**Item 5. Other Events and Required FD Disclosure**

On November 22, 2002, the Company filed, pursuant to Rule 415 under the Securities Act of 1933, as amended, a registration statement on Form S-3 (File No. 333-101499), including a prospectus, which, as amended, was declared effective on December 12, 2002.

On February 19, 2004, the Company entered into an underwriting agreement, pursuant to which it agreed to sell 8,695,653 shares of its common stock in an underwritten public offering. The Company also granted the underwriter an option, exercisable within 30 days of the date of the prospectus supplement, to purchase an additional 1,304,347 shares to cover over-allotments. On February 20, 2004, the Company filed a Prospectus Supplement, dated February 19, 2004, relating to the underwritten public offering of the shares.

The Company anticipates that its existing cash, investments and interest earned thereon plus the proceeds that it expects to receive from the shares of common stock that it is offering pursuant to the Prospectus Supplement, dated February 19, 2004, will be sufficient to fund the Company's operations as currently planned into the second quarter of 2005, assuming that the Company does not engage in any significant clinical trial or commercialization activities and further assuming that the Company does not enter into an agreement with a collaborative partner or engage in any other fundraising activities. However, the amounts expended by the Company may vary significantly, and it is possible that its cash requirements will exceed current projections and that the Company will therefore need additional financing sooner than currently expected.
