfolio.

We have maintained greater exposure to less economically-sensitive, more stable industries such as healthcare and food. And we began to add to oil and gas, gaming, lodging and broadcasting holdings during the second half of the year. These industries have generally enjoyed stable cash flows that enable them to make regular income payments on the debt they owe.

2

PORTFOLIO MANAGERS' REPORT (CONTINUED)

ECONOMIC OUTLOOK IS MIXED

With no clear direction in the US economy, we believe high-yield bonds could remain volatile. Although there have been fewer negative surprises, many industries continue to struggle financially, and banks have made it more difficult to borrow money, putting additional pressure on borrowers. Until business prospects improve, we favor the higher quality tiers of the high-yield bond market. We also plan to acquire lower-rated credits opportunistically. We will continue to use our fundamental credit analysis to identify attractive issues backed by solid companies with above-average cash flow prospects.

Sincerely,

/s/ Scott B. Richards

/s/ Gregg R. Smalley

Scott B. Richards

Gregg R. Smalley

Scott B. Richards and Gregg R. Smalley are portfolio co-managers of the Colonial Intermediate High Income Fund. Mr. Richards is a senior vice president of Colonial Management Associates (Colonial). Mr. Smalley is a vice president of Colonial. Colonial is an affiliate of Columbia Management Group, Inc.

Past performance is no guarantee of future investment results.

Investing in high-yield bonds involves greater credit risk and other risks not associated with investing in higher-quality bonds. Bond investing also involves interest rate risk, which means that bond prices may change as interest rates

Edgar Filing: COLONIAL INTERMEDIATE HIGH INCOME FUND - Form N-30D

increase or decrease.

NOTES TO INVESTMENT PORTFOLIO:

-
- (a) This security is exempt from registration under Rule 144A of the Securities Act of 1933 and may be resold in transactions exempt from registration, normally to qualified institutional buyers. At October 31, 2002, the value of these securities amounted to \$7,600,618 or 13.1% of net assets.
 - (b) Zero coupon bond.
 - (c) As of October 31, 2002, the Fund held securities of certain issuers that have filed for bankruptcy protection under Chapter 11.
 - (d) This issuer is in default of certain debt covenants. Income is not being accrued.
 - (e) Stepped coupon bond. Currently accruing at zero. Shown parenthetically is the next interest rate to be paid and the date the Fund will begin accruing this rate.
 - (f) Non-income producing.
 - (g) Represents fair value as determined in good faith under the direction of the Board of Trustees.
 - (h) Rate represents yield at date of purchase.

Edgar Filing: COLONIAL INTERMEDIATE HIGH INCOME FUND - Form N-30D

- (i) Cost for generally accepted accounting principles is \$104,494,214. Cost for federal income tax purposes is \$104,191,282. The difference between cost for generally accepted accounting principles and cost on a tax basis is related to timing differences and amortization/accretion tax elections on fixed-income securities. Realized losses have been deferred for tax purposes and cost adjusted accordingly.

12

NOTES TO FINANCIAL STATEMENTS

October 31, 2002

NOTE 1. ACCOUNTING POLICIES

ORGANIZATION:

Colonial Intermediate High Income Fund (the "Fund") is a Massachusetts business trust registered under the Investment Company Act of 1940, as amended, as a diversified, closed-end management investment company. The Fund's investment goal is to seek high current income and total return by investing primarily in lower-rated corporate debt securities. The Fund is authorized to issue an unlimited number of shares.

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates. The following is a summary of significant accounting policies consistently followed by the Fund in the preparation of its financial statements.

SECURITY VALUATION AND TRANSACTIONS:

Debt securities generally are valued by a pricing service based upon market transactions for normal, institutional-size trading units of similar securities. When management deems it appropriate, an over-the-counter or exchange bid quotation is used.

Edgar Filing: COLONIAL INTERMEDIATE HIGH INCOME FUND - Form N-30D

Equity securities generally are valued at the last sale price or, in the case of unlisted or listed securities for which there were no sales during the day, at the current quoted bid price.

Forward currency contracts are valued based on the weighted value of exchange-traded contracts with similar durations.

Short-term obligations with a maturity of 60 days or less are valued at amortized cost.

Investments for which market quotations are not readily available, or quotations which management believes are not appropriate, are valued at fair value under procedures approved by the Board of Trustees.

Security transactions are accounted for on the date the securities are purchased, sold or mature.

Cost is determined and gains (losses) are based upon the specific identification method for both financial statement and federal income tax purposes.

The Fund may trade securities on other than normal settlement terms. This may increase the risk if the other party to the transaction fails to deliver and causes the Fund to subsequently invest at less advantageous prices.

STATEMENT OF CASH FLOWS:

Information on financial transactions which have been settled through the receipt or disbursement of cash is presented in the Statement of Cash Flows. The cash amount shown in the Statement of Cash Flows is the amount included in the Fund's Statement of Assets and Liabilities and represents cash on hand at its custodian bank account and does not include any short-term investments at October 31, 2002.

FEDERAL INCOME TAXES:

Consistent with the Fund's policy to qualify as a regulated investment company and to distribute all of its taxable income, no federal income tax has been accrued.

INTEREST INCOME, DEBT DISCOUNT AND PREMIUM:

Interest income is recorded on the accrual basis.

The value of additional securities received as an interest payment is recorded as income and as the cost basis of such securities. Effective November 1, 2001, the Fund adopted the provisions of the AICPA Audit and Accounting Guide for Investment Companies and began amortizing and accreting premium and discount on all debt securities. The cumulative effect of this accounting change did not impact total net assets of the Fund, but resulted in reclassifications as follows, based on securities held by the Fund on November 1, 2001:

COST	NET UNREALIZED DEPRECIATION
-----	-----
\$371,801	\$(371,801)

The effect of this change, for the year ended October 31, 2002, was as follows:

NET INVESTMENT INCOME	NET REALIZED LOSS	NET UNREALIZED DEPRECIATION
-----	-----	-----
\$319,580	\$(323,835)	\$4,255

The Statement of Changes in Net Assets and Financial Highlights for prior periods have not been restated to reflect this change.

Edgar Filing: COLONIAL INTERMEDIATE HIGH INCOME FUND - Form N-30D

DISTRIBUTIONS TO SHAREHOLDERS:

Distributions to shareholders are recorded on the ex-date.

FOREIGN CURRENCY TRANSACTIONS:

Net realized and unrealized gains (losses) on foreign currency transactions include gains (losses) arising from the fluctuation in exchange rates between trade and settlement dates on securities transactions, gains (losses) arising from the disposition of foreign currency and currency gains (losses) between the accrual and payment dates on dividends and interest income and foreign withholding taxes.

The Fund does not distinguish that portion of gains (losses) on investments which is due to changes in foreign exchange rates from that which is due to changes in market prices of the investments. Such fluctuations are included with the net realized and unrealized gains (losses) from investments.

FORWARD CURRENCY CONTRACTS:

The Fund may enter into forward currency contracts to purchase or sell foreign currencies at predetermined exchange rates in connection with the settlement of purchases and sales

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

October 31, 2002

of securities. The Fund may also enter into forward currency contracts to hedge certain other foreign currency denominated assets. The contracts are used to minimize the exposure to foreign exchange rate fluctuations during the period between trade and settlement date of the contracts. All contracts are marked-to-market daily, resulting in unrealized gains (losses) which become realized at the time the forward currency contracts are closed or mature. Realized and unrealized gains (losses) arising from such transactions are included in net realized and unrealized gains (losses) on foreign currency transactions. Forward currency contracts do not eliminate fluctuations in the prices of the Fund's portfolio securities. While the maximum potential loss from such contracts is the aggregate face value in U.S. dollars at the time the contract was opened, exposure is typically limited to the change in value of the contract (in U.S. dollars) over the period it remains open. Risks may also arise if counterparties fail to perform their obligations under the contracts.

OTHER:

Corporate actions and dividend income are recorded on the ex-date (except for certain foreign securities which are recorded as soon after ex-date as the Fund becomes aware of such), net of non-reclaimable tax withholdings. Where a high level of uncertainty as to collection exists, income on securities is recorded net of all tax withholdings with any rebates recorded when received.

The Fund's custodian takes possession through the federal book-entry system of securities collateralizing repurchase agreements. Collateral is marked-to-market daily to ensure that the market value of the underlying assets remains sufficient to protect the Fund. The Fund may experience costs and delays in liquidating the collateral if the issuer defaults or enters bankruptcy.

NOTE 2. FEDERAL TAX INFORMATION

Income and capital gain distributions are determined in accordance with income tax regulations, which may differ from generally accepted accounting principles.

Edgar Filing: COLONIAL INTERMEDIATE HIGH INCOME FUND - Form N-30D

These differences are primarily due to differing treatments for deferral of losses from wash sales, discount accretion/premium amortization on debt securities, current year distribution payable, capital loss carryforwards, non-deductible expenses and defaulted bonds. Reclassifications are made to the Fund's capital accounts to reflect income and gains available for distribution (or available capital loss carryforwards) under income tax regulations.

For the year ended October 31, 2002, permanent items identified and reclassified among the components of net assets are as follows:

OVERDISTRIBUTED NET INVESTMENT INCOME	ACCUMULATED NET REALIZED LOSS	PAID-IN CAPITAL
\$(145,888)	\$145,888	\$--

Net investment income, net realized gains (losses) and net assets were not affected by this reclassification. The tax character of distributions paid during the year was as follows:

ORDINARY INCOME	TAX RETURN OF CAPITAL
\$7,465,282	\$297,562

As of October 31, 2002, the components of distributable earnings on a tax basis were as follows:

UNREALIZED DEPRECIATION*
\$(22,688,351)

*The difference between book-basis and tax-basis unrealized depreciation is attributable primarily to the tax deferral of losses on wash sales.

The following capital loss carryforwards are available to reduce taxable income arising from future net realized gains on investments, if any, to the extent permitted by the Internal Revenue Code:

YEAR OF EXPIRATION	CAPITAL LOSS CARRYFORWARD
2003	\$ 2,102,577
2007	3,282,077
2008	10,437,671
2009	22,694,029
2010	23,203,433
	\$61,719,787

3. FEES AND COMPENSATION PAID TO AFFILIATES

MANAGEMENT FEE:

Colonial Management Associates, Inc. (the "Advisor") is the investment advisor of the Fund and furnishes accounting and other services and office facilities for a fee to be paid monthly at the annual rate of 0.65% of the average weekly net assets of the Fund.

In addition, the Fund shall pay the Advisor monthly a fee equal to 20% of the

Edgar Filing: COLONIAL INTERMEDIATE HIGH INCOME FUND - Form N-30D

Fund's monthly "leverage income" (as that term is defined in the management contract); provided, however, if the Fund's monthly leverage income is less than zero then the Advisor shall pay the Fund 20% of the Fund's monthly leverage income. For the year ended October 31, 2002, the fee paid to the Advisor under this agreement amounted to \$195,862, which represents 0.28% annually of the Fund's average daily net assets.

14

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

October 31, 2002

PRICING AND BOOKKEEPING FEES:

The Advisor is responsible for providing pricing and bookkeeping services to the Fund under a Pricing and Bookkeeping Agreement. Under a separate agreement (the "Outsourcing Agreement"), the Advisor has delegated those functions to State Street Bank and Trust Company ("State Street"). The Advisor pays fees to State Street under the Outsourcing Agreement.

Under its pricing and bookkeeping agreement with the Fund, the Advisor receives from the Fund an annual flat fee of \$10,000, paid monthly, and in any month that the Fund's average net assets are more than \$50 million, a monthly fee equal to the average net assets of the Fund for that month multiplied by a fee rate that is calculated by taking into account the fees payable to State Street under the Outsourcing Agreement. For the year ended October 31, 2002, the net asset based fee rate was 0.036%. The Fund also pays out-of-pocket costs for pricing services.

OTHER:

The Fund pays no compensation to its officers, all of whom are employees of the Advisor or its affiliates. The Fund's Independent Trustees may participate in a deferred compensation plan which may be terminated at any time. Obligations of the plan will be paid solely out of the Fund's assets.

The Fund has an agreement with its custodian bank under which \$1,123 of custody fees were reduced by balance credits for the year ended October 31, 2002. The Fund could have invested a portion of the assets utilized in connection with the expense offset arrangement in an income-producing asset if it had not entered into such an agreement.

NOTE 4. PORTFOLIO INFORMATION

INVESTMENT ACTIVITY:

For the year ended October 31, 2002, purchases and sales of investments, other than short-term obligations, were \$49,945,586 and \$53,785,870, respectively. Unrealized appreciation (depreciation) at October 31, 2002, based on cost of investments for federal income tax purposes, was:

Gross unrealized appreciation	\$ 1,721,556
Gross unrealized depreciation	(24,409,907)

Net unrealized depreciation	\$(22,688,351)

OTHER:

There are certain additional risks involved when investing in foreign securities

Edgar Filing: COLONIAL INTERMEDIATE HIGH INCOME FUND - Form N-30D

that are not inherent with investments in domestic securities. These risks may involve foreign currency exchange rate fluctuations, adverse political and economic developments and the possible prevention of currency exchange or other foreign governmental laws or restrictions.

The Fund may focus its investments in certain industries, subjecting it to greater risk than a fund that is more diversified.

NOTE 5. LOAN AGREEMENT

At October 31, 2002, the Fund had two term loans and a revolver loan outstanding with Bank of America NA, totaling \$24,500,000. These loans are comprised of a \$13,700,000 term loan which bears interest at 7.74% per annum, due June 12, 2003, a \$1,100,000 term loan which bears interest at 4.75% per annum, due June 12, 2003 and a \$9,700,000 revolver loan which bears interest at 4.37% per annum, due June 13, 2004. The average daily loan balance was \$28,763,014 at a weighted average interest rate of 6.57%. The Fund is subject to certain covenants including, but not limited to, requirements with respect to asset coverage, portfolio diversification and liquidity.

REPORT OF INDEPENDENT ACCOUNTANTS

TO THE TRUSTEES AND THE SHAREHOLDERS OF
COLONIAL INTERMEDIATE HIGH INCOME FUND

In our opinion, the accompanying statement of assets and liabilities, including the investment portfolio, and the related statements of operations, changes in net assets and cash flows and the financial highlights present fairly, in all material respects, the financial position of Colonial Intermediate High Income Fund (the "Fund") at October 31, 2002, and the results of its operations, the changes in its net assets, its cash flows and its financial highlights for the periods indicated, in conformity with accounting principles generally accepted in the United States of America. These financial statements and financial highlights (hereafter referred to as "financial statements") are the responsibility of the Fund's management; our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these financial statements in accordance with auditing standards generally accepted in the United States of America, which require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits, which included confirmation of portfolio positions

Edgar Filing: COLONIAL INTERMEDIATE HIGH INCOME FUND - Form N-30D

at October 31, 2002 by correspondence with the custodian and brokers, provide a reasonable basis for our opinion.

PricewaterhouseCoopers LLP

UNAUDITED INFORMATION

RESULTS OF ANNUAL MEETING OF SHAREHOLDERS

On May 22, 2002, the Annual Meeting of Shareholders of the Fund was held to conduct a vote for or against the approval of the following Item listed on the Fund's Proxy Statement for said Meeting. On March 1, 2002, the record date for the Meeting, the Fund had 20,723,717 shares outstanding. The votes cast were as follows:

PROPOSAL 1.

ELECTION OF TRUSTEES	FOR	WITHHELD
Richard W. Lowry	18,050,382	482,151
William E. Mayer	18,010,777	521,756
Charles R. Nelson	18,053,408	479,125

Mr. Lowry, Mr. Mayer and Mr. Nelson were elected as Trustees of the Fund. Each will serve for three years or until a successor is elected.

The Board of Trustees is divided into the following three classes, each with a term expiring in the indicated year:

2003	2004	2005
Mr. Hacker	Mr. Macera	Mr. Lowry
Ms. Kelly	Mr. Stitzel	Mr. Mayer
Mr. Neuhauser	Mr. Theobald	Mr. Nelson
Mr. Palombo	Ms. Verville	

20

DIVIDEND REINVESTMENT PLAN

The Fund generally distributes net investment income monthly and capital gains annually. Under the Fund's Dividend Reinvestment Plan (the "Plan") all distributions will be reinvested automatically in additional shares of the Fund, unless the shareholder elects to receive cash or the shares are held in broker or nominee name and a reinvestment service is not provided by the broker or nominee. All cash distributions will be mailed by check directly to the record holder by the dividend paying agent.

If the market price of the shares on the distribution payment date is equal to

Edgar Filing: COLONIAL INTERMEDIATE HIGH INCOME FUND - Form N-30D

or greater than the net asset value, Plan participants will be issued shares at the higher of net asset value or 95% of the market price. The aggregate market value of the shares may constitute income to shareholders for federal income tax purposes. However, if the market price of the shares is less than the net asset value, shares will be bought as soon as practicable (but no more than 30 days after the distribution, except as may be required to comply with federal securities laws) in the open market for the accounts of Plan participants. If, during this purchase period, the market price surpasses the net asset value, the average per share price paid may exceed the asset value of the shares, resulting in the acquisition of fewer shares than if the distribution had been in newly-issued shares.

All Plan accounts receive written confirmations of all transactions. Shares purchased under the Plan are held in uncertificated form. Each shareholder's proxy includes shares purchased pursuant to the Plan. The automatic reinvestment of distributions does not relieve participants of any income tax payable on the distributions.

Fees and expenses of the Plan other than brokerage charges will be paid by the Fund. No brokerage charges are incurred on shares issued directly by the Fund. Participants will bear a pro-rata share of brokerage charges incurred on open market purchases.

A Plan participant may terminate his or her participation by written notice to the Plan agent. The Plan may be amended or terminated on 90 days written notice to the Plan participants. All correspondence concerning the Plan should be directed to PFPC Inc., the Plan agent, by mail at P.O. Box 43027, Providence, RI 02940-3027 or by phone at 1-800-331-1710.

21

TRUSTEES
