NUVEEN INVESTMENTS ANNOUNCES STRATEGIC COMBINATION WITH FAF ADVISORS

On July 29, 2010, Nuveen Investments announced that U.S. Bancorp will receive a 9.5% stake in Nuveen Investments and cash consideration in exchange for the long-term asset business of U.S. Bancorp's FAF Advisors. Nuveen Investments is the parent of Nuveen Asset Management (NAM), the investment adviser for the Funds included in this report.

FAF Advisors, which currently manages about \$25 billion of long-term assets and serves as the advisor of the First American Funds, will be combined with NAM, which currently manages about \$75 billion in municipal fixed income assets. Upon completion of the transaction, Nuveen Investments, which currently manages about \$160 billion of assets across several high-quality affiliates, will manage a combined total of about \$185 billion in institutional and retail assets.

This combination will not affect the investment objectives, strategies or policies of the Funds in this report. Over time, Nuveen Investments expects that the combination will provide even more ways to meet the needs of investors who work with financial advisors and consultants by enhancing the multi-boutique model of Nuveen Investments, which also includes highly respected investment teams at Hyde Park, NWQ Investment Management, Santa Barbara Asset Management, Symphony Asset Management, Tradewinds Global Investors and Winslow Capital.

The transaction is expected to close late in 2010, subject to customary conditions.

Chairman's Letter to Shareholders

Dear Shareholder,

Recent months have revealed the fragility and disparity of the global economic recovery. In the U.S., the rate of economic growth has slowed as various stimulus programs wind down, exposing weakness in the underlying economy. In contrast, many emerging market countries are experiencing a return to comparatively high rates of growth. Confidence in global financial markets has been undermined by concerns about high sovereign debt levels in Europe and the U.S. Until these countries can begin credible programs to reduce their budgetary deficits, market unease and hesitation will remain. On a more encouraging note, while the global recovery is expanding existing trade imbalances, policy makers in the leading economies are making a sustained effort to create a global framework through which various countries can take complimentary actions that should reduce those imbalances over time.

The U.S. economy is subject to unusually high levels of uncertainty as it struggles to recover from a devastating financial crisis. Unemployment remains stubbornly high, due to what appears to be both cyclical and structural forces. Federal Reserve policy makers are implementing another round of quantitative easing, a novel approach to provide support to the economy. However, the high levels of debt owed both by U.S. consumers and the U.S. government limit the Fed's ability to engineer a stronger economic recovery.

The U.S. financial markets reflect the crosscurrents now impacting the U.S. economy. Today's historically low interest rates reflect the Fed's intervention in the financial markets and the demand for U.S. government debt by U.S. and overseas investors looking for a safe haven for investment. The continued corporate earnings recovery and recent electoral results are giving a boost to equity markets. Encouragingly, financial institutions are rebuilding their balance sheets and the financial reform legislation enacted last summer has the potential to address many of the most significant contributors to the financial crisis, although the details still have to be worked out.

In this difficult environment your Nuveen investment team continues to seek sustainable investment opportunities and, at the same time, remains alert for potential risks that may result from a recovery still facing many headwinds. As your representative, the Nuveen Fund Board monitors the activities of each investment team to assure that all maintain their investment disciplines. As always, I encourage you to contact your financial consultant if you have any questions about your investment in a Nuveen Fund.

On behalf of the other members of your Fund Board, we look forward to continuing to earn your trust in the months and years ahead.

Sincerely,

Robert P. Bremner Chairman of the Board December 22, 2010

Portfolio manager Cathryn Steeves discusses key investment strategies and the six-month performance of the Nuveen New Jersey and Pennsylvania Funds. Cathryn, who joined Nuveen in 1996, has managed NQJ, NNJ, NXJ, NUJ, NQP, NPY, NXM and NVY since 2006. She added portfolio management responsibility for NJV and NPN at their inceptions in 2009.

What key strategies were used to manage the Nuveen New Jersey and Pennsylvania Funds during the six-month reporting period ended October 31, 2010?

During this period, the combination of strong demand and tighter supply of new tax-exempt municipal issuance continued to create favorable conditions that helped to support municipal bond prices. One reason for the decline in new tax-exempt supply was the considerable issuance of taxable municipal debt under the Build America Bond program. These bonds, first issued in April 2009, offer municipal issuers a federal subsidy equal to 35% of a security's interest payments, providing issuers with an alternative to traditional tax-exempt debt. For the six months ended October 31, 2010, taxable Build America Bond issuance totaled \$51.4 billion, representing approximately 24% of new bonds in the municipal marketplace nationwide. In New Jersey and Pennsylvania during this period, Build America Bonds accounted for 27% and 15% of municipal supply, respectively, meaningfully impacting tax-exempt supply in both states. This was especially true in New Jersey, where total municipal issuance was already lower than in Pennsylvania. Since interest payments from Build America Bonds represent taxable income, we do not view these bonds as good investment opportunities for these Funds.

Certain statements in this report are forward-looking statements. Discussions of specific investments are for illustration only and are not intended as recommendations of individual investments. The forward-looking statements and other views expressed herein are those of the portfolio manager as of the date of this report. Actual future results or occurrences may differ significantly from those anticipated in any forward-looking statements, and the views expressed herein are subject to change at any time, due to numerous market and other factors. The Funds disclaim any obligation to update publicly or revise any forward-looking statements or views expressed herein.

Any reference to credit ratings for portfolio holdings denotes the highest rating assigned by a Nationally Recognized Statistical Rating Organization (NRSRO) such as Standard & Poor's, Moody's or Fitch. AAA, AA, A, and BBB ratings are investment grade; BB, B, CCC, CC, C and D ratings are below investment grade. Holdings and ratings may change over time.

In this environment of constrained issuance of tax-exempt municipal bonds, we continued to take a bottom-up approach to discovering undervalued sectors and individual credits with the potential to perform well over the long term. During this period, the New Jersey Funds found value in several areas, including the higher education, utilities, transportation and tobacco sectors. In the Pennsylvania Funds, our purchases included health care, higher education and port authority bonds. For the most part, all of the Funds focused on bonds with coupons of at least 5% and maturities between 20 and 30 years.

Some of our investment activity resulted from opportunities created by the provisions of the Build America Bond program. For example, tax-exempt supply was more plentiful in the health care and higher education sectors because, as 501(c)(3) (nonprofit) organizations, hospitals and private universities generally do not qualify for the Build America Bond program and must continue to issue bonds in the tax-exempt municipal market. Bonds with proceeds earmarked for refundings, working capital and private activities also are not covered by the Build America Bond program, and this resulted in attractive opportunities in various other sectors of the market.

The impact of the Build America Bond program also was evident in the area of longer-term issuance, as municipal issuers sought to take full advantage of the attractive financing terms offered by these bonds. Approximately 70% of Build America Bonds were issued with maturities of at least 30 years. Even though this significantly reduced the availability of tax-exempt credits with longer maturities, we continued to find good opportunities to purchase attractive longer-term bonds for these Funds.

Cash for new purchases during this period was generated primarily by the proceeds from called and maturing bonds, which we worked to redeploy to keep the Funds fully invested. NQJ, NNJ, NUJ, NQP and NVY also sold a small number of bonds with shorter maturities in order to fund additional purchases. Selling was relatively minimal, as the bonds in our portfolios generally offered higher yields than those available in the current marketplace.

As of October 31, 2010, all ten of these Funds continued to use inverse floating rate securities. We employ inverse floaters as a form of leverage for a variety of reasons, including duration management, income enhancement and total return enhancement.

An inverse floating rate security, also known as an inverse floater, is a financial instrument designed to pay long-term tax-exempt interest at a rate that varies inversely with a short-term tax-exempt interest rate index. For the Nuveen Funds, the index typically used is the Securities Industry and Financial Markets (SIFMA) Municipal Swap Index (previously referred to as the Bond Market Association Index or BMA). Inverse floaters, including those inverse floating rate securities in which the Funds invested during this reporting period, are further defined within the Notes to Financial Statements and Glossary of Terms Used in this Report sections of this report.

How did the Funds perform?

Individual results for the Nuveen New Jersey and Pennsylvania Funds, as well as relevant index and peer group information, are presented in the accompanying table.

Average Annual Total Returns on Common Share Net Asset Value* For periods ended 10/31/10

| Fund | 6-Month | 1-Year | 5-Year | 10-Year |
|--|---------|--------|--------|---------|

| - | | | | |
| Lipper Other States Municipal Debt Funds Average5 | 5.27% | 10.55% | 5.06% | 6.33% |

For the six months ended October 31, 2010, the cumulative returns on common share net asset value (NAV) for all ten of the Nuveen New Jersey and Pennsylvania Funds exceeded the returns for their respective S&P New Jersey and Pennsylvania Municipal Bond Indexes and the S&P National Municipal Bond Index. For the same period, NQJ, NQP, NPY, NXM and NVY outperformed the average return for the Lipper Other States Municipal Debt Funds Average, NUJ and NJV performed in line with this average, and NNJ, NXJ and NPN trailed the Lipper average by a small margin.

Key management factors that influenced the Funds' returns during this period included duration and yield curve positioning, credit exposure and sector allocation. In addition, the use of leverage was an important positive factor affecting the performances of NQJ, NNJ, NXJ, NUJ, NQP, NPY, NXM and NVY. The two newer Funds—NJV and NPN—do not use structural leverage, and this impacted their performance during this period. Leverage is discussed in more detail on page six.

Edgar Filing: NUVEEN PENNSYLVANIA INVESTMENT QUALITY MUNICIPAL FUND INC - Form N-CSRS

During this period, municipal bonds with longer maturities generally outperformed those with shorter maturities, with bonds at the longest end of the municipal yield curve posting the strongest returns. The outperformance of longer term bonds was due in part to the decline in interest rates, particularly in the longer end of the curve. The scarcity of

- * Six-month returns are cumulative; all other returns are annualized.
 - Past performance is not predictive of future results. Current performance may be higher or lower than the data shown. Returns do not reflect the deduction of taxes that shareholders may have to pay on Fund distributions or upon the sale of Fund shares.
 - For additional information, see the individual Performance Overview for your Fund in this report.
- 2 Unlike the other eight Funds in this report, NJV and NPN do not use structural leverage.
- The Standard & Poor's (S&P) Municipal Bond Indexes for New Jersey and Pennsylvania are unleveraged, market value-weighted indexes designed to measure the performance of the tax-exempt, investment-grade municipal bond markets in New Jersey and Pennsylvania, respectively. These indexes do not reflect any initial or ongoing expenses and are not available for direct investment.
- 4 The Standard & Poor's (S&P) National Municipal Bond Index is an unleveraged, market value-weighted index designed to measure the performance of the tax-exempt, investment-grade U.S. municipal bond market. This index does not reflect any initial or ongoing expenses and is not available for direct investment.
- The Lipper Other States Municipal Debt Funds Average is calculated using the returns of all leveraged and unleveraged closed-end funds in this category for each period as follows: 6-month, 46 funds; 1-year, 46 funds; 5-year, 46 funds; and 10-year, 20 funds. Lipper returns account for the effects of management fees and assume reinvestment of dividends, but do not reflect any applicable sales charges. The Lipper average is not available for direct investment. Shareholders should note that the performance of the Lipper Other States category represents the overall average of returns for funds from 10 different states with a wide variety of municipal market conditions, making direct comparisons less meaningful.

tax-exempt bonds with longer maturities also drove up the prices of these bonds. Overall, yield curve positioning and duration proved positive for the performance of these Funds. All ten of the Funds benefited from their relative underexposure to the underperforming shorter part of the yield curve and overweightings in bonds with intermediate maturities, which performed well. In addition, due in part to differences in tax-exempt supply between the two states, the Pennsylvania Funds tended to have more exposure to bonds at the longer end of the yield curve than the New Jersey Funds, which further enhanced the performance of the Pennsylvania Funds. Among the eight older Funds, NPY had the longest duration, while NNJ had the shortest. Both NJV and NPN had the longer durations typical of newer Funds. Although this resulted a strong positive contribution to the performance of NJV and—to a lesser degree—NPN, the impact of this contribution was not as great in these two Funds as in the other eight because NJV and NPN do not use structural leverage.

Credit exposure also played a role in the performance of these Funds. Demand for municipal bonds increased during this period driven by a variety of factors, including concerns about potential tax increases, the need to rebalance portfolio allocations and a growing appetite for additional risk. At the same time, the supply of new tax-exempt municipal paper declined, due largely to the Build America Bond program. As investors bid up municipal bond prices, bonds rated A, BBB or below, and non-rated bonds generally outperformed those rated AAA and AA. All of these Funds were overweighted in lower-rated and non-rated bonds and underweighted in bonds rated AAA and AA, which benefited their performance for this period.

Holdings that positively contributed to the Funds' returns during this period included health care and industrial development revenue bonds. Revenue bonds as a whole performed well, with transportation, special tax, leasing, electric utilities and education among the other sectors that outperformed the general municipal market. Zero coupon bonds also were among the strongest performers. In general, all of these Funds were overweighted in the health care and education sectors relative to the overall municipal market, which tended to be positive for their performances. In the Pennsylvania Funds, this was offset to a slight degree by an underweighting of the utilities sector.

In contrast, pre-refunded bonds, which are often backed by U.S. Treasury securities, continued to perform poorly during this period. While these securities continued to provide attractive tax-free income, the underperformance of these bonds can be attributed primarily to the price declines associated with their shorter effective maturities and higher credit quality. All eight of the older Funds were overweighted in pre-refunded bonds, with NQP and NNJ having the largest allocations as of October 31, 2010. As relatively new Funds, NJV and NPN did not hold any pre-refunded bonds. General obligation (GO) and other tax-supported bonds also struggled to keep pace with the municipal market return for the six-month reporting period. All of these Funds tended to be underweighted in tax-supported bonds, which lessened the impact of these holdings. Among the revenue sectors, resource recovery trailed the overall municipal market by the widest margin, and water and sewer bonds also turned in a relatively weaker performance.

IMPACT OF THE FUNDS' LEVERAGE STRATEGIES ON PERFORMANCE

One important factor impacting the returns of most of these Funds (excluding NJV and NPN) relative to the comparative indexes was the Funds' use of financial leverage. The Funds use leverage because their managers believe that, over time, leveraging provides opportunities for additional income and total return for common shareholders. However, use of leverage also can expose common shareholders to additional volatility. For example, as the prices of securities held by a Fund decline, the negative impact of these valuation changes on common share net asset value and common shareholder total return is magnified by the use of leverage. Conversely, leverage may enhance common share returns during periods when the prices of securities held by a Fund generally are rising. Leverage made a positive contribution to the performance of these Funds over this reporting period.

RECENT DEVELOPMENTS REGARDING THE FUNDS' LEVERAGED CAPITAL STRUCTURE

Shortly after their inceptions, each of the Funds (except NJV and NPN) issued auction rate preferred shares (ARPS) to create financial leverage. As noted in past shareholder reports, the ARPS issued by many closed-end funds, including these Funds, have been hampered by a lack of liquidity since February 2008. Since that time, more ARPS have been submitted for sale in each of their regularly scheduled auctions than there have been offers to buy. In fact, offers to buy have been almost completely non-existent since late February 2008. This means that these auctions have "failed to clear," and that many, or all, of the ARPS shareholders who wanted to sell their shares in these auctions were unable to do so. This lack of liquidity in ARPS did not lower the credit quality of these shares, and ARPS shareholders unable to sell their shares continued to receive distributions at the "maximum rate" applicable to failed auctions, as calculated in accordance with the pre-established terms of the ARPS. In the recent market, with short-term rates at multigenerational lows, those maximum rates also have been low.

One continuing implication for common shareholders from the auction failures is that each Fund's cost of leverage likely has been incrementally higher at times than it otherwise might have been had the auctions continued to be successful. As a result, each Fund's common share earnings likely have been incrementally lower at times than they otherwise might have been.

As noted in past shareholder reports, the Nuveen funds' Board of Directors/Trustees authorized several methods that can be used separately or in combination to refinance a portion of the Nuveen funds' outstanding ARPS. Some funds have utilized tender option bonds (TOBs), also known as inverse floating rate securities, for leverage purposes. The amount of TOBs that a fund may use varies according to the composition of each fund's portfolio. Some funds have a greater ability to use TOBs than others. Some funds have issued Variable Rate Demand Preferred (VRDP) Shares, a floating rate form of preferred stock. Some funds have issued MuniFund Term Preferred (MTP) Shares, a fixed rate form of preferred stock with a mandatory redemption period of five years.

While all these efforts have reduced the total amount of outstanding ARPS issued by the Nuveen funds, the funds cannot provide any assurance on when the remaining outstanding ARPS might be redeemed.

During 2010, and as of the time this report was prepared, 36 Nuveen leveraged closed-end funds, (including NXJ), received a demand letter from a law firm on behalf of purported holders of common shares of each such fund, alleging that Nuveen and the funds' officers and Board of Directors/ Trustees breached their fiduciary duties related to the redemption at par of the funds' ARPS. In response, the Board established an ad hoc Demand Committee consisting of certain of its disinterested and independent Board members to investigate the claims. The Demand Committee retained independent counsel to assist it in conducting an extensive investigation. Based upon its investigation, the Demand Committee found that it was not in the best interests of each fund or its shareholders to take the actions suggested in the demand letters, and recommended that the full Board reject the demands made in the demand letters. After reviewing the findings and recommendation of the Demand Committee, the full Board of each fund unanimously adopted the Demand Committee's recommendation.

Subsequently, 26 of the funds that received demand letters (including NXJ), were named as nominal defendants in a putative shareholder derivative action complaint captioned Safier and Smith v. Nuveen Asset Management, et al. that was filed in the Circuit Court of Cook County, Illinois, Chancery Division (the "Cook County Chancery Court") on July 27, 2010. Three additional funds were named as nominal defendants in a similar complaint captioned Curbow v. Nuveen Asset Management, et al. filed in the Cook County Chancery Court on August 12, 2010, and three additional funds were named as nominal defendants in a similar complaint captioned Beidler v. Nuveen Asset Management, et al. filed in the Cook County Chancery Court on September 21, 2010 (collectively, the "Complaints"). The Complaints, filed on behalf of purported holders of each fund's common shares, also name Nuveen Asset Management as a defendant, together with current and former Officers and interested Director/Trustees of each of the funds (together with the nominal defendants, collectively, the "Defendants"). The Complaints contain the same basic allegations contained in the demand letters. The suits seek a declaration that the Defendants have breached their fiduciary duties, an order directing the Defendants not to redeem any ARPS at their liquidation value using fund assets, indeterminate monetary damages in favor of the funds and an award of plaintiffs' costs and disbursements in pursuing the action. Nuveen Asset Management believes that the Complaints are without merit, and intends to defend vigorously against these charges.

As of October 31, 2010, the amount of ARPS redeemed by the Funds are as shown in the accompanying table.

| | Auction Rate Preferred Shares | % of Original Auction Rate |
|------|----------------------------------|----------------------------|
| Fund | Redeemed | Preferred Shares |
| NQJ | \$ 162,000,000 | 100.0% |
| NNJ | \$ 91,600,000 | 100.0% |
| NXJ | \$ 4,075,000 | 8.5% |
| NUJ | \$ 34,500,000 | 100.0% |
| NQP | \$ 132,000,000 | 100.0% |
| NPY | \$ 118,100,000 | 100.0% |
| NXM | \$ 25,000,000 | 100.0% |
| NVY | \$ 28,500,000* | 100.0% |

^{*} Included ARPS noticed for redemption on October 29, 2010.

MTP

During the current reporting period, NUJ completed the issuance of \$35.1 million of 2.00% Series 2015 MTP, NXM completed the issuance of \$23.2 million of 2.10% Series 2015 MTP and NVY completed the issuance of \$23.7 million of 2.15% Series 2015 MTP. The net proceeds from these offerings were used to refinance all or a portion of each Fund's outstanding ARPS at par. The newly-issued MTP shares trade on the New York Stock Exchange under the symbols "NUJ Pr C," "NXM Pr C," and "NVY Pr C," respectively. MTP is a fixed-rate form of preferred stock with a mandatory redemption period, in this case, of five years. By issuing MTP, the Funds seek to take advantage of the current historically low interest rate environment to lock in an attractive federally tax-exempt cost of leverage for a period as long as the term of the MTP. The Funds' managers believe that issuing MTP may help each Fund mitigate the risk of a significant increase in its cost of leverage should short term interest rates rise sharply in the coming years.

Subsequent to the reporting period, NVY completed the issuance of an additional \$850,000 of 2.15%, Series 2015 MTP. The net proceeds from this offering were used to refinance the Fund's ARPS noticed for redemption at par on October 29, 2010.

VRDP

During the current reporting period, NQJ, NNJ, NQP, and NPY issued \$144.3, \$88.6, \$112.5, and \$100.0 million, respectively, of VRDP to redeem at par its remaining outstanding ARPS. As noted previously, VRDP is a newly-developed instrument that essentially replaces all or a portion of the ARPS used as leverage and potentially could be used to refinance all or a portion of the ARPS of other funds. VRDP shares include a liquidity feature that allows holders of VRDP to have their shares purchased by a liquidity provider in the event that sell orders have not been matched with purchase orders and successfully settled in a remarketing. VRDP is offered only to qualified institutional buyers, defined pursuant to Rule 144A under the Securities Act of 1933. VRDPs offer interest rates that are reset frequently on a regular schedule and generally reflect current short-term municipal market interest rates.

Refer to Notes to Financial Statements, Footnote 1 – General Information and Significant Accounting Policies and Footnote 4 – Fund Shares for further details on MTP and VRDP Shares.

As of October 31, 2010, 83 out of the 84 Nuveen closed-end municipal funds that had issued ARPS have redeemed at par all or a portion of these shares. These redemptions bring the total amount of Nuveen's municipal closed-end funds' ARPS redemptions to approximately \$5.7 billion of the approximately \$11.0 billion outstanding.

For up-to-date information, please visit the Nuveen CEF Auction Rate Preferred Resource Center at: http://www.nuveen.com/arps.

Common Share Dividend and Share Price Information

During the six-month reporting period ended October 31, 2010, NQJ, NNJ, NXJ, NUJ, NQP, NPY, NXM and NVY each had one monthly dividend increase. The monthly dividend of NJV remained stable throughout the period, while NPN's dividend was reduced effective September 2010.

All of the Funds in this report seek to pay stable dividends at rates that reflect each Fund's past results and projected future performance. During certain periods, each Fund may pay dividends at a rate that may be more or less than the amount of net investment income actually earned by the Fund during the period. If a Fund has cumulatively earned more than it has paid in dividends, it holds the excess in reserve as undistributed net investment income (UNII) as part of the Fund's NAV. Conversely, if a Fund has cumulatively paid dividends in excess of its earnings, the excess constitutes negative UNII that is likewise reflected in the Fund's NAV. Each Fund will, over time, pay all of its net investment income as dividends to shareholders. As of October 31, 2010, NQJ, NNJ, NXJ, NUJ, NJV, NQP, NPY, NXM and NVY had positive UNII balances, based upon our best estimates, for tax purposes and positive UNII balance for financial reporting purposes.

COMMON SHARE REPURCHASES AND SHARE PRICE INFORMATION

As of October 31, 2010, and since the inception of the Funds' repurchase program, the following Funds have cumulatively repurchased and retired common shares as shown in the accompanying table. Since the inception of the Funds' repurchase program, NJV, NVY and NPN have not repurchased any of their outstanding common shares.

| | Common Shares | |
|------|-----------------|------------------|
| | Repurchased and | % of Outstanding |
| Fund | Retired | Common Shares |
| NQJ | 30,600 | 0.1% |
| NNJ | 12,900 | 0.1% |
| NXJ | 7,200 | 0.1% |
| NUJ | 2,800 | 0.1% |
| NQP | 220,600 | 1.4% |
| NPY | 231,200 | 1.5% |
| NXM | 10,600 | 0.3% |

The Funds did not repurchase and retire any of their outstanding common shares during the six-month reporting period.

Edgar Filing: NUVEEN PENNSYLVANIA INVESTMENT QUALITY MUNICIPAL FUND INC - Form N-CSRS

As of October 31, 2010, the Funds' common share prices were trading at (+) premiums or (-) discounts to their common share NAVs as shown in the accompanying table.

| | 10/31/10 | 6-Month Average |
|------|--------------------------|--------------------------|
| Fund | (+) Premium/(-) Discount | (+) Premium/(-) Discount |
| NQJ | -0.54% | -3.57% |

Refer to the Glossary of Terms used in this Report for further definition of the terms used within this Fund's Performance Overview page.

- Taxable-Equivalent Yield represents the yield that must be earned on a fully taxable investment in order to equal the yield of the Fund on an after-tax basis. It is based on a combined federal and state income tax rate of 32.6%. When comparing this Fund to investments that generate qualified dividend income, the Taxable-Equivalent Yield is lower.
- Ratings shown are the highest of Standard & Poor's Group, Moody's Investor Service, Inc. or Fitch, Inc. AAA includes bonds with an implied AAA rating since they are backed by U.S. Government or agency securities. AAA, AA, A and BBB ratings are investment grade; BB, B, CCC, CC, C and D ratings are below-investment grade. Holdings designated N/R are not rated by any of these national rating agencies.
- 3 Holdings are subject to change.

| 18,915 | Total Water and Sewer | 19,650,029 |
|---------------|---|----------------|
| \$ 452,443 | Total Investments (cost \$422,497,397) – 142.6% | 431,316,598 |
| | Variable Rate Demand Preferred Shares, at | (144,300,000) |
| | Liquidation Value – (47.7)% (6) | |
| | Other Assets Less Liabilities – 5.1% | 15,458,905 |
| | Net Assets Applicable to Common Shares – 100% | \$ 302,475,503 |

- (1) All percentages shown in the Portfolio of Investments are based on net assets applicable to Common shares unless otherwise noted.
- (2) Optional Call Provisions: Dates (month and year) and prices of the earliest optional call or redemption.

 There may be other call provisions at varying prices at later dates. Certain mortgage-backed securities may be subject to periodic principal paydowns.
- (3) Ratings: Using the highest of Standard & Poor's Group ("Standard & Poor's"), Moody's Investor Service, Inc. ("Moody's") or Fitch, Inc. ("Fitch") rating. Ratings below BBB by Standard & Poor's, Baa by Moody's or BBB by Fitch are considered to be below investment grade. Holdings designated N/R are not rated by any of these national rating agencies.
- (4) Investment, or portion of investment, has been pledged to collateralize the net payment obligations for inverse floating rate transactions.
- (5) Backed by an escrow or trust containing sufficient U.S. Government or U.S. Government agency securities, which ensure the timely payment of principal and interest. Such investments are normally considered to be equivalent to AAA rated securities.
- (6) Variable Rate Demand Preferred Shares, at Liquidation Value as a percentage of Total Investments is 33.5%.
- N/R Not rated.
- WI/DD Purchased on a when-issued or delayed delivery basis.
- (ETM) Escrowed to maturity.
- (IF) Inverse floating rate investment.

Net Assets Applicable to Common Shares – 100%

\$ 25,406,026

- (1) All percentages shown in the Portfolio of Investments are based on net assets applicable to Common shares unless otherwise noted.
- (2) Optional Call Provisions: Dates (month and year) and prices of the earliest optional call or redemption. There may be other call provisions at varying prices at later dates. Certain mortgage-backed securities may be subject to periodic principal paydowns.
- Ratings: Using the highest of Standard & Poor's Group ("Standard & Poor's"), Moody's Investor Service, Inc. ("Moody's") or Fitch, Inc. ("Fitch") rating. Ratings below BBB by Standard & Poor's, Baa by Moody's or BBB by Fitch are considered to be below investment grade. Holdings designated N/R are not rated by any of these national rating agencies.
- N/R Not rated.
- (UB) Underlying bond of an inverse floating rate trust reflected as a financing transaction. See Notes to Financial Statements, Footnote 1 General Information and Significant Accounting Policies, Inverse Floating Rate Securities for more information.

See accompanying notes to financial statements.

| | Other Assets Less Liabilities – 3.6% | | | 1,833,472 |
| | Net Assets Applicable to Common Shares – 100% | | \$ | 50,433,364 |

- (1) All percentages shown in the Portfolio of Investments are based on net assets applicable to Common shares unless otherwise noted.
- Optional Call Provisions: Dates (month and year) and prices of the earliest optional call or redemption.

 There may be other call provisions at varying prices at later dates. Certain mortgage-backed securities may be subject to periodic principal paydowns.
- (3) Ratings: Using the highest of Standard & Poor's Group ("Standard & Poor's"), Moody's Investor Service, Inc. ("Moody's") or Fitch, Inc. ("Fitch") rating. Ratings below BBB by Standard & Poor's, Baa by Moody's or BBB by Fitch are considered to be below investment grade. Holdings designated N/R are not rated by any of these national rating agencies.
- (4) Backed by an escrow or trust containing sufficient U.S. Government or U.S. Government agency securities, which ensure the timely payment of principal and interest. Such investments are normally considered to be equivalent to AAA rated securities.
- (5) MuniFund Term Preferred Shares, at Liquidation Value as a percentage of Total Investments is 31.8%.
- N/R Not rated.
- (ETM) Escrowed to maturity.
- (UB) Underlying bond of an inverse floating rate trust reflected as a financing transaction. See Notes to Financial Statements, Footnote 1 General Information and Significant Accounting Policies, Inverse Floating Rate Securities for more information.

See accompanying notes to financial statements.

Notes to Financial Statements (Unaudited)

1. General Information and Significant Accounting Policies

The state funds covered in this report and their corresponding Common share stock exchange symbols are Nuveen New Jersey Investment Quality Municipal Fund, Inc. (NQJ), Nuveen New Jersey Premium Income Municipal Fund, Inc. (NNJ), Nuveen New Jersey Dividend Advantage Municipal Fund (NXJ), Nuveen New Jersey Dividend Advantage Municipal Fund 2 (NUJ), Nuveen New Jersey Municipal Value Fund (NJV), Nuveen Pennsylvania Investment Quality Municipal Fund (NQP), Nuveen Pennsylvania Premium Income Municipal Fund 2 (NPY), Nuveen Pennsylvania Dividend Advantage Municipal Fund (NXM), Nuveen Pennsylvania Dividend Advantage Municipal Fund (NPN) (collectively, the "Funds"). Common shares of New Jersey Investment Quality (NQJ), New Jersey Premium Income (NNJ), Pennsylvania Investment Quality (NQP) and Pennsylvania Premium Income 2 (NPY), are traded on the New York Stock Exchange ("NYSE") while Common shares of New Jersey Dividend Advantage (NXJ), New Jersey Dividend Advantage 2 (NUJ), New Jersey Municipal Value (NJV), Pennsylvania Dividend Advantage (NXM), Pennsylvania Dividend Advantage 2 (NVY) and Pennsylvania Municipal Value (NPN) are traded on the NYSE Amex. The Funds are registered under the Investment Company Act of 1940, as amended, as closed-end registered investment companies.

Each Fund seeks to provide current income exempt from both regular federal and designated state income taxes by investing primarily in a portfolio of municipal obligations issued by state and local government authorities within a single state or certain U.S. territories.

The following is a summary of significant accounting policies followed by the Funds in the preparation of their financial statements in accordance with U.S. generally accepted accounting principles ("U.S. GAAP").

Investment Valuation

Prices of municipal bonds are provided by a pricing service approved by the Funds' Board of Directors/Trustees. These securities are generally classified as Level 2. When price quotes are not readily available (which is usually the case for municipal bonds) the pricing service establishes a security's fair value using methods that may include consideration of the following: yields or prices of investments of comparable quality, type of issue, coupon, maturity and rating, market quotes or indications of value from security dealers, evaluations of anticipated cash flows or collateral, general market conditions and other information and analysis, including the obligor's credit characteristics considered relevant. In pricing certain securities, particularly less liquid and lower quality securities, the pricing service may consider information about a security, its issuer, or market activity, provided by Nuveen Asset Management (the "Adviser"), a wholly-owned subsidiary of Nuveen Investments, Inc. ("Nuveen"). These securities are generally classified as Level 2 or Level 3 depending on the priority of the significant inputs.

Temporary investments in securities that have variable rate and demand features qualifying them as short-term investments are valued at amortized cost, which approximates market value. These securities are generally classified as Level 1 or Level 2, which is usually the case for municipal bonds.

Certain securities may not be able to be priced by the pre-established pricing methods as described above. Such securities may be valued by the Funds' Board of Directors/Trustees or its designee at fair value. These securities generally include, but are not limited to, restricted securities (securities which may not be publicly sold without registration under the Securities Act of 1933, as amended) for which a pricing service is unable to provide a market price; securities whose trading has been formally suspended; debt securities that have gone into default and for which there is no current market quotation; a security whose market price is not available from a pre-established pricing source; a security with respect to which an event has occurred that is likely to materially affect the value of the security after the market has closed but before the calculation of a Fund's net asset value (as may be the case in

non-U.S. markets on which the security is primarily traded) or make it difficult or impossible to obtain a reliable market quotation; and a security whose price, as provided by the pricing service, is not deemed to reflect the security's fair value. As a general principle, the fair value of a security would appear to be the amount that the owner might reasonably expect to receive for it in a current sale. A variety of factors may be considered in determining the fair value of such securities, which may include consideration of the following: yields or prices of investments of comparable quality, type of issue, coupon, maturity and rating, market quotes or indications of value from security dealers, evaluations of anticipated cash flows or collateral, general market conditions and other information and analysis, including the obligor's credit characteristics considered relevant. These securities are generally classified as Level 2 or Level 3 depending on the priority of the significant inputs. Regardless of the method employed to value a particular security, all valuations are subject to review by the Funds' Board of Directors/Trustees or its designee.

Refer to Footnote 2 – Fair Value Measurements for further details on the leveling of securities held by the Funds as of the end of the reporting period.

Notes to

Financial Statements (Unaudited) (continued)

Investment Transactions

Investment transactions are recorded on a trade date basis. Realized gains and losses from transactions are determined on the specific identification method. Investments purchased on a when-issued/delayed delivery basis may have extended settlement periods. Any investments so purchased are subject to market fluctuation during this period. The Funds have instructed the custodian to segregate assets with a current value at least equal to the amount of the when-issued/delayed delivery purchase commitments. At October 31, 2010, New Jersey Investment Quality (NQJ), New Jersey Premium Income (NNJ), New Jersey Dividend Advantage (NXJ) and New Jersey Dividend Advantage 2 (NUJ) had outstanding when-issued/delayed delivery purchase commitments of \$1,080,000, \$420,000, \$320,000 and \$220,000, respectively. There were no such outstanding purchase commitments in any of the other Funds.

Investment Income

Interest income, which reflects the amortization of premiums and includes accretion of discounts for financial reporting purposes, is recorded on an accrual basis. Investment income also reflects paydown gains and losses, if any.

Income Taxes

Each Fund is a separate taxpayer for federal income tax purposes. Each Fund intends to distribute substantially all of its net investment income and net capital gains to shareholders and to otherwise comply with the requirements of Subchapter M of the Internal Revenue Code applicable to regulated investment companies. Therefore, no federal income tax provision is required. Furthermore, each Fund intends to satisfy conditions that will enable interest from municipal securities, which is exempt from regular federal and designated state income taxes, to retain such tax-exempt status when distributed to shareholders of the Funds. Net realized capital gains and ordinary income distributions paid by the Funds are subject to federal taxation.

For all open tax years and all major taxing jurisdictions, management of the Funds has concluded that there are no significant uncertain tax positions that would require recognition in the financial statements. Open tax years are those that are open for examination by taxing authorities (i.e., generally the last four tax year ends and the interim tax period since then). Furthermore, management of the Funds is also not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will significantly change in the next twelve months.

Dividends and Distributions to Common Shareholders

Dividends from tax-exempt net investment income are declared monthly. Net realized capital gains and/or market discount from investment transactions, if any, are distributed to shareholders at least annually. Furthermore, capital gains are distributed only to the extent they exceed available capital loss carryforwards.

Distributions to Common shareholders of tax-exempt net investment income, net realized capital gains and/or market discount, if any, are recorded on the ex-dividend date. The amount and timing of distributions are determined in accordance with federal income tax regulations, which may differ from U.S. GAAP.

Auction Rate Preferred Shares

New Jersey Municipal Value (NJV) and Pennsylvania Municipal Value (NPN) do not issue Auction Rate Preferred Shares ("ARPS"). The following Funds have issued and outstanding ARPS, \$25,000 stated value per share, which approximates market value, as a means of effecting financial leverage. Each Fund's ARPS are issued in one Series. The dividend rate paid by the Funds on each Series is determined every seven days, pursuant to a dutch auction process overseen by the auction agent, and is payable at the end of each rate period. As of October 31, 2010, the number of ARPS outstanding for each Fund is as follows:

| | New Jersey | Pennsylvania |
|-------------------|-----------------|-------------------|
| | Dividend | Dividend |
| | Advantage (NXJ) | Advantage 2 (NVY) |
| Number of shares: | | |
| Series M | | 920 |
| Series T | 1,757 | _ |
| | | |

Beginning in February 2008, more shares for sale were submitted in the regularly scheduled auctions for the ARPS issued by the Funds than there were offers to buy. This meant that these auctions "failed to clear," and that many ARPS shareholders who wanted to sell their shares in these auctions were unable to do so. ARPS shareholders unable to sell their shares received distributions at the "maximum rate" applicable to failed auctions as calculated in accordance with the pre-established terms of the ARPS. As of October 31, 2010, the aggregate amount of outstanding ARPS redeemed, including ARPS noticed for redemption, by each Fund is as follows:

| | New Jersey | New Jersey | New Jersey | New Jersey |
|-------------------|-------------------|-------------------|------------------|------------------|
| | Investment | Premium | Dividend | Dividend |
| | Quality | Income | Advantage | Advantage 2 |
| | (NQJ) | (NNJ) | (NXJ) | (NUJ) |
| ARPS redeemed, at | | | | |
| liquidation value | \$ 162,000,000 | \$ 91,600,000 | \$ 4,075,000 | \$ 34,500,000 |
| | Pennsylvania | Pennsylvania | Pennsylvania | Pennsylvania |
| | Investment | Premium | Dividend | Dividend |
| | Quality | Income 2 | Advantage | Advantage 2 |
| | (NQP) | (NPY) | (NXM) | (NVY) |
| ARPS redeemed, at | | | | |
| liquidation value | \$ 132,000,000 | \$ 118,100,000 | \$ 25,000,000 | \$ 28,500,000 |

During the fiscal year ended October 31, 2010, lawsuits pursuing claims made in a demand letter alleging that New Jersey Dividend Advantage's (NXJ) Board of Trustees breached their fiduciary duties related to the redemption at par of its ARPS had been filed on behalf of shareholders of New Jersey Dividend Advantage (NXJ), against the Adviser, the Nuveen holding company, the majority owner of the holding company, the lone interested trustee, and current and former officers of New Jersey Dividend Advantage (NXJ). Nuveen and the other named defendants believe these lawsuits to be without merit, and all named parties intend to defend themselves vigorously. New Jersey Dividend Advantage (NXJ) believes that these lawsuits will not have a material effect on it or on the Adviser's ability to serve as investment adviser to it.

MuniFund Term Preferred Shares

The following Funds have issued and outstanding MuniFund Term Preferred ("MTP") Shares, with a \$10 stated value per share. Proceeds from the issuance of MTP Shares, net of offering expenses, were used to redeem all, or a portion of, each Fund's outstanding ARPS. Each Fund's MTP Shares are issued in one Series. Dividends, which are recognized as interest expense for financial reporting purposes, will be paid monthly at a fixed annual rate, subject to adjustments in certain circumstances. The MTP Shares trade on the NYSE. As of October 31, 2010, the number of MTP Shares outstanding, fixed annual rate and NYSE "ticker" symbol for each Fund are as follows:

| | New Jersey Dividend Pennsyl | | | ylvania Dividend Pennsy | | | lvania Dividend | | |
|--------|-----------------------------|--------------|--------|-------------------------|-----------------|--------|-----------------|-----------------|--------|
| | Adva | ntage 2 (NUJ |) | Adva | Advantage (NXM) | | Advar | vantage 2 (NVY) | |
| | | Fixed | | | Fixed | | | Fixed | |
| | Shares | Annual | NYSE | Shares | Annual | NYSE | Shares | Annual | NYSE |
| | Outstanding | Rate | Ticker | Outstanding | Rate | Ticker | Outstanding | Rate | Ticker |
| Series | | | NUJ | | | NXM | | | NVY |
| 2015 | 3,505,000 | 2.00% | Pr C | 2,319,000 | 2.10% | Pr C | 2,370,000 | 2.15% | Pr C |

Each Fund is obligated to redeem its MTP Shares by the date as specified in its offering document ("Term Redemption Date"), unless earlier redeemed or repurchased by the Fund. MTP Shares are subject to optional and mandatory redemption in certain circumstances. MTP Shares will be subject to redemption at the option of each Fund ("Optional Redemption Date"), subject to a payment of premium for one year following the Optional Redemption Date ("Premium Expiration Date"), and at par thereafter. MTP Shares also will be subject to redemption, at the option of each Fund, at par in the event of certain changes in the credit rating of the MTP Shares. Each Fund may be obligated to redeem certain of the MTP Shares if the Fund fails to maintain certain asset coverage and leverage ratio requirements and such failures are not cured by the applicable cure date. The redemption price per share is equal to the sum of the liquidation value per share plus any accumulated but unpaid dividends. The Term Redemption Date, Optional Redemption Date and Premium Expiration Date for each Fund's MTP Shares are as follows:

| | New Jersey | Pennsylvania | Pennsylvania |
|--------------------------|------------------|------------------|------------------|
| | Dividend | Dividend | Dividend |
| | Advantage 2 | Advantage | Advantage 2 |
| | (NUJ) | (NXM) | (NVY) |
| | Series 2015 | Series 2015 | Series 2015 |
| | November 1, | November 1, | November 1, |
| Term Redemption Date | 2015 | 2015 | 2015 |
| | November 1, | November 1, | November 1, |
| Optional Redemption Date | 2011 | 2011 | 2011 |
| Premium Expiration Date | October 31, 2012 | October 31, 2012 | October 31, 2012 |

Notes to Financial Statements (Unaudited) (continued)

The average liquidation value of MTP Shares outstanding for each Fund during the six months ended October 31, 2010, was as follows:

| | | | | | Pennsylvania |
|---|-----|--------------------|------------------|----|--------------|
| | | New Jersey | Pennsylvania | | Dividend |
| | | Dividend | Dividend | | Advantage 2 |
| | Adv | vantage 2 (NUJ)* A | Advantage (NXM)* | * | (NVY)*** |
| Average liquidation value of MTP Shares | | | | | |
| outstanding | \$ | 34,372,581 \$ | 23,190,000 | \$ | 23,700,000 |

- * For the period October 1, 2010 (issuance date of shares) through October 31, 2010.
- ** For the period October 4, 2010 (issuance date of shares) through October 31, 2010.
- *** For the period October 27, 2010 (issuance date of shares) through October 31, 2010.

For financial reporting purposes only, the liquidation value of MTP Shares is recorded as a liability on the Statement of Assets and Liabilities. Unpaid dividends on MTP Shares are recognized as a component of "Interest payable" on the Statement of Assets and Liabilities. Dividends paid on MTP Shares are recognized as a component of "Interest expense and amortization of offering costs" on the Statement of Operations.

Net amounts earned by Nuveen as underwriter of each Fund's MTP Share offering were recorded as reductions of offering costs recognized by the Funds. During the six months ended October 31, 2010, there was no amounts earned by New Jersey Dividend Advantage (NUJ), Pennsylvania Dividend Advantage (NXM) and Pennsylvania Dividend Advantage 2 (NVY).

Variable Rate Demand Preferred Shares

The following funds have issued and outstanding Variable Rate Demand Preferred ("VRDP") Shares, with a \$100,000 liquidation value per share. New Jersey Investment Quality (NQJ), New Jersey Premium Income (NNJ), Pennsylvania Investment Quality (NQP) and Pennsylvania Premium Income 2 (NPY) issued their VRDP Shares in a privately negotiated offering in August 2010. Proceeds from each Fund's offering were used to redeem a portion of each Fund's outstanding ARPS. The VRDP Shares were offered to institutional buyers pursuant to Rule 144A under the Securities Act of 1933. As of October 31, 2010, the number of VRDP Shares outstanding and maturity date for each Fund are as follows:

| | New Jersey | New Jersey | Pennsylvania | Pennsylvania |
|--------------------|------------|------------|--------------|--------------|
| | Investment | Premium | Investment | Premium |
| | Quality | Income | Quality | Income 2 |
| | (NQJ) | (NNJ) | (NQP) | (NPY) |
| Series | 1 | 1 | 1 | 1 |
| Shares outstanding | 1,443 | 886 | 1,125 | 1,000 |
| | August 1, | August 1, | August 1, | August 1, |
| Maturity | 2040 | 2040 | 2040 | 2040 |

VRDP Shares include a liquidity feature that allows VRDP shareholders to have their shares purchased by a liquidity provider with whom each Fund has contracted in the event that purchase orders for VRDP Shares in a remarketing are not sufficient in number to be matched with the sale orders in that remarketing. Each Fund is required to redeem any VRDP Shares that are still owned by the liquidity provider after six months of continuous, unsuccessful remarketing.

Dividends on the VRDP Shares (which are treated as interest payments for financial reporting purposes) are set weekly at a rate established by a remarketing agent; therefore, the market value of the VRDP Shares is expected to approximate its liquidation value. If remarketings for VRDP Shares are continuously unsuccessful for six months, the maximum rate is designed to escalate according to a specified schedule in order to enhance the remarketing agent's ability to successfully remarket the VRDP Shares.

Subject to certain conditions, VRDP Shares may be redeemed, in whole or in part, at any time at the option of each Fund. Each Fund may also redeem certain of the VRDP Shares if the Fund fails to maintain certain asset coverage requirements and such failures are not cured by the applicable cure date. The redemption price per share is equal to the sum of the liquidation value per share plus any accumulated but unpaid dividends.

The average liquidation value outstanding and annualized dividend rate of VRDP Shares for each Fund during the six months ended October 31, 2010, were as follows:

| | New Jersey * | New Jersey * | Pennsylvania * | Pennsylvania * |
|---------------------------|--------------|--------------|----------------|----------------|
| | Investment | Premium | Investment | Premium |
| | Quality | Income | Quality | Income 2 |
| | (NQJ) | (NNJ) | (NQP) | (NPY) |
| Average liquidation value | | | | |
| outstanding | 144,300,000 | 88,600,000 | 112,500,000 | 100,000,000 |
| Annualized dividend rate | 0.53% | 0.53% | 0.53% | 0.53% |

^{*} For the period August 12, 2010 (issuance date of shares) through October 31, 2010.

For financial reporting purposes only, the liquidation value of VRDP Shares is recognized as a liability on the Statement of Assets and Liabilities. Unpaid dividends on VRDP Shares are recognized as a component of "Interest payable" on the Statement of Assets and Liabilities. Dividends paid on the VRDP Shares are recognized as a component of "Interest expense and amortization of offering costs" on the Statement of Operations. In addition

to interest expense, each Fund also pays a per annum liquidity fee to the liquidity provider, which is recognized as "Liquidity fees" on the Statement of Operations.

Inverse Floating Rate Securities

Each Fund is authorized to invest in inverse floating rate securities. An inverse floating rate security is created by depositing a municipal bond, typically with a fixed interest rate, into a special purpose trust created by a broker-dealer. In turn, this trust (a) issues floating rate certificates, in face amounts equal to some fraction of the deposited bond's par amount or market value, that typically pay short-term tax-exempt interest rates to third parties, and (b) issues to a long-term investor (such as one of the Funds) an inverse floating rate certificate (sometimes referred to as an "inverse floater") that represents all remaining or residual interest in the trust. The income received by the inverse floater holder varies inversely with the short-term rate paid to the floating rate certificates' holders, and in most circumstances the inverse floater holder bears substantially all of the underlying bond's downside investment risk and also benefits disproportionately from any potential appreciation of the underlying bond's value. The price of an inverse floating rate security will be more volatile than that of the underlying bond because the interest rate is dependent on not only the fixed coupon rate of the underlying bond but also on the short-term interest paid on the floating rate certificates, and because the inverse floating rate security essentially bears the risk of loss of the greater face value of the underlying bond.

A Fund may purchase an inverse floating rate security in a secondary market transaction without first owning the underlying bond (referred to as an "externally-deposited inverse floater"), or instead by first selling a fixed-rate bond to a broker-dealer for deposit into the special purpose trust and receiving in turn the residual interest in the trust (referred to as a "self-deposited inverse floater"). The inverse floater held by a Fund gives the Fund the right (a) to cause the holders of the floating rate certificates to tender their notes at par, and (b) to have the broker transfer the fixed-rate bond held by the trust to the Fund, thereby collapsing the trust. An investment in an externally-deposited inverse floater is identified in the Portfolio of Investments as "(IF) – Inverse floating rate investment." An investment in a self-deposited inverse floater is accounted for as a financing transaction. In such instances, a fixed-rate bond deposited into a special purpose trust is identified in the Portfolio of Investments as "(UB) – Underlying bond of an inverse floating rate trust reflected as a financing transaction," with the Fund accounting for the short-term floating rate certificates issued by the trust as "Floating rate obligations" on the Statement of Assets and Liabilities. In addition, the Fund reflects in "Investment Income" the entire earnings of the underlying bond and the related interest paid to the holders of the short-term floating rate certificates as a component of "Interest expense and amortization of offering costs" on the Statement of Operations.

During the six months ended October 31, 2010, each Fund invested in externally-deposited inverse floaters and/or self-deposited inverse floaters.

Each Fund may also enter into shortfall and forbearance agreements (sometimes referred to as a "recourse trust" or "credit recovery swap") (such agreements referred to herein as "Recourse Trusts") with a broker-dealer by which a Fund agrees to reimburse the broker-dealer, in certain circumstances, for the difference between the liquidation value of the fixed-rate bond held by the trust and the liquidation value of the floating rate certificates issued by the trust plus any shortfalls in interest cash flows. Under these agreements, a Fund's potential exposure to losses related to or on inverse floaters may increase beyond the value of a Fund's inverse floater investments as a Fund may potentially be liable to fulfill all amounts owed to holders of the floating rate certificates. At period end, any such shortfall is recognized as "Unrealized depreciation on Recourse Trusts" on the Statement of Assets and Liabilities.

At October 31, 2010, each Fund's maximum exposure to externally-deposited Recourse Trusts was as follows:

| New Jersey |
|------------|------------|------------|------------|------------|
| Investment | Premium | Dividend | Dividend | Municipal |

| | Quality (NQJ) | | Income (NNJ) | | Advantage (NXJ) | | Advantage 2 (NUJ) | | Value (NJV) |
|---------------------|-----------------------|-----|------------------|-----|-----------------------|-----|-------------------------|-----|--------------------|
| Maximum exposure to | | | | | | | | | |
| Recourse Trusts | \$ 6,385,000 | \$ | 3,725,000 | \$ | 2,010,000 | \$ | 1,380,000 | \$ | _ |
| | Pennsylvania | | Pennsylvania | | Pennsylvania | | Pennsylvania | | Pennsylvania |
| | Investment Quality | | Premium Income 2 | | Dividend Advantage | | Dividend Advantage 2 | | Municipal Value |
| Maximum exposure to | (NQP) | | (NPY) | | (NXM) | | (NVY) | | (NPN) |
| Recourse Trusts | \$ _ | -\$ | _ | -\$ | _ | -\$ | _ | -\$ | 2,250,000 |

The average floating rate obligations outstanding and average annual interest rate and fees related to self-deposited inverse floaters during the six months ended October 31, 2010, were as follows:

| | New Jersey Municipal Value (NJV) | | Pennsylvania Investment Quality (NQP) | Pennsylvania Premium Income 2 (NPY) | | Pennsylvania Dividend Advantage (NXM) | Pennsylvania Dividend Advantage 2 (NVY) |
|---|---|----|--|--|----|---------------------------------------|--|
| Average floating rate obligations outstanding | \$ 1,500,000 | \$ | 26,799,946 \$ | 12,844,783 | \$ | 1,195,788 | \$ 4,450,788 |
| Average annual interest rate and fees | 0.89% |) | 0.56% | 0.83% |) | 0.89% | 0.89% |

Notes to

Financial Statements (Unaudited) (continued)

Derivative Financial Instruments

Each Fund is authorized to invest in futures, options, swaps and other derivative instruments. Although the Funds are authorized to invest in such financial instruments, and may do so in the future, they did not make any such investments during the six months ended October 31, 2010.

Market and Counterparty Credit Risk

In the normal course of business each Fund may invest in financial instruments and enter into financial transactions where risk of potential loss exists due to changes in the market (market risk) or failure of the other party to the transaction to perform (counterparty credit risk). The potential loss could exceed the value of the financial assets recorded on the financial statements. Financial assets, which potentially expose each Fund to counterparty credit risk, consist principally of cash due from counterparties on forward, option and swap transactions, where applicable. The extent of each Fund's exposure to counterparty credit risk in respect to these financial assets approximates their carrying value as recorded on the Statement of Assets and Liabilities. Futures contracts, when applicable, expose a Fund to minimal counterparty credit risk as they are exchange traded and the exchange's clearinghouse, which is counterparty to all exchange traded futures, guarantees the futures contracts against default.

Each Fund helps manage counterparty credit risk by entering into agreements only with counterparties the Adviser believes have the financial resources to honor their obligations and by having the Adviser monitor the financial stability of the counterparties. Additionally, counterparties may be required to pledge collateral daily (based on the daily valuation of the financial asset) on behalf of each Fund with a value approximately equal to the amount of any unrealized gain above a pre-determined threshold. Reciprocally, when each Fund has an unrealized loss, the Funds have instructed the custodian to pledge assets of the Funds as collateral with a value approximately equal to the amount of the unrealized loss above a pre-determined threshold. Collateral pledges are monitored and subsequently adjusted if and when the valuations fluctuate, either up or down, by at least the predetermined threshold amount.

Zero Coupon Securities

Each Fund is authorized to invest in zero coupon securities. A zero coupon security does not pay a regular interest coupon to its holders during the life of the security. Tax-exempt income to the holder of the security comes from accretion of the difference between the original purchase price of the security at issuance and the par value of the security at maturity and is effectively paid at maturity. The market prices of zero coupon securities generally are more volatile than the market prices of securities that pay interest periodically.

Organization and Offering Costs

Nuveen Investments, LLC has agreed to reimburse all organization expenses (\$15,000 per Fund) and pay all offering costs (other than the sales load) that exceed \$.03 per share for New Jersey Municipal Value (NJV) and Pennsylvania Municipal Value (NPN). New Jersey Municipal Value's (NJV) and Pennsylvania Municipal Value's (NPN) share of offering costs (\$46,614 and \$36,024, respectively) were recorded as reductions of the proceeds from the sale of shares.

Offering Costs

Costs incurred by New Jersey Dividend Advantage 2 (NUJ), Pennsylvania Dividend Advantage (NXM) and Pennsylvania Dividend Advantage 2 (NVY) in connection with their offerings of MTP Shares (\$865,750, \$682,850 and \$690,500, respectively) were recorded as deferred charges, which will be amortized over the 5-year life of the shares. Costs incurred by New Jersey Investment Quality (NQJ), New Jersey Premium Income (NNJ), Pennsylvania Investment Quality (NQP) and Pennsylvania Premium Income 2 (NPY) in connection with their offerings of VRDP Shares (\$795,750, \$631,500, \$701,250, and \$665,000, respectively) were recorded as deferred charges which will be amortized over the 30-year life of the shares. Each Fund's amortized deferred charges are recognized as a component

of "Interest expense and amortization of offering costs" on the Statement of Operations.

Custodian Fee Credit

Each Fund has an arrangement with the custodian bank whereby certain custodian fees and expenses are reduced by net credits earned on each Fund's cash on deposit with the bank. Such deposit arrangements are an alternative to overnight investments. Credits for cash balances may be offset by charges for any days on which a Fund overdraws its account at the custodian bank.

Indemnifications

Under the Funds' organizational documents, their officers and directors/trustees are indemnified against certain liabilities arising out of the performance of their duties to the Funds. In addition, in the normal course of business, the Funds enter into contracts that provide general indemnifications to other parties. The Funds' maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Funds that have not yet occurred. However, the Funds have not had prior claims or losses pursuant to these contracts and expect the risk of loss to be remote.

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets applicable to Common shares from operations during the reporting period. Actual results may differ from those estimates.

2. Fair Value Measurements

In determining the fair value of each Fund's investments, various inputs are used. These inputs are summarized in the three broad levels listed below:

- Level 1 Quoted prices in active markets for identical securities.
- Level 2 Other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.).
- Level 3 Significant unobservable inputs (including management's assumptions in determining the fair value of investments).

The inputs or methodologies used for valuing securities are not an indication of the risk associated with investing in those securities. The following is a summary of each Fund's fair value measurements as of October 31, 2010:

| New Jersey Investment Quality (NQJ) | Level 1 | Level 2 | Level 3 | Total |
|---|---------------|--------------|---------|------------|
| Investments: | | | | |

| Investments: | | | | |
| Municipal Bonds | \$— \$ | \$18,617,849 | \$— \$1 | 8,617,849 |

3. Derivative Instruments and Hedging Activities

The Funds record derivative instruments at fair value, with changes in fair value recognized on the Statement of Operations, when applicable. Even though the Funds' investments in derivatives may represent economic hedges, they are not considered to be hedge transactions for financial reporting purposes. The Funds did not invest in derivative instruments during the six months ended October 31, 2010.
