Item 1.01 Entry into a Material Definitive Agreement

On January 9, 2015, Cree, Inc., a North Carolina corporation (the “Company”), entered into a credit agreement (the “Credit Agreement”) with Wells Fargo Bank, National Association, as administrative agent and lender, E-conolight LLC, a domestic subsidiary of the Company, as guarantor, and the other lenders party thereto.

The Credit Agreement provides for a \$500 million revolving line of credit, under which the Company may borrow, repay and reborrow loans from time to time prior to its scheduled maturity date of January 9, 2020 (the “Maturity Date”). The obligations of the Company under the Credit Agreement are collateralized by 65% of the equity interests of the first-tier foreign subsidiaries of the Company. Proceeds of the initial loans made under the Credit Agreement were used to repay amounts outstanding under the Company’s previous credit agreement with Wells Fargo Bank, National Association, and proceeds of any additional loans may be used for working capital, capital expenditures, acquisitions and other general corporate purposes. The Company may prepay the loans under the Credit Agreement in whole or in part at any time without premium or penalty, subject to customary breakage costs. The Company’s existing and future material domestic subsidiaries are required to guarantee its obligations under the Credit Agreement.

The loans bear interest, at the Company’s option, at either a LIBOR rate for a period of one, two, three or six months as elected by the Company (or twelve months if elected by the Company and agreed by all relevant lenders) and as determined in accordance with the Credit Agreement, plus a spread of 0.80% to 1.50% (depending on a ratio of funded debt to EBITDA as determined in accordance with the Credit Agreement), or at a base rate equal to the prime rate announced by administrative agent from time to time (or, if higher either the Federal Funds Rate plus 0.50% or the one month LIBOR rate plus 1.0%), plus a spread of 0.0% to 0.50% (depending on a ratio of funded debt to EBITDA as determined in accordance with the Credit Agreement). Principal, together with all accrued and unpaid interest, is due and payable on the Maturity Date. The default rate under the Credit Agreement is an additional 2.0% per annum over the otherwise applicable rate.

The Company is also obligated to pay a quarterly fee, payable in arrears, based on the daily unused amount of the line of credit at a rate of 0.09% to 0.20%, with such rate determined based on the ratio described above.

The Credit Agreement contains customary affirmative and negative covenants, including the required compliance with financial covenants described below, as well as customary events of default. The Credit Agreement requires the Company to maintain a ratio of consolidated funded indebtedness to EBITDA equal to or less than 3.00 to 1.00, and a ratio of consolidated EBITDA to interest expense greater than or equal to 3.00 to 1.00, in each case determined in accordance with the Credit Agreement.

The foregoing description of the Credit Agreement is qualified in its entirety by reference to the Credit Agreement, a copy of which is attached as Exhibit 10.1 hereto and incorporated herein by reference.

Item 2.03 Creation of a Direct Financial Obligation or an Obligation under an Off-Balance Sheet Arrangement of a Registrant
